Footnotes:

a Municipal-level revenue is estimated using wage data from the Connecticut Department of Labor (CT DOL) and actual Withholding Tax revenue for Fiscal Year 2025-26. For each municipality, a wage ratio is calculated by dividing the total wages reported for that municipality by the total wages reported across all Connecticut municipalities, based on CT DOL data. This ratio represents the municipality's share of statewide wages and is used to approximate the amount of Fiscal Year 2025-26 Withholding Tax revenue attributable to that municipality.

b Revenue data are obtained from Corporation Business Tax returns filed between July 1, 2025, and June 30, 2026. Business addresses from Single Filer returns (Form CT-1120) are used to determine the municipality associated with the Corporation Business taxes due. Corporation Business taxes attributed to Combined Unitary returns (Form CT-1120CU) are disaggregated by municipality through a two-factor formula which applies equal ratios of wages and sales. Wage ratios are derived from Connecticut Department of Labor (CT DOL) data and measure each municipality's share of total statewide wages. Sales ratios are based on each municipality's share of the overall Sales and Use tax due.

c Revenue data are obtained from Sales and Use Tax returns. The reported return data are used to determine the distribution of revenue by municipality. Business addresses from returns of Sales and Use taxpayers with one location are used to determine the municipality associated with their Sales and Use taxes due. Sales and Use taxes attributed to taxpayers with multiple business locations, filing on a consolidated basis, have been allocated equally across each filer's business locations.

d Revenue data are obtained from Insurance Premiums Tax returns for periods ending between July 1, 2025, and June 30, 2026. Business addresses are used to determine the distribution of revenue by municipality. Data from municipalities with fewer than 10 taxpayers are included in the "All Other Municipalities" category to meet confidentiality standards.
