Executive Summary

The purpose of the Executive Summary is to give the reviewer a conceptual understanding of the proposal. In the space below, provide a succinct overview of your proposal (this may be done in bullet format). Summarize the key elements of the proposed project. Details should be provided in the appropriate sections of the application that follow.

Saint Francis *Care*, Inc. ("SFC"), proposes to acquire substantially all of the assets of Johnson Memorial Medical Center, Inc. ("JMMC"), Johnson Memorial Hospital, Inc. ("JMH"), Johnson Health Care, Inc. ("JHC"), and Home & Community Health Services, Inc. ("HCHS"; together with JMMC, JMH and JHC, "Johnson"), and, in a separate transaction, The Johnson Evergreen Corporation ("JEC"), in sales to be conducted through Chapter 11 bankruptcy proceedings commenced by Johnson and JEC on January 14, 2015. After a hearing held on May 6, 2015, on May 14, 2015, the United States Bankruptcy Court for the District of Connecticut (the "Bankruptcy Court") entered an order approving the sale of substantially all of Johnson's assets to SFC. The sale of JEC's assets to SFC is subject to competitive bidding process pursuant to a separate motion pending before the Bankruptcy Court and is not part of this application.

Despite Johnson's rich history and its numerous contributions to the local community, its future is uncertain. Since prior to 2008, Johnson has faced significant financial operating deficits and struggled to maintain financial stability, especially in light of national trends of shrinking reimbursement levels, its current level of outstanding debt, lower investment returns, and the need for hospitals generally to make ongoing and substantial investments in new medical and information technologies and facilities. These losses have required Johnson to reduce operating expenses, including limiting employee benefits and delaying capital investments, and have challenged Johnson's efforts to attract and retain physicians. Despite many efforts to mitigate financial losses, Johnson has recognized for some time that without outside assistance and investment, continuing its current level of services as a standalone entity would be very difficult over the long term. Based on the foregoing and as further described in this application, Johnson has determined that the transaction contemplated by this application is the best and most viable option to assure the long term viability of its businesses, employment of the its employees, and provision of healthcare services to the people it now serves.

Pursuant to Section 19a-639 of the Connecticut General Statutes, the Office of Health Care Access is required to consider specific criteria and principles when reviewing a Certificate of Need application. Text marked with a "§" indicates it is actual text from the statute and may be helpful when responding to prompts.

Project Description

1. **Provide a detailed narrative describing the proposal. Explain how the Applicant(s) determined the necessity for the proposal and discuss the benefits for each Applicant separately (if multiple Applicants). Include all key elements, including the parties involved, what the proposal will entail, the equipment/service location(s), the geographic area the proposal will serve, the implementation timeline and why the proposal is needed in the community.**

Overview:

In the context of an increasingly challenging healthcare environment, the proposal outlined in this Certificate of Need Application presents an extraordinary opportunity to improve healthcare quality, efficiency and access for the residents of North Central Connecticut and the State of Connecticut.

Saint Francis *Care*, Inc. ("SFC") proposes to acquire substantially all of the assets of Johnson Memorial Medical Center, Inc. ("JMMC"), Johnson Memorial Hospital, Inc. ("JMH"), Johnson Health Care, Inc. ("JHC"), and Home & Community Health Services, Inc. ("HCHS"); together with JMMC, JMH and JHC, ("Johnson"), and, in a separate transaction, The Johnson Evergreen Corporation ("JEC") in sales to be conducted through chapter 11 bankruptcy proceedings commenced by Johnson on January 14, 2015 (the "Chapter 11 Petition Date"). After a hearing held on May 6, 2015, on May 14, 2015, the United States Bankruptcy Court for the District of Connecticut (the "Bankruptcy Court") entered an order approving the sale of substantially all of Johnson's assets to SFC. The sale of JEC's assets to SFC is subject to competitive bidding process pursuant to a separate motion pending before the Bankruptcy Court and is not part of this application.

Background Information:

JMMC is the sole member of JMH, JHC, HCHS and JEC. Other entities affiliated with JMMC that are not part of the proposed sale transactions include: Johnson Development Fund, Inc. ("JDF"), Wellcare, Inc. ("Wellcare")1, Johnson Professional Associates, P.C. ("JPA") and Johnson Medical Specialists, P.C. ("JMS").

JMH owns and operates Johnson Memorial Hospital (the "Hospital"). JMH owns various parcels of real property in Stafford Springs, Connecticut, including the Chestnut Hill

1 Wellcare, Inc. is a dormant Connecticut stock corporation with no assets.

Road property on which the Hospital is situated (the "Hospital Property"). JMH also operates a surgery center (the "Surgery Center") as an outpatient department of the Hospital at a satellite location in Enfield.

JMMC owns real estate in Enfield, Connecticut (the "Enfield Property"), which includes two medical office buildings. JMH leases space in the Enfield Property from JMMC for its Surgery Center, an Advanced Wound Care service and an infusion center.

JEC owns and operates Evergreen Health Care Center, a chronic and convalescent nursing home ("Evergreen") in Stafford Springs, Connecticut, adjacent to the Hospital. The land on which Evergreen is situated is owned by JMH and ground leased to JEC (the "Evergreen Property"). JEC owns the building for the Evergreen facility.

HCHS provides home health care services in the Hospital's primary service area. Johnson Health Care, Inc. operates the Johnson Occupational Medicine Center, which provides workers compensation services and back-to-work services for patients.

Together, Johnson and JEC provide critical access to healthcare in North Central Connecticut.

Determination of Need by Johnson:

Despite Johnson's rich history and its numerous contributions to the local community, its future is uncertain. Since prior to 2008, Johnson has faced significant financial operating deficits and struggled to maintain financial stability, especially in light of national trends of shrinking reimbursement levels, its current level of outstanding debt, lower investment returns, and the need for hospitals generally to make ongoing and substantial investments in new medical and information technologies and facilities. These losses have required Johnson to reduce operating expenses, including limiting employee benefits and delaying capital investments, and have challenged Johnson's efforts to attract and retain physicians. Despite many efforts to mitigate financial losses, Johnson has recognized for some time that without outside assistance and investment, continuing its current level of services as a standalone entity would be very difficult over the long term.

As described below, Johnson has engaged in a number of attempts to find an acquirer, merger partner and/or an affiliation partner with a number of entities both within and outside Connecticut. Johnson has sought affiliation with a strategic partner to better position itself as part of an integrated healthcare system to better respond to the increasing demands of the healthcare marketplace. In addition, Johnson anticipated that affiliation with an integrated health care system would provide better financial stability and would permit Johnson to continue to provide access to quality health care services to patients in the Stafford, Enfield and surrounding communities served by the Hospital.

In October 2008, JMMC, JMH and JEC commenced Chapter 11 bankruptcy cases after

entering into an asset purchase agreement with Eastern Connecticut Health Network ("ECHN"). This followed discussions with, and the performance of certain diligence by, Hartford Hospital, ECHN and Saint Francis. The purpose of the 2008 Chapter 11 cases was to effectuate a sale of JMMC's, JMH's and JEC's assets to ECHN pursuant to section 363 of the Bankruptcy Code. However, on March 5, 2009, ECHN terminated the asset purchase agreement.

During the Spring and Summer of 2009, JMMC, JMH and JEC continued to actively seek partners. JMMC, JMH and JEC received an acquisition proposal from Paradigm Physician Partners ("P3"). However, after discussions with P3 and the various creditor constituencies, JMMC, JMH and JEC rejected P3's proposal and terminated merger discussions. Importantly, the Official Committee of Unsecured Creditors (the "Committee") in the bankruptcy case, along with JMMC, JMH and JEC, concluded that the P3 offer was not feasible in terms of ability to close and viability of operations going forward and did not offer fair value to JMMC's, JMH's and JEC's creditors. During this period of time and in to the Fall of 2009, the Committee retained an investment banker, General Capital Partners, to search for potential buyers. General Capital did not find any acquisition or affiliation proposal for JMMC, JMH and/or JEC.

During the months of September and October 2009, JMMC, JMH and JEC continued to reach out to hospitals with regard to their interest in affiliating with JMMC, JMH and JEC. In or around December 2009, ECHN again expressed interest in acquiring JMMC's, JMH's and JEC's assets. After several meetings that included JMMC, JMH, JEC, ECHN, People's United Bank (JMMC's, JMH's and JEC's major secured creditor), and the Committee, it was determined that ECHN's proposal was not feasible in terms of ability to get approval from the Bankruptcy Court and ability to close.

After no viable strategic partner was identified, through 2010 JMMC, JMH and JEC and its creditors were able to negotiate a consensual Chapter 11 plan of reorganization that resulted in JMMC's, JMH's and JEC's emergence from Chapter 11 in August 2010 as stand-alone, independent entities. JMMC, JMH and JEC emerged from the 2008 bankruptcy cases with nearly $30,000,000 of debt to People's and over $10,000,000 of debt to its legacy unsecured creditors, including the PBGC and the creditors represented by the Plan Custodian appointed by the Bankruptcy Court to represent the interests of unsecured creditors.

After JMMC's, JMH's and JEC's emergence from Chapter 11, Johnson and JEC continued to face financial difficulties and had difficulty servicing the debt remaining. Johnson and JEC continued to explore strategic partnerships with likely partners. In May, 2011, Johnson and JEC initiated discussions with Saint Francis, Hartford Hospital, ECHN, Mercy Hospital and Baystate Health with regard to potential affiliation opportunities and sent an RFP to those entities on June 1, 2011. As a result of this process, Johnson and JEC decided to pursue an affiliation transaction with SFC.

In 2011, JMMC, JMH and JEC initiated discussions with SFC that ultimately resulted in the execution of three related agreements in July 2012: a Master Affiliation Agreement,

under which SFC provided certain financial support to Johnson and JEC; a Clinical Affiliation Agreement, under which SFC provides certain clinical services and support to Johnson and JEC; and a Business Process Outsourcing Agreement (together with the Master Affiliation Agreement and the Clinical Affiliation Agreement, the "Affiliation Agreements"), under which SFC provides certain business services and support to Johnson and JEC. The Johnson and JEC board believed that the affiliation with SFC offered a much greater chance of keeping the Hospital and Evergreen operating as going concerns, which would preserve value for creditors, jobs for employees and health care for the community. In addition, the Johnson and JEC board believed that the mission, vision and values of SFC closely reflected Johnson's and JEC's.

SFC and Johnson and JEC hoped that the Affiliation Agreements would provide sufficient support to enable Johnson and JEC to service their debt and achieve financial stability. Since July 12, 2012, SFC has provided clinical and management support to Johnson and JEC, resulting in improved operating results. In addition, SFC has invested more than $2 million in Johnson and JEC pursuant to the Master Affiliation Agreement, which has been used to make payments to Johnson's and JEC's creditors. SFC has also provided direct financial support to Johnson and JEC in the form of loans and deferred accounts payable, which have allowed Johnson and JEC to operate through a particularly difficult financial period. However, despite these efforts, Johnson and JEC reported losses from operations on its audited financial statements of $1.3 million and $5.4 million in fiscal years 2013 and 2014, respectively.

After working under the Affiliation Agreements for over a year, Johnson and JEC and SFC determined that more financial restructuring would be necessary and that this could best be achieved in conjunction with acquisitions by SFC of the assets of Johnson and JEC. SFC and Johnson and JEC initiated negotiations for these acquisitions and simultaneously initiated negotiations with People's, the PBGC, the Plan Custodian and HFG (as defined below) regarding the further restructuring of their debt. As described below, SFC and Johnson have entered into the Hospital APA (as defined below); SFC, Johnson and Johnson's major creditors have reached agreement on the restructuring of Johnson's debt; and Johnson and JEC have initiated Chapter 11 bankruptcy cases through which they plan to sell their assets to SFC. On May 14, the Bankruptcy Court entered an order approving the sale of substantially all of Johnson's assets to SFC.

Based on all of the foregoing and as further described below, Johnson has determined that the transaction contemplated by the Hospital APA is the best and most viable option to assure the long term viability of its businesses, employment of its employees, and provision of healthcare services to the people it now serves.

Current Johnson/JEC Debt Structure

Johnson's and JEC's current level of debt is not sustainable. As of September 30, 2014, Johnson and JEC had an unrestricted net asset deficit of $12.1 million and current liabilities that exceeded current assets by $32.3 million. The following describes certain of the outstanding indebtedness on the books of Johnson and JEC:

a. Loan in the original amount of $4,500,000 (the "Surgery Center Loan") from People's to JMMC, guaranteed by JMH. The current principal balance of the Surgery Center Loan is approximately $2,940,000. The Surgery Center Loan is secured by a mortgage on the Enfield Property.

b. Loan in the original amount of $13,700,000 (the "Hospital Loan") from People's to JMMC and JMH. The current principal balance of the Hospital Loan is approximately $11,987,500. The Hospital Loan is secured by mortgages on the Hospital Property (including the portion of land that is the Evergreen Property) and some additional undeveloped land owned by JMMC and JMH.

c. Loan in the original amount of $15,200,000 (the "Evergreen Loan") from People's to JEC and JMMC. JMH granted People's a non-recourse guarantee as to the Evergreen Property only. The current principal balance of the Evergreen Loan is approximately $14,214,000. The Evergreen Loan is secured by two leasehold mortgages on Evergreen's leasehold interest in the Evergreen Property and two fee mortgages on JMH's fee interest in the Evergreen Property.

d. Loan in the principal amount as of January 14, 2015, of $4,600,000 by Healthcare Finance Group, LLC ("HFG"), secured by the personal property of Johnson, JEC, and other Johnson affiliates (the "HFG Loan").

e. Debt in the approximate amount of $6,000,000 owed to the Pension Benefit Guaranty Corporation ("PBGC") and to the unsecured creditors from the 2008 bankruptcy cases. These debt obligations are secured by, among other things, mortgages on the Hospital Property, the Evergreen Property, and the Enfield Property, granted to the PBGC and Clifford A. Zucker as plan custodian for the 2008 bankruptcy cases unsecured creditors (the "Plan Custodian").

Proposed Transaction

After many months of negotiations both before and after the Chapter 11 Petition Date that included Johnson's and JEC's major creditor constituencies, SFC and Johnson and JEC have entered into two separate purchase agreements. Every major creditor group of Johnson has reached agreement with Johnson and SFC on the terms of the sale of Johnson's assets to SFC and their treatment in connection with such sale and supports such proposed sale. The two asset purchase agreements are:

1. An Amended And Restated Asset Purchase Agreement made as of March 27, 2015, attached hereto as **Exhibit 11** (the "Hospital APA"), among SFC, as Buyer, and JMMC, JMH, JHC and HCHS, as Sellers, pursuant to which:

- An entity controlled by SFC purchases substantially all of the assets of JMMC, including the Enfield Property.
- An entity controlled by SFC purchases substantially all of the assets of JMH, including the Hospital, the Hospital Property, the Evergreen Property, and the assets of the Surgery Center.
- An entity controlled by SFC purchases substantially all of the assets of JHC and HCHS.
- Pursuant to the Hospital APA, SFC will purchase substantially all of the assets of JMMC, JMH, JHC and HCHS for consideration that Johnson values at approximately $30,000,000, depending on the amount of certain obligations at the time of closing. As outlined in section 1.6 of the Hospital APA, this consideration will include:
    - Assumption of approximately $10,500,000 of indebtedness owed by JMMC and JMH to People's United Bank.
    - Payment of past due interest owed by JMMC and JMH to People's.
    - Assumption of up to $7,000,000 of indebtedness owed by Johnson to HFG
    - Assumption and payment of $3,000,000 to the PBGC and the creditors represented by the Plan Custodian, plus certain fees and expenses.
    - Assumption of Johnson employee obligations (payroll, paid time off, and similar obligations).
    - Assumption of Johnson trade payables.
    - Assumption of up to $2,000,000 of Johnson workers' compensation insurance liabilities.
    - Payment of up to $500,000 to cure defaults under contracts of Johnson.
    - Payment of up to $300,000 of transfer taxes resulting from the sale of the assets.
    - Payment of an additional $500,000 in cash to satisfy certain costs of Johnson's Chapter 11 bankruptcy cases.
    - Payment of the aggregate amount of premiums to obtain tail insurance for Johnson.
    - Assumption of equipment financed with purchase money security interests and/or capital leases/financing in the approximate amount of $2,300,000.

  Furthermore, SFC has committed to support up to $13,000,000 of capital investments in technology, capital improvements, expanded services and routine replacements within the first three years after closing.

2. An asset purchase agreement between SFC and JEC pursuant to which an entity controlled by SFC purchases substantially all of the assets of JEC for consideration that JEC values at approximately $2,000,000, with such consideration to include both cash and debt assumption.

Anticipated Benefits to Johnson

The proposed acquisition of the assets of Johnson by SFC presents opportunities for both organizations. The proposed acquisition will remedy Johnson's financial issues, and SFC will make significant investments in the Johnson properties to improve facilities and technological capabilities. Benefits to Johnson will include:

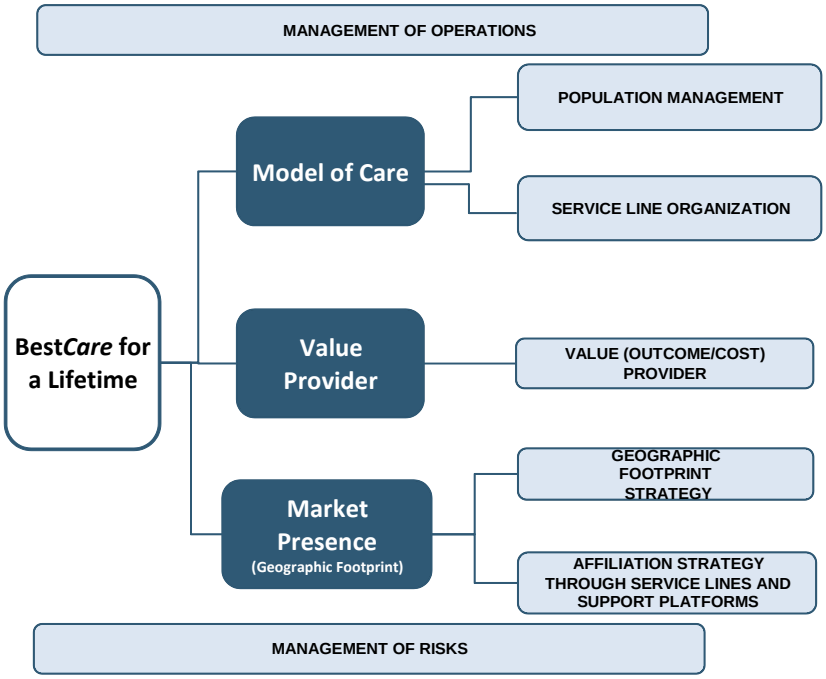
- Through the restructure of its current debt, a key component of this proposed transaction, Johnson's financial viability would be strengthened. SFC has committed to support up to $13,000,000 in capital investments in technology, capital improvements, expanded services, and routine replacements of equipment in the first three years.
- SFC will employ the majority of Johnson staff.
- Access to care management protocols and programs that would further improve quality and best practices and reduce health care costs.
- Access to improved software and information technologies.
- Access to the ability of an integrated healthcare network to attract highly qualified clinical talent.
- Ability to participate in cost reduction programs with respect to supplies or services.
- Opportunity for revenue cycle improvements.
- Administrative support in areas such as finance, revenue cycle, legal and compliance and other support services.

Anticipated Benefits to SFC

In anticipation of the many changes in the healthcare industry that are likely to result from the passage of the Affordable Care Act and the federal health policy changes being debated in 2009 and 2010, SFC undertook a strategic planning process designed to create a SFC vision and foundation for success in the healthcare system of the future, a system that would be fundamentally different from the fee-for-service approach to healthcare delivery to which SFC had been accustomed.

SFC*'s* FY 2010 – 2014 Strategic Plan was guided by its new vision of delivering Best*Care* for a Lifetime – the perfect patient experience and the highest measurable quality across the continuum of care. (See **Exhibit 3** for 2010 – 2014 SFC Strategic Plan).

SFC's Strategic Plan is graphically depicted by the following:



As demonstrated in the above diagram, model of care improvements, physician partnerships, clinical service redesign, electronic medical records development, quality improvement, cost reduction, and the creation of strategic alignments to form an integrated healthcare organization offering a true continuum of healthcare services to the SFC system all had their origins in this planning document.

The implementation process associated with this Strategic Plan, as well as the rapid changes in the healthcare environment since the adoption of this plan, have guided the actions of SFC*'s* Board and Senior Leadership since 2010.

To support the transition to a truly integrated delivery system, SFC has developed a strategy based on the SFC Value System outlined in **Exhibit 4**. Through this SFC Value System, SFC can best achieve its vision of providing Best*Care* for a Lifetime for each person who utilizes its system for care.

To achieve its vision of Best*Care* for a Lifetime, SFC has developed a virtually integrated care delivery network that provides care through a combination of aligned providers, which has been developed through both alliances and select acquisitions. To further its transformation to an integrated delivery system, SFC has redesigned its organizational structure into a strategic portfolio composed of service lines and support platforms, all of which serve as conduits for the delivery of care across the system. (Please see **Exhibit 5** for an outline of SFC's service lines and support platforms.) The focus of this structure and these aligned providers is to meet the Affordable Care Act Triple Aim objectives of improving population health, enhancing the patient care experience and controlling costs while maintaining a positive financial margin. This transformation will facilitate the transition by SFC from a provider of clinical services to a manager of the health of

populations.

The article entitled, "Population Health Management: The Intersection of Concept and Reality" by Christopher M. Dadlez, FACHE, President and CEO of SFC, further articulates the future of healthcare and the movement of SFC towards population management (see **Exhibit 6**). As Mr. Dadlez notes, population management will be achieved through a clinically integrated network of alliances, aligning primary, secondary and tertiary services with community hospitals to promote the delivery of "the right care in the right place for the right value." SFC also will leverage its support platforms to achieve economies of scale where possible to lower the overall cost of care to the community (see **Exhibit 7**).

The development of integrated networks through alliances and acquisitions has become commonplace in the healthcare industry. The article "Hospital Consolidation: "Safety in Numbers" Strategy Prevails in Preparation for a Value-Based Marketplace" by the American College of Health Care Executives in October 2014 states, "at the end of the last wave of consolidation, by 2000, the overall percentage of hospitals in systems had increased from 38% to 52%. And since the Great Recession of 2008 and passage of the ACA, nearly 400 hospitals (10% of U.S. community hospitals) had joined multihospital systems and the percentage of hospitals in systems had increased to 62% by the end of 2013." This proposed transaction which is the subject of this Certificate of Need application is consistent with national trends.

SFC's determination of the need for the proposal for the acquisition of Johnson 's assets (as described above) by SFC, which is consistent with the SFC approach to establish alliances with community hospitals, can be summarized as follows:

- Johnson's future financial viability and its patient populations' access to community health services can be best achieved by maintaining and building upon the relationship and affiliation with SFC and integrating its services into the SFC health system;
- SFC and Johnson can develop a joint debt reduction for Johnson that would lower debt costs at Johnson;
- The inclusion of Johnson in the SFC system would add a full service cancer program containing infusion and radiation therapy care as well as an ambulatory surgery center, wound care center and various satellite ancillary rehabilitation facilities; and
- SFC and Johnson combined would be better positioned to provide Best*Care* for a Lifetime for the population in the service area shared by the two organizations.

In accordance with the terms of the Affiliation Agreements, the parties have developed a series of clinical service, business process and other service agreements with SFC clinical service lines and business platforms. The Affiliation Agreements allow SFC to provide business, administrative and other support platform services to Johnson. The Affiliation Agreements focus on Johnson's ability to deliver on different aspects of the

Triple Aim objectives and a list and summary of these agreements are included in **Exhibit 8**. Some of the major benefits from these agreements include:

- Access to SFC purchased service contracts and supply chain staff.
- Provision of laundry services through the Total Laundry Collaborative.
- Consultative support from facilities engineering, biomedical engineering, information technology, and supply chain staff.
- Reduction of Johnson's operating costs.

Notwithstanding the improvements achieved through the affiliation, the parties have determined that the proposed acquisition will provide an opportunity for Johnson to improve its financial condition by restructuring its debt and to align Johnson with an integrated health care system that will preserve Johnson as an important access point for health care services in the Stafford and Enfield communities.

Furthermore, SFC and Johnson are developing an agreement whereby SFC will provide Johnson with certain support services and information technology in order for Johnson to be prepared for the conversion to ICD-10 on October 1st.

2. Provide the history and timeline of the proposal (i.e., When did discussions begin internally or between Applicant(s)? What have the Applicant(s) accomplished so far?).

In May, 2011, Johnson and JEC initiated discussions with SFC, Hartford Hospital, ECHN, Mercy Hospital and Baystate Health with regard to potential affiliation opportunities. On June 1, 2011, Johnson and JEC issued a Request for Affiliation to these five institutions. (See **Exhibit 9** for a copy of the formal RFA).

On June 24, 2011, Mercy Hospital informed Johnson that it would not pursue a transaction. By a letter dated June 30, 2011, Baystate Health also communicated to Johnson that it was not going to pursue a transaction. On July 26, 2011, Hartford Hospital and ECHN made a joint presentation to the Johnson/JEC board that primarily involved acquisition of the Enfield Property.

On July 27, 2011, Johnson and JEC elected to enter into exclusive negotiations with SFC. Those negotiations led to the creation of a formal arrangement between the two organizations entered into on July 12, 2012, the terms of which are set forth in the Affiliation Agreements. (Please refer to **Exhibit 10**)

Since July 2012 SFC and Johnson have created a number of clinical and business services sub-agreements covering a variety of clinical and business support services and activities. A list of these agreements, summary of the terms and a copy of these agreements are included in **Exhibit 8**.

Since signing the Affiliation Agreements in 2012 both organizations have been working to ensure the ability of Johnson to continue to provide high quality health care services

to its community while developing a plan to address its long term debt.

During 2013, SFC, Johnson and JEC initiated negotiations for the proposed acquisition transactions and simultaneously initiated negotiations with People's, PBGC, the Plan Custodian and HFG regarding the further restructuring of Johnson's debt. As described above, SFC and Johnson have entered into the Hospital APA; SFC, Johnson and Johnson's major creditors have reached agreement on the restructuring of Johnson's debt as part of the proposed sale; Johnson commenced Chapter 11 bankruptcy cases on January 14, 2015, for the purpose of effectuating the proposed sale; and on May 14, the Bankruptcy Court entered an order approving the sale of substantially all of Johnson's assets to SFC.

This proposed transaction is part of the necessary restructuring of the long term debt of Johnson and the transfer of the assets of Johnson to SFC for purposes of integrating Johnson into SFC's integrated health care delivery system serving the combined service areas of the hospitals. The timeline for the steps to complete the transactions as well as the associated legal documents are included in **Exhibit 11**.

If the Certificate of Need is granted, SFC plans to complete the acquisition of Johnson by November 2015.

Public Need and Access to Care

> *§ "Whether the proposed project is consistent with any applicable policies and standards adopted in regulations by the Department of Public Health;" (Conn.Gen.Stat. § 19a-639(a)(1))*

6. Describe how the proposed project is consistent with any applicable policies and standards in regulations adopted by the Connecticut Department of Public Health.

Please refer to response to question 14 below.

> *§ "The relationship of the proposed project to the statewide health care facilities and services plan;" (Conn.Gen.Stat. § 19a-639(a)(2))*

7. Describe how the proposed project aligns with the Connecticut Department of Public Health Statewide Health Care Facilities and Services Plan, available on OHCA's website.

> *§ "Whether there is a clear public need for the health care facility or services proposed by the applicant;" (Conn.Gen.Stat. § 19a-639(a)(3))*

Please refer to response to question 14 below.

8. With respect to the proposal, provide evidence and documentation to support clear public need:

a. identify the target patient population to be served;

Johnson's primary service area is comprised of six (6) towns, which includes Stafford, Stafford Springs, Union, Somers, Enfield and Suffield. Johnson's secondary service area includes 9 towns, including Windsor Locks, East Windsor, Ellington, Willington, Vernon, Windsor, Tolland, Ashford, and Middletown. The total population of the primary service area and the secondary service area based on 2015 data are 84,402 and 170,947 respectively (See **Exhibit 12**). The projected changes in population are set forth on **Exhibit 12**.

The proposed acquisition will not impact these populations. Rather, through the acquisition, the patients in the Johnson service areas will have access to the advanced clinical services and protocols developed by SFC.

SFC serves a large and diverse population in the State of Connecticut. The SFC primary service area is comprised of the 18 towns whose contiguous zip codes generated 75% of the inpatients and newborns seen at SFC in FY14. The SFC secondary service area is defined as those additional towns that generated at least 0.5% of the system's inpatient and newborn discharges in FY14. Together, the primary and secondary service areas include 32 towns representing a population of 1,088,270 (See **Exhibit 12**).

The total population of the SFC service area is expected to grow 0.42% through 2020 (source: Claritas, **See Exhibit 12**). The 65+ population; however, is expected to increase 14.08%. These trends are very similar for the Johnson service area and are reflective of the aging population in Connecticut. To meet the needs of the aging population, healthcare systems will need to provide additional access to disease management services for chronic conditions like heart and pulmonary disease as well as those conditions that affect the 65+ population such as cancer, stroke and the need for joint replacement. Supportive services including home care, rehabilitation, skilled nursing and long-term care will also be important for the patient population.

SFC has significant clinical and supportive resources devoted to these conditions and the proposed acquisition will facilitate or enhance access for patients in Johnson's service area to related services, including:

- Hoffman Heart and Vascular Institute of Connecticut
- Saint Francis Mount Sinai Regional Cancer Center
- Connecticut Joint Replacement Institute
- Mount Sinai Rehabilitation Hospital
- Stroke Center at Saint Francis.

b. discuss how the target patient population is currently being served;

See response to question 8a above.

c. document the need for the equipment and/or service in the community;

This question is not applicable.

d. explain why the location of the facility or service was chosen;

There are no new locations in this CON proposal. Saint Francis Hospital and Medical Center is located in Hartford CT and Johnson Memorial Hospital is located in Stafford Springs CT.

e. provide incidence, prevalence or other demographic data that demonstrates community need;

Please refer to response to question 8a above.

f. discuss how low income persons, racial and ethnic minorities, disabled persons and other underserved groups will benefit from this proposal;

Johnson and SFC serve all patients regardless of their race, ethnicity, handicap, religion, income level or ability to pay. This will not change if this Certificate of Need is approved.

g. list any changes to the clinical services offered by the Applicant(s) and explain why the change was necessary;

No immediate changes to the clinical services provided by either hospital are planned at this time as a direct result of this proposal. SFC is seeking to acquire Johnson's acute care and outpatient services assets inclusive of its home care program. SFC also intends to acquire JEC's long-term care facility known as Evergreen Health Care Center. The acquisitions by SFC will provide additional support for continuing quality improvement of the clinical services provided at Johnson, and at this time no changes in clinical services are being proposed. Going forward, if this proposal is approved, as proposed changes are identified, SFC will comply with the Certificate of Need laws and will file the appropriate documents with, and seek the approval of, the Office of Health Care Access as required by law.

h. explain how access to care will be affected;

This Certificate of Need Application is to preserve services at Johnson. By preserving current services, access to services is maintained. Reduction of services is not part of this proposal. Also, please refer to response to 9a below.

i. discuss any alternative proposals that were considered.

In May, 2011, Johnson initiated discussions with Saint Francis, Hartford Hospital, ECHN, Mercy Hospital and Baystate Health with regard to potential affiliation opportunities. On June 1, 2011 Johnson issued a Request for Affiliation to these five institutions. (See **Exhibit 9** for a copy of the formal RFA).

On June 24, 2011, Mercy Hospital informed Johnson that it would not pursue a transaction. By a letter dated June 30, 2011, Baystate Health also communicated to Johnson that it was not going to pursue a transaction. On July 26, 2011, Hartford Hospital and ECHN made a joint presentation to the Johnson board that primarily involved acquisition of the Enfield Property.

On July 27, 2011 Johnson elected to enter into exclusive negotiations with SFC. Those negotiations led to the creation of a formal arrangement between the two organizations entered into on July 12, 2012, the terms of which are set forth in the Affiliation Agreements. (Please refer to **Exhibit 10**)

§ "Whether the applicant has satisfactorily demonstrated how the proposal will improve quality, accessibility and cost effectiveness of health care delivery in the region, including, but not limited to, (A) provision of or any change in the access to services for Medicaid recipients and indigent persons, and (B) the impact upon the cost effectiveness of providing access to services provided under the Medicaid program;" (Conn.Gen.Stat. § 19a-639(a)(5))

9. Describe how the proposal will:

a. improve the quality of health care in the region;

This proposal will preserve local access to healthcare for the patients in the Johnson service area, including the indigent and Medicaid recipients by providing a greater level of long term financial stability for Johnson. The integration of Johnson into SFC is anticipated to enhance access and quality of health care.

The proposed transaction will facilitate the continuation of Johnson's 100+ year commitment to providing health care services to patients in the communities they serve in the dynamic and changing environment of health care delivery. SFC will build on this foundation and its own long-standing commitment to quality and clinical excellence. SFC is well recognized for its commitment to quality care as evidenced by the extensive list of awards and recognitions (See **Exhibit 15**).

Johnson will have access to SFC's experts in all clinical Service Lines and Support

Platforms and its service delivery approach and systems will be enhanced with the goal that programming at Johnson mirror the performance of like programs at SFC.

In addition, whenever possible, Johnson's physicians and staff will be involved in the educational and health care innovation efforts of SFC. The following are examples of the educational and health care innovations efforts of SFC that present opportunities for Johnson's physicians and staff also:

- SFC also has a long standing commitment to the education of medical, dental, nursing and allied health professionals. This educational focus emphasizes quality and application of cutting edge technology to the treatment of patients. In addition, through its Institute for Primary Care Innovation Simulation Studio, students, residents, fellows and current practicing physicians are exposed to the latest developments in health care delivery. The constant influx of bright, questioning minds encourages innovation and applications of the latest techniques. In addition, organizations that participate in the training of the next generation of providers provide better care and attract a higher caliber of providers. SFC's focus on population management and health outcomes is also regularly stressed as part of its various teaching endeavors.

- SFC sponsors medical, surgical, dental, nursing and allied health educational programs because it recognizes that education is fundamental to maintaining excellence in patient care and to ensuring the continued institutional development of new resources for the care of its patients. Continuing medical education activities are integrally related to undergraduate and graduate educational programs. Together, they have an important impact on the medical staff, promoting the delivery of medical care consistent with contemporary national standards and early introduction of new advances in medical and surgical care. The current availability of house staff at SFC plays an important role in the provision of high-quality care, and these individuals serve as an important reservoir of future attending physicians in the SFC system. Graduate medical education establishes an attractive base of hospital affiliation for those completing their training and helps to ensure the future quality of care by developing a cadre of well-qualified practicing physicians affiliated with the institution.

- SFC maintains independent, hospital-based fellowships and residency programs and also participates in the University of Connecticut School of Medicine Integrated Residency Training Programs. SFC's residency programs and all of the University of Connecticut's Integrated Residency Training Programs have been approved by the Accreditation Council on Graduate Medical Education and Accreditation Council on Dental Education. SFC is also a member of the Council on Teaching Hospitals and the Association of

American Medical Colleges. A list of residencies offered at SFC through the University of Connecticut School of Medicine is included in **Exhibit 16.**

- SFC offers programs for various allied health professions and disciplines to rotate through various departments of SFC. These allied health professionals include medical technologists, radiological technologists, physical therapists, respiratory therapists and technicians, physician assistants, pharmacists and nurse practitioners.

b. improve accessibility of health care in the region; and

This Certificate of Need Application is to preserve services at Johnson. By preserving current services, access to services is maintained. Reduction of services is not part of this proposal. Also, please refer to response to 9a above.

c. improve the cost effectiveness of health care delivery in the region.

As outlined in Section 1 of this application, the integration of SFC and Johnson into a new organization is the best and most viable option available to assure the long term access to health care services for Johnson's target population.

As part of the integration of Johnson into the SFC network, the service line and support platform approach described previously will be used by SFC to enhance the quality of the services provided by Johnson, ensure the continuity of the service delivery system, close gaps in services where possible and reduce the costs of some services based on group purchasing contracts or specific service contract replacements.

While an overall decrease in inpatient volume is anticipated across healthcare due to a shift towards population health management, it is projected that the Hospital's average daily census will continue to be strong through coordinated care delivery and the availability of SFC's infrastructure and service line support. Overall, it is anticipated that outpatient volume will increase over 10% by FY 2019.

Though the cost savings and other changes discussed here and in responses to questions 1 and 14 are important to Johnson's future success, the successful reduction and restructuring of its long-term debt structure and outstanding credit obligations is are key factors that will add financial stability to Johnson and to reducing its overall operating costs. This is why Johnson and SFC have joined together to move the completion of Johnson's bankruptcy proceedings in concert with this Certificate of Need application.

The financial documents contained in **Exhibit 17** indicate the financial impact of the proposal and include the following:

- Restructuring and significant reduction of Johnson's current debt.
- $13,000,000 in capital investments within the first three years with a focus on upgrading and replacing outdated plant and equipment.
- Cost savings expected from improved contract management with vendors, enhanced risk management activities, and improvements in revenue cycle management.
- Reduction of administrative and overhead costs through economies of scale and centralization of nonclinical and administrative functions.
- Supply cost reductions through the effective use of group purchasing contracts, with anticipated annual savings of $400,000 to be achieved by FY 2019

SFC and Johnson are committed to preserving a viable health care organization dedicated to providing health care services that meet the needs of the Johnson community for the foreseeable future. Together the new health care organization formed as a result of this merger will be more than the sum of its parts; the new organization will improve the community's health by delivering high quality, cost effective, coordinated care across a broad continuum.

10. How will this proposal help improve the coordination of patient care (explain in detail regardless of whether your answer is in the negative or affirmative)?

SFC*'s* acquisition of Johnson delivers many benefits which will improve the coordination of patient care including:

- Preserves Johnson's viability and the access of its patient populations to needed healthcare services closer to home;
- Provides better use of limited health manpower resources through combination of the treatment of specific patient populations e.g. cancer infusion, ambulatory surgery, physical therapy, primary care between the two organizations;
- Achieves debt reduction at Johnson which will lower the cost of operations for the health system as a whole;
- Adds ambulatory surgery, cancer treatment, rehabilitation, wound care and a variety of ancillary service locations to the SFC System.

As a first step in achieving these benefits SFC and Johnson have developed a series of clinical service and business process agreements with SFC clinical service lines and business platforms. These agreements allow SFC to provide business, administrative and other support platform services to Johnson. These agreements focus on Johnson's ability to deliver on different aspects of the Triple Aim objectives. These agreements are included in **Exhibit 8**. Some of the major benefits from these agreements include:

- Access to SFC*'s* purchased service contracts and supply chain staff.
- Provision of laundry services through the Total Laundry Collaborative.

- Consultative support from facilities engineering, biomedical engineering, information technology, and supply chain staff.

11. Describe how this proposal will impact access to care for Medicaid recipients and indigent persons.

> ***§ "Whether an applicant, who has failed to provide or reduced access to services by Medicaid recipients or indigent persons, has demonstrated good cause for doing so, which shall not be demonstrated solely on the basis of differences in reimbursement rates between Medicaid and other health care payers;" (Conn.Gen.Stat. § 19a-639(a)(10))***

Please refer to response to question 14 below. Medicaid and indigent persons will be able to access services at Johnson if this proposal is approved. By preserving services, Johnson will be able to serve all populations regardless of their race, ethnicity, religion or ability to pay.

12. If the proposal fails to provide or reduces access to services by Medicaid recipients or indigent persons, provide explanation of good cause for doing so.

> ***§ "Whether the applicant has satisfactorily demonstrated that any consolidation resulting from the proposal will not adversely affect health care costs or accessibility to care." (Conn.Gen.Stat. § 19a-639(a)(12))***

This question is not applicable as the Medicaid recipients will continue to be served by Johnson if this proposal is approved. See response to question 11 above.

13. Will the proposal adversely affect patient health care costs in any way? Quantify and provide the rationale for any changes in price structure that will result from this proposal, including, but not limited to, the addition of any imposed facility fees.

Johnson has been a vital part of the healthcare infrastructure of Northern Central Connecticut for over 100 years. Preservation of this healthcare resource ensures access to primary care providers as well as a wide range of outpatient, emergency and inpatient services. Johnson delivered over $6.4 million dollars in healthcare services to 5,920 individuals in 2014 alone. (See **Exhibit 18**).

Both SFC and Johnson believe the debt restructuring being pursued through the Bankruptcy Courts as well as access to a wide range of support services from SFC should allow Johnson to remain a low cost health care provider, a designation it currently holds according to the State of Connecticut.

Any cost increases experienced by Johnson will be related to important service and infrastructure investments necessary to ensure Johnson delivers 21st Century healthcare.

The financial pro formas included in this application reflect a cumulative 4% price increase over the next 3 years. We feel this increase is necessary in order to continue to reinvest in personnel, equipment and infrastructure planned for Johnson as a result of its integration into the SFC system.

Neither SFC nor Johnson has charged facility fees for most of the organizations' services. In letters provided to the Attorney General in December 2013 (See **Exhibit 19**), SFC identified three locations where facility fees are charged and Johnson identified one. Patients are informed of these facility fee charges before services are delivered.

No new facility fees will occur as a result of Johnson joining the SFC system.

Financial Information

> *§ "Whether the applicant has satisfactorily demonstrated how the proposal will impact the financial strength of the health care system in the state or that the proposal is financially feasible for the application," (Conn.Gen.Stat. § 19a-639(a)(4))*

14. **Describe the impact of this proposal on the financial strength of the state's health care system or demonstrate that the proposal is financially feasible for the applicant.**

In an era of healthcare reform and diminishing resources, the SFC proposed acquisition is consistent with the goals of the Department of Health's Statewide Health Care Facilities and Services Plan ("the Plan"). The guiding principles of the Plan is to "improve the health of Connecticut residents; increase the accessibility, continuity and quality of health services; prevent unnecessary duplication of health resources; and provide financial stability and cost containment of health care services." Please refer to **Exhibit 20**, the Plan cover page and page 2 of section 1. The core of this proposal is maintaining access to the vital, quality health services currently provided by Johnson in a cost-effective manner which provides the financial stability necessary to allow the services to continue in the long term.

The proposal will have a positive effect on the financial strength of the state's health care system and addresses some of the guiding principles set forth in the Statewide Plan as follows:

- Promote and support the long term viability of the state's health delivery system:

  As described in response to question 1 above the integration of JMH and the other services provided by Johnson into SFC is an important part of delivering ". . . the right care in the right way . . ." to the target population now served by Johnson. We believe the service sites now operated by Johnson will allow SFC to meet the "Triple Aim Objectives" which are improving population health, enhancing the patient care experience and controlling costs while maintaining a positive financial margin and also will meet the goals of state and federal health care reform efforts more efficiently as we transition to managing the health care of our large population base.

- Ensure that any regulated service will maintain overall access to quality healthcare:

  As noted in response to question 9a above, SFC is a national award winning organization for quality healthcare delivery. As was also noted in 1 above SFC's

service lines and support platforms are bringing these award winning protocols to similar programs at Johnson.

- Promote equitable access to healthcare services (e.g. reducing financial barriers, increasing financial barriers, increasing availability of physicians) and facilitate access to preventable and medically necessary health care:

  It is anticipated that Johnson's affiliation with a larger integrated health care system will facilitate its ability to attract and retain a sufficient number of highly skilled physicians and allied health personnel to support its health program offerings. The affiliation with SFC has already provided additional clinical support to Johnson Memorial Hospital's hospitalist program and provides SFC physicians and staff to support the Johnson medical oncology, case management, pathology, imaging, occupational health, and behavioral health programs. These activities have improved both inpatient and outpatient healthcare services, starting at the emergency treatment level, moving through the inpatient population and supporting outpatient infusion therapy and behavioral health counseling. Additionally, support from SFC employees is enhancing surgery operations, facilities repair and maintenance as well as the quality and administrative areas. Consistent with the mission and values of SFC, current and future services provided by Johnson will continue to remain available to those patients in need regardless of their financial condition. Were Johnson to close for financial reasons, it would significantly reduce access to medically necessary services in the communities served.

- Encourage and support health education, promotion and prevention initiatives:

  Over time, Johnson will be integrated into all of the health education and wellness programs offered by SFC. The merger of these two organizations will also allow Johnson to preserve its existing complement of community health outreach programs. Attached in **Exhibit 21** is a listing of community health outreach programs in 2013 and 2014.

- Encourage collaboration among healthcare providers to develop health care delivery networks:

  Both SFC and Johnson maintain a wide range of affiliations with other area healthcare providers designed to promote smooth delivery of care from the pre-emergency transport system through the post-acute level of care. (Please see **Exhibit 22** - for these agreements.) These arrangements strengthen the network of healthcare services available in Connecticut and will continue after the transaction.

  In addition, one of the biggest costs to the healthcare system is readmissions to the hospital. Readmissions occur for many reasons, one of which is poor coordination of care. Consequently, SFC embarked on the development of a

post-acute care network that closely links the hospital to nursing homes and home health agencies. These tighter linkages provide for more accurate and seamless transitions of patients from the hospital to the next level of care and reduce the costly re-hospitalization of patients. SFC*'s* commitment to continuing care for its patients is shown in the January 8, 2015 announcement of the formal Post Acute Care Network through Saint Francis Health*Care* Partners, a SFC affiliate, with the following long term care, rehabilitation and home care entities:

- Hospital For Special Care, in New Britain, CT
- Mount Sinai Rehabilitation Hospital in Hartford, CT
- Avon Health Center in Avon, CT
- Touchpoints at Bloomfield in Bloomfield, CT
- Touchpoints at Manchester in Manchester, CT
- Riverside Health and Rehabilitation Center in East Hartford, CT
- Glastonbury Health Care Center in Glastonbury, CT
- McLean Home in Simsbury, CT
- Evergreen Health Care Center in Stafford Springs, CT
- Hughes Health and Rehabilitation in West Hartford, CT
- The Reservoir in West Hartford, CT
- Saint Mary Home in West Hartford, CT
- West Hartford Health and Rehabilitation Center in West Hartford, CT
- Kimberly Hall South in Windsor, CT
- Masonicare Partners and Masonicare Home Health and Hospice

The post- acute affiliated providers will have access to the Saint Francis Hospital and Medical Center electronic medical record which will allow them real time access to patient discharge information. In addition, these providers have committed to implementing the INTERACT tool kit which focuses on readmission avoidance and will be participating in real time readmission reviews for any patient that has been readmitted to Saint Francis Hospital and Medical Center.

- <u>Support the need for a sufficient health care workforce that facilitates access to the appropriate level of care in a timely manner (e.g. optimal number of primary and specialty care providers)</u>:

  Connecticut is a high cost state with significant budget challenges that has reduced the funding levels available for its health care system, particularly in recent years. In addition, Connecticut is considered a high cost medical malpractice liability state as well.

  The best way to overcome these challenges is to standardize health care delivery based upon proven evidenced- based care and provide a stable operating model that attracts physicians and other allied health professionals to join the healthcare organizations offering services in the community.

The joining of SFC and Johnson provides the communities served with a single, stronger organization better able to make the transition to the new paradigm of health care delivery envisioned by the Statewide Health Care Facilities and Services Plan.

With access to SFC's human resource and physician recruiting support platforms and wide range of teaching programs at the physician and allied health professional level, Johnson's ability to recruit and retain the numbers of highly skilled health professionals it requires to meet its population healthcare needs will be greatly enhanced.

- Maintain and improve the quality of health care services offered to the state's residents;

  Please see answers in this section above as well as responses to questions 1 and 9a above.

- Promote planning that helps to contain the cost of delivering health care services to its residents:

  Please refer to response to question 1 above as well as responses in this section for evidence of how the coordinated efforts of both organizations is resulting in cost savings for residents of the Johnson community. Two specific examples are the reduction in energy costs associated with changes to the energy systems at Johnson Memorial Hospital as well as changes in purchasing and laundry delivery contracts previously held by Johnson to programs offered through SFC.

  SFC has long been focused on lowering the cost of delivering care by providing the right care at the right time in the right location. SFC also emphasizes meeting or exceeding quality standards in the delivery of care. Recognition of the high quality of both organizations is included elsewhere in this report in the listing of awards received from various health care quality ranking organizations such as the Leapfrog organization, The Joint Commission, US News and World Report to name a few. SFC also believes in healthcare innovation as a way to promote both quality and cost containment. SFC was also an early adopter of partnership arrangements with its physicians designed to ensure high improvements in quality, enhanced patient outcomes and efficient management of health care resources both financial and clinical occurred within its system as well as the use of Value Analysis in its Materials Management Department to generate group purchasing savings. Also, Post-Acute Care is also very important to SFC. See below descriptions:

  1. **Saint Francis Health*Care* Partners:**

     History/Background:

     Saint Francis/Mount Sinai Physician Hospital Organization (PHO) was

incorporated on June 17, 1993 as a not-for-profit, 501c3 taxable organization as Saint Francis Hospital and Medical Center and Mount Sinai Hospital were in the midst of merging and uniting the two medical staffs. The name was legally changed to Saint Francis Health*Care* Partners (SFHCP) on January 27, 2009.

Today, Saint Francis Health*Care* Partners (SFHCP) is a clinically integrated network of physicians comprised of independent healthcare practitioners, hospital based or affiliated groups and other facilities that serve as a vehicle through which the clinical and related economic interests of patients, providers and payers become aligned.

As the oldest functioning PHO in Connecticut, SFHCP is recognized both locally and nationally. The vision created by the initial thought leaders and advanced through a physician led Board of Directors and by the strong alliance between Chris Dadlez, CEO of Saint Francis Hospital and Medical Center, and Jess Kupec, CEO of Saint Francis Health*Care* Partners. The strength of sharing a common vision has propelled the organization into a nationally recognized ACO. Throughout our twenty-one year history, SFHCP has been recognized by the healthcare industry for our physician leadership in driving a contemporary approach to improving quality and reducing unnecessary costs. SFHCP was one of the first organizations nationally to develop an integrated approach to implementing an Electronic Health Record (EHR). The alignment within the SFC network has been so vital to our success that we will have full EHR adoption with its entire physician membership by the end of 2015. This is a significant accomplishment as compared to local and national benchmarks.

As a result of its depth of clinical integration, SFHCP has the ability to enter into contractual arrangements with the payor community that binds the entire membership by achieving minimum criteria for participation. As a result, the single-signature model fosters greater collaboration and network continuity. As market forces initiated by Federal reform have accelerated so too has our strategy. Employers and patients alike are now engaged and are demanding change. SFHCP realizes that the status quo is no longer acceptable and that the transparency of cost and quality are becoming the benchmarks for which employers and consumers will select where they receive their healthcare.

Foundation of our Contracting Model:

The commitment at SFC to its patients is “best *care* for a lifetime”. All components to our overall mission and focus begin there. Even our contract strategy is driven by being focused on providing the best options for its patients. The foundation of the contracting model is based upon a joint contracting relationship with Saint Francis Hospital and Medical Center and approximately 1,000 provider members. Through the years, this contracting

model has derived its success by developing congenial relationships with the payor community. Through the joint contracting model, which is necessary in the attainment of the network's goals of financial stability, improving quality of care, reducing costs through efficiencies, and improving access to care, these relationships continue to be enhanced by its providers' commitment to achieving the best results for all patients accessing the SFC Network.

The current contractual model is based upon the ideals of accountable care and shared savings – a collaborative approach with the payors in which all participating have the incentive to drive value to patients, including better quality, care coordination and total cost efficiency.

CMS Medicare ACO:

SFHCP has been developing its Accountable Care Strategy, with the intent of being prepared for the transition from a Fee for Service reimbursement model to an Accountable Care Organization (ACO) model which focuses on population management and the delivery of cost-effective, high quality care. SFHCP was recognized as an ACO by CMS and began participating in the CMS Medicare Shared Savings Program on January 1, 2013. Although the first year results were good, SFHCP did not achieve a level of savings allowing CMS to share these savings with the ACO. Although the organization did not meet the required minimum levels of savings, SFHCP did reduce costs by $1.1 million and achieved 5 out of 7 quality metrics. This is evidence that SFHCP is heading in the right direction and is a strong indication of our potential future success if we continue investing in our mission and vision.

Current Contracts:

SFHCP is currently contracted with the following major payors inclusive of these value-based components as noted below:

Value-Based Commercial Agreements:

Anthem, Inc.
Aetna, Inc.
CIGNA
ConnectiCare
UnitedHealthCare/Oxford- in progress

Covered Lives: 82,000

Focus on the Future:

As Saint Francis Health*Care* Partners faces the challenges and opportunities presented by healthcare reform, the organization realizes the importance of executing a new business model that allows the entire SFC enterprise to move in a strategic direction to meet the objectives of the Triple Aim. Saint Francis Healthcare Partners goal over the next couple of years is to build its infrastructure to such a degree that we are capable of accepting full risk opportunities. SFC*'s* potential affiliation with Trinity Health presents the organization with a real opportunity to drive value to the market by improving cost to the individuals and employers while improving their healthcare outcomes.

With specific reference to our proposed affiliation with Johnson the capabilities of SFHCP and potential for strategic alignment offer significant opportunities for both organizations and the patients we serve. There already is a significant alignment between SHFCP and Johnson in that one of our key medical groups, Saint Francis Medical Group, provides the hospitalist service at Johnson (8 hospitalists) as well as an infectious disease physician. SFHCP's demonstrated ability to collaborate effectively with payers and develop mutually beneficial business relationships will clearly assist Johnson, particularly as we transition away from a fee-for-service payment environment to a "population health management model". It is rather difficult for a hospital the size and scale of Johnson to build an infrastructure capable of succeeding under a risk-based population health model. Experience and trends at the national level clearly demonstrate this. Our integrated approach between our physicians and the acute care hospital setting can also serve as a model in our affiliation with Johnson.

2. **Post-Acute Care Partnerships**: One of the substantial costs to the healthcare system is readmissions to the hospital. Readmissions occur for many reasons, one of which is poor coordination of care. Consequently, Saint Francis embarked on the development of a post-acute care affiliated network that closely links the hospital to the continuum of post- acute providers including nursing homes and home health agencies. These tighter linkages provide for more accurate and seamless transitions of patients from the hospital to the next level of care and reduce the costly re-hospitalization of patients. SFC*'s* commitment to continuing care for its patients is shown in the January 8, 2015 announcement of the formal Post Acute Care Network through Saint Francis Health*Care* Partners, a SFC affiliate, with the following long term care, rehabilitation and home care entities:

- Hospital For Special Care, in New Britain, CT
- Mount Sinai Rehabilitation Hospital in Hartford, CT
- Avon Health Center in Avon, CT
- Touchpoints at Bloomfield in Bloomfield, CT
- Touchpoints at Manchester in Manchester, CT
- Riverside Health and Rehabilitation Center in East Hartford, CT
- Glastonbury Health Care Center in Glastonbury, CT
- McLean Home in Simsbury, CT
- Evergreen Health Care Center in Stafford Springs, CT
- Hughes Health and Rehabilitation in West Hartford, CT
- The Reservoir in West Hartford, CT
- Saint Mary Home in West Hartford, CT
- West Hartford Health and Rehabilitation Center in West Hartford, CT
- Kimberly Hall South in Windsor, CT
- Masonicare Partners and Masonicare Home Health and Hospice

The post- acute affiliated providers will have access to the Saint Francis Hospital and Medical Center Electronic Medical Record which will allow them real time access to patient discharge information. In addition, these providers have committed to implementing the INTERACT tool kit which focuses on readmission avoidance and will be participating in real time readmission reviews for any patient that has been readmitted to Saint Francis Hospital and Medical Center.

3. **Materials Management**

Within the SFC System the organization also uses an internal Value Analysis Committee and its group purchasing agreements with Premier, Ascend and Yankee Alliance to drive costs down within its various clinical and non-clinical areas. Over the last three years this rigorous focus on value and price has generated over $11 million in savings for goods and services purchased by the SFC system.

- Encourage regional and local participation in discussions/collaborations on health care delivery, financing and provider supply:

  SFC and Johnson have participated in many state and federal health care surveys whenever asked. In addition, as part of a regional economics task force, Johnson has been a major catalyst in a three town initiative (Enfield, Somers and Stafford Springs/Union) to bring a natural gas pipeline from Enfield through Stafford Springs/Union. This initiative is part of Governor Malloy's Energy Initiative and holds significant promise for the future economic growth of all three towns.

  Simultaneously, Johnson, with assistance from SFC pursuant to one of their business processes outsourcing agreements, is working with the Towns of Stafford Springs and Union to extend the water and sewer lines through this area to the hospital, which would eliminate Johnson's septic

system and place the hospital complex on Connecticut Water rather than the current reliance on natural springs.

- Promote public policy development through measuring and monitoring unmet needs:

  SFC and Johnson are working individually and with other groups participating in many initiatives designed to identify unmet health needs and developing plans to address those unmet needs. Some concrete examples of these efforts are included in **Exhibit 23**.

  The challenge in today's health care environment is how to address the many needs of different health care populations in a cost effective manner. SFC believes its transition to a health care organization focused on managing the health of specific target populations is a critical step along the journey. In addition, through organizations such as the Curtis D. Robinson Men's Health Institute and the Connecticut Institute for Primary Care Innovation, SFC hopes to develop new models of primary care delivery that focus on the health disparities of specific minority populations. Through efforts such as these, SFC hopes to create new, more effective ways of managing disparate populations by ensuring that wellness and disease prevention are an integral part of its health management efforts.

- Promote planning of other mechanisms that will achieve appropriate allocation of health care resources in the state.

  As stated above under the response to the guiding principal "Support the need for a sufficient health care workforce that facilitates access to the appropriate level of care in a timely manner…." SFC replied in part, with access to SFC's Human Resource and Physician Recruiting support platforms and wide range of teaching programs at the physician and allied health professions level, Johnson Memorial Hospital's ability to recruit and retain the numbers of highly skilled health professionals it requires to meet its population's healthcare needs will be greatly enhanced. Hence, health care resources in the state will be improved by this project.

In addition, nothing in the proposed acquisitions will reduce Johnson's or SFC's commitment to the provision of health care services to the poor, including the indigent and Medicaid patients. Saint Francis Hospital and Medical Center's inpatient and outpatient patient population is comprised of 23.8% Medicaid recipients in FY 2014 and Johnson's Medicaid population also represented 18% of its inpatient and outpatients in FY 2014. It is expected that this will remain level or increase in the coming years. Also, both organizations have and will continue to have self pay and financial assistance policies if this proposed CON is approved.

These policies are contained in **Exhibit 27**. For a more detailed explanation of the community benefit of both organizations, please refer to **Exhibit 18** which contains the 2014 Community Benefit Reports for SFC and Johnson.

15. Provide a final version of all capital expenditure/costs for the proposal using OHCA Table 3.

Please refer to table 3 below**.**

16. List all funding or financing sources for the proposal and the dollar amount of each. Provide applicable details such as interest rate; term; monthly payment; pledges and funds received to date; letter of interest or approval from a lending institution.

SFC will fund this investment from its current operations with no additional debt financing or funding from other external sources. As noted above and in the amended and restated asset purchase agreement, SFC will also assume certain indebtedness owed by Johnson.

17. Include as an attachment:

a. audited financial statements for the most recently completed fiscal year. If audited financial statements do not exist, provide other financial documentation (e.g., unaudited balance sheet, statement of operations, tax return, or other set of books.). Connecticut hospitals required to submit annual audited financial statements may reference that filing, if current;

Please refer to **Exhibit 24.**

b. a complete Financial Worksheet A (not-for-profit entity) or B (for-profit entity), available on OHCA's website under "OHCA Forms," providing a summary of revenue, expense, and volume statistics, "without the CON project," "incremental to the CON project," and "with the CON project." Note: the actual results reported in the Financial Worksheet must match the audited financial statement that was submitted or referenced.

Please refer to **Exhibit 17.**

18. Complete OHCA Table 4 utilizing the information reported in the attached Financial Worksheet.

Please refer to Table 4 below.

19. Explain all assumptions used in developing the financial projections reported in the Financial Worksheet.

There are no projected incremental losses from operations resulting from implementation of this CON proposal.

21. Indicate the minimum number of units required to show an incremental gain from operations for each projected fiscal year.

This question is not applicable.

21. Complete OHCA Table 5 and OHCA Table 6 for the past three fiscal years ("FY"), current fiscal year ("CFY") and first three projected FYs of the proposal, for each of the Applicant's existing and/or proposed services. Report the units by service, service type or service level.

Please refer to **Exhibit 17**

22. Provide a detailed explanation of all assumptions used in the derivation/ calculation of the projected service volume; explain any increases and/or decreases in volume reported in OHCA Tables 4 and 5.

