Electronic filers: If you are filing electronically, select the indicator for Form CT- 2210 on your Connecticut income tax return. Complete Form CT-2210 and upload as an attachment.

Paper filers: Check the box for Form CT-2210 on the front of your Connecticut income tax return. Place this form at the back of your completed Connecticut income return.

Purpose: Filers of **Forms CT-1040, Connecticut Resident Income Tax Return, CT-1040NR/PY, Connecticut Nonresident and Part-Year Resident Income Tax Return, and CT-1041, Connecticut Income Tax Return for Trusts and Estates**, who underpaid their estimated Connecticut income tax may use this form to calculate the amount of interest due or to lower or eliminate interest that would otherwise apply.

My Taxes Are Underpaid: In general, if you do not make timely installments of your required annual payment and the balance of your Connecticut income tax is \$1,000 or more, you will be charged interest on the underpaid amount. In determining if the balance of your Connecticut income tax is \$1,000 or more, any Connecticut income tax withheld and any Pass-Through Entity Tax Credits (PE Tax Credits) you are eligible to claim must first be applied against the total Connecticut income tax due. If the result is less than \$1,000, you are not subject to interest on the underpayment.

Your required annual payment is the lesser of:

- 90% of the income tax shown on your 2025 Connecticut income tax return; **or**
- 100% of the income tax shown on your 2024 Connecticut income tax return if you filed a 2024 Connecticut income tax return that covered a 12-month period.

If either of the following applies to you, you are not subject to interest on the underpayment. You must check Box F or G in Part 1 below and attach this page to your Connecticut income tax return:

- You were a Connecticut resident during the 2024 taxable year and did not file a 2024 Connecticut income tax return because you had no Connecticut income tax liability; **or**
- You were a part-year resident or nonresident with Connecticut-sourced income during the 2024 taxable year but did not file a 2024 Connecticut income tax return because you had no Connecticut income tax liability.

If you were a Connecticut part-year resident or nonresident in 2024 and you did not have Connecticut-sourced income during the 2024 taxable year, you must use 90% of the income tax shown on your 2025 Connecticut income tax return as your required annual payment.

Interest: You may be charged interest if you did not pay enough tax through withholding, estimated tax payments, or both, by the installment due dates or if any PE Tax Credit reported to you on **Schedule CT K-1, Member's Share of Certain Connecticut Items, Part 4, Line 1**; or **Schedule CT-1041 K-1, Beneficiary's Share of Certain Connecticut Items, Part 4, Line 1**, is not sufficient to cover your tax liability. This is true even if you are due a refund when you file your tax return. Interest is calculated separately for each installment. Therefore, you may owe interest for an earlier installment even if you paid enough tax later to

make up the underpayment. Overpayment of any estimated tax will be credited against any future installment.

Interest on the underpayment of estimated income tax, at 1% per month or fraction of a month, will continue to accrue until the earlier of April 15, 2026, or the date on which the underpayment is paid.

A taxpayer who files his or her income tax return for the taxable year on or before January 31, 2026, and pays the total amount computed on the return as payable for the taxable year, does not have to pay the January 15, 2026, estimate and will not incur interest on the underpayment of estimated income tax for the fourth required installment. Do not complete *Schedule B, Worksheet D*, if you file your income tax return and pay the tax amount in full by January 31.

Farmers or fishermen who file Forms CT-1040, CT-1040NR/PY, or CT-1041 for the taxable year on or before March 1, 2026, and pay the total amount computed on the return as payable for the taxable year, do not have to pay the January 15, 2026, estimate, which is the only estimate required, and will not incur interest on the underpayment of estimated income tax. See *Special Rules for Farmers and Fishermen at portal.ct.gov/DRS/Individuals/Individual-Income-Tax*.

Name and Identifying Number

Individuals: Enter in the space provided at the top of the form your name and Social Security Number (SSN) as it appears on your Connecticut income tax return. If you filed a joint return, also enter your spouse's name and SSN.

Trusts and Estates: Enter the name of the trust or estate and the name of the fiduciary as it appears on Form CT-1041 in the space provided at the top of the form. Also enter the Federal Employer Identification Number of the trust or estate.

