Complete this form in blue or black ink only. Do not use staples.

Please note that each form is year specific. The correct year's form **must** be used.

Use **Form CT-1120RC** to claim the credit available under Conn. Gen. Stat. § 12-217j equal to 20% of the incremental increase in research and experimental expenditures that are conducted in Connecticut.

#### **Required Attachment**

This form must be accompanied by a detailed schedule that identifies the location in Connecticut where the research and experimentation was conducted and the amounts spent directly on research and experimentation in the current income year and in the previous income year.

#### **Definitions**

Connecticut research and experimental expenditures are those that may be deducted under § 174 of the Internal Revenue Code of 1986 and related regulations. Only amounts spent directly on such research and experimental expenditures will be allowed. Overhead and other expenses, including general and administrative expenses, which relate to a taxpayer's activities as a whole and not specifically to the research and experimental effort will not qualify.

#### Qualifying expenditures include but are not limited to:

- Expenditures incurred in connection with the taxpayer's trade or business that represent research and development costs in the experimental or laboratory sense;
- All costs incurred in the development of an experimental or pilot model, a plant process, a product, a formula, an invention, or similar property, and the improvement of already existing property of the type mentioned; and
- Costs of obtaining a patent, such as attorney's fees expended in making and perfecting a patent application.

### **Credit Computation**

The credit is equal to 20% of the amount spent by the taxpayer, as defined in Conn. Gen. Stat. § 12-217j, directly on Connecticut research and experimental expenditures that exceeds the amount spent by that taxpayer on those expenditures during the previous income year.

### Carryforward

Any remaining credit balance that exceeds the credit applied or exchanged may be carried forward for 15 income years. No carryback is allowed.