Please refer to **Exhibit 17.**

23. Provide the current and projected patient population mix (number and percentage of patients by payer) for the proposal using OHCA Table 7 and provide all assumptions. Note: payer mix should be calculated from patient volumes, not patient revenues.

24. **Describe the population (as identified in question 8(a)) by gender, age groups or persons with a specific condition or disorder and provide evidence (i.e., incidence, prevalence or other demographic data) that demonstrates a need for the proposed service or proposal. *Please note: if population estimates or other demographic data are submitted, provide only publicly available and verifiable information (e.g., U.S. Census Bureau, Department of Public Health, CT State Data Center) and document the source.***

Please refer to response to question 8a in the Main CON application.

25. Using OHCA Table 8, provide a breakdown of utilization by town for the most recently completed FY. Utilization may be reported as number of persons, visits, scans or other unit appropriate for the information being reported.

§ "The utilization of existing health care facilities and health care services in the service area of the applicant;" (Conn.Gen.Stat. § 19a-639(a)(8))

Please refer to **Exhibit 12.**

26. Using OHCA Table 9, identify all existing providers in the service area and, as available, list the services provided, population served, facility ID, address, hours/days of operation and current utilization of the facility. Include providers in the towns served or proposed to be served by the Applicant, as well as providers in towns contiguous to the service area.

Please refer to **Exhibit 25.**

27. Describe the effect of the proposal on these existing providers.

SFC does not believe this Certificate of Need proposal will have any effect on existing providers as there will be no expected change in any services at Johnson.

28. Describe the existing referral patterns in the area served by the proposal.

Please refer to the utilization tables, and service area exhibit contained in this Certificate of Need Application.

29. Explain how current referral patterns will be affected by the proposal.

The existing referral patterns will remain unchanged.

> *§ "Whether the applicant has satisfactorily demonstrated that the proposed project shall not result in an unnecessary duplication of existing or approved health care services or facilities;" (Conn.Gen.Stat. § 19a-639(a)(9))*

30. If applicable, explain why approval of the proposal will not result in an unnecessary duplication of services.

> *§ "Whether the applicant has satisfactorily demonstrated that the proposal will not negatively impact the diversity of health care providers and patient choice in the geographic region. . ." (Conn.Gen.Stat. § 19a-639(a)(11))*

This question is not applicable as this proposal will not result in an unnecessary duplication of services. Johnson Memorial Hospital will remain an acute care hospital if this proposal is approved.

31. How will the proposal impact the diversity of health care providers and patient choice or reduce competition in the geographic region?.

SFC believes that Johnson is a unique part of the healthcare infrastructure of the State of Connecticut and a critical component of the health system in their primary service area. As a result of SFC's acquisition fo Johnson, the residents in Johnson's geographic service area can continue to receive services from the healthcare providers they currently have established relationships with in their communities. In this fashion this proposal preserves access to a diverse group of health care providers and ensures continued competition with the other healthcare organizations that serve patients in the region.

1. **Project Description and Need: Change of Ownership or Control**

   a. **Describe the transition plan and how the Applicants will ensure continuity of services. Provide a copy of a transition plan, if available.**

   The initial transition will be directed at steps toward operational integration and would have a positive impact on the delivery of clinical services to patients. Once approval of the proposed acquisition is obtained from OHCA and the Bankruptcy Court, the parties plan to work collaboratively to develop an appropriate plan for integration of Johnson into the SFC system and for identifying opportunities to achieve efficiencies and improvements in quality and access of health care services.

   Since July 2012 SFC and JMMC have created a number of clinical and business services sub-agreements covering a variety of services and activities. The purpose of these agreements was to create a clinical affiliation between Johnson and SFC that would strengthen the operations of Johnson and would ensure the ability of Johnson to continue to provide high quality health care services to patients in its local community. A description of the Affiliation Agreements and copies are included in **Exhibit 8**.

   After working together under the Affiliation Agreements, Johnson and SFC determined that a greater integration of Johnson and SFC was needed to ensure the continuity of services in the communities served by Johnson. SFC now proposes to take the next steps in its relationship with Johnson through the Hospital APA.

   In order to effect this transaction, Johnson has filed for voluntary bankruptcy under Chapter 11 that will enable the parties to restructure outstanding financial obligations with Johnson's current creditors. This voluntary restructuring plan is a necessary step in completing the intended acquisition of Johnson by SFC, and providing a path for Johnson's continued financial strength and stability. This restructuring process will not impact day-to-day operations and the continued delivery of quality care to the community. On May 14, 2015, the Bankruptcy Court entered an order approving the sale of substantially all of Johnson's assets to SFC. The timeline for these

steps as well as the associated legal documents are included in **Exhibit 11**.

If the Certificate of Need is granted by the Office of Health Care Access then SFC plans to complete the acquisition of Johnson by November 2015.

The integration of Johnson under the SFC umbrella will benefit both organizations and the community by ensuring the ongoing operation of Johnson, thereby continuing the 105-year legacy of providing quality healthcare services in North Central Connecticut.

b. For each Applicant (and any new entities to be created as a result of the proposal), provide the following information as it would appear prior and subsequent to approval of this proposal:

i. Legal chart of corporate or entity structure including all affiliates.
ii. Governance or controlling body.
iii. List of owners and the % ownership and shares of each.

The corporate organization charts are attached in **Exhibit 26**.
The applicants are non-stock, non-profit corporations and have no equity owners. JMMC is the sole member of JMH, JHC, HCHS and JEC. JMMC has 43 members, who are listed in **Exhibit 26**.

The organization charts provided do not include any changes that would result if the SFC proposal to join Trinity Health and become a new regional health system (also known within the Trinity Health system as a "Regional Health Ministry" or "RHM") is approved. If this organizational change is approved, it would be accomplished through a member substitution in which Trinity Health will be substituted for the Archbishop of Hartford and become the sole member of SFC. If both proposals are approved, the new Johnson entities would be subsidiaries of the new RHM. The Certificate of Need Application for the membership substitution transaction between SFC and Trinity Health was submitted to the Office of Healthcare Access as Docket Number 15-31979-CON on February 13, 2015.

2. Historical and Projected Volume –

3. Clear Public Need

a. **Is the proposal being submitted due to provisions of the Federal Sherman Antitrust Act and Conn. Gen Stat. §35-24 et seq. statutes? Explain in detail.**

No. The proposal is being submitted in accordance with OHCA requirements; however, the parties also intend to comply with all applicable federal and state antitrust laws and regulations.

b. **Is the proposal being submitted due to provisions of the Patient Protection and Affordable Care Act (PPACA)? Explain in detail.**

See response to 4a below. This proposal does address the provision of the Patient Protection and Affordability Care Act since both Johnson and SFC have community benefit plans and will continue to have such plans if this Certificate of Need proposal is approved.

4. Supplemental Questions

a. **How will this proposal affect the implementation plan developed to address priority health needs identified in the most recent Community Health Needs Assessment (CHNA)?**

Contained in **Exhibit 23** of this Certificate of Need, is the Johnson Memorial Medical Center's Community Health Needs Assessment as filed with the Office of Health Care Access. In this document there are listed problem areas including obesity, diabetes, behavioral health, and alcoholism and substance abuse. These disease categories are also discussed as prevalent chronic diseases in Connecticut that need to be improved upon in The Department Of Health Publications called "Healthy CT 2020" published in March 2014 and "Live Healthy CT" published in April 2014. SFC also reviewed the "Statewide Health Care Facilities and Services Plan 2014 Supplement" which identifies at risk and vulnerable populations in Connecticut in chapters 3 – 5.

As shown in Johnson's implementation plan, it is addressing these diseases by offering related classes to improve the population health in Johnson's community. SFC also currently service many patients with chronic diseases noted above in its various service lines including Primary Care, and Behavioral Health services lines. In fact, SFC has an outpatient Diabetes Care Center that serves many people with Diabetes and offers many outreach and educational activities within the community that address these chronic diseases. Both SFC and Johnson understand the importance of treating and improving the overall health of its populations. Johnson will benefit from SFC*'s* knowledge and experience with improving chronic diseases.

SFC has also made it a priority to address health equity as evidenced by the establishment of the Curtis D. Robinson Center for Health

Equity (CDRCHE) in 2011. Curtis D. Robinson is a SFC board member, African American business leader and cancer survivor. The CDRCHE grew out of a community engaged program focused on the disparity in health outcomes of African American men impacted by prostate cancer. Over the years, the CDRCHE team has addressed health disparities by community engagement; providing health education and outreach to underserved communities; offering tailored navigation for patients; and participating in research and data analysis about health disparities for the community served by SFC. The CDRCHE serves as a platform throughout SFC *t*o address health equity issues by bridging the divide between the community and the healthcare system and focusing on a long term commitment to change. This approach will be incorporated for Johnson as well.

The SFC Strategic Implementation Plan (developed by the CDRCHE and approved by leadership) outlines four priorities that highlight a "systems change" approach to resolving the issues identified in the Community Health Needs Assessment. The four strategic priorities are: Improving Communication; Addressing Barriers to Healthcare Services; Providing Coordinated Care and Targeting Social Determinants of Health. Within each of these priority areas specific activities have been developed, with input from those affected, to address the identified need. The community outreach approach integrates input from healthcare providers, community agencies and those in need of services: a formula that attracted Johnson to SFC.

Some of the activities that have been developed to address the four priority areas within the SFC system include: the development of a language services program; increased commitment to cultural competency training; focus on appropriate use of Emergency Room resources; engagement with community groups to navigate patients to needed resources; partnering with state agencies to provide critical training to communities with limited resources for mental health support; and collaborating with faith communities to address chronic health conditions of concern within their institutions. Each of these activities will be replicated and tailored to address the needs identified within the communities reached by SFC healthcare system, including those served by Johnson if this proposed transaction is consumated.

The priorities of the Connecticut Department of Public Health are outlined in the Health Promotion Plan published in 2014 called -Live Healthy Connecticut. In this document , Dr. Jewell Mullen, the state Commissioner of Public Health, identifies three strategies as

necessary for success of the plan (which are parallel to those identified in our strategic implementation plan), they include: an environmental approach which acknowledges the need for change outside of the healthcare system to achieve sustainable outcomes (addressing social determinants of health); improving the system for delivery of care which ensures access to healthcare services (decreasing barriers to care) and improving linkages between the community and clinical settings (communication and coordination of care).

In addition, the Statewide Health Care Facilities and Services Plan 2014 Supplement and the Healthy CT 2020 consider multiple determinants of health and provide an overview of initiatives focused on reducing health inequities, improving health outcomes and enhancing care coordination all of which are priorities for SFC going forward. In fact, Dr. Marcus McKinney, D.Min., Vice President of Health Equity and Health Policy at SFC, was the co-chairperson of the work group on Mental Health, Alcohol and Substance Abuse which set the priorities for this area of work. Dr. Marcus McKinney's work on this work group shows SFC's commitment to addressing health inequities.

In addition to the above activities, Dr. McKinney is also engaged in national activities surrounding health disparities. For instance, as part of SFC*'s* effort to encourage other institutions to develop programs that encourage health care organizations to reach out to populations that often have difficulty accessing the traditional health care system, Dr. Marcus McKinney is also presenting "Simple Solutions in Health Equity; Bridging communities to Health Systems" at the 2015 National Catholic Health Association General Assembly on June 7, 2015 in Washington D.C.

The CDRCHE exists to engage and empower community members to collaborate with healthcare providers and create innovative programs that address identified health disparities. The CDRCHE encourages communities who have not been heard to reach out to health providers and help shape the trajectory of change in healthcare. Relationships with the community, Catholic Charities and other human service organizations are discussed and successful approaches to a collaborative dialogue will be identified in the presentation.

SFC is also beginning its efforts related to its 2015 Community Benefits report. For the 2015 Community Health Needs Assessment, Saint Francis Hospital and Medical Center has partnered with Data

Haven, a non-profit organization with a 25-year history of public service to Greater New Haven and Connecticut whose mission is to improve quality of life by compiling, sharing, and interpreting public data for effective decision making. DataHaven is a formal partner of the National Neighborhood Indicators Partnership of the Urban Institute in Washington, DC.

Funding support for the CHNA in the Hartford area include: the Hartford Foundation for Public Giving, the Greater New Britain Community Foundation, Saint Francis Hospital and Medical Center, Trinity College, and the Council of Governments. In addition to the Hartford area, approximately $500,000 has been committed to conduct the survey within other regions of Connecticut. Over the coming months the size of the final study will be determined once all other institutional sponsors have been identified. These research activities will be taking place in late 2015 and 2016.

SFC is working closely with the City of Hartford Health and Human Services Department, CT Children's Medical Center, and Johnson Memorial Hospital to monitor the survey design so that critical health questions are included in the final version. The 20 minute telephone survey is designed to include questions about health and well being chosen from national validated survey's and is slated to start on May 1st and be completed by fall. Findings from the survey will be used to assess the community needs and follow up qualitative data inquiry will be implemented to gain a deeper understanding of the priority issues identified. By choosing to participate in this study, Saint Francis expects to receive critical data necessary for assessing the health needs of residents in the hospital's service area.

Clearly, given the above, SFC and Johnson are currently addressing the community needs within the Johnson community and the State of Connecticut that are cited in four publications and will continue to do so if this CON is approved.

b. **Describe any changes to the Hospital's current charity care, uncompensated care, financial assistance policies and procedures and bed funds that will result from the proposal.**

A copy of Johnson's and SFC*'s* self pay and financial assistance policies are included in **Exhibit 27**. Saint Francis Hospital and Medical Center's inpatient and outpatient patient population was comprised of 23.8% Medicaid recipients in FY 2014 and Johnson's Medicaid population represented 18% of its inpatients and outpatients in FY

2014. In FY 2014 SFC delivered $78 million dollars of community benefit including nearly $6 million of unfunded charity care. Johnson delivered $6 million in community benefit and $151,372 in charity care in FY 2014.

The inclusion of Johnson in the SFC system will help preserve access to care for the Medicaid and indigent populations of the geographic region served by both organizations.

As a result of this transaction, neither organization will be required to change its current charity care, uncompensated care, financial assistance or bed fund policies as a result of Johnson joining the SFC system.

c. **Describe any plans to work with other community providers, such as federally qualified health centers or community health centers, to provide specialty care to patients or offer low cost programs tailored to the uninsured or underinsured.**

Due to Johnson's current climate, Johnson has no plans to work with other community providers at this time.

d. **Explain in detail the capital projects that are deemed top priorities by the Applicants.**

Johnson has faced difficult choices over the last three years given its financial challenges. Many very desirable projects have been delayed due to limited capital funds. As part of the agreement to acquire Johnson, SFC has committed to ensure that Johnson has a minimum of $13 million in capital funds available to cover its building, information technology and capital improvement needs over the next 5 years. Ideally, the successful integration into the SFC System will result in more than this minimum capital being available to Johnson.

Johnson's current capital needs exceed $15.3 million excluding costs associated with necessary information technology infrastructure and software to move forward with an electronic medical record which is anticipated to be approximately $5.4 million.
Top priorities for the $13 million dollars will be allocated to:

- Electronic medical record conversion (Epic and other systems) $5.4 million-
- Hospital OR and Ambulatory Surgery Center upgrades - $5.7 million
- Generator replacement - $500,000

- Replacement of clinical equipment - $1.4 million
- Longer term, Johnson must plan for replacement of its aging Ambulatory Surgery Center and expansion of its outpatient service delivery system. Please note the above capital priorities assume that the separate municipal bonding project targeted to bring city water, local sewer district access and natural gas services to the main campus of Johnson is successful. If not Johnson will need an additional $4-$5 million to replace its septic system.

e. **Explain in detail the service improvements that are deemed top priorities by the Applicants.**

- Saint Francis has already improved the service and quality of inpatient care through introduction of the hospitalist program. Through extension of clinical guidelines and protocols in existence at SFC, the care at Johnson is best practice.
- Cancer care is a key priority. Due to the aging of the population, cancer care is an important service to the community. Through the recently announced clinical affiliation with Smilow Cancer Hospital and Yale New Haven Hospital, the SFC cancer program will utilize the same clinical guidelines as Smilow. Furthermore, as the only NCI designated cancer program in the state, patients of SFC and Johnson following the transaction, will have access to state of the art clinical trials and treatments.
- Movement towards ambulatory surgery is a national and local trend. This enables care to be delivered in the lowest cost setting with the best outcomes for the patient. SFC will work with Johnson to enhance the range of services currently offered at Enfield surgery center to improve access to this low cost site of care for patients in the community.
- Population Management is essential to develop. SFC has already developed a robust heart failure program that will be a priority to extend to Johnson not only for inpatients but across the continuum including the skilled nursing facility and in the ambulatory setting. SFC has realized improvements in readmission rates and will readily extend this expertise to Johnson.

f. **Describe any anticipated changes as a result of this proposal to existing payer contracts (e.g., Medicare, Medicaid or commercial payers).**

It is anticipated that Johnson will maintain its current Medicare and Medicaid provider numbers and there will be no changes to those contracts as a result of this proposal. After the implementation of this proposal, Johnson will continue will continue to operate under its own license and its current commercial contracts are expected to remain in effect. Upon expiration of current commercial contracts, Johnson contract negotiations will be part of the broader SFC payor contracting process.

g. **Explain in detail how the proposal will address any existing debt and/or pension obligations.**

As noted above, Johnson's current debt will be significantly restructured and reduced if this proposal is improved. Johnson had a defined benefit pension plan that covered certain employees. Pursuant to the plan of reorganization on August 11, 2012, the pension plan was terminated and the Pension Benefit Guaranty Corporation assumed control of the plan assets effective September 1, 2011.

h. **Describe how the quality of care will be maintained with this proposal.**

The existing high quality of care of both SFC and Johnson will be maintained if this Certificate of Need is approved. Many of the existing clinical agreements between Johnson and SFC contained in **Exhibit 8** address quality assurance. Also, please refer to response to 9a in the Main CON.

i. **For all Applicants, provide copies of all Centers for Medicare & Medicaid Services (CMS) statement of deficiencies and corrective action plans for the two most recently completed federal fiscal years.**

Please refer to **Exhibit 28**.

j. **Provide a copy of and describe any changes to any of the following policies and procedures as a result of this proposal:**

i. **hospital collection policies (including charity care and bad debt);**

ii. **annual or periodic review and/or revision to the hospital's pricing structure (chargemaster or pricemaster); and**

iii. **the annual or periodic market rate assessment of the hospital. S Alber to provide**

See **Exhibit 27** for Johnson's and SFC's collection policies. There are no anticipated changes to these policies and procedures as a result of this proposal.

k. **Provide monthly financial reports that include statistics for the current month, year-to-date and comparable month from the previous year for the following:**

Monthly Financial Measurement/Indicators

A.	**Operating Performance:**
	Operating Margin
	Non-Operating Margin
	Total Margin
	Bad Debt as % of Gross Revenue
B.	**Liquidity:**
	Current Ratio
	Days Cash on Hand
	Days in Net Accounts Receivables
	Average Payment Period
C.	**Leverage and Capital Structure:**
	Long-term Debt to Equity
	Long-term Debt to Capitalization
	Unrestricted Cash to Debt
	Times Interest Earned Ratio
	Debt Service Coverage Ratio
	Equity Financing Ratio
D.	**Additional Statistics**
	Income from Operations
	Revenue Over/(Under) Expense
	EBITDA
	Patient Cash Collected
	Cash and Cash Equivalents
	Net Working Capital
	Unrestricted Assets

Credit Ratings (S&P, Fitch, Moody's)

Please refer to **Exhibit 17.**

l. **For the most recent tax year, provide a copy of the Hospital's IRS Form 990 (you may reference the filing if previously submitted to OHCA). With respect to the amounts listed on each line item within Part 1, Section 7 of Schedule H (Financial Assistance and Certain Other Community Benefits at Cost) and Part II of Schedule H (Community Building Activities), provide a projected amount for each line item for the first three years following the change in ownership and describe the hospital's future commitment to programmatic and financial support for the community benefit programs and building activities listed on Schedule H.**

The total Financial Assistance and Means-Tested Government Assistance Programs for FY 2013 resulted in a net community benefit expense of $5.1 million. Other community benefits including community health improvement services and community benefit operations and health professional education totaled a net community benefit expense of $82,000. There were no amounts reported on Part II Community Building Activities. However, Johnson incurred net community benefit expense of $16,000 in FY 2013 relating to coalition building activities. It is anticipated that Johnson's commitment to programmatic and financial support will remain consistent and that similar amounts of net community benefits expense supporting both financial assistance, other community benefits and community building activities will be incurred in the first three years after this transaction is completed. See **Exhibit 29**.

m. **Discuss in detail how the proposal will impact the hospital's negotiating position with vendors and/or payers?**

SFC currently participates in a national group purchasing program that provides advantageous pricing for many products and supplies. The proposal will allow Johnson to further benefit from this program as well as provide other opportunities with vendors such as information technology.

SFC's continued focus on population health and the development of an infrastructure to support risk-based contracts will also be available and a benefit to Johnson after the proposal is approved.

n. **If an improved negotiating position is anticipated, quantify the tangible savings for the health care consumer.**

Anticipated supply chain savings and revenue cycle improvements have been included the projected incremental amounts in the Financial Worksheet at **Exhibit 17.**

One of the core components of an effective population health strategy for accountable care organizations is to have the ability to provide high quality health care access in the most affordable way, delivering the right care, at the right time, at the right location is critical to the overall success of achieving the triple aim (population health, patient experience, and per capita cost). By keeping access to health care local, there will not be a need to seek out care at more expensive venues. For example, according to the latest Office of Health Care Access (OHCA) data, in fiscal year 2013, Johnson Memorial's average cost per case mix adjusted equivalent discharge was $3,593 or 34% less expensive that Hartford Hospital and $3,646 or 35% less expensive than John Dempsey Hospital. In addition to these types of savings, the average consumer may or may not be able to access these services at in-network rates, which could further increase the out of pocket rates for consumers.

o. **Provide details of plans to ensure that future health care services provided, in relation to the proposal, adhere to the National Standards on Culturally and Linguistically Appropriate Services (CLAS) to advance health equity, improve quality and help eliminate health care disparities in the projected service area. (For more details on CLAS standards can be found at http://minorityhealth.hhs.gov/.**

The following is a description of SFC's efforts in establishing National CLAS Standards.

To address health disparities and prioritize health equity Saint Francis Hospital and Medical Center led by its CEO, Christopher Dadlez, created the Curtis D. Robinson Center for Health Equity, a platform that supports and leads health equity initiatives – whose home is the first floor of the Urban League of Greater Hartford. In 2009 the Saint Francis Board of Directors passed a resolution that embraced the National Call to Action goals of increased use of Real Data, improved Cultural Competency Training, and more Diversity in Leadership. In 2011 the Curtis D. Robinson Center for Health Equity was founded and in 2012 it moved to a dedicated space designed to provide easy

access to those who live in the surrounding community. The position of Vice President of Community Health Equity was established, and a dedicated, multicultural staff charged with transformation of our healthcare system based on AHA goals and Saint Francis' unyielding commitment to community engagement which results in decreased health disparities in a meaningful and measurable way.

Activities at SFC that fulfill the CLAS Standards include:

*Governance, Leadership, and Workforce:

- Updated training for intake staff on the collection of race and ethnicity implemented 3/2014.
- Updated policy for the use of language services implemented 9/2014
- Edits to the policies to explicitly include gay and lesbian populations for visitation completed 9/2014.
- 99% of staff trained for cultural competency in 2014

*Communication and Language Assistance:

- Language Program Developed: Increase in resources across the organization for addressing language services to include our 3 + 1 options (Dual Handset Phones; Video
- Remote Interpreting; In-person interpreting + Document Translation)
- Full Time Language Services Coordinator Hired 11/2014
- Signage regarding language services availability updated and replaced 12/2014
- Training for all staff on new language services resources completed 3/2015
- Pilot training for bilingual staff to become qualified medical interpreters completed in 9/2014
- System for translation of documents into needed languages on demand implemented 2/2015

*Engagement, Continuous Improvement, and Accountability:

- Leadership of the State Diversity Collaborative by the CEO of Saint Francis Hospital and Medical Center
- Collection and reporting of data for the CT Diversity Collaborative (Diversity in Leadership and Governance; Cultural Competency Training; Use of Diverse Suppliers)
- Quarterly reporting to the Board of Directors on Center for Health Equity activities

- Partnership with community organizations to respond to needs identified through assessment activities.
- Support of Diversity Intern through the Institute for Diversity in Healthcare Management
- Creation of an Accelerated Development Program for diversity staff
- Saint Francis Diversity Collaborative Team – regular meetings since 2011
- Development of a Health Equity Scorecard
- Regular Community Leader Roundtable Discussions
- Completion and Distribution of the Community Benefit Report
- Update of Saint Francis Hospital and Medical Center's website outlining activities and providing copies of relevant publications.

To address health disparities in a comprehensive and effective manner it is necessary not only to provide appropriate services but to change and improve those services so that they are accessible to all populations regardless of degree of English language proficiency; cultural beliefs; racial, ethnic and gender identities. Hence, SFC has updated three of its current policies addressing communication and language services, patients' rights and equal employment and Affirmative Action. Please refer to **Exhibit 30** to see these policies. By making changes at the policy level Saint Francis is able to hold all staff accountable for providing care which embraces inclusive strategies that have proven to impact health outcomes. For example, research has shown that providing information to patients with limited English proficiency in their native language can result in better health outcomes and patient satisfaction. See **Exhibit 31** for citation - "Multiple studies document that quality of care is compromised when LEP patients need but do not get interpreters. LEP patients' quality of care is inferior, and more interpreter errors occur with untrained ad hoc interpreters." Research from NIH has concluded that implementation of cultural competency needs to take place at the systems level - as a "framework which enables systems, agencies and group of professionals to function effectively to understand the needs of groups accessing care." Saint Francis is embracing this approach by making changes at all levels of the organization to address health equity disparities.

SFC expects these initiatives will continue and deepen if this proposal is approved.

5. For-profit Purchasers Only (Conn. Gen. Stat. § 19a-486d)

a. Describe in detail how the surrounding community will be assured of continued access to high quality and affordable health care after accounting for any proposed change impacting hospital staffing.

This question is not applicable since this Certificate of Need proposal is for non-profit organizations.

b. Describe in detail the purchasers commitment to provide health care to the uninsured and the underinsured following the hospital acquisition.

This question is not applicable since this Certificate of Need proposal is for non-profit organizations.

c. In a situation where health care providers or insurers will be offered the opportunity to invest or own an interest in the purchaser or a related entity, what safeguards will be created to avoid a conflict of interest in regard to patient referral?

This question is not applicable since this Certificate of Need proposal is for non-profit organizations.

PREAMBLES AND RESOLUTIONS FOR THE
SPECIAL MEETING OF THE COMMUNITY MEMBERS
OF
JOHNSON MEMORIAL MEDICAL CENTER, INC.
JANUARY 13, 2015

WHEREAS, JMMC Johnson Memorial Medical Center, Inc. ("JMMC") is the parent corporation of a medical system (the "Johnson System"); and

WHEREAS, as the parent corporation of the Johnson System, the Corporation serves as the sole or controlling corporate member of Johnson Memorial Hospital, Inc. (the "Hospital"), Home and Community Health Services, Inc. ("H&C"), Johnson Health Care, Inc. ("JHC"), and The Johnson Evergreen Corporation, Inc. ("Evergreen"); and

WHEREAS, it has been proposed that (a) Johnson, the Hospital, H&C and JHC (together, the "Primary Sellers") enter into a certain Asset Purchase Agreement (the "Primary Agreement") with a third party (the "Presumptive Buyer") pursuant to which the businesses and substantially all of the assets of the Primary Sellers will be sold to the Presumptive Buyer or another third party determined in the manner contemplated by the Primary Agreement (the "Actual Primary Buyer") on and subject to the terms and conditions (the "Primary Sale Terms") set forth in the Primary Agreement as finally entered into with the approval of the Board (such transaction being the "Primary Sale"), and (b) Evergreen enter into a certain Asset Purchase Agreement (the "Evergreen Agreement") with the Presumptive Buyer pursuant to which the business and substantially all of the assets of Evergreen will be sold to the Presumptive Buyer or another third party determined in the manner contemplated by the Evergreen Agreement (the "Actual Evergreen Buyer") on and subject to the terms and conditions (the "Evergreen Sale Terms") set forth in the Evergreen Agreement as finally entered into with the approval of the Board (such transaction being the "Evergreen Sale," and the Primary Sale and the Evergreen Sale being together the "Proposed Sales"); and

Dear Sir/Madam:

This responds to your May 19, 2014, request for information regarding the status of your group tax exemption.

Our records indicate that you were issued a determination letter in March 1946, that you are currently exempt from federal income tax under section 501(c)(3) of the Internal Revenue Code, and are not a private foundation within the meaning of section 509(a) of the Code because you are described in sections 509(a)(1) and 170(b)(1)(A)(i).

With your request, you provided a copy of the *Official Catholic Directory for 2014*, which includes the names and addresses of the agencies and instrumentalities and the educational, charitable, and religious institutions operated by the Roman Catholic Church in the United States, its territories, and possessions that are subordinate organizations under your group tax exemption. Your request indicated that each subordinate organization is a non-profit organization, that no part of the net earnings thereof inures to the benefit of any individual, and that no substantial part of their activities is for promotion of legislation. You have further represented that none of your subordinate organizations is a private foundation under section 509(a), although all subordinates do not all share the same sub-classification under section 509(a). Based on your representations, the subordinate organizations in the *Official Catholic Directory for 2014* are recognized as exempt under section 501(c)(3) of the Code under GEN 0928.

Donors may deduct contributions to you and your subordinate organizations as provided in section 170 of the Code. Bequests, legacies, devises, transfers, or gifts to them or for their use are deductible for federal estate and gifts tax purposes if they meet the applicable provisions of section 2055, 2106, and 2522 of the Code.

Subordinate organizations under a group exemption do not receive individual exemption letters. Most subordinate organizations are not separately listed in Publication 78 or the EO Business Master File. Donors may verify that a subordinate organization is included

in your group exemption by consulting the *Official Catholic Directory*, the official subordinate listing approved by you, or by contacting you directly. IRS does not verify the inclusion of subordinate organizations under your group exemption. *See* IRS Publication 4573, *Group Exemption*, for additional information about group exemptions.

Each subordinate organization covered in a group exemption should have its own EIN. Each subordinate organization must use its own EIN, not the EIN of the central organization, in all filings with IRS.

If you have any questions, please call us at the telephone number shown in the heading of this letter.

Sincerely,

Tamera Ripperda
Director, Exempt Organizations

TO: Subordinate Organizations under USCCB Group Ruling
(GEN: 0928)

SUBJECT: 2014 Group Ruling

FROM: Anthony Picarello, General Counsel
(Staff: Matthew Giuliano, Assistant General Counsel)

This memorandum relates to the annual Group Ruling determination letter issued to the United States Conference of Catholic Bishops ("USCCB") by the Internal Revenue Service ("IRS"), the most recent of which is dated June 4, 2014, with respect to the federal tax status of subordinate organizations listed in the 2014 edition of the Official Catholic Directory ("OCD").[1] As explained in greater detail below, this 2014 Group Ruling determination letter is important for establishing:

(1) exemption of subordinate organizations under the USCCB Group Ruling from federal income tax; and

(2) deductibility of contributions to such organizations for federal income, gift and estate tax purposes.

The 2014 Group Ruling determination letter is the latest in a series that began with the original determination letter of March 25, 1946. In the original 1946 letter, the Treasury Department affirmed the exemption from federal income tax of all Catholic institutions listed in the OCD for that year. Each year since 1946, in a separate letter, the 1946 ruling has been reaffirmed with respect to subordinate organizations listed in the current edition of the OCD.[2] The annual group ruling letter clarifies important tax consequences for Catholic institutions listed in the OCD, and should be retained for ready reference. Group Ruling letters from prior years establish tax consequences with respect to transactions occurring during those years.

Responsibilities under Group Ruling. Diocesan officials who compile OCD information for submission to the OCD publisher are responsible for the accuracy of such information. They must ensure that only qualified organizations are listed, that organizations are listed under their correct legal names, that organizations that cease to qualify are deleted promptly, and that newly-

qualified organizations are listed as soon as possible.

EXPLANATION

1. **Exemption from Federal Income Tax**. The latest Group Ruling determination letter reaffirms that the agencies and instrumentalities and educational, charitable, and religious institutions operated, supervised or controlled by or in connection with the Roman Catholic Church in the United States, its territories or possessions that appear in the 2014 OCD and are subordinate organizations under the Group Ruling are recognized as exempt from federal income tax under section 501(c)(3) of the Code. The Group Ruling determination letter does not cover organizations listed with asterisks or any foreign organizations listed in the 2014 OCD.

Verification of Exemption under Group Ruling. The latest Group Ruling determination letter indicates that most subordinate organizations under a group tax exemption are not separately listed in Exempt Organizations Select Check ("EO Select Check") or the Exempt Organization Business Master File extract ("EO BMF"), both of which are available on www.irs.gov. As a result, many subordinate organizations included in the USCCB Group Ruling are not included in various online databases (e.g., GuideStar) that are derived from IRS sources. This does not mean that subordinate organizations included in the Group Ruling are not tax exempt, that contributions to them are not deductible, or that they are not eligible for grant funding from corporations, private foundations, sponsors of donor-advised funds or other donors that rely on online databases for verification of tax-exempt status. It does mean that a Group Ruling subordinate may have to make an extra effort to document its eligibility to receive contributions. The Group Ruling determination letter states that donors may verify that a subordinate organization is included in the Group Ruling by consulting the Official Catholic Directory or by contacting the USCCB directly. It also states that the IRS does not verify inclusion of subordinate organizations under the Group Ruling. *Accordingly, neither subordinate organizations nor donors should contact the IRS to verify inclusion under the Group Ruling.*

Subordinate organizations should refer donors, including corporations, private foundations and sponsors of donor-advised funds, to the specific language in the Group Ruling determination letter regarding verification of tax-exempt status, and to IRS Publication 4573, *Group Exemptions*, available on the IRS website at www.irs.gov. Publication 4573 explains that: (1) the IRS does not determine which organizations are included in a group exemption; (2) subordinate organizations exempt under a group exemption do not receive their own IRS determination letters; (3) exemption under a group ruling is verified by reference to the official subordinate listing (*e.g.*, the Official Catholic Directory); and (4) it is not necessary for an organization included in a group exemption to be listed in EO Select Check or the EO BMF. Although not required, organizations in the Group Ruling may be included in the EO BMF, and consequently, online databases derived from it.

2. **Public Charity Status**. The latest Group Ruling determination letter recognizes that subordinate organizations included in the 2014 OCD are public charities and not private foundations under section 509(a) of the Code, but that all subordinate organizations do not share the same public charity status under section 509(a). Therefore, although the USCCB is classified

as a public charity under sections 509(a)(1) and 170(b)(1)(A)(i), that public charity status does *not* automatically extend to subordinate organizations covered under the Group Ruling.

Verification of Public Charity Status. Each subordinate organization in the Group Ruling must establish its own public charity status under section 509(a)(1), 509(a)(2) or 509(a)(3) as a condition to inclusion in the Group Ruling. Certain types of subordinate organizations included in the Group Ruling qualify as public charities by definition under the Code. These are:

- churches and conventions or associations of churches under sections 509(a)(1) and 170(b)(1)(A)(i) (generally limited to dioceses, parishes and religious orders);
- elementary and secondary schools, colleges and universities under sections 509(a)(1) and 170(b)(1)(A)(ii); and
- hospitals under sections 509(a)(1) and 170(b)(1)(A)(iii).

Other subordinate organizations covered under the Group Ruling may qualify under the public support tests of either sections 509(a)(1) and 170(b)(1)(A)(vi) or section 509(a)(2). Verification of public charity classification under either of the support tests generally can be established by providing a written declaration of the applicable classification signed by an officer of the organization, along with a reasoned written opinion of counsel and a copy of Schedule A of Form 990/EZ, if applicable. Large institutional donors, such as private foundations and sponsors of donor-advised funds, may require this verification prior to making a contribution or grant to be assured that the grantee is not a Type III non-functionally integrated supporting organization.[3] A subordinate organization included in the Group Ruling may want to file Form 8940, Request for Miscellaneous Determination, with the IRS to request a determination whether it is a publicly supported charity described in sections 509(a)(1) and 170(b)(1)(A)(vi) or section 509(a)(2), or is a Type I or II supporting organization, in order to satisfy private foundations and sponsors of donor-advised funds regarding its public charity status.

3. **Deductibility of Contributions**. The latest Group Ruling determination letter assures donors that contributions to subordinate organizations listed in the 2014 OCD are deductible for federal income, gift, and estate tax purposes.

4. **Unemployment Tax**. As section 501(c)(3) organizations, subordinate organizations covered by the Group Ruling are exempt from *federal* unemployment tax. However, individual states may impose unemployment tax on subordinate organizations even though they are exempt from federal unemployment tax. Please refer to your local tax advisor any questions you may have about state unemployment tax.

5. **Social Security Tax**. All section 501(c)(3) organizations, including churches, are required to withhold and pay taxes under the Federal Insurance Contributions Act (FICA) for

[3] *See* Notice 2014-4, 2014-2 I.R.B (January 6, 2014).

each employee.[4] However, services performed by diocesan priests in the exercise of their ministry are not considered "employment" for FICA (Social Security) purposes.[5] FICA should not be withheld from their salaries. *For Social Security purposes*, diocesan priests are subject to self-employment tax ("SECA") on their salaries as well as on the value of meals and housing or housing allowances provided to them.[6] Neither FICA nor income tax withholding is required on remuneration paid directly to religious institutes for members who are subject to vows of poverty and obedience and are employed by organizations included in the Official Catholic Directory.[7]

6. **Federal Excise Tax**. Inclusion in the Group Ruling has no effect on a subordinate organization's liability for federal excise taxes. Exemption from these taxes is very limited. Please refer to your local tax advisor any questions you may have about excise taxes.

7. **State/Local Taxes**. Inclusion in the Group Ruling does not automatically establish a subordinate organization's exemption from state or local income, sales or property taxes. Typically, separate exemptions must be obtained from the appropriate state or local tax authorities in order to qualify for any applicable exemptions. Please refer to your local tax advisor any questions you may have about state or local tax exemptions.

8. **Form 990/EZ/N**. All subordinate organizations included in the Group Ruling must file Form 990, Return of Organization Exempt from Income Tax, Form 990-EZ, Short Form Return of Organization Exempt From Income Tax, or Form 990-N, e-Postcard, *unless* they are eligible for a mandatory or discretionary exception to this filing requirement. ***There is no automatic exemption from the Form 990/EZ/N filing requirement simply because an organization is included in the Group Ruling or listed in the OCD.*** Subordinate organizations must use their own EIN to file Form 990/EZ/N. **Do not** use the EIN of the USCCB or an affiliated parish, diocese or other organization to file a return. Form 990/EZ/N is due by the 15th day of the fifth month after the close of an organization's fiscal year.[8] The following organizations are not required to file Form 990/EZ/N: (i) churches and conventions or associations of churches; (ii) integrated auxiliaries;[9] (iii) the exclusively religious activities of religious orders; (iv) schools below college level affiliated with a church or operated by a religious order;[10] and (v) certain church-affiliated organizations that finance, fund or manage

However, organizations with annual gross receipts in excess of $1 million are subject to penalties of $100 per day, up to a maximum of $50,000. I.R.C. § 6652(c)(1)(A). There is no monetary penalty for failing to file or late-filing a Form 990-N.

church assets, or maintain church retirement insurance programs, and organizations controlled by religious orders that finance, fund or manage assets used for exclusively religious activities.[11] Organizations should exercise caution if they choose not to file a Form 990/EZ/N because they believe they are not required to do so. If IRS records indicate that the organization should file a Form 990/EZ/N each year (for example, the organization receives an IRS notice stating that it failed to file a return for a given year), then the organization may appear on the auto-revocation list notwithstanding its claim to being exempt from the filing requirement.

Which form an organization is required to file usually depends on the organization's gross receipts or the fair market value of its assets.

Gross receipts or fair market value of assets	Return required
Gross receipts normally not more than $50,000 (regardless of total assets)	990-N (but may file a Form 990 or 990-EZ)
Gross receipts < $200,000, *and* Total assets < $500,000	990-EZ (but may file a Form 990)
Gross receipts ≥ $200,000, *or* Total assets ≥ $500,000	990

Special Rules for Section 509(a)(3) Supporting Organizations. Every supporting organization described in section 509(a)(3) included in the Group Ruling must file a Form 990 or Form 990-EZ (and not Form 990-N) each year, unless (i) the organization can establish that it is an integrated auxiliary of a church within the meaning of Treas. Reg. § 1.6033-2(h) (in which case the organization need not file Form 990/EZ *or* Form 990-N); or (ii) the organization's gross receipts are normally not more than $5,000, in which case, the religious supporting organization may file Form 990-N in lieu of a Form 990 or Form 990-EZ.

Automatic Revocation for Failure to File a Required Form 990/EZ/N. Any organization that does not file a required Form 990/EZ/N for three consecutive years automatically loses its tax-exempt status under section 6033(j). If an organization loses its tax-exempt status under section 6033(j), it must file an application (Form 1023) with the IRS to reinstate its tax-exempt status. *See* the IRS website (charities and non-profits) at http://www.irs.gov/Charities-&-Non-Profits/ for information on automatic revocation, including the current list of revoked organizations and guidance about reinstatement of exemption.

Public Disclosure and Inspection. Subordinate organizations required to file Form 990/EZ[12] must upon request make a copy of the form and its schedules (other than contributor lists) and attachments available for public inspection during regular business hours at the

organization's principal office and at any regional or district offices having three or more employees. Form 990/EZ for a particular year must be made available for a three year period beginning with the due date of the return.[13] In addition, any organization that files Form 990/EZ must comply with written or in-person requests for copies of the form. The organization may impose no fees other than a reasonable fee to cover copying and mailing costs. If requested, copies of the forms for the past three years must be provided. In-person requests must be satisfied on the same day. Written requests must be satisfied within 30 days.[14]

Public Disclosure of Form 990-T. Form 990-T, Exempt Organization Unrelated Business Income Tax Return, for organizations exempt under section 501(c)(3) (which includes all organizations in the USCCB Group Ruling) is subject to similar[15] public inspection and copying rules that apply to Forms 990/EZ.

Group Returns. USCCB does not file a group return Form 990 on behalf of any organizations in the Group Ruling. In addition, no subordinate organization under the Group Ruling is authorized to file a group return for its own affiliated group of organizations.

9. **Certification of Racial Nondiscrimination by Private Schools in Group Ruling**. Revenue Procedure 75-50[16] sets forth notice, publication, and recordkeeping requirements regarding racially nondiscriminatory policies with which private schools, including church-related schools, must comply as a condition of establishing and maintaining exempt status under section 501(c)(3) of the Code. Under Rev. Proc. 75-50 private schools are required to file an annual certification of racial nondiscrimination with the IRS. For private schools not required to file Form 990, the annual certification must be filed on Form 5578, Annual Certification of Racial Nondiscrimination for a Private School Exempt from Federal Income Tax. This form is available at www.irs.gov. Form 5578 must be filed by the 15th day of the fifth month following the close of the fiscal year. Form 5578 may be filed by an individual school or by the diocese on behalf of all schools operated under diocesan auspices. The requirements of Rev. Proc. 75-50 remain in effect and must be complied with by all schools listed in the OCD. ***Diocesan or school officials should ensure that the requirements of Rev. Proc. 75-50 are met since failure to do so could jeopardize the tax-exempt status of the school***

---

[13] The penalty for failure to permit public inspection of the Form 990 is $20 for each day during which such failure continues, up to a maximum of $10,000. I.R.C. § 6652(c)(1)(C).

[14] I.R.C. § 6104(d). Generally, a copy of an organization's exemption application and supporting documents must also be provided on the same basis. However, since organizations included in the Group Ruling do not file exemption applications with the IRS, nor did the USCCB, organizations included in the Group Ruling should respond to requests for public inspection and written or in-person requests for copies by providing a copy of the page of the current OCD on which they are listed. If a covered organization does not have a copy of the current OCD, it has two weeks within which to make it available for inspection and to comply with in-person requests for copies. Written requests must be satisfied within the general time limits.

[15] Only the Form 990-T itself, and any schedules, attachments, and supporting documents that relate to the imposition of tax on the unrelated business income of the organization, are required to be made available for public inspection.

[16] 1975-2 C.B. 587.

and, in the case of a school not legally separate from the church, the tax-exempt status of the church itself.

10. **Lobbying Activities**. Subordinate organizations under the Group Ruling may lobby for changes in the law, provided such lobbying is not more than an insubstantial part of their total activities. Attempts to influence legislation both directly and through grassroots lobbying are subject to this restriction. The term "lobbying" includes activities in support of or in opposition to referenda, constitutional amendments, and similar ballot initiatives. There is no distinction between lobbying activity that is related to a subordinate organization's exempt purposes and lobbying that is not. There is no fixed percentage that constitutes a safe harbor for "insubstantial" lobbying. Please refer to your local tax advisor any questions you may have about permissible lobbying activities.

11. **Political Activities**. ***Subordinate organizations under the Group Ruling may not participate or intervene in any political campaign on behalf of or in opposition to any candidate for public office. Violation of the prohibition against political campaign intervention can jeopardize the organization's tax-exempt status.*** In addition to revoking tax-exempt status, IRS may also impose excise taxes on an exempt organization and its managers on account of political expenditures. Where there has been a flagrant violation, the IRS has authority to seek an injunction against the exempt organization and immediate assessment of taxes due. The Office of General Counsel memorandum, *Political Campaign Activity Guidance for Catholic Organizations*, available at www.usccb.org/ogc, contains detailed information regarding the prohibition against political campaign intervention. If you have any questions in this regard, please refer them to your local tax advisor.

12. **Group Exemption Number ("GEN")**. The group exemption number or GEN assigned to the USCCB Group Ruling is 0928. ***This number must be included on each Form 990/EZ, Form 990-T, and Form 5578 required to be filed by a subordinate organization under the Group Ruling.***[17] We advise *against* using GEN 0928 on Form SS-4, Request for Employer Identification Number, because in the past this has resulted in the IRS improperly including the USCCB as part of the subordinate organization's name in IRS records.

13. **Employer Identification Numbers ("EINs")**. Each subordinate organization under the Group Ruling should have its own EIN. A subordinate organization must use its own EIN. **Do not** use the EIN of the USCCB or an affiliated parish, diocese or other organization in any filings with IRS (*e.g.*, Forms 941, W-2, 1099, or 990/EZ) or other financial documents. In addition, subordinate organizations may *not* use USCCB's EIN in order to qualify for online donations, grants or matching gifts.

[17] The IRS has expressed concern about organizations covered under the Group Ruling that fail to include the group exemption number (0928) on their Form 990/EZ/T filings, particularly the initial filing.

Mesdames:

It is the opinion of this office, based upon the evidence presented, that you are exempt from Federal income tax under the provisions of section 101(6) of the Internal Revenue Code and corresponding provisions of prior revenue acts, as it is shown that you are organized and operated exclusively for **charitable purposes.**

Accordingly, you will not be required to file returns of income unless you change the character of your organization, the purposes for which you were organized, or your method of operation. Any such changes should be reported immediately to the collector of internal revenue for your district in order that their effect upon your exempt status may be determined.

Since any organization which is exempt from Federal income tax under the provisions of section 101 of the Internal Revenue Code also is exempt from the capital stock tax pursuant to the express provisions of section 1201(a)(1) of the Internal Revenue Code, you will not be required to file capital stock tax returns for future years so long as the exemption from income tax is effective.

Furthermore, under substantially identical authority contained in sections 1426 and 1607 of the Code and/or corresponding provisions of the Social Security Act, the employment taxes imposed by such statutes are not applicable to remuneration for services performed in your employ so long as you meet the conditions prescribed above for retention of an exempt status for income tax purposes.

You will be required, however, to file annually, beginning with your current accounting period, an information return on Form 990 with the collector of internal revenue for your district so long as this exemption remains in effect. This form may be obtained from the collector and is required to be filed on or before the first day of the third month following the close of your annual accounting period.

Context and Process

Saint Francis *Care* undertook this strategic planning initiative amidst a time of great change and uncertainty. In early 2009 the world was reeling from the immediate aftermath of the worst economic crisis in seventy years. The new president of the United States had vowed fundamental reform of the healthcare sector. Hartford's healthcare market dynamics were nearing a tipping point with the aggressive expansion of Hartford Hospital's healthcare system. The University of Connecticut was pursuing the creation of a university medical center with Hartford Hospital as its primary partner. And Saint Francis *Care* had closed its prior fiscal year with the first shortfall in nearly a decade.

Within this context Saint Francis *Care*'s leadership initiated a strategic planning process designed to define Saint Francis *Care*'s future role and position – based on its mission and core values – and to develop a strategic plan focused on that role and position.

Strategy Development Process

As the turmoil in the economy, the uncertainty about healthcare reform, and the increasing intensity in Saint Francis *Care*'s competitive environment unfolded, Saint Francis' leadership elected to take a different, non-traditional approach to the development of this strategic plan. The approach began with, rather than led up to, creating Saint Francis *Care*'s vision for the future. Analytics were focused on assessing the gap between Saint Francis' current state and its desired future. Key stakeholders and constituency groups were involved in the process at key points, providing feedback and input on vision and draft strategies. Three major areas of focus required to achieve Saint Francis' vision were identified and specific activities and initiative in each were developed.

1. Vision for the Future

   A small group of Saint Francis *Care* board members, executives, and physician leaders examined trends in the practice of medicine, organization of care, payment policy, innovation, healthcare systems, technology, and other factors. The visioning group concluded that conventional approaches to improving care delivery would not lead to the levels of quality, satisfaction, and cost performance that would be required of Saint Francis *Care* under future payment models. The visioning group further concluded that incremental approaches would be unlikely to provide Saint Francis *Care* with a sustainable competitive advantage in the consolidating regional marketplace. As a result, the group seized on a bold vision for the future of providing Best *Care* for Everyone – a perfect experience of care encompassing quality, care processes, and service. Furthermore, the visioning group agreed that Best *Care* implied delivering value – the highest quality of care and patient experience at lower costs. The Best *Care* theme was subsequently refined to Best *Care* for a Lifetime to emphasize Saint Francis' ongoing relationship with patients and their families and to recognize that the future of healthcare will be increasingly patient-centric rather than hospital-centric.

2. Gap Assessments and Environmental Assessment

   An assessment focused on publicly available performance measures helped determine the distance (or gap) between Best *Care* and Saint Francis *Care*'s current performance on quality, satisfaction, and cost. Examples from leading healthcare organizations illustrated how these organizations set standards and organized to achieve them. An environmental assessment of trends in population, volumes and market shares, service lines, network development, physician resources and organization, and related topics provided a clear view of the external environment and competitive dynamics of the regional market place in which Saint Francis *Care* competes.

3. Eliciting Input

   Over the course of the strategy development process, 140 participants (See Appendix B) offered their views on Saint Francis *Care*'s vision, issues, opportunities, and potential priorities in interviews with Navigant consultants. Participants included caregivers, Board members, and administrative leaders within Saint Francis *Care* and its affiliates, the Archdiocese of Hartford, as well as representatives from local and regional physician groups, business organizations, the Connecticut Hospital Association, and other organizations.

4. Strategy Development

   The foregoing activities led to a set of draft strategies aggregated in three focal areas targeted at achieving Saint Francis *Care*'s vision and enhancing its position in the regional healthcare marketplace. The draft strategies and their underlying rationale were the subject of this year's Leadership Summit. At the summit, the leadership group strongly endorsed Saint Francis *Care*'s vision for the future and its strategic direction and offered numerous enhancements on the strategies which were subsequently incorporated into the plan.

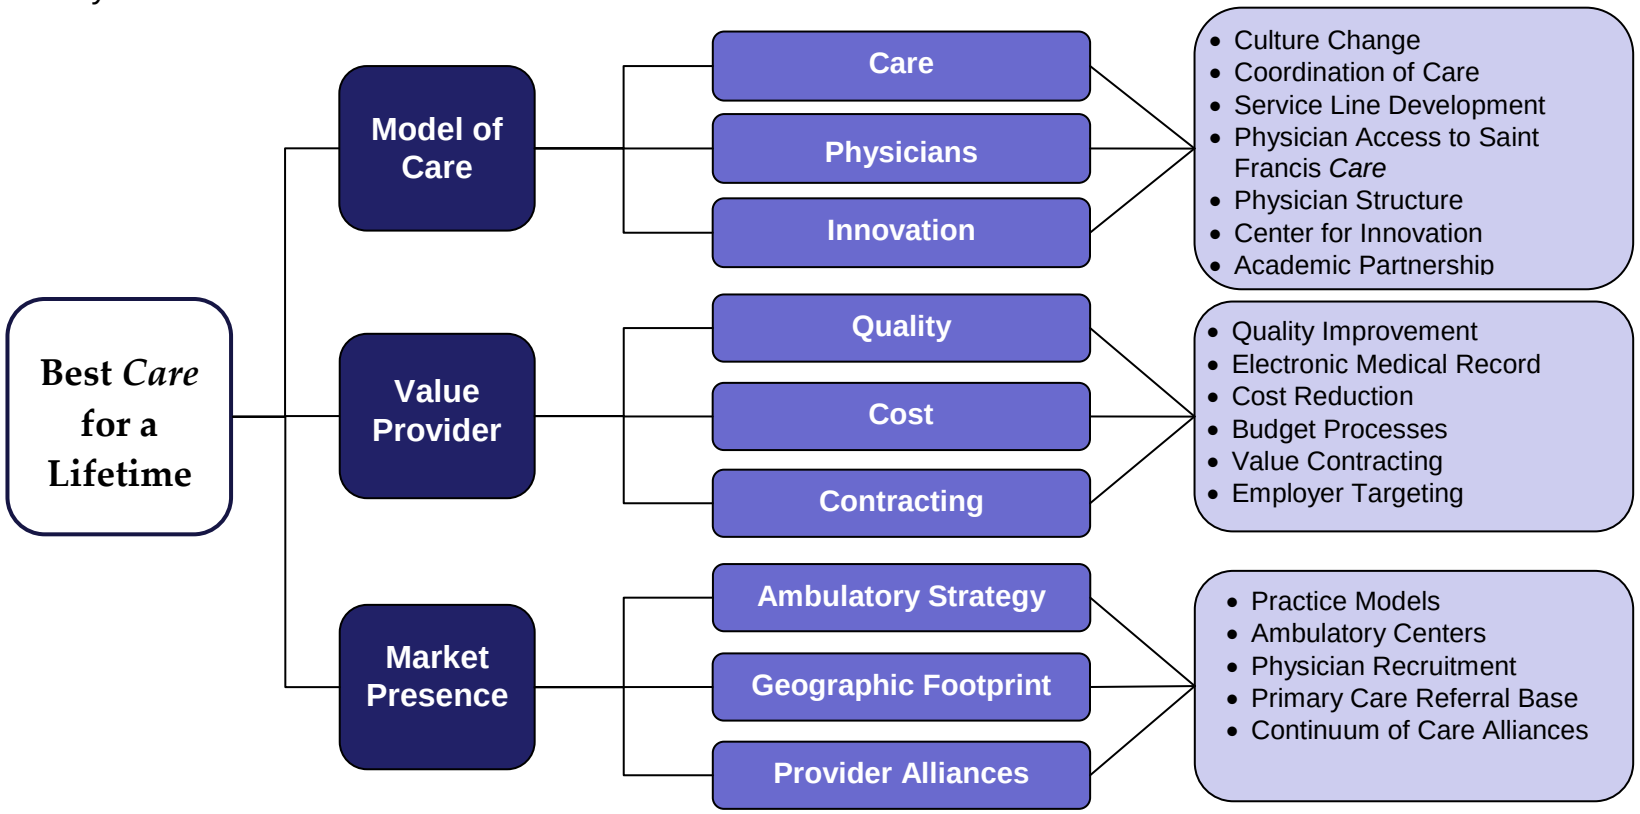
5. Plan Development

   The resulting strategic plan consists of a focused set of strategic initiatives to achieve the performance required for realizing Best *Care* for a Lifetime and for succeeding in an increasingly consolidated hospital marketplace.

SECTION 1

Executive Summary

Saint Francis *Care*'s FY 2010 – FY 2014 Strategic Plan is guided by Saint Francis' vision of delivering **Best *Care* for a Lifetime** – the perfect patient experience and the highest measurable quality of care across the continuum of care. To position Saint Francis *Care* for the unfolding reforms in healthcare payment and to compete in an increasingly consolidated regional hospital marketplace, the plan defines goals, objectives, and strategies to develop Saint Francis *Care*'s **Model of Care**, compete as the **Value Provider**, and solidify its **Market Presence**.



Executive Summary – 2

The following pages provide an overview of strategies for FY 2010 – FY 2014. They represent a focused set of initiatives directly relevant to Saint Francis *Care*'s vision and market strategy. The full set of strategies is included in Section 5.

In addition to the strategic initiatives outlined in the Strategic Plan we recognize that Saint Francis *Care* must continue to deploy sufficient resources to a variety of ongoing program areas for which specific strategic objectives are difficult to identify/quantify in a time-specific fashion. Therefore this strategic plan assumes that Saint Francis *Care* will continue to invest in the resources required to:

- Meet all of its regulatory, Joint Commission, ACGME accreditation, and state licensure requirements in an exemplary fashion;
- Continue to expand the size of the Saint Francis Foundation's contribution to the fiscal health of Saint Francis *Care*;
- Retain its leadership position in state and federal health reform initiatives that affect the future of Saint Francis *Care* and all of its affiliates;
- Continue construction of the John T. O'Connell Tower and other important building initiatives; and
- Meet the financial performance targets necessary to support the outstanding bond issue as well as generate the additional investments required by the strategic plan (See Appendix A). Reassignment of existing capital and revenue or the generation of additional funds through revenue enhancement or expense reduction may be necessary to implement the plan.

Executive Summary – 3

Goal 1 – Develop a patient-centered model of care that achieves perfect care processes, experiences, and results for those receiving and delivering care, over time and across care settings, specialties, disciplines, and institutions

- Design and implement a cultural change initiative to support Best *Care* by the end of FY 2010 and then extend the new cultural standards, skills and behaviors throughout the Saint Francis *Care* organization by the end of FY 2012
- Expand Lean initiatives organization wide for process and quality improvement by FY 2012
- Develop, distribute, and utilize clear treatment plans to coordinate the continuum of care for every patient by FY 2011
- Develop clinical service lines within Saint Francis *Care* guidelines and parameters defined during FY 2011

Physician Relationship Initiatives

- Redesign hospital admission, referral, and discharge processes for referring physicians by the end of FY 2011
- Develop an overall physician structure that accommodates various relationship options by the end of FY 2011
- Implement a fully integrated MISYS-based physician practice management system by the end of FY 2013

Innovation and Academic Initiatives

SECTION 2 Current Situation

From Foundation Strategies (FY 2006 – FY 2010) to Performance Strategies (FY 2010 – FY 2014)

The FY 2006 – FY 2010 Strategic Plan laid a comprehensive foundation for Saint Francis *Care*'s future. As part of implementing the plan, Saint Francis *Care* expanded clinical programs in Cardiac Services, Orthopaedics, Women's Services, and others and achieved designation as a Primary Stroke Center; implemented the CyberKnife® program and invested in advanced imaging technology, such as PET/CT; established new ambulatory satellite facilities; recruited over 140 physicians; extended physician practice locations beyond the core service area; expanded the capabilities of the Saint Francis Physician Hospital Organization; completed major construction and renovation projects; began construction of the John T. O'Connell Tower; and is well on its way toward implementing the Electronic Medical Record in FY 2010. In implementing the strategic plan Saint Francis Hospital and Medical Center saw its volume grow and its inpatient market share expand. With the exception of FY08, Saint Francis *Care*'s financial performance has been positive and has enabled the financing of capital investments. In short, Saint Francis *Care* has a proud record of accomplishment in implementing its FY 2006 – FY 2010 strategic plan.

Like Saint Francis *Care*, healthcare organizations across the country were in an expansive mode during the last decade: they developed specialized clinical programs with state-of-the-art technology, replaced their aging physical plant, built new facilities, and entered into business arrangements with physicians. Since the development of Saint Francis *Care*'s strategic plan in 2005, the delivery and financing of healthcare has began a profound and permanent transformation to achieve a changed set of priorities. As the Saint Francis *Care* visioning group concluded, the future of Saint Francis *Care* lies in performance – the highest possible quality of and satisfaction with care at much lower costs.

