Bridge No. 07013 has exceeded its design life and is rated to be in critical condition. This project will replace the bridge with a new structure in accordance with current design and safety standards.

Right-of-way impacts are anticipated to construct and accommodate the new structure.

Construction is expected to start spring 2028, depending on funding, right-of-way acquisition, and permits. The estimated cost is \$4 million, with 80% federal funds and 20% state funds.
