FISCAL YEAR 2015-2016 ANNUAL REPORT

STATE OF CONNECTICUT DEPARTMENT OF REVENUE SERVICES

Dannel P. Malloy Governor Kevin B. Sullivan Commissioner

A MESSAGE FROM THE COMMISSIONER

I am pleased to present our Annual Report. DRS continues to work with Governor Malloy to restore fiscal stability, encourage economic growth and make state government leaner, smarter and more responsive.

Actual state revenue collection improved over the prior year, but DRS is always challenged to do even better in closing the "tax gap" between what is due and what is paid. This past year, we improved tax collection and agency productivity while cutting agency costs.

DRS continued to ramp up our efforts to protect taxpayers and fight tax fraud. The agency has been much more active and visible in reaching out to taxpayers with better and more accessible information and assistance. We launched a major reform of Connecticut's tax laws to be fairer to businesses that are based in our state. DRS also became even more engaged in developing in state economic and fiscal policy.

This Annual Report offers an overview of our activities and summary statistical data for the taxes we administer. More information is available through our website at www.ct.gov/drs and our Research Unit at drs.taxresearch@po.state.ct.us.

We hope you find this report helpful and we welcome any comments or suggestions.

Sincerely,

Kevin B. Sullivan

Revenue		
FY 2015-16	\$869,053,285	
2014-15	766,105,922	
2013-14	768,501,652	

Basis and Rate

Net Income Base Method

The method under which most Corporation Business Tax revenue is derived is the Net Income Base. Corporations compute their Connecticut Net Income by starting with Federal Taxable Income and then applying the adjustments allowed or required by Connecticut law to the federal taxable income of the corporation.

For Connecticut Net Income purposes corporations must add back certain items deducted in arriving at federal taxable income, such as:

- Exempt interest income
- State and local income taxes
- Royalties or interest paid to a related member
- Bonus depreciation
- Domestic Production Activities deduction.

Certain other deductions are then allowed, such as:

- Certain dividends
- Capital losses carryovers not deducted in computing federal gain
- Deferred cancellation of debt income.

Beginning in income year 2016, companies that conduct business in multiple states are allowed to apportion their net income based upon the percentage of their sales made in Connecticut. Prior to income year 2016, most businesses were required to also include the percentage of their Connecticut property and payroll in the apportionment calculation. Special single-factor apportionment rules are provided for certain industries such as financial service companies, manufacturers and broadcasters.

Beginning in income year 2016, market-based sourcing rules consider sales of services and most intangible property to be made where the customer is located. Prior to income year 2016, sales of services and most intangible property were considered to be made at the location of the seller.

Apportioned net operating losses incurred for income years beginning on or after January 1, 2000, may be carried forward for 20 successive income years. Effective for income years beginning on or after January 1, 2015, a taxpayer's net operating loss (NOL) deduction may not exceed 50% of its net income.

Connecticut Net Income is taxed at the rate of 7.5%.

Capital Base Method

Corporations must also compute their tax under the Capital Base method. The capital base is the total value of the average capital stock, surplus and undivided profits, and surplus reserves, less the average values of deficits and stockholdings in private corporations. Multi-state corporations multiply their capital base by an apportionment fraction.

The capital base is taxed at a rate of 3.1 mils (\$0.0031) per dollar. Under the capital base method, a corporation is limited to a maximum tax of \$1,000,000. Financial service companies are excluded from the capital base method, but are subject to the minimum tax.

Corporations are subject to tax on the greater of the Net Income Base method or the Capital Base method calculations.

Minimum Tax

If a corporation's calculation of the tax is less than \$250 under both of the two previous methods, it pays a minimum tax, which is currently \$250. The majority of corporations pay the minimum tax.

Surtax

For income years beginning between 2012 and 2017, corporations, except those paying the minimum tax of \$250, pay a surtax in an amount equal to 20% of the tax due before credits are applied. The surtax rate is reduced to 10% in income year 2018.