Current Situation – 2

Current Performance on Quality, Satisfaction, and Cost

Quality of Care	Saint Francis *Care* has made significant progress in raising the quality of care – as have regional competitors and institutions across the country. According to publicly reported measures of quality, Saint Francis Hospital and Medical Center's overall score on process measures of care is marginally higher than that of Hartford Hospital and lies only slightly above the state average. Composite quality measures among clinical services vary and show no consistent advantage over Hartford Hospital.
Patient Satisfaction	Compared to other industries, patient/customer satisfaction in healthcare lies in the middle of the range. In the Hartford area, publicly reported hospital satisfaction scores indicate similar mid-level performance among hospitals. Saint Francis Hospital and Medical Center's and Hartford Hospital's scores vary among time periods, with neither organization demonstrating particularly high levels of performance. Saint Francis Hospital and Medical Center's internal patient satisfaction scores vary widely among services and leave much room for improvement.
Cost of Care	Saint Francis Hospital and Medical Center has held a cost per discharge advantage over other regional hospitals, most notably Hartford Hospital. Saint Francis *Care*'s cost advantage will be challenged by recent patient care cost increases and upcoming debt service payments.

In summary, Saint Francis *Care*'s performance on quality and patient satisfaction leaves considerable room for improvement and its cost advantage will require additional effort to sustain.

Current Situation – 3

Regional Healthcare Dynamics – Trends and Implications

- **The regional hospital market is consolidating.** Rather than focus on a hospital affiliation or merger strategy, Saint Francis *Care* should:

  → Focus on developing a better "product" as the basis of competition
  → Properly support Best *Care* for a Lifetime alliances across the continuum of care

- **Sizeable physician group practices have developed in the Hartford region.** While there is a preponderance of individual and small group practices, several large primary care and multi-specialty groups have formed.

  → Strategic alliances with sizeable groups need to become a cornerstone of Saint Francis *Care*'s strategy
  → Alliances should emphasize complementary capabilities, e.g., electronic medical record, rather than equity stakes

- **The shortage of primary care physicians is nearing crisis levels.** In Saint Francis *Care*'s strategic service area there will be a need for an additional 350 general internists and family/general practitioners by the end of FY 2014.

  → Saint Francis Care will compete with other hospitals for the same limited pool of primary care physicians
  → Saint Francis Care needs practice options for primary care physicians already in the area and to attract new physicians

- **Regional population growth is stagnant**. While the older age groups are slowly growing in size, the utilization impact of the baby boomer generation will not fully materialize for another 10 years when large numbers enter their 70s.

  → Hospital volume growth will depend largely on increases in market share gains during the next decade

COMMENTARY

Population Health Management: The Intersection of Concept and Reality

CHRISTOPHER DADLEZ, FACHE

THE FEATURE ARTICLES in this issue of *Frontiers* offer different philosophies and approaches to meeting the Triple Aim of the Institute for Healthcare Improvement. Zenty, Bieber, and Hammack document a local and granular means of creating targeted accountable care organizations (ACOs) to make Triple Aim inroads toward ensuring the health of the discrete populations. Their "build on success" approach offers practical insights on developing mission, governance, and analytics to guide the creation of clinically oriented population health programs, in contrast to the "total population health" ambitions of Kindig and Isham.

Over the past five years, Saint Francis *Care* has been working on many of the same issues and initiatives mentioned in both of the feature articles, from population health management to clinical integration to aligning clinical and social services to developing accountable care models for several payers, including our own hospital, Medicare, and private insurers. Along the way, we have encountered the intersection of concept and reality and forged a path forward.

SAINT FRANCIS *Care*

Saint Francis *Care,* an integrated healthcare delivery system in central Connecticut, is the largest independent Catholic healthcare provider in New England. Our services cover the spectrum of patient needs, including community-based preventive and primary care, specialty care, high-acuity tertiary care, and post-acute care. Many of these services are provided through partnerships, affiliations, and relationships developed with other exceptional providers. Overall, Saint Francis *Care* provides access to almost 900 affiliated physicians, three hospital campuses, 12 satellite medical offices, and a variety of community clinics.

Christopher Dadlez, FACHE, is president and CEO of Saint Francis *Care* Inc. in Hartford, Connecticut.

With 617 licensed beds and 65 bassinets, the flagship of Saint Francis *Care* is Saint Francis Hospital and Medical Center in Hartford. The hospital expanded in 2011 with the addition of the ten-story John T. O'Connell Tower, featuring a state-of-the-art surgical pavilion, dedicated space for the Connecticut Joint Replacement Institute (CJRI), and an expanded emergency department (ED) with 70 treatment areas and a rooftop helipad for the LIFESTAR helicopter. In addition to CJRI, Saint Francis offers centers of excellence in cancer care, heart and vascular disease services, rehabilitation medicine, and women and infants' services. Indeed, Saint Francis opened its 24,500-square-foot Comprehensive Women's Health Center in November 2013, a site that combines breast health, heart health, gynecologic care, and integrative medicine services for women.

Our integrated healthcare delivery system also includes the Mount Sinai Rehabilitation Hospital, Connecticut's only free-standing acute care rehabilitation hospital, which shares space on campus with our Mandell Center for Multiple Sclerosis. In addition, Johnson Memorial Medical Center signed an affiliation agreement with Saint Francis in 2012. The central structure for our ACO is Saint Francis HealthCare Partners, a 50:50 physician–hospital partnership that provides clinical integration and comprehensive administrative support to 700 physicians in more than 200 practices.

A Vision for Value

While we have outstanding facilities, we have long recognized that a well-articulated strategy and aligned providers—not bricks and mortar—are the foundation for advancing healthcare delivery. Back in 2009, Saint Francis *Care* embarked on a unique strategic planning process with an eye toward shaping an organization that would be well positioned to thrive in a changing and uncertain healthcare environment. The core working group was small but represented a diverse mix of administrators, physicians, and board members. *The Innovator's Prescription: A Disruptive Solution for Healthcare,* by Christensen, Grossman, and Hwang (2008), was assigned reading for this group.

From this work, we generated a compelling vision: Best*Care* for a Lifetime. The focus was on delivering value for patients across the continuum of care. In other words—and this was a major shift—we explicitly emphasized the importance of what happens outside the hospital. We were setting the stage to work toward accountable care and saw innovation and a coordinated infrastructure as key drivers.

To achieve the vision of Best*Care* for a Lifetime, our strategic plan called for a new organizational structure, with ten service lines that would set their sights to include the pre-acute/preventive, hospital, and post-acute environments: Behavioral Health, Cardiovascular, CJRI, Emergency Medicine, Medicine, Oncology, Physical Medicine and Rehabilitation, Primary Care, Surgery, and Women and Infants. The work of these service lines is facilitated by robust support platforms that include Business, Clinical Services, and Facilities, as well as our award-winning Innovation + Learning Center. As we had no illusions that a service line model of care was the only key to achieving our vision, the strategic plan also called for becoming a value provider and developing a geographic presence.

By adopting the definition of *value* as outcomes that matter to patients per dollars spent, we leveraged our new organizational structure to focus on the needs of our patients and communities across the continuum of care. To support our

increased emphasis on value, two dozen physicians and executives from Saint Francis have attended Harvard Business School courses presented by professors Michael Porter and Robert Kaplan to engage directly in the latest thinking on value measurement. Armed with a common vocabulary and shared understanding, these leaders were able to reach consensus on a standard Saint Francis approach to not only defining value but also defining outcomes that matter, engaging patients, defining cost, mapping processes, and prioritizing value-oriented projects. We now have a clear mandate for value-driven design across the enterprise, with an aim to deliver value for patients, providers, and payers.

The ACO committee structure proved to be a valuable tool in closing the knowledge gap, at least for those most actively involved.

While focusing on value is the key to staying ahead of the curve in an accountable care world, the advent of funding based on total cost of care and annual budgets requires a coherent geographic presence. In our very competitive marketplace, we have pursued a clinically integrated network approach to avoid the pitfalls and expense of vertical integration. Our alignment strategy is based on providing as much infrastructure support in as many areas as possible, short of an outright acquisition of the practices. By providing infrastructure support, credentialing, contracting, care coordination, and information technology—as well as requiring compliance with our clinical integration approach—we were able to develop our advanced Clinical Integrated Network.

Involving the Board and Engaging Physicians

As many population health initiatives and activities—even those focused on clinical aspects—are relatively new for most healthcare systems, it is absolutely critical to involve the board of directors and engage physicians as equal partners in the transition from volume to value. Early on in our process of developing our population health strategy, we used our annual Board and Leadership Summit to provide context and solicit guidance.

The outcome of that approach was that our board of directors endorsed the recommendation to position Saint Francis HealthCare Partners as the foundation for ACO development, again emphasizing the importance of what happens in physician offices and communities (i.e., not just the hospital). Numerous educational sessions were developed and deployed for the physician community. They were offered at several sites, and physicians were invited to attend at a site of their choice. Our initial aim was to answer as many questions as possible regarding the Affordable Care Act, ACO development, population health, physician requirements, patient engagement, and shared savings.

In terms of governance, we initially created ten ACO committees. More than 170 physicians signed up to participate, with most expressing interest in the Committee on Finance and Shared Savings. The ACO committee structure proved to be a valuable tool in closing the knowledge gap, at least for those most actively involved. After two years in operation, the ACO committees were merged with the eight physician–hospital organization committees, as there was no need for them to operate in parallel universes.

Today, we have 12 committees, all meeting regularly and generating significant physician feedback. That said, we still have a significant knowledge gap. Although our providers have all received information on ACOs and population health management,

many express confusion or a desire to gain a more thorough understanding. Accordingly, we are working to develop the form and content of appropriately tailored population health education for our providers as well as for our patients and the community.

Accountable Care: Learning While Doing

Much like Zenty, Bieber, and Hammack, we have piloted several accountable care opportunities, all treated as disciplined experiments with the intent of refining our capabilities in preparation for assuming downside risk:

- *Employee ACO.* In an effort to both manage our own spending as a self-insured employer and create a model of what we could do for other large employers, we contracted with Saint Francis HealthCare Partners to create an employee ACO. The principles of accountable care were implemented for 6,500 members, and the combination of plan design changes, care coordination interventions, and wellness incentives yielded a tangible reduction in our cost trend experience.
- *Medicare Shared Savings Program ACO.* In January 2013, Saint Francis HealthCare Partners was awarded a Centers for Medicare & Medicaid Services (CMS) ACO contract covering 20,000 lives. As data from CMS has been fed into our claims data warehouse, we have developed new analytic competencies. In addition, we have embedded care coordinators in our large physician practices and used a public utility model to provide care coordination from a central source for our smaller practices.
- *Commercial ACOs.* Private payers quickly got up to speed with accountable care payment mechanisms. In the past year, Saint Francis HealthCare Partners entered into two commercial ACO arrangements, covering another 55,000 lives. Both of these commercial agreements have similar structures based on a total cost of care (i.e., population health management) model.
- *Bundles.* CJRI is a leading-edge program on a number of levels; for example, it offered one of the first bundled products for hip or knee replacement in the United States. These joint bundles include payment for surgeons, anesthesiologists, and the hospital. An additional postsurgical warranty rider is also available.
- *Care coordination.* Saint Francis employs a structured care coordination model, with staffing based on national norms. Covered lives are stratified by health risk, and health coaches are assigned to the highest-risk patients for interventions. Mechanisms to address gaps in care, transitions in care, ED follow-up, and discharge appointment follow-up are all part of the program.

Population Health (Not Just Healthcare)

Operating as a Medicare Shared Savings Program ACO, building an employee ACO, working with private payers to develop new commercial ACO arrangements, offering bundles to the marketplace, and ramping up an enterprise-wide care coordination program all depend on a population health management infrastructure that continues to require significant investment in personnel and information technology. We have successfully built such an infrastructure, but we know our work is not nearly done. A focus on clinical care and clinical integration is

insufficient as we move to an environment in which healthcare providers are accountable for broadly defined health outcomes. In other words, it's not just healthcare. In the context of population health, the big picture includes behavioral and social determinants of health. The key question is whether—and how—healthcare systems can influence these determinants or integrate community and social services that can.

In highlighting the total population health approach, Kindig and Isham also shed some light on why current approaches focus on clinical health for populations. They refer to the definition of population health used by the Institute of Medicine's Roundtable on Population Health Improvement: "The health outcomes of a group of individuals, including the distribution of such outcomes within the group." Given that scope, no one should be surprised or disappointed that healthcare organizations would focus on clinical care. Not only is it their expertise, but the emphasis on outcomes seems to support a clinical approach as well. However, clinical care improvement is only part of the original concept developed by Kindig and Stoddart (2003), which offers a broader and deeper view of population health as encompassing "the definition and measurement of health outcomes and their distribution, the patterns of determinants that influence such outcomes, and the policies that influence the optimal balance of determinants."

Early on in our process of developing our population health strategy, we used our annual Board and Leadership Summit to provide context and solicit guidance.

It is this expanded view that animates the total population health concept offered by Kindig and Isham. Indeed, perhaps most compelling in their article is the statement that "the contribution of healthcare to health is modest—only 20 percent—a fact that many healthcare leaders may find surprising." *Stunning* may be the better word choice here, particularly because other research suggests that 20 percent might be a generous estimate. The other 80 percent of healthcare determinants are identified as health behaviors (30 percent), social and economic factors (40 percent), and physical environment (10 percent)—items outside the control of traditional healthcare delivery systems. This finding challenges the paradigm that has tipped the balance toward sick care instead of healthcare.

That many of our patients struggle with behavioral and social determinants of health is not news. But what is the extent to which healthcare organizations can and should productively partner with patients, communities, and community-based support/social services organizations to address these determinants and improve outcomes? Different healthcare organizations will have different answers to this question. At Saint Francis, we have been working hard to engage all those partners when appropriate. (We say "when appropriate" because not all patients need social services. But for those who do, these services are the rate-limiting step for some patients. In other words, if people cannot take care of their lives, they will have a hard time taking care of their health.)

We have been learning real-world lessons for more than two years as our Emergency Medicine and Primary Care service lines work with our Innovation + Learning Center and Saint Francis HealthCare Partners to improve emergency medicine–primary care coordination. Much of this work has focused attention on the relatively small number of patients who account for a disproportionately large share of ED visits. We developed a robust ED registry that helped us move from

lamenting high *utilization* to getting to know our high *utilizers*. We are now making concerted efforts to integrate clinical services, to focus on care coordination—which includes coordinating the coordinators—and to partner with community and governmental organizations in building a network of care that historically would have been considered outside the purview of a hospital, much less healthcare in general. This is a step toward the community health business model promoted by Kindig and Isham.

Accountable Care Communities

Some of our efforts reflect a move toward an accountable care community (ACC) model that bridges clinical and community settings to address both the medical and the social needs of high-risk, high-cost, or vulnerable patients in an integrated manner consistent with the Triple Aim. In fact, we partnered with Community Solutions and the Department of Mental Health and Addiction Services in Connecticut—as well as with NuHealth, the Health and Welfare Council of Long Island (NY), and Health Leads on Long Island—to submit a proposal to CMS's Center for Medicare & Medicaid Innovation (CMMI) for developing ACCs in Hartford County and Nassau County.

Accountable care community is a term that was first employed by the Austen BioInnovation Institute in Akron (ABIA) to describe a multisector, community-based collaborative effort to transform healthcare in Northeast Ohio. The ABIA (2012) defines an ACC as

> *A collaborative, integrated, and measurable strategy that emphasizes shared responsibility for the health of the community, including health promotion and disease prevention, access to quality services, and healthcare delivery. . . . It builds on initiatives to encompass not only the area's medical care providers, but also the public health system and community stakeholders whose work, taken together, spans the spectrum of the determinants of health.*

The National Governors Association (2013) suggests that ACCs "take the concept of medical homes and accountable care organizations one step further by fostering collaborations borne of shared responsibility among clinical and community sector participants to reform health systems in particular localities." Kindig and Isham mention ACCs as one model with the potential for addressing total population health.

The Integrator Role

Kindig and Isham appropriately highlight the importance of an "integrator," an organization that will pull together the various clinical and social services. Whether we like it or not, given our community presence, hospitals and healthcare organizations will be at the center of these population health dynamics. And even if we account for only 20 percent of health outcomes, we may always be expected by our communities and by business and government sectors to provide central leadership and do the population health "heavy lifting." That expectation will require that we play a role in both clinical and social initiatives. Finding the appropriate mix between the two will be a challenge for any provider. The HealthPartners example featured by Kindig and Isham and similar initiatives will be rare examples indeed unless and until payment models support this kind of work. But it is possible. As a point of reference, the actuarial analysis conducted for our CMMI proposal forecasted a reduction in Medicaid spending

that would produce shared savings sufficient to sustain the ACC program in both Hartford County and Nassau County.

The Hartford region has a highly competitive healthcare landscape, which raises another set of fundamental questions: Can total population health be achieved in a competitive clinical environment? Can the healthcare organizations work together? And how? Providers are in the midst of changing the clinical business model, but is it even more important to develop a sustainable model for integrating clinical services and social services to address the social determinants of health? As might be expected for any new endeavor, there are more questions than answers. But some answers are starting to emerge.

Achieving alignment will require a formal yet dynamic framework to guide stakeholder engagement and shared decision making at the community level.

For instance, Saint Francis, along with the other major hospitals in Hartford, provided funding for the City of Hartford's *Community Health Needs Assessment* report. Scheduled for publication every three years, the first edition was released in March 2012 by the city's Department of Health and Human Services. This study examines the social determinants of health—income, shelter, education, access to nutritious foods, community norms, and cohesion—that affect the health of Hartford residents. The key will be to move from funding the documentation of needs to addressing them in a coherent and sustainable manner.

Conclusion

We may all agree that addressing the social determinants of health is the critical path toward "total population health" and, ultimately, health equity. But we must also acknowledge that moving from concept to real-world action will require significant start-up investment that cannot come from the providers alone. Achieving this complex transformation of care at the population level requires that we align our payment systems, our healthcare delivery systems, and our community support systems. Achieving alignment will require a formal yet dynamic framework to guide stakeholder engagement and shared decision making at the community level.

1.2 Business Process Outsourcing Sub-Agreements. The parties acknowledge that evaluation and negotiation of a detailed arrangement for each of the Support Need Areas will take time to develop and they have agreed to approach each Support Need Area on a case by case basis to develop a quality, efficient and cost-effective arrangement. For each Support Need Area in which Johnson retains Saint Francis to provide business, administrative or other support services, Johnson and Saint Francis shall enter into a Business Process Outsourcing Sub-Agreement (each a "**BPO Sub-Agreement**") substantially in the form attached hereto as Schedule B, attached hereto and incorporated herein, and which sub-agreement shall identify, at a minimum: (i) the specific Support Need Area to be addressed; (ii) the specific business, administrative or support services to be provided by Saint Francis to Johnson (the "**Scheduled Services**") for such Support Need Area; (iii) the schedule on which services shall be provided; (iv) the fees to be paid by Johnson to Saint Francis for the Scheduled Services (the "**Scheduled Services Fee**"), which fee shall be determined consistent with the provisions of Section 1.3 below; and (v) any other specific terms or conditions of the arrangement for the Support Need Area, including terms or conditions that may vary from or supersede the Master Terms of this Agreement (as defined below). Each BPO Sub-Agreement shall be signed by the appropriate Johnson and Saint Francis parties and shall be consecutively numbered (e.g. B-1, B-2, B-3, etc.) and upon execution deemed incorporated into Schedule B to this Agreement and herein. Saint Francis shall, and shall ensure that the Saint Francis Personnel (as defined below), provide the Scheduled Services faithfully and in a professional and capable manner, consistent with accepted industry standards and practices.

1.3 Scheduled Services Fees. Johnson shall compensate Saint Francis for the Scheduled Services in accordance with the applicable BPO Sub-Agreement. The parties acknowledge and agree that the Scheduled Services Fee is intended to reflect fair market value in an arm's-length transaction for the Scheduled Services comprising the Scheduled Services to be provided by Saint Francis to Johnson pursuant to this Agreement. The Scheduled Services Fee may be amended from time to time, by written agreement of the parties, to reflect a change in the fair market value of the Scheduled Services; provided, however, that the parties shall not revise the Scheduled Services Fee for any BPO Sub-Agreement more than once every twelve (12) months.

1.4 Scheduling. Saint Francis and Johnson shall work together to determine a mutually acceptable schedule for Saint Francis's provision of the Scheduled Services, as

applicable to the Support Need Area, which shall be set forth in the applicable BPO Sub-Agreement.

1.5 Liaison. In connection with the provision of the Scheduled Services under a BPO Sub-Agreement, the parties agree that each will appoint and make known to the other a liaison through whom operational details and issues relating to the Scheduled Services may be communicated, arranged, and resolved.

1.6 Invoices. Saint Francis, or the applicable Service Provider under a BPO Sub-Agreement (as defined therein), shall send an invoice to JMH, or the applicable Service Recipient under the BPO Sub-Agreement, for the applicable Scheduled Services on a monthly basis. If the Scheduled Services under any BPO Sub-Agreement provide for an hourly or other unit based rate, then Saint Francis, or the applicable Service Provider, shall also provide a description of the Scheduled Services provided in such format as the parties may agree in the applicable BPO Sub-Agreement along with the monthly invoice. Payment in full will be due by the thirtieth (30th) day after submission of the monthly invoice to Johnson ("**Due Date**"); provided, however, that Saint Francis's failure or delay in sending an invoice to JMH, or the applicable Service Recipient under the BPO Sub-Agreement, shall not relieve JMH, or the applicable Service Recipient under the BPO Sub-Agreement, of its obligation to pay for the Scheduled Services rendered. Saint Francis shall be entitled to interest at the rate of 1.5% per month on any amounts not paid by the Due Date. Johnson agrees to pay all collection, court, and other such costs, expenses, and fees (including reasonable attorneys' fees) incurred by Saint Francis to obtain payment of any Scheduled Services Fees past due. The parties agree that Johnson's failure to pay a Scheduled Services Fee by the Due Date shall constitute a material breach for which Saint Francis shall have the right to terminate the applicable BPO Sub-Agreement in accordance with Section 12.2.2.

1.7 No Obligation to Purchase or Sell. Johnson shall not be required to purchase any business, administrative or support services from Saint Francis, and its decision to purchase services from Saint Francis shall be based on the same criteria Johnson used to evaluate other third party vendors of services and supplies for the Johnson Facilities, including, but not limited to, price, quality and customer service. Johnson has the right to change from Saint Francis to a different provider for any such business, administrative or support services in its discretion, subject only to the termination provisions of this Agreement and the applicable BPO Sub-Agreement. Saint Francis shall not be required to sell any business, administrative or support services to Johnson. Saint Francis has the right to stop selling any business, administrative or support services in its discretion, subject only to the termination provisions of this Agreement and the applicable BPO Sub-Agreement.

1.8 Space, Equipment, and Support Staff. The parties acknowledge and agree that some of the Scheduled Services under the BPO Sub-Agreements will be provided from locations other than on-site at Johnson. For those Scheduled Services which the parties agree will be provided on-site at Johnson, Johnson shall provide the Saint Francis Personnel with suitable support staff, office space, equipment, supplies, and utilities as shall be reasonably necessary and appropriate for Saint Francis to provide the Scheduled Services, consistent with Johnson's existing resources, personnel, capacity, facilities and budget.

1.9 Reporting Responsibility. In carrying out the Scheduled Services under a BPO Sub-Agreement, the Saint Francis Personnel shall report to JMMC's Chief Executive Officer, or such other person as he or she designates.

2. Saint Francis Obligations.

2.1 Compliance with Johnson Policies and Applicable Law. In performing the Scheduled Services, Saint Francis and the applicable Service Provider shall, and shall ensure that Saint Francis Personnel, comply with all applicable law, regulatory guidance, accreditation standards, and policies established by Johnson and its medical staff ("**Johnson Policies**"), including without limitation, the Connecticut General Statutes and Public Health Code, the Medicare Conditions of Participation and other regulations promulgated by the United States Department of Health and Human Services and the Centers for Medicare and Medicaid Services, and the standards of The Joint Commission. Upon request by Saint Francis, Johnson shall provide copies of any of the Johnson Policies to assist Saint Francis in meeting this requirement.

2.2 Use of Johnson Facilities. Saint Francis shall, and shall ensure that Saint Francis Personnel, not use any facilities, staff, equipment or supplies provided by Johnson under Section 1.8 for any purpose other than the provision of the Scheduled Services.

2.3 Saint Francis Personnel.

2.3.1 Saint Francis Personnel Qualifications. Saint Francis shall ensure that Saint Francis Personnel who provide Scheduled Services possess the requisite education, training, and skills, as well as any licenses, certifications, and registrations required to provide the service(s) to be delivered. Saint Francis and the applicable Service Provider shall, and shall ensure that Saint Francis Personnel, provide the Scheduled Services faithfully and in a professional and capable manner, consistent with accepted industry standards and practices.

2.3.2 Selection and Assignment of Saint Francis Personnel. The selection and assignment of each Saint Francis Personnel to render Scheduled Services hereunder shall be made at the sole discretion of Saint Francis; provided, however, that Johnson shall have the right to require that a Saint Francis Personnel no longer provide Scheduled Services hereunder to Johnson provided that Johnson has reasonable cause to request the replacement, Johnson informs Saint Francis of the reason(s) for Johnson's request, and Saint Francis is unable within a reasonable period of time to rectify the circumstance(s) which form(s) the basis of Johnson's request.

2.3.3 Saint Francis Employee Misconduct. Saint Francis shall promptly notify Johnson of any determination of professional or criminal misconduct of any Saint Francis Personnel that is likely, in the reasonable judgment of Saint Francis to materially negatively affect the quality of the Scheduled Services provided by Saint Francis and the applicable Service Provider; the safety or welfare of any Johnson patient, visitor, or staff member; or Johnson's reputation or operations. Johnson shall have the right to require that Saint Francis remove such

Saint Francis Personnel from providing further Scheduled Services under this Agreement or any BPO Sub-Agreement.

2.3.4 Saint Francis's Performance Review of its Personnel. Saint Francis shall retain exclusive authority with respect to oversight of Saint Francis Personnel for all purposes, including, without limitation, all decisions to hire, fire, and evaluate the performance of such individuals; provided, however this Section does not affect Johnson's right to require that Saint Francis remove certain individuals from providing Scheduled Services to Johnson pursuant to Sections 2.3.2 and 2.3.3, or the right of Johnson to provide the proper oversight of the overall quality of services provided by the Saint Francis Personnel to the Johnson Facilities.

2.4 Limitation on Saint Francis Authority.

2.4.1 Johnson's Retained Authority. JMMC, JMH, JEC and JPA shall each retain full legal authority over their respective day-to-day operations, and any responsibility or authority not expressly delegated to Saint Francis under this Agreement, or a BPO Sub-Agreement, shall remain with the respective Johnson entity.

2.4.2 No Contracting or Purchasing. Except pursuant to the prior written approval of JMMC, JMH, JEC or JPA, as applicable, neither Saint Francis nor any Saint Francis Personnel shall engage in or cause direct purchasing or otherwise contract any liability on behalf of JMMC, JMH, JEC or JPA and shall neither charge the credit of JMMC, JMH, JEC or JPA nor incur any obligations or enter into any agreement for or on behalf of JMMC, JMH, JEC or JPA.

3. Participation in Joint Purchasing.

3.1 Joint Purchasing Arrangements. Johnson desires to jointly purchase with Saint Francis, or to purchase through Saint Francis or its group purchasing organizations ("**GPOs**"), various medical and hospital products and supplies and various office and business products and supplies (the "**Supplies**") used by the Johnson Facilities where such purchases may yield volume discounts and reduced transaction costs for Johnson and would result in lower costs for healthcare services for patients in its community. The specific items included in the Supplies, should a Joint Purchasing Arrangement (as defined below) be entered into by the parties, shall be determined on a case by case basis related to Johnson's needs for various Supplies and the ability to maintain high quality standards and obtain a reduction in cost. Johnson and Saint Francis agree to explore joint purchasing arrangements that may include: (i) joint negotiation and purchase of Supplies; (ii) Johnson's purchase of Supplies from Saint Francis, or through Saint Francis's vendors, at the same pricing offered to Saint Francis; and (iii) Johnson's purchase of Supplies from GPOs in which Saint Francis participates as an affiliate of Saint Francis (to the extent permitted by such GPOs) (the "**Joint Purchasing Arrangements**"). Johnson shall not be required to use any Joint Purchasing Arrangements entered into by the parties for all of its purchases of any particular product or supplies, and shall be permitted to purchase any Supplies from the vendor of its choice.

3.2 Requirements for Joint Purchasing Arrangements. Johnson and Saint Francis agree that, if they enter into any Joint Purchasing Arrangements, the Joint Purchasing

Arrangements entered into by the parties shall meet all applicable regulatory requirements and guidance, including but not limited to, the following requirements for the antitrust safety zone set forth in Statement 7 of the Department of Justice's and the Federal Trade Commission's Statements of Antitrust Enforcement Policy in Health Care: (i) Supplies purchased through the Joint Purchasing Arrangements from any given supplier will account for less than 35% of that suppliers' sale of those products in the relevant market; and (ii) the cost of all Supplies purchased through the Joint Purchasing Arrangements will account for less than 20% of the total revenue of all products and services sold by the parties. Johnson and Saint Francis agree, on behalf of themselves and their affiliates, not to discuss or agree upon the price or other terms which either party intends to charge or collect for any Supplies purchased under any Joint Purchasing Arrangements or the allocation of payors or patients to whom either party intends to market, as applicable, any specific Supplies resold to patients purchased under any Joint Purchasing Arrangements. In addition, any Joint Purchasing Arrangements entered into by the parties shall contain appropriate auditing provisions to confirm compliance with applicable regulatory requirements and guidance.

3.3 Records and Ordering. If they enter into any Joint Purchasing Arrangements, Johnson and Saint Francis shall each retain records for its purchases of Supplies under any Joint Purchasing Arrangements consistent with its document retention policy for other financial records. In connection with any purchases under such Joint Purchasing Arrangements, Johnson shall issue its own purchase orders, accept its own deliveries, and make its own payments.

3.4 No Joint Liability or Ownership. If they enter into any Joint Purchasing Arrangements, neither Johnson, nor Saint Francis, shall be held to be jointly liable in the event of the failure of the other to perform or discharge its obligations under any joint purchase under any applicable Joint Purchasing Arrangement, it being the intent of the parties that any purchases of either party under any Joint Purchasing Arrangements shall constitute separate purchases of the parties with the applicable vendor. No provision of this Agreement shall be deemed to create a Joint Purchasing Arrangement of any type, any type of joint ownership of any Supplies purchased under a Joint Purchasing Arrangement or any agency relationship between the parties regarding joint purchasing.

4. Participation in the Saint Francis Physician Hospital Organization.

4.1 Participation in the PHO. Saint Francis Healthcare Partners, Inc., a Connecticut non-stock corporation (the "**PHO**"), is the physician hospital organization of which Saint Francis is the sole member. The PHO is designed to facilitate managed care contracting relationships for Saint Francis's healthcare facilities and the physician participants in the PHO with the purpose of providing a full range of quality, cost-effective, medical and hospital services to persons enrolled in health care benefit plans sponsored by third-party payors, self-funded employers and others. Johnson, as a clinical affiliate of Saint Francis, desires to have JMH, JEC and JPA participate in the PHO and Saint Francis, subject to the consent of the PHO, agrees to explore having JMH, JEC and JPA participate in the PHO, to the extent such participation would be permissible as set forth in Section 4.2 below.

4.2 PHO Compliance. Johnson and Saint Francis agree that the participation of

Johnson in the PHO, if any, must be in compliance with all applicable regulatory requirements and guidance, including but not limited to, the requirements for physician hospital networks set forth in Statement 9 of the Department of Justice's and the Federal Trade Commission's Statements of Antitrust Enforcement Policy in Health Care, which permits competitors within a multiprovider network to jointly market their healthcare services to health plans and other purchasers where the participants share substantial financial risk or are sufficiently clinically integrated. The parties shall work together to assess the factors applicable to such compliance and to make a determination of Johnson's eligibility to participate in the PHO. The parties agree to engage legal counsel to assist the PHO and the parties in making this determination.

4.3 PHO Fees and Contract. Johnson acknowledges that JMH, JEC and JPA may be required to pay an initial membership fee to join the PHO and may be required to pay an annual assessment. Johnson acknowledges that JMH, JEC and JPA may be required to sign a participation agreement with the PHO.

5. Master Terms for the BPO Sub-Agreement. The terms and conditions set forth in this Agreement (collectively, the "**Master Terms**") shall apply to each BPO Sub-Agreement executed by the parties under this Agreement. The Master Terms shall be controlling except to the extent a particular BPO Sub-Agreement expressly adopts a different, replacement term applicable to only that BPO Sub-Agreement.

6. Restrictive Covenant.

6.1 Non-Solicitation by Johnson. JMMC, JMH, JEC and JPA each acknowledges that Saint Francis personnel are essential to Saint Francis's operations and are familiar with Saint Francis's operating procedures and other information proprietary to Saint Francis. Therefore, Johnson agrees that, during the Term of this Agreement and for a period of eighteen (18) months after termination of this Agreement, neither it nor any of its affiliates (including, but not limited to JMMC, JMH, JEC and JPA), agents, or employees shall directly or indirectly solicit for employment (or engagement as a contractor) by or on behalf of Johnson or any of Johnson's affiliates any Saint Francis personnel, except with the express written consent of Saint Francis.

6.2 Non-Hire by Johnson. JMMC, JMH, JEC and JPA acknowledge that Saint Francis Personnel are essential to Saint Francis's operations and are familiar with Saint Francis's operating procedures and other information proprietary to Saint Francis. Therefore, Johnson agrees that, during the Term of this Agreement and for a period of eighteen (18) months after termination of this Agreement, neither it nor any of its affiliates (including, but not limited to JMMC, JMH, JEC and JPA), agents, or employees shall employ, hire, or engage as a contractor by or on behalf of Johnson or any of Johnson's affiliates any Saint Francis Personnel, except with the express written consent of Saint Francis.

6.3 Non-Solicitation by Saint Francis. Saint Francis acknowledges that Johnson Personnel (as defined below) are essential to Johnson's operations and are familiar with Johnson's operating procedures and other information proprietary to Johnson. Therefore, Saint Francis agrees that, during the Term of this Agreement and for a period of eighteen (18) months after termination of this Agreement, neither it nor any of its affiliates (including, but not limited to Saint Francis Care, SFH or SFMG), agents, or employees shall directly or indirectly solicit for

employment (or engagement as a contractor) by or on behalf of Saint Francis or any of Saint Francis's affiliates any employees or contractors of Johnson or its affiliates (the "**Johnson Personnel**"), except with the express written consent of Johnson.

6.4 Non-Hire by Saint Francis. Saint Francis acknowledges that Johnson Personnel who are physicians, other licensed independent practitioners, or managers are essential to Johnson's operations and are familiar with Johnson's operating procedures and other information proprietary to Johnson. Therefore, Saint Francis agrees that, during the Term of this Agreement and for a period of eighteen (18) months after termination of this Agreement, neither it nor any of its affiliates (including, but not limited to Saint Francis Care, SFH or SFMG), agents, or employees shall employ, hire, or engage as a contractor by or on behalf of Saint Francis or any of Saint Francis's affiliates any Johnson Personnel who were during the Term of this Agreement involved with providing services pursuant to this Agreement, except with the express written consent of Johnson.

6.5 Exception. Nothing in Section 6.1, 6.2, 6.3 or 6.4 shall be deemed to restrict or prevent any physician on the medical staff of either Johnson or Saint Francis from, after the termination of this Agreement, retaining medical staff membership and clinical privileges at any facility of the other party or from practicing at or admitting patients to any facility of the other party or its affiliates where such actions are solely as an independent member of the medical staff of the other party's or its affiliate's facility, and not as an employee or independent contractor, in accordance with the facility's medical staff bylaws.

6.6 Construction by Court. If any part of Section 6.1, 6.2, 6.3, or 6.4 should be determined by a court of competent jurisdiction to be unreasonable in duration, geographic area, or scope, then this Agreement is intended to and shall extend only for such period of time, and in such area and scope and with respect to such activity, as is determined by such court to be reasonable. For example, with respect to the duration set forth in Sections 6.1, 6.2, 6.3, and 6.4, if a court determines eighteen (18) months to be unreasonable; then fifteen (15) months; and if not fifteen (15) months, then twelve (12) months; but not less than twelve (12) months.

6.7 Affirmation of Reasonableness. The parties acknowledge and agree that the scope and duration of the restrictions contained in this Section 6 are fair and reasonable, and shall not unduly prevent Johnson, Saint Francis, or any Johnson or Saint Francis personnel from operating or earning a livelihood, and that such restrictions are important and necessary to protect the legitimate interests of Johnson and Saint Francis.

6.8 Equitable Relief.

6.8.1 Equitable Relief for Saint Francis. Johnson acknowledges that a breach by Johnson of any restriction contained in this Section 6 shall cause Saint Francis irreparable injury and damage, the exact amount of which shall be impossible to ascertain and for which Saint Francis cannot reasonably or adequately be compensated in damages in an action at law. Accordingly, it is the agreement of the parties that, in addition to any other legal rights and remedies which Saint Francis may have in the event of a breach of this Section 6, Saint Francis shall be entitled to demand and obtain, without need of posting any bond or other security, specific performance, including temporary and permanent injunctive relief.

6.8.2 Equitable Relief for Johnson. Saint Francis acknowledges that a breach by Saint Francis of any restriction contained in this Section 6 shall cause Johnson irreparable injury and damage, the exact amount of which shall be impossible to ascertain and for which Johnson cannot reasonably or adequately be compensated in damages in an action at law. Accordingly, it is the agreement of the parties that, in addition to any other legal rights and remedies which Johnson may have in the event of a breach of this Section 6, Johnson shall be entitled to demand and obtain, without need of posting any bond or other security, specific performance, including temporary and permanent injunctive relief.

6.9 Non-exclusivity of Remedies. The parties agree that no specification in this Agreement of any particular legal or equitable remedy shall be construed as a waiver or prohibition against pursuing any other legal or equitable remedy in the event of any breach by a party of any restriction contained in this Section 6. The parties hereby represent that each has had the opportunity to seek legal advice with respect to the provisions of this Section 6, and has determined that the restrictions and remedies set forth in such provisions are fair and reasonable. The prevailing party shall be entitled to reasonable attorneys' fees and court cost incurred in any action to enforce the restrictions contained in this Section 6.

6.10 Tolling of Time Periods. The time for calculating the term of the restrictions contained herein shall not include any period of time during which the covenant is violated or during which any legal action or other proceeding is ongoing to enforce the terms of this Section 5 through the date of final judgment or final resolution, including all appeals, if any, of such legal action or other proceeding, unless the prosecuting party fails to prevail in such action or proceeding.

6.11 Survival. This Section 6 shall survive the expiration or termination of this Agreement.

7. Independent Contractors. It is expressly acknowledged by the parties that Saint Francis (including Saint Francis Personnel) and Johnson are independent contractors and nothing in this Agreement is intended or shall be construed to create between Saint Francis (or Saint Francis Personnel) and Johnson an employer/employee, joint venture, partnership, or other relationship. Saint Francis understands and agrees that Johnson will not make any payment to Saint Francis or any Saint Francis Personnel and will not withhold on behalf of Saint Francis or any Saint Francis Personnel any sums for income tax, unemployment insurance, social security, or any other withholding pursuant to any law or requirement of any governmental body, or make available to

Saint Francis or any Saint Francis Personnel any of the benefits afforded to employees of Johnson and that all of such payments, withholdings, and benefits, if any, are, as between the parties, the sole responsibility of Saint Francis.

8. Records.

8.1 Records Maintenance and Access. Saint Francis shall cause Saint Francis Personnel to prepare and maintain appropriate books and records pertinent to the Scheduled Services provided hereunder and under any BPO Sub-Agreement. Saint Francis shall maintain all such records and documents in a complete, accurate, and organized manner, consistent with prevailing practices and standards. Upon reasonable notice and during regular business hours, Johnson shall be provided access to the books, records, and documents maintained by Saint Francis relating to this Agreement and any BPO Sub-Agreement necessary to verify the quality, nature, extent, and costs of Scheduled Services rendered hereunder.

8.2 Third Party Payor Program Requirements. Saint Francis recognizes that Johnson is a participant in various third party payment programs including, without limitation, the Medicare and Medicaid programs, which participation is essential to the financial viability of Johnson. Therefore, in connection with the subject matter of this Agreement, Saint Francis agrees to cooperate with Johnson and to provide reasonable assistance to Johnson so that Johnson will be able to meet the requirements for participation and payment associated with such third party payment programs. Saint Francis agrees to make available to Johnson such information and records as Johnson may reasonably request to: (i) substantiate its costs under this Agreement and all BPO Sub-Agreements; and (ii) facilitate Johnson's compliance with the requirements of the Medicare Conditions of Participation and the Medicaid State Plan and to facilitate Johnson's substantiation of its reasonable cost or other claims for reimbursement in accordance with the requirements applicable to Johnson pursuant to such third party payor programs. All claims for reimbursement by or on behalf of Johnson or a Johnson entity shall be in accordance with all applicable law and third party payor programs. Johnson and each Johnson entity shall permit Saint Francis reasonable access to such records as may be necessary or desirable for Saint Francis to confirm that any and all claims submitted for reimbursement for Scheduled Services rendered by Saint Francis or Saint Francis Personnel by or on behalf of Johnson or a Johnson entity comply with all applicable law and third party payor programs; provided, however, that Saint Francis shall not have access to confidential rate or reimbursement information or other confidential information the disclosure of which is prohibited by law.

8.3 Governmental Access to Books, Documents and Records. To the extent that the provisions of Section 1861(v)(1)(1) of the Social Security Act (42 U.S.C. § 1395x(v)(1)(1)) are applicable to this Agreement and any BPO Sub-Agreement, both parties agree to make available, on the written request of the Secretary of the Department of Health and Human Services or on the request of the Comptroller General, or any of their duly authorized representatives, this Agreement, all applicable BPO Sub-Agreements, and other books, records and documents that are necessary to certify the nature and extent of costs incurred by either party for services furnished under this Agreement. The obligations hereunder shall extend for four (4) years after the furnishing of such services. The parties shall notify each other of any such request for records. To the extent Saint Francis enters into an agreement with a subcontractor or a related

organization to provide services hereunder with a value or cost of ten thousand dollars ($10,000) or more over a twelve (12) month period, such agreement shall contain a clause permitting access by the Secretary, Comptroller General, and their representatives to the books and records of the related organization and requiring such obligation to extend for four (4) years after the furnishing of such services.

In the event any request for Saint Francis's books, documents, or records is made pursuant to this Section, Saint Francis shall, unless prohibited by law or by the reasonable advice of Saint Francis's counsel (i) give notice of such request to Johnson; (ii) provide Johnson with a copy of such request; and (iii) upon Johnson's written request and at Johnson's expense (with respect to which Saint Francis shall cooperate to use its best efforts to minimize), provide Johnson with a copy of each book, document, and record made available to the persons or agencies listed in the foregoing paragraph, or identify each such book, document, and record to Johnson and grant Johnson access thereto for review and copying. In the event any request for Johnson's books, documents, or records is made pursuant to this Section, Johnson shall, unless prohibited by law or by the reasonable advice of Johnson's counsel (i) give notice of such request to Saint Francis; (ii) provide Saint Francis with a copy of such request; and (iii) upon Saint Francis's written request and at Saint Francis's expense (with respect to which Johnson shall cooperate to use its best efforts to minimize), provide Saint Francis with a copy of each book, document, and record made available to the persons or agencies listed in the foregoing paragraph, or identify each such book, document, and record to Saint Francis and grant Saint Francis access thereto for review and copying. This Section 8.3 shall survive the expiration or termination of this Agreement.

8.4 Ownership. The ownership and right of control of all reports, records, and supporting documents prepared by Saint Francis in provision of the Scheduled Services hereunder (except for reports of Saint Francis prepared solely for Saint Francis's internal purposes) shall vest exclusively in Johnson, provided, however, that Saint Francis may retain copies of such reports, records, and supporting documents to the extent permitted by law.

9. Insurance.

9.1 Saint Francis. In connection with the provision of the Scheduled Services hereunder, Saint Francis shall, at its own expense, establish and maintain general liability insurance coverage in the amounts of $1,000,000 per occurrence and $3,000,000 in aggregate, covering Saint Francis and covering the Saint Francis Personnel providing any Scheduled Services. Johnson shall be identified as an additional insured on such coverage with respect to the Scheduled Services provided under this Agreement. Such insurance shall require thirty (30) days' prior written notice to Johnson in the event of termination, cancellation, or a material change in such coverage. Upon request, Saint Francis shall furnish Johnson with proof of such insurance coverage.

9.2 Johnson. Johnson shall obtain and maintain, at its own expense, general liability insurance, in the amounts of $1,000,000 per occurrence and $3,000,000 in aggregate, covering Johnson and all Johnson employees. Saint Francis shall be named as an additional insured of such policies solely with respect to the Scheduled Services provided hereunder and only to the

extent that the claim against Saint Francis and/or a Saint Francis Personnel arises from the acts, errors, or omissions of Johnson or its employee. Such insurance shall require thirty (30) days' prior written notice to Saint Francis in the event of termination, cancellation, or a material change in any such policy. Upon request, Johnson shall furnish Saint Francis with evidence of each such insurance policy and any amendment or renewal thereof.

10. Indemnification.

10.1 Indemnification of Johnson. Saint Francis agrees that, to the extent not covered by the insurance required to be maintained under this Agreement, it will defend, indemnify, and hold harmless Johnson, and Johnson's trustees, directors, officers, employees, and agents from and against any and all claims, actions, suits, proceedings, liabilities, losses, demands, judgments, and expenses (including court costs and reasonable attorneys' fees) arising out of the negligent acts or omissions or intentional misconduct of Saint Francis or Saint Francis Personnel in performing its or their obligations under this Agreement or any BPO Sub-Agreement.

10.2 Indemnification of Saint Francis. Johnson agrees that, to the extent not covered by the insurance required to be maintained under this Agreement, it will defend, indemnify, and hold harmless Saint Francis, and Saint Francis's trustees, directors, officers, employees, and agents from and against any and all claims, actions, suits, proceedings, liabilities, losses, demands, judgments, and expenses (including court costs and reasonable attorneys' fees) arising out of the negligent acts or omissions or intentional misconduct of Johnson or Johnson Personnel in performing its or their obligations under this Agreement of any BPO Sub-Agreement.

10.3 Notification of Claim. In the event of any claim for indemnification under this Section 10, the indemnified party shall notify the indemnifying party in writing of any fact or circumstance which gives rise to liability for which the indemnified party is indemnified hereunder with reasonable promptness after such fact or circumstance first comes to the attention of the indemnified party; provided, however, the failure to give such notice shall not relieve the indemnifying party of its indemnification obligations unless, and only to the extent that, the failure to give such notice actually prejudices the rights of the indemnifying party.

10.4 Defense of Claims. If a claim is based upon a demand, claim, or action brought by a third party, the indemnifying party shall defend such demand, claim, or action at its expense with counsel of its choice reasonably acceptable to the indemnified party. The indemnifying party shall not have the right to compromise or settle such claim without the consent of the indemnified party (which consent will not be unreasonably withheld, delayed, or denied) unless such compromise or settlement includes a full release of the indemnified party from liability for the claim. The indemnified party may participate in any such matter at its expense and with counsel of its choice. The indemnified party will cooperate with the indemnifying party in all reasonable ways in the defense of any such action and shall give the indemnifying party access to such relevant files and records for inspection and copying, and make its employees available to the indemnifying party at the expense of the indemnifying party in the defense of any action for which the indemnified party is being indemnified hereunder.

10.5 Survival of Rights. The obligations under this Section 10 shall survive the expiration or termination of this Agreement.

11. Dispute Resolution.

11.1 Mediation by the Parties. Any deadlock, dispute, or controversy arising out of or relating to this Agreement, any BPO Sub-Agreement, or the breach hereof or thereof shall first be referred to the Chief Executive Officer of Saint Francis and the Chief Executive Officer of JMMC, who shall exert their good faith efforts to achieve a resolution. If any such dispute is not resolved by such group within thirty (30) days after notice thereof (or such longer period as the parties may then agree) (the "**Voluntary Resolution Period**"), then any party to such dispute may submit, within thirty (30) days after the end of the Voluntary Resolution Period, the dispute or controversy to arbitration pursuant to Section 11.2.

11.2 Arbitration. Any deadlock, dispute, or controversy arising out of or relating to this Agreement, a BPO Sub-Agreement, or the breach hereof or thereof and not resolved under Section 11.2 shall be resolved by arbitration pursuant to binding arbitration in Connecticut under the auspices of the American Health Lawyers Association ("**AHLA**") pursuant to the AHLA Alternative Dispute Resolution Service Rules of Procedure for Arbitration, before a single arbitrator with experience in the arbitration of disputes of a similar nature. The arbitrator shall have authority to award compensatory damages only and equitable relief only as permitted under this Agreement or state law. The arbitrator shall have no authority to award consequential damages, punitive damages or multiple damages. Each party will be responsible for its own legal fees and other expenses incurred in connection with such arbitration proceeding, except that the costs of the arbitrator shall be borne equally by the parties that are involved in the dispute (i.e., Saint Francis shall bear one-half and the Johnson party(ies) shall bear one-half). The decision of the arbitrator shall be final and binding upon the parties, and judgment confirming the arbitrator's award may be enforced in any court of competent jurisdiction. The parties hereby exclude any right of appeal to any court on the merits of the dispute.

11.3 Equitable Relief. The foregoing provisions for mediation and arbitration shall not prevent a party from applying for and obtaining injunctive or other equitable relief as provided elsewhere in this Agreement or by showing that, in the absence thereof, the rights of such party cannot be adequately protected.

12. Term and Termination of Agreement.

12.1 Term. This Agreement shall be for a term of five (5) years commencing on the Effective Date set forth above (the "**Term**"), unless terminated earlier in accordance with the terms of Section 12 or other applicable provisions of this Agreement. Thereafter, this Agreement may be renewed upon the mutual written agreement of the parties (a "**Renewal Term**"). Any BPO Sub-Agreement entered into by the parties shall be effective from the Start Date (as defined in the sub-agreement) for the Scheduled Services set forth in the BPO Sub-Agreement through the end of the Term of this Agreement, unless the BPO Sub-Agreement is terminated earlier in accordance with its terms or the provisions for termination set forth in this Agreement. The foregoing not withstanding, no BPO Sub-Agreement shall have a stated initial term of less than

one (1) year. This Agreement or any BPO Sub-Agreement shall not be renewed on the same financial terms and conditions without the parties first re-assessing the fair market value of the Scheduled Services at the time of any renewal.

12.2 Termination.

12.2.1 Termination by Agreement. Subject to Section 12.2.7, below, this Agreement or any BPO Sub-Agreement may be terminated by written agreement of the parties.

12.2.2 Termination on Notice for Default. Subject to Section 12.2.7, below, a party may terminate this Agreement or any BPO Sub-Agreement upon one hundred twenty (120) days prior written notice to the other parties upon a material breach hereof, which breach has not been cured to the reasonable satisfaction of the notifying party within such one hundred twenty (120) day period. Although other circumstances may also constitute a material breach of this Agreement, Johnson's failure to pay by the Due Date (i) the Scheduled Services Fees for three (3) or more BPO Sub-Agreements and/or (ii) at least ninety per cent (90%) of all Scheduled Services Fees due shall constitute a material breach of this Agreement.

12.2.3 Immediate Termination.

(a) By Johnson. Notwithstanding anything herein to the contrary, Johnson may terminate this Agreement or any BPO Sub-Agreement immediately upon written notice to Saint Francis (i) if Saint Francis fails to maintain the insurance required hereunder; (ii) if Saint Francis loses or has suspended its license or other authority to perform its obligations hereunder; or (iii) in the event that Saint Francis Care, SFH or SFMG is (A) convicted of a criminal offense related to health care and/or related to the provision of services paid for by Medicare, Medicaid, or another federal health care program; (B) excluded from or debarred from participation in any federal health care program, including Medicare or Medicaid; or (C) becomes listed as a party excluded from any federal health care program on the General Services Administration's excluded party listing system; provided, however, if any Saint Francis Personnel providing the Scheduled Services is convicted, excluded, or debarred as described above and Saint Francis immediately replaces such Saint Francis Personnel with other qualified Saint Francis Personnel reasonably acceptable to Johnson, this Agreement, or the applicable BPO Sub-Agreement, may not be terminated pursuant to this Section.

(b) By Saint Francis. Notwithstanding anything herein to the contrary, Saint Francis may terminate this Agreement or any BPO Sub-Agreement immediately upon written notice to Johnson (i) if any of the Johnson entities fails to maintain the insurance required hereunder; (ii) if any of the Johnson entities loses or has suspended its license or other authority to perform its obligations hereunder; (iii) in the event that JMMC, JMH, JEC or JPA is (A) convicted of a criminal offense related to health care and/or related to the provision of services paid for by Medicare, Medicaid, or another federal health care program; (B) excluded from or debarred from participation in any federal health care program, including Medicare or Medicaid; or (C) becomes listed as a party excluded from any federal health care program on the General Services Administration's excluded party listing system; or (iv) as set forth in Section 14.5.

12.2.4. Termination due to Changes in Laws and Regulations. Subject to Section 12.2.7, a party may terminate this Agreement or any BPO Sub-Agreement in accordance with the provisions of Section 13.5.

12.2.5 Termination of a BPO Sub-Agreement without Cause. Either Johnson or Saint Francis may terminate any specific BPO Sub-Agreement, without terminating this Agreement in its entirety, at any time, without cause or reason, by providing at least one hundred and eighty (180) days written notice to the other party, unless more or less notice is otherwise required or provided for in the applicable BPO Sub-Agreement.

12.5.6 Termination of Exclusivity Period. In the event the Exclusivity Period established by and defined in the Master Affiliation Agreement terminates for any reason, then this Agreement and all of the BPO Sub-Agreements shall also terminate on the date that is one hundred and eighty (180) days after the date that the Exclusivity Period terminated (or a lesser or longer number of days if mutually agreed to by the parties in writing) (the "**Wind-up Period**"). During the Wind-up Period, the parties to this Agreement and any BPO Sub-Agreement shall work together cooperatively to provide for an orderly transition of any Scheduled Services provided to Johnson under this Agreement and the BPO Sub-Agreements. Notwithstanding the foregoing, the parties acknowledge that even if the Exclusivity Period terminates, the parties may desire to keep in place some or all of the BPO Sub-Agreements. Therefore, within fifteen (15) days of the date of termination of the Exclusivity Period, Johnson shall provide written notice to Saint Francis of which, if any, BPO Sub-Agreements Johnson desires to remain effective, and if Saint Francis agrees to continue to provide some or all of such Scheduled Services, then the parties shall work together in good faith to amend in writing this Agreement and the applicable BPO Sub-Agreement(s) to reflect the revised term for such continued agreements and any other amendment(s) that may be necessary or appropriate to implement the continuation of such agreements. If any BPO Sub-Agreement is not amended to continue the term thereof, then such BPO Sub-Agreement shall be terminated effective on the last day of the Wind-up Period.

12.2.7 Limit on Re-Negotiation. In the event of termination of this Agreement for any reason, or the termination of a BPO Agreement, the parties agree that they shall not enter into a new, amended, or re-negotiated agreement concerning the same subject matter and containing revised pricing or compensation terms for a twelve (12) month period from the date of such termination.

12.3 Effects of Termination.

12.3.1 Termination of this Agreement shall result in automatic termination of all of the BPO Sub-Agreements subject to the same notice period, unless otherwise agreed to in writing by the parties. Termination of a specific BPO Sub-Agreement shall apply only to such sub-agreement and shall not be deemed to terminate this Agreement or any other BPO Sub-Agreement between the parties.

12.3.2 Upon termination of this Agreement as herein above provided, a party shall not have any further obligation hereunder except for: (i) obligations accruing prior to the

date of termination; and (ii) obligations, promises, or covenants contained herein which are expressly made to extend beyond the term of this Agreement. Upon termination of a BPO Sub-Agreement, without a termination of this Agreement in its entirety, as provided herein or in the BPO Sub-Agreement, a party shall not have any further obligation under such BPO Sub-Agreement except for: (i) obligations accruing prior to the date of termination, including the payment of the Scheduled Services Fee through the date of termination; and (ii) obligations, promises, or covenants contained therein or in this Agreement which are expressly made to extend beyond the termination of the BPO Sub-Agreement.

13. General Compliance.

13.1 Exclusion.

13.1.1 Saint Francis Representations and Warranties. Saint Francis represents and warrants that neither Saint Francis Care, SFH, SFMG nor any of the Saint Francis Personnel providing the Scheduled Services has ever been (i) convicted of a criminal offense related to health care and/or related to the provision of services paid for by Medicare, Medicaid, or another federal health care program; (ii) excluded or debarred from participation in any federal health care program, including Medicare or Medicaid; or (iii) otherwise sanctioned by the federal government, including being listed on the General Services Administration's Excluded Party Listing System.

13.1.2 Notification by Saint Francis. Saint Francis shall notify Johnson immediately in the event that any representation contained in 13.1.1 above is or becomes untrue at any time during the Term of this Agreement.

13.1.3 Johnson Representations and Warranties. JMMC represents and warrants that neither it nor, JMH, JEC and JPA has ever been (i) convicted of a criminal offense related to health care and/or related to the provision of services paid for by Medicare, Medicaid, or another federal health care program; (ii) excluded or debarred from participation in any federal health care program, including Medicare or Medicaid; or (iii) otherwise sanctioned by the federal government, including being listed on the General Services Administration's Excluded Party Listing System.

13.1.4 Notification by Johnson. Johnson shall notify Saint Francis immediately in the event that any representation contained in 13.1.3 above is or becomes untrue at any time during the Term of the Agreement.

13.2 False Claims. Saint Francis acknowledges on behalf of itself and the Service Providers and all of the Saint Francis Personnel that Johnson has provided it and them with access to its policy on False Claims and Payment Fraud Prevention (the "**Policy**"). The parties acknowledge that the False Claims Act (31 U.S.C. § 3729 et seq.) imposes penalties for knowingly submitting a false claim or statement to a federally funded program, or otherwise conspiring to defraud the government, in order to receive payment. It also protects individuals who report suspected fraud. Any suspected fraud will be reported as provided in the Policy.

13.3 No Intent to Induce Referrals. It is not the intent of the parties that any payments made pursuant to this Agreement or any BPO Sub-Agreement be in return for the referral of business, if any, or in return for the purchasing, leasing, or ordering of any services other than the specific Scheduled Services described in this Agreement and the BPO Sub-Agreements. All payments specified in the BPO Sub-Agreements shall be consistent with what the parties reasonably believe to be a fair market value for the Scheduled Services provided. The parties acknowledge that the arrangements contemplated by this Agreement are not conditioned in any way on any party, or its affiliates, referring patients to any other party, or its affiliates, and each party and its affiliates shall remain permitted to refer patients to any other entities or healthcare facilities.

13.4 Compliance with Law. The parties shall comport their conduct in implementing and performing this Agreement and the BPO Sub-Agreements to comply at all times with all provisions of applicable law, including, without limitation, the Connecticut General Statutes and Public Health Code, the Medicare Conditions of Participation and other regulations promulgated by the United States Department of Health and Human Services and the Centers for Medicare and Medicaid Services, 42 U.S.C. § 1320-a-7b, 42 U.S.C. § 1395nn, and federal and state antitrust laws, including Sections 1 and 2 of the Sherman Act and Section 7 of the Clayton Act, as each may be amended from time to time (the "**Laws and Regulations**").

13.5 Changes in Laws and Regulations. Notwithstanding any other provisions of this Agreement, if: (i) a party at any time determines upon the reasonable advice from counsel that any provision of this Agreement, or a BPO Sub-Agreement, does or may violate applicable Laws and Regulations then in effect or to become effective as of a date certain; (ii) the governmental agencies (or their representatives) that administer Medicare or Medicaid, or any other federal, state, or local government or agency, should pass, issue, or promulgate any law, rule, regulation, standard, or interpretation at any time while this Agreement, or a BPO Sub-Agreement, is in effect that materially and adversely affects any party's rights or obligations hereunder or thereunder; or (iii) any court or agency of any federal, state, or local government issues an order, decree, opinion, or ruling or takes any other action that will materially and adversely affect, restrict, or prohibit the ability of a party to perform its obligations under this Agreement, or a BPO Sub-Agreement; then the parties shall negotiate in good faith an appropriate modification to the terms and conditions of this Agreement, or the BPO Sub-Agreement, to accommodate such provisions of applicable Laws and Regulations or judicial or administrative decisions and to effectuate the existing terms and intent of this Agreement, or the BPO Sub-Agreement, to the greatest possible extent consistent with the requirements of such law or decision. Should the parties fail to reach agreement as to such modification of this Agreement, or the BPO Sub-Agreement, within ninety (90) days, then any party may terminate this Agreement, or the BPO Sub-Agreement, on ten (10) days' prior written notice.

