Public Comment

Update on Literature Review / Student Assignments

Literature Review / Student Assignments:

Discussion on the best way to present results

Brenda Shipley Presentation – Caregiver’s Perspective: *Discussion*

Topics for Discussion

- What are sources of data to inform a meds list?
- What constitutes acceptable Version 1.0? (informed by stakeholder interviews and focus groups)
- Pilot use of tools with comparative analysis of results
- Ideas and approaches for engagement

Discuss the Development of Initial Recommendations

Based on proposed outline of final report, what are 1-2 top-of-mind initial recommendations that could be put forward by this subcommittee?

Next Steps

Current action items and next steps:

1. Finalize output of literature review / student assignments
2. Contributions to glossary or process diagrams
3. Development and validation of recommendations for July report
4. Make assignments to other Subcommittees (such as Policy) or coordinate as necessary

Next meeting – April 25, 2019 (9am)
