The purpose of this meeting is to provide the community with an opportunity to learn about the proposed project and allow an open discussion of any views and comments concerning the proposed improvements. A Q&A session will immediately follow the presentation.

This replacement will improve safety for all roadway users by extending the lifespan of the bridges using the streamlined design-build method. This public meeting will focus on the addition of the Bridge No. 03133 being added to the scope.

Right-of-way impacts associated with the proposed project are expected to be minor.

Construction is expected to start in spring 2028, depending on funding, acquisition of right-of-way, and permits. The current estimated construction cost is between \$60-90 million, with 80% federal funds and 20% state funds.

The public can submit comments and questions during the two-week public comment period following meeting. Direct comments and questions by Wednesday, July 8, 2026, to CTDOT.Design.Build@ct.gov, 860-594-2020, or to Richard Prescott at Richard.Prescott@ct.gov or 860-594-2708. Please reference State Project No. 0148-0215 in the email or voicemail.
