Memorandum of Understanding
Between Saint Francis *Care*, Inc. , Saint Francis Hospital and Medical Center and Johnson Memorial Medical Center, Inc. (JMMC) concerning Oncology Services for JMMC's Infusion Center

September 7, 2011

Introduction

The purpose of this Memorandum of Understanding (MOU) is to define the understanding between Johnson Memorial Medical Center, Inc. (JMMC), Saint Francis *Care*, Inc. and Saint Francis Hospital and Medical Center (SAINT FRANCIS) for Oncology Services provided by SAINT FRANCIS to support JMMC's Infusion Center.

Background

SAINT FRANCIS' current understanding is that JMMC has received community donations to be used to expand and relocate the current infusion service. The JMMC Board requires a commitment for appropriate oncology physician coverage in order to proceed.

JMMC previously met with Medical Oncology and Blood Disorders (MO&BD) regarding the group's ability and interest to provide that coverage. MO&BD indicated they could not commit at that time.

JMMC is requesting SAINT FRANCIS to assist in providing medical directorship of a 14-chair infusion center with oncology physicians on site.

Further, SAINT FRANCIS' understands that there is a plan in place for new construction to be built within the existing Phoenix cancer center in Enfield. This project is expected to take approximately 90 days to complete from the date of approval. After completion of the building, Dr. Dennis Morgan, an oncologist practicing at JMMC, is expected to transition his practice under the new medical director.

SAINT FRANCIS has a long standing relationship with MO&BD and would like to engage MO&BD in discussions regarding their interest in working at the infusion center in the short term as well MO&BD's interest in providing services in the intermediate and long term to meet the oncology needs of the market.

Considerations

SAINT FRANCIS understands the need to act expeditiously. SAINT FRANCIS also believes that the need for SAINT FRANCIS to meet with MO&BD quickly to discuss their short and long term role is important to maintain good medical staff relationships.

SAINT FRANCIS is willing to commit to provide oncology coverage to JMMC's infusion center. It is desirable to provide that oncology coverage in concert with the physicians at MO&BD and SAINT FRANCIS will clarify coverage after discussions with that group.

SAINT FRANCIS understands that JMMC sees development of an infusion center offering service to patients in the JMMC service area as vital.

SAINT FRANCIS would like to review the facility development plans, planned capacities, and project capital estimates for infusion therapy to assure that the standards of care are maintained.

As JMMC and SAINT FRANCIS move forward, the parties will develop a business plan and operating agreements regarding the role of JMMC, MO&BD and SAINT FRANCIS. This plan shall include elements including how the economics will work among the parties, the coverage of development and recruitment costs and the role of the medical director in facility and operational planning. Each organization shall provide a representative to work in a team environment to help ensure a commitment to a high standard of care. The upcoming discussions with MO&BD will provide a clearer sense of direction about roles, responsibilities and timing from their perspective.

SAINT FRANCIS and JMMC look forward to working with one another with a common goal of providing quality accessible care to the communities of North Central Connecticut. To that end, a letter of agreement shall be developed between the parties with the intent of clarifying associated issues and action items.

IN WITNESS WHEREOF, the parties hereto have executed this Memorandum of Understanding as of September 7, 2011.

CONFIDENTIALITY AGREEMENT

THIS CONFIDENTIALITY AGREEMENT is entered into as of the date set forth on the signature page hereof, by and between **Johnson Memorial Medical Center ("JMMC")**, a Connecticut non-stock corporation, and **Saint Francis *Care*, Inc. ("SFC")**, a Connecticut non-stock corporation.

1. Background. The parties are engaged in discussions concerning a possible merger transaction or acquisition by SFC of all or a portion of JMMC and its affiliates. In the course of such discussions, it is anticipated that each party may acquire proprietary or confidential information from the other, including, without limitation, business plans, strategic plans and information, financial information, financial forecasts and information, reimbursement rates, fee schedules, de-identified patient data and information and documents pertaining to employees of consultants to the disclosing party – all for the sole purpose of evaluating the feasibility of such transaction (the "**Purpose**"). As used herein, the term "**Confidential Information**" means (a) any and all information of the type described above which is disclosed by either party to the other, and (b) any and all other information disclosed by either party to the other to the extent in writing marked "Confidential" or the like, or which, if first disclosed orally or by observation, is identified at the time of disclosure as being confidential. The parties have entered into this Agreement in order to protect their rights with respect to any such Confidential Information in accordance with the terms of this Agreement.

2. Disclosure of Confidential Information. Each of the parties shall hold in confidence and shall not disclose to any third party or make use of any Confidential Information disclosed to it by the other, except as expressly permitted under this Agreement. Each of the parties shall use such Confidential Information only for the Purpose and shall not use or otherwise exploit such Confidential Information for its own benefit or the benefit of another without the prior written consent of the other party. Each of the parties shall disclose Confidential Information only to its directors, officers, employees and its advisers and consultants who have a need to know such Confidential Information in the course of the performance of their duties related to the Purpose and who are legally bound to protect the confidentiality of such Confidential Information to the same extent as provided herein.

3. Protection of Confidential Information. Each of the parties shall protect the other party's Confidential Information by using the same degree of care, but not less than a reasonable degree of care, to prevent the unauthorized use, dissemination, publication of, or access to, the disclosing party's Confidential Information as it uses to protect its own Confidential Information.

4. Limitation on Obligations. The obligations of the parties specified in Section 3 above shall not apply to any Confidential Information which (a) is otherwise in the public domain at the time of disclosure, or becomes publicly known, in either case, through no breach of this Agreement by any party; (b) becomes known to the receiving party through disclosure by sources other than the disclosing party having the rights to disclose such Confidential Information; (c) is approved for release by the written authorization of a duly authorized officer of the disclosing party; or (d) is independently developed by the receiving party and the receiving party proves by clear and convincing evidence that such Information was developed without reference to any Confidential Information furnished to the receiving

party hereunder by the disclosing party. In addition, a recipient may disclose Confidential Information if it is the subject of a subpoena or demand for production of documents in connection with any suit, arbitration proceeding, administrative procedure or before any governmental agency, but only to the most limited extent legally obligated to do so. In such event, recipient shall promptly notify the disclosing party and shall cooperate with the disclosing party in its attempts to protect the confidentiality of the Confidential Information such as by seeking a protective order from a court of competent jurisdiction.

5. Return of Documents. All Confidential Information shall remain the property of the disclosing party. Each of the parties shall, upon the written request of the other party, or upon termination of this Agreement, return to the other party all Confidential Information from such party received pursuant to this Agreement and all copies and reproductions thereof.

6. Termination. This Agreement and the discussions undertaken pursuant to this Agreement may be terminated at any time by either party for any reason with or without cause by giving at least two (2) days' prior written notice to the other party (which may be by email); *provided, however*, that the obligations and rights under Sections 2, 3, 4, 5, 7 and 8 hereof, however, shall survive termination of this Agreement for a period of five (5) years thereafter.

7. Disputes. Except for any action seeking equitable relief as provided for in Section 8 below, any dispute, claim or controversy arising out of or relating to this Agreement or the breach, termination, enforcement, interpretation or validity thereof, including the determination of the scope or applicability of this agreement to arbitrate, shall be determined by arbitration in Hartford, Connecticut, before a single arbitrator. The arbitration shall be administered by JAMS pursuant to its Streamlined Arbitration Rules and Procedures. Judgment on the award may be entered in any court having jurisdiction. This clause shall not preclude the parties from seeking provisional remedies in aid of arbitration from a court of appropriate jurisdiction. The arbitrator may, in the award, allocate all or part of the costs of the arbitration, including the fees of the arbitrator and the reasonable attorneys' fees of the prevailing party. The parties agree that all of the negotiations and arbitration proceedings relating to such disputes and all testimony, transcripts and other documents relating to such arbitration shall be treated as confidential and will not be disclosed or otherwise divulged to any other person except as necessary in connection with such negotiations and arbitration proceedings.

8. General. SFC's obligations under this Agreement shall be binding on all affiliates of SFC, and SFC shall cause each of them to satisfy such obligations. JMMC's obligations shall be binding on all affiliates of JMMC, and JMMC shall cause each of them to satisfy such obligations. This Agreement and each party's rights and obligations under this Agreement are not transferable or assignable by that party without the express prior written consent of the other party. This Agreement can only be modified by a written agreement duly signed by the parties. If any provision or provisions of this Agreement shall be held to be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or be impaired thereby. A waiver of a breach or default under this Agreement shall not be a waiver of any other or subsequent breach or default. The failure or delay in enforcing compliance with any term or condition of this Agreement

shall not constitute a waiver of such term or condition unless such term or condition is expressly waived in writing. In the event of a breach or threatened breach by any party of any of the provisions of this Agreement, the other party, in addition to any other remedies available to it under law, shall be entitled to an injunction restraining the breaching party from the performance of acts which constitute a breach of this Agreement without the proof of irreparable injury or the posting of a bond or other security. This Agreement shall be binding upon the parties hereto and inure to the benefit of the parties hereto, their respective successors and permitted assigns.

9. Entire Agreement. This Agreement sets forth the entire understanding between the parties with respect to the subject matter hereof.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement effective on and as of May 2, 2014.

AMENDED AND RESTATED ASSET PURCHASE AGREEMENT

THIS **AMENDED AND RESTATED ASSET PURCHASE AGREEMENT** (this "Agreement"), made as of the 27th day of March, 2015 (the "Execution Date"), by and among Saint Francis Care, Inc., a Connecticut corporation (the "Buyer"), on the one hand, and the entities executing this Agreement as "Sellers" on the signature page hereof (each a "Seller," and collectively, the "Sellers"), on the other hand.

WITNESSETH:

WHEREAS, on or about January 14, 2015, Sellers filed voluntary petitions for relief under chapter 11 of the Bankruptcy Code with the Bankruptcy Court (the date on which such petitions were filed hereinafter referred to as the "Petition Date");

WHEREAS, subject to the entry of the Sale Order, this Agreement provides for the sale by Sellers to Buyer of substantially all of the assets, real and personal, tangible and intangible, associated with owning, leasing, managing and operating the Facilities (collectively, the "Business") and having Buyer assume certain liabilities of Sellers, in accordance with sections 105, 363, and/or 365 of the Bankruptcy Code, as applicable; and

WHEREAS, this Agreement amends, restates, and supersedes the Asset Purchase Agreement among Buyer and Sellers dated as of January 14, 2015 (the "Original Purchase Agreement");

NOW, THEREFORE, for and in consideration of the foregoing premises and the agreements, covenants, representations and warranties hereinafter set forth, and for other good and valuable consideration, the receipt and adequacy of all of which are acknowledged and agreed, the parties hereto agree as follows:

1. SALE OF ASSETS AND CERTAIN RELATED MATTERS.

1.1 Definitions. Unless otherwise indicated in this Agreement, the following terms shall have the following meanings:

"Accrued Employee Liabilities" shall have the meaning set forth in Section 1.4(a).

"Administrative Expense Escrow" shall mean any escrow established by Sellers or Sellers' counsel for payment of administrative expenses.

"Administrative Expenses" shall have the meaning set forth in Section 1.6(b)(v).

"Affiliate" shall mean, as to the entity in question, any person or entity that, directly or indirectly, Controls, is Controlled by or is under common Control with the entity in question.

"Affiliation Agreements" shall mean that certain (a) Clinical Affiliation Agreement between Buyer and JMMC, JMH and JEC dated as of July 12, 2012, including all sub-agreements thereto, and (b) Business Process Outsourcing Agreement between Buyer and JMMC,

JMH and JEC dated as of July 12, 2012, including all sub-agreements thereto, each as amended, supplemented and modified from time to time.

"Agreement" shall have the meaning set forth in the introduction.

"Alternative Transaction" shall mean the sale, transfer, lease or other disposition, directly or indirectly, including through an asset sale, stock sale, merger or other transaction, of some or all of the Assets in one or more transactions with one or more persons other than the Buyer.

"Assets" shall have the meaning set forth in Section 1.2.

"Assignment and Assumption Agreement" shall have the meaning set forth in Section 1.4(b).

"Assumed Contracts" shall have the meaning set forth in Section 1.2(h).

"Assumed Leases" shall mean, collectively, the Sellers' Real Property Expense Leases and the Sellers' Real Property Income Leases.

"Assumed Liabilities" shall have the meaning set forth in Section 1.4(a).

"Avoidance Actions" means any action that could be brought by any Seller, the trustee in the Bankruptcy Case or any other party in interest in the Bankruptcy Case under Section 544, 545, 547, 548, 549, 550, 551 or 553 of the Bankruptcy Code.

"Bankruptcy Case" means, collectively, the cases instituted by Sellers under the Bankruptcy Code.

"Bankruptcy Code" means title 11 of the United States Code.

"Bankruptcy Court" means the United States Bankruptcy Court for the District of Connecticut.

"Benefit Plans" shall mean all "employee benefit plans" as defined in Section 3(3) of ERISA, all specified fringe benefit plans as defined in Section 6039D of the Code, and all other pension, profit sharing, stock bonus, stock option, deferred compensation, or other retirement plans; welfare benefit plans, including group health and group insurance plans; cafeteria, flexible benefit or tuition assistance plans; executive compensation, bonus, or incentive plans; severance plans; salary continuation plans, programs, or arrangements; vacation, holiday, sick-leave, paid-time-off, or other employee compensation plans, procedures, programs, payroll practices, policies, agreements, commitments, contracts, or understandings; or any annuity contracts, custodial agreements, trusts, escrows or other funding arrangements related thereto, whether oral or written, qualified or nonqualified, funded or unfunded, and all employment agreements, programs, policies or other arrangements (i) that are currently, or have been within the past six (6) years, sponsored, maintained or contributed to by Sellers or any Affiliate thereof; (ii) with respect to which any Seller or any Affiliate thereof has any Liability to any current or former officer, employee or service provider, or the dependents of any thereof, or (iii) which could result in the imposition of Liability of any kind or nature, whether accrued, absolute, contingent, direct,

indirect, perfected or inchoate or otherwise, and whether or not now due or to become due, on Sellers or any Affiliate thereof.

"Bill of Sale" shall have the meaning set forth in Section 2.2(c).

"Break-Up Fee" shall mean a fee of $750,000 payable in accordance with Section 11.4 hereof.

"Business" shall have the meaning set forth in the recitals.

"Buyer" shall have the meaning set forth in the introduction.

"Cash Payment" shall have the meaning set forth in Section 1.6(a)(iv).

"Casualty Assets" shall have the meaning set forth in Section 1.13(b).

"Casualty Notice" shall have the meaning set forth in Section 1.13(a).

"Certificate of Need" shall mean a certificate of need issued by OHCA pursuant to Connecticut General Statutes Sections 19a-638 *et seq*.

"Charitable Assets" shall have the meaning set forth in Section 1.2.

"Closing" shall have the meaning set forth in Section 2.1.

"Closing Date" shall have the meaning set forth in Section 2.1.

"CMS" shall mean Centers for Medicare and Medicaid Services.

"CMS Investigation" shall mean the matters related to a survey conducted by the Department of Health with respect to Sellers on August 5, 2014 and subsequent re-surveys conducted based on the initial August 5, 2014 survey, the last of which was conducted on November 25, 2014.

"COBRA" shall mean the Consolidated Omnibus Budget Reconciliation Act of 1985, as set forth in Title 42 U.S.C., Section 300bb or, as applicable, Title I, Part 6, of ERISA.

"Code" shall mean the Internal Revenue Code of 1986, as amended, and the rules and regulations promulgated thereunder.

"Collective Bargaining Agreement" means that certain collective bargaining agreement among JMH, the Johnson Memorial Hospital Registered Nurses, Local 5046, AFT Healthcare and AFT Connecticut dated October 1, 2013 to September 30, 2016.

"CON" means a Certificate of Need issued by OHCA.

"Contract" means any written or oral agreement, arrangement, lease, license, sublicense, promissory note, binding arrangement or understanding, mortgage, contract, covenant, commitment or instrument.

"Control" means possession, directly or indirectly, of the power to direct or cause the direction of the management and policies of any entity, whether through the ownership of voting securities, by contract or otherwise.

"Credit Support" shall mean the credit support in the amount of up to $2,000,000 provided by Buyer to JMMC in respect of JMMC's workers' compensation insurance policy issued by The Hartford, including without limitation a guaranty provided by Buyer to The Hartford, secured by a letter of credit issued by Bank of America, N.A.

"Cure Costs" means all monetary liabilities and obligations of each Seller that must be paid or otherwise satisfied to cure all of such Seller's defaults under the Assumed Contracts and the Assumed Leases at the time of the assumption thereof and assignment to Buyer as provided hereunder, all in the amounts set forth in specific orders of the Bankruptcy Court.

"DEA Power of Attorney" shall have the meaning set forth in Section 2.2(k).

"Department of Health" shall mean the State of Connecticut Department of Public Health.

"Deposit" shall have the meaning set forth in Section 1.14.

"Deposit Escrow" shall have the meaning set forth in Section 1.14.

"Deposit Escrow Holder" shall have the meaning set forth in Section 1.14.

"Designated Contracts" shall have the meaning set forth in Section 10.5.

"Designated Lock Box Account" shall have the meaning set forth in Section 1.12.

"DIP Financing Agreement" means that certain Debtor In Possession Revolving Loan and Security Agreement, dated January 14, 2015, among the Sellers, Johnson Professional Associates, P.C., JEC, HFG and HFG Healthco-4 LLC.

"Effective Time" shall have the meaning set forth in Section 2.1.

"Estimate" shall have the meaning set forth in Section 1.13(a).

"Employee" shall include individuals rendering personal services to Sellers with respect to the Business or the Facilities as employees, including individuals who are treated as "leased employees" under Code Section 414(n).

"Environmental Laws" means the applicable federal, state (including specifically, but not by way of limitation, the State of Connecticut), and local environmental or health laws, regulations, ordinances, rules and common law in effect on the Petition Date and the Closing Date governing the use, refinement, handling, treatment, removal, storage, production, manufacture, transportation or disposal, emission, discharge, release or threatened release of Materials of Environmental Concern, or otherwise governing protection of the environment (including, without limitation, ambient air, surface water, ground water, land surface or

subsurface strata), as the same may be amended or modified as of the Petition Date and the Closing Date, including, without limitation, the statutes listed below:

(a) Federal Resource Conservation and Recovery Act of 1976, 42 U.S.C. Section 6901, et seq.;

(b) Federal Comprehensive Environmental Response, Compensation, and Liability Act of 1980, 42 U.S.C. Section 9601, et seq.;

(c) Federal Clean Air Act, 42 U.S.C. Section 7401, et seq.;

(d) Federal Water Pollution Control Act, Federal Clean Water Act of 1977, 33 U.S.C. Section 1251, et seq.;

(e) Federal Insecticide, Fungicide, and Rodenticide Act, Federal Pesticide Act of 1978, 7 U.S.C. Section 136, et seq.;

(f) Federal Hazardous Materials Transportation Act, 48 U.S.C. Section 1801, et seq.;

(g) Federal Toxic Substances Control Act, 15 U.S.C. Section 2601, et seq.; and

(h) Federal Safe Drinking Water Act, 42 U.S.C. Section 300f, et seq.

"ERISA" shall mean, collectively, the Employee Retirement Income Security Act of 1974, as amended, and the rules and regulations promulgated thereunder.

"Escrow Agreement" shall have the meaning set forth in Section 1.14.

"Excluded Assets" shall have the meaning set forth in Section 1.3.

"Excluded Contracts" shall have the meaning set forth in Section 10.5.

"Excluded Liabilities" shall have the meaning set forth in Section 1.5.

"Execution Date" shall have the meaning set forth in the introduction.

"Exemption Certificate" shall mean a written statement from the Department of Health or other applicable Governmental Entity stating that a health care project is not subject to the Certificate of Need requirements under applicable state law.

"Expense Reimbursement" shall have the meaning set forth in Section 11.4.

"Facilities" (each, individually a "Facility") shall mean Johnson Memorial Hospital, Johnson Surgery Center, Advanced Wound Center, Community Cancer Center, Home &

Community Health Services, Johnson Memorial Cancer Center and Karen Davis Krzynowek Infusion Center and certain real property owned by each Seller as set forth on Schedule 1.2(a).

"Final Order" means an order of the Bankruptcy Court (a) as to which the time to appeal shall have expired and as to which no appeal shall then be pending, or (b) if an appeal shall have been filed or sought, either (i) no stay of the order shall be in effect or (ii) if such a stay shall have been granted by the Bankruptcy Court, then (A) the stay shall have been dissolved or (B) a final order of a court having jurisdiction to hear such appeal shall have affirmed the order and the time allowed to appeal from such affirmance or to seek review or rehearing thereof shall have expired and the taking or granting of any further hearing, appeal or petition for certiorari shall not be permissible, and if a timely appeal of such court order or timely motion to seek review or rehearing of such order shall have been made, any court of appeals having jurisdiction to hear such appeal or motion (or any subsequent appeal or motion to seek review or rehearing) shall have affirmed the court's (or lower appellate court's) order upholding the order of the Bankruptcy Court and the time allowed to appeal from such affirmance or to seek hearing, appeal or petition for certiorari shall not be permissible; provided, however, that Buyer in good faith in its reasonable discretion shall have the right to determine that any order for which an appeal, motion to seek review, motion to seek rehearing, or any similar motion is pending is not a Final Order, notwithstanding that such order is not then subject to stay.

"Governmental Entity" means any government or any agency, bureau, board, commission, court, department, official, political subdivision, tribunal or other instrumentality of any government, whether federal, state or local, domestic or foreign.

"Government Patient Receivables" shall mean all accounts receivable arising from the rendering of services and provision of medicine, drugs and supplies to patients by any Seller up to the Effective Time and relating to Government Reimbursement Programs, billed and unbilled, recorded or unrecorded, accrued and existing, and other claims of any Seller for the provision of goods or services to patients due from beneficiaries or governmental third party payors which by law may not be assigned.

"Government Reimbursement Programs" shall mean Medicare, Medicaid and TRICARE and any other federal or state healthcare programs.

"Hazardous Substances" means any toxic or hazardous waste, pollutants or substances, including without limitation asbestos, PCBs, petroleum products and byproducts, substances defined or listed as "hazardous substance," "toxic substance," "toxic pollutant," or similarly identified substance or mixture, in or pursuant to any Environmental Law.

"Healthcare Reimbursement Obligation" means, collectively, Sellers' reimbursement obligations to their (a) self-paying patients and (b) insurance companies, in each case for any overpayments, duplicate payments or payments in error received by any Seller.

"HFG" means Healthcare Finance Group, LLC and its successors and assigns.

"HFG Debt" means the indebtedness of the Sellers and JEC to HFG, as agent, HFG Healthco-4 LLC, as lender, and the Buyer under the DIP Financing Agreement.

"HIPAA" means the Health Insurance Portability and Accountability Act of 1996 and its implementing regulations as amended by the Health Information Technology for Economic and Clinical Health Act.

"Hospital" shall mean Johnson Memorial Hospital, located in Stafford Springs, Connecticut.

"Hospital Loan" shall mean that certain loan from People's to JMMC and JMH in the original principal amount of $13,700,000, dated August 30, 2006, as evidenced by the Hospital Loan Documents.

"Hospital Loan Documents" shall mean all those certain agreements, documents and instruments executed in connection with the Hospital Loan by and among People's, JMMC and JMH.

"HSR Act" means the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended, and the rules and regulations promulgated thereunder, and any successor to such statute, rules or regulations.

"Intercompany Obligations" means all intercompany loans, advances, payables and receivables between any Seller and any other Seller or Johnson Professional Associates, P.C., which were made or arose out of transactions occurring prior to the Closing.

"IRS" shall mean the Internal Revenue Service.

"Inventories" shall have the meaning set forth in Section 1.2(c).

"JEC" shall mean The Johnson Evergreen Corporation, a Connecticut corporation.

"JEC Transaction" shall mean the contemplated sale by JEC of substantially all of its assets to a third party.

"JMH" shall mean Johnson Memorial Hospital, Inc., a Connecticut corporation.

"JMMC" shall mean Johnson Memorial Medical Center, Inc., a Connecticut corporation.

"JMH Real Estate" shall mean the fee simple interest of JMH in all real property it owns as identified and set forth in Schedule 1.2(a).

"Justice Department" shall mean the United States Department of Justice.

"Legacy Creditor Debt" shall mean the debt of JMMC, JMH, and JEC to the Legacy Creditors.

"Legacy Creditors" means the Plan Custodian and the PBGC.

"Legacy Creditor Costs" means the fees and expenses actually incurred by the Legacy Creditors in connection with the Sellers' bankruptcy cases.

"Liability" means any debt, loss, damage, adverse claim, fine, penalty, liability or obligation (whether direct or indirect, known or unknown, asserted or unasserted, absolute or contingent, accrued or unaccrued, matured or unmatured, determined or determinable, liquidated or unliquidated, or due or to become due, and whether in contract, tort, strict liability or otherwise), and all costs and expenses relating thereto including all fees, disbursements and expenses of legal counsel, experts, engineers and consultants and costs of investigation.

"Lien" means any lien, encumbrance, pledge, mortgage, deed of trust, security interest, claim, lease, charge, option, right of first refusal, interest, put, call, easement, servitude, proxy, covenant, hypothecation, voting trust or agreement and transfer restriction under any agreement, against or with respect to tangible or intangible property or rights, whether imposed by agreement, understanding, law, equity or otherwise.

"Material Adverse Effect" shall mean an event, occurrence, condition, change or effect or a series of events, occurrences, conditions, changes or effects that, individually or in the aggregate, is or may be reasonably expected to be materially adverse to the business, financial condition, operations or properties of the person or businesses which has suffered such event, occurrence, condition, change or effect, including, but not limited to (i) the loss or revocation of any provider number or (ii) changes in law or regulations that impose additional burdens or obligations or requirements applicable to operations of not for profit hospitals in Connecticut; provided, however, that Material Adverse Effect shall exclude any changes or conditions as and to the extent such changes or conditions relate to or result from general economic conditions in the United States of America and/or such other conditions that affect the healthcare industry generally.

"Material Loss" shall have the meaning set forth in Section 1.13(b).

"Materials of Environmental Concern" shall mean chemicals, pollutants, contaminants, wastes, toxic substances, petroleum and petroleum products, including Hazardous Substances.

"Medical Records Custody Agreement" shall have the meaning set forth in Section 12.8(a).

"Name Amendments" shall have the meaning set forth in Section 10.2.

"Net Working Capital" shall mean, as of any balance sheet date, an amount equal to (i) the value of Sellers' current assets, including without limitation, all of Sellers' cash and cash equivalents, accounts receivables, prepaid expenses, inventories and other current assets, less (ii) Sellers' accounts payable, accrued payroll and benefits, other accrued expenses and accounts receivable credits due to third parties, unapplied cash, the outstanding amount due from Sellers under the DIP Financing Agreement reduced by any cash payment received by JEC for its receivables and paid to HFG pursuant to the JEC Transaction, in each case determined from Sellers' balance sheet as of the date thereof on a consolidated basis in accordance with the accounting principles applied by Sellers consistently applied. For purposes of this calculation, other accrued expenses shall exclude accrued interest on any debt which is not being assumed by Buyer pursuant to this Agreement. The applicable line items for this calculation, including numbers attributable to the various line items have been previously provided by Sellers to Buyer.

"OHCA" means the Office of Health Care Access, a division of the Department of Health.

"PBGC" shall mean the Pension Benefit Guaranty Corporation.

"PCBs" shall mean polychlorinated biphenyls.

"People's" means People's United Bank.

"People's Debt" shall mean the Hospital Loan and the Surgery Center Loan together with and as evidenced by the Hospital Loan Documents and the Surgery Center Loan Documents.

"Permits and Licenses" shall have the meaning set forth in Section 1.2(d).

"Permitted Designee" shall have the meaning set forth in Section 1.2.

"Permitted Liens" shall mean Real Property Permitted Encumbrances, liens securing the Restructured People's Debt, liens securing the HFG Debt if the Buyer and HFG agree that the Buyer will assume the HFG Debt, and the Liens listed in Schedule 1.4(a)(ix).

"Petition Date" shall have the meaning set forth in the recitals.

"Plan Custodian" shall mean Clifford Zucker, Plan Custodian under the plan of reorganization confirmed in the prior bankruptcy cases of JMMC, JMH, and JEC in 2010.

"Prepaid Expenses" shall have the meaning set forth in Section 1.2(j).

"Purchase Price" shall have the meaning set forth in Section 1.6(a).

"Purchase Price Allocation" shall have the meaning set forth in Section 12.10.

"Qualified Beneficiaries" shall have the meaning set forth in Section 10.1.

"Real Property" shall mean, collectively, the Sellers' Owned Real Property and the Sellers' Leased Real Property.

"Real Property Permitted Encumbrances" shall mean all of the following: (a) zoning and building laws, ordinances, resolutions and regulations, and land use regulations; (b) real property taxes and assessments for public improvements not due and payable on or before the Closing; (c) such other exceptions as the Title Company shall commit to insure over, without any additional cost to Buyer, whether such insurance is made available in consideration of payment, bonding, or otherwise (but excluding indemnity of Sellers); (d) those encumbrances approved by Buyer, in its sole and absolute discretion; and (e) with respect to the JMH Real Estate, the Evergreen Ground Lease.

"Reimbursement Obligation" shall mean the reimbursement obligations of JMMC, JMH and JEC to Buyer in respect of the Credit Support, as set forth in the Amended and Restated Seventh Amendment to Master Affiliation Agreement dated as of July 14, 2014, among Buyer, JMMC, JMH and JEC, as the same may be amended from time to time.

"Reorganization Plan" means a plan of reorganization under Chapter 11 of the Bankruptcy Code.

"Restructured Legacy Creditor Debt" shall mean the Legacy Creditor Debt, as restructured on terms mutually satisfactory to Buyer and the Legacy Creditors, in their sole and absolute discretion, providing for the assumption by the Buyer of the Legacy Creditor Debt and the payment by Buyer, on the Closing Date, of the sum of (a) $3,000,000 plus (b) one-half of any then-unpaid Legacy Creditor Costs, up to a maximum of $50,000, in full and final satisfaction of the Legacy Creditor Debt.

"Restructured People's Debt" shall mean the People's Debt, as restructured on terms mutually satisfactory to Buyer and People's, in their sole and absolute discretion, providing for among other things, the assumption of (a) the entire principal balance of the Surgery Center Loan and (b) Seven Million Four Hundred Thousand Dollars ($7,400,000) of the principal balance of the Hospital Loan.

"Sale Motion" shall have the meaning set forth in Section 6.2.

"Sale Order" means an order of the Bankruptcy Court in form and substance satisfactory to Buyer, in its sole discretion, with such changes as may be made by Buyer (for the avoidance of doubt, including all exhibits and schedules thereto), that, among other things, finds and provides that: (i) the Assets and Facilities sold to Buyer pursuant to this Agreement shall be transferred to Buyer free and clear of all Liens (other than Permitted Liens) and all Liabilities, causes of action, demands, guaranties, rights, restrictions, remedies, and matters of any kind or nature whatsoever, whether at law or in equity, including, without limitation, free and clear of any rights or claims based on theories of transferee or successor liability under any applicable law, statute, rule, regulation, common law or equitable principle, including, without limitation, any Environmental Laws, labor or employment laws (such as unemployment compensation), ERISA, the Code, and COBRA, of any Governmental Entity, including, without limitation, the Pension Benefit Guaranty Corporation, the IRS, state and local taxing authorities and any Governmental Entity, whether arising before or after the commencement of the Bankruptcy Case and whether imposed by agreement, understanding, law, equity, regulation, custom or otherwise, including, without limitation, the Benefit Plans, save and excepting only those Liabilities expressly assumed by Buyer in writing pursuant to Section 1.4 of this Agreement; (ii) the Bankruptcy Court shall retain jurisdiction over any claims that are not Assumed Liabilities hereunder; (iii) this Agreement was negotiated, proposed and entered into by the parties without collusion, in good faith and from arm's length bargaining positions; (iv) this Agreement and the transactions contemplated hereby may be specifically enforced against and binding upon, and not subject to rejection or avoidance by, Sellers or any Chapter 7 or Chapter 11 trustee of Sellers appointed pursuant to the Bankruptcy Code or other representative of their respective estates; and (v) the Assumed Contracts and the Assumed Leases shall be properly assigned to and assumed by Buyer pursuant to the procedure set forth in Section 10.5 hereof, with only such exceptions as Buyer may agree in writing.

"Second Deposit Account" shall have the meaning set forth in Section 1.12.

"Seller" and "Sellers" shall have the meanings set forth in the introduction.

"Sellers' Leased Real Property" shall have the meaning set forth in Section 1.2(b).

"Sellers' Owned Intellectual Property" shall have the meaning set forth in Section 1.2(m).

"Sellers' Owned Real Property" shall have the meaning set forth in Section 1.2(a).

"Sellers' Real Property Expense Leases" shall have the meaning set forth in Section 1.2(b).

"Sellers' Real Property Income Leases" shall have the meaning set forth in Section 1.2(g).

"Surgery Center Loan" shall mean that certain loan from People's to JMMC in the original principal amount of $4,500,000, dated August 24, 2004, guaranteed by JMH, as evidenced by the Surgery Center Loan Documents.

"Surgery Center Loan Documents" shall mean those certain agreements, documents and instruments executed in connection with the Surgery Center Loan by and among People's, JMMC and JMH.

"Taxes" or "Tax" shall mean all taxes, fees, levies or other assessments, however denominated, including any interest, penalties or other additions to taxes that may become payable in respect thereof, imposed by any federal, territorial, state, local or foreign Governmental Entity, which taxes shall include, without limiting the generality of the foregoing, all income or profits taxes (including, but not limited to, federal income taxes and state income taxes), unrelated business income taxes, payroll and employee withholding taxes, unemployment insurance, social security taxes, sales and use taxes, ad valorem taxes, excise taxes, taxes under Code Section 4958, franchise taxes, gross receipts taxes, business license taxes, occupation taxes, property taxes, stamp taxes, environmental taxes, transfer taxes, workers' compensation, alternative or add-on minimum estimated or other taxes, levies or assessments for unclaimed property under applicable escheat or unclaimed property laws and other obligations having the same nature or a nature similar to any of the foregoing.

"Tax Return" or "Tax Returns" shall mean any report, return, declaration, claim for refund, or information return or statement relating to Taxes, including any schedule or attachment thereto and including any amendment thereof.

"The Hartford" shall mean Hartford Fire Insurance Company.

"Title Company" shall mean the title company Buyer selects to issue as of the Closing Date one or more ALTA owner's policies of title insurance (Form 2006), with extended coverage and zoning endorsements and such other endorsements as Buyer shall reasonably require.

"Trade Payables" shall mean accounts payable owed to vendors for goods sold and services rendered, in each case in the ordinary course of business, incurred within the three month period prior to the Petition Date or incurred after the Petition Date, but excluding indebtedness for borrowed money.

"Transfer Taxes" shall have the meaning set forth in Section 1.6(a)(vii).

"Transferred Contracts" shall have the meaning set forth in Section 10.5.

"Transferred Employees" shall have the meaning set forth in Section 9.1(a).

"WARN Act" shall have the meaning set forth in Section 9.1(c).

"Workers' Compensation Liabilities" shall mean the Liability of the Sellers and JEC under their workers' compensation insurance policy with The Hartford for the period May 31, 2014 to the Closing Date.

1.2 Sale of Assets. At the Closing, each Seller shall sell, transfer, convey, assign and deliver to Buyer all of such Seller's respective right, title and interest in, to and under the assets, properties and business of every kind and description that are owned or held by each Seller or used by each Seller in connection with the operation of the Facilities and the Business, except the Excluded Assets (collectively, the "Assets"), including, without limitation, the following assets and properties listed in this Section 1.2. Pursuant to the Sale Order, the Assets shall be sold and conveyed to Buyer free and clear of all Liens (other than Permitted Liens) and Liabilities (other than Assumed Liabilities), including any and all claims that Buyer is a successor, transferee or continuation of Sellers or the Business. The Assets include, without limitation, the following, except as included among the Excluded Assets:

(a) all real property owned by any Seller, as more specifically described on Schedule 1.2(a), together with all buildings, improvements and fixtures located thereupon, all easements, rights of way, and other appurtenances thereto (including appurtenant rights in and to public streets), all architectural plans or design specifications relating to the development thereof and all construction in progress (collectively, the "Sellers' Owned Real Property");

(b) to the extent elected by Buyer pursuant to Section 10.5 hereof, the real property leasehold or sub-leasehold estates described on Schedule 1.2(b) (collectively, the "Sellers' Leased Real Property;" the leases under which Sellers hold a leasehold or sub-leasehold estate in the Sellers' Leased Real Property are collectively referred to herein as the "Sellers' Real Property Expense Leases");

(c) (i) all tangible personal property used in the operation of the Business as of the Effective Time, including, without limitation, all major, minor or other equipment, furniture, fixtures, machinery, office furnishings and instruments, Sellers' most recent (as of the Petition Date) depreciation list previously provided to Buyer, (ii) all vehicles identified on Schedule 1.2(c)(ii) which continue to be owned by a Seller at the Effective Time, or acquired by a Seller between the Petition Date and the Effective Time and owned at the Effective Time and (iii) all inventories of supplies, non-expired drugs, food, janitorial and office supplies and other disposables and consumables existing at the Effective Time and located at any Facility, or owned or purchased by any Seller for use in connection with the Business (the "Inventories");

(d) to the extent assignable or transferable, all licenses, Certificates of Need, Exemption Certificates, franchises, accreditations and registrations and other licenses or permits issued by a Governmental Entity or pending for issuance by a Governmental Entity in connection

with the Business, including without limitation those described in Schedule 1.2(d) as the same may be renewed from time to time following the Petition Date (collectively, the "Permits and Licenses");

(e) all claims, causes of action and judgments in favor of Sellers relating to the physical condition or repair of the Assets, all insurance proceeds due to Buyer under Section 1.13 and, to the extent assignable, all warranties (express or implied) and rights and claims assertable by (but not against) Sellers related to the Assets;

(f) all financial, patient, medical staff, personnel (after obtaining any requisite employee consents) and other records relating to the Business or the Assets, including, without limitation, all accounts receivable records, equipment records, medical and administrative libraries, medical records, patient billing records, documents, construction plans and specifications, catalogs, books, records, files, operating manuals and current personnel records, including any electronic data relating to such records and information stored in any computer, computer server or computer equipment relating to or used in connection with the Business;

(g) to the extent elected by Buyer pursuant to Section 10.5 hereof, all lease agreements pursuant to which any Seller, as landlord, has leased to a third party, as tenant, all or some portion of the Sellers' Owned Real Property or the Sellers' Leased Real Property, including without limitation those described on Schedule 1.2(g) to the extent still in effect at the Effective Time or entered into by a Seller between the Petition Date and the Effective Time and in effect at the Effective Time (collectively, the "Sellers' Real Property Income Leases");

(h) all rights of any Seller under those Contracts, commitments and agreements and leases (including, without limitation, any design, engineering and construction contracts for planned, pending or ongoing construction projects) described on Schedule 1.2(h) (collectively, the "Assumed Contracts");

(i) all goodwill associated with the operation of the Business and the Assets;

(j) any deposits, other current assets, other assets, escrows, prepaid taxes or other advance payments relating to any expenses of the Business, including without limitation items of the type previously provided to Buyer (collectively, the "Prepaid Expenses");

(k) other than the Government Patient Receivables and any other Excluded Assets, and subject to the Healthcare Reimbursement Obligation, all notes, accounts receivable and other rights to receive payment for goods and services provided by Sellers in connection with the Business or otherwise arising from the operation of the Business, billed or unbilled, recorded or unrecorded, including, without limitation, any such notes, reimbursement credit balances, accounts receivable or other rights that have been charged off as bad debt, and all other notes receivable from patients and notes receivable from physicians as identified in a list previously provided to Buyer to the extent not satisfied prior to the Effective Time, and further including, without limitation, any of the same constituting Intercompany Obligations;

(l) the right to receive an amount of cash equal to the value of the Government Patient Receivables actually collected by Sellers as evidenced by statements provided to Buyer from time to time upon Buyer's request;

(m) the names used in connection with the Business, including, without limitation, Johnson Memorial Hospital, Johnson Surgery Center, Advanced Wound Center, Community Cancer Center, Home & Community Health Services, Johnson Memorial Cancer Center and Karen Davis Krzynowek Infusion Center together with all variations thereof, and the goodwill associated therewith, and all patents, trademarks, tradenames, service marks, domain names, trade secrets, copyrights, software (to the extent owned by Sellers), computer programs (to the extent owned by Sellers) and other intellectual property rights of Sellers (to the extent transferable) used in connection with the Business, including without limitation those described on Schedule 1.2(m) hereto (collectively, the "Sellers' Owned Intellectual Property");

(n) if elected by Buyer prior to Closing, each Seller's Medicare or Medicaid and other government healthcare program and commercial payor provider numbers and agreements to the extent assignable, including those items previously provided to Buyer to the extent still in effect as of the Effective Time, and rights of Sellers to settlement and retroactive adjustments, if any, for open cost reporting periods ending on or prior to the Closing Date (whether open or closed) arising from or against the U.S. Government under the terms of the Medicare program or TRICARE and against any state under its Medicaid program and against any third-party payor program that settles on a cost report basis, together with depreciation "recapture", whether recorded as a current or long-term asset;

(o) all nondisclosure or confidentiality, non-compete, or non-solicitation agreements with employees and agents of any Seller or with third parties to the extent relating to the Business or the Assets (or any portion thereof) and which are in favor of such Seller, including those set forth on Schedule 1.2(o) hereto to the extent still in effect as of the Effective Time;

(p) to the extent transferable, all of any Seller's rights under or pursuant to all warranties, representations and guarantees made by suppliers, manufacturers and contractors to the extent affecting any other Asset, other than any warranties, representations and guarantees pertaining to any Excluded Assets;

(q) all of Sellers' cash, cash equivalents, and short-term investments, except as set forth in subsection (t);

(r) all of Sellers' bankruptcy estates' interest in any and all Avoidance Actions;

(s) all equity interests in Tolland Imaging Center, LLC and all non-stock corporation membership interests and/or equity ownership interests in Northeast Regional Radiation Oncology Network, Inc. or any successor entity thereto;

(t) any funds remaining in any Administrative Expense Escrow following payment of all Administrative Expenses, which funds will be remitted by Sellers or their counsel to Buyer promptly following full and final payment of all Administrative Expenses; and

(u) except as expressly excluded in Section 1.3 below, all other property owned by Sellers, whether tangible or intangible, located at any Facility or used in connection with the Business, and any claims in favor of any Seller, whether known or unknown, contingent or otherwise.

The foregoing assets, together with the Excluded Assets, comprise substantially all of the property and assets used in the conduct and operation of the Business as of the Petition Date. Unless otherwise specified herein, the "Assets" also include all assets acquired by or leased by any Seller for use in connection with the Business between the Petition Date and the Effective Time.

The parties agree that Sellers have from time to time received or been made the beneficiaries of charitable gifts, transfers, trusts and bequests, and that these monies or any interest therein (the "Charitable Assets") are subject to the oversight of the Office of the Attorney General of Connecticut. It is the intention of the parties that, subject to the intentions of the donors and the approval of the Attorney General and the courts, if necessary, for Charitable Assets owned by any of the Sellers, the Charitable Assets will be transferred to the Buyer or an entity selected by the Buyer, to be used for the same charitable purposes for which they were donated, and for purposes thereof included among the Assets. To the extent they cannot be so transferred, they will constitute Excluded Assets, anything in this Agreement to the contrary notwithstanding. Further, it is the intention of the parties that, for Charitable Assets as to which any of the Sellers may be designated as beneficiary, Buyer or an entity selected by the Buyer will be designated as the successor beneficiary thereof in place of the applicable Seller(s).

Notwithstanding any provision of this Agreement identifying Buyer as the purchaser of the Assets, from time to time, prior to Closing, Buyer may designate one or more subsidiaries or Affiliates of Buyer which are entities formed for not-for-profit purposes entitling them to exemption under Section 501(c)(3) of the Code to be the transferee(s) of some or all of the Assets (any such subsidiary or Affiliate being referred to herein as a "Permitted Designee"). Each Permitted Designee shall be bound by all of the terms and conditions of this Agreement affecting Buyer as if such Permitted Designee were a signatory to this Agreement. In the event of any such designation, Buyer shall guarantee the obligations of such Permitted Designee(s) hereunder.

AS IS/WHERE IS. THE ASSETS SHALL BE TRANSFERRED "AS IS" AND "WHERE IS." EACH SELLER MAKES NO REPRESENTATIONS OR WARRANTIES OF ANY KIND OR NATURE (EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT). NO STATUTORY OR OTHER WARRANTIES AS TO THE CONDITION OF THE ASSETS OR THE MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OF THE ASSETS SHALL BE IMPLIED, AND EACH SELLER HEREBY EXPRESSLY DISCLAIMS ANY REPRESENTATION OR WARRANTY AS TO THE CONDITION OF THE ASSETS OR THEIR MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

1.3 Excluded Assets; Non-Assignable Contracts.

(a) The following items are not intended by the parties to be a part of the purchase and sale of assets hereunder and are excluded from the Assets (collectively, the

"Excluded Assets"): (i) the corporate record books, minute books and Tax records of each Seller; (ii) all Inventories disposed of in the ordinary course of business prior to the Closing and all accounts receivable collected in the ordinary course of business prior to the Closing; (iii) subject to the terms of Section 1.2(l), the Government Patient Receivables; (iv) except if Buyer elects pursuant to Section 1.2(n) to accept assignment of each Seller's Medicare and Medicaid provider number and provider agreements, rights of Sellers to settlement and retroactive adjustments, if any, for open cost reporting periods ending on or prior to the Closing Date (whether open or closed) arising from or against the U.S. Government under the terms of the Medicare program or TRICARE and against any state under its Medicaid program and against any third-party payor program that settles on a cost report basis, together with depreciation "recapture", whether recorded as a current or long-term asset; (v) rights of any Seller arising pursuant to this Agreement; (vi) all executory contracts or unexpired leases, whether oral or written, to which any Seller is a party which are not Assumed Contracts or Assumed Leases, and all assets leased, licensed or otherwise held pursuant thereto; (vii) personnel records to the extent the employees subject of such records have not consented in writing to the transfer of such records to the extent required by applicable law; (viii) all rights with respect to attorney-client privilege, attorney work product, accountant-client privilege and similar privileges and doctrines; (ix) all claims, counterclaims, rights and defenses of any Seller with respect to any other Excluded Asset and/or any Excluded Liability; and (x) any other assets as identified in a list previously provided to Buyer.

(b) Notwithstanding anything to the contrary in this Agreement, and subject to the provisions of this Section 1.3, to the extent that the assignment or transfer, or attempted assignment or transfer, to Buyer of any Assumed Contract or Assumed Lease would result in a violation of applicable law, or would require the consent, authorization, approval or waiver of a person who is not a party to this Agreement or an Affiliate of a party to this Agreement (including any Governmental Entity), and such consent, authorization, approval or waiver shall not have been obtained prior to the Closing, this Agreement shall not constitute an assignment, or transfer, or an attempted assignment or transfer, thereof; *provided, however*, that, subject to the satisfaction or waiver of the conditions contained in Articles VII and VIII, the Closing shall occur notwithstanding the foregoing without any adjustment to the Purchase Price on account thereof. Following the Closing, Sellers and Buyer shall use commercially reasonable efforts, and shall cooperate with each other, to obtain any such required consent, authorization, approval or waiver, or any release, substitution or amendment required to novate all Liabilities under any and all Assumed Contracts and Assumed Leases or to obtain in writing the unconditional release of all parties to such arrangements, so that, in any case, Buyer shall be solely responsible for such Liabilities from and after the Closing Date; *provided, however,* that neither Sellers nor Buyer shall be required to pay any consideration therefor. Once such consent, authorization, approval, waiver, release, substitution or amendment is obtained, Sellers shall be deemed, to have assigned and transferred to Buyer the relevant Assumed Contract or Assumed Lease to which such consent, authorization, approval, waiver, release, substitution or amendment relates for no additional consideration retroactive to the Effective Time, without need for further action of any Person, except as may be required by the Bankruptcy Court.

(c) To the extent that any Assumed Contract or Assumed Lease cannot be transferred to Buyer following the Closing, Buyer and Sellers shall use commercially reasonable efforts to enter into such arrangements (such as subleasing, sublicensing or subcontracting) to

provide to the parties the economic and, to the extent permitted under applicable law, operational equivalent of the transfer of such Assumed Contract or Assumed Lease to Buyer as of the Closing and the performance by Buyer of its obligations with respect thereto. To the extent that Buyer is receiving such economic and operational benefit, Buyer shall, as agent or subcontractor for Sellers, pay, perform and discharge fully the Liabilities of Sellers thereunder from and after the Closing Date. To the extent permitted under applicable law, Sellers shall, at Buyer's expense, hold in trust for and pay to Buyer promptly upon receipt thereof, such Assumed Contract or Assumed Lease and all income, proceeds and other monies received by Sellers to the extent related to such Assumed Contract or Assumed Lease in connection with the arrangements under this Section 1.3.

1.4 Assets Free and Clear; Assignment and Assumption Agreement.

(a) Notwithstanding any other provision hereof to the contrary, the Assets shall be sold and transferred to Buyer free and clear of all Liabilities and Liens, except (i) subject to the terms of Section 1.6(b)(i), the HFG Debt and the Liens securing the HFG Debt; (ii) the Restructured People's Debt in an amount not to exceed Ten Million Five Hundred Thousand Dollars ($10,500,000) of principal plus all outstanding and accrued interest on the Restructured People's Debt and the Liens securing the Restructured People's Debt; (iii) the Trade Payables; (iv) the Reimbursement Obligation directly attributable to the Sellers, in the event Buyer designates a Permitted Designee, and the Workers' Compensation Liabilities directly attributable to the Sellers in an amount not to exceed Two Million Dollars ($2,000,000); (v) the accrued and unpaid obligations of any Seller with respect to payroll, paid-time-off, incentive compensation and expense reimbursements as of the Effective Time (the "Accrued Employee Liabilities"); (vi) the obligations described in subsection (b) below; (vii) obligations of any Seller which are Intercompany Obligations; (viii) Real Property Permitted Encumbrances and other Permitted Liens; (ix) the Liabilities of Sellers, and Liens relating thereto, if any, set forth on Schedule 1.4(a)(ix); (x) the Healthcare Reimbursement Obligation in an amount not to exceed Two Million Two Hundred Thousand Dollars ($2,200,000); (xi) only if Buyer elects to accept assignment of each Seller's Medicare and Medicaid provider number and provider agreements pursuant to Section 1.2(n), all Liabilities under Sellers' Medicare and Medicaid provider numbers and agreements; and (xii) the Restructured Legacy Creditor Debt in an amount not to exceed (A) $3,000,000 plus (B) one-half of the Legacy Creditor Costs, up to a maximum of $50,000, and the Liens securing the Restructured Legacy Creditor Debt (collectively, the "Assumed Liabilities").

(b) Buyer shall expressly assume the Assumed Liabilities and all of Sellers' obligations with respect to events or periods on and after the Effective Time under the Assumed Contracts and the Assumed Leases, including without limitation the Collective Bargaining Agreement, pursuant to the Assignment and Assumption Agreement (the "Assignment and Assumption Agreement") in substantially the form attached hereto as Exhibit 1.4(b).

(c) Except for the Assumed Liabilities, obligations with respect to events or periods on and after the Effective Time under the Assumed Contracts and obligations with respect to events or periods on and after the Effective Time under the Assumed Leases, Buyer is not assuming, and shall not be deemed to have assumed, any other Liability of any Seller, or any

of their Affiliates, fixed or contingent, disclosed or undisclosed, recorded or unrecorded, currently existing or hereafter arising, or otherwise.

(d) With respect to any indebtedness secured by a Lien on the Assets, if the indebtedness is not expressly assumed by Buyer, any such Lien shall attach to the proceeds of sale.

1.5 Excluded Liabilities. Other than the Assumed Liabilities, Buyer shall not assume and shall not be liable for any Liabilities of any Seller (all Liabilities of any Seller that are not Assumed Liabilities are referred to collectively as the "Excluded Liabilities").

1.6 Purchase Price.

(a) Subject to the terms and conditions hereof, in consideration for the Assets, the Buyer agrees to assume the Assumed Liabilities and pay an amount equal to or assume the obligations as follows:

(i) the aggregate amount of (A) the Restructured People's Debt assumed by Buyer in an amount of up to Ten Million Five Hundred Thousand Dollars ($10,500,000) of principal plus all outstanding and accrued interest on the People's Debt, (B) the HFG Debt, which will be assumed or paid in full by Buyer as described below, and (C) the Restructured Legacy Creditor Debt assumed by Buyer in the amount of (I) $3,000,000 plus (II) one-half of the unpaid Legacy Creditor Costs, up to a maximum of $50,000;

(ii) the Cure Costs under all Assumed Leases and Assumed Contracts in an amount up to Five Hundred Thousand Dollars ($500,000);

(iii) without duplication, the aggregate amount of the Reimbursement Obligation directly attributable to the Sellers and assumed by Buyer and the aggregate amount of the Workers' Compensation Liabilities directly attributable to the Sellers and assumed by Buyer in an amount up to Two Million Dollars ($2,000,000);

(iv) Five Hundred Thousand Dollars ($500,000) (such amount being referred to herein as the "Cash Payment");

(v) the aggregate amount of Trade Payables assumed by Buyer;

(vi) the Accrued Employee Liabilities;

(vii) the aggregate amount of any transfer taxes, fees or similar assessments resulting from the sale of the Assets pursuant hereto and paid by Buyer in an amount up to Three Hundred Thousand Dollars ($300,000) (the "Transfer Taxes");

(viii) the Healthcare Reimbursement Obligation in an amount up to Two Million Two Hundred Thousand Dollars ($2,200,000); and

(ix) the aggregate amount of any premiums to obtain the insurance described in Section 5.7 hereof (the items in (i) through (viii) are, together with the assumption of the Assumed Liabilities, collectively, the "Purchase Price").

(b) The Purchase Price shall be payable as follows:

(i) the HFG Debt will be paid in full or assumed by Buyer on terms and conditions mutually acceptable to the Buyer and HFG;

(ii) the accrued and outstanding interest on the People's Debt shall be paid at Closing and the Restructured People's Debt shall be payable over time as set forth in and pursuant to their respective terms;

(iii) the Cure Costs under the Assumed Leases and Assumed Contracts shall be payable as mutually agreed to by Sellers and Buyer;

(iv) the Reimbursement Obligation shall be paid by the applicable Permitted Designee, if any, in the ordinary course of business and the Workers' Compensation Liabilities shall be payable as and when due, provided that if Buyer does not appoint a Permitted Designee and in fact purchases the Assets directly, the Reimbursement Obligation shall be forgiven;

(v) the Cash Payment will be paid as more specifically set forth in Schedule 1.6(b)(v), such Schedule to be completed by Buyer prior to Closing and to include administrative expenses incurred in the Sellers' bankruptcy cases (collectively, the "Administrative Expenses") (Sellers shall have the right to approve the Administrative Expenses set forth in such Schedule, in their reasonable discretion);

(vi) the payment of the premium for the "tail" or other insurance required by Buyer pursuant to Section 5.7 to the applicable insurance carrier;

(vii) the Trade Payables shall be assumed by Buyer;

(viii) the Accrued Employee Liabilities shall be paid to or for the benefit of the applicable employees of Sellers in accordance with applicable law;

(ix) any Transfer Taxes shall be paid by Buyer to the appropriate Governmental Entity on the Closing Date;

(x) the Healthcare Reimbursement Obligation and any other Assumed Liabilities shall be paid by Buyer in the ordinary course of business; and

(xi) the Restructured Legacy Creditor Debt will be assumed and paid in full by Buyer on the Closing Date.

1.7 Additional Investment. In addition to the Purchase Price, Buyer anticipates spending up to Thirteen Million Dollars ($13,000,000) within the first three (3) years following

the Closing on investments in technology, capital improvements, expanded services and routine replacements for the Facilities.

1.8 Taxes. Subject to the last sentence of Section 1.9 hereof, each Seller shall pay all Taxes, if any, applicable to such Seller, but not including any Transfer Taxes resulting from the sale of the Assets pursuant hereto. Buyer shall pay all Taxes, if any, applicable to Buyer, and all Transfer Taxes payable on account of the transactions contemplated by this Agreement.

1.9 Tax Obligations. To the extent necessary to transfer Assets to Buyer free and clear of Liens (other than Permitted Liens) and Liabilities (except Assumed Liabilities), each Seller shall be responsible for and shall pay any Taxes arising or resulting from or in connection with its ownership and/or operation of the Assets for taxable periods (i) ending before the Effective Time or (ii) for those portions up to the Effective Time of a taxable period that begins prior to, but ends after, the Effective Time. Buyer shall be responsible for and shall pay all Taxes in connection with the ownership of the Assets for taxable periods or portions thereof beginning as of the Effective Time. Notwithstanding the foregoing, prior to the Effective Time, each Seller shall pay when due any and all provider taxes and, after the Effective Time, the Buyer shall pay when due any and all provider taxes regardless of whether such taxes are attributable to taxable periods ending before the Effective Time.

1.10 Cooperation With Respect to Taxes. The parties to this Agreement shall reasonably cooperate, including without limitation during times of audit by taxing authorities and in preparation of Tax Returns, to avoid payment of duplicate or inappropriate Taxes, and each party shall furnish, at the reasonable request of the other, proof of payment of any such Taxes or any other documentation that is a prerequisite to avoiding payment of a duplicate or inappropriate Tax. Such cooperation shall include, without limitation, furnishing information regarding prior years' Tax Returns and related work papers, rulings and determinations by any tax authority.

1.11 Reserved.

1.12 Lock Box. Each Seller hereby appoints, from and after the Closing Date, Buyer, and Buyer agrees to act, as its collection agent with respect to its Government Patient Receivables. In connection therewith, on or before the Closing Date, Buyer shall establish on each Seller's behalf (and with such Seller's tax identification number) a "lock box" at a financial institution selected by Buyer (subject to such Seller's approval, which shall not be unreasonably withheld), or alternatively Buyer and such Seller may agree to designate and use an existing "lock box" bank account owned by Seller (the "Designated Lock Box Account"), and after the Closing, Buyer, as agent for such Seller and on such Seller's behalf, shall deposit in such designated lock box all cash, checks, drafts or other similar items of payment of such Government Patient Receivables. Each Seller shall provide standing instructions in writing to the financial institution at which such account is maintained directing all proceeds deposited in the Designated Lock Box Account be swept out on a daily basis to another deposit account at the financial institution owned by such Seller (the "Second Deposit Account"). Such Seller shall assign all such amounts deposited on its behalf into the Second Deposit Account to Buyer in full satisfaction of its obligation to transfer to Buyer an amount equal to the value of its Government Patient Receivables actually collected, as set forth in Section 1.2(l). Each Seller's agreement

with the financial institution shall require such Seller to provide at least ten (10) days prior written notice to the bank and obtain approval from the Bankruptcy Court before any change to these standing instructions shall become effective and shall require the bank to notify the Buyer of any change to these standing instructions at least five (5) days before becoming effective. Any change in the standing instructions not agreed to in writing in advance by Buyer shall constitute a material breach of the applicable Seller's obligations under this Agreement. The provisions of this Section 1.12 shall be subject to the rights of HFG as it relates to the Government Patient Receivables and in the event the Buyer assumes the HFG Debt, the lock box arrangement must be satisfactory to HFG.

1.13 Casualty and Condemnation Loss Provision.

(a) The risk of loss or damage to any of the Assets shall remain with Sellers until the Effective Time, and Sellers shall maintain their insurance policies covering the Assets and all other property through the Effective Time. If any material part or portion of the Assets is damaged, lost or destroyed (whether by fire, theft or other casualty event) prior to the Effective Time, Sellers shall notify Buyer ("Casualty Notice") as soon as possible of such damage, loss or destruction. The Casualty Notice shall set forth Sellers' good faith, reasonable estimate of the fair market value of the cost to repair, replace or restore (as applicable) such damage, loss or destruction (the "Estimate").

(b) In the event that there is damage, loss or destruction to the Assets (collectively, the "Casualty Assets") and (i) it can reasonably be anticipated that such damage, loss or destruction will prevent Buyer from providing a material service at any Facility for more than sixty (60) days after the Closing Date and so as to cause a Material Adverse Effect; or (ii) the Estimate is greater than $3,000,000 in excess of any applicable insurance recovery (either (i) or (ii), a "Material Loss"), Buyer may, within ten (10) days after receipt of the Estimate, by written notice to Sellers, terminate this Agreement.

(c) If, prior to the Effective Time, any part or portion of the Assets is destroyed, lost or damaged (i) to an extent that does not result in a Material Loss or (ii) to an extent that there is a Material Loss and Buyer chooses not to terminate this Agreement, Buyer and Sellers shall consummate the transactions contemplated in this Agreement, subject to the other terms and conditions of this Agreement, and, at the Effective Time, Sellers shall deliver possession of the Assets to Buyer in such physical condition as the same may then exist; provided that, in such event, Sellers shall assign to Buyer the right to receive any net insurance proceeds for the property loss or damage to the Assets and reduce the cash portion of the Purchase Price by an amount equal to any deductible or other reduction below fair market value of the applicable Assets of the net insurance proceeds received in connection therewith. For purposes of effecting this Section 1.13, Buyer will be a named additional insured on Sellers' property insurance.

(d) If, prior to the Effective Time, any Seller becomes aware that any condemnation proceeding is threatened or filed in respect of any Real Property, Sellers shall give prompt written notice thereof to Buyer, in which event Sellers agree to negotiate in good faith with Buyer regarding the effect, if any, such a proceeding shall have on the transactions contemplated herein. In the event that the condemnation proceeding relates to a material portion

of any Facility as determined by Buyer in good faith, Buyer shall have the option to terminate this Agreement or proceed with Closing, provided, that Buyer shall be entitled to receive the entire condemnation award. Buyer shall have the right to approve or disapprove any proposed settlement concerning any filed or threatened condemnation proceeding relating to any of the Assets.

(e) The provisions of this Section 1.13 shall be subject to the rights of People's under the Hospital Loan Documents and the Surgery Center Loan Documents.

1.14 Deposit. Concurrently with the execution of the Original Purchase Agreement Buyer deposited into an escrow (the "Deposit Escrow") with the Title Company as escrow agent (the "Deposit Escrow Holder"), an amount equal to Seven Hundred Fifty Thousand Dollars ($750,000.00) (together with interest earned thereon, the "Deposit") in immediately available, good funds, pursuant to joint instructions to be delivered to the Deposit Escrow Holder. Upon receipt of such funds, the Deposit Escrow Holder deposited the Deposit into an interest-bearing account. The Deposit is held pursuant to an Escrow Agreement (the "Escrow Agreement") entered into by the parties and Deposit Escrow Holder concurrently with the execution of the Original Purchase Agreement. At Closing, the Deposit shall be paid over to Sellers. If this Agreement terminates for any reason, the Deposit shall be paid over to Sellers or returned to Buyer, as set forth in Section 11.3 and the Escrow Agreement.

2. CLOSING.

2.1 Closing. The consummation of the purchase and sale of the Assets (the "Closing") shall take place at the offices of Hinckley, Allen & Snyder LLP or such other agreed upon location, at 10:00 A.M. local time on the last business day of the month in which all of the conditions precedent thereto have been satisfied, except those that are to be satisfied at the time of the Closing, or at such other time as the parties hereto may mutually designate in writing (the "Closing Date"), but in no event later than January 14, 2016, or such other date as the parties may agree in writing. The Closing shall be effective for all purposes at 12:01 A.M. on the first calendar day of the next succeeding month or at such other point in time as the parties may agree in writing (the "Effective Time").

2.2 Actions of Sellers at Closing. At the Closing, each Seller shall deliver, or cause to be delivered, to Buyer the following (each Seller hereby acknowledges and agrees that the agreements described in this Section 2.2 shall expressly provide that the Assets shall be delivered free and clear of all Liens (other than Permitted Liens) and Liabilities (other than Assumed Liabilities)):

(a) One or more quitclaim deeds or deeds in transferable and recordable form, reasonably acceptable to each of Buyer and the Title Company, executed by a duly appointed duly authorized officer and/or representative of such Seller, conveying to Buyer all of such Seller's right and interest to the Sellers' Owned Real Property, subject only to the applicable Real Property Permitted Encumbrances that affect any such parcel;

(b) An Assignment and Assumption Agreement executed by a duly authorized officer and/or representative of such Seller;

(c) A general bill of sale and assignment substantially in the form attached hereto as Exhibit 2.2(c) (the "Bill of Sale") executed by a duly authorized officer and/or representative of such Seller;

(d) The applicable Name Amendments for filing with the Office of the Connecticut Secretary of the State;

(e) A secretary's certificate, including copies of resolutions duly adopted by its board of directors or other governing body authorizing and approving the performance of each of the transactions contemplated hereby and the execution and delivery of this Agreement and the documents described herein, together with certificates of incumbency, certified as true and of full force as of the Closing by an appropriate officer of such Seller;

(f) A certificate of the respective President or a Vice President of such Seller, certifying that the conditions set forth in Sections 7.1, 7.3 (as it relates to Sellers), 7.4 and 7.6 have been satisfied;

(g) A certificate of existence of such Seller from the Office of the Connecticut Secretary of the State dated not more than ten (10) days prior to Closing;

(h) A title insurance affidavit substantially in the form of Exhibit 2.2(h) hereto as requested by the Title Company;

(i) Reserved;

(j) Copies of insurance policies and certificates of insurance evidencing the insurance described in Section 5.7;

(k) JMH shall deliver a Drug Enforcement Administration limited power of attorney fully executed by a duly authorized officer of JMH (the "DEA Power of Attorney"), substantially in the form attached hereto as Exhibit 2.2(k);

(l) A certificate of non-foreign status, dated as of the Closing Date, executed by a duly authorized officer of such Seller, in form and substance required under the Treasury Regulations pursuant to Section 1445 of the Code, substantially in the form of Exhibit 2.2(l) hereto;

(m) Reserved;

(n) The Medical Records Custody Agreement; and

(o) Such other instruments and documents as Buyer reasonably deems necessary to effectuate the transactions contemplated hereby.

Simultaneously with the delivery of the foregoing items and as reasonably required at any time thereafter, each Seller will take all steps as may reasonably be required to put Buyer in actual possession and operating control of the Assets following the Closing.

2.3 Actions of Buyer at Closing. At the Closing, Buyer shall deliver, or cause to be delivered, to Sellers or their representatives:

(a) Payment of the Purchase Price less the Deposit as determined in accordance with and payable pursuant to Section 1.6 hereof;

(b) The Assignment and Assumption Agreement, all executed by a duly authorized officer of Buyer;

(c) Reserved;

(d) The Medical Records Custody Agreement;

(e) A copy of resolutions duly adopted by the board of directors of Buyer authorizing and approving Buyer's performance of the transactions contemplated hereby and the execution and delivery of the documents described herein, certified as true and of full force as of the Closing by an appropriate officer of Buyer;

(f) A certificate, dated as of the Closing Date, of an appropriate officer of Buyer certifying that the conditions set forth in Sections 8.1 and 8.2 (as it relates to Buyer) have been satisfied;

(g) A certificate of incumbency, dated as of the Closing Date, for the officers of Buyer making certifications for Closing or executing this Agreement, the Assignment and Assumption Agreement, or any other documents, agreements or certificates contemplated by the terms hereof to be executed and delivered by Buyer; and

(h) A certificate of existence of Buyer from the Office of the Connecticut Secretary of the State dated not more than ten (10) days prior to Closing.

3. REPRESENTATIONS AND WARRANTIES OF SELLERS.

As of the Petition Date and as of the Closing Date, Sellers hereby jointly and severally represent and warrant to Buyer the following:

3.1 Existence and Capacity. Each Seller is a nonstock corporation, duly organized, validly existing and in good standing under the laws of the State of Connecticut with all requisite corporate power and authority to own, operate and lease its properties, including, without limitation, the Assets.

3.2 Binding Agreement. This Agreement constitutes the valid, legal and binding obligation of each Seller, enforceable against such Seller in accordance with its terms. Upon the execution and delivery by each Seller of such other agreements as may be required pursuant to Section 2.2, such agreements will constitute valid, legal and binding obligations of such Seller, enforceable against such Seller in accordance with their terms.

3.3 Powers; Consents; Absence of Conflicts With Other Agreements. The execution, delivery, and performance of this Agreement by each Seller and all other agreements referenced

herein, or ancillary hereto, to which such Seller is a party, and the consummation of the transactions contemplated herein by such Seller:

(a) are within such Seller's authority and power, are not in contravention of law or of the terms of such entity's organizational documents and have been duly authorized by all appropriate action of such Seller;

(b) except as set forth on Schedule 3.3, do not require any approval or consent of, or filing with, any Governmental Entity bearing on the validity of this Agreement which is required by law or the regulations of any such Governmental Entity, assuming the accuracy of Buyer's representation and warranty set forth in Section 4.6; and

(c) assuming the accuracy of Buyer's representation and warranty set forth in Section 4.6, will not violate any statute, law, ordinance, rule or regulation of any Governmental Entity to which any Seller or the Assets may be subject; and will not violate any judgment, decree, order, writ or injunction of any court or Governmental Entity to which any Seller, or the Assets may be subject.

3.4 Sufficiency of Assets. Except for the Excluded Assets, the Assets constitute, in the aggregate, all the assets, interests, rights and property used by Sellers in connection with the operation of the Business as currently conducted.

3.5 Title to Tangible Personal Property. Seller has good and valid title to, or a valid leasehold interest in, all tangible personal property included in the Assets.

3.6 Real Property. Schedule 1.2(a) sets forth the Sellers' Owned Real Property. Seller has good and marketable fee simple title to the Sellers' Owned Real Property. Schedule 1.2(b) sets forth the Sellers' Leased Real Property. No Seller has received any written notice of existing, pending or threatened (i) condemnation proceedings affecting the Sellers' Owned Real Property or Sellers' Leased Real Property, or (ii) zoning, building code or other moratorium proceedings, or similar matters which would reasonably be expected to materially and adversely affect the ability to operate the Sellers' Owned Real Property or Sellers' Leased Real Property as currently operated. Neither the whole nor any material portion of any Sellers' Owned Real Property or Sellers' Leased Real Property has been damaged or destroyed by fire or other casualty.

4. REPRESENTATIONS AND WARRANTIES OF BUYER.

As of the Petition Date and as of the Closing Date, Buyer hereby represents and warrants to Sellers the following:

4.1 Existence and Capacity. Buyer is a nonstock corporation duly organized, validly existing and in good standing under the laws of the State of Connecticut with all requisite corporate power and authority to own, operate and lease its properties.

4.2 Binding Agreement. This Agreement constitutes the valid, legal and binding obligation of Buyer enforceable against Buyer in accordance with its terms. Upon the execution and delivery by Buyer of such other agreements as may be required pursuant to Section 2.3

herein, such agreements will constitute valid, legal and binding obligations of Buyer enforceable against Buyer in accordance with their terms.

4.3 Powers; Consents; Absence of Conflicts With Other Agreements. The execution, delivery, and performance of this Agreement by Buyer and the execution, delivery and performance by Buyer of all other agreements referenced herein, or ancillary hereto, to which Buyer is a party, and the consummation of the transactions contemplated herein by Buyer: are within Buyer's corporate powers, are not in contravention of law or of the terms of Buyer's organizational or governing documents and have been duly authorized by all appropriate action; except as set forth on Schedule 4.3, do not require any approval or consent of, or filing with, any Governmental Entity bearing on the validity of this Agreement which is required by law or the regulations of any such Governmental Entity; will not conflict with, require consent under or result in any breach or contravention of, or the creation of any Lien under, any indenture, agreement, lease, instrument or understanding to which Buyer or its Affiliates is a party or by which any of them is bound or any of their assets is subject; will not violate any statute, law, ordinance, rule or regulation of any Governmental Entity to which Buyer or its Affiliates may be subject; and will not violate any judgment, decree, order, writ or injunction of any court or Governmental Entity to which Buyer or its Affiliates may be subject.

4.4 Continuation of Sellers' business. It is the present intention of Buyer to continue the historic business lines and services of Sellers.

4.5 Wherewithal to Perform Obligations. Buyer has sufficient funds, personnel, property, assets and other resources to undertake and perform its obligations under this Agreement.

4.6 HSR Act. The Board of Directors of the "ultimate parent entity" of the "acquiring person" of which Buyer is a part for purposes of the HSR Act has determined that the fair market value of the Assets and the assets to be sold pursuant to the JEC Transaction is less than $75,900,000.

5. COVENANTS PRIOR TO CLOSING.

5.1 Operations. Between the Petition Date and the earlier of the Effective Time or the termination of this Agreement, with respect to the ownership and operation of the Assets and Facilities and subject to the terms of the Affiliation Agreements, each Seller will:

(a) carry on the Business in substantially the same manner as it has been heretofore conducted, and not make any material change in personnel or operations and not make any change in its finance or accounting policies or practices;

(b) maintain the Assets in substantially as good working order and condition as at present, ordinary wear and tear excepted;

(c) perform in all respects their obligations under agreements relating to or affecting the Assets, including, without limitation, stay current on all executory contracts to which it is a party;

(d) keep in full force and effect present insurance policies or other comparable insurance coverage;

(e) keep current in payment of its wages and maintenance of its benefits to its employees;

(f) continue to timely dispose of any expired drugs and pharmaceuticals in the ordinary course of business and as required by applicable law; and

(g) use commercially reasonable efforts to maintain and preserve its business organization intact, to retain its present employees, to maintain its relationships with suppliers, physicians, patients and others having business relations with any Facility and to maintain all Permits and Licenses in full force and effect.

5.2 Performance Under Affiliation Agreements. Until the earlier of the Closing Date and the date that is fifteen (15) days following the date of termination of this Agreement, Saint Francis will continue to be a party to and perform its obligations under the Affiliation Agreements, subject to the terms of those agreements.

5.3 Efforts to Close. Each party hereto shall use commercially reasonable efforts to proceed toward the Closing and to cause the other parties' conditions to Closing to be met as soon as practicable and consistent with the other terms contained herein. Each party hereto shall notify the other parties as soon as practicable of any event or matter which comes to such party's attention which may reasonably be expected to prevent the conditions to such party's obligations being met.

5.4 Consents. Each party hereto will use its respective commercially reasonable efforts to obtain all permits, approvals, authorizations and consents of all third parties necessary or desirable for the purpose of (i) consummating the transactions contemplated hereby or (ii) enabling Buyer to operate the Business in the ordinary course after the Closing. Each Seller agrees to cooperate reasonably with Buyer in Buyer's efforts (A) to make any required filings and to obtain any third party consents or governmental approvals necessary in order to consummate the transactions contemplated hereby, (B) to respond to any governmental investigation of such transactions, and (C) to defend any legal or administrative proceedings challenging such transactions. Each Seller will, upon reasonable request, cooperate with Buyer and its representatives and counsel, in the preparation of any document or other material which may be required by any Governmental Entity as a predicate to or result of the transactions herein contemplated. Buyer's and Sellers' obligations pursuant to filings with Governmental Entities shall be controlled by Section 5.9.

5.5 Notice; Efforts to Remedy. Prior to the Closing, each party shall promptly give written notice to the other parties hereto upon becoming aware of the impending occurrence of any event which would cause or constitute a breach of any such party's representations, warranties or covenants in this Agreement or cause a Material Adverse Effect. Prior to the Closing, each party shall use its commercially reasonable efforts to prevent or promptly remedy any breach of its representations, warranties or covenants contained in this Agreement.

5.6 Termination of Employees. Effective as of the Closing Date, Sellers shall take appropriate action to terminate the employment of all Employees and to remove such Employees from their payrolls, with Buyer responsible for all Accrued Employee Liabilities as an Assumed Liability.

