A MESSAGE FROM MARK D. BOUGHTON

January 2024

I am pleased to present the Annual Report of Taxes and Fees collected by the Department of Revenue Services (DRS) during fiscal year 2022-2023. While the Annual Report is a statistical compilation of the revenues that were collected by DRS, it is important to understand and note that just over \$24 billion in revenue that was collected during this fiscal year was the result of efforts of the hardworking employees of DRS.

For many years, previous Commissioners have vocalized the importance of improving the way that DRS works with taxpayers and tax practitioners to fight tax fraud and to make tax compliance less complex and burdensome. After many years of reorganizing, hard work, training, and the implementation of a new computer system, I am happy to report that we are achieving just that.

With the completion of our new fully modernized self-service online tax filing portal, myconneCT, we have become more effective and efficient in our efforts to protect taxpayers, fight tax fraud, and focus on closing the tax gap, all the while continuing to provide world class customer service. This system is mobile friendly, secure, fast, accurate and available to use 24 hours a day, 7 days a week. I encourage you to give it a try.

I hope the information contained in the Annual Report is helpful and informative. To the extent that anyone has any questions regarding the report, my staff and I stand ready to assist.

Mark D. Boughton
Commissioner of Revenue Services

CORPORATION BUSINESS TAX

A corporation carrying on or doing business in Connecticut is subject to the Corporation Business Tax. Most corporations in Connecticut must file returns and pay corporation business tax although some corporations are exempt.

Corporations must calculate their tax under two alternate methods and remit the higher tax. If a corporation owes less than \$250 under both methods, it pays the minimum tax of \$250.

Revenue	
FY 2022-23	\$1,519,011,011
2021-22	1,397,484,273
2020-21	1,144,305,750

Basis and Rate

Net Income Base Method

The method under which most Corporation Business Tax revenue is derived is the net income base. Corporations compute their Connecticut net income by starting with federal taxable income and then applying the adjustments allowed or required by Connecticut.

For Connecticut net income purposes, corporations must add back certain items deducted in arriving at federal taxable income, such as:

- Exempt interest income
- State and local income taxes
- Royalties or interest paid to a related member
- Bonus depreciation

Certain other deductions are then allowed, such as:

- Certain dividends
- Capital loss carryovers not deducted in computing federal gain
- Deferred cancellation of debt income.

Companies that conduct business in multiple states are allowed to apportion their net income based upon the percentage of their sales made in Connecticut. Market-based sourcing rules consider sales of services and most intangible property to be made where the customer is located. Special apportionment rules are provided for certain industries such as financial service companies and broadcasters.

CORPORATION BUSINESS TAX (cont.)

Apportioned net operating losses may be carried forward for 20 successive income years. The net operating loss (NOL) deduction may not exceed 50% of the taxpayer's net income.

Connecticut net income is taxed at the rate of 7.5%.

Capital Base Method

Corporations must also compute their tax under the capital base method. The capital base is the total value of the average capital stock, surplus and undivided profits, and surplus reserves, less the average values of deficits and stockholdings in private corporations. Multi-state corporations multiply their capital base by an apportionment fraction.

The capital base is taxed at a rate of 3.1 mills (\$0.0031) per dollar. Under the capital base method, a corporation is limited to a maximum tax of \$1,000,000. Financial service companies are excluded from the capital base method, but are subject to the minimum tax.

Corporations are subject to tax on the greater of the net income base method or the capital base method calculations.

Minimum Tax

If a corporation's calculation of the tax is less than \$250 under both of the two previous methods, it pays a minimum tax, which is currently \$250. The majority of corporations pay the minimum tax.

Surtax

For income years 2018 through 2023, corporations, other than those paying the minimum tax of \$250, pay a surtax in an amount equal to 10% of the tax due before credits are applied. Corporations whose gross income is less than \$100 million are exempt from the surtax unless they file as part of a combined unitary return.

The total amount of surtax reported on income year 2021 returns was \$103.2M.

CORPORATION BUSINESS TAX (cont.)

Combined Unitary Reporting

Commonly owned corporations that are engaged in a unitary business, where at least one corporation is subject to the Corporation Business Tax, are required to file their Corporation Business Tax returns on a combined unitary basis.

Under combined unitary filing, a combined group's tax liability, prior to surtax and credits, cannot exceed the amount calculated on a nexus combined basis by more than \$2,500,000. This is referred to as the aggregate maximum tax. If the aggregate maximum tax is less than the tax on the standard combined unitary basis, the group is subject to the aggregate maximum tax. Otherwise, the group is subject to tax on the standard combined unitary basis.

Exemptions

- Cooperative housing corporations;
- Homeowners associations;
- Domestic international sales corporations;
- Insurance companies;
- Certain political organizations or associations exempt from federal income taxes under § 527 of the Internal Revenue Code;
- Railroad companies subject to the gross earnings tax;

- Connecticut passive investment companies formed by financial service companies to hold and manage loans secured by real property;
- Non-United States corporations whose sole activity conducted in Connecticut is the trading of stocks, commodities and securities; and
- Subchapter S corporations.

