## Form CT-8801 Instructions

### General Information

#### How the Credit for Prior Year Minimum Tax Is Calculated

Your credit for 2013 is calculated by subtracting the part of your 2012 Connecticut alternative minimum tax attributable to adjustments and items of tax preferences (such as exclusion items) specified in IRC §53(d) from your net Connecticut alternative minimum tax paid in 2012 and adding the result to the amount of credit carried forward from the prior year.

**Exclusion items** are your federal alternative minimum tax adjustments and preferences for the standard deduction, itemized deductions (including any investment interest expense reported on federal Schedule E), the deduction for charitable contributions of appreciated property, certain tax-exempt interest, and depletion.

For more information, see the instructions for federal Form 8801, Credit for Prior Year Minimum Tax - Individuals, Estates, and Trusts.

#### How the Credit May Be Used

You may be able to reduce your regular Connecticut income tax liability by the amount of your credit. Your credit for 2013 is limited to the amount that your regular Connecticut income tax for 2013, less the credit allowed for income tax paid to a qualifying jurisdiction(s) and allowable income tax credits from **Schedule CT-IT Credit**, *Income Tax Credit Summary*, exceeds your Connecticut alternative minimum tax for 2013, less the credit allowed for alternative minimum tax paid to a qualifying jurisdiction(s).

#### The Unused Portion of the Credit

Any unused portion of the credit may be carried forward to reduce your regular Connecticut income tax in future years. You may carry the credit forward until it is completely used. If you are entitled to any additional credit in a subsequent year, you may add that credit to any balance being carried forward.
