

Sustainability Performance Plan

FY 2023

*This report was written in compliance with
section 5 of Executive Order 1.*

Sustainability Performance Plan

Executive Order 1 (EO 1) calls on Executive Branch agencies to advance environmental leadership and cost savings for taxpayers by reducing greenhouse gas emissions and other sustainability objectives in energy use in buildings and vehicles, water use, and waste disposal.

The goals of EO 1 include:

- 45% reduction in GHG emissions below 2001 levels,
- 10% reduction in water consumption from a FY20 baseline, and
- 25% reduction in waste disposal from a FY20 baseline.

Sustainability Performance Plans are plans drafted each year by Senior Sustainability Officers to detail agency progress and necessary goals, actions, and responsible parties to achieve the targets set in EO 1.

This report includes details on sustainability initiatives and participation in the GreenerGovCT initiative in FY23.

Agency Details

Agency: CT Lottery Corporation

Senior Sustainability Officer: Barbara Petano

Date Submitted: 10/27/2023

GreenerGov CT Participation Overview

1. How has your agency worked towards the sustainability goals of EO 1 in FY23?

In design of the renovations required in our office move, we took a proactive approach when planning out the new space, utilizing upgraded lighting and energy efficiencies.

2. List key agency staff involved in EO 1 in FY23.

Barbara Petano
Suzanne Colley

Sustainability Projects

3. How many projects has your agency implemented that had a positive impact on sustainability in FY23? Include projects relating to infrastructure improvements as well as behavioral change that took place in owned, leased, or occupied space and were either in progress or completed in FY23.

Five (5)

- 4. Provide a summary of the sustainability projects completed in FY23 at your agency. For each project include:**
- a. Project summary**
 - b. Project location**
 - c. Project status**
 - d. Project benefits**
 - e. Projected savings (in dollars and the appropriate unit of measurement if known)**

The CT Lottery moved from Rocky Hill to Wallingford in August of 2023. The new building specs included the following completed projects:

1. Lighting -
All LED lighting
All lights are individually programmed, which includes the warehouse. Lights can be individual or grouped on motion sensors. Lights automatically turn off (after about 20 minutes) when the motion times out.
2. Doors – Energy vestibules that protect against drafts.
3. Café - New appliances, including mini refrigerators used in the office, are energy efficient.
4. Refrigerated water dispenser filling station(s) and water fountains (ADA) –
Floor standing model, no-touch, tracks number of bottles saved by refilling
5. Rest Rooms -
Toilets - high efficiency, ultra-low consumption, automatic flush
Sinks – high efficiency, sensor activated no-touch dispensing, single handle pull-down sensor
Soap dispensers – high efficiency, sensor activated no-touch dispensing
Paper towel dispensers – sensor activated no-touch dispensing, average 8” length

Projected savings are unknown, as this is a new (to us) building, we don’t have the benchmark ability to compare to previous expenses.

Future Plans

- 5. What planned sustainability initiatives beyond FY23 does your agency have relating to GHG reduction, water use reduction, and waste reduction?**

We will continue to recycle used pallets. We will continue to clean and reuse acrylic dispensers. We will continue to utilize the state surplus for various materials, which saves our landfill footprint.
