The purpose of this meeting is to provide the community with an opportunity to learn about the proposed project and allow an open discussion of any views and comments concerning the proposed improvements. A Q&A session will immediately follow the presentation.

This project will address the deterioration of Bridge No. 06975 by designing a replacement structure that meets all current design standards and improves the safety of the crossing for all roadway users.

Right-of-way impacts associated with the project includes impacts on four abutting private properties, which will consist of temporary construction easements for access, grading, water handling, and an easement to install guiderail. All other construction will occur on town-owned property.

Construction is expected to start spring 2027 depending on funding, right-of-way acquisition, and permits. The estimated cost is \$2 million, with 80% federal funds and 20% state funds.

The public can submit comments and questions during the two-week public comment period following the meeting. Direct comments and questions by Monday, July 7, 2025, to [DOT-FLBP@ct.gov](mailto:DOT-FLBP@ct.gov) or (860) 594-2020, or Michelle Rame at [Michelle.Rame@ct.gov](mailto:Michelle.Rame@ct.gov).