5.7 Tail Insurance. Sellers shall obtain "tail" or other insurance, in form and substance (including cost and amount) acceptable to Buyer, in its commercially reasonable discretion, to insure against Liabilities of the Facilities, Employees (including without limitation professional employees) and the Business relating to all periods prior to the Effective Time.

5.8 Evergreen Ground Lease. Buyer agrees to consent to the assignment by JEC and assumption by the purchaser of the assets in the JEC Transaction of the Evergreen Ground Lease, pursuant to an assignment and assumption agreement, in form and substance acceptable to Buyer.

5.9 CON and Other Regulatory Filings.

(a) Buyer and Sellers shall collaborate on the development and prosecution of a joint certificate of need application to be filed with OHCA for approval of the transactions contemplated by this Agreement. The parties agree that Buyer will prepare the first draft of the CON application, including all documents and exhibits related thereto, which shall be subject to review by the parties and shall be approved by Buyer and Sellers before the final CON application is filed with OHCA. Buyer shall pay for the costs relating to the CON application, including the cost of its financial advisors for the CON, except that each party shall be responsible for its own attorney's fees.

(b) Each Party hereto shall, as promptly as possible, use its reasonable best efforts to obtain, or cause to be obtained, all consents, authorizations, orders and approvals from all Governmental Entities in addition to the CON Filing and OHCA approval under Section 5.9(a), that may be or become necessary for its execution and delivery of this Agreement and the performance of its obligations pursuant to this Agreement. Each party shall cooperate fully with the other party and its Affiliates in promptly seeking to obtain all such consents, authorizations, orders and approvals. The parties hereto shall not willfully take any action that will have the effect of delaying, impairing or impeding the receipt of any required consents, authorizations, orders and approvals.

(c) Buyer and Sellers will coordinate all communications with Governmental Entities. Buyer and Sellers will inform one another of any communication from any Governmental Entity concerning this Agreement and the transactions contemplated herein promptly after receiving such communication.

6. BANKRUPTCY COURT APPROVALS.

6.1 Bankruptcy Court Approvals, Generally. This Agreement is subject to approval by the Bankruptcy Court.

6.2 Sale Procedures Order and Sale Order. Promptly following the Execution Date (and in no event later than two business days following the Execution Date), Sellers shall make a

motion (the "Sale Motion") seeking entry of the Sale Order, in the form attached hereto as Exhibit 6.2, or in such other form that is satisfactory to Buyer, in its sole discretion.

Sellers shall use reasonable good faith efforts to obtain entry of the Sale Order by the Bankruptcy Court as soon as practicable, and in no event later than May 15, 2015, unless Buyer in its sole discretion agrees to a later date. The Sale Order shall (i) approve the sale of the Assets to Buyer on the terms and conditions set forth in this Agreement and authorize Sellers to proceed with the transactions contemplated herein, (ii) include a specific finding that Buyer or its designee is a good faith buyer of the Assets, and (iii) state that the sale of the Assets to Buyer or its designee shall be free and clear of all Liabilities and Liens whatsoever (other than Assumed Liabilities and Permitted Liens).

7. CONDITIONS PRECEDENT TO OBLIGATIONS OF BUYER.

The obligations of Buyer to purchase the Assets in accordance with the terms of this Agreement are subject to the satisfaction, on or prior to the Closing Date, of the following conditions unless waived in writing by Buyer:

7.1 Representations/Warranties. The representations and warranties of each Seller made in this Agreement qualified as to materiality shall be true and correct, and those not so qualified shall be true and correct in all material respects when made as of the Closing Date as though such representations and warranties had been made on and as of such Closing Date. Each Seller shall have duly performed, complied with and satisfied all covenants, agreements and conditions required by this Agreement to be performed, complied with or satisfied in all material respects by it prior to the time of the Closing.

7.2 Pre-Closing Confirmations. Buyer shall have obtained documentation or other evidence confirming the following:

(a) The Sale Order shall have been issued and have become a Final Order;

(b) confirmation and effective transfer or reissuance (upon Closing) of the appropriate registration and/or licensure of the Facilities to the extent required by the State of Connecticut for continued operation of the Facilities by Buyer after the Closing;

(c) if an assignment of the Medicare and Medicaid provider numbers is elected by Buyer pursuant to Section 1.2(n) hereof, confirmation of Medicare and Medicaid certification of the Facilities or if such assignments are not so elected by Buyer, Buyer and Sellers shall have taken all steps necessary and appropriate, including filing of CMS Form 855 and sending notification and any applicable application to the Connecticut Department of Social Services, to apply for and obtain Medicare and Medicaid certification of the Facilities as soon as practicable after the Closing;

(d) confirmation from the Department of Health as to any necessary registration and licensure matters with respect to the operation by Buyer of the Facilities and all presently authorized services on and after the Closing;

(e) issuance by OHCA of a CON approving this Agreement and the transactions contemplated herein without the imposition of any condition deemed by Buyer to be materially burdensome, as determined in Buyer's reasonable discretion;

(f) confirmation of receipt of all other required approvals, licenses, consents, authorizations, and permits from all Governmental Entities required to consummate the transactions herein contemplated and to permit Buyer to operate the Facilities and all presently authorized services on and after the Closing; and

(g) confirmation of receipt of all required approvals and consents of the Roman Catholic Church approving the transactions contemplated herein.

7.3 Action/Proceeding. No action, proceeding, investigation or administrative hearing before a court or any other Governmental Entity shall have been instituted or threatened against any Seller or Buyer which seeks injunctive relief in anticipation of the sale of the Assets and may reasonably be expected to prohibit the sale of the Assets to Buyer or seeks damages in a material amount by reason of the consummation of the transactions contemplated hereby.

7.4 Adverse Changes. A Material Adverse Effect on the Business, the Hospital, the Assets or a Facility shall not have occurred after the date hereof and be continuing as of the Closing Date, a Material Adverse Effect shall not be in existence, or there shall not have occurred any event that with reasonable certainty would constitute or cause a Material Adverse Effect.

7.5 Proceedings and Documents Satisfactory. Buyer shall have received such certificates, opinions and other documents, including without limitation, those identified in Section 2.2 hereof in order to consummate the transactions contemplated hereby on the terms set forth herein, all of which shall be in form and substance reasonably satisfactory to it and its counsel. All proceedings in connection with the purchase and sale of the Assets and all certificates and documents delivered to Buyer pursuant to this Agreement shall be reasonably satisfactory in form and substance to Buyer and its counsel acting reasonably and in good faith.

7.6 No Investigation; Satisfactory Resolution of CMS Investigation. Except as previously disclosed in writing by Sellers to Buyer prior to the Petition Date, no regulatory investigation or proceeding involving CMS, the Justice Department or any other federal or state agency and involving or related to Seller that had or reasonably would have a Material Adverse Effect on Seller shall have been commenced. Buyer shall be satisfied, in its reasonable discretion, of the resolution of all matters related to the CMS Investigation.

7.7 Sale Order. The Sale Order shall provide that the Assets shall be conveyed free and clear of all Liens (other than Permitted Liens) and Liabilities (other than Assumed Liabilities) and on the Closing Date shall, in fact, be delivered free and clear of all Liens (other than Permitted Liens) and Liabilities (other than Assumed Liabilities).

7.8 HSR Act. If a filing is required under the HSR Act on account of the transactions contemplated by this Agreement, the waiting period under the HSR Act shall have expired or been terminated.

7.9 Assumed Liabilities. Each category of Assumed Liabilities set forth in Section 1.4(a)(i) – (iv), (vii) and (viii) shall not exceed the amounts set forth in such subsections relative to each such Assumed Liability.

7.10 Tail or Other Insurance. Sellers shall have obtained "tail" or other insurance, in form and substance (including cost and amount) acceptable to Buyer, in its commercially reasonable discretion as set forth in Section 5.7 hereof.

7.11 HFG Debt. The aggregate outstanding amount of the HFG Debt shall not exceed Seven Million Dollars ($7,000,000).

7.12 Net Working Capital. Sellers' Net Working Capital shall be no less than One Million Dollars ($1,000,000) as of the Closing Date. Not more than five (5) days before the Closing Date, Sellers shall provide the Buyer with their computation of estimated Net Working Capital as of the Closing Date. Such computation shall be subject to Buyer's review and approval.

7.13 Restructured Legacy Creditor Debt. Buyer shall have reached an agreement with the Legacy Creditors regarding the assumption and satisfaction of the Restructured Legacy Creditor Debt that is satisfactory to Buyer in its sole discretion.

8. CONDITIONS PRECEDENT TO OBLIGATIONS OF SELLERS.

The obligations of Sellers to sell the Assets in accordance with the terms of this Agreement are subject to the satisfaction, on or prior to the Closing Date, of the following conditions unless waived in writing by Sellers:

8.1 Representations/Warranties. The representations and warranties of Buyer made in this Agreement qualified as to materiality shall be true and correct, and those not so qualified shall be true and correct in all material respects, when made, as of the Closing Date as though such representations and warranties had been made on and as of such Closing Date. Each and all of the terms, covenants, and conditions of this Agreement to be complied with or performed by Buyer on or before the Closing Date pursuant to the terms hereof shall have been duly complied with and performed in all material respects.

8.2 Action/Proceeding. No action, proceeding, investigation or administrative hearing before a court or any other Governmental Entity shall have been instituted or threatened against any Seller or Buyer which seeks injunctive relief in anticipation of the sale of the Assets and may reasonably be expected to prohibit the sale of the Assets to Buyer or seeks damages in a material amount by reason of the consummation of the transactions contemplated hereby.

8.3 Proceedings and Documents Satisfactory. Sellers shall have received such certificates, opinions and other documents, including without limitation, those identified in Section 2.3 hereof in order to consummate the transactions contemplated hereby, all of which shall be in form and substance reasonably satisfactory to them and their counsel. All proceedings in connection with the purchase and sale of the Assets and all certificates and documents delivered to Sellers pursuant to this Agreement shall be reasonably satisfactory in form and substance to Sellers and their counsel acting reasonably and in good faith.

8.4 Pre-Closing Confirmations. Sellers shall have obtained documentation or other evidence confirming the following:

(a) The Sale Order shall have been issued and have become a Final Order;

(b) confirmation and effective transfer or reissuance (upon Closing) of the appropriate registration and/or licensure of the Facilities to the extent required by the State of Connecticut for continued operation of the Facilities by Buyer after the Closing;

(c) if an assignment of the Medicare and Medicaid provider numbers is elected by Buyer pursuant to Section 1.2(n) hereof confirmation of Medicare and Medicaid certification of the Facilities or if such assignments are not so elected by Buyer, Buyer and Sellers shall have taken all steps necessary and appropriate, including filing of CMS Form 855 and sending notification and any applicable application to the Connecticut Department of Social Services, to apply for and obtain Medicare and Medicaid certification of the Facilities as soon as practicable after the Closing;

(d) confirmation from the Department of Health as to any necessary registration and licensure matters with respect to the operation by Buyer of the Facilities and all presently authorized services on and after the Closing; and

(e) issuance by OHCA of a CON approving this Agreement and the transactions contemplated herein; and

(f) confirmation of receipt of all other required approvals, licenses, consents, authorizations, and permits from all Governmental Entities required to consummate the transactions herein contemplated and to permit Buyer to operate the Facilities and all presently authorized services on and after the Closing.

8.5 HSR Act. If a filing is required under the HSR Act on account of the transactions contemplated by this Agreement, the waiting period under the HSR Act shall have expired or been terminated.

9. EMPLOYEE MATTERS.

9.1 Transfer of Employment.

(a) Effective as of the Closing Date, Buyer shall offer at will employment to substantially all employees who are employed by Sellers immediately prior to the Effective Time, who satisfy Buyer's standard policies and conditions for employment, and as otherwise provided herein below (the employees who accept such an offer and commence employment with Buyer are collectively referred to herein as the "Transferred Employees"). Each offer of employment shall provide for base salary or hourly wage rates at least equal to such employee's base salary or hourly wage rate in effect immediately prior to the Closing Date. Buyer shall provide employee benefits that are in the aggregate substantially similar, as reasonably determined by Buyer, to the benefits provided to Sellers' employees immediately prior to the Closing Date. Nothing herein shall be deemed to affect or limit in any way management prerogatives of Buyer with respect to employees, including the right to amend or terminate any

employee benefit plans and programs or limit the obligations of Buyer to amend its plans as needed to comply with applicable law.

(b) As of the Effective Time, Buyer shall take the following actions: (i) waive any eligibility waiting periods under any health and welfare plans maintained for the benefit of the Transferred Employees and, to the extent possible, waive any limitations regarding pre-existing conditions under any welfare plans maintained for the benefit of the Transferred Employees, (ii) provide each Transferred Employee with credit for any co-payments and deductibles paid prior to the Effective Time in satisfying any applicable deductible or out-of-pocket requirements under such health plans, and (iii) for purposes of eligibility, vesting and the allocation of employer contributions under a defined contribution plan (but not for purposes of benefit accrual under a defined benefit plan) under the plans and policies of Buyer, treat all service by the Transferred Employees with Sellers and their Affiliates immediately prior to the Effective Time as service with Buyer. The Buyer shall also recognize accrued but unused paid time off as part of assuming the Accrued Employee Liabilities with respect to the employment period of the Transferred Employees including the Effective Time, and shall credit each Transferred Employee all service by such Transferred Employee with Sellers and their Affiliates immediately prior to the Effective Time as service with Buyer for purposes of determining subsequent entitlement to paid time off.

(c) In respect of notices and payments relating to events occurring prior to the Effective Time, Sellers shall be responsible for all Liability for any and all notices, payments, fines or assessments due to any Governmental Entity, pursuant to any applicable laws, with respect to the employment, discharge or layoff of employees by Sellers prior to the Effective Time, including but not limited to the Worker Adjustment and Retraining Notification Act and any rules or regulations as have been issued in connection with the foregoing (jointly, referred to throughout this Agreement as the "WARN Act"). Likewise, in respect of notices and payments relating to events occurring at or prior to the Effective Time, Buyer shall be responsible and assume (and shall indemnify and hold each Seller harmless from and against) all Liability for any and all notices, payments, fines or assessments due to any Governmental Entity, pursuant to the WARN Act, with respect to the employment, discharge, layoff of employees employed by Buyer at or after the Effective Time.

9.2 Assumption of Collective Bargaining Agreement. Buyer agrees to assume all rights, liabilities and obligations of the Sellers under the Collective Bargaining Agreement.

9.3 No Third Party Beneficiaries. Nothing herein shall be deemed to create or grant to any such employee or Transferred Employee third-party beneficiary rights or claims or causes of action of any kind or nature.

10. PARTICULAR COVENANTS.

10.1 COBRA Responsibilities. With respect to any current or former employee of Sellers who (including any eligible spouse and dependent thereof) incurs a qualifying event, as defined by Code Section 4980B or Part 6 of Subtitle B of Title I of ERISA, as a result of the transaction contemplated by this Agreement, whether or not hired by Buyer, or who incurred a qualifying event prior to the Effective Time (all such employees together with their spouses and

eligible dependents are referred to herein as "Qualified Beneficiaries"), Sellers shall retain the obligation, if any, for providing notices and continuation coverage under COBRA or other similar continuation coverage obligation and shall offer, if required, such Qualified Beneficiaries continuation coverage under the group health, dental or other medical plans of Sellers to the fullest extent required by COBRA. In the event that Sellers and its Affiliates do not maintain a group health plan after the Closing, the Qualified Beneficiaries shall become eligible for COBRA continuation coverage under a group health, dental or other medical plan of Buyer.

10.2 Name Change; Change in Case Caption. Each Seller acknowledges and agrees that Buyer will acquire as part of the Assets the exclusive right to use the names Johnson Memorial Hospital, Johnson Surgery Center, Advanced Wound Center, Community Cancer Center, Home & Community Health Services, Johnson Memorial Cancer Center and Karen Davis Krzynowek Infusion Center and all variations thereof and the goodwill associated therewith and that no Seller will use such name(s) or any derivative thereof subsequent to the Closing, except that Sellers' entity names may include such names on a transitional basis until such time as the Name Amendments described below have been effectuated. Sellers further covenant and agree that, on or before the Closing Date, Sellers will have adopted a resolution changing the names of Sellers to such names as mutually agreed to by the parties (the "Name Amendments"). The resolutions and the amendments shall have an effective date that is not more than thirty (30) days following the Closing Date. As contemplated by Section 2.2, Sellers shall deliver the Name Amendments to Buyer at the Closing, and Buyer is hereby authorized to file the Name Amendments with the office of the Connecticut Secretary of the State at any time following the Closing. Within the later of five (5) days of the entry of the Sale Order or two (2) days following Buyer's notice to Sellers that the Name Amendments have been filed with the office of the Connecticut Secretary of the State, Sellers shall file a motion with the Bankruptcy Court to change the case caption of the Bankruptcy Case and the name of each Seller consistent with the provisions of this Section 10.2.

10.3 Terminating Cost Report. Sellers shall prepare and timely file (and provide Buyer a copy) of all terminating cost reports for the Facilities in respect of the Medicare and Medicaid programs, or any successor governmental program, reflecting consummation of the transactions contemplated hereby no later than one hundred fifty (150) days after the Closing. Buyer, upon reasonable notice from Sellers, during normal business hours, will cooperate with Sellers in regard to the preparation, filing, handling and appeals of Sellers' cost reports related to the Business for periods prior to the Effective Time. After the Effective Time, Buyer agrees to provide Sellers with reasonable access to records of the Business necessary and appropriate for the preparation or appeal of Sellers' cost reports and to provide services of Buyer's employees to Sellers as reasonably necessary and appropriate, subject to Buyer's discretion, in connection with the preparation and/or appeal of such cost reports.

10.4 Required Creditor Notices. Sellers shall provide prompt and timely notice of the proposed sale of the Assets, in form and substance reasonably acceptable to Buyer and in such manner as may be required by applicable law, to each Seller's creditors and all parties entitled to notice of the Sale Motion.

10.5 Transferred Contracts. Not less than thirty (30) days prior to the Closing, Buyer shall provide (a) documentation identifying all Contracts Buyer wishes to be assumed by Sellers

and assigned by the Sellers to Buyer at Closing (the "Transferred Contracts"); (b) documentation identifying all Contracts that Buyer may, at a later date, wish to be assigned by the Sellers (the "Designated Contracts"); and (c) all Contracts that Buyer will not be seeking to be assigned by the Sellers (the "Excluded Contracts"). At any time between the Closing and the 10th day following the Closing, Buyer may re-designate any Designated Contract as either a Transferred Contract or an Excluded Contract. If Buyer does not re-designate any Designated Contract by the 10th day following the Closing, such Designated Contract shall be deemed an Excluded Contract as of such date. Sellers agree not to reject any Contract on or before the 10th day following the Closing except for Excluded Contracts. Sellers shall (x) assume in the Bankruptcy Case, any Transferred Contract that is designated by Buyer to Sellers on or before the 10th day following the Closing, provided that Buyer shall pay all cure amounts in connection with such assumption, and (y) assign said Transferred Contracts to Buyer.

10.6 Buyer's Right to Supplement Schedules. Not less than seven (7) days prior to Closing, Buyer shall have the right to supplement the schedules to this Agreement to include any asset acquired by or leased by any Seller after the Petition Date.

10.7 Administrative Expense Escrow. Not more than seven (7) days following full and final satisfaction of all Administrative Expenses, Sellers or their counsel shall remit to Buyer any funds remaining in any Administrative Expense Escrow.

11. TERMINATION.

11.1 Optional Termination. This Agreement may be terminated at any time prior to the Closing as follows:

(a) by the mutual written consent of Buyer and Sellers;

(b) by Buyer, in accordance with the provisions of Section 1.13;

(c) by Sellers or Buyer, if any court of competent jurisdiction in the United States or other Governmental Entity shall have issued an order, decree or ruling or taken any other action restraining, enjoining or otherwise prohibiting the transactions contemplated hereby and such order, decree, ruling or other action shall have become final and non-appealable;

(d) by Sellers, if Buyer commits a material breach of any of the terms hereof, which cannot be or has not been cured within twenty (20) days after the giving of written notice to Buyer of such breach;

(e) by Buyer, if any Seller commits a material breach of any of the terms hereof, which cannot be or has not been cured within twenty (20) days after the giving of written notice to Sellers of such breach;

(f) by Buyer, if Buyer reasonably determines, at any time, that any of the conditions set forth in Article 7 shall not be satisfied on or before the Closing Date; provided, however, that the right to terminate this Agreement under this subsection shall not be available to Buyer if Buyer's failure to fulfill any obligation under this Agreement shall have been the cause of, or shall have resulted in, the failure of the condition;

(g) by Sellers or Buyer, if the Closing has not occurred on or prior to January 14, 2016; provided, however, that the right to terminate this Agreement under this subsection shall not be available to a party if such party's failure to fulfill any obligation under this Agreement shall have been the cause of, or shall have resulted in, the failure of the Closing; or

(h) by Buyer, in the event (i) that the Bankruptcy Court does not approve the transactions contemplated by this Agreement; (ii) an appeal of the Sale Order is filed and not resolved to Buyer's satisfaction, in its sole and absolute discretion, by January 14, 2016; (iii) the Bankruptcy Court orders that an amendment be made to this Agreement or to the schedules or exhibits to this Agreement and such amendment is not acceptable to Buyer, in its sole and absolute discretion; or (iv) a proposed Reorganization Plan is filed by Sellers that is materially inconsistent with the terms of this Agreement.

11.2 Notice of Termination. In the event of any termination pursuant to Section 11.1, written notice shall forthwith be given to the other parties hereto except with respect to a termination pursuant to Section 11.1(a).

11.3 Effect of Termination. Upon termination of this Agreement, no party hereto shall have liability hereunder to any other party, all of which is hereby waived and released; provided, however, (a) if this Agreement is terminated by Sellers pursuant to Section 11.1(d), the Deposit, including all interest accrued thereon, if any, shall be paid over to Sellers in accordance with the Escrow Agreement as liquidated damages and shall be the exclusive remedy of Sellers for any termination or breach of this Agreement by Buyer; (b) if this Agreement is terminated, for any reason other than pursuant to Section 11.1(d), the Deposit, including all interest accrued thereon, if any, shall be paid over to Buyer in accordance with the Escrow Agreement; and (c) if this Agreement is terminated by Buyer pursuant to Section 11.1(e), Buyer shall be entitled to exercise any and all rights and remedies available to Buyer at law or in equity or as set forth in Section 11.4. Notwithstanding any provision herein to the contrary, in the event that Buyer is entitled to terminate this Agreement pursuant to Section 11.1(e), Buyer may elect to seek specific performance of Sellers' obligations hereunder in accordance with the terms of this Agreement.

11.4 Break-Up Fee and Expense Reimbursement.

(a) If this Agreement is terminated pursuant to Section 11.1(h)(i) and the Bankruptcy Court approves an Alternative Transaction within one year after the termination:

(i) Sellers shall pay to Buyer the Break-Up Fee and Sellers shall reimburse Buyer for all of Buyer's out of pocket costs and expenses in connection with this Agreement and the transactions contemplated herein, not to exceed Two Hundred Thousand Dollars ($200,000) (the "Expense Reimbursement"); provided, however, if the consideration in the Alternative Transaction is less than the consideration contemplated by this Agreement, the amount of the Break-Up Fee and Expense Reimbursement to which Buyer is entitled shall be reduced proportionately (for example, if the consideration in the Alternative Transaction is 80% of the consideration contemplated by this Agreement, Buyer will be entitled to a Break-Up Fee and Expense Reimbursement of $760,000 (80% of $950,000));

(ii) Seller's obligation to pay the Break-Up Fee and the Expense Reimbursement pursuant to this Section 11.4(a) shall survive the termination of this Agreement and shall constitute a super-priority administrative expense of Seller under Section 503(b) and 507(b) of the Bankruptcy Code, junior to HFG's super-priority claim; and

(iii) the Break-Up Fee and Expense Reimbursement shall be paid to Buyer out of the cash proceeds from the Alternative Transaction.

(b) If this Agreement is terminated pursuant to Section 11.1(e) or Section 11.1(h)(iv):

(i) Sellers shall pay to Buyer the Break-Up Fee and Expense Reimbursement; and

(ii) Seller's obligation to pay the Break-Up Fee and Expense Reimbursement pursuant to this Section 11.4(b) shall survive termination of this Agreement and shall constitute an unsecured claim of the Buyer not entitled to super-priority administrative expense status.

12. GENERAL.

12.1 Additional Assurances. The provisions of this Agreement shall be self-operative and shall not require further agreement by the parties except as may be herein specifically provided to the contrary; provided, however, at the request of either party, the other parties shall execute such additional instruments and take such additional acts as are reasonably necessary to effectuate this Agreement.

12.2 Consents, Approvals and Discretion. Whenever this Agreement requires any consent or approval to be given by a party or a party must or may exercise discretion, the parties agree that such consent or approval shall not be unreasonably withheld or delayed and such discretion shall be reasonably exercised, except as otherwise expressly set forth in any particular provision of this Agreement.

12.3 Choice of Law. THE PARTIES AGREE THAT THIS AGREEMENT SHALL BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH THE INTERNAL LAWS OF THE STATE OF CONNECTICUT WITHOUT REFERENCE TO ANY PRINCIPLES OF CONFLICTS OF LAWS. FURTHER, THE PARTIES AGREE THAT THE FEDERAL AND STATE COURTS LOCATED IN THE STATE OF CONNECTICUT SHALL RETAIN EXCLUSIVE JURISDICTION OVER ANY AND ALL DISPUTES BETWEEN THE PARTIES ARISING OUT OF OR RELATED TO THIS AGREEMENT.

12.4 Benefit/Assignment. Subject to the provisions herein to the contrary, this Agreement shall inure to the benefit of and be binding upon the parties hereto and their respective legal representatives, successors and assigns; provided, however, that no party may assign this Agreement without the prior written consent of the other parties. Notwithstanding the foregoing, pursuant to Section 1.2 hereof, Buyer may make any such assignment to any Permitted Designee, without obtaining the written consent of Sellers.

12.5 Finders, Brokerage. Sellers agree to indemnify Buyer from and against all loss, cost, damage or expense arising out of claims for fees or commissions of any advisor, agent or

broker employed or alleged to have been employed by Sellers. Buyer agrees to indemnify Sellers from and against all loss, cost, damage or expense arising out of claims for fees or commissions of any advisor, agent or broker employed or alleged to have been employed by Buyer.

12.6 Cost of Transaction. Whether or not the transactions contemplated hereby shall be consummated, the parties agree as follows: (a) Sellers will pay the fees, expenses and disbursements of Sellers and their respective agents, advisers, attorneys and accountants incurred in connection with the subject matter hereof and any amendments hereto; and (b) Buyer shall pay the fees, expenses and disbursements of Buyer and its agents, advisers, attorneys and accountants incurred in connection with the subject matter hereof and any amendments hereto; Buyer shall pay the costs associated with the filing to be made with the Department of Health, if any, and any requisite filing under the HSR Act; and Buyer shall pay all expenses of inspecting the Facilities and Assets, including the cost of any environmental surveys and the cost of establishing the lock box contemplated by Section 1.12.

12.7 Reserved.

12.8 Preservation and Access to Records After the Closing.

(a) With regard to patient records, from and after the Effective Time, Buyer shall use its commercially reasonable efforts to maintain the patient records held at any Facility relating to periods prior to the Effective Time in accordance with applicable state and federal and state law, statutes, regulations and rules, including without limitation HIPAA. Buyer and Sellers shall enter into a Medical Records Custody Agreement in the form attached as Exhibit 12.8 (the "Medical Records Custody Agreement").

(b) Each party hereto acknowledges that, subsequent to the Closing, the other parties may need access to information or documents in the control or possession of such party for the purposes of concluding the transactions contemplated hereby, audits, compliance with governmental requirements and regulations, confirming compliance herewith and the prosecution or defense of third party claims. Accordingly, Sellers and Buyer agree that after the Effective Time, each shall make reasonably available to the other's representatives or agents, independent auditors and/or Governmental Entities, upon written request and at the expense of the requesting party, and subject to applicable law, such documents and information as may be available relating to the Business for periods prior and subsequent to the Closing to the extent necessary to facilitate concluding the transactions herein contemplated, audits, compliance with governmental requirements and regulations, confirming compliance herewith and the prosecution or defense of claims.

12.9 Waiver. The waiver by any party of a breach or violation of any term or provision of this Agreement shall not operate as, or be construed to be, a waiver of any subsequent breach of the same provision by any party or of the breach of any other term or provision of this Agreement. The delay of a party to transmit any written notice hereunder shall not constitute a waiver by such party of any default hereunder or of any other or further default under this Agreement except as may expressly be provided for by the terms of this Agreement.

12.10 Tax Allocation. Buyer shall make an allocation of the Purchase Price (the "Purchase Price Allocation") within 150 days of the Closing Date and shall notify Sellers in writing as to such allocation. Each Seller and Buyer hereby agree that the Purchase Price Allocation shall be used by each of them for all federal and state income tax purposes, and shall be set forth in a statement prepared in accordance with Section 1060 of the Code, which statement shall be prepared in a manner generally consistent with the form of Internal Revenue Service Form 8594. Each party hereto shall file a copy of such statement as required by applicable law.

12.11 Interpretation. Each of the parties has agreed to the use of the particular language of the provisions of this Agreement including all attached Exhibits and Schedules and any questions of doubtful interpretation shall not be resolved by any rule or interpretation against the draftsman but rather in accordance with the fair meaning thereof, having due regard to the benefits and rights intended to be conferred upon the parties hereto and the limitations and restrictions upon such rights and benefits intended to be provided.

12.12 Notice. Any notice, demand or communication required, permitted, or desired to be given hereunder shall be in writing and shall be deemed effectively given when personally delivered or mailed by prepaid certified mail, return receipt requested, addressed as follows:

Sellers:	Johnson Memorial Medical Center, Inc. 201 Chestnut Hill Road Stafford Springs, CT 06076 Attn: CEO
With a copy to:	Eric Henzy and Jon Newton Reid and Riege, P.C. One Financial Plaza Hartford, CT 06103
Buyer:	Saint Francis Care, Inc. 114 Woodland Street Hartford, CT 06105 Attn.: CEO
With copies to:	Thomas S. Marrion and Sarah M. Lombard Hinckley, Allen & Snyder LLP 20 Church Street, 18th Floor Hartford, CT 06103

or to such other address, and to the attention of such other person or officer as any party may designate, with copies thereof to the respective counsel thereof as notified by such party.

12.13 Severability. In the event any provision of this Agreement is held to be invalid, illegal or unenforceable for any reason and in any respect, such invalidity, illegality, or unenforceability shall in no event affect, prejudice or disturb the validity of the remainder of this Agreement, which shall be in full force and effect, enforceable in accordance with its terms, including, without limitation, those terms which contemplate or require the further agreements of the parties. Furthermore, in lieu of such illegal, invalid or unenforceable provision, there shall be added automatically as a part of this Agreement a provision as similar in terms to such illegal, invalid or unenforceable provision as may be possible and still be legal, valid or enforceable.

12.14 Gender and Number. Whenever the context of this Agreement requires, the gender of all words herein shall include the masculine, feminine and neuter, and the number of all words herein shall include the singular and plural.

12.15 Divisions and Headings. The divisions of this Agreement into Sections and subsections and the use of captions and headings in connection therewith are solely for convenience and shall have no legal effect in construing the provisions of this Agreement.

12.16 Survival. All statements made by the parties hereto herein or in the Schedules or in any certificate delivered pursuant hereto shall be deemed representations and warranties of the parties making or delivering the same regardless of any investigation made by or on behalf of the other parties hereto. Furthermore, the representations, warranties, covenants and agreements made by the parties herein shall survive until the Closing Date and then expire, excepting however covenants and agreements which by their terms are to be performed following the Closing.

12.17 Reserved.

12.18 No Third-Party Beneficiaries. The terms and provisions of this Agreement are intended solely for the benefit of Buyer and Sellers and their respective permitted successors or assigns, and it is not the intention of the parties to confer, and this Agreement shall not confer, third party beneficiary rights upon any other person.

12.19 Entire Agreement/Amendment. This Agreement supersedes all prior contracts, understandings and agreements, whether written or oral, and constitutes the entire agreement of the parties respecting the within subject matter and no party shall be entitled to benefits other than those specified herein. As between or among the parties, no oral statements or prior written material not specifically included herein shall be of any force and effect; the parties specifically acknowledge that in entering into and executing this Agreement, the parties rely solely upon the representations and agreements contained in this Agreement and no others. No terms, conditions, warranties, or representations, other than those contained herein and no amendments or modifications hereto, shall be binding unless made in writing and signed by the party to be charged. The foregoing notwithstanding, this Agreement does not replace or modify that certain Confidentiality Agreement dated as of May 2, 2014 between JMMC and Buyer which remains in full force and effect, provided such Agreement shall terminate without need for further action of any Person upon completion of the Closing.

12.20 Counterparts. This Agreement may be executed in multiple originals or counterparts, each and all of which shall be deemed an original and all of which together shall constitute but one and the same instrument.

12.21 Risk of Loss. Notwithstanding any other provision hereof to the contrary, the risk of loss in respect of casualty to the Assets shall be borne by Sellers through the Effective Time and by Buyer thereafter.

12.22 Press Releases. Except as otherwise required by law, any release to the public of information concerning this Agreement or the transactions contemplated hereby will be made only in the form and manner approved by the parties hereto. Each party shall furnish the others with drafts of all such releases prior to their publication or dissemination.

12.23 Bankruptcy Court Approval. As stated herein, this Agreement is expressly subject to the approval of the Bankruptcy Court.

GUARANTY

THIS GUARANTY is entered into as of December__, 2014, by Saint Francis Hospital and Medical Center (the "Guarantor"), with its principal place of business at 114 Woodland Street Hartford, CT 06105, in favor of **Marcum LLP**, a New York limited liability partnership with its principal place of business at 750 Third Avenue, New York, NY 10017 ("Marcum").

RECITALS

A. Johnson Memorial Hospital ("Obligor") executed a retainer agreement dated December 15, 2014 pursuant to which the Obligor is required to make payments to Marcum aggregating $164,800 plus direct out-of-pocket expenses (the "Agreement").

B. The Guarantor is a party to an agreement with the Obligor and will derive benefit from the services to be provided by Marcum under the Agreement and wishes to grant Marcum security and assurance in order to secure the payment and performance by the Obligor of its payment obligations under the Agreement.

Accordingly, the Guarantor hereby agrees as follows:

1. Guaranty. The Guarantor hereby unconditionally and irrevocably guarantees to Marcum the full and punctual payment and timely performance by the Obligor, when due, of sums payable under the Agreement, whether principal, interest, collection expenses, or otherwise (collectively, the "Guaranteed Obligations"). This Guaranty is an absolute, unconditional, continuing guaranty of payment and not of collection of the Guaranteed Obligations. This Guaranty is in no way conditioned upon any attempt to collect from the Obligor or upon any other event or contingency, and shall be binding upon and enforceable against the Guarantor without regard to the validity or enforceability of the Agreement or any term thereof. If for any reason the Obligor shall fail or be unable duly and punctually to pay any of the Guaranteed Obligations, the Guarantor will forthwith pay the same, in cash, immediately upon demand; provided that Marcum shall not be entitled to receive an amount in excess of the Guaranteed Obligations.

2. Guaranty Continuing, Absolute, Unlimited. The obligations of the Guarantor hereunder shall be continuing, absolute, unlimited, and unconditional, and shall not be subject to any counterclaim, set-off, deduction, or defense based upon any claim the Guarantor may have against the Obligor, and shall remain in full force and effect without regard to, and, to the extent permitted by applicable law, shall not be released, discharged, or in any way affected by any circumstance or condition (whether or not the Guarantor shall have any knowledge or notice thereof) whatsoever which might constitute a legal or equitable discharge or defense.

3. Waiver. The Guarantor unconditionally waives the following, to the extent permitted by applicable law: (a) notice of any of the matters referred to in Section 2 hereof; (b) all notices which may be required by statute, rule of law, or otherwise to preserve any rights against the Guarantor hereunder, including, without limitation, notice of the acceptance of this Guaranty, or the creation, renewal, extension, modification, or accrual of the Guaranteed Obligations or notice of any other matters relating thereto; (c) any requirement for the assertion or exercise of any right, remedy, power or privilege under or in respect of the Agreement; (d) any requirement of diligence; (e) the right to require Marcum to proceed against the Obligor, any other guarantor or any other person liable on the Guaranteed Obligations, to proceed against or exhaust any security held by Marcum or any other person, or to pursue any other remedy in Marcum's power whatsoever, and (f) the right to have the property of the Obligor first applied to the discharge of the Guaranteed Obligations. Marcum may, at its election, exercise any right or remedy it may have against the Obligor or any other guarantor without affecting or impairing in any way the liability of the Guarantor hereunder and the Guarantor waives, to the extent permitted by applicable law, any defense arising out of the absence, impairment or loss of any right of reimbursement, contribution or subrogation or any other right or remedy of the Guarantor against the Obligor, whether resulting from such election by Marcum or otherwise.

4. Parties. This Guaranty shall inure to the benefit of Marcum's successors and assigns, and shall be binding upon the Guarantor. Guarantor may not delegate any of its duties under this Guaranty without the prior written consent of Marcum.

5. Notices. Any notice shall be conclusively deemed to have been received by a party hereto and to be effective on the day on which delivered to such party at the address set forth above, or if sent by registered or certified mail, on the third Business Day after the day on which mailed in the United States, addressed to such party at the address set forth in the introductory paragraph hereof.

6. Other. In the event that a bankruptcy trustee or other third party asserts a claim or initiates an action to recover any payment made by Obligor to Marcum, Marcum shall promptly notify the Guarantor of any such claim or action and the Guarantor shall have the right, but not the obligation, to defend the claim or action. The Guarantor shall have no obligation under this Guaranty to reimburse Marcum for any settlement or other payment in respect of a claim or action unless the Guarantor shall have provided its prior written consent to the settlement or payment, which consent will not be unreasonably withheld, conditioned or delayed.

7. Governing Law. **THE LAWS OF THE STATE OF NEW YORK (IRRESPECTIVE OF ITS CHOICE OF LAW PRINCIPLES) WILL GOVERN THE VALIDITY OF THIS GUARANTY, THE CONSTRUCTION OF ITS TERMS, AND THE INTERPRETATION AND ENFORCEMENT OF THE RIGHTS AND DUTIES OF THE PARTIES HERETO AND ALL CLAIMS RELATING TO OR ARISING OUT OF THIS GUARANTY OR THE BREACH THEREOF SHALL BE GOVERNED BY THE LAWS OF THE STATE OF NEW YORK (IRRESPECTIVE OF ITS CHOICE OF LAW PRINCIPLES). The parties each expressly agree and acknowledge that the United States District Court for the Southern District of New York, Manhattan Courthouse, shall have exclusive and sole jurisdiction and venue for any actions arising from, relating to or in connection with this Guaranty.**

8. Miscellaneous.

(a) If any term of this Guaranty or any application thereof shall be invalid or unenforceable, the remainder of this Guaranty and any other application of such term shall not be affected thereby.

(b) Any term of this Guaranty may be amended, waived, discharged, or terminated only by an instrument in writing signed by the Guarantor and Marcum.

(c) The headings in this Guaranty are for purposes of reference only and shall not limit or define the meaning hereof.

(d) No delay or omission by Marcum in the exercise of any right under this Guaranty shall impair any such right, nor shall it be construed to be waiver thereof; nor shall any single or partial exercise of any right hereunder preclude any other or further exercise of any other right.

IN WITNESS WHEREOF, the undersigned has caused this Guaranty to be executed and delivered by a duly authorized officer as of the day and year first above written.

SAINT FRANCIS HOSPITAL AND MEDICAL CENTER

Its: Senior Vice President and CFO

Attest:

_____

GUARANTY AGREEMENT

This guaranty agreement ("Guaranty") is effective on May 31, 2014 ("Effective Date") between Hartford Fire Insurance Company, a Connecticut corporation, having its principal place of business at One Hartford Plaza, Hartford, Connecticut, 06155, for itself and its affiliated property and casualty insurance companies from time to time (individually and collectively, "Hartford" or "The Hartford"), and Saint Francis Care, Inc., a Connecticut nonstock corporation, having its principal place of business at 114 Woodland Street, Hartford, Connecticut 06105 ("Guarantor"). The Hartford and Guarantor may each be referred to as a "Party" and collectively as the "Parties."

WHEREAS, Johnson Memorial Medical Center, Inc. and its affiliates, including without limitation Johnson Memorial Hospital, Inc. and Johnson Evergreen Corporation (collectively, "JMMC") and Guarantor have engaged in discussions that have resulted in JMMC and Guarantor entering into an affiliation agreement that provides Guarantor with the right to cause JMMC to be merged with or into Guarantor, or to acquire all of the assets of JMMC; and

WHEREAS, JMMC's current workers' compensation policy is set to expire on May 31, 2014; and

WHEREAS, Guarantor and JMMC have requested that The Hartford provide JMMC with a large deductible workers' compensation insurance program for the policy period of May 31, 2014 to May 31, 2015 (the "Policy Period"), which program would be evidenced, in part, by an insurance policy or policies (the "Policies") and an insurance program agreement (the "Agreement")(the Policies and the Agreement covering the Policy Period are sometimes hereinafter collectively referred to as the "Insurance Program").

WHEREAS, pursuant to the terms of the Insurance Program, JMMC's obligations owed to The Hartford, include, but are not limited to, the following: (i) the obligation to pay premium, (ii) the obligation to reimburse The Hartford for certain deductible amounts paid or advanced by The Hartford, (iii) the obligation to provide The Hartford with collateral and security for said financial obligations, and (iv) the obligation to commute the Insurance Program on or about May 31, 2019; and

WHEREAS, in order to induce The Hartford to enter into the Insurance Program with JMMC, Guarantor has agreed to guarantee all of JMMC's obligations due and owing to The Hartford under the Insurance Program, including, but not limited to, the following: (i) the obligation to pay premium, (ii) the obligation to reimburse Hartford for certain deductible amounts paid or advanced by Hartford, (iii) the obligation to provide Hartford with collateral and security for said obligations, and (iv) the obligation to commute the Insurance Program on or about May 31, 2019.

NOW, THEREFORE, in consideration of the promises contained herein and in consideration of The Hartford executing and delivering the Insurance Program to JMMC, the Guarantor does hereby agree as follows:

1. Guaranty. The Guarantor does hereby unconditionally guarantee to The Hartford and become surety for, without offset or deduction, (i) the prompt payment when due of all amounts payable by JMMC pursuant to the Insurance Program; (ii) the punctual and faithful performance by JMMC of each and every duty, promise, covenant and obligation of JMMC under and in accordance with the Insurance Program; and (iii) the prompt remittance of such security as The Hartford may require pursuant to the terms of the Insurance Program (the duties, promises, covenants, and obligations of JMMC hereby guaranteed are hereinafter referred to individually as a "Guaranteed Obligation" and collectively as the "Guaranteed Obligations"). The Guaranteed Obligations do not include any duties, promises, covenants, or obligations under any policies or agreements covering any period

other than the Policy Period. The Hartford acknowledges and agrees that in no event will Guarantor's obligations under this Guaranty exceed $2,190,000 (Basket Maximum Provision for Loss multiplied by the Loss Conversion Factor) minus all Paid Loss (as defined in the Agreement) reimbursements previously paid by JMMC to Hartford under the Insurance Program.

2. Guarantor's Obligations. In the event JMMC for any reason does not or is unable to perform any Guaranteed Obligation in accordance with the terms of the Insurance Program, the Guarantor hereby agrees that it will pay the sums (or post security in amounts equal thereto as The Hartford may require) which JMMC is obligated to pay or provide at the time specified in such Insurance Program or otherwise provide for and bring about promptly the performance of such Guaranteed Obligation(s) under such Insurance Program.

3. Guarantor' Obligations to be Absolute. The obligations of Guarantor under this Guarantee shall be absolute and unconditional and shall remain in full force and effect until all of JMMC's obligations under the Insurance Program have been fully discharged and shall not be released or discharged for any reason whatsoever.

4. Right to Proceed Against Guarantor. In the event JMMC for any reason does not or is unable to perform any Guaranteed Obligation in accordance with the terms of the Insurance Program, The Hartford, in its sole discretion, has the right to proceed first and directly against the Guarantor under this Guaranty for performance of any of the Guaranteed Obligations without proceeding against or exhausting any other remedies that The Hartford may have directly against JMMC for the Guaranteed Obligations. Notwithstanding anything to the contrary set forth in this Guaranty, the Guarantor is entitled in any proceeding, demand or action by The Hartford under this Guaranty for performance of any of the Guaranteed Obligations to use any defense, rights or claims available to JMMC with respect to the Guaranteed Obligations.

5. General Provisions.

   a. Notices. Each Party shall give or make any notice, authorization, request or other communication in connection with this Guaranty in writing by personal delivery, post, express courier, facsimile or e-mail to the addresses listed below unless otherwise stated in this Guaranty. A notice is effective if the addressee received the notice. Notices are deemed received on the date shown on the postal return receipt or the personal delivery, express courier, facsimile or e-mail confirmation of delivery. A Party is entitled to change the person, address, facsimile number or e-mail address for receipt of notices by notice to the other Party.

   If to The Hartford:
   Name or Title: Thomas F. Morgan, AVP, Senior Counsel
   Department: Commercial Law Department
   Address: One Hartford Plaza, Hartford, CT 06155
   Telephone No.: 860-547-3370 *(for verification of notice receipt; not for notice purposes)*
   E-mail: thomas.morgan@thehartford.com

   If to Guarantor:
   Name or Title: David Bittner, Senior Vice President
   Department: Finance
   Address: 114 Woodland Street, Hartford, CT 06105
   Telephone No.: 860-714-4609*(for verification of notice receipt; not for notice purposes)*

E-mail: dbittner@stfranciscare.org

b. Amendment; Termination. The Parties may amend or terminate this Guaranty only by a written agreement that identifies itself as an amendment to this Guaranty and is signed by an authorized representative of each Party.

c. No Waiver. No waiver of any breach of this Guaranty is a waiver of any other breach, and no waiver is effective unless made in writing and signed by an authorized representative of the waiving Party.

d. Merger; Entire Agreement. This Guaranty constitutes the entire and final agreement between the Parties pertaining to the matters contained in this Guaranty. All prior and contemporaneous negotiations and agreements between the Parties on the matters contained in this Guaranty are expressly merged into and superseded by this Guaranty. In entering into this Guaranty, neither Party relied upon any statement, representation, warranty or agreement of the other Party except for those expressly contained in this Guaranty. There are no conditions precedent to the effectiveness of this Guaranty, other than those expressly stated in this Guaranty.

e. Counterparts. This Guaranty may be executed in any number of counterparts (including facsimile counterparts), each of which constitutes an original, and all of which, collectively, constitute only one agreement.

f. Severability. If any provision of this Guaranty is determined to be invalid, illegal or unenforceable, the remaining provisions of this Guaranty remain in full force, if the essential terms and conditions of this Guaranty for each Party remain valid, binding, and enforceable.

g. Duration. This Guaranty shall continue in full force and effect throughout the term of the Insurance Program and for so long as any of JMMC's obligations under the Insurance Program shall remain. This Guaranty shall survive the merger or consolidation of JMMC into an affiliate or subsidiary of the Guarantor or with any other corporation, or the sale or other disposition of all or substantially all of JMMC's assets, properties or business.

h. Default. The occurrence of any breach, failure to perform or default by JMMC under the Insurance Program shall likewise be deemed an event of default hereunder without any further act by The Hartford. Upon the occurrence of any such breach, failure to perform or default, The Hartford shall have all of the rights against JMMC and/or the Guarantor as are specified in the Insurance Program.

i. Assignment. This Guaranty may not be assigned by either Party without the written consent of the other.

j. Binding Effect; Successors and Assigns. This Guaranty shall be binding upon the Guarantor and shall inure to the benefit of The Hartford, and its successors and assigns.

k. Governing Law; Venue.

(i) The laws of the State of Connecticut, without giving effect to its conflict of laws principles, govern all matters arising out of or relating to this Guaranty, including, without limitation, its interpretation, construction, performance, and enforcement.

(ii) Any Party bringing a legal action or proceeding against any other Party arising out of or relating to this Guaranty shall bring the legal action or proceeding in any state or federal court located within Hartford County, Connecticut.

(iii) Each Party waives, to the fullest extent permitted by law, any objection that it may have based on improper venue or inconvenient forum to the conduct of any such action or proceeding in state or federal court located within Hartford County, Connecticut.

IN WITNESS WHEREOF, The Hartford and Guarantor have caused this instrument to be duly executed by their authorized representatives on dates stated below, but to be effective as of the 31st day of May, 2014.

INSURANCE PROGRAM AGREEMENT AMENDMENT # 1
(hereinafter, "**Amendment**")

entered into by and among

HARTFORD FIRE INSURANCE COMPANY
(hereinafter "**Hartford**")

and

JOHNSON MEMORIAL MEDICAL CENTER, INC.
(hereinafter "**Customer**")

and

SAINT FRANCIS CARE, INC
(hereinafter "**Guarantor**")

Pursuant to

INSURANCE PROGRAM AGREEMENT
(hereinafter "**Agreement**")

Effective
05-31-14
WITNESSETH:

This Insurance Program Agreement Amendment #1 (the "**Amendment**") effective this 31st day of May, 2014 (the "Effective Date") by and among Hartford Fire Insurance Company, a Connecticut corporation having a principal place of business at One Hartford Plaza, Hartford, Connecticut 06155 ("Hartford"), on behalf of itself, its subsidiaries and affiliates, Johnson Memorial Medical Center, Inc., a Connecticut nonstock corporation corporation having a principal place of business at 201 Chestnut Hill Road, Stafford Springs, Connecticut 06076 ("Customer"), and Saint Francis Care, Inc., a Connecticut nonstock corporation having a principal place of business at 114 Woodland Street, Hartford, Connecticut 06105 ("Guarantor"). Hartford, Customer and Guarantor are sometimes hereinafter collectively referred to as the "Parties."

WHEREAS, Customer and Guarantor have engaged in discussions that have resulted in Customer and Guarantor entering into an affiliation agreement that provides Guarantor with the right to cause Customer to be merged with or into Guarantor, or to acquire all of the assets of Customer; and

WHEREAS, Customer's current workers' compensation policy is set to expire on May 31, 2014; and

WHEREAS, Customer and Guarantor have requested that Hartford provide Customer and its affiliates with a large deductible workers' compensation insurance program for the policy period of May 31, 2014 to May 31, 2015 (the "Policy Period"), which program is evidenced, in part, by an insurance policy or policies (the "**Policies**") and the insurance program agreement (the "**Agreement**") that is being amended by this **Amendment** (the **Policies** and the **Agreement** covering the Policy Period are sometimes hereinafter collectively referred to as the "Insurance Program"); and

WHEREAS, in order to induce Hartford to enter into the Insurance Program with Customer, Customer has agreed to fully and finally settle, commute and discharge any and all of its obligations and liabilities under the deductible provisions of the **Policies** on a date certain in the future; and

WHEREAS, pursuant to the terms of the Insurance Program, as amended hereby, Customer's obligations owed to Hartford, include, but are not limited to, the following: (i) the obligation to pay premium, (ii) the obligation to reimburse Hartford for certain deductible amounts paid or advanced by Hartford, (iii) the obligation to provide Hartford with collateral and security for said financial obligations, and (iv) the obligation to commute the Insurance Program on or about May 31, 2019; and

WHEREAS, in order to induce Hartford to enter into the Insurance Program with Customer, Guarantor has agreed to guarantee all of Customer's **Obligations** due and owing to Hartford under the Insurance Program, including, but not limited to, the following: (i) the obligation to pay premium, (ii) the obligation to reimburse Hartford for certain deductible amounts paid or advanced by Hartford, (iii) the obligation to provide Hartford with collateral and security for said **Obligations**, and (iv) the obligation to commute the Insurance Program on or about May 31, 2019; and

WHEREAS, Hartford has consented and Guarantor has agreed to have issued on behalf of Customer a **Letter of Credit** for the benefit of Hartford to secure all of Customer's **Obligations** to Hartford, its affiliates and subsidiaries.

NOW THEREFORE, the parties agree that this **Amendment** shall become a part of the **Agreement**, shall have an effective date of May 31, 2014, and shall be read together with the **Agreement** as one single document. All defined terms in the **Agreement** shall have the same meanings for purposes of this **Amendment**. To the extent that there shall be any conflict between terms and provisions contained in the **Agreement** and those contained herein, the terms and provisions set forth herein shall control.

ARTICLE I – AMENDMENT OF THE INSURANCE AGREEMENT

1. Section 2, **Security, Loss Deposits and Prefunded Loss Reimbursement Amounts** of the **Agreement's** Section III, General Terms And Conditions is hereby amended to add this Paragraph 2.7, **Security Provided On Your Behalf:**

2.7 Security Provided On Your Behalf

2.7.1 Hartford consents to Guarantor providing initial, new, or replacement **Security**, in the form of cash in the initial amount of $1,250,000.00 on or before the close of business on May 30, 2014;

2.7.2 The parties agree that Hartford shall deposit said cash in a **Cash Funds Held Account** and that Hartford shall have the sole right to initiate the use or withdrawal of the cash as required to satisfy Customer's **Obligations** under the **Agreement**. All rights and benefits related to the **Cash Funds Held Account** shall be vested exclusively in Hartford.

2.7.3 On or before June 16, 2014, Guarantor agrees to exchange the cash held in the **Cash Funds Held Account** with a clean, irrevocable **Letter of Credit** in the initial amount of $1,250,000.00, as required under the **Agreement**, on behalf of Customer. Upon receipt of an acceptable **Letter of Credit**, Hartford shall return the cash to Guarantor;

2.7.4 Guarantor, through its signature on this **Amendment**, agrees to provide the initial, new or replacement **Security** on Customer's behalf;

2.7.5 Guarantor and Customer hereby represent and warrant that:

2.7.5.1 Guarantor has received fair consideration from Customer in return for providing such **Security**;

2.7.5.2 Guarantor is solvent, as of the date **Security** was received, and will not be made insolvent by providing such **Security**;

2.7.5.3 Guarantor has obtained all corporate and regulatory consents, approvals and authorizations necessary to permit it to provide the **Security**; and

2.7.5.4 by providing the **Security**, Guarantor will not violate any of its organizational documents, laws or agreements by which the Guarantor is bound or subject.

2.7.6 Guarantor and/or Customer will provide supporting documentation in accordance with Sections 2.7.5.1 and 2.7.5.3 above within thirty (30) days of executing this **Amendment**. Customer agrees that failure to provide supporting documentation constitutes a default under the **Agreement**.

2.7.7 If Hartford is prevented for any reason from using the **Security** provided by Guarantor or if Guarantor fails to adjust **Security** as required under the **Agreement**, Hartford may withdraw its consent to have Guarantor post **Security** on Customer's behalf and require that Customer provide replacement or additional **Security**, subject to all the terms and conditions of the **Agreement**.

2. The following is added as Paragraph 18 of the **Agreement's** Section III, General Terms and Conditions:

18. Commutation of Agreement

18.1 The parties agree to commute this **Agreement** as of May 31, 2019 (the "Commutation Date") subject to all requirements and **Obligations** contained within this Paragraph 18 of the **Agreement**.

18.1.1 As of May 31, 2019, Hartford shall calculate the amount that Customer will be obligated to pay to Hartford to commute the **Agreement** (the "Commutation Amount") as follows:

(i) We will add:
- a) The combined premium, Miscellaneous Charges, and Residual Market Loads for all Policies;
- b) The sum required to satisfy the total additional premium and deductible reimbursements expected due to:
  - (i) *Loss development of incurred and incurred but not reported losses and allocated expense;
  - (ii) Additional Miscellaneous Charges including but not limited to Loss Based Assessments and Residual Market Loads; and

(iii) Additional Claim Service Charges calculated by multiplying 9.5% times the result of the Incurred Loss as developed below.

(ii) From this total above Hartford shall subtract the following:

a) The total premium, Miscellaneous Charges, and Residual Market Loads actually paid to Hartford;

b) Deductible reimbursements and claim expense payments actually remitted to Hartford; and

c) Any return premiums and dividends paid to the Customer.

(iii) The Commutation Amount resulting from calculation of (i) and (ii) above, is subject to a premium tax of 2.0%.

*Loss development will be calculated by multiplying **Incurred Losses** by the applicable loss development factor. The loss development factors for this program are shown in the Section I, Program Structure of the **Agreement**.

18.1.2 No less than ten (10) days prior to the Commutation Date, Hartford shall send an invoice to Customer indicating the Commutation Amount due. In no event will the Commutation Amount exceed $2,190,000 (Basket Maximum Provision for Loss multiplied by the Loss Conversion Factor) minus all **Paid Loss** reimbursements previously paid by Customer to Hartford under the Insurance Program. The parties agree that payment of the Commutation Amount shall be received on or before the Commutation Date. If payment is not received on or before the Commutation Date, then Hartford shall be permitted to draw on the **Letter(s) of Credit** referenced in the **Agreement** to pay the Commutation Amount. The balance of the **Letter(s) of Credit** will be returned to Customer within ten (10) business days after Hartford's receipt of the Commutation Amount

18.2 Simultaneous with the payment of the Commutation Amount by Customer to Hartford, Customer, on behalf of itself and its parent, affiliates, subsidiaries, predecessors, successors, assigns, and each of their past, present and future officers, directors, shareholders, employees, agents, and legal representatives (collectively, the "Customer Entities"), hereby releases, acquits and forever discharges Hartford, its parent, affiliates, subsidiaries, predecessors, successors, assigns, and their past, present and future officers, directors, shareholders, employees, agents, and legal representatives (collectively, the "Hartford Entities") from any and all claims, debts, demands, causes of action, liabilities, obligations, costs, disbursements, fees, attorneys' fees, expenses, damages, and injuries of every kind, nature, and description whether arising at law or in equity, which the Customer Entities (collectively or separately) ever had, now have, or hereinafter may have against the Hartford Entities (collectively or separately), including, without limitation, any and all claims, debts, demands, causes of action, liabilities, obligations, costs, disbursements, fees, attorney's fees, expenses, damages, and injuries of every kind, nature, make and description based on, relating to, or arising out of the handling or settlement of claims under the **Policies**, or the calculation and payment of premium or other amounts due under the provisions of the **Policies**, or any other agreements, relating to the **Policies**.

Notwithstanding the above, Hartford shall continue to provide coverage under the **Policies** and to handle, settle and pay (subject to the last sentence in paragraph 18.3 below) for claims under the terms of the **Policies**. However, the Customer agrees that Hartford will assume sole control of management of all claims subject to the **Agreement** in accordance with the terms of the **Policies**.

18.3 Simultaneous with the payment of the Commutation Amount by Customer to Hartford, Hartford, on behalf of itself and its predecessors, successors, assigns, and their past, present, and future officers, directors, shareholders, employees, agents, and legal representatives, hereby releases, acquits, and forever discharges Customer, its predecessors, successors, assigns, and their past, present, and future officers, directors, shareholders, employees, agents and legal representatives from, any and all claims, debts, demands, causes of action, liabilities, obligations, costs, premiums, disbursements, fees, attorneys' fees, expenses, damages, and injuries of every kind, nature, and description based on, relating to, or arising out of the payment of premium or other amounts due under the **Policies** or the retrospective rating provisions of the **Policies**. The release provisions of this paragraph shall not, however, apply to any claims covered by the **Policies** which are known by or have been reported to the Customer as of the Commutation Date, but have not been reported to Hartford.

18.4 The release provisions contained in 18.2 and 18.3 above shall not apply to claims under the **Policies** that are specifically described and listed below:

18.4.1 "Health Hazard (such as, but not limited to asbestos, silica, benzene, etc.) " as determined by the Environmental Protection Agency which shall mean all Claims asserting any actual, potential, threatened, or alleged bodily injury, disease, personal injury, or other damage to human life arising from or relating to any "Health Hazard (such as, but not limited to asbestos, silica, benzene, etc.) " in any form; and all losses or costs arising from or relating to any of the foregoing, including but not limited to any and all past, present, and future costs, benefits, payments, and damages incurred, directly or indirectly, for investigation, testing, study, or arising from the actual or alleged failure to investigate, test, study, or as statutory fines or penalties, or as damages for bodily injury, personal injury or other damage to any Person, or as attorneys' fees, other costs of defense, or court or agency costs involving, arising out of, or related in any way to any of the foregoing.

All other terms and conditions under the **Agreement** remain the same.

ARTICLE II - REPRESENTATIONS AND WARRANTIES

1. The parties to this **Amendment** hereby represent and warrant that:

   a. All judicial, statutory, regulatory, administrative, and/or ministerial actions necessary for the execution, delivery, and performance of this **Amendment** by each party have been or will be duly taken, and that no further action, consent, or approval of any person, entity, court, or other governmental authority is required by either party for the lawful execution or delivery of this **Amendment** or the lawful performance and consummation of the transactions contemplated herein.

b. The individual executing this **Amendment** on behalf of each party has the full legal right, power, and authority to execute and deliver the **Amendment** on behalf of such party.

2. Hartford, Customer and Guarantor further agree and stipulate that they have completely read, fully understand, and voluntarily accept the terms of this **Amendment**, and that:

   a. By entering into this **Amendment**, neither Hartford, nor Customer, nor Guarantor is making any representations as to any fact or circumstance other than those contained within this **Amendment**;

   b. Neither Hartford, nor Customer, nor Guarantor is relying upon the other, nor upon any person, third party, or anything other than its own independent knowledge and judgment and the advice of its own counsel in entering into this **Amendment**; and

   c. Hartford, Customer, and Guarantor acknowledge that there is a risk that subsequent to execution of this **Amendment** certain facts, circumstances, or legal decisions may be discovered, established or adjudicated which were different from, less than, or greater than that believed or known by one of the parties hereto at the time of the execution of this **Amendment**. It is further understood that Hartford, Customer, and Guarantor hereby assume such risk and agree that this **Amendment** shall apply under any such different or unanticipated conditions.

ARTICLE III - CONFIDENTIALITY AND NONDISCLOSURE

1. Hartford, Customer, and Guarantor hereby expressly agree that the terms and conditions of this **Amendment** shall be confidential between the parties and shall not be disclosed by either party except for their Auditors, Attorneys and/or Lenders without the prior written consent of the other, except where required by a court order, administrative tribunal, regulatory body, or arbitration panel.

2. In the event disclosure is to be made pursuant to this section, the disclosing party shall take all steps necessary to preserve the confidentiality of such information, including giving prior written notice to the other party, specifying the information to be disclosed, the manner of disclosure, and to whom disclosure is to be made. The other, non-disclosing, party shall be provided a reasonable opportunity to oppose such disclosure.

3. Any third party to whom disclosure is made shall be bound by this section and shall so state in writing to the parties hereto prior to disclosure.

[REMAINDER OF PAGE BLANK -- SIGNATURE PAGE FOLLOWS]

IN WITNESS WHEREOF, the parties have caused this **Amendment** to be duly executed by their authorized representatives on dates stated below, but to be effective as of the 31st day of May, 2014.

SUMMARY

A healthcare career of 30 years successfully leading and managing large, complex organizations.

PROFESSIONAL EXPERIENCE

PRESIDENT AND CHIEF EXECUTIVE OFFICER
Saint Francis *Care*, Inc.
Saint Francis Hospital and Medical Center
(2004 to present)

Saint Francis Hospital and Medical Center has been an anchor institution in North Central Connecticut since its founding in 1897 by the Sisters of Saint Joseph. Licensed for 617 beds, it is one of the largest hospitals in Connecticut and is the largest Catholic hospital in New England. We are a multidisciplinary, leading-edge teaching hospital.

Saint Francis affiliated with Mount Sinai Hospital in 1990 to create a new regional healthcare system. This was the first recorded instance of a merger between a Catholic hospital and a Jewish hospital in United States history. In October 1995, the two institutions completed a formal corporate merger.

A regional referral center, Saint Francis provides sophisticated, contemporary medicine with major clinical concentrations in cardiology, orthopedics, oncology, orthopedics, women's services and rehabilitation. The achievement of excellence is emphasized through centers of excellence, which focus on quality, caring and the dignity of every patient.

Saint Francis has been named a Solucient "Top 100 Hospital" seven times, a "Top 100 Cardiac Program" three times, and a "Top 100 Performance Improvement Hospital" twice. It is also the recipient of the Leapfrog Top 50 Hospitals award and has been recognized by Care Science Top 1% of all hospitals in clinical outcomes.

PRESIDENT AND CHIEF EXECUTIVE OFFICER
CSAHS/UHHS-Canton, Inc.
Mercy Medical Center
(2000-2003)
CSAHS/UHHS, Inc. is the not-for-profit Partnership representing the Sisters of Charity of St. Augustine Health System (CSAHS) and University Hospitals Health System (UHHS) of Cleveland. The Partnership operates Mercy Medical Center in Canton, Ohio and its regional health centers in North Canton, Carrollton, Jackson Township, Louisville, and Dover, Ohio

Responsible for efficient and effective operation and strategic direction of the organization reporting directly to the Partnership Board.

Mercy Medical Center was named a "Top 100 Hospital" for 2001 and 2002, Top 100 Cardiovascular Services Hospital for 2001 and 2002 and a Top 50 U.S. News & World Report Best Hospital for cardiovascular services for 2001 and 2002. In 2001 Mercy received the prestigious AHA Nova Award for innovative community outreach programs. For the last three years Mercy has attained record numbers in admissions, outpatient visits, net revenue and productivity.

CHRISTOPHER M. DADLEZ, FACHE

PROFESSIONAL EXPERIENCE

Saint Francis Care System
Hartford, Connecticut

President & CEO, Johnson Memorial Medical Center **3/25/13 to Present**
As part of Saint Francis Care System, responsible for overseeing the operating and financial performance of Johnson Memorial Medical Center (JMMC) and its affiliates. Led a turnaround of JMMC by reducing expenses, improving volume and partnering with Saint Francis. This resulted in going from a five (5) million dollar loss to a projected three (3) million dollar gain from operations. Serve on several Community Boards, and developed a revised Strategic Plan in conjunction with Saint Francis Care.

Executive Director North Campus **10/1/10 to 3/24/13**
Responsible for the coordination/operations of the North Campus of Saint Francis Hospital and Medical Center. The campus includes the Mount Sinai Rehabilitation Hospital, Behavioral Health Services, Wound Care Center, Hyperbaric Medicine, Ambulatory Surgery, Long Term Acute Care Program, DaVita Dialysis, Multiple Sclerosis Center, and Burgdorf/Bank of America Health Center. The coordination includes community representation, facility management, The Joint Commission and regulatory compliance. Also responsible for overseeing Human Resources functions such as corporate benefits, and employee/labor relations which is included in the description for Director of Human Resources.

***Overall Results*:** Successful TJC and State inspections.

Director of Human Resources **1/08 to 3/24/13**
As a member of the Human Resources Team responsible for the Human Resource Operations on the North Campus of Saint Francis Hospital and Medical Center. Such Human Resources business partner services include employee and labor relations, executive compensation/benefits and system corporate benefits (5500 employees), behavioral health recruitment, labor contract negotiations, site Human Resources communications, site Human Resources services coordination, site management training, and other strategic initiatives.

***Overall Results*:** Saved in excess of $10 million dollars in corporate benefits. Negotiated new three (3) year labor contract with 1199.

Senior Vice President /Human Resources and COO **1/06-5/07**
As a member of the Senior Management Team at Bristol Hospital an affiliate of Saint Francis, responsible for overall hospital operations with oversight of Patient Care Services, Emergency Services, Radiology, and Laboratory Services. Also responsible for critical support services such as Facilities, Environmental Services, and Food Service. Other areas of oversight included Human Resources, Volunteer Services, Occupational Health, Hospitalists, Management Service Organization, Wellness Center, Physician Relations and Recruitment, affiliations including Saint Francis shared services and Government Relations. Provided labor relations support to Saint Francis Hospital and Medical Center. Bristol had gross revenues in excess of $120M and 1600 employees.

***Overall Results*:** Improved bottom line via expense reductions and revenue enhancement by $1.8M. Hospital achieved budget for the first quarter of FY2007. Exceeded budgeted revenue for the first time in three (3) years. Froze the Defined Benefit Plan projected one-time savings of $8.5M. Established a Defined Contribution Plan and match program.

Successfully negotiated a three (3) year labor contract for Saint Francis Hospital and Medical Center resulting in a savings of $875,000.

Vice President of Human Resources and Administrative Services 12/99-1/06
As a member of the Senior Management Team at Bristol Hospital Health System, responsible for all aspects of Human Resources, i.e., compensation, benefits, employment, employee and labor relations for a workforce of 1,600 employees. Operational oversight for physician recruitment and contracts, Laboratory Services, Occupational Health/Workers Compensation Company with Saint Francis, new business development, and leadership education. Also provided labor relations support to Saint Francis Hospital and Medical Center, and served as the Affiliations Coordinator which included responsibilities for managing the Saint Francis relationship with Bristol Hospital.

***Overall Results*:** Achieved break even budget within division. Implemented enhanced benefit changes and improved benefit expense by over $1M. Developed a comprehensive recruitment and compensation program reducing turnover by over 25%. Vacancy rate improved by 8%.

Director of Human Resources 5/98-12/99
Responsibilities included the executive compensation and bonus program, benefits, recruitment and employment. Served as the Affiliations Coordinator for Bristol Hospital which manages the relationship with Saint Francis. (North Campus) Provided labor relations for Saint Francis Hospital and Medical Center, medical practices, day care services, and leadership education and development.

***Overall Results*:** Reduced benefits budget by $2M. Participated and developed a comprehensive strategic Human Resource plan. Redesigned the Defined Benefit Pension Plan. Achieved division budget. Developed Executive Compensation and Bonus Program. Successfully negotiated the labor agreement for Saint Francis Hospital and Medical Center resulting in a savings of over $1M.

Director of Operations, Collins Medical Management Inc. 2/96-4/98
Responsibilities included daily operations for a fifty (50) Primary Care physician group practice affiliated with Saint Francis Hospital and Medical Center. Duties included practice management, Human Resources, Information Systems, Facilities management, lease and property management, practice acquisitions and oversight of a $10M budget.

***Overall Results*:** Achieved break even budget. Established all compensation/benefits and pension programs. Developed Human Resources policies. Negotiated building leases and reduced lease expenses by $.5M. Transitioned physician practices on time and on budget.

Project Manager, Collins Medical Management, Inc. 10/95-1/96
As Project Manager, responsible for designing billing systems, information technology, Human Resource policies, practice acquisition processes, marketing, budget development and company business plan.

***Overall Results*:** Formed company operations on time and on budget. Physician practices were purchased according to the business plan. Organizational infrastructure was established according to plan.

Director of Human Resources, Mount Sinai Campus **3/90-10/95**
As a member of the Senior Management Team, responsible for overall Human Resources operation (compensation, benefits, recruitment and employment, as well as employee and labor relations) for a workforce of 1,400 employees. Also served as Assistant System Director of Human Resources for Saint Francis Care with overall workforce of 5,000 employees.

***Overall Results*:** Redesigned and rebuilt the Human Resources functions as part of the affiliation integration strategy. Implemented work force redesign/organizational structure to improve operational efficiencies. Overall plan resulted in $2M savings. Successfully negotiated labor contract, resulting in $1M savings.

Assistant System Director, Human Resources,
Saint Francis Hospital and Medical Center **8/87-3/90**
As a member of the Leadership Team, responsibilities included oversight of recruitment and employment, compensation and benefits and employee relations programs for a workforce of 3,000 employees. Heard and rendered decisions on employee grievances. Administered EEO program. Formulated Personnel policies. Managed Human Resources budget in excess of $10M. Recruited for executive, department leader, and physician level positions.

***Overall Results*:** Achieved division budget and operational goals.

Cuno Manufacturing Inc.
Meriden, Connecticut

Manager Industrial Relations **5/86-8/87**
Responsibilities included managing Human Resource programs, compensation and benefits for over 1,500 employees inclusive of multi-site plants in Connecticut, and abroad. Served as Chief Negotiator for union contract.

VA Healthcare System

Personnel Management Specialist, West Haven, Connecticut **3/81-5/86**
Responsibilities included recruitment and employment. Principal negotiator for labor contract negotiations. Heard and rendered decisions on employee grievances. In addition, managed compensation and benefit programs for over 4,000 employees.

Personnel Management Specialist, Newington, Connecticut **6/80-3/81**
Responsibilities included contract negotiations, presenting cases before arbitrators, recruitment/employment, salary and wage administration, benefit programs for a work force of 1,300+ employees.

Hospital Administration Resident, Newington, Connecticut **10/75-5/80**
As a graduate student in Hospital and Health Administration, responsible for Personnel and Ambulatory Care analytical studies.

ADDITIONAL EXPERIENCE

Saint Francis *Care* Administrative Liaison for PGA Events **06/88-Present**
Responsible for planning/coordinating on-course medical services, for the GHO, Buick and

Travelers PGA Tour events in Hartford. This includes planning of staffing, contract negotiations, and day-to-day operations.

Stamford Hospital Committees/Positions

2002-2004	Chair, Department of Obstetrics and Gynecology
7/01/03- 2011	Senior Vice President Medical Affairs, Chief Medical Officer
2001-2003	Blood Bank Committee
2001-2011	Patient Safety Committee
2001-2011	OR Committee
2002-2011	Credentials Committee
2003-2011	Strategy and Market Development Committee (Board Committee)
2003-2011	Medical Executive Committee
2003-2011	Bylaws Committee
2003-2011	Clinical Leadership Council
2003-2011	Quality and Clinical Affairs Committee (Board Committee)
2003-2011	Ops Council
2003	Chair- Credentials Task Force
2003	Chair, Ob/Gyn Chair Search Committee
2004	Chair, Surgery Chair Search Committee
2004	Emergency Department Chair Search Committee
2002-2004	Medical Board
2005	Chair, Pathology Chair Search Committee
2006	Co-Chair, Radiology Chair Search Committee

Saint Francis Hospital and Medical Center Committees/Positions

2011–present	Chair, Department of Obstetrics and Gynecology
2011-present	Director, Women & Infants Health Services
2011-present	Co-chair, Women & Infants Quality and Practice Council
2011-present	Medical Staff Quality Committee
2011-present	St. Francis Medical Group Board of Directors
2011-present	Chiefs' Forum
2011-present	Capitol Budget Committee
2011-present	IT Executive Steering Committee
2011–present	Surgical Service Performance Improvement Committee
2011-present	OR Steering Committee
2012-present	Quality & Patient Safety

Others (State and National Ob/Gyn Educational Organizations)

1989-1995	Connecticut Hospital Association Committee on Quality Assessment, Chairman, Panel on Obstetrics
1995-2011	Committee on Quality Assessment, Connecticut Hospital Association
1998 -2001	Alternate Program Director Representative for Region I - Council on Resident Education in Obstetrics & Gynecology
1999-present	American Board of Obstetrics and Gynecology Oral Board Examiner
2009-2011	Chair, Chief Medical Officer Group, New York-Presbyterian Healthcare System

Editorial consultation

American Journal of Obstetrics and Gynecology
Obstetrics and Gynecology
Journal of Clinical Ultrasound
American Journal of Perinatology
Journal of Maternal-Fetal Medicine
Connecticut Medicine- Associate Editor

Grants/Clinical Trials:

NIH grant 1991, "Study of CF carrier screening in primary care settings", Robert M. Greenstein (Principal investigator), John F. Rodis, MD, (Co-Principal Investigator)

CT Research Foundation 1988, "Role of Chlamydia and mycoplasma in villus sampling", John F. Rodis, MD, (Principal investigator)

Adolor Corporation Protocol 14CL306: A Multicenter Phase III, Double-Blind, Placebo-Controlled, Study of ADL8-2698 in Opioid-Induced Postoperative Bowel dysfunction/Postoperative Ileus in Subjects Undergoing Total Abdominal hysterectomy (Principal Investigator)

Invited Regional and National Lectures:

Invited lecturer for Annual Clinical Meetings of the American College of Obstetricians and Gynecologists. Topic – "Viral Infections in Pregnancy: Cytomegaolvirus, Parvovirus and Varicella". New Orleans, LA May, 1998

Invited lecturer for Annual Clinical Meetings of the American College of Obstetricians and Gynecologists. Topic – "Viral Infections in Pregnancy: Cytomegaolvirus, Parvovirus and Varicella". Philadelphia, PA May,1999

Invited lecturer for Annual Clinical Meetings of the American College of Obstetricians and Gynecologists. Topic – "Viral Infections in Pregnancy: Cytomegaolvirus, Parvovirus and Varicella". San Francisco,CA May, 2000

Invited lecturer for the "71st Annual Meeting of the New England Obstetrical & Gynecological Society, Topic – " Shoulder Dystocia", October 20, 1999

Invited lecturer for the "14th Annual: A Day with the Perinatologists – Perspectives in Practice", Sponsored by Creighton University School of Medicine, Omaha, Nebraska. October 22-23, 1999

Invited Lecturer for Ultrasound Symposium, St. Francis Hospital and Medical Center, Topic: Role of Ultrasound Multiple Gestations. Farmington, CT April 8, 2000

Invited Lecturer for the New Jersey Maternal Fetal Medicine Society, New Brunswick, NJ. Topic: Parvovirus Infection in Pregnancy. December 2000

Invited lecturer for Annual Clinical Meetings of the American College of Obstetricians and Gynecologists. Topic – Fetal Death: Diagnosis, Evaluation and Management. Chicago, IL May, 2001

Invited Lecturer at the 27th Annual Sanford Cole MD Memorial OBGYN Symposium, Miami, Florida. Late Preterm & Early Term Births: Reducing Elective Deliveries before 39 Weeks. January 25, 2013.