13.6 Cooperation with Compliance Audits. Without limiting the foregoing, this Agreement shall not limit any rights or obligations of any party in respect of compliance audits or other similar activities conducted by or on behalf of such party in relation to such party's own operations and activities, and each party agrees to reasonably cooperate with the other parties in connection with any compliance audit, investigation, or other similar activity conducted by or on behalf of each party in relation to such party's own operations and activities. Each party shall be responsible for the costs of any audit, investigation, or similar activity conducted with respect to such party's activities.

13.7 Complaint or Investigation.

13.7.1 Notification of Complaint or Investigation. To the extent permitted by law, Johnson shall immediately notify Saint Francis of any of the following (collectively, "**Complaint and Investigation Proceedings**"): (i) a complaint by a patient or a patient's representative about Saint Francis's or Saint Francis Personnel's performance of its/his/her duties hereunder, or under a BPO Sub-Agreement, or the provision of the Scheduled Services; or (ii) any inquiry, investigation, or other proceeding concerning or relating to Saint Francis, this Agreement, any BPO Sub-Agreement, the Scheduled Services, or billing, payment, or collection for the Scheduled Services instituted by or in any federal or state court or before any agency, commission, regulatory body, or governmental authority, whether federal, state, or local, including, but not limited to, CMS, the Office of Inspector General of the United States Department of Health and Human Services, and Connecticut's Medicaid Fraud Control Unit, or by a third-party payor.

13.7.2 Consultation. To the extent permitted by law, Johnson shall provide Saint Francis a draft of any response or filing it plans to submit regarding Complaint and Investigation Proceedings reasonably in advance of Johnson's submission to allow Saint Francis the opportunity to comment; provided, however, that Johnson shall not be required to make any disclosure to Saint Francis that would, in the reasonable opinion of Johnson's legal counsel, vitiate a material legal privilege. Johnson shall consider Saint Francis's comments, if any, in formulating Johnson's response.

13.7.3 Right to Participate and Respond. To the extent permitted by law, Saint Francis shall have the right, on its own account and at its sole discretion, to respond to and participate in any and all Complaint and Investigation Proceedings. Johnson agrees not to object or otherwise oppose Saint Francis's participation in Complaint and Investigation Proceedings.

13.7.4 Survival. This Section 13.7 shall survive the expiration or termination of this Agreement.

14. Applicability of Ethical and Religious Directives for Catholic Health Care Services.

14.1 Directives Apply to Saint Francis. Saint Francis is organized and operates under the sponsorship of the Roman Catholic Church, and conducts its activities in accordance with the Ethical and Religious Directives for Catholic Health Care Services ("**Directives**") as adopted by the United States Conference of Catholic Bishops, and as the same may be amended from time to time. The Directives are applicable to Saint Francis as a Catholic health care institution in relation to its own operations, activities, and administration, and to the manner in which Saint Francis may collaborate or cooperate with Johnson and the Johnson entities as non-Catholic institutions.

14.2 Saint Francis Activities. Saint Francis (i) will not participate with Johnson in any obstetrical, gynecological, or reproductive procedures, programs, or activities, or in any family planning or other activity, that does not conform with the Directives, and (ii) will conduct its own activities, and will only provide services to Johnson, so that Saint Francis conforms with the Directives, and so as to avoid any perception by others that Saint Francis has compromised its moral principles by participating in acts that do not conform with the Directives.

14.3 No Saint Francis Participation in Non-conforming Activities. Nothing contained in this Agreement, or any BPO Sub-Agreement, shall require or be deemed to require Saint Francis to participate with Johnson in any obstetrical, gynecological, or reproductive procedures, programs, or activities, or in any family planning or other activity, that does not conform with the Directives, or otherwise act in any manner that Saint Francis, in its sole discretion, believes could cause Saint Francis to violate the Directives, or would create any perception by others that Saint Francis has compromised its moral principles by participating in acts that do not conform with the Directives.

14.4 Joint Activities. Saint Francis's activities in relation to Johnson always will ensure that any services provided by Saint Francis, and any joint activities among Saint Francis and Johnson, do not entail involvement by Saint Francis with any obstetrical, gynecological, or reproductive procedures, programs, or activities, or with any family planning or other activities, that do not conform with the Directives. Accordingly, none of Saint Francis's personnel will be involved in any family planning, obstetrical, gynecological, or reproductive procedures, programs, or activities, or any other procedures, programs, or activities of, by, or on behalf of Johnson that do not conform with the Directives, Saint Francis shall not have joint or shared responsibility for any such activities, and Saint Francis shall not share or have involvement with any governance, financial, administrative, or support functions related to any such activities.

14.5 Termination by Saint Francis. In the event that Saint Francis, at any time in its sole discretion, believes that any services provided by Saint Francis, or any joint activities between Saint Francis and Johnson pursuant to this Agreement or any BPO Sub-Agreement, or any activities of Johnson, whether pursuant to the provisions of this Agreement, a BPO Sub-Agreement, or otherwise, could cause Saint Francis to violate the Directives, or would lead others to perceive that Saint Francis has compromised its moral principles by participating in acts that do not conform with the Directives, then Saint Francis will, at its option and in its sole discretion, terminate this Agreement, the BPO Sub-Agreement, and/or Saint Francis's participation in such services or activities.

15. Security/Confidentiality.

15.1 Compliance with Policies. Saint Francis shall, and shall ensure that each Saint Francis Service Provider and all of the Saint Francis Personnel, comply with all Johnson's policies and procedures pertaining to confidentiality, security, and vendor identification. Johnson may issue non-employee identification badges under certain conditions, and Saint Francis agrees that all Saint Francis Personnel issued an identification badge by Johnson shall prominently display such badge at all times while on Johnson premises and providing Scheduled Services hereunder. All badges must be surrendered by Saint Francis Personnel when requested by Johnson.

15.2 Confidential Information. Saint Francis Care covenants and agrees, on behalf of itself, SFH and SFMG, any other Saint Francis Service Provider and all Saint Francis Personnel, that each shall retain in confidence all Confidential Information and know-how transmitted to it by Johnson that Johnson has identified prior to disclosure or in a BPO Sub-Agreement as being proprietary and/or confidential or that, by the nature of the circumstances surrounding disclosure or the nature of the information disclosed, ought in good faith to be treated as proprietary or

confidential and will make no use of such Confidential Information and know-how except under the terms of and during the existence of this Agreement. JMMC covenants and agrees, on behalf of itself, JMH, JEC and JPA and the Johnson Personnel, that each shall retain in confidence all Confidential Information and know-how transmitted to it by Saint Francis that Saint Francis has identified prior to disclosure or in a BPO Sub-Agreement as being proprietary and/or confidential or that, by the nature of the circumstances surrounding disclosure or the nature of the information disclosed, ought in good faith to be treated as proprietary or confidential and will make no use of such Confidential Information and know-how except under the terms of and during the existence of this Agreement. Confidential Information ("**Confidential Information**") shall include, by way of example and not limitation, any and all information regarding finances, practices, employees, management, strategic plans or marketing, know-how and business processes. Confidential Information shall not include information which (i) at the time of disclosure was, is, or thereafter becomes disclosed or available to or known by the public (other than as a result of a disclosure in violation of any of obligations hereunder); (ii) was, is, or thereafter becomes available on a non-confidential basis from a source that is not and was not prohibited from disclosing such information by a contractual, legal, or fiduciary obligation; or (iii) has been or thereafter becomes independently acquired or developed without access to any of the Confidential Information provided by the other party. A party shall exercise the same level of care to prevent the impermissible use or disclosure of the other parties' Confidential Information in its custody or control that it exercises in protecting its own information of a similar nature, and, in any event, no less than commercially reasonable efforts. Notwithstanding anything herein to the contrary, solely to the extent necessary to carry out obligations hereunder or legal obligations of the party, a party shall have the right to disclose Confidential Information to any of such party's attorneys, accountants, consultants, and other third parties retained by the party (collectively, "**Consultants**") so long as the Consultant is bound by confidentiality obligations at least as strict as those set forth herein, and with each party liable for any violation of this Section 15.2 by any of its Consultants. In the event that a party or any of its Consultants is requested or becomes legally compelled to make any disclosure which is prohibited or otherwise constrained by this Agreement, that party shall provide the party whose Confidential Information is sought with prompt notice of such request(s) so that the party whose Confidential Information is sought may seek an appropriate protective order or other appropriate remedy and/or waive compliance with the provisions of this Agreement. In the event that such protective order or other remedy is not obtained, or a waiver is granted, the party or its Consultant to whom the demand was directed shall disclose only that portion of the Confidential Information which it is legally compelled to disclose and shall use reasonable efforts to obtain reliable assurance that confidential treatment will be accorded any Confidential Information disclosed. The provisions of this Section shall survive termination of this Agreement.

15.3 Compliance with Confidentiality Laws. Saint Francis shall, and shall cause each Service Provider and all Saint Francis Personnel to, maintain all patient-related information to which it/he/she has access in performing under this Agreement or any BPO Sub-Agreement, including but not limited to protected health information ("**PHI**"), as that term is defined under the Health Insurance Portability and Accountability Act of 1996, as amended, and the regulations promulgated thereunder ("**HIPAA**"), in confidence in accordance with all applicable laws and regulations. The parties also acknowledge that in connection with the performance of some of the provisions of this Agreement or the BPO Sub-Agreements, Saint Francis, the Service Provider and the Saint Francis Personnel may have access to and receive confidential patient

information, including but not limited to PHI, and may act as a Business Associate (as defined in HIPAA) of Johnson. Saint Francis agrees to follow, and shall ensure that the Service Providers and Saint Francis Personnel follow, all rules, regulations, policies and procedures established by Johnson with respect to the protection of the privacy and confidentiality of patient medical information under applicable law, including but not limited to HIPAA. Without limiting the foregoing, Saint Francis represents and warrants on behalf of itself and each Service Provider and all Saint Francis Personnel that each Service Provider and all Saint Francis Personnel has been trained in and will comply with the confidentiality and disclosure requirements of applicable law and regulations, including but not limited to HIPAA. Contemporaneous with the execution of this Agreement, Saint Francis and Johnson and their respective affiliates identified therein shall execute the Business Associate Agreement attached hereto and incorporated herein as Schedule C.

15.4 Injunctive Relief. Unauthorized use of Confidential Information is a material breach of this Agreement resulting in irreparable harm for which the payment of money damages is inadequate. It is agreed that the non-breaching party, upon adequate proof of unauthorized use, may immediately obtain, without need of posting any bond or other security, injunctive relief and other equitable relief in any court of competent jurisdiction enjoining any continuing or further breaches and may obtain entry of judgment for injunctive relief. Nothing in this Agreement shall be construed to limit remedies at law or equity in the event of a breach.

16. Intellectual Property. Saint Francis shall retain all rights, titles, and interests in its intellectual property used in performing under this Agreement or a BPO Sub-Agreement, including, but not limited to, any research, information, procedure, invention, modification, discovery, design, drawing, plan, system, method, specification, publication, development, improvement, process, formula, data, technique, know-how, or trade secret, or any interest therein (whether or not patentable or registrable under patent, copyright or similar statutes or subject to analogous protection) in any application that relates to its performance under this Agreement or a BPO Sub-Agreement. Johnson shall retain all rights, titles, and interests in its intellectual property used in performing under this Agreement or a BPO Sub-Agreement, including, but not limited to, any research, information, procedure, invention, modification, discovery, design, drawing, plan, system, method, specification, publication, development, improvement, process, formula, data, technique, know-how, or trade secret, or any interest therein (whether or not patentable or registrable under patent, copyright or similar statutes or subject to analogous protection) in any application that relates to its performance under this Agreement or a BPO Sub-Agreement. Notwithstanding the foregoing, except as may be set forth in a BPO Sub-Agreement (which terms and provisions shall survive the termination or expiration of this Agreement and the BPO Sub-Agreement), nothing in this Section 16, Section 15.2 or any other provision of this Agreement, shall prohibit Johnson from utilizing the information, techniques, procedures, know-how and methods developed and used by Saint Francis and the Saint Francis Personnel to operate, administer and provide the Scheduled Services under any BPO Sub-Agreement for the benefit of Johnson or its affiliates after the termination or expiration of this Agreement or any BPO Sub-Agreement.

17. Miscellaneous.

17.1 Cooperation. The parties agree to cooperate with each other in good faith to effectuate the arrangements contemplated by this Agreement, including, but not limited to, obtaining all regulatory approvals, if any, required to implement the contemplated arrangements.

17.2 Notices. Any notice, demand or communication required, permitted or desired to be given hereunder shall be in writing and shall be deemed effectively given when personally delivered, when received by overnight courier, or five (5) calendar days after being deposited in the United States mail by prepaid certified mail, return receipt requested, addressed as follows:

17.3 Assignment. No assignment of this Agreement or any BPO Sub-Agreement or the rights and obligations hereunder shall be valid without the specific written consent of the parties to this Agreement and/or the BPO Sub-Agreement, as applicable.

17.4 Governing Law; Venue. This Agreement and any BPO Sub-Agreement have been, or will be, executed and delivered in and shall be interpreted, construed, and enforced pursuant to and in accordance with the laws of the State of Connecticut, without regard to its conflict of law principles. Venue of any dispute arising hereunder shall reside in the courts of the State of Connecticut located in Hartford County.

17.5 Waiver of Breach. The waiver by a party of a breach or violation of any provision of this Agreement, or any BPO Sub-Agreement, shall not operate as, or be construed to be, a waiver of any subsequent breach of the same or other provision hereof or thereof.

17.6 Severability. In the event any provision of this Agreement, or any BPO Sub-Agreement, is held to be unenforceable for any reason, the unenforceability thereof shall not affect the remainder of this Agreement, or the applicable BPO Sub-Agreement, which shall remain in full force and effect and enforceable in accordance with its terms.

17.7 Amendment. This Agreement, and any BPO Sub-Agreement, may be amended only by a written instrument executed by the parties hereto or thereto, as applicable.

17.8 Entire Agreement. This Agreement supersedes all previous contracts, and this Agreement, together with the BPO Sub-Agreements from time to time in effect, constitutes the entire agreement between the parties with respect to the Scheduled Services and the other matters set forth herein or therein. No oral statements or prior written material with respect to the Scheduled Services or other matters set forth in this Agreement not specifically incorporated herein or in a BPO Sub-Agreement shall be of any force and effect, and no changes in or additions to this Agreement or any BPO Sub-Agreement shall be recognized unless incorporated herein or therein by amendment as provided herein, such amendment(s) to become effective on the date stipulated in such amendment(s).

17.9 Counterparts. This Agreement, and any BPO Sub-Agreement, may be executed in counterparts, each of which shall be considered an original and all of which taken together shall constitute a single instrument.

17.10 No Drafting Presumptions. This Agreement has been, and each of the BPO Sub-Agreements will be, jointly negotiated among commercial parties with the benefit of counsel, and neither this Agreement, any BPO Sub-Agreement, nor any provision hereof or thereof shall be construed against its drafter due to the origin of the drafted material.

17.11 Third Parties. Nothing in this Agreement, or any BPO Sub-Agreement, is intended to confer upon any person or entity other than the parties to this Agreement, or any BPO Sub-Agreement, any rights or remedies. Without limiting the generality of the foregoing sentence in anyway, nothing in this Agreement or any BPO Sub-Agreement shall be construed to create any duty to, any standard of care with reference to, or any liability to anyone not a party to such agreement.

17.12 Headings. The headings used in this Agreement, or any BPO Sub-Agreement, are for convenience of reference only and shall have no force or effect in the construction or interpretation of the provisions of this Agreement, or the BPO Sub-Agreement.

17.13 Force Majeure. No party to this Agreement, or any BPO Sub-Agreement, shall be liable for any failure to perform its obligations hereunder, or thereunder, where such failure results from any cause beyond that party's reasonable control, including, for example, an act of God, labor disturbance such as a strike or walkout, war, terrorism, riot, fire, storm, accident, government regulation or interference, or mechanical, electronic, or communications failure.

17.14 Due Authority. Each of the parties represents and warrants that (i) it is duly organized, validly existing, and in good standing under the laws of the State of Connecticut;

(ii) it has duly authorized this Agreement by all requisite corporate action; and (iii) the individual signing below is duly authorized and directed to execute this Agreement on its behalf.

RECITALS

WHEREAS, Saint Francis and Johnson are parties to a Business Process Outsourcing Agreement dated as of July 12, 2012 (the "Business Process Outsourcing Agreement"); and

WHEREAS, JMMC, JMH, JEC, and certain affiliates will be filing petitions for relief under chapter 11 of the United States Bankruptcy Code (the "Bankruptcy Code"), commencing cases under the Bankruptcy Code (the "Bankruptcy Cases"); and

WHEREAS, following the commencement of the chapter 11 cases of JMMC, JMH, JEC, and their affiliates, Johnson will not further extend the"Exclusivity Period", as that term is defined in Section 4.1 of the Master Affiliation Agreement dated July 12, 2012, among JMMC, JMH, JEC, and Saint Francis Care (the "Master Affiliation Agreement"); and

WHEREAS, Johnson takes the position that after the commencement of the Bankruptcy Cases it will be legally obligated to solicit Alternative Transactions, as that term is defined in the Master Affiliation Agreement; and

WHEREAS, Section 12.5.6 of the Business Process Outsourcing Agreement provides that termination of the Exclusivity Period causes a termination of the Business Process Outsourcing Agreement and all BPO Sub-Agreements on the date that is 180 days after the date that the Exclusivity Period terminated; and

WHEREAS, the parties desire that the Business Process Outsourcing Agreementremain in effect as provided herein notwithstanding the termination of the Exclusivity Period, subject to the terms of this Amendment; and

WHEREAS, the assets of JMMC and JMH will be sold in the Bankruptcy Cases, and the parties agree that the Business Process Outsourcing Agreement should terminatein its entirety as provided herein if a party other than SFC or an affiliate is selected as the successful bidder for the assets of JMMC and JMH or is approved by the United States Bankruptcy Court as the purchaser of such assets; and

WHEREAS, the assets of JEC will be sold in the Bankruptcy Cases, and the parties agree that the Business Process Outsourcing Agreement should terminate as to JEC as provided herein if a party other than SFC or an affiliate is selected as the successful bidder for the assets of JEC or is approved by the United States Bankruptcy Court as the purchaser of such assets; and

Notwithstanding the terms of subsection (a), the termination of the Exclusivity Period following the commencement of the Bankruptcy Cases will not result in termination of this Agreement or the BPO Sub-Agreements. However, (i) if the United States Bankruptcy Court (the "**Bankruptcy Court**") enters an order approving the sale of the assets of either or both of JMH and JMMC to a purchaser other than Saint Francis or an affiliate (a "**Non-SFC Purchaser**"), this Agreement and all BPO Sub-Agreements will terminate as to that Johnson entityon the date that is fifteen (15) days (or a lesser or longer number of days if mutually agreed to by the parties in writing)following the designation of the Non-SFC Purchaser as the successful bidder or the entry of the order approving the sale to the Non-SFC Purchaser, as applicable; and (ii) if the Bankruptcy Court enters an order approving the sale of the assets of JEC to a Non-SFC Purchaser, this Agreement and all BPO Sub-Agreements will terminate as to JEC on the date that is fifteen (15) days (or a lesser or longer number of days if mutually agreed to by the parties in writing)following the designation of the Non-SFC Purchaser as the successful bidder or the entry of the order approving the sale to the Non-SFC Purchaser, as applicable.

(c) During the period following any event giving rise to termination of this Agreement and the effective date of termination (the "**Wind-up Period**"), the parties to this Agreement and any BPO Sub-Agreement shall work together cooperatively to provide for an orderly transition of any Scheduled Services provided to Johnson under this Agreement and the BPO Sub-Agreements. Notwithstanding the foregoing, the parties acknowledge that even if the Exclusivity Period terminates pursuant to subsection (a) above, the parties may desire to keep in place some or all of the BPO Sub-Agreements. Therefore, within fifteen (15) days of the date of termination of the Exclusivity Periodpursuant to subsection (a) above, Johnson shall provide written notice to Saint Francis of which, if any, BPO Sub-Agreements Johnson desires to remain effective, and if Saint Francis agrees to continue to provide some or all of such Scheduled Services, then the parties shall work together in good faith to amend in writing this Agreement and the applicable BPO Sub-Agreement(s) to reflect the revised term for such continued agreements and any other amendment(s) that may be necessary or appropriate to implement the continuation of such agreements. If any BPO Sub-Agreement is not amended to continue the term thereof, then such BPO Sub-Agreement shall be terminated effective on the last day of the Wind-up Period."

WHEREAS, the clinical affiliation is to be achieved with due respect for the teaching and healthcare missions of Johnson and Saint Francis; and

WHEREAS, in furtherance of the clinical affiliation Saint Francis will provide to Johnson certain clinical services and qualified physicians and personnel (collectively, the "**Saint Francis Personnel**") in order to facilitate Johnson's ability to meet and respond to the health care needs of patients in its services area in certain medical specialties where Johnson has a need for clinical coverage and services; and

WHEREAS, in furtherance of the clinical affiliation Saint Francis and Johnson desire for Saint Francis to be the preferred tertiary clinical partner for Johnson, and the parties desire to implement patient transfer and care coordination mechanisms and protocols to ensure that patients have access to high quality, cost-effective healthcare services in the most appropriate clinical setting, to better meet the needs of patients, physicians, JMH and SFH, and to foster the seamless delivery of care, contain costs and improve the quality of care provided in the communities served by Johnson; and

WHEREAS, in furtherance of the clinical affiliation Johnson desires, and Saint Francis so agrees, to identify itself as an affiliate of Saint Francis *Care*, Inc., subject to the terms set forth herein; and

WHEREAS, in furtherance of the clinical affiliation, Johnson and Saint Francis desire to collaborate with respect to quality improvement and to provide opportunity for Johnson's Medical Staff to participate in Saint Francis's informal, internal educational programs with respect to clinical areas in which the parties may collaborate; and

WHEREAS, the parties now wish to establish their agreement concerning clinical affiliation and collaboration.

NOW, THEREFORE, in consideration of the mutual covenants herein contained and other good and valuable consideration the sufficiency and receipt of which is acknowledged, the parties agree as follows:

1. Clinical and Quality Information.

1.1 Clinical Guidelines. Johnson and Saint Francis each agrees to make available to the other information and data concerning the delivery and management of clinical services and patient care, including, but not limited to, patient management and clinical guidelines and protocols.

1.2 Quality Information. Johnson and Saint Francis each agrees to make available to the other information and data relating to the quality and outcome of clinical services, in order to evaluate outcomes for quality assurance and to identify and develop methods, processes or protocols that may be implemented for improvement of the quality of clinical care. The parties shall develop a plan for Johnson to coordinate with Saint Francis with respect to quality assurance through periodic monitoring and consultation and the development of a quality consultation plan.

2. Clinical Services.

2.1 Saint Francis Clinical Services.

2.1.1 Clinical Need Areas. The parties acknowledge and agree that, from time to time, Johnson and Saint Francis shall identify clinical services to be provided pursuant to this Agreement which would benefit Johnson's patients, promote the efficient and effective operation of Johnson, and enhance the clinical affiliation and collaboration between Johnson and Saint Francis. Johnson has listed on Schedule A, the clinical areas in which Johnson has identified that it has a need for physician coverage, including specialist coverage, in its service area for clinical consultations, coverage and professional services (each, a "**Clinical Need Area**", and, collectively, the "**Clinical Need Areas**"). Johnson and Saint Francis agree to work together in good faith to evaluate and assess the coverage, consultation and other services required by Johnson in each of the Clinical Need Areas (and any additional Clinical Need Areas which may subsequently be identified), to evaluate and assess Saint Francis's ability to provide some or all

of the needed services to Johnson in the Clinical Need Areas, and to use their best efforts to develop a detailed agreement for services to be provided by Saint Francis to Johnson for each Clinical Need Area for which the parties agree Saint Francis will provide services.

2.1.2 Clinical Services Sub-Agreements. The parties acknowledge that evaluation and negotiation of a detailed arrangement for each of the Clinical Need Areas will take time to develop and they have agreed to approach each Clinical Need Area on a case by case basis to develop a high quality and cost-effective arrangement. For each Clinical Need Area in which Johnson retains Saint Francis to provide clinical services, Johnson and Saint Francis shall enter into a Clinical Services Sub-Agreement (each a "**Clinical Services Sub-Agreement**") substantially in the form attached hereto as Schedule B, and which sub-agreement shall identify, at a minimum: (i) the specific Clinical Need Area to be addressed; (ii) the specific clinical and other related services to be provided by Saint Francis to Johnson (the "**Scheduled Services**") for such Clinical Need Area; (iii) the schedule on which services shall be provided; (iv) the fees to be paid by Johnson to Saint Francis for the Scheduled Services (the "**Scheduled Services Fee**"), which fee shall be determined consistent with the provisions of Section 2.1.3 below; and (v) any other specific terms or conditions of the arrangement for the Clinical Need Area, including terms or conditions that may vary from or supersede the Master Terms of this Agreement (as defined below). Each Clinical Services Sub-Agreement shall be signed by the appropriate Johnson and Saint Francis parties and shall be consecutively numbered (e.g. B-1, B-2, B-3, etc.) and, upon execution, deemed incorporated into Schedule B to this Agreement and incorporated herein. Saint Francis shall, and shall ensure that the Saint Francis Personnel (as defined below), provide the Scheduled Services faithfully and in a professional and capable manner, consistent with accepted industry standards and practices.

2.1.3 Scheduled Services Fees. Johnson shall compensate Saint Francis for the Scheduled Services in accordance with the applicable Clinical Services Sub-Agreement. The parties acknowledge and agree that the Scheduled Services Fee is intended to reflect the fair market value of the services comprising the Scheduled Services to be provided by Saint Francis to Johnson pursuant to this Agreement. The Scheduled Services Fee may be amended from time to time, by written agreement of the parties, to reflect a change in the fair market value of the Scheduled Services; provided, however, that the parties shall not revise the Scheduled Services Fee for any Clinical Services Sub-Agreement more than once every twelve (12) months.

2.2 Scheduling. Saint Francis and Johnson shall work together to determine a mutually acceptable schedule for Saint Francis's provision of the Scheduled Services, which shall be set forth in the applicable Clinical Services Sub-Agreement. In connection with the provisions of Scheduled Services, Saint Francis shall ensure that Johnson is provided with telephone numbers, as may be applicable, to contact the applicable Saint Francis Personnel in applicable circumstances, such as an emergency or related to on-call coverage. Saint Francis shall ensure that the Saint Francis Personnel timely complete and submit to Johnson such reports of time spent providing the Scheduled Services in such format and with such frequency as the parties may agree in the applicable Clinical Services Sub-Agreement (the "**Timesheets**").

2.3 Invoices. Saint Francis, or the applicable Service Provider under a Clinical Services Sub-Agreement, shall send an invoice to JMH, or the applicable Service Recipient

under the Clinical Services Sub-Agreement, for the Scheduled Services together with the Timesheets prepared in accordance with Section 2.2 on a monthly basis. Payment in full will be due by the thirtieth (30th) day after submission of the monthly invoice to Johnson ("**Due Date**"); provided, however, that Saint Francis's failure or delay in sending an invoice to JMH, or the applicable Service Recipient under the Clinical Services Sub-Agreement, shall not relieve JMH, or the applicable Service Recipient under the Clinical Services Sub-Agreement, of its obligation to pay for the Scheduled Services rendered. Saint Francis shall be entitled to interest at the rate of 1.5% per month on any amounts not paid by the Due Date. Johnson agrees to pay all collection, court, and other such costs, expenses, and fees (including reasonable attorneys' fees) incurred by Saint Francis to obtain payment of any Scheduled Services Fees past due. The parties agree that Johnson's failure to pay a Scheduled Services Fee by the Due Date shall constitute a material breach for which Saint Francis shall have the right to terminate the applicable Clinical Services Sub-Agreement in accordance with Section 11.2.2.

2.4 Billing for Services. Unless otherwise set forth in a Clinical Services Sub-Agreement, JMH, or the applicable Service Recipient identified in the Clinical Services Sub-Agreement, shall bill and collect on its own account for all medical services provided under a Clinical Services Sub-Agreement to Johnson patients, including all technical, facility, and professional fees. Saint Francis, and any of its affiliates, shall not bill any Johnson patients or third party payors for services provided by Saint Francis Personnel under any Clinical Services Sub-Agreement. The parties agree to cooperate with each other to provide promptly any information, documents, consents, or authorizations reasonably necessary or desirable to permit JMH, or the applicable Service Recipient, to bill for the Scheduled Services provided under a Clinical Services Sub-Agreement, and to comply with applicable law. All billing and collection activity by or on behalf of Johnson or a Johnson entity shall be in accordance with all applicable law and third party payor contracts. Johnson and each Johnson entity shall permit Saint Francis reasonable access to such billing, collection, and other records as may be necessary or desirable for Saint Francis to confirm that any and all claims submitted for payment for Scheduled Services rendered by Saint Francis or Saint Francis Personnel and all associated collection activity by or on behalf of Johnson or a Johnson entity comply with all applicable law and third party payor contracts; provided, however, that Saint Francis shall not have access to confidential rate or reimbursement information or other confidential information the disclosure of which is prohibited by law.

2.5 Compliance with Johnson Policies and Applicable Law. In performing the Scheduled Services hereunder, Saint Francis and the applicable Service Provider shall, and shall ensure that Saint Francis Personnel, comply with all applicable (i) bylaws and rules and regulations of Johnson's medical staff and any policies and procedures established by Johnson and its medical staff (collectively, "**Johnson Policies**") and (ii) law, regulatory guidance, and accreditation standards, including without limitation, the Connecticut General Statutes and Public Health Code, the Medicare Conditions of Participation and other regulations promulgated by the United States Department of Health and Human Services and the Centers for Medicare and Medicaid Services ("**CMS**"), and the standards of The Joint Commission. Upon request by Saint Francis, Johnson shall provide copies of any of the Johnson Policies to assist Saint Francis in meeting this requirement.

2.6 Space, Equipment, and Support Staff. Johnson shall provide Saint Francis, or the applicable Service Provider, with suitable support staff, office space, equipment, supplies, and utilities as shall be reasonably necessary and appropriate for Saint Francis to provide the Scheduled Services, consistent with Johnson's existing resources, personnel, capacity, facilities and budget. Saint Francis shall, and shall ensure that the Saint Francis Personnel, not use the facilities, equipment, supplies and staff provided by Johnson for any purpose other than the provision of the Scheduled Services under this Agreement and the applicable Clinical Services Sub-Agreement.

2.7 Reporting Responsibility. In carrying out the Scheduled Services and regarding matters related to quality, safety, communication, scheduling and patient satisfaction, the Saint Francis Personnel shall report to JMMC's Chief Executive Officer, or such other person he or she designates; provided however, that such reporting responsibility shall not interfere with the independent professional judgment or determination of the appropriate health care to be rendered by the Saint Francis Personnel to their patients under this Agreement and a Clinical Services Sub-Agreement.

2.8 Saint Francis Personnel.

2.8.1 Saint Francis Personnel Qualifications. Saint Francis shall ensure that Saint Francis personnel who provide Scheduled Services hereunder possess the requisite education, training, and skills, as well as any licenses, certifications, and registrations required to provide the service(s) to be delivered. Without limiting the generality of the foregoing sentence, Saint Francis shall ensure that each physician and other licensed independent practitioner (collectively, "**Independent Practitioners**") who is required by Johnson Policies to be a member of the medical staff of JMH or JEC ("**Johnson's Medical Staff**") and/or to obtain clinical privileges in order to provide the Scheduled Services maintains such membership and/or clinical privileges while providing the Scheduled Services. Johnson shall accept, review, and act on applications for membership and/or clinical privileges from Saint Francis Independent Practitioners in accordance with the bylaws of Johnson and Johnson's Medical Staff.

2.8.2 Selection and Assignment of Saint Francis Personnel. The selection and assignment of Saint Francis Personnel to render Scheduled Services hereunder shall be made at the sole discretion of Saint Francis; provided, however, that Johnson shall have the right to require that any of the Saint Francis Personnel no longer provide the Scheduled Services hereunder to Johnson provided that Johnson has reasonable cause to request the replacement, Johnson informs Saint Francis of the reason(s) for Johnson's request, and Saint Francis is unable within a reasonable period of time to rectify the circumstance(s) which form(s) the basis of Johnson's request. Saint Francis Personnel who are members of Johnson's Medical Staff and/or have clinical privileges at Johnson shall retain all rights granted under the bylaws of Johnson's Medical Staff; provided, however, that any hearing or appeal rights enumerated in Johnson's Medical Staff bylaws shall be inapplicable to a request by Johnson to Saint Francis to remove such Saint Francis Personnel from providing Scheduled Services under this Agreement.

2.8.3 Saint Francis Employee Misconduct. Saint Francis shall promptly notify Johnson of any determination of professional or criminal misconduct of any Saint Francis

Personnel that is likely, in the reasonable judgment of Saint Francis, to materially negatively affect the quality of the Scheduled Services provided by Saint Francis and the applicable Service Provider; the safety or welfare of any Johnson patient, visitor, or staff member; or Johnson's reputation or operations. Johnson shall have the right to require that Saint Francis remove such Saint Francis Personnel from providing further Scheduled Services under this Agreement. Saint Francis Personnel who are members of Johnson's Medical Staff and/or have clinical privileges at Johnson shall retain all rights granted under the bylaws of Johnson's Medical Staff; provided, however, that any hearing or appeal rights enumerated in Johnson's Medical Staff bylaws shall be inapplicable to a request by Johnson to Saint Francis to remove such Saint Francis Personnel from providing Scheduled Services under this Agreement.

2.8.4 Saint Francis's Performance Review of its Personnel. Saint Francis shall retain exclusive authority with respect to oversight of Saint Francis Personnel for all purposes, including, without limitation, all decisions to hire, fire, and evaluate the performance of such individuals; provided, however this Section does not affect Johnson's right to require that Saint Francis remove certain individuals from providing Scheduled Services to Johnson pursuant to Sections 2.8.2 and 2.8.3, the right of Johnson and Johnson's Medical Staff, in accordance with their bylaws, to evaluate the credentials of and take appropriate action regarding any Independent Practitioner who has (or is applying for) membership or clinical privileges at Johnson, or the right of Johnson to provide proper oversight of the overall quality of care provided at its healthcare facilities or on behalf of Johnson.

2.8.5 Limitation on Saint Francis Authority.

(a) Johnson's Retained Authority. JMMC, JMH, JEC and JPA shall each retain full legal authority over their respective day-to-day operations, and any responsibility or authority not expressly delegated to Saint Francis under this Agreement or a Clinical Services Sub-Agreement hereunder shall remain with the respective Johnson entity.

(b) No Authority for Contracting or Purchasing. Except pursuant to the prior written approval of JMMC, JMH, JEC or JPA, as applicable, neither Saint Francis nor any Saint Francis Personnel shall engage in or cause direct purchasing or otherwise contract any liability on behalf of JMMC, JMH, JEC or JPA and shall neither charge the credit of JMMC, JMH, JEC or JPA, nor incur any obligations or enter into any agreement for or on behalf of JMMC, JMH, JEC or JPA.

3. Other Aspects of the Clinical Affiliation.

3.1 Patient Transfer and Care Coordination. Johnson and Saint Francis hereby agree that during the Term of this Agreement, Saint Francis shall be the preferred tertiary clinical partner for JMH and that they each shall work in good faith to implement mutually agreeable patient transfer and care coordination mechanisms with respect to and between the Johnson facilities and the Saint Francis facilities, in order to better meet the needs of patients, physicians and the health care facilities involved. Transfers to Saint Francis's hospital shall be made only when necessary and medically appropriate. In furtherance of the foregoing, the parties shall take steps reasonably necessary to carry out the intent of the parties under this Section, including, but

not limited to, the following (subject to such additional terms and conditions as the parties may agree to in writing):

3.1.1 Develop a seamless, medically appropriate and efficient patient transfer plan with respect to clinical services of a complex nature that are beyond the scope of services provided at Johnson and require the expertise available at a tertiary hospital such as that operated by Saint Francis.

3.1.2 Facilitate clinical efficiencies and sharing of medical records and imaging records, to the extent practicable, to provide for seamless patient transfer.

Nothing in this Section 3.1, or elsewhere in this Agreement, is intended to require Johnson or Saint Francis to refer patients to the other party or enter into any other arrangement for the provisions of any item or services offered by the other party for which Medicare, Medicaid, or other health insurance payments may be made. Nothing in this Section 3.1, or elsewhere in this Agreement, is intended to interfere with the independent medical judgment of the medical staff of Johnson or Saint Francis or the free choice of any patient to select health care facilities or providers.

3.2 Clinical Education and Training Opportunities. During the Term of this Agreement and subject to the approval of Saint Francis's Medical Staff, Johnson's Medical Staff shall be provided the opportunity to participate in Saint Francis internally-run clinical educational programs and training programs intended to further physician education in various clinical areas and on quality improvement topics, including participation in grand rounds sessions, as appropriate. The educational and training programs shall be limited to those that are informal and collaborative in nature consistent with programs ordinarily provided by a hospital or its medical staff for continuing education and quality improvement purposes, and shall not include the type of continuing medical education that is available for commercial purchase in the industry. In addition, Johnson's Medical Staff shall be permitted to access the SFH Health Sciences Library and library materials at SFH.

3.3 Trademarks, Service Marks, Marketing and Website Linkage. During the Term of this Agreement, Saint Francis grants Johnson a limited, non-exclusive, royalty-free license to use the Saint Francis *Care* trademarks and service marks for purposes of marketing Johnson as a clinical affiliate of Saint Francis *Care*, which shall include the use of such trademarks and service marks on signage at Johnson buildings and facilities. During the Term of this Agreement, Johnson grants to Saint Francis a limited, non-exclusive, royalty-free license to use the Johnson Memorial Medical Center trademarks and service marks for purposes of marketing Johnson as an affiliate of Saint Francis *Care*. Each party may identify itself as an affiliate of the other party, and use such other party's name, address, trademarks and services marks, in marketing materials, advertisements and on its Internet web page, which may include web links, URLs or web addresses of the other party on its Internet web page. Notwithstanding the foregoing, each party shall obtain the other party's prior approval of each specific use of its name, trademarks and services, which approval shall be timely provided and shall not be unreasonably withheld. Johnson agrees that any use of the Saint Francis *Care* trademarks, service marks, name or logo shall only be used in accordance with the requirements of Section 13 of this Agreement. Neither

party shall be required to engage in marketing activities for the other, but the parties may decide to collaborate and jointly market their clinical affiliation. With respect to any joint advertising or marketing campaign developed by the parties, whether print, billboard, radio, television or other media, each party shall be responsible for its proportional share of the cost of such marketing or advertising.

3.4 Coordination on Credentialing of Medical Staff.

3.4.1 During the Term of this Agreement and subject to the approval of their respective medical staffs, Johnson and Saint Francis agree they may share certain credentialing information with respect to physicians and other individual licensed professionals on their respective medical staffs who apply for medical staff membership and/or clinical privileges on the other party's medical staff. Credentialing information shall be shared only for practitioners who have agreed in writing to authorize the release of such information. Credentialing information shall be limited to information that a hospital is permitted to obtain through a centralized credentialing process under The Joint Commission rules, Medicare Conditions of Participation, and Connecticut law, and may, if permitted, include, verification of the practitioner's Connecticut license to practice medicine, DEA registration, medical school attendance, graduate and post graduate attendance, completion of residency and fellowships, current clinical privileges and employment verifications (the "**Centralized Credentialing Information**"). Neither party shall provide the other party with a copy of any information it receives from the National Practitioner Data Bank or Healthcare Integrity and Protection Data Bank. Johnson and Saint Francis each acknowledges that, notwithstanding the sharing of the Centralized Credentialing Information, its respective health care facilities shall conduct their own review and analysis with respect to medical staff membership and clinical privileges on an individual institution basis and cannot and will not delegate or combine that review process.

3.4.2 Subject to the approval of the Johnson Medical Staff, Johnson hereby appoints Saint Francis as an authorized agent of Johnson to obtain and verify the Centralized Credentialing Information as may be requested, from time to time, for specific practitioners applying for medical staff membership and/or clinical privileges at Johnson. Subject to the approval of the Saint Francis Medical Staff, Saint Francis hereby appoints Johnson as an authorized agent of Saint Francis to obtain and verify the Centralized Credentialing Information as may be requested, from time to time, for specific practitioners applying for medical staff membership and/or clinical privileges at Saint Francis. Nothing herein shall require Johnson or Saint Francis to obtain the Centralized Credentialing Information from the other party, and each party shall be entitled to independently obtain and verify such information in its discretion.

4. Master Terms for the Clinical Services Sub-Agreement. The terms and conditions set forth in this Agreement (collectively, the "**Master Terms**") shall apply to each Clinical Services Sub-Agreement executed by the parties under this Agreement. The Master Terms shall be controlling except to the extent a particular Clinical Services Sub-Agreement expressly adopts a different, replacement term applicable to only that Clinical Services Sub-Agreement.

5. Restrictive Covenant.

5.1 Non-Solicitation by Johnson. JMMC, JMH, JEC and JPA each acknowledges that Saint Francis personnel are essential to Saint Francis's operations and are familiar with Saint Francis's operating procedures and other information proprietary to Saint Francis. Therefore, Johnson agrees that, during the Term of this Agreement and for a period of eighteen (18) months after termination of this Agreement, neither it nor any of its affiliates (including, but not limited to JMMC, JMH, JEC and JPA), agents, or employees shall directly or indirectly solicit for employment (or engagement as a contractor) by or on behalf of Johnson or any of Johnson's affiliates any Saint Francis personnel, except with the express written consent of Saint Francis.

5.2 Non-Hire by Johnson. JMMC, JMH, JEC and JPA acknowledge that Saint Francis Personnel are essential to Saint Francis's operations and are familiar with Saint Francis's operating procedures and other information proprietary to Saint Francis. Therefore, Johnson agrees that, during the Term of this Agreement and for a period of eighteen (18) months after termination of this Agreement, neither it nor any of its affiliates (including, but not limited to JMMC, JMH, JEC or JPA), agents, or employees shall employ, hire, or engage as a contractor by or on behalf of Johnson or any of Johnson's affiliates any Saint Francis Personnel, except with the express written consent of Saint Francis.

5.3 Non-Solicitation by Saint Francis. Saint Francis acknowledges that Johnson Personnel (as defined below) are essential to Johnson's operations and are familiar with Johnson's operating procedures and other information proprietary to Johnson. Therefore, Saint Francis agrees that, during the Term of this Agreement and for a period of eighteen (18) months after termination of this Agreement, neither it nor any of its affiliates (including, but not limited to Saint Francis Care, SFH or SFMG), agents, or employees shall directly or indirectly solicit for employment (or engagement as a contractor) by or on behalf of Saint Francis or any of Saint Francis's affiliates any employees or contractors of Johnson or its affiliates (the "**Johnson Personnel**"), except with the express written consent of Johnson.

5.4 Non-Hire by Saint Francis. Saint Francis acknowledges that Johnson Personnel who are Independent Practitioners or managers are essential to Johnson's operations and are familiar with Johnson's operating procedures and other information proprietary to Johnson. Therefore, Saint Francis agrees that, during the Term of this Agreement and for a period of eighteen (18) months after termination of this Agreement, neither it nor any of its affiliates (including, but not limited to Saint Francis Care, SFH or SFMG), agents, or employees shall employ, hire, or engage as a contractor by or on behalf of Saint Francis or any of Saint Francis's affiliates any Johnson Personnel who were during the Term of this Agreement involved with providing services pursuant to this Agreement, except with the express written consent of Johnson.

5.5 Exception. Nothing in Section 5.1, 5.2, 5.3 or 5.4 shall be deemed to restrict or prevent any physician on the medical staff of either Johnson or Saint Francis from, after the termination of this Agreement, retaining medical staff membership and clinical privileges at any facility of the other party or from practicing at or admitting patients to any facility of the other party or its affiliates where such actions are solely as an independent member of the medical staff of the other party's or its affiliate's facility, and not as an employee or independent contractor, in accordance with the facility's medical staff bylaws.

5.6 Construction by Court. If any part of Section 5.1, 5.2, 5.3 or 5.4 should be determined by a court of competent jurisdiction to be unreasonable in duration, geographic area, or scope, then this Agreement is intended to and shall extend only for such period of time, and in such area and scope and with respect to such activity, as is determined by such court to be reasonable. For example, with respect to the duration set forth in Sections 5.1, 5.2, 5.3 and 5.4, if a court determines eighteen (18) months to be unreasonable, then fifteen (15) months; and if not fifteen (15) months, then twelve (12) months; but not less than twelve (12) months.

5.7 Affirmation of Reasonableness. The parties acknowledge and agree that the scope and duration of the restrictions contained in this Section 5 are fair and reasonable, and shall not unduly prevent Johnson, Saint Francis, or any Johnson or Saint Francis personnel from operating or earning a livelihood, and that such restrictions are important and necessary to protect the legitimate interests of Johnson and Saint Francis.

5.8 Equitable Relief.

5.8.1 Equitable Relief for Saint Francis. Johnson acknowledges that a breach by Johnson of any restriction contained in this Section 5 shall cause Saint Francis irreparable injury and damage, the exact amount of which shall be impossible to ascertain and for which Saint Francis cannot reasonably or adequately be compensated in damages in an action at law. Accordingly, it is the agreement of the parties that, in addition to any other legal rights and remedies which Saint Francis may have in the event of a breach of this Section 5, Saint Francis shall be entitled to demand and obtain, without need of posting any bond or other security, specific performance, including temporary and permanent injunctive relief.

5.8.2 Equitable Relief for Johnson. Saint Francis acknowledges that a breach by Saint Francis of any restriction contained in this Section 5 shall cause Johnson irreparable injury and damage, the exact amount of which shall be impossible to ascertain and for which Johnson cannot reasonably or adequately be compensated in damages in an action at law. Accordingly, it is the agreement of the parties that, in addition to any other legal rights and remedies which Johnson may have in the event of a breach of this Section 5, Johnson shall be entitled to demand and obtain, without need of posting any bond or other security, specific performance, including temporary and permanent injunctive relief.

5.9 Non-exclusivity of Remedies. The parties agree that no specification in this Agreement of any particular legal or equitable remedy shall be construed as a waiver or prohibition against pursuing any other legal or equitable remedy in the event of any breach by a party of any restriction contained in this Section 5. The parties hereby represent that each has had the opportunity to seek legal advice with respect to the provisions of this Section 5, and has determined that the restrictions and remedies set forth in such provisions are fair and reasonable. The prevailing party shall be entitled to reasonable attorneys' fees and court cost incurred in any action to enforce the restrictions contained in this Section 5.

5.10 Tolling of Time Periods. The time for calculating the term of the restrictions contained herein shall not include any period of time during which the covenant is violated or during which any legal action or other proceeding is ongoing to enforce the terms of this Section 5 through the date of final judgment or final resolution, including all appeals, if any, of such

legal action or other proceeding, unless the prosecuting party fails to prevail in such action or proceeding.

5.11 Survival. This Section 5 shall survive the expiration or termination of this Agreement.

6. Independent Contractors. It is expressly acknowledged by the parties that Saint Francis and Johnson are independent contractors and nothing in this Agreement is intended or shall be construed to create between Saint Francis and Johnson an employer/employee, joint venture, partnership, or other relationship. Saint Francis understands and agrees that Johnson will not make any payment to Saint Francis or any Saint Francis Personnel and will not withhold on behalf of Saint Francis or any Saint Francis Personnel any sums for income tax, unemployment insurance, social security, or any other withholding pursuant to any law or requirement of any governmental body, or make available to Saint Francis or any Saint Francis Personnel any of the benefits afforded to employees of Johnson and that all of such payments, withholdings, and benefits, if any, are, as between the parties, the sole responsibility of Saint Francis.

7. Records.

7.1 Medical Records. To the extent applicable, in connection with any Scheduled Services, Saint Francis shall cause Saint Francis Personnel to prepare medical records in accordance with Johnson Policies, state and federal law, and the standards of The Joint Commission. All clinical services rendered by Saint Francis Personnel to Johnson patients shall be documented in Johnson's medical record.

7.2 Records Maintenance and Access. Saint Francis shall cause Saint Francis Personnel to prepare and maintain appropriate books and records pertinent to the Scheduled Services provided hereunder. Saint Francis shall maintain all such records and documents in a complete, accurate, and organized manner, consistent with prevailing practices and standards. To the extent permitted by law, and subject to patient authorization as legally required, upon reasonable notice and during regular business hours, (i) Johnson shall be provided access to the books, records, and documents maintained by Saint Francis relating to this Agreement necessary to verify the quality, nature, extent, and costs of Scheduled Services rendered hereunder; and (ii) Saint Francis and Saint Francis Personnel shall be provided access to all medical records of patients for whom Saint Francis and Saint Francis Personnel provided Scheduled Services, including, without limitation, for purposes of documentation verification, responding to investigations and inquiries, and actual or threatened litigation with respect to such patients; provided, however, that Saint Francis and Saint Francis Personnel shall not have access to confidential rate or reimbursement information.

7.3 Third Party Payor Program Requirements. Saint Francis recognizes that Johnson is a participant in various third party payment programs including, without limitation, the Medicare and Medicaid programs, which participation is essential to the financial viability of Johnson. Therefore, in connection with the subject matter of this Agreement, Saint Francis agrees to cooperate with Johnson and to provide reasonable assistance to Johnson so that Johnson will be able to meet the requirements for participation and payment associated with such

third party payment programs. Saint Francis agrees to make available to Johnson such information and records as Johnson may reasonably request to: (i) substantiate its costs under this Agreement and all Clinical Services Sub-Agreements; and (ii) facilitate Johnson's compliance with the requirements of the Medicare Conditions of Participation and the Medicaid State Plan and to facilitate Johnson's substantiation of its reasonable cost or other claims for reimbursement in accordance with the requirements applicable to Johnson pursuant to such third party payor programs.

7.4 Governmental Access to Books, Documents and Records. To the extent that the provisions of Section 1861(v)(1)(1) of the Social Security Act (42 U.S.C. § 1395x(v)(1)(1)) are applicable to this Agreement and any Clinical Services Sub-Agreement, both parties agree to make available, on the written request of the Secretary of the Department of Health and Human Services or on the request of the Comptroller General, or any of their duly authorized representatives, this Agreement, all applicable Clinical Services Sub-Agreements, and other books, records and documents that are necessary to certify the nature and extent of costs incurred by either party for services furnished under this Agreement. The obligations hereunder shall extend for four (4) years after the furnishing of such services. The parties shall notify each other of any such request for records. To the extent Saint Francis enters into an agreement with a subcontractor or with a related organization to provide services hereunder with a value or cost of ten thousand dollars ($10,000) or more over a twelve (12) month period, such agreement shall contain a clause permitting access by the Secretary, Comptroller General, and their representatives to the books and records of the related organization and requiring such obligation to extend for four (4) years after the furnishing of such services.

In the event any request for Saint Francis's books, documents, or records is made pursuant to this Section, Saint Francis shall, unless prohibited by law or by the reasonable advice of Saint Francis's counsel (i) give notice of such request to Johnson; (ii) provide Johnson with a copy of such request; and (iii) upon Johnson's written request and at Johnson's expense (with respect to which Saint Francis shall cooperate to use its best efforts to minimize), provide Johnson with a copy of each book, document, and record made available to the persons or agencies listed in the foregoing paragraph, or identify each such book, document, and record to Johnson and grant Johnson access thereto for review and copying. In the event any request for Johnson's books, documents, or records is made pursuant to this Section, Johnson shall, unless prohibited by law or by the reasonable advice of Johnson's counsel (i) give notice of such request to Saint Francis; (ii) provide Saint Francis with a copy of such request; and (iii) upon Saint Francis's written request and at Saint Francis's expense (with respect to which Johnson shall cooperate to use its best efforts to minimize), provide Saint Francis with a copy of each book, document, and record made available to the persons or agencies listed in the foregoing paragraph, or identify each such book, document, and record to Saint Francis and grant Saint Francis access thereto for review and copying. This Section 7.4 shall survive the expiration or termination of this Agreement.

7.5 Ownership. The ownership and right of control of all reports, records, and supporting documents prepared by Saint Francis in provision of the Scheduled Services hereunder (except for reports of Saint Francis prepared solely for Saint Francis's internal

purposes) shall vest exclusively in Johnson, provided, however, that Saint Francis may retain copies of such reports, records, and supporting documents to the extent permitted by law.

8. Insurance.

8.1 Saint Francis. In connection with the provision of the Scheduled Services hereunder, Saint Francis shall, at its own expense, establish and maintain general liability insurance coverage and professional liability insurance coverage in the amounts of $1,000,000 per occurrence and $3,000,000 in aggregate, covering Saint Francis and covering the Saint Francis Personnel providing any Scheduled Services. Johnson shall be identified as an additional insured under such coverage. Such insurance shall require thirty (30) days' prior written notice to Johnson in the event of termination, cancellation, or a material change in such coverage. Upon request, Saint Francis shall furnish Johnson with proof of such insurance coverage.

8.2 Johnson. Johnson shall obtain and maintain, at its own expense, general liability insurance coverage and professional liability insurance coverage, in the amounts of $1,000,000 per occurrence and $3,000,000 in aggregate, covering Johnson and all Johnson employees. Saint Francis shall be named as an additional insured of such policies. Such insurance shall require thirty (30) days' prior written notice to Saint Francis in the event of termination, cancellation, or a material change in any such policy. Upon request, Johnson shall furnish Saint Francis with evidence of each such insurance policy and any amendment or renewal thereof.

9. Indemnification.

9.1 Indemnification of Johnson. Saint Francis agrees that, to the extent not covered by the insurance required to be maintained under this Agreement, it will defend, indemnify, and hold harmless Johnson, and Johnson's trustees, directors, officers, employees, and agents from and against any and all claims, actions, suits, proceedings, liabilities, losses, demands, judgments, and expenses (including court costs and reasonable attorneys' fees) arising out of the negligent acts or omissions or intentional misconduct of Saint Francis or Saint Francis Personnel in performing its or their obligations under this Agreement or any Clinical Services Sub-Agreement.

9.2 Indemnification of Saint Francis. Johnson agrees that, to the extent not covered by the insurance required to be maintained under this Agreement, it will defend, indemnify, and hold harmless Saint Francis, and Saint Francis's trustees, directors, officers, employees, and agents from and against any and all claims, actions, suits, proceedings, liabilities, losses, demands, judgments, and expenses (including court costs and reasonable attorneys' fees) arising out of the negligent acts or omissions or intentional misconduct of Johnson or Johnson Personnel in performing its or their obligations under this Agreement or any Clinical Services Sub-Agreement.

9.3 Notification of Claim. In the event of any claim for indemnification under this Section 9, the indemnified party shall notify the indemnifying party in writing of any fact or circumstance which gives rise to liability for which the indemnified party is indemnified hereunder with reasonable promptness after such fact or circumstance first comes to the attention

of the indemnified party; provided, however, the failure to give such notice shall not relieve the indemnifying party of its indemnification obligations unless, and only to the extent that, the failure to give such notice actually prejudices the rights of the indemnifying party.

9.4 Defense of Claims. If a claim is based upon a demand, claim, or action brought by a third party, the indemnifying party shall defend such demand, claim, or action at its expense with counsel of its choice reasonably acceptable to the indemnified party. The indemnifying party shall not have the right to compromise or settle such claim without the consent of the indemnified party (which consent will not be unreasonably withheld, delayed, or denied) unless such compromise or settlement includes a full release of the indemnified party from liability for the claim. The indemnified party may participate in any such matter at its expense and with counsel of its choice. The indemnified party will cooperate with the indemnifying party in all reasonable ways in the defense of any such action and shall give the indemnifying party access to such relevant files and records for inspection and copying, and make its employees available to the indemnifying party at the expense of the indemnifying party in the defense of any action for which the indemnified party is being indemnified hereunder.

9.5 Survival of Rights. The obligations under this Section 9 shall survive the expiration or termination of this Agreement.

10. Dispute Resolution.

10.1 Mediation by the Parties. Any deadlock, dispute, or controversy arising out of or relating to this Agreement, a Clinical Services Sub-Agreement, or the breach thereof shall first be referred to the Chief Executive Officer of Saint Francis and the Chief Executive Officer of JMMC, who shall exert their good faith efforts to achieve a resolution. If any such dispute is not resolved by such group within thirty (30) days after notice thereof (or such longer period as the parties may then agree) (the "**Voluntary Resolution Period**"), then any party to such dispute may submit, within thirty (30) days after the end of the Voluntary Resolution Period, the dispute or controversy to arbitration pursuant to Section 10.2.

10.2 Arbitration. Any deadlock, dispute, or controversy arising out of or relating to this Agreement, a Clinical Services Sub-Agreement, or the breach thereof and not resolved under Section 10.1 shall be resolved by arbitration pursuant to binding arbitration in Connecticut under the auspices of the American Health Lawyers Association ("**AHLA**") pursuant to the AHLA Alternative Dispute Resolution Service Rules of Procedure for Arbitration, before a single arbitrator with experience in the arbitration of disputes of a similar nature. The arbitrator shall have authority to award compensatory damages only and equitable relief only as permitted under this Agreement or state law. The arbitrator shall have no authority to award consequential damages, punitive damages or multiple damages. Each party will be responsible for its own legal fees and other expenses incurred in connection with such arbitration proceeding, except that the costs of the arbitrator shall be borne equally by the parties that are involved in the dispute (i.e., Saint Francis shall bear one-half and the Johnson party(ies) shall bear one-half). The decision of the arbitrator shall be final and binding upon the parties, and judgment confirming the arbitrator's award may be enforced in any court of competent jurisdiction. The parties hereby exclude any right of appeal to any court on the merits of the dispute.

10.3 Equitable Relief. The foregoing provisions for mediation and arbitration shall not prevent a party from applying for and obtaining injunctive or other equitable relief as provided elsewhere in this Agreement or by showing that, in the absence thereof, the rights of such party cannot be adequately protected.

11. Term and Termination of Agreement.

11.1 Term. This Agreement shall be for a term of five (5) years commencing on the Effective Date set forth above (the "**Term**"), unless terminated earlier in accordance with the terms of Section 11 or other applicable provisions of this Agreement. Thereafter, this Agreement may be renewed upon the mutual written agreement of the parties (a "**Renewal Term**"). Any Clinical Services Sub-Agreement entered into by the parties shall be effective from the Start Date (as defined in the sub-agreement) for the Scheduled Services set forth in the Clinical Services Sub-Agreement through the end of the Term of this Agreement, unless the Clinical Services Sub-Agreement is terminated earlier in accordance with its terms or the provisions for termination set forth in this Agreement. The foregoing not withstanding, no Clinical Sub-Agreement shall have a stated initial term of less than one (1) year. This Agreement or any Clinical Services Sub-Agreement shall not be renewed on the same financial terms and conditions without the parties first re-assessing the fair market value of the Scheduled Services at the time of any renewal.

11.2 Termination.

11.2.1 Termination by Agreement. Subject to Section 11.2.7, below, this Agreement or any Clinical Services Sub-Agreement may be terminated by written agreement of the parties.

11.2.2 Termination on Notice for Default. Subject to Section 11.2.7, below, a party may terminate this Agreement or any Clinical Services Sub-Agreement upon one hundred twenty (120) days prior written notice to the other party upon a material breach hereof, which breach has not been cured to the reasonable satisfaction of the notifying party within such one hundred twenty (120) day period. Although other circumstances may also constitute a material breach of this Agreement, Johnson's failure to pay by the Due Date (i) the Scheduled Services Fees for three (3) or more Clinical Services Sub-Agreements and/or (ii) at least ninety per cent (90%) of all Scheduled Services Fees due shall constitute a material breach of this Agreement.

11.2.3 Immediate Termination.

(a) By Johnson. Notwithstanding anything herein to the contrary, Johnson may terminate this Agreement or any Clinical Services Sub-Agreement immediately upon written notice to Saint Francis (i) if Saint Francis fails to maintain the insurance required hereunder; (ii) if Saint Francis loses or has suspended its license or other authority to perform its obligations hereunder; or (iii) in the event that Saint Francis Care, SFH or SFMG is (A) convicted of a criminal offense related to health care and/or related to the provision of services

paid for by Medicare, Medicaid, or another federal health care program; (B) excluded from or debarred from participation in any federal health care program, including Medicare or Medicaid; or (C) becomes listed as a party excluded from any federal health care program on the General Services Administration's excluded party listing system; provided, however, if any Saint Francis Personnel providing the Scheduled Services is convicted, excluded, or debarred as described above and Saint Francis immediately replaces such Saint Francis Personnel with other qualified Saint Francis Personnel reasonably acceptable to Johnson, this Agreement, or the applicable Clinical Services Sub-Agreement, may not be terminated pursuant to this Section.

