Appellate Worksheet Addendum:

Docket sheets do not always include mention of every in-court event. We are required to order all court hearing dates for appeals. To accomplish this trial counsel must provide a very accurate listing of **ALL Court Hearing Dates** including the **Name of the Judge**.

This includes:

Arraignments, probable cause hearings, continuances, trial and verdict proceedings including all motions, preliminary instructions to panels and/or jury, challenges for cause, individual voir dire, evidence, arguments of counsel, closing arguments, jury instructions, questions, supplemental instructions, verdict, post-verdict motions, and sentencing.

If you need more space continue filling out on a new sheet. If you already have the transcript please also fill in the reporter and number of pages.