Abstracts

1. Feldman DM, Trymbulak W, Sanders MM, Rodis JF, Borgida AF: Clinical implications of velamentous cord insertion in triplet gestations. Society for Maternal-Fetal Medicine Annual Meeting, Reno, Nevada, February 5-10, 2001 (Poster Presentation)

2. Egan JFX, Rodis JF, Feldman DM, Barsoom M, DeRoche M, Borgida AF: Does the Kessler Index reflect trends of Down syndrome livebirths in the U.S.? Society for Maternal-Fetal Medicine Annual Meeting, Reno, Nevada, February 5-10, 2001 (Poster Presentation)

3. Borgida AF, Dixon A, Feldman DM, Rodis JF, Egan, JFX: Recurrence rate of preterm premature rupture of membranes. Society for Maternal-Fetal Medicine Annual Meeting, Reno, Nevada, February 5-10, 2001 (Poster Presentation)

4. Rodis JF, Feldman DM, Barsoom, M, Herndon A, McKenna P: Antenatal hydronephrosis is a sign of neonatal vesicoureteral reflux. Society for Maternal-Fetal Medicine Annual Meeting, Reno, Nevada, February 5-10, 2001 (Poster Presentation)

5. Rodis JF, Feldman DM, Arky L, Campbell WA, Borgida AF: Normal values of laboratory Tests used in the evaluation of preeclampsia in triplet gestations. International Society of Perinatal Obstetricians Annual Meeting, Miami, FL, February 2000 (Oral presentation)

6. Rodis JF, Feldman DM, Arky L, Campbell WA , Borgida AF: Laboratory evaluation for preeclampsia in triplet pregnancies. International Society of Perinatal Obstetricians Annual Meeting, Miami, FL, February 2000 (Oral presentation)

7. Ling PY, Kong E, Borgida AF, Rodis JF, Egan JFX: Outcome of fetuses with echogenic bowel detected by second trimester ultrasound in a non-referral population. International Society of Perinatal Obstetricians Annual Meeting, Miami, FL, February 2000 (Oral presentation)

8. Borgida AF, Mills AA, Feldman DM, Rodis JF, Egan JFX : Outcome of pregnancies complicated by ruptured membranes after genetic amniocentesis. Society for Maternal-Fetal Medicine Annual Meeting, Miami, FL., February 2000 (Poster presentation)

9. Borgida AF, Mills AA, Feldman DM, Rodis JF, Egan JFX: Outcome of pregnancies complicated by second trimester preterm premature rupture of membranes. Society for Maternal-Fetal Medicine Annual Meeting, Miami, FL., February 2000 (Poster presentation)

10. Benn P, Craffey A, Horne D, Ramsdell L, Rodis JF: Elevated maternal serum alpha fetoprotein with low unconjugated estriol and the risk for lethal perinatal outcome. Society for Maternal-Fetal Medicine Annual Meeting, San Francisco, CA., January 1999 (Poster presentation)

11. Rodis JF, Arky L, Borgida AF, Egan JFX, Campbell WA: Discordance in sonographically determined estimated fetal weights and birth weights in triplet pregnancies across gestational age.

Society for Maternal-Fetal Medicine Annual Meeting, San Francisco, CA., January 1999 (Poster presentation)

12. Rodis JF, Arky L, Borgida AF, Egan JFX, Campbell WA: Comprehensive fetal ultrasound growth measurements in triplet gestations. Society for Maternal-Fetal Medicine Annual Meeting, San Francisco, CA., January 1999. (Poster presentation)

13. Benn P, Leo MV, Beazoglou T, Rodis JF: Selecting an optimal strategy for second trimester trisomy 18 screening. Society for Maternal-Fetal Medicine Annual Meeting, San Francisco, CA., January 1999. (Poster presentation)

14. Feldman DM, Borgida AF, Sauer F, Rodis JF: Rotational versus Non-rotational Forceps: Maternal and Neonatal Outcome. Society for Maternal-Fetal Medicine Annual Meeting, San Francisco, CA., January 1999. (Poster presentation)

15. Leo MV, Odibo, AO, Ling, PY, Rodis JF, Borgida AF, Campbell WA; Transverse Arrest: a review of Outcomes of Rotational Forceps and Cesarean Delivery at a Single Center. ACOG National Clinical Meeting, New Orleans, LA, May 1998. (Poster presentation)

16. Klein S and Rodis JF - Devoting time to colposcopy: teaching residents what they need to know. 1998 CREOG/APGO Meeting, Orlando, FL, March 4-7, 1998 (Poster presentation)

17. Odibo AO, Campbell WA, Feldman D, Leo MV, Borgida AF, Rodis JF: Resolution of human parvovirus-induced hydrops after intrauterine transfusion. American Institute of Ultrasound in Medicine Annual Meeting, Boston, MA. March 22-25, 1998 (Oral presentation)

18. Gottschall D, Borgida AF, Feldman D, Alberti W, Rodis JF: Preinduction cervical ripening comparing 50 and 100 mcg of misoprostol. Society of Perinatal Obstetricians Annual Meeting, Miami, Fla. Feb. 2 - 7, 1998. (Poster presentation)

19. Campbell WA, Feeney L, Fabbri EL, Iannucci P, Borgida AF, Rodis JF, Clive J: Assessment of amniotic fluid index using a curvilinear transducer: Society of Perinatal Obstetricians Annual Meeting, Miami, Fla. Feb. 2 - 7, 1998. (Poster presentation)

20. Campbell WA, Sanders M, Rosenkrantz T, Leo MV, Odibo AO, Ling PY, Rodis JF: A center's nine-year outcome experience with congenital diaphragmatic hernia. Society of Perinatal Obstetricians Annual Meeting, Miami, Fla. Feb. 2 - 7, 1998. (Poster presentation)

21. Odibo AO, Rodis JF, Sanders MM, Borgida AF, Wilson M , Campbell WA: Correlation of amniotic fluid markers of intraamniotic infection with histopathology in cases of preterm labor: Society of Perinatal Obstetricians Annual Meeting, Miami, Fla. Feb. 2 - 7 1998. Poster presentation.

22. Odibo AO, Borgida AF, Egan JFX, Rodis JF, Sanders MM, Campbell WA: Relationship of amniotic fluid glucose with histopathologic chorioamnionitis in cases of preterm labor with intact membranes: Society of Perinatal Obstetricians Annual Meeting, Miami, Fla. Feb. 2 – 7, 1998 Poster presentation.

23. Odibo AO, Borgida AF, Rodis JF, Sanders MM, Leo MV, Campbell WA: The relationship of gestational age to histologic chorioamnionitis in preterm labor with intact membranes. Society of Perinatal Obstetricians Annual Meeting, Miami, Fla. Feb. 2 – 7, 1998 Poster presentation.

24. Rodis JF, Borgida AF, Wilson M, Egan JFX, Leo MV, Odibo AO, Campbell WA: Management of Parvovirus Infection in Pregnancy and Outcomes of Hydrops: A Survey of SPO Members. Society of Perinatal Obstetricians, Miami, FL, February 2-7, 1998 (Poster presentation)

25. Rodis JF, Rodner C, Hansen A, Borgida A, Spivey G, and Rosengren S. Long-term outcome of children following maternal human B19 parvovirus infection. Society of Perinatal Obstetricians, Anaheim, CA., January 1997 (Oral presentation)

26. Rodis JF, McIlveen P, Egan JFX, Borgida AF, Turner GW and Campbell WA. Monoamniotic twins: improved perinatal survival with accurate prenatal diagnosis and antenatal fetal surveillance. Society of Perinatal Obstetricians, Anaheim, CA., January 1997 (Poster presentation)

27. Benn PA, Borgida AF, Horne D, Briganti S, and Rodis JF. Maternal serum screening efficiency using ultrasound dating versus LMP dating. Society of Perinatal Obstetricians, Anaheim, CA., January 1997. (Poster presentation)

28. Gottschall D, Borgida AF, Mihalek JJ, Sauer F, Rodis JF. Misoprostol versus Prostin E2 gel for preinduction cervical ripening. Society of Perinatal Obstetricians, Anaheim, CA., January 1997. (Poster presentation)

29. Mihalek JJ, Borgida AF, Gotschall D, Rodis JF. Incidence of prolonged bleeding time and its association to other routine laboratory tests. American College of Obstetricians and Gynecologists, Denver CO., May 1996. (Poster presentation)

30. Karak PK, Borgida AF, Brown SL, Rodis JF, Erkmen Z, Henken ML. Polyhydramnios: a pictoral display of associated fetal structural anomalies. American Roentgen Ray Society, San Diego, May 1996. (Poster presentation)

31. Rodis JF, Rinaldi LM, Cusick W, White C: Continuity clinics in obstetrics and gynecology residency programs: one institution's experience. 1996 CREOG and APGO Annual Meeting, Albuquerque, New Mexico, March 1996. (Poster presentation)

32. Bork MD, Egan JFX, Cusick W, Borgida A, Hardardottir H, Rodis JF, Campbell WA: Iliac wing angle as a marker for trisomy 21 in second trimester fetuses. American Institute of Ultrasound, New York City, March, 1996. (Oral presentation)

33. Smulian JC, Campbell WA, Vintzileos AM, Rodis JF: Correlation of umbilical artery levels of interleukin-6 (IL-6) and soluble intracellular adhesion molecule-1 (SICAM-1) with umbilical arterial blood gas measurements. Society of Perinatal Obstetricians, Hawaii, February, 1996. (Poster presentation)

34. Smulian JC, Bhandari V, Campbell WA, Vintzileos AM, Rodis JF: Correlation of umbilical artery and vein levels of interleukin-6 and soluble intracellular adhesion molecule-1 with neonatal hematologic indices and early sepsis. Society of Perinatal Obstetricians, Hawaii, February, 1996. (Poster presentation)

35. Smulian JC, Campbell WA, Ernst L, Vintzileos AM, Rodis JF: The relation of umbilical vein interleukin-6 and soluble intracellular adhesion molecule-1 to histologic placental inflammation. Society of Perinatal Obstetricians, Hawaii, February, 1996. (Poster presentation)

36. Smulian JC, Campbell WA, Vintzileos AM, Rodis JF: Correlation between umbilical artery and umbilical vein levels of interleukin-6 and soluble intracellular adhesion molecule-1. Society of Perinatal Obstetricians, Hawaii, February, 1996. (Poster presentation)

37. Vintzileos AM, Campbell WA, Rodis JF, Guzman ER, Smulian JC, McLean DA: The use of second trimester genetic sonogram in guiding clinical management of patients at increased risk for fetal trisomy 21. Society of Perinatal Obstetricians, Hawaii, February, 1996. (Oral presentation)

38. Vintzileos AM, Egan JFX, Smulian JC, Campbell WA, Guzman ER, Rodis JF: Adjusting the risk for Trisomy 21 by a simple ultrasound method using fetal long bone biometry. Society of Perinatal Obstetricians, Hawaii, February, 1996. (Poster presentation)

39. Campbell WA, Vintzileos AM, Smulian JC, Rodis JF, Guzman ER, Egan JFX: Ultrasound to detect trisomy 21 using transverse cerebellar diameter and long bone biometry. Society of Perinatal Obstetricians, Hawaii, February, 1996.

Patti M. LaMonica, R.N, M.S.N.

EXPERIENCE:

Saint Francis Hospital and Medical Center, Hartford, CT

2013-present	Interim Chief Nursing Officer
2011-present	Executive Director of Emergency Services, Clinical Resource Coordinators/Bed Control, Intravenous Therapy
2009-2011	Director of Nursing-Emergency Department, Intravenous Therapy, Clinical Resource Coordinators, Bed Control, Staffing Office
2006-2009	Director of Nursing- Emergency Department, Intravenous Therapy
Additional Interim Positions	Vice President, Patient Care Services (2009-2010) Behavioral Health, Nursing Supervision, Creative Therapy: Mount Sinai Hospital (2008) (2010) Surgical Services (2007)

MidState Medical Center, Meriden, CT

2005 - 2006	Director Emergency Department/ Mediquick Walk-in Center / Inpatient Behavioral Health
2003 - 2005	Director Emergency Department/ Mediquick Walk-in Center

New Britain General Hospital, New Britain, CT

1993 - 2003	Director of Nursing/Clinical Nurse Specialist- Emergency Department
1990 - 1993	Clinical Specialist-Emergency Department and PACU

Greater Hartford Community College, Hartford, CT

1989 - 1990	Nursing Instructor: Senior RN Students (classroom and clinical care) Bristol Hospital

Visiting Nurse Services, Torrington, CT

Per diem	Visiting Nurse

Saint Francis Hospital, Hartford, CT

1988	RN, Emergency Department

Charlotte Hungerford Hospital, Torrington, CT

1985 – 1988	Clinical Educator
1971 – 1988	RN (float) ED, ICU, IV team, M/S, Psych, PACU, Nursing

Supervisor: Hospital

EDUCATION:

1994 MSN Adult Nursing	Western CT State University	Danbury CT
1986 BSN Bridge Program	Southern CT State University	New Haven, CT
1985 BA-Psychology	Central CT State University	New Britain, CT
1971 RN	St. Francis School of Nursing	Hartford, CT

CERTIFICATIONS:

BLS, ACLS, TNCC, ENCP, NCI

Sexual Assault Nurse Examiner (SANE)

AWARDS/RECOGNITION:

2003 State Recognition Award for assisting sexual assault victims and families from Connecticut Sexual Assault Crisis Services, Inc.

2000 Management Award from Connecticut Emergency Nurses Association

1993 Original Research Award from Connecticut Emergency Nurses Association

ACCOMPLISHMENTS/PUBLICATIONS:

2009 Provided legislative testimony and support for the initiation of a state-sponsored Sexual Assault Forensic Examiner Program to provide atandardized care to sexual assault victims – unanymously supported by the General Assembly through the Judicial Branch, active through 2012.

2006 Co-authored chapter *Sexual Assault Intervention and the Forensic Examination* in textbook Forensic Nursing: a Handbook for Practice, 2006

2004 Developed initial On-line Sexual Assault Nurse Examiner (SANE) Course and program currently utilized at Quinnipiac University as education for state Sexual Assault Forensic Examiners (SAFE)

2001-2009 Instructor - SANE program, Quinnipiac University

2001 Developed and instructed SANE course and on-line course at University of Connecticut and Quinnipiac University

2001 Initiated and participated in the development of the Sexual Assault Response Team (SART) multidisciplinary , community approach to patient care- includes acute hospital care, sexual assault crisis counseling, police sex crimes division and prosecutor of sex crime cases.
(first SART group in Connecticut and model for other communities)

2000 Developed SANE team response for sexual assault victims in the acute care setting - Emergency Department, New Britain General Hospital.

2003 Developed SANE team response for sexual assault victims, Emergency Department, Midstate Medical Center

2000 Co-authored article *Triage of Patients for a Rapid (5-minute)* Electrocardiogram: A Rule Based on Presenting Chief Complaints in Annals of Emergency medicine, 2001.

SENIOR EXECUTIVE • INFORMATION MANAGEMENT • PROJECT ADMINISTRATION
OPERATIONS DESIGN / IMPLEMENTATION • BUDGET DEVELOPMENT / COMPLIANCE • STAFF DEVELOPMENT

PROFILE

- A multi-faceted, results-oriented Senior Executive/Administrator / Consultant offering a wealth of knowledge and experience in the design, development, and execution of projects with technology-driven / transformational clinical operations arenas of the healthcare industry.
- A strategic and analytical decision maker and problem solver who focuses on the overall picture to ascertain needs and goals, identify difficulties, create or streamline systems and processes, and to formulate visionary solutions that support operational and financial goals.
- A dynamic team builder and leader who cultivates an active network of relationships both within and outside of the organizational structure, effectively networking, collaborating, negotiating, and maintaining proactive associations with executive, professional, and support staff, vendors, and other business associates.
- A strategic negotiator and leader proficient in the selection, procurement process, installation, and staff training of information technology systems and software with a demonstrated record of on-time delivery, facility-wide integration and budget sensitive results.
- A partner with industry to create a platform for innovative and disruptive technology solutions which support the mission of the institution and provide the users of the systems a forum to create, innovate and stimulate new visionary solutions.
- A leader for the development and implementation of the Regional Health Information Exchange, creating a collaborative and financially sustainable organization for hospitals, ambulatory practices and long term care facilities.

PROFESSIONAL EXPERIENCE

Saint Francis Care – Hartford, Connecticut 2012-Present

VICE PRESIDENT/CHIEF INFORMATION OFFICER

- Senior Executive providing business leadership and vision for the strategic planning, management, and implementation of information systems in support of the mission and strategic goals of the Medical Center
- Key member of the executive team providing leadership and education of the senior management team in the area of information technology and clinical informatics.
- Responsible for utilization of resources, system integration, data management and metrics defining return on investment for major information system projects.
- Introduces and implements strategic information technology solutions to address cost reductions, operational efficiencies and innovation.
- Provides overall leadership in the implementation and maintenance for the Electronic Patient Record. Sets strategic direction for the planning, organization, integration, implementation, resource utilization and clinical adoption of the Electronic Patient Record for both the inpatient and ambulatory setting.
- Responsible for the Application Development, Infrastructure and Clinical Informatics division.
- Responsible for the implementation of the Health Information Exchange, Connecticut Care Alliance.
- Provide direction and support to ensure the organizations compliance with all State and Federal regulations.
- Coordinates key resources to meet the strategic initiative of the medical center with respect to web strategy, clinical recruitment, videoconferencing, communication initiatives, academic initiatives and clinical resource management.
- Responsible for the Total Cost of Ownership and Strategic initiative for the Epic Implementation.

PROFESSIONAL EXPERIENCE CONTINUED

STONY BROOK UNIVERSITY MEDICAL CENTER – Stony Brook, New York 2007 - 2011

CHIEF INFORMATION OFFICER

- Senior Executive providing business leadership and vision for the strategic planning, management, and implementation of information systems in support of the mission and strategic goals of the Medical Center
- Responsible for supporting the Medical Center, the Health Sciences Campus and the Clinical Practices to ensure information system and network integration as well as maintaining security of the infrastructure.
- Key member of the executive team providing leadership and education of the senior management team in the area of information technology and clinical informatics for an Academic Medical Center.
- Responsible for utilization of resources, system integration, data management and metrics defining return on investment for major information system projects.
- Introduces and implements strategic information technology solutions to address cost reductions, operational efficiencies and innovation.
- Provides overall leadership of the Electronic Patient Record. Sets strategic direction for the planning, organization, integration, implementation, resource utilization and clinical adoption of the Electronic Patient Record for both the inpatient and ambulatory setting.
- Responsible for the Biomedical Engineering, Health Information Management, Communications and Clinical Informatics division.
- Responsible for the oversight and implementation of the Regional Health Information Organization (RHIO), eHealth Network of Long Island.
- Provide direction and support to ensure the organizations compliance with all State and Federal regulations.
- Coordinates key resources to meet the strategic initiative of the medical center with respect to web strategy, clinical recruitment, videoconferencing, communication initiatives, academic initiatives and clinical resource management.
- Coordinate with Residency and Fellowship Coordinators to meet regulatory compliance.

UNIVERSITY OF CONNECTICUT HEALTH CENTER - Farmington, Connecticut 1985 - 2007

ASST VICE PRESIDENT, CLINICAL ENTERPRISE SYSTEMS: INFORMATION TECHNOLOGY (2005-2007)

- Provides overall leadership of the clinical enterprise sector. Designs and launches plans to create vision and set strategic direction for the planning, organization, integration, implementation, upgrading, and continuous maintenance of facility-wide clinical enterprise systems, to include development of innovative technology-based solutions to support the institution's strategic and tactical business objectives.
- Defines and coordinates project activities, sets unit goals and objectives, tracks and resolves issues and works closely with the business owner and IT support staff to optimize system implementation for the fulfillment of current and prospective business needs facility-wide.
- Formulates, administers, and monitors the Clinical Enterprise budget. Authorizes resource allocation and expenditures, and tracks budget position on a continual basis to assess achievement of goals within budgeted parameters.
- Coordinates the development and implementation of policies, procedures, training and support for the operational continuity of clinical information systems and to meet various federal, state and other regulatory requirements.
- Identifies and facilitates the resolution of application and operational problems relating to the information systems, develops solutions to promote cost reduction and operational efficiencies.
- Plans, conducts and analyzes needs assessment and costs analysis for the business unit in the acquisition of clinical information systems. Coordinates and participates in the procurement process, RFP/RFI development, contract negotiation sessions and subsequent vendor management of all clinical information systems.
- Hires, directs, and evaluates the performance of technical staff, developing each individual to reach their maximum potential by setting expectations, providing ongoing training and coaching, and rewarding appropriately.
- Maintains a consistent level of research, interpretation, and integration of new technology and technological tools to reflect in overall direction of information systems development and management.
- Serves on numerous internal and external committees and project teams, including the Baldrige Measurement Team (Leader) and Results Team, Collaborative Center for Clinical Care Improvement Team (C4I), Health Information Management Committee, Application Leads Committee (Chair), Emergency Department Redesign Team, HIPAA Privacy and Security Team, and on the Quality Resource Management Committee, Physician Oversight Committee and eHIM Steering Committee.

PROFESSIONAL EXPERIENCE CONTINUED

DIRECTOR OF THE CLINICAL ENTERPRISE SYSTEMS: INFORMATION TECHNOLOGY (1997-2005)

- Provided oversight of the clinical enterprise sector. Designed and launched plans to create vision and set strategic direction for the planning, organization, integration, implementation, upgrading, and continuous maintenance of facility-wide clinical enterprise systems, to include development of innovative technology-based solutions to support the institution's strategic and business objectives.
- Developed and maintained performance measures for information technology solutions.
- Identified and facilitated the resolution of application and operational problems relating to the information systems, develops solutions to promote cost reduction and operational efficiencies.
- Plans, conducts and analyzes needs assessment and costs analysis for the business unit in the acquisition of clinical information systems. Coordinates and participates in the procurement process, RFP/RFI development, contract negotiation sessions and subsequent vendor management of all clinical information systems.
- Served on numerous internal and external committees and project teams, including the Clinical Information Technology Planning Committee (Co-chair), Financial Improvement Team, Quality Resource Management, Medical Records Committee, Application Leads Committee (Chair), Soft Computer Users Group (Vice President and Executive Committee), HIPAA Privacy and Security Team, and on the JCAHO Information Management Team .

LABORATORY INFORMATION SYSTEM ADMINISTRATOR: LABORATORY MEDICINE (1995-1997)

- Directed and managed the implementation of the Laboratory Information System (LIS) from hardware and software acquisition and set-up through integration with all health center departments.
- Served as liaison to SoftComputer Inc. (vendor), and oversaw continuing maintenance of the system to include quality assessment, error log, triage, and troubleshooting of contained problems and those impacting overall HIS system integration.

DEPUTY LABORATORY MANAGER: LABORATORY MEDICINE (1991-1997)

- Supervised the Laboratory Services Division, collaborating with the Laboratory Manager and Assistant Hospital Director for the development and facilitation of overall departmental objectives and short-term/long-range goals regarding space utilization, human resources, and financials.
- Coordinated monthly financial and statistical reporting systems and billing for clinical research studies, and established purchase orders and service contracts for the department.
- Directed laboratory computer system utilization; compliance with departmental and institutional guidelines regarding personnel, safety, and procedures; marketing initiatives; and communication with sales personnel, healthcare professionals, and the public.
- Designed, launched, and administered the Laboratory Outreach Program, and served as team member for the development of the OSHA Safety Manual (1992), Laboratory Specimen Collection Manual (1992), Clinical Ladders Program (1991-1992), and Health Expo (1991, 1992).

MICROBIOLOGY SUPERVISOR: LABORATORY MEDICINE (1985-1991)

- Directed, counseled, and evaluated medical technologists and clerical staff, and generated procedures for methods manuals and quality control.
- Scheduled activities, troubleshot instruments, compiled antimicrobial susceptibility profiles, and provided extensive interaction with physicians regarding overall problems and assessment of patient cultures.
- Handled inventory control and supply procurement, and assisted in the development of computer reporting.

HARTFORD HOSPITAL - Hartford, Connecticut 1979 - 1984

MICROBIOLOGY INSTRUCTOR (1981-1984)

- Planned and implemented the Medical Technology and Medical Laboratory Technician programs in Clinical Microbiology (Bacteriology, Parasitology, Mycology, Mycobacteriology, and Virology), and the Medical Laboratory Technician program in Clinical Immunology.
- Evaluated laboratory students using competency-based goals.
- Instructed pathology residents and post doctorate fellows in microbiology.

MICROBIOLOGY TECHNOLOGIST III (1979-1981)

- Performed routine bacteriology, immunology, mycobacteriology, clinical microscopy, parasitology, and venipuncture.

PROFESSIONAL SUMMARY

Primary Focus: long-range strategic financial planning focusing on building balance sheet strength; improving the consistency and timeliness of financial information; maximizing the System's inherent strength to improve contracting leverage, purchasing power, balance sheet reserves for program/facility development, maintaining external relationships with creditors, improving access to capital, and development of staff.

PROFESSIONAL EXPERIENCE

7/12 – present **Saint Francis Care / Saint Francis Hospital and Medical Center,** Hartford, CT

An integrated health delivery system, including 617-bed Saint Francis Hospital and Medical Center and Mount Sinai Rehabilitation Hospital, an independent rehabilitation hospital. Other system affiliates include a specialist and primary care physician group, behavioral health center, and urgent care and other access centers. The Medical Center discharges over 32,000 inpatients and treats over 500,000 outpatients annually.

SENIOR VP AND CHIEF FINANCIAL OFFICER **December 2014**

Responsible for daily financial operations, revenue cycle, supply chain, budgeting, cost accounting, and treasury functions.

SENIOR VICE PRESIDENT OF FINANCE **February 2014**

Responsible for daily financial operations, budgeting, cost accounting, and treasury functions.

- Successfully negotiated additional reimbursement of over $10 million over two years for the Hospital and Medical Center
- Identified and achieved cost savings of the state provider tax, resulting in additional net income to the health system of over $2 million annually
- Participate in Connecticut Hospital Association's committee on hospital finance and subcommittee on all-payor reimbursement diagnosis related group (ARP-DRG), which assisted the state's transition to modernize its reimbursement.
- Successfully negotiated a $0.5 million reduction in pharmacy overpayments
- Started the Health System's Investment Committee

VICE PRESIDENT OF FINANCE **July 2012**

Responsible for daily financial operations, budgeting, cost accounting, and treasury functions.

- Led the refinancing of $213 million of tax-exempt bonds into private placement debt in collaboration with seven different lending institutions
- Established service line reporting structures to educate physician and executive directors on financial and operational performance.
- Oversee the annual financial statement audit for the health system

8/07 – 7/12 **Memorial Health System,** Springfield, IL

An integrated health delivery system, including 500-bed Memorial Medical Center, Abraham Lincoln Memorial and Taylorville Memorial Hospitals, 25-bed Critical Access hospitals. Other system affiliates include home services and hospice, primary care physician group, mental health centers, urgent care centers, and property management. Annual net operating revenues were $736 million, generating a 2.6% operating margin in FY 2011(5.6% operating margin in FY 2010). The Medical Center discharges over 25,700 inpatients and treats over 490,000 outpatients annually.

DIRECTOR OF FINANCE & GENERAL ACCOUNTING

Responsible for daily financial operations, budgeting, cost accounting, charge description master, property management, treasury functions, and finance information services.

- In FY2012, collaborated with the CFO and Investment Committee to develop a $90 million new money financing plan to provide funds for two new medical office building projects; maintained A+/A1 category credit ratings by S&P and Moody's credit rating agencies.
- In FY2012, collaborated with the COO and his VP team to develop and implement monthly flexible budget to actual reporting, increasing the accountability and involvement of operational leaders in their departments' financial performance.
- Participated with the Investment Committee to review and monitor investment portfolios of over $450 million, which have outperformed the benchmark by over 27 basis points and 190 basis points for the Medical Center investments and Health System Pension investments, respectively.
- Participated in several cost savings initiative teams to reduce operating expenses, increase revenue, and develop financial reporting metrics, which led to a 2% increase in productivity (or approximately $3.2 million in salary costs) and a 20% (or $400,000) reduction in overtime.
- Led various multi-disciplinary Lean / Six Sigma teams within the supply chain, materials management, and the revenue cycle, reducing annual freight costs by over $100,000 and decreasing bad debt expense of the primary care physician group by over 50%.
- In FY 2009, collaborated with the CFO and operational leaders to complete a $150 million financing plan that issued tax-exempt bonds for use by the Medical Center and both Critical Access Hospitals; developed and implemented a credit rating strategy that secured an A+/A1 category rating from S&P and Moody's credit rating agencies.

Ernst & Young, Kansas City, MO **June 2005 – August 2007**

Manager, Assurance and Advisory Services

Ernst & Young is a global leader in assurance, tax, transaction and advisory services. Worldwide, E&Y employs over 152,000 people.

Responsible for the supervision of audits of not-for-profit hospitals and health systems with annual gross revenues ranging from $100 million to over $4 billion, participated in audit committee and board of director meetings, counseled younger staff in career development, including training of new staff and seniors, managed several teams and projects simultaneously, and participated in health care tax-exempt bond issuances and other health care consulting engagements.

BKD, LLP, Kansas City, MO **July 1999 – June 2005**

Manager, Assurance and Advisory Services

BKD, LLP is a top ten CPA and advisory firm that operates 30 offices in the Midwest. BKD employs over 2,000 professionals.

Responsible for the supervision of audits of not-for-profit hospitals and health systems with annual gross revenues ranging from $25 million to over $500 million, presented audit reports and management letters to finance committees and board of directors' meetings, supervised, trained, and reviewed the work of staff accountants, and mentored several staff accountants to establish career goals.

PROFESSIONAL HISTORY

Saint Francis Hospital and Medical Center
Hartford, Connecticut

Senior Vice President Planning, Business Development and Government Relations	2011 – Present
Senior Vice President Strategic Planning and Facilities Development	1993 - 2011
Vice President Strategic Planning and Facilities Development	1989 - 1993
Director of Strategic Planning	1987 – 1989

During my 27 year tenure at Saint Francis

- Assumed progressive responsibility for a wide range of projects that were an outgrowth of the development of six Strategic Plans and two Master Facilities Plans.
- Working with the CEO and the rest of his Senior Management Team, I was given overall responsibility for all regulatory approvals, functional space planning, budgeting and construction of over 700,000 square feet of new space and 300,000 square feet of renovation which totaled over $300 million.
- Played major roles in the creation of several joint ventures, public private partnerships and new businesses.
- Served the organization as its legislative liaison.

Key Projects:

- As a member of our Construction Management team, I have been involved in implementation of a two campus master plans that resulted in the completion of:
  - 132 bed Patient Care Tower housing 25 new operating suites, four inpatient medical/surgical units, a new Emergency Department and support services for Materials Management and Central Sterile;
  - 150 bed Patient Care Tower housing Critical Care, Medical/Surgical and Women's Services, as well as outpatient programs for Endoscopy, Heart, Women's and Ambulatory Surgery;

- New Cancer Center;
- 60 bed Rehabilitation Hospital;
- 52,000 square feet Ambulatory Care Center;

- Development, build out and management of leases of Primary Care Access Centers in the towns of Enfield, Ellington, East Hartford, Winsted, Bloomfield, Avon, Glastonbury, Simsbury and Manchester, Connecticut.

Business Development Key Accomplishments:

- The merger of the 379 bed – Mount Sinai Hospital with Saint Francis in 1995.

- Involvement in the creation of and successful implementation of affiliations with:
  - Bristol Hospital in Bristol, CT;
  - Eastern Connecticut Health Network – a two hospital system in Rockville and Manchester, CT;
  - Saint Mary's Hospital in Waterbury, CT;
  - Alcohol Drug & Recovery Center in Hartford, CT;
  - Greater Hartford Lithotripsy, LLC
  - Greater Hartford Easter Seals;
  - Sharon Hospital;
  - The Hospital for Special Care;
  - New Directions;
  - Masonicare;
  - Johnson Memorial Medical Center

Business Ventures key Accomplishments:

- A Joint Laboratory known as Collaborative Laboratory Services (CLS) between Bristol Hospital and Saint Francis:

- A Satellite Cardiac Catheterization Laboratory with a smaller community hospital, Rockville General Hospital;

- Mobile Lithotripsy Services involving three hospitals and physician groups;

- A joint laundry known as Total Laundry Collaborative, LLC (TLC) involving three area hospitals;

- A wide range of physician leases and business relationships covering ambulatory surgery, pain services, gastroenterology and recruitment;

- Assisted in the acquisition of a 129 bed psychiatric hospital in Portland, Connecticut;

- Created the only satellite Long Term Acute Care Hospital Satellite in the State of Connecticut with the Hospital for Special Care.

Government Affairs Accomplishments:

- Aided the hospital in seeking improved funding for both Medicaid and Medicare at the state and national level.
- Receipt of a onetime special payment of $1 million for outpatient clinic services;
- Receipt of special startup funds for new programs in child daycare, a regional child abuse center and vocational rehabilitation services;
- Obtained approval for state bond dollars (with zero pay back requirement)
  - $1.8 million for ADRC – a Saint Francis Care affiliate located on the North Campus
  - $3.75 million – Gengras Ambulatory Care Center at 114 Woodland Street
- Passed legislation allowing creation of long term acute care hospital satellite in the State of Connecticut.
- Winner of the 2014 **American Hospital Association Grassroots Champion Award**.

CAREER SUMMARY

Human Resources and Organizational Development executive with many years of health care experience. Additional experience and training in health sciences (population management), education, quality improvement, and organizational effectiveness.

PROFESSIONAL EXPERIENCE

Saint Francis Care, Hartford, CT, January 2012-Present
Senior Vice President and Chief Human Resources Officer
Oversight of HR/OD for Saint Francis Care, an integrated delivery system with 5,500 employees. The flagship is New England's largest Catholic hospital with 617 licensed inpatient beds. Saint Francis is a regional referral center and major teaching hospital with key clinical concentrations in women's and children's services, oncology, cardiology, and orthopedics. Rehabilitation and behavioral health services are offered on the System's Mount Sinai campus.

- Serve as management liaison to the Board Compensation and Management Development Committee, responsible for succession planning reviews, aligning and measuring short- and long-term strategic goals for the organization, and coordinating the CEO performance management process.

- Serve as co-leader of a multi-year cultural initiative to implement Relationship Based Care, a trademark program of Creative Health Care Management.

- Work closely with Physician Hospital Organization (Saint Francis Health Care Partners) to develop a "proof of concept" of Saint Francis' ACO and other risk-sharing strategies through the employee health plan.

Carondelet Health, Kansas City, MO, November 1999-January 2012
Vice President of Human Resources and Organizational Development
Carondelet Health is a regional, bi-state health system comprised of two acute care hospitals (both Magnet-designated), three long-term care facilities, a home health agency, and several other corporate entities. The System had approximately 3,300 employed associates. In 2002, CH became part of Ascension Health, the nation's largest not-for-profit health care system.

HealthNet, Kansas City, Missouri, 1987-1999
Vice President of Human Resources and Organizational Effectiveness
(final role in 1999)
Oversight of Human Resources and Organizational Development in a fast-growing managed health care plan (PPO and HMO) with approximately 600 employees and 30% market share in Kansas City. HealthNet was originally owned by 10 Kansas City hospitals that eventually

coalesced into four systems. HealthNet's name changed in 2001 to Mid America Health, a plan that was subsequently sold to Coventry Health Plans.

Lee's Summit R-7 School District, Lee's Summit, Missouri, 1984-1986
Secondary Education Teacher – Language Arts

Taught English in the 8th, 9th, and 10th grades in a Kansas City suburb.

EDUCATION

M.S., Evaluative Clinical Sciences
(focused on quality improvement and population management)
Dartmouth College, Hanover, New Hampshire

B.S., English Education
University of Kansas, Lawrence, Kansas

CURRENT AND PREVIOUS BOARD AFFILIATIONS/MEMBERSHIP

Job History

1992 – Present
Vice President Facilities, Support Services and Construction, Saint Francis Care, Hartford, CT

Administrative responsibility for all support services including housekeeping, laundry, security, food and nutrition, patient transport, parking, property management, engineering and clinical engineering.

- Responsible for space management, design and construction
- Responsible for preparation and administration of system capital budget
- System Safety Officer and Emergency Preparedness Coordinator

Major Accomplishments Include

While at Saint Francis Hospital and Medical Center oversaw ~$500 million in construction and renovation projects including the 318,000 square foot John T. O'Connell Tower, the 354,000 square foot Patient Care Tower, 46,000 square foot Cancer Center, 45,000 square foot Rehabilitation Hospital of Connecticut, 52,000 square foot Burgdorf/Bank of America Building, 50,000 square foot Avon Access Center, 52,000 Glastonbury Access Center and over 800,000 square feet of renovations. Along with the team at Saint Francis converted an aging hospital into a major teaching facility.

In the area of facilities management has secured three EPA Energy Star awards for Saint Francis. Responsibilities in support services and facilities contribute to patient and employee safety and satisfaction.

1987 – 1992
Vice President/COO
OGDEN Allied Services Corporation (Abatement and Decontamination Subsidiary) (New York, NY)

Recruited by this Fortune 500 company to create a subsidiary aimed at penetrating the asbestos abatement industry. Developed business and marketing plan. Implemented strategies and exceeded original sales target. P&L responsibility.

- Started up subsidiary … created business and marketing plan … achieved $20 million sales level in first year … $50 million in third year.
- Personally prepared abatement proposal for major internationally owned hotel … won contract amounting to $6 million with GPM exceeding 25%.
- Developed mobile trouble-shooting team … capable of responding to any project nationally

1986 – 1997
Associate Executive Director, Bellevue Hospital, New York, NY

Recruited by world renowned health care institution which was in disarray, both managerially and physically. Implemented a series of turnaround procedures. Changed a sub-par environment to meet modern standards.

- Reorganized 250 person operations/maintenance departments … hired several key managers … instilled professionalism.
- Took over a 10 year non-functioning HVAC system … hired expert and made operable in six months … avoided millions of dollars in retrofit and operational costs at an expense of under $500,000.
- Turned around a mismanaged, litigation-riddled construction program.

1978 – 1985
Vice President, Facilities Management, Phelps Memorial Hospital, Sleepy Hollow, NY

Managed administrative and line supervision of all facilities functions including operations, engineering, telecommunications, data processing and support services.

- Developed and implemented an energy management system … reduced utility consumption 25%.
- Managed renovation of 225,000 square foot facility
- Developed a number of for profit operations … added income to parent corporation.

1976 – 1978
Director of Engineering, Bronx Lebanon Hospital, New York, NY

Returned to former organization with assignment of streaming operation. Three separate divisions (hospitals) were integrated under one manager with a single set of operation standards and safety procedures.

- Reorganized managerial structure … integrated three engineering divisions under one corporate head.
- Developed and managed training program for technical and administrative personnel.
- Implemented computerized P.M. and work order system.

Prior to 1976

- Montefiore Hospital and Medical Center, Bronx, NY, Director of Engineering
- Bronx Lebanon Hospital, Associate Director of Engineering
- Officer in U.S. Merchant Marine and U.S. Naval Reserve

SUMMARY

Thirty-two years of hospital financial experience, with the last twenty-four working as a Chief Financial Officer. An analytical, strategic decision maker with strong communication and negotiation skills, as well as a background rounded out with significant exposure to operations and interaction with hospital medical staff.

PROFESSIONAL EXPERIENCE

Johnson Memorial Medical Center, Stafford Springs, CT 12/10-present
Interim Chief Financial Officer 12/10-6/11
Chief Financial Officer 6/11-present
Manages financial operations for Johnson Memorial Medical Center. JMMC consists of: a 98 bed hospital, a 160 bed nursing and skilled nursing home, a development company, a home and community health services company and an affiliated company that oversees the activities of several physician practices. Direct reports include the Controller, Director of Patient Accounts & Patient Access, Director of Managed Care, Director of Hospital Information Management and Director of Materials Management. Total Operating Revenue of $101,000,000 and 794 FTES.
Major accomplishments to date:

- Decreased DNFB from 12 days to 6 days (added $1M in cash)
- Spearheaded a $2M cost reduction program
- Evaluated and recommended new revenue generating programs to be implemented in FY 2011

Howard University Hospital, Washington, D.C. 2/08-5/10
Chief Financial Officer
Managed financial operations for Howard University's 428-Bed teaching hospital. Operating responsibilities for General Accounting, Reimbursement, Patient Access, Medical Records, Patient Accounting, and Managed Care Negotiations. Responsible for the entire revenue cycle. Total Revenue of $300,000,000 net patient revenues and 2150 FTES.
Major accomplishments:

- Lead a twelve-month turnaround, taking a $14.1M operating loss in 2008, to a $2.9M gain from operations in 2009
- Increased Net Patient Revenue $23M in 2009 by enhanced management of the "revenue cycle"
- Replaced and upgraded the entire financial management staff in less than 24 months.
- Upgraded and added the following financial systems:
    1. New Budget System (Vendor: Kreg)
    2. Contract Management System (Vendor : Kreg)
    3. Decision Support / Cost Accounting System (Vendor : Kreg)
    4. Calibration Of Contractual Allowance System (Vendor : Crowe)
    5. Kaufman Hall Forecasting System

Inova Loudoun Hospital, Leesburg, Virginia 1/99 – 2/07
(Through March 2005 merger with Inova Health System)
Formerly Loudoun Hospital Center.
Chief Financial Officer
Managed finance for this system with budgeted gross revenues of $342 million and 1200 FTEs. Operating responsibility for Finance, Medical Records, Materials Management, Patient Accounts and Patient Registration (139 FTEs). Span of responsibility included:

- Inova Loudoun Hospital - 183 acute care beds.
- Loudoun Nursing and Rehabilitation Center - 100 beds.
- Loudoun Health Services. Free-standing outpatient surgical center.
- Loudoun Hospital Foundation

Major Accomplishments:

- Increased licensed bed capacity from 92 to 183.

- Engaged in a three-year turn around initiative, turning an $18.4 million loss into a $14.2 million gain.
- The gain from operations in 2006 was $12.3 million, a 6.1% return on net patient revenue, which was the highest in the hospital's history.
- Reduced gross days in accounts receivable from 70 days in 1999 to 45 days in 2006.
- Increased number of days in cash from 20 in 1999 to 140 days prior to merger.
- Directed successful effort to sell $18.2 million bond issue to add needed capacity in June of 2002. Bond rating BBB from Fitch. Six months later, bond rating was raised to BBB+.
- Completed a successful merger with Inova Health System with a community benefit of $200 million.
- Negotiated a joint venture outpatient surgery center between the hospital and key surgeons.
- Negotiated terms for the construction of an office building on hospital campus that provided up-front lease payments ($2.5 million) while giving county residents access to new services, including Cardiac Catheterization.

Capital Health System, Trenton, New Jersey 12/97 – 8/98
(Consolidation of Mercer Medical Center and Helene Fuld Medical Center into 589 bed system)
Chief Financial Officer
Managed financial operation of the newly-formed Capital Health System, with a $200 million dollar budget, and 3000 employees. Reported to the Chief Executive Officer of the Health System, and met monthly with the Board Finance Committee on the system's financial performance.
Major Accomplishments:

- Teamed with other senior managers on an ad hoc Board Committee, which directed the consolidation of the two hospitals into a major Health System.
- Played a key role, as a member of the oversight committee, in establishing the management team of Capital Health System.
- Evaluated and recommended vendors to provide a new financial CIS system for Capital Health System.
- Developed the overall finance portion of the consolidated business plan for the new entity.
- Negotiated all new contracts with third-party payers.

Mercer Medical Center, Trenton, New Jersey 1/93 – 12/97
Executive Vice President/Chief Financial Officer
Managed the overall operations, including financial, of this 343 bed medical center, with four Vice Presidents as direct reports.
Major Accomplishments:

- Directed a re-design program that reduced annual expenditures by $4.5 million, while developing a patient focus care delivery system. Brought all factions and aspects of the hospital together to support this effort.
- Developed and chaired a cost containment and standardization committee to help reduce costs by $500,000 in six months.
- Participated in the development of a Physician Hospital Organization to negotiate managed care contracts with third-party payers.
- Played a major role in establishing a new corporate relationship with the Voluntary Nurses Association to provide home health care for Mercer Medical Center patients.

Vice President of Finance 12/82 – 1/93
Provided overall fiscal direction for the Medical Center and its affiliated organizations. Reporting departments included general accounting, patient reception/admissions and purchasing/materials management. Managed administration of pharmacy, laboratory, and radiology. Subsidiary activities included home care, cardiopulmonary, physical therapy and sports medicine operations, physician recruitment and real estate ventures.
Major Accomplishments:

- Consistently maintained an operating profitability margin well in excess of state average through revenue maximization and cost containment, without any adverse effect on quality patient care.
- Coordinated a successful $27.4 million, A-rated, tax-exempt bond financing for expansion of the facility.

- Established several diversification and satellite activities through subsidiaries of Mercer Holding Corporation.
- Represented the Medical Center on the Board of Directors of the Mercer County MRI consortium, which was responsible for the implementation and financial oversight of this project.

Director of Finance 11/76 – 12/82
Directed and coordinated the daily operation of the finance department to include preparation of internal financial statements, the budget process and third-party reimbursement.

OTHER WORK EXPERIENCE

United Hospital of Newark 9/75 – 10/76

PATRICIA A. JAGOE RN, MSN, CNOR

Patricia.jagoe@jmmc.com
860-515-6752

Objective

A results-oriented leader with extensive experience in perioperative service line oversight and overall patient care areas within multi-hospital healthcare systems is seeking career enhancement with a leading healthcare organization.

Summary of Qualifications

Fourteen years administrative/management experience in the perioperative arena with an excellent track record of leading teams, managing operational and capital budgets, and institution of quality and safety initiatives. Experience with ANCC Magnet ©Designation and Malcolm Baldridge Healthcare Quality initiatives.

Eighteen years experience as a Perioperative Staff Nurse with a broad base of experience across specialty areas including Cardiovascular-Thoracic, ENT, General, Gynecology, Neurosurgery , Ophthalmology, Orthopaedic, Trauma and Urology.

Professional Experience

Currently – Assistant Vice President Patient Care Services Johnson Memorial Medical Center, Stafford Springs, CT
February 2014- present

Responsible for oversight of Patient Care including Inpatient and Outpatient Services: Medical/Surgical, Perioperative, Central Sterile Processing, ED, Critical Care, Infection Control, EMS, Infusion Center, Physical Medicine and Rehabilitation, Labor and Delivery, Nursing Education and Practice.

Executive Director Surgery Service Line
January - 2012-February 2014

Responsible for strategic, quality, safety and clinical oversight for Inpatient and Outpatient Clinical Services within the Surgery Service Line including 17 inpatient operating rooms, 9 outpatient operating rooms, post operative nursing units, pre admission testing, PACU, GI services, Pain Clinic, Day Health, Endoscopy. Program oversight including Ambulatory Surgery, Wound and Hyperbaric services, Denistry, Trauma Servcies, Outpatient Surgery clinics. Responsbilities include oversight of 400 – plus nurses, physicians, PA's and ancillary staff.

Accomplishments

- Development of the Surgery Service Line within a Dyad model.
- Developed and implemented strategies for population health management of the perioperative patient within a complex healthcare organization.
- Named one of the Best Hospitals for Surgery according to Consumer Reports. Highest overall surgery rating in the state. One of two hospitals in the state to achieve this honor.
- Established patient satisfaction strategies with mid- level managers
- Improved on time first case starts in the OR areas
- Improved Turn Around Time for OR procedures
- Instituted patient safety initiatives and culture of safety within multidisciplinary teams.
- Achieved 3.7% increase in revenue capture for the surgery service line through multiple cost-saving and revenue enhancing initiatives.
- Instituted Periop 101 course that resulted in eliminating RN traveler staff in the CVOR at a 1 million dollar cost avoidance over one year.
- Worked with Anesthesia leaders to identify and implement a risk stratification process for pre-procedural testing.
- Worked in partnership with neurosurgeon groups to identify spine strategy inititaives.
- Reorganized reporting structure within the surgery service line in order to enhance accountability and workflow

Assistant Vice President Perioperative Services
Avera McKennan University Health and Hospitals
Sioux Falls, SD
June 2008-January 2012

Responsible for Inpatient and Outpatient Perioperative Services, including fourteen (14) inpatient operating rooms and eight (8) outpatient operating rooms, Anesthesia services, GI services, Pain services and Central Sterile Processing Department (CSPD) at an ANCC Designated Magnet© tertiary hospital in a multi-state healthcare system.

Responsibilities include planning, staffing and opening an outpatient surgery center on hospital campus July 2010 as well as oversight of the Level II trauma inpatient OR's with a combined surgical volume of over 12,000 cases. Strategic planning focusing in development of outpatient and inpatient surgery programs with 6 direct reports and approximately 280 FTE's. Additional

responsibilities include focus on development of physician relationships, performance improvement initiatives, human resource oversight, budgetary oversight, regulatory and quality leadership.

Accomplishments

- Planned, developed, and opened the Avera Surgery Center which includes 8 integrated OR's, 14 phase I recovery bays, 28 private pre/post-op rooms.
- Physically combined and centralized the sterile processing area in order to service both inpatient and outpatient OR suites.
- Reorganized Perioperative Services leadership, brought on additional perioperative director position as well as business director position.
- Built strong relationships with surgeons, staff, senior leaders, peers and leaders from other departments hospital and organization-wide.
- Achievement of aggressively budgeted volume targets for surgery FY2011.
- Increased market share from 25% to close to 30% this fiscal year.
- Brought on new staff to support opening of ASC, CSPD and Main OR
- Participated in Magnet review and successful Magnet designation.
- Leading directors and managers in creating Unit Practice Councils.
- Partnered with Surgery Medical Director to create OR Committee.
- Partnered with Robotic Surgeon champion to initiate Robotic Subcommittee.
- Co-authored Helmsley Foundation Grant to bring IOERT (Mobetron) to Avera McKennan, one of only 13 facilities to offer this in the country and the first in the country to partner with the Salzburg, Austria research protocol for breast IOeRT.
- Conduct monthly "meet and greet" sessions with perioperative staff
- Initiated Surgery VAT team with Co-leader from Regional Health System and NPPC.
- Assisted CNE to lay groundwork for roll-out of Periop 101
- Facilited roll-out of Surgical Safety Checklist
- Created and brought on Business Director position
- Improvement and enhancement of Perioperative Education through addition of two new perioperative educators.

Director Surgical Services
High Point Regional Health System
High Point, North Carolina
Sept. 2006-2008

Responsible for a twelve (12) room OR suite, Pre-admission, Day Hospital, Endoscopy, PACU, Anesthesia, Perfusion Services, Central Sterile Processing, and Bariatric Administration with 10 direct reports and approximately 185 FTE's.

Responsibilities include strategic planning, developing and maintaining physician relationships, performance improvement initiatives, including leading patient throughput and lean six sigma projects, human resource, fiscal and regulatory oversight.

Active on multiple committees and workgroups including co-chair of Operating Room Committee, Surgery and Anesthesia Section, leading Universal Protocol for Prevention of Wrong

Side, Wrong Site, Wrong Patient Surgery initiative, Surgical Services Products Committee, and Education and Leadership workgroup.

Accomplishments

- Reorganization of the Surgical Services leadership team.
- Reorganized Surgical Services Products Committee.
- Conducted focused staff satisfaction survey specific to the Operating Room.
- Institution of a Staff Council in Operating Room that will be rolled out to all of Surgical Services within the year.
- Conducted focused surgeon satisfaction survey specific to the Operating Room.
- Currently working with Operating Room leaders to address results of surgeon satisfaction survey.
- Owner of two Lean Six Sigma teams within Surgical Services.
- Presentation "Controlling the Chaos" Association of Perioperative Nurses Conference; Orlando, Fla. March 2007
- Presentation "OR Efficiencies"; VHA Mid-Atlantic Perioperative Conference ; Durham, NC. May 4, 2007
- Co-authored article "What is Your Succession Plan?", OR Today; May 2007.
- "Surgery Plans? Here's how you can help make is a safe experience" Authored by Patricia Jagoe for the High Point Enterprise Newspaper, Health Beat section; February 20, 2007.
- "This kind of "time out" is a vital part of your surgery" Authored by Patricia Jagoe for the High Point Enterprise Newspaper, Health Beat section; June 12, 2007.
- WMFR Radio interview February 20, 2007 and June 12, 2007 relating to patient safety.

Clinical Manager Operating Room/Acting Director Surgical Services
WakeMed Health and Hospitals
Raleigh Campus
Raleigh, North Carolina
2001-2006

Responsible for a twenty-two (22) room OR and Sterile Processing area with 10 direct reports and approximately 145 FTE's at a Level I trauma center.

Responsibilities also included direction of daily operations, staffing and staff retention, budgeting, performance improvement, patient safety, quality and regulatory activities, staff education, physician and Anesthesia department relationships and active participation in WakeMed initiatives.

Functioned as Acting Director of Surgical Services.

Active participant on various committees within the WakeMed System including, OR, Orthopaedic, Thoracic/Cardiovascular, Infection Control, Safety Committee, Capacity Management Team and North Carolina Surgical Infection Prevention.

Accomplishments

- OR Smoothing Initiative – Successfully decreased variation in the OR schedule, allowing predictability of daily operations thus allowing accurate resource allocation in the surgical services area.
- Successful fiscal budget management.
- Successful management of increased surgical volume (11% over predicted budget for FY 2006).
- Improved on-time first case starts from 42% to 85%.
- Poster presentation 2006 AORN Congress on OR Smoothing initiative.
- Honorable Mention ISIPS 2005 Sharps Injury Prevention Award.
- Implementation of RN First Assist program.
- Introduction of image guidance technology for neurosurgery and ENT.

Mitigating Survey Deficiencies
Operational and Strategic Planning
Project Management
Team Motivation, Engagement and Management Metrics
Manages all regulatory site visits and compliance with regulations

Professional Experience

Johnson Memorial Medical Center, Stafford Springs, CT — 2014 – Present
Assistant Vice President, Ancillary Services

Johnson Memorial Hospital affiliated with Saint Francis Care is licensed for 92 beds. Our emergency department has been recently upgraded and addresses any form of acute care needs for our communities. JMMC performs surgeries on site; therefore we have a medical surgical unit as well as an ICU. JMMC also has a labor and delivery unit and an adult inpatient psychiatric unit. The hospital employs just fewer than 700 staff members.

Reports to the Chief Executive Officer, responsible for Ancillary Services at Johnson Memorial Medical Center. In partnership with physician leaders, provides overall leadership for Radiology, Laboratory, Pharmacy, Quality, Risk Management, Performance Improvement, Patient Experience and Compliance. In addition, support s various regional initiatives in collaboration with the Connecticut Hospital Association (CHA) related to these services.

The primary focus is to provide overall leadership and management for the inpatient and ambulatory services in order to enhance patient care and clinical quality, manage costs, and align services to perform effectively in our health care environment. Accountability for the strategic planning as well as administrative, clinical, and operating processes, including oversight of licensure and regulatory requirements for the medical center. Also, responsible for collaborating with, supporting, and developing Directors/Managers, and engages in regular contact with management, staff, and physicians, as well as interaction with patients and families. Demonstrates a strong commitment to the mission and values of Johnson Memorial Medical Center.

Gross Revenue: $69,578,000
Operating Budget: $12,817,805
Division Oversight of 88 FTE's

Chair: Connecticut Hospital Association (CHA) Quality Committee
Member: Connecticut Hospital Association (CHA) Board Quality Committee

Director, Quality, Risk Management & Performance Improvement

Identified Process Improvement opportunities through analysis of comparative and internal data collection and assign preordination and follow through on those activities, including identification of outcome measurements for PI which contributes to the attainment of fiscal and quality goals.

Coordinated data collection, report preparation, and correspondence pertaining to the QI program with payers, collaborating agencies and regulatory bodies

Lead teams, coached others and championed the organizations quality agenda. Worked with line managers and medical leaders to build a continuous quality improvement program and overseen all quality assurance efforts in network.

Worked closely with medical staff leadership integrating quality data into physician-lead performance improvement activities.

Under direction of Medical Staff, facilitated physician peer review program and coordinate re-credentialing information.

Reviewed and revised hospital-wide Quality Improvement Plan and developed annual quality improvement measures and goals in conjunction with senior leadership.

EXHIBIT 15

Exhibit 15
Saint Francis *Care* Awards and Recognitions

Women's Choice Award – Saint Francis Hospital and Medical Center has received the Women's Choice Award from WomenCertified®, distinguishing it as one of the *Best Hospitals* for Heart Care. The award is based on cardiac and vascular experience and 30-day mortality and readmission rates for heart attacks and heart failure with additional consideration given to patient satisfaction scores. WomenCertified® represents the collective voice of female consumers and is a trusted referral source for top businesses and brands identified as meeting the needs and preferences of women. (January 2015)

Associated Builders and Contractors Excellence - Enterprise Construction Company is the recipient of the *Excellence in Construction Award* for the Comprehensive Women's Health Center. (January 2015)

Becker's Hospital Review – Becker's Hospital Review a leading source of information for healthcare professionals, has listed Saint Francis Hospital and Medical Center among the top 100 hospitals in the country with "great women's health programs." Hospitals were selected for the list based on clinical accolades and recognition for women's health excellence from various healthcare groups and agencies. Those agencies include U.S. News & World Report, Healthgrades, CareChex and UNICEF's Baby-Friendly Hospital Initiative. Saint Francis was one of three hospitals in Connecticut named to the list, along with Hartford Hospital and Yale-New Haven Hospital. (December 2014)

Women's Choice Award – Saint Francis Hospital and Medical Center has received the Women's Choice Award from WomenCertified®, distinguishing it as one of the *Best Hospitals* for Heart Care. The award is based on cardiac and vascular experience and 30-day mortality and readmission rates for heart attacks and heart failure with additional consideration given to patient satisfaction scores. WomenCertified® represents the collective voice of female consumers and is a trusted referral source for top businesses and brands identified as meeting the needs and preferences of women. (January 30, 2015)

Associated Builders and Contractors Excellence - Enterprise Construction Company is the recipient of the *Excellence in Construction Award* for the Comprehensive Women's Health Center. (January 29, 2015)

Women's Choice Award – Saint Francis Hospital and Medical Center has received the Women's Choice Award from WomenCertified®, distinguishing it as one of the 2015 *Best Hospitals for Patient Safety*. The award is based on consistently low rates of infections and surgical errors, and patient recommendations. WomenCertified® represents the collective voice of female consumers and is a trusted referral source for top businesses and brands identified as meeting the needs and preferences of women. (December 3, 2014)

The LeapFrog Group "A" Score –Saint Francis *Care* has again received an "A" rating Hospital Safety Score℠ from the Leapfrog Group, a national hospital quality watchdog organization. The Leapfrog Group has released its fall 2014 Hospital Safety Scores. For the 6th consecutive time Saint Francis has received an "A" rating. Saint Francis is one of only four hospitals in the

state to earn the highest rating and the only Connecticut hospital to receive the "A" rating in both the fall and the spring. Six hospitals received "B" ratings; 12 a "C" rating; and three a "D" rating in the recent rankings. Overall, Connecticut ranked 33rd out of 42 states, with just 16% of its 25 rated hospitals receiving an "A" grade. The Hospital Safety Score℠ for 2014 grades hospitals on their overall performance in keeping patients safe from harm and preventable errors. The grades are derived from analysis of publicly available data using 28 evidence-based, national measures of hospital safety. (November 2014)

CareChex – Saint Francis Hospital and Medical Center has also been recognized by CareChex®, a division of Comparion Medical Analytics, for national and state medical excellence achievements in numerous categories in its 2015 hospital quality award rankings. Saint Francis was ranked 90th nationwide for overall medical excellence in hospital care among nearly 4,200 hospitals reviewed, and was the only Connecticut hospital to score in the top 100.

The Hospital also ranked nationally among the hospitals reviewed as:

- #5 in coronary bypass surgery (out of 1,196 hospitals scored)
- #8 in joint replacement (out of 3,497 hospitals scored)
- #9 in major orthopedic surgery (out of 3,499 hospitals scored)

In addition, Saint Francis ranked #1 in Connecticut in the following eight clinical and surgical areas:

- Overall Hospital Care – Medical Excellence
- Overall Surgical Care – Medical Excellence
- General Surgery – Medical Excellence
- Joint Replacement – Medical Excellence
- Neurological Surgery – Medical Excellence
- Orthopedic Care – Medical Excellence
- Orthopedic Surgery (Major) – Medical Excellence
- Spinal Surgery – Medical Excellence

(November 2014/For internal non-commercial use only.)

Healthgrades® – Saint Francis *Care* has been recognized for clinical excellence in a national report by Healthgrades, a leading provider of information to help consumers make an informed decision about a physician or hospital. Saint Francis has received top national rankings in the most recent *2015 Quality Achievements Report:*

- *Saint Francis Care earned the Distinguished Hospital Award for Clinical Excellence in 2015. (Embargo January 20, 2015)*
- *100 Best Hospitals for Coronary Intervention, 2 years in a row*
- *Coronary Intervention Excellence Award, 2 years in a row*
- *Top 10% in the Nation for Coronary Interventional Procedures*
- *Recipient of the Healthgrades Stroke Care Excellence Award*
- *Top 10% in the Nation for Treatment of Stroke*
- *100 Best Hospitals for Joint Replacement, 3 years in a row*
- *100 Best Hospitals for Orthopedic Surgery, 2 years in a row*

- *Joint Replacement Excellence Award, 3 years in a row*
- *Orthopedic Surgery Excellence Award, 2 years in a row*
- *Top 5% in the Nation for Joint Replacement, 3 years in a row*
- *Top 5% in the Nation for Overall Orthopedic Service, 2 years in a row*

Saint Francis *Care* also earned a 5-star rating from Healthgrades in additional clinical areas for the treatment of: coronary intervention procedures, treatment of heart attack, coronary bypass surgery, treatment of stroke, repair of abdominal aorta, total knee replacement, total hip replacement, and for spinal fusion surgery. (DHACE, January 20, 2015; Specialty Excellence Awards, October 21, 2014)

Becker's Hospital Review – Saint Francis Hospital and Medical Center was named on Becker's Hospital Review list of "125 Hospitals with Great Orthopedic Programs." The announcement recognizes orthopedic surgery departments, programs or dedicated centers that have earned special recognition. Saint Francis is one of only two Connecticut hospitals on the list. This is the fifth year Becker's Hospital Review has compiled this list, and the first time it has included 125 hospitals. (September 2014)

Joint Commission's Gold Seal of Approval/Stroke Center Accreditation – Saint Francis Hospital and Medical Center has earned *The Joint Commission's Gold Seal of Approval®* for accreditation of its Stroke Center by demonstrating compliance with The Joint Commission's national standards for healthcare quality and safety. The accreditation award recognizes Saint Francis's dedication to continuous compliance with state-of-the-art standards in its primary care stroke center operations. (August 2014)

U.S. News & World Report – In a national survey of 4,806 hospitals, Saint Francis Hospital and Medical Center was one of 752 hospitals to achieve at least one "High Performing" rating among 16 medical specialties in the 25th annual U*.S. News & World Report* ranking Best Hospitals in the U.S. Saint Francis was recognized as high performing in 9 specialties: Cardiology and Heart Surgery; Ear, Nose and Throat; Gastroenterology and GI Surgery; Geriatrics; Nephrology; Neurology and Neurosurgery; Orthopedics; Pulmonology; and Urology. (July 2014)

LifeChoice Donor Services – Saint Francis Hospital and Medical Center earned a gold award for their work with LifeChoice Donor Services. LifeChoice Donor Services is among a select group of organ procurement organizations (OPOs) nationwide recognized by the U.S. Department of Health and Human Services (HHS) for reaching gold, silver, and bronze levels of achievement for conducting activities that promote enrollment in state organ, tissue and eye donor registries. The hospitals are part of a national hospital campaign, sponsored by HHS's Health Resources and Services Administration (HRSA), which has added 327,659 donor enrollments to state registries nationwide since 2011, exceeding the goal of 300,000. (July 2014)

American Diabetes Association – The American Diabetes Association Education Recognition Certificate for a quality diabetes self-management education program was recently awarded to the Center for Diabetes and Metabolic Services at Saint Francis. The designation assures that programs meet the national standards for Diabetes Self-Management Education Programs. (July 2014)

Most Wired – 2014 – Saint Francis Hospital and Medical Center has been recognized as one of the nation's *Most Wired* hospitals, according to the results of the 2014 *Most Wired* Survey published in the July issue of Hospitals & Health Networks magazine. This is the fifth consecutive year that Saint Francis was named to the *Most Wired* list. (July 2014)

Healthgrades: Patient Safety & Women's Health Excellence Awards – **Saint Francis Hospital and Medical Center** received the *2014 Patient Safety Excellence Award™* and the *Women's Health Excellence Award*, from Healthgrades, the leading online resource for comprehensive information about physicians and hospitals. (June 2014)

- *The Patient Safety Excellence Award* distinction places Saint Francis within the top 10% of all hospitals for its excellent performance in safeguarding patients from serious, potentially preventable complications during their hospital stays. This is the fourth consecutive year that Saint Francis has received this award, and one of only two Connecticut hospitals to earn the distinction this year.
- The *Women's Health Excellence Award* distinguishes Saint Francis as a top-performing hospital in women's health. Saint Francis is one of only 178 recognized nationally for their outcomes for care provided to women for common conditions and procedures treated in the hospital. Saint Francis is on the only hospital in Connecticut to earn this distinction.

