The purpose of this meeting is to provide the community with an opportunity to learn about the proposed project and allow an open discussion of any views and comments concerning the proposed improvements.

A Q&A session will immediately follow the presentation.

The purpose of the project is to replace three bridge structures in Wallingford: Bridge No. 03129 – East Center Street (State Road 738), Bridge No. 03130 – New Rock Hill Road, and Bridge No. 03131 – Durham Road over Interstate-91.

Right-of-way impacts associated with the proposed project are expected to be minor.

Construction is expected to start in Spring 2028, depending on funding, acquisition of right-of-way, and permits. The current estimated cost is between \$60-\$90 million, with 80% federal funds and 20% state funds.

The public can submit comments and questions during the two-week public comment period following meeting. Direct comments and questions by Wednesday, October 8, 2025 to CTDOT.Design.Build@ct.gov, (860) 594-2020, or to Richard Prescott at (860) 594-2708 or richard.prescott@ct.gov. Please reference State Project No. 0148-0215 in the email or voicemail.
