Who Must File

Every organization subject to tax under Chapter 208a whose estimated current year tax liability, as shown on Schedule 1, Line 4, is more than \$1,000.

Interest

If the current year tax is more than \$1,000, interest is assessed at 1% per month or fraction of a month on the amount of the underpayment for the period of the underpayment, if the estimated payment does not equal:

First Installment -

The lesser of: (1) 27% of the current year tax; or (2) 30% of the tax shown on the prior year return (without regard to any tax credits).

Second Installment -

The lesser of: (1) 63% of the current year tax; or (2) 70% of the tax shown on the prior year return (without regard to any tax credits).

Using an estimate of current year tax to determine the required annual payment where the amount of tax due changes may result in earlier installments of estimated tax being underpaid. Payments of estimated tax are credited first against underpaid installments in the order in which the installments are required to be paid.

Annualization

If an organization establishes that its annualized income installment is less than Schedule 1, Line 4, then the organization must enter the amount from Worksheet CT-1120AE, Line 20, onto Schedule 1, Line 5, for each installment. See Informational Publication 2018(9), 2018 Q&A on Estimated Corporation Business Tax and Worksheet CT-1120AE.

Every organization subject to tax under Chapter 208a whose estimated current year tax liability, as shown on Schedule 1, Line 4, is more than \$1,000.

Interest

If the current year tax is more than \$1,000, interest is assessed at 1% per month or fraction of a month on the amount of the underpayment for the period of the underpayment, if the estimated payment does not equal:

Third Installment -

The lesser of: (1) 72% of the current year tax; or (2) 80% of the tax shown on the prior year return (without regard to any tax credits).

Fourth Installment -

The lesser of:(1) 90% of the current year tax; or (2) 100% of the tax shown on the prior year return (without regard to any tax credits).

Using an estimate of current year tax to determine the required annual payment where the amount of tax due changes may result in earlier installments of estimated tax being underpaid. Payments of estimated tax are credited first against underpaid installments in the order in which the installments are required to be paid.
