The purpose of this meeting is to provide the community with an opportunity to learn about the proposed project and allow an open discussion of any views and comments concerning the proposed improvements. A Q&A session will immediately follow the presentation.

This project is to provide safety and operations improvements to the Devon Railroad Bridge, which carries one of the most popular rail lines in the U.S. Extending its service life will also lead to the construction of the future [Devon Bridge Replacement Project](#).

Right-of-way impacts are not anticipated. Construction is expected to start in summer 2025, based on the design progress and approval of permit(s). The estimated cost is \$110 million, with 80% federal funds and 20% state funds.

Public can submit comments and questions during two-week public comment period following meeting. Please direct comments and questions by January 23, 2025, to: DOT-FLBP@ct.gov, 860-594-2020, or Gregory Funk at Gregory.Funk@ct.gov or 860-594-3214.
