The purpose of this meeting is to provide the community with an opportunity to learn about the proposed project and allow an open discussion of any views and comments concerning the proposed improvements. A Q&A session will immediately follow the presentation.

This project will replace the current bridge with a new substructure founded upon abutments and wingwalls to provide a structure in state of good repair. The roadway will also be adjusted to match current design standards and raised to provide additional vertical clearance to the railroad tracks below.

Right-of-way impacts within the project are not anticipated. Temporary access within the Naugatuck Railroad's right-of-way will be required to complete construction.

Construction is anticipated to begin fall 2028 based on the availability of funding, acquisition of rights of way, and approval of permits. The estimated construction cost for this project is approximately \$11 million. This project is anticipated to be undertaken with 80% federal funds and 20% state funds.

The public can submit comments and questions during two-week public comment period following meeting. Direct comments and questions by Thursday, June 4, 2026, to DOTProject140-180@ct.gov, (860) 594-2020, or Christopher Patria at Christopher.Patria@ct.gov or (860) 594-2958.