Premier Supply Chain Excellence Award – Saint Francis Hospital and Medical Center has received *Premier, Inc.'s Supply Chain Excellence Award* for superior supply expense performance. Saint Francis is one of only 35 Premier members to receive the award this year. Premier, a leading healthcare improvement company, unites an alliance of approximately 3,000 U.S. hospitals and 110,000 other providers. (Embargo Date: June 11, 2014)

American Heart Association/Get With The Guidelines®–Heart Failure Gold-Plus Quality Achievement Award – Saint Francis has received the *Get With The Guidelines®–Heart Failure Gold-Plus Quality Achievement Award* for implementing specific quality improvement measures outlined by the American Heart Association/American College of Cardiology Foundation secondary prevention guidelines for heart failure patients. This marks the third time that Saint Francis has been recognized with a quality achievement award. (May 2014)

The LeapFrog Group "A" Score – Saint Francis Hospital and Medical Center has again received an "A" rating Hospital Safety Score℠ from The Leapfrog Group, a national hospital quality watchdog organization. This is the 5th consecutive "A" rating received by Saint Francis from The Leapfrog Group. Saint Francis was one of two hospitals in the state to receive an "A" grade from Leapfrog in the latest rating for spring 2014, and the only hospital to receive the "A" rating in both the fall and spring. Among the 25 Connecticut hospitals, 8 received a "B," 13 received a "C," one received a "D," and one received an "F." Scores went down for four hospitals, while three hospitals improved their scores. (April 2014)

Women's Choice Award – Saint Francis Hospital and Medical Center has received the Women's Choice Award from WomenCertified®, distinguishing it as one of the 2014 Best Hospitals for Patient Experience in Heart Care. The award is based on robust criteria that include female patient satisfaction measurements as well as clinical excellence considerations. WomenCertified® represents the collective voice of female consumers and is a trusted referral

source for top businesses and brands identified as meeting the needs and preferences of women. (January 2014)

Becker's Hospital Review – Saint Francis Hospital and Medical Center was named on Becker's Hospital Review list of "100 Hospitals with Great Orthopedic Programs." The announcement recognizes orthopedic surgery departments, programs or dedicated centers that have earned special recognition. Saint Francis is the only Connecticut hospital on the list. (January 2014)

Becker's Hospital Review– Saint Francis Hospital and Medical Center was named on the Becker's Hospital Review list of *100 Hospitals with Great Heart Program*. Becker's rates hospitals based on recognition for quality care, clinical awards and research contributions to cardiovascular care. (December 2013)

Alliance of Independent Academic Medical Centers (AIAMC) – Saint Francis *Care* received the *2014 Innovation Award* from the Alliance of Independent Academic Medical Centers (AIAMC) in recognition of the innovative medical education programs for residents, physicians and staff that have resulted in better patient outcomes. This is the second time the Hospital received the Innovation Award. (December 2013)

Association of American Medical Colleges – The Innovation + Learning Center at Saint Francis was one of national 13 recipients to receive the *Association of American Medical Colleges Learning Health System Challenge and Planning Award*, which recognizes innovations in medical education, care delivery, research, and diversity and inclusion. At Saint Francis, the award was given for emphasis on studying efforts to improve everyday clinical practice and health equity in an accountable care environment across the system. (December 2013)

Healthgrades® – Saint Francis *Care* was recognized for clinical excellence in a new national report by Healthgrades, a leading provider of information to help consumers make an informed decision about a physician or hospital. Saint Francis has received top national rankings in the most recent *American Hospital Quality Outcomes 2014: Healthgrades Report to the Nation*, which evaluates hospital performance at over 4,500 hospitals nationwide for 31 of the most common inpatient procedures and conditions. Saint Francis ranks among the top 5% nationally in Coronary Interventional Procedures, Overall Orthopedic Services, and, for the second year in a row, Joint Replacement; and the top 10% for Spine Surgery. (October 2013)

The LeapFrog Group "A" Score – Saint Francis Hospital and Medical Center has received an "A" rating Hospital Safety Score℠ from The Leapfrog Group, a national hospital quality watchdog organization. The Hospital Safety Score℠ for fall 2013 grades hospitals on their overall performance in keeping patients safe from harm and preventable errors. This is the fourth consecutive "A" rating received by Saint Francis from The Leapfrog Group. The grades are derived from expert analysis of publicly available data using 28 evidence-based, national measures of hospital safety. Saint Francis was one of three hospitals in the state to receive an "A" grade from Leapfrog in the rating for fall 2013, and one of only two to receive the honor twice this year. Among Connecticut hospitals, 7 received a "B," 15 received a "C," one received a "D," and one received an "F." (October 2013)

Daily Point of Light Award – Points of Light, the world's largest volunteer organization, named Michael R. Bourque, M.D., a senior OB/GYN physician at Saint Francis Hospital and Medical

Center, a *Daily Point of Light Award* honoree for his leadership role on the "Blue Team," a medical missionary team with International Medical Missions of Saint Francis Hospital and Medical Center. Dr. Bourque is the recipient of this prestigious award honoring his commitment to bringing first-class medical services to those in need. (October 2013)

CareChex® – Saint Francis Hospital and Medical Center was recognized by CareChex®, a division of Comparion Medical Analytics, for patient safety and medical excellence achievements in numerous categories in its 2014 hospital quality award rankings. Saint Francis ranked #1 in Connecticut in 24 clinical and surgical areas for patient safety and medical excellence. In the area of Patient Safety: Overall Hospital Care, Overall Surgical Care, Cardiac Care, Coronary Bypass Surgery, Gastrointestinal Care, Gastrointestinal Hemorrhage, Interventional Coronary, Joint Replacement, Major Bowel Procedures, Major Neuro-Surgery, and Major Orthopedic Surgery. For Medical Excellence: Overall Hospital Care, Overall Surgical Care, Coronary Bypass Surgery, Gastrointestinal Care, General Surgery, Interventional Coronary Care, Joint Replacement, Major Bowel Procedures, Major Neuro-Surgery, Orthopedic Care, Major Orthopedic Surgery, Spinal Fusion, and Spinal Surgery. (October 2013)

IBCLC Care Award – Saint Francis Hospital and Medical Center received *IBCLC Care Award* from the International Board of Lactation Consultant Examiners® (IBLCE®) and International Lactation Consultant Association® (ILCA®) for excellence in lactation care. The recognition is given to facilities that: have a lactation program that is available 5-7 days a week; provided recent breastfeeding training for medical staff; and have recently completed activities that help protect, promote, and support breastfeeding. (August 2013)

American Heart Association/American Stroke Association *Get With the Guidelines Gold Plus Award* – Saint Francis Hospital and Medical Center received the *Get With The Guidelines®–Heart Failure Gold Plus Quality Achievement Award* from the American Heart Association. The recognition signifies that Saint Francis has reached an exceptional goal of treating heart failure patients according to the guidelines of care recommended by the American Heart Association/American College of Cardiology. This marked the second consecutive year that Saint Francis has been recognized with the *Gold Plus* quality achievement award. Saint Francis was one of just three hospitals in Connecticut to receive *Gold Plus* recognition that year. (August 2013)

Consumer Reports – *"Best Hospital for Surgery"* – Saint Francis Hospital and Medical Center was one of two statewide hospitals to receive the highest ranking available by Consumer Reports Health Ratings Center in their *"Best Hospitals for Surgery"* Ratings report appearing in the September 2013 issue of Consumer Reports magazine. Of the almost 2,500 hospitals rated by Consumer Reports in all 50 states plus Washington, D.C. and Puerto Rico, Saint Francis Hospital and Medical Center received not only the highest overall surgery Rating in state rankings, it was also named among the top five U.S. hospitals that perform the safest knee and hip replacement surgeries, and the only hospital rated in these two categories in the state. (July 2013)

Most Wired – 2013 – Saint Francis Hospital and Medical Center was recognized as one of the nation's *Most Wired* hospitals, according to the results of the 2013 *Most Wired* Survey published in the July issue of Hospitals & Health Networks magazine. Named to the *Most Wired* list for the fourth consecutive year, Saint Francis is one of only eight hospitals in Connecticut to be recognized on the *Most Wired* list that year. (July 2013)

U.S. News & World Report – Best Hospitals – Saint Francis Hospital and Medical Center ranked #3 in the state of Connecticut and #2 in the Hartford metro area, gaining high scores in eight specialties and in patient safety, in the *U.S. News & World Report* ranking of Best Hospitals in the U.S. Top performing specialties at Saint Francis listed in the *U. S. News & World Report* annual rankings of Best Hospitals include Cardiology and Heart Surgery, Diabetes and Endocrinology; Gastroenterology and GI Surgery, Geriatrics, Nephrology, Orthopedics, Pulmonology and Urology. (July 2013)

The LeapFrog Group "A" Score – For the third consecutive year, Saint Francis Hospital and Medical Center was again honored with an "A" Hospital Safety Score by The Leapfrog Group, an independent national nonprofit run by employers and other large purchasers of health benefits. The A score was awarded in the latest update to the Hospital Safety Score℠. The A, B, C, D or F scores are assigned to U.S. hospitals based on preventable medical errors, injuries accidents, and infections. The Hospital Safety Score was compiled under the guidance of experts on patient safety and is designed to give the public information they can use to protect themselves and their families. (May 2013)

HealthGrades® Patient Safety Excellence Award™ – Saint Francis Hospital and Medical Center received the *Healthgrades 2013 Patient Safety Excellence Award™*, according to Healthgrades, the leading online resource that helps consumers search, evaluate, compare and connect with physicians and hospitals. The distinction placed Saint Francis within the top 5% of all hospitals for its excellent performance in safeguarding patients from serious, potentially preventable complications during their hospital stays. This was the third consecutive year that Saint Francis received this prestigious award. Saint Francis was the only hospital in Connecticut to achieve this distinction in 2013. (April 2013)

Practice Greenhealth/Partner for Change Award – for leadership in prioritizing our environmental performance and demonstrating our commitment to a higher standard of excellence in sustainability. This is the fifth time Saint Francis earned this distinction. (April 2013)

CareChex – According to a 2011 CareChex national hospital quality study, Saint Francis Hospital and Medical Center was #1 in the State in the category of "Medical Excellence" for: Major Cardiac Surgery, Coronary Bypass Surgery, Interventional Coronary Care, Joint Replacement, Major Bowel Procedures, Orthopedic Care, Major Orthopedic Surgery, Spinal Surgery, and Trauma Care. Additionally, Saint Francis was #1 in the State for Patient Safety in the areas of: Overall Hospital Care, Overall Surgical Care, Cardiac Care, Major Cardiac Surgery, Coronary Bypass Surgery, Interventional Coronary Care, Joint Replacement, Major Bowel Procedures, Major Neuro-Surgery, Major Orthopedic Surgery, Stroke Care, and Trauma Care. (January 2013)

The LeapFrog Group "A" Score – *Saint Francis Hospital and Medical Center* was honored with a second consecutive "A" Hospital Safety Score℠ by The Leapfrog Group, a nationally recognized organization founded by a consortium of Fortune 500 companies and other large public healthcare purchasers representing 37 million American consumers nationwide. Saint Francis was the largest hospital in Connecticut to merit this distinction, and one of only six statewide to receive this recognition. The Hospital Safety Score℠ was calculated under the guidance of The Leapfrog Group's Blue Ribbon Expert Panel using publicly available data on patient injuries,

medical and medication errors, and infections. U.S. hospitals were assigned an A, B, C, D, or F for their safety records. (November 2012)

Connecticut Breastfeeding Coalition – Saint Francis Hospital and Medical Center received an award of recognition from the Connecticut Breastfeeding Coalition for its contributions to the health of Connecticut's mothers and children through the Connecticut Breastfeeding Initiative 2010-2012. (October 2012)

Healthgrades® – Saint Francis *Care* was listed as #1 in Connecticut for joint replacement outcomes and is one of America's 100 Best Hospitals for Joint Replacement. Saint Francis *Care* also earned a 5-star rating from Healthgrades in additional clinical areas for the treatment of: heart failure, back and neck surgery, stroke, pneumonia, GI bleed, respiratory failure, diabetic acidosis and coma. This is according to a report from Healthgrades, *American Hospital Quality Outcomes 2013: Healthgrades Report to the Nation*. Healthgrades is the leading provider of information to help consumers make an informed decision about a physician or a hospital. (October 2012)

HAVEN Employer Engagement Award – this award was presented to Saint Francis by the Health Assistance InterVention Education Network (HAVEN). The award recognized employers who, through human resources, employee assistance, and/or occupational health, have developed ways to help employees confront the challenges of physical and mental illness with dignity and compassion. (October 2012)

"I Am Who I Am" – recognized by the Walk In the Light Ministries and by Archbishop Louella Tate as an organization that has helped Hartford become a role model for other cities. (September 2012)

National Air Filtration Association (NAFA) Clean Air Award – recognized for leadership and excellence in the use of high efficiency air filtration products and good maintenance practices. It is presented to those who show an outstanding effort in maintaining a clean and healthy indoor work environment, while reducing overall operating costs. (September 2012)

***Most Wired* – 2012** – recognized by *Hospitals & Health Networks Magazine* for making progress toward adoption of Information Technology. (July 2012)

Connecticut Quality Improvement Award Gold Prize – given to Saint Francis Hospital by the Connecticut Quality Improvement Association for our work in improving the Universal Protocol in our operating room, using the Safe Surgery Checklist. (June 2012)

The LeapFrog Group "A" Score –Saint Francis Hospital and Medical Center was only one of four hospitals in the state to receive an "A" grade on the organization's Hospital Safety Score. The Hospital Safety Score℠ was calculated under the guidance of The Leapfrog Group's Blue Ribbon Expert Panel using publicly available data on patient injuries, medical and medication errors, and infections. U.S. hospitals were assigned an A, B, C, D, or F for their safety. (June 2012)

HealthGrades® Patient Safety Excellence Award™ – for patient safety indicators from the Agency for Healthcare Research and Quality (AHRQ) to identify patient safety incidence rates, placing

Saint Francis in the top 5% in the nation for patient safety, and the only Connecticut hospital to achieve this distinction. (May 2012)

American Heart Association/American Stroke Association *Get With the Guidelines Gold Plus Award* – to the Hoffman Heart and Vascular Institute for providing excellent care to heart failure patients. Saint Francis was one of only three hospitals statewide to receive this award. (May 2012)

***Silver Healthy Hospital Award*, Stryker** – for outstanding performance in reducing environmental harm and improving overall hospital quality through medical device remanufacturing and reprocessing. For 2011, Saint Francis saved $235,600 and had a total waste avoidance of 11,900 pounds. (April 2012)

Outcome Excellence Award – the outpatient rehabilitation staff at 95 Woodland Street received this award from Focus on Therapeutic Outcomes (FOTO) for exceeding the predicted national target for outcomes and patient satisfaction over a one-year period. The targets were met for two consecutive years, for both 2010 and 2011. (April 2012)

2012 Top Performer – the inpatient rehabilitation team at Mount Sinai Rehabilitation Hospital received an Outstanding Performance Award from the Uniform Data Systems database for its top ten percent ranking out of 800 programs across the United States. (April 2012)

The Blue Ribbon Award – for the John T. O'Connell Tower presented at the 17th Annual Awards Showcase from the Real Estate Exchange. This is the most significant annual awards event in commercial real estate in Connecticut and a celebration of excellence in the industry. (April 2012)

The BUILDCT 2012 Award – for the John T. O'Connell Tower best new large construction project greater than $10 million from the Association of General Contractors. The award was given to Saint Francis Hospital and Medical Center; TRO/Jung Brannen, the architect and engineer; and Turner Construction Company, the construction manager. (March 2012)

Connecticut Quality Improvement Award Silver Innovation Prize – for the creation of the Connecticut Institute for Primary Care Innovation. (August 2011)

American Heart Association/American Stroke Association Get With The Guidelines Gold Plus Award – for achievement in using evidence-based guidelines in the treatment of stroke patients. (August 2011)

Most Wired – 2011 – recognized by *Hospitals & Health Networks Magazine* for making progress toward adoption of Information Technology. (July 2011)

Community Value Five-Star Hospital – recognized by Cleverly & Associates, a healthcare industry intelligence and education consultancy for value provided to the community, based on financial viability, facility reinvestments, low-cost structures, and high-quality patient care. (July 2011)

Practice Greenhealth Partner for Change with Distinction – for outstanding environmental achievement in healthcare. (April 2011)

HealthGrades® Patient Safety Excellence Award™ – for patient safety indicators from the Agency for Healthcare Research and Quality (AHRQ) to identify patient safety incidence rates. (March 2011)

The American Society for Metabolic and Bariatric Surgery and the Surgical Review Corporation Bariatric Surgery Center of Excellence® Designation – for demonstrating an unparalleled ability to consistently deliver safe, effective, evidence-based care. (March 2011)

Focus on Therapeutic Outcomes, Inc. Outcomes Excellence Award – for exceeding the national average for functional change in the patients treated at the Center for Rehabilitation and Sports Medicine. (March 2011)

The American College of Cardiology Foundation NCDR ACTION Registry Gold Performance Award – for implementing a higher standard of care and reaching the aggressive goal of treating coronary artery disease patients with 85 percent compliance with American College of Cardiology/American Heart Association clinical guidelines and recommendations. (December 2010)

The American Alliance of Healthcare Providers Choice Award – for implementing an excellent healthcare program that successfully results in courteous, compassionate, and caring service to patients, families, and the community. (July 2010)

Most Wired "Most Improved" Award – for the Hospital's level of achievement in business and administrative management, clinical quality and safety, continuum of care, and infrastructure. Based on a survey by *Hospitals & Health Networks* Magazine, McKesson Corporation and the College of Healthcare Information Management Executives. (July 2010)

Practice Greenhealth Partner for Change Award – for continuously improving and expanding upon mercury elimination, waste reduction and pollution prevention. Presented by Practice Greenhealth, a national membership organization for healthcare facilities committed to environmentally responsible operations. (May 2010)

Anthem Blue Cross and Blue Shield Blue Distinction Center for Knee and Hip Replacement – In recognition of clinical excellence in knee and hip replacement surgery. (January 2010)

American Heart Association/American Stroke Association *Get With The Guidelines Gold Plus Performance Achievement Award* – In recognition of implementing excellent care for stroke patients, according to evidence-based guidelines. (January 2010)

U.S. Department of Health and Human Services Silver-2 Medal – In recognition of efforts promoting organ donation. (October 2009)

Employer Support of the Guard and Reserves Program – Connecticut Above and Beyond Award for support of Hospital employees who are members of National Guard and Reserves. (July 2009)

Practice Greenhealth Partner for Change Award – for continuously improving and expanding upon mercury elimination, waste reduction and pollution prevention. Presented by Practice Greenhealth, a national membership organization for healthcare facilities committed to environmentally responsible operations. (May 2009)

ENERGY STAR Label – for superior energy efficiency and environmental protection. Awarded by the U.S. Environmental Protection Agency. Saint Francis was previously awarded ENERGY STAR labels in 2003 and 2006. (April 2009)

Connecticut Breastfeeding Coalition Breastfeeding Friendly Employer Award – Given for Saint Francis' efforts in supporting breastfeeding by working mothers. (January 2009)

American Stroke Association Get with the Guidelines℠ Silver Achievement Award – Given in recognition of Saint Francis' commitment and success in implementing a higher standard of care for stroke patients. To achieve the GWTG-Stroke Silver Achievement Award, Saint Francis consistently followed the treatment guidelines in the GWTG-Stroke program for 12 months. (December 2008)

UnitedHealthcare Premium® Specialty Center for Total Joint Replacement – Given with the designation of ***One Star*** and ***Higher Efficiency***. The program uses national industry standards, medical specialty society and consensus standards to evaluate specialty center programs focused on total joint replacement for the purpose of advancing safe, timely, effective, efficient, equitable and patient-centered care. (September 2008)

American Alliance of Healthcare Providers Hospital of the Year – Top 10 Finalist in 2008 Hospital of the Year Awards, which recognizes the country's most consumer-friendly hospitals. (August 2008)

HealthGrades® 2009 Spine Surgery Excellence Award – This award places Saint Francis among the top 10 percent of hospitals nationwide for spine surgery. (July 2008)

2008 Most Wired Survey and Benchmarking Study – Most Improved Award for information technology enhancements in the survey conducted by *Hospitals & Health Networks* magazine in conjunction with Accenture, McKesson Corp. and the College of Healthcare Information Management Executives. (July 2008)

Connecticut Quality Improvement Award Silver Innovation Prizes – Three awards for projects that streamlined critical areas of healthcare: the treatment of heart attacks, transferring patients from the Emergency Department to nursing units, and vaccinating staff against season influenza outbreaks. (July 2008)

American Stroke Association Get With the Guidelines℠ – Stroke Bronze Performance Award – for Saint Francis' commitment and success in implementing a higher standard of stroke care by ensuring that stroke patients receive treatment according to nationally accepted standards and recommendations. To achieve the GWTG-Stroke Bronze Performance Achievement Award, Saint Francis consistently followed the treatment guidelines in the GWTG-Stroke program for 90 days. (May 2008)

Practice Greenhealth Partner for Change Award – for working to reduce mercury, reduce waste and prevent pollution. Presented by Practice Greenhealth, formerly Hospitals for a Healthy Environment (H2), a source of environmental solutions for the healthcare industry. The award honors organizations creating healthy, healing environments committed to eliminating mercury, reducing pollution and recycling waste. (May 2008)

2008 Alliance Innovation Award – Saint Francis Hospital and Medical Center was named an *Alliance Innovation Award* winner by the Alliance of Independent Academic Medical Centers (AIAMC). The award was presented to Saint Francis for its demonstrated leadership in utilizing graduate medical education as a key driver to improve quality, patient safety, and the cost-effectiveness of care. These creative and innovative approaches to medical education and research have resulted in better patient outcomes. (April 2008)

American Alliance of Healthcare Providers 'Hospital of Choice' Award for First Quarter of 2008 – for consumer friendliness and unparalleled commitment to good citizenship and community service, based on a review of public information, Web site, news releases, announcements, phone surveys of Hospital staff and application review. (April 2008)

Verispan 100 Most Highly Integrated Healthcare Networks Best of the Rest – a Tier 2 category rating for integrated healthcare networks based on eight categories: integrated technology, contractual capabilities, outpatient utilization, financial stability, service and access, hospital utilization and physicians. (February 2008)

United Healthcare Premium Specialty Center – for cardiac care, spine and total joint replacement surgery. The designations signify that Saint Francis has met rigorous quality criteria based on nationally recognized medical standards and expert advice. They are based on detailed information about specialized training, practice capabilities and proficiencies submitted by Saint Francis to United Healthcare. (January 2008)

CQIA Silver Innovation Prize – for being early adopters of bar code point of care (BPOC) technology to prevent errors during medication administration. BPOC systems use a bedside computer and a variety of clinical information systems to cross check bar codes that are printed on patient wristbands with those bar codes printed on medications. In addition to new bedside technology, the BPOC involved an extensive process within the Pharmacy Department. All 2,800 inventoried products required bar code recognition by the Hospital's clinical information system. In the first six months after implementation, 75 percent of inpatient areas were using this technology and 350,000 medication doses had been bar coded. The CQIA Silver Innovation Award is the nation's oldest, state-level quality award program. (October 2007)

U.S. Department of Health and Human Services Medal of Honor – for achieving at least a 75 percent organ donation rate among eligible patients. This was the third year in a row that Saint Francis received this award. Saint Francis is the only hospital in Connecticut and Western Massachusetts to receive the medal three years in a row. (October 2007)

AHA Nova Finalist – Hartford Regional Lead Treatment Center and Lead Safe House Program, which are based at Saint Francis Hospital and Medical Center, named one of ten finalists for the American Hospital Association's Nova Award, which recognizes programs that improve

community health status and are collaborative in nature. The Hartford Regional Lead Treatment Center serves patients both at Saint Francis and the Connecticut Children's Medical Center. (August 2007)

Blue Center of Distinction – designated a *Blue Center of Distinction for Cardiac Care* by the Blue Cross and Blue Shield Association. The nationwide program recognizes those hospitals that meet stringent quality criteria, as established by expert physician panels and national organizations. *Blue Distinction Centers* are required to provide a full range of cardiac services, including inpatient care, cardiac rehabilitation, angioplasty and cardiac surgery. (June 2007)

Hospitals for a Healthy Environment – received the Partners for Change Award in recognition of achievements in improving environmental performance. Also received the Making Medicine Mercury-Free Award for eliminating the use of mercury in medical devices. Hospitals for a Healthy Environment (H2E) is an independent, not-for-profit organization founded by the American Hospital Association, the Environmental Protection Agency, Health Care Without Harm and the American Nurses Association. H2E is focused on improving healthcare environmental performance. (May 2007)

Five-Star Hospital – recognized as a Community Value Provider by Cleverly + Associates, a Columbus, Ohio, healthcare financial consulting firm. Based on the Community Value Index™, a proprietary index that offers a measure of the value that a hospital provides to its community based on financial strength and reinvestment, cost of care and pricing. (April 2007)

The President's Volunteer Service Award – for the service of more than 700 individuals who volunteered at the Hospital in 2006, contributing over 67,400 hours of service to Saint Francis. Presented by the President's Council on Service and Civic Participation on behalf of President George W. Bush to recognize the best in the American spirit and encourage Americans to contribute to their communities through volunteer service. (January 2007)

CareScience Select Practice National Quality Leader – for excellence in overall hospital quality and efficiency. The award placed Saint Francis among the top 1 percent of performers across 4,500 acute care hospitals in the United States as identified by CareScience, a hospital consulting firm. It was based on 16 clinical indicators for both quality and efficiency. (November 2006)

ENERGY STAR Label – for prudent energy management strategies and proven technologies. Awarded by the U.S. Environmental Protection Agency and U.S. Department of Energy. Saint Francis was first awarded an ENERGY STAR label in 2003. (November 2006)

eHealthcare Strategy & Trends Silver Award – in the category "Best Rich Media" in the Physician/Clinician-Focused Site class for the Hospital's web site Grand Rounds Online feature. Since their introduction in April, 15 Grand Rounds presentations were made available to physicians online. After viewing a presentation online, physicians are able to obtain Continuing Medical Education credit by successfully completing a short quiz. (November 2006)

U.S. Department of Health and Human Services Medal of Honor – for achieving at least a 75 percent organ donation rate among eligible patients. This was the second year in a row that Saint Francis received this award. In the most recent reporting period, Saint Francis secured permission from family members for 11 organ donations out of 13 potential donors. Saint

Francis was just one of two hospitals in Northern Connecticut and Western Massachusetts to receive the medal this year. (October 2006)

HealthGrades® Orthopedic Surgery Excellence Award – for superior clinical outcomes in the ninth annual *Hospital Quality in America* study. This award placed Saint Francis among the top 10 percent of hospitals nationwide for orthopedic care. (October 2006)

Leapfrog Top 50 Hospitals – for meeting the quality and safety standards of the Leapfrog Group, a consortium of Fortune 500 companies and other large public healthcare purchasers representing 37 million American consumers. Saint Francis was the only hospital in Connecticut to achieve this distinction. Leapfrog identifies its "Top Hospitals" based on their implementation of practices with the greatest life-saving potential, including computerized physician order entry (CPOE), ICU physician staff, evidence-based hospital referral and the Leapfrog Safe Practices Score. (October 2006)

2006 BEACON Medical Technology Award – for the Hospital's significant investment in advanced technology in the acquisition of the CyberKnife® stereotactic radiosurgery system. The award was presented by the Biomedical Engineering Alliance & Consortium (BEACON), a regional trade association for the advancement of new medical technology. It recognizes innovative approaches that help Connecticut establish a leadership position in the field of medical technology. (October 2006)

Sacred Heart University College of Education and Health Professions 2006 Community Partner Award – for collaboration with the College's Nursing Department to develop and implement the R.N. to B.S.N. program offered at Saint Francis Hospital and Medical Center. This was the first year that the award was given to an individual or organization who has demonstrated exceptional collaboration to further the educational goals and mission of the College. Saint Francis was one of two recipients honored that year. (October 2006)

HealthGrades® Third Annual Patient Safety in American Hospitals Study – for best performing hospitals for overall patient safety. Saint Francis was one of 238 hospitals identified as reaching the top 15 percent nationwide for patient safety. This award was presented by HealthGrades, a healthcare ratings company. As a category, Medicare patients at these top 15 percent hospitals experienced patient safety incidents, on average, 43.27 percent less often than patients at the bottom 15 percent of all hospitals. (October 2006)

CQIA Silver Innovation Prize – for a project that optimized care in patients with congestive heart failure (CHF). Taking note of the fact that each year nearly 900 patients are admitted to the Hospital with CHF, the Congestive Heart Failure Service decided to establish Connecticut's first dedicated unit to provide comprehensive care for CHF patients. Outcomes for patients treated on the CHF unit have been demonstrably better than those of other CHF patients. The CQIA Silver Innovation Award is the nation's oldest, state-level quality award program. (July 2006)

Solucient 100 Top Hospitals® Performance Improvement Leader – for improving faster and more consistently than its peer hospitals across the nation. Nine performance measures were examined including risk adjusted mortality and complications, average length of stay, expenses, profitability, cash-to-debt ratio, growth in percent of community served, tangible assets and risk adjusted patient safety index. Saint Francis was recognized as one of the hospitals that achieved

the fastest rate of consistent annual clinical and organizational improvement over a five-year period. (April 2005)

Solucient 100 Top Hospitals® – for setting benchmarks for the industry in such areas as quality of care, efficiency, financial performance, growing community service and patient safety. This marked the seventh time that Saint Francis was named to the prestigious list of the nation's Top 100 hospitals. At the time, Saint Francis was the only hospital in Connecticut to be named to the Top 100 list on seven or more occasions. (February 2005)

Solucient 100 Top Hospitals® – for setting performance benchmarks across four critical areas: quality of care, operational efficiency, financial performance and adaptation to the environment. This marked the sixth time that Saint Francis had been named to the prestigious list. At the time, Saint Francis was the only major teaching hospital to be named to the Top 100 list on six occasions. (May 2004)

Solucient Performance Improvement Leader – for developing consistent and effective organization-wide performance improvement across critical measures at a faster rate than other U.S. hospitals between 1997 and 2001. Those measures include quality of care, operational efficiency and financial performance. Among 123 major teaching hospitals included in the study, Saint Francis' cumulative scored placed it in the 99th percentile. This signifies that Saint Francis' rate of improvement over the five years was higher and more rapid than 98 percent of the other major teaching hospitals studied by Solucient. (March 2004)

List of Residencies

The following is a list of residencies offered at Saint Francis through the University of Connecticut School of Medicine:

* Anesthesiology
* Emergency Medicine
* Family Medicine
* Pediatrics
* Internal Medicine (General)
* Internal Medicine (Cardiology)
* Internal Medicine (Endocrinology)
* Internal Medicine (Gastroenterology)
* Internal Medicine (Hematology/Oncology)
* Internal Medicine (Infectious Disease)
* Internal Medicine (Pulmonary/ Critical Care)
* Maternal Fetal Medicine
* Nuclear Medicine
* Orthopedic Surgery
* Otolaryngology
* Psychiatry
* Radiology
* Surgery
* Urology
* Geriatric Medicine
* Nephrology
* Primary Care Medicine

The following are the Saint Francis Residency and Fellowship programs:

* General Dentistry Residency
* Obstetrics and Gynecology Residency
* Podiatric Medicine and Surgery Residency
* Colon/Rectal Surgery Fellowship

[c] Provide projected inpatient and/or outpatient statistics for any new services and provide actual and projected inpatient and/or outpatient statistics for any existing services which will change due to the proposal.

Exhibit 17

19. Explain all assumptions used in developing the financial projections reported in the Financial Worksheet.

The following financial information represents Johnson Memorial Medical Center (JMMC), excluding the operating results of JEC, consolidated actual or projected results for the years identified. FY 2015 amounts represent the year to date actual revenue and expenses through February 2015 and the budgeted amounts for the remaining seven months. The following summarizes key assumptions used in projecting the 2016, 2017 and 2018 operating results assuming this proposal is approved:

- Inpatient volume projections include conservative decreases of 4.8%, 2.4 % and 2.5%, respectively, for FY 2016 through FY 2018 as utilization of inpatient services shifts as a result of population health management.
- Slight growth in hospital outpatient visits is expected and the projections include a 3% annual increase in outpatient visits in 2016 through 2018.
- Revenue cycle improvements of $2.5 million over three years are expected to be realized by FY 2018, including documentation and charge capture improvements.
- Projected salary expense includes increase in wages of 3%, 4% and 2% respectively in 2016 through 2018. These increases will help to ensure Johnson has the ability to remain competitive within the market going forward. These increases in salary expense are offset by the reduction in salary costs in non-clinical and administrative departments of $1,250,000 and $750,000 in FY 2016 and 2017 respectively where efficiencies are expected to be gained through centralization and elimination of duplicative support and administrative services.
- Supplies and other expense include increases of approximately 2 % per year in 2016 through 2018.
- Additional expense reduction initiatives relating to supply chain, personnel and insurance costs will result in additional savings of $850,000 by FY 2018 and these amounts are included in the projections. Reduction in outstanding debt of $5.0M based on proposed restructure and decreased interest expense for FYs 2016 through 2018 based on more favorable rate and decrease in principal balance.
- In FY 2016, operating expenses are reduced due to a decrease in legal and consulting expenses that were incurred in FY 2015 relating to this proposed transaction.
- Bad Debts are expected to decrease slightly due to the Patient Protection and Affordable Care Act lowering the uninsured rate by expanding public and private insurance coverage and approximate 4.4% of total revenues for FY 2016-2018.
- Capital expenditures of $5.0, $5.0 and $3.0 million in fiscal years 2016, 2017 and 2018, respectively.

The JMMC consolidated financial projection assumptions without the project include the following:

- Inpatient volume projections include conservative decrease of 12% beginning in FY 2016 and remaining flat in FY 2017 and 2018. This immediate decrease is primarily due the termination of the Clinical Affiliation agreements that support Johnson's current operation if this proposal is not approved.
- Slight growth in hospital outpatient visits is expected and the projections include a 1% annual increase in outpatient visits in 2016 through 2018.
- Projected salary expense includes increase in wages of 1% per year in 2016 through 2018.
- Fringe benefit expense increases in FY 2016 due JMMC's likely inability to obtain favorable workers compensation insurance rates due to their financial position.
- Supplies and other expense include increases of approximately 2 % per year in 2016 through 2018.
- No reductions of outstanding debt would be achieved and interest expense is based on current debt agreements.
- In FY 2016, operating expenses are reduced due to a decrease in legal and consulting expenses that were incurred in FY 2015 relating to this proposed transaction.
- Bad Debts are expected to decrease slightly due to the Patient Protection and Affordable Care Act lowering the uninsured rate by expanding public and private insurance coverage and approximate 4.4% of total revenues for FY 2016-2018.
- Annual capital expenditures based on recent historical levels of approximately $1.0 million per year.

There are no changes to existing services as a result of this proposal. Also, there are no new services planned at this time.

21. Provide a detailed explanation of all assumptions used in the derivation/ calculation of the projected service volume; explain any increases and/or decreases in volume reported in OHCA Tables 4 and 5.

As noted above, inpatient volume projections include conservative decreases of 4.8%, 2.4 % and 2.5%, respectively, for FY 2016 through FY 2018 as utilization of inpatient services shifts as a result of population health management. Slight growth in hospital outpatient visits is expected and the projections include a 3% annual increase in outpatient visits in 2016 through 2018.

Both SFC and Johnson have experienced declines with respective to historical inpatient volume due to the Medicare two-midnight rule that went into effect October 1, 2013.

COMMUNITY BENEFIT

Sir Isaac Newton once wrote, "We build too many walls and not enough bridges."

Today, more than ever, we need bridges between the voices of families in our communities and healthcare providers who seek to focus resources where they are needed most. With the great diversity of our region, we have an opportunity to improve the health of all the communities we serve, including the most vulnerable, by providing culturally appropriate, community-informed, prevention-smart resources that harness the most visionary approaches in healthcare today. Our destiny must be your best*care*.

Our mission will help us build bridges that ensure your health and wellness is easier to maintain by providing better access, less complicated services, mindful of eliminating the barriers to quality care and outcomes.

In the stories that follow, you will see moving examples of how our mission to give back to our community is making a difference. In 2014, over $78,102,500 was targeted to community needs. That amounts to $213,979 each day. Every dollar must pass the mission test to benefit the communities we serve, especially those in most need.

Ask Deborah, whose destination in life crossed a bridge that introduced easier access to care, more meaningful relationships that assisted all aspects of life that made a difference in her outlook. Or Rev. David Massey, who engaged providers at Saint Francis as family...honestly shaping the way care needed to happen for him. Talk with members of the Bhutan Community who see Saint Francis as a neighborhood partner helping them transition to a new home.

After 118 years, Saint Francis' mission is well positioned to build bridges to more personal health and wellness for you, as well. Where relationships matter most. We value our relationship with you and your family, and welcome your insights! More than ever, we are honored to be a trusted provider of healthcare to benefit our communities!

Christopher M. Dadlez, FACHE
President and Chief Executive Officer

Marcus M. McKinney, D. Min., LPC
Vice President, Community Health Equity and Health Policy

Bridging the Divide

The role of community in healthcare is changing – never before has the healthcare system focused so much attention on the needs of patients and the idea that relationships with the people in the community can lead to a better system for providing the care and support needed for optimal health.

Community Benefit is emblematic of that change – from its start as a simple plan for collecting and reporting data about community-based hospital activities, to the development of a required annual reporting to the IRS and periodic Community Health Needs Assessment and the subsequent Strategic Implementation Plan designed to address those needs. Community Benefit at Saint Francis has evolved to target resources where they are needed most and to bridge the divide between the system of healthcare delivery and the current needs of community members who choose Saint Francis as their healthcare provider.

The Saint Francis Strategic Implementation Plan for Community Benefit identifies four priority areas of work based on the findings of the Community Health Needs Assessment completed in 2012. (See call-out box.) These priorities highlight issues that have a significant impact on health outcomes for patients both within the healthcare system and in the community. This report will identify those priorities and then provide examples of patients who have benefited from our commitment to providing services that target community priorities and improve health outcomes. These stories are important, not only for those in need of care, but also for us all. As a community of people who participate together in a healthcare system, we need to understand how that system can help each of us when we need it most. By highlighting a few examples we hope to share our priorities, demonstrate the value of bridging the divide between the community and the healthcare system, and engage the community in this important discussion.

Strategic Priorities for Community Benefit:

Improve Communication

Example: Work with a new immigrant group results in better understanding.

Remove Barriers to Healthcare

Example: Collaboration with community agency improves health outcomes for a patient.

Provide Coordinated Care

Example: A patient with complex health issues gets the services needed to return to health.

Target Social Determinants of Health

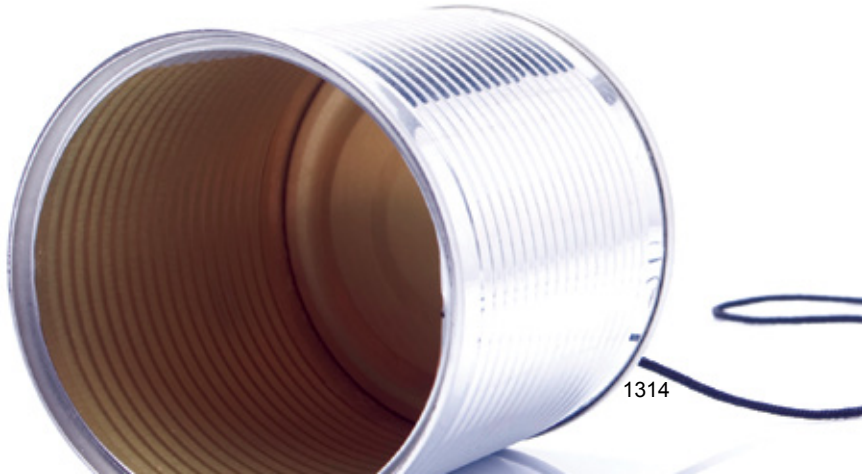
Example: Financial counselors help patients enroll in needed health insurance.

1313

The *Welcoming Committee* meets with new immigrants to offer assistance. [Clockwise, Front to Back] Jennifer Cassidy, Nancy Caddigan, Dr. Janet Bauer, Mary Stuart, Lar Pwe Paw, Reena Shrestha, and Alok Bhatt.

Improving Communication

The *Welcoming Committee* is a sub-committee of the Asylum Hill Neighborhood Association (www.asylumhill.org) and has been meeting monthly at the *Curtis D. Robinson Center for Health Equity at Saint Francis* for the past year. This group is made up of members from both the immigrant and receiving communities, and focuses on supporting new immigrants to integrate into the neighborhood as well as navigate the services they need to make Hartford their new home. The space is offered free to community groups, and provides easy access to parking and is located right on the bus line which enhances the ability of group members to attend regularly, thereby improving group cohesiveness.



Members hail from countries that include Togo, Cameroon, Bhutan, Burma, Peru, the Ivory Coast, Ghana and Nepal. Many are learning English and establishing themselves and their families by connecting with fellow residents, neighborhood agencies and institutions offering them a range of services and targeted assistance. The support of the Center facilitates such connections to multiple resources and serves as a bridge between group members and the services that exist in the community. This past year staff from the Urban League, located in the same building, gave workshops on "Buying Your First Home" and "Finding Employment," topics that group members had asked to learn more about.

The relationship with the *Welcoming Committee* works both ways in that the members sometimes serve as a resource for Saint Francis. One example of this is when a hospital chaplain was working with a patient whose family member was dying; she was not aware of the cultural and religious customs of this family and was trying to find a religious leader from within that community who could assist the family through this difficult time. By contacting a member of the *Welcoming Committee*, an appropriate religious leader was found and the family found some solace during this difficult time. In another case, a social worker from the *Saint Francis Children's Advocacy Center* had concerns about communicating appropriately to the family member of a child who was sexually abused. Again, the *Welcoming Committee* served as a resource for finding the information needed to help the staff member communicate this sensitive information to the family in a culturally appropriate manner.

Reena Shrestha, who recently relocated to Hartford, meets with the *Welcoming Committee* to learn about access and resources.

1315

Removing Barriers to Healthcare

Management of a chronic illness can be a difficult task, but it is even more challenging when faced with limited resources and insufficient health insurance coverage. Saint Francis has partnered with a national organization called *Community Solutions*, which is engaged locally in community development designed to improve the quality of life for the residents in the North End of Hartford. One focus of this partnership has been to help residents find the services they need to manage chronic illness rather than using the high-cost services of the Emergency Room for their healthcare. In the first nine months of a pilot project, participants experienced a 57 percent decrease in their Emergency Room use. A social worker from *Community Solutions*, Nadia Lugo, says her client Deborah Knowles' story shows how the new approach works.

Heather Applewhite, MD, a first year Family Medicine resident, consults with Deborah about her medical history.

1316

Evelyn Pianko, MA, checks Deborah's vitals prior to her medical appointment.

Social Worker Nadia Lugo and Deborah leave the Family Medicine Center at Asylum Hill.

Deborah is a North End resident by way of South Carolina. She lives in a very clean and homey apartment, and she has an amazing smile – that becomes even more amazing when you learn she is living with chronic back pain, cirrhosis of the liver, diabetes, and hypertension. It's clear when you sit in her kitchen that she loves to cook. She has a large bag of onions and potatoes on the shelf in the corner along with big bags of both rice and beans. She even has a set of measuring cups adorning the walls.

"When I was a kid we moved to South Carolina and we didn't have any furniture in our new house. My mom said she could buy the furniture if we all agreed to eat beans for a full month. So we did – and we got that furniture. And you know – I still love to cook beans."

When she met Nadia, Deborah was using the Emergency Room to deal with her health issues. She did not have transportation, and because of acute back pain, she was unable to walk to the bus stop. Sometimes her medical cabs did not show up, so she would call the ambulance to get to the Emergency Room and receive the treatment she needed. This use of the Emergency Room was logical, but it was also expensive and time-consuming for Deborah. Nadia helped her develop a better strategy for managing her chronic conditions.

Since she met Nadia, Deborah has seen her quality of life, and her health, improve significantly. She now has a plan set up with her landlord to address back rent, and a walker and stability bars to get around her apartment more easily. Her prescriptions are now delivered to her home, and she has gained control of her diabetes thanks to a primary care doctor and a visiting nurse, who helps with her insulin shots. Deborah no longer spends the day in bed depressed and in chronic pain. Instead, she says she wants to get outside more and visit her friends and family. She is even considering attending the Valentine's Day Dance at the Elks Club.

Community-based care coordination has helped Deborah spend less time in the hospital and more time doing what she loves. She is forever grateful to Nadia for helping her get her life back.

1317

Reverend David Massey in the sanctuary of Hopewell Baptist Church.

Providing Coordinated Care

Pastor David Massey has seen a lot of Saint Francis in the past few years. First he was diagnosed with heart disease, concurrently he had diabetes and then, just as soon as he recovered his health, he found a lump on the side of his neck. It proved to be nasal pharynx cancer and became the most difficult of his health issues to address. For almost a year he received radiation and chemotherapy treatment at the *Saint Francis/Mount Sinai Regional Cancer Center.* It was a long and difficult journey that included many healthcare providers.

"I've been at Saint Francis a lot lately,
it feels like family to me
and one person can make a big difference."

1318

Health issues have changed Reverend Massey in many ways. The first thing you notice is that his weight has dropped from over 200 lbs. to a slim 170 – a weight that he describes as "looking good on me." He also says he has a lot more knowledge about how to be an advocate for himself and he actively participates in healthcare decisions. For example, when he saw that his blood sugars were normal after having lost all that weight he suggested that he stop the medicine to see if his blood sugar was now stable, and he was right. Before this journey he was not so good at that. But now he says, "I'm healthy in my mind, and I play a role in my healing and my care."

Pastor Massey is a thoughtful, articulate person – and he describes himself as "particular." So when he was not getting what he needed from Saint Francis staff he asked to talk with a supervisor and things improved; when he felt that he could benefit from taking the Diabetes Class a second time he asked to be enrolled in the next class; and when he found the music in the chemotherapy suite not to his liking, the staff found something more appropriate. Patients appreciate it when they are recognized as individuals and healthcare providers work to coordinate the care they need. Acknowledgement from a healthcare provider of the struggle to stay positive when you are sick can go a long way. The small things can make all the difference in healing. Reverend Massey said it best when he said, "I've been at Saint Francis a lot lately, it feels like family to me and one person can make a big difference." Imagine the difference Pastor Massey can make when he speaks to his congregation of over 1,700 people about his insights on health and the coordination of healthcare services he received from Saint Francis.

[Top] Joerg Rathmann, MD and Michele Bender, RN, BSN, OCN, consult with Reverend Massey, during a follow-up appointment in the Saint Francis/Mount Sinai Regional Cancer Center.

[Bottom] Lillie Tierney, MS, RD, CDE, reviews portion size with Reverend Massey in the Diabetes Care Center.

1319

Targeting Social Determinants of Health

Issues on the margins of healthcare, but in the center of people's lives can have a huge impact on health outcomes. How much money someone makes, the neighborhood they live in, their level of education, the type of work they do, housing, food security, exposure to violence, experience of trauma – all of these issues are referred to as the "social determinants of health" and must be addressed to maintain good health.

At Saint Francis, five full-time Financial Counselors help patients and community members enroll in health insurance – either Medicare; Medicaid, or insurance on the Health Exchange. Patients are also screened to determine if they qualify for resources available for a specific illness or an expensive drug. Finally, Charity Care, or "financial relief," is offered through this office to those who cannot get health insurance. The staff is a diverse group of committed professionals – 4 out of 5 are bilingual; they work at the Gengras and Burgdorf Clinics; in the Emergency Room; and on the Hospital floors. They provide help when it is needed most.

Maritza Arnold, a Financial Counselor at Burgdorf Clinic, screens a new patient.

Here is what they had to say about their work:

Tell me about a typical day in the life of a Financial Counselor.

"Our work mostly includes talking with people to find out their needs and then matching them up with the programs that can help."

Can you tell me more about those programs?

"We provide information about health insurance that is on the exchange (Access Health CT) and information about Medicaid and Husky, and then we also work with people to see if they qualify for "financial relief," sometimes called Charity Care, and finally we help with payment plans."

When you say payment plans, what do you mean?

"This is when someone has a bill and they cannot pay it all off but they can come up with a plan to pay it off slowly until it is fully paid."

Where do you get referrals?

"All over, the Emergency Room, the 'daily report' which includes all the in-house self pay patients, from case management and now we also get referrals from the State 211 Helpline. The financial counselors at Saint Francis are qualified to help people find health insurance on the State Health Exchange. So that means we might be helping a person with private insurance or state coverage and it also means they might not come to Saint Francis for their healthcare."

You mean you are signing up people who just come into the hospital to find health insurance?

"Yes, now that we are trained to do this work when people call the 211 Helpline they might refer them to us for assistance with their application. Right now is the "Open Enrollment" period so it's pretty busy with people who are trying to find insurance on the exchange."

Tell me a little more about how you do your screening?

"We have to learn about what their needs are so we ask if they are citizens, if they have insurance or not, if they are fully insured or if they need more insurance. We need to know about their income, who they live with, where they work, it's a lot of information that we ask for, so by the end we have a clear picture of what is going on."

Do you have examples of patients that you have helped?

"I helped a family with 6 people; 4 were undocumented and the 2 youngest children were born here, so they were U.S. citizens. They were afraid to ask for help because they thought that only 2 of the kids would qualify for assistance and in filling out that paperwork the others would get found out. So they didn't fill it out for a long time. But I talked to them and explained the others would qualify for help from the hospital and in the end everyone got the healthcare they needed."

"I had a family where the mother was very sick, but she didn't have the money to pay for the premium for her health insurance. The mother did not speak English very well so her daughter helped with communicating and with filling out the paperwork needed to get coverage. The daughter was pregnant and very worried about her mother who needed surgery quickly. So we expedited the approval process and the mother got her surgery. Then after the daughter had her baby we counseled her to tell the insurance company about this change; as a result the premium she was paying decreased significantly. She was so happy when she got this news she came in to the office to tell the news."

What do you want others to know about the work that you do?

"Well it's very rewarding, you know. We see people at their worst and then with our help they get better."

"Sometimes because of our help, they are alive. I once worked with a woman who needed a heart transplant. She had 3 children and was very sick. But we helped her and now she is doing really well."

"We have to develop trust before we can help – sometimes people are too proud to ask for assistance, but we approach it by making a connection and then telling them the information they need to know."

"People have lots of wrong information so it's nice to be able to tell them what we have to offer."

"Also, sometimes we are actually saving the Hospital money. One time I had a patient who was very sick with diabetes and he was coming into the Emergency Room and ending up in the ICU. He was not here legally so he didn't qualify for Medicaid or other insurance. But we finally convinced him to share the documents we needed and were able to get him on financial relief. Then he started taking control of his diabetes and he would come into the clinic instead of going to the Emergency Room."

Community Benefit – Activity at a Glance

During 2014, Saint Francis provided community benefit services to 147,675 individuals who received financial assistance for their medical care and support through our Community Benefit programs.

Charity Care

$5,967,252

Free or discounted health services provided to persons who cannot afford to pay and who meet the organization's financial assistance policy criteria are categorized as Charity Care. This year's report highlights the work of the Financial Counselors who administer Charity Care, sometimes referred to as financial relief. Charity Care is reported in terms of costs, not charges.

+

Community Benefit Services

$30,235,625

Services provided to meet community needs as identified in the Community Health Needs Assessment are refereed to as Community Benefit Services. Included here are clinical patient care services provided despite a negative margin, public health programs, community outreach and education, and partnerships with local community agencies.

+

Government-sponsored Healthcare

$41,899,623

Government-sponsored Healthcare community benefits include unpaid costs of public programs for low-income persons. These include the shortfall created when payments are less than the cost-of-caring for program beneficiaries.

=

Total Community Benefit

$78,102,500

1323

Community Benefit – Services

What are the numbers? Community Benefit is categorized into three broad areas which include: Charity Care, Government-Sponsored Healthcare, and Community Benefit Services. The following list outlines, in more detail, the Community Benefit Services portion, which this past year totaled $30,235,625.

A. Community Health Improvement Services

$2,035,780

These activities are carried out to improve community health and are usually subsidized by the healthcare organization. There are four groupings within this category: Community Health Education, Community-Based Clinical Services, Healthcare Support Services and Other Community Health Improvement Services. The following is a sample of programs and activities in each of these categories.

Community Health Education

- Adaptive Rowing Program
- Breast and Cervical Cancer Education and Outreach
- Breastfeeding Support
- Child Abuse Prevention Education and Outreach
- Cancer Support Groups
- Childbirth Education Classes
- Colorectal Screening and Education Program
- Center for Diabetes & Metabolic Care Program Education and Outreach
- Curtis D. Robinson Center for Health Equity Programs:
  - Community Engagement Activities
  - Language Services Education
  - Men's Health Education
  - Navigation Services
  - Pastoral Counseling Training Program
- Golfers in Motion
- Health Promotion Activities
- Healthy Start and Parenting Programs
- Integrative Health Services
- Medical Legal Partnership Program
- Violence and Injury Prevention Program
- Women's Heart Program Outreach

Community-Based Clinical Services

- Preventive Health Screenings:
  - Cardiovascular Risk Assessment
  - Child Seat Safety Screening
  - Diabetes Screening
  - Mammograms
  - Prostate Cancer
- Services for Children and Families Impacted by Child Abuse
- Support for Malta Van Healthcare Support Services
- Cardiac Rehab and Wellness
- Care Management Support Services
- Diabetes Support Services
- Multidisciplinary Case Management Team for Child Abuse
- Nurturing Families Network Case Management Services
- Procurement of Pharmaceuticals for Indigent Clients

Other Health Improvement Services

- Caregiver Support Services
- Health Equity Fellowship
- Literacy Support Programs
- Transportation Support
- Language Support Services
- The Auxiliary Repetitions Thrift Store
- Joan C. Dauber Food Bank
- Keep-the-Power-On Utility Clinic

1324

B. Health Professions Education

$24,803,442

This category includes the unpaid costs of undergraduate training, internships, clerkships, residencies, nurse training, residency education, and continuing medical education (CME) offered to physicians outside of the medical staff.

- Connecticut Institute for Primary Care Innovation (CIPCI)
- Dental Assistant and Dental Hygienist Training
- Dietitian Training
- Medical Student Education
- Nurses and Nursing Student Education
- OB/GYN Residency Training
- Other Health Professional Education
- Pharm-D Training Site

C. Subsidized Health Services

$2,382,497

This category includes health services and clinical programs that are provided despite a financial loss. These services are provided because they meet an identified community need that is not being fulfilled by the government or another not-for-profit organization.

- Uncompensated Care – Dental Clinic
- Uncompensated Care – Family Medicine

D. Research

$230,090

This category includes clinical and community health research that is shared with the public and funded by the government or a tax-exempt entity (including the organization itself).

- Community Research Grants
- Federal Research Grants
- State and Local Research Grants
- Trainee Research Grants

E. Financial and In-kind Donations

$237,064

This category includes funds and in-kind services donated to individuals not affiliated with the organization, or to community groups and other not-for-profit organizations. In-kind services include hours contributed by staff to the community while on work time; overhead expenses of space donated to not-for-profit community groups; and the donation of food, equipment, and supplies.

- Donations to Charitable Organizations
- In-kind Use of Facilities
- Medical Mission Support
- Support for Local Community Organizations

F. Community-building Activities

$238,668

This category includes programs that address underlying social problems, such as poverty, homelessness, and environmental issues. These activities support community assets by offering the expertise and resources of the healthcare organization.

- CREC Magnet School Partnership
- Disaster Planning
- Board Memberships
- Neighborhood Associations

G. Community-Benefit Operations

$308,084

This category includes the costs associated with staffing the community health department and costs associated with community benefit planning and operations.

1325

The Curtis D. Robinson Center for Health Equity is located at 140 Woodland Street at the Urban League of Greater Hartford building.

Staff include: [Back Row, L-R] Mary Stuart, Sara Grant, Dr. Luis Diez-Morales, Michelle Safo-Agyeman, Dr. Marcus McKinney, Adriana Medina and Lawrence Young. [Front Row, L-R] Nkemdilim Chi Anako, Rebecca Santiago and Dr. Shirle Moone Childs

Bridge. Navigate. Support.

The mission of the *Curtis D. Robinson Center for Health Equity* is to develop, deliver, and support innovative health equity solutions with and for the communities served by Saint Francis *Care* to improve overall health outcomes.

Founded in 2012 after the Saint Francis *Care* Board of Directors passed a resolution to focus on specific Health Equity priorities, the Center is staffed with a multicultural team committed to a collaborative approach to achieving optimal health through community engagement, education, health advocacy and research.

Staff at the Center for Health Equity focus on accomplishing the Strategic Priorities outlined in this report by:

- Bridging the divide between healthcare providers and patients.
- Navigating the healthcare system to find solutions.
- Supporting the community in addressing health disparities.

We welcome you to join us in this work!

1326

Our Mission

We are committed to health and healing through excellence, compassionate care and reverence for the spirituality of each person.

Our Core Values

Respect

We honor the worth and dignity of those we serve and with whom we work.

Integrity

We are faithful, trustworthy and just.

Service

We reach out to the community, especially those most in need.

Leadership

We encourage initiative, creativity, learning and research.

Stewardship

We care for and strengthen resources entrusted to us.

Saint Francis *Care* is a healthcare ministry of the Catholic Archdiocese of Hartford.

Community Benefit | Activity at a Glance

During FY 2014 Johnson Memorial Medical Center provided community benefit to 5,926 individuals who received financial assistance for their care and support through our Community Benefit programs.

Community Benefit Services
$ 165,903

These are services provided to meet community needs because the services would otherwise not be available to meet patient demand. This includes clinical patient care services provided despite negative margin, public health programs, community outreach and education and partnerships to meet community

Government Sponsored Healthcare
$ 6,093,987

Government sponsored healthcare community benefits include unpaid costs of public programs for low-income persons. These include the shortfall created when a facility receives payments that are less than the cost-of-caring for program beneficiaries

Charity Care
$ 151,372

Free or discounted services are provided to those who cannot afford to pay , but meet JMMC's financial assistance policy criteria. Charity Care is reported in terms of costs, not charges. Charity Care does not include bad debt which, which may be reported elsewhere but not as a community benefit

Total Community Benefit
$6,411,262

This figure represents a 35.4% increase to JMMC's community benefit total.

Re: Request for Information – Disclosure of Facility Fees

Dear Mr. Dadlez:

I am writing to you today to seek your assistance in addressing an important issue that impacts Connecticut citizens and your patients. As you well know, the healthcare industry is undergoing a period of rapid consolidation. Hospitals and health systems continue to acquire independent physician practices, free-standing ambulatory surgical centers and urgent care centers. In addition to potentially raising the cost of outpatient care provided in hospital-owned physician practices, I am troubled by reports that some acquired entities may not be disclosing clearly to patients their affiliation with a hospital or the fact that the hospital will charge these patients a separate and often expensive "facility fee."

To address this concern, on September 19, 2013 I announced my intention to seek legislation that will provide meaningful transparency and cost information to consumers. In order to better understand the scope of these issues, I seek your cooperation in providing information about your hospital's disclosure of facility fees. In particular, I ask that you provide us with:

1. The name, address, specialty type and contact information for each of your off-campus hospital-based provider(s) that currently charges a facility fee.[1]

[1] For purposes of these requests, a "hospital-based provider" means a provider that is owned or employed by or in a joint venture with your hospital, or is licensed as part of the hospital to provide outpatient services. A "facility fee" means any separate charge or billing by a hospital-based provider, in addition to a professional fee, that is intended to cover building, equipment, electronic medical records systems, billing and other administrative and operational expenses. A "campus" means the physical area immediately adjacent to the hospital's main buildings and other areas and structures that are not strictly contiguous to the main buildings but are located within 250 yards of the main buildings, and any other areas determined on an individual case basis by the Centers for Medicare and Medicaid Services to be part of the hospital's campus.

2. The name and address of each of your off-campus hospital-based provider(s) that currently *does not* charge a facility fee. For each such provider identified, identify the specialty type and state the reason why the provider does not charge a facility fee.

3. For each off-campus hospital-based provider identified in your answer to Request No. 1 above, state whether you require that the provider disclose to patients, in writing[2]:

   (a) that the provider is owned, affiliated or part of a joint venture with your hospital;

   (b) that the provider charges separate professional and facility fees;

   (c) the amount that the provider will potentially charge the patient for services to be rendered by the provider, including the amount of any facility fee, and the amount of the professional fee;

   (d) an explanation that the patient will incur a financial liability for a facility fee that he or she may not incur if the provider were not hospital-based;

   (e) an estimate of the amount that the provider will charge the patient for services to be rendered by the provider based on typical or average charges for visits to the facility, including an estimate of the facility fee and the professional fee likely to be charged;

   (f) a statement that the patient's actual liability will depend upon the actual services furnished by the provider; and

   (g) that for additional information regarding the provider's charges and fees, including any payments the patient will be required to make, and the location of other providers that may be available to supply comparable services to the patient at a lower cost, any patient enrolled in an insurance or health care plan should contact that plan for more detailed information.

4. For each off-campus hospital-based provider identified in your answer to Request No. 1 above, please produce exemplars of any written notice sent or provided to your patients and specify:

   (a) whether the written notice is provided when the appointment is scheduled. If not, when is the notice provided? If yes, by what means is the notice communicated (i.e., mail, electronic mail, other)?

   (b) whether the notice is hand-delivered to patients when they arrive at the provider's

---

[2] If the notice is not in writing then state the means by which the information is disseminated to patients.

office to receive non-emergency care?

5. For each off-campus hospital-based provider identified in your answer to Request No. 1 above, state whether you require your off-campus hospital-based provider to identify itself as part of your hospital in the provider's:

(a) signage;

(b) marketing materials;

(c) websites;

(d) stationery; and

(e) other means of disclosure.

Please provide exemplars of any such disclosures.

I am confident that you will agree with me that citizens who require medical care in Connecticut deserve clear and meaningful notice and disclosure of facility fees. Therefore, I am requesting that you provide your responses by December 6, 2013.

Please feel free to contact me or Assistant Attorney General Charles Hulin at 860-808-5253 or Assistant Attorney General Rachel Davis at 860-808-5041 if you have any questions.

I appreciate your cooperation and look forward to working with you on this important legislation.

Sincerely,

GEORGE JEPSEN

Attorney General George Jepsen
State of Connecticut
Office of the Attorney General
55 Elm Street
Hartford, Connecticut 06106

Dear Attorney Jepsen:

Pursuant to your request, this letter responds to the questions raised in your letter dated November 19, 2013. The responses are numbered in corresponding order to your questions.

1. Saint Francis' campus consists of two sites and both sites operate under one joint license. The main campus is located at 114 Woodland Street, Hartford, Connecticut 06105. The North campus is located at 500 Blue Hills Avenue, Hartford, Connecticut 06112.

   We charge facility fees and provide radiology services at the following locations:

   (a) The Mobile MRI at Avon Health Center ("Mobile MRI") provides MRI scanning services and is located at 35 Nod Road, Avon, Connecticut. The Mobile MRI is an outpatient site where Saint Francis provides MRI exams. The days of operation are Monday, Tuesday, Wednesday and Friday. The contact is Len Quartararo who can be reached at (860) 714-9000; and
   (b) Saint Francis *Care* Radiology Suite ("Radiology Suite") provides radiology services and is located at 7 Elm Street, Suite 205 in Enfield, Connecticut 06082. The Radiology Suite is an outpatient site providing diagnostic radiology services. Saint Francis Hospital and Medical Center ("SFHMC") engages Radiology Associates of Hartford ("RAH") to provide professional services in diagnostic radiology to meet both inpatient and outpatient needs of SFHMC. RAH provides the professional services for the exams done at 7 Elm Street. The contact is Len Quartararo who can be reached at (860) 714-9000; and
   (c) The Burgdorf/Fleet Health Center provides primary care clinic services and is located at 131 Coventry Street, Hartford, Connecticut, 06112. The contact is Donna Bennzinger who can be reached at (860) 714-9000.

2. The Burgdorf/Fleet Health Center provides primary care clinic services and is located at 131 Coventry Street, Hartford, Connecticut, 06112. Although we charge a "facility fee" for clinic visits, we do not think this facility is within the scope of question 2 because we do not charge a professional fee for clinic visits. See also footnote one of your letter dated November 19, 2013 "...A "facility fee" means any separate charge or billing by a hospital-based provider, in addition to a professional fee..."

3. With regard to the Mobile MRI and the Radiology Suite, the answers to (a)-(g) are as follows:

   (a) Yes. The Mobile MRI and the Radiology Suite are licensed as part of Saint Francis Hospital and Medical Center ("SFHMC") to provide outpatient services. See also Attachment A, Consent and Acknowledgement Form which reflects SFHMC's logo.

   (b) Yes. See Attachment A which states that the patient agrees to pay all charges for services rendered by both SFHMCand RAH. SFHMC charges a facility fee but RAH charges the professional fee. The patient will get two bills: one from Saint Francis for the exams (the facility fee) and one from RAH for the professional fee. Patients at both locations are required to sign Hospital's Consent and Acknowledgement Form (Attachment A) and are provided a copy of the Form. See also Attachment F which states that there are two fees associated with radiology exams, both the technical and professional fees. Attachment F is customized based on the patient population, i.e, those receiving CT scans, those receiving exams, etc.

   (c) See Attachment F. We provide the approximate cost of the technical portion of the exam (facility fee) and we give patients a telephone number to phone to get additional information about the professional fees. Any and all patient inquiries regarding radiology exam charges and billing are first handled by the SFHMC Department of Radiology's Business Services Manager or the Coding & Billing Specialist. These individuals provide pricing information (gross) technical and professional fees to the patients and the maximum potential amount that the patient could be charged for the procedure. Patients who have questions regarding specific contracted exam rates with their insurance carrier are referred to SHFMC's Business Office. In addition, on the SFHMC billing statement, patients are informed that they can contact the Business Office to set up a payment plan.

   (d) Yes. See Attachment B for 7 Elm Street. No with regard to Mobile MRI.

   (e) Same response as in item (c).

   (f) Same response as in item (d).

   (g) No.

4. (a) Written notice is not provided when the appointment is scheduled. The Notification of Co-Insurance (Attachment B) is posted at the Mobile MRI and the Radiology Suite. Patients see the Notification when they present for an appointment.

(b) Yes, Attachment A is hand-delivered to patients when they arrive at the Mobile MRI and Radiology Suite. In addition, any patient whose services require an Advance Beneficiary Notice receives written notification at the site. See Attachment C.

(a) The signage at the Mobile MRI states Radiology Associates of Hartford, P.C. due to the fact that RAH does the professional reads of the scans taken by the Mobile MRI. The Mobile MRI is a van that is parked at the site Monday, Tuesday, Wednesday and Friday.

The signage outside 7 Elm Street's suite door states

"Radiology
Saint Francis Hospital and Medical Center."

(b) See Attachment E for brochure.

(c) The websites are as follows:

Saint Francis Care at Enfield
http://www.saintfranciscare.com/Programs_and_Services/Medical_Offices_and_Access_Centers/Saint_Francis_Care_at_Enfield.aspx

Radiology and Imaging Services
http://www.saintfranciscare.com/Radiology/Locations.aspx

Saint Francis Care in Avon:
http://www.saintfranciscare.com/Programs_and_Services/Medical_Officesand_Access_Centers/Saint_Francis_Care_at_Avon.aspx

(d) No separate stationary exists for these two sites.

(e) Attachment D is handed to each patient of SFHMC.

Please contact me if you have additional questions or comments.

Sincerely,

Teresa M. Bolton
General Counsel

SAINT FRANCIS Hospital and Medical Center

Mount Sinai Rehabilitation Hospital
a SAINT FRANCIS Care Provider

Patient Label

CONSENT AND ACKNOWLEDGMENT

Thank you for choosing Saint Francis Hospital and Medical Center for your health care. We will do our best not only to meet, but to exceed your expectations during your stay or visit. Please read this form in its entirety, and then sign where indicated below.

Consent to Treatment: I hereby consent to diagnostic and treatment procedures that may be performed on me during my stay or visit at the hospital. These procedures are provided under the direction of my attending physician and other physicians involved in my care. I understand that Saint Francis Hospital and Medical Center is a teaching hospital and that medical residents, medical students, nursing students and allied health trainees may be involved in my care under appropriate supervision. In addition, I understand that many physicians and other clinicians, including radiologists and anesthesiologists are not employees of the hospital and these physicians and clinicians assume full responsibility and liability for the services they provide to me. I also understand that these clinicians may wear badges and hospital attire to conform to required hospital policies and practices for the safety of patients, but this is not intended to identify these individuals as employees or agents of the hospital.

Assignment of Benefits: I agree to pay all charges incurred by me between admission and discharge including all charges incurred for ambulatory care or outpatient services rendered to me. I assign any insurance benefits to which I may be entitled to Saint Francis Hospital and Medical Center toward payment of my hospital charges unless I pay my account in full upon hospital discharge or at the time any ambulatory care or outpatient services are rendered. I understand that if my medical condition does not require inpatient hospital care, my physician may place me in Observation Status for further evaluation. **Observation Status is billed as an Outpatient, even if you are placed in a regular hospital bed.** I understand that I may be responsible for charges on my bill if they are not covered by my insurance carrier, Part B Medicare or if I do not have Part B Medicare coverage. I also agree to pay all charges for services rendered by Woodland Anesthesiology Associates, P.C. and Radiology Associates of Hartford, P.C. and hereby assign available insurance benefits directly to these entities toward the payment of their charges. **I understand that if I am a self-pay patient, I may contact a patient representative at 860.714.4952 for a copy of all hospital charges related to my stay. If I am eligible for Medicare, Medicaid or Tricare benefits, I request the hospital process charges according to their requirements. I understand that I am responsible for any charges not covered by this agreement.**

Protected Health Information: I consent to the use or disclosure of my protected health information by Saint Francis Hospital and Medical Center to any person or organization for the purpose of carrying out treatment, obtaining payment or conducting certain healthcare operations. Protected health information will be recorded in the medical record including the electronic medical record. Protected health information used or disclosed by Saint Francis may include HIV/AIDS related information, psychiatric and other mental health information, and drug and alcohol treatment information, as long as such information is used or disclosed in accordance with Connecticut and Federal law, which may require that I provide specific authorization. I understand that information regarding how Saint Francis will use and disclose my information can be found in the hospital's Notice of Privacy Practices. I understand that this consent is effective for as long as Saint Francis maintains my protected health information.

Personal Valuables: I have been advised that I should not retain in my possession any personal valuables if I am admitted to the hospital. I have been informed **that the hospital maintains a safe** for the safekeeping of money and other valuables. I understand that if I choose to retain any money, jewelry, glasses, contact lenses, dentures, hearing aids, or other articles of value **unless placed in the safe, Saint Francis Hospital and Medical Center will not be liable for their loss or damage.**

By signing below I understand and acknowledge the following:

- I have read and understand this consent and acknowledgment;
- I am authorized to execute this form and I agree to its terms;
- I have received a copy of the Saint Francis Hospital and Medical Center Notice of Privacy Practices;
- If I am an inpatient and covered by Medicare, I have received a copy of An Important Message from Medicare.

Attachment B

Notification of Coinsurance Liability

As you know, St. Francis Hospital and Medical Center is in continuous pursuit of excellence in patient care delivery. Through our efforts to provide the highest quality and lowest cost healthcare to our patient population, St. Francis Hospital has been delivering care at this location since November, 2007. We are providing you with this document so that you can more fully understand how our delivery of top-quality hospital care in an outpatient setting affects your coinsurance amount.

Because you are receiving care in an outpatient facility of St. Francis Hospital you will receive a coinsurance bill for both the Hospital and the professional services. This "split billing" is required by Medicare for hospital outpatient services. The following is a comparison of what a typical service provided at this facility might cost you in coinsurance here vs at a free-standing, non-hospital site.

Chest X-Ray

Non-Hospital Coinsurance Amount (includes facility fees)	$ 5.51
Coinsurance Amount for Hospital Services: (includes facility fees)	$10.00

These coinsurance amounts are estimated based on typical charges for visits to this St. Francis Hospital Facility. Your actual coinsurance amount will depend upon actual services furnished. The difference in these amounts is due to how Medicare pays for Hospital vs Non-Hospital services.

If you have any questions concerning your coinsurance amount or how it is calculated, please call St. Francis Hospital at 860-714-4952.

We look forward to continuing to deliver you the top-level care that you have come to expect from us.

Attachment C

A. Notifier: St. Francis Hospital & Medical Center and Radiology Associates of Hartford

B. Patient Name: C. Identification Number:

Advance Beneficiary Notice of Noncoverage (ABN)

NOTE: If Medicare doesn't pay for D. _____ below, you may have to pay. Medicare does not pay for everything, even some care that you or your health care provider have good reason to think you need. We expect Medicare may not pay for the D. _____ below.

D.	E. Reason Medicare May Not Pay:	F. Estimated Cost

WHAT YOU NEED TO DO NOW:

- Read this notice, so you can make an informed decision about your care.
- Ask us any questions that you may have after you finish reading.
- Choose an option below about whether to receive the D. _____ listed above.

  Note: If you choose Option 1 or 2, we may help you to use any other insurance that you might have, but Medicare cannot require us to do this.

G. OPTIONS: Check only one box. We cannot choose a box for you.

☐ **OPTION 1.** I want the D. _____ listed above. You may ask to be paid now, but I also want Medicare billed for an official decision on payment, which is sent to me on a Medicare Summary Notice (MSN). I understand that if Medicare doesn't pay, I am responsible for payment, but **I can appeal to Medicare** by following the directions on the MSN. If Medicare does pay, you will refund any payments I made to you, less co-pays or deductibles.

☐ **OPTION 2.** I want the D. _____ listed above, but do not bill Medicare. You may ask to be paid now as I am responsible for payment. **I cannot appeal if Medicare is not billed.**

☐ **OPTION 3.** I don't want the D. _____ listed above. I understand with this choice I am not responsible for payment, and **I cannot appeal to see if Medicare would pay.**

H. Additional Information:

This notice gives our opinion, not an official Medicare decision. If you have other questions on this notice or Medicare billing, call **1-800-MEDICARE** (1-800-633-4227/TTY: 1-877-486-2048). Signing below means that you have received and understand this notice. You also receive a copy.

I. Signature:	J. Date:

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-0566. The time required to complete this information collection is estimated to average 7 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. SAINT FRANCIS
Hospital and Medical Center

114 Woodland Street
Hartford, Connecticut
06105-1299

Dear Patient:

To be sure that you receive the best possible health care at the lowest cost and in the most appropriate setting, we work closely with your doctor in evaluating care rendered at Saint Francis Hospital and Medical Center.

Information from your medical record is reviewed regularly by the Utilization/Clinical Resource Management Committee. This Committee acts on behalf of Saint Francis Hospital and Medical Center to ensure appropriate medical utilization standards are achieved, and to meet the requirements of all health care payors like Medicare, Medicaid, CHAMPUS and other private insurances and utilization systems.

Saint Francis Hospital and Medical Center, our federal and state governments, and the private insurers need to be certain that the care provided to you is medically necessary, appropriate and rendered in the most appropriate setting.

When you are admitted to Saint Francis, your doctor will discuss with you your discharge plans. The Case Management Staff, RN Case Managers and Social Workers are available to assist you in making arrangements for home health care, community services and care in other health facilities. If the Saint Francis Utilization/Clinical Resource Management Committee, following consultation with your doctor, believes that you do not need to remain in the hospital, you and your doctor will be informed in writing of this decision.

Statistical information about your care is collected and studied by your insurer. If you want to look at any of this information, contact the review organization affiliated with your insurer.

As one of the nation's top 100 Hospitals, we are constantly expanding our delivery of services to bring Saint Francis *Care* to you in a growing number of locations within the communities we serve. Our goal is to provide top quality care in a manner that is cost effective and convenient to you and your family.

Sincerely,

Christopher M. Dadlez
President and Chief Executive Officer

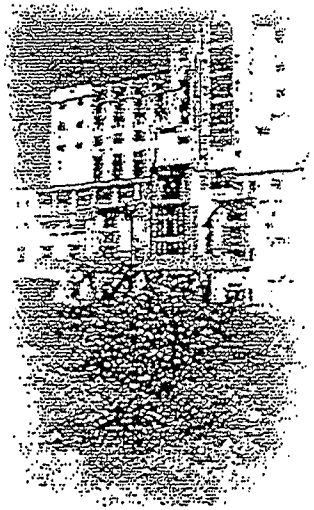
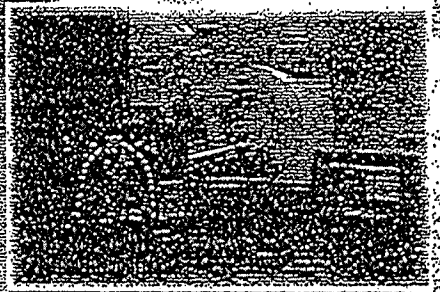
Radiology & Imaging Services



Attachment E

About us...



Every year, Saint Francis Hospital and Medical Center performs over 200,000 imaging procedures, across the full spectrum of diagnostic, screening and interventional procedures. The Radiology/Imaging Department leads the community in offering the latest state-of-the-art imaging in CT Scan, MRI, Interventional Radiology, PET/CT, and Breast Imaging. Our robust Picture Archive and Communications systems combined with outstanding imaging equipment allows us to produce the highest quality diagnostic studies and promptly share both the images and reports with your physician.

CT Scan & MRI Services

CT Scan Services

Using 128 and 16 slice CT (CAT) Scanners, SFHMC employs the strictest radiation safety guidelines to ensure the highest quality cross-sectional imaging specializing in:

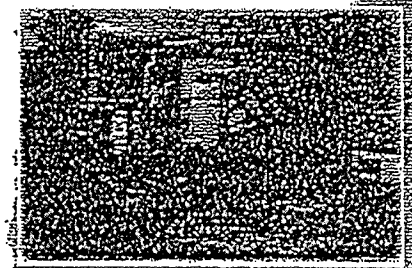
- Cardiac CT Angiography
- Colonoscopy
- Oncologic Imaging/Planning
- Interventional Procedures
- Pulmonary Imaging
- Neurovascular Imaging

MRI Services

With 3 and 1.5 Tesla magnets, SFHMC produces the highest quality Magnetic Resonance Imaging in the region. Using a magnetic field and radio waves, detailed images can be obtained without the use of radiation. SFHMC specializes in the following MRI specialties:

- Breast Imaging and Biopsies
- Neuroradiology including Multiple Sclerosis
- Cardiac Imaging-*greatest volume in the Northeast*
- Musculo-skeletal Imaging

PET/CT



PET/CT Scan

PET-CT is an imaging exam that combines the functional information from a non-invasive PET (positron emission tomography) scan with the anatomical information from a CT scan. When a CT scan is superimposed over a PET scan, doctors can pinpoint the exact location of abnormal activity allowing for earlier and more accurate detection of disease.

December 20, 2013

VIA FEDERAL EXPRESS

Attorney General George Jepsen
State of Connecticut
Office of the Attorney General
55 Elm Street
Hartford, CT 06106

Re: Request for Information – Disclosure of Facility Fees

Dear Attorney General Jepsen:

I am writing in response to your correspondence dated November 19, 2013, wherein you requested that Johnson Memorial Hospital, Inc. ("JMH" or the "Hospital") provide you with certain information pertaining to off-campus Hospital locations and disclosure of facility fees. For ease of reference, our responses are listed below and are numbered corresponding to your questions. Please note, however, that we have enclosed one table containing the address/contact information/specialty for all off-campus locations, marked as Exhibit A. We structured it this way because only one of the listed off-campus locations charges a facility fee.

1) The Johnson Surgery Center is the only off-campus Hospital location that charges a facility fee as described in your letter.[1] Specifically, in addition to the specific charges for items and services provided to the patient and the physician's professional fee, the Surgery Center line item charges may include charges related to the particular clinical rooms that are used in delivery of the services (e.g. recovery room). It is worth noting, however, that hospitals and outpatient surgical facilities both charge some form of facility fees, as the properly licensed infrastructure where the surgery is performed is a central component of the overall service.

2) All of the other off-campus Hospital or Hospital affiliated locations do not charge a facility fee. Of particular note, the Johnson Professional Associates, P.C. ("JPA") locations, which provide services more akin to a physician practice, bill like a physician practice. The other locations bill for items and services provided to the patient and do not include additional charges specific to overhead.

[1] We understand that a "facility fee" is not a charge for any specific item or service provided to the patient, but rather a charge related to an overhead-type expense.

3) Below please find yes or no answers, with some explanations, to the questions listed as (a)-(g).

(a) Yes. Please see, for example, the enclosed Hospital Admission Form, marked as Exhibit B, that is used at the Surgery Center and bears the Hospital's name.

(b) No.

(c) Yes/No. Yes, in that the Hospital's Pricemaster lists all its rates/charges and is publicly available on the Department of Public Health website at: http://www.ct.gov/dph/lib/dph/ohca/customer_assistance/pricemasters/jnson_pm.pdf. No, in that the Hospital does not hand-deliver a written list of its potential charges at the time of service. Additionally, please note that the Hospital is not privy to the fees charged by the surgeons on the medical staff. These fees are negotiated between the surgeon and the patient/payor.

(d) No. We believe that outpatient surgical facilities in the state also bill some version of a facility fee.

(e) No.

(f) Yes. Please see the enclosed Hospital Admission Form.

(g) No.

4) Please see the enclosed Hospital Admission Form. The answers to the related questions are as follows:

(a) No. The Hospital Admission Form is hand-delivered to patients when they arrive at the Surgery Center.

(b) Yes.

5) This question is difficult to answer since the Surgery Center is simply an outpatient department of the Hospital. That is, the Surgery Center is not a separate entity that would control its own marketing, etc. Rather, it is the Hospital that identifies the Surgery Center as part the Hospital's operations in its marketing materials (see the advertisement included as Exhibit C) and on its website (see Exhibit D, which is a screen shot of: http://www.jmmc.com/services/surgerycenter/#top). It also bears noting that the Surgery Center does not have its own stationary (meaning that it uses the same stationary as the Hospital) and, at the time of service, patients fill out the enclosed

Hospital Admission Form just as they would if they came to the Hospital's main campus for surgery.

We hope you find our responses helpful in understanding the manner in which JMH operates its off-campus locations. Please do not hesitate to contact us should you have any further questions.

Very truly yours,

Stuart E. Rosenberg
President & Chief Executive Officer
Johnson Memorial Hospital, Inc.

Johnson Memorial Hospital

"1000608410"

[redacted]A

JOHNSON MEMORIAL HOSPITAL is referenced as "Hospital" in the following paragraphs.

[ ] CONSENT UPON ADMISSION AND FOR MEDICAL TREATMENT : Knowing that I/the patient am/is suffering from a condition requiring diagnosis and medical or surgical treatment do hereby voluntarily consent to such treatment, unless otherwise specified herein, as ordered by my/the patient's physician, his/her assistants or his/her designees as is necessary in his/her judgment.I understand that this consent does not replace informed consent, including discussion of risks and benefits, for specific tests or procedures which may be required. I consent to outpatient treatment/testing as ordered by a physician. If admitted, I consent to the admission. I understand the above conditions of care.

[ ] REFUSAL TO PERMIT BLOOD TRANSFUSION: Due to my/the patient's personal/religious beliefs, I request that no blood/blood derivatives be administered to me/the patient during this hospitalization unless otherwise specified. I hereby release the Hospital, its personnel, and the physicians involved in my/the patient's care from any responsibility whatever for unfavorable reaction or results due to my refusal to permit the use of blood or its derivatives.

[ ] AUTHORIZATION FOR THE DISCLOSURE/RELEASE OF INFORMATION FOR PAYMENT: I hereby authorize the Hospital to disclose/release my/the patient's health information which may **include medical, surgical, alcohol, drug, psychiatric and HIV related treatment** for this period(s) of hospitalization/series of related outpatient/ambulatory services to any person/corporation which is/may be liable under a contract to the Hospital, to me/the patient, a member of my/the patient's family or my/the patient's employer for all or part of the Hospital's charges in order to obtain payment.

