OCC FACT SHEET: ELECTRIC SUPPLIER MARKET, JUNE 2025 THROUGH MAY 2026

The following is an update to the Office of Consumer Counsel's (OCC's) Electric Supplier Market Fact Sheet, originally created in [2014](#). The numbers provided herein are based on data submitted as compliance filings in the Public Utilities Regulatory Authority's Docket Number 06-10-22.

- Retail suppliers served 14.9% of Eversource Energy (Eversource) residential customers and 16.0% of United Illuminating (UI) residential customers, in May 2026.
- In the month of May 2026, **six out of ten** residential supplier customers paid less than the Standard Offer in Eversource territory, and **seven out of ten** residential supplier customers paid less than the Standard Offer in UI territory.¹

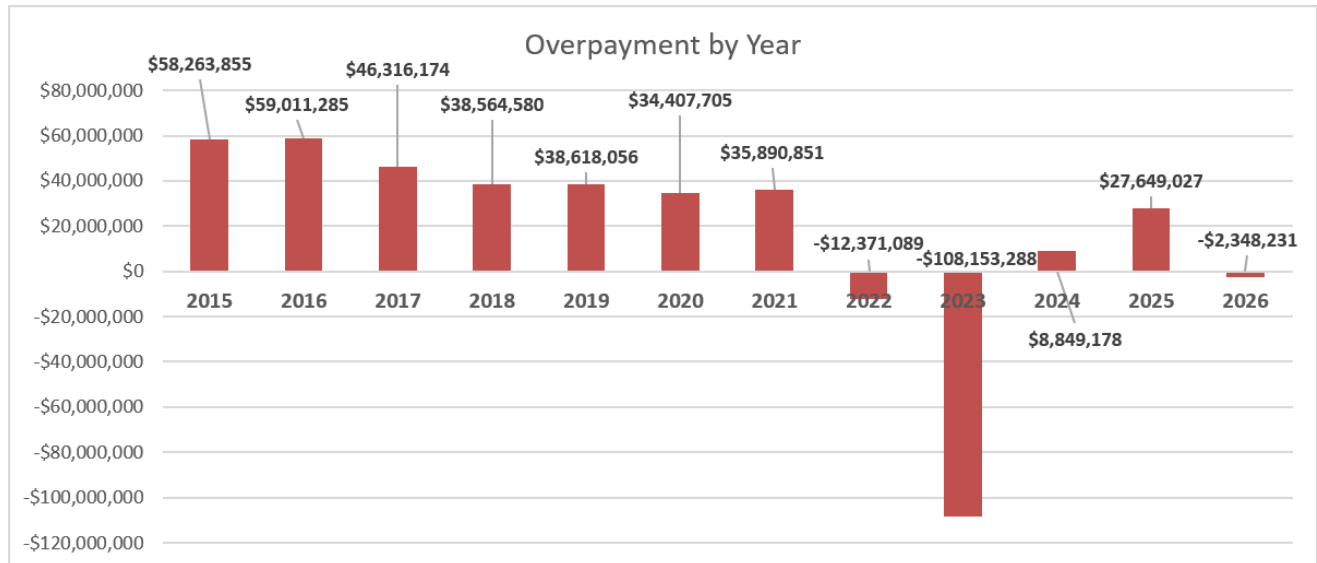

- In the month May 2026, residential Eversource customers who chose suppliers saved in aggregate **\$336,485 more** than the Standard Offer for their electric generation, and residential UI customers who chose suppliers saved in aggregate **\$245,417 more** than the Standard Offer.²