Companies whose gross income is less than \$100 million are exempt from the surtax unless they file as part of a combined or elective unitary return (through income year 2015) or as part of a combined unitary return after income year 2015.

The total amount of surtax reported on Income Year 2014 returns was \$85.7M.

Combined Returns

If a corporation is permitted to file a federal consolidated return, it may elect to file a combined return in Connecticut. Filing a combined return allows a group of corporations engaged in business in Connecticut to file jointly. Their combined Connecticut tax liability is determined after each corporation individually apportions its income to Connecticut.

Taxpayers may no longer file combined returns for income years beginning on or after January 1, 2016.

Preference Tax

A preference tax had been imposed on corporations filing a combined return. These corporations were not entitled to the first \$500,000 of tax savings over what they would pay if they filed separately. Combined filers determined the total tax due as if they were filing separately. The difference, up to \$500,000, between this amount and the total combined tax was the preference tax and must be added to the total combined tax.

The total tax due for income year 2014 combined filers had they filed separate single returns would have been \$507.1M. The preference tax due by these filers was \$34.2M. The total tax due before credits for combined filers was \$235.0M, including the \$34.2M in preference tax.

Elective Unitary Returns

Elective unitary tax returns measure the entire net income of all of the corporations included in the unitary group as if they were one corporation. Corporations that are subject to the add back of interest expenses paid to related members may elect to calculate their tax on a unitary basis provided there are substantial inter-corporate business transactions among the included corporations. Taxpayers may otherwise petition DRS for approval. The combined entire net income of the unitary group is apportioned to Connecticut as if it was one corporation.

Taxpayers may no longer file elective unitary returns for income years beginning on or after January 1, 2016.

Combined Unitary Reporting

Effective for income years beginning on or after January 1, 2016, commonly owned corporations that are engaged in a unitary business, where at least one corporation is subject to the Corporation Business Tax, are required to file their Corporation Business Tax returns on a combined unitary basis. Taxpayers may no longer file combined returns or elective unitary returns for income years beginning on or after January 1, 2016.

ESTATE AND GIFT TAX

Resident and nonresident estates of decedents are liable for the Connecticut Estate Tax on the amount of the Connecticut taxable estate that exceeds \$2 million.

"Connecticut taxable estate" is defined as the sum of the total value of the decedent's federal gross estate, less allowable deductions, plus the aggregate amount of Connecticut taxable gifts made on or after January 1, 2005. A credit is granted for gift taxes paid on Connecticut taxable gifts made on or after January 1, 2005; however, the credit cannot exceed the amount of the Connecticut estate tax.

The maximum amount of gift and estate tax that will be paid by donors or the estates of residents and non-residents who die on or after January 1, 2016 is capped at \$20 million. The \$20 million cap is reduced by the amount of any gift taxes paid on taxable gifts made by the decedent, the decedent's estate, or the decedent's spouse on or after January 1, 2016.

For Connecticut taxable gifts, a donor must pay Connecticut gift tax if the aggregate amount of Connecticut taxable gifts made on or after January 1, 2005, exceeds \$2 million. A credit is allowed against the Connecticut gift tax for Connecticut gift taxes paid on Connecticut taxable gifts made during calendar years beginning on or after January 1, 2005; however, the credit cannot exceed the amount of the Connecticut gift tax.

"Connecticut taxable gifts" are defined as taxable gifts as determined for federal gift tax purposes. They include:

- Gifts of Connecticut real property;
- Gifts of tangible personal property situated within Connecticut; or
- Gifts of intangible personal property made by Connecticut residents.

Taxpayers are required to file a Connecticut Estate and Gift Tax return to report all Connecticut taxable gifts, even if no Connecticut gift tax is due. The maximum amount of gift tax payable on taxable gifts donors make on or after January 1, 2016 is capped at \$20 million.

Taxpayers must make estimated payments if their Connecticut income tax (after tax credits) minus Connecticut tax withheld is more than \$1,000.