(b) By Saint Francis. Notwithstanding anything herein to the contrary, Saint Francis may terminate this Agreement or any Clinical Services Sub-Agreement immediately upon written notice to Johnson (i) if any of the Johnson entities fails to maintain the insurance required hereunder; (ii) if any of the Johnson entities loses or has suspended its license or other authority to perform its obligations hereunder; (iii) in the event that JMMC, JMH, JEC or JPA is (A) convicted of a criminal offense related to health care and/or related to the provision of services paid for by Medicare, Medicaid, or another federal health care program; (B) excluded from or debarred from participation in any federal health care program, including Medicare or Medicaid; or (C) becomes listed as a party excluded from any federal health care program on the General Services Administration's excluded party listing system; or (iv) as set forth in Section 13.5.

11.2.4 Termination due to Changes in Laws and Regulations. Subject to Section 11.2.7, a party may terminate this Agreement or any Clinical Services Sub-Agreement in accordance with the provisions of Section 12.5.

11.2.5 Termination of a Clinical Services Sub-Agreement without Cause. Either Johnson or Saint Francis may terminate any specific Clinical Services Sub-Agreement, without terminating this Agreement in its entirety, at any time, without cause or reason, by providing at least one hundred and eighty (180) days written notice to the other party, unless more or less notice is otherwise required or provided for in the applicable Clinical Services Sub-Agreement.

11.2.6 Termination of Exclusivity Period. In the event the Exclusivity Period established by and defined in the Master Affiliation Agreement terminates for any reason, then this Agreement and all of the Clinical Sub-Agreements shall also terminate on the date that is one hundred and eighty (180) days after the date that the Exclusivity Period terminated (or a lesser or longer number of days if mutually agreed to by the parties in writing) (the "**Wind-up Period**"). During the Wind-up Period, the parties to this Agreement and any Clinical Services Sub-Agreement shall work together cooperatively to provide for an orderly transition of any Scheduled Services provided to Johnson under this Agreement and the Clinical Services Sub-Agreements. Notwithstanding the foregoing, the parties acknowledge that even if the Exclusivity Period terminates, the parties may desire to keep in place some or all of the Clinical Services Sub-Agreements. Therefore, within fifteen (15) days of the date of termination of the Exclusivity Period, Johnson shall provide written notice to Saint Francis of which, if any, Clinical Services Sub-Agreements Johnson desires to remain effective, and if Saint Francis agrees to continue to provide some or all of such Scheduled Services, then the parties shall work together in good faith to amend in writing this Agreement and the applicable Clinical Services Sub-Agreement(s) to

reflect the revised term for such continued agreements and any other amendment(s) that may be necessary or appropriate to implement the continuation of such agreements. If any Clinical Services Sub-Agreement is not amended to continue the term thereof, then such Clinical Services Sub-Agreement shall be terminated effective on the last day of the Wind-up Period.

11.2.7 Limit on Re-Negotiation. In the event of termination of this Agreement for any reason, or the termination of a Clinical Services Sub-Agreement, the parties agree that they shall not enter into a new, amended, or re-negotiated agreement concerning the same subject matter and containing revised pricing or compensation terms for a twelve (12) month period from the date of such termination.

11.3 Effects of Termination.

11.3.1 Termination of this Agreement shall result in automatic termination of all of the Clinical Services Sub-Agreements, subject to the same notice period, unless otherwise agreed to in writing by the parties. Termination of a specific Clinical Services Sub-Agreement shall apply only to such sub-agreement and shall not be deemed to terminate this Agreement or any other Clinical Services Sub-Agreement between the parties.

11.3.2 Upon termination of this Agreement as herein above provided, a party shall not have any further obligation hereunder except for: (i) obligations accruing prior to the date of termination; and (ii) obligations, promises, or covenants contained herein which are expressly made to extend beyond the term of this Agreement. Upon termination of a Clinical Services Sub-Agreement, without a termination of this Agreement in its entirety, as provided herein or in the Clinical Services Sub-Agreement, a party shall not have any further obligation under such Clinical Services Sub-Agreement except for: (i) obligations accruing prior to the date of termination, including the payment of the Scheduled Services Fee through the date of termination; and (ii) obligations, promises, or covenants contained therein or in this Agreement which are expressly made to extend beyond the termination of the Clinical Services Sub-Agreement.

12. General Compliance.

12.1 Exclusion.

12.1.1 Saint Francis Representations and Warranties. Saint Francis represents and warrants that neither Saint Francis Care, SFH, SFMG nor any of the Saint Francis Personnel providing the Scheduled Services has ever been (i) convicted of a criminal offense related to health care and/or related to the provision of services paid for by Medicare, Medicaid, or another federal health care program; (ii) excluded or debarred from participation in any federal health care program, including Medicare or Medicaid; or (iii) otherwise sanctioned by the federal government, including being listed on the General Services Administration's Excluded Party Listing System.

12.1.2 Notification by Saint Francis. Saint Francis shall notify Johnson immediately in the event that any representation contained in 12.1.1 above is or becomes untrue at any time during the Term of this Agreement.

12.1.3 Johnson Representations and Warranties. JMMC represents and warrants that neither it nor JMH, JEC and JPA has ever been (i) convicted of a criminal offense related to health care and/or related to the provision of services paid for by Medicare, Medicaid, or another federal health care program; (ii) excluded or debarred from participation in any federal health care program, including Medicare or Medicaid; or (iii) otherwise sanctioned by the federal government, including being listed on the General Services Administration's Excluded Party Listing System.

12.1.4 Notification by Johnson. Johnson shall notify Saint Francis immediately in the event that any representation contained in 12.1.3 above is or becomes untrue at any time during the Term of the Agreement.

12.2 False Claims. Saint Francis acknowledges on behalf of itself and the Service Provider and all of the Saint Francis Personnel that Johnson has provided it and them with access to its policy on False Claims and Payment Fraud Prevention (the "**Policy**"). The parties acknowledge that the False Claims Act (31 U.S.C. § 3729 et seq.) imposes penalties for knowingly submitting a false claim or statement to a federally funded program, or otherwise conspiring to defraud the government, in order to receive payment. It also protects individuals who report suspected fraud. Any suspected fraud will be reported as provided in the Policy.

12.3 No Intent to Induce Referrals. It is not the intent of the parties that any payments made pursuant to this Agreement or any Clinical Services Sub-Agreement be in return for the referral of business, if any, or in return for the purchasing, leasing, or ordering of any services other than the specific Scheduled Services described in this Agreement and the Clinical Services Sub-Agreements. All payments specified in the Clinical Services Sub-Agreements shall be consistent with what the parties reasonably believe to be a fair market value for the Scheduled Services provided. The parties acknowledge that the clinical affiliation contemplated by this Agreement does not require and is not conditioned in any way on any party, or its affiliates, referring patients to any other party, or its affiliates, and each party and its affiliates shall remain permitted to refer patients to any other entities or healthcare facilities.

12.4 Compliance with Law. The parties shall comport their conduct in implementing this Agreement and the Clinical Services Sub-Agreements to comply at all times with all provisions of applicable law, including, without limitation, the Connecticut General Statutes and Public Health Code, the Medicare Conditions of Participation and other regulations promulgated by the United States Department of Health and Human Services and the Centers for Medicare and Medicaid Services, 42 U.S.C. § 1320-a-7b, 42 U.S.C. § 1395nn, and federal and state antitrust laws, including Sections 1 and 2 of the Sherman Act and Section 7 of the Clayton Act, as each may be amended from time to time (the "**Laws and Regulations**").

12.5 Changes in Laws and Regulations. Notwithstanding any other provisions of this Agreement, if: (i) a party at any time determines upon the reasonable advice from counsel that any provision of this Agreement, or a Clinical Services Sub-Agreement, does or may violate applicable Laws and Regulations then in effect or to become effective as of a date certain; (ii) the governmental agencies (or their representatives) that administer Medicare or Medicaid, or any other federal, state, or local government or agency, should pass, issue, or promulgate any law, rule, regulation, standard, or interpretation at any time while this Agreement, or a Clinical Services Sub-Agreement, is in effect that materially and adversely affects any party's rights or

obligations thereunder; or (iii) any court or agency of any federal, state, or local government issues an order, decree, opinion, or ruling or takes any other action that will materially and adversely affect, restrict, or prohibit the ability of a party to perform its obligations under this Agreement, or a Clinical Services Sub-Agreement; then the parties shall negotiate in good faith an appropriate modification to the terms and conditions of this Agreement, or the Clinical Services Sub-Agreement, to accommodate such provisions of applicable Laws and Regulations or judicial or administrative decisions and to effectuate the existing terms and intent of this Agreement, or the Clinical Services Sub-Agreement, to the greatest possible extent consistent with the requirements of such law or decision. Should the parties fail to reach agreement as to such modification of this Agreement, or the Clinical Services Sub-Agreement, within ninety (90) days, then any party may terminate this Agreement, or the applicable Clinical Services Sub-Agreement, on ten (10) days' prior written notice.

12.6 Cooperation with Compliance Audits. Without limiting the foregoing, this Agreement shall not limit any rights or obligations of any party in respect of compliance audits or other similar activities conducted by or on behalf of such party in relation to such party's own operations and activities, and each party agrees to reasonably cooperate with the other parties in connection with any compliance audit, investigation, or other similar activity conducted by or on behalf of each party in relation to such party's own operations and activities. Each party shall be responsible for the costs of any audit, investigation, or similar activity conducted with respect to such party's activities.

12.7 Complaint or Investigation.

12.7.1 Notification of Complaint or Investigation. To the extent permitted by law, Johnson shall immediately notify Saint Francis of any of the following (collectively, "**Complaint and Investigation Proceedings**"): (i) a complaint by a patient or a patient's representative about Saint Francis's or Saint Francis Personnel's performance of its/his/her duties hereunder, or under a Clinical Services Sub-Agreement, or the provision of the Scheduled Services; or (ii) any inquiry, investigation, or other proceeding concerning or relating to Saint Francis, this Agreement, any Clinical Services Sub-Agreement, the Scheduled Services, or billing, payment, or collection for the Scheduled Services instituted by or in any federal or state court or before any agency, commission, regulatory body, or governmental authority, whether federal, state, or local, including, but not limited to, CMS, the Office of Inspector General of the United States Department of Health and Human Services, and Connecticut's Medicaid Fraud Control Unit, or by a third-party payor.

12.7.2 Consultation. To the extent permitted by law, Johnson shall provide Saint Francis a draft of any response or filing it plans to submit regarding Complaint and Investigation Proceedings reasonably in advance of Johnson's submission to allow Saint Francis the opportunity to comment; provided, however, that Johnson shall not be required to make any disclosure to Saint Francis that would, in the reasonable opinion of Johnson's legal counsel, vitiate a material legal privilege. Johnson shall consider Saint Francis's comments, if any, in formulating Johnson's response.

12.7.3 Right to Participate and Respond. To the extent permitted by law, Saint Francis shall have the right, on its own account and at its sole discretion, to respond to and participate in any and all Complaint and Investigation Proceedings. Johnson agrees not to object or otherwise oppose Saint Francis's participation in Complaint and Investigation Proceedings.

12.7.4 Survival. This Section 12.7 shall survive the expiration or termination of this Agreement.

13. Applicability of Ethical and Religious Directives for Catholic Health Care Services.

13.1 Directives Apply to Saint Francis. Saint Francis is organized and operates under the sponsorship of the Roman Catholic Church, and conducts its activities in accordance with the Ethical and Religious Directives for Catholic Health Care Services ("**Directives**") as adopted by the United States Conference of Catholic Bishops, and as the same may be amended from time to time. The Directives are applicable to Saint Francis as a Catholic health care institution in relation to its own operations, activities, and administration, and to the manner in which Saint Francis may collaborate or cooperate with Johnson and the Johnson entities as non-Catholic institutions.

13.2 Saint Francis Activities. Saint Francis (i) will not participate with Johnson in any obstetrical, gynecological, or reproductive procedures, programs, or activities, or in any family planning or other activity, that does not conform with the Directives, and (ii) will conduct its own activities, and will only provide services to Johnson, so that Saint Francis conforms with the Directives, and so as to avoid any perception by others that Saint Francis has compromised its moral principles by participating in acts that do not conform with the Directives.

13.3 No Saint Francis Participation in Non-conforming Activities. Nothing contained in this Agreement, or any Clinical Services Sub-Agreement, shall require or be deemed to require Saint Francis to participate with Johnson in any obstetrical, gynecological, or reproductive procedures, programs, or activities, or in any family planning or other activity, that does not conform with the Directives, or otherwise act in any manner that Saint Francis, in its sole discretion, believes could cause Saint Francis to violate the Directives, or would create any perception by others that Saint Francis has compromised its moral principles by participating in acts that do not conform with the Directives.

13.4 Joint Activities. Saint Francis's activities in relation to Johnson always will ensure that any services provided by Saint Francis, and any joint activities among Saint Francis and Johnson, do not entail involvement by Saint Francis with any obstetrical, gynecological, or reproductive procedures, programs, or activities, or with any family planning or other activities, that do not conform with the Directives. Accordingly, none of Saint Francis's personnel will be involved in any family planning, obstetrical, gynecological, or reproductive procedures, programs, or activities, or any other procedures, programs, or activities of, by, or on behalf of Johnson that do not conform with the Directives, Saint Francis shall not have joint or shared responsibility for any such activities, and Saint Francis shall not share or have involvement with any governance, financial, administrative, or support functions related to any such activities.

13.5 Termination by Saint Francis. In the event that Saint Francis, at any time in its sole discretion, believes that any services provided by Saint Francis, or any joint activities between Saint Francis and Johnson pursuant to this Agreement, or any Clinical Services Sub-Agreement, or any activities of Johnson, whether pursuant to the provisions of this Agreement, a Clinical Services Sub-Agreement, or otherwise, could cause Saint Francis to violate the Directives, or would lead others to perceive that Saint Francis has compromised its moral

principles by participating in acts that do not conform with the Directives, then Saint Francis will, at its option and in its sole discretion, terminate this Agreement, the Clinical Services Sub-Agreement, and/or Saint Francis's participation in such services or activities.

14. Security/Confidentiality.

14.1 Compliance with Policies. Saint Francis shall, and shall ensure that each Saint Francis Provider and all of the Saint Francis Personnel, comply with all Johnson's policies and procedures pertaining to confidentiality, security, and vendor identification. Johnson may issue non-employee identification badges under certain conditions, and Saint Francis agrees that all Saint Francis Personnel shall prominently display such badge at all times while on Johnson premises and providing Scheduled Services hereunder. All badges must be surrendered by Saint Francis Personnel when requested by Johnson.

14.2 Confidential Information. Saint Francis Care covenants and agrees on behalf of itself, SFH and SFMG, any other Saint Francis Service Provider and all Saint Francis Personnel, that each shall retain in confidence all Confidential Information and know-how transmitted to it by Johnson that Johnson has identified prior to disclosure or in a Clinical Services Sub-Agreement as being proprietary and/or confidential or that, by the nature of the circumstances surrounding disclosure or the nature of the information disclosed, ought in good faith to be treated as proprietary or confidential and will make no use of such Confidential Information and know-how except under the terms of and during the existence of this Agreement. JMMC covenants and agrees on behalf of itself, JMH, JEC and JPA and the Johnson Personnel that each shall retain in confidence all Confidential Information and know-how transmitted to it by Saint Francis that Saint Francis has identified prior to disclosure or in a Clinical Services Sub-Agreement as being proprietary and/or confidential or that, by the nature of the circumstances surrounding disclosure or the nature of the information disclosed, ought in good faith to be treated as proprietary or confidential and will make no use of such Confidential Information and know-how except under the terms of and during the existence of this Agreement. Confidential Information ("**Confidential Information**") shall include, by way of example and not limitation, any and all information regarding finances, practices, employees, management, strategic plans or marketing, know-how and business processes. Confidential Information shall not include information which (i) at the time of disclosure was, is, or thereafter becomes disclosed or available to or known by the public (other than as a result of a disclosure in violation of any of obligations hereunder); (ii) was, is, or thereafter becomes available on a non-confidential basis from a source that is not and was not prohibited from disclosing such information by a contractual, legal, or fiduciary obligation; or (iii) has been or thereafter becomes independently acquired or developed without access to any of the Confidential Information provided by the other party. A party shall exercise the same level of care to prevent the impermissible use or disclosure of the other parties' Confidential Information in its custody or control that it exercises in protecting its own information of a similar nature, and, in any event, no less than commercially reasonable efforts. Notwithstanding anything herein to the contrary, solely to the extent necessary to carry out obligations hereunder or legal obligations of the party, a party shall have the right to disclose Confidential Information to any of such party's attorneys, accountants, consultants, and other third parties retained by the party (collectively, "**Consultants**") so long as the Consultant is bound by confidentiality obligations at least as strict as those set forth herein, and with each party liable for any violation of this Section 14.2 by any of its Consultants. In the

event that a party or any of its Consultants is requested or becomes legally compelled to make any disclosure which is prohibited or otherwise constrained by this Agreement, that party shall provide the party whose Confidential Information is sought with prompt notice of such request(s) so that the party whose Confidential Information is sought may seek an appropriate protective order or other appropriate remedy and/or waive compliance with the provisions of this Agreement. In the event that such protective order or other remedy is not obtained, or a waiver is granted, the party or its Consultant to whom the demand was directed shall disclose only that portion of the Confidential Information which it is legally compelled to disclose and shall use reasonable efforts to obtain reliable assurance that confidential treatment will be accorded any Confidential Information disclosed. The provisions of this Section shall survive termination of this Agreement.

14.3 Compliance with Confidentiality Laws. Each party shall maintain all patient-related information to which it has access in performing services under this Agreement or any Clinical Services Sub-Agreement, including but not limited to protected health information ("**PHI**"), as that term is defined under the Health Insurance Portability and Accountability Act of 1996, as amended, and the regulations promulgated thereunder ("**HIPAA**"), in confidence in accordance with all applicable laws and regulations. The parties also acknowledge that in connection with the performance of some of the provisions of this Agreement or the Clinical Services Sub-Agreements, Saint Francis, the Service Provider and Saint Francis Personnel may have access to and receive confidential patient information, including but not limited to PHI, and may act as a Business Associate (as defined in HIPAA) of Johnson. Saint Francis agrees to follow, and shall ensure that the Service Providers and the Saint Francis Personnel follow, all rules, regulations, policies and procedures established by Johnson with respect to the protection of the privacy and confidentiality of patient medical information under applicable law, including but not limited to HIPAA. Without limiting the foregoing, Saint Francis represents and warrants on behalf of itself and each Service Provider and all Saint Francis Personnel that each Service Provider and all Saint Francis Personnel has been trained in and will comply with the confidentiality and disclosure requirements of applicable law and regulations, including but not limited to HIPAA. If the parties have not already executed a Business Associate Agreement regarding the matters herein, contemporaneous with the execution of this Agreement, Saint Francis and Johnson and their respective affiliates identified thereon shall execute the Business Associate Agreement attached hereto and incorporated herein as Schedule C.

14.4 Injunctive Relief. Unauthorized use of Confidential Information is a material breach of this Agreement resulting in irreparable harm for which the payment of money damages is inadequate. It is agreed that the non-breaching party, upon adequate proof of unauthorized use, may immediately obtain, without need of posting any bond or other security, injunctive relief in any court of competent jurisdiction enjoining any continuing or further breaches and may obtain entry of judgment for injunctive relief. Nothing in this Agreement shall be construed to limit remedies at law or equity in the event of a breach.

15. Intellectual Property. Saint Francis shall retain all rights, titles, and interests in its intellectual property used in performing under this Agreement or a Clinical Services Sub-Agreement, including, but not limited to, any research, information, procedure, invention, modification, discovery, design, drawing, plan, system, method, specification, publication, development, improvement, process, formula, data, technique, know-how, or trade secret, or any

interest therein (whether or not patentable or registrable under patent, copyright or similar statutes or subject to analogous protection) in any application that relates to its performance under this Agreement or a Clinical Services Sub-Agreement. Johnson shall retain all rights, titles, and interests in its intellectual property used in performing under this Agreement or a Clinical Services Sub-Agreement, including, but not limited to, any research, information, procedure, invention, modification, discovery, design, drawing, plan, system, method, specification, publication, development, improvement, process, formula, data, technique, know-how, or trade secret, or any interest therein (whether or not patentable or registrable under patent, copyright or similar statutes or subject to analogous protection) in any application that relates to its performance under this Agreement or a Clinical Services Sub-Agreement. Notwithstanding the foregoing, except as may be set forth in a Clinical Services Sub-Agreement (which terms and provisions shall survive the termination or expiration of this Agreement and the Clinical Sub-Agreement), nothing in this Section 15, Section 14.2 or any other provision of this Agreement, shall prohibit Johnson from utilizing the information, techniques, procedures, know-how and methods developed and used by Saint Francis and the Saint Francis Personnel to operate, administer and provide the Scheduled Services under any Clinical Services Sub-Agreement for the benefit of Johnson or its affiliates after the termination or expiration of this Agreement or any Clinical Services Sub-Agreement.

16. Steering Committee. The parties shall establish a Joint Steering Committee (the "**Committee**") to assist in the implementation of the clinical affiliation and collaboration contemplated by this Agreement and to develop and implement the Clinical Services Sub-Agreements contemplated hereby. The duties of the Committee shall include: (i) identifying potential opportunities for clinical collaboration (which shall include the Clinical Need Areas), with the goal of expanding the healthcare services available, and enhancing the quality and efficiency and reducing the costs of the clinical services provided by Johnson and Saint Francis; (ii) recommending specific goals and developing appropriate performance standards, criteria, and mechanisms to implement the clinical collaboration, expansion of the healthcare services available, and enhancement of the quality and efficiency and reduction of the costs of the clinical services provided; (iii) identifying potential impediments to collaboration and making recommendations to remove or ameliorate such impediments; (iv) establishing appropriate mechanisms to collect and analyze relevant data in order to monitor and evaluate the effectiveness of the affiliation and collaboration; (v) establishing educational programming to improve the performance of the clinical affiliation and collaboration efforts; and (vi) such other duties as agreed by the parties. The Committee shall initially be composed of eight (8) members and may be expanded by agreement of the parties or at the discretion of the Committee. Johnson and Saint Francis shall each designate four (4) representatives to the Committee, one of whom shall be the Liaison appointed by each party and may include members of their respective medical staffs. Johnson and Saint Francis agree that each will appoint and make known to the other a liaison through whom operational details and issues relating to the Scheduled Services and implementation of this Agreement may be communicated, arranged, and resolved (the "**Liaison**"). Johnson and Saint Francis may change their representatives or Liaison at any time by written notice to the other. Saint Francis's Vice President/Chief Affiliation Integration Officer shall be one of Saint Francis's four representatives to the Committee and shall also serve as chairperson of the Committee. The Committee shall establish a regular meeting schedule and shall meet at least monthly unless otherwise agreed by the parties. The

parties agree to provide such support and assistance as the Committee requires to fulfill its duties.

17. Miscellaneous.

17.1 Cooperation. The parties agree to cooperate with each other in good faith to effectuate the arrangements contemplated by this Agreement, including, but not limited to, obtaining all regulatory approvals, if any, required to implement the contemplated arrangements.

17.2 Notices. Any notice, demand or communication required, permitted or desired to be given hereunder shall be in writing and shall be deemed effectively given when personally delivered, when received by overnight courier, or five (5) calendar days after being deposited in the United States mail by prepaid certified mail, return receipt requested, addressed as follows:

Notwithstanding the foregoing, the parties acknowledge that even if the Exclusivity Period terminates pursuant to subsection (a) above, the parties may desire to keep in place some or all of the Clinical Sub-Agreements. Therefore, within fifteen (15) days of the date of termination of the Exclusivity Periodpursuant to subsection (a) above, Johnson shall provide written notice to Saint Francis of which, if any, Clinical Sub-Agreements Johnson desires to remain effective, and if Saint Francis agrees to continue to provide some or all of such Scheduled Services, then the parties shall work together in good faith to amend in writing this Agreement and the applicable Clinical Sub-Agreement(s) to reflect the revised term for such continued agreements and any other amendment(s) that may be necessary or appropriate to implement the continuation of such agreements. If any Clinical Sub-Agreement is not amended to continue the term thereof, then such Clinical Sub-Agreement shall be terminated effective on the last day of the Wind-up Period."

(v) Limit any request, use, or disclosure of PHI to the minimum necessary to accomplish the purpose of the request, use, or disclosure and to comply with any guidance issued by the Secretary as to what constitutes "minimum necessary."

RECITALS

WHEREAS, Provider is an affiliate of a duly licensed acute care general hospital which provides occupational health services to its employees and to its clients and their employees in the community; and

WHEREAS, Manager is in the business of providing management, administrative, marketing, sales, billing and accounting services to occupational health programs; and

WHEREAS, Provider desires to secure, and Manager desires to provide to Provider, such management, administrative, marketing, sales, billing and accounting services; and

WHEREAS, Provider and Manager anticipate that the execution by Provider and Manager of this Agreement will enable the parties to better serve the community by making occupational health services more available, efficient and effective;

NOW, THEREFORE, in consideration of the mutual covenants and conditions contained herein, the parties agree as follows:

1. RESPONSIBILITIES OF PROVIDER

1.1 Sole Responsibility for All Medical and Professional Matters. All medical, professional and ethical matters relating to the operations of the occupational health program and the performance of services for clients and patients of Provider shall be the sole responsibility of Provider. Provider expressly acknowledges that the medical services provided by Provider shall be conducted solely by physicians or allied health professionals under the supervision of physicians associated with Provider.

1.2 Physicians, Allied Health Professionals and Support Staff. Provider shall consult with Manager with respect to, but Provider shall have complete control of and responsibility for, the hiring, engagement, compensation, supervision, evaluation, and termination of all physicians, allied health professionals and support staff including nurses and other medical and office personnel related to the provision of occupational health services. Provider shall only employ and contract with licensed health care practitioners meeting applicable credentialing guidelines established by Provider to provide occupational health services. Provider shall be responsible for the payment of salaries and wages, compensation, payroll taxes, employee

benefits, and all other taxes and charges now or hereafter applicable to employed or contracted physicians, allied health professionals and support staff. Provider shall use its best efforts to consult with Manager and shall utilize the services of Manager during negotiations with regard to the terms of contracts entered into between Provider and employed or contracted physicians, allied health professionals or support staff related to the provision of occupational health services and the terms and conditions of their employment or engagement as independent contractors, as applicable.

1.3 Compliance with Law. Provider shall require all of its employed and contracted physicians, allied health professionals and support staff providing occupational health services to comply with all laws, regulations, and ethical and professional standards applicable to the practice of medicine and occupational health. Physicians providing medical services through Provider shall at all times be licensed to practice medicine in the State of Connecticut.

1.4 Practice Sites; Hours of Operation; Staffing. Provider shall conduct its occupational health services from the locations set forth in Exhibit 1.4 (the "**Practice Sites**"). Any additional or substitute Practice Sites with respect to which the parties agree to extend Manager's duties under this Agreement shall be reflected in an amendment to Exhibit 1.4. Provider shall establish, with advice from Manager, the hours of operation at the Practice Sites.

1.5 Quality Assurance. Provider, under the direction of Manager, shall develop, maintain and administer quality assurance programs and performance standards, shall monitor utilization and quality of services provided by physicians and allied health professionals and shall take all steps necessary to remedy any and all deficiencies in the efficiency or the quality of services and medical care provided.

1.6 Professional Insurance Eligibility. Provider shall obtain and retain professional liability insurance at its cost for its physicians and allied health professionals who provide occupational health services.

2. RESPONSIBILITIES OF MANAGER

2.1 General Responsibility. Manager shall have general responsibility for providing fiscal services, management information services, sales and marketing and other strategic and tactical support services related to the provision of occupational health services to Provider. Manager shall perform all required functions in accordance with sound management techniques. Notwithstanding Manager's general and specific rights and responsibilities set forth in this Agreement, Provider shall have full authority and control with respect to all medical, professional and ethical determinations over Provider's occupational health services to the extent required by federal, state and city law and regulation. Manager shall not engage in activities which constitute the practice of medicine under applicable law. Manager shall neither exercise control over nor interfere with the professional patient relationships, which shall be maintained strictly between the physicians and allied health professionals and their patients.

2.2 Recordkeeping. Manager shall provide the administrative support necessary for Provider to maintain patient medical records in accordance with applicable laws concerning their confidentiality and retention. Notwithstanding the foregoing sentence, patient medical records shall be and shall remain the property of Provider, and the content thereof shall be solely the responsibility of Provider. Manager shall provide access to an electronic medical record system customized to support Provider's occupational medicine practice when Manager makes such system available to other providers.

2.3 Quality Assurance. Manager shall provide direction to Provider in the development and implementation of appropriate quality assurance programs including development of performance and utilization standards, sampling techniques for case review, and preparation of appropriately documented studies. Notwithstanding the foregoing, Manager shall not perform any duties that constitute the corporate practice of medicine. If requested by Provider, Manager may periodically arrange for an independent quality assurance and utilization review to be performed by a person who is unrelated to Provider or Manager, who has expertise in such areas, and who has been approved by Provider. Such review shall include a random sampling of medical records (consistent with laws regarding the confidentiality of medical records), an analysis of Provider's quality assurance and utilization review procedures, and an analysis of the appropriateness of costs associated with operating Provider's occupational health program.

2.4 Responsibilities with Regard to Selected Financial Matters.

(a) Fees, Charges and Payor Agreements. Manager shall advise, after consultation with Provider, as to fees, charges, premiums, or other amounts due in connection with Provider's delivery of occupational health services to clients and patients at the Practice Sites. Manager shall give advice as to how to keep such fees, charges, premiums, or other amounts, regardless of whether determined on a fee-for-service, capitated, prepaid, or other basis, reasonable and consistent with the fees, charges, premiums, and other amounts due to health care providers for similar services within the community under a same or similar type of reimbursement program. Manager shall maintain for Provider a schedule of fees for all of Provider's services (the **"Fee Schedule"),** along with a schedule of all agreements between Provider and payers or their agents for the provision of occupational health care services (the **"Payor Schedule"**). The responsibility for the determination of fees shall be Provider's. Therefore, Manager shall consult with Provider regarding, and shall provide Provider with adequate prior written notice of any changes implemented on its behalf in the Fee Schedule or Payor Schedule, or of any changes in the agreements with payers identified in the Payor Schedule and such changes shall not be effective unless and until the Provider approves the same.

(b) Confidentiality of Price and Cost Information. Provider and Manager acknowledge and agree that they will not share fee, price or cost related information with any other Member of Manager, or any of their affiliates and that such information which necessarily comes to the knowledge of Manager shall be used by the officers of Manager only in the negotiation of contracts with third parties and shall not be discussed at meetings of the Board of Directors of Manager or by the Members of Manager and shall not be used to coordinate prices or costs among the Members of Manager or any of their affiliates.

(c) Billing. Manager shall submit on a timely basis all bills and necessary documentation required by clients, patients and payers in order to obtain payment in connection with Provider's delivery of health care services at the Practice Sites or its arrangement for the delivery of such services. In seeking such payment, Manager shall act as Provider's agent in billing and collecting professional fees, charges, premiums, or other amounts owed to Provider. In such billing, Manager shall indicate on its billhead that it is billing in the name of Provider and shall only bill under Provider's provider number. In this connection, Provider hereby appoints Manager, during the term of this Agreement, as Provider's true and lawful attorney-in-fact, with power of substitution, for the following purposes relating to Provider:

(i) To bill Provider's clients, patients and payers on Provider's behalf.

(ii) To collect accounts receivable generated by such billings on Provider's behalf, including, where deemed appropriate by Manager, settling and compromising claims within parameters established by Provider, assigning such accounts receivable to a collection agency or the bringing of legal action against a client, patient or payor on Provider's behalf.

(iii) To receive all cash, notes, checks, money orders, payor payments, and any other instruments, received as payment for accounts receivables on behalf of Provider from patients and payers. After receipt of such payments, Manager shall endorse in the name of Provider and deposit all such payments directly into a depository account in the name of, and controlled by Provider, with a banking institution selected by Manager and approved by Provider, such approval not to be unreasonably withheld, and shall apply such payments in accordance with the terms of this Agreement.

(iv) To write checks against or otherwise withdraw funds deposited in Provider's bank account or those purposes, and only for those purposes, described in this Agreement. Except as otherwise provided herein, in no event shall Manager commingle funds of Provider with its own funds or utilize Provider's funds or other assets for the benefit of Manager or any of its directors, officers, employees or agents.

(d) Reporting. Manager shall present to Provider reports on the financial condition of Provider and such other reports that Provider may reasonably request. Manager also shall provide such reports as may be required by any regulatory agency having jurisdiction over the operations of Provider.

2.5 Responsibilities for Financial Planning and Goals.

(a) Preparation of Budget. Manager shall provide assistance to Provider in the preparation of an annual capital and operating budget for Provider, reflecting in reasonable detail the anticipated revenues and expenses and sources and uses of capital for growth of the occupational health services rendered at the Practice Sites (the "**Provider Budget**"). Manager shall recommend the amount and form of capital to be invested in the Provider, in its expansion

and in the development of new services, all of which shall be appropriately reflected in the Provider Budget. Manager shall conduct onsite assessments of Provider at least annually to identify opportunities for expense reduction and revenue production. Manager shall collaborate in the development of a downstream referral tracking mechanism that tabulates referrals from Provider to hospitals and other providers.

(b) Expansion of the Practice. Manager shall assist Provider in its efforts to expand the occupational health services by the addition of new practitioners through recruitment, or through the merger with or acquisition of other occupational health services, as may be economically justified.

(c) Development of New Services. Manager will recommend the addition of new or supplemental occupational health services.

(d) Coding Audits. Manager shall conduct documentation and coding audits at least annually and provide targeted education to Provider based on audit results.

2.6 Responsibilities with Respect to Selected Operational Matters.

(1) Data Processing. Manager shall provide, operate, supervise and direct the development of appropriate and efficient electronic data processing systems with respect to Provider's operation of the Practice Sites.

(2) Operational Policies. Manager shall assist Provider in the development and preparation of policies, procedures, and manuals for the Practice Sites.

(3) Personnel. Manager shall provide administrative assistance in the recruitment, hiring, and training of physicians, allied health professionals and all support staff employed by Provider at the Practice Sites to provide occupational health services.

(4) Third Party Agreements. Manager shall negotiate and administer all third party payor agreements on behalf of Provider and shall consult with Provider on all professional and clinical matters relating thereto. Notwithstanding the foregoing, the power to enter into or terminate such agreements is retained by Provider except where the Manager is acting under an express delegation of authority in this regard.

2.7 Sales and Marketing Responsibilities.

(a) Marketing. Manager shall provide all services reasonably necessary for marketing Provider's occupational health services at the Practice Sites, as agreed to by the Provider, and shall submit any marketing programs for prior review, revision and approval by Provider. Such marketing shall comply with applicable laws and regulations governing the use of advertising by the medical profession and with applicable standards of medical ethics.

(b) Education. Manager may make recommendations and assist in developing client

and patient education materials and programs. Prior to instituting any such programs, Manager shall obtain the approval of Provider.

(c) Sales. Manager shall develop a sales strategy for use by Provider and shall make recommendations to Provider for the development of new business. Manager shall provide training for Provider's sales force and shall provide standard sales and marketing software to allow Provider to track its sales experience.

3. FINANCIAL ARRANGEMENTS

3.1 Management Fee. Inconsideration for the Manager Services furnished by Manager to Provider pursuant to this Agreement, Provider shall pay Manager a management fee (the "**Management Fee**") as set forth in Exhibit 3.1, attached hereto and made a part hereof. The Management Fee shall be paid quarterly on the first day of July, October, January and April during the term of this Agreement.

4. TERM AND TERMINATION

4.1 Term. This Agreement shall commence on the Effective Date, as defined above, and shall continue in effect for a term of five (5) years (the "**Initial Term**"), unless sooner terminated pursuant to this Section 4.1 or Section 4.3 hereof. Thereafter, this Agreement shall automatically continue in effect for additional terms of two (2) years each unless otherwise terminated pursuant to this Section 4.1 or Section 4.3 hereof. Notwithstanding the foregoing, however, either party may terminate this Agreement with or without cause with six (6) months prior written notice and this Agreement shall terminate upon the dissolution of Manager or the disassociation of Provider as a Member of Manager.

4.2 Events of Default. Each of the following shall constitute an "Event of Default" (the party causing such default is referred to as the "Breaching Party"):

(a) The Breaching Party fails to make any payment required under this Agreement.

(b) The Breaching Party makes any general assignment for the benefit of creditors, or seeks to avail itself of any law for the release of insolvent debtors.

(c) Insolvency, bankruptcy, dissolution, liquidation, or receivership proceedings are commenced by or with the consent of the Breaching Party, or are pending for more than sixty (60) days against the Breaching Party.

(d) The Breaching Party fails to observe or otherwise breaches any material term, condition, covenant, or warranty of this Agreement.

4.3 Termination. Subject to the provisions of this Section 4.3, the non-Breaching Party may terminate this Agreement upon the occurrence of an Event of Default in accordance

with the following:

(a) In the event of the occurrence of an Event of Default referred to in Section 4.2(a) above, upon the expiration of thirty (30) days after written notice, which notice shall specify such Event of Default to Breaching Party, unless the amount due is paid within such thirty (30) days.

(b) In the event of the occurrence of any other Event of Default as set forth in Section 4.2 hereof, upon the expiration of ninety (90) days after written notice, which notice shall specify the nature and extent of such Event of Default to the Breaching Party. However, in the case of a remediable Event of Default, the Breaching Party shall have the opportunity to remedy such Event of Default within such ninety (90) days.

4.4 Duties upon Termination or Expiration of This Agreement. If this Agreement is terminated upon expiration of its term, or earlier as provided in Section 4.3 or Section 8.11:

(a) Neither party shall be released or discharged from any obligation, debt or liability which has previously accrued or been incurred and remains to be performed upon the date of termination or expiration;

(b) Any sums of money owing by one party to the other shall be paid immediately; including without limitation, any amounts owed by Provider pursuant to Section 3.1 herein;

(c) Each party shall return to the other parties all originals and copies of the Confidential Information of any other party which are in the possession of such party or any other person or entity to whom it has delivered such originals and copies; and

(d) Damages and any other remedies available at law or in equity may be sought and collected from the Breaching Party in the event of a termination resulting from an Event of Default.

5. RESTRICTIVE COVENANTS

5.1 Confidentiality. Manager and Provider acknowledge that they will have access to Confidential Information as defined in Section 5.2 hereof. Manager and Provider therefore agree (a) that they will hold the Confidential Information provided to them in strictest confidence and that they will not divulge, furnish, publish or use for their benefit or for the direct or indirect benefit of any other person, whether or not for monetary gain, any Confidential Information of the other party; and (b) that they will not disclose the Confidential Information provided to them to any other person, except (i) accountants, agents, attorneys, directors and employees of the parties who need to know the disclosed Confidential Information to evaluate transactions between the

parties or (ii) other parties to the extent such disclosure is in furtherance of potential transactions proposed by Manager or Provider.

5.2 Confidential Information. For purposes of this Agreement, the term "Confidential Information" shall mean (a) all nonpublic or proprietary information concerning the Manager and the Provider, and (b) all information disclosed by any party to the other parties which is marked as "confidential" or, if such information is disclosed orally, is followed within a reasonable time by a writing indicating that such orally disclosed information is confidential. Confidential Information shall not include information that (i) is or becomes part of the public domain through no act or omission attributable to the receiving party, (ii) is released after prior written authorization by the disclosing party or (iii) is required by law to be disclosed; provided that, if disclosure is required by law, the receiving party shall provide the disclosing party with prompt notice of such requirements so that the disclosing party may seek an appropriate protective order.

6. INFORMATION AND RECORDS

6.1 Ownership of Records. At all times during and after the term of this Agreement, including any extensions or renewals hereof, all business records, including but not limited to, business agreements, books of account, general administrative records and all information generated under or contained in the management information system pertaining to Manager's obligations hereunder, except for patient medical records and Provider's Records (as defined in Section 6.2 below), shall be and remain the sole property of Manager; provided, however, that, after termination of this Agreement, Manager shall preserve such records for at least six (6) years and Provider shall be entitled to access to such records and information for any reasonable purpose, to include the right to obtain copies thereof.

6.2 Provider's Business and Financial Records. At all times during and after the term of this Agreement, the financial, corporate, personnel and patient records and information relating exclusively to the business and activities of Provider, as distinguished from the business and activities of Manager (**"Provider's Records"**), shall be and shall remain the sole property of Provider.

6.3 Access to Records. Each party shall be entitled, upon request and with reasonable advance notice, to obtain access to all records of the other party directly related to the performance of such party's obligations pursuant to this Agreement; provided, however, that the confidentiality of such records shall be preserved and such right shall not allow for access to records where such access is not legally available. Either party, at its sole expense, shall have the right to make copies of any records to which it has access pursuant to this Section 6.3.

6.4 Limitations on Use of Management Information System. Provider shall use all software and hardware provided or arranged for by Manager pursuant to this Agreement in

accordance with and subject to the terms and conditions of any license, sublicense, lease, or other agreement applicable thereto, and shall not allow or permit any person to use the software or hardware or any portion thereof in violation of any such license, sublicense, lease, or other agreement.

7. RIGHT OF FIRST REFUSAL

7.1 Right of Manager. In the event Provider, during the term of this Agreement, intends to sell, transfer or otherwise dispose of its occupational health business, in whole or in part, to any person or entity other than (a) to an Affiliate of Provider, (b) as part of a sale, transfer or disposition of all or substantially all of the assets of Provider, or (c) for purposes related to the development of strategic affiliations, Provider shall give written notice thereof (the "Notice of Intended Disposition") to Manager, which notice shall specify the asking price and terms of such contemplated sale, transfer or disposition. If, in response to Provider's marketing or listing of the occupational health business, Provider receives a Bona Fide Offer (as defined below) for the purchase of such business, and Provider desires to accept such offer, Provider shall give written notice thereof (the "Notice of Bona Fide Offer") to Manager. Manager may then make a written offer to purchase the occupational health business at a purchase price equal to or greater than the price and upon the terms set forth in the Bona Fide Offer, provided that Manager exercises such option by written notice thereof to Provider on or before the later of (a) the tenth (10th) business day following its receipt of the Notice of Bona Fide Offer or (b) the tenth (10th) business day following its receipt of the Notice of Intended Disposition.

7.2 Unsolicited Third Party Offer. In the event that at any time during the term hereof Provider shall receive from any person an unsolicited Bona Fide Offer to purchase the occupational health business of Provider, in whole or in part, and Provider shall desire to sell such business pursuant to such Bona Fide Offer, Provider shall give Notice of Bona Fide Offer to Manager together with a copy of such Bona Fide Offer. Upon Manager's receipt of such notice, Manager may then make a written offer to purchase the occupational health business at a purchase price equal to or greater than the price and upon the terms set forth in the Bona Fide Offer, provided that Manager exercises such option by written notice thereof to Provider within ten (10) days after receipt of the Notice of Bona Fide Offer.

7.3 Bona Fide Offer. For Purposes of this Agreement, a "Bona Fide Offer" shall mean an offer in writing setting forth all relevant terms and conditions of the proposed purchase from an offeror who is not an affiliate of Provider who is ready, willing and able to consummate the purchase of the Provider's occupational health business, in whole or in part. "Affiliate" of Provider shall mean an entity directly or indirectly controlled, controlled by, or under common control with Provider.

8. MISCELLANEOUS

8.1 Independent Contractor Status of Parties. In the performance of the work, duties, and obligations under this Agreement, it is mutually understood and agreed that each party is at all times acting and performing as an independent contractor with respect to the other and that no relationship of partnership, joint venture, or employment is created by this Agreement. Neither party, nor any other person performing services on behalf of such party pursuant to this Agreement, shall have any right or claim against the other party for Social Security benefits, workers' compensation benefits, disability benefits, unemployment insurance benefits, health benefits, vacation pay, sick leave, or any other employee benefits of any kind.

8.2 No Waiver. The waiver by any party to this Agreement of any breach of any term or condition of this Agreement shall not constitute a waiver of subsequent breaches. No waiver by any party of any provision of this Agreement shall be deemed to constitute a waiver of any other provision.

8.3 Notices. If, at any time after the execution of this Agreement, it shall become necessary or convenient for one of the parties to serve any notice, demand, or communication upon the other party, such notice, demand, or communication shall be in writing and shall be served personally, by facsimile transmission with voice confirmation and receipt confirmed, by overnight courier which provides confirmation of delivery, or by depositing the same in the United States mail, registered or certified, return receipt requested, postage prepaid, and the notice shall be addressed as follows:

If to Provider:

or to such other address as either party may have furnished to the other party in writing as the place for the service of notice. Any notice so mailed shall be deemed to have been given three (3) days after the same has been deposited in the United States mail; any notice given personally, by facsimile or by overnight courier shall be deemed to have been given upon receipt of the notice.

8.4 Assignment. Neither party may sell, transfer, assign, or otherwise convey its rights or obligations under this Agreement except to an entity directly controlling, controlled by or under the common control of such party.

8.5 Successors and Assigns. Subject to the provisions of this Agreement respecting assignment, the terms, covenants, and conditions contained herein shall be binding upon and inure to the benefit of the successors and permitted assigns of the parties hereto.

8.6 Severability. Nothing contained in this Agreement shall be construed to require

the commission of an act contrary to law, and whenever there is any conflict between any provision of this Agreement and any statute, law, ordinance, or regulation, the latter shall prevail. In such event, and in any case in which any provision of this Agreement is determined to be in violation of a statute, law, ordinance, or regulation, the affected provision(s) shall be limited only to the extent necessary to bring it or them within the requirements of the law and, insofar as possible under the circumstances, to carry out the purposes of this Agreement. The other provisions of this Agreement shall remain in full force and effect, and the invalidity or unenforceability of any provision hereof shall not affect the validity and enforceability of the other provisions of this Agreement, nor the availability of all remedies in law or equity to the parties with respect to such other provisions.

8.7 Third Parties. Nothing in this Agreement shall be construed to create any duty to, any standard of care with reference to, or any liability to anyone not a party to this Agreement.

8.8 Headings. The headings used in this Agreement are for convenience of reference only and shall have no force or effect in the construction or interpretation of the provisions of this Agreement.

8.9 Governing Law. This Agreement shall be interpreted in accordance with and governed by the laws of the State of Connecticut, to the jurisdiction of which each of the parties hereby submits. The parties acknowledge that Manager is not authorized or qualified to engage in any activity which may be construed or deemed to constitute the practice of medicine. To the extent any act or service required of Manager in this Agreement should be construed or deemed, by any governmental authority, agency, or court to constitute the practice of medicine, the performance of said or service by Manager shall be deemed waived and forever unenforceable.

8.10 Confidentiality. Neither party shall disclose this Agreement or the terms thereof to a third party, except as provided herein or as otherwise required by law, without the prior written consent of the other party.

8.11 Contract Modifications for Prospective Legal Events. In the event any state or federal laws or regulations, now existing or enacted or promulgated after the Effective Date of this Agreement, are interpreted by judicial decision, a regulatory agency, or legal counsel of either party in such a manner as to indicate that the structure of this Agreement may be in violation of such laws or regulations, Provider and Manager shall amend this Agreement to the maximum extent possible to preserve the underlying economic and financial arrangements between Provider and Manager. If an amendment is not possible, either party shall have the right to terminate this Agreement.

8.12 Language Construction. The language in all parts of this Agreement shall be construed in all cases according to its fair meaning, and not for or against either party hereto. The parties acknowledge that each party and its counsel have reviewed and revised this Agreement and that the normal rule of construction to the effect that any ambiguities are to be resolved against the drafting party shall not be employed in the interpretation of this Agreement.

8.13 Communications. Provider and Manager agree that good communication between the parties is essential to the successful performance of this Agreement, and each therefore pledges to communicate fully and clearly with the other on matters relating to the successful operation of Provider's occupational health program.

8.14 Indemnification. To the extent not otherwise inconsistent with the laws of the

State of Connecticut, Provider shall indemnify, hold harmless, and defend Manager, its officers, directors, members, employees, agents, and independent contractors from and against any and all liabilities, losses, damages, claims, causes of action, and expenses (including reasonable attorneys' fees and disbursements), whether or not covered by insurance, caused or asserted to have been caused, directly or indirectly, by or as a result of the performance of any negligent or willful acts or omissions by Provider and/or its partners, agents, employees and independent contractors (other than Manager) pursuant to the terms of this Agreement. To the extent not otherwise inconsistent with the laws of the State of Connecticut, Manager shall indemnify, hold harmless, and defend Provider, its officers, directors, members, employees, agents, and independent contractors from and against any and all liabilities, losses, damages, claims, causes of action, and expenses (including reasonable attorneys' fees and disbursements), whether or not covered by insurance, caused or asserted to have been caused, directly or indirectly, by or as a result of the performance of any negligent or willful acts or omissions by Manager and/or its Members, agents, employees, directors and officers and/or subcontractors pursuant to the terms of this Agreement.

8.15 Entire Agreement. This Agreement constitutes the entire agreement between the parties with respect to the subject matter hereof, and supersedes all prior agreements, understandings, negotiations and discussion, whether written or oral, between or among the parties, regarding the subject matter of this Agreement.

8.16 Incorporation by Reference. All exhibits and other attachments to this Agreement are incorporated by reference into this Agreement by such reference.

8.17 Amendments Only in Writing. This Agreement may not be amended or modified in any respect whatsoever, except by an instrument in writing, signed by the parties hereto.

8.18 Counterparts. This Agreement may be executed in one or more counterparts, each of which shall be considered an original, and all of which shall constitute one and the same Agreement. This Agreement shall not become effective until it has been executed by all of the parties hereto.

8.19 Commercial Impracticability. No party to this Agreement shall be liable for any failure to perform its obligations hereunder where such failure results from any cause beyond that party's reasonable control, including, for example, an act of God, labor disturbance such as a strike or walkout, war, riot, fire, storm, accident, government regulation or interference, or mechanical, electronic, or communications failure.

8.20 Election of Remedies. The respective rights of the parties to this Agreement shall be cumulative. Each party shall have all other rights and remedies not inconsistent with this Agreement as law and equity may provide. No exercise by any party of any one right or remedy shall be deemed to be an exclusive election of rights or remedies.

8.21 Arbitration Provision. The parties shall meet and confer in good faith to attempt to resolve any dispute arising under this Agreement. Any dispute between the parties that cannot be resolved by the parties shall be determined by binding arbitration in Connecticut in accordance with the rules of the American Health Lawyers Association and judgment on the award rendered may be entered in any court having jurisdiction thereof. Each party shall bear its own costs of arbitration, or, when applicable, litigation.

8.22 Survival. The provisions of Articles 5 and 6 shall survive any termination of this Agreement.

IN WITNESS WHEREOF, Manager and Provider have caused this Agreement to be executed by their duly authorized respective officers as of the Effective Date.

18. Establishing JMMC Board meeting agendas and overseeing preparation of reports to the JMMC Board regarding Johnson's activities and developments in the health care industry.

The parties acknowledge that in recognition of Johnson's needs, immediate and otherwise, and the interim nature of the Executive's appointment, not all of these duties and responsibilities will be given equal priority.

B. REPORTING; SUPERVISION AND EVALUATION OF EXECUTIVE'S PERFORMANCE; LIMITATION OF ST. FRANCIS CARE RESPOSIBILITIES. The Executive will report directly to the JMMC Board of Directors, which will be solely responsible for supervising and directing the Executive's performance of the Scheduled Services. The JMMC Board will establish the Executive's goals in providing the Scheduled Services, and will monitor, direct and evaluate his or her performance on a regular basis. While Saint Francis *Care*'s Chief Operating Officer and other members of Saint Francis's management and operational team will be available to provide support to the Executive, Saint Francis *Care* is not assuming any responsibility or duty to oversee or direct the Executive in the performance of the Scheduled Services, or to manage JMMC or its affiliates in any way. Saint Francis *Care* is not representing or warranting any particular outcome of the performance of the Scheduled Services.

C. FORUM FOR EXECUTIVE GRIEVANCE. Notwithstanding the foregoing, if the Executive notifies Saint Francis *Care* that, in the Executive's professional judgment, the JMMC Board is not providing sufficient support or oversight to enable the Executive to fulfill the established goals or provide the Scheduled Services in an appropriate manner, and Saint Francis *Care* determines that the Executive has a reasonable basis for the objection, then Saint Francis *Care* will notify the JMMC Board of the objection. Within fifteen (15) days of JMMC's receipt of the notice, the parties will schedule a meeting attended by: the Executive; the Chair of the JMMC Board; two JMMC trustees who are not appointed by Saint Francis *Care*; two JMMC trustees who are appointed by Saint Francis *Care*; and the Chief Executive Officer of Saint Francis *Care* or his or her designee. The meeting participants will endeavor diligently and in good faith to identify and address the Executive's objections in a mutually-satisfactory manner, and to set forth any action plan or other resolution in writing. If the participants are unable to resolve the Executive's objections, then such failure will constitute a technical default which will permit either Party to elect to terminate this Sub-Agreement upon 30-days' notice as provided in Section H below unless a mutually-satisfactory resolution is reached before the end of the notice period.

D. EXTENT OF EXECUTIVE'S COMMITMENT TO JMMC. The Executive will devote all of the Executive's professional time and efforts to the performance of the Scheduled Services (subject to vacation, sick and other time permitted by JMMC policies); provided, that the Executive may from time to time: (i) participate in educational, training and other skill development opportunities provided by; and (ii) consult with the senior executives of, Saint Francis *Care*. Such additional activities are designed to increase collaborative opportunities between the parties and to enhance the Executive's ability to provide the Scheduled Services, and will not materially impair the Executive's performance under this Sub-Agreement.

E. AUTHORITY OF EXECUTIVE. Subject to the oversight and direction of the JMMC Board of Directors, JMMC will provide each person who serves as the Executive hereunder with the same authority, protections and indemnities under its governing documents, policies, insurance policies or otherwise as any other person occupying the chief executive position would enjoy if employed by JMMC.

F. EMPLOYER OBLIGATIONS; SUPPORT OF EXECUTIVE. Consistent with Section 7 of the BPO Agreement, Saint Francis *Care* will remain the Executive's employer, with sole authority to hire and fire the Executive as employee of Saint Francis *Care*, and will be responsible for all employment obligations, including compensation, benefits, reporting, withholding of taxes, and workers compensation coverage. Saint Francis *Care* will support the Executive to the extent reasonably necessary to allow the Executive to perform the Scheduled Services as required by Section 2.3.1 of the BPO Agreement.

G. REPLACEMENT OF EXECUTIVE. The individual serving as the Executive will be subject to replacement as follows:

1. *For Cause.* JMMC, acting through its Board of Directors and after consultation with Saint Francis *Care*, will have the right to remove the Executive for cause upon at least thirty (30) days advance notice to Saint Francis *Care*, provided that

the circumstances giving rise to the request are not remedied within the 30-day period. For purposes of this Sub-Agreement, "cause" means:

(a) Failure of the Executive to perform the Scheduled Services as required by this Sub-Agreement and the BPO Agreement to the reasonable satisfaction of the JMMC Board of Directors;

(b) The Executive's fraud, theft, embezzlement, or other dishonest or illegal act, the Executive's negligent or willful breach of any material policy of JMMC, or the Executive's misconduct as described in Section 2.3.3 of the BPO Agreement;

(c) The Employee's conviction of, or plea of *nolo contendere* to, a felony, or to a misdemeanor likely to diminish the reputation of JMMC and/or Saint Francis *Care*; or

(d) The death or disability of the Executive.

2. *Without Cause.* Notwithstanding Section 2.3.2 of the BPO Agreement, and at any time following the initial one-year term of this Sub-Agreement, JMMC, acting through its Board of Directors and after consultation with Saint Francis *Care*, may require the replacement of the assigned Executive without cause upon no less than one hundred eighty (180) days' prior notice to Saint Francis *Care*.

3. *Identification of Replacement.* Saint Francis *Care* will ensure that any assigned Executive subject to replacement as described above will cease performing the Scheduled Services on or before the end of the applicable notice period, except in the case of death, disability or other cause which either party determines will place JMMC or its patients at immediate risk, in which case Saint Francis *Care* will remove the assigned Executive immediately. Both parties will work together diligently and in good faith to identify a satisfactory Saint Francis *Care* employee to serve as the successor Executive.

4. *Subject to Right to Terminate.* The obligation to replace an assigned Executive described above is subject to the parties' right to terminate this Sub-Agreement after its initial one-year term, as described below.

H. TERM and TERMINATION of SUB-AGREEMENT. The initial term of this Sub-Agreement is one (1) year, commencing with the Start Date (together with any renewals, the "**Term**"). Thereafter, the Sub-Agreement automatically will renew for successive one-year periods, subject to the right of either Saint Francis *Care* or JMMC to terminate this Sub-Agreement at any time after the initial one-year term by providing at least one hundred eighty (180) days' notice to the other party. Notwithstanding the foregoing or Section 11 of the BPO Agreement, (a) if Saint Francis *Care* elects not to make an "Additional Payment" under the Master Affiliation Agreement, either Saint Francis *Care* or JMMC may terminate the Sub-Agreement on not less than sixty (60) days' advance notice; (b) either party will have the right to terminate the Agreement on not less than thirty (30) days' advance notice if the other party

defaults in the performance of its obligations under the Sub-Agreement and fails to cure the default within the thirty (30) day notice period; and (c) this Sub-Agreement will terminate automatically upon the termination of the BPO Agreement.

Scheduled Services Fee and Expense Reimbursement

A. ANNUAL SERVICE FEE. For the provision of the Scheduled Services under this Sub-Agreement, JMMC will pay to Saint Francis *Care* a fee representing a fair market value calculation based on costs to Saint Francis *Care* of compensation, fringe benefits, administration fees and other appropriate related expenses for the Executive. The fee will be payable in advance in consecutive, monthly installments. Prior to the scheduled commencement of the Scheduled Services Saint Francis *Care* and JMMC will negotiate the fee in good faith for the initial one-year period of the Term, and annually thereafter until this Sub-Agreement is terminated, which fee will be set forth as Exhibit 2-A to this Sub-Agreement.

B. EXECUTIVE COMPENSATION. Saint Francis *Care* will retain the sole responsibility for establishing the Executive's base compensation, incentive compensation, and fringe benefits, in each case consistent with fair market value and in a manner designed to establish a "rebuttable presumption" of fair compensation in accordance with the Internal Revenue Service so-called excess benefit rules. Notwithstanding the foregoing, the costs of compensation and benefits to the Executive used to determine the annual services fee described above for the initial one-year Term will not exceed the compensation paid and benefits provided to David R. Morgan under his Employment Agreement with JMMC dated November 28, 2011, unless Saint Francis *Care* and JMMC agree otherwise in their discretion.

C. REIMBURSEMENT OF BUSINESS EXPENSES. In addition to the services fee described above, JMMC will be responsible for reimbursing Saint Francis *Care* for any business expenses incurred by and paid to the Executive in the performance of the Scheduled Services in accordance with Saint Francis *Care* policies in effect from time to time during the Term. Saint Francis *Care* will invoice JMMC monthly in arrears for such expense reimbursements unless the parties otherwise agree in writing.

D. RECRUITMENT COSTS. If Saint Francis *Care* does not employ an individual satisfactory to JMMC to serve as the Executive and thus must recruit an employee for the position, then JMMC agrees to reimburse Saint Francis *Care* for the reasonable expenses of such recruitment, including but not limited to recruitment fees, travel expenses, and signing bonuses; subject to the requirement that the total fees paid by JMMC for the Scheduled Services not exceed fair market value.

Additional Sub-Agreement Terms

The following provisions of this Sub-Agreement constitute a revision, replacement or supplement of the Master Terms as they pertain to this Sub-Agreement:

B. EXHIBIT 3. The provisions of Exhibit 3 of this Sub-Agreement constitute a modification to Sections 2.3.1 and 2.3.2 of the BPO Agreement.

C. EXCLUSIVE REMEDY. Notwithstanding Section 6.9 of the BPO Agreement, the parties agree that except for matters covered by the indemnification under Section 10.1 of the BPO Agreement and the injunctive relief available under Section 6.8 of the BPO Agreement, the sole remedy available to JMMC for the failure of the Executive to properly perform the Scheduled Services is the replacement of the Executive in accordance with Section F of Exhibit 1, and for a breach of this Sub-Agreement by Saint Francis *Care* is the termination of the Sub-Agreement under Section G of Exhibit 1.

