The purpose of this meeting is to provide the community with an opportunity to learn about the proposed project and allow an open discussion of any views and comments concerning the proposed improvements. A Q&A session will immediately follow the presentation.

This project will replace an ageing structure to ensure long-term crossing of this brook, as well as improve bicycle safety along this section of Route 4.

The right-of-way impact associated with the proposed improvements involves a temporary construction easement to temporarily relocate a private driveway.

Construction is expected to start spring 2028, depending on funding, right-of-way acquisition, and permits. The estimated cost is \$3 million, with 80% federal funds and 20% state funds.

The public can submit comments and questions during two-week public comment period following meeting.
