Freed for register of the wind by the second of the second	Protect Your Preteen or Teen with Shots—They're Not just for Babies! This informative, motivational booklet teaches parents that shots are just as important for preteens as they are for infants and toddlers. It provides a handy chart of "catch-up" and older child immunization. Also included: brief explanations of diseases of special concern that shots can protect against, special issues and those considered at high risk.	English  Spanish	Preventing Medicults	Preventing Meningitis This booklet raises awareness of meningitis, how it is spread, symptoms to look for, and how to avoid infection. Urges readers to get vaccinated, avoid sharing personal items, wash hands often, and adopt other healthy habits. Includes a list of warning signs and recommends seeking medical care immediately if symptoms are observed. English only.
