#### Draft CT APCD Data Submission Companion Guide (Version 1.3)

### General File Specifications

Return to the Table of Contents

Basic Rules	
1	Header and trailer records. Each submission regardless of type — eligibility, medical claims, pharmacy claims, dental claims, and provider — must begin with a header record and end with a trailer record (example header,
	eligibility, and trailer records for a test submission of 4,350 records for June 2021 are included below).
2	Submitting multiple months of claims data at once. You may submit multiple complete months of data with one pair of header and trailer records by indicating the earliest date in HD005 and TR005 and the latest date in HD006 and TR006. Note that each month of data will be evaluated for completeness in its own right and will pass or fail as if it were submitted as a single month of data. If a submitter provides a single file with six months of data for January through June and all months except May pass all checks, May will be rejected and the submitter will be asked to correct and resend only May data. No partially complete months are allowed. (Note: Since eligibility files must include all members active within the preceding 12 months, each month's submission should include one record per member for that reporting period. Additional records for a member would be warranted if their information (e.g., product code) changed during the reporting period.)
3	Indicating missing data. When two or more pipes appear together, there is no data for the field. For example, in the eligibility file example below (mock data for file type = ME), the lack of data between the pipes highlighted in yellow indicates fields that are unavailable for reporting. Please note that the header data is in purple, the eligibility data is in blue, and the trailer data is in green.

4	No empty rows. Please note that there should be no empty rows separating either the header or the trailer from the reported data.
5	No punctuation. Punctuation should not be included in the reporting of any names, including the names of drugs. For example, a last name of O'Rourke should be reported as "OROURKE".
6	No decimal points. Decimal points should not be included in the reporting of financial fields. For example, a dollar amount of \$120.56 should be reported as "12056".
7	Date formats. Dates, unless otherwise specified, should be reported using the 8-digit format of YYYYMMDD. For example, January 18, 2021, should be reported as "20210118".

All submitter codes associated with a single data submitter will have the same first six characters. A suffix will be used to distinguish the location and/or system variations. This field contains a constant value and is primarily used for tracking compliance by data submitter. Note, too, that the first two characters of the submitter code are used to indicate the client while the third character designates the type of submitter. 1	PV001	Submitter Code	Text	8	Submitter code assigned by Onpoint	Use this field to report your Onpoint-assigned submitter code. The value reported here must match across the following three fields: HD002, TR002, and PV001.	All	100.0%	4/1/2013
						Notes: A single data submitter may have multiple submitter codes if they are submitting from more than one system or from more than one location. All			
						submitter codes associated with a single data submitter will have the same			
						first six characters. A suffix will be used to distinguish the location and/or			
						system variations. This field contains a constant value and is primarily used			
						for tracking compliance by data submitter. Note, too, that the first two			
						characters of the submitter code are used to indicate the client while the			
						third character designates the type of submitter. For Connecticut's APCD collection, the only valid prefixes are:			
						CTC = Commercial carrier			
						CTG = Governmental agency			
						CTT = Third-party administrator / pharmacy benefits manager
