The purpose of this meeting is to provide the community with an opportunity to learn about the proposed project and allow an open discussion of any views and comments concerning the proposed improvements. A Q&A session will immediately follow the presentation.

The purpose of this project is to address the critical condition of the bridges by designing replacement structures that meet all current design standards and improve the safety of the crossings for all roadway users.

Right-of-way impacts are on five abutting private properties, which will consist of temporary construction easements for construction activities including access, traffic handling, water handling, excavation, removal of the existing bridges, and grading. All other impacts are on town-owned property.

Construction is anticipated to begin spring 2027 based on the availability of funding, acquisition of rights of way, and approval of permits. The estimated construction cost for this project is approximately \$3 million for Bridge No. 06976 and \$4 million for Bridge No. 06977. Funding for both projects are anticipated to be undertaken with 80% federal funds and 20% state funds.

The public can submit comments and questions during two-week public comment period following meeting. Direct comments and questions by Tuesday, August 19, 2025, to [DOT-FLBP@ct.gov](mailto:DOT-FLBP@ct.gov) or (860) 594-2020, or Michelle Rame at [Michelle.Rame@ct.gov](mailto:Michelle.Rame@ct.gov) or (860) 594-3319.
