DASHBOARDS

SEE LIVE DATA

The data is always up to date with what is in our system.

QUICKLY VIEW PERFORMANCE STATISTICS

It's the simplest way to quickly view utility information.

SHARE WITH THE PUBLIC

Dashboards can be made private for internal uses or shared publicly to make information available to stakeholders.

EnergyCAP Version 7 Powerful New Dashboards and Maps

Powerful New Dashboards and Maps

Create and customize different dashboards and maps for divisions within your organization.

Benefits of Dashboards

- Easier to find useful information.
- Make smarter decisions.
- Share dashboards with others in your organization.
- Share information with the public—no login required.

The data is REAL and always up to date!

The **Dashboards Shared with Me** and the **Maps Shared with Me** contain dashboards and maps created by a user in your organization and shared with all users. These types of dashboards may be copied, but they cannot be edited.

The ability to create and share dashboards is based on your user role. All users can create personal dashboards. Only certain user roles can share or make dashboards public.

When a user is made inactive their shared dashboards are not available.

Show First 'N' Values

Some filter options may produce too many results for a dashboard and produce an error.

Try using the **Show First 'N' Values** filter to limit the results in your dashboard.

What is Topmost?

Use the filter Topmost Place Name or Topmost Cost Center Name to analyze a subset of data in your dashboard.

This topmost filter lets you select a lower node in the tree. Your dashboard will display data from this topmost place rather than from the top of the tree.

FREE HOW-TO GUIDE

Look for it in March's meeting recap email

ACCOUNTING AND REPORTING GUIDELINES

THE COMMENT PERIOD HAS CLOSED

on version 1 of EO 1 Accounting and Reporting Guidelines

THANK YOU FOR SUBMITTING COMMENTS AND QUESTIONS

Suggestion: Capturing large quantity of gasoline use being consumed in employee personal vehicles while on state business. [Agency] spends thousands mileage reimbursements for state business in personal vehicles.

Question 1: Is a building that [an agency] owns, but leases out to a private operator, required to be part of EO #1?

Answer 1: No, lease-outs to non-state entities are considered out of EO 1 scope.

The background features a white central area with decorative elements: a teal brushstroke in the top-left corner, a yellow brushstroke in the bottom-right corner, and several light blue and light green organic shapes scattered throughout.

BUILDING AUDITS

BUILDING AUDIT SELECTIONS

SELECTED BUILDINGS

Five consultants were each assigned a subset of the 35 locations

Buildings were initially selected on a square footage basis, and then refined based on criteria on the right.

CRITERIA FOR SELECTION

1. High, and likely inefficient, energy users due to outdated systems or equipment
2. No recent comprehensive energy improvements
3. Align with the state facilities plan and broader capital investment goals

35 SELECTED BUILDINGS

Vinal Regional Vocational Tech
Roselle School
Capitol Region Mental Health Center
Whiting Forensic Hospital
18-20 Trinity Street, Hartford
30 Trinity Street, Hartford
505 Hudson Street
Uncas - Campbell Building (Medical Building)
460 Capitol Avenue, Hartford
Rentschler Field Stadium
450 Capitol Avenue, Hartford
Uncas - Southeastern Mental Health Authority
CT Mental Health Center
410 Capitol Avenue, Hartford
Rowland State Government Center
300 Corporate Place, Rocky Hill
Battell Hall
Merritt Hall
DCF Building 8 East Campus
DCF Education/Recreation/Admin Facility

DESPP Laboratory
Department of Public Safety Headquarters
CT. State Police Academy - Main Bldg.
Various Cheshire Corrections Institution Facilities
Carl Robinson Education/Medical and Admin. Facilities
New Center
Garner Correctional Institution
42 Jarvis Street, Cheshire
Bridgeport Memorial Unit
Webster Building
Hartford Correctional Center
R. L. Corrigan Correctional Inst
Brooklyn 300 Bed Dorm & Support
Various Enfield Corrections Institution Facilities
Willard Correctional Institution