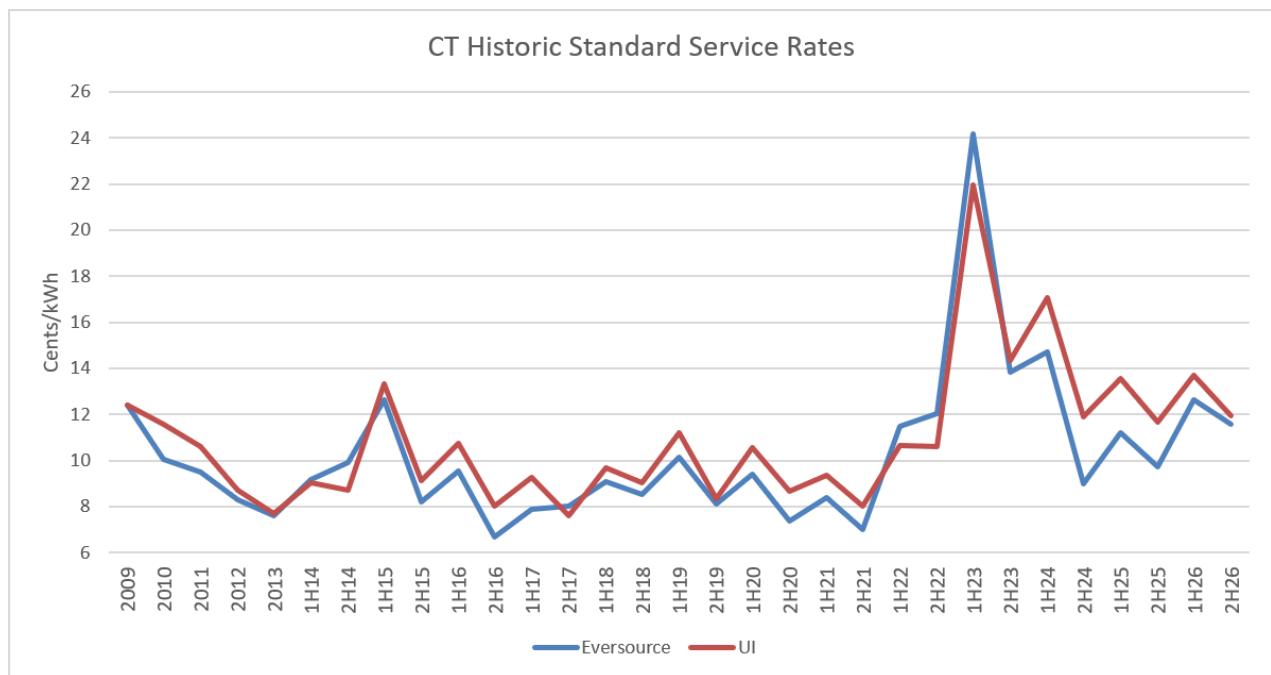

¹ This Fact Sheet only examines available data regarding pricing by electric suppliers. While some suppliers may offer products or services to customers such as airline miles or a product with additional renewable energy content, there is no data available to quantify the value of such offers. OCC recommends that customers look carefully at the fine print for offers for additional products or services that come with higher prices, to ensure they are getting sufficient value to justify the higher price tag.

² Data now includes actual kWh usage. Usage assumption no longer needed going forward in calculations.

- For the rolling year of June 2025 through May 2026, residential consumers who chose a retail supplier paid, in aggregate, **\$19,116,218 more** than the Standard Offer.
- Since January 2015, when OCC started tracking supplier data, customers with a supplier have overpaid a total of **\$224,698,105** more than standard service.

- For Eversource the July 1, 2025 through December 31, 2025 t Standard Offer was 9.748 cents/kWh and the UI Standard Offer was 11.68 cents/kWh.
- For Eversource the January 1, 2026 through June 30, 2026 Standard Offer was 12.64 cents/kWh. For UI the January 1, 2026 through June 30, 2026 Standard Offer was 13.69 cents/kWh.
- Recently the July 1, 2026 through December 31, 2026 Standard Offer was announced. For Eversource the Standard Offer is 11.58 cents/kWh and for UI the Standard Offer is 11.95 cents/kWh.

Below are the cheapest third-party electric supplier rates that are less than the current standard service rates for July 1, 2026 to December 31, 2026. Standard Service rates. Rates below are available on the energizect.com rateboard as of 7/1/26. Please note that the offers available on the rateboard change frequently, and customers should always consult the rateboard for the most up-to-date available offers.

Eversource – 11.58cents/kWh	United Illuminating – 11.95cents/kWh
Major Energy – 10.85 cents/kWh for 4 billing cycles	Major Energy – 10.65 cents/kWh for 4 billing cycles
Town Square Energy – 11.53 cents/kWh for 4 billing cycles	Town Square Energy – 11.47 cents/kWh for 4 billing cycles
