Service Facility Tax Credit

2023

For Income Year Beginning: _____, 2023 and Ending: _____.

Corporation name	Connecticut Tax Registration Number
	DECD Eligibility Certificate Number (If applicable)

Complete this form in blue or black ink only. Do not use staples.

Please note that each form is year specific. The correct year's form **must** be used.

Use **Form CT-1120SF**, to claim the credit allocable to a service facility located outside of an Enterprise Zone in a targeted investment community, as allowed under Conn. Gen. Stat. § 12-217e against the Corporation Business Tax.

A service facility located in an Enterprise Zone **cannot qualify** for this credit.

This credit is administered by the Department of Economic and Community Development (DECD). To be eligible for this credit, a written application must have been submitted to and approved by the Commissioner of DECD. See Conn. Gen. Stat. § 32-9r.

Credit Percentages

There are six different credit percentages as provided in the chart on Page 2 to be applied against the portion of the Connecticut Corporation Business Tax that is allocable to the service facility. The percentage varies depending on the number of new employees working at the service facility, as determined on *Schedule A*, Line 5.

The credit period is ten years and begins with the first full income year following the year of issuance of the eligibility certificate and continues for the following nine income years. If within the ten year period the facility ceases to qualify as a service facility or the taxpayer ceases to occupy the property, entitlement to the credit terminates and there is no pro rata application of the credit during the income year in which the entitlement or occupancy terminates.

No carryforward or carryback is allowed.

This credit is being sunset. You may not claim this credit unless your ten year credit period began prior to your 2018 income year.

Schedule A

Schedule A is used to determine whether the service facility meets the employment criteria for the tax credit. The available percentage of the tax credit depends upon the number of new employees working at the facility. Complete Lines 1 through 5 as indicated.

Schedule B

Schedule B is used to determine the amount of the tax credit.

Tangible Property: Column A includes the average monthly net book value of the eligible service facility including all machinery and equipment specifically acquired for and installed at that site without reduction for any encumbrance. When rented, the value of the eligible service facility and all machinery and equipment specifically acquired for and installed at that site should be computed by multiplying the gross rents payable by the taxpayer during the income year by eight. Column B consists of the average monthly net book value of all real property, machinery, and equipment held and owned by the taxpayer in Connecticut plus the value of all real property, machinery, and equipment rented to the taxpayer in Connecticut, computed by multiplying the combined gross rents payable during the income year by eight. **Gross rents** means gross rents as defined in Conn. Gen. Stat. § 12-218(j)(3)(B).

Wages, Salaries, and Other Compensation: Column A consists of all wages, salaries, and other compensation paid during the income year to employees of the taxpayer whose positions are directly attributable to the eligible service facility. Column B consists of the sum of wages, salaries, and other compensation paid during the income year to all employees of the taxpayer in Connecticut.

An employee's position is **directly attributable** to an eligible service facility if the:

- Employee's service is performed or base of operation is at the eligible service facility;
- Position did not exist prior to the construction, renovation, expansion, or acquisition of the eligible service facility; **and**
- Position would not have been created but for the construction, renovation, expansion, or acquisition of the eligible service facility.