Pass-Through Entity Tax Credit

Members of a Pass-Through Entity (PE) are entitled to a credit based upon their respective shares of the PE's tax liability. For taxable years that began on or after January 1, 2019, the PE Tax Credit is 87.5% of the member's share of the PE Tax. A corporate member may claim the PE Tax Credit against the Corporation Business tax.

ESTATE AND GIFT TAX

Resident and nonresident estates of decedents dying during 2023 are liable for the Connecticut Estate Tax on the amount of the Connecticut taxable estate that exceeds the federal basic exclusion amount.

“Connecticut taxable estate” is defined as the sum of the total value of the decedent’s federal gross estate, less allowable deductions, plus the aggregate amount of Connecticut taxable gifts made on or after January 1, 2005. A credit is granted for gift taxes paid on Connecticut taxable gifts made on or after January 1, 2005; however, the credit cannot exceed the amount of the Connecticut estate tax.

For Connecticut taxable gifts, a donor must pay Connecticut gift tax if the aggregate amount of Connecticut taxable gifts made between January 1, 2005 and December 31, 2023, exceeds the federal basic exclusion amount. A credit is allowed against the Connecticut gift tax for Connecticut gift taxes paid on Connecticut taxable gifts made during calendar years beginning on or after January 1, 2005; however, the credit cannot exceed the amount of the Connecticut gift tax.

“Connecticut taxable gifts” are defined as taxable gifts as determined for federal gift tax purposes. These include:

- Gifts of Connecticut real property;*
- Gifts of tangible personal property situated within Connecticut; or*
- Gifts of intangible personal property made by Connecticut residents.*

Taxpayers are required to file a Connecticut Estate and Gift Tax return to report all Connecticut taxable gifts, even if no Connecticut gift tax is due.

The maximum amount of tax paid by the estates of decedents who die on or after January 1, 2019, is \$15 million. This payment cap also applies to the gift tax amount paid by donors who make taxable gifts on or after January 1, 2019. An *angel investor* is an accredited investor, as defined by the Securities and Exchange Commission, or a network of accredited investors who review new or proposed businesses for potential investment and may seek active involvement, such as consulting and mentoring, in a Connecticut business.

The angel investor must apply to Connecticut Innovations, Inc. (CII) to reserve a tax credit. The angel investor must choose from a list of Connecticut businesses that CII has determined qualified to receive the cash investment. Tax credits cannot be reserved for any investments made on or after July 1, 2024.

The angel investor credit provides for a tax credit for a cash investment of not less than \$25,000 in the qualified securities of a Connecticut business by an angel investor. Before the taxable year 2019, the credit was 25% of such investor's cash investment not to exceed \$250,000 per investor and was claimed in the taxable year in which the cash investment was made. Effective July 1, 2019, the total credits allowed to any one investor increased from \$250,000 to \$500,000. The credits may be assigned, transferred, or sold.

The new recreational cannabis law extends this angel investor tax credit program to include eligible "cannabis businesses", thus allowing eligible investors to receive income tax credits for investing in these businesses. The credits equal 40% of their investment, up to \$500,000. As under existing law, investments in other approved businesses continue to qualify for a 25% credit, subject to the same minimum investment and maximum credit requirements.

INCOME TAX (cont.)

Legislation provides that no additional tax credits shall be reserved for investments made in a qualified Connecticut business on or after July 1, 2028, or for any investments made in a qualified cannabis business on or after July 1, 2023. The legislation is effective July 1, 2023.

Credit for Prior Year Connecticut Minimum Tax for Individuals

Taxpayers may be able to claim a credit for an alternative minimum tax paid in a prior year.

Credit for Pass-Through Entity Taxes Paid

For taxable year 2018, a member in a Pass-Through Entity (PE) was entitled to a credit equal to 93.01% of the member's direct and indirect share of the PE's tax liability. The PE Tax Credit can be used against the member's Corporation Business Tax liability or Income Tax liability.

The Pass-Through Entity Tax credit is reduced from 93.01% to 87.5% effective for taxable years beginning on or after January 1, 2019. The credit claimed in taxable years 2020, 2021, and 2022 totaled \$801,307,652, \$1,296,255,325, and \$1,238,665,684, respectively.

In addition to the above-referenced credits, the following credit is no longer available, however, taxpayers who previously earned the credit may still be claiming it:

Insurance Reinvestment Fund

The insurance reinvestment fund credit is no longer available to individuals under the personal income tax. The new *Second Insurance Reinvestment Fund Tax Credit* replaces the original credit and is only available against insurance premiums taxes. Any credits previously earned under the old Insurance Reinvestment Act can be used until they expire, not to exceed 10 years.

INSURANCE PREMIUMS TAX

Insurance companies, domestic and foreign, are taxed in Connecticut on the total net direct premiums received from policies written on property or risks within the State. Total net direct subscriber charges received on any new or renewal contract or policy by a health care center are also taxed. The State also imposes a tax on premiums for unauthorized insurance. Specifically, insureds who procure non-admitted insurance are required to remit tax on premiums paid to a non-admitted insurer. Additionally, risk retention groups are required to pay tax on premiums collected on coverages within the State. Captive insurance companies are now allowed to operate within Connecticut. A captive insurance company is a company that is created and wholly owned by one or more non-insurance companies to insure the risks of its owners as a type of self-insurance.

