This open house is being held to provide the community with an opportunity to learn about the proposed improvements and allow an open discussion of any views and comments with the project team.

The purpose of this project is to improve pedestrian connections across freeway ramps.

Right-of-way impacts include minor acquisitions, temporary construction easements, a defined traffic easement for traffic signal equipment, and rights to grade and construct driveways.

Construction is expected to start spring 2028, depending on funding and right-of-way acquisition. The estimated cost is \$3 million, with 80% federal funds and 20% state funds.

The public can submit comments and questions during two-week public comment period following meeting. Direct comments and questions by Tuesday, May 5, 2026, to DOTProject42-332@ct.gov, (860) 594-2020, or Katherine.Yale@ct.gov, or (860) 594-2841.