I understand that I may revoke this authorization to release information at any time by giving written notice. However, I understand that any information released prior to my revoking this authorization shall not be a breach of my right to confidentiality. Unless I revoke this authorization prior to such time, this authorization shall expire the later of one year from the date of my signature or final resolution of payment for this account.

[ ] ASSIGNMENT OF BENEFITS AND PAYMENT GUARANTY: I hereby authorize direct payment to the Hospital of any group/individual healthcare insurance benefits to which I/the patient may be entitled in order to satisfy my/the patient's obligation to pay the Hospital's charge for my/the patient's hospitalization and/or outpatient/ambulatory care. **I understand that I am responsible for the notification to my insurance company to obtain authorization before service is rendered. I understand that if this is not done, insurance benefits may be reduced.**

I further understand that I/the patient am financially responsible to the Hospital for all charges including non-covered charges not paid by my/the patient's group/individual healthcare insurance benefits and I/the patient agree to pay the Hospital in full, for all services rendered or to be rendered to me/the patient named below. In the event my/the patient's account is not paid, I/the patient agree to pay all court costs, attorney's fees and collection costs reasonably incurred by the Hospital to collect any balance owed.

[ ] INSURANCE COPAYMENT: I have been made aware and understand that my/the patients insurance may require personal payments based on my insurance plan or self pay status.

. Co-payment amount: $_____ Paid: $_____ Cash__ Check ___ Credit Card _____

[ ] MEDICARE INPATIENTS ONLY: I certify that the information given by me in applying for payment under Title XVIII of the Social Security Act is correct. I acknowledge that I have received a copy of "An Important Message from Medicare". My signature acknowledges my receipt of this message from the Hospital and does not waive any of my rights to request a review or make me liable for any payment.

[ ] TRICARE INPATIENTS ONLY: I acknowledge that I have received a copy of "An Important Message from TRICARE". My signature acknowledges my receipt of this message from the Hospital and does not waive any of my rights to request a review or make me liable for any payment.

[ ] NOTICE OF RECEIPT OF PRIVACY STATEMENT: I have received a copy of the Privacy Notice which describes how medical/health information may be disclosed and how I can get access to this information.

[ ] RESPONSIBILITY FOR PERSONAL ITEMS: I understand that I assume full responsibility for any items brought to the Hospital by me/the patient. The Hospital is not responsible for replacement costs of misplaced or lost items.

[ ] **I understand that many physicians/healthcare professionals providing services at the Hospital are independent contractors,** not employees/agents. They can wear lab coats/other Hospital garb and ID badges as required but that the use of this clothing or Hospital badge is not intended to represent that this is an employee/agent of the Hospital. I understand that I can ask any questions concerning the status of my healthcare provider as an independent contractor, employee or agent

I CERTIFY FULL ACCEPTANCE AND ACKNOWLEDGEMENT OF EACH APPLICABLE PARAGRAPH MARKED BY AN [X]. I agree to the terms specified and I am authorized to execute this form. (If admitted, I acknowledge I have received a copy of this form).

Statewide Health Care Facilities and Services Plan

October 2012

Keeping Connecticut Healthy
DPH
Connecticut Department of Public Health

Connecticut Department Of Public Health
Office Of Health Care Access
410 Capitol Avenue • Hartford, CT 06134

1360

1.3 ADVISORY BODY

In October 2010, the Office of Health Care Access invited representatives from a cross section of the health care industry and State government to participate in an advisory body that would be charged with providing guidance on the development of the Plan. Advisory Body members are listed in Appendix B. The advisory body met monthly beginning in November 2010. In May 2011, advisory body subcommittees were formed to conduct more in-depth work in the areas of Acute Care/Ambulatory Surgery, Behavioral Health and Primary Care. Subcommittee members are listed in Appendix C.

Both advisory body and subcommittee members provided OHCA with guidance and expertise in the development of CON guidelines, standards, methodologies and analyses used in the Plan, including:

- Reviewing research conducted by OHCA on other states' facilities plans' standards, guidelines and methodologies and providing feedback and discussion regarding adaptation and applicability for Connecticut's Plan;
- Recommending authoritative professional organizations, published studies, industry-recognized standards/guidelines/methodologies, etc., to be considered by OHCA in the development of its plan;
- Providing insight on industry best practices and evidenced based research;
- Recommending data sources; and
- Offering feedback on OHCA's use and interpretation of available data.

1.4 GUIDING PRINCIPLES

The goal of OHCA's planning and regulation activities is to improve the health of Connecticut's residents; increase the accessibility, continuity and quality of health services; prevent unnecessary duplication of health resources; and provide financial stability and cost containment of health care services.

The guiding principles of the Plan are intended to:

- Promote and support the long term viability of the state's health care delivery system;
- Ensure that any regulated service will maintain overall access to quality health care;
- Promote equitable access to health care services (e.g., reducing financial barriers, increasing availability of physicians) and facilitate access to preventive and medically necessary health care;
- Encourage and support health education, promotion and prevention initiatives;
- Encourage collaboration among health care providers to develop health care delivery networks;
- Support the need for a sufficient health care workforce that facilitates access to the appropriate level of care in a timely manner (e.g., optimal number of primary and specialty care providers);
- Maintain and improve the quality of health care services offered to the state's residents;
- Promote planning that helps to contain the cost of delivering health care services to its residents;
- Encourage regional and local participation in discussions/collaboration on health care delivery, financing and provider supply;
- Promote public policy development through measuring and monitoring unmet need; and
- Promote planning or other mechanisms that will achieve appropriate allocation of health care resources in the state.

  - August 13, 2015 at Saint Francis Medical Office, Ellington CT

Saint Francis *Care's* Community Health Outreach Programs

Caring for the community beyond the hospital walls has long been a priority for Saint Francis *Care*. By bringing its services into the community through programs which focus on community health, Saint Francis is able to embrace a myriad of creative solutions for improving our community's health.

Saint Francis' commitment to community health is best demonstrated by the establishment of the Curtis D. Robinson Center for Health Equity (begun as an Institute in 2009) **:** a dedicated platform dedicated to eliminating disparities in healthcare and serving as a leader in health equity. Housed within the Urban League of Greater Hartford, this unprecedented Saint Francis Board-endorsed initiative serves as a hub for community engagement, data collection and use in understanding needs of our community, and bridging the resources of Saint Francis with all communities we serve. Here you will find a multi-cultural, multi-lingual team of physicians, nurses and outreach staff harnessing the health system resources into the identified needs of families in our service areas of Connecticut. They include culturally-appropriate health assessments, health education; community-based clinical services such as health screenings and immunizations. A key principle of the Center's activities is to be culturally and community informed. A survey, for example, indicating the health priorities of 700 African American and Latino members of the community helps give focus to health outreach activities.

Saint Francis *Care* also Saint Francis *Care* partnered with like-minded organizations such as the Hartford Hispanic Council, Tuskegee University, local area places of worship and other community organizations to focus on specific health needs of minority populations in its service area and culturally inclusive training for employees. These health equity initiatives demand a strategic approach to health equity informed by the communities we serve, our partners, and our Saint Francis' team committed to measuring impact on improved care. Hence, research, community engagement, education, and bridging health resources to those seeking care are core activities identified with the Curtis D. Robinson Center for Health Equity.

Examples of our recent successes:

- The 4th Annual Town Hall Meeting – 11/18/14 "Is Our Food Making Us Sick?" sponsored by the Curtis D. Robinson Center For Health Equity provided information to the community in the areas of food policy, nutrition, obesity, reduction and health and community organizing around health issues. The Center nurtures ongoing leadership to bring simple

solutions to complex issues that honor the many contributions needed to assure equitable health for our region.

- Saint Francis Hospital and Medical Center Breast Feeding Heritage and Pride - Saint Francis Hospital and Medical Center in partnership with the Hispanic Health Council has just received a three year grant to expand a program that trains low income African American and Hispanic mothers who are patients of the Saint Francis Center for Women's Health. Through this program women are encouraged to breast feed their newborns using trained peer counselors. The goals of this program are to reduce the risk of Sudden Infant Death syndrome, asthma, allergies, respiratory infections and other problems among newborns in this population of women. Breast feeding also provides vital nutrients for growth and development, encourages development of mouth and jaw and reinforces the mother/baby emotional bonding.
- Maternal Infant Outreach Program (MIOP) – The goals of the City of Hartford MIOP program are to monitor health conditions of high-risk pregnant women in Hartford, to assess preventable risk factors associated with low birth weight, and to help identify effective and ineffective elements of existing efforts. Saint Francis Hospital and Medical Center has participated in this program for many years. Services provided by Saint Francis include pregnancy tests, prenatal care, patient education and nutritional counseling, routine gynecologic care, breast exams, cervical cancer prevention, post-menopausal counseling and hormone therapy along with STD and HIV testing and counseling. MIOP is a system of care that is proven and has demonstrated its effectiveness through reduced infant mortality rates, lower number of babies born with low birth weights, increased number of women accessing prenatal care, higher number of women having full term babies, and more linkages and services to families.

In addition to these targeted programs seeking to address service inequities for minority populations in its service area Saint Francis Care offers a wide range of community education programs to its entire service area population. Those programs are listed below:

Caregiver Support Services

- CREC Magnet School Partnership
- Golfers in Motion Program
- Health Equity Fellowship
- Housing Support
- Joan C. Dauber Food Bank
- Keep-the-Power-On Utility Clinic programs that address underlying social problems, such as poverty, homelessness, and environmental issues.

These activities support community assets by offering the expertise and resources of the healthcare organization.

• Literacy Support Programs
• Medical Legal Partnership Program
• Nurturing Families Network Case Management Services

A Community Health Needs Assessment

Department of Health and Human Services

March 2012

Healthy Hartford

The mission of the Hartford Department of Health

and Human Services is:

To protect the well-being of the people in Hartford, to promote an environment conducive to healthy lifestyles, and to prevent adverse health outcomes. Whenever possible, the Department will endeavor to employ strategies, policies and interventions through community partnerships to reduce health disparities.

A Community Health Needs Assesment

Hartford Department of Health and Human Services

Under the direction of the Community Health Needs Assessment Consortium, the Community Health Needs Assessment Workgroup began planning this assessment in early 2010. Much thought was put into creating a process and document that would be both useful and enlightening to healthcare organizations, community-based health and social services organizations, and the community at large. The City of Hartford Department of Health and Human Services wishes to thank our community health needs assessment partners for their generous support to this project and to their designated representatives on the Community Health Needs Assessment Workgroup for their professional contributions and collaborative efforts throughout the study process. Special thanks go to the Urban Alliance for providing data, analysis, and review of the Hartford Survey Project: Understanding Needs and Service Opportunities.

We would also like to thank Holleran Consulting LLC for their expertise in community health assessments and for preparing the community profile. This document has been produced for the benefit of the community. The City of Hartford Department of Health and Human Services and its community health needs assessment partners encourage use of this report for planning purposes and are interested in learning of its utilization. We would appreciate your comments and questions, which may be directed to the City of Hartford Department of Health and Human Services by phone at (860) 757-4700.

The report, as well as the raw data used to generate our findings is available for download at: http://hhs.hartford.gov.

I. Introduction: What We Hope to Accomplish

National health reform, known as the Patient Protection and Affordable Care Act ("PPACA"), sets forth new requirements via Internal Revenue Code Section 501(r) to hospital organizations to conduct a periodic assessment of health needs of those living in their service area in order to maintain tax-exempt status. The Community Health Needs Assessment ("CHNA") process for Hartford began in October 2010 with an initial meeting of representatives from area hospitals, namely Connecticut Children's Medical Center, Hartford Hospital, Saint Francis Hospital and Medical Center, and the University of Connecticut Health Center. This consortium of health care organizations ("The Consortium"), including the City of Hartford Department of Health and Human Services ("HHS"), came together to address this requirement and to collaborate on a community health needs assessment which would maximize resources and develop a comprehensive and useful document for agencies working in the City of Hartford.

In order to complete the community health needs assessment the Consortium contracted with Holleran, a health research consulting firm, to complete a secondary data analysis and to conduct telephone interviews of 59 Key Informants identified by the steering committee of the CHNA group. The Urban Alliance, a local non-profit organization that provides capacity building and technical assistance to improve the quality of life for under-resourced residents by facilitating a network of faith-based organizations, aided in this process by conducting a resident survey on human service needs. Additionally, the Health Equity Index ("HEI") developed by the Connecticut Association of Directors of Health ("CADH") provided recent trend data that were used to bolster our findings. From these various data sources we are able to present a framework to better understand the importance of social determinants of health.

Social determinants of health refer to factors and resources that are essential to the health of communities and individuals. These include income, shelter, education, access to nutritious food, community norms and cohesion. They are the circumstances in which people are born, grow up, live, and work, as well as the resources available to support their health and help them deal effectively with illness and disease. These social health determinants can be described in terms of factors threatening health, promoting health and protecting health [1]. From the perspective of a Community Health Needs Assessment, the social determinants of health provide a lens through which to view different populations and communities in terms of which community conditions are most important and which are the most limiting for population health.

The goals of this CHNA are:

- To provide a baseline measure of key health indicators
- To inform health policy and health strategies
- To provide a platform for collaboration among community groups including schools, businesses, policy makers, and others to impact current health status
- To act as a resource for individuals, agencies, and institutions looking to identify community health needs and priorities
- To establish benchmarks and monitor trends in health status of Hartford residents
- To assist with community benefit requirements as outlined in the PPACA

The information included in the CHNA provides the foundation upon which community health programs and interventions can be targeted, developed, and evaluated with the ultimate goal of improving the health of the community and its members.

II. Summary of Key Findings

Social Determinants – Many socioeconomic and cultural characteristics of the population living in Hartford drive the main health concerns. The findings in the secondary data profile point to higher concentrations of people that are at increased risk for unhealthy living merely because of their race, age, income, educational status, or family status. The Key Informant interviews, the Hartford Survey Project, and data from the Health Equity Index validate the concern for marginalized and underserved populations.

- The top 5 quality of life issues mentioned by Key Informants as currently having the most negative impact in Hartford were **poverty**, **job opportunities**, **quality of housing**, **neighborhood safety**, and **education**.

- Hartford has a greater number of renters than owners, more households with mothers being the sole head of household, and lower residential property values than the state, overall. These are associated with poor health outcomes. There is also a higher rate of service occupations when compared to the state and nearly 1/5 of the city's labor force unemployed. With subpar housing and employment levels, overall economic security rates low.

- Nearly a third of Hartford's adults do not have a high school diploma, and the average graduation rate is 77%; high educational attainment is one of the key determinants of community health since it leads to increased economic security and occupational prestige.

- More than 10% of all of the crimes committed in Connecticut in 2009 were committed in Hartford, even though Hartford accounts for less than 4% of Connecticut's population, and there are certain types of crimes that occur with greater frequency in Hartford than in the state overall.

- Compared to other Connecticut cities, the overall environmental quality in Hartford is poor; HEI scoring for waste stream and water discharge pollutants were low. The underlying perception of the city as "unclean" could also impact individual health decisions.

- Less than half of Hartford's residents are registered to vote; a trend that is often associated with fewer community resources and support networks.

Health Indicators

Cancer incidence for all types (specifically lung and prostate) is well below the national and state levels; however, it is important to keep in mind that Hartford has a relatively young population when compared to state and national figures. Key Informants also perceived cancer as less of a priority with only 11.9% respondents ranking it within their top five health issues.

- In general, chronic lower respiratory disease death is lower in Hartford than across the nation or in the state; however, asthma hospitalization rates in Hartford are much higher when compared to the state, with children and adult rates that are at least three times higher than the state rate. Asthma, not one of the options provided in the Key Informant survey, was the most frequently written-in health issue by participants.

- Although one of the top health issues identified by Key Informants was violence, most respondents perceive that violent acts, while isolated in Hartford, are a product of a depressed economic situation. Hartford accounts for more than a third of all murders in the state, and experiences a higher percentage of assaults. This disproportionate and avoidable indicator negatively impacts the overall quality of life in the city.

- There is a much younger population in Hartford compared to the state and nation that is reflected in the mortality rate. This is also reflected in a lower occurrence of the top ten national causes of death, which are often age-related. However, the much higher age-adjusted rate suggests that the elderly population, albeit small, is dying at a very high rate. Infant and neonatal death rates are much higher in Hartford than the state and nation. Hartford also has considerably higher rates of infectious/communicable diseases than the state.

- There is an indication that obesity is a concern for Hartford. Health indicators for heart disease are worse for Blacks and Hispanics, and those who live below the poverty threshold; diabetes rates in Hartford have been increasing in recent years.

Access to Care – Access to care was commonly cited in both the Key Informant study and the Hartford Survey Project. While the Hartford Survey Project concluded that the top four barriers to care were lack of knowledge about existing services, lack of available services, inability to pay, and lack of transportation, the Key Informant study showed a need for improving access to care across the board for a variety of underserved populations.

III. Methods: How We Obtained the Data

The data in this report were compiled from a variety of resources, and includes both quantitative and qualitative data. Additionally, it includes very specific information on critical health indicators and broader information regarding the social determinants of health.

The CHNA report synthesizes findings and data from the following three sources:

Key Informant Interviews – Each Workgroup member identified 5 to 10 people in management or leadership positions with various community organizations including health and human services, religious organizations, and government agencies; 85 unique Key Informants were identified by the Workgroup. Respondents were asked to critically evaluate health needs pertinent to the community through their experience. Survey questions focused on underserved populations and access to care issues in Hartford. In total, 59 interviews were conducted; see Appendix for a complete list.

The Hartford Survey Project – In order to better understand Hartford's human service needs and barriers to receiving services, a face-to-face survey conducted by the Urban Alliance was completed between October 2010 and January 2011. 402 resident surveys were completed at 12 locations throughout the city to promote geographical and ethnic diversity among respondents; these locations included grocery stores, pharmacies, and community events and programs. Respondents were asked if they would benefit from any of 12 service areas, the possible barriers to obtaining these services, and which three areas of the 12 have a need for additional services. In addition, they were asked to rank the top three service areas in Hartford that they believed were in most need.

Of the total respondents, 57% were female and 43% were male. The ethnicity breakdown was 39% African American, 37% Latino, 9% white, and 8% West Indian. Age categories for respondents were 27% between 18 and 29 years old, 42% between 30 and 49, 24% between 50 and 64, and 6% were 65 and older.

Secondary Data – Holleran, in coordination with HHS, prepared the initial community profile for Hartford from secondary data sources. In addition the following sources of data were used throughout this assessment:

- Connecticut Department of Public Health Vital Statistics and Health Outcomes
- Women's Health Quick Health Data Online via the Office on Women's Health (US Department of Health and Human Services)
- Health Data Interactive via the Centers for Disease Control and Prevention
- Connecticut Labor Market Information via the Connecticut Department of Labor

There was also an analysis of local, state, and national 2009 U.S. Census Bureau data collected via the annual American Community Survey; this data is available via the Census Bureau's website.

HHS was also able to use the Connecticut Health Equity Index (HEI) to build upon and enhance the findings from the original information. Developed by the Connecticut Association of Directors of Health (CADH), a non-profit membership organization that represents local directors of health departments and/or districts in the state, the HEI can be used to identify social, economic, and environmental conditions and their correlations or relationships to specific health outcomes. Key social determinants of the HEI include: civic involvement, community safety, economic security, education, employment, environmental quality, and housing. Collectively, these social determinants form the fabric of social and economic opportunity and a healthy environment, as well as provide insight to how social determinants may affect health outcomes and health care services of various populations living in the area of interest. The HEI is an excellent tool for determining how social factors are associated with community health, and by using up-to-date data sources, HEI's commitment to quality improvement evolves along with Connecticut's communities.

Hartford is one of three pilot sites in the state that was selected to test and evaluate the HEI for its use in mobilizing a community, stimulating sustainable action, increasing knowledge of health equity concepts and their application, and prompting structural changes that reflect local needs. Data collection for the HEI began in 2007 and continues through 2012. The HEI is based on a ten-point measurement scale, where 1 is a low score, which represents a less favorable community condition or health outcome, and 10 is a high score, which symbolizes a more favorable community condition or health outcome.

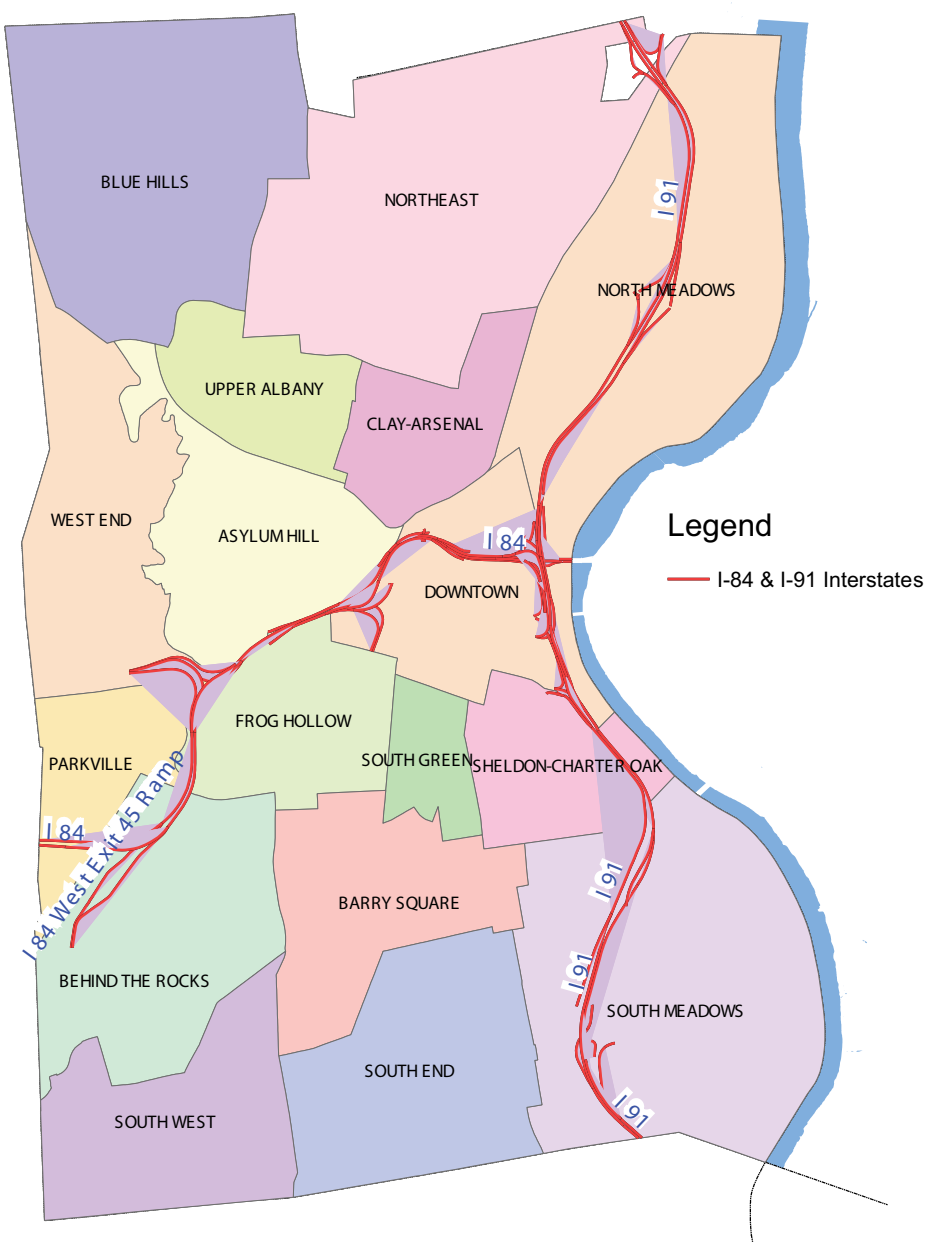
HEI maps were used to compare neighborhoods by social determinant or health outcome indicators. This comparison includes both the North Meadows and South Meadows neighborhoods for analysis, although the former is mainly comprised of car dealerships and landfill, and the latter with a small airport, a water pollution plant, and various commercial and industrial businesses. Together, both neighborhoods are home to less than 3% of Hartford's total population and must be considered when viewing the maps.

A feature of the HEI is that for every social determinant listed (civic involvement, community safety, economic security, education, employment, environmental quality, and housing), the varying factors used to determine the indexing are analyzed with each of the health outcomes in the index (accident/violence, cancer, cardiovascular, childhood illness, diabetes, health care access, infectious disease, life expectancy, liver disease, mental health, prenatal care, renal disease, and respiratory illness). Strength correlations are derived using Spearman's rank correlations, and are generated between the social determinant selected and significant health outcomes. The strength of a correlation is measured between 0 and 1, and the closer the coefficient is to 1 the stronger the correlation between the measures; a correlation of 0

signifies no statistical relationship between measures. Direction of a correlation is measured by signaling a correlation as positive or negative. A positive correlation signals a direct relation between two measures, while a negative correlation signals an inverse relationship. All correlations generated by the HEI are statistically significant.

The maps displayed throughout this report use a color gradient to indicate how Hartford neighborhoods rank with each other with regard to a specific social determinant or health indicator; the darker the color means the lower the rank. The subsequent map is a legend for all Hartford neighborhood names and should be referred to for neighborhood identification.

Map 1. **City of Hartford and Neighborhoods**



IV. Demographics

Hartford is the capital of the State of Connecticut and the seventh largest city in New England. At almost 400 years old, Hartford is one of the oldest cities in the country and at one point was one of the wealthiest. Still rich with history, it is home to the oldest public art museum and oldest public park in the nation. Starting in the late 1950s, many of the city's residents began moving to the suburbs, possibly accelerated by the construction of two major interstate highways intersecting within the city. And even though the metropolitan area ranked 32 out of 318 nationally in total economic production (second behind San Francisco in per capita economic activity) and the sixth lowest poverty rate of all Metropolitan Statistical Areas (metropolitan statistical area is a geographical region with a relatively high population density at its core and close economic ties throughout the area) for the 2010 census, the city itself remains one of the poorest in the nation; 31.9% of all its residents, and 38.3% of its families with children under 18 years old are living below the poverty line.

The population in Hartford is 124,775, with a **gender** ratio close to state and national ratios of 49% male and 51% female. Hartford is proportionally younger than the state and the U.S., which impacts numerous aspects of health including rates of some types of cancer, violence, and levels of unintended injury.

Table 1. **Age Categories for Hartford, Connecticut and the U.S.**

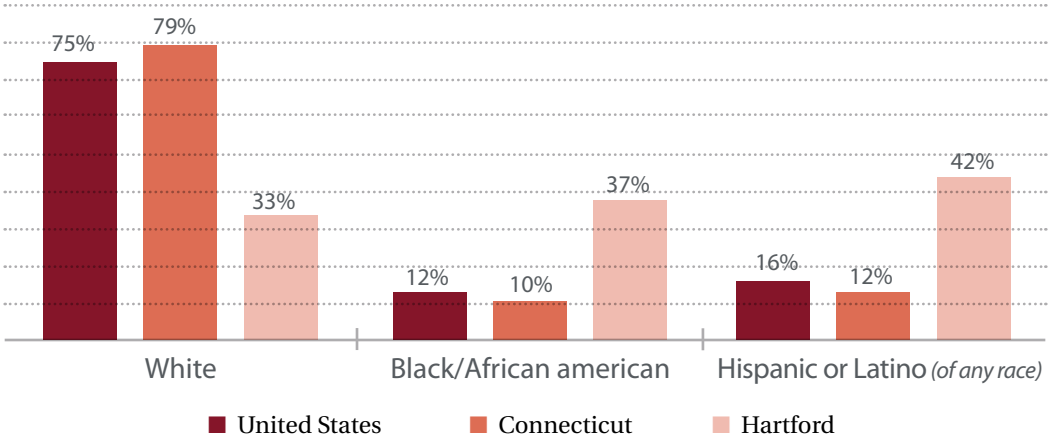
	HARTFORD	CT	US
0-19 years	**34%**	26%	27%
20-44 years	**37%**	32%	34%
45-64 years	**20%**	28%	26%
65 and older	**10%**	14%	13%

The **ethnic composition** of Hartford is mostly a mix between Hispanic/Latino of any race, Black/African American, and white. Hartford's white population is at a lower ratio than the U.S. and state while the proportion of Black and Hispanic/Latino residents is significantly higher. Ethnic variation in cultural norms, English comprehension, and beliefs about health impact the mode of health care delivery and how patients respond to health care services. This variation creates a need for increased awareness and sensitivity among service providers.

A significant percentage of Hartford residents can trace their heritage to Puerto Rico and the West Indies; in the 1940s, many immigrants from these areas moved to Connecticut to work in tobacco fields. 78% of Hartford's Hispanic/Latinos self-reported to be Puerto Rican in the 2010 census. Typically, West Indians are grouped with "Black/African American" in census data, which makes it difficult to highlight cultural differences. However, it is important to

note that the ethnic landscape in Hartford is changing as a greater number of families and individuals from Eastern Europe, Africa, and Southeast Asia continue to make Hartford their home.

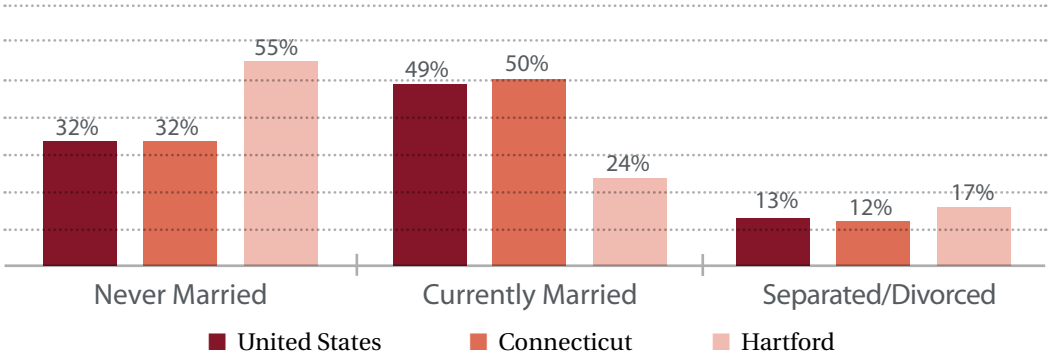
Figure 1. **Ethnic Composition for Hartford, Connecticut, and the U.S. (2009)**



This ethnic breakdown impacts the primary **language spoken** at home. The percentage of Hartford's population who only speak English is 52%, which is lower than a state and the nation comparison. Additionally, approximately 35% of Hartford residents speak a language other than English; the high percentage of non-English speakers could pose a barrier for access to all kinds of health promoting opportunities.

With regard to **marital status**, Hartford's population has a notably larger percentage of people who have never been married when compared to the state and the nation; the City of Hartford also has a smaller comparative percentage of people who are currently married and not separated. The data regarding separated/divorced residents and widowed residents are similar to state and national averages; however, the rate of legally separated couples (de facto separation while remaining legally married) in Hartford (5%) is twice that of the nation (2%).

Figure 2. **Marital Status Statistics for Hartford, Connecticut, and the U.S. (2009)**



VI. Social Determinants of Health

Quality of life issues are indicators that include not only wealth and employment, but also the built environment, physical and mental health, education, recreation and leisure time, and social belonging [2]. During this assessment, Key Informants were asked a variety of questions about quality of life in Hartford. For nearly all quality of life questions, 50% or more of informants ranked them as "Poor" or "Very Poor."

Table 2. **Poorly Rated Quality of Life Measures by Key Informants**

QUALITY OF LIFE	RATED "POOR" OR "VERY POOR"
Poverty	93.1%
Job opportunities	87.3%
Quality of housing (affordable, in good condition)	72.4%
Neighborhood safety	71.9%
Schools/education	65.5%
Clean, litter-free neighborhoods	63.1%
Road/traffic conditions	53.6%
Availability of recreational activities	52.6%
Availability of care for children	31.6%
Water or air pollution	26.4%

This information provides insight for those who are regularly involved in the health and human services sector. The following section will addresses social determinants of health, and how Hartford rates relative to state and national figures.

Housing

Adequate housing provides shelter and comfort to its inhabitants, both of which impact overall well-being. One of the measures used to evaluate the association of housing and health is the number of subsidized housing units per 1000 local residents as defined by the Connecticut Housing Finance Authority. Using 2005 data, the HEI correlated housing strongly with infectious disease in Connecticut, and Hartford received the overall lowest housing score in the HEI when compared to the rest of the state.

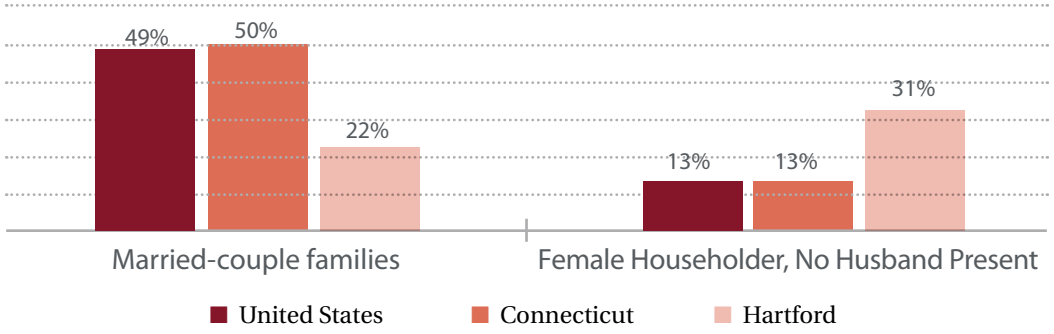
Subsidized housing is abundant in Hartford. As is typical throughout the United States, these subsidized housing units have become a feature of low-income and resource-poor areas. In Hartford, residing in subsidized housing is correlated with numerous health outcomes, such as increased rates of chlamydia and/or gonorrhea, asthma hospitalizations, infectious and parasitic diseases, homicides, drug-induced deaths, mental health hospitalizations, and births not receiving prenatal care in the first trimester.

A cursory analysis of **housing occupancy** in Hartford reveals that the city has over 44,000 occupied housing units of which 26% are owner-occupied; the state average is 69%. A higher rate of rental units is associated with poorer quality of housing and impacts health. Over 70% of Key Informants surveyed ranked housing quality at either "Poor" or "Very Poor." Further highlighting the housing issue, homelessness was the issue recognized as most in need of additional services by those surveyed by the Urban Alliance (45%).

Lower residential property values, accompanied by lower sales prices and a greater number of foreclosures are strongly associated with lower quality neighborhoods. Neighborhoods with these negative housing characteristics typically have higher crime rates, lower quality school systems and a poor physical environment (sidewalks, parks and properties). For 2010, the average assessed residential property value in Hartford was $43,689, which is significantly lower than the state's average value of $209,025; and the average sales price of an existing home was $164,462, which is lower than the state's average home sales price of $288,948.

Hartford **household statistics** for family (59%) and non-family households (42%) are similar to state and national rates, but deviate substantially for the percentage of female householders with no husband present (much higher than state and national) and the percentage of married-couple families (much lower than state and national). Additionally children in Hartford are almost three times as likely (19%) than those in the rest of Connecticut (7%) to live in households with no husband present.

Figure 3. **Household Types for Hartford, Connecticut, and the U.S. (2009)**



In the HEI, Hartford has a housing indexed score of 3, which is a less favorable condition in this category. Some of the calculating factors used to determine this score are rental vacancy rates as a percentage of rental units, owner occupied housing as a percentage of total housing units, and median gross rent as a percent of household income. These measures were calculated using data from the 2000 US Census.

Table 3. **Health Indicators Related to *Housing***

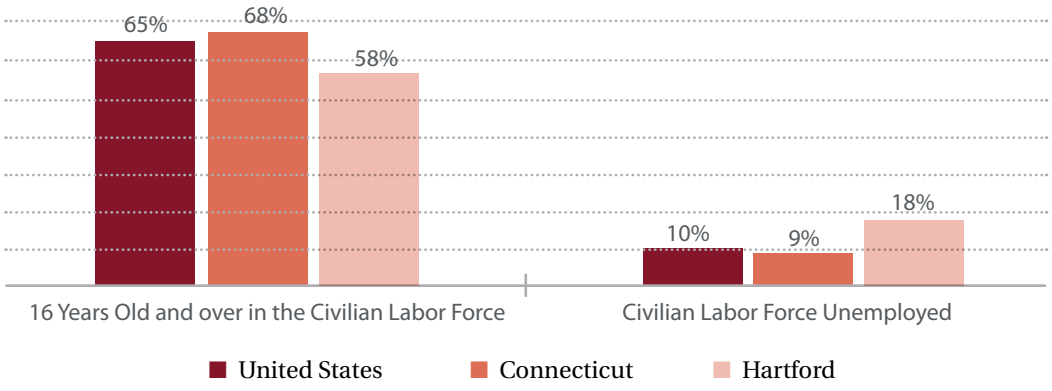
	HEI INDEX	CORRELATION COEFFICIENT
Infectious Disease	2	0.55
Health Care Access	2	0.47
Childhood Illness	1	0.42
Accidents/Violence	3	0.40
Mental Health	2	0.37
Renal Disease	2	0.33
Life Expectancy	3	0.31
Cardiovascular	3	0.29
Respiratory Illness	4	0.29
Diabetes	3	0.24
Perinatal Care	3	0.22
Liver Disease	2	0.20
Cancer	5	0.18

Note: All shown correlations are statistically significant and ranked in order from strong to weak.

Employment

As of September 2011, Hartford's unemployment rate was 15.6% according to the Connecticut Department of Labor's Labor Force Data, which is nearly twice the rate as the United States (8.8%). Against this backdrop, it is fitting that surveyed residents of Hartford rank job training/employment assistance as one of the top three service needs in the community. Key Informants had a similar view with 87% ranking job opportunities in Hartford as "Poor" or "Very Poor."

Figure 4. **Employment in Hartford, Connecticut, and the U.S. (2009)**



The percentage of workers in Hartford in management, professional, and related occupations (21.1%) is smaller than the state and nation (40.3% and 35.7%, respectively). Conversely, the percentage of those in the labor force with service occupations is much higher in Hartford

(34.4%) than across Connecticut and the nation (17.3% and 17.8%, respectively). With this disproportionate representation of Hartford residents across these occupational groups and the strong correlation between employment and health care access, one can see how Hartford struggles to maintain a healthy community profile.

Table 4. **Health Indicators Related to *Employment***

	HEI INDEX	CORRELATION COEFFICIENT
Health Care Access	2	0.54
Childhood Illness	1	0.48
Accidents/Violence	3	0.37
Life Expectancy	3	0.35
Respiratory Illness	4	0.28
Infectious Disease	2	0.28
Cardiovascular	3	0.28
Perinatal Care	3	0.26
Mental Health	2	0.23
Cancer	5	-0.19

Note: All shown correlations are statistically significant and ranked in order from strong to weak.

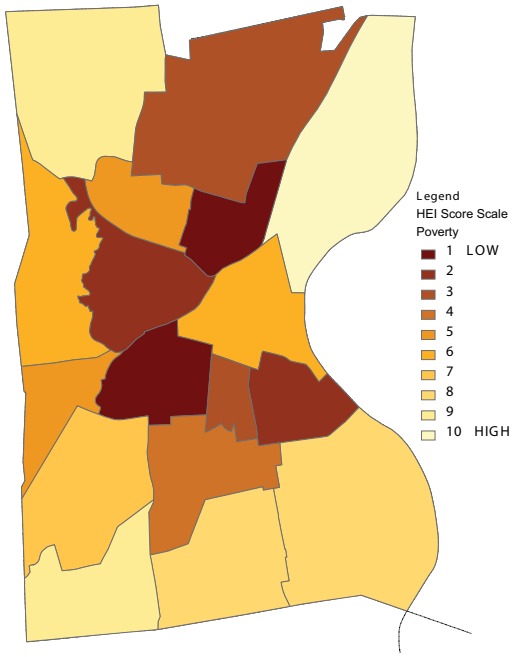
The lack of employment has long been linked to increased rates of mortality. For Connecticut, unemployment has been strongly correlated with decreased health care access, which can serve as a partial explanation for the correlations with a decreased life expectancy, and increased incidences of respiratory illness, and infectious and cardiovascular disease, as well as illness among children. This is reinforced by responses to the Key Informant survey where finances and access to health care were identified as significant barriers.

Economic Security

Hartford received the lowest possible score on the HEI for the majority of factors that determine economic security. Additionally, 93% of Key Informants rated Hartford's poverty level as either "Poor" or "Very Poor" on the Quality of Life section of the survey. Results from the Urban Alliance survey were similar, with employment opportunities and financial assistance topping the list of services needed. According to a report from the Robert Wood Johnson Foundation, income and educational attainment are the two most commonly used markers of socioeconomic status or position in the United States [3]. Both are strongly related measures of health and health-related behaviors. These factors can influence health through the direct effects of extreme poverty (such as malnutrition or exposure to extreme heat or cold) as well as health effects due to chronic stress; these can include the triggering and exacerbation of depression and cardiovascular disease [4].

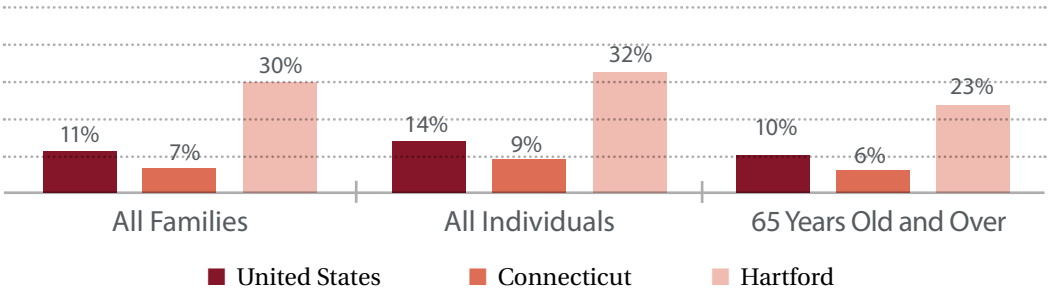
Below is a representation of how Hartford neighborhoods compare to each other with regard to poverty using HEI indexing from the 2000 U.S. Census. Using the color gradient in the legend, the darker colors indicate a lower ranking and higher level of poverty.

Map 2. **HEI Poverty Score by Neighborhood**



With 30.25% of Hartford's families living in poverty, the poverty statistics for the city are three times higher for families than in the United States overall and over 4 times greater than in Connecticut. Similar patterns have been documented for residents and for those over the age of 65.

Figure 5. **Poverty in Hartford, Connecticut, and the U.S. (2009)**



The **income statistics** for Hartford illustrate that the median income per household and family, are significantly less than the state and national figures.

Table 5. **Income Statistics for Hartford versus State and Nation**

	HARTFORD	CT	US
Median Household	**$28,300**	$67,034	$55,221
Median Family	**$33,805**	$83,069	$61,082

In Connecticut, living in poverty is correlated with higher rates of chlamydia and gonorrhea, trauma-related hospitalizations and ED visits, mental health ED treatments, homicide, hepatitis C, diabetes, drug and alcohol induced deaths, low and very low birth weight babies, and infectious and parasitic diseases.

Education

Just as low levels of employment impact community health, so does low educational attainment. 13.9% of Hartford residents perceive education to be one of the top three needs for the community. Key Informant survey respondents noted that the best way to promote wellness and prevention of illnesses in Hartford residents is through education. One respondent noted that starting with school-age children is the best way to achieve these goals. Another declared that it is necessary to tailor the education to "racial, cultural and other different types of understandings to get to the people of the city," and that the frequency of wellness education should be "not just doing it once a year" in order to convey necessary concepts.

Results from the Connecticut Mastery Test and Connecticut Department of Education were used to establish a connection to community health, as indicated in the following table:

Table 6. **Health Indicators Related to *Education***

	INDEX SCORE	CORRELATION COEFFICIENT
Childhood Illness	1	0.73
Life Expectancy	3	0.64
Infectious Disease	2	0.59
Health Care Access	2	0.57
Accidents/Violence	3	0.55
Cardiovascular	3	0.51
Mental Health	2	0.42
Respiratory Illness	4	0.41
Renal Disease	2	0.39
Diabetes	3	0.38
Perinatal Care	3	0.34
Liver Disease	2	0.21

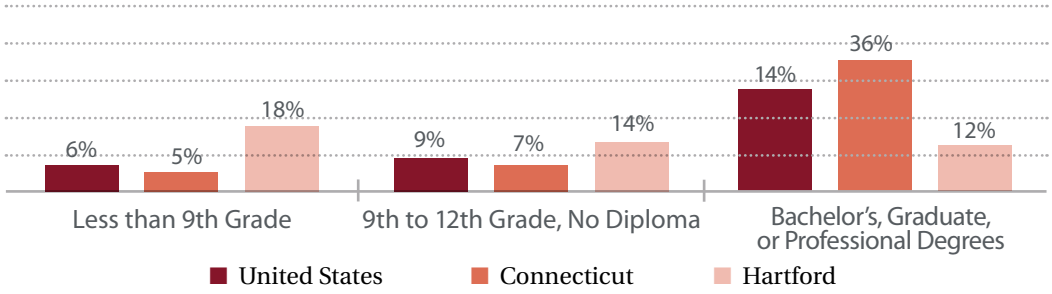
Note: All shown correlations are statistically significant and ranked in order from strong to weak.

As the demographic data indicates, Hartford residents are less likely to graduate from high school and are less likely to obtain post-secondary education when compared to the state or nation as a whole. The strong correlations suggest that a higher educational attainment leads to better health throughout an individual's lifespan, and better health and education enable people to realize their capabilities to be productive members of society [5], with greater potential for positively impacting the community.

In Hartford, low rates of educational attainment are coupled with lower standardized test scores and less frequent renovations of the city's public school facilities; according to the Connecticut State Department of Education's Connecticut Education Data and Research (CEDaR) website, the average number of years since a major renovation for Hartford's elementary, middle, and high schools is 25.8, 33.8, and 17.5 years, respectively. As indicated in the table above, education is correlated with a host of preventable poor health outcomes including increased rates of childhood illness, respiratory illness, renal and liver disease, diabetes, and infectious diseases; poorer cardiovascular health; and frequency of accidents and violent incidents. Other correlations to education include lower life expectancy, lower rates of perinatal care and health care access, and worse mental health outcomes.

Over 30% of Hartford's adults of 25 years and older do not have a high school diploma, which is significantly higher than the 12% for the state. Conversely, the percentage of Hartford's population with a bachelor's degree or higher is also lower than both state and national figures at 12% when compared to 36% for the state. When these data are examined more closely it becomes clear that the problem of low **educational attainment** begins early for many, with 18% of Hartford residents over age 25 having less than a 9th grade education and another 14% having attained from 9th and 12th grade but without a diploma.

Figure 6. **Educational Attainment of Adults 25 Years and Older for Hartford, Connecticut, and the U.S. (2009)**

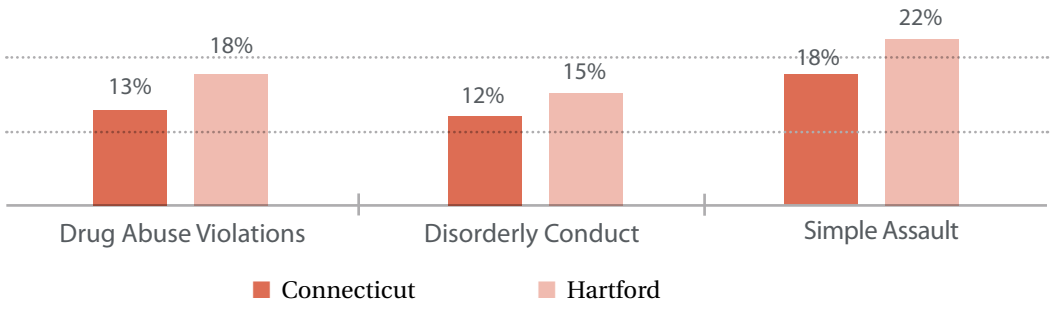


Community Safety

The HEI measures community safety by the rate of crimes against persons or property published by the 2004/2005 Connecticut Uniform Crime Reports, and within this framework Hartford receives the lowest score of 1 indicating high rates of crime. However, the crime statistics found in the Secondary Data Profile are potentially inconclusive because a high

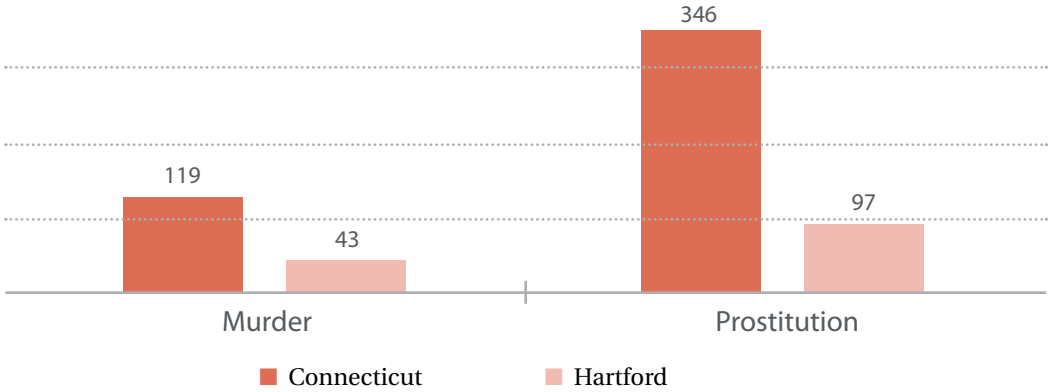
rate of arrests in the city could either indicate that crimes are more prevalent or that more effective law enforcement approaches have been implemented. Nevertheless, according to the 2009 Uniform Crime Report from the Connecticut Department of Public Safety, over one third of all murder arrests in Connecticut occurred in Hartford. Moreover, almost 20% of the state's drug abuse violations occur in the city. Other violent crimes that occur more frequently in the Hartford than in the state are simple assault and disorderly conduct.

Figure 7. **Percent of All Crimes in Hartford and Connecticut (2009)**



Over 70% of Key Informants rated neighborhood safety in Hartford as "Poor" or "Very Poor." Given the opportunity to define a healthy community, one Key Informant stated that it should be "a community where individuals and families would choose to live [and one that can] provide a quality of life that is safe and engaged. People are being physically healthy, not being subject to lead poisoning and toxic things. Violence and noise pollution are not issues." Unfortunately, this community scenario is not widely available for the majority of Hartford residents, but community safety has multiple measures and Hartford experienced proportionally less crime than the state on infractions involving larceny/theft, gambling, liquor laws, and driving under the influence.

Figure 8. **Crime in Hartford and Connecticut (2009)**



In 1982, Wilson and Kelling introduced the broken windows theory to explain urban disorder and vandalism on crime and anti-social behavior [6]. The appearance of the environment can suggest what is acceptable, with a disordered environment implying that behaviors that are usually unacceptable can be perpetrated without fear of consequences. And although this theory has been met with criticism cities such as New York and Albuquerque have implemented policy shifts to address "quality of life" issues and have seen improvements in the overall community security and decreases in crime. Generally speaking, a safer community is synonymous with a healthier community.

Hartford has taken strides to address its issue with violence in the city. Since the re-instatement of the Shooting Task Force in 2011, shootings have decreased by 35% [7]. Although the partnership with neighboring cities, the Connecticut State Police, and the Office of the Attorney General has been effective in reducing shootings, a more comprehensive approach in crime intervention is needed. The City of Hartford is also making a concerted effort to improve the condition of its neighborhoods through the implementation of the Livable and Sustainable Neighborhoods Initiative. As part of this initiative, city government is partnering with homeowners and other neighborhood stakeholders throughout the city to address blighted properties and revitalize Hartford's sense of community. By addressing the needs of some of Hartford's most vulnerable areas, the city is taking proactive steps to rebuild its infrastructure, reduce crime, and restore hope.

Environmental Quality

The environment where we live, work and play; the quality of the air we breathe; the water we drink – all of these have an impact on our health. While individual education and behavior change are important to improving health, the real power in making progress on health is in changing the environment and systems that structure and affect our world.

The HEI measures the relative environmental burden of Connecticut's municipalities by using specific Federal Toxic Release Inventory data, examining levels of locally generated air and water pollution, and industrial density. These two measures are positively correlated with employment opportunities; however, they are however negatively correlated with health outcomes. Hartford receives an average score (4) in the Health Equity Index for both the number of facilities reporting and the total air emissions in pounds. Total water discharge and waste stream in pounds, measures of water pollution, are strong indicators of localized pollution levels, and Hartford has high levels of both. These two measures strongly correlated with the chlamydia and gonorrhea rates.

While potential relationships between high STD rates and a high environmental burden may initially seem attenuated at best, both act as a highly reliable indication of a marginalized neighborhood impacted by blighted property and compromised opportunities for fulfillment. Strong correlations between two seemingly distinct and independent realms such as environment and STDs speak to the vast array of various social and health burdens underserved communities bear disproportionately.

Civic Involvement

According to the HEI, Hartford receives the lowest possible score in terms of civic involvement. Civic involvement impacts health because it is a direct measure of social equity, activism and sustainability of a community; the HEI indicates a strong correlation of low civic involvement with infectious diseases, accident/violence, childhood illness, and life expectancy.

Table 7. **Health Indicators Related to *Civic Involvement***

	INDEX SCORE	CORRELATION COEFFICIENT
Infectious Disease	2	0.59
Accident/Violence	3	0.57
Childhood Illness	1	0.51
Life Expectancy	3	0.50
Mental Health	2	0.45
Cardiovascular	3	0.42
Health Care Access	2	0.42
Liver Disease	2	0.33
Renal Disease	2	0.32
Respiratory Illness	4	0.31
Diabetes	3	0.29
Perinatal Care	3	0.29

Note: All shown correlations are statistically significant and ranked in order from strong to weak.

Communities with demonstrated social cohesiveness are more likely to have greater resources and support networks, which would allow for improved health outcomes. Approximately 45% of Hartford's adult residents are registered to vote indicating that an inadequate proportion of the community selects state and municipal government officials. Several factors may prevent an individual from registering to vote including a lack of motivation, frustration with current leaders, or language or cultural barriers. In order to increase the number of registered voters, community-based education initiatives should be employed and should focus on demonstrating to individual residents that they are valued members of the community, and that their vote does in fact make a difference.

Community Food Security

Although not identified as a social determinant of health within the HEI, food security plays a vital role in urban settings like Hartford. While there are 14 medium and large grocery store retailers in the city, corner markets, convenience stores, and fast-food outlets are far more abundant, making a healthy diet difficult to maintain. Pre-packaged and prepared foods are more readily available at such establishments, and their lack of fresh and healthy foods can contribute to various poor health outcomes. In response to this deficiency, the City of Hartford, in partnership with farmers and community-based organizations, is working to

increase the number of farmers' market in the city. In 2011, there were 6 certified farmers' markets in the city accepting grant funds from the Women, Infants and Children federal program and its supplemental nutrition program, the Farmers' Market Nutrition Program. Furthermore, three of the markets were certified to accept Supplemental Nutrition Assistance Program benefits, which helped low-income people and families buy the food necessary for good health.

A report distributed by the University of Connecticut College of Agriculture and Natural Resources found that the presence of food retail resources were not significantly associated with community food security but income and lack of transportation that limit access to food are significantly associated. Despite high numbers of families enrolled in public food assistance, towns with greater rates of households headed by females or the elderly, or lack of education experience greater rates of food insecurity [8].

Foods that are highly processed contain both trans fats and refined sugars, and can lead to both diabetes and heart disease by increasing weight and cholesterol levels. The healthy food shopping choices available to Hartford residents are limited, and signal poor community health. More attention is needed for the overall food system components, including a greater focus on nutrition and cooking skills development.

VII. Health Indicators

As part of the assessment process, Key Informants were asked to rank the **five most significant health issues** in the City of Hartford. The respondents could choose from a list of 25 health issues as well as suggest their own that were not on the list. The five most identified – obesity, diabetes, mental illness, heart disease, and asthma – consisted of four health issues from the list and one write–in response.Mortality statistics are also noted in this section and infectious disease was included due in part to the unique age distribution of Hartford.

This section will also highlight how Hartford rates low in community health when compared to other Connecticut municipalities. As a result of its relatively low standing, this assessment focuses on a Hartford neighborhood comparative using city–specific indexing from the HEI in order to gain a richer understanding of city health concerns. The health outcomes included here are Life Expectancy, Mortality, Infant Mortality, Infectious Diseases, Respiratory Illness, Obesity/Heart Disease, Diabetes, and Mental Health.

Life Expectancy

Percent of deaths for the City of Hartford due to any of the top 10 causes of death in the U.S. are overall smaller when compared to the state and nation. The strongest positive determinant correlations with life expectancy are education, economic security, and civic involvement; with Hartford rating very low in each (HEI index of 2, 2, and 1, respectively).

Table 8. **Social Determinants of Health Related to *Life Expectancy***

	INDEX SCORE	CORRELATION COEFFICIENT
Education	2	0.64
Economic Security	2	0.61
Civic Involvement	1	0.50
Community Safety	1	0.41
Employment	3	0.35
Environmental Quality	4	0.34
Housing	3	0.31

Note: All shown correlations are statistically significant and ranked in order from strong to weak.

Table 9. **Top 10 Leading Causes of Death for Hartford, Connecticut and the U.S. (ranked from most to least common for Hartford; 2005-2007)**

	CITY OF HARTFORD	CONNECTICUT	U. S.
Heart Disease	**24.2%**	25.6%	25.4%
Malignant Neoplasms (Cancer)	**18.2%**	23.8%	23.1%
Accidents (Unintentional Injuries)	**5.5%**	4.2%	4.8%
Stroke (Cerebrovascular Disease)	**4.8%**	5.2%	5.5%
Chronic Lower Respiratory Diseases	**3.7%**	4.9%	5.3%
Diabetes	**3.4%**	2.6%	3.1%
Septicemia	**2.6%**	2.1%	1.4%
Influenza/Pneumonia	**2.4%**	2.9%	2.2%
Nephritis, Nephrotic Syndrome, and Nephrosis (Kidney Disease)	**2.3%**	1.9%	1.9%
Alzheimer's Disease	**1.2%**	2.6%	2.9%

However, the age-adjusted mortality rate (AAMR; defined as a death rate that controls for the effects of differences in population age distributions.) for all causes of death for the city is notably larger than that of the state and nation (876 compared to 692 and 778, respectively). With a younger population, this dramatic difference in the age-adjusted rate suggests that the mortality rate for older populations in Hartford is very high even though the elderly population itself may not be very large. Therefore, deaths due to heart disease and cancer low compared to the state and the U. S.

The Years of Potential Life Lost (YPLL; defined as an estimate of the average years a person would have lived if he or she had not died prematurely.) for Hartford was 10,647 per 100,000 for 2005-2007 for all causes of death. HEI scores Hartford 2 for YPLL. This measure correlated inversely with obtaining a bachelor's degree, and having a higher median household income and median value for owner occupied housing. It had a reverse effect for adults with less than a 9th grade education, so the lower level of education, the greater the years of potential life lost.

Infant/neonatal mortality is a major concern for Hartford; the mortality rates in Hartford for infants and neonates are markedly greater than those across Connecticut and the United States. Upon further examination, there is a pronounced disparity among infant deaths for infants of different races and ethnicities in Hartford; from 2001 through 2008, the mortality rate for Black infants was consistently higher than either the white or Hispanic infant mortality rate.

Figure 9. **Infant and Neonatal Mortality Rates* for Hartford, Connecticut, and the U.S. (2006)**

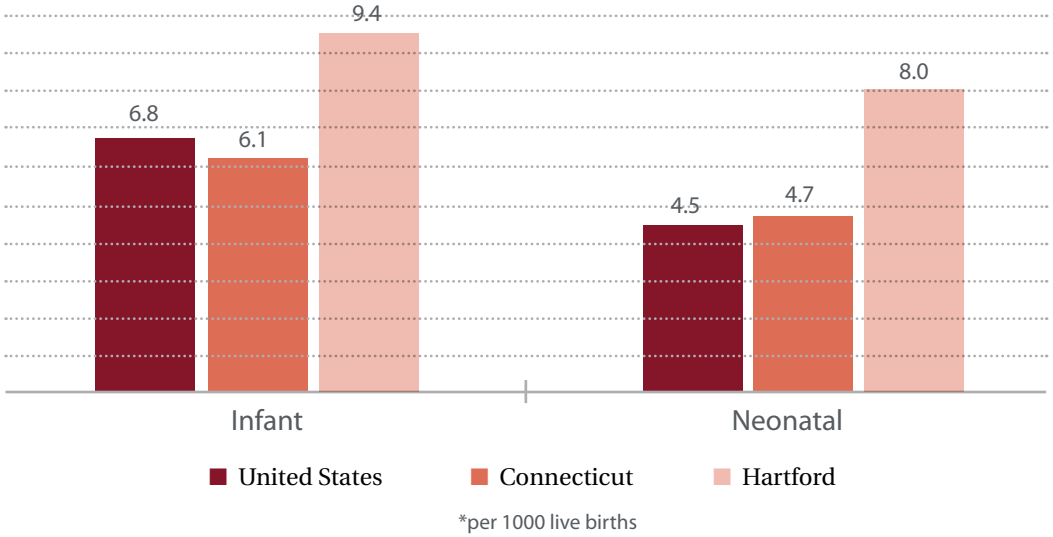


Figure 10. **Infant Mortality Rates by Race/Ethnicity, Hartford, CT (2001-2008)**

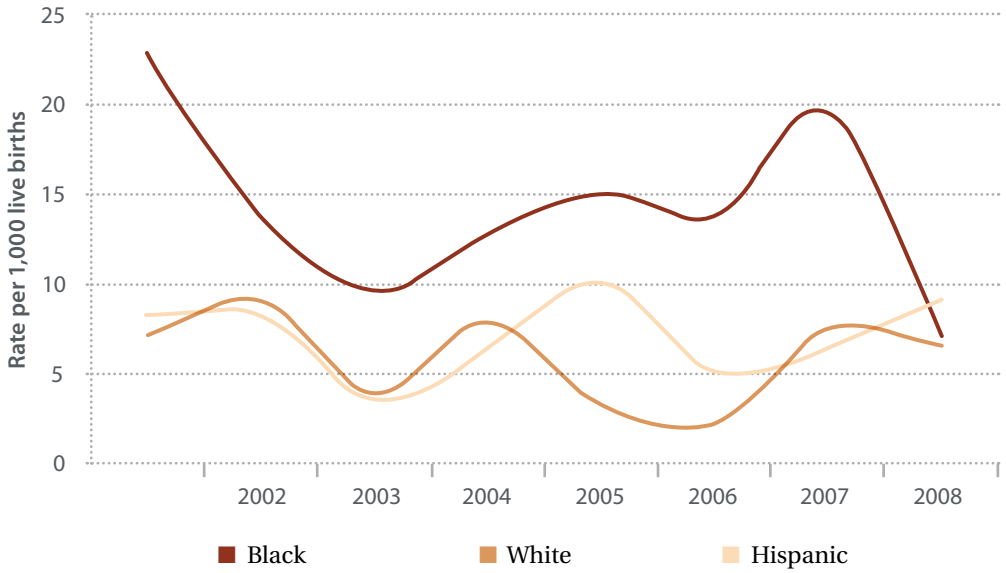
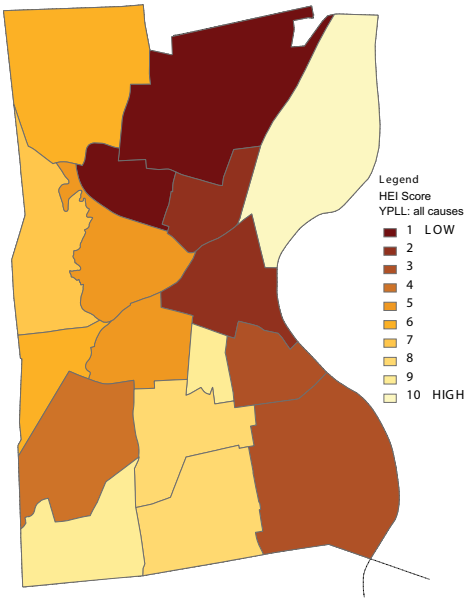


These adverse infant health outcomes greatly contribute to a lower than average life expectancy in Hartford. The following map highlights how its neighborhoods compare to each other with regard to the YPLL measure; the darker colors indicate a lower rating (greater number of years) for potential life lost. Six out of 15 neighborhoods (excluding the North and South Meadows neighborhoods) rated low on the YPLL. Per the HEI, the Northeast and Upper Albany neighborhoods were the lowest rated of all Hartford neighborhoods.

Map 3. **HEI Years of Potential Life Loss (YPLL) Score: All Causes by Neighborhood**



Infectious Diseases

In the state of Connecticut, there is a strong correlation of infectious disease with multiple social determinants, as demonstrated in Table 10.

Table 10. **Social Determinants of Health Related to *Infectious Disease***

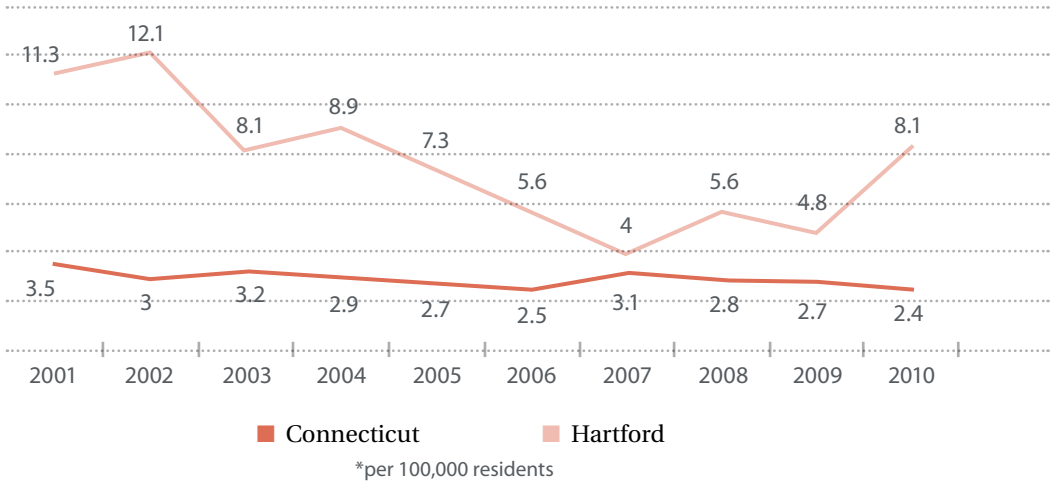
	INDEX SCORE	CORRELATION COEFFICIENT
Community Safety	1	0.67
Education	2	0.59
Environmental Quality	4	0.59
Civic Involvement	1	0.59
Economic Security	2	0.58
Housing	3	0.55
Employment	3	0.28

Note: All shown correlations are statistically significant and ranked in order from strong to weak.

There is particular concern when examining **HIV** trends in the city. From 2002 through 2009 per the Connecticut Department of Public Health HIV Surveillance Program, the number of HIV infection cases declined for the city; however, there has been a 221% increase of new HIV infections among self-reporting men who have sex with men over the same time period, as well as a 123% increase in new infections amongst Hartford's Black residents.

There is an established correlation between HIV rates and rates of tuberculosis infection [9]; however, that does not seem to be the case in Hartford. Data from the Connecticut Department of Public Health's Tuberculosis Control Program shows that while tuberculosis rates in Connecticut are in decline, tuberculosis rates in Hartford are increasing.

Figure 11. **Tuberculosis Prevalence* in Hartford and Connecticut (2004-2010)**



The Connecticut Department of Public Health's STD Control Program provides information on infections more commonly associated with reproductive health. From 2007-2010, a total of 7768 cases of **chlamydia** were reported in Hartford (rate of 157 per 10,000 residents), which is almost 1.5 times higher than the next highest rate of chlamydia infection in the state. Among Blacks and Latinos, the rates were 12.1 and 5.3 times higher than those for whites, respectively. Of all the diagnoses reported during this period, approximately 70% of the cases were among 15 to 24-year olds; Black and Latino female adolescents and young adults accounted for about 36% and 20%, respectively, of all reported chlamydia cases during this same period.

Gonorrhea is the second most commonly reported STI in Hartford after chlamydia. Between 2007 and 2010, approximately 20% of the total reported cases of gonorrhea in the state occurred in Hartford (a rate of 40.5 per 10,000 residents). The rate of infection of women when compared to men was 1.5 times higher (119 versus 78 per 10,000 residents, respectively). Blacks and Latinos also had a disproportionate rate of infection when compared to whites (15.3 and 4.1 times greater, respectively); infection rates were also the highest for 15- to 24-year olds.

Since 2008 the prevalence of **syphilis** in Hartford has increased from 4.1 to 10.5 cases per 100,000 residents; and approximately 94% of all reported cases were male. A racial and ethnic disproportion is also reflected, as African American and Latino male rates were 9.2 and 4.3 times higher than white males, respectively.

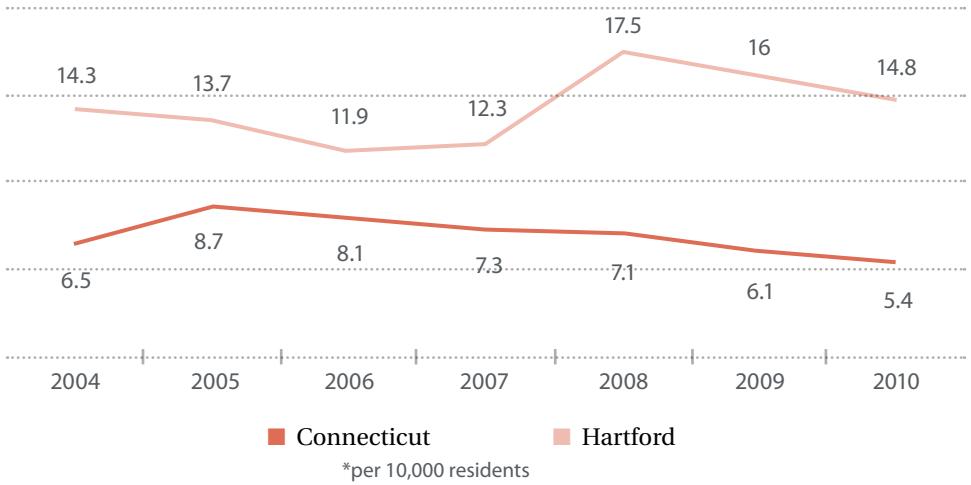
Table 11. **Syphilis in Hartford among Males by Age Category (2007-2010)**

	PERCENT INFECTED
15-24 years old	34%
25-34 years old	10%
35-44 years old	41%

During this same time period, syphilis prevalence among males 25-34 year old increased 81% to 32 cases per 100,000; and among males 35-44 years old it increased 51% to 79 cases per 100,000.

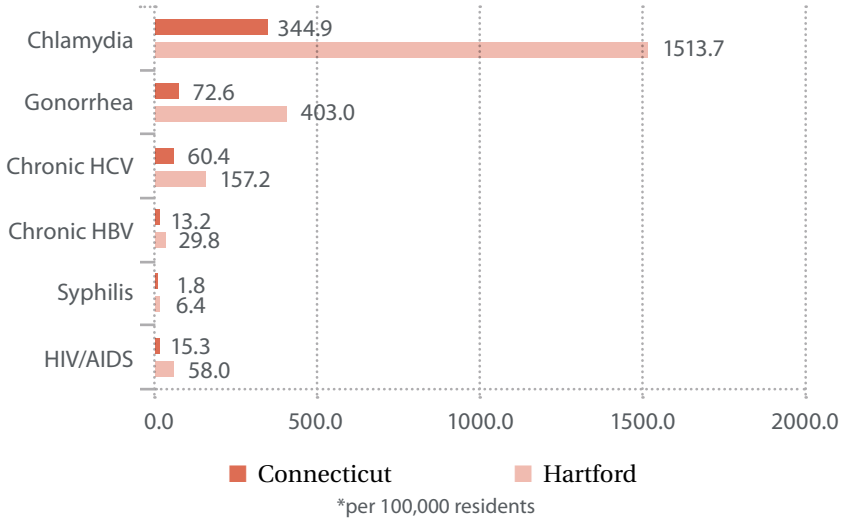
The information concerning **Hepatitis C** (HCV) for the state and the city is limited. From the data available, chronic HCV rates in Hartford have been declining for the past 3 years, yet they still remain 2.7 times greater than the state prevalence.

Figure 12. **Chronic HCV Prevalence* in Hartford and Connecticut (2004-2010)**



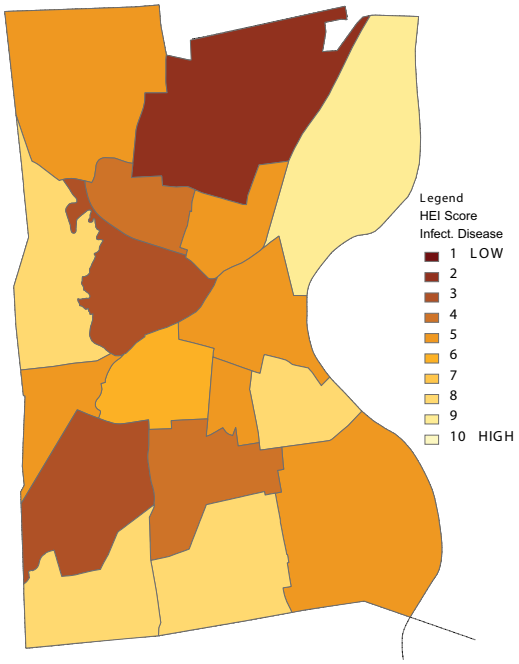
With these disproportionate rates of infection, it is not surprising that when compared to the state the city's HEI rating is 2 for all infectious diseases. The following displays a summary of how the city rates when looking at some of the infectious disease trends:

Figure 13. **Infectious/Communicable Diseases Prevalence* in Hartford and Connecticut (2009)**



Using data from Connecticut's Department of Public Health, a comparison of how Hartford's neighborhoods compare to each other with regard to infectious diseases is demonstrated in the following map using the same HEI rating system; the Northeast rated lowest out of 17 total neighborhoods.

Map 4. **HEI Infectious Disease Score by Neighborhood**



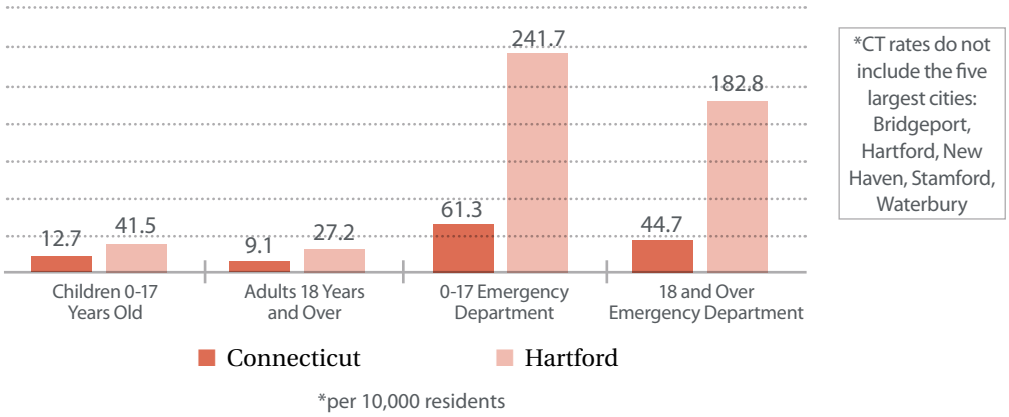
Based on secondary data analysis, Hartford has considerably higher rates of preventable infectious/communicable diseases than the state with the exception of Lyme disease.

