

2015-2016, Norwich - School Based Health Centers, Mental Health Services (Grades pre K-8)

Kelly Middle School, 6th Grade Academy at Teachers Middle School, Stanton Elementary School

Quality of Life Result: All Connecticut children will grow up in a stable environment, safe, healthy and ready to succeed.

Contribution to the Result: School Based Health Centers provide healthcare access for school aged students, so that they are healthy and ready to learn.

Program Expenditures	DPH SBHC Funding	Other State Funding	Federal Funding (MCHBG, ACA)	Total Other Funding (Other federal, Local, Private)	Reimbursement Generated	Total Norwich Funding
Actual SFY 16	\$253,512*	\$0	\$2,195**	\$21,095***	\$58,204	\$335,006
Estimated SFY 17	0	0	0	0	0	0

Partners: CASBHC, DPH, DSS, DMHAS, DCF, School Based Health Alliance, School Administrators and Faculty, Behavioral Health Partnership (BHP), Child and Family Agency's Child Guidance Clinics and Home-based programs, Emergency Mobile Psychiatric Services, Backus Hospital

How Much Did We Do?

Access and Utilization

Story behind the baseline:

In 2015-2016, the total school population for the three schools was 1,426, with 858 (60% of the population) enrolled in the SBHC. Of those enrolled, 74 (9% of enrolled and 5% of the population) students had at least one mental health visit. The average number of visits per student was 14.9.

Of the 74 served, all 74 (100%) had insurance coverage. Fifty-one (69%) were publically insured and 23 (31%) were privately insured.

All students enrolled in the SBHC receive care regardless of insurance status. Students/families identified as eligible for public insurance coverage are directed to one of community-based Access to Care programs.

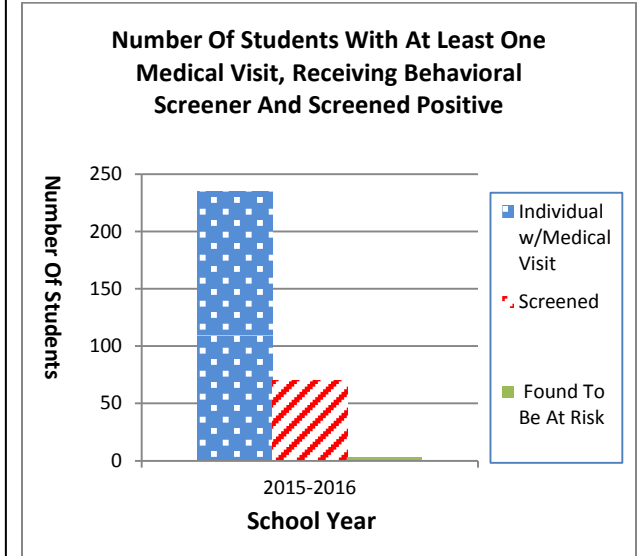

The demand for services exceeded capacity which prohibited classroom lessons. These SBHCs were closed in June 2016 because of budget cuts.

Student Population, Enrollment, Number of Mental Health Visits And Number Served in Groton Schools 2015-2016				
Schools	Population	Enrolled	MH Visits	MH Served
Kelly	744	564	644	45
Teachers	344	87	193	12
Stanton	338	207	263	17
TOTAL	1426	858	1100	74

How Well Did We Do?

Screen All Students for Mental/Behavioral Health Issues that received a Medical Visit.

Story behind the baseline:

In 2015-2016, SBHC medical providers began to conduct mental health screening at medical visits using an evidence-based screener.

Of the 235 students that had at least one medical visit in 2015-2016, 70 (30%) received a mental health screening. Of those, 3 (4%) were found to be at risk. Of those found to be at risk, 3 (100%) were referred to the SBHC mental health clinician for service.

Is Anyone Better Off?

Students Receiving Counseling Meeting their Goals

Story behind the baseline:

Of the 74 students that had mental health visits in 2015-2016, 38 (51%) received 3 or more months of counseling. Of those, 28 (74%) students achieved at least one treatment goal. Of the 10 (26%) students who did not achieve their goal, some required a higher level of care and were referred to a Partial Hospitalization Program or an Intensive Home-Based Program, others did not follow through with counseling, either by their choice or by the choice of their parent/guardian, and some moved out of district before 3 months of counseling was completed.
