* The percentages of people classified as Other race and Multiple race in CT WiZ (for COVID-19 vaccine records and all other vaccine records) are higher than would be expected based on census data and likely include some people who should be classified as Asian, Black, Hispanic or White. Therefore, the coverage in other groups may be underestimated and the coverage estimates should be interpreted with caution.

** These estimates are not being shown because they are considered unreliable

Data are provisional subject to change