The Department of Health and Human Services and the Consortium can identify the prevalence of infectious diseases and provide resources to those who are in most need. The Department's division of Disease Prevention and Health Promotion has both an STD and TB clinic, as well as an HIV program, all geared to curtail infection rates and keep Hartford residents informed and educated. The federal government has passed legislation that provides for individuals who live with HIV/AIDS affordable, high-quality HIV care and related services. For those who are already established Ryan White consumers, there is a network of agencies and area providers that are connected to the city and in position to provide needed services and resources.

Respiratory Illness

Based on data gathered in the Secondary Data Profile, asthma is an area of concern for the community. According to the Connecticut Department of Health, the hospitalization rates for asthma are notably higher for Hartford when compared to the state as seen in the following figure.

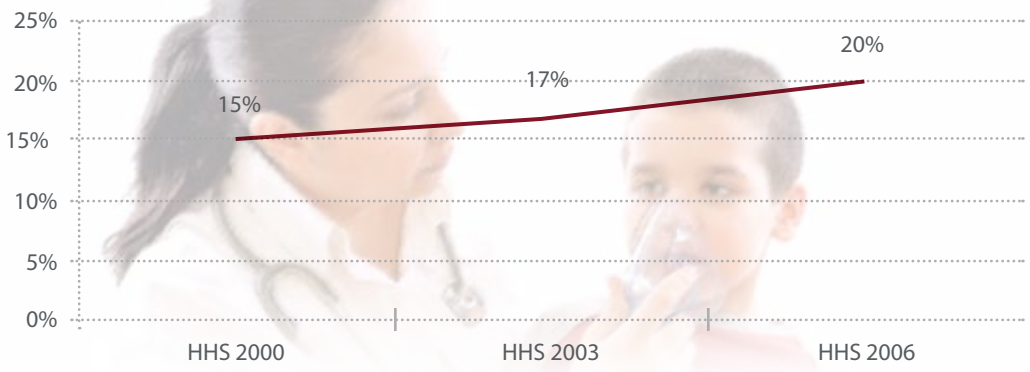
Figure 14. **Asthma Hospitalization Rates* in Hartford and Connecticut (2009)**



*per 10,000 residents

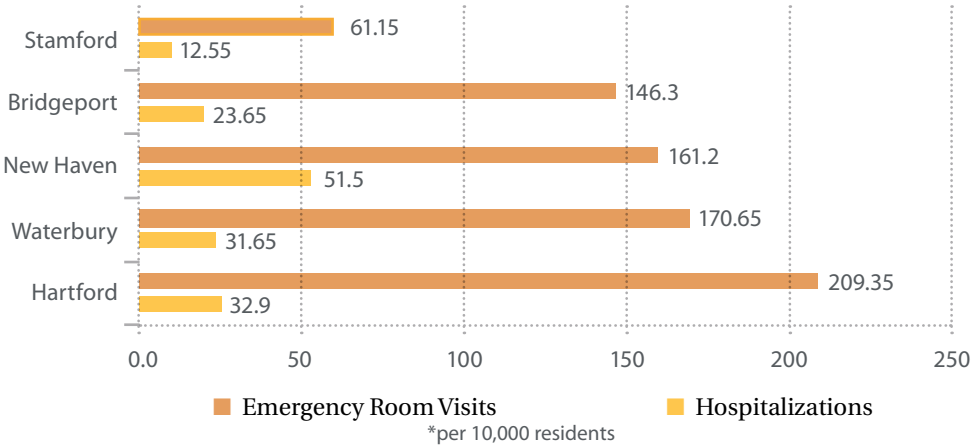
In 2006, the self-reported responses of current asthma among adults were 20%. This is the highest percentage of self-reported asthma in the past three Hartford Health Surveys, an HHS survey conducted through community partners every three years to gauge resident health and access to health care.

Figure 15. **Percent of Self-Reported Asthma from Hartford Health Survey (2006)**



Regardless of how residents self-report, Hartford has the highest rate of emergency room usage (209 ER visits for every 10,000) and the second highest rate of hospitalization for asthma as the primary cause of diagnosis (33 admissions per 10,000) when compared to other major Connecticut cities.

Figure 16. **Asthma Hospitalizations and Emergency Room Visit Rates* for All Residents by Connecticut City (2001-2007)**



Similar to asthma hospitalization rates, mortality rates are also an area of concern when compared to the rest of the state. The asthma-related mortality rate for men in Hartford is 22.4 per 10,000 men compared to 7.9 for the rest of Connecticut. Similarly, the mortality rate for women in Hartford is 42.5 compared to Connecticut's rate of 16.5.

In general, respiratory illness in Hartford has some moderate correlations, as noted in the following table, but the HEI indexed score is very low for each of the social determinants correlated to respiratory illness.

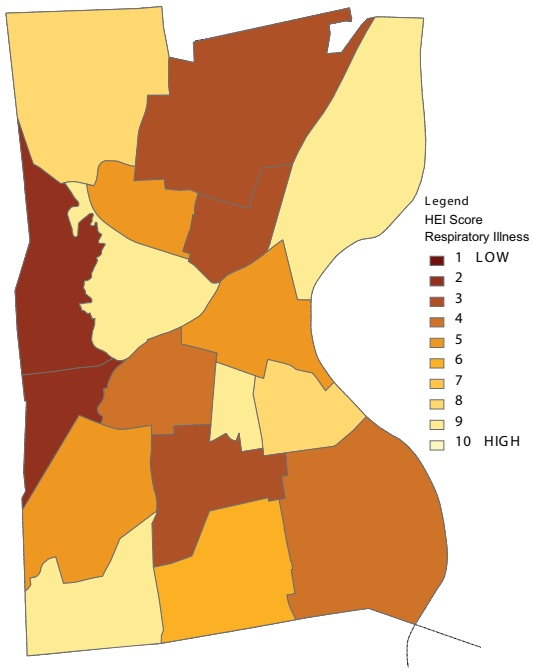
Table 12. **Social Determinants of Health Related to *Respiratory Illness***

	INDEX SCORE	CORRELATION COEFFICIENT
Economic Security	2	0.45
Education	2	0.41
Civic Involvement	1	0.31
Housing	3	0.29
Employment	3	0.28
Community Safety	1	0.26
Environmental Quality	4	0.18

Note: All shown correlations are statistically significant and ranked in order from strong to weak.

Using Connecticut Department of Health Office of Vital Records data, the HEI scores Hartford an overall indexed score of 4 when compared to other Connecticut towns and cities. The following map gives an indication of where the lowest scores lie when comparing among Hartford's neighborhood; the West End and Parkville neighborhoods ranked the lowest among Hartford neighborhoods with regard to respiratory health.

Map 5. **HEI Respiratory Illness Score by Neighborhood**



To help address these issues, the Asthma Call to Action Taskforce, a coalition of representatives from Hartford's Department of Health and Human Services, public schools, area hospitals, community organizations, and other agencies that are concerned about asthma in Hartford, seek to increase awareness about asthma to its residents, improve asthma care, establish a network of individuals and organizations to provide education and resources, and define asthma rate improvement strategies.

Obesity and Cardiovascular Disease

The percentages of obese Connecticut adults 20 years and older are notably higher for the Black and Hispanic populations (39.8% and 29%, respectively) than the state's white population (20.6%) [10]. Obesity is most commonly measured as a percentage of body fat based on height and weight. The following table shows the percent of healthy, overweight, and obese adults in the UnitedStates for all income levels as determined by the National Health and Nutrition Examination Survey. These weight category trends are similar when looking solely at people who are classified as "poor" (those who lived below the poverty threshold, currently set at a yearly income of $11,139 for individuals and $22, 314 for a family of four) by the US government. With a high rate of unemployment and a low HEI ranking for economic security, it can be assumed that obesity trends in Hartford are similar and that there is an increased relative risk for hypertension and adverse cardiovascular outcomes [11]."

Table 13. **United States Weight Categories**

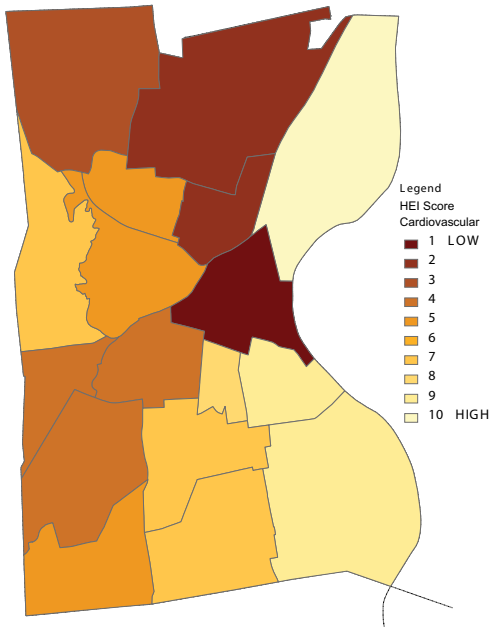
	HEALTHY WEIGHT	OVERWEIGHT	OBESE
1988-1994	41.9%	33.0%	22.7%
2001-2004	32.4%	34.7%	31.2%
2005-2008	30.9%	33.5%	33.9%

Similar rates emerge when looking at people who are classified as "poor" by the US government (those who live below the poverty threshold, currently set at a yearly income of $11,139 for individuals and $22,314 for a family of 4). With high rates of unemployment and a low HEI rating for economic security in Hartford, this trend is most likely mirrored in the city.

Downtown, the neighborhood with the lowest residential density, has the highest economic security and education scores, as well as the largest proportion of white residents. Despite such a low percentage of Hartford residents living Downtown, the fact that this population enjoys greater employment as well as health care coverage contributes to an increase in cardiovascular diagnoses and ultimately prevents undesirable health outcomes. For the remainder of Hartford's residents, cardiovascular health indicators remain elusive.

Obesity has been linked to both cardiovascular health and diabetes [12], and heart disease was the leading cause of death for Hartford from 2005 to 2007. The Northeast and Frog Hollow neighborhoods rate the poorest for these two significant risk factors.

Map 6. **HEI Cardiovascular Disease Score by Neighborhood**



There are several strong and moderate correlations with cardiovascular health, the top being education and economic security; below is a table listing the top five.

Table 14. **Social Determinants of Health Related to *Cardiovascular Health***

	INDEX SCORE	R_S VALUE
Education	2	0.51
Economic Security	2	0.48
Civic Involvement	1	0.42
Environmental Quality	4	0.36
Community Safety	1	0.33
Housing	3	0.29
Employment	3	0.28

Note: All shown correlations are statistically significant and ranked in order from strong to weak.

Diabetes

The fact that diabetes often presents as a co-morbidity with other diseases, it is difficult to segregate the information for just diabetes. The following table shows the age-adjusted percentages for adults 20+ for selected ethnic groups throughout the state; the data are from the Centers for Disease Control Behavioral Risk Factor Surveillance System (BRFSS).

Table 15. **Connecticut Residents with Diabetes by Race**

YEAR	ALL ADULTS	NON-HISPANIC WHITE	NON-HISPANIC BLACK	MEXICAN-AMERICAN
2005	7.2%	6.6%	14.3%	15.1%
2006	6.9%	6.4%	15.0%	10.4%
2007	8.3%	7.1%	20.4%	13.5%
2008	7.2%	6.2%	16.1%	11.6%
2009	6.8%	6.4%	13.0%	9.7%
2010	7.6%	7.0%	13.9%	9.5%

The rates are alarmingly higher for non-Hispanic Blacks, and Hispanics; these trends are the same across all economic levels, and substantially higher for those who live below and near the poverty threshold. Since 2007, there has been a significant improvement in these high rates as both the Black and Hispanic populations in the state have experienced a drop in the rate of diabetes, but there is still a diabetes health disparity drawn along racial lines for the state.

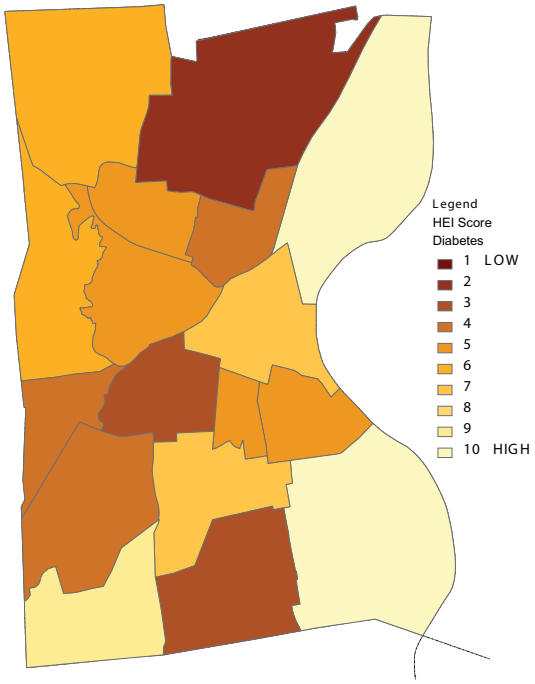
While Hartford's diabetes rate is lower than the state's, the CDC indicates that Hartford's rate is on the rise. If the state trend in diabetes is any indication of how the city is afflicted by this disease, then the assumption would be that the Black population is disproportionately affected when compared to other racial/ethnic groups.

Figure 17. **Diabetes in Hartford for Adults**

Source: US Dept of Health and Human Services, The Office on Women's Health

The neighborhoods are compared to one another in the following map using the HEI indexing giving an indication where in Hartford diabetes is more of a health issue. The Northeast neighborhood ranks the lowest among Hartford neighborhoods.

Map 7. **HEI Diabetes Score by Neighborhood**

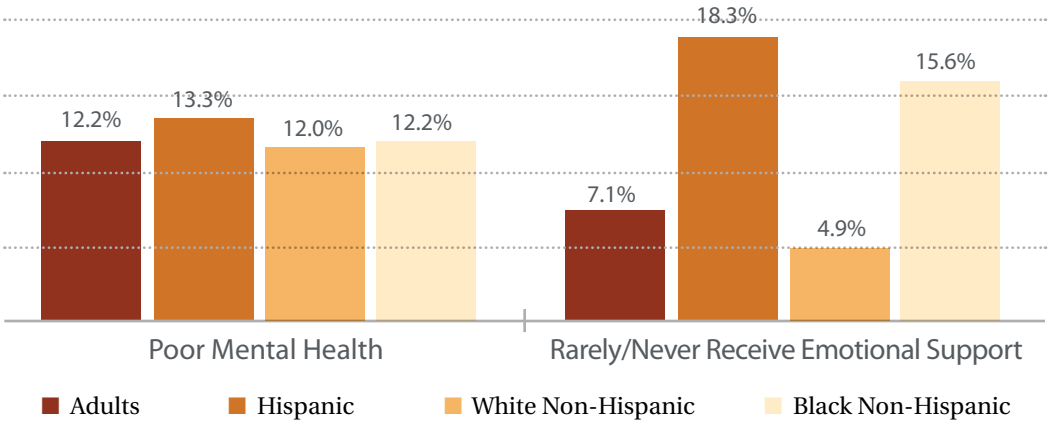


Behavioral Health

The HEI, using discharge data from the Connecticut Hospital Association and death information from the Connecticut Office of Vital Records, calculated an aggregate index score of 2 for mental health as a health indicator for Hartford. There are several significant correlations with mental health, including community safety (Rs=0.55), economic security (Rs=0.47), environmental quality (Rs=0.45), civic involvement (Rs=0.45), education (Rs=0.42), housing (Rs=0.37), and employment (Rs=0.23). With a low-indexed social determinant score, it can be inferred mental health issues are a significant health risk for the city. The BRFSS, a national system of state-based surveys, annually assessed how the residents fare with mental health issues. The results show that there is clearly a greater rate of Hispanics and Blacks self-reporting a lack of emotional support.

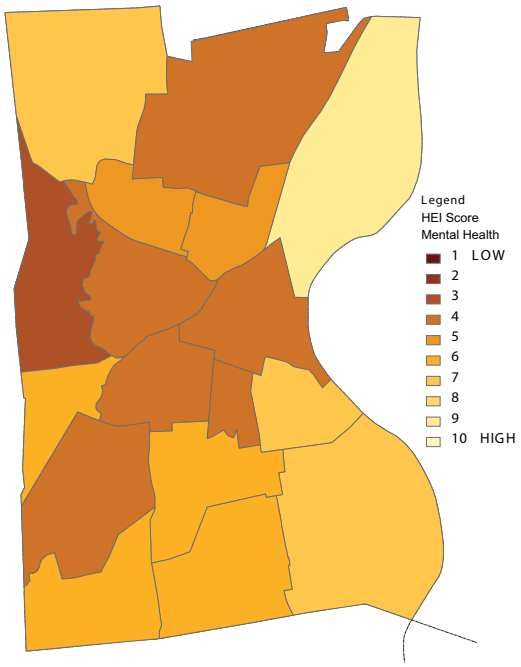
The behavioral health infrastructure is headed by the state through the Department of Mental Health and Addiction Services and its various partners; the complexity of mental health services designed to cater to large geographic regions encompassing the city as well as 37 other municipalities calls for a more thorough investigation and coordinated approach. HHS is currently engaged in a collaborative partnership that includes planning for a Behavioral Health Needs Assessment in order to fully understand the nature of these services.

Figure 18. **Mental Health in Connecticut (Age Adjusted; 2007-2009)**



The neighborhood with the highest utilization of mental health services is the West End, which happens to be relatively affluent when compared to other city neighborhoods. The Consortium could hypothesize that individuals with greater access to specialized health care services would experience higher rates of diagnoses.

Map 8. **HEI Mental Health Score by Neighborhood**



VIII. Barriers to Services

The Urban Alliance survey asked respondents to consider barriers to health services and community resources. The most commonly reported barriers to service areas included not knowing about existing services (27%), lack of available services (22%), not able to pay (20%), and lack of transportation (20%).

Respondents were also asked to identify the most crucial **perceived service needs** for Hartford. Areas perceived as the most in need of additional services included homelessness/ housing (45%), education (41%), job training/employment assistance (39%), and basic needs/food assistance (36%). The top **actual service needs** were determined by respondents indicating that someone in their household would benefit from having additional service in this area. This resident survey found that the actual needs of the respondents were, for the most part, similar to the perceived needs of Hartford; three of the top five needs mentioned were common to both (see table below; ranked by most common responses and common responses bolded). The two areas - perceived and actual service needs - were explored separately to note differences, but with such high correlations in Connecticut between employment, education, and housing, as well as other factors, the overlap between the two areas is not as discordant as they appear to be.

Table 16. **Top 5 Needs for Hartford**

ACTUAL NEEDS	PERCEIVED NEEDS
Basic needs/food assistance services	Homelessness/housing
Financial support services	Education
Job training/employment assistance	Job training/employment assistance
Health and wellness	Basic needs/food assistance
Education	Youth development

The Key Informant interviews completed by the Consortium had similar findings. More than half of Key Informants chose either "Disagree" or "Strongly Disagree" with positive statements about access to care regarding dental services, medical specialists, a comprehensive model of primary care, providers who accept Medicaid, transportation, and health care delivery in Hartford.

Table 17. **Key Informant Perceptions of Health Care**

ACCESS/ BARRIERS TO CARE	"DISAGREE" OR "STRONGLY DISAGREE"
The majorities of Hartford residents are able to access and afford a dentist when needed.	88%
The majority of Hartford residents are able to access needed medical specialists.	83%
The majorities of Hartford residents are able to access and afford a primary care provider.	76%
Transportation to medical appointments is available to residents when needed.	73%
The healthcare delivery system in Hartford has a comprehensive approach to patient care.	71%
There is a sufficient number of providers accepting Medicaid or other forms of medical assistance.	70%
There is a sufficient number of bilingual healthcare providers in Hartford.	63%

IX. Conclusions

This Community Health Needs Assessment was assembled to give readers an overview of Hartford public health trends and to provide a platform to increase the communication across non-governmental as well as governmental agencies to improve the lives of city residents. The findings from this process demonstrate that Hartford residents include high concentrations of people at an increased risk for unhealthy living. After examining all the data sources used to create this report – the Key Informant Survey, the Hartford Survey Project, and the various secondary data that were analyzed – it is clear that marginalized and underserved populations are overrepresented in the city, and the need for establishing and expanding effective partnerships among city agencies is critical. Poverty, job opportunities, education, quality of housing, and neighborhood safety are quality of life measures that were most often mentioned by the Key Informants. All of these were highlighted in the data as areas where collaboration and renewed effort are necessary.

According to a recent model created by the University of Wisconsin's Population Health Institute, at least half of community wellness is driven by non-health factors such as education, housing, and pollution [13]. Connecticut, consistently one of the wealthiest states in the union, is also home to some of the nation's most significant gaps in leading societal determinants of health. For instance, when looking at poverty, Latinos are 4.7 times and Blacks are almost 3.6 times more likely to be living in poverty when compared with their white counterparts in Connecticut. These poverty rates among Black and Latino population reflect, in part, the terribly high unemployment rates in cities like Hartford, which have been crippled by unemployment rates at least 50% higher than that of the state. Coupled with things like a high percentage of single parent households with children present, these compromising circumstances make it difficult for Hartford residents and their families to achieve optimal health.

In addition to a high concentration of poverty, this assessment identifies other actionable non-medical factors that drive the state of health in Hartford. **Education**, for example, is a key indicator for economic security; low educational attainment coupled with limited employment opportunities adversely impact economic security of the city on a whole. Hartford's battle is a difficult one as one-third of Hartford adults do not have a high school diploma. And with one-fifth of the city's labor force unemployed and a high rate of service occupations for those who are employed, it is apparent that when people get off on the wrong foot, the path to occupations with increased responsibility and higher wages become all the more difficult.

The **housing** situation in Hartford makes it difficult to find up-to-date accomodations. The housing stock in Hartford is an aging one, where more than half of the housing available for both renters and buyers was built prior to 1950. And of all the housing occupied, less than a quarter of Hartford residents own their domicile; the majority has to choose from these old housing options.

Crime continues to be a problem in Hartford. With such a high number of youth living in the city, there is going to be an increased rate of violent and injury-related deaths. The city, having about 3.5% of the entire state's population, accounts for more than a third of all murders. In addition, there are some very specific health issues that should be highlighted:

- High age-adjusted mortality rates despite a population that is relatively young suggest that the senior population is dying at a high rate
- The diabetes rate, although well below Connecticut's rate, has climbed steadily in recent years
- As a percent of the total population in Hartford, residents who are obese are increasing while the percent of healthy weight adults declines
- The infant mortality rate in Hartford is much higher than Connecticut and the United States

Preventing problems before they arise is a particularly powerful tool in population health. These prevention efforts will result in a dramatic cost savings and reduction in social problems to our community. In 2009, the Mayor's office in collaboration with HHS designed and launched the Healthy Hartford wellness campaign, focused on many aspects of daily life in our urban environment. The goal of this campaign is to increase the availability of health related information and have community discussions designed to influence the choices that the Hartford citizenry at all ages makes regarding health behaviors like physical activity, proper eating, and other aspects of disease prevention. HHS launched a set of creative teams to design high-impact activities and approaches targeting all residents; the Healthy Hartford campaign was recently recognized by the U.S. Surgeon General and received the *Healthy Youth for a Healthy Future Champion Award* for its efforts to curb and prevent childhood overweight and obesity within our community. The Healthy Hartford campaign along with its many partners strives to reach the largest possible number of residents by designing interactive activities that target specific demographic groups throughout Hartford's 17 neighborhoods.

The Healthy Hartford campaign is a collaborative effort with area health providers and organizations to promote healthy choices and solutions to health problems by focusing efforts on a specific segment of the population or aspect of living in Hartford (i.e., youth, women, and men; Hartford workforce; and public policies that affect the health of the people). As an example, the recently formed Hartford Childhood Wellness Alliance draws on the combined leadership and expertise of community and professional groups across a spectrum of public health, medicine, academia, child care, and recreation to address the critical issue of childhood health and weight in Hartford. The Alliance provides a structure through which individuals and organizations can join together in the common interest of creating healthy environments for children and families, which in turn would be a cost saver to the city. Early in 2011, the Society of Actuaries calculated that the total economic cost of overweight and obesity in the United States is $270 billion per year as a result of an increased need for medical care, loss of worker productivity due to higher rates of death, loss of productivity due to disability of active workers, and loss of productivity due to total disability. Providing increased accurate chronic

disease self-management training to Hartford residents would have a positive impact on total cost to the city.

Collaboration holds the promise of allowing progress on issues where multiple parties are involved. Sustaining collaborations in Hartford is possible not only because of established partnerships but also because of efforts like such as this needs assessment, which will further strengthen existing relationships by highlighting where the major needs are. Any local health department is limited by available resources. Therefore, HHS' standard operating procedure is to constantly search for, and partner with, other organizations in order to better the lives of Hartford's citizenry.

The Public Health Advisory Council, a city charter-supported advisory panel, is an example of a sustained collaboration relative to residential health and chronic disease. Members of the panel include high-level representation from area hospitals, the Hispanic Health Council, the State of Connecticut Department of Mental Health and Addiction Services, the Connecticut Association of Directors of Health, and other community health organizations, and has regularly met for approximately the last 15 years. As experts on community health, the Public Health Advisory Council advices the city on many public health policies and initiatives.

In order to have improved collaborations throughout the city, there needs to be better data exchange among health organizations. Both health and societal data are not consistently collected, are difficult to compare longitudinally, and frequently may not tell the whole story. To improve the health of Hartford residents, HHS and its partners must have access to accurate local data. There are opportunities to make significant improvements in gathering and tracking such data on all of these issues, particularly on the issues of chronic diseases and risk factors that contribute to health disparities. It is imperative that those working in public health and providers of direct clinical services collaborate to develop a strategic plan for delivery of health care (including preventive care and mental health services) in a manner best suited to the community being served.

This report has presented a case that trends in health outcomes are determined not just by individual-level factors such as genetic make-up or access to medical services. Rather, these rates are a result of but also social, political, and environmental conditions. At the population level, major influences on health are structural. Throughout the development of this report, it has become clear that the disproportionate rates of morbidity and mortality borne by the city's marginalized communities result from far more than access to medical services, a result of cumulative social and environmental conditions in which Hartford's low-income residents are born, grow up, live and work. Hartford stakeholders can no longer afford to ignore evidence linking social determinants of health with health outcomes. By building on the analysis in this report and partnerships throughout the city, Hartford will take significant steps to build the capacity to understand and address the conditions contributing to the compromised health of our most vulnerable neighborhoods.

Emergency Department at Hartford Hospital	Women's League Child Development Center

B. Key Informant Survey

City of Hartford 2010 Key Informant Survey

Good morning/afternoon, my name is _____ and I'm calling on behalf of the City of Hartford Department of Health and Human Services, CCMC, Saint Francis Hospital and Hartford Hospital. You should have received a letter from those institutions soliciting your participation in a brief survey that is part of a community needs assessment for the City of Hartford. You should have received a survey in advance to help us in this process; if that is not the case I could send one now and schedule for a latter time.

Do you have approximately 15-20 minutes to complete the survey with me? If not, I would be glad to schedule a time that is convenient with your schedule and call you back.

Please know that all of your responses will be held in strict confidence. No individual from the sponsoring organizations will have access to your individual survey. I'd like to emphasize that I am not an employee of the City of Hartford, but am affiliated with Holleran, a research firm located in Lancaster, Pennsylvania commissioned to conduct this research.

DEMOGRAPHICS

Area of Expertise:
Education Level:
Years providing services:

1. What is your vision of a healthy community?

2. What are the most significant barriers that residents of Hartford face when they attempt to access healthcare?

3. What specific populations in Hartford do you feel are not being adequately served by the healthcare system?

_____

_____

_____

4. In your opinion, what proportion of the population in Hartford views the hospital emergency room as their key source of primary care? _____%

Key Health Issues

1. In your opinion what are the five most significant health issues (most severe or most serious) you perceive in your community. The first one being the least important and the last one being the most important.

Caller: Read the list only if respondent needs prompting.

☐ Diabetes	☐ Substance Abuse
☐ Cancer	☐ Mental Illness
☐ Heart Disease	☐ Domestic/Family Violence
☐ Stroke	☐ Abuse of Children
☐ Obesity	☐ Sexually Transmitted Diseases – does not include HIV/AIDS
☐ Daily Life Stressors	☐ HIV/AIDS
☐ Reproductive Health	☐ Violence

Other _____

2. In your opinion what would be the best way to promote health prevention and wellness?

3. Regarding health and well-being, what needs of Hartford residents are currently begin met the best?

4. Regarding health and well-being, what would you say are the greatest unmet needs among residents of Hartford?

5 If you had to identify two key improvements that you feel are needed to provide better healthcare for area residents, what would they be?

a. _____
b. _____

Comments regarding Key Health Issues:

_____
_____
_____
_____

Quality of Life

1. On a scale of 1 (very poor) through 5 (excellent), please rate each of the following within the community.

1 = very poor; 2 = poor; 3 = average; 4 = good; and 5 = excellent.

NEIGHBORHOOD/ENVIRONMENT	Very poor « » Excellent
a. Availability of recreational activities	☐ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5
b. Neighborhood safety	☐ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5
c. Clean, litter-free neighborhoods	☐ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5
d. Water or air pollution	☐ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5
e. Quality of housing (affordable, in good condition)	☐ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5
f. Road/traffic conditions	☐ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5
g. Schools/education	☐ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5
h. Job opportunities	☐ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5
i. Availability of care for children	☐ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5
j. Poverty	☐ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5

Do you have any additional comments on Quality of Life or any example that illustrates your answers:

2. What specific suggestions do you have for area hospitals and public health agencies to improve the quality of life in the community?

Quality of Care

1. On a scale of 1 (strongly disagree) through 5 (strongly agree), please rate each of the following statements.

1 = strongly disagree; 2 = disagree; 3 = neither agree nor disagree; 4 = agree; 5 = strongly agree

HEALTHCARE	Strongly disagree « » Strongly agree
a. There are a sufficient number of bilingual providers in Hartford.	☐ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5
b. The majority of residents in the area are able to access a primary care provider.	☐ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5
c. The majority of residents in the area are able to access a medical specialist.	☐ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5
d. The majority of residents in the area are able to access a dentist when needed.	☐ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5
e. Transportation for medical appointments is available to the majority of residents.	☐ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5
f. There are a sufficient number of providers accepting Medicaid or other forms of medical assistance.	☐ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5

Do you have any additional comments on Healthcare or any example that illustrates your answers:

SOCIAL SERVICES	Strongly disagree « » Strongly agree
a. The majority of the residents in Hartford would know where to go if they needed mental health/ behavioral health treatment.	☐ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5
b. The majority of residents in Hartford would know where to go if they needed help with a substance abuse problem.	☐ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5
c. There are a sufficient number of behavioral health providers in the area.	☐ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5
d. The healthcare delivery system in Hartford has a holistic approach to patient care?	☐ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5

Do you have any additional comments on Social Services or any example that illustrates your answers:

That concludes the survey. Thank you very much for your time today and we appreciate your feedback!

C. Hartford Resident Survey: English

URBAN ALLIANCE

HARTFORD RESIDENT SURVEY

URBANALLIANCE

You are being invited to complete this survey because you are a Hartford resident. We are interested in learning about services that would be helpful to you and your family as well as barriers to receiving these services. It is our hope that the results of this survey will enhance and increase services offered in the city of Hartford.

QUESTIONS ABOUT YOU

This survey begins with questions about you and your family. These help us to describe who completed the survey.

1. Do you live in the city of Hartford?
☐ Yes ☐ No
*Please provide your Zip Code:*_____

2. What is your ethnicity?
☐ Latino ☐ West Indian ☐ Multi-ethnic
☐ White ☐ African ☐ Other
☐ Asian American *Specify:*_____

3. What is your gender? ☐ Female ☐ Male

4. Do you attend a church?
☐ Yes *If yes, please specify which church:*
☐ No _____

5. How many adults live in your household? _____

6. How many children live in your household?_____

7. Check the box that best describes your age:
☐ 18-29 ☐ 30-49 ☐ 50-64 ☐ 65+

QUESTIONS ABOUT SERVICES IN HARTFORD

*In the **first column (questions a & b),** indicate if you or someone in your household (someone who lives with you) would benefit from additional services in each area and barriers to receiving each type of service.*

*In the **second column (question c),** rank (1 through 3) the three areas most in need of additional services in the city of Hartford. Place the ranking in the box corresponding to each service area (1 indicates the area most in need of additional services). Complete this column after you have completed the first column (questions a & b) for each type of service.*

1. SUBSTANCE ABUSE RECOVERY *(e.g. treatment, prevention)*

a. I or someone living in my ***household*** would benefit from additional services in this area. ☐ Yes ☐ No

b. Which factors make it difficult to access substance abuse recovery services? (mark all that apply)

☐ **Never needed services in this area** ☐ Lack of child care ☐ Lack of transportation ☐ Lack of time
☐ Don't know about existing services ☐ Not able to pay ☐ Language barrier ☐ Uninsured
☐ Lack of available services ☐ Bad past experience ☐ Family/friend disapproves ☐ Other:

c. Rank the three areas most in need of additional services in Hartford ☐

2. BASIC NEEDS/FOOD ASSISTANCE *(e.g. food pantry, meals, clothing, utility assistance)*

a. I or someone living in my ***household*** would benefit from additional services in this area. ☐ Yes ☐ No

b. Which factors make it difficult to access basic needs/food services? (mark all that apply)

☐ **Never needed services in this area** ☐ Lack of child care ☐ Lack of transportation ☐ Lack of time
☐ Don't know about existing services ☐ Not able to pay ☐ Language barrier ☐ Other
☐ Lack of available services ☐ Bad past experience ☐ Family/friend disapproves _____

c. Rank the three areas most in need of additional services in Hartford ☐

3. HOMELESSNESS/HOUSING *(e.g. emergency shelter, affordable housing)*

a. I or someone living in my ***household*** would benefit from additional services in this area. ☐ Yes ☐ No

b. Which factors make it difficult to access housing services? (mark all that apply)

☐ **Never needed services in this area** ☐ Lack of child care ☐ Lack of transportation ☐ Lack of time
☐ Don't know about existing services ☐ Not able to pay ☐ Language barrier ☐ Other
☐ Lack of available services ☐ Bad past experience ☐ Family/friend disapproves _____

c. Rank the three areas most in need of additional services in Hartford ☐

4. COUNSELING/EMOTIONAL SUPPORT *(e.g. counseling, support group, stress management)*

a. I or someone living in my ***household*** would benefit from additional services in this area. ☐ Yes ☐ No

b. Which factors make it difficult to access counseling/emotional support services? (mark all that apply)

☐ **Never needed services in this area** ☐ Lack of child care ☐ Lack of transportation ☐ Lack of time
☐ Don't know about existing services ☐ Not able to pay ☐ Language barrier ☐ Uninsured
☐ Lack of available services ☐ Bad past experience ☐ Family/friend disapproves ☐ Other:

c. Rank the three areas most in need of additional services in Hartford ☐

5. YOUTH DEVELOPMENT *(e.g. leadership training, mentoring, after-school programs)*

a. I or someone living in my ***household*** would benefit from additional services in this area. ☐ Yes ☐ No

b. Which factors make it difficult to access youth development services? (mark all that apply)

☐ **Never needed services in this area** ☐ Lack of child care ☐ Lack of transportation ☐ Lack of time
☐ Don't know about existing services ☐ Not able to pay ☐ Language barrier ☐ Other
☐ Lack of available services ☐ Bad past experience ☐ Family/friend disapproves _____

c. Rank the three areas most in need of additional services in Hartford ☐

6. HEALTH AND WELLNESS *(e.g. health care, screenings)*

a. I or someone living in my ***household*** would benefit from additional services in this area. ☐ Yes ☐ No

b. Which factors make it difficult to access health and wellness services? (mark all that apply)

☐ **Never needed services in this area** ☐ Lack of child care ☐ Lack of transportation ☐ Lack of time
☐ Don't know about existing services ☐ Not able to pay ☐ Language barrier ☐ Uninsured
☐ Lack of available services ☐ Bad past experience ☐ Family/friend disapproves ☐ Other:

c. Rank the three areas most in need of additional services in Hartford ☐

7. EDUCATION *(e.g. tutoring, GED classes, ESL, literacy)*

a. I or someone living in my ***household*** would benefit from additional services in this area. ☐ Yes ☐ No

b. Which factors make it difficult to access education services? (mark all that apply)

☐ **Never needed services in this area** ☐ Lack of child care ☐ Lack of transportation ☐ Lack of time
☐ Don't know about existing services ☐ Not able to pay ☐ Language barrier ☐ Other
☐ Lack of available services ☐ Bad past experience ☐ Family/friend disapproves _____

c. Rank the three areas most in need of additional services in Hartford ☐

8. FINANCIAL SUPPORT SERVICES *(e.g. personal finance planning, financial literacy, tax preparation)*

a. I or someone living in my ***household*** would benefit from additional services in this area. ☐ Yes ☐ No

b. Which factors make it difficult to access financial support services? (mark all that apply)

☐ **Never needed services in this area** ☐ Lack of child care ☐ Lack of transportation ☐ Lack of time
☐ Don't know about existing services ☐ Not able to pay ☐ Language barrier ☐ Other
☐ Lack of available services ☐ Bad past experience ☐ Family/friend disapproves _____

c. Rank the three areas most in need of additional services in Hartford ☐

9. ELDERLY SERVICES *(e.g. convalescent home, meals, senior center/programs)*

a. I or someone living in my ***household*** would benefit from additional services in this area. ☐ Yes ☐ No

b. Which factors make it difficult to access services for seniors? (mark all that apply)

☐ **Never needed services in this area** ☐ Lack of child care ☐ Lack of transportation ☐ Lack of time
☐ Don't know about existing services ☐ Not able to pay ☐ Language barrier ☐ Other
☐ Lack of available services ☐ Bad past experience ☐ Family/friend disapproves _____

c. Rank the three areas most in need of additional services in Hartford ☐

10. PRISONER /RE-ENTRY SERVICES *(e.g. visitation, re-entry assistance, support)*

a. I or someone living in my ***household*** would benefit from additional services in this area. ☐ Yes ☐ No

b. Which factors make it difficult to access prisoner/re-entry services? (mark all that apply)

☐ **Never needed services in this area** ☐ Lack of child care ☐ Lack of transportation ☐ Lack of time
☐ Don't know about existing services ☐ Not able to pay ☐ Language barrier ☐ Other
☐ Lack of available services ☐ Bad past experience ☐ Family/friend disapproves _____

c. Rank the three areas most in need of additional services in Hartford ☐

11. JOB TRAINING/EMPLOYMENT ASSISTANCE *(e.g. skill development, resume assistance)*

a. I or someone living in my ***household*** would benefit from additional services in this area. ☐ Yes ☐ No

b. Which factors make it difficult to access job training/employment services? (mark all that apply)

☐ **Never needed services in this area** ☐ Lack of child care ☐ Lack of transportation ☐ Lack of time
☐ Don't know about existing services ☐ Not able to pay ☐ Language barrier ☐ Other
☐ Lack of available services ☐ Bad past experience ☐ Family/friend disapproves _____

c. Rank the three areas most in need of additional services in Hartford ☐

12. PREGNANCY/PARENTING SUPPORT *(e.g. parenting/prenatal education and support)*

a. I or someone living in my ***household*** would benefit from additional services in this area. ☐ Yes ☐ No

b. Which factors make it difficult to access pregnancy/parenting support services? (mark all that apply)

☐ **Never needed services in this area** ☐ Lack of child care ☐ Lack of transportation ☐ Lack of time
☐ Don't know about existing services ☐ Not able to pay ☐ Language barrier ☐ Other
☐ Lack of available services ☐ Bad past experience ☐ Family/friend disapproves _____

c. Rank the three areas most in need of additional services in Hartford ☐

D. Hartford Resident Survey: Spanish

ALIANZA URBANA
ENCUESTA SOBRE RESIDENTE HARTFORD

Usted está invitado a terminar esta encuesta porque usted es un residente de Hartford. Estamos interesados en aprender sobre los servicios que le serían provechosos a usted y su familia así como barreras para recibir estos servicios. Nuestra meta es mejorar y aumentar el alcance de los servicios ofrecidos en la ciudad de Hartford.

PREGUNTAS DE USTED

Esta encuesta comienza con preguntas sobre usted y su familia y nos ayudan a describir quién terminó la encuesta.

1. ¿Usted vive en la ciudad de Hartford?
☐ Sí ☐ No
*Proporcione por favor su Código postal:*_____

2. ¿Cuál es su pertenencia étnica?
☐ Latino ☐ Oeste Indio ☐ Multi-étnico
☐ Blanco ☐ Africano ☐ Otro
☐ Asiático Americano *Especifique*:_____

3. ¿Género? ☐ Femenino ☐ Masculino

4. ¿Usted asiste a alguna iglesia?
☐ Sí *Especifique por favor qué iglesia:*
☐ No _____

5. ¿Cuántos adultos viven en su casa? _____

6. ¿Cuántos niños viven en su casa?_____

7. ¿Está entre las edades de?:
☐ 18-29 ☐ 30-49 ☐ 50-64 ☐ 65+

PREGUNTAS SOBRE SERVICIOS EN HARTFORD

*En la **primera columna** (preguntas a y b), indique si usted o alguien en su hogar serían beneficiado por servicios adicionales en cada área y también indique las barreras para recibir cada tipo de servicio.*

*En la **segunda columna** (pregunta c), Marque (1 a 3) las tres áreas más necesitadas de servicios adicionales en la ciudad de Hartford. Marque la caja que corresponde a cada área de servicio (1 indica la área más en necesidad de servicios adicionales). Termina esta columna después de que usted haya terminado la primera columna (preguntas a y b) para cada servicio.*

1. RECUPERACIÓN DEL ABUSO DE LA SUSTANCIA *(e.g. tratamiento, prevención)*

a. Yo o alguien **en mi hogar** nos beneficiaríamos de servicios adicionales en esta área. ☐ Sí ☐ No

b. ¿Qué factores hacen difícil de tener acceso a sevicios de recuperacion del abuso de la sustancia?

☐ **Nunca he necesitado estos servicios**	☐ Falta de cuidado de niños	☐ Falta de transporación	☐ Falta de tiempo
☐ No sé sobre los servicios existentes	☐ Familia/amigo desaprueba	☐ Barrera linguística	☐ Sin seguro medico
☐ Falta de servicios disponibles	☐ Malas experiencias	☐ Recursos economicos	☐ Otro:

c. Marque las tres areas más necesitando adicional servicios ☐

2. NECESIDADES BASICAS/ASISTENCIA DE ALIMENTOS *(e.g. despensa de alimento, ropa, ayuda para utilidades)*

a. Yo o alguien **en mi hogar** nos beneficiaríamos de servicios adicionales en esta área. ☐ Sí ☐ No

b. ¿Qué factores hacen difícil de tener acceso a sevicios de necesidades basicas/asistencia de alimentos?

☐ **Nunca he necesitado estos servicios**	☐ Falta de cuidado de ninos	☐ Falta de transporación	☐ Falta de tiempo
☐ No sé sobre los servicios existentes	☐ Familia/amigo desaprueba	☐ Barrera linguistica	☐ Otro
☐ Falta de servicios disponibles	☐ Malas experiencias	☐ Recursos economicos	_____

c. Marque las tres areas más necesitando adicional servicios ☐

3. PERSONAS SIN HOGAR/VIVIENDA *(e.g. abrigo de emergencia, cubierta comprable)*

a. Yo o alguien **en mi hogar** nos beneficiaríamos de servicios adicionales en esta área. ☐ Sí ☐ No

b. ¿Qué factores hacen difícil de tener acceso a sevicios de personas sin hogar/vivienda?

☐ **Nunca he necesitado estos servicios**	☐ Falta de cuidado de ninos	☐ Falta de transporación	☐ Falta de tiempo
☐ No sé sobre los servicios existentes	☐ Familia/amigo desaprueba	☐ Barrera linguistica	☐ Otro
☐ Falta de servicios disponibles	☐ Malas experiencias	☐ Recursos economicos	_____

c. Marque las tres areas más necesitando adicional servicios ☐

4. ASESORAMIENTO/APOYO EMOCIONAL *(e.g. asesoramiento, grupo de ayuda)*

a. Yo o alguien **en mi hogar** nos beneficiaríamos de servicios adicionales en esta área. ☐ Sí ☐ No

b. ¿Qué factores hacen difícil de tener acceso a sevicios de asesoramiento/apoyo emocional?

☐ **Nunca he necesitado estos servicios**	☐ Falta de cuidado de ninos	☐ Falta de transporación	☐ Falta de tiempo
☐ No sé sobre los servicios existentes	☐ Familia/amigo desaprueba	☐ Barrera linguistica	☐ Sin seguro medico
☐ Falta de servicios disponibles	☐ Malas experiencias	☐ Recursos economicos	☐ Otro:

c. Marque las tres areas más necesitando adicional servicios ☐

5. DESARROLLO DE LA JUVENTUD *(e.g. programas después de la escuela)*

a. Yo o alguien **en mi hogar** nos beneficiaríamos de servicios adicionales en esta área. ☐ Sí ☐ No

b. ¿Qué factores hacen difícil de tener acceso a sevicios de desarrollo de la juventud?

☐ **Nunca he necesitado estos servicios** ☐ Falta de cuidado de ninos ☐ Falta de transporación ☐ Falta de tiempo
☐ No sé sobre los servicios existentes ☐ Familia/amigo desaprueba ☐ Barrera linguistica ☐ Otro
☐ Falta de servicios disponibles ☐ Malas experiencias ☐ Recursos economicos _____

c. Marque las tres areas más necesitando adicional serivicios ☐

6. SALUD Y BIENESTAR *(e.g. cuidado médico, examenes)*

a. Yo o alguien **en mi hogar** nos beneficiaríamos de servicios adicionales en esta área. ☐ Sí ☐ No

b. ¿Qué factores hacen difícil de tener acceso a sevicios de salud?

☐ **Nunca he necesitado estos servicios** ☐ Falta de cuidado de ninos ☐ Falta de transporación ☐ Falta de tiempo

Building a better working world

Report of Independent Auditors

The Board of Directors
Saint Francis Care, Inc. and Subsidiaries

We have audited the accompanying consolidated financial statements of Saint Francis Care, Inc. and Subsidiaries (Saint Francis Care), which comprise the consolidated balance sheets as of September 30, 2014 and 2013, and the related consolidated statements of operations and changes in net assets and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We did not audit the 2014 financial statements of Saint Francis Indemnity Company, LLC (SFICL), a wholly owned subsidiary, which statements reflect total assets of $50.2 million as of September 30, 2014, and total revenues of $13.4 million for the year then ended. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for SFICL for 2014, is based solely on the report of the other auditors. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not

A member firm of Ernst & Young Global Limited

for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, based on our audits and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Saint Francis Care, Inc. and Subsidiaries at September 30, 2014 and 2013, and the consolidated results of their operations and changes in their net assets and their cash flows for the years then ended in conformity with U.S. generally accepted accounting principles.

Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying consolidating balance sheets and consolidating statements of operations and changes in net assets are presented for purposes of additional analysis and are not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audits of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, based on our audits, the procedures performed as described above and the report of other auditors, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

Saint Francis Care, Inc. and Subsidiaries

Notes to Consolidated Financial Statements
(Amounts in Thousands)

September 30, 2014

1. Significant Accounting Policies

Organization

Saint Francis Care, Inc. and Subsidiaries (Saint Francis Care) is a not-for-profit integrated health care delivery system. Subsidiaries of Saint Francis Care include: consolidated Saint Francis Hospital and Medical Center (the Hospital and Medical Center), Mount Sinai Rehabilitation Hospital, Inc., Saint Francis Medical Group, Inc. and Subsidiary, Asylum Hill Family Medicine Center, Inc., Saint Francis Care Medical Group, P.C. and Saint Francis Hospital and Medical Center Foundation, Inc.

Basis of Presentation and Use of Estimates

The accompanying consolidated financial statements include the accounts of Saint Francis Care and Subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

The preparation of the consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and related footnotes. Actual results could differ from those estimates.

Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those whose use by Saint Francis Care has been limited by donors to a specific time frame or purpose. Temporarily restricted net assets consist primarily of contributions and grants restricted for certain health care services, medical research activities, and capital replacement. Permanently restricted net assets, which are primarily endowment gifts and assets held in trusts by others, have been restricted by donors and are to be maintained in perpetuity.

Donor-Restricted Gifts

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is

1. Significant Accounting Policies (continued)

accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the consolidated statements of operations and changes in net assets as net assets released from restrictions. Donor-restricted contributions whose restrictions are met within the same year as received are classified as unrestricted contributions in the accompanying consolidated financial statements.

Interest Rate Swap Agreements

Saint Francis Care utilizes interest rate swap agreements to reduce risks associated with changes in interest rates. Saint Francis Care does not hold or issue derivative financial instruments for trading purposes. Saint Francis Care is exposed to credit loss in the event of nonperformance by the counterparties to its interest rate swap agreements. Interest rate swap agreements are reported at fair value. Changes in fair value are recognized in the performance indicator in the consolidated statements of operations and changes in net assets.

Cash and Cash Equivalents

Saint Francis Care considers all highly liquid investments with remaining maturities of three months or less at the date of purchase to be cash equivalents.

Patient Accounts Receivable

Patient accounts receivable result from health care services provided by Saint Francis Care. The amount of the allowance for uncollectible accounts is based on management’s assessment of historical and expected net collections, business and economic conditions, trends in Medicare and Medicaid health care coverage and other collection indicators.

Inventories of Supplies

Inventories are stated at the lower of cost or market. Saint Francis Care values its inventories using the first-in, first-out method.

1. Significant Accounting Policies (continued)

Investments

Unrealized gains and losses on unrestricted investments are included in the excess of revenues over expenses. Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value in the consolidated balance sheets. Fair value is generally determined based on quoted market prices. Alternative investments, which are investments with a non-readily determinable fair value, are stated at fair value based on, as a practical expedient, net asset values derived from the application of the equity method of accounting. Valuations of those investments and, therefore, Saint Francis Care's holdings may be determined by the investment manager and are primarily based on the valuation of the underlying securities. Investment income or loss, including realized and unrealized gains and losses on investments, interest, and dividends, is included in excess of revenues and gains and losses over expenses unless the income or loss is restricted by donor or law. The cost of securities sold is based on the specific identification method.

Saint Francis Care considers all investments with remaining maturities of more than three months but less than one year at the date of purchase to be short-term investments.

Assets Whose Use Is Limited

Assets whose use is limited include assets set aside by the Board of Directors, assets restricted by donors, assets held by trustees under bond indenture agreements related to financing activities with the State of Connecticut Health and Educational Facilities Authority (CHEFA or the Authority), and assets held in trusts by others. The portion of these amounts required for funding current liabilities is included in current assets. Assets set aside by the Board of Directors are established for the purpose of providing for future improvement, expansion, and replacement of property, plant, and equipment and for certain insurance liabilities.

Long-Lived Assets

Property, plant, and equipment are stated at cost and those acquired by gifts are carried at fair value established at the date of acquisition. Saint Francis Care provides for depreciation of property, plant, and equipment using the straight-line method in amounts sufficient to depreciate the cost of the assets over their estimated useful lives or the lesser of the estimated useful life of the asset or lease term.

1. Significant Accounting Policies (continued)

Bond issuance costs are amortized over the life of the bonds using the effective interest method.

Other Assets

Other assets include bond issuance costs, assets related to deferred compensation and workers compensation programs and interest rate swap agreements.

General and Professional Liability Insurance

Saint Francis Care purchases claims made general and professional liability insurance coverage for the benefit of certain of its subsidiaries from a wholly owned insurance captive subsidiary, Saint Francis Indemnity Company, LLC (Saint Francis Indemnity Company). Saint Francis Care, in consultation with its independent actuary, records as a liability an estimate of incurred but not reported claims. Such liability, discounted at 4%, totaled $7,257 and $6,730 at September 30, 2014 and 2013, respectively.

Reserves for losses and loss adjustment expenses are based on management's best estimate determined in consultation with independent consulting actuaries and represent the ultimate net cost of all reported and unreported losses incurred and unpaid through September 30, 2014. These liabilities include estimates of future trends in loss severity and frequency and other factors, which could vary as the losses are ultimately settled. However, there is an absence of a significant amount of experience as to whether the Saint Francis Indemnity Company's actual incurred losses and loss adjustment expenses will conform to the assumptions inherent in the determination of the estimated liability. Accordingly, the ultimate settlement of losses and loss adjustment expenses may vary significantly from the estimated amounts included in the accompanying consolidated financial statements. Although considerable variability is inherent in such estimates, management believes that the reserves for losses and loss adjustment expenses in the accompanying consolidated financial statements are adequate. The method of making such estimates and for establishing reserves is continuously reviewed and updated and adjustments are reflected in operations in the period the need for such adjustments becomes known.

1. Significant Accounting Policies (continued)

Workers' Compensation Insurance

Saint Francis Care purchases a large deductible policy, which effectively self-insures the first portion of the workers' compensation and employers' liability risk. Under the policy, Saint Francis Care is responsible for the first $1,500 of every loss event (first $500 for employers' liability). The accrued workers' compensation self-insurance liabilities of $6,806 and $5,300 at September 30, 2014 and 2013, respectively, have been discounted at 4%. The current portion of the accrued workers' compensation liabilities included in accrued expenses and interest payable is $1,634 and $1,349 at September 30, 2014 and 2013, respectively, and the long-term portion included in pension and other accrued expenses is $5,172 and $3,951 at September 30, 2014 and 2013, respectively.

Retirement Plans

Saint Francis Care has certain noncontributory defined benefit and defined contribution pension plans in effect covering all employees who meet certain eligibility requirements. For plans subject to the Employee Retirement Income Security Act of 1974 (ERISA), Saint Francis Care's funding policy is to contribute amounts to the plans sufficient to meet the applicable minimum funding requirements set forth in ERISA.

Saint Francis Care sponsors a 409(a) deferred compensation plan for certain senior executives. Senior executives are allowed to contribute to the plan up to an annual maximum amount in accordance with Section 457(b) of the Internal Revenue Code. The assets of the plan remain in a trust, which is subject to the claims of Saint Francis Care's creditors. As of September 30, 2014 and 2013, the plan had $3,010 and $2,242, respectively, in other assets with a corresponding liability, included in pension and other accrued expenses, payable upon retirement, death or disability.

Other Operating Revenue

Other operating revenue includes services to other institutions, rental income, pharmacy income, investment income, group purchasing discount revenue, electronic health record program revenue and unrestricted contributions.

1. Significant Accounting Policies (continued)

Excess of Revenues and Gains and Losses Over Expenses

The consolidated statements of operations and changes in net assets include excess of revenues and gains and losses over expenses, which is the performance indicator. Changes in unrestricted net assets, which are excluded from excess of revenues and gains and losses over expenses, include adjustments to the pension funding and postretirement obligations, permanent transfers of assets to and from affiliates for other than goods and services, contributions of long-lived assets, and changes in minority interest in subsidiaries.

Income Taxes

Saint Francis Care and its principal subsidiaries are exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code, are exempt from state and local income taxes. Tax provisions and related liabilities for certain taxable subsidiaries are not material to the consolidated financial statements.

Saint Francis Care Medical Group has net operating loss carryforwards in the amount of $23,331. The net operating loss carryforwards result in a deferred tax asset of $9,332, which is offset by a corresponding valuation allowance of the same amount. These expire between September 30, 2018 and September 30, 2031.

The Saint Francis Hospital and Medical Center has net operating loss carryforwards in the amount of $1,678. These net operating loss carryforwards result in a deferred tax asset of $671, which is offset by a corresponding valuation allowance of the same amount. These expire between September 30, 2027 and September 30, 2032.

Saint Francis Behavioral Health Group, P.C. has net operating loss carryforwards in the amount of $5,000. These net operating loss carryforwards result in a deferred tax asset of $2,000, which is offset by a corresponding valuation allowance of the same amount. These expire between June 30, 2023 and June 30, 2032.

Reclassifications

Certain 2013 amounts have been reclassified to conform to the 2014 presentation. Such reclassifications had no effect on the consolidated statements of operations and changes in net assets.

1. Significant Accounting Policies (continued)

New Accounting Pronouncements

In May 2014, the FASB issued ASU 2014-09, *Revenue From Contracts With Customers (Topic 606)*, which requires an entity to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The adoption of ASU 2014-09 is required on October 1, 2017, and Saint Francis Care is currently evaluating the effect of this guidance on its consolidated financial statements.

2. Net Patient Service Revenue and Charity Care

Net patient service revenue consists of the following for the years ended:

	September 30	
	2014	**2013**
Gross patient service revenue	**$ 2,287,499**	$ 2,200,109
Deductions:		
Contractual allowances and discounts	**1,485,018**	1,422,379
Charity care at charges	**19,154**	19,567
	1,504,172	1,441,946
Net patient service revenue	**783,327**	758,163
Less: provision for bad debts	**(26,546)**	(23,311)
Net patient service revenue less provision for bad debts	**$ 756,781**	$ 734,852

Patient accounts receivable and revenues are recorded when patient services are performed. Differences between amounts received from most third-party payors and the established billing rates of Saint Francis Care are accounted for as allowances.

Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined.

2. Net Patient Service Revenue and Charity Care (continued)

During 2014 and 2013, 37.2% and 36.2%, respectively, of net patient service revenue was received under the Medicare program; 14.2% and 12.9%, respectively, under the Medicaid program; and 17.2% and 17.5%, respectively, from Blue Cross. Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. Saint Francis Care believes that it is in compliance with all applicable laws and regulations. Saint Francis Care is not aware of any pending or threatened investigations involving allegations of potential wrongdoing that could have a material adverse effect on the consolidated financial statements. While no such regulatory inquiries are outstanding, compliance with such laws and regulations can be subject to future government review and interpretation as well as significant regulatory action, including fines, penalties, and exclusion from the Medicare and Medicaid programs.

Saint Francis Care has agreements with third-party payors that provide for payments to Saint Francis Care at amounts different from its established rates. The difference is accounted for as allowances. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, fee-for-service, discounted charges, and per diem payments. Net patient service revenue is affected by the state of Connecticut Disproportionate Share program and is reported at the estimated net realizable amounts due from patients, third-party payors and others for services rendered and includes estimated retroactive revenue adjustments due to ongoing and future audits, reviews and investigations. Retroactive adjustments are considered in the recognition of revenue on an estimated basis in the period the related services are rendered and such amounts are adjusted in future periods as adjustments become known or as years are no longer subject to such audits, reviews, and investigations. In addition, changes in the Medicaid and Medicare programs, the reduction of funding levels, or changes in interpretations or estimates could have an adverse impact on Saint Francis Care. During 2014, Saint Francis Care recorded a net change in estimate of approximately $9,102 increasing operating revenue related to changes in previously estimated third-party payor settlements. During 2013, the net change in estimate was $2,000 decreasing operating revenue.

Saint Francis Care has established estimates based on information presently available, of amounts due to or from Medicare, Medicaid and third-party payors for adjustments to current-and prior-year payment rates, based on industry-wide and Saint Francis Care specific data. Such amounts are included in the accompanying consolidated balance sheets.

2. Net Patient Service Revenue and Charity Care (continued)

Patient service revenue, net of contractual allowances and discounts (not including the reduction for charity care) and before the provision for bad debts, recognized in the period from major payor sources for the year ended September 30, 2014 and 2013, is as follows:

	September 30	
	2014	**2013**
Third-party payors	**$ 765,810**	$ 741,622
Self-pay patients	**36,671**	36,108
	$ 802,481	$ 777,730

Deductibles and copayments under third-party payment programs within the self-pay patient's amounts above are the patient's responsibility, and Saint Francis Care considers these amounts in its determination of the provision for bad debts based on collection experience.

Saint Francis Care accepts all patients regardless of their ability to pay. A patient is classified as a charity patient by reference to the established policies of Saint Francis Care. Essentially, these policies define charity services as those services for which no payment is anticipated. In assessing a patient's inability to pay, Saint Francis Care utilizes the generally recognized poverty income levels for the state of Connecticut, but also includes certain cases where incurred charges are significant when compared to incomes. In addition, all self-pay patients receive a 45% discount from charges, which are recorded as contractual allowances in net patient service revenue for financial reporting purposes.

The estimated cost of charity care provided was $6,093 and $6,377 for the years ended September 30, 2014 and 2013, respectively. The estimated cost of charity care is based on the ratio of cost to charges, as determined by hospital-specific data.

The significant concentrations of accounts receivable for services to patients include 34.0% from Medicare, 10.1% from Medicaid, and 42.8% from commercial insurance carriers and managed care companies at September 30, 2014 (26.6%, 14.0%, and 35.6%, respectively, at September 30, 2013).

3. Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are available for the following purposes:

	September 30 2014	2013
Health care services:	**$ 3,112**	$ 3,091
Research and education	**10,753**	10,929
Capital replacement	**12,226**	12,636
Other health care services	**$ 26,091**	$ 26,656

Permanently restricted net assets are restricted for the following purposes:

	September 30 2014	2013
Investments to be held in perpetuity, the income from which is expendable to support health care services	**$ 4,286**	$ 4,286
Restricted funds held in trusts by others, the income from which is expendable to support health care services	**53,033**	51,164
	$ 57,319	$ 55,450

4. Assets Whose Use is Limited

Assets whose use is limited consist of the following:

	September 30	
	2014	**2013**
Board designated:		
Short-term investments	**$ 956**	$ 388
Marketable equity securities and mutual funds	**32,995**	38,923
United States government securities	**11,185**	9,064
Corporate bonds and other fixed income	**12,634**	2,156
Equity method investment	**2,981**	991
	60,751	51,522
Donor restricted:		
Marketable equity securities	**4,286**	4,286
	4,286	4,286
Held under bond indenture:		
Cash and cash equivalents	**594**	1,787
United States government securities	**216**	1,125
Short-term investments	**147**	1,852
	957	4,764

4. Assets Whose Use is Limited (continued)

	September 30 2014	2013
Held in trusts by others:		
Short-term investments	**$ 2,086**	$ 2,163
Marketable equity securities	**15,866**	13,957
Mutual funds	**8,637**	10,402
United States government securities	**2,558**	1,596
Corporate bonds and other fixed income	**7,054**	7,652
Collective trust fund	**14,693**	13,760
Alternative investment	**2,139**	1,634
	53,033	51,164
Total assets whose use is limited	**119,027**	111,736
Assets whose use is limited for current liabilities	**(1,459)**	(4,883)
	$ 117,568	$ 106,853

5. Donor-Restricted Endowment Funds

Saint Francis Care endowments include the donor-restricted endowment funds. Perpetual trust funds held by others are not included under Accounting Standards Codification (ASC) 958-205. Net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

Management of Saint Francis Care has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, Saint Francis Care classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time of the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for

5. Donor-Restricted Endowment Funds (continued)

expenditure by the organization in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, Saint Francis Care considers the following factors in making a determination to appropriate or accumulate donor-restricted funds:

(1) The duration and preservation of the fund

(2) The purposes of Saint Francis Care and the donor-restricted endowment fund

(3) General economic conditions

(4) The possible effect of inflation and deflation

(5) The expected total return from income and the appreciation of investments

(6) Other resources of Saint Francis Care

(7) The investment policies of Saint Francis Care

Saint Francis Care has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment.

Changes in endowment funds for the years ended September 30, 2014 and 2013, consisted of the following:

	2014		
	Temporarily Restricted	**Permanently Restricted**	**Total**
Net assets, beginning of the year	**$ –**	**$ 4,286**	**$ 4,286**
Investment income	**32**	**–**	**32**
Appropriation of endowment assets for expenditure	**(32)**	**–**	**(32)**
Net assets, end of year	**$ –**	**$ 4,286**	**$ 4,286**

5. Donor-Restricted Endowment Funds (continued)

	2013		
	Temporarily Restricted	**Permanently Restricted**	**Total**
Net assets, beginning of the year	$ –	$ 4,286	$ 4,286
Investment income	30	–	30
Appropriation of endowment assets for expenditure	(30)	–	(30)
Net assets, end of year	$ –	$ 4,286	$ 4,286

From time to time, the fair value of assets associated with individual donor-restricted endowments funds may fall below the level that the donor of UPMIFA requires Saint Francis Care to retain as a fund of perpetual duration. There were no deficiencies of this nature that are reported in unrestricted or permanently restricted net assets as of September 30, 2014 and 2013.

6. Long-Term Investments and Investment Income

Long-term investments consist of the following:

	September 30	
	2014	**2013**
Money market funds	**$ 1,033**	$ 771
Marketable equity securities	**9,140**	7,769
United States government securities	**778**	599
Corporate bonds and other fixed income	**2,653**	3,587
Equity method investment	**2,552**	2,483
	$ 16,156	$ 15,209

6. Long-Term Investments and Investment Income (continued)

The composition and presentation of net gain on investment activity, which is included in operating income in the consolidated statements of operations and changes in net assets, are as follows:

	September 30 2014	2013
Realized gain on investments	**$ 2,243**	$ 309
Unrealized gain on investments	**1,382**	1,990
	$ 3,625	$ 2,299

7. Property, Plant, and Equipment

Property, plant, and equipment consist of the following:

	September 30 2014	2013
Land and land improvements	**$ 8,208**	$ 8,208
Buildings	**506,164**	488,747
Equipment	**364,590**	310,926
Construction-in-progress (estimated cost to complete of approximately $7,051 as of 2014)	**13,587**	40,032
	892,549	847,913
Less accumulated depreciation	**416,786**	379,697
Total property, plant, and equipment, net	**$ 475,763**	$ 468,216

7. Property, Plant, and Equipment (continued)

During the years ended September 30, 2014 and 2013, there were $956 and $81,799, respectively, of asset retirements related to obsolete and fully depreciated property, plant, and equipment.

Equipment includes gross capitalized leases aggregating approximately $26,640 and $14,014 at September 30, 2014 and 2013, respectively. Accumulated amortization on capital lease assets is approximately $7,891 and $5,588 at September 30, 2014 and 2013, respectively.

Construction in progress includes gross capitalized leases aggregating approximately $11,327 at September 30, 2013.

At September 30, 2014 and 2013, construction-in-progress included $4,666 and $24,186, respectively, of computer software costs relating to projects which were in development and were therefore not yet being depreciated.

8. Pledges Receivable

Pledges receivable include the following unconditional promises to give as of September 30:

	September 30	
	2014	**2013**
Due within one year	**$ 1,304**	$ 1,257
Due within two to five years	**7,168**	6,588
Due within greater than five years	**3,957**	4,991
	12,429	12,836
Allowance for uncollectible pledges	**(737)**	(609)
Discount	**(1,117)**	(1,489)
Present value of pledges receivable, net	**$ 10,575**	$ 10,738

The allowance recognizes the estimated uncollectible portion of pledges and the discount of pledges to net present value based on a range of interest rates of 1% to 4%.

9. Other Operating Revenues

Electronic Health Record (EHR) Program

Certain health care providers can earn incentive payments between 2011 and 2016 from Medicare and Medicaid for establishing an EHR system and maintaining its meaningful use. Saint Francis Care recognizes income when it is reasonably assured that it is in compliance with the program criteria. Saint Francis Care has included $2,424 and $3,767 in other operating revenue related to the program for fiscal year 2014 and 2013, respectively. Included in the amounts are $710 and $959 received from Medicaid and $1,714 and $2,808 from Medicare for the fiscal years 2014 and 2013, respectively. The estimate for the Medicare program is based on cost report data, which is subject to audit and the amounts recognized are subject to change. Saint Francis Care attestation of compliance with the meaningful use criteria is subject to audit by the federal or state government or its designee.

Other operating revenues consist of the following:

	September 30	
	2014	**2013**
EHR income	**$ 2,424**	$ 3,767
Rental income	**4,597**	5,711
Investment income	**5,907**	4,962
Services to other institutions	**5,073**	4,765
Unrestricted contributions	**3,255**	2,451
Pharmacy income	**2,679**	2,165
Equity earnings in group purchasing organization	**849**	1,410
Gain on joint ventures	**1,202**	1,946
Other income	**12,811**	12,587
Total other operating revenues	**$ 38,797**	$ 39,764

10. Professional and General Liability Insurance

During 2009, Saint Francis Care established the Saint Francis Indemnity Company as a successor to Saint Francis Care's financial interest in Partners Interinsurance Exchange (PIE). On July 1, 2009, Saint Francis Care's account in PIE was transferred to the Saint Francis Indemnity Company. Saint Francis Care and certain Subsidiaries continue to purchase limits of professional and general liability from the Saint Francis Indemnity Company at levels previously purchased from PIE. Actuarially determined premiums are paid in order to set aside assets to cover the reasonable value of ultimate expected losses. Saint Francis Care's management, with assistance from its consulting actuaries, accrued its best estimate of professional and general liabilities.

Malpractice claims that fall within the Saint Francis Care's adopted policy of self-insurance have been asserted against Saint Francis Care's various claimants. The claims are in various stages of assessment and resolution. There are also known and unknown incidents that have occurred through September 30, 2014, that may result in the assertion of additional claims. Saint Francis Care's management believes that the ultimate settlement of these claims will not have a material impact on Saint Francis Care's consolidated financial position or results of their operations, as adequate self-insurance reserves, assets and reinsurance are in place.

The Saint Francis Indemnity Company entered into a novation agreement with Saint Francis Care and PIE to assume the existing liabilities effective July 1, 2009. This transaction did not transfer significant insurance underwriting risk to the Saint Francis Indemnity Company, so accordingly, this transaction is accounted for using deposit accounting in accordance with ASC 340-30, *Insurance Contracts that do not Transfer Insurance Risk*. Under deposit accounting, an insurance deposit liability is initially measured based upon the premium received on the insurance contract. At the end of the period, the insurance deposit liability is adjusted to the estimated future cash flows for payments of outstanding losses and loss adjustment expenses. All risk taken on by adverse development on liabilities transferred as part of the novation agreement is guaranteed by the Saint Francis Care.

10. Professional and General Liability Insurance (continued)

Activity in the reserves for losses (discounted at 4%) and loss adjustment expenses for the years ended September 30 and is summarized as follows:

	2014	2013
Balance at beginning of year, net	**$ 26,208**	$ 21,873
Incurred related to:		
Current period	**9,063**	9,619
Prior periods	**(46)**	(1,190)
Total incurred	**9,017**	8,429
Paid related to:		
Current period	**52**	174
Prior periods	**4,989**	3,920
Total paid	**5,041**	4,094
Balance at end of year, net of reinsurance recoverable	**30,184**	26,208
Plus reinsurance recoverable on unpaid losses and loss adjustment expenses	**1,690**	1,650
Gross balance, included in pension and other accrued expenses in the consolidated balance sheets, at end of year	**$ 31,874**	$ 27,858

As described in Note 1, the estimate of losses and loss adjustment expenses may vary significantly from the amounts reported in the Saint Francis Indemnity Company's financial statements and could result in adverse deviation from the recorded reserve amounts. The 2014 and 2013 prior year loss development was favorable due to better than actuarial expected results by $46 and $1,190, respectively.

11. Long-Term Debt

Long-term debt consists of the following:

	September 30 2014	2013
State of Connecticut Health and Educational Facilities Authority (the Authority) revenue bonds:		
Series D	**$ –**	$ 11,34
Series E (interest rate at September 30, 2014 of 6.11%)	**38,950**	39,745
Series F	**–**	175,000
Series G	**–**	28,240
Series H (interest rate at September 30, 2014 of 3.04%)	**49,597**	–
Series I (interest rate at September 30, 2014 of 1.36%)	**59,518**	–
Series J (interest rate at September 30, 2014 of 1.81%)	**39,677**	–
Series K (interest rate at September 30, 2014 of 1.55%)	**34,718**	–
Series L (interest rate at September 30, 2014 of 1.69%)	**19,920**	–
Series M (interest rate at September 30, 2014 of 1.40%)	**8,150**	–
	250,530	254,325
Obligations under capital leases, due in quarterly and monthly installments, at varying rates of interest from 3% to 6.75%	**9,706**	13,131
	260,236	267,456
Less: current portion:		
Scheduled maturities	**8,760**	8,819
	$ 251,476	$ 258,63

In January 2014, the Hospital and Medical Center entered into a financing arrangement with the Authority for the purpose of refunding and refinancing the Series D, F, and G revenue bonds. The Authority sold $213,215 of Series H-M Bond Qualified Tax Exempt Bonds, which mature serially from 2018 to 2021 through private placement. Principal payments will be made based on a redemption schedule as defined in the bond documents. The Series H bonds bear interest at a

11. Long-Term Debt (continued)

fixed rate of 3.04%. The Series I-M bonds bear interest at various rates ranging from 68.00% to 72.00% of one-month LIBOR plus 1.70% to 2.30%. The refunding and refinancing did not impact any of the terms related to the interest rate swap agreements currently in place at the Hospital and Medical Center. Included in non-operating gains and losses is $1.7 million of extinguishment loss resulting from the refunding and refinancing of the Series D, F, and G revenue bonds. The Series D, F, and G revenue bonds were fully redeemed in fiscal 2014.

During 2004, the Hospital and Medical Center entered into a synthetic refinancing of its then existing Series C Fixed Rate Bonds. Through a series of transactions, which involves a total return interest rate swap and a cash flow swap, the Hospital and Medical Center converted its old fixed rate debt to a lower fixed rate debt with substantial anticipated future savings. In March 2008, a financial institution terminated its total return interest rate swap with the Hospital and Medical Center, but the cash flow swap remains.

In May 2008, the Hospital and Medical Center entered into a financing arrangement with the Authority under a Master Indenture for the purpose of refinancing the bridge loan. The Authority sold $39,745 of Series E revenue bonds through a private placement. The bonds mature serially from 2014 to 2027 and bear interest at a fixed rate of 6.11%. The Hospital and Medical Center subsequently entered into a synthetic refinancing of these bonds through a total return interest rate swap with a financial institution that lowers the fixed rate to 3.85% through July 2018.

The total return distribution agreements and interest rate swaps between the Hospital and Medical Center and the financial institutions are considered derivative instruments and are marked to market in accordance with ASC 815. Although the agreements and swaps represent economic hedges of the interest rate on the bonds, they do not qualify for hedge accounting treatment under ASC 815. The changes in the fair value of the swaps and total return distribution agreements are reported in the accompanying consolidated statements of operations and changes in net assets as interest rate swap activity along with the net cash receipts on the swaps.

The Hospital and Medical Center’s swap agreements provide for the interest rates at a level viewed as acceptable by the Hospital and Medical Center. Such agreements expose the Hospital and Medical Center to credit risk in the event of nonperformance by the counterparties.

11. Long-Term Debt (continued)

At September 30, 2014 and 2013, the swaps in a liability position are reported in pension and other accrued liabilities and the swap in an asset position is reported in other assets and are summarized as follows:

Notional Amount	Maturity Date	Fixed Payment Rate	2014 Fair Value (Liability (Asset))
$ 130,000	**July 1, 2047**	**3.535%**	**$ 29,156**
26,620	**July 1, 2023**	**3.349**	**2,487**
26,620	**July 1, 2023**	**3.349**	**2,487**
38,950	**July 1, 2018**	**6.105**	**(5,689)**
			$ 28,441

Notional Amount	Maturity Date	Fixed Payment Rate	2013 Fair Value (Liability (Asset))
$ 130,000	July 1, 2047	3.535%	$ 24,553
26,620	July 1, 2023	3.349	3,023
26,620	July 1, 2047	3.349	3,023
38,950	July 1, 2047	3.850	(2,760)
			$ 27,839

Under the terms of the financing arrangements, the proceeds of the revenue bonds were loaned to the Hospital and Medical Center by the Authority. Pursuant to the loan agreements, the Hospital and Medical Center is obligated to provide amounts that will be sufficient to enable the Authority to pay the principal and interest on the Series E bonds. A significant portion of property, building, and equipment have been collateralized under various debt agreements. The terms of the various financing arrangements between the Authority, certain financial institutions, and the Hospital and Medical Center also provide for financial covenants. As of September 30, 2014, the Hospital and Medical Center was in compliance with such covenants.