D. INDEMNIFICATION OF ST. FRANCIS CARE. JMMC acknowledges that, under Section B of Exhibit 1 of this Sub-Agreement, it is solely responsible for supervising and directing the Executive's performance of the Scheduled Services. Therefore, in addition to the indemnification set forth in Section 10.2 of the BPO Agreement, JMMC agrees that, to the extent no covered by the insurance required to be maintained under the BPO Agreement, it will defend, indemnify, and hold harmless Saint Francis *Care*, and Saint Francis *Care*'s trustees, directors, officers, employees (including the Executive), and agents from and against any and all claims, actions, suits, proceedings, liabilities, losses, demands, judgments, and expenses (including court costs and reasonable attorneys' fees) which any of the indemnified parties may incur as a result of or arising out of the performance of the Scheduled Services in accordance with the direction and supervision of JMMC. This indemnification will survive the termination of this Sub-Agreement.

RECITALS

WHEREAS, The Accelecare Wound Centers, Inc. (the "Company") and the Hospital are parties to that certain Wound Care and Disease Management Agreement, dated June 22, 2011 (the "Wound Care Agreement") whereby the Company has agreed to provide hyperbaric oxygen ("HBO") therapy and wound care treatment and services, including, but not limited to, debridements and $TCPO_2$ (the "Services") for the Hospital's patients at a wound care unit on the Hospital's Enfield, Connecticut Campus (the "AWC");

WHEREAS, SFMG, owns and operates a physician medical practice and employs Edward J. White, M.D., a physician duly qualified and licensed to practice medicine in the State of Connecticut; and

WHEREAS, the Hospital desires to engage SFMG to provide Dr. White, or another physician similarly trained and reasonably acceptable to and agreed upon by the Hospital ("Medical Director"), to serve as a medical director skilled in the Services and the administration of an AWC; and

WHEREAS, the Hospital desires to contract with SFMG to provide the medical director services through Medical Director described in this Agreement and SFMG desires to so contract with the Hospital.

NOW, THEREFORE, in consideration of the mutual covenants and agreements of the parties herein set forth, the receipt and sufficiency of such consideration being hereby acknowledged, the parties agree as follows:

ARTICLE I - SERVICES

1.1. Engagement. The Hospital hereby engages SFMG to arrange for the Medical Director to provide the services described herein on behalf of the Hospital's AWC, and SFMG hereby accepts such engagement on the terms and conditions set forth in this Agreement. SFMG shall require the Medical Director to provide the AWC with the benefit of Medical Director's clinical and administrative expertise and experience and further require the Medical Director to perform the services customarily performed by medical directors of departments of the Hospital, as described in Section 1.2 below, and such additional or other tasks related to the general supervision of treatments being administered at the AWC as may be subsequently agreed upon by the parties hereto. SFMG shall require the Medical Director to devote his best ability and effort to ensure the proper medical quality and conduct of the AWC and its operations.

1.2 Responsibilities. SFMG shall require the Medical Director to perform the services described on Exhibit A to this Agreement, and such additional or other tasks related

to the general supervision of treatments being administered at the AWC as may be subsequently agreed upon by the parties hereto.

1.3 Records. The Hospital and Medical Director shall assure the current status of all medical and business records relating to the care and treatment of Hospital's patients in the AWC in accordance with Hospital's policies and procedures and applicable regulations of governmental agencies. SFMG will require the Medical Director to work with Hospital and Company personnel at the AWC to ensure the integrity and completeness of such records, including:

Patient care plans and medical histories;

Results of all treatments; and

Progress notes by all patient care staff and complete and legibly signed orders.

1.4 Providers Providing Services. SFMG will require the Medical Director to ensure that providers requesting to attend to Hospital patients at the AWC are in good standing on the medical staff of the Hospital and have completed the necessary training to provide and/or oversee the provision of the Services to the Hospital's patients at the AWC. Medical Director shall be required by SFMG to maintain oversight of all disciplinary actions with regard to any matter of such providers or patient care personnel as needed to assure the quality of services and conformity to Hospital and Hospital rules, regulations, medical staff by-laws, and policies and procedures, and shall participate in such matters and provide direction and oversight. SFMG acknowledges and agrees that because the AWC is a department of Hospital, Medical Director shall be required to report on a regular basis as requested by the Hospital to the individual or individuals designated by the Hospital personnel who have responsibility and oversight for the AWC and its operations. In addition, Medical Director shall be required by SFMG to participate in Hospital committee and management meetings in the same manner, to the same extent, and subject to the same authority, as other medical directors of Hospital's departments, facilities and units.

1.5 Coverage. Medical Director shall be required by SFMG to devote such amount of time as is necessary to carry out the duties and responsibilities as medical director of the AWC and to provide the services to the AWC set forth in Section 1.2 above for the benefit of the Hospital. It is anticipated that generally the amount of time required for Medical Director to adequately perform required services as medical director under this Agreement will be approximately four (4) hours per week. Should the AWC's operations materially change, the Hospital and SFMG may mutually agree to alter the expected amount of time per week Medical Director is needed to provide the medical director services contemplated in this Agreement.

1.6 Time Records. SFMG will require the Medical Director to follow AWC policies and procedures for the maintenance of complete and accurate records of time spent providing the services under this Agreement. Within ten (10) days following the end of each month, Medical Director shall deliver to the Hospital a written detailed time report, in the form substantially similar to Exhibit B attached hereto, which shall comply with all regulations and instruction issued under the Medicare, Medicaid, CHAMPUS/Tri-Care and other federal healthcare programs (together, the "Federal Healthcare Program") and shall specifically identify the time spent on administrative services by Medical Director during the month just ended. SFMG acknowledges and agrees that it is entitled to payments under this Agreement only after the foregoing time records are provided to the Hospital, and then

such compensation shall be based solely on the information contained therein, subject to the maximum monthly amounts referred to in Article IV below.

1.7 Coordination of Services. The Hospital and Medical Director, with input and guidance from Company, shall coordinate their activities in connection with the AWC, and SFMG shall inform the Hospital of any extended periods (i.e., one week or more) during which Medical Director will be unavailable to perform medical director services due to vacation, professional meetings, or other personal or professional commitments. It is understood and agreed by the parties that Medical Director will be unavailable for no more than six (6) weeks total per year. SFMG shall make arrangements for a substitute medical director ("Substitute") to perform the services required by Medical Director under this Agreement in Medical Director's place during all periods of Medical Director's unavailability; provided, however, that the Substitute meets all of the qualifications required of Medical Director hereunder, acts in accordance with all the terms and conditions of this Agreement, and the Hospital gives prior approval of the Substitute. While performing medical director services, the Substitute shall provide the services described in this Agreement, abide by the terms and provisions hereof, and shall prepare the time records describing the Substitute's activities and time spent on such activities.

ARTICLE II – TERM AND TERMINATION

2.1 Term. This Agreement shall become effective as of August 1, 2013 (the "Effective Date") and shall remain in full force and effect until July 31, 2014 unless otherwise terminated as provided in this Article II (the "Initial Term"). Following the Initial Term, this Agreement shall be renewed for an additional 1 year term (the "Renewal Term") if the parties mutually agree in writing to an extension of this Agreement. If the parties do not reach agreement on the extension of this Agreement by the expiration of the Initial Term, then this Agreement shall terminate at the end of the Initial Term, unless otherwise earlier terminated as provided in this Article II.

2.2 Termination by Agreement. If the Hospital and SFMG shall mutually agree in writing, this Agreement shall be terminated on the time and date stipulated therein.

2.3 Termination Without Cause. Either party may terminate this Agreement at any time for any reason by giving no less than ninety (90) days written notice to the other party of its intention to terminate this Agreement; provided, however, if either party terminates this Agreement pursuant to Section 2.3 at any time during the first twelve (12) months of this Agreement, then the parties acknowledge and agree that the parties will not enter into another agreement within that 12-month period unless the new agreement has the same terms as this Agreement. The purpose of this provision is to prevent the parties from terminate this Agreement without case within the first year and then entering into a new agreement with different payment terms based upon the volume or value of referrals between the parties.

2.4 Termination for Cause. The Hospital may terminate this Agreement and all rights and liabilities created by this Agreement immediately, except for those relating to Article VIII, at any time for cause including, but not limited to: (i) any suspension or revocation of Medical Director's medical licenses or authorizations or ability to prescribe drugs; (ii) if Medical Director is no longer eligible to participate in Federal Healthcare Programs; (iii) Medical Director is sanctioned or included on the List of Excluded Providers described in Section 7.1(b) below; (iv) Medical Director's commission or conviction, including plea of nolo contendere, of any felony; (v) any failure by Medical Director to perform or observe any of the terms or provisions of this Agreement; (vi) Medical Director

admitting privileges at Hospital are suspended or revoked; (vii) Medical Director for any reason is no longer a member in good standing of the medical staff of Hospital; (viii) or any breach by SFMG of any terms or provisions of this Agreement. SFMG may terminate this Agreement at any time for cause, including but not limited to, Hospital's breach of any term or provision of this Agreement.

2.5 Termination of Wound Care Agreement. The Hospital may terminate this Agreement and all rights and liabilities created by this Agreement immediately upon the effective date of the termination or expiration of the Wound Care Agreement.

2.6 Effect of Termination or Expiration. Following the expiration of this Agreement or its termination for any reason, SFMG shall not interfere with any attempt by Hospital to contract with any other individual or entity for the provision of medical director services.

ARTICLE III – ILLNESS, INCAPACITY OR DEATH OF MEDICAL DIRECTOR

3.1 Incapacity. If, at any time during the term of this Agreement, Medical Director becomes disabled or unable to perform for any reason all of the duties described herein, such disability or inability to perform his duties shall not then be in breach of this Agreement, but SFMG shall provide or arrange for a Substitute.

3.2 Disability or Inability to Perform Duties Exceeding 90 days. If any Medical Director's disability or inability to perform his duties exceeds ninety (90) calendar days in any one-year period during the term of this Agreement, then the Hospital shall have the right to terminate this Agreement upon written notice to SFMG. Upon such notification of the termination of this Agreement, both the Hospital's obligations, on the one hand, and SFMG's, on the other hand, solely as to each other under this Agreement, shall terminate, with the exception of the covenants contained in Article VIII, which shall continue in full force and effect in accordance with the terms herein.

3.3 Death. In the event of a Medical Director's death during the term of this Agreement and the party's do not agree on a Substitute, the Agreement shall terminate and the Hospital's obligations shall terminate.

ARTICLE IV – COMPENSATION

4.1 Compensation. In consideration of the services, covenants, and agreements agreed to be performed by SFMG during the term of this Agreement, the Hospital shall pay SFMG a stipend of $25,000 per year. SFMG agrees to accept payment described in this Section 4.1 as the total compensation for all services, covenants and agreements pursuant to this Agreement. SFMG shall not charge patients for services rendered as medical director of the AWC. Professional services rendered by Medical Director to patients to whom he provides Services at the AWC are not reimbursed under this Agreement. After the first twelve (12) months of this Agreement, the Hospital and SFMG agree no more frequently than annually to review and negotiate in good faith the compensation for services under this Agreement. Any change in compensation shall be prospective only and effective for at least twelve (12) months from the effective date of such change. The parties intend at all times that the compensation under this Agreement shall be consistent with fair market value compensation in arms-length transactions for the services rendered by SFMG through the Medical Director and that the compensation shall not be determined in a manner that takes in account the volume or value of any referrals made by SFMG or the Medical Director to the AWC.

ARTICLE V – STATUS OF PARTIES

5.1 Independent Contractor Status. It is mutually understood and agreed that SFMG and the Medical Director are independent contractors in the performance of the services, duties and obligations contemplated by this Agreement. Except for requiring the coverage of services called for in this Agreement, the Hospital shall not set nor shall have the right to set, the specific working hours of Medical Director. Medical Director shall not be subject to any policies or procedures applicable to the AWC or the Hospital except those required of the AWC, the Hospital for it to be in compliance with governmental laws and regulations; nor shall SFMG or Medical Director be entitled to additional employee benefits, including vacation pay, sick leave, retirement benefits, Social Security, Worker's Compensation, disability or unemployment insurance benefits that may be provided to Hospital employees. The terms of this Agreement shall take precedence over any inconsistent terms which may be found in the policies and procedures or rules and regulations, Medical Director applications, or otherwise of the AWC, Hospital or the Hospital as presently existing or amended.

5.2 No Agency. Except to comply with its responsibilities as set forth in Section 1.2 hereof, neither Medical Director or SFMG shall have the right or authority and hereby expressly covenants not to enter into a contract in the name of the Hospital or otherwise bind the Hospital, in any way, without the express written consent of the Hospital. SFMG shall hold the Hospital harmless from any loss attributable to a violation of this covenant. SFMG; however, shall direct Medical Director to advise the Hospital concerning contracts with such individuals or entities necessary for the proper and efficient functioning of the Hospital.

5.3 Access to Records. If it is ultimately determined that §952 of the Omnibus Reconciliation Act of 1980 applies to this Agreement, then until the expiration of four years after the furnishing of services provided under this Agreement, Medical Director will make available to the Secretary of the United States Department of Health and Human Services, the United States Comptroller General, and their representatives, this Agreement and all books, documents and records necessary to certify the nature and extend of the costs of those services. If SFMG carries out the duties of this Agreement through a subcontract worth $10,000 or more over a twelve-month period with a related organization, the subcontract will also contain an access clause to permit access by the Secretary, Comptroller General and their representatives to the related organization's books, documents and records.

ARTICLE VI – INSURANCE

6.1 Insurance Coverage. SFMG shall purchase and maintain professional liability insurance coverage commensurate with the levels described in Exhibit C attached hereto. Furthermore, the Hospital shall purchase and maintain general liability insurance coverage from a commercial insurance Hospital licensed to transact insurance in the state in which the AWC is located with coverage limits of One Million Dollars ($1,000,000) per claim and Three Million Dollars ($3,000,000) in the annual aggregate (the "Coverage").

ARTICLE VII – REPRESENTATIONS

7.1 Representations and Warranties. In performing services under this Agreement, SFMG covenants, represents and warrants that Medical Director:

(a) is, and for the term of this Agreement will remain, (i) fully licensed to practice medicine in the State of Connecticut, without restriction or subject to any disciplinary or corrective action, and (ii) a member in good standing of the medical staff of Hospital, with admitting privileges at Hospital, in each case without restriction or subject to any disciplinary or corrective action;

(b) is, and for the term of this Agreement will remain, eligible to participate in the Federal Healthcare Programs, and Medical Director has not been, and during the term of this Agreement will not be, sanctioned by the Health and Human Services Office of the Inspector General as set forth on the cumulative Sanctions Report, or excluded by the General Services Administration as set forth on the List of Excluded Providers (see http://oig.hhs.gov/fraud/exclusions.html and https://epls.arnet.gov;

(c) has, and for the term of this Agreement will maintain, all customary state and federal narcotics and controlled substances numbers and licenses, without restriction or subject to any disciplinary or corrective action;

(d) is not, and during term of this Agreement will not be, in breach of any other contract, obligation or covenant that would affect Medical Director's ability to perform hereunder and, as a result of entering into this Agreement, will not breach any such contract, obligation or covenant;

(e) has never had any license to practice medicine or to prescribe controlled substances in any state limited, withdrawn, suspended, subject to reprimand, curtailed, placed on probation or revoked and has never been reprimanded, sanctioned or disciplined by any licensing board or state of local medical society or specialty board;

(f) has the requisite training and experience in the care of patients receiving Services at the AWC;

(g) has never been denied membership or reappointment of membership on the medical staff of any health care facility, and no health care facility medical staff membership or clinical privileges of Medical Director have ever been limited, suspended, curtailed, revoked, including at Hospital, nor has Medical Director voluntarily relinquished such medical staff membership or clinical privileges while a charge of substandard quality of patient care was pending against Medical Director (regardless of the truth or falsity of the charge);

(h) shall be required to use his best and most diligent efforts and professional skills and judgment in rendering services under this Agreement;

(i) shall be required to perform professional services and shall render care to patients in accordance with and in a manner consistent with appropriate standards and the ethics of the medical profession and as necessary for the AWC to maintain compliance with applicable governmental laws and regulations; and

(j) has notified the Hospital of each action or claim alleging professional negligence filed or asserted against him within the previous five (5) years and a current status and/or ultimate resolution of such claim and will immediately notify the Hospital in writing of his receipt of any action, claim or lawsuit alleging professional negligence lodged against him individually or against any partnership, professional corporation or association with which he is affiliated.

7.2 Notification of Change in Representations. SFMG shall notify the Hospital immediately in writing if any of the representations made by Medical Director in Section 7.1 are no longer true and correct.

ARTICLE VIII – CONFIDENTIALITY, NON-COMPETITION AND NON-SOLICITTION COVENANT

8.1 SFMG agrees that, during the term of this Agreement and for a period of two (2) years after the termination of this Agreement, it will keep confidential and not directly divulge, or allow through reasonable care to be divulged to anyone, or use or otherwise appropriate for SFMG's own benefit or for the benefit of others, any knowledge or information of a confidential nature with respect to the Hospital's current business, the Hospital itself, or any of its affiliates, including all trade secrets, pricing information, marketing information or technical information (hereinafter referred to as the "Confidential Data"), except for (i) a disclosure that is required by law; or (ii) information that has been made generally available to the public by the act of one who has the right to disclose such information. SFMG hereby acknowledges and agrees that the prohibitions against disclosure of Confidential Data recited herein are in addition to, and not in lieu of, any rights or remedies which the Hospital may have available pursuant to the laws of any jurisdiction or at common law to prevent the disclosure of confidential information, and the enforcement by the Hospital of its rights and remedies pursuant hereto shall not be construed as a waiver of any other rights or available remedies which the Hospital may possess in law or equity. SFMG acknowledges that the Hospital has taken reasonable and appropriate steps to ensure the confidentiality and non-disclosure of all such Confidential Data.

8.2 This covenant is considered by the parties hereto to be fair, reasonable and integral for the protection of the Hospital. The parties mutually agree that if a violation of this covenant occurs, such violation or any threatened violation will cause irreparable injury to the Hospital and the remedy at law for any such violation or threatened violation will be inadequate. The parties acknowledge that these covenants will survive, and remain in effect and enforceable after, termination of this Agreement.

BUSINESS ASSOCIATE AGREEMENT

THIS BUSINESS ASSOCIATE AGREEMENT (this "Agreement") is made and effective as of August 1, 2013 (the "Effective Date"), by and between **Johnson Memorial Hospital, Inc.**, with an address of 201 Chestnut Hill Road, Stafford Springs, CT 06076("Covered Entity") and **Saint Francis Medical Group, Inc.** with an address of 114 Woodland Street, Hartford, CT 06105 ("Business Associate"), each individually a "Party" and together the "Parties."

BACKGROUND STATEMENTS

A. **Purpose.** The purpose of this Agreement is to comply with the requirements of the Health Insurance Portability and Accountability Act of 1996, as amended by Sections 13400 through 13424 of the Health Information Technology for Economic Clinical Health Act ("HITECH") (the 1996 Act as amended by HITECH is referred to herein as "HIPAA"), the associated regulations, 45 C.F.R. parts 160 and 164, as may be amended, and other guidance that may be issued by the federal Department of Health and Human Services ("HHS") (all of the above laws, rules, regulations, and guidance are collectively referred to herein as the "HIPAA Standards"). The HIPAA Standards require Covered Entity to obtain written assurances from Business Associate that Business Associate will appropriately safeguard Protected Health Information ("PHI") and protect its integrity and confidentiality.

B. Relationship. Covered Entity and Business Associate have entered into a relationship under which Business Associate may create, receive, maintain, Use, obtain, access, transmit, or otherwise hold, Use, or Disclose PHI on behalf of Covered Entity in the course of providing services in connection with **provision of Medical Director Services for Johnson's Advanced Wound Center** (collectively, the "Services").

AGREEMENT

The Parties hereby agree as follows:

Section 1. Permitted Uses and Disclosures.

1.1 General. Business Associate may Use and/or Disclose PHI only as permitted or required by this Agreement or as otherwise Required by Law. Business Associate may Disclose PHI to, and permit the Use of PHI by, its Workforce and Subcontractors only to the extent directly related to and necessary for the performance of the Services. Business Associate will request from Covered Entity no more than the minimum PHI necessary to perform the Services, which means that such requests shall only be for information contained in Limited Data Sets when practicable (unless there is superseding guidance, rules, or regulations issued by HHS regarding the Minimum Necessary requirement, in which case Business Associate agrees to abide by the terms of such guidance, rules, or regulations). Business Associate shall not Use or Disclose PHI in a manner (i) inconsistent with Covered Entity's obligations under the HIPAA Standards, (ii) that would violate the HIPAA Standards if Disclosed or Used in such a manner by Covered Entity, including, not limited to, the additional HITECH requirements relating to privacy, (iii) that is otherwise not in compliance with each applicable requirement of 45 C.F.R. § 164.504(e), or (iv) that does not comply with Connecticut state law as it applies to Covered Entity and/or Business Associate. To the extent Business Associate is to carry out an obligation of Covered Entity

under 45 C.F.R. Part 164, Subpart E (the "Privacy Rule"), Business Associate shall comply with the Privacy Rule in the performance of such obligation.

1.2 Use for Business Associate's Purposes. Business Associate may Use PHI for the proper management and administration of Business Associate or to carry out the legal responsibilities of Business Associate. Unless specifically requested in writing by Covered Entity, Business Associate shall not Use PHI to provide Data Aggregation services.

1.3 Disclosure for Business Associate's Purposes. Business Associate may Disclose PHI for the proper management and administration of Business Associate, provided the Disclosures are Required by Law, or Business Associate obtains reasonable assurances from the person to whom the PHI is Disclosed that it will remain confidential and be Used or further Disclosed only as Required by Law or for the purpose for which it was Disclosed to the person, and the person notifies Business Associate of any instances of which it is aware in which the confidentiality of the PHI has been breached.

1.4 Sale Prohibition. Business Associate shall not directly or indirectly receive any remuneration in exchange for PHI or Use or Disclose PHI for marketing or fundraising purposes.

Section 2. Safeguards for the Protection of PHI.

Business Associate shall use appropriate safeguards and comply with the applicable HIPAA Standards pertaining to Electronic Protected Health Information. This shall include compliance with 45 C.F.R. §§ 164.308 (administrative safeguards), 164.310 (physical safeguards), 164.312 (technical safeguards), 164.316 (policies and documentation), and the additional security provisions of HITECH, as each of the foregoing applies to Covered Entity. Such safeguards and compliance shall be designed to prevent Use or Disclosure of PHI other than as provided for in this Agreement.

Section 3. Reporting and Mitigating the Effect of Unauthorized Uses and Disclosures.

3.1 Notice Obligation. If Business Associate has knowledge of or discovers any Security Incident, Breach, or any other Use or Disclosure or unauthorized access of PHI not provided for by this Agreement, then Business Associate will immediately notify Covered Entity in accordance with Section 8.6. This reporting obligation to Covered Entity shall include, but is not limited to, any Breach of Unsecured Protected Health Information. Business Associate shall cooperate with Covered Entity in order to allow it to fulfill its obligations under 45 C.F.R. §§ 164.400-414, as well as fulfill its obligations therein and under any other applicable HIPAA Standards.

3.2 Timing of Notice. Such notice shall be delivered immediately, without unreasonable delay, and in no event later than sixty (60) days after Discovery of a Breach. Business Associate shall have the burden of demonstrating that all notifications were made as required by the HIPAA Standards, including evidence demonstrating the necessity of any delay.

3.3 Content of Notice. Such notice shall include, to the extent possible: (i) the identification of each Individual whose PHI has been, or is reasonably believed to have been, accessed, acquired, or improperly Disclosed; (ii) a description of what happened, including the date of the Breach; (iii) a description of any PHI subject to the Breach; (iv) recommended steps for Individuals to take to mitigate potential harm; (v) what the Business Associate is doing in response; and (vi) any other information necessary for both Business Associate and Covered Entity to comply with the HIPAA Standards.

3.4 Law Enforcement Delay. Business Associate shall comply with the terms of 45 C.F.R. § 164.412 with regard to an oral or written statement made by law enforcement regarding notification under this Section 3 in connection with a Breach of Unsecured Protected Health Information.

3.5 Mitigation. Business Associate shall take any action necessary or proper to mitigate, to the extent practicable, any adverse or harmful effect of an unauthorized Use or Disclosure, Security Incident, or Breach.

Section 4. Use and Disclosure of PHI by Subcontractors.

Business Associate will, in accordance with 45 C.F.R. § 164.502(e)(1)(ii), require that any Subcontractor that is authorized to create, receive, maintain, transmit, or otherwise hold, Use, or Disclose PHI on behalf of Business Associate agrees, in writing and in advance of access to Covered Entity's PHI, to adhere to the same restrictions and conditions regarding the Use and/or Disclosure of PHI and safeguarding of PHI that apply to Business Associate under this Agreement. Such agreement shall identify Covered Entity as a third-party beneficiary with rights of enforcement in the event of any violations, with the understanding, however, that such enforcement shall be the responsibility of Business Associate.

Section 5. Individual Rights.

Business Associate will comply with the following Individual rights requirements as applicable to PHI Used or maintained by Business Associate, as well as comply with any other additional requirements under HITECH that relate to such rights that apply to Covered Entity:

5.1 Right of Access. Business Associate agrees to provide access to PHI maintained in a Designated Record Set, at the request of Covered Entity and in a timely manner, to Covered Entity or, as directed by Covered Entity, to an Individual in order to meet the requirements under 45 C.F.R. § 164.524.

5.2 Right of Amendment. Business Associate agrees to make any amendment(s) to PHI maintained in a Designated Record Set that Covered Entity directs or agrees to pursuant to 45 C.F.R. § 164.526 at the request of Covered Entity or an Individual, and in a timely manner.

5.3 Right to Accounting of Disclosures. Business Associate agrees to document Disclosures of PHI as required for Covered Entity to respond to a request by an Individual for an accounting of Disclosures of PHI in accordance with 45 C.F.R. § 164.528 and in a timely manner. Business Associate agrees to provide the accounting to Covered Entity, unless Covered Entity requests that the accounting be provided directly to the Individual. If Business Associate maintains PHI in an Electronic Health Record, the scope of accounting under this Section 5.3 shall further comply with the requirements of Section 13405(c) of HITECH as such requirements apply to Covered Entity.

5.4 Restricted Disclosures to Health Plans. If Business Associate Discloses PHI to a Health Plan on behalf of Covered Entity for the purposes of Payment or Health Care Operations, Business Associate shall not include in any such Disclosure information regarding any item or service for which an Individual paid out of his or her own pocket and has requested that the item or service not be included in such Disclosures. Business Associate shall further ensure that any such restriction be flagged in any Designated Record Set maintained by Business Associate.

Section 6. Audit and Inspection Rights.

Business Associate will make its internal practices, books, and records relating to the Use and Disclosure of PHI received from, or created or received by Business Associate on behalf of, Covered Entity available to the Secretary for purposes of monitoring compliance with the Privacy Rule.

Section 7. Term and Termination.

7.1 Term. This Agreement will become effective on the Effective Date. Unless terminated sooner pursuant to Section 7.2, this Agreement shall remain in effect for the duration of all Services provided by Business Associate and for so long as Business Associate shall remain in possession of any PHI received from, or created or received by Business Associate on behalf of Covered Entity, unless Covered Entity has agreed in accordance with Section 7.3 that it is infeasible to return or destroy all PHI.

7.2 Termination. Covered Entity may immediately terminate this Agreement if it determines that Business Associate has breached a material term of this Agreement. Alternatively, in Covered Entity's sole discretion, it may provide Business Associate with written notice of the existence of the material breach and afford thirty (30) days to cure. In the event Business Associate fails to cure the material breach within such time period, Covered Entity may immediately terminate this Agreement.

7.3 Effect of Termination. Upon termination of this Agreement, Business Associate will gather all PHI relating to this Agreement in its possession, including any such PHI in the possession of its Workforce and Subcontractors. Business Associate will return to Covered Entity or destroy all such PHI and will retain no copies. If Business Associate believes that it is not feasible to return or destroy the PHI as described above, Business Associate shall notify Covered Entity in writing. The notification shall include: (i) a statement that Business Associate has determined that it is infeasible to return or destroy the PHI in its possession, and (ii) the specific reasons for such determination. If Covered Entity agrees in its sole discretion that Business Associate cannot feasibly return or destroy the PHI, Business Associate will ensure that any and all protections, requirements, and restrictions contained in this Agreement will be extended to any PHI retained after the termination of this Agreement, and that any further Uses and/or Disclosures will be limited to the purposes that make the return or destruction of the PHI infeasible.

Section 8. Miscellaneous.

8.1 Survival. The respective rights and obligations of the Parties under Sections 6 (Audit and Inspection Rights), 7.3 (Effect of Termination), and 8 (Miscellaneous) will survive termination of the Agreement indefinitely.

8.2 Entire Agreement; Amendments; Waiver. This Agreement constitutes the entire agreement between the Parties with respect to its subject matter and supersedes any prior business associate agreement or similar terms incorporated into any agreement. This Agreement may not be modified, nor will any provision be waived or amended, except in a writing duly signed by authorized representatives of the Parties, except in the event that HHS provides for an automatic amendment that is necessary to comply with the HIPAA Standards. A waiver with

respect to one event will not be construed as continuing, or as a bar to or waiver of any right or remedy as to subsequent events. **The Parties shall amend this Agreement from time to time as necessary to comply with the requirements of the HIPAA Standards. If either Party determines that such an amendment is necessary, the other Party shall work in good faith to incorporate the amendment as soon as possible upon receiving notice.**

8.3 Interpretation. Any ambiguity in this Agreement shall be resolved in favor of a meaning that permits Covered Entity to comply with the then-current HIPAA Standards. Unless otherwise defined in this Agreement, capitalized terms have the meanings given in the HIPAA Standards.

8.4 Compliance. Business Associate agrees to comply with the applicable HIPAA Standards, including, but not limited to, the additional requirements of HITECH that relate to privacy and security and that are made applicable with respect to covered entities. Any such HITECH requirements not expressly addressed in this Agreement are hereby incorporated by reference.

8.5 No Third Party Beneficiaries. Nothing express or implied in this Agreement is intended to confer, nor shall anything herein confer, upon any person other than the Parties and the respective successors and permitted assigns of the Parties, any rights, remedies, obligations, or liabilities whatsoever.

MEDICAL DIRECTOR AGREEMENT

THIS MEDICAL DIRECTOR AGREEMENT (the "Agreement") is made and entered into this 1st day of September, 2014 (the "effective date") by and between **Johnson Memorial Hospital, Inc.**, a Connecticut non-profit corporation with its principal place of business located at 201 Chestnut Hill Road, Stafford Springs, Connecticut 06076 (the "Hospital") and **Saint Francis Medical Group, Inc.**, a Connecticut corporation with its principal place of business located at 114 Woodland Street, Hartford, Connecticut 06105 ("SFMG").

RECITALS

WHEREAS, The Accelecare Wound Centers, Inc. (the "Company") and the Hospital are parties to that certain Wound Care and Disease Management Agreement, dated June 22, 2011 (the "Wound Care Agreement") whereby the Company has agreed to provide hyperbaric oxygen ("HBO") therapy and wound care treatment and services, including, but not limited to, debridements and $TCPO_2$ (the "Services") for the Hospital's patients at a wound care unit on the Hospital's Enfield, Connecticut Campus (the "AWC");

WHEREAS, SFMG, owns and operates a physician medical practice and employs Edward J. White, M.D., a physician duly qualified and licensed to practice medicine in the State of Connecticut; and

WHEREAS, the Hospital desires to engage SFMG to provide Dr. White, or another physician similarly trained and reasonably acceptable to and agreed upon by the Hospital ("Medical Director"), to serve as a medical director skilled in the Services and the administration of an AWC; and

WHEREAS, the Hospital desires to contract with SFMG to provide the medical director services through Medical Director described in this Agreement and SFMG desires to so contract with the Hospital.

NOW, THEREFORE, in consideration of the mutual covenants and agreements of the parties herein set forth, the receipt and sufficiency of such consideration being hereby acknowledged, the parties agree as follows:

ARTICLE I - SERVICES

1.1. Engagement. The Hospital hereby engages SFMG to arrange for the Medical Director to provide the services described herein on behalf of the Hospital's AWC, and SFMG hereby accepts such engagement on the terms and conditions set forth in this Agreement. SFMG shall require the Medical Director to provide the AWC with the benefit of Medical Director's clinical and administrative expertise and experience and further require the Medical Director to perform the services customarily performed by medical directors of departments of the Hospital, as described in Section 1.2 below, and such additional or other tasks related to the general supervision of treatments being administered at the AWC as may be subsequently agreed upon by the parties hereto. SFMG shall require the Medical Director to devote his best ability and effort to ensure the proper medical quality and conduct of the AWC and its operations.

1.2 Responsibilities. SFMG shall require the Medical Director to perform the services described on Exhibit A to this Agreement, and such additional or other tasks related

12/22/2014 12:49 FAX 0001/0021

to the general supervision of treatments being administered at the AWC as may be subsequently agreed upon by the parties hereto.

1.3 Records. The Hospital and Medical Director shall assure the current status of all medical and business records relating to the care and treatment of Hospital's patients in the AWC in accordance with Hospital's policies and procedures and applicable regulations of governmental agencies. SFMG will require the Medical Director to work with Hospital and Company personnel at the AWC to ensure the integrity and completeness of such records, including:

Patient care plans and medical histories;

Results of all treatments; and

Progress notes by all patient care staff and complete and legibly signed orders.

1.4 Providers Providing Services. SFMG will require the Medical Director to ensure that providers requesting to attend to Hospital patients at the AWC are in good standing on the medical staff of the Hospital and have completed the necessary training to provide and/or oversee the provision of the Services to the Hospital's patients at the AWC. Medical Director shall be required by SFMG to maintain oversight of all disciplinary actions with regard to any matter of such providers or patient care personnel as needed to assure the quality of services and conformity to Hospital and Hospital rules, regulations, medical staff by-laws, and policies and procedures, and shall participate in such matters and provide direction and oversight. SFMG acknowledges and agrees that because the AWC is a department of Hospital, Medical Director shall be required to report on a regular basis as requested by the Hospital to the individual or individuals designated by the Hospital personnel who have responsibility and oversight for the AWC and its operations. In addition, Medical Director shall be required by SFMG to participate in Hospital committee and management meetings in the same manner, to the same extent, and subject to the same authority, as other medical directors of Hospital's departments, facilities and units.

1.5 Coverage. Medical Director shall be required by SFMG to devote such amount of time as is necessary to carry out the duties and responsibilities as medical director of the AWC and to provide the services to the AWC set forth in Section 1.2 above for the benefit of the Hospital. It is anticipated that generally the amount of time required for Medical Director to adequately perform required services as medical director under this Agreement will be approximately four (4) hours per week. Should the AWC's operations materially change, the Hospital and SFMG may mutually agree to alter the expected amount of time per week Medical Director is needed to provide the medical director services contemplated in this Agreement.

1.6 Time Records. SFMG will require the Medical Director to follow AWC policies and procedures for the maintenance of complete and accurate records of time spent providing the services under this Agreement. Within ten (10) days following the end of each month, Medical Director shall deliver to the Hospital a written detailed time report, in the form substantially similar to Exhibit B attached hereto, which shall comply with all regulations and instruction issued under the Medicare, Medicaid, CHAMPUS/Tri-Care and other federal healthcare programs (together, the "Federal Healthcare Program") and shall specifically identify the time spent on administrative services by Medical Director during the month just ended. SFMG acknowledges and agrees that it is entitled to payments under this Agreement only after the foregoing time records are provided to the Hospital, and then

12/22/2014 12:50 FAX 0002/0021

such compensation shall be based solely on the information contained therein, subject to the maximum monthly amounts referred to in Article IV below.

1.7 Coordination of Services. The Hospital and Medical Director, with input and guidance from Company, shall coordinate their activities in connection with the AWC, and SFMG shall inform the Hospital of any extended periods (i.e., one week or more) during which Medical Director will be unavailable to perform medical director services due to vacation, professional meetings, or other personal or professional commitments. It is understood and agreed by the parties that Medical Director will be unavailable for no more than six (6) weeks total per year. SFMG shall make arrangements for a substitute medical director ("Substitute") to perform the services required by Medical Director under this Agreement in Medical Director's place during all periods of Medical Director's unavailability; provided, however, that the Substitute meets all of the qualifications required of Medical Director hereunder, acts in accordance with all the terms and conditions of this Agreement, and the Hospital gives prior approval of the Substitute. While performing medical director services, the Substitute shall provide the services described in this Agreement, abide by the terms and provisions hereof, and shall prepare the time records describing the Substitute's activities and time spent on such activities.

ARTICLE II – TERM AND TERMINATION

2.1 Term. This Agreement shall become effective as of September 1, 2014 (the "Effective Date") and shall remain in full force and effect until August 31, 2015 unless otherwise terminated as provided in this Article II (the "Initial Term"). Following the Initial Term, this Agreement shall be renewed for an additional 1 year term (the "Renewal Term") if the parties mutually agree in writing to an extension of this Agreement. If the parties do not reach agreement on the extension of this Agreement by the expiration of the Initial Term, then this Agreement shall terminate at the end of the Initial Term, unless otherwise earlier terminated as provided in this Article II.

2.2 Termination by Agreement. If the Hospital and SFMG shall mutually agree in writing, this Agreement shall be terminated on the time and date stipulated therein.

2.3 Termination Without Cause. Either party may terminate this Agreement at any time for any reason by giving no less than ninety (90) days written notice to the other party of its intention to terminate this Agreement; provided, however, if either party terminates this Agreement pursuant to Section 2.3 at any time during the first twelve (12) months of this Agreement, then the parties acknowledge and agree that the parties will not enter into another agreement within that 12-month period unless the new agreement has the same terms as this Agreement. The purpose of this provision is to prevent the parties from terminating this Agreement without cause within the first year and then entering into a new agreement with different payment terms based upon the volume or value of referrals between the parties.

2.4 Termination for Cause. The Hospital may terminate this Agreement and all rights and liabilities created by this Agreement immediately, except for those relating to Article VIII, at any time for cause including, but not limited to: (i) any suspension or revocation of Medical Director's medical licenses or authorizations or ability to prescribe drugs; (ii) if Medical Director is no longer eligible to participate in Federal Healthcare Programs; (iii) Medical Director is sanctioned or included on the List of Excluded Providers described in Section 7.1(b) below; (iv) Medical Director's commission or conviction, including plea of nolo contendere, of any felony; (v) any failure by Medical Director to perform or observe any of the terms or provisions of this Agreement; (vi) Medical Director

12/22/2014 12:50 FAX 0003/0021

admitting privileges at Hospital are suspended or revoked; (vii) Medical Director for any reason is no longer a member in good standing of the medical staff of Hospital; (viii) or any breach by SFMG of any terms or provisions of this Agreement. SFMG may terminate this Agreement at any time for cause, including but not limited to, Hospital's breach of any term or provision of this Agreement.

2.5 Termination of Wound Care Agreement. The Hospital may terminate this Agreement and all rights and liabilities created by this Agreement immediately upon the effective date of the termination or expiration of the Wound Care Agreement.

2.6 Effect of Termination or Expiration. Following the expiration of this Agreement or its termination for any reason, SFMG shall not interfere with any attempt by Hospital to contract with any other individual or entity for the provision of medical director services.

ARTICLE III – ILLNESS, INCAPACITY OR DEATH OF MEDICAL DIRECTOR

3.1 Incapacity. If, at any time during the term of this Agreement, Medical Director becomes disabled or unable to perform for any reason all of the duties described herein, such disability or inability to perform his duties shall not then be in breach of this Agreement, but SFMG shall provide or arrange for a Substitute.

3.2 Disability or Inability to Perform Duties Exceeding 90 days. If any Medical Director's disability or inability to perform his duties exceeds ninety (90) calendar days in any one-year period during the term of this Agreement, then the Hospital shall have the right to terminate this Agreement upon written notice to SFMG. Upon such notification of the termination of this Agreement, both the Hospital's obligations, on the one hand, and SFMG's, on the other hand, solely as to each other under this Agreement, shall terminate, with the exception of the covenants contained in Article VIII, which shall continue in full force and effect in accordance with the terms herein.

3.3 Death. In the event of a Medical Director's death during the term of this Agreement and the party's do not agree on a Substitute, the Agreement shall terminate and the Hospital's obligations shall terminate.

ARTICLE IV – COMPENSATION

4.1 Compensation. In consideration of the services, covenants, and agreements agreed to be performed by SFMG during the term of this Agreement, the Hospital shall pay SFMG a stipend of $25,500 per year. SFMG agrees to accept payment described in this Section 4.1 as the total compensation for all services, covenants and agreements pursuant to this Agreement. SFMG shall not charge patients for services rendered as medical director of the AWC. Professional services rendered by Medical Director to patients to whom he provides Services at the AWC are not reimbursed under this Agreement. After the first twelve (12) months of this Agreement, the Hospital and SFMG agree no more frequently than annually to review and negotiate in good faith the compensation for services under this Agreement. Any change in compensation shall be prospective only and effective for at least twelve (12) months from the effective date of such change. The parties intend at all times that the compensation under this Agreement shall be consistent with fair market value compensation in arms-length transactions for the services rendered by SFMG through the Medical Director and that the compensation shall not be determined in a manner that takes in account the volume or value of any referrals made by SFMG or the Medical Director to the AWC.

12/22/2014 12:51 FAX 0004/0021

ARTICLE V – STATUS OF PARTIES

5.1 Independent Contractor Status. It is mutually understood and agreed that SFMG and the Medical Director are independent contractors in the performance of the services, duties and obligations contemplated by this Agreement. Except as otherwise described in this Agreement, the Hospital shall not exercise any control or direction over the methods or manner by which SFMG or Medical Director performs services and functions. Except for requiring the coverage of services called for in this Agreement, the Hospital shall not set nor shall have the right to set, the specific working hours of Medical Director. Medical Director shall not be subject to any policies or procedures applicable to the AWC or the Hospital except those required of the AWC, the Hospital for it to be in compliance with governmental laws and regulations; nor shall SFMG or Medical Director be entitled to additional employee benefits, including vacation pay, sick leave, retirement benefits, Social Security, Worker's Compensation, disability or unemployment insurance benefits that may be provided to Hospital employees. The terms of this Agreement shall take precedence over any inconsistent terms which may be found in the policies and procedures or rules and regulations, Medical Director applications, or otherwise of the AWC, Hospital or the Hospital as presently existing or amended.

5.2 No Agency. Except to comply with its responsibilities as set forth in Section 1.2 hereof, neither Medical Director or SFMG shall have the right or authority and hereby expressly covenants not to enter into a contract in the name of the Hospital or otherwise bind the Hospital, in any way, without the express written consent of the Hospital. SFMG shall hold the Hospital harmless from any loss attributable to a violation of this covenant. SFMG; however, shall direct Medical Director to advise the Hospital concerning contracts with such individuals or entities necessary for the proper and efficient functioning of the Hospital.

5.3 Access to Records. If it is ultimately determined that §952 of the Omnibus Reconciliation Act of 1980 applies to this Agreement, then until the expiration of four years after the furnishing of services provided under this Agreement, Medical Director will make available to the Secretary of the United States Department of Health and Human Services, the United States Comptroller General, and their representatives, this Agreement and all books, documents and records necessary to certify the nature and extend of the costs of those services. If SFMG carries out the duties of this Agreement through a subcontract worth $10,000 or more over a twelve-month period with a related organization, the subcontract will also contain an access clause to permit access by the Secretary, Comptroller General and their representatives to the related organization's books, documents and records.

ARTICLE VI – INSURANCE

6.1 Insurance Coverage. SFMG shall purchase and maintain professional liability insurance coverage commensurate with the levels described in Exhibit C attached hereto. Furthermore, the Hospital shall purchase and maintain general liability insurance coverage from a commercial insurance Hospital licensed to transact insurance in the state in which the AWC is located with coverage limits of One Million Dollars ($1,000,000) per claim and Three Million Dollars ($3,000,000) in the annual aggregate (the "Coverage").

12/22/2014 12:51 FAX 0005/0021

ARTICLE VII – REPRESENTATIONS

7.1 Representations and Warranties. In performing services under this Agreement, SFMG covenants, represents and warrants that Medical Director:

(a) is, and for the term of this Agreement will remain, (i) fully licensed to practice medicine in the State of Connecticut, without restriction or subject to any disciplinary or corrective action, and (ii) a member in good standing of the medical staff of Hospital, with admitting privileges at Hospital, in each case without restriction or subject to any disciplinary or corrective action;

(b) is, and for the term of this Agreement will remain, eligible to participate in the Federal Healthcare Programs, and Medical Director has not been, and during the term of this Agreement will not be, sanctioned by the Health and Human Services Office of the Inspector General as set forth on the cumulative Sanctions Report, or excluded by the General Services Administration as set forth on the List of Excluded Providers (see http://oig.hhs.gov/fraud/exclusions.html and https://epls.arnet.gov;

(c) has, and for the term of this Agreement will maintain, all customary state and federal narcotics and controlled substances numbers and licenses, without restriction or subject to any disciplinary or corrective action;

(d) is not, and during term of this Agreement will not be, in breach of any other contract, obligation or covenant that would affect Medical Director's ability to perform hereunder and, as a result of entering into this Agreement, will not breach any such contract, obligation or covenant;

(e) has never had any license to practice medicine or to prescribe controlled substances in any state limited, withdrawn, suspended, subject to reprimand, curtailed, placed on probation or revoked and has never been reprimanded, sanctioned or disciplined by any licensing board or state of local medical society or specialty board;

(f) has the requisite training and experience in the care of patients receiving Services at the AWC;

(g) has never been denied membership or reappointment of membership on the medical staff of any health care facility, and no health care facility medical staff membership or clinical privileges of Medical Director have ever been limited, suspended, curtailed, revoked, including at Hospital, nor has Medical Director voluntarily relinquished such medical staff membership or clinical privileges while a charge of substandard quality of patient care was pending against Medical Director (regardless of the truth or falsity of the charge);

(h) shall be required to use his best and most diligent efforts and professional skills and judgment in rendering services under this Agreement;

(i) shall be required to perform professional services and shall render care to patients in accordance with and in a manner consistent with appropriate standards and the ethics of the medical profession and as necessary for the AWC to maintain compliance with applicable governmental laws and regulations; and

7.2 Notification of Change In Representations. SFMG shall notify the Hospital immediately in writing if any of the representations made by Medical Director in Section 7.1 are no longer true and correct.

ARTICLE VIII – CONFIDENTIALITY, NON-COMPETITION AND NON-SOLICITATION COVENANT

8.1 SFMG agrees that, during the term of this Agreement and for a period of two (2) years after the termination of this Agreement, it will keep confidential and not directly divulge, or allow through reasonable care to be divulged to anyone, or use or otherwise appropriate for SFMG's own benefit or for the benefit of others, any knowledge or information of a confidential nature with respect to the Hospital's current business, the Hospital itself, or any of its affiliates, including all trade secrets, pricing information, marketing information or technical information (hereinafter referred to as the "Confidential Data"), except for (i) a disclosure that is required by law; or (ii) information that has been made generally available to the public by the act of one who has the right to disclose such information. SFMG hereby acknowledges and agrees that the prohibitions against disclosure of Confidential Data recited herein are in addition to, and not in lieu of, any rights or remedies which the Hospital may have available pursuant to the laws of any jurisdiction or at common law to prevent the disclosure of confidential information, and the enforcement by the Hospital of its rights and remedies pursuant hereto shall not be construed as a waiver of any other rights or available remedies which the Hospital may possess in law or equity. SFMG acknowledges that the Hospital has taken reasonable and appropriate steps to ensure the confidentiality and non-disclosure of all such Confidential Data.

8.2 This covenant is considered by the parties hereto to be fair, reasonable and integral for the protection of the Hospital. The parties mutually agree that if a violation of this covenant occurs, such violation or any threatened violation will cause irreparable injury to the Hospital and the remedy at law for any such violation or threatened violation will be inadequate. The parties acknowledge that these covenants will survive, and remain in effect and enforceable after, termination of this Agreement.

ARTICLE IX – HIPAA BUSINESS ASSOCIATE RELATIONSHIP

Because SFMG provides services for the AWC that involve the use and/or disclosure of individually identifiable health information relating to the Facility's patients ("Protected Health Information" or "PHI"), SFMG is deemed to be a business associate of the Hospital under the Health Insurance Portability and Accountability Act of 1996 ("HIPAA") and the federal privacy regulations ("Privacy Regulations") set forth at 45 C.F.R. CLINICAL AND ADMINISTRATIVE SERVICES AGREEMENT

This Clinical and Administrative Services Agreement is entered into and effective as of the 12TH day of MARCH, 2012 (the "Effective Date"), by and between Johnson Memorial Medical Center, Inc., located at 201 Chestnut Hill Road, Stafford Springs, CT 06082 ("JMMC") and Saint Francis Medical Group, Inc., a Connecticut non-stock membership corporation of which Saint Francis *Care*, Inc. ("SFC") is the sole member, with a principal office located at 114 WOODLAND ST HARTFORD CT 06105 ("SFMG").

WHEREAS, JMMC operates a general hospital licensed pursuant to the laws of the State of Connecticut; and

WHEREAS, JMMC operates the JMMC Karen Davis Krzynowek Infusion Center in Enfield, CT (KDKIC) which provides infusion therapy and other medical and support services to JMMC patients; and

WHEREAS, JMMC has established a cancer program ("Cancer Program") which includes, among other services, inpatient care and the services provided at KDKIC;

WHEREAS, SFMG operates a multi-specialty group medical practice, including providing medical services by physicians specializing in hematology and oncology; and

WHERAS, SFMG employs, retains or otherwise engages qualified physicians ("SFMG Physicians") who render medical, management, and administrative services on behalf of SFMG; and

WHEREAS, JMMC desires SFMG to provide certain clinical, management, and administrative services required by JMMC for the benefit of JMMC patients ("Patients") at the Cancer Program; and

WHEREAS, SFMG desires to provide such clinical, management, and administrative services.

NOW, THEREFORE, for and in consideration of the mutual covenants herein contained, the parties hereto agree as follows:

1. SFMG Services.

1.1 Clinical, Management, and Administrative Services. JMMC hereby retains SFMG to provide the clinical, management, and administrative services specifically set forth on Exhibit A, attached hereto and incorporated herein (the "Services"). SFMG shall designate one or more employed physician members of SFMG to render the Services to JMMC and its Patients on behalf of SFMG, and shall designate an employed physician member of SFMG to serve as the medical director of the Cancer Program ("Medical Director"). In the event that one or more of the SFMG Physicians so

designated is temporarily unavailable (by way of example and not limitation, due to vacation, sick leave, or attendance at education programs), SFMG may provide a substitute SFMG Physician to provide Services during that temporary period.

1.2 Coordination with JMMC Hospitalists. The parties anticipate that in providing Services hereunder and in furtherance of appropriate medical care of Cancer Program patients, SFMG Physicians will work closely with JMMC hospitalists. The parties agree to jointly develop and establish written (i) standards of care and protocols for managing hospitalized Cancer Program patients; (ii) guidelines and protocols for identifying and transferring patients who require services or facilities not available at JMMC; and (iii) policies and procedures regarding the working relationship between SFMG Physicians and JMMC hospitalists. These standards of care, protocols, guidelines, policies, and procedures shall address, but not be limited to, the evaluation of hematology/oncology patients and hospital consultations to be conducted by SFMG Physicians.

1.3 Scheduling. Except for the Services that SFMG shall render on a 24-hour-per-day, 7-day-per-week, 365-days-per-year basis, as specified on Exhibit A, SFMG and JMMC shall work together to determine a mutually acceptable schedule for SFMG's provision of Services. SFMG shall provide JMMC with telephone numbers to contact SFMG Physicians in the event of emergency.

1.4 Reporting Responsibility. In carrying out the Services required hereunder, SFMG shall report to JMMC's Chief Executive Officer, and shall be at all times subject to the overall authority of the Governing Board of JMMC.

1.5 Evaluation and Annual Goals. The parties shall agree in writing on a process for evaluating the performance of the Medical Director and for setting annual goals for the Cancer Program and the Medical Director.

1.6 Exclusive Engagement. In order to promote high quality, well-integrated, and consistent care and treatment of patients at KDKIC, SFMG Physicians shall be the only hematology and oncology physicians JMMC engages to provide services at KDKIC.

1.7 SFMG Hematology/Oncology Services in Enfield.

1.7.1 SFMG Enfield Site. In consideration of being engaged to provide the Services, SFMG shall cease providing hematology/oncology services at its current site in Enfield, CT as of a date certain to be agreed between the parties and will abstain from providing hematology/oncology services in Enfield during the Term of this Agreement (and any extension or renewal thereof). If this Agreement terminates or expires for any reason, SFMG may resume providing hematology/oncology services in Enfield at its sole discretion and without any liability whatsoever to JMMC.

1.7.2 SFMG's Enfield Patients. JMMC shall accept all clinically-appropriate patients being treated at SFMG's Enfield site who choose to transfer their care to KDKIC as patients at KDKIC.

2. Covenants of SFMG.

2.1 Compliance with JMMC Policies and Applicable Law. In performing Services hereunder, SFMG shall, and shall ensure that SFMG Physicians, comply with all applicable law and all JMMC policies, the bylaws, rules and regulations of the JMMC Medical Staff, all as are from time to time adopted, authorized, or approved by the JMMC Medical Staff, JMMC, or its Board ("JMMC Policies"), the Connecticut General Statutes and Public Health Code, and all other applicable law, the standards of The Joint Commission, the standards of SFMG Physicians' profession and any other rules or regulations applicable to SFMG Physicians or JMMC. Upon request by SFMG, JMMC shall provide copies of any of the foregoing to assist SFMG in meeting this requirement.

2.2 Use of JMMC Facilities. SFMG shall, and shall ensure that SFMG Physicians, not use the facilities provided by JMMC under Section 5.2 for any purpose other than the provision of the Services hereunder, provided however, that nothing herein shall be deemed to limit the right of a SFMG Physician (i) to provide care to patients as a member of the JMMC Medical Staff within the scope of his/her privileges, (ii) to carry out his/her obligations and rights as a Medical Staff member and (iii) to otherwise engage in the practice of medicine provided such practice does not prevent, diminish, or interfere with the ability of such physicians to perform the duties and responsibilities required of SFMG hereunder.

2.3 SFMG Physicians.

2.3.1 SFMG Physician Qualifications. SFMG shall ensure that each SFMG Physician who provides Services hereunder, as a continuing condition precedent to JMMC's obligations under this Agreement, and prior to the provision of any services by a SFMG Physician hereunder, as applicable: (i) hold and maintain in good standing a currently valid and unlimited license to practice medicine in the State of Connecticut; (ii) hold and maintain in good standing certification in hematology and medical oncology from the American Board of Internal Medicine, or be eligible for such certification; (iii) apply for, be awarded, and maintain in good standing membership on the JMMC Medical Staff as at least a courtesy member with appropriate privileges in accordance with JMMC policies; (iv) apply for, be awarded, and maintain in good standing membership on the medical staff of Saint Francis Hospital and Medical Center ("SFHMC") as at least an active member with appropriate privileges in accordance with the bylaws, rules, regulations, and policies of SFHMC and its medical staff; (v) hold and maintain a currently valid DEA certification; and (vi) be approved by JMMC in advance, separate and apart from the JMMC Medical Staff appointment process, which approval shall not be unreasonably withheld, delayed, or denied.

2.3.2 SFMG Employee Misconduct. SFMG shall promptly notify JMMC of any determination of professional or criminal misconduct of an SFMG Physician that is likely, in the reasonable judgment of SFMG, to materially negatively affect the quality of care provided by SFMG Physicians, the safety or welfare of any JMMC Patient, visitor or staff member, or JMMC's reputation or operations. JMMC shall have the right to require that such SFMG Physician not provide further Services under this Agreement. SFMG Physicians shall retain all rights granted under the bylaws of the JMMC Medical Staff; provided, however, that any hearing or appeal rights enumerated in JMMC Medical Staff bylaws shall be inapplicable to a request by JMMC to SFMG to remove such SFMG Physician from providing Services under this Agreement.

2.3.3 Additional SFMG Physician. The parties acknowledge that SFMG is making good faith efforts to recruit a full-time, permanent physician specializing in hematology/oncology ("Additional Physician") to provide Services hereunder as an SFMG Physician. The parties agree that SFMG may engage one or more locum tenens physicians ("Locum Tenens") to serve as an SFMG Physician to provide Services hereunder while SFMG recruits an Additional Physician. The parties anticipate that an Additional Physician will be hired by SFMG by July 2012.

2.4 Limitation on SFMG Authority

2.4.1 JMMC Retained Authority. JMMC shall retain full legal authority over the day-to-day operations of JMMC, KDKIC, and the Cancer Program, and any powers not delegated to SFMG under this Agreement shall remain with JMMC.

2.4.2 No Contracting or Purchasing. Except pursuant to the prior written approval of JMMC, neither SFMG nor any SFMG Physician shall engage in or cause direct purchasing or otherwise contract any liability on behalf of JMMC, KDKIC, or the Cancer Program and shall neither charge the credit of JMMC nor incur any obligations or enter into any agreement for or on behalf of JMMC, KDKIC, or the Cancer Program.

2.5 Time Records and Allocation Reports. SFMG shall ensure that each SFMG Physician providing Services hereunder timely completes a report of the time spent providing the Services in such format and with such frequency as the parties may agree ("Timesheet"). SFMG shall submit copies of the Timesheets to JMMC on a monthly basis in accordance with Section 5.5.

2.6 Restrictive Covenant.

2.6.1 Non-Solicitation by JMMC. JMMC acknowledges that SFMG Physicians are essential to SFMG's operations and critical to ensuring that SFMG will continue to have the ability to carry on its legitimate business practices. Therefore, JMMC agrees that, during the term of this Agreement and for a period of eighteen (18) months after termination of this Agreement, neither it nor any of its affiliates (including, but not limited to Johnson Memorial Hospital, Inc. ("JMH")), agents, or employees shall

directly or indirectly solicit for employment (or engagement as a contractor) by or on behalf of JMMC or any of JMMC's affiliates any SFMG Physician providing services hereunder.

2.6.2 Non-Hire by JMMC. JMMC acknowledges that SFMG Physicians are essential to SFMG's operations and critical to ensuring that SFMG will continue to have the ability to carry on its legitimate business practices. Therefore, JMMC agrees that, during the term of this Agreement and for a period of eighteen (18) months after termination of this Agreement, neither it nor any of its affiliates (including, but not limited to JMH), agents, or employees shall employ, hire, or engage as a contractor by or on behalf of JMMC or any of JMMC's affiliates any SFMG Physician providing services hereunder.

2.6.3 Construction by Court. If any part of Section 2.6.1 or 2.6.2 should be determined by a court of competent jurisdiction to be unreasonable in duration, geographic area, or scope, then this Agreement is intended to and shall extend only for such period of time, and in such area and scope and with respect to such activity, as is determined by such court to be reasonable. For example, with respect to the duration set forth in Sections 2.6.1 and 2.6.2, if a court determines eighteen (18) months to be unreasonable; then fifteen (15) months; and if not fifteen (15) months, then twelve (12) months; but not less than twelve (12) months.

2.6.4 Affirmation of Reasonableness. The parties acknowledge and agree that the scope and duration of the restrictions contained in this Section 2.6 are fair and reasonable, and shall not unduly prevent JMMC or SFMG Physicians from operating or earning a livelihood, or prevent patients from obtaining medical care, and that such restrictions are important and necessary to protect the legitimate interests of SFMG.

2.6.5 Equitable Relief. JMMC acknowledges that a breach by JMMC of any restriction contained in this Section 2.6 shall cause SFMG irreparable injury and damage, the exact amount of which shall be impossible to ascertain and for which SFMG cannot reasonably or adequately be compensated in damages in an action at law. Accordingly, it is the agreement of the parties that, in addition to any other legal rights and remedies which SFMG may have in the event of a breach of this Section 2.6, SFMG shall be entitled to demand and obtain specific performance, including temporary and permanent injunctive relief.

2.6.6 Non-exclusivity of Remedies. The parties agree that no specification in this Agreement of any particular legal or equitable remedy shall be construed as a waiver or prohibition against pursuing any other legal or equitable remedy in the event of any breach by a party of any restriction contained in this Section 2.6.6. JMMC hereby represents that it has had the opportunity to seek legal advice with respect to the provisions of this Section 2.6, and has determined that the restrictions and remedies set forth in such provisions are fair and reasonable. SFMG shall be entitled to reasonable attorneys' fees and court cost incurred in any action to enforce the restrictions contained in this Section 2.6.

