

Sustainability Performance Plan

FY 2022

*This report was written in compliance with
section 5 of Executive Order 1.*

Sustainability Performance Plan

Executive Order 1 (EO 1) calls on Executive Branch agencies to advance environmental leadership and cost savings for taxpayers by reducing greenhouse gas emissions and other sustainability objectives in energy use in buildings and vehicles, water use, and waste disposal.

The goals of EO 1 include:

- 45% reduction in GHG emissions below 2001 levels,
- 10% reduction in water consumption from a FY20 baseline, and
- 25% reduction in waste disposal from a FY20 baseline.

Sustainability Performance Plans are plans drafted each year by Senior Sustainability Officers to detail agency progress and necessary goals, actions, and responsible parties to achieve the targets set in EO 1.

This report includes details on sustainability initiatives and participation in the GreenerGovCT initiative in FY22.

Agency Details

Agency: CT Lottery Corporation

Senior Sustainability Officer: Barbara Petano

Date Submitted: 12/30/2022

GreenerGov CT Participation Overview

1. How has your agency worked towards the sustainability goals of EO 1 in FY22?

We are limited in our abilities at this leased space.

We are relocating in summer of 2023, which further limits our options at this time.

2. List key agency staff involved in EO 1 in FY22.

Barbara Petano
Joseph Antonelli
Suzanne Colley

Sustainability Projects

3. How many projects has your agency implemented that had a positive impact on sustainability in FY22? Include projects relating to infrastructure improvements as

well as behavioral change that took place in owned, leased, or occupied space and were either in progress or completed in FY22.

4

4. Provide a summary of the sustainability projects completed in FY22 at your agency.

For each project include:

- a. Project summary**
- b. Project location**
- c. Project status**
- d. Project benefits**
- e. Projected savings (in dollars and the appropriate unit of measurement if known)**

1. We now use 100% recyclable envelopes for all instant ticket shipments. There is not a cost savings, but an environmental impact.
2. All requests for proposals and RFX offerings are issued and received electronically. There is a huge savings in paper, dollar savings are modest, approx. \$1,000 annually, environmental impact heavy.
3. Refurbishing efforts for our acrylic ticket dispensers continue. Instead of trashing and replacing, we refurbish and redistribute. Again, dollar savings are modest, perhaps \$2,000 annually, but environmental impact is significant.
4. Our company newsletter is now issued electronically, a savings of approx. \$600 annually, but environmental impact is significant.

Future Plans

5. What planned sustainability initiatives beyond FY22 does your agency have relating to GHG reduction, water use reduction, and waste reduction?

We are limited in our abilities at this leased space.

We are relocating summer of 2023, which further limits our options.

We will again be in leased space, but will look immediately for opportunities.
