## OCC FACT SHEET: ELECTRIC SUPPLIER MARKET, JULY 2017 THROUGH JUNE 2018

The following is an update to the Office of Consumer Counsel's (OCC's) Electric Supplier Market Fact Sheet, originally created in [2014](#). The numbers provided herein are based on data submitted as compliance filings in the Public Utilities Regulatory Authority's Docket Number 06-10-22.

- Retail suppliers serve 26.2% of Eversource Energy (Eversource) residential customers and 32.5% of United Illuminating (UI) residential customers, in June 2018.
- In the month of June 2018, **five out of ten** residential supplier customers paid more than the Standard Offer in Eversource territory, and over **five out of ten** residential supplier customers paid more than the Standard Offer in UI territory.<sup>1</sup>

- In the month June 2018, residential Eversource customers who chose suppliers paid in aggregate **\$1,928,859 more** than the Standard Offer for their electric generation, and residential UI customers who chose suppliers paid in aggregate **\$465,683 more** than the Standard Offer.<sup>2</sup>
- For the rolling year of July 2017 through June 2018, residential consumers who chose a retail supplier paid, in aggregate, **\$38,641,059 more** than the Standard Offer.

<sup>1</sup> This Fact Sheet only examines available data regarding pricing by electric suppliers. While some suppliers may offer products or services to customers such as airline miles or a product with additional renewable energy content, there is no data available to quantify the value of such offers. OCC recommends that customers look carefully at the fine print for offers for additional products or services that come with higher prices, to ensure they are getting sufficient value to justify the higher price tag.

<sup>2</sup> These calculations are based on an assumption of 750/month kWh usage.

- The Standard Offer for Eversource customers from January 1, 2017 through June 30, 2017, was 7.87 cents/kWh. From July 1, 2017 through December 31, 2017, the Standard Offer for Eversource customers was 8.01 cents/kWh. The Standard Offer for Eversource customers from January 1, 2018 through June 30, 2018, is 9.078 cents/kWh
- The Standard Offer for UI customers from January 1, 2017 through June 30, 2017, was 9.26 cents/kWh. From July 1, 2017 through December 31, 2017, the Standard Offer for UI customers was 7.59 cents/kWh. The Standard Offer for UI customers from January 1, 2018 through June 30, 2018, is 9.66 cents/kWh.
- The following table lists all electric suppliers who charged at least 20% of their residential customers 13.61 cents/kWh (50% higher than Eversource standard service) or 14.49 cents/kWh (50% higher than UI standard service) or more in the month of June. The phone numbers for each supplier are taken from those listed at energizect.com or the website for that supplier.