2.6.7 Tolling of Time Periods. The time for calculating the term of the restrictions contained herein shall not include any period of time during which the covenant is violated or during which any legal action or other proceeding is ongoing to enforce the terms of this Agreement through the date of final judgment or final resolution, including all appeals, if any, of such legal action or other proceeding, unless SGMG fails to prevail in such action or proceeding.

2.6.8 Survival. This Section 2.6 shall survive the expiration or termination of this Agreement.

3. Independent Contractors

It is expressly acknowledged by the parties hereto that SFMG and each SFMG Physician providing services hereunder are independent contractors of JMMC and nothing in this Agreement is intended or shall be construed to create with JMMC an employer/employee relationship or/a joint venture relationship. SFMG understands and agrees that JMMC will not make any payment to SFMG or any SFMG Physician and will not withhold on behalf of SFMG or any SFMG Physician any sums for income tax, unemployment insurance, social security, or any other withholding pursuant to any law or requirement of any governmental body relating to SFMG or any SFMG Physician, or make available to SFMG or any SFMG Physician any of the benefits afforded to employees of JMMC and that all of such payments, withholdings, and benefits, if any, are the sole responsibility of SFMG.

4. Records

4.1 Medical Records. To the extent applicable, SFMG shall cause SFMG Physicians to prepare medical records in accordance with JMMC Policies, state and federal law, and the standards of The Joint Commission. All clinical services rendered by SFMG Physicians to JMMC patients shall be documented in JMMC's medical record.

4.2 Third Party Payor Program Requirements. SFMG recognizes that JMMC is a participant in various third party payment programs including, without limitation, the Medicare and Medicaid Programs, which participation is essential to the financial viability of JMMC. Therefore, in connection with the subject matter of this Agreement, SFMG agrees to cooperate with JMMC and to provide reasonable assistance to JMMC so that JMMC will be able to meet the requirements for participation and payment associated with such third party payment programs. SFMG agrees to make available to JMMC such information and records as JMMC may reasonably request to: (i) substantiate its costs under this Agreement; and (ii) facilitate JMMC's compliance with the requirements of the Medicare Conditions of Participation and the Medicaid State Plan and to facilitate JMMC substantiation of its reasonable cost of other claims for reimbursement in accordance with the requirements applicable to JMMC pursuant to such third party payor programs. Without limiting the generality of the foregoing, SFMG shall ensure that the Medical Director submits to JMMC physician time allocation studies as and when reasonably requested by JMMC.

4.3 Governmental Access to Books, Documents and Records. To the extent that the provisions of Section 1861(v)(1)(1) of the Social Security Act (42 U.S.C. § 1395x(v)(1)(1)) are applicable to this Agreement, SFMG agrees to make available, on the written request of the Secretary of the Department of Health and Human Services or on the request of the Comptroller General, or any of their duly authorized representatives, this Agreement, and other books, records and documents that are necessary to certify the nature and extent of costs incurred by JMMC for services furnished under this Agreement. The obligations hereunder shall extend for four (4) years after the furnishing of such services. To the extent SFMG enters into an agreement with a related organization to provide services hereunder with a value or cost of ten thousand dollars ($10,000) or more over a twelve (12) month period, such agreement shall contain a clause permitting access by the Secretary, Comptroller General, and their representatives to the books and records of the related organization.

In the event any request for SFMG's books, documents, or records is made pursuant to this Section, SFMG shall, unless prohibited by law or by the reasonable advice of SFMG's counsel (i) give notice of such request to JMMC; (ii) provide JMMC with a copy of such request; and (iii) upon JMMC's written request and at JMMC's expense, provide JMMC with a copy of each book, document, and record made available to the persons or agencies listed in the foregoing paragraph, or identify each such book, document, and record to JMMC and grant JMMC access thereto for review and copying.

4.4 Ownership. The ownership and right of control of all reports, records, and supporting documents prepared in connection with SFMG's provision of Services hereunder (except for reports of the SFMG prepared solely for the SFMG's internal purposes) and the operation and administration of the Department shall vest exclusively in JMMC, provided, however, that SFMG may retain copies of such reports, records, and supporting documents to the extent permitted by law.

4.5 Monthly Activity Report. JMMC shall provide to SFMG monthly a report, in a manner and format and with such detail as the parties shall agree, regarding the previous month's (i) patient volume at KDKIC and in hematology/oncology services at JMH and (ii) the number of wRVUs provided by SFMG Physicians.

5. Financial Arrangements.

5.1 Services Fee. JMMC shall compensate SFMG for the Services in accordance with Exhibit B, attached hereto and incorporated herein (the "Services Fees").

5.2 Space, Equipment, and Staff. JMMC shall provide nursing staff with appropriate experience and training, suitable support staff (including, but not limited to, patient schedulers), office space, equipment, supplies and utilities as shall be necessary and appropriate for SFMG to provide the Services and to assure the safe, efficient, and effective operation of KDKIC.

5.3 KDKIC Costs. JMMC shall be responsible for all costs relating to the operation of KDKIC, except for those specifically enumerated in this Agreement.

5.4 Billing for Services. JMMC shall bill and collect on its own account for all medical services provided hereunder to JMMC patients, including all technical, facility, and professional fees. SFMG shall not bill Patients or third party payors for services provided by SFMG Physicians under this Agreement. All JMMC billing and collection activity shall be in accordance with all applicable law and third party payor contracts. JMMC shall permit SFMG reasonable access to such billing records as may be necessary or desirable for SFMG to confirm that any and all claims submitted for payment for professional services rendered by SFMG Physicians comply with all applicable law and third party payor contracts; provided, however, that SFMG shall not have access to confidential rate or reimbursement information.

5.5 Invoices. SFMG shall send an invoice to JMMC for Services together with the Timesheets prepared in accordance with Section 2.5 on a monthly basis, and payment in full will be due by the thirtieth (30^{th}) day after submission of the monthly invoice; provided, however, that SFMG's failure or delay in sending an invoice to JMMC shall not relieve JMMC of its obligation to pay for Services rendered.

5.6 Cooperation. The parties agree to cooperate with each other to provide promptly any information, documents, consents, or authorizations reasonably necessary or desirable to permit JMMC to bill for the services provided hereunder or to permit JMMC or SFMG to comply with applicable law.

6. Insurance.

6.1 SFMG. In connection with the provision of the Services hereunder, SFMG shall, at its own expense, obtain and maintain general liability insurance coverage in the amounts of $1,000,000 per occurrence and $3,000,000 in aggregate, covering SFMG and SFMG Physicians. JMMC shall be identified as an additional insured under such coverage. Such insurance shall require thirty (30) days' prior written notice to JMMC in the event of termination, cancellation, or a material change in such coverage. Upon request, SFMG shall furnish JMMC with proof of such insurance coverage.

6.2 JMMC. JMMC shall obtain and maintain, at its own expense, general liability insurance, in the amounts of $1,000,000 per occurrence and $3,000,000 in aggregate, covering JMMC and all JMMC employees. SFMG shall be named as an additional insured of such policies. Such insurance shall require thirty (30) days' prior written notice to SFMG in the event of termination, cancellation, or a material change in any such policy. Upon request, JMMC shall furnish SFMG with evidence of each such insurance policy and any amendment or renewal thereof.

7. Indemnification.

7.1 Indemnification of JMMC. SFMG agrees that, to the extent not covered by the insurance required to be maintained under this Agreement, it will defend, indemnify, and hold harmless JMMC, and JMMC's trustees, directors, officers, employees, and agents from and against any and all claims, actions, suits, proceedings, liabilities, losses, demands, judgments, and expenses (including court costs and reasonable attorneys' fees) arising out of the negligent acts or omissions of SFMG in performing its obligations under this Agreement.

7.2 Indemnification of SFMG. JMMC agrees that, to the extent not covered by the insurance required to be maintained under this Agreement, it will defend, indemnify, and hold harmless SFMG, and SFMG's trustees, directors, officers, employees, and agents from and against any and all claims, actions, suits, proceedings, liabilities, losses, demands, judgments, and expenses (including court costs and reasonable attorneys' fees) arising out of the negligent acts or omissions of JMMC in performing its obligations under this Agreement.

7.3 Notification of Claim. In the event of any claim for indemnification under this Section 8, the indemnified party shall notify the indemnifying party in writing of any fact or circumstance which gives rise to liability for which the indemnified party is indemnified hereunder with reasonable promptness after such fact or circumstance first comes to the attention of the indemnified party; provided, however, the failure to give such notice shall not relieve the indemnifying party of its indemnification obligations unless, and only to the extent that, the failure to give such notice actually prejudices the rights of the indemnifying party.

7.4 Defense of Claims. If a claim is based upon a demand, claim, or action brought by a third party, the indemnifying party shall defend such demand, claim, or action at its expense with counsel of its choice. The indemnifying party shall not have the right to compromise or settle such claim without the consent of the indemnified party (which consent will not be unreasonably withheld, delayed, or denied) unless such compromise or settlement includes a full release of the indemnified party from liability for the claim. The indemnified party may participate in any such matter at its expense and with counsel of its choice. The indemnified party will cooperate with the indemnifying party in all reasonable ways in the defense of any such action and shall give the indemnifying party access to such relevant files and records for inspection and copying, and make its employees available to the indemnifying party at the expense of the indemnifying party in the defense of any action for which the indemnified party is being indemnified hereunder.

7.5 Survival of Rights. The obligations under this Section 7 shall survive the expiration or termination of this Agreement.

8. Term and Termination of Agreement.

two (2) Ref 3/12/12

8.1 Term. This Agreement shall be for a term of ~~five (5)~~ years commencing on the Effective Date set forth above (the "Term"). Thereafter, this Agreement may be renewed upon the mutual written agreement of the parties, provided that this Agreement shall not be renewed on the same financial terms and conditions without the parties' first re-assessing the fair market value of the Services at the time of any renewal.

8.2 Termination.

8.2.1 Termination by Agreement. Subject to Section 8.2.7, this Agreement may be terminated by written agreement of the parties.

8.2.2 Termination on Notice for Default. 8.2.5 Termination Pursuant to Section 9.7. Subject to Section 8.2.7, a party may terminate this Agreement in accordance with the provisions of Section 9.7.

8.2.6 Termination of Clinical Affiliation Agreement. In the event that that certain Clinical Affiliation and Integration Agreement by and among JMMC, JMH, Johnson Evergreen Corporation, Inc., and SFC terminates for any reason, the parties shall work together to amend or terminate this Agreement in an orderly manner to the extent necessary and appropriate.

8.2.7 Limit on Re-Negotiation. In the event of termination of this Agreement for any reason, the parties agree that they shall not enter into a new, amended, or re-negotiated agreement concerning the same subject matter and containing revised pricing or compensation terms more than once during any twelve (12) month period during which this Agreement is in effect.

8.2.8 Effects of Termination. Upon termination of this Agreement as herein above provided, a party shall not have any further obligation hereunder except for: (i) obligations accruing prior to the date of termination; and (ii) obligations, promises, or covenants contained herein which are expressly made to extend beyond the term of this Agreement.

9. General Compliance.

9.1 Exclusion.

9.1.1 SFMG Representations and Warranties. SFMG represents and warrants that SFMG and each SFMG Physician providing the Services has never been (i) convicted of a criminal offense related to health care and/or related to the provision of services paid for by Medicare, Medicaid, or another federal health care program; (ii) excluded or debarred from participation in any federal health care program, including Medicare or Medicaid; or (iii) otherwise sanctioned by the federal government, including being listed on the General Services Administration's Excluded Party Listing System.

9.1.2 Notification by SFMG. SFMG shall notify JMMC immediately in the event that any representation contained in 9.1.1 above is or becomes untrue at any time during the term of the Agreement.

9.1.3 JMMC Representations and Warranties. JMMC represents and warrants that it has never been (i) convicted of a criminal offense related to health care and/or related to the provision of services paid for by Medicare, Medicaid, or another federal health care program; (ii) excluded or debarred from participation in any federal health care program, including Medicare or Medicaid; or (iii) otherwise sanctioned by the federal government, including being listed on the General Services Administration's Excluded Party Listing System.

9.1.4 Notification by JMMC. JMMC shall notify SFMG immediately in the event that any representation contained in 9.1.3 above is or becomes untrue at any time during the term of the Agreement.

9.1.5 Termination by JMMC. JMMC may terminate this Agreement immediately in the event that SFMG is (i) convicted of a criminal offense related to health care and/or related to the provision of services paid for by Medicare, Medicaid, or another federal health care program; (ii) excluded from or debarred from participation in any federal health care program, including Medicare or Medicaid; or (iii) otherwise sanctioned by the federal government, including being listed on the General Services Administration's excluded party listing system; provided, however, if any SFMG Physician providing the Services is convicted, excluded, or debarred as described above and SFMG immediately replaces such SFMG Physician with another qualified SFMG Physician, the Agreement may not be terminated pursuant to this Section.

9.1.6 Termination by SFMG. SFMG may terminate this Agreement immediately in the event that JMMC is (i) convicted of a criminal offense related to

health care and/or related to the provision of services paid for by Medicare, Medicaid, or another federal health care program; (ii) excluded from or debarred from participation in any federal health care program, including Medicare or Medicaid; or (iii) otherwise sanctioned by the federal government, including being listed on the General Services Administration's excluded party listing system.

9.2 False Claims. SFMG acknowledges on behalf of itself and each SFMG Physician that JMMC has provided it with access to its policy on False Claims and Payment Fraud Prevention (the "Policy"). The parties acknowledge that the False Claims Act (31 U.S.C. § 3729 et seq.) imposes penalties for knowingly submitting a false claim or statement to a federally funded program, or otherwise conspiring to defraud the government, in order to receive payment. It also protects individuals who report suspected fraud. Any suspected fraud will be reported as provided in the Policy.

9.3 No Intent to Induce Referrals. It is not the intent of the parties that any payments made under this Agreement be in return for the referral of business, if any, or in return for the purchasing, leasing, or ordering of any services other than the specific services described in this Agreement. All payments specified in this Agreement are consistent with what the parties reasonably believe to be a fair market value for the services provided. The parties acknowledge that the arrangements contemplated by this Agreement do not require and are not conditioned in any way on any party, or any affiliate of any party, referring patients to any other party, or any affiliate of any other party, and each party and its affiliates shall remain permitted to refer patients to any other entities or healthcare facilities.

9.4 Compliance with Law. The parties shall comport their conduct in implementing this Agreement to comply at all times with all provisions of applicable law, including, without limitation, the Connecticut General Statutes and Public Health Code, the Medicare Conditions of Participation and other regulations promulgated by the United States Department of Health and Human Services and the Centers for Medicare and Medicaid Services, 42 U.S.C. § 1320-a-7b, 42 U.S.C. § 1395nn, and federal and state antitrust laws, including Section 2 of the Sherman Act and Section 7 of the Clayton Act, as each may be amended from time to time (the "Laws and Regulations").

9.5 Changes in Laws and Regulations. Notwithstanding any other provisions of this Agreement, if: (i) a party at any time determines upon the reasonable advice from counsel that any provision of this Agreement does or may violate applicable Laws and Regulations then in effect or to become effective as of a date certain; (ii) the governmental agencies (or their representatives) that administer Medicare or Medicaid, or any other federal, state, or local government or agency, should pass, issue, or promulgate any law, rule, regulation, standard, or interpretation at any time while this Agreement is in effect that materially and adversely affects any party's rights or obligations hereunder; or (iii) any court or agency of any federal, state, or local government issues an order, decree, opinion, or ruling or takes any other action that will materially and adversely affect, restrict, or prohibit the ability of a party to perform its obligations under this

Agreement; then the parties shall negotiate in good faith an appropriate modification to the terms and conditions of this Agreement to accommodate such provisions of applicable Laws and Regulations or judicial or administrative decisions and to effectuate the existing terms and intent of this Agreement to the greatest possible extent consistent with the requirements of such law or decision. Should the parties fail to reach agreement as to such modification of this Agreement within ninety (90) days, then any party may terminate this Agreement on ten (10) days' prior written notice.

9.6 Cooperation with Compliance Audits. Without limiting the foregoing, this Agreement shall not limit any rights or obligations of any party in respect of compliance audits or other similar activities conducted by or on behalf of such party in relation to such party's own operations and activities, and each party agrees to reasonably cooperate with the other parties in connection with any compliance audit, investigation, or other similar activity conducted by or on behalf of each party in relation to such party's own operations and activities. Each party shall be responsible for the costs of any audit, investigation, or similar activity conducted with respect to such party's activities.

9.7 Professional Standards. Nothing in this Agreement or elsewhere shall require SFMG or an SFMG Physician to provide a medical or other service which in the reasonable judgment of SFMG or the SFMG Physician is unethical, improper, or inconsistent with professional standards or guidelines. Should a circumstance arise in which SFMG or an SFMG Physician reasonably believes that providing a service would be unethical, improper, or inconsistent with professional standards or guidelines, SFMG shall notify JMMC and the parties shall immediately and in good faith negotiate a resolution to the situation. Should the parties not reach agreement within ten (10) days (or such other time period as the parties may agree), then either party may terminate this Agreement on ten (10) days' prior written notice.

10. Applicability of Ethical and Religious Directives for Catholic Health Care Services.

10.1 Directives Apply to SFMG. SFMG is organized and operates under the sponsorship of the Roman Catholic Church, and conducts its activities in accordance with the Ethical and Religious Directives for Catholic Health Care Services ("Directives") as adopted by the United States Conference of Catholic Bishops, and as the same may be amended from time to time. The Directives are applicable to SFMG as a Catholic health care organization in relation to its own operations, activities, and administration, and to the manner in which SFMG may collaborate or cooperate with JMMC and JMH as non-Catholic institutions.

10.2 SFMG Activities. SFMG (i) will not participate with JMMC in any end-of-life, obstetrical, gynecological, or reproductive procedures, programs, or activities, or in any family planning or other activity, that does not conform with the Directives, and (ii) will conduct its own activities, and will only provide services to JMMC, so that SFMG conforms with the Directives, and so as to avoid any perception by others that

SFMG has compromised its moral principles by participating in acts that do not conform with the Directives.

10.3 No SFMG Participation in Non-conforming Activities. Nothing contained in this Agreement shall require or be deemed to require SFMG to participate with JMMC in any end-of-life, obstetrical, gynecological, or reproductive procedures, programs, or activities, or in any family planning or other activity, that does not conform with the Directives, or otherwise act in any manner that SFMG, in its sole discretion, believes could cause SFMG to violate the Directives, or would create any perception by others that SFMG has compromised its moral principles by participating in acts that do not conform with the Directives.

10.4 Joint Activities. SFMG's activities in relation to JMMC always will ensure that any services provided by SFMG, and any joint activities among SFMG and JMMC, do not entail involvement by SFMG with any end-of-life, obstetrical, gynecological, or reproductive procedures, programs, or activities, or with any family planning or other activities, that do not conform with the Directives. Accordingly, none of SFMG's personnel will be involved in any end-of-life, family planning, obstetrical, gynecological, or reproductive procedures, programs, or activities, or any other procedures, programs, or activities of, by, or on behalf of JMMC that do not conform with the Directives, SFMG shall not have joint or shared responsibility for any such activities, and SFMG shall not share or have involvement with any governance, financial, administrative, or support functions related to any such activities.

10.5 Termination by SFMG. In the event that SFMG, at any time in its sole discretion, believes that any services provided by SFMG, or any joint activities between SFMG and JMMC pursuant to this Agreement, or any activities of JMMC, whether pursuant to the provisions of this Agreement or otherwise, could cause SFMG to violate the Directives, or would lead others to perceive that SFMG has compromised its moral principles by participating in acts that do not conform with the Directives, then SFMG will, at its option and in its sole discretion, terminate this Agreement or SFMG's participation in such services or activities.

11. Security/Confidentiality/Use of Name.

11.1 Compliance with Policies. SFMG shall, and shall ensure that each SFMG Physician, comply with JMMC's Policies pertaining to confidentiality, security, and vendor identification.

11.2 Confidential Information. SFMG represents and warrants on behalf of itself and each SFMG Physician that each shall retain in confidence all information and know-how transmitted to it by JMMC that JMMC has identified as being proprietary and/or confidential or that, by the nature of the circumstances surrounding disclosure or the nature of the information disclosed, ought in good faith to be treated as proprietary or confidential and will make no use of such information and know-how except under the terms and during the existence of this Agreement. JMMC represents and warrants on

behalf of itself and its employees that it shall retain in confidence all information and know-how transmitted to it by SFMG that SFMG has identified as being proprietary and/or confidential or that, by the nature of the circumstances surrounding disclosure or the nature of the information disclosed, ought in good faith to be treated as proprietary or confidential and will make no use of such information and know-how except under the terms and during the existence of this Agreement. Confidential information ("Confidential Information") shall include, by way of example and not limitation, any and all information regarding finances, practices, employees, or management. Confidential Information shall not include information which (i) at the time of disclosure was, is, or thereafter becomes disclosed or available to or known by the public (other than as a result of a disclosure in violation of any of obligations hereunder); (ii) was, is, or thereafter becomes available on a non-confidential basis from a source that is not and was not prohibited from disclosing such information by a contractual, legal, or fiduciary obligation; or (iii) has been or thereafter becomes independently acquired or developed without access to any of the information provided by the other party. A party shall exercise the same level of care to prevent the impermissible use or disclosure of the other parties' Confidential Information in its custody or control that it exercises in protecting its own information of a similar nature, and, in any event, no less than commercially reasonable efforts. Notwithstanding anything herein to the contrary, solely to the extent necessary to carry out obligations hereunder or legal obligations of the party, a party shall have the right to disclose Confidential Information to any of such party's attorneys, accountants, consultants, and other third parties retained by the party (collectively, "Consultants") so long as the Consultant is bound by confidentiality obligations at least as strict as those set forth herein. In the event that a party or any of its Consultants is requested or becomes legally compelled to make any disclosure which is prohibited or otherwise constrained by this Agreement, that party shall provide the party whose Confidential Information is sought with prompt notice of such request(s) so that the party whose Confidential Information is sought may seek an appropriate protective order or other appropriate remedy and/or waive compliance with the provisions of this Agreement. In the event that such protective order or other remedy is not obtained, or a waiver is granted, the party or its Consultant to whom the demand was directed shall disclose only that portion of the Confidential Information which it is legally compelled to disclose and shall use reasonable efforts to obtain reliable assurance that confidential treatment will be accorded any Confidential Information disclosed. The provisions of this Section shall survive termination of this Agreement.

11.3 Compliance with Confidentiality Laws. Each party shall maintain all patient-related information to which it has access in performing hereunder, including but not limited to protected health information, in confidence in accordance with all applicable laws and regulations.

11.4 Injunctive Relief. Unauthorized use of Confidential Information is a material breach of this Agreement resulting in irreparable harm for which the payment of money damages is inadequate. It is agreed that the non-breaching party, upon adequate proof of unauthorized use, may immediately obtain injunctive relief in any court of competent jurisdiction enjoining any continuing or further breaches and may obtain entry

of judgment for injunctive relief. Nothing in this Agreement shall be construed to limit remedies at law or equity in the event of a breach.

11.5 Prohibition on Use of Names. JMMC shall not use SFMG's (or SFMG's affiliates', including, without limitation, SFC and SFHMC) name, logo, or likeness, or that of any of SFMG's facilities, in any press release, advertising, promotional materials, or public filing (except as required by law, in which case JMMC shall provide reasonable advance written notice to SFMG) without obtaining the prior written consent of SFMG. SFMG shall not use JMMC's (or JMMC's affiliates') name, logo, or likeness, or that of any of JMMC's facilities, in any press release, advertising, promotional materials, or public filing (except as required by law, in which case SFMG shall provide reasonable advance written notice to JMMC) without obtaining the prior written consent of JMMC.

12. Dispute Resolution.

12.1 Mediation by the Parties. Any and all disputes arising out of or relating to this Agreement or the breach hereof shall first be referred to the Chief Executive Officer of SFMG and the Chief Executive Officer of JMMC, who shall exert their good faith efforts to achieve a resolution. If any such dispute is not resolved by such group within thirty (30) days after notice thereof (or such longer period as the parties may then agree) (the "Voluntary Resolution Period"), then any party to such dispute may submit, within thirty (30) days after the end of the Voluntary Resolution Period, the dispute or controversy to arbitration pursuant to Section 12.2.

12.2 Arbitration. Any deadlock, dispute, or controversy out of or relating to this Agreement or the breach hereof and not resolved under Section 12.1 shall be resolved by arbitration pursuant to binding arbitration in Connecticut under the auspices of JAMS pursuant to the JAMS Comprehensive Arbitration Rules and Procedures, before a single arbitrator with experience in the arbitration of disputes of a similar nature. The arbitrator shall have authority to award compensatory damages only and equitable relief only as permitted under this Agreement or state law. The arbitrator shall have no authority to award consequential damages, punitive damages, or multiple damages. Each party will be responsible for its own legal fees and other expenses incurred in connection with such arbitration proceeding, except that the costs of the arbitrator shall be borne equally by the parties. The decision of the arbitrator shall be final and binding upon the parties, and judgment confirming the arbitrator's award may be enforced in any court of competent jurisdiction. The parties hereby exclude any right of appeal to any court on the merits of the dispute.

12.3 Equitable Relief. The foregoing provisions for mediation and arbitration shall not prevent a party from applying for and obtaining injunctive or other equitable relief as provided elsewhere in this Agreement or by showing that, in the absence thereof, the rights of such party cannot be adequately protected.

13. Cancer Program Committee.

13.1 Committee. JMMC shall establish a committee ("Committee") to serve in an advisory capacity to JMMC senior leadership about the operations and strategic direction of KDKIC and the Cancer Program. The Committee shall provide advice and recommendations regarding, among other matters, (i) hours of operation; (ii) staffing levels and mix; (iii) annual operating budget; (iv) equipment and technology planning and capital budgeting; (v) clinical operations, including but not limited to, the scope of services provided, pharmacy services and formulary, laboratory services, and imaging services; (vi) information technology systems, software, and equipment; (vii) program development, including but not limited to, planning for existing and new services, service integration, and establishing a multidisciplinary model of care; (viii) program evaluation and quality improvement activities, and (ix) clinical research. The Committee shall establish a regular meeting schedule and shall meet at least monthly unless otherwise agreed by the parties.

BACKGROUND STATEMENTS

A. **Purpose**. The purpose of this Agreement is to comply with the requirements of the Health Insurance Portability and Accountability Act of 1996, as amended by Sections 13400 through 13424 of the Health Information Technology for Economic Clinical Health Act ("HITECH") (the 1996 Act as amended by HITECH is referred to herein as "HIPAA"), the associated regulations, 45 C.F.R. parts 160 and 164, as may be amended, and other guidance that may be issued by the federal Department of Health and Human Services ("HHS") (all of the above laws, rules, regulations, and guidance are collectively referred to herein as the "HIPAA Standards"). The HIPAA Standards require Covered Entity to obtain written assurances from Business Associate that Business Associate will appropriately safeguard Protected Health Information ("PHI") and protect its integrity and confidentiality.

B. **Relationship**. Covered Entity and Business Associate have entered into a relationship under which Business Associate may receive, use, obtain, access or create PHI from or on behalf of Covered Entity in the course of providing services in connection with Oncology Services (collectively, the "Services"):

AGREEMENT

In consideration of the foregoing, the Parties hereby agree as follows:

Section 1. Permitted Uses and Disclosures.

1.1 General. Business Associate may use and/or disclose PHI only as permitted or required by this Agreement or as otherwise required by law. Business Associate may disclose PHI to, and permit the use of PHI by, its employees, contractors, agents, or other representatives only to the extent directly related to and necessary for the performance of the Services. Business Associate will request from Covered Entity no more than the minimum PHI necessary to perform the Services, which means that such requests shall only be for information contained in Limited Data Sets when practicable (unless there is superseding guidance, rules, or regulations issued by HHS regarding the minimum necessary requirement, in which case Business Associate agrees to abide by the terms of such guidance, rules, or regulations). Business Associate shall not use or disclose PHI in a manner (i) inconsistent with Covered Entity's obligations under the HIPAA Standards, (ii) that would violate the HIPAA Standards if disclosed or used in such a manner by Covered Entity, including, not limited to, the additional HITECH requirements relating to privacy, (iii) that is otherwise not in compliance with each applicable requirement of 45 C.F.R. § 164.504(e), or (iv) that does not comply with Connecticut state law as it applies to Covered Entity and/or Business Associate.

1.2 Use For Business Associate's Purposes. Except as otherwise limited in this Agreement, Business Associate may use PHI for the proper management and administration of Business Associate or to carry out the legal responsibilities of Business Associate. Unless specifically requested in writing by Covered Entity, Business Associate shall not use PHI to provide Data Aggregation services.

1.3 Disclosure For Business Associate's Purposes. Except as otherwise limited in this Agreement, Business Associate may disclose PHI for the proper management and administration of Business Associate, provided the disclosures are required by law, or Business Associate obtains reasonable assurances from the person to whom the PHI is disclosed that it will remain confidential and be used or further disclosed only as required by law or for the purpose for which it was disclosed to the person, and the person notifies Business Associate of any instances of which it is aware in which the confidentiality of the PHI has been breached.

1.4 Prohibitions. Without limiting the foregoing, Business Associate shall not directly or indirectly receive any remuneration in exchange for PHI or use or disclose PHI for marketing or fundraising purposes.

Section 2. Safeguards for the Protection of PHI.

Business Associate will implement and maintain the security safeguards and other related measures required by the HIPAA Standards, including, but not limited to, those required by 45 C.F.R. §§ 164.308 (administrative safeguards), 164.310 (physical safeguards), 164.312 (technical safeguards), 164.316 (policies and documentation), and the additional security provisions of HITECH as each of the foregoing applies to Covered Entity. Such safeguards shall be designed to protect the confidentiality and integrity of such PHI obtained, accessed or created from or on behalf of Covered Entity.

Section 3. Reporting and Mitigating the Effect of Unauthorized Uses and Disclosures.

3.1 Notice Obligation. If Business Associate has knowledge of or Discovers any Security Incident, Breach, or any other use or disclosure or unauthorized access of PHI not provided for by this Agreement, then Business Associate will immediately notify Covered Entity in accordance with Section 8.6. This reporting obligation to Covered Entity shall include, but is not limited to, any "Breach" of "Unsecured Protected Health Information", as those terms are used in Section 13405 of HITECH and further defined at 45 C.F.R. § 164.402. Business Associate shall cooperate with Covered Entity in order to allow it to fulfill its obligations under 45 C.F.R. §§ 164.400-414, as well as fulfill its obligations therein and under any other applicable HIPAA Standards.

3.2 Timing of Notice. Such notice shall be delivered immediately, but in no event later than sixty (60) days after Discovery of a Breach. Business Associate shall have the burden of demonstrating that all notifications were made as required by the HIPAA Standards, including evidence demonstrating the necessity of any delay.

3.3 Content of Notice. Such notice shall include, to the extent possible: i) the identification of each Individual whose PHI has been, or is reasonably believed to have been, accessed, acquired, or improperly disclosed; ii) a description of what happened, including the date of the Breach; iii) a description of the unsecured PHI subject to the

Breach; iv) recommended steps for individuals to take to mitigate potential harm; what the Business Associate is doing in response; and v) any other information necessary for both Business Associate and Covered Entity to comply with the HIPAA Standards.

3.4 Law Enforcement Delay. Business Associate shall comply with the terms of 45 C.F.R. § 164.412 with regard to an oral or written statement made by law enforcement regarding notification under this Section 3 in connection with a Breach of Unsecured Protected Health Information.

3.5 Mitigation. Business Associate shall take any action necessary or proper to mitigate, to the extent practicable, any adverse or harmful effect of an unauthorized use or disclosure, Security Incident, or Breach.

Section 4. Use and Disclosure of PHI by Subcontractors, Agents, and Representatives.

Business Associate will require any subcontractor, agent, or other representative that is authorized to receive, use, or have access to PHI obtained or created under the Agreement, to agree, in writing, to adhere to the same restrictions, conditions and requirements regarding the use and/or disclosure of PHI and safeguarding of PHI that apply to Business Associate under this Agreement. Such agreement shall identify Covered Entity as a third-party beneficiary with rights of enforcement in the event of any violations.

Section 5. Individual Rights.

Business Associate will comply with the following Individual rights requirements as applicable to PHI used or maintained by Business Associate, as well as comply with any other additional requirements under HITECH that relate to such rights that apply to Covered Entity:

5.1 Right of Access. Business Associate agrees to provide access to PHI, at the request of Covered Entity and in a timely manner, to Covered Entity or, as directed, to an Individual in order to meet the requirements under 45 C.F.R. § 164.524 and Section 13405(e) of HITECH. This shall include the obligation to provide electronic access, as specified in Section 13405 of HITECH, if Business Associate uses or maintains an electronic health record.

5.2 Right of Amendment. Business Associate agrees to make any amendment(s) to PHI that Covered Entity directs or agrees to pursuant to 45 C.F.R. § 164.526 at the request of Covered Entity or an Individual, and in a timely manner.

5.3 Right to Accounting of Disclosures. Business Associate agrees to document disclosures of PHI as required for Covered Entity to respond to a request by an Individual for an accounting of disclosures of PHI in accordance with 45 C.F.R. § 164.528 and Section 13405(c) of HITECH and in a timely manner. Business Associate agrees to provide the accounting to Covered Entity, unless Covered Entity requests that the accounting be provided directly to the Individual. If Business Associate maintains PHI in an Electronic Health Record, the scope of accounting under this Section 5.3 shall further comply with the requirements of Section 13405(c) of HITECH as such requirements apply to Covered Entity.

5.4 Restricted Disclosures to Health Plans. If Business Associate discloses PHI to a Health Plan on behalf of Covered Entity for the purposes of Payment or Health Care Operations, Business Associate shall not include in any such disclosure information regarding any item or service for which an Individual paid out of his or her own pocket and has requested that the item or service not be included in such disclosures.

Section 6. Audit, Inspection and Enforcement by Covered Entity.

With reasonable notice, Covered Entity may audit Business Associate to monitor compliance with this Agreement. Business Associate will promptly correct any violation of this Agreement found by Covered Entity and will certify in writing that the correction has been made. Covered Entity's failure to detect any unsatisfactory practice does not constitute acceptance of the practice or a waiver of Covered Entity's enforcement rights under this Agreement. Business Associate will make its internal practices, books, records, and policies and procedures relating to the use and disclosure of PHI received from, or created or received by Business Associate on behalf of Covered Entity, available to HHS, the Office for Civil Rights ("OCR"), or their agents or to Covered Entity for purposes of monitoring compliance with the HIPAA Standards.

Section 7. Term and Termination.

7.1 Term. This Agreement will become effective on the Effective Date. Unless terminated sooner pursuant to Section 7.2, this Agreement shall remain in effect for the duration of all Services provided by Business Associate and for so long as Business Associate shall remain in possession of any PHI received from, or created or received by Business Associate on behalf of Covered Entity, unless Covered Entity has agreed in accordance with Section 7.3 that it is infeasible to return or destroy all PHI.

7.2 Termination. Either party may immediately terminate this Agreement if it determines that the other has breached a material term of this Agreement. Alternatively, in the non-breaching party's sole discretion, it may provide the other party with written notice of the existence of the material breach and afford thirty (30) days to cure. In the event the party fails to cure the material breach within such time period, the non-breaching party may immediately terminate the Agreement. Both parties represent and warrant that neither has any knowledge of the other party's pattern or practice of violating the terms of this Agreement or the HIPAA Standards. In the event a party becomes aware of the other party's pattern or practice of materially breaching the Agreement, it shall provide an opportunity to cure, and if cure is unsuccessful, terminate this Agreement. If termination is not feasible, the non-breaching party shall report the material breach to the Secretary of HHS or OCR.

7.3 Effect of Termination. Upon termination of this Agreement, Business Associate will recover any PHI relating to the Agreement in the possession of its subcontractors, agents, or representatives. Business Associate will return to Covered Entity or destroy all such PHI plus all other PHI relating to the Agreement in its possession, and will retain no copies. If Business Associate believes that it is not feasible to return or destroy the PHI as described above, Business Associate shall notify Covered Entity in writing. The notification shall include: (i) a statement that Business Associate has determined that it is infeasible to return or destroy the PHI in its possession, and (ii) the specific reasons for such determination. If Covered Entity agrees in its sole discretion that Business Associate cannot feasibly return or destroy the PHI, Business Associate will ensure that any and all

protections, requirements and restrictions contained in this Agreement will be extended to any PHI retained after the termination of the Agreement, and that any further uses and/or disclosures will be limited to the purposes that make the return or destruction of the PHI infeasible.

Section 8. Miscellaneous.

8.1 Survival. The respective rights and obligations of the Parties under Sections 6 (Audit and Inspection Rights), 7.3 (Effect of Termination), and 8 (Miscellaneous) will survive termination of the Agreement indefinitely.

8.2 Entire Agreement; Amendments; Waiver. This Agreement constitutes the entire agreement between the Parties with respect to its subject matter and supersedes any prior business associate agreement. This Agreement may not be modified, nor will any provision be waived or amended, except in a writing duly signed by authorized representatives of the Parties. A waiver with respect to one event will not be construed as continuing, or as a bar to or waiver of any right or remedy as to subsequent events. **The Parties shall amend this Agreement from time to time as necessary to comply with the requirements of the HIPAA Standards. If either Party determines that such an amendment is necessary, the other party shall work in good faith to incorporate the amendment as soon as possible upon receiving notice.**

8.3 Interpretation. Any ambiguity in this Agreement shall be resolved in favor of a meaning that permits Covered Entity to comply with the then-current HIPAA Standards. Unless otherwise defined in this Agreement, capitalized terms have the meanings given in the HIPAA Standards.

8.4 Compliance/Civil and Criminal Penalties. Business Associate agrees to comply with the applicable HIPAA Standards, including, but not limited to, the additional requirements of HITECH that relate to privacy and security and that are made applicable with respect to covered entities. Any such HITECH requirements not expressly addressed in this Agreement are hereby incorporated by reference. Business Associate further acknowledges that it is directly liable for civil and criminal penalties for violations of the HIPAA Standards, as specified in Sections 13401(b) (security violations) and 13404(c) (privacy violations) of HITECH.

8.5 No Third Party Beneficiaries. Except as may be provided in Section 4, nothing express or implied in this Agreement is intended to confer, nor shall anything herein confer, upon any person other than the Parties and the respective successors and permitted assigns of the Parties, any rights, remedies, obligations, or liabilities whatsoever.

g. Severability. If any provision of this Business Associate Agreement shall be declared invalid or illegal for any reason whatsoever, then notwithstanding such invalidity or illegality, the remaining terms and provisions of this Business Associate Agreement shall remain in full force and effect in the same manner as if the invalid or illegal provision had not been contained herein, and such invalid, unenforceable or illegal provision shall be valid, enforceable and legal to the maximum extent permitted by law.

d. Covered Entity shall not request Business Associate to use or disclose Protected Health Information in any manner that would not be permissible under the HIPAA Standards if done by Covered Entity, provided however that the Business Associate may use or disclose Protected Health Information for data aggregation or management and administrative activities of Business Associate.

5. Term and Termination

a. Term. The Term of this Business Associate Agreement shall be effective as of the Effective Date, and shall terminate when all of the Protected Health Information provided by Covered Entity to Business Associate, or created or received by Business Associate on behalf of Covered Entity, is destroyed or returned to Covered Entity, or, if it is infeasible to return or destroy Protected Health Information, protections are extended to such information, in accordance with the termination provisions in this Section.

b. Termination for Cause. If either party knows of a pattern of activity or practice of the other party that constitutes a material breach or violation of this Business Associate Agreement, then the non-breaching Party shall provide written notice of the breach or violation to the other party that specifies the nature of the breach or violation. The breaching party must cure the breach or end the violation on or before thirty (30) days after receipt of the written notice. In the absence of a cure reasonably satisfactory to the non-breaching party within the specified timeframe or in the event the breach is reasonably incapable of cure, the non-breaching party may do the following: (i) if feasible, terminate this Business Associate Agreement and the Underlying Agreements; or (ii) if termination of this Business Associate Agreement is infeasible, report the issue to the Secretary.

c. Effect of Termination.

(1) Except as provided in subparagraph (2) of this subsection (c), upon termination of the Underlying Agreements or this Business Associate Agreement, for any reason, Business Associate shall return or destroy all Protected Health Information received from Covered Entity, or created or received by Business Associate on behalf of Covered Entity. This provision shall apply to Protected Health Information that is in the possession of subcontractors or agents of Business Associate. Business Associate shall retain no copies of the Protected Health Information.

(2) In the event that Business Associate determines that returning or destroying the Protected Health Information is infeasible, Business

Associate shall provide to Covered Entity notification of the conditions that make return or destruction infeasible. Business Associate shall extend the protections of this Business Associate Agreement to such Protected Health Information and limit further uses and disclosures of such Protected Health Information to those purposes that make the return or destruction infeasible, for so long as Business Associate maintains such Protected Health Information.

(3) The parties hereto understand and agree that the terms of this Business Associate Agreement are reasonable and necessary to protect the interests of the Covered Entity and the Business Associate.

6. Miscellaneous

a. Regulatory References. A reference in this Business Associate Agreement to a section in the Privacy & Security Rules means the section as in effect or as amended, and for which compliance is required.

b. Survival. The respective rights and obligations of Business Associate under Section 4(c) of this Business Associate Agreement shall survive the termination of this Business Associate Agreement.

c. Interpretation. Any ambiguity in this Business Associate Agreement shall be resolved in favor of a meaning that permits the parties to comply with the HIPAA Standards.

d. No Private Cause of Action. This Business Associate Agreement is not intended to and does not create a private cause of action by any individual, other than the parties to this Business Associate Agreement, as a result of any claim arising out of the breach of this Business Associate Agreement, the HIPAA Standards or other state or federal law or regulation relating to privacy or confidentiality.

e. Amendment. In the event that any law or regulation is enacted or promulgated regarding the protection of health information that is in any way inconsistent with the terms of this Business Associate Agreement or that interferes with either party's obligations with respect to the protection of health information so as to warrant a modification to this Business Associate Agreement or in the event any HIPAA Standard is amended or modified, the parties shall operate in accordance with HIPAA Standards as so amended or modified, without the necessity of amending or modifying the written terms of this Business Associate Agreement.

f. Application of State Law. Where any applicable provision of State law (as designated in subsection (i) below) relates to the privacy of health information and is not preempted by HIPAA, as determined by application of the HIPAA Standards, the parties shall comply with the applicable provisions of State law.

g. Severability. If any provision of this Business Associate Agreement shall be declared invalid or illegal for any reason whatsoever, then notwithstanding such

invalidity or illegality, the remaining terms and provisions of this Business Associate Agreement shall remain in full force and effect in the same manner as if the invalid or illegal provision had not been contained herein, and such invalid, unenforceable or illegal provision shall be valid, enforceable and legal to the maximum extent permitted by law.

h. Governing Law. This Business Associate Agreement shall be interpreted, construed and governed according to the laws of the State of Connecticut, without regard to the conflict or choice of law provisions thereof. Any action or proceeding seeking to enforce any provision of, or based on any right arising out of, this Business Associate Agreement may be brought against any of the parties in the courts of the State of Connecticut, County of Hartford, or any federal court in the District of Connecticut and each of the parties consents to the jurisdiction of such court in any such action or proceeding and waives any objection to venue laid therein. RECITALS

WHEREAS, SFMG is a physician practice located in Hartford, Connecticut that employs or contracts with physicians who are board certified or board eligible in infectious disease (each, a "Physician"); and

WHEREAS, Johnson owns and operates an acute care hospital located in Stafford Springs, Connecticut and has established the need for qualified physicians to render the Services (as defined herein); and

WHEREAS, Johnson desires to engage SFMG to arrange for the provision of Services by the Physicians and SFMG desires to be so engaged.

NOW, THEREFORE, in consideration of the mutual covenants and promises set forth in this Agreement and for such other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, SFMG and Johnson agree as follows:

1. OBLIGATIONS OF SFMG; QUALIFICATIONS OF THE PHYSICIANS

1.1. The Services. SFMG agrees to provide the following professional infectious disease consultation and related administrative services (collectively, the "Services") on behalf of Johnson in accordance with and subject to the terms and conditions of this Agreement:

1.1.1. On-Call Services. SFMG shall make Physicians available to Johnson to provide professional on-call services to patients of Johnson on a twenty-four (24) hour per day, seven (7) day per week basis in accordance with a call schedule established by SFMG (the "On-Call Services"). The designated on-call Physician shall respond by phone to a Johnson physician requesting the on-call Physician's services in accordance with the applicable requirements regarding response time as set forth in the Medical Staff Bylaws of Johnson Memorial Hospital.

1.1.2. Consultations. SFMG shall make a Physician available to provide on-site inpatient consultations, as needed and as agreed upon by SFMG and Johnson (the "Consultative Services"). SFMG shall be entitled to bill and make all collections from patients or third party payors, including Medicare and Medicaid, for professional Consultative Services rendered by a Physician or a locum tenens physician under this Agreement in accordance with Section 4.1 hereof.

1.1.3. Infection Prevention Committee Chair. SFMG shall designate a Physician to serve as the Chairperson of the Johnson Infection Prevention Committee (the "Chair"). The Chair will oversee: an annual review and approval of Johnson Infection Prevention Policies; preparation of an Annual Report of the Infection Prevention Program to Johnson Administration;

infectious disease problem solving assistance to Johnson staff, as requested; and content resource for Department of Public Health, Centers for Medicare and Medicaid Services and The Joint Commission visits. The Chair will also generally be available to attend the Committee's monthly meeting in person or by phone. The foregoing services are collectively referred to herein as the "Chairperson Services." The Chair will provide approximately thirty-four (34) hours of services annually.

1.2. Locums Tenens. Notwithstanding anything contained herein to the contrary, SFMG may engage the services of a locum tenens physician to provide the clinical services to Johnson hereunder when it is determined by SFMG in it sole discretion to be clinically appropriate.

1.3. SFMG's Representations with respect to Physicians. SFMG represents and warrants to Johnson that, to the best of SFMG's knowledge each Physician providing Services hereunder (a) has never has his/her license to practice medicine in any state suspended, revoked or restricted; (b) has never been reprimanded, sanctioned or disciplined by any licensing board or state or local medical society or specialty board; (c) has never been denied membership or reappointment of membership on the medical staff of any hospital and no hospital medical staff membership or clinical privileges of a Physician have ever been suspended, curtailed or revoked; (d) has never been excluded from participation in, or sanctioned by, any state, federal or local health care program, including, without limitation, Medicare or Medicaid; (e) has never been reprimanded, sanctioned or disciplined by a federal or state drug enforcement agency or commission, been denied a federal or state drug enforcement registration number or had a federal or state drug enforcement registration number restricted; and (f) has never been denied professional liability insurance coverage or had such insurance coverage restricted.

1.4. Continuing Qualifications. SFMG shall require Physicians providing Services hereunder to at all times during the term of this Agreement: (a) be duly licensed as a physician under Connecticut law; (b) be Board Certified in infectious disease; (c) be a member in good standing of the active Medical Staff of Johnson Memorial Hospital; (d) hold all clinical privileges on the active Medical Staff of Johnson Memorial Hospital appropriate to the provision of professional services provided by the Physicians hereunder; (e) be a participating provider in the Medicare and Medicaid programs (Titles XVIII and XIX of the Social Security Act, respectively) and not be excluded from, or sanctioned by, any state, federal or local health care program, including, without limitation, Medicare or Medicaid; (f) be insurable under a medical malpractice policy; and (h) maintain unrestricted federal and state drug enforcement registration numbers.

2. OBLIGATIONS OF JOHNSON

2.1. Compliance with Applicable Laws, Regulations and Standards. Johnson shall comply with all applicable laws, rules and regulations of all governmental authorities and accrediting agencies having jurisdiction over Johnson and its medical offices and operations, including, without limitation, (a) Medicare and Medicaid laws, rules and regulations, (b) federal and state laws governing referral of patients, (c) federal and state laws prohibiting discrimination against individuals and (d) federal and state laws governing the confidentiality and privacy of patient health information.

2.2. Space, Equipment, Supplies, Resources and Non-Physician Personnel. Johnson shall provide such space, equipment, supplies, resources, and non-physician personnel, including,

without limitation, allied health professionals, necessary for a Physician's provision of Services and performance under this Agreement.

3. COMPENSATION; BENEFITS

3.1. On-Call Compensation. In consideration of the On-Call Services provided by a Physician under this Agreement, Johnson shall pay SFMG in the amount of One Hundred Seventy-Five Dollars ($175.00) per weekday of coverage and Two Hundred Dollars ($200.00) per weekend day or SFMG-designated holiday. Such amounts shall be payable within thirty (30) days of receipt of an invoice from SFMG.

3.2. Chair Compensation. In consideration of the Chairperson Services provided by the Chair under this Agreement, Johnson shall pay SFMG in the amount of One Hundred Dollars ($100.00) per hour. In addition, Johnson shall pay SFMG the costs of Physician's mileage in accordance with the then-current Internal Revenue Service standard mileage rate. Such amounts shall be payable within thirty (30) days of receipt of an invoice from SFMG.

3.3. Physician Not an Employee of Johnson. It is acknowledged, understood and agreed by the Parties that SFMG is acting as an independent contractor with respect to Johnson in arranging for the provision of the Services of Physicians, and a Physician shall not be deemed to be an employee of Johnson for any purpose whatsoever.

3.4. Non-Referral of Patients. Nothing in this Agreement or in any other written or oral agreement between SFMG and Johnson, nor any consideration offered or paid in connection with this Agreement, contemplates or requires the admission or referral of any patient to Johnson, SFMG or Saint Francis Hospital and Medical Center. Any consideration specified in this Agreement is consistent with what the Parties reasonably believe to be fair market value for the Services.

3.5. Compensation Review. After the first anniversary of this Agreement, the fees set forth above shall be subject to review at the request of either Party. The Parties agree that there shall not be more than one (1) such review per contract.

4. BILLING AND OTHER REIMBURSEMENT REQUIREMENTS

4.1. Billing and Charges. Johnson agrees that SFMG shall have the sole right to set any and all charges for all professional services rendered by a Physician and a locum tenens physician under this Agreement. SFMG shall be entitled to bill and make all collections from patients or third party payors, including Medicare and Medicaid, for professional Services rendered by a Physician or a locum tenens physician under this Agreement, and Johnson hereby assigns to SFMG all monies due to a Physician or a locum tenens physician as a result of providing such professional services. Johnson agrees not to render any bills independently for the professional Services rendered hereunder, and Johnson acknowledges that it has no right, title or interest in or to accounts receivable, or funds otherwise resulting from the rendition by a Physician or a locum tenens physician of such Services.

4.2. Books and Records. Johnson and SFMG shall maintain and make available to all parties financial books and records, and all medical records and charts, in connection with the Services provided hereunder in accordance with industry standards and in compliance with all

applicable state and federal laws and regulations and all requirements for participation and payment associated with private, federal, state, or other public third party payment programs.

4.3. Medicare Compliance and Access by Federal Government. Johnson and SFMG each agree that it will do, and will cause a Physician to do, all things necessary to comply with all Medicare and Medicaid laws, rules, or regulations. Johnson expressly agrees to maintain, for a period of four (4) years after Services are furnished under this contract, all books, records, or other documents relating to Services provided under this contract and the cost thereof, and to provide any documents or information required by the Secretary of the Department of Health and Human Services, the Comptroller General of the United States, or their authorized representatives, as may be required in accordance with Section 1861(v)(1)(I) of the Social Security Act, as amended, and regulations adopted thereunder.

4.4. Notice to SFMG. If Johnson is requested to disclose books, documents or records pursuant to this Section 4, Johnson shall notify SFMG of the nature and scope of such request, and Johnson shall make available, upon request of SFMG, all such books, documents or records during regular business hours.

5. MEDICAL RECORDS

5.1. Ownership of Medical Records. It is acknowledged, understood and agreed by the Parties that Johnson shall have sole and exclusive ownership of any and all medical records, charts, notes and documentation recorded by a Physician or locum tenens physician while providing Services hereunder. Notwithstanding the foregoing, Johnson shall make such records, charts, notes and documentation available to SFMG and any Physician for review or copy upon request for the purpose of defending against any claim or other lawsuit or administrative action against SFMG or a Physician.

6. INSURANCE

6.1. Professional Liability Insurance. During the term of this Agreement, SFMG shall provide, at its expense, professional liability insurance covering all professional services provided by a Physician to Johnson patients in accordance with a Physician's duties under this Agreement, including tail coverage for a Physician's activities following termination of this Agreement. All such professional liability coverage shall have coverage limits of One Million and 00/100 Dollars ($1,000,000.00) per occurrence and Four Million and 00/100 ($4,000,000.00) in the aggregate, costs inclusive.

7. CONFIDENTIALITY

7.1. Confidential Information. The Parties each acknowledge that, while performing their obligations hereunder, the Parties may develop or learn of Confidential Information of the other Party, as defined below. The Parties will at all times hold in confidence all Confidential Information obtained incident to the performance of this Agreement and will never use or disclose any Confidential Information other than as required for the proper performance hereunder or as expressly authorized by the other Party. Without limiting the generality of the foregoing, the Parties each agree to maintain the privacy and confidentiality of information concerning patients in accordance with applicable federal and state law, including, but not limited to, the Health Insurance

Portability and Accountability Act of 1996, and in accordance with SFMG policies and procedures. It is understood and agreed that the restrictions and obligations under this Section 7.1. will continue to apply after the termination of this Agreement, regardless of the reason for such termination. For purposes of this Agreement, "Confidential Information" means any and all information of a Party that is not generally available to the public, including but not limited to the terms of this Agreement, and any information obtained from patients or other third parties with any understanding, express or implied, that it will not be disclosed.

8.2.4. Legal Requirements. In the event legal counsel for either Party advises in good faith that this Agreement or any practices which could be, or are, employed in exercising rights or providing Services under this Agreement pose a material risk of violating any legal requirements, the Parties in good faith shall undertake to revise this Agreement to comply with such legal requirements. In the event the Parties are unable to agree upon the revised terms within thirty (30) days thereafter, either Party may terminate this Agreement immediately upon written notice to the other Party.

8.3. Effect of Termination. Upon expiration or termination of this Agreement, neither Party shall have any further obligation hereunder except for obligations due and owing which arose prior to the date of termination. In the event this Agreement is terminated for any reason during the initial twelve (12) month term, the Parties shall not enter into the same or substantially the same agreement during the remainder of said term.

8.4. Survival. Provisions of this Agreement shall survive any termination if so provided herein or if necessary or desirable to accomplish the purpose of other surviving provisions.

9. INDEMNIFICATION

RE: New Privacy and Security Requirements for Business Associates Under HITECH

Dear Business Associate :

The Health Information Technology for Economic and Clinical Health Act ("HITECH") widens the scope of privacy and security protections available under the Health Insurance Portability and Accountability Act ("HIPAA"); expands the definition of Business Associates[11]; increases the potential legal liability for non-compliance; and provides for more enforcement.

As a Business Associate of Saint Francis, HIPAA now requires that Johnson Professional Associates, PC enter into a Business Associate Agreement with Saint Francis by **September 23, 2013**. Enclosed you will find a Business Associate Agreement between the parties that satisfies the requirements of HIPAA. Please return an executed version to the attention of Adrian Butler at the address listed above, no later than **September 15, 2013**. Shortly thereafter, we will return a fully-executed version to your attention.

The agreement is in addition to any and all contracts for services or products that you have with us.

Be advised that there are a number of significant changes to the obligations as a Business Associate, which are detailed in the January 25, 2013 federal register. While your organization is responsible for its own compliance with HIPAA, we note some of the key features to the updated rules below, which are reflected in the attached Business Associate Agreement:

[11] Under HITECH, a "Business Associate" is a person or entity, other than a member of the workforce of Saint Francis, who performs functions or activities on behalf of, or provides certain services to Saint Francis that involve generally require that covered entities such as Saint Francis and Business Associates enter into contracts to access by the Business Associate to protected health information ("PHI"). A "Business Associate" also is a subcontractor that creates, receives, maintains, or transmits PHI on behalf of another Business Associate.

- All Business Associates must comply with basic requirements of the HIPAA Security Rule.

- Business Associates must formally require their subcontractors who use PHI to comply with HIPAA Rules.

- Business Associates will be directly responsible for their own HIPAA compliance, including their own violations and/or government fines.

Please be mindful of these deadlines as the new HIPAA enforcement provisions are very strict and penalties range up to $1,500,000 for each violation. More information also is available at http://www.hhs.gov/ocr/privacy/.

Sincerely,

Teresa Bolton
General Counsel

Affiliation Analysis

Johnson Memorial Medical Center (JMMC) is an opportunity-rich organization with the following distinct entities:

- **Johnson Memorial Hospital (JMH)**- a 92-bed acute care hospital located in Stafford Springs, CT
- **Evergreen Health Care Center (EHCC)**- a 180-bed nursing and rehabilitation facility, including sub-acute rehab and a Memory Support Unit, co-located with JMH in Stafford Springs, CT
- **Home and Community Health Services (H&C)**- our visiting nurse association located in Enfield, CT
- **Johnson Surgery Center (JSC)**- a four-OR outpatient surgery center with a complete array of radiological and laboratory services, located in Enfield, CT

JMMC, in conjunction with the right partner organization, would be optimally positioned to exert significant influence on the key markets in Northeastern CT, including Stafford, Willington, Enfield, Suffield, East Windsor, Somers, Ellington, and Tolland. These communities represent over 150,000 lives.

JMMC's goal is to achieve financial and operational stability through the establishment of a mutually-respectful partnership and close strategic and operational affiliation with a larger healthcare system.

Process Disclosure

JMMC is committed to transparency in the process of how we will select a partner. This document will be provided to each potential partner so that each interested party shall have the identical information upon which to base their written proposal and create a presentation to give to the JMMC Board of Directors

This Affiliation Analysis document is being provided to organizations who have expressed interest in engaging in productive, good-faith discussions with JMMC and includes, in alphabetical order:

- Baystate Health, Springfield, MA
- Eastern CT Health Network, Manchester, CT
- Hartford HealthCare, Hartford, CT
- Sisters of Providence Health System/Mercy Medical Center, Springfield, MA
- St. Francis Care, Hartford, CT

Potential affiliates are asked to review and complete the attached Affiliation Analysis Grid if they desire to be considered in the evaluation process. Responses may be completed within the grid of this document or by using attachments. The potential affiliate may, and is, in fact, encouraged to provide additional information and/or suggestions they see as being beneficial for an affiliation with JMMC. The document provided by the potential affiliate will serve as the basis for the preliminary meeting with JMMC.

Please provide your responses to JMMC as soon as possible, but not later than 48 hours prior to your scheduled meeting. Meetings will be scheduled on Wednesday evenings in early June. We hope to conclude all meetings before the end of July.

Each interested potential affiliate partner is asked to meet with the JMMC Board of Directors and Senior Administrative Team. Discussions are anticipated to be last approximately 90 minutes each. The presentation team should be limited to three individuals, preferably decision makers, for the potential affiliate. During the time allotted, the potential affiliate should be prepared to discuss its vision for an affiliation between JMMC and their organization and address each item from the Affiliation Analysis Grid. Given these considerations, the presentation should ideally address:

- Short-term plan for ensuring JMMC financial stability
- Medium range strategy for supporting current and/or augmenting mutual growth and market consolidation
- Long-term vision for the partner affiliation

Exclusivity Guarantee

If your organization is selected as the affiliation partner, JMMC will execute an exclusive agreement to move forward, based upon a Memorandum of Understanding created from the Affiliate Analysis Grid provided. Firm, mutually-agreed upon timeline-driven milestones will be established. It is JMMC's desire that some of its needs shall be met within a very short timeframe (i.e. 30-90 days) using interim Agreements, e.g. Provider Services or Management Agreements that shall remain in place until the final, signed agreement is in effect.

Confidentiality

As noted above, all potential affiliates are being provided with identical information from JMMC upon which to base their preliminary proposal. Information provided to JMMC by potential affiliation partners will be held as confidential to the potential affiliation partner, and will not be shared with any competitor organization.