**THESE 35 BUILDINGS REPRESENT
ALMOST 5 MILLION SQ FT**

AUDIT LOGISTICS

TIMELINE

- Contractor site visits commenced on 2/24
- The bulk of the draft reports are expected early July
- Final Reports are expected end of August

ACCURATE BUILDING DATA

- Continued collaboration with DEEP for facility energy use information within EnergyCAP database

INCENTIVES AND COSTS

- Lowered audit costs from **\$1.2 million** to **\$625,000** through negotiation
- Partnering with Eversource and UI for significant rebates; **up to 40% of projected audit expenditures**

**THE GOAL IS TO
COMPLETE ALL
AUDITS OVER 7-8
MONTHS.**

AUDIT REPORTS

GOAL OF REPORTS

The main purpose of the energy audits is to **identify no-cost/low-cost, and high-impact energy savings opportunities**, providing recommendations in line with the State's efficiency goals.

Results will be provided in standardized, comparable reports for each facility.

Audit reports will be used as a basis for planning energy cost reduction projects.

REPORT CONTENTS

- condition of energy equipment
- In-depth analysis of energy/water cost trends and usage patterns
- *Energy Use Intensity (EUI*)* benchmarking
- determination of potential for energy and water savings
- feasibility of renewable energy systems on the audited property, as applicable

*EUI can be defined as the measurement of a building's annual energy consumption relative to its square footage.

PROJECT TEAM REPORT-OUTS

PUBLIC ENGAGEMENT REPORT-OUT

Goal of Award Ceremony

To recognize and identify champions of sustainability, highlight contributions, and encourage a culture of recognition and longevity.

Nominations Form

- **Agency Changemaker** - nominated by each SSO to a sustainability champion at their agency
- **High-Impact Project** - goes to agencies or institutions in the GHG, Water, and Waste categories
- **Governor's Recognition Award** - 2-3 groups or individuals to recognize in their work in the GreenerGov sphere

Timeline

- March 20: release nominations form
- Early May: Award Ceremony

Details

- Press Release in late April with Awards Ceremony Announcement
- Potential of a low/zero waste event?
- Booths to showcase CT resources

SUSTAINABLE WATER USE STRATEGIES

DIFFICULTY

Strategy 1: Water Conservation and Reduction Sign Campaign

Strategy 2: WaterSense Standards

Strategy 3: Water Management Planning Strategy

Strategy 4: Landscaping and Green Infrastructure

Strategy 5: Water Conservation and How to do it by Mechanical Means

ENERGY EFFICIENCY STRATEGIES

Strategy 1: Complete an energy efficiency project through the SBEA program or another option offered through the utilities, using developed SOP

Strategy 2: Complete a Bond Funded energy efficiency Project using developed SOP

Strategy 3: Use EnergyCAP to run reports to identify buildings that are inefficiently using energy and good candidates for efficiency measures

DIFFICULTY

CLEAN AND EFFICIENT TRANSPORTATION STRATEGIES

Strategy 1: Identify Internal and External Funding Streams For EV Infrastructure.

Strategy 2: Analyze All Aspects Of Agency Vehicle Needs For Efficiencies And Opportunities To Reduce Overall Vehicle Counts.

Strategy 3: Agencies Should Prioritize Purchase Of The Most Fuel-Efficient Vehicles That Meet Program Needs.

DIFFICULTY

SPP **SURVEY**

Upcoming Survey

The reporting team has prepared a survey on your experience completing the Sustainability Performance Plan.

They hope to use feedback on this survey to shape future reporting.

Be on the lookout for a survey from the Reporting Team later this month.

FIX A LEAK
WEEK

FIX A LEAK WEEK

3/16 - 3/22

- Run by EPA's WaterSense program
- Offers an opportunity for SSOs to jumpstart water reductions by reporting and fixing leaks at state buildings and facilities.
- We will share promotional materials and helpful how-to handouts
- Track reported and/or fixed leaks for a survey at the end of the week

NEXT STEPS

NEXT STEPS

Refine Sustainability Strategies

Project teams may be asked to edit strategies.

Level 3

Complete Level 3 by April 1, 2020

Encourage leak reporting

Fix a Leak week is 3/16 - 3/22