Generally, the rules above also apply in determining whether a Connecticut resident trust or estate, a nonresident trust or estate, or a part-year resident trust has made the required annual payment.

Except as provided below, a trust created in 2025 must use 90% of the income tax shown on the 2025 Form CT-1041, as the required annual payment.

Exceptions

Decedent's Estates: For any taxable year ending before the date that is two years after a decedent's death, the decedent's estate is not required to make estimated payments and no underpayment interest will be charged.

Certain Grantor Trusts: For any taxable year ending before the date that is two years after a decedent's death, a trust is not required to make estimated payments and no underpayment interest will be charged if:

- The trust was created under IRC §§ 671 through 679, inclusive, as owned by the decedent and will receive the residue of the decedent's estate under the will; **or**
- If no will is admitted to probate, the trust is primarily responsible for paying debts, taxes, and expenses of administration.

Form CT-2210 Instructions

Do **not** file this form **unless**:

- You checked one of the boxes in Part 1; **or**
- You wish to calculate and pay the interest you owe with your return.

If you do not file this form, the Department of Revenue Services (DRS) will calculate interest on any underpayment of estimated tax you owe and send you a bill. The interest on the underpayment of estimated tax will stop accruing on the **earlier** of the date you pay your total tax liability or April 15, 2026.

Please note that each form is year specific. To prevent any delay in processing your return, the correct year's form **must** be submitted to DRS.

When Are My Payments Due? In general, four equal installments of estimated tax are required on April 15, June 15, September 15, and January 15. Fiscal year filers should follow federal filing dates. If the due date falls on a Saturday, Sunday, or legal holiday, the payment will be considered timely if filed on the next business day.

Estates and certain trusts are required to make estimated income tax payments as stated above for any taxable year ending two or more years after the date of the decedent's death. For additional information on when certain trusts are required to make estimated income tax payments, see IRC §§ 671 through 679.

Special Rules for Farmers and Fishermen: If you are a farmer or fisherman, as defined in IRC § 6654(i)(2), your required annual payment is the lesser of:

- 66 $\frac{2}{3}$ % of the income tax shown on your 2025 Connecticut income tax return; **or**
- 100% of the income tax shown on your 2024 Connecticut income tax return, if you filed a 2024 income tax return that covered a 12-month period.

Farmers and fishermen are required to make only one installment of estimated income tax for the taxable year. If you are a farmer or fisherman, you must do one of the following:

- Pay the required installment on or before January 15, 2026; **or**
- File your 2025 Connecticut income tax return on or before March 1, 2026, and pay the full amount computed on the return. In this case, do not make an estimated income tax payment for 2025.

See the instructions for Box D.

Part 1: Reasons for Filing

Complete Part 1 **only** if one of the following boxes applies to you. By checking the box that applies to you, you may be able to reduce or eliminate interest charges that would otherwise accrue if we calculated the interest for you under the normal requirements for making estimated tax payments. If you check any of the boxes in Part 1, also check the box for **Form CT-2210** on the front page of your **Form CT-1040**, **Form CT-1041**, or **Form CT-1040NR/PY**.

You may only use 100% of your 2024 Connecticut income tax to calculate your required annual payment if:

- You filed a 2024 Connecticut income tax return that covered a 12-month period; **or**
- During the 2024 taxable year, you were a resident, part-year resident, or nonresident with Connecticut-sourced income and you did not file a 2024 Connecticut income tax return because you did not have a Connecticut income tax liability. See Part 2, Line 5, for instructions on calculating your required annual payment.

Box A: Check this box if you are using the annualized income installment method. If your income fluctuated during the year, this method may reduce or eliminate the amount of one or more required quarterly payments. See *Schedule A - Annualized Income Installment, General Instructions*, on Page 9.

If you were a part-year resident who moved into Connecticut in 2025 and you cannot use the prior year tax liability as the basis of the required annual payment, you may benefit by using the annualized installment method to report Connecticut-sourced income in the period(s) in which it was earned.

Box B: Check this box if your estimated tax payments were based on the tax shown on your 2024 Connecticut income tax return **and** your filing status changed from last year. See instructions for *Changes in Filing Status* in Part 2, Line 5.

