Attend & Learn More: portal.ct.gov/DOTEastford0038-0087

The purpose of this meeting is to provide the community with an opportunity to learn about the proposed project and allow an open discussion of any views and comments concerning the proposed improvements. A Q&A session will immediately follow the presentation.

The existing bridge has exceeded its service life. The proposed replacement bridge will provide a service life of 75-years, improve hydraulic performance under storm events, and roadway safety for traveling public.

Right-of-way impacts will include easements and the rights to reconstruct driveways, and grade and install a sedimentation control system.

Construction is expected to start spring 2026, depending on funding, right-of-way acquisition, and permits. The estimated cost is \$5 million with 80% federal funds and 20% state funds.

The public can submit comments and questions during two-week public comment period following meeting. Direct comments and questions by Tuesday, August 11, 2026, to Michelle Rame at DOT-FLBP@ct.gov or 860-594-2020.