INSURANCE PREMIUMS TAX

Insurance companies, domestic and foreign, are taxed in Connecticut on the total net direct premiums received from policies written on property or risks within the State. Total net direct subscriber charges received on any new or renewal contract or policy by a health care center are also taxed. The State also imposes a tax on premiums for unauthorized insurance. Specifically, insureds who procure nonadmitted insurance are required to remit tax on premiums paid to a nonadmitted insurer. Additionally, risk retention groups are required to pay tax on premiums collected on coverages within the State. Captive insurance companies are now allowed to operate within Connecticut. A captive insurance company is a company that is created and wholly owned by one or more non-insurance companies to insure the risks of its owners as a type of self-insurance.

MOTOR CARRIER ROAD TAX

Connecticut has participated in the International Fuel Tax Agreement (IFTA) since 1996. IFTA is a cooperative agreement among most states and provinces of Canada that simplifies the collection and reporting of fuel use tax by interstate motor carriers. Under IFTA, fuel tax returns are filed in the base jurisdiction of the motor carrier. The base jurisdiction of a motor carrier is where the vehicle is based for registration purposes and where operations are controlled and the vehicle is operated. For IFTA fuel tax reporting, a qualified motor vehicle is a vehicle that is designed to transport persons or property and that has: two axles and a gross vehicle weight or registered gross vehicle weight over 26,000 pounds; or three or more axles regardless of weight; or when used in combination, a combined gross vehicle weight over 26,000 pounds. Motor carriers who meet this qualification, and who travel solely within the State, are not required to file a return, but instead are subject to the tax at the time of purchase.

RENTAL SURCHARGE

The Rental Surcharge is imposed on the rental of private passenger motor vehicles, rental trucks or machinery by a rental company. Rental companies must pay over the portion of the surcharge collected during the calendar year that exceeds the amount paid in personal property tax and the amount paid in titling and registration fees in Connecticut.

Rental companies are defined by recent legislation to exclude entities with total annual rental income, excluding retail or wholesale sales of rental equipment, which is less than 51% of their total annual revenue.

A 3% rate applies to the rental of private passenger motor vehicles and rental trucks for a period of less than 31 days. A rental truck is defined as either a vehicle rented without a driver that has a gross vehicle weight rating of 26,000 pounds or less and is used in the transportation of personal property but not for business purposes, or a trailer that has a gross vehicle weight rating of not more than 6,000 pounds.

A 1.5% rate is applied on machinery rented for a period of less than 365 days (formerly limited to a period of less than 31 days), or under an open-ended contract for an undefined period. 2015 legislation amended the definition of machinery to include all equipment owned by a rental company. Prior to July 1, 2015, the definition of machinery included only heavy equipment rented without an operator that may be used for construction, mining or forestry.

- 5% for EFT payments more than 5 days but not more than 15 days late; and
- 10% for EFT payments more than 15 days late.

The penalty for the late payment of Sales and Use taxes is 15% of the amount due, or \$50, whichever is greater. The penalty for failure to pay the use tax with the Connecticut income tax return is 10%, reduced from 15%, to parallel the rate for the income tax.

Interest is also charged on any amount of tax due that is not paid on or before the due date or on the underpayment of estimated tax requirements. Interest is charged on a monthly basis at a rate of 1% per month from the due date.

TAX REFUNDS

The Department of Revenue Services issues refunds to taxpayers when an overpayment of tax liability has been made. The refund is charged to the fund to which such tax, penalty or interest was previously credited. Due to statutory allowances, refunds for Motor Fuel Taxes are allowed in certain cases involving fuel sold to a Connecticut motorbus company or company engaged in livery service.

Refunds of the Personal Income Tax owed to any person or entity with a debt obligation to Connecticut, the Internal Revenue Service or another reciprocating state may be withheld to offset the outstanding debt. There were 57,129 external offsets totaling \$23,079,007 in Fiscal Year 2015-16, compared to 42,258 external offsets that totaled \$19,026,586 in Fiscal Year 2014-15.
