Additional information about Connecticut tax credits is available in **Informational Publication 2010(13)**, *Guide to Connecticut Business Tax Credits*.

Corporation business tax credits must be applied in a specific order, where a corporation is eligible to claim more than one tax credit. In no event, however, shall any tax credit be claimed more than once. The order is as follows:

1. The Financial Institutions tax credit must be applied before any other tax credit.
2. Any tax credit that may be carried back to a preceding income year must be applied after the Financial Institutions tax credit, but before any other tax credit. Any tax credit carryback that will expire first must be claimed before any tax credit carryback that will expire later. If the tax credit carrybacks will

expire at the same time, tax credits must be taken in the order in which the corporation may receive the maximum benefit.

3. Any tax credit that may not be carried back to a preceding income year and that may not be carried forward to a succeeding income year must be claimed next, in the order in which the corporation may receive the maximum benefit.
4. Any tax credit that may be carried forward to a succeeding income year must be claimed next. Any tax credit carryforward that will expire first must be claimed before any tax credit carryforward that will expire later. If the tax credit carryforwards will expire at the same time, tax credits must be taken in the order in which the corporation may receive the maximum benefit.
5. The Electronic Data Processing Equipment Property tax credit must be applied last, after all other tax credits have been applied.

Limits on Credits: The amount of tax credits otherwise allowable against the corporation business tax for any income year shall not exceed 70% of the amount of tax due prior to the application of the tax credit. However, for the 2012 income year, tax credits can exceed the 70% limitation if the taxpayer has an average monthly net employment gain of greater than zero, as calculated on **Form CT-1120 TCE**, *Tax Credit Cap Extension*.

No tax credit can be applied against the minimum tax of \$250.

Form CT-1120K must be attached to the tax returns covered under the following Connecticut General Statutes chapters, when tax credits from the current income year are being claimed or when carryforward tax credit balances exist from the prior year:

- Corporation business tax under Chapter 208;
- Unrelated business income tax under Chapter 208a;
- Air carrier tax under Chapter 209;
- Railroad companies tax under Chapter 210;

- Community antenna television system companies tax under Chapter 211;
- Utility companies tax under Chapter 212; **and**
- Public service companies tax under Chapter 212a.

If the taxpayer is claiming a tax credit against more than one tax type, a duplicate Form CT-1120K and applicable tax credit forms must be attached to each tax return for which a tax credit is being claimed.

Any tax credit balance that remains after applying the tax credits to the current year tax may be carried forward or carried back as provided in the Connecticut General Statutes, if the tax credit has not expired.