11. Long-Term Debt (continued)

The Hospital and Medical Center has a line of credit with a bank with a total line available of $5,000 which expires in March 2015. The rate is LIBOR plus 1.5%. There were no amounts outstanding as of September 30, 2014 and 2013.

Concurrent with the issuance and delivery of the Series C, Series D, Series E, Series F, Series G, and Series H bonds, the Hospital and Medical Center and the trustee entered into a master indenture and supplemental master indentures, which provide for the establishment and maintenance of various funds, a pledge of gross receipts, as defined, restrictions on incurrence of certain indebtedness, and financial covenants. The balances of the funds established pursuant to the master indenture and supplemental master indentures are included in assets whose use is limited.

Scheduled principal payments of long-term debt, including lease obligations, at September 30, 2014, are as follows:

	Debt	Capital Lease Obligations
2015	$ 4,410	$ 4,627
2016	4,517	3,008
2017	4,707	2,244
2018	4,945	281
2019	3,913	–
Thereafter	228,038	–
Less: interest	–	(454)
	$ 250,530	$ 9,706

Interest payments of $10,448 and $8,883 were made during 2014 and 2013, respectively.

12. Retirement Plan and Other Postretirement Benefits

The Hospital and Medical Center has noncontributory defined benefit pension plans in effect covering all employees who meet certain eligibility requirements. Benefits are based on years of service and the employee's compensation and include a cash balance account for each employee. For plans subject to ERISA, the Hospital and Medical Center makes contributions in amounts sufficient to meet ERISA's minimum funding requirements.

Effective March 1, 2006, the Hospital and Medical Center amended its defined benefit pension plans to close the plans to new participants on September 30, 2006, and to freeze accruals as of October 1, 2006, for participants whose age plus years of service (minimum of ten years) total less than 55. As of October 1, 2006, the Hospital and Medical Center established a defined contribution plan for all eligible non-grandfathered employees. Pension expense related to the defined contribution plan for the years ended September 30, 2014 and 2013, was $12,246 and $11,692, respectively. The defined benefit plan became fully frozen effective October 1, 2009.

The Hospital and Medical Center provides health insurance to retirees and spouses who have met certain eligibility and length of service requirements. The Hospital and Medical Center's policy is to fund the cost of those postretirement benefits as incurred. Effective September 30, 2014, a plan amendment for the Hospital and Medical Center permanently capped the subsidy for the grandfathered participants to the 2014 funding level.

Included in unrestricted net assets at September 30 are the following amounts that have not yet been recognized in net periodic benefit cost:

	Pension Benefits		**Postretirement Benefits**	
	2014	**2013**	**2014**	**2013**
Unrecognized actuarial (loss) gain	**$ (192,089)**	$ (139,688)	**$ 2,561**	$ 3,602

The actuarial (loss) gain and transition assets included in unrestricted net assets expected to be recognized in net periodic benefit cost during the year ending September 30, 2015, is $5,203.

12. Retirement Plan and Other Postretirement Benefits (continued)

The following table sets forth the plan's funded status and amounts recognized in the consolidated balance sheets:

	Pension Benefits		Other Postretirement Benefits	
	2014	**2013**	**2014**	**2013**
Change in benefit obligation				
Benefit obligation at beginning of year	**$ 403,091**	$ 458,611	**$ 7,224**	$ 13,833
Interest cost	**21,148**	19,085	**363**	546
Benefits paid	**(18,113)**	(14,984)	**(892)**	(934)
Actuarial losses (gains)	**58,217**	(59,621)	**631**	(1,624)
Plan amendments	**–**	–	**–**	(4,597)
Benefit obligation at end of year	**464,343**	403,091	**7,326**	7,224
Change in plan assets				
Fair value of plan assets at beginning of year	**263,968**	241,281	**–**	–
Actual return on plan assets	**18,723**	28,392	**–**	–
Contributions	**8,893**	9,279	**892**	934
Benefits paid	**(18,113)**	(14,984)	**(892)**	(934)
Fair value of plan assets at end of year	**273,471**	263,968	**–**	–
Funded status of the plan	**(190,872)**	(139,123)	**(7,326)**	(7,224)
Accrued benefit cost recognized in pension and other accrued expenses in the consolidated balance sheets	**$ (190,872)**	$ (139,123)	**$ (7,326)**	$ (7,224)

The accumulated benefit obligations for the plans were $471,669 and $410,315 at September 30, 2014 and 2013, respectively.

	Pension Benefits		Other Postretirement Benefits	
	2014	**2013**	**2014**	**2013**
Components of net periodic benefit cost				
Interest cost	**$ 21,148**	$ 19,085	**$ 363**	$ 546
Expected return on plan assets	**(17,194)**	(16,520)	**–**	–
Net amortization and deferral	**4,287**	6,280	**26**	74
Transition asset	**–**	–	**(436)**	–
Benefit cost (credit)	**$ 8,241**	$ 8,845	**$ (47)**	$ 620

12. Retirement Plan and Other Postretirement Benefits (continued)

Assumptions

The weighted-average assumptions used to determine benefit obligations at September 30 are as follows:

	Pension Benefits		Other Postretirement Benefits	
	2014	**2013**	**2014**	**2013**
Discount rate	**4.70%**	5.35%	**4.70%**	5.35%

The weighted-average assumptions used to determine net periodic benefit cost for the years ended September 30 are as follows:

	Pension Benefits		Other Postretirement Benefits	
	2014	**2013**	**2014**	**2013**
Discount rate	**5.35%**	4.25%	**5.35%**	4.25%
Expected long-term rate of return on assets	**7.00**	7.00	**N/A**	N/A

The Hospital and Medical Center's expected long-term rate of return on assets assumption is derived from a study conducted by its actuaries and investment managers. The study includes a review of anticipated future long-term performance of individual asset classes and consideration of the appropriate asset allocation strategy given the anticipated requirements of the plan to determine the average rate of earnings expected on the funds invested to provide for the pension plan benefits. While the study gives appropriate consideration to recent fund performance and historical returns, the assumption is primarily a long-term, prospective rate.

As of September 30, 2014, the health care cost trend rate no longer applies due to a plan change. Effective as of this date, a plan amendment permanently capped the Hospital and Medical Center's subsidy for the grandfathered participants to the 2014 level.

12. Retirement Plan and Other Postretirement Benefits (continued)

The actuarial loss in 2014 primarily relates to changes in the discount rate and mortality improvement scale to measure the benefit obligation, and the actuarial gain in 2013 primarily relates to changes in the discount rate used to measure the benefit obligation.

Plan Assets

The Hospital and Medical Center's pension plan asset allocations, by asset category are as follows:

	September 30	
	2014	**2013**
Asset category		
Equity securities:		
Domestic	**37%**	35%
International	**16**	17
Debt securities	**40**	38
Commodities	**3**	3
Real estate	**3**	3
Cash	**1**	4
Total	**100%**	100%

The Hospital and Medical Center maintains target allocation percentages among various asset classes based on an investment policy established for the pension plan, which is designed to achieve long-term objectives of return, while mitigating against downside risk and considering expected cash flows. The current weighted-average target asset allocation is as follows: equity securities 40%–80%, debt securities 20%–40%, and real estate 0%–15%. The investment policy is reviewed from time to time to ensure consistency with the long-term objective of funding the plan to a level sufficient to pay plan benefits as they become due.

Contributions

The Hospital and Medical Center expects to contribute $8,923 to its pension plan and $865 to its other postretirement benefits plan in 2015.

12. Retirement Plan and Other Postretirement Benefits (continued)

Estimated Future Benefit Payments

The following benefit payments, which reflect expected future service, are expected to be paid as follows:

	Pension Benefits	Other Postretirement Benefits
Fiscal year:		
2015	$ 19,931	$ 865
2016	21,709	823
2017	23,243	780
2018	24,235	736
2019	25,561	690
2020–2024	141,665	2,806

13. Fair Values of Financial Instruments

Saint Francis Care measures fair value based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements are applied based on the unit of account from Saint Francis Care's perspective. The unit of account determines what is being measured by reference to the level at which the asset or liability is aggregated (or disaggregated) for purposes of applying other accounting pronouncements.

Saint Francis Care follows a valuation hierarchy that is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. The three levels are defined as follows:

Level 1 : Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Level 2 : Observable inputs that are based on inputs not quoted in active markets, but corroborated by market data.

13. Fair Values of Financial Instruments (continued)

Level 3 : Unobservable inputs are used when little or no market data are available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. In determining fair value, Saint Francis Care uses valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible and considers nonperformance risk in its assessment of fair value.

Financial assets and liabilities carried at fair value as of September 30, 2014, are classified in the table below in one of the three categories described above:

	Level 1	Level 2	Level 3	Total

Equities	84,604	–	–	84,604
	263,968	–	–	263,968

The fair value of the Hospital and Medical Center long-term debt as determined by the Hospital and Medical Center using a discounted cash flow analysis was $254,580 and $257,256 at September 30, 2014 and 2013, respectively, and is classified as Level 2.

The amounts reported in the previous tables exclude investments reported under the equity method of accounting in the amounts of $5,533 and $3,474 at September 30, 2014 and 2013, respectively.

14. Related-Party Transactions

On July 12, 2012, Johnson Memorial Medical Center entered into an affiliation agreement with Saint Francis Care, designed to establish a long-term stable relationship between the two systems. Included in the affiliation agreement, Saint Francis Care obtained a minority voting interest on the Board of Directors of Johnson Memorial Medical Center. Saint Francis Care provides certain management and other services to Johnson Memorial Medical Center for which Saint Francis Care is reimbursed. Saint Francis Care was reimbursed $3,356 and $1,756 for the years ended September 30, 2014 and 2013, respectively. Related accounts receivable were, $844 and $1,515 for the years ended September 30, 2014 and 2013, respectively.

The Hospital and Medical Center has entered into a letter of credit arrangement with Johnson Memorial Medical Center for $1,250 that expires on July 27, 2015. As of September 30, 2014, Johnson Memorial Medical Center has not drawn any amounts.

15. Commitments and Contingencies

The Hospital and Medical Center has guaranteed the payment of a loan made by the City of Hartford to Mount Sinai Hospital Foundation, Inc. This loan matures on August 1, 2016. The balance of this loan at September 30, 2014 and 2013, were $386 and $578, respectively.

Saint Francis Care is a party to various lawsuits incidental to its business. Management believes that the lawsuits will not have a material adverse effect on its consolidated financial position and results of operations.

16. Changes in Components of Working Capital Other Than Cash and Cash Equivalents

	Year Ended September 30	
	2014	**2013**
Changes in current assets:		
Assets whose use is limited for current liabilities	**$ 3,424**	$ 193
Pledges receivable	**163**	1,836
Accounts receivable – patients, net	**(38,549)**	(25,269)
Accounts receivable – other	**389**	(828)
Inventories of supplies	**(1,646)**	(47)
Prepaid expenses and deposits	**(949)**	1,125
Due from affiliated entities	**466**	(1,461)
	(36,701)	(24,451)
Changes in current liabilities:		
Accounts payable	**87**	359
Accrued payroll and other related expenses	**3,504**	1,992
Accrued expenses and interest payable	**905**	(1,007)
Due to third-party reimbursement agencies	**1,759**	11,027
	6,255	12,371
Changes in working capital other than cash and cash equivalents	**$ (30,447)**	$ (12,080)

17. Functional Expenses

Functional expenses are as follows:

	Year Ended September 30	
	2014	**2013**
Health care services	**$ 723,113**	$ 702,240
General, administrative, and teaching	**68,494**	71,662
Fundraising	**2,092**	2,007
	$ 793,699	$ 775,909

18. Subsequent Events

Saint Francis Care evaluated subsequent events through January 6, 2015, which is the date the consolidated financial statements were issued. Saint Francis Care evaluates the impact of subsequent events, which are events that occur after the balance sheet date but before the consolidated financial statements are issued, for potential recognition in the consolidated financial statements as of the balance sheet date for the year ended September 30, 2014.

On December 17, 2014, Saint Francis Care and Trinity Health Corporation (Trinity Health), a multi-institutional Catholic healthcare system serving people and communities in many states, signed a definitive agreement for Trinity Health to become the sole corporate member of Saint Francis Care. Saint Francis Care will become part of Trinity Health and, together with the Sisters of Providence Health System, the organizations will establish a new Trinity Health Regional Health Ministry. Saint Francis Care will continue to serve as the parent and sole corporate member of Saint Francis Hospital and Medical Center, Inc., Mount Sinai Rehabilitation Hospital, Inc., and other entities that are presently subsidiaries of Saint Francis Care. This agreement is contingent upon regulatory review by appropriate state and federal agencies as well as approvals required under Canon Law. During this review period, both organizations will continue to operate independently.

INDEPENDENT AUDITORS' REPORT

Board of Directors
Johnson Memorial Medical Center

We have audited the accompanying consolidated financial statements of Johnson Memorial Medical Center (the Organization), which comprise the consolidated balance sheets as of September 30, 2014 and 2013, and the related consolidated statements of operations, changes in net assets and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting polices used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Johnson Memorial Medical Center as of September 30, 2014 and 2013, and the results of its operations, changes in net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

The accompanying consolidated financial statements have been prepared assuming that the Organization will continue as a going concern. As described in Note 1, the Organization experienced recurring losses from operations, had an unrestricted net asset deficit of $12,121,840, and had current liabilities that exceeded current assets by $32,273,795 as of September 30, 2014. The Organization has a credit agreement and mortgages that require certain financial and non-financial covenants be maintained. The Organization failed certain covenants during the year ended September 30, 2014 and defaulted on certain payments due on its mortgages and due to creditors. In addition, the Organization filed for relief under Chapter 11 of the U.S. Bankruptcy Code subsequent to September 30, 2014 and entered into asset purchase agreements for the sale of the Organization which are contingent on a number of conditions, including the approval of the Bankruptcy Court. These conditions raise substantial doubt about the Hospital's ability to continue as a going concern. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty. Our opinion is not modified with respect to this matter.

Supplemental Disclosures of Cash Flow Information		
Cash paid for interest	$ 1,258,348	$ 1,258,897

The accompanying notes are an integral part of these consolidated financial statements.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION

ORGANIZATION

Johnson Memorial Medical Center (the Corporation or JMMC) is a not-for-profit, non-stock holding company located in Stafford Springs, Connecticut. The Corporation through its subsidiaries provides health care services to residents throughout the Hartford and Tolland Connecticut counties. The Corporation's non-profit subsidiaries include Johnson Memorial Hospital (the Hospital or JMH), Johnson Evergreen Corporation (Evergreen or EHCC), Johnson Health Care, Inc. (Health Care or JHC), and Home & Community Health Services, Inc. (HCHS). Johnson Medical Specialists, P.C. (JMS) is a professional corporation that is controlled by the Corporation. The Hospital has controlling interests in Johnson Development Fund, Inc. (Development) and its for-profit subsidiary WellCare, Inc. and Johnson Professional Associates, P.C. (JPA). The above entities are collectively referred to as the Organization in this consolidated presentation.

The Organization's major accounting policies are as summarized below and in Note 2.

JANUARY 14, 2015 BANKRUPTCY FILING

On January 14, 2015, the Corporation, Hospital, HCHS, Health Care and JPA filed a voluntary joint petition for relief under Chapter 11 of the U.S. Bankruptcy Code in the U.S. Bankruptcy Court for District of Connecticut, Hartford Division (Bankruptcy Court). Evergreen filed a separate Chapter 11 petition on January 14, 2015. The aforementioned entities are collectively referred to as the Debtors.

In connection with these bankruptcy filings, the Debtors filed motions with the Bankruptcy Court under Bankruptcy Code Section 363 to sell the Corporation, Hospital, Evergreen, Home and Community, and Health Care to Saint Francis Care, Inc. (Saint Francis).

Saint Francis and the Corporation have negotiated two separate asset purchase agreements, one for the sale of the Corporation, Hospital, HCHS, and Health Care and a separate agreement for the sale of Evergreen which are both subject to Bankruptcy Court approval. Saint Francis will not purchase Evergreen unless it is successful in executing the other asset purchase agreement.

The sales process in the Bankruptcy Court will be the subject of a number of court hearings and the creditors may object to the proposed sale. Also, the proposed sale of Evergreen to Saint Francis will be subject to the best offer as there will be an opportunity for other potential buyers to submit competing offers and an auction is expected to occur if there are competing bids.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

JANUARY 14, 2015 BANKRUPTCY FILING (CONTINUED)

In addition to Bankruptcy Court approval, approval from the State of Connecticut Office of Health Care Access (OHCA), the Office of the Attorney General and from state and federal antitrust authorities is required.

Saint Francis and People's United Bank (People's) have negotiated the restructuring of the People's mortgage debt owed by the Hospital and JMMC in order for a portion of the debt to be assumed by Saint Francis as part of the proposed sales transactions. None of the People's debt related to Evergreen is expected to be assumed by Saint Francis under the proposed Evergreen asset purchase agreement.

On January 16, 2015, the Debtors and a lender have negotiated the terms of a debtor in possession loan in the amount of up to $7 million, subject to certain limits, to finance the Debtors' operations through the bankruptcy process.

During the year ended September 30, 2014, the Organization expensed legal and consulting costs of approximately $850,000 related to the bankruptcy filing and the proposed sales transactions.

ORIGINAL BANKRUPTCY FILING

As a result of the severe financial operating deficits, management determined it would be unable to pay its obligations in the normal course of business during fiscal year 2009 or service its debt in a timely fashion. On November 4, 2008, the Hospital, the Corporation and Evergreen, filed voluntary petitions for relief under Chapter 11 of the U.S. Bankruptcy Code. This generally delayed payments of liabilities incurred prior to filing those petitions while the Corporation, the Hospital and Evergreen developed a joint plan of reorganization that was satisfactory to their creditors, and allowed these entities to continue as going concerns.

On August 11, 2010, the Bankruptcy Court confirmed the original plan of reorganization which was subject to the satisfaction of a number of conditions precedent. One of the conditions was that the Hospital, the Corporation, and Evergreen were required to obtain a line of credit of at least $6 million. On September 30, 2010, the plan of reorganization became effective when these debtors received financing under an $8 million line of credit and all other material conditions precedent to the plan becoming binding were resolved. The Bankruptcy Court issued a final decree on December 29, 2010.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

ORIGINAL BANKRUPTCY FILING (CONTINUED)

There was no change in control as the Organization's Board of Directors immediately prior to the confirmation of the plan retained control upon emergence from the Chapter 11 proceedings, therefore, the Organization did not adopt fresh-start reporting.

As of September 30, 2014 and 2013, liabilities compromised by the confirmed plan have been recorded at the present values of amounts to be paid, determined at the interest rate of 6.75%.

The Debtor's original confirmed plan provided for the following:

Secured Debt – The Hospital's secured debt with a bank (secured by a first mortgage lien on land and buildings located in Stafford Springs, Connecticut and a blanket lien on all furniture, fixtures, and equipment) was reinstated as such maturity existed before any default, and is payable in quarterly installments through January 1, 2048. The Hospital will also remain obligated as guarantor of the Corporation's secured debt in the amounts of $2,940,000 and $3,001,081, respectively, as of September 30, 2014 and 2013 and Evergreen's secured debt of $14,213,697 as of September 30, 2014 and 2013.

Evergreen's secured debt with a bank (secured by a first mortgage lien on land and buildings located in Stafford Springs, Connecticut and a blanket lien on all furniture, fixtures, and equipment) was reinstated as such maturity existed before any default, and is payable in quarterly installments through September 1, 2047.

The Corporation's secured debt with a bank (secured by a lien on land and buildings located in Enfield, Connecticut and a blanket lien on all furniture, fixtures, and equipment) was reinstated as such maturity existed before any default, and is payable in monthly installments through September 30, 2014 at which time the outstanding principal balance plus accrued interest thereon became due and payable, however, the loan has not been repaid.

Other Secured Debt – The Hospital's loan to finance information technology equipment was restructured to be paid in 60 monthly installments of $10,000, including interest. The carrying value of this compromised debt was $125,022 and $232,609 as of September 30, 2014 and 2013, respectively.

Priority and Administrative Claims – All priority and administrative claims were to be paid as allowed by the Court.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

ORIGINAL BANKRUPTCY FILING (CONTINUED)

Trade and Other Miscellaneous Claims – The holders of approximately $11 million of trade and other miscellaneous claims were entitled to receive $780,802 on the effective date, $283,525 on the first anniversary of the effective date, $541,275 on the second anniversary of the effective date and $1,056,775 on the each of the third, fourth, and fifth anniversaries of the effective date.

The holders of approximately $175,000 of convenience claims were entitled to receive 50% of their allowed claim. Unexpired leases and contracts not rejected by the Debtors were scheduled to be paid according to their original or negotiated terms.

Pension Benefit Guaranty Corporation (PBGC) Claims – The PBGC was entitled to receive $730,402 on the effective date, $266,475 on the first anniversary of the effective date, $508,725 on the second anniversary of the effective date and $993,225 on the each of the third, fourth, and fifth anniversaries of the effective date. The Hospital has also recorded a liability of $468,384 and $438,767 as of September 30, 2014 and 2013, respectively, for the pension termination premium that is owed to the PBGC prior to October 1, 2016. If the premium is not paid by this date, the pension termination premium will increase to $2 million under the terms of the plan of reorganization.

The Hospital and Evergreen failed to pay the amounts owed to the unsecured creditors and the PBGC that were due on October 1, 2013 and October 1, 2014.

In addition, mortgage payments totaling approximately $5,572,000 were past due under the secured mortgages as of September 30, 2014. The $29,141,197 balance of the mortgages has been classified as a current liability at September 30, 2014 based on the fact that People's Bank had the right to demand repayment at September 30, 2014.

AFFILIATION WITH SAINT FRANCIS CARE, INC.

On July 12, 2012, the Corporation, along with the Hospital and Evergreen (collectively, the Johnson Entities) entered into an affiliation agreement with Saint Francis Care designed to establish a long-term stable relationship between the two systems, allowing them to work together to maintain and strengthen the Corporation's operating viability and the Hospital's presence in the community as a community hospital, expand the array of health care services available, support the Hospital's medical staff, and enhance the Corporation's efforts to fulfill its mission. Saint Francis made an initial payment to the Johnson Entities of $1,300,000 on the date of the affiliation agreement and made an additional payment of $1,050,000 on October 1, 2012, both payments to be used by the Johnson Entities to satisfy outstanding claims owed under the reorganization plan (the Plan) to the Pension Benefit Guaranty Corporation and the unsecured creditors in classes A6 and B6 of the Plan.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

AFFILIATION WITH SAINT FRANCIS CARE, INC. (CONTINUED)

All payments made by Saint Francis under this agreement were considered to be an unsecured loan. Under the terms of the affiliation agreement, this loan would be payable in the event that the Corporation sought the closing of an alternative transaction, if the proceeds of this alternative transaction exceeded the amounts necessary to satisfy all other secured and unsecured debt owed by the Corporation.

In connection with the $1,300,000 initial payment, Saint Francis was provided with the right to appoint three members to the Boards of Directors of Johnson Memorial Medical Center, the Hospital, and Evergreen.

The affiliation agreement requires the Johnson Entities to obtain the consent of Saint Francis prior to the occurrence of the following events: merger, dissolution, dilution of Saint Francis' board representation, incurrence of certain additional debt, prepayment of debt, creation of liens, entering into lease obligations in excess of $1 million, the sale or disposition of properties in excess of defined thresholds, distributions of cash, or the addition or termination of any material clinical service.

Saint Francis will provide medical leadership in the Hospital's oncology program, infectious disease program, hospitalist program and management services in both case management and psychiatry in an effort to help the Hospital to attract additional volume.

On May 17, 2013, the Johnson Entities amended the affiliation agreement with Saint Francis to include additional advances of up to $1,000,000 to be used solely for general working capital purposes. Advances under this amendment are subject to interest effective October 1, 2013 at the prime rate plus 2%. As of September 30, 2014, there were no advances under this letter of credit and $350,000 was advanced to the Hospital as of September 30, 2013.

During 2014, Saint Francis agreed to provide credit support of $2 million to the Johnson Entities in the form of a guaranty and letter of credit issued by a bank as security for the Johnson Entities' deductible under their workers' compensation policy. Certain fees and interest will be owed to Saint Francis under this agreement. As of September 30, 2014, there were no borrowings under this letter of credit.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

GOING CONCERN

The accompanying financial statements have been prepared assuming that the Organization will continue as a going concern. During 2014, the Organization experienced recurring losses from operations, had an unrestricted net asset deficit of $12,121,840, and had current liabilities that exceeded current assets by $32,273,795 as of September 30, 2014. The Hospital, EHCC and JMMC failed certain debt covenants during the year ended September 30, 2014 and defaulted on certain payments due on their mortgages and amounts due to their creditors. In addition, the Corporation filed for relief under Chapter 11 of the U.S. Bankruptcy Code subsequent to September 30, 2014. These conditions raise substantial doubt about the Corporation's ability to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

It is the plan of management to ensure that the Corporation continues as a going concern and the Corporation is pursuing the potential sale of the Hospital and the other Debtors to Saint Francis under Bankruptcy Code Section 363. Management believes that such a sale will preserve and maximize the going concern value of the Debtors' properties, provide jobs for the Debtors' employees, and allow for the continued delivery of health care services to residents of North Central Connecticut.

The actions taken by the Corporation with respect to the potential transaction with Saint Francis and the courses of action taken by Bankruptcy Court and the creditors of the Corporation will have an impact on the Corporation's ability to continue as a going concern.

The Corporation's continuation as a going concern is also ultimately dependent upon its future financial performance, which will be affected by general economic, competitive and other factors, many of which are beyond the Corporation's control. There can be no assurance that the Corporation's plans to ensure continuation as a going concern will be successful.

PRINCIPLES OF CONSOLIDATION AND PRESENTATION

The accompanying consolidated financial statements include the accounts of Johnson Memorial Medical Center, Johnson Memorial Hospital, The Johnson Evergreen Corporation, Home & Community Health Services, Johnson Health Care, Inc., Johnson Professional Associates, P.C., Johnson Medical Specialists, P.C., and Johnson Development Fund, Inc. JPA and Development are entities in which the Hospital has a controlling financial interest. All inter-company accounts have been eliminated in consolidation.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

PRINCIPLES OF CONSOLIDATION AND PRESENTATION (CONTINUED)

ASC 810-25, *Consolidations*, requires a not-for-profit entity, among other things, to consolidate into its financial statements the financial results of another not-for-profit in which it has a controlling financial interest and to make certain disclosures. Reference is made to Note 2.

The accompanying consolidated financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

NET ASSET CATEGORIES

To ensure observance of limitations and restrictions placed on the use of resources available to the Organization, the accounts of the Organization are maintained in the following net asset categories:

Unrestricted – Unrestricted net assets represent available resources which can be used for general operations of the Organization. Included in unrestricted net assets are assets set aside by the Board of Directors.

Temporarily Restricted – The Organization reports gifts of cash and other assets as restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statements of operations and changes in net assets as net assets released from restrictions. Donor-restricted contributions whose restrictions are met in within the same year as received are reflected as unrestricted contributions in the accompanying financial statements. At September 30, 2014 and 2013, the Organization had temporarily restricted net assets of $410,595 and $335,709, respectively.

Permanently Restricted – Permanently restricted net assets represent contributions received with the donor restriction that the principal be invested in perpetuity and that income earned thereon is available for operations or a specific purpose.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, including estimated uncollectible accounts receivable and contractual allowances and liabilities, including estimated net settlements with third-party reimbursement agencies and professional liabilities, and disclosure of contingent assets and contingent liabilities at the date of the financial statements. Estimates also affect the amounts of revenues and expenses reported during the period. There is at least a reasonable possibility that certain estimates will change by material amounts in the near term. Actual results could differ from those estimates.

REGULATORY MATTERS

The Hospital is required to file annual operating information with the State of Connecticut Office of Health Care Access.

DONOR RESTRICTED GIFTS

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. The gifts are reported as either temporarily or permanently restricted net assets if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets.

CASH AND CASH EQUIVALENTS

The Organization considers all highly liquid investments with remaining maturities of three months or less at date of purchase to be cash equivalents. Cash and cash equivalents are held at a limited number of financial institutions and at times, the amounts on deposit exceed insured limits.

BENEFICIAL INTERESTS IN PERPETUAL TRUSTS

The Hospital is the beneficiary of several trust funds. Although the principal balances in the trust funds are permanently restricted, the income earned on the trust funds is unrestricted. The increases in unrealized gains from the trust funds were $63,596 in 2014 and $113,235 in 2013 and are included in changes in permanently restricted net assets.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

INVESTMENTS PERMANENTLY RESTRICTED BY DONOR

Investments permanently restricted by donor (other than beneficial interests in perpetual trusts) represent the funds held to support the permanently restricted endowment funds and earnings thereon. Investments in securities with readily determinable fair values are measured at fair value in the balance sheets. Fair value is determined based upon quoted market prices. Investment income or loss (including realized gains and losses on investments, interest and dividends) is included in the deficiency of revenue over expenses unless restricted by the donor or law.

Unrealized gains and losses on investments related to certain permanently restricted net assets (excluding beneficial interests in perpetual trusts) and certain temporarily restricted net assets are included in temporarily restricted net assets under State law which allows the Board of Directors to appropriate as much of the net appreciation of investments as is prudent considering the Organization's long and short-term needs, present and anticipated financial requirements, expected total return on its investments, price level trends, and general economic conditions. Reference is made to Note 8.

ACCOUNTS RECEIVABLE

Patient accounts receivable result from the health care services provided by the Corporation's subsidiaries. The amount of the allowance for uncollectible accounts is based upon management's assessment of historical and expected net collections, business and economic conditions, trends in Medicare and Medicaid health care coverage and other collection indicators. See Note 3 for additional information relative to net patient service revenue recognition and third-party payer programs.

INVESTMENTS

Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value in the balance sheets. Investment income or loss (including realized gains and losses on investments, interest and dividends) is included in the deficiency of revenues over expenses unless the income or loss is restricted by donor or law.

Unrealized gains and losses on investments on the Organization's beneficial interests in perpetual trusts are recorded as changes in permanently restricted net assets.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

INVESTMENT IN JOINT VENTURES

The Hospital has three joint ventures that it accounts for using the equity method. The change in the Hospital's share in the equity of these joint ventures is recorded as a component of nonoperating revenues in the consolidated statements of operations. The Hospital has a 25% interest in Northeast Regional Radiation Oncology Network, Inc. (NRRON) ($3,299,195 and $3,108,378 as of September 30, 2014 and 2013, respectively) and has a 15% ownership interest in Tolland Imaging Center, LLC ($81,604 and $41,285 as of September 30, 2014 and 2013, respectively). JMMC leases space to NRRON under the terms of an operating lease and recognized rental income of $232,000 and $225,240 for the years ended September 30, 2014 and 2013, respectively.

INVENTORIES

Inventories of drugs and supplies are stated at the lower of cost or market, determined using the first in first out method.

IMPAIRMENT OF LONG-LIVED ASSETS

The Organization records impairment losses on long-lived assets used in operations when events and circumstances indicate that the assets might be impaired and the undiscounted cash flows estimated to be generated by those assets are less than the carrying amounts of those assets. Evergreen recorded impairment losses of $2,452,326 and $2,355,632 during the years ended September 30, 2014 and 2013, respectively. Management believes that the other entities with long-lived assets included in the consolidated financial statements will generate undiscounted cash flows that will at least recover the value in their long-lived assets at their current carrying values.

PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment are recorded at cost. As of September 30, 2014 and 2013, Evergreen reduced the carrying value of its building and improvements by $2,452,326 and $2,355,632, respectively, related to the aforementioned impairment loss. The adjusted carrying value is the new cost basis. The Organization provides for depreciation of property, plant and equipment and amortization of assets recorded under capital leases using the straight-line method over the estimated useful lives of the assets as follows:

	Useful Lives
Buildings and improvements	5 – 40 years
Land improvements	5 – 20 years
Equipment	3 – 20 years

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

PROPERTY, PLANT AND EQUIPMENT (CONTINUED)

Expenditures for maintenance and repairs are charged to operations as incurred. Expenditures for renewals and betterments are capitalized.

Financial Accounting Standards Board ASC 410-20, *Accounting for Asset Retirement Obligations,* provides guidance on accounting and reporting for obligations associated with the retirement of tangible long-lived assets and the associated asset retirement costs. Asset retirement obligations include, but are not limited to, certain types of environmental issues which are legally required to be remediated upon an asset's retirement as well as contractually required asset retirement obligations. ASC 410-20 provides clarifying guidance on conditional asset retirement obligations. Conditional asset retirement obligations are obligations whose settlement may be uncertain. ASC 410-20's guidance requires such conditional asset retirement obligations to be estimated and recognized. Application of these pronouncements affects the Hospital with respect to required future asbestos remediation.

Conditional asset retirement obligations of $346,001 and $334,927 as of September 30, 2014 and 2013, respectively, were recorded in other liabilities on the balance sheets. These retirement obligations have been discounted at a rate of 6.75%. The undiscounted amounts of the obligations were $346,001 at September 30, 2014 and 2013. There were no retirement obligations incurred or settled during 2014 and 2013. Reference is made to Note 16 regarding other environmental exposures.

RISKS AND UNCERTAINTIES

The Hospital and HCHS invest in a variety of investment securities which are exposed to various risks, such as interest rate risk, financial market risk and credit risk. Due to the level of risk associated with investment securities, coupled with the current economic events, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Organization's financial statements.

NONOPERATING REVENUE

Activities, other than in connection with providing health care services, are considered to be nonoperating. Nonoperating revenue consists primarily of income on invested funds, gains and losses on sales of equipment, and the changes in the Organization's share of equity of the joint ventures accounted for under the equity method.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

DEFICIENCY OF REVENUE OVER EXPENSES

The statements of operations and changes in net assets include the deficiency of revenue over expenses as the performance indicator. Changes in unrestricted net assets which are excluded from the deficiency of revenue over expenses, consistent with industry practice, include contributions of long-lived assets (including assets acquired using contributions which by donor restriction were to be used for the purposes of acquiring such assets).

INCOME TAXES

The Corporation, the Hospital, Evergreen, HCHS, Health Care, and Development are generally exempt from income taxes under Internal Revenue Code, Section 501(a), as organizations described in Section 501(c)(3). JPA is a professional corporation that has experienced losses since inception and accordingly, no provisions for federal or state income taxes have been recorded.

The Organization accounts for uncertainty in income tax positions in the consolidated financial statements by applying a recognition threshold and measurement attribute for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return.

Management has analyzed the tax positions taken and has concluded that as of September 30, 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Corporation and its subsidiaries are subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Management believes that these organizations are no longer subject to income tax examinations prior to 2011.

ADVERTISING

The Organization expenses advertising costs as incurred. Advertising expenses for the years ended September 30, 2014 and 2013 were $5,039 and $40,673, respectively.

RECOGNITION OF GRANT REVENUE

Grants are generally considered to be exchange transactions in which the grantor requires the performance of specified activities. Entitlement to cost reimbursement grants is conditioned on the expenditure of funds in accordance with grant restrictions and, therefore, revenue is recognized to the extent of grant expenditures. Entitlement to performance based grants is conditioned on the attainment of specific performance.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

CHARITY CARE

The Organization provides care to patients who meet certain criteria under its charity care policies without charge, or at amounts less than its established rates. The Organization does not pursue collection of amounts determined to be charity care and these amounts are not reported as net patient service revenues. For the year ended September 30, 2014 the charges and costs related to charity care were $421,153 and $219,000 and for the year ended September 30, 2013, the charges and costs related to charity care were $353,488 and $152,000, respectively.

ESTIMATED MEDICAL MALPRACTICE AND WORKERS' COMPENSATION COSTS

The provision for estimated medical malpractice and workers' compensation claims includes estimates of the ultimate costs for both reported claims and claims incurred but not reported.

The Organization accounts for its insurance claims and related insurance recoveries in accordance with the provisions of ASU 2010-24, *Presentation of Insurance Claims and Related Insurance Recoveries*, which indicates that health care entities should not net insurance recoveries against the related claim liabilities.

BAD DEBTS

ASU 2011-07, *Patient Service Revenue, Provision for Bad Debts, and the Allowance for Doubtful Accounts*, requires certain health care entities to present the provision for bad debts associated with patient service revenue as a deduction from patient service revenue (net of contractual allowances and discounts) rather than as an operating expense Refer to Note 3 for the additional disclosures required by ASU 2011-07.

RECLASSIFICATIONS

Certain 2013 reported amounts have been reclassified to conform to the 2014 financial statement presentation.

SUBSEQUENT EVENTS

The Organization evaluates the impact of subsequent events, events that occur after the balance sheet date but before the financial statements are issued, for potential recognition in the financial statements as of the balance sheet date or for disclosure in the notes to the financial statements. The Organization evaluated events occurring subsequent to September 30, 2014 through March 30, 2015, the date on which the accompanying financial statements were available to be issued. During this period, there were no subsequent events that required disclosure or recognition in the consolidated financial statements, other than the disclosures related to the January 14, 2015 bankruptcy filing.

NOTE 2 – CONSOLIDATED ENTITIES

Johnson Memorial Hospital is an acute care hospital located in Stafford Springs, Connecticut. The Hospital is licensed for 92 beds and provides a broad range of inpatient and outpatient services primarily throughout Hartford and Tolland Connecticut counties. Admitting physicians are primarily practitioners in the same geographic area. The Hospital has a controlling interest in JPA and Development.

JPA is a medical practice that is controlled by the Hospital. Although the Hospital does not have direct ownership interests in JPA, the Hospital has a controlling voting interest in the Board of JPA, thus enabling the Hospital to control the economic activities of JPA. Also, the Hospital provides funding to JPA to fund its operating losses.

Johnson Memorial Hospital Development Fund, Inc. is a not-for-profit organization that raises funds for the Hospital and other affiliates in which the Hospital has a controlling financial interest by virtue of control of its board of directors and the fact that substantially all of Development's assets are for the use of the Hospital.

Johnson Evergreen Corporation is a subsidiary of the Corporation. Evergreen is currently licensed as a 180-bed not-for-profit, skilled nursing facility located in Stafford Springs, CT.

Home & Community Health Services, Inc. is a subsidiary of the Corporation. HCHS is a tax-exempt, non-stock corporation, which provides and administers a comprehensive, multi-disciplinary, home health care and hospice program primarily to residents in North Central Connecticut.

JMS is a medical practice that is controlled by the Corporation. Although the Corporation does not have direct ownership interests in JMS, the Corporation has a controlling voting interest in the Board of JMS, thus enabling the Corporation to control the economic activities of JMS. The Corporation is in the process of dissolving JMS as it has not rendered medical services in several years.

Johnson Health Care Inc. (d/b/a Johnson Occupational Medicine Center) is an occupational medicine practice controlled by JMMC. The facility is located in Enfield, CT to treat patients injured on the job and performs other health care services related to the workplace including physical exams, drug screenings, rehabilitation, ergonomic evaluations, medical surveillance exams and travel immunizations. All services are designed to meet the needs of business and corporate clients.

NOTE 3 – NET REVENUE FROM SERVICES TO PATIENTS AND CHARITY CARE

The following table summarizes net revenue from services to patients during the years ended September 30, 2014 and 2013:

	2014	2013
Gross patient service revenue	$ 208,384,764	$ 199,573,726
Contractual and other allowances	111,770,404	108,542,730
Net patient service revenue	96,614,360	91,030,996
Provision for bad debts	4,537,178	4,709,325
Net patient service revenue less provision for bad debts	$ 92,077,182	$ 86,321,671

Patient accounts receivable and revenue are recorded when patient services are performed. Amounts received from most payers are different from the established billing rates of the Organization, and these differences are accounted for as allowances.

Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payers, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payers. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined. For the years ended September 30, 2014 and 2013, the Organization recorded approximately $310,000 and ($469,000), respectively, as an increase (decrease) to net patient service revenue for changes in estimates related to third-party payer settlement accruals recorded in prior years.

The following table represents the percentages of net revenue received from payers during the years ended September 30, 2014 and 2013:

	2014	2013
Medicare	37%	36%
Medicaid	19%	15%
Third Parties	37%	36%
Other	7%	13%

Changes in the Medicare and Medicaid programs and the reduction of funding levels could have an adverse impact on the Organization.

NOTE 3 – NET REVENUES FROM SERVICES TO PATIENTS AND CHARITY CARE (CONTINUED)

The current Connecticut Medicaid inpatient hospital reimbursement model of interim per diem rates and case rate settlements will transition to an All Patient Refined Diagnosis Related Group System (APR-DRG) where hospital payments will be established prospectively. Connecticut Medicaid outpatient hospital reimbursement will move from the current system of reimbursement based on Revenue Center Codes to a prospective payment system based on the complexity of services performed. The new inpatient reimbursement methodology will be effective for admissions on or after January 1, 2015; while the new outpatient reimbursement methodology will not be implemented until at least January 1, 2016. The Hospital has not determined the estimated impact of these proposed changes on net patient service revenue in future years.

The significant concentrations of net accounts receivable for services to patients by payer at September 30, 2014 and 2013 follow:

	2014	2013
Medicare	38%	31%
Medicaid	23%	18%
Third Parties	36%	35%
Other	3%	16%

Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. Compliance with such laws and regulations can be subject to future government review and interpretation as well as significant regulatory action including fines, penalties, and exclusion from the Medicare and Medicaid programs. The Organization believes that it is in compliance with all applicable laws and regulations. Cost reports for the Hospital, which serve as a basis for final settlement with government payers, have been settled by final settlement through 2010 for Medicare and 2007 for Medicaid. Other years remain open for settlement.

The health care subsidiaries of the Corporation have agreements with various Health Maintenance Organizations (HMOs) to provide medical services to subscribing participants. Under these agreements, the HMOs make fee-for-service payments for certain covered services based upon discounted fee schedules.

NOTE 3 – NET REVENUES FROM SERVICES TO PATIENTS AND CHARITY CARE (CONTINUED)

MEASURING CHARITY CARE

The Organization accepts all patients regardless of their ability to pay. A patient is classified as a charity patient by reference to the established policies of the Organization. Essentially, these policies define charity services as those services for which no payment is possible. In assessing a patient's inability to pay, the Organization utilizes the generally recognized poverty income levels for the state, but also includes certain cases where incurred charges are significant when compared to incomes. These charges are not included in net patient service revenue for financial reporting purposes.

Self-pay revenues are derived primarily from patients who do not have any form of health care coverage. The revenues associated with self-pay patients are generally reported at the Organization's gross charges.

The Organization evaluates these patients, after the patient's medical condition is determined to be stable, for their ability to pay based upon federal and state poverty guidelines, qualifications for Medicaid or other governmental assistance programs, as well as the Organization's policy for charity care. The Organization provides care without charge to certain patients that qualify under its charity care policy. For the years ended September 30, 2014 and 2013, the Organization estimates that its costs of care provided under its charity care programs approximated $219,000 and $152,000, respectively.

The Organization's management estimates its costs of care provided under its charity care programs utilizing a calculated ratio of costs to gross charges multiplied by the Organization's gross charity care charges provided. The Organization's gross charity care charges include only services provided to patients who are unable to pay and qualify under the Organization's charity care policies. To the extent the Organization receives reimbursement through the various governmental assistance programs in which it participates to subsidize its care of indigent patients, the Organization does not include these patients' charges in its cost of care provided under its charity care program. Additionally, the Organization does not report a charity care patient's charges in revenues or in the provision for bad debts as it is the Organization's policy not to pursue collection of amounts related to these patients.

NOTE 3 – NET REVENUES FROM SERVICES TO PATIENTS AND CHARITY CARE (CONTINUED)

BAD DEBTS

The Organization's estimation of the allowance for uncollectible accounts is based primarily upon the type and age of the patient accounts receivable and the effectiveness of the Organization's collection efforts. The Organization's policy is to reserve a portion of all self-pay receivables, including amounts due from the uninsured and amounts related to co-payments and deductibles, as these charges are recorded. On a monthly basis, the Organization reviews its accounts receivable balances, the effectiveness of the Organization's reserve policies and various analytics to support the basis for its estimates. These efforts primarily consist of reviewing the following:

- Revenue and volume trends by payer, particularly the self-pay components;
- Changes in the aging and payer mix of accounts receivable, including increased focus on accounts due from the uninsured and accounts that represent co-payments and deductibles due from patients; and
- Various allowance coverage statistics.

The Organization regularly performs hindsight procedures to evaluate historical write-off and collection experience throughout the year to assist in determining the reasonableness of its process for estimating the allowance for uncollectible accounts.

A summary of the Organization's allowance for doubtful accounts activity for the years ended September 30, 2014 and 2013 is as follows:

	Balance at Beginning of Period	Additions Recorded in the Provision for Bad Debts	Accounts Written off, Net of Recoveries and Other	Balance at End of Period
Allowance for doubtful accounts:				
Year ended September 30, 2013	$ (3,032,000)	$ (4,709,325)	$ 3,571,325	$ (4,170,000)
Year ended September 30, 2014	$ (4,170,000)	$ (4,537,178)	$ 3,521,178	$ (5,186,000)

NOTE 3 – NET REVENUES FROM SERVICES TO PATIENTS AND CHARITY CARE (CONTINUED)

ICD-10 IMPLEMENTATION

The Organization is subject to the administrative simplification provisions of HIPAA which require the use of uniform electronic data transmission standards for health care claims and payment transactions submitted or received electronically.

In January 2009, the Centers for Medicare and Medicaid Services (CMS) published its tenth revision of International Statistical Classification of Diseases and Related Health Problems (ICD-10) and related changes to the formats used for certain electronic transactions. ICD-10 contains significantly more diagnostic and procedural codes than the existing ICD-9 coding system, and as a result, the coding for the services provided by the Organization will require much greater specificity when ICD-10 becomes effective on October 1, 2015.

Implementation of ICD-10 will require a significant investment in technology and training. The Organization may experience delays in reimbursement while the Organization and the payers from which it seeks reimbursement make the transition to ICD-10. If the Organization fails to implement the new coding system by the deadline, the Organization will not be paid for services. Management is not able to reasonably estimate the overall financial impact of the Organization's transition to ICD-10.

NOTE 4 – REGULATORY ENVIRONMENT

The health care industry is subject to numerous laws and regulations of federal, state and local government. These laws and regulations include, but are not necessarily limited to, matters such as licensure, accreditation, government health care program participation requirements, reimbursement for patient services, and Medicare and Medicaid fraud and abuse. Government activity continues with respect to investigations and allegations concerning possible violations of fraud and abuse statutes and regulations by health care providers. Violations of these laws and regulations could result in expulsion from government health care programs together with the imposition of significant fines and penalties, as well as significant repayments for patient services previously billed.

NOTE 5 – DEFERRED FINANCING COSTS

Deferred financing costs, which were incurred in connection with the debt, are being amortized over the term of the related debt. Amortization expense for deferred financing costs amounted to $11,124 for the years ended September 30, 2014 and 2013.

NOTE 6 – ASSETS WHOSE USE IS LIMITED

The composition of assets whose use is limited, which include beneficial interests in perpetual trusts, cash restricted for payment of workers' compensation claims, and investments permanently restricted by donors, are set forth in the following table. Investments are recorded on the balance sheets at fair value.

	2014	
September 30, 2014:	Cost	Fair Value
Cash and cash equivalents	$ 1,386,944	$ 1,386,944
Money market funds	12,122	12,122
Mutual funds - equity	56,730	65,074
Mutual funds - fixed	44,414	44,516
Collective funds - equity	496,374	523,180
Collective funds - fixed	332,613	351,046
Equities		
U.S. large cap	783,027	864,449
U.S. mid cap	359,596	414,548
U.S. small cap	189,136	208,034
International developed	487,064	521,272
Emerging markets	256,803	264,411
Real estate	247,151	247,414
Tangible assets - commodities	168,678	143,570
	$ 4,820,652	$ 5,046,580

NOTE 6 – ASSETS WHOSE USE IS LIMITED (CONTINUED)

September 30, 2013:	2013 Cost	2013 Fair Value
Cash and cash equivalents	$ 1,323,359	$ 1,323,359
Money market funds	20,460	20,460
Mutual funds - equity	560,817	577,579
Mutual funds - fixed	110,126	104,946
Collective funds - equity	70,415	80,670
Collective funds - fixed	332,391	401,844
Investment grade taxable bonds	33,233	31,947
Global high yield bonds	99,698	105,211
Equities		
U.S. large cap	807,823	894,907
U.S. mid cap	216,666	258,354
U.S. small cap	201,958	225,209
International developed	329,802	352,583
Emerging markets	260,180	244,309
Real estate	199,572	188,086
Tangible assets - commodities	233,497	219,202
	$ 4,799,997	$ 5,028,666

Investment income on investments recorded in the consolidated statements of operations for the years ended September 30 are below.

	2014	2013
Investment income		
Dividends and interest	$ 210,158	$ 199,475
Less investment management fees	(43,983)	(39,378)
Net investment income	$ 166,175	$ 160,097

NOTE 7 – FAIR VALUE MEASUREMENTS

Assets and liabilities recorded at fair value in the financial statements are categorized, for disclosure purposes, based upon whether the inputs used to determine their fair values are observable or unobservable utilizing a three-level fair value hierarchy that prioritizes the inputs used to measure assets and liabilities at fair value. Level inputs are as follows:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Organization has the ability to access on the reporting date.

Level 2 – Inputs other than quoted market prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. If the asset or liability has a specific (contractual) term, a Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs that are unobservable for the asset or liability.

The fair values of Level 1 securities were determined through quoted market prices, while fair values of Level 2 securities were determined primarily through prices obtained from third party pricing sources, where quoted market prices for such securities were not available. The fair values of Level 3 securities were determined primarily through information obtained from the relevant counterparties for such investments, as information on which these securities' fair values are based is generally not readily available in the market.

NOTE 7 – FAIR VALUE MEASUREMENTS (CONTINUED)

The following table summarizes fair value measurements, by level, at September 30, 2014 and 2013 for all assets and liabilities which are measured at fair value on a recurring basis in the financial statements:

	Level 1	Level 2	Level 3	Total
September 30, 2014				
Beneficial interests in perpetual trusts:				
Cash and cash equivalents	$ 133,687	$ --	$ --	$ 133,687
Money market funds	12,122	--	--	12,122
Mutual funds - equity	65,074	--	--	65,074
Mutual funds - fixed	44,516	--	--	44,516
Collective funds - equity	--	--	523,180	523,180
Collective funds - fixed	--	--	351,046	351,046
Equities				
U.S. large cap	864,449	--	--	864,449
U.S. mid cap	414,548	--	--	414,548

Real estate	247,414	--	--	247,414
Tangible assets - commodities	--	--	143,570	143,570
Total Beneficial interests in perpetual trusts	2,775,527	--	1,017,796	3,793,323
Restricted cash and board designated investments	224,048	--	--	224,048
Cash and investments permanently restricted by donor	1,029,209	--	--	1,029,209
	$ 4,028,784	$ --	$ 1,017,796	$ 5,046,580

NOTE 7 – FAIR VALUE MEASUREMENTS (CONTINUED)

	Level 1	Level 2	Level 3	Total
September 30, 2013				
Beneficial interests in perpetual trusts:				
Cash and cash equivalents	$ 24,420	$ --	$ --	$ 24,420
Money market funds	20,460	--	--	20,460
Mutual funds - equity	577,579	--	--	577,579
Mutual funds - fixed	104,946	--	--	104,946
Collective funds - equity	--	--	80,670	80,670
Collective funds - fixed	--	--	401,844	401,844
Investment grade taxable bonds	31,947	--	--	31,947
Global high yield bonds	105,211	--	--	105,211
Equities				
U.S. large cap	894,907	--	--	894,907
U.S. mid cap	258,354	--	--	258,354
U.S. small cap	225,209	--	--	225,209
International developed	352,583	--	--	352,583
Emerging markets	244,309	--	--	244,309
Real estate	188,086	--	--	188,086
Tangible assets - commodities	--	--	219,202	219,202
Total Beneficial interests in perpetual trusts	3,028,011	--	701,716	3,729,727
Restricted cash and board designated investments	268,338	--	--	268,338
Cash and investments permanently restricted by donor	1,030,601	--	--	1,030,601
	$ 4,326,950	$ --	$ 701,716	$ 5,028,666

NOTE 7 – FAIR VALUE MEASUREMENTS (CONTINUED)

The changes in fair value of assets measured using significant unobservable inputs (Level 3) were comprised of the following:

	Beneficial interests in perpetual trusts
Balance at September 30, 2012	$ 237,296
Purchases of investments	233,497
Changes in fair value	230,923
Balance at September 30, 2013	701,716
Purchases of investments	426,381
Sales of investments	(64,819)
Changes in fair value	(45,482)
Balance at September 30, 2014	$ 1,017,796

NOTE 8 – RESTRICTED ENDOWMENTS

The Organization's endowments consist of donor-restricted endowment funds and beneficial interests in perpetual trusts. Net assets associated with endowment funds are classified and reported based on donor-imposed restrictions.

The Organization's Board of Directors has interpreted the Connecticut Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor restricted endowment funds, absent explicit donor stipulations to the contrary. This does not apply to beneficial interests in perpetual trusts where the fair value of the investments is the basis for the amount recorded as permanently restricted net assets.

As a result of the interpretation of UPMIFA, the Organization classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and, if applicable, (c) accumulations to the permanent endowment made in accordance with the related gift's donor instructions. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted or unrestricted net assets based on the donors' stipulations and those amounts are appropriated for expenditure by the Organization in a manner consistent with the standard for expenditures as proscribed by UPMIFA.

NOTE 8 – RESTRICTED ENDOWMENTS (CONTINUED)

In accordance with UPMIFA, the Organization considers the following factors in making determinations to appropriate or accumulate donor-restricted endowment funds:

(1) The duration and preservation of the fund
(2) The purposes of the Organization and the donor-restricted endowment fund
(3) General economic conditions
(4) The possible effect of inflation and deflation
(5) The expected total return from income and the appreciation of investments
(6) Other resources of the Organization
(7) The investment policies of the Organization

RETURN OBJECTIVES AND RISK PARAMETERS

For the permanently restricted endowment funds, the bank, acting in its capacity as trustee, determines and directs the investment policy and asset allocation. The Organization expects these endowment funds, over time, to provide an average rate of return that exceeds the rate of inflation annually. Actual returns in any given year may vary from this amount.

STRATEGIES EMPLOYED FOR ACHIEVING OBJECTIVES

To satisfy its long-term rate-of-return objectives, the Organization relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Organization targets a diversified asset allocation to achieve its long-term return objectives within prudent risk constraints.

SPENDING POLICY AND HOW THE INVESTMENT OBJECTIVES RELATE TO THE SPENDING POLICY

The Organization has a policy of evaluating the spending decisions for each endowment fund based upon the intentions of the donors and specific contractual agreements. In determining the annual amount to be spent, the Organization considers the long-term expected return on its endowment. The spending policy is designed to limit spending to the expected long-term real rate of return. The annual distribution from the endowment funds is expected to be contained within a range of the trusts' market value that is consistent with the Organization's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term as well as to provide additional real growth through new gifts and investment return.

NOTE 8 – RESTRICTED ENDOWMENTS (CONTINUED)

ENDOWMENT NET ASSET COMPOSITION BY TYPE OF FUND AS OF SEPTEMBER 30, 2014 AND 2013:

September 30, 2014	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
Donor-restricted endowment funds	$ (8,047)	$ 23,434	$ 1,013,822	$ 1,029,209
Beneficial interests in perpetual trusts	--	--	3,793,323	3,793,323
	$ (8,047)	$ 23,434	$ 4,807,145	$ 4,822,532

September 30, 2013	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
Donor-restricted endowment funds	$ (7,680)	$ 24,459	$ 1,013,822	$ 1,030,601
Beneficial interests in perpetual trusts	--	--	3,729,727	3,729,727
	$ (7,680)	$ 24,459	$ 4,743,549	$ 4,760,328

CHANGES IN ENDOWMENT NET ASSET FOR THE YEARS ENDED SEPTEMBER 30, 2014 AND 2013:

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
September 30, 2014				
Endowment net assets, beginning	$ (7,680)	$ 24,459	$ 4,743,549	$ 4,760,328
Investment return:				
Investment income	165,130	--	--	165,130
Net unrealized gains	--	--	63,596	63,596
Total investment return	165,130	--	63,596	228,726
Appropriation of endowment assets for expenditure	(165,497)	(1,025)	--	(166,522)
Endowment net assets, ending	$ (8,047)	$ 23,434	$ 4,807,145	$ 4,822,532

NOTE 8 – RESTRICTED ENDOWMENTS (CONTINUED)

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
September 30, 2013				
Endowment net assets, beginning	$ (7,865)	$ 26,361	$ 4,630,314	$ 4,648,810
Investment return:				
Investment income	158,185	148	--	158,333
Net unrealized gains	--	--	113,235	113,235
Total investment return	158,185	148	113,235	271,568
Appropriation of endowment assets for expenditure	(158,000)	(2,050)	--	(160,050)
Endowment net assets, ending	$ (7,680)	$ 24,459	$ 4,743,549	$ 4,760,328

NOTE 9 – TEMPORARILY RESTRICTED AND PERMANENTLY RESTRICTED NET ASSETS

Temporarily restricted net assets as of September 30 are as follows:

	2014	2013
Grant proceeds subject to use restrictions	$ 332,881	$ 268,927
Other receivables subject to time restrictions	35,846	31,703
Indigent, elderly women's care	12,130	12,187
Scholarships	8,937	9,997
Other	20,801	12,895
	$ 410,595	$ 335,709

Permanently restricted net assets as of September 30 are restricted in perpetuity, the income from which is expendable to support the following:

	2014	2013
Health care services and operations	$ 4,744,256	$ 4,680,660
Elderly assistance	40,261	40,261
Scholarships	22,628	22,628
	$ 4,807,145	$ 4,743,549

NOTE 10 – PROPERTY, PLANT AND EQUIPMENT

The components of cost and the related accumulated depreciation comprising property, plant and equipment as of September 30, 2014 and 2013 are as follows:

	2014	2013
Land	$ 406,997	$ 406,997
Land improvements	4,084,387	4,074,402
Building and improvements	46,608,488	46,451,537
Fixed and movable equipment	37,638,836	36,276,022
	88,738,708	87,208,958
Less accumulated depreciation	(65,468,893)	(60,174,702)
	$ 23,269,815	$ 27,034,256

Depreciation expense for property, plant and equipment amounted to $3,215,451 and $4,258,135 for the years ended September 30, 2014 and 2013, respectively. Included within depreciation and amortization expense on the statements of operations is amortization for capital leased assets of $21,606 and $19,084 for the years ended September 30, 2014 and 2013, respectively (see Note 12).

IMPAIRMENT OF LONG-LIVED ASSETS

During the years ended September 30, 2014 and 2013, Evergreen continued to experience operating losses and had an average occupancy below the level required to generate positive cash flows from operations and to make debt and other payments as they became due.

As a result of these factors, management performed testing during the years ended September 30, 2014 and 2013 to compare the carrying values of the assets to the undiscounted cash flows expected to result from the continued operations, and in 2014 considered the estimated proceeds from the potential sale of Evergreen, and concluded that the recorded carrying values of the assets were not recoverable.

Fair value was estimated by management based on a cash flow analysis which indicated that the fair value of the property and equipment was approximately $3 million as of September 30, 2014 which was less than the recorded carrying value. As of September 30, 2013, management estimated the carrying value to be $6 million based on cash flows resulting from projected growth in the census that was expected to result from the establishment of an assisted living program and hospice program. However, such growth in the census did not materialize in 2014 and future cash flow projections no longer supported the $6 million carrying value that was estimated at September 30, 2013. Evergreen recorded impairment losses on long-lived assets of $2,452,326 and $2,355,632 during the years ended September 30, 2014 and 2013, respectively.

NOTE 11 – DEBT

On August 1, 2006, the Hospital entered into a $13,700,000 commercial construction mortgage loan with a bank. The loan was used to finance the expansion and renovation of the emergency department, three nursing units, the psychiatric unit, and two medical and surgical units, and to refinance the Hospital's existing loans (collectively, the Project). In December 2007, the loan was converted to a term loan, which is guaranteed by the United States Department of Agriculture (USDA) through the USDA Rural Development Community Facilities Program. The term loan calls for equal quarterly principal payments of $85,625 over 40 years and will mature on January 1, 2048. Fifty percent of the loan bears interest at the bank's five year cost of borrowing plus 1.50% and fifty percent of the loan bears interest at the three month LIBOR plus 1.25%. The interest rates in effect at September 30, 2014 were 6.63% and 1.48%, respectively. The interest rates in effect at September 30, 2013 were 6.63% and 1.52%, respectively.

As of September 30, 2014, there was a principal balance of $11,987,500 due on the Hospital’s mortgage.

The Hospital is required to meet certain financial covenants under the mortgage. During the year ended September 30, 2014, the Hospital failed certain covenants and failed to make any mortgage principal payments resulting in a delinquent balance of approximately $1,256,000 at September 30, 2014. The bank has the right to demand immediate payment of the $11,987,500 balance of the mortgage which has been classified as a current liability as of September 30, 2014.

In 2006, the Hospital entered into a loan to finance certain information systems equipment at an interest rate of 5.5%. The Hospital failed to make payments in accordance with the loan terms. The Hospital’s loan to refinance information equipment was restructured to be paid in 60 monthly installments of $10,000. The present value of the settlement value of this loan was $125,022 and $232,609 at September 30, 2014 and 2013, respectively.

On August 28, 2007, Evergreen entered into a $15,200,000 Loan Agreement with a bank which is evidenced by a promissory note in the amount of $14,200,000 and a second note of $1,000,000. The $1,000,000 note is collateralized by a mortgage deed and security agreement from Evergreen. The $14,200,000 note is collateralized by a mortgage deed and security agreement from Evergreen and was converted from a construction loan to term loan effective November 30, 2010.

Upon conversion to a term loan, fifty percent of the outstanding principal balance of the $14,200,000 note began to accrue interest at the variable rate equal to three month LIBOR plus 1.20% (1.43% at September 30, 2014 and 1.47% at September 30, 2013).

NOTE 11 – DEBT (CONTINUED)

The remaining fifty percent of the principal will accrue interest at the fixed rate based on the bank's ten year cost of borrowing plus 1.20% (4.73%) through November 30, 2020 at which time the fixed rate will be adjusted for another ten year period based on the aforementioned methodology.

Principal is payable in quarterly payments in the amount of $95,946 through September 1, 2047 at which time the outstanding principal balance plus accrued interest thereon shall be due and payable. Interest is payable on a quarterly basis.

The fixed rate portion of the loan may be prepaid, but is subject to a prepayment fee equal to 2% of the amount prepaid. No prepayment fees will be required for prepayments made after November 30, 2020.

The $1,000,000 loan will accrue interest at the fixed rate based on the bank's ten year cost of borrowing plus 1.20% (4.73%) through November 30, 2020 at which time the fixed rate will be adjusted for another ten year period based on the aforementioned methodology. Principal is payable quarterly in the amount of $6,757 through September 1, 2047 at which time the outstanding principal balance plus accrued interest thereon shall be due and payable. Interest is also payable on a quarterly basis. This loan may be prepaid, but is subject to a prepayment fee equal to 2% of the amount prepaid. No prepayment fees will be required for prepayments made after November 30, 2020.

As of September 30, 2014, there was a balance of $14,213,697 due on Evergreen's loans.

Evergreen is required to meet certain financial covenants. During the year ended September 30, 2014, Evergreen failed certain covenants and failed to make certain loan payments resulting in a delinquent balance of $1,308,603 at September 30, 2014. The bank has the right to demand immediate payment of the $14,213,697 balance of the loan which has been classified as a current liability as of September 30, 2014.

In August 2004, JMMC entered into a mortgage loan with a bank in the amount of $4,500,000 for the purpose of refinancing certain mortgage loans. The loan bears interest at a variable rate based on LIBOR plus 1.50% (1.73% at September 30, 2014 and 1.77% at September 30, 2013). Principal is payable in monthly installments of $15,000. The balance of the JMMC mortgage loan was $2,940,000 at September 30, 2014. JMMC failed to make mortgage payments resulting in a delinquent balance at September 30, 2014. The loan has been classified as a current liability as of September 30, 2014.

NOTE 11 – DEBT (CONTINUED)

The other long-term debt of $2,350,000 as of September 30, 2014 and 2013 and $350,000 of other current debt at September 30, 2013, represented the amounts owed to Saint Francis under the terms of the affiliation agreement. Reference is made to Note 1. The long-term portion of this debt is not subject to interest.

In September 2010, the Corporation, the Hospital, Evergreen, HCHS, JHC, Development, WellCare, Inc., JPA and JMS (the Borrowers) entered into a Revolving Loan and Security Agreement (senior debt under revolving line of credit) with a lender for an amount not to exceed the lesser of $8 million or the maximum borrowing base (85% of the book value of all eligible receivables). Under the original agreement, amounts outstanding bear interest at the rate of the 3 month LIBOR rate plus 4.25% payable monthly in arrears. In the event of a default, the agreement provides for an increase in the interest rate by up to 4%. The interest rate as of September 30, 2014 was 7.75%. The Organization has granted the lender a security interest in accounts receivable. In connection with the bankruptcy filing, on January 16, 2015, this lender entered into a debtor in possession loan agreement with the Borrowers which replaced the Revolving Loan and Security Agreement.

As of September 30, 2014 and 2013, there were outstanding borrowings of $1,604,830 and $2,208,858, respectively, under the Loan and Security Agreement.

The Borrowers are subject to a number of covenants and restrictions under the Revolving Loan and Security Agreement. These include the following affirmative and negative covenants: provision of monthly, quarterly and annual financial information, adequate insurance coverage, notice of certain events and changes, change in ownership or management, restrictions on indebtedness and lease agreements, sale of assets, protection of collateral and financial covenants prepared on a consolidated basis for the Borrowers including cash flow and debt service coverage ratio requirements.

During 2014, the Borrowers failed to comply with various covenants under the Revolving Loan and Security Agreement which resulted in the lender imposing an interest penalty.

NOTE 12 – LEASE OBLIGATIONS

CAPITAL LEASES

The Organization has entered into non-cancelable capital lease obligations for certain equipment. The cost of the assets is being amortized over the useful lives of the assets or the shorter of the respective lease term or useful life if the asset does not transfer to the Organization at the end of the lease term and is summarized as of September 30, 2014 and 2013 are as follows:

	2014	2013
Medical and other equipment	$ 1,026,398	$ 132,248
Less accumulated amortization	(43,686)	(37,431)
	$ 982,712	$ 94,817

The Hospital entered into a five year capital lease agreement to lease generators with a cost of $688,000 which commenced on March 1, 2014. The monthly lease payments, including interest, will be $10,500 for the first year and $15,400 for the remainder of the lease term with total payments of $865,296. The Hospital made a security deposit of $206,000 to secure the lease that is returnable at the end of the lease period.

The Hospital entered into a three year capital lease agreement to lease a magnetic chiller with a cost of $277,000 which commenced on September 1, 2014. The monthly lease payments, including interest, will be $7,829 over the lease term with total payments of $281,844. The Hospital made a security deposit of $15,658 to secure the lease that is returnable at the end of the lease period.

Future minimum lease payments under the capital leases together with the present value of future minimum lease payments, as of September 30, 2014 are as follows:

2015	$ 253,947
2016	278,772
2017	270,943
2018	184,824
2019	77,010
Total future minimum lease payments	1,065,496
Less amounts representing interest	147,161
Present value of future minimum lease payments	918,335
Less current portion	197,299
	$ 721,036

NOTE 12 – LEASE OBLIGATIONS (CONTINUED)

OPERATING LEASES

HCHS leases office space from an unaffiliated party in Enfield, Connecticut under a lease agreement. The lease commenced on December 1, 2011 and expires on November 30, 2016. The monthly rent is $8,301 per month under the agreement plus additional rent for HCHS's proportional share of building operating expenses. The rent expense under this lease was $140,762 and $149,233 for the years ended September 30, 2014 and 2013, respectively.

The Organization leases various computer equipment, medical equipment and office space under operating leases, which expire at various dates through 2015. Rent expense under the operating leases was $2,196,762 in 2014 and $2,223,374 in 2013. These leases have various terms and conditions.

Minimum future rental commitments on non-cancelable operating leases with initial or remaining terms of more than one year as of September 30, 2014 are as follows:

2015	$ 493,879
2016	99,612
2017	16,602
	$ 610,093

NOTE 13 – EMPLOYEE BENEFIT PLANS

The Hospital had a defined benefit pension plan that covered certain employees. Pursuant to the plan of reorganization, the Pension Benefit Guaranty Corporation assumed control of the defined benefit plan effective September 1, 2011.

The Hospital has a defined contribution plan (the Plan) whereby all employees who have attained the age of 21 and completed one year of employment (1,000 hours of service) are eligible to participate and become fully vested after 5 years. Annually, the Hospital may contribute a defined amount of employees' salaries to the Plan. Effective January 1, 2011, the Hospital suspended the matching of non-union employee contributions; it continued to pay the match on union employees up until June 2012, at which time only those union employees that had been grandfathered in to the pension plan were matched. The total expense incurred by the Hospital for contributions to the Plan was $272,339 and $147,244 in 2014 and 2013, respectively.

NOTE 13 – EMPLOYEE BENEFIT PLANS (CONTINUED)

Evergreen has a defined contribution plan whereby all employees who have attained the age of 21 and completed one year of employment (1,000 hours of service) are eligible to participate and become fully vested after 5 years. Annually, Evergreen may contribute a defined amount of employees' salaries to the Plan. Effective January 1, 2011, Evergreen suspended the matching of employee contributions. There were no expenses incurred by Evergreen for contributions in 2014 and 2013. It is uncertain whether this match will be reinstituted.

HCHS has a defined contribution pension plan covering substantially all employees who have satisfied certain eligibility requirements. As of January 1, 2011, management suspended the matching of employee contributions and no expense was recorded in the 2014 and 2013 statement of operations. It is uncertain whether this match will be reinstituted.

NOTE 14 – SELF-INSURANCE CLAIMS

There have been medical malpractice and workers' compensation claims that have been asserted against the Organization. In addition, there are known incidents that have occurred through September 30, 2014 that may result in the assertion of claims. Management of the Organization has accrued its best estimate of these contingent losses. Other claims may be asserted arising from services provided to patients or workers' compensation incidents in the past. Management of the Organization has provided reserves for these contingent liabilities.

NOTE 15 – PROFESSIONAL, GENERAL LIABILITY AND WORKERS' COMPENSATION INSURANCE

For claims incurred through August 31, 2009, the Organization was self-insured for professional liability and general liability claims, under a claims made policy, which covered the Organization's entire health system. The Organization has an excess umbrella claims made policy for claims in excess of the Organization's self-insured limits.

For claims incurred after August 31, 2009, the Organization was covered under commercial claims made policies with no deductible and coverage of $1,000,000 per claim and an annual aggregate of $3,000,000 for all of the entities covered under the policy.

The Organization's independent actuary estimated the expected costs to settle claims incurred during the self-insured period and claims that were incurred but not reported (IBNR) under its claims made insurance policy. Accrued losses have been discounted at 3%.

NOTE 15 – PROFESSIONAL, GENERAL LIABILITY AND WORKERS' COMPENSATION INSURANCE (CONTINUED)

The Organization has recorded accrued liabilities of $690,063 and $729,965 for the estimated claims that have been incurred but not reported and cases incurred during the self-insured period for its professional liability and general liability insurance risks as of September 30, 2014 and 2013, respectively.

The Organization was also self-insured for workers compensation claims through March 16, 2009 at which time it obtained commercial insurance. The Hospital's workers' compensation policy had no deductible and policy limits of $1,000,000 per case with no aggregate limit for claims incurred after March 16, 2009 through May 30, 2014. Effective May 31, 2014, the Hospital obtained a new workers' compensation insurance policy that had a $250,000 deductible per claim and a $2,000,000 aggregate deductible. The policy provides for policy limits of $1,000,000 per case with no annual limit.

As of September 30, 2014, the Organization recorded a liability of $330,738 related to its estimated portion of the deductible for workers' compensation incidents that occurred between May 31, 2014 and September 30, 2014.

In accordance with the provisions of ASU 2010-24, the Organization recorded recoverables from insurance companies for the estimated costs to settle fully insured malpractice and workers' compensation claims in the amounts of $2,197,508 and $740,156 as of September 30, 2014 and 2013, respectively. The Organization has recorded liabilities equal to these amounts as of September 30, 2014 and 2013.

NOTE 16 – COMMITMENTS AND CONTINGENCIES

The Organization is a party to various lawsuits incidental to its business. The Organization also has the following environmental exposures. The Connecticut Department of Environmental Protection (DEP) issued a consent order (Sewer Order) which requires the Hospital to perform repairs or replacements to the aging wastewater treatment system at the Hospital.

The Sewer Order requires a short-term and a long-term solution. The short-term work has been completed in accordance with the Sewer Order and the Hospital has been reporting to the DEP on the status of the short-term solution. Under the long-term solution, the Hospital was required to submit to the DEP for review and approval a schedule for: (i) the investigation of and remedial action alternatives to abate any pollution at the site arising from the operation of the on-site sewage treatment system or (ii) the construction of sanitary sewers to connect the Hospital to the Stafford Water Pollution Control Facility.

NOTE 16 – COMMITMENTS AND CONTINGENCIES (CONTINUED)

The schedule originally provided for completion of the actions not later than December 31, 2014, but this deadline was extended until July 31, 2015. The Hospital signed a letter of intent with the Town of Stafford to participate in a project that will connect the Hospital to the Stafford Water Pollution Control Facility, as well as to connect it to services from Connecticut Water Company and Yankee Gas. As of September 30, 2014, funds to finance the project had not been secured.

The DEP filed a civil suit in 2007 in which the DEP sought civil penalties and temporary and permanent injunctions prohibiting the Hospital from violating the hazardous waste management regulations, preventing the Hospital from maintaining a discharge to the waters of the state and violating its air permit. Five of the six counts arose from allegations relating to the use of an underground storage tank for the storage of x-ray developer fixer and the release of the developer fixer from the tank. Use of that tank ended in April 2004 and the tank was removed. Part of the injunctive relief sought is an order requiring the investigation and remediation of the release of x-ray development fixer. The sixth count alleged that the Hospital violated its general air permit by submitting its annual compliance certification for 2005 ten months late. The Hospital has recorded a conditional retirement obligation related to the costs of an environmental investigation, but has not recorded a liability for any potential costs to remediate the site due to the fact that such costs, if any, cannot be reasonably estimated until the investigation is performed. The Hospital previously remediated the site when the tank was originally removed.

By letter dated April 7, 2014, the DEP agreed with a recommendation made in the January 2014 report that the consultant cease monitoring for nitrate based on the testing results for that constituent. The DEP expressed a concern and made a request that the consultant establish background concentrations for sulfate in groundwater for the site that is unaffected by release such as the on-site septic system or from the former x-ray developer tank. In October 2014, the DEP staff concurred with the consultant's proposed plan to continue monitoring on a semiannual basis, ammonia and nitrate in the remaining monitoring wells.

The engineer's estimate for semiannual monitoring is approximately $27,000 per year. The duration of monitoring and determination whether soil remediation is warranted is dependent upon the results of future monitoring and an estimate of the total costs was not determinable as of September 30, 2014.

NOTE 17 – CONCENTRATIONS OF CREDIT RISK

The Organization's financial instruments that are exposed to concentrations of credit risk consist primarily of cash, investments and accounts receivable.

The Organization places its cash deposits with high credit-quality institutions, which, at times, may exceed the Federal Deposit Insurance Corporation limits of $250,000 per bank. The Organization has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk on cash and cash equivalents.

