The purpose of this meeting is to provide the community with an opportunity to learn about the proposed project and allow an open discussion of any views and comments concerning the proposed improvements. A Q&A session will immediately follow the presentation.

The purpose of this project is to build a new bridge structure that will meet all current design requirements for improved safety and hydraulic performance.

Right-of-way impacts are anticipated to include temporary impacts for removal of the existing structure, grading of slopes, and easements for the slopes based on the proposed slope limits.

Construction is expected to start in 2028, depending on funding, right-of-way acquisition, and permits. The estimated cost is \$3 million with 80% federal funds and 20% state funds.

The public can submit comments and questions during two-week public comment period following meeting. Direct comments and questions by Thursday, November 13, 2025, to [DOTProject85-148@ct.gov](mailto:DOTProject85-148@ct.gov), (860) 594-2020, or Christopher Patria at [Christopher.Patria@ct.gov](mailto:Christopher.Patria@ct.gov) or (860) 594-2958.
