

Broker Academy Program

Health Equity

Eliminating health disparities in Connecticut: You can help us achieve true and sustainable health equity.

"Reducing health disparities is core to our mission at Access Health CT. We can only achieve that goal for all people in Connecticut by addressing social determinants of health, particularly those among communities of color. Join us in our mission-driven goal of health equity for all Connecticut residents, reaching across city lines, one neighborhood at a time."

James Michel
Chief Executive Officer

Broker Academy Overview

- As part of our mission-driven approach to reduce health disparities, Access Health CT **seeks to drive change within underserved communities** by creating a Broker Academy Program – a learning institution for individuals from historically underserved communities
- The Program will create a pathway to license brokers (independent) by recruiting from, and building the skillsets of, those who live and work in underserved communities throughout Connecticut.
- By **activating members of these communities to become licensed brokers**, AHCT can build trust and rapport by meeting members of the community where they are.
- The **objective is to reduce the uninsured rate and address health disparities in the State of Connecticut.**
