MRP Work Group Project Charter

Review & Alignment

MRP Work Group Project Charter

As Goals and Objectives are reviewed, please discuss and identify areas relevant to the work/mission of this sub-committee (Engagement & Safety)

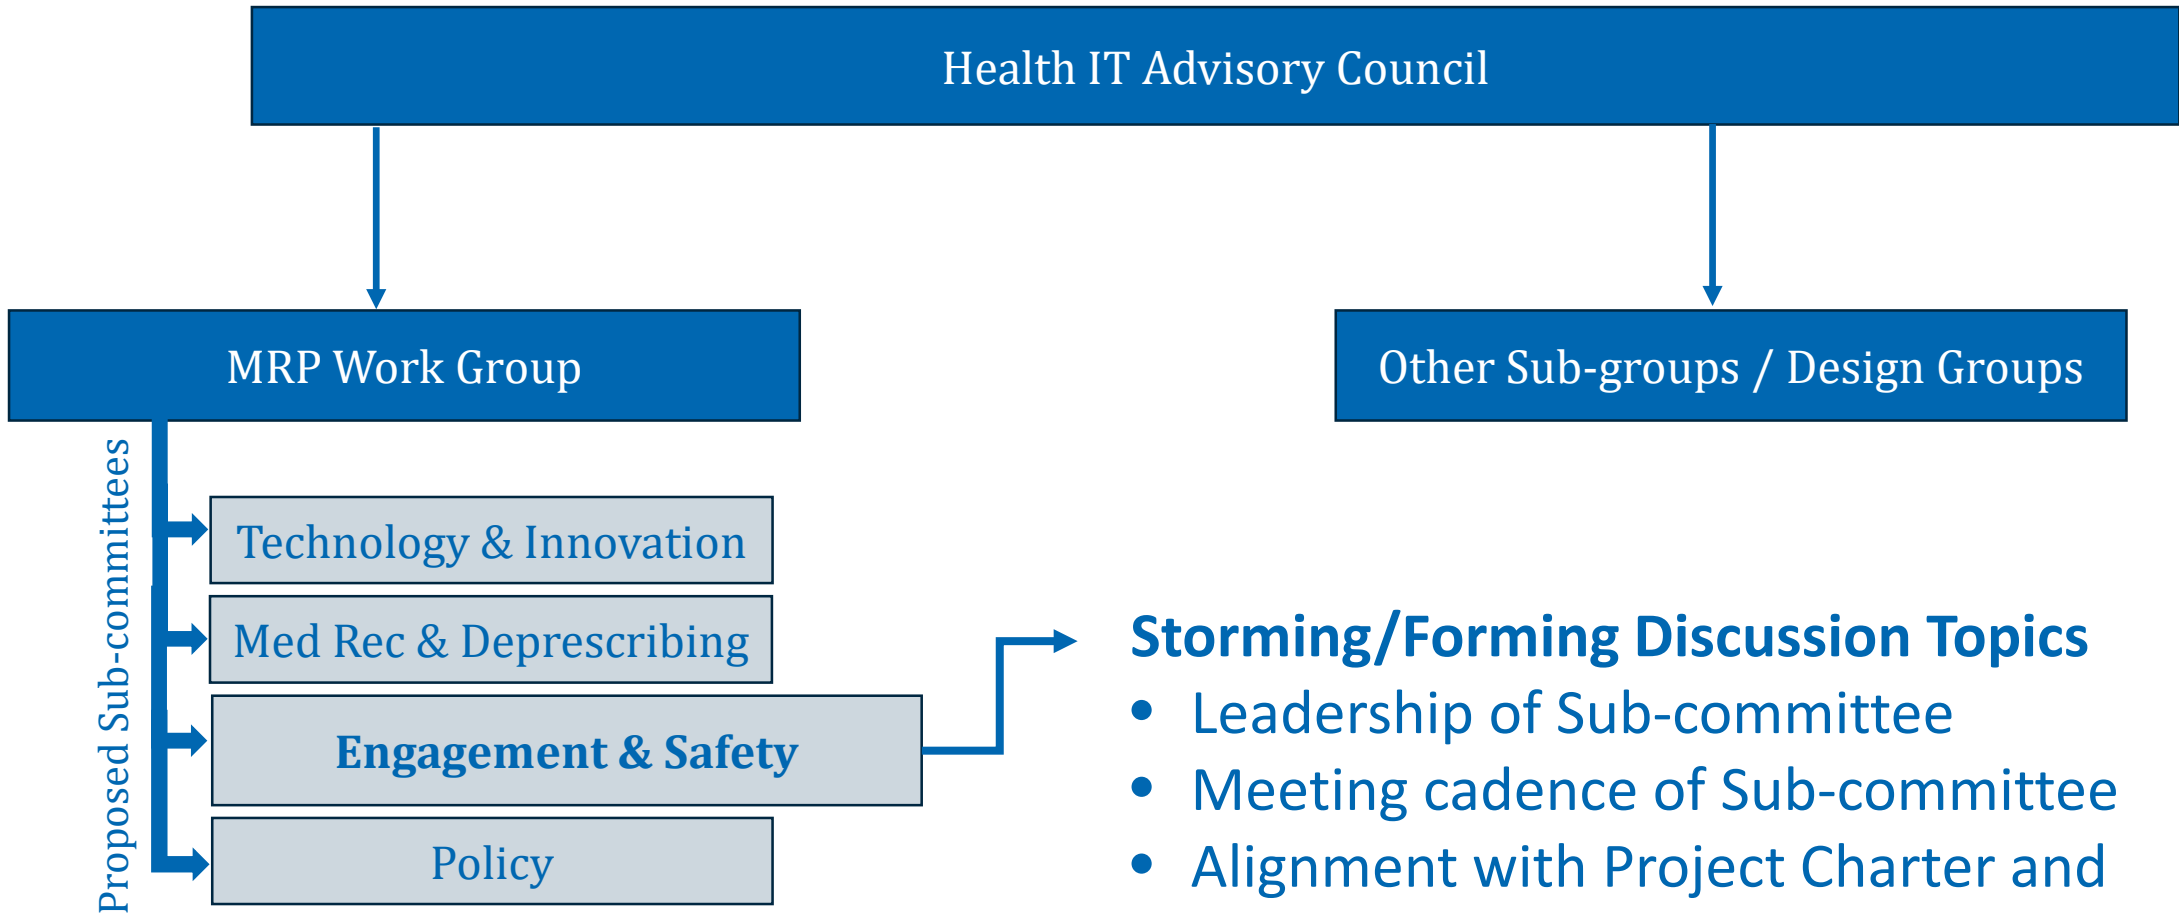

Project Goals and Objectives:

1. Develop, implement, and operate an effective organization structure and process
2. Establish foundational definitions for Work Group activities
3. Secure funding for planning, design, and development/implementation activities
4. Develop strategies to operationalize medication reconciliation by defining responsibilities, communication, and training requirements for healthcare professionals
5. Identify mechanisms to enhance efficiency and effectiveness of cancelling prescription medications
6. Develop strategies to operationalize deprescribing by defining responsibilities, communication, and training requirements for healthcare professionals
7. Develop strategies for communicating with and engaging key stakeholders
8. Support the implementation of priority recommendations based on funding availability and design approval (including proposed State Medication Management Services funding request)
9. Evaluate the effectiveness of any implemented standards and solutions

Sub-committee Forming and Storming

Discussion

Strawman – MRP Work Group Structure

Storming/Forming Discussion Topics

- Leadership of Sub-committee
- Meeting cadence of Sub-committee
- Alignment with Project Charter and goals / objectives
- Output of Sub-committee

Considerations

- Ensure work is inclusive of patient and provider engagement
- What aspects of safety needs to be addressed by this sub-committee?
- Necessary components of a medication reconciliation tool-kit
 - Provider vs. patient considerations
- Necessary components of a deprescribing tool-kit
- Necessary components of a CancelRx tool-kit
- Necessary components of a Communications Plan
 - Provider vs. patient considerations