Box C: Check this box if you want income tax withheld in 2025 to be applied when it was **actually withheld** rather than in four equal installments. See instructions for Part 3, Line 11 and Line 11b.

Box D: Check this box if you are a farmer or fisherman and:

- You are required to make only one installment of estimated Connecticut income tax; **or**
- You have filed your tax return for the taxable year on or before March 1, 2026, and have paid the amount computed on the return as payable for the taxable year. Stop here and do not complete Part 2 and Part 3.

Attach Page 1 of Form CT-2210 to your Connecticut income tax return and check the box for Form CT-2210 on the front of Form CT-1040 or CT-1040NR/PY.

Box E: Check this box if you were a part-year resident or nonresident of Connecticut during the 2024 taxable year, did not have Connecticut-sourced income, and were not required to file a Connecticut income tax return. If you check Box E, you must use 90% of your 2025 income tax as your required annual payment.

Box F: Check this box if you were a Connecticut resident during the entire 2024 taxable year and you did not file a 2024 Connecticut income tax return because you did not have a Connecticut income tax liability. Stop here and do not complete Part 2 and Part 3. Attach Page 1 of this form to your income tax return.

Box G: Check this box if you were a part-year resident or nonresident of Connecticut during the 2024 taxable year and you had Connecticut-sourced income in 2024, but you did not file a 2024 Connecticut income tax return because you did not have a Connecticut income tax liability. Stop here and do not complete Part 2 and Part 3. Attach Page 1 of this form to your income tax return.

Visit portal.ct.gov/DRS/Individuals/Individual-Income-Tax to obtain information on the filing requirements and gross income test for Connecticut residents and for nonresidents and part-year residents of Connecticut, as well as examples of Connecticut-sourced income.

Part 2: Required Annual Payment

Line 1: Enter the amount of income tax shown on your 2025 Connecticut income tax return (Form CT-1040, Line 14; Form CT-1040NR/PY, Line 16; or Form CT-1041, Line 9). Do not subtract estimated payments, Pass-Through Entity Tax Credits, or Connecticut tax withheld in 2025.

Line 2: Farmers and fishermen multiply Line 1 by 66 $\frac{2}{3}$ %.

Line 3: Enter **Connecticut** income tax withheld in 2025. This amount includes income tax withholding reported on Forms W-2 or 1099 and Schedule CT K-1, Part 3, Line 1 (an amount may be reported to you on a Schedule CT K-1 if you are a nonresident individual member of a pass-through entity, and the pass-through entity elected to remit a composite income tax payment on behalf of their nonresident members). Do not enter any estimated tax payments or taxes withheld for the Internal Revenue Service (IRS) or other jurisdictions.

Line 3a: Enter any Pass-Through Entity Tax Credit reported on Schedule CT-PE, Line 1.

Line 5: If your filing status was the same on your 2024 and 2025 Connecticut income tax returns and your 2024 Connecticut income tax return covered a 12-month period, enter 100% of the income tax shown on your 2024 Connecticut income tax return (Form CT-1040, Line 14; Form CT-1040NR/PY, Line 16; or Form CT-1041, Line 9). If you did not file a 2024 Connecticut income tax return because you did not have a Connecticut income tax liability and you were a resident, nonresident, or part-year resident in 2024 with Connecticut-sourced income, enter "0."

If you were a part-year resident or nonresident in 2024 and you did not have Connecticut-sourced income during the 2024 taxable year, leave Line 5 blank and enter the amount from Line 2 as your required annual payment on Line 6.

Changes in Filing Status From 2024 to 2025: If you are filing a joint Connecticut return for 2025 but filed separate Connecticut returns for 2024 as single, married filing separately, or head of household, you must combine your 2024 separate tax liabilities to determine your combined 2024 income tax. If either you or your spouse did not file a 2024 Connecticut income tax return, see the instructions for Part 1, Box E, to determine if you can use the prior year tax as the basis for your required annual payment.

