The purpose of this meeting is to provide the community with an opportunity to learn about the proposed project and allow an open discussion of any views and comments concerning the proposed improvements. A Q&A session will immediately follow the presentation.

This project addresses the deterioration of the current bridge by designing a replacement that meets all current design standards and improves safety for all roadway users.

Anticipated right-of-way impacts will include temporary easements and partial property acquisitions.

Construction is expected to start spring 2029, depending on funding, right(s)-of-way acquisition, and permits. The estimated cost is \$3.1 million, with 80% federal funds and 20% state funds.

The public can submit comments and questions during two-week public comment period following meeting. Direct comments and questions by Thursday, October 29, 2026, to [DOT-FLBP@ct.gov](mailto:DOT-FLBP@ct.gov), 860-594-2020, or Michelle Rame at [Michelle.Rame@ct.gov](mailto:Michelle.Rame@ct.gov).