MOTOR CARRIER ROAD TAX

Connecticut has participated in the International Fuel Tax Agreement (IFTA) since 1996. IFTA is a cooperative agreement among most states and provinces of Canada that simplifies the collection and reporting of fuel use tax by interstate motor carriers. Under IFTA, fuel tax returns are filed in the base jurisdiction of the motor carrier. The base jurisdiction of a motor carrier is where the vehicle is based for registration purposes and where operations are controlled and the vehicle is operated. For IFTA fuel tax reporting, a qualified motor vehicle is a vehicle that is designed to transport persons or property and that has: two axles and a gross vehicle weight or registered gross vehicle weight over 26,000 pounds; or three or more axles regardless of weight; or when used in combination, a combined gross vehicle weight over 26,000 pounds. Motor carriers who meet this qualification, and who travel solely within the State, are not required to file a return, but instead are subject to the tax at the time of purchase.

PAID PREPARER FEE

The Connecticut General Assembly enacted a comprehensive law which established professional practice standards for all tax preparers and facilitators. In addition, any person that prepares federal or state personal income tax returns for a fee or other consideration, and is not expressly exempt, must have a permit. The permit must be renewed every two years.

2021-22	2,308,213,258

Basis and Rate

There are two methods that pass-through entities (PE) may use to calculate their tax. The tax rate of 6.99% is applied to the applicable base to determine the amount of tax due.

Standard Base

The Standard Base is equal to a PE's Connecticut source income from its own activities. The Standard Base does not include income from subsidiary PE's.

Alternative Base

The Alternative Base is equal to the portion of a PE's CT source income from its own activities that flows through to members who are chapter 229 taxpayers (income tax) plus the portion of the PE's income that flows through to members who are Connecticut residents and that is not sourced to any state.

PASS-THROUGH ENTITY (cont.)

Pass-Through Entity Tax Credit

Members of a PE are entitled to a credit based upon their respective shares of the PE's tax liability. For taxable years that begin on or after January 1, 2019, the PE Tax Credit is 87.5% of the member's share of the PE Tax.

A member may claim the PE Tax Credit against taxes imposed under chapter 208 (corporation business tax) or chapter 229 (income tax).

Composite Personal Income Tax

Pass-Through Entities can remit composite income tax in connection with the PE's taxable year on behalf of each of its members who are nonresident individuals. Pass-Through Entities remitted \$19,499,499 in Personal Income tax in 2021.

Pass-Through Entity Tax Optional Starting January 1, 2024

Recent legislation makes the pass-through entity tax optional, effective January 1, 2024, and applicable to taxable years commencing on and after that date. Any entity that elects to pay such tax must give the Commissioner of Revenue Services written notice for each tax year it makes the election and must do so no later than the due date (or extended due date) for filing the return. The legislation also makes the following changes to the pass-through entity tax:

- Eliminates the standard base method and instead requires all entities electing to pay the tax to use the alternative base method.
- Requires that the pass-through entity file an income tax return and pay the tax on behalf of any nonresident member for whom the business is the only source of Connecticut income.
- Eliminates the credit against the corporation business tax for pass-through entity tax paid by an entity on behalf of a corporation that is member of said entity and that is subject to the corporation tax.
- Eliminates the option for a pass-through entity to file a combined return with one or more commonly owned pass-through entities.

Cap on Petroleum Products Gross Earnings Tax

The petroleum products gross earnings tax has a \$3.00 per gallon cap on which the tax is calculated for the first sale for gasoline and gasohol. Petroleum products distributors are required to calculate the tax at \$3.00 per gallon even if the price exceeds said amount and any consideration received by the distributor in excess of \$3.00 is exempt from tax.

Connecticut Airport and Aviation Account

The Department of Revenue Services was required to deposit 75.3% of the petroleum products gross earnings tax received from aviation fuel sources into the Connecticut Airport and Aviation Account. Just over \$7.1M was deposited into the account in FY23.

Recent legislation exempts “aviation fuel” from the petroleum products gross earnings tax effective July 1, 2023, and applicable to first sales occurring on or after July 1, 2023.

A Prepaid Wireless E 9-1-1 Fee is levied on each sale of prepaid wireless telecommunications service by a retailer. Prepaid wireless telecommunications include prepaid wireless phone cards, recharge or refill authorization codes, and prepaid cell phones or other prepaid wireless devices preloaded with airtime minutes.

The fee is determined each June for the upcoming fiscal year by the Connecticut Public Utility Regulatory Authority (PURA). All monies collected are deposited in the Enhanced 9-1-1 Telecommunications Fund. Retailers may retain 1% of the Prepaid Wireless E 9-1-1 Fees they collect. Beginning July 1, 2022, marketplace facilitators are required to begin collecting and remitting the E 9-1-1 fee.

Interest is also charged on any amount of tax due that is not paid on or before the due date or on the underpayment of estimated tax requirements. Interest is charged on a monthly basis at a rate of 1% per month from the due date.