If you are filing Connecticut returns as filing separately for 2025 but filed a joint Connecticut return for 2024, you must determine your share of the 2024 tax (Form CT-1040, Line 14, or Form CT-1040NR/PY, Line 16). First calculate the 2024 tax both you and your spouse would have paid had you filed separate Connecticut returns for 2024 as married persons filing separately. Then complete the following calculation:

<div><div>Your separate 2024 tax liability</div><div>Both spouses' separate 2024 tax liabilities</div></div>	<div><div><input checked="" type="checkbox"/> Your 2024 joint tax liability</div></div>
--	---

Examples

The following taxpayers, after subtracting Connecticut income tax withheld, have a 2025 Connecticut income tax liability of more than \$1,000 and may be liable for interest on the underpayment of their estimated Connecticut income tax.

Anita, a resident of Connecticut during the entire 2024 taxable year, filed a 2024 resident income tax return.
Anita's 2025 required annual payment is the lesser of 100% of the income tax shown on her 2024 Connecticut income tax return or 90% of the income tax shown on her 2025 Connecticut income tax return.
If none of the reasons on CT-2210, Part 1 apply to her, Anita is liable for interest on the underpayment of estimated Connecticut income tax. Anita is not required to complete Form CT-2210. DRS will calculate the interest and bill her.

Bill, a resident of Connecticut during the entire 2024 taxable year, did not file a 2024 Connecticut income tax return because he had no 2024 Connecticut income tax liability. Bill's 2025 required annual payment is zero.
Bill must check Box F on Form CT-2210, check the box on Page 1 of Form CT-1040 that he completed Form CT-2210, and attach Form CT-2210 to his 2025 Connecticut income tax return.

Jim, a part-year resident or nonresident of Connecticut during the 2024 taxable year, had Connecticut-sourced income in 2024 but did not file a 2024 Connecticut income tax return because he had no 2024 Connecticut income tax liability. Jim's 2025 required annual payment is zero.
Jim must check Box G on Form CT-2210, check the box on Page 1 of Form CT-1040 or Form CT-1040NR/PY that he completed Form CT-2210, and attach Form CT-2210 to his 2025 Connecticut income tax return.

Sara, a nonresident or part-year resident of Connecticut during the 2024 taxable year, had no Connecticut-sourced income in 2024 and did not file a 2024 Connecticut income tax return because she had no 2024 Connecticut income tax liability. Sara's 2025 required annual payment is 90% of the income tax shown on her 2025 Connecticut income tax return.
Sara must check Box E on Form CT-2210, check the box on Page 1 of Form CT-1040 or Form CT-1040NR/PY that she completed Form CT-2210, and attach Form CT-2210 to her 2025 Connecticut income tax return.

David, a resident, part-year resident, or nonresident of Connecticut during the 2024 taxable year, had a Connecticut income tax liability in 2024 but in error did not file a 2024 Connecticut income tax return.
When David files his 2025 income tax return his required annual payment will be the lesser of 90% of the income tax shown on his 2025 Connecticut income tax return or 100% of the income tax shown on his 2024 Connecticut income tax return. Because David did not file a 2024 Connecticut income tax return, his required annual payment is 90% of the income tax shown on his 2025 Connecticut income tax return.

Eric, a nonresident of Connecticut during the 2024 taxable year, had no Connecticut-sourced income in 2024 and did not file a 2024 Connecticut income tax return because he had no Connecticut income tax liability. Eric moved to Connecticut in June 2025 and, as a part-year resident of Connecticut in 2025, files a 2025 Form CT-1040NR/PY.
Eric's 2025 required annual payment is 90% of the income tax shown on his 2025 Connecticut income tax return.
Eric must check Box E on Form CT-2210. Because Eric moved to Connecticut in June, he may benefit by checking Box A and using the annualized income installment method to compute the interest.

Kim, a part-year resident of Connecticut during the 2024 taxable year, filed a 2024 Form CT-1040NR/PY that covered a 12-month period and files a 2025 Form CT-1040.
Kim's 2025 required annual payment is the lesser of 90% of the income tax shown on her 2025 Connecticut income tax return or 100% of the income tax shown on her 2024 Connecticut income tax return.
If none of the reasons on CT-2210, Part 1 apply to Kim, Kim is liable for interest on the underpayment of estimated Connecticut income tax. Kim is not required to complete Form CT-2210. DRS will calculate the interest and bill her.

