Question #7

Where/who and what are the safeguards for the consistency and continuity of the message?

- Hold everyone accountable for consistency and continuity of the message
- When word-smithing recommendations, be sure the list of stakeholders is consistent across recommendations –
- When referring to “all stakeholders”, that term is defined at the beginning of the report
- The definition list -- would be including but not limited to
- All the stakeholders must participate in an independent review process that safeguards consistency and continuity of the message
- Policies and decisions from the review process must be in writing and publicly available
- The process must include public input
-
