Subject: Novavax Now Available for Order, July 26, 2022

DEPARTMENT OF PUBLIC HEALTH

This communication is being sent to all key contacts at provider organizations administering COVID-19 vaccine— please read this message in its entirety. Please feel free to share it with others in your organization who may benefit from the update. Note that all our communications are archived on our [web site](#).

Dear Connecticut COVID-19 Vaccine Providers,

As a reminder, Novavax COVID-19 vaccine is now authorized and recommended for use for individuals 18 years of age and older. This vaccine is recommended as a two-dose primary series, administered 3-8 weeks apart. Providers may now order Novavax through the [submissions portal](#).

The product is a 10-dose multi-dose vial that does not require any diluent and is stored at refrigerator temperatures 2° to 8°C (36° to 46°F). Do not freeze this vaccine. Once opened, each vial must be used within 6 hours. Providers can order in multiples of 100 doses for direct shipment from the manufacturer. Connecticut DPH will attempt to arrange for redistribution for orders less than 100 doses, so if you would prefer a smaller order, please enter any number of doses you would like in multiples of 10.

Below is a list of resources and upcoming informational activities related to the recommendations:

- Novavax Website: [NovavaxCovidVaccine.com](https://www.novavax.com) and Contact: www.novavax.com/contact
- Register for Novavax Office Hours [here](#)