Tim, a resident of Connecticut during the 2024 taxable year, filed as married filing jointly on his 2024 Form CT-1040 and as single on his 2025 Form CT-1040.
Tim's 2025 required annual payment is the lesser of 90% of his 2025 Connecticut income tax liability or 100% of his separate 2024 Connecticut income tax liability as computed using the formula on the left.
If Tim is using 100% of his separate 2024 Connecticut income tax liability, Tim must check Box B, check the box on Page 1 of Form CT-1040 that he completed Form CT-2210, and attach Form CT-2210 to his 2025 Connecticut income tax return.

Part 3 - Calculate Your Underpayment and Interest
Line 8: If you are using the annualized income installment method, skip Line 8 and Line 9 and **go on to Line 10**. Be sure you also check Part 1, Box A.
If you checked Part 1, Box D, because you are a **farmer** or **fisherman** and you have made only one installment of estimated income tax, complete Column D **only**.

Line 10: If you checked Part 1, Box A, because you are using the annualized income installment method, enter the amounts from *Schedule A - Annualized Income Installment Schedule*, Lines 22 through 25, in the appropriate columns. Attach *Schedule A* to Form CT-2210 and also include your computations of your Connecticut adjusted gross income for each period.

Line 11: Enter the total amount of **Connecticut** income tax withheld in 2025 in Columns A, B, C, and D. **Do not** enter estimated tax payments or taxes withheld for the IRS or other jurisdictions.

Example: If your total 2025 Connecticut income tax withheld was \$1,300, enter \$1,300 in Columns A, B, C, and D.

If you want Connecticut income tax withholding to apply when it was actually withheld, skip Line 11 and Line 11a and go on to Line 11b. Be sure you also check Part 1, Box C.

Line 11b: Multiply Line 11 by Line 11a, or if you want Connecticut income tax withholding to apply when it was actually withheld, enter the actual cumulative withholding amounts on this line in the appropriate column.

Example: If \$600 was withheld in March, \$200 in May, \$200 in August, and \$300 in November, enter \$600 in Column A, enter \$800 in Column B, \$1,000 in Column C, and \$1,300 in Column D.

Line 12: Enter the total Connecticut Pass-Through Entity Tax Credit, from Part 2, Line 3a. Enter the same amount in Columns A, B, C, and D.

Line 15: Enter in the appropriate columns all timely installment payments you made. Timely installment payments are all payments (**other than any tax withheld**) made on or before the estimated payment due date(s) including any previous installment payments.

Example: If estimated Connecticut income tax payments of \$100 each were made on April 15, June 15, September 15, 2025, and on January 15, 2026, enter \$100 in Column A, \$200 in Column B, \$300 in Column C, and \$400 in Column D.

Schedule A - Annualized Income Installment

General Instructions

You may benefit from using the annualized income installment method if your income varied throughout the year because you earned more money later in the year than you did in the early part of the year, such as from lottery winnings, investment income, or self-employment income.

By using this method, you may be able to reduce or eliminate the amount of one or more required installments.

For information on filing estimated tax payments using the annualized income installment method, see **Informational Publication 2018(11), *A Guide to Calculating Your Annualized Estimated Income Tax Installments*** and *Worksheet CT-1040 AES*. This publication is available from the DRS website at portal.ct.gov/DRS.

If you use the annualized income installment method for any installment due date, you must use this method for all installment due dates. Form CT-2210, *Schedule A*, automatically selects the smaller of the annualized income installment or regular installment increased by the amount saved by using the annualized income installment method in computing earlier installments.

If you use the annualized income installment method, you are required to complete **all** of the following steps:

1. Check Box A on Form CT-2210, Part 1;
2. Enter the amounts from *Schedule A*, Lines 22 through 25 in the appropriate columns on Form CT-2210, and complete Part 3;
3. Attach Form CT-2210 and *Schedule A* to your return (nonresident and part-year resident individual, include *Worksheet 1*);

Form CT-2210 Instructions (Rev. 12/25)