(c) At the Closing, upon satisfaction or waiver by Saint Francis of the Conditions, the Initial Payment will be released to Johnson and Johnson will deliver to Saint Francis and contemporaneously file with the Office of the Connecticut Secretary of the State the amendments to the Johnson Entities' organizational documents contemplated in Section 3.1. (i) incurrence of any additional debt other than Permitted Debt (as defined in the HFG Agreement as in effect on the date hereof) and debt necessary to finance the extension of the Town of Stafford sewer line to Johnson;

(ii) prepayment of any other debt during the continuance of an event of default under the HFG Agreement or any of the documents governing Johnson's other indebtedness;

(iii) creation of any liens other than Permitted Liens and liens in connection with the extension of the Town of Stafford sewer line to Johnson;

(iv) any lease under which the total payment obligations during the term of the lease would exceed $1,000,000;

Such fee shall be payable only to the extent the proceeds of such Alternative Transaction exceed the amounts necessary to satisfy all secured debt owed by Johnson at the time of such Alternative Transaction, and shall not be payable in the event Saint Francis breaches any of its obligations provided herein, including the obligation to make an Additional Payment.

6. CALL OPTION. At any time during the Exclusivity Period, Saint Francis will have the right, subject to compliance with all applicable laws and obtaining any necessary government or third party approvals, but not the obligation, to cause Johnson (meaning for these purposes each and all of the Johnson Entities, and not merely any one of the Johnson Entities) to be merged with or into Saint Francis, to acquire all of the assets of Johnson, or to become the sole member of Johnson, so long as Saint Francis, as the surviving or parent entity or owner, assumes or otherwise satisfies all of Johnson's then-existing indebtedness.

To the extent permitted by law, the Receiving Party agrees that it will and will use its reasonable efforts to cause the Agents to maintain the confidentiality of all such information, documents or instruments acquired by or delivered to the Receiving Party and the Agents in connection with the negotiation of this Agreement or in compliance with the terms, conditions and covenants hereof and only to disclose such information, documents and instruments to such duly authorized persons as are necessary to effect the transactions contemplated hereby. The Parties further agree that if the transactions contemplated hereby are not consummated, the Receiving Party and its Agents will return all documents and instruments acquired from the Providing Party or its Affiliates and all copies thereof in their possession to the Providing Party, and the Receiving Party will not use, and will not

knowingly permit others to use, any such Confidential Information in any way to compete with the Providing Party or Providing Party's respective Affiliates, successors or assigns or in a manner which would be detrimental to the business, financial affairs or reputations of the Providing Party or Providing Party's respective officers and Affiliates, successors and assigns. Each Party for itself and its Agents recognizes that any breach of this Section would result in irreparable harm to the Providing Party and the Providing Party's respective officers and Affiliates and that therefore either the Providing Party, or any of the Providing Party's respective officers and Affiliates shall be entitled to an injunction to prohibit any such breach by the Receiving Party and the Receiving Party's Agents in addition to all of their other legal and equitable remedies. Nothing in this Section shall prohibit the use of such Confidential Information, documents or information for such governmental filings as are required by law or governmental regulations or the disclosure of such Confidential Information if such disclosure is compelled by judicial or administrative process or, in the reasonable opinion of a Party's counsel, other requirements of law, provided in the case of compelled disclosure, the Receiving Party shall promptly notify the Providing Party of the same, join with the Providing Party in seeking confidential treatment of the Receiving Party's Confidential Information required to be disclosed, and, in any event, disclose only so much of the Receiving Party's Confidential Information as may be necessary to preclude the Receiving Party from being in violation of applicable law. For purposes hereof, Confidential Information shall not include information (a) ascertainable or obtained from public or published information, (b) received from a third Party not known by the Receiving Party to be under an obligation to the Providing Party to keep such information confidential, (c) which is or becomes known to the public (other than through a breach of this Agreement), (d) which was in the Receiving Party's possession prior to the disclosure thereof to the Receiving Party in connection herewith, or (e) which the Providing Party utilized in any materials used in connection with the Providing Party's solicitation of buyers for the assets of any Johnson Entity (prior to any such buyers executing an applicable confidentiality agreement), as applicable. Notwithstanding anything contained herein, the Parties acknowledge and understand that this Agreement and all Schedules thereto may be required to be filed by the Johnson Entities with OHCA and will, at that time, become a matter of public record (subject to applicable exemptions in the Connecticut Freedom of Information Act) and will be the subject of public hearings. It is further understood and agreed that any such filings or hearings and any public discussions or releases regarding any such filings or hearings shall not constitute or be interpreted as a violation of this Section 13.9. This Section 13.9 supersedes the existing Confidentiality Agreement between Johnson and Saint Francis dates as of November 28, 2011.

13.10 Waiver. The waiver by any Party of a breach or violation of any term or provision of this Agreement shall not operate as, or be construed to be, a waiver of any subsequent breach of the same provision by any Party or of the breach of any other term or provision of this Agreement. The delay or a failure of a Party to transmit any written notice hereunder shall not constitute a waiver by such Party of any default hereunder or of any other or further default under this Agreement except as may expressly be provided for by the terms of this Agreement.

13.11 Interpretation. Each of the Parties has agreed to the use of the particular language of the provisions of this Agreement including all attached Schedules and any questions of doubtful interpretation shall not be resolved by any rule or interpretation against the draftsman but rather in accordance with the fair meaning thereof, having due regard to the

benefits and rights intended to be conferred upon the Parties hereto and the limitations and restrictions upon such rights and benefits intended to be provided.

13.12 Notice. Any notice, demand or communication required, permitted, or desired to be given hereunder shall be in writing and shall be deemed effectively given when personally delivered, when received by overnight courier, or five (5) calendar days after being deposited in the United States mail by prepaid certified mail, return receipt requested, addressed as follows:

13.13 Severability. In the event any provision of this Agreement is held to be invalid, illegal or unenforceable for any reason and in any respect, such invalidity, illegality, or unenforceability shall in no event affect, prejudice or disturb the validity of the remainder of this Agreement, which shall be in full force and effect, enforceable in accordance with its terms, including, without limitation, those terms which contemplate or require the further agreements of the Parties. Furthermore, in lieu of such illegal, invalid or unenforceable provision, there shall be added automatically as a part of this Agreement a provision as similar in terms to such illegal, invalid or unenforceable provision as may be possible and still be legal, valid or enforceable.

13.14 Gender and Number. Whenever the context of this Agreement requires, the gender of all words herein shall include the masculine, feminine and neuter, and the number of all words herein shall include the singular and plural.

13.15 Divisions and Headings. The divisions of this Agreement into Sections and subsections and the use of captions and headings in connection therewith are solely for convenience and shall have no legal effect in construing the provisions of this Agreement.

13.16 Consented Assignment. Anything contained herein to the contrary notwithstanding, this Agreement shall not constitute an agreement to assign any claim, right, contract, license, lease, commitment, sales order or purchase order if an attempted assignment thereof without the consent of another Party thereto would constitute a breach thereof or in any material way affect the rights of the Johnson Entities thereunder, unless such consent is obtained. If such consent is not obtained, or if an attempted assignment would be ineffective or would materially affect the Johnson Entities' rights thereunder so that Saint Francis would not in fact receive all such rights, the Johnson Entities shall cooperate in any reasonable arrangement designed to provide for Saint Francis the benefit under any such claims, rights, contracts, licenses, leases, commitments, sales orders or purchase orders, including, without limitation, enforcement, at no out-of-pocket cost to the Johnson Entities, of any and all rights of the Johnson Entities against the other Party or Parties thereto arising out of the breach or cancellation by such other Party or otherwise.

13.17 No Third-Party Beneficiaries. The terms and provisions of this Agreement are intended solely for the benefit of Saint Francis and the Johnson Entities and their respective permitted successors or assigns, and it is not the intention of the Parties to confer, and this Agreement shall not confer, third party beneficiary rights upon any other person.

13.18 Entire Agreement/Amendment. This Agreement supersedes all prior contracts, understandings and agreements, whether written or oral, and constitutes the entire agreement of the Parties respecting the within subject matter, including without limitation the Letter of Intent and the Term Sheet, and no Party shall be entitled to benefits other than those specified herein. As between or among the Parties, no oral statements or prior written material not specifically included herein shall be of any force and effect; the Parties specifically acknowledge that in entering into and executing this Agreement, the Parties rely solely upon the representations and agreements contained in this Agreement and no others. No terms, conditions, warranties, or representations, other than those contained herein and no amendments or modifications hereto, shall be binding unless made in writing and signed by the Party to be charged.

13.19 Counterparts. This Agreement may be executed in multiple originals or counterparts, each and all of which shall be deemed an original and all of which together shall constitute but one and the same instrument. The facsimile signature of any Party to this Agreement or any contract delivered in connection with the consummation of the transactions described herein or a PDF copy of the signature of any Party to this Agreement or any contract delivered in connection with the consummation of the transactions described herein delivered by facsimile or electronic mail for purposes of execution or otherwise, is to be considered to have the same binding effect as the delivery of an original signature on an original contract.

13.20 Press Releases. (a) Any release to the public of information concerning this Agreement or the transactions contemplated hereby (including without limitation any disclosure of the type contemplated by the penultimate sentence of Section 13.9) will be made only in the form and manner approved by each of the Parties hereto, and (b) each Party shall furnish the other with drafts of all such releases prior to their publication or dissemination.

13.21 Enforcement of Agreement. The Parties hereto agree that irreparable damage would occur in the event that any of the provisions of this Agreement was not performed in

accordance with its specific terms or was otherwise breached. It is accordingly agreed that the Parties shall be entitled to an injunction or injunctions (without the need to post bond or other security) to prevent breaches of this Agreement and to enforce specifically the terms and provisions hereof in any court of competent jurisdiction, this being in addition to any other remedy to which they are entitled at law or in equity.

13.22 Legislative Limitations; Compliance with Law.

(a) The Parties recognize that this Agreement will at all times be subject to applicable local, state and federal statutory and common law, regulations of state and federal agencies, and state and federal judicial and administrative decisions, including without limitation, the Social Security Act, the Rules and Regulations of the Department of Health and Human Services, the Public Health and Safety provisions of the Connecticut General Statutes and the regulations thereunder and the Code and the Regulations (the "Laws and Regulations"). The Parties further recognize that changes and amendments in the Laws and Regulations may materially affect this Agreement.

(b) Notwithstanding any other provisions of this Agreement, if: (i) a Party at any time determines upon the reasonable advice from counsel that any provision of this Agreement does or may violate applicable Laws and Regulations then in effect or to become effective as of a date certain; (ii) the governmental agencies (or their representatives) that administer Medicare or Medicaid, or any other federal, state or local government or agency, should pass, issue, or promulgate any law, rule, regulation, standard, or interpretation at any time while this Agreement is in effect that materially and adversely affects any Party's rights or obligations hereunder; or (iii) any agency of any federal, state or local government issues an order, decree or ruling or takes any other action that will materially and adversely affect, restrict or prohibit the ability of a Party to perform its obligations under this Agreement; then the Parties shall negotiate in good faith an appropriate modification to the terms and conditions of this Agreement to accommodate such provisions of applicable Laws and Regulations or judicial or administrative decisions and to effectuate the existing terms and intent of this Agreement to the greatest possible extent consistent with the requirements of such law or decision. Should the Parties fail to reach agreement as to such modification of this Agreement within ninety (90) days, then any Party may terminate this Agreement on ten (10) days' notice.

(c) The Parties intend that all the terms hereof and their conduct hereunder comply at all times with all provisions of applicable law, including without limitation the Medicare and Medicaid fraud and abuse statute, 42 U.S.C. § 1320a-7b, the federal Stark law, 42 U.S.C. § 1395nn, and related authority, as in effect or amended from time to time. Should any Party at any time determine upon advice from counsel that any provision of this Agreement is or may be in violation of any provision of applicable law, the Parties agree to immediately remove such provision, and to take all reasonable and appropriate steps so as to comply with applicable law and requirements, and to negotiate in good faith to amend this Agreement so as to effect their intent while complying with applicable law and requirements. Should the Parties fail to reach agreement as to such modification of this Agreement within ninety (90) days, any Party may terminate this Agreement on ten (10) days' notice.

(d) Without limiting the foregoing, this Agreement shall not limit any rights or obligations of any Party in respect of compliance audits or other similar activities, and each Party agrees to cooperate with the other Parties and their Affiliates in connection

with any compliance audit, investigation, or other similar activity conducted by or on behalf of each Party. Each Party shall be responsible for the costs of any audit, investigation or similar activity conducted with respect to such Party's activities.

13.23 Regulatory Provisions.

(a) This Agreement is not conditioned in any way on any Party, or any Affiliate of any Party, referring patients to any other Party, or any Affiliate of any other Party.

(b) Payments to Parties or other Persons pursuant to this Agreement or the other agreements contemplated hereby will not be determined (directly or indirectly) based on the volume or value of any actual or anticipated referrals by such Party or other Person to any other Party, any other Person, or any Affiliate of any of the foregoing.

(c) Each Party and its Affiliates are expressly permitted to refer business to any other entities.

13.24 Dispute Resolution.

(a) Mediation by the Parties. Any deadlock, dispute, or controversy arising out of or relating to this Agreement or the breach thereof shall first be referred to the Chief Executive Officer of Saint Francis and the Chief Executive Officer of JMMC, who shall exert their good faith efforts to achieve a resolution. If any such dispute is not resolved by such group within thirty (30) days after notice thereof (or such longer period as the parties may then agree) (the "Voluntary Resolution Period"), then any party to such dispute may submit, within thirty (30) days after the end of the Voluntary Resolution Period, the dispute or controversy to arbitration pursuant to Section 13.24(b).

(b) Arbitration. Any deadlock, dispute or controversy out of or relating to this Agreement or the breach hereof and not resolved under Section 13.24(a) shall be resolved by arbitration pursuant to binding arbitration in Connecticut under the auspices of The American Health Lawyers Association ("AHLA") pursuant to the AHLA Rules of Procedure for Arbitration, before a single arbitrator with experience in the arbitration of disputes of a similar nature. The arbitrator shall have authority to award compensatory damages only and equitable relief only as permitted under this Agreement or state law. The arbitrator shall have no authority to award consequential damages, punitive damages or multiple damages. Each Party will be responsible for its own legal fees and other expenses incurred in connection with such arbitration proceeding, except that the costs of the arbitrator shall be borne equally by the Parties that are involved in the dispute (i.e., Saint Francis shall bear one-half and the Johnson Entities shall bear one-half). The decision of the arbitrator shall be final and binding upon the Parties, and judgment confirming the arbitrator's award may be enforced in any court of competent jurisdiction. The parties hereby waive any right of appeal to any court on the merits of the dispute.

(c) Equitable Relief. The foregoing provisions for mediation and arbitration shall not prevent a Party from applying for and obtaining injunctive or other equitable relief as provided elsewhere in this Agreement or by showing that, in the absence thereof, the rights of such Party cannot be adequately protected.

13.25 Compliance with ERDs.

(a) Saint Francis is organized and operates under the sponsorship of the Roman Catholic Church, and conducts its activities in accordance with the ERDs, as the same may be amended from time to time. The ERDs are applicable to Saint Francis as a Catholic health care institution in relation to its own operations, activities, and administration, and to the manner in which Saint Francis may collaborate or cooperate with Johnson and the Johnson entities as non-Catholic institutions.

(b) Saint Francis will conduct its own activities so that Saint Francis conforms with the ERDs, and so as to avoid any perception by others that Saint Francis has compromised its moral principles by participating in acts that do not conform with the ERDs.

(c) Nothing contained in this Agreement shall require or be deemed to require Saint Francis to participate with Johnson in any activity that does not conform with the ERDs, or otherwise act in any manner that Saint Francis, in its sole discretion, believes could cause Saint Francis to violate the ERDs, or would create any perception by others that Saint Francis has compromised its moral principles by participating in acts that do not conform with the ERDs.

(d) Saint Francis's activities in relation to Johnson always will ensure that any services provided by Saint Francis, and any joint activities among Saint Francis and Johnson, do not entail involvement by Saint Francis with any activities that do not conform with the ERDs. Accordingly, none of Saint Francis's personnel will be involved in any procedures, programs, or activities of, by, or on behalf of Johnson that do not conform with the ERDs, Saint Francis shall not have joint or shared responsibility for any such activities, and Saint Francis shall not share or have involvement with any governance, financial, administrative, or support functions related to any such activities.

(e) In the event that Saint Francis, at any time in its sole discretion, believes that any services provided by Saint Francis, or any joint activities between Saint Francis and Johnson pursuant to this Agreement, or any activities of Johnson, pursuant to the provisions of this Agreement, could cause Saint Francis to violate the ERDs, or would lead others to perceive that Saint Francis has compromised its moral principles by participating in acts that do not conform with the ERDs, then Saint Francis will, at its option and in its sole discretion, terminate this Agreement or Saint Francis's participation in such services or activities.

13.26. Prevailing Purpose. The Parties agree that in performance of this Agreement and the other agreements contemplated hereby, they will place charitable purposes ahead of profit-making purposes.

13.27 No Incidental or Consequential Damages. In no event shall either Party be liable for special, indirect or consequential damages, whether or not caused by or resulting from the negligence of such Party, and whether or not such Party has been advised of the possibility of such damages.

(e) (i) There are no underground or above-ground storage tanks located on the Real Property, (ii) there is no friable, unmanaged asbestos-containing material (as defined under Environmental Laws) contained in or forming part of any of the Real Property buildings, other than asbestos-containing materials that are being maintained in compliance with applicable Environmental Laws; and (iii) there are no PCBs or PCB-containing items unlawfully contained in or forming part of any of the Real Property buildings; and

(f) The operations of the Business are in material compliance with applicable laws concerning Medical Waste.

Disclosures:

1. See attachment entitled "JMMC Stafford Property Storage Tank Locations" for locations of underground and above-ground storage tanks at the Facilities located at 201 Chestnut Hill Road, Stafford Springs, Connecticut.

2. **Drinking Water Order.** The Connecticut Department of Public Health ("DPH") issued Order No. DWS 08-134-616 which requires JMH to monitor drinking water that comes from its well field, report the results and submit plans for review and approval by DPH for the upgrade of the drinking water supply system to abate the uranium found in the well water. Under the Amended Order which has been negotiated with DPH, JMH and DPH have agreed on plans and specifications for JMH to construct improvements to the well system and report to DPH on or before July 1, 2012 that the work has been completed.

3. **Sewer Order.** The Connecticut Department of Environmental Protection ("DEP") issued Order No. WC-5506 which is a Consent Order (the "Sewer Order") which requires JMH to perform repairs or replacements to the aging on-site wastewater treatment system at JMH. The Sewer Order requires a short-term and a long-term solution. The short-term work has been completed in accordance with the Sewer Order, and JMH has been reporting monthly to DEP as required on the status of the short-term solution. Under the long term solution, JMH had until March 30, 2011 to submit to DEP for review and written approval a schedule for: (i) the investigation of and remedial action alternatives to abate any pollution at the site arising from the operation of the on-site sewage treatment system including a detailed estimate of the cost of performing such remedial actions or (ii) the construction of sanitary sewers to connect the site to the Stafford Water Pollution Control Facility pursuant to the DEP's Approval of Plan and Specifications dated November 27, 2007; the schedule was to provide for completion of the preferred remedial actions as soon as possible but not later than December 31, 2014. On March 22, 2011 JMH provided the DEP a proposed schedule for construction of the sanitary sewer line. The schedule calls for the commencement of construction on or about March 1, 2012; the project is expected to take one year to complete. As of the last monthly status report submitted to the newly renamed Department of Energy and Environmental Protection ("DEEP"), DEEP has still not provided comments or approval of the schedule.

4. **Commissioner of Environmental Protection v. Johnson Memorial Hospital,** HHD-CV-07-4031097-S, CT Superior Court, Hartford: This is a civil enforcement action brought by the DEP against JMH, which was filed in July 2007 in six counts in which the DEP sought civil penalties and temporary and permanent injunctions prohibiting JMH from violating the hazardous waste management regulations, preventing JMH from maintaining a discharge to the waters of the state and violating its air permit. Five of the six counts arise from allegations relating to the use of an improper 2500 gallon underground storage tank for the storage of x-ray developer fixer and the release of the developer fixer from the tank. Use of that tank ended in April 2004. Part of the injunctive relief sought is an order requiring the investigation and remediation of the release of x-ray development fixer. The sixth count alleges that JMH violated its general air permit by submitting 10 months late its annual compliance certification for 2005. The complaint did not allege any other violation with respect to the air permit. The DEEP has filed a claim in the bankruptcy proceeding for any civil penalties which may arise out of this litigation; those penalties will be paid from the bankruptcy estate and not by JMH. The part of the remedy sought in this litigation that will not be disposed of though the bankruptcy proceeding involves the imposition of injunctive relief against JMH by way of an order requiring the investigation and remediation of the release of the x-ray developer fixer. By draft dated April 10, 2012, DEEP proposed a Stipulated Judgment to dispose of this matter. The draft calls for JMH to develop a groundwater monitoring plan, conduct the plan, and if necessary, develop a remediation plan based on the results of the groundwater monitoring plan. In addition, the stipulation settles a late claim of the DEEP with respect to waste character determinations; JMH is to have its wastes streams reviewed and submit a report to DEEP as to the results. JMH has received proposals from its consults to do this work.

Schedule 9.15

Medical Staff Matters

Except as set forth on Schedule 9.15 or in a writing delivered by the Johnson Entities to Saint Francis which specifically makes reference to this Section 9.15, there are no adverse actions with respect to any medical staff members of the Hospital or any applicant thereto for which a medical staff member or applicant has requested a judicial review hearing which has not been scheduled or has been scheduled but has not been completed, and there are no pending or, to the knowledge of the Johnson Entities, threatened disputes with applicants, staff members, or health professional affiliates, and the Johnson Entities know of no basis therefor, and all appeal periods in respect of any medical staff member or applicant against whom an adverse action has been taken have expired.

Disclosure:

1. Prince v. Johnson Memorial Hospital. This action was commenced on May 11, 2011 by service of a complaint on JMH. Dr. Renee Prince is an orthopedist who had her clinical privileges at JMH terminated. Dr. Prince has sued JMH seeking damages, injunctive relief, and other unspecified relief based upon her alleged claims of breach of contract and tortious interference with her contractual relationships. The injunctive relief sought by Dr. Prince is a court order requiring reinstatement of her clinical privileges at JMH. This is the fourth related action brought by Dr. Prince. The first two actions were dismissed by the Court. The third action (which was brought by Dr. Prince on March 21, 2011) was withdrawn by Dr. Prince after JMH sought to have the action dismissed. JMH will vigorously defend this fourth lawsuit. No insurance coverage is available for this matter.

RECITALS

Saint Francis and Johnson are parties to a Master Affiliation Agreement dated as of July 12, 2012 (the "Master Affiliation Agreement"). Capitalized terms used in this Amendment and not otherwise defined shall have the meanings assigned to those terms in the Master Affiliation Agreement.

Saint Francis and Johnson desire to amend the Master Affiliation Agreement as more fully set forth below.

NOW, THEREFORE, Saint Francis and Johnson agree as follows:

1. Advances. Saint Francis may, in its sole discretion, make advances ("Advances") to Johnson in the amount of up to One Million Dollars ($1,000,000), subject to the terms and conditions of this Amendment. Advances will be made on an as-needed basis and Johnson will use the proceeds of Advances solely for general working capital purposes.

2. Notice of Borrowing Request. Johnson shall submit all requests for Advances in writing, specifying the purposes for which the proceeds of each Advance shall be used.

3. Repayment. Johnson shall repay all Advances on or before August 31, 2013. In the event that Johnson does not repay the Advances on or before August 31, 2013, the Advances will accrue interest at the Prime Rate (as defined below) plus two percentage points (2%) until repaid in full; provided, however, that such interest shall not begin to accrue until October 1, 2013. The "Prime Rate" as of any given date shall mean the rate most recently published in the Wall Street Journal, Eastern Edition, in its Money Rates table as the "prime rate".

4. Amendment to Master Affiliation Agreement. Sections 2.2 (a) and (b) of the Master Affiliation Agreement are amended and restated to read in their entirety as follows (additions are indicated by underlining):

> (a) Saint Francis will have the option, in its sole discretion, to make the following additional payments (together with the First Additional Payment, the "Additional Payments") to Johnson on or before October 1 of each year through and including October 1, 2016, in consideration of which Saint Francis will have the additional governance rights and exclusivity rights set forth in Sections 3 and 4, below:

iv. On or before October 1, 2016: $500,000

"(b) Saint Francis shall notify Johnson on or before June 1 of each year whether it will make the next succeeding Additional Payment on October 1 of that year; provided, however, that with respect to the Additional Payment to be made on or before October 1, 2013, Saint Francis shall so notify Johnson on or before August 15, 2013. Time is of the essence with respect to this notice, such that if Saint Francis fails to give notice to Johnson on or before August 15, 2013 (with respect to the Additional Payment to be made on or before October 1, 2013) or June 1 of any subsequent year that Saint Francis either will or will not make the next succeeding Additional Payment, it will be deemed that Saint Francis has elected not to make the next succeeding Additional Payment."

5. Conditions to SFC's Obligation to Make Advances. Without limiting Saint Francis's discretion to elect whether or not to make Advances, Saint Francis's agreement to make Advances is subject to satisfaction of the following conditions precedent:

a. Healthcare Finance Group, Inc. ("HFG") and People's United Bank ("People's") must provide their written consent to this Amendment and the transactions contemplated by this Amendment.

b. People's must agree (i) to defer payments of principal and interest due on April 1, 2013, May 1, 2013, June 1, 2013, July 1, 2013, August 1, 2013, and September 1, 2013, under the People's Financing Documents until October 1, 2013, and (ii) not to declare an event of default by reason of such deferral.

d. HFG and Johnson must have entered into that certain Consent Letter, Second Amendment and Forbearance Agreement dated as of May __, 2013, in form and substance satisfactory to SFC.

e. Johnson shall execute and deliver to Saint Francis a promissory note in the form attached hereto as Exhibit A.

Saint Francis and Johnson are parties to a Master Affiliation Agreement dated as of July 12, 2012 (as amended to date, the "Master Affiliation Agreement"). Capitalized terms used in this Amendment and not otherwise defined shall have the meanings assigned to those terms in the Master Affiliation Agreement.

Johnson has asked Saint Francis to provide credit support in the amount of up to Two Million Dollars ($2,000,000) (the "Credit Support") related to Johnson's workers' compensation insurance policy (the "Workers' Compensation Policy"). The Credit Support will be in the form of a letter of credit (the "Letter of Credit") issued by Bank of America or another financial institution.

As a condition to Saint Francis providing the Credit Support, Johnson has agreed to reimburse Saint Francis, on demand, for any amounts Saint Francis is required to pay in respect of the Credit Support.

In furtherance of the foregoing, Saint Francis and Johnson desire to amend the Master Affiliation Agreement as more fully set forth below.

NOW, THEREFORE, Saint Francis and Johnson agree as follows:

1. Credit Support. Saint Francis agrees to provide the Credit Support as described above. The Credit Support will be limited to providing security for Johnson's obligations under the Workers' Compensation Policy in respect of claims based on events occurring between May 31, 2014 and May 31, 2015.

2. Reimbursement of Credit Support Expenses. Johnson will reimburse Saint Francis, on demand, for any expenses that Saint Francis incurs in respect of the Credit Support (each, a "Credit Support Expense"), including without limitation any fees incurred by Saint Francis in connection with issuance of the Letter of Credit.

3. Credit Support Fee. (a) In addition to Johnson's obligation to reimburse Saint Francis for Credit Support Expenses, Johnson will pay Saint Francis an annual fee for providing the Credit Support (the "Credit Support Fee") in an amount equal to five percent (5%) of the face amount of the Letter of Credit. The Credit Support fee will be payable in two equal installments, the first on June 15, 2014 and the second on July 15, 2014.

(b) Johnson and Saint Francis agree that the Credit Support Fee represents their best judgment of the fair market value of the Credit Support.

(c) Johnson and Saint Francis, on their behalf and on behalf of each of their affiliates, acknowledge and agree that that the provision by Saint Francis of the Credit Support is not intended to constitute remuneration in exchange for, or in order to induce, (i) the referral of individuals for the furnishing, or arranging for the furnishing, of any item or service for which payment may be made by a governmental third-party payor, or (ii) the purchasing, leasing, ordering of any good, facility, service or item for which payment may be made by a governmental third-party payor. Johnson and Saint Francis acknowledge that the Credit Support is not conditioned in any way on either Johnson or Saint Francis, or its affiliates, referring patients to the other party, or its affiliates, and each of Johnson and Saint Francis and its affiliates shall remain free to refer patients to any other entities or healthcare facilities.

4. Repayment of Indebtedness for Borrowed Funds. Pursuant to the First Amendment to Master Affiliation Agreement and Interim Financing dated as of May 17, 2013 (the "First Amendment"), Saint Francis has made cash Advances (as defined in the First Amendment) to Johnson totaling $350,000. In consideration of Saint Francis furnishing the Credit Support, Johnson will, contemporaneous with the provision of the Credit Support, repay the cash Advances.

5. Interest, Costs, Expenses. Any amounts owed by Johnson to Saint Francis in respect of the Credit Support shall accrue interest at the Prime Rate (as defined below) plus two percentage points (2%) from the date due until repaid in full. The "Prime Rate" as of any given date shall mean the rate most recently published in the Wall Street Journal, Eastern Edition, in its Money Rates table as the "prime rate". Johnson will reimburse Saint Francis for any costs and expenses, including legal fees, incurred by Saint Francis in connection with the collection of amounts owed by Johnson in respect of any Credit Support Payments.

6. Master Affiliation Agreement to Remain in Effect. Except as modified by this Amendment, the terms of the Master Affiliation Agreement shall remain unchanged and in full force and effect.

7. Counterparts. This Amendment may be executed in separate counterparts, each of which will constitute an original and all of which will constitute one and the same instrument.

Saint Francis hereby acknowledges that the Lenders in their discretion from time to time in the ordinary course of their business may make overadvances to the Borrowers, or overadvances may occur which overadvances will be entitled to be secured by the HFG Collateral and which overadvances will also be subject to the priorities and have the benefit of the subordination set forth in Section 2 hereof.

6. Agreement Related to Bankruptcy. Saint Francis hereby agrees with HFG that in the event of: any assignment by the Borrowers for the benefit of creditors; any bankruptcy case or proceedings are instituted by or against the Borrowers; the appointment of any receiver for the Borrowers or their business or assets; or any dissolution, liquidation or other winding up of the affairs of the Borrowers; then in all such cases, respectively, the officers or members of the Borrowers, and any assignee, trustee in bankruptcy, receiver, and/or other Person or Persons in charge of the Borrowers' assets or property shall pay to HFG the full amount of the Senior Obligations before making any payments of any nature with respect to the Junior Obligations.

7. Notices.

(a) HFG shall, simultaneous with any delivery of such notice to the Borrowers, provide written notice (an "HFG Default Notice") to Saint Francis of any (a) Event of Default (as defined in the HFG Loan Documents); or (b) event that with the passage of time and failure to cure, would result in the occurrence of a "default" or "Event of Default" under the HFG Loan Documents; provided, however, that failure to give such notice shall not affect the other rights and remedies of HFG against the Borrowers or Saint Francis under the HFG Loan Documents or this Intercreditor Agreement (as applicable).

(b) Saint Francis shall, simultaneous with any delivery of such notice to the Borrowers, provide written notice (a "Saint Francis Event Notice") to HFG of any (a) breach or default under any Designated Saint Francis Document, including, but not limited to, a breach of the exclusivity provisions of Section 4 of the Master Affiliation Agreement; (b) event that, with the passage of time and failure to cure, would result in the occurrence of a breach or default under any Designated Saint Francis Document; (c) termination of any Designated Saint Francis Document by any party thereto; (d) event that, with the passage of time and failure to cure, would result in any Saint Francis Plan Payment or the Discharge Fee becoming due and payable by the Borrowers to Saint Francis; provided, however, that failure to give such notice shall not affect the other rights and remedies of Saint Francis against the Borrowers or HFG under the Saint Francis Documents or this Intercreditor Agreement (as applicable).

8. Limitation on Restricted Remedies.

(a) No Restricted Remedy may be initiated by Saint Francis except as provided herein.

(b) No Restricted Remedy may be initiated by Saint Francis for a period of sixty (60) days (the "Standstill Period") after a Trigger Event unless HFG shall consent in writing to such Restricted Remedy. On and after the day that is sixty (60) days after the occurrence of a Trigger Event, unless such Trigger Event has discontinued, Saint Francis shall be entitled to initiate a Restricted Remedy without the consent of HFG; provided that at least three (3) business days prior to initiating such Restricted Remedy, Saint Francis shall give written notice to all parties to this Agreement (i) certifying that the Standstill Period has elapsed, (ii) certifying that the Trigger Event remains in existence, and (iii) of the type of Restricted Remedy to be initiated. At any time (including, without limitation, during the Standstill Period and during the three (3) business day notice period thereafter) HFG shall have the right (but not the obligation) to cure any such Trigger Event of the Borrowers, but HFG shall not be under any obligation to cure any such Trigger Event by the Borrowers under the Saint Francis Documents.

(c) As used herein:

(i) "Restricted Remedy" shall mean the termination of any Designated Saint Francis Document.

(ii) "Trigger Event" shall mean any event that gives Saint Francis the right, or any event that with the passage of time or the giving of notice or both could reasonably be expected to give Saint Francis the right, to immediately terminate (A) the Master Affiliation Agreement, or (B) the Business Process Outsourcing Agreement or any BPO Sub-Agreement pursuant to Section 12.2.3(b) of the Business Process Outsourcing Agreement.

9. Limited Agency of HFG.

(a) The Borrowers hereby appoint HFG as their limited agent to direct Saint Francis' performance of services under any Billing and Collection Sub-Agreement, to the extent specified by this Section 9.

(b) HFG's limited agency shall become effective upon receipt by Saint Francis of a "Notification of Agency" from an authorized officer of HFG. Such Notification of Agency may be sent only upon HFG's good faith belief that an Event of Default has occurred and is continuing under the Loan Agreement.

(c) Once effective, HFG's limited agency shall remain effective until the earlier of: (i) written notice from an authorized officer of HFG to Saint Francis that it will no longer act as Borrower's limited agent as of a specified date; or (ii) a court of competent jurisdiction holds that such limited agency no longer exists. The Borrowers shall neither have the right to revoke HFG's limited agency once such limited agency becomes effective nor revoke this present grant of future limited agency unless and until all secured obligations under the Loan Agreement have been fully and indefeasibly paid in cash.

(d) HFG's agency shall not include the assumption of any obligation, including without limitation, any indemnification or payment obligations, of the Borrowers under the Saint Francis Agreements, and Saint Francis shall at all times look solely to the Borrowers for payment for services performed under the Saint Francis Agreement.

10. Information Requirements. On the date hereof, and upon any commitment of Saint Francis to make the First Additional Payment and any other Additional Payment, Saint Francis shall provide to HFG (in multiple copies, if requested by HFG) a copy of the audited financial statements (together with explanatory notes thereto) and the auditor's unqualified report letter for the most recently completed fiscal year for Saint Francis, containing financial statements for such year audited by independent certified public accountants of recognized standing and a copy of any management letter or written report submitted to Saint Francis by such independent certified public accountants with respect to the business, condition (financial or otherwise), operations, prospects or properties of Saint Francis, and its most recent year-to-date internally-prepared financial statements.

11. Modifications of the HFG Loan Documents. HFG shall, at any time, have the right, without the consent of Saint Francis in each instance, to enter into any amendment, deferral, extension, modification, renewal, replacement, consolidation, supplement or waiver with respect to the Senior Obligations and/or the HFG Loan Documents (each an "HFG Loan Modification"), including (without limitation) in the case of a workout or other surrender, compromise, release, renewal or indulgence relating to the Senior Obligations during the existence of a continuing default under the HFG Loan Documents. In addition, and notwithstanding anything contained in this Section 11 to the contrary, any amount funded by HFG under the HFG Loan Documents as a result of (A) the making of any protective advances or other advances by HFG under the HFG Loan Documents, or (B) interest accruals or accretions and any compounding thereof permitted under the HFG Loan Documents (including default interest) shall not be deemed to contravene this section.

12. Modifications of Saint Francis Documents. Saint Francis shall not modify, amend or alter any Designated Saint Francis Document without the approval of HFG in its sole discretion. Saint Francis shall not enter into any Billing and Collection Sub-Agreement without the approval of HFG in its sole discretion. If HFG fails to respond to any request of Saint Francis under this Section 12 to modify, amend or alter any Designated Saint Francis Document, or to enter into any Billing and Collection Sub-Agreement, within fifteen (15) business days of HFG's receipt of such request, HFG's approval of such request shall be deemed to have been given as of the end of such fifteen (15) day period.

13. Right to Assign. HFG may, from time to time, in its sole discretion, transfer, assign or participate all or any part of the Senior Obligations or any interest therein, and notwithstanding any such transfer (or subsequent transfer), the Senior Obligations and the HFG Loan Documents shall be and remain a senior obligation in the respects set forth in this Intercreditor Agreement to the Junior Obligations and the Saint Francis Documents, in accordance with the terms hereof. Saint Francis may not sell, assign, pledge, encumber or otherwise dispose of any of the Junior Obligations without the consent of HFG in its sole discretion.

14. HFG's Duties to Saint Francis. Saint Francis agrees that in connection with (a) the administration and enforcement of HFG Loan Documents (including, without limitation, the administration and enforcement of the HFG Obligations and the HFG Collateral in connection therewith) and (b) the exercise of its rights and remedies hereunder, HFG shall have no duty or obligation to Saint Francis of any nature whatsoever (other than as specifically provided herein).

15. Saint Francis' Duties to HFG. HFG agrees that in connection with (a) the administration and enforcement of the Saint Francis Documents and (b) the exercise of its rights and remedies hereunder, Saint Francis shall have no duty or obligation to HFG of any nature whatsoever (other than as specifically provided herein).

16. Representations and Warranties.

(a) At the time of execution of this Intercreditor Agreement and each time the Lenders provide credit or other financial accommodations to the Borrowers, Saint Francis represents and warrants to HFG as follows:

(i) No Contravention. The execution, delivery and performance by it of this Intercreditor Agreement does not and will not (i) violate any provision of any law, order, writ, judgment, injunction, decree, determination, or award presently in effect applicable to it, (ii) result in a breach of or constitute a default under any charter or organizational or governing document, indenture or loan or credit agreement or any other agreement, lease, or instrument to which it is a party or by which it or its properties may be bound or affected, or (iii) result in, or require, the creation or imposition of any lien upon or with respect to any of the properties now owned or hereafter acquired by it.

17. Remedies. HFG is hereby authorized to demand specific performance of this Intercreditor Agreement at any time that Saint Francis or the Borrowers have failed to comply with any of the provisions of this Intercreditor Agreement. Saint Francis and the Borrowers each hereby irrevocably waives any defense based on the adequacy of a remedy at law, which might be asserted as a bar to such remedy of specific performance to the extent that Saint Francis has failed to comply with any of such provisions.

18. Miscellaneous.

(a) Waiver of Notices.

(i) Saint Francis hereby waives all notices, demands and protests, and all other formalities of every kind in connection with the administration and enforcement by HFG of the HFG Loan Documents, or of its rights and obligations under this Intercreditor Agreement, the omission of or delay in which, but for the provisions of this Section 18(a)(i), might constitute grounds for relieving it of its obligation under this Intercreditor Agreement, including (1) notice of or proof of reliance by HFG upon this Intercreditor Agreement or acceptance of this Intercreditor Agreement, (2) notice of the incurrence of any Lender Debt or the renewal, extension or accrual of any such Lender Debt by the Borrowers, (3) notice of any actions taken by HFG or the Borrowers or any other Person under any documents, or any other agreement of instrument relating to the Lender Debt, and (4) notices of nonpayment or nonperformance, protest, notices of protest and notices of dishonor.

(b) Obligations Under Intercreditor Agreement Not Affected. Saint Francis waives any and all defenses to the performance by it of its duties and obligations under this Intercreditor Agreement, including any defense based on any of the following, Saint Francis agrees that all rights, priorities and interest of HFG under this Intercreditor Agreement, and all agreements and obligations of Saint Francis under this Intercreditor Agreement, shall remain in full force and effect irrespective of:

(ii) Any defense to the payment of any or all the Lender Debt, including lack of validity or enforceability of any of such Lender Debt or any documents or agreement executed in connection with such Lender Debt,

(iii) Any change in the time, manner or place of payment of, or in any other term in respect of, all or any of the Lender Debt, or any other amendment or waiver of or consent to any departure from any of the Loan Documents,

B. The Debtor-Borrowers have entered into that certain Letter of Intent dated January 23, 2012 (as it may be amended, modified or supplemented from time to time, the "LOI") with Saint Francis regarding a potential affiliation among the Debtor-Borrowers, JPA and Saint Francis.

D. HFG and Saint Francis have entered into that certain Intercreditor Agreement dated July 12, 2012 (the "Intercreditor Agreement") to set forth certain rights and obligations between them with respect to the HFG Loan Documents and the Saint Francis Documents.

Saint Francis amending the Affiliation Agreement and providing for potential interim financing (the "Interim Financing").

F. Pursuant to the terms of the First Amendment to Master Affiliation Agreement and Interim Financing Agreement, the Interim Financing constitutes an additional unsecured loan by Saint Francis to the Debtor-Borrowers that becomes due and payable by the Debtor-Borrowers to Saint Francis on August 31, 2013.

G. HFG and Saint Francis desire to amend the Intercreditor Agreement as herein provided to *inter alia* subordinate the Interim Financing to the Senior Obligations (as defined in the Intercreditor Agreement) in accordance with the terms of the Intercreditor Agreement.

In consideration of the mutual covenants herein contained and benefits to be derived herefrom, the receipt and sufficiency of which are hereby acknowledged, the parties hereto do hereby agree as follows:

WITNESSETH

1. Paragraph "C" of the Recitals to the Intercreditor Agreement is amended and restated in its entirety as follows:

> C. 4. Except as expressly provided above, the Intercreditor Agreement shall remain in full force and effect. Except as expressly set forth herein, nothing contained herein shall amend, modify or alter any term or condition of the Intercreditor Agreement.

LETTER OF INTENT

Dear Mr. Morgan:

The purpose of this letter of intent (the "Letter") is to set forth certain non-binding understandings and certain binding agreements by and among Saint Francis Care, Inc. ("Saint Francis") and Johnson Memorial Medical Center, Inc. ("JMMC") and its affiliates, Johnson Memorial Hospital, Inc. ("JMH") and The Johnson Evergreen Corporation, Inc. ("JEC" and, together with JMMC and JMH, collectively, "Johnson") with respect to an affiliation whereby Johnson and Saint Francis will agree to develop certain arrangements as more particularly described in the attached term sheet (the "Term Sheet"), incorporated herein by reference. Among the goals of the affiliation is establishing a long-term stable relationship between Saint Francis and Johnson which allows us to work together to maintain and strengthen Johnson's operating viability and its presence in the community as a community hospital, expand the array of healthcare services available, support Johnson's medical staff, and enhance Johnson's efforts to fulfill its mission.

Paragraphs 1 through 10 of the Term Sheet (the "Non-Binding Provisions") reflect our mutual understanding of the matters described in them, but each party acknowledges that the Non-Binding Provisions are not intended to create or constitute any legally binding obligation between Saint Francis and Johnson, and neither Johnson nor Saint Francis shall have any liability to the other party with respect to the Non-Binding Provisions until a definitive agreement and other related documents contemplated by Paragraph 1 of the Term Sheet (collectively, the "Definitive Agreement") are prepared, authorized by the governing boards of both parties, executed and delivered by and between all parties. If the Definitive Agreement is not prepared, authorized, executed, or delivered for any reason, no party to this Letter shall have liability to any other party to this Letter based upon or relating to the Non-Binding Provisions.

Upon execution by all parties of this Letter, Paragraphs 11 through 15 of the Term Sheet (collectively, the "Binding Provisions") will constitute the legally binding and enforceable agreement of the parties in recognition of the significant costs to be borne by the parties in pursuing the transaction and further in consideration of the mutual undertakings as to the matters described herein.

The Binding Provisions may be terminated only by mutual written consent; provided, however, that the termination of the Binding Provisions shall not affect the liability of a party for breach of any of the Binding Provisions prior to the termination. This Letter shall be construed and enforced in accordance with the laws of the State of Connecticut. No signatory hereto shall assign this Letter to any party, other than to an affiliate of such party.

Notwithstanding the foregoing, this letter is intended to evidence the understandings which have been reached regarding the proposed transactions and the mutual intent of the parties to negotiate in good faith a Definitive Agreement in accordance with the terms contained in the Term Sheet.

Each party recognizes that it is a party to that certain Confidentiality Agreement dated as of November 11, 2011, and that such Confidentiality Agreement remains in full force and effect.

[Continued on next page]

If the terms herein are acceptable, please sign and date this Letter in the space provided below to confirm the mutual agreements set forth in the Binding Provisions and return a signed copy to the undersigned.

Non-Binding Provisions –

Subject to the terms of the Definitive Agreement

1. Form of Transaction

a) Saint Francis will make a payment to Johnson in the amount of $1,300,000 (the "Initial Payment"), which will be held in escrow with a mutually satisfactory third-party escrow agent (the "Escrow Agent") for a period of 60 days (the "Escrow Period"). During the Escrow Period, Saint Francis and Johnson will negotiate in good faith and use their best efforts to reach agreement on the terms of an Affiliation Agreement as set forth in Section 5, below, and the terms of a Business Process Outsourcing Agreement (the "BPO Agreement") as set forth in Section 6, below. If the conditions set forth below (the "Conditions") have been satisfied before the end of the Escrow Period, the Initial Payment will be released to Johnson and used by Johnson to satisfy outstanding claims owed by Johnson under its confirmed reorganization plan (the "Plan") to the Pension Benefit Guaranty Corporation ("PBGC") and the Plan Custodian appointed under the Plan (the "Claims"), and Saint Francis will agree to make an additional payment of $1,050,000 to Johnson on or before October 1, 2012 (the "First Additional Payment").

The Conditions are as follows:

(iv) Johnson shall have provided Saint Francis satisfactory evidence of the total amounts of the Claims; and

(v) Johnson shall have obtained all necessary approvals for the amendments to its organizational documents contemplated in Section 2, below.

If for any reason the Conditions have not been satisfied by the end of the Escrow Period, Saint Francis may, in its sole discretion, either require that the Initial Payment be returned to Saint Francis or agree to release the Initial Payment to Johnson to be used by Johnson to satisfy the Claims.

As part of the Definitive Agreement, Johnson will represent that following the application of the proceeds of the Initial Payment and the contemporaneous payment by Johnson as contemplated above, Johnson will be in full and complete compliance with its payment obligations under the Plan and, to the best of Johnson's knowledge, the execution, delivery and performance of the Definitive Agreement, the Affiliation Agreement and the BPO Agreement do not require the consent or approval of the

PBGC or the Plan Custodian.

If the Initial Payment is released to Johnson and Saint Francis commits to make the First Additional Payment: (i) Saint Francis will have the governance rights set forth in Section 2, below; (ii) Saint Francis will have the exclusivity rights set forth in Section 3, below; (iii) Saint Francis will have the right to a discharge fee on the terms set forth in Section 4, below; (iv) Saint Francis will have the call rights set forth in Section 7, below; (v) Saint Francis will have all of the other rights set forth in this Term Sheet; and (vi) contemporaneously with the release of the Initial Payment Johnson will pay the amount of the Claims that exceeds $1,300,000.

b) Saint Francis will have the option, in its sole discretion, to make additional payments (together with the First Additional Payment, the "Additional Payments" and, together with the Initial Payment, the "Payments") to Johnson on or before October 1 of each year through and including October 1, 2016, in consideration of which Saint Francis will have the additional governance rights and exclusivity rights set forth in Sections 2 and 3, below:

(iii) On or before October 1, 2015, $2,050,000;

(iv) On or before October 1, 2016, $500,000.

Saint Francis shall notify Johnson on or before June 1 of each year whether it will make the next succeeding Additional Payment on October 1 of that year.

c) Johnson will use the proceeds of each of the Additional Payments to make scheduled payments under the Plan to the PBGC and the Plan Custodian.

d) The Payments will constitute unsecured loans to Johnson. The loans will be payable, together with accrued interest at Wall Street Journal Prime Rate, only upon (i) the closing of an Alternative Transaction (as defined below), but only to the extent the proceeds of such Alternative Transaction exceed the amounts necessary to satisfy all other secured and unsecured debt owed by Johnson at the time of such Alternative Transaction, or (ii) a breach of the exclusivity provision set forth in Section 3 below.

d) The Affiliation Agreement and the BPO Agreement shall provide that in the event the Exclusivity Period terminates for any reason, Saint Francis and Johnson shall work together to terminate the Affiliation Agreement and the BPO Agreement in an orderly manner to the extent necessary and appropriate.

4. **Discharge Fee**

Without limiting the exclusivity provisions set forth above, in the event that at any time within three years after the date of the last Payment Johnson closes on an Alternative Transaction with an unrelated third party, Saint Francis will be entitled to a discharge fee in the amount of (a) $250,000 times (b) the number of Payments made by Saint Francis, provided that in no event shall the amount payable under this Section 4 exceed $1,000,000. Such fee shall be payable only to the extent the proceeds of such Alternative Transaction exceed the amounts necessary to satisfy all other secured debt owed by Johnson at the time of such Alternative Transaction, and shall not be payable in the event Saint Francis breaches any of its obligation provided herein, including the obligation to make an Additional Payment.

5. **Affiliation Agreement**

Johnson and Saint Francis will agree to negotiate in good faith and use their best efforts to reach agreement, prior to the end of the Escrow Period, on the terms of an affiliation agreement (the "Affiliation Agreement") under which Saint Francis shall provide clinical,

operational and financial support to Johnson, as further developed based upon this Term Sheet, and Johnson and Saint Francis shall closely coordinate and integrate patient care and treatment services with Saint Francis, and provide the agreed upon governance representation to Saint Francis, with the intent to maintain Johnson's provision of health care services in the Stafford Springs/Enfield market and to improve the quality and efficiency of healthcare provided in those communities.

The goals of the Affiliation Agreement are to create a long-term, stable relationship aligning the interests of Saint Francis's and Johnson's physicians, staff and hospital operations to ensure achievement of:

- Clinical integration with the appropriate level of care delivered at the most appropriate location, including developing an integrated continuum of hospital care so that patients may have full access to and benefit from St. Francis's tertiary care services and Johnson's locally-provided community hospital care;
- Operating viability of Johnson's inpatient hospital facility;
- Enhancement of Johnson's and Saint Francis's clinical services;
- Support of Johnson's and Saint Francis's specialty physician network;
- Expansion of referral networks to ensure that physicians and other decision makers are fully informed about and familiar with the array of services available at St Francis and Johnson;
- Funding of Johnson's capital requirements;
- Improving business processes related to managed care contracting;
- Leveraging common support systems to increase quality and efficiency and reduce costs; and
- Positioning Johnson and Saint Francis to meet the challenges and respond to the opportunities arising from state and national health care reform efforts and the resulting changes in the marketplace and the financing of health care services.

This clinical alignment must be achieved with due respect for the delivery of clinical care, financial performance and the teaching and healthcare missions of Johnson and Saint Francis.

The Affiliation Agreement will provide, among other things, that during the term of the Affiliation Agreement, Johnson will conduct its activities in accordance with the Ethical and Religious Directives for Catholic Health Care Services as adopted by the United States Conference of Catholic Bishops (the "ERDs"), as the same may change from time to time.

The parties intend that this clinical affiliation and their conduct pursuant thereto shall comply at all times with all provisions of applicable law, including, without limitation, the Medicare and Medicaid fraud and abuse statute, 42 U.S.C. § 1320-a-7b, and federal and state antitrust laws, including the Section 2 of Sherman Act and the Section 7 of the Clayton Act, as in effect or amended from time to time. The parties acknowledge that this clinical affiliation shall not require and will not be conditioned in any way on any party, or any affiliate of any party, referring patients to any other party, or any affiliate of any other party, and each party and its affiliates shall remain permitted to refer patients to any other entities or healthcare facilities.

Johnson will agree that at any time during the Exclusivity Period, Saint Francis will have the right, subject to any necessary government or third party approvals, but not the obligation, to cause Johnson to be merged with or into Saint Francis, or to acquire all of the equity interests in Johnson, so long as Saint Francis, as the surviving or parent entity, assumes or otherwise satisfies all of Johnson's then-existing indebtedness.

The release of the Initial Payment will be conditioned upon:

(a) People's (i) consenting to the transactions contemplated by this Term Sheet (the "Transactions") (ii) and agreeing not to accelerate any of the indebtedness owed by Johnson to any of them during the Exclusivity Period, except in the event of a payment default in respect of such indebtedness, or agreeing to such other matters as shall be satisfactory to Saint Francis in its sole discretion; and

the submission by any person or entity of any proposal contemplating an Alternative Transaction; or consummate any Alternative Transaction. Johnson will promptly inform Saint Francis of requests for information, inquiries or proposals that come to it in such respect, and the material terms thereof, to the extent known.

b) In the event of a breach of the exclusivity provisions of this Section 13, Saint Francis will be entitled to specific performance of this Section 13, and without limiting the foregoing, Saint Francis may, at its option, require the immediate return of the Initial Payment by the Escrow Agent to Saint Francis.

14. Expenses

a) Saint Francis and Johnson shall each bear their respective legal, accounting and other expenses (including the expense of any brokers, agents or finders) in connection with the transactions contemplated herein (the "Transactions") whether or not the Transactions are consummated.

NOW, THEREFORE, for valuable consideration, the Obligors and People's hereby agree as follows:

1. The current amount outstanding under the Johnson Loan Documents is set forth on Schedule 1 attached hereto and made a part hereof (the "**Obligations**").

2. In addition to any and all payments due under the Johnson Loan Documents, the Obligors agree to pay to People's at the execution hereof, the sum of $10,000.00 (the "**Payment**").

3. The Obligors and People's agree that the Johnson Loan Documents shall be amended and modified as follows:

(A) Notwithstanding anything to the contrary contained in any of the Johnson Loan Documents, People's hereby consents to the Obligors' entering into the Master Affiliation

Agreement and the Transactions.

(B) People's hereby (i) consents to the incurrence of additional indebtedness by the Obligors pursuant to the Master Affiliation Agreement, and (ii) solely with respect to the indebtedness to be incurred pursuant to the Master Affiliation Agreement, waives the following restrictions in the Johnson Loan Documents on the incurrence of additional indebtedness by the Obligors: (1) Section 3.b of the 2004 Hospital Loan Agreement; (2) Sections 4.11(ii) and (viii) of the 2006 Hospital Loan Agreement; (3) Section 14(b) of that certain Construction Mortgage Deed and Security Agreement made by JMH in favor of People's, dated August 30, 2006 (the "**2006 Construction Mortgage**"); and (4) Sections 4.12(ii) and (viii) of the Evergreen Loan Agreement.

(C) People's hereby agrees that for the purposes of each of the Johnson Loan Documents that provide for a debt service coverage ratio, (i) payments made to Johnson by Saint Francis pursuant to the Master Affiliation Agreement will be treated as income in the calculation of the debt service coverage ratio; and (ii) any default by the Obligors solely with respect to the debt service coverage ratio during the first and/or second quarters of 2012 shall be waived by People's.

4. The Obligors and Saint Francis shall notify People's in a timely manner of any proposed merger, consolidation or acquisition of the Obligors by Saint Francis and any request that Saint Francis assume the existing Obligations. People's reserves its right to review and determine whether to consent to any such request in its sole discretion and further reserves the right to request such further and additional documents as it may require in its sole discretion.

5. The foregoing consents and modifications are limited to the express terms set forth therein, and do not apply to any other covenant or restriction other than as specifically identified therein, and People's grant of these consents and waivers does not obligate People's to grant any other consent or waiver on any other occasion.

6. The Johnson Loan Documents as modified by this Agreement are hereby reaffirmed, and the Obligors acknowledge and agree that the Obligations and the Johnson Loan Documents are modified to incorporate the terms contained in this Agreement. The failure by any of the Obligors to comply with the terms of this Agreement shall be an Event of Default, as defined in the Johnson Loan Documents, all as modified by this Agreement.

7. The Obligors hereby specifically extend the grants, covenants, liens and security interests contained in the Johnson Loan Documents to continue to secure the indebtedness under the Johnson Loan Documents, as modified by this Agreement.

8. JMH is the guarantor of JEC's obligations under the Evergreen Loan Agreement and JMH's obligations under the 2004 Hospital Loan Agreement. JMH hereby consents to the modifications contained herein and hereby ratifies and reaffirms its guaranties, and acknowledges and confirms (a) that it unconditionally guarantees to People's the payment and performance from and by JEC and JMC under the Evergreen Loan Agreement and the 2004 Hospital Loan Agreement and (b) that its reaffirmation and ratification pursuant to this paragraph is a material inducement for People's to enter into this Agreement, and that People's would not do so without said reaffirmation and ratification.

9. The Obligors represent, acknowledge and affirm that none of them has any claim, defense, offset or counterclaim whatsoever against People's with respect to the Johnson Loan Documents, or the modifications and agreements made herein, and that People's is relying on this representation in agreeing to said modifications. The Obligors further acknowledge that People's would not agree to said modifications unless the Obligors made the representations contained in this paragraph freely and willingly, after consultation with their attorneys. The Obligors further represent that this Agreement and all of the Johnson Loan Documents executed by them are their valid and binding obligations and enforceable in accordance with their terms.

10. In furtherance of the immediately preceding paragraph, the Obligors hereby release, and forever discharge People's, its officers, agents, successors and assigns from any and all claims, actions, causes of action, obligations and liabilities of any kind known or unknown which the Obligors have or may have as of the date hereof whether relating to the Johnson Loan Documents or any of the transactions contemplated hereby or consummated in connection herewith, or any negotiations in connection with any of the foregoing.

11. The Obligors agree that nothing contained herein shall in any way impair the Johnson Loan Documents, and the real and personal property and collateral described in the Johnson Loan Documents shall remain in all respects subject to the lien, charge and encumbrance of the Johnson Loan Documents, as amended hereby. The Obligors further agree that nothing contained herein or modified pursuant to this Agreement shall release or be construed to release the lien, charge or encumbrance of, or warranty of title in or to or conveyance effected by the Johnson Loan Documents, or release or limit the liability of any of the Obligors.

12. No waiver shall be deemed to be made by People's of any of its rights hereunder unless the same shall be in writing signed on behalf of People's, and each such waiver, if any, shall be a waiver only with respect to the specific matter or matters to which the waiver relates and shall in no way impair the rights of People's or the obligations of Obligors to People's in any other respect at any other time.

13. This Agreement shall be construed according to the laws of the State of Connecticut. The recitals to this Agreement are incorporated herein. This Agreement shall be binding upon the Obligors, their successors and assigns, and inure to the benefit of People's and its successors and assigns. This Agreement may be executed in any number of counterparts, all of which shall constitute one and the same instrument, and any party hereto may execute this Agreement by signing and delivering one or more counterparts.

14. Capitalized terms not otherwise defined herein shall have the same meaning as in the document to which they refer. Except as modified by this Agreement, the Johnson Loan Documents shall remain unchanged and in full force and effect. Obligors shall keep and perform all of the terms and agreements contained therein, as modified herein, as may be applicable to them.

15. If any term or provision of this Agreement or the application thereof to any person or circumstance, shall to any extent be invalid or unenforceable, the remainder of this Agreement, or the application of such term or provision to persons or circumstances other than those as to which it is invalid or unenforceable, shall not be affected thereby, and each term and provision of this Agreement shall be valid and enforceable to the fullest extent permitted by law.

16. THE OBLIGORS WAIVE TRIAL BY JURY IN ANY COURT IN ANY SUIT, ACTION OR PROCEEDING ON ANY MATTER ARISING IN CONNECTION WITH THE CREDIT FACILITIES, JOHNSON LOAN DOCUMENTS, THIS AGREEMENT OR IN ANY WAY RELATED TO THE FINANCING TRANSACTIONS OF WHICH THIS AGREEMENT IS A PART AND/OR THE DEFENSE OR ENFORCEMENT OF ANY OF BANK'S RIGHTS OR REMEDIES. THE OBLIGORS ACKNOWLEDGE THAT THEY MAKE THIS WAIVER KNOWINGLY AND VOLUNTARILY AFTER HAVING BEEN PROVIDED WITH THE OPPORTUNITY TO CONSULT WITH AN ATTORNEY OF THEIR CHOICE.

17. The Obligors will, upon demand, furnish to People's such further information, and will execute and deliver such instruments or documents, and will do all such acts as People's may, at any time or from time to time, reasonably request, or as may be necessary or appropriate to maintain the Johnson Loan Documents.

18. People's and the Obligors acknowledge and agree that Saint Francis is relying on this Agreement as an inducement to enter into the transactions, and therefore Saint Francis is a third party beneficiary and shall have the right to enforce the terms of this Agreement.

19. People's represents that it has obtained the consent of the United States Department of Agriculture to the terms of this Agreement.