NOTE 18 – FUNCTIONAL EXPENSES

The Organization provides patient care services to residents within its geographic location**.** Expenses related to providing these services are as follows for the years ended September 30:

	2014	2013
Patient care services	$ 77,537,882	$ 76,620,100
General and administrative (including depreciation and amortization, interest and operations)	17,157,974	16,451,697
	$ 94,695,856	$ 93,071,797

INDEPENDENT AUDITORS' REPORT ON SUPPLEMENTARY INFORMATION

Board of Directors
Johnson Memorial Medical Center

We have audited the consolidated financial statements of Johnson Memorial Medical Center as of and for the years ended September 30, 2014 and 2013, and our report thereon dated March 30, 2015, which contained a going concern opinion on those consolidated financial statements, appears on page 1. Our audits were performed for the purpose of forming an opinion on the consolidated financial statements as a whole. The supplementary information is presented for the purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audits of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements taken as a whole.

INDEPENDENT AUDITORS' REPORT

Board of Directors
Johnson Memorial Hospital

We have audited the accompanying consolidated financial statements of Johnson Memorial Hospital, which comprise the consolidated balance sheets as of September 30, 2014 and 2013, and the related consolidated statements of operations, changes in net assets and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting polices used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Johnson Memorial Hospital as of September 30, 2014 and 2013, and the results of its operations, changes in net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

The accompanying consolidated financial statements have been prepared assuming that the Hospital will continue as a going concern. As described in Note 1, the Hospital had an unrestricted net asset deficit of $4,478,834 and had current liabilities that exceeded current assets by $15,984,256 as of September 30, 2014. The Hospital is a party to a credit agreement and mortgage that require certain financial and non-financial covenants be maintained. The Hospital failed certain covenants during the year ended September 30, 2014 and defaulted on certain payments due on its mortgage and due to creditors. In addition, the Hospital filed for relief under Chapter 11 of the U.S. Bankruptcy Code subsequent to September 30, 2014 and entered into an asset purchase agreement for the sale of the Hospital which is contingent on a number of conditions, including the approval of the Bankruptcy Court. These conditions raise substantial doubt about the Hospital's ability to continue as a going concern. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty. Our opinion is not modified with respect to this matter.

Cash paid for interest	$ 1,084,115	$ 354,510

The accompanying notes are an integral part of these consolidated financial statements.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION

ORGANIZATION

Johnson Memorial Hospital (the Hospital) is an acute care hospital located in Stafford Springs, Connecticut. The Hospital is licensed for 92 beds and provides a broad range of inpatient and outpatient services primarily throughout the Hartford and Tolland Connecticut counties. Admitting physicians are primarily practitioners in this same geographic area. The Hospital has controlling interests in Johnson Professional Associates, P.C. (JPA) and Johnson Memorial Hospital Development Fund, Inc. (Development). The Hospital is a subsidiary of Johnson Memorial Medical Center (the Corporation), a not-for-profit, non-stock holding company. The other subsidiaries of the Corporation are Johnson Health Care, Inc. (Health Care), Home & Community Health Services, Inc. (Home and Community) and Johnson Evergreen Corporation (Evergreen), which are not-for-profit companies, and WellCare, Inc., a taxable entity.

The Hospital's major accounting policies are as summarized below and in Note 2.

JANUARY 14, 2015 BANKRUPTCY FILING

On January 14, 2015, the Corporation, Hospital, Home and Community, Health Care and JPA filed a voluntary joint petition for relief under Chapter 11 of the U.S. Bankruptcy Code in the U.S. Bankruptcy Court for District of Connecticut, Hartford Division (Bankruptcy Court). Evergreen filed a separate Chapter 11 petition on January 14, 2015. The aforementioned entities are collectively referred to as the Debtors.

In connection with these bankruptcy filings, the Debtors filed motions with the Bankruptcy Court under Bankruptcy Code Section 363 to sell the Corporation, Hospital, Evergreen, Home and Community, and Health Care to Saint Francis Care, Inc. (Saint Francis).

Saint Francis and the Corporation have negotiated two separate asset purchase agreements, one for the sale of the Corporation, Hospital, Home and Community, and Health Care and a separate agreement for the sale of Evergreen which are both subject to Bankruptcy Court approval. Saint Francis will not purchase Evergreen unless it is successful in executing the other asset purchase agreement.

The sales process in the Bankruptcy Court will be the subject of a number of court hearings and the creditors may object to the proposed sale. Also, the proposed sale of Evergreen to Saint Francis will be subject to the best offer as there will be an opportunity for other potential buyers to submit competing offers and an auction is expected to occur if there are competing bids.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

JANUARY 14, 2015 BANKRUPTCY FILING (CONTINUED)

In addition to Bankruptcy Court approval, approval from the State of Connecticut Office of Health Care Access (OHCA), the Office of the Attorney General and from state and federal antitrust authorities is required.

Saint Francis and People's United Bank (People's) have negotiated the restructuring of the People's mortgage debt for a portion of it to be assumed by Saint Francis as part of the proposed sales transactions.

On January 16, 2015, the Debtors and a lender negotiated the terms of a debtor in possession loan of up to $7 million, subject to certain limits, to finance the Debtors' operations through the bankruptcy process.

During the year ended September 30, 2014, the Hospital expensed legal and consulting costs of approximately $850,000 related to the bankruptcy filing and the proposed sales transaction.

ORIGINAL BANKRUPTCY FILING

As a result of the Hospital's severe financial operating deficits, management determined it would be unable to pay its obligations in the normal course of business during fiscal year 2009 or service its debt in a timely fashion. On November 4, 2008, the Hospital, the Corporation and Evergreen, filed voluntary petitions for relief under Chapter 11 of the U.S. Bankruptcy Code (Bankruptcy Code) in the Bankruptcy Court. This generally delayed payments of liabilities incurred prior to filing those petitions while the Hospital developed a plan of reorganization that was satisfactory to its creditors, and allowed it to continue as a going concern.

On August 11, 2010, the Bankruptcy Court confirmed the Hospital's original plan of reorganization which was subject to the Hospital's satisfaction of a number of conditions precedent. One of the conditions precedent was that the Hospital, the Corporation, and Evergreen were required to obtain a line of credit of at least $6 million. On September 30, 2010, the plan of reorganization became effective when these debtors received financing under an $8 million line of credit and all other material conditions precedent to the plan becoming binding were resolved. The Bankruptcy Court issued a final decree on December 29, 2010.

There was no change in control as the Hospital's Board of Directors immediately prior to the confirmation of the plan retained control upon emergence from the Chapter 11 proceedings, therefore, the Hospital did not adopt fresh-start reporting.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

ORIGINAL BANKRUPTCY FILING (CONTINUED)

As of September 30, 2014 and 2013, liabilities compromised by the confirmed plan have been recorded at the present values of amounts to be paid, determined at the interest rate of 6.75%.

The Hospital's original confirmed plan provided for the following:

Secured Debt - The Hospital's secured debt with a bank (secured by a first mortgage lien on land and buildings located in Stafford Springs, Connecticut and a blanket lien on all furniture, fixtures, and equipment) was reinstated as such maturity existed before any default, and is payable in quarterly installments through January 1, 2048. The Hospital will also remain obligated as guarantor of the Corporation's secured debt in the amounts of $2,940,000 and $3,001,081, respectively, as of September 30, 2014 and 2013 and Evergreen's secured debt of $14,213,697 as of September 30, 2014 and 2013.

Other Secured Debt – The Hospital's loan to finance information technology equipment was restructured to be paid in 60 monthly installments of $10,000, including interest. The carrying value of this compromised debt was $125,022 and $232,609 as of September 30, 2014 and 2013, respectively.

Priority and Administrative Claims – All priority and administrative claims were to be paid as allowed by the Court.

Trade and Other Miscellaneous Claims - The holders of approximately $11 million of trade and other miscellaneous claims were entitled to receive $705,232 on the effective date, $256,025 on the first anniversary of the effective date, $488,775 on the second anniversary of the effective date and $954,275 on the each of the third, fourth, and fifth anniversaries of the effective date.

The holders of approximately $145,000 of convenience claims were entitled to receive 50% of their allowed claim. Unexpired leases and executory contracts not rejected by the Hospital were scheduled to be paid according to their original or negotiated terms.

Pension Benefit Guaranty Corporation (PBGC) Claims - The PBGC was entitled to receive $730,402 on the effective date, $266,475 on the first anniversary of the effective date, $508,725 on the second anniversary of the effective date and $993,225 on the each of the third, fourth, and fifth anniversaries of the effective date. The Hospital has also recorded a liability of $468,384 and $438,767 as of September 30, 2014 and 2013, respectively, for the pension termination premium that is owed to the PBGC prior to October 1, 2016. If the premium is not paid by this date, the pension termination premium will increase to $2 million under the terms of the plan of reorganization.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

ORIGINAL BANKRUPTCY FILING (CONTINUED)

The Hospital failed to pay the amounts owed to the unsecured creditors and the PBGC that were due on October 1, 2013 and October 1, 2014.

In addition, mortgage payments totaling approximately $1,256,000 were past due under the secured mortgage as of September 30, 2014. The $11,987,500 balance of the mortgage has been classified as a current liability at September 30, 2014 based on the fact that People's Bank had the right to demand repayment at September 30, 2014.

AFFILIATION WITH SAINT FRANCIS CARE, INC.

On July 12, 2012, the Hospital, along with the Corporation and Evergreen (collectively, the Johnson Entities) entered into an affiliation agreement with Saint Francis Care designed to establish a long-term stable relationship between the two systems, allowing them to work together to maintain and strengthen the Corporation's operating viability and the Hospital's presence in the community as a community hospital, expand the array of health care services available, support the Hospital's medical staff, and enhance the Corporation's efforts to fulfill its mission. Saint Francis made an initial payment to the Johnson Entities of $1,300,000 on the date of the affiliation agreement and made an additional payment of $1,050,000 on October 1, 2012, both payments to be used by the Johnson Entities to satisfy outstanding claims owed under the reorganization plan (the Plan) to the Pension Benefit Guaranty Corporation and the unsecured creditors in classes A6 and B6 of the Plan.

All payments made by Saint Francis under this agreement were considered to be an unsecured loan. Under the terms of the affiliation agreement, this loan would be payable in the event that the Corporation sought the closing of an alternative transaction, if the proceeds of this alternative transaction exceeded the amounts necessary to satisfy all other secured and unsecured debt owed by the Corporation.

In connection with the $1,300,000 initial payment, Saint Francis was provided with the right to appoint three members to the Boards of Directors of Johnson Memorial Medical Center, the Hospital, and Evergreen.

The affiliation agreement requires the Johnson Entities to obtain the consent of Saint Francis prior to the occurrence of the following events: merger, dissolution, dilution of Saint Francis' board representation, incurrence of certain additional debt, prepayment of debt, creation of liens, entering into lease obligations in excess of $1 million, the sale or disposition of properties in excess of defined thresholds, distributions of cash, or the addition or termination of any material clinical service.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

AFFILIATION WITH SAINT FRANCIS CARE, INC. (CONTINUED)

Saint Francis will provide medical leadership in the Hospital's oncology program, infectious disease program, hospitalist program and management services in both case management and psychiatry in an effort to help the Hospital to attract additional volume.

On May 17, 2013 the Johnson Entities amended the affiliation agreement with Saint Francis to include additional advances of up to $1,000,000 to be used solely for general working capital purposes. Advances under this amendment are subject to interest effective October 1, 2013 at the prime rate plus 2%. As of September 30, 2014, there were no advances to the Hospital under this letter of credit and $350,000 was advanced to the Hospital as of September 30, 2013.

During 2014, Saint Francis agreed to provide credit support of $2 million to the Johnson Entities in the form of a guaranty and letter of credit issued by a bank as security for the Johnson Entities' deductible under their workers' compensation policy. Certain fees and interest will be owed to Saint Francis under this agreement. As of September 30, 2014, there were no borrowings under this letter of credit.

GOING CONCERN

The accompanying consolidated financial statements have been prepared assuming that the Hospital will continue as a going concern. As of September 30, 2014, the Hospital had an unrestricted net asset deficit of $4,478,834 and had current liabilities that exceeded current assets by $15,984,256. The Hospital is a party to a credit agreement and mortgage that require certain financial and non-financial covenants be maintained. The Hospital failed certain covenants during the year ended September 30, 2014 and defaulted on certain payments due on its mortgage and payments due to its creditors. In addition, the Hospital filed for relief under Chapter 11 of the U.S. Bankruptcy Code subsequent to September 30, 2014. These conditions raise substantial doubt about the Hospital's ability to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

It is the plan of management to ensure that the Hospital continues as a going concern and the Corporation is pursuing the potential sale of the Hospital and the other Debtors to Saint Francis under Bankruptcy Code Section 363. Management believes that such a sale will preserve and maximize the going concern value of the Debtors' properties, provide jobs for the Debtors' employees, and allow for the continued delivery of health care services to residents of North Central Connecticut.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

GOING CONCERN (CONTINUED)

The actions taken by the Corporation with respect to the potential transaction with Saint Francis and the courses of action taken by Bankruptcy Court and the creditors of the Hospital will have an impact on the Hospital's ability to continue as a going concern.

The Hospital's continuation as a going concern is also ultimately dependent upon its future financial performance, which will be affected by general economic, competitive and other factors, many of which are beyond the Hospital's control. There can be no assurance that the Hospital's plans to ensure continuation as a going concern will be successful.

PRINCIPLES OF CONSOLIDATION AND PRESENTATION

The accompanying consolidated financial statements include the accounts of Johnson Memorial Hospital, Johnson Professional Associates, P.C., and Johnson Memorial Hospital Development Fund, Inc. JPA and Development are entities in which the Hospital has a controlling financial interest. All inter-company accounts have been eliminated in consolidation.

ASC 810-25, *Consolidations*, requires a not-for-profit entity, among other things, to consolidate into its financial statements the financial results of another not-for-profit in which it has a controlling financial interest and to make certain disclosures. Reference is made to Note 2.

The accompanying consolidated financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

NET ASSET CATEGORIES

To ensure observance of limitations and restrictions placed on the use of resources available to the Hospital, the accounts of the Hospital are maintained in the following net asset categories:

Unrestricted – Unrestricted net assets represent available resources which can be used for general operations of the Hospital. Included in unrestricted net assets are assets set aside by the Board of Directors.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

NET ASSET CATEGORIES (CONTINUED)

Temporarily Restricted – The Hospital reports gifts of cash and other assets as restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statements of operations and changes in net assets as net assets released from restrictions. Donor-restricted contributions whose restrictions are met in within the same year as received are reflected as unrestricted contributions in the accompanying statements of operations. At September 30, 2014 and 2013 the Hospital had temporarily restricted net assets of $332,881 and $268,927, respectively.

Permanently Restricted – Permanently restricted net assets represent contributions received with the donor restriction that the principal be invested in perpetuity and that income earned thereon is available for operations or a specific purpose.

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, including estimated uncollectible accounts receivable and contractual allowances and liabilities, including estimated net settlements with third-party reimbursement agencies and professional liabilities, and disclosure of contingent assets and contingent liabilities at the date of the financial statements. Estimates also affect the amounts of revenues and expenses reported during the period. There is at least a reasonable possibility that certain estimates will change by material amounts in the near term. Actual results could differ from those estimates.

REGULATORY MATTERS

The Hospital is required to file annual operating information with the State of Connecticut Office of Health Care Access.

DONOR RESTRICTED GIFTS

Unconditional promises to give cash are recorded at the present value of their estimated future cash flows. The discounts on those amounts are computed using risk-free interest rates applicable to the years in which the promises to give are received. Amortization of the discounts is included in gifts and bequests on the consolidated statements of operations and changes in net assets.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

DONOR RESTRICTED GIFTS (CONTINUED)

The gifts are reported as either temporarily or permanently restricted net assets if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets.

CASH AND CASH EQUIVALENTS

The Hospital considers all highly liquid investments with remaining maturities of three months or less at date of purchase to be cash equivalents. Cash and cash equivalents are held at a limited number of financial institutions and at times, the amounts on deposit exceed insured limits.

PATIENT ACCOUNTS RECEIVABLE

Patient accounts receivable result from the health care services provided by the Hospital and JPA. The amount of the allowance for uncollectible accounts is based upon management's assessment of historical and expected net collections, business and economic conditions, trends in Medicare and Medicaid health care coverage and other collection indicators. See Note 3 for additional information relative to net patient service revenue recognition and third-party payer programs.

INVENTORIES

Inventories of drugs and supplies are stated at the lower of cost or market, determined using the first in first out method.

INVESTMENTS

Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value in the balance sheets. Investment income or loss (including realized gains and losses on investments, interest and dividends) are included in the deficiency of revenues over expenses unless the income or loss is restricted by donor or law.

Unrealized gains and losses on investments on the Hospital's beneficial interest in perpetual trusts are recorded as changes in permanently restricted net assets.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

INVESTMENT IN JOINT VENTURES

The Hospital has three joint ventures that it accounts for using the equity method. The change in the Hospital's share in the equity of these joint ventures is recorded as a component of nonoperating revenue in the consolidated statements of operations. The Hospital has a 25% interest in Northeast Regional Radiation Oncology Network, Inc. ($3,299,195 and $3,108,378 as of September 30, 2014 and 2013, respectively) and has a 15% ownership interest in Tolland Imaging Center, LLC ($81,604 and $41,285 as of September 30, 2014 and 2013, respectively).

PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment are recorded at cost. The Hospital provides for depreciation of property, plant and equipment and amortization of assets recorded under capital leases using the straight-line method in amounts sufficient to amortize the cost of the assets over their estimated useful lives ranging from 3 to 40 years.

Financial Accounting Standards Board ASC 410-20, *Accounting for Asset Retirement Obligations,* provides guidance on accounting and reporting for obligations associated with the retirement of tangible long-lived assets and the associated asset retirement costs. Asset retirement obligations include, but are not limited to, certain types of environmental issues which are legally required to be remediated upon an asset's retirement as well as contractually required asset retirement obligations. ASC 410-20 provides clarifying guidance on conditional asset retirement obligations. Conditional asset retirement obligations are obligations whose settlement may be uncertain. ASC 410-20's guidance requires such conditional asset retirement obligations to be estimated and recognized. Application of these pronouncements affects the Hospital with respect to required future asbestos remediation.

Conditional asset retirement obligations of $346,001 and $334,927 as of September 30, 2014 and 2013, respectively, were recorded in other liabilities on the balance sheets. These retirement obligations have been discounted at a rate of 6.75%. The undiscounted amounts of the obligations were $346,001 at September 30, 2014 and 2013. There were no retirement obligations incurred or settled during 2014 and 2013. Reference is made to Note 14 regarding other environmental exposures.

IMPAIRMENT OF LONG-LIVED ASSETS

The Hospital records impairment losses on long-lived assets used in operations when events and circumstances indicate that the assets might be impaired and the undiscounted cash flows estimated to be generated by those assets are less than the carrying amounts of those assets. There were no impairment losses recorded in 2014 and 2013.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

NONOPERATING REVENUE

Activities, other than in connection with providing health care services, are considered to be nonoperating. Nonoperating revenue consists primarily of income on invested funds, gains and losses on sales of equipment and the changes in the Hospital's share of equity of the joint ventures accounted for under the equity method.

DEFERRED FINANCING FEES

Deferred financing costs, which were incurred in connection with the debt, are being amortized over the term of the related debt. Amortization expense for deferred financing costs amounted to $7,248 for the years ended September 30, 2014 and 2013.

DEFICIENCY OF REVENUE OVER EXPENSES

The statements of operations and changes in net assets include the deficiency of revenue over expenses as the performance indicator. Changes in unrestricted net assets which are excluded from the deficiency of revenue over expenses, consistent with industry practice, include contributions of long-lived assets (including assets acquired using contributions which by donor restriction were to be used for the purposes of acquiring such assets) and permanent transfers of assets to and from affiliates for other than goods and services.

INCOME TAXES

The Hospital and Development are not-for-profit corporations as defined in Section 501(c)(3) of the Internal Revenue Code, and therefore are exempt from federal and state income taxes, except on net income derived from unrelated business activities. JPA is a professional corporation that has experienced losses since inception and accordingly, no provisions for federal or state income taxes have been recorded.

The Hospital accounts for uncertainty in income tax positions in the consolidated financial statements by applying a recognition threshold and measurement attribute for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return.

Management has analyzed the tax positions taken and has concluded that as of September 30, 2014, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Hospital, Development, and JPA are subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Management believes that these organizations are no longer subject to income tax examinations prior to 2011.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

ADVERTISING

The Hospital expenses advertising costs as incurred. Advertising expenses for the years ended September 30, 2014 and 2013 were $5,039 and $40,673, respectively.

BENEFICIAL INTEREST IN PERPETUAL TRUSTS

The Hospital is the beneficiary of several trust funds. Although the principal balances in the trust funds are permanently restricted, the income earned on the trust funds is unrestricted. The unrealized gains from the trust funds were $63,596 in 2014 and $113,235 in 2013 and are included in changes in permanently restricted net assets.

RECOGNITION OF GRANT REVENUE

Grants are generally considered to be exchange transactions in which the grantor requires the performance of specified activities. Entitlement to cost reimbursement grants is conditioned on the expenditure of funds in accordance with grant restrictions and, therefore, revenue is recognized to the extent of grant expenditures. Entitlement to performance based grants is conditioned on the attainment of specific performance.

CHARITY CARE

The Hospital provides care to patients who meet certain criteria under its charity care policy without charge, or at amounts less than its established rates. The Hospital does not pursue collection of amounts determined to be charity care. For the year ended September 30, 2014 the charges and costs related to charity care were $387,403 and $202,458 and for the year ended September 30, 2013, the charges and costs related to charity care were $310,398 and $134,040, respectively.

ESTIMATED MEDICAL MALPRACTICE AND WORKERS' COMPENSATION COSTS

The provision for estimated medical malpractice and workers' compensation claims includes estimates of the ultimate costs for both reported claims and claims incurred but not reported.

The Hospital accounts for its insurance claims and related insurance recoveries in accordance with the provisions of ASU 2010-24, *Presentation of Insurance Claims and Related Insurance Recoveries*, which indicates that health care entities should not net insurance recoveries against the related claim liabilities.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

BAD DEBTS

ASU 2011-07, *Patient Service Revenue, Provision for Bad Debts, and the Allowance for Doubtful Accounts,* requires certain health care entities to present the provision for bad debts associated with patient service revenue as a deduction from patient service revenue (net of contractual allowances and discounts) rather than as an operating expense. Refer to Note 2 for the additional disclosures required by ASU 2011-07.

RECLASSIFICATIONS

Certain amounts reported in the prior year's financial statements have been reclassified to conform to the current year's financial statements.

SUBSEQUENT EVENTS

The Hospital evaluates the impact of subsequent events, events that occur after the balance sheet date but before the financial statements are issued, for potential recognition in the financial statements as of the balance sheet date or for disclosure in the notes to the consolidated financial statements. The Hospital evaluated events occurring subsequent to September 30, 2014 through March 30, 2015, the date on which the accompanying financial statements were available to be issued. During this period, there were no subsequent events that required disclosure or recognition in the financial statements other than the disclosures related to the January 14, 2015 bankruptcy filing.

NOTE 2 – CONSOLIDATED ENTITIES

JPA is a medical practice that is controlled by the Hospital. Although the Hospital does not have direct ownership interests in JPA, the Hospital has a controlling voting interest in the Board of JPA, thus enabling the Hospital to control the economic activities of JPA. Also, the Hospital provides funding to JPA to fund its operating losses.

Johnson Memorial Hospital Development Fund, Inc. is a not-for-profit organization that raises funds for the Hospital and other affiliates in which the Hospital has a controlling financial interest by virtue of control of its board of directors and the fact that substantially all of Development's assets are for the use of the Hospital.

NOTE 3 – NET REVENUE FROM SERVICES TO PATIENTS AND CHARITY CARE

The following table summarizes net revenue from services to patients during the years ended September 30, 2014 and 2013:

	2014	2013
Gross patient service revenue		
Inpatients	$ 61,452,314	$ 62,288,196
Outpatients	115,686,167	105,897,974
	177,138,481	168,186,170
Deductions		
Contractual and other allowances	102,892,826	99,800,590
Charity care provided free of charge - at charges	387,403	310,398
	103,280,229	100,110,988
Net patient service revenue	73,858,252	68,075,182
Provision for bad debts	4,311,679	4,584,989
Net patient service revenue less provision for bad debts	$ 69,546,573	$ 63,490,193

Patient accounts receivable and revenues are recorded when patient services are performed. Amounts received from most payers are different from the established billing rates of the Hospital, and these differences are accounted for as allowances. Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payers, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payers. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined. For the years ended September 30, 2014 and 2013, the Hospital recorded approximately $310,000 and ($469,000), respectively, as an increase (decrease) to net patient service revenue for changes in estimates related to third-party payer settlement accruals recorded in prior years.

The following table represents the percentages of net revenue received from payers during the years ended September 30, 2014 and 2013:

	2014	2013
Medicare	37%	36%
Medicaid	13%	7%
Third parties	44%	43%
Other	6%	14%

NOTE 3 – NET REVENUE FROM SERVICES TO PATIENTS AND CHARITY CARE (CONTINUED)

Changes in the Medicare and Medicaid programs and the reduction of funding levels could have an adverse impact on the Hospital.

The current Connecticut Medicaid inpatient hospital reimbursement model of interim per diem rates and case rate settlements will transition to an All Patient Refined Diagnosis Related Group System (APR-DRG) where hospital payments will be established prospectively. Connecticut Medicaid outpatient hospital reimbursement will move from the current system of reimbursement based on Revenue Center Codes to a prospective payment system based on the complexity of services performed. The new inpatient reimbursement methodology will be effective for admissions on or after January 1, 2015; while the new outpatient reimbursement methodology will not be implemented until at least January 1, 2016. The Hospital has not determined the estimated impact of these proposed changes on net patient service revenue in future years.

The significant concentrations of net accounts receivable for services to patients by payer at September 30, 2014 and 2013 follow:

	2014	2013
Medicare	39%	27%
Medicaid	20%	11%
Third parties	37%	44%
Other	4%	18%

Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. Compliance with such laws and regulations can be subject to future government review and interpretation as well as significant regulatory action including fines, penalties, and exclusion from the Medicare and Medicaid programs. The Hospital believes that it is in compliance with all applicable laws and regulations. Cost reports for the Hospital, which serve as a basis for final settlement with government payers, have been settled by final settlement through 2010 for Medicare and 2007 for Medicaid. Other years remain open for settlement.

The Hospital has agreements with various Health Maintenance Organizations (HMOs) to provide medical services to subscribing participants. Under these agreements, the HMOs make fee-for-service payments to the Hospital for certain covered services based upon discounted fee schedules.

NOTE 3 – NET REVENUE FROM SERVICES TO PATIENTS AND CHARITY CARE (CONTINUED)

MEASURING CHARITY CARE

The Hospital accepts all patients regardless of their ability to pay. A patient is classified as a charity patient by reference to the established policies of the Hospital. Essentially, these policies define charity services as those services for which no payment is possible. In assessing a patient's inability to pay, the Hospital utilizes the generally recognized poverty income levels for the State, but also includes certain cases where incurred charges are significant when compared to incomes. These charges are not included in net patient service revenues for financial reporting purposes.

Self-pay revenues are derived primarily from patients who do not have any form of health care coverage. The revenues associated with self-pay patients are generally reported at the Hospital's gross charges. The Hospital evaluates these patients, after the patient's medical condition is determined to be stable, for their ability to pay based upon federal and state poverty guidelines, qualifications for Medicaid or other governmental assistance programs, as well as the Hospital's policy for charity care. The Hospital provides care without charge to certain patients that qualify under its charity care policy. For the years ended September 30, 2014 and 2013, the Hospital estimates that its costs of care provided under its charity care programs approximated $202,000 and $134,000, respectively.

The Hospital's management estimates its costs of care provided under its charity care programs utilizing a calculated ratio of costs to gross charges multiplied by the Hospital's gross charity care charges provided. The Hospital's gross charity care charges include only services provided to patients who are unable to pay and qualify under the Hospital's charity care policy. To the extent the Hospital receives reimbursement through the various governmental assistance programs in which it participates to subsidize its care of indigent patients, the Hospital does not include these patients charges in its cost of care provided under its charity care program. Additionally, the Hospital does not report a charity care patient's charges in revenues or in the provision for bad debts as it is the Hospital's policy not to pursue collection of amounts related to these patients.

ALLOWANCE FOR DOUBTFUL ACCOUNTS

The Hospital's estimation of the allowance for uncollectible accounts is based primarily upon the type and age of the patient accounts receivable and the effectiveness of the Hospital's collection efforts. The Hospital's policy is to reserve a portion of all self-pay receivables, including amounts due from the uninsured and amounts related to co-payments and deductibles, as these charges are recorded. On a monthly basis, the Hospital reviews its accounts receivable balances, the effectiveness of the Hospital's reserve policies and various analytics to support the basis for its estimates.

NOTE 3 – NET REVENUE FROM SERVICES TO PATIENTS AND CHARITY CARE (CONTINUED)

ALLOWANCE FOR DOUBTFUL ACCOUNTS (CONTINUED)

These efforts primarily consist of reviewing the following:

- Revenue and volume trends by payer, particularly the self-pay components;
- Changes in the aging and payer mix of accounts receivable, including increased focus on accounts due from the uninsured and accounts that represent co-payments and deductibles due from patients; and
- Various allowance coverage statistics.

The Hospital regularly performs hindsight procedures to evaluate historical write-off and collection experience throughout the year to assist in determining the reasonableness of its process for estimating the allowance for uncollectible accounts.

A summary of the Hospital's allowance for doubtful accounts activity for the years ended September 30, 2014 and 2013 is as follows:

	Balance at Beginning of Period	Additions Recorded in the Provision for Bad Debts	Accounts Written off, Net of Recoveries and Other	Balance at End of Period
Allowance for doubtful accounts:				
Year ended September 30, 2013	$ (2,702,000)	$ (4,584,989)	$ 3,561,989	$ (3,725,000)
Year ended September 30, 2014	$ (3,725,000)	$ (4,311,679)	$ 3,357,679	$ (4,679,000)

ICD-10 IMPLEMENTATION

The Hospital is subject to the administrative simplification provisions of HIPAA which require the use of uniform electronic data transmission standards for health care claims and payment transactions submitted or received electronically.

In January 2009, the Centers for Medicare and Medicaid Services (CMS) published its tenth revision of International Statistical Classification of Diseases and Related Health Problems (ICD-10) and related changes to the formats used for certain electronic transactions. ICD-10 contains significantly more diagnostic and procedural codes than the existing ICD-9 coding system, and as a result, the coding for the patient services provided by the Hospital will require much greater specificity when ICD-10 becomes effective on October 1, 2015.

NOTE 3 – NET REVENUE FROM SERVICES TO PATIENTS AND CHARITY CARE (CONTINUED)

ICD-10 IMPLEMENTATION (CONTINUED)

The implementation of ICD-10 will require a significant investment in technology and training. The Hospital may experience delays in reimbursement while the Hospital and the payers from which it seeks reimbursement make the transition to ICD-10. If the Hospital fails to implement the new coding systems by the deadline, the Hospital will not be paid for services. Management is not able to reasonably estimate the overall financial statement impact of the Hospital's transition to ICD-10.

NOTE 4 – ASSETS WHOSE USE IS LIMITED

The composition of assets whose use is limited, which include beneficial interests in perpetual trusts, cash restricted for payment of workers compensation claims and investments permanently restricted by donors are set forth in the following table. Investments are recorded on the balance sheets at fair value.

	2014		2013	
	Cost	Fair Value	Cost	Fair Value
Cash and cash equivalents	$ 1,201,322	$ 1,201,322	$ 1,136,345	$ 1,136,345
Money market funds	12,122	12,122	20,460	20,460
Mutual funds - equity	56,730	65,074	560,817	577,579
Mutual funds - fixed	44,414	44,516	110,126	104,946
Collective funds - equity	496,374	523,180	70,415	80,670
Collective funds - fixed	332,613	351,046	332,391	401,844
Investment grade taxable bonds	--	--	33,233	31,947
Global high yield bonds	--	--	99,698	105,211
Equities				
U.S. large cap	783,027	864,449	807,823	894,907
U.S. mid cap	359,596	414,548	216,666	258,354
U.S. small cap	189,136	208,034	201,958	225,209
International developed	487,064	521,272	329,802	352,583
Emerging markets	247,151	247,414	260,180	244,309
Real estate	256,803	264,411	199,572	188,086
Tangible assets - commodities	168,678	143,570	233,497	219,202
	$ 4,635,030	$ 4,860,958	$ 4,612,983	$ 4,841,652

NOTE 4 – ASSETS WHOSE USE IS LIMITED (CONTINUED)

Investment income and losses on investments recorded in the consolidated statements of operations for the years ended September 30 are below.

	2014	2013
Income		
Interest and dividend income	$ 209,480	$ 198,178
Less investment management fees	(43,983)	(39,378)
Net investment income	$ 165,497	$ 158,800

NOTE 5 – FAIR VALUE MEASUREMENTS

Assets and liabilities recorded at fair value in the financial statements are categorized, for disclosure purposes, based upon whether the inputs used to determine their fair values are observable or unobservable utilizing a three-level fair value hierarchy that prioritizes the inputs used to measure assets and liabilities at fair value. Level inputs are as follows:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Hospital has the ability to access on the reporting date.

Level 2 – Inputs other than quoted market prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. If the asset or liability has a specific (contractual) term, a Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs that are unobservable for the asset or liability.

The fair values of Level 1 securities were determined through quoted market prices, while fair values of Level 2 securities were determined primarily through prices obtained from third party pricing sources, where quoted market prices for such securities were not available. The fair values of Level 3 securities were determined primarily through information obtained from the relevant counterparties for such investments, as information on which these securities' fair values are based is generally not readily available in the market.

NOTE 5 – FAIR VALUE MEASUREMENTS (CONTINUED)

The following table summarizes fair value measurements, by level, at September 30, 2014 and 2013, for all assets and liabilities which are measured at fair value on a recurring basis in the financial statements:

	Level 1	Level 2	Level 3	Total
September 30, 2014				
Beneficial interests in perpetual trusts				
Cash and cash equivalents	$ 133,687	$ --	$ --	$ 133,687
Money market funds	12,122	--	--	12,122
Mutual funds - equity	65,074	--	--	65,074
Mutual funds - fixed	44,516	--	--	44,516
Collective funds - equity	--	--	523,180	523,180
Collective funds - fixed	--	--	351,046	351,046
Equities				
U.S. large cap	864,449	--	--	864,449
U.S. mid cap	414,548	--	--	414,548
U.S. small cap	208,034	--	--	208,034
International developed	521,272	--	--	521,272

Real estate	264,411	--	--	264,411
Tangible assets-commodities	--	--	143,570	143,570
Total beneficial interests in perpetual trusts	2,775,527	--	1,017,796	3,793,323
Restricted cash and board designated investments	224,048	--	--	224,048
Investments permanently restricted by donor	843,587	--	--	843,587
	$ 3,843,162	$ --	$ 1,017,796	$ 4,860,958

NOTE 5 – FAIR VALUE MEASUREMENTS (CONTINUED)

	Level 1	Level 2	Level 3	Total
September 30, 2013				
Beneficial interests in perpetual trusts				
Cash and cash equivalents	$ 24,420	$ --	$ --	$ 24,420
Money market funds	20,460	--	--	20,460
Mutual funds - equity	577,579	--	--	577,579
Mutual funds - fixed	104,946	--	--	104,946
Collective funds - equity	--	--	80,670	80,670
Collective funds - fixed	--	--	401,844	401,844
Investment grade taxable bonds	31,947	--	--	31,947
Global high yield bonds	105,211	--	--	105,211
Equities				
U.S. large cap	894,907	--	--	894,907
U.S. mid cap	258,354	--	--	258,354
U.S. small cap	225,209	--	--	225,209
International developed	352,583	--	--	352,583
Emerging markets	244,309	--	--	244,309
Real estate	188,086	--	--	188,086
Tangible assets-commodities	--	--	219,202	219,202
Total beneficial interests in perpetual trusts	3,028,011	--	701,716	3,729,727
Restricted cash and board designated investments	268,338	--	--	268,338
Investments permanently restricted by donor	843,587	--	--	843,587
	$ 4,139,936	$ --	$ 701,716	$ 4,841,652

NOTE 5 – FAIR VALUE MEASUREMENTS (CONTINUED)

The following is a reconciliation of Level 3 assets for which significant unobservable inputs were used to determine fair value:

	Beneficial Interests in Perpetual Trusts
Balance at October 1, 2012	$ 237,296
Purchases of investments	233,497
Changes in fair value	230,923
Balance at September 30, 2013	701,716
Purchases of investments	426,381
Sales of investments	(64,819)
Changes in fair value	(45,482)
Balance at September 30, 2014	$ 1,017,796

NOTE 6 – RESTRICTED ENDOWMENTS

The Hospital's endowments consist of donor-restricted endowment funds and beneficial interests in perpetual trusts. Net assets associated with endowment funds are classified and reported based on donor-imposed restrictions.

The Hospital's Board of Directors has interpreted the Connecticut Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor restricted endowment funds, absent explicit donor stipulations to the contrary. This does not apply to beneficial interests in perpetual trusts where the fair value of the investments is the basis for the amount recorded as permanently restricted net assets.

As a result of the interpretation of UPMIFA, the Hospital classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and, if applicable, (c) accumulations to the permanent endowment made in accordance with the related gift's donor instructions. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as unrestricted net assets based on the donors' stipulations and those amounts are appropriated for expenditure by the Hospital in a manner consistent with the standard for expenditures as proscribed by UPMIFA.

NOTE 6 – RESTRICTED ENDOWMENTS (CONTINUED)

In accordance with UPMIFA, the Hospital considers the following factors in making determinations to appropriate or accumulate donor-restricted endowment funds:

(1) The duration and preservation of the fund
(2) The purposes of the Hospital and the donor-restricted endowment fund
(3) General economic conditions
(4) The possible effect of inflation and deflation
(5) The expected total return from income and the appreciation of investments
(6) Other resources of the Hospital
(7) The investment policies of the Hospital

RETURN OBJECTIVES AND RISK PARAMETERS

For the permanently restricted endowment funds, the bank, acting in its capacity as trustee, determines and directs the investment policy and asset allocation. The Hospital expects these endowment funds, over time, to provide an average rate of return that exceeds the rate of inflation annually. Actual returns in any given year may vary from this amount.

STRATEGIES EMPLOYED FOR ACHIEVING OBJECTIVES

To satisfy its long-term rate-of-return objectives, the Hospital relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Hospital targets a diversified asset allocation to achieve its long-term return objectives within prudent risk constraints.

SPENDING POLICY AND HOW THE INVESTMENT OBJECTIVES RELATE TO THE SPENDING POLICY

The Hospital has a policy of evaluating the spending decisions for each endowment fund based upon the intentions of the donors and specific contractual agreements. In determining the annual amount to be spent, the Hospital considers the long-term expected return on its endowment. The spending policy is designed to limit spending to the expected long-term real rate of return. The annual distribution from the endowment funds is expected to be contained within a range of the trusts' market value that is consistent with the Hospital's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term as well as to provide additional real growth through new gifts and investment return.

NOTE 6 – RESTRICTED ENDOWMENTS (CONTINUED)

ENDOWMENT NET ASSET COMPOSITION BY TYPE OF FUND AS OF SEPTEMBER 30, 2014 AND 2013:

	Unrestricted	Permanently Restricted	Total
September 30, 2014			
Donor-restricted endowment funds	$ --	$ 843,587	$ 843,587
Beneficial interests in perpetual trusts	--	3,793,323	3,793,323
	$ --	$ 4,636,910	$ 4,636,910

	Unrestricted	Permanently Restricted	Total
September 30, 2013			
Donor-restricted endowment funds	$ --	$ 843,587	$ 843,587
Beneficial interests in perpetual trusts	--	3,729,727	3,729,727
	$ --	$ 4,573,314	$ 4,573,314

CHANGES IN ENDOWMENT NET ASSETS FOR THE YEARS ENDED SEPTEMBER 30, 2014 AND 2013

	Unrestricted	Permanently Restricted	Total
September 30, 2014			
Endowment net assets, beginning	$ --	$ 4,573,314	$ 4,573,314
Investment return:			
Investment income	165,497	--	165,497
Net unrealized gains	--	63,596	63,596
Total investment return	165,497	63,596	229,093
Appropriation of endowment assets for expenditure	(165,497)	--	(165,497)
Endowment net assets, ending	$ --	$ 4,636,910	$ 4,636,910

NOTE 6 – RESTRICTED ENDOWMENTS (CONTINUED)

CHANGES IN ENDOWMENT NET ASSETS FOR THE YEARS ENDED SEPTEMBER 30, 2014 AND 2013 (CONTINUED)

	Unrestricted	Permanently Restricted	Total
September 30, 2013			
Endowment net assets, beginning	$ --	$ 4,460,079	$ 4,460,079
Investment return:			
Investment income	158,000	--	158,000
Net unrealized gains	--	113,235	113,235
Total investment return	158,000	113,235	271,235
Appropriation of endowment assets for expenditure	(158,000)	--	(158,000)
Endowment net assets, ending	$ --	$ 4,573,314	$ 4,573,314

NOTE 7 – TEMPORARILY RESTRICTED AND PERMANENTLY RESTRICTED NET ASSETS

Temporarily restricted net assets of $332,881 and $268,927 as of September 30, 2014 and 2013, respectively, consist of assets restricted to make capital purchases and restricted amounts received from various fundraising events.

Permanently restricted net assets of $4,636,910 and $4,573,314 at September 30, 2014 and 2013, respectively, represent assets to be held in perpetuity, the income from which is expendable to support health care services and the general operations of the Hospital.

NOTE 8 – PROPERTY, PLANT AND EQUIPMENT

The components of cost and the related accumulated depreciation comprising property, plant and equipment as of September 30, 2014 and 2013 are as follows:

	2014	2013
Land	$ 406,997	$ 406,997
Land improvements	1,568,864	1,558,879
Building and improvements	24,689,760	24,574,732
Fixed and movable equipment	34,042,317	32,774,770
	60,707,938	59,315,378
Less accumulated depreciation	(44,198,742)	(42,249,206)
	$ 16,509,196	$ 17,066,172

Depreciation expense for property, plant and equipment amounted to $2,334,000 and $2,932,000 for the years ended September 30, 2014 and 2013, respectively. Included within depreciation and amortization expense on the statements of operations is amortization for capital leased assets of $21,606 and $14,170 for the years ended September 30, 2014 and 2013, respectively (see Note 10).

NOTE 9 – DEBT

MORTGAGE NOTE PAYABLE

On August 1, 2006, the Hospital entered into a $13,700,000 commercial construction mortgage loan with a bank. The loan was used to finance the expansion and renovation of the emergency department, three nursing units, the psychiatric unit, and two medical and surgical units, and to refinance the Hospital's existing loans (collectively, the Project). In December 2007, the loan was converted to a term loan, which is guaranteed by the United States Department of Agriculture (USDA) through the USDA Rural Development Community Facilities Program. The term loan calls for equal quarterly principal payments of $85,625 over 40 years and will mature on January 1, 2048. Fifty percent of the loan bears interest at the bank's five year cost of borrowing plus 1.50% and fifty percent of the loan bears interest at the three month LIBOR plus 1.25%. The interest rates in effect at September 30, 2014 were 6.63% and 1.48%, respectively. The interest rates in effect at September 30, 2013 were 6.63% and 1.52%, respectively.

As of September 30, 2014 and 2013, there was a principal balance of $11,987,500 due on the mortgage.

NOTE 9 – DEBT (CONTINUED)

MORTGAGE NOTE PAYABLE (CONTINUED)

The Hospital is required to meet covenants under the mortgage. During the year ended September 30, 2014, the Hospital failed certain covenants and failed to make any mortgage principal payments resulting in a delinquent balance of approximately $1,256,000 at September 30, 2014. The bank has the right to demand immediate payment of the $11,987,500 balance of the mortgage which has been classified as a current liability as of September 30, 2014.

In 2006, the Hospital entered into a loan to finance certain information systems equipment at an interest rate of 5.5%. The Hospital failed to make payments in accordance with the loan terms. The Hospital's loan to refinance information equipment was restructured to be paid in 60 monthly installments of $10,000. The present value of the settlement value of this loan was $125,022 and $232,609 at September 30, 2014 and 2013, respectively.

Future minimum payments by year and in the aggregate for the mortgage loan and subordinated debt were as follows at September 30, 2014:

2015	$ 12,095,087
2016	17,435
	$ 12,112,522

REVOLVING LOAN

In September 2010, the Hospital, along with several affiliates (the Borrowers), entered into a Revolving Loan and Security Agreement (senior debt under revolving line of credit) with a lender for an amount not to exceed the lesser of $8 million or the maximum borrowing base (85% of the book value of all eligible receivables). Under the original agreement, amounts outstanding bear interest at the rate of the 3 month LIBOR rate plus 4.25% payable monthly in arrears. In the event of a default, the agreement provides for an increase in the interest rate by up to 4%. The interest rate as of September 30, 2014 was 7.75%. The Hospital has granted the lender a security interest in accounts receivable. In connection with the bankruptcy filing, on January 16, 2015, this lender entered into a debtor in possession loan agreement with the Borrowers which replaced the Revolving Loan and Security Agreement.

The Hospital is jointly and severally liable for the full payment of the debt under this agreement, including any debt incurred by Evergreen and Home & Community Health Services, Inc.

As of September 30, 2014 and 2013, there were outstanding borrowings of $1,604,830 and $2,208,858, respectively, under the Loan and Security Agreement.

NOTE 9 – DEBT (CONTINUED)

REVOLVING LOAN (CONTINUED)

The Borrowers are subject to a number of covenants and restrictions under the Revolving Loan and Security Agreement. These include the following affirmative and negative covenants: provision of monthly, quarterly and annual financial information, adequate insurance coverage, notice of certain events and changes, change in ownership or management, restrictions on indebtedness and lease agreements, sale of assets, protection of collateral and financial covenants prepared on a consolidated basis for the Borrowers including cash flow and debt service coverage ratio requirements.

During 2014, the Borrowers failed to comply with various covenants under the Revolving Loan and Security Agreement which resulted in the lender imposing an interest penalty.

OTHER DEBT

The other long-term debt of $2,350,000 as of September 30, 2014 and 2013 and $350,000 of other current debt at September 30, 2013, represented the amounts owed to Saint Francis under the terms of the affiliation agreement. Reference is made to Note 1. The long-term portion of this debt is not subject to interest.

NOTE 10 – LEASE OBLIGATIONS

CAPITAL LEASES

The Hospital has entered into non-cancelable capital lease obligations for certain equipment. The cost of the assets is being amortized over the useful lives of the assets or the shorter of the respective lease term or useful life if the asset does not transfer to the Hospital at the end of the lease term and is summarized as of September 30, 2014 and 2013 are as follows:

	2014	2013
Medical and other equipment	$ 965,000	$ 70,850
Less accumulated amortization	(21,606)	(15,351)
	$ 943,394	$ 55,499

NOTE 10 – LEASE OBLIGATIONS

CAPITAL LEASES (CONTINUED)

The Hospital entered into a five year capital lease agreement to lease generators with a cost of $688,000 which commenced on March 1, 2014. The monthly lease payments, including interest, will be $10,500 for the first year and $15,400 for the remainder of the lease term with total payments of $865,296. The Hospital made a security deposit of $206,000 to secure the lease that is returnable at the end of the lease period.

The Hospital entered into a three year capital lease agreement to lease a magnetic chiller with a cost of $277,000 which commenced on September 1, 2014. The monthly lease payments, including interest, will be $7,829 over the lease term with total payments of $281,844. The Hospital made a security deposit of $15,658 to secure the lease that is returnable at the end of the lease period.

Future minimum lease payments under the capital leases (excluding the aforementioned generator lease), together with the present value of future minimum lease payments, as of September 30, 2014 are as follows:

2015	$ 253,947
2016	278,772
2017	270,943
2018	184,824
2019	77,010
Total future minimum lease payments	1,065,496
Less amounts representing interest	147,161
Present value of future minimum lease payments	918,335
Less current portion	197,299
	$ 721,036

OPERATING LEASES

The Hospital leases various computer equipment, medical equipment and office space under operating leases, which expire at various dates through 2015. Rent expense under the operating leases was $2,196,762 and $2,223,374 in 2014 and 2013, respectively. These leases have various terms and conditions. The Hospital subleases land to an affiliated corporation under a month-to-month lease arrangement. Sublease income was $180,000 for each of the fiscal years ended September 30, 2014 and 2013.

NOTE 10 – LEASE OBLIGATIONS

OPERATING LEASES (CONTINUED)

Minimum future rental commitments on non-cancelable operating leases with initial or remaining terms of more than one year as of September 30, 2014 are as follows:

2015	$ 394,267
	$ 394,267

NOTE 11 – EMPLOYEE BENEFIT PLANS

The Hospital formerly had a defined benefit pension plan that covered certain employees. Pursuant to the plan of reorganization, the Pension Benefit Guaranty Corporation assumed control of the defined benefit plan effective September 1, 2011.

The Hospital has a defined contribution plan (the Plan) whereby all employees who have attained the age of 21 and completed one year of employment (1,000 hours of service) are eligible to participate and become fully vested after 5 years. Annually, the Hospital may contribute a defined amount of employees' salaries to the Plan. Effective January 1, 2011, the Hospital suspended the matching of non-union employee contributions; it continued to pay the match on union employees up until June 2012, at which time only those union employees that had been grandfathered in the Plan were matched. The total expense incurred by the Hospital for contributions to the Plan was $272,339 and $147,244 in 2014 and 2013, respectively.

NOTE 12 – SELF-INSURANCE CLAIMS

There have been medical malpractice and workers' compensation claims that have been asserted against the Hospital. In addition, there are known incidents that have occurred through September 30, 2014 that may result in the assertion of claims. Hospital management has accrued its best estimate of these contingent losses. Other claims may be asserted arising from services provided to patients or workers' compensation incidents in the past. Hospital management has provided reserves for these contingent liabilities.

NOTE 13 – PROFESSIONAL, GENERAL LIABILITY AND WORKERS' COMPENSATION INSURANCE

For claims incurred through August 31, 2009, the Hospital was self-insured for professional liability and general liability claims, under a claims made policy, which covered the Corporation's entire health system. The Corporation has an excess umbrella claims made policy for claims in excess of the Corporation's self-insured limits.

For claims incurred after August 31, 2009, the Hospital was covered under commercial claims made policies with no deductible and coverage of $1,000,000 per claim and an annual aggregate of $3,000,000 for all of the entities covered under the policy.

The Corporation's independent actuary estimated the expected costs to settle claims incurred during the self-insured period and claims that were incurred but not reported (IBNR) under its claims made insurance policy. Accrued losses have been discounted at 3%. The Hospital has recorded accrued liabilities of $601,390 and $641,424 for the estimated claims that have been incurred but not reported and cases incurred during the self-insured period for its professional liability and general liability insurance risks as of September 30, 2014 and 2013, respectively.

The Hospital was also self-insured for workers compensation claims through March 16, 2009 at which time it obtained commercial insurance. The Hospital's workers' compensation policy had no deductible and policy limits of $1,000,000 per case with no aggregate limit for claims incurred after March 16, 2009 through May 30, 2014. Effective May 31, 2014, the Hospital obtained a new workers' compensation insurance policy that had a $250,000 deductible per claim and a $2,000,000 aggregate deductible. The policy provides for policy limits of $1,000,000 per case with no annual limit.

As of September 30, 2014, the Hospital recorded a liability of $142,689 related to its estimated portion of the deductible for workers' compensation incidents that occurred between May 31, 2014 and September 30, 2014.

In accordance with the provisions of ASU 2010-24, the Hospital recorded recoverables from insurance companies for the estimated costs to settle fully insured malpractice and workers' compensation claims in the amounts of $1,855,146 and $438,332 as of September 30, 2014 and 2013, respectively. The Hospital has recorded liabilities equal to these amounts as of September 30, 2014 and 2013.

NOTE 14 – COMMITMENTS AND CONTINGENCIES

The Hospital is a party to various lawsuits incidental to its business.

The Hospital also has the following environmental exposures:

The Connecticut Department of Environmental Protection (DEP) issued a consent order (Sewer Order) which requires the Hospital to perform repairs or replacements to the aging wastewater treatment system at the Hospital.

The Sewer Order requires a short-term and a long-term solution. The short-term work has been completed in accordance with the Sewer Order and the Hospital has been reporting to the DEP on the status of the short-term solution. Under the long-term solution, the Hospital was required to submit to the DEP for review and approval a schedule for: (i) the investigation of and remedial action alternatives to abate any pollution at the site arising from the operation of the on-site sewage treatment system or (ii) the construction of sanitary sewers to connect the Hospital to the Stafford Water Pollution Control Facility. The schedule originally provided for completion of the actions not later than December 31, 2014, but this deadline was extended until July 31, 2015. The Hospital signed a letter of intent with the Town of Stafford to participate in a project that will connect the Hospital to the Stafford Water Pollution Control Facility, as well as to connect it to services from Connecticut Water Company and Yankee Gas. As of September 30, 2014, funds to finance the project had not been secured.

The DEP filed a civil suit in 2007 in which the DEP sought civil penalties and temporary and permanent injunctions prohibiting the Hospital from violating the hazardous waste management regulations, preventing the Hospital from maintaining a discharge to the waters of the state and violating its air permit. Five of the six counts arose from allegations relating to the use of an underground storage tank for the storage of x-ray developer fixer and the release of the developer fixer from the tank. Use of that tank ended in April 2004 and the tank was removed. Part of the injunctive relief sought is an order requiring the investigation and remediation of the release of x-ray development fixer. The sixth count alleged that the Hospital violated its general air permit by submitting its annual compliance certification for 2005 ten months late. The Hospital has recorded a conditional retirement obligation related to the costs of an environmental investigation, but has not recorded a liability for any potential costs to remediate the site due to the fact that such costs, if any, cannot be reasonably estimated until the investigation is performed. The Hospital previously remediated the site when the tank was originally removed.

NOTE 14 – COMMITMENTS AND CONTINGENCIES (CONTINUED)

By letter dated April 7, 2014, the DEP agreed with a recommendation made in the January 2014 report that the consultant cease monitoring for nitrate based on the testing results for that constituent. The DEP expressed a concern and made a request that the consultant establish background concentrations for sulfate in groundwater for the site that is unaffected by release such as the on-site septic system or from the former x-ray developer tank. In October 2014, the DEP staff concurred with the consultant's proposed plan to continue monitoring on a semiannual basis, ammonia and nitrate in the remaining monitoring wells.

The engineer's estimate for semiannual monitoring is approximately $27,000 per year. The duration of monitoring and determination whether soil remediation is warranted is dependent upon the results of future monitoring and an estimate of the total costs was not determinable as of September 30, 2014.

NOTE 15 – TRANSACTIONS WITH AFFILIATES

During 2014 and 2013, the Hospital billed affiliated organizations $729,492 and $662,160, respectively, for certain expenses and rental of space.

The amounts due from (to) affiliates represent receivables from and (payables) to affiliates that do not eliminate in consolidation. These balances are comprised of the following at September 30:

	2014	2013
Due to Johnson Memorial Corporation	$ (2,653,389)	$ (2,263,802)
Due from (to) Home and Community Health Services, Inc.	678,239	(70,249)
Due from Johnson Evergreen Corporation	163,187	79,991
Due to Johnson Health Care, Inc.	(61,184)	(63,281)
	$ (1,873,147)	$ (2,317,342)

The Hospital has provided guarantees of the debt of the Corporation and Evergreen which had balances of $2,940,000 and $14,213,697, respectively, as of September 30, 2014. During the years ended September 30, 2014 and 2013, the Corporation and Evergreen failed to make certain payments due under the terms of these debt agreements and failed other covenants. The bank has the ability to demand repayment of the debt from the Hospital in accordance with the terms of the guarantee.

NOTE 16 – CONCENTRATIONS OF CREDIT RISK

The Hospital's financial instruments that are exposed to concentrations of credit risk consist primarily of cash, investments and accounts receivable. The Hospital places its cash deposits with high credit-quality institutions, which, at times, may exceed the Federal Deposit Insurance Corporation limits of $250,000 per bank. The Hospital has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk on cash and cash equivalents.

NOTE 17 – FUNCTIONAL EXPENSES

The Hospital provides general patient care services to residents within its geographic location. Expenses related to providing these services are as follows for the years ended September 30:

	2014	2013
Patient care services	$ 59,228,679	$ 58,346,318
General and administrative (including depreciation and amortization, interest and operations)	11,906,549	10,766,409
	$ 71,135,228	$ 69,112,727

INDEPENDENT AUDITORS' REPORT ON SUPPLEMENTARY INFORMATION

Board of Directors
Johnson Memorial Hospital

We have audited the consolidated financial statements of Johnson Memorial Hospital as of and for the years ended September 30, 2014 and 2013, and our report thereon dated March 30, 2015, which contained a going concern opinion on those consolidated financial statements, appears on page 1. Our audits were performed for the purpose of forming an opinion on the consolidated financial statements as a whole. The supplementary information is presented for the purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audits of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements taken as a whole.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors
Home & Community Health Services, Inc.

We have audited the accompanying financial statements of Home & Community Health Services, Inc., which comprise the balance sheets as of September 30, 2014 and 2013, and the related statements of operations, changes in net assets and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting polices used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Home & Community Health Services, Inc. as of September 30, 2014 and 2013, and the results of its operations, changes in net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

The accompanying financial statements have been prepared assuming that the Agency will continue as a going concern. As discussed in Note 2 to the financial statements, the Agency's unrestricted net assets decreased by $235,257 to a deficit of $169,577 and cash outflows used in operating activities totaled $705,082 during the year ended September 30, 2014 and the Agency is jointly and severally liable for $1,604,830 of borrowings made by Johnson Memorial Hospital (the Hospital). The Agency has granted the lender a security interest in accounts receivable. In addition, the Agency filed for relief under Chapter 11 of the U.S. Bankruptcy Code subsequent to September 30, 2014 and entered into an asset purchase agreement for the sale of the Agency which is contingent on a number of conditions, including the approval of the Bankruptcy Court. These conditions raise substantial doubt about the Agency's ability to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty. Our opinion is not modified with respect to this matter.

Cash and Cash Equivalents - End	$ 800	$ 400

The accompanying notes are an integral part of these financial statements.

NOTE 1 – ORGANIZATION

Home & Community Health Services, Inc. (the Agency) is a tax-exempt, non-stock corporation, which provides and administers a comprehensive, multi-disciplinary, home health care and hospice program primarily to the residents of towns in the North Central Connecticut area. The Agency is a subsidiary of Johnson Memorial Medical Center (the Corporation), a not-for-profit, non-stock parent company.

JANUARY 14, 2015 BANKRUPTCY FILING

On January 14, 2015, the Agency, along with the Corporation, Johnson Memorial Hospital (the Hospital), and certain other affiliates filed a voluntary joint petition for relief under Chapter 11 of the U.S. Bankruptcy Code in the U.S. Bankruptcy Court for District of Connecticut, Hartford Division (Bankruptcy Court). The aforementioned entities are collectively referred to as the Debtors.

In connection with this bankruptcy filing, the Debtors filed motions with the Bankruptcy Court under Bankruptcy Code Section 363 to sell the Agency, Corporation, Hospital, and certain other affiliates to Saint Francis Care, Inc. (Saint Francis).

Saint Francis and the Corporation have negotiated two separate asset purchase agreements, one for the sale of the Agency, Corporation, Hospital, and other affiliates and a separate agreement for the sale of Johnson Evergreen Corporation (Evergreen) which are both subject to Bankruptcy Court approval.

The sales process in the Bankruptcy Court will be the subject of a number of court hearings and the creditors may object to the proposed sale. Also, the proposed sale of Evergreen to Saint Francis will be subject to the best offer as there will be an opportunity for other potential buyers to submit competing offers and an auction is expected to occur if there are competing bids.

In addition to Bankruptcy Court approval, approval from the State of Connecticut Office of Health Care Access (OHCA), the Office of the Attorney General and from state and federal antitrust authorities is required.

On January 16, 2015, the Debtors and a lender have negotiated the terms of a debtor in possession loan of up to $7 million, subject to certain limits, to finance the Debtors' operations through the bankruptcy process.

It is uncertain whether the Agency will be acquired by Saint Francis.

NOTE 1 – ORGANIZATION (CONTINUED)

AFFILIATION WITH SAINT FRANCIS CARE, INC.

On July 12, 2012, the Corporation, along with the Hospital and Evergreen (collectively, the Johnson Entities) entered into an affiliation agreement with Saint Francis designed to establish a long-term stable relationship between the two systems, allowing them to work together to maintain and strengthen the Corporation's operating viability and the Hospital's presence in the community as a community hospital, expand the array of health care services available, support the Hospital's medical staff, and enhance the Corporation's efforts to fulfill its mission. Saint Francis made an initial payment to the Johnson Entities of $1,300,000 on the date of the affiliation agreement and made an additional payment of $1,050,000 on October 1, 2012. All payments made by Saint Francis under this agreement were considered to be an unsecured loan.

During 2014, Saint Francis agreed to provide credit support of $2 million to the Johnson Entities in the form of a guaranty and letter of credit issued by a bank as security for the Johnson Entities' deductible under their workers' compensation policy. Certain fees and interest will be owed to Saint Francis under this agreement. As of September 30, 2014, there were no borrowings under this letter of credit.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

GOING CONCERN

The accompanying financial statements have been prepared assuming that the Agency will continue as a going concern. During the year ended September 30, 2014, the Agency's unrestricted net assets decreased by $235,257 to a deficit of $169,577 as of September 30, 2014 and cash outflows used in operating activities totaled $705,082. As described in Note 1, the Agency filed for relief under Chapter 11 of the U.S. Bankruptcy Code on January 14, 2015.

As stated in Note 10, the Agency, the Corporation, and affiliates entered into a revolving credit agreement which was in default as of September 30, 2014. As of September 30, 2014, the Agency is jointly and severally liable for $1,604,830 of borrowings made by the Hospital under this agreement. The Agency has granted the lender a security interest in accounts receivable and certain cash received was utilized to make loan repayments to this lender on behalf of the Hospital. Also, the Johnson Entities failed to make certain debt payments in 2014 and failed to make certain payments that were due on under the Corporation's former reorganization plan.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

These conditions raise substantial doubt about the Agency's ability to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

It is the plan of management to ensure that the Agency continues as a going concern and is pursuing the potential sale of some or all of the Debtors to Saint Francis under Bankruptcy Code Section 363. Management believes that such a sale will preserve and maximize the going concern value of the Debtors' properties, provide jobs for the Debtors' employees, and allow for the continued delivery of health care services to residents of North Central Connecticut.

The actions taken by Johnson Memorial Medical Center with respect to the potential transaction with Saint Francis and the courses of action taken by Bankruptcy Court and the creditors of the Corporation will have an impact on the Agency's ability to continue as a going concern. The Agency's continuation as a going concern is also dependent upon its future financial performance, which will be affected by general economic, competitive and other factors, many of which are beyond the Agency's control. There can be no assurance that the Agency's plans to ensure continuation as a going concern will be successful.

BASIS OF PRESENTATION

The accompanying financial statements have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America. Reference is made to Note 3 regarding net patient service revenue recognition.

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Financial statement areas where management applies the use of estimates consist primarily of the allowance for uncollectible accounts, the allowance for contractual adjustments, amounts due to third-party payers, malpractice reserves and workers' compensation reserves.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

CASH AND CASH EQUIVALENTS

Cash and cash equivalents are maintained in bank accounts and overnight time deposits and have maturities of three months or less. The carrying value of cash equivalents approximates its fair value.

Cash and cash equivalents limited as to use represent the funds held to support the permanently restricted endowment funds and earnings thereon. Investment income is included in the deficiency of revenue over expenses unless restricted by the donor or law.

Accumulated earnings on investments related to permanently restricted net assets and certain temporarily restricted net assets are included in temporarily restricted net assets under State law which allows the Board of Directors to appropriate as much of the net appreciation of investments as is prudent considering the Agency's long and short-term needs, present and anticipated financial requirements, expected total return on its investments, price level trends, and general economic conditions. Reference is made to Note 12.

BAD DEBTS

The Agency records an allowance for doubtful accounts against its outstanding accounts receivable based on the Agency's past experience with collecting its receivables and an analysis of the current accounts receivable aging. The provision for uncollectible accounts recorded in the statements of operations was $113,657 and $73,882 for the years ended September 30, 2014 and 2013, respectively.

PROPERTY AND EQUIPMENT

Property and equipment is recorded at cost. Donated property and equipment is recorded at fair value as of the date of donation, which is then treated as cost. Assets are depreciated using the straight-line method over their estimated useful lives ranging from three to ten years. The cost and accumulated depreciation of assets are removed from the accounts when such assets are retired or otherwise sold and any related gains or losses are reported in income for the period.

IMPAIRMENT OF LONG-LIVED ASSETS

The Agency records impairment losses on long-lived assets used in operations when events and circumstances indicate that the assets might be impaired and the undiscounted cash flows estimated to be generated by those assets are less than the carrying amounts of those assets. There were no impairment losses recorded in 2014 and 2013.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

NET ASSET CATEGORIES

To ensure observance of limitations and restrictions placed on the use of resources available to the Agency, the accounts of the Agency are maintained in the following net asset categories:

Unrestricted – Unrestricted net assets represent available resources that can be used for the general operations of the Agency.

Temporarily Restricted – The Agency reports gifts of cash and other assets as restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of operations as net assets released from restrictions. Donor-restricted contributions whose restrictions are met within the same year as received are reflected as unrestricted contributions in the accompanying financial statements.

Permanently Restricted – Permanently restricted net assets represent contributions received with the donor restriction that the principal be invested in perpetuity and that the income earned thereon is available for operations or a specific purpose.

ESTIMATED MALPRACTICE AND WORKERS' COMPENSATION COSTS

The provision for estimated medical malpractice and workers' compensation claims includes estimates of the ultimate costs for both reported claims and claims incurred but not reported.

The Agency accounts for its insurance claims and related insurance recoveries in accordance with the provisions of ASU 2010-24, *Presentation of Insurance Claims and Related Insurance Recoveries*, which indicates that health care entities should not net insurance recoveries against the related claim liabilities. As of September 30, 2014 and 2013, the Agency recorded $9,454 and $5,662, respectively, in both insurance and other receivables and accounts payable and accrued expenses related to insurance recoveries and the corresponding claim liabilities.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

DEFICIENCY OF REVENUE OVER EXPENSES

The statement of operations includes deficiency of revenue over expenses. Changes in unrestricted net assets which are excluded from deficiency of revenue over expenses consistent with industry practice, include permanent transfers of assets to and from affiliates for other than goods and services and contributions of long-lived assets (including assets acquired using contributions that were restricted for the purposes of acquiring such assets).

INCOME TAXES

The Agency is a tax-exempt organization under Internal Revenue Code Section 501(c)(3) and its related income is exempt from federal income tax under Section 501(a) except for unrelated business income. The Agency accounts for uncertainty in income tax positions by applying a recognition threshold and measurement attribute for financial statement recognition and measurement of a tax position taken or expected to be the taken in a tax return.

Management has analyzed the tax positions taken and has concluded that as of September 30, 2014, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Agency is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Management believes the Agency is no longer subject to income tax examinations prior to 2011.

SUBSEQUENT EVENTS

The Agency evaluates the impact of subsequent events, events that occur after the balance sheet date but before the financial statements are issued, for potential recognition in the financial statements as of the balance sheet date or for disclosure in the notes to the financial statements. The Agency evaluated events occurring subsequent to September 30, 2014 through March 30, 2015, the date on which the accompanying financial statements were available to be issued. During this period, there were no subsequent events that required disclosure or recognition in the financial statements other than the disclosures related to the January 14, 2015 bankruptcy filing described in Notes 1 and 10.

NOTE 3 – THIRD-PARTY RATE ADJUSTMENTS AND REVENUE

NET PATIENT SERVICE REVENUE AND DEFERRED REVENUE

Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payers and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payers. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and such amounts are adjusted in future periods, as final settlements are determined or as years are no longer subject to audits, reviews, or investigations.

Medicare and Medicaid revenue accounted for approximately 72% and 17% in 2014, and 74% and 15% in 2013, respectively, of total net patient service revenue. The Agency's reimbursement for home health services provided to patients under the Medicare program is under a prospective payment system (PPS). Under PPS, the Agency receives a prospective payment for services to be provided based on a case-mix adjusted episodic payment. The length of each episode is sixty days and the episodic payment amount is established at the time of admission of the patient based on established Home Health Resource Group (HHRG) categories. Revenue under PPS is recognized over the term of the episode, with any unearned portion recorded as deferred revenue.

Laws and regulations governing the Medicare program are complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates could change by a material amount in the near term. It is management's opinion that the Agency is in compliance with the applicable laws and regulations.

The Agency grants credit without collateral to its patients, most of whom are local residents and are covered under payer agreements. Management has provided an allowance for potential credit losses and such losses have historically been within management's expectations. The significant concentrations of net accounts receivable for services to patients include 75% from Medicare, 10% from Medicaid and 15% from commercial carriers and others at September 30, 2014.

The significant concentrations of net accounts receivable for services to patients include 75% from Medicare, 12% from Medicaid and 13% from commercial carriers and others at September 30, 2013.

NOTE 3 – THIRD-PARTY RATE ADJUSTMENTS AND REVENUE (CONTINUED)

MEASURING CHARITY CARE

Self-pay revenues are derived primarily from patients who do not have any form of health care coverage. The revenues associated with self-pay patients are generally reported at the Agency's gross charges. The Agency evaluates these patients for their ability to pay based upon federal and state poverty guidelines, qualifications for Medicaid or other governmental assistance programs, as well as the Agency's policy for charity care. The Agency provides care without charge to certain patients that qualify for its charity care policy.

For each of the years ended September 30, 2014 and 2013, the Agency estimates that its costs of care provided under its charity care programs approximated $17,000 and $18,000, respectively.

The Agency's management estimates its costs of care provided under its charity care programs utilizing a calculated ratio of costs to gross charges multiplied by the Agency's gross charity care charges provided. The Agency's gross charity care charges include only services provided to patients who are unable to pay and qualify under the Agency's charity care policy. To the extent the Agency receives reimbursement through the various governmental assistance programs in which it participates to subsidize its care of indigent patients, the Agency does not include these patients' charges in its cost of care provided under its charity care program. Additionally, the Agency does not report a charity care patient's charges in revenues or in the provision for uncollectible accounts as it is the Agency's policy not to pursue collection of amounts related to these patients.

NOTE 3 – THIRD-PARTY RATE ADJUSTMENTS AND REVENUE (CONTINUED)

ALLOWANCE FOR UNCOLLECTIBLE ACCOUNTS

The Agency's estimation of the allowance for uncollectible accounts is based primarily upon the type and age of the patient accounts receivable and the effectiveness of the Agency's collection efforts. The Agency's policy is to reserve a portion of its receivables, including amounts due from the uninsured and amounts related to co-payments and deductibles, as these charges are recorded. On a monthly basis, the Agency reviews its accounts receivable balances, the effectiveness of the Agency's reserve policies and various analytics to support the basis for its estimates. These efforts primarily consist of reviewing the following:

- Revenue and volume trends by payer, particularly the self-pay components;
- Changes in the aging and payer mix of accounts receivable, including increased focus on accounts due from the uninsured and accounts that represent co-payments and deductibles due from patients; and
- Various allowance coverage statistics.

The Agency regularly performs hindsight procedures to evaluate historical write-off and collection experience throughout the year to assist in determining the reasonableness of its process for estimating the allowance for uncollectible accounts.

A summary of the Agency's allowance for doubtful accounts activity for the years ended September 30, 2014 and 2013 is as follows:

	Balance at Beginning of Period	Additions Recorded in the Provision for Bad Debts	Accounts Written off, Net of Recoveries and Other	Balance at End of Period
Allowance for doubtful accounts:				
Year ended September 30, 2013	$ (31,000)	$ (73,882)	$ 8,882	$ (96,000)
Year ended September 30, 2014	$ (96,000)	$ (113,657)	$ 129,657	$ (80,000)

NOTE 3 – THIRD-PARTY RATE ADJUSTMENTS AND REVENUE (CONTINUED)

ICD-10 IMPLEMENTATION

The Agency is subject to the administrative simplification provisions of HIPAA which require the use of uniform electronic data transmission standards for health care claims and payment transactions submitted or received electronically.

In January 2009, the Centers for Medicare and Medicaid Services (CMS) published its tenth revision of International Statistical Classification of Diseases and Related Health Problems (ICD-10) and related changes to the formats used for certain electronic transactions. ICD-10 contains significantly more diagnostic and procedural codes than the existing ICD-9 coding system, and as a result, the coding for the services provided by the Agency will require much greater specificity when ICD-10 becomes effective on October 1, 2015.

The implementation of ICD-10 will require a significant investment in technology and training. The Agency may experience delays in reimbursement while the Agency and the payers from which it seeks reimbursement make the transition to ICD-10. If the Agency fails to implement the new coding systems by the deadline, the Agency will not be paid for services. Management is not able to reasonably estimate the overall financial statement impact of the Agency's transition to ICD-10.

NOTE 4 – REGULATORY AND LEGISLATIVE MATTERS

LEGISLATION

The health care industry is subject to numerous laws and regulations of federal, state and local governments. These laws and regulations include, but are not necessarily limited to, matters such as licensure, accreditation, government health care program participation requirements, reimbursement for patient services and Medicare and Medicaid fraud and abuse. Government activity continues with respect to investigations and allegations concerning possible violations of fraud and abuse statutes and regulations by health care providers. Violations of these laws and regulations could result in expulsion from government health care programs together with the imposition of significant fines and penalties, as well as significant repayments for patient services previously billed. Management believes that the Agency is in compliance with fraud and abuse as well as other applicable government laws and regulations. While no known regulatory inquiries are pending, compliance with such laws and regulations can be subject to future government review and interpretation as well as regulatory actions unknown or unasserted at this time.

NOTE 5 – CASH AND CASH EQUIVALENTS LIMITED AS TO USE

Cash and cash equivalents limited as to use totaled $185,622 and $187,014 at December 31, 2014 and 2013, respectively.

Unrestricted investment income, consisting of dividends and interest net of fees, were $678 and $1,297 for the years ended September 30, 2014 and 2013, respectively.

The Agency has established a framework for measuring fair value and disclosing fair value measurements based on a fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs by requiring that the most observable inputs be used when available. Observable inputs are those that market participants would use in pricing an asset or liability based on market data obtained from independent sources. Unobservable inputs reflect the Agency's assumptions about the inputs market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

The hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three levels, as follows:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Agency has the ability to access on the reporting date.

Level 2 – Inputs other than quoted market prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. If the asset or liability has a specific (contractual) term, a Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs that are unobservable for the asset or liability.

All of the Agency's cash and cash equivalents are considered level 1.

NOTE 6 – PROPERTY AND EQUIPMENT

The components of cost and the related accumulated depreciation comprising property and equipment as of September 30 are as follows:

	2014	2013
Moveable equipment	$ 944,379	$ 901,373
Furniture and equipment	55,827	55,827
	1,000,206	957,200
Less: accumulated depreciation	(955,304)	(943,652)
	$ 44,902	$ 13,548

Depreciation expense for property and equipment was $11,652 and $20,101 for the years ended September 30, 2014 and 2013, respectively.

NOTE 7 – PENSION PLAN

The Agency has a defined contribution pension plan covering substantially all employees who have satisfied certain eligibility requirements. As of January 1, 2011, management suspended the matching of employee contributions and no expense was recorded in the 2014 or 2013 statements of operations. It is uncertain when this match will be reinstituted.

NOTE 8 – TRANSACTIONS WITH AFFILIATES

The Agency has a management contract with the Corporation, which renews annually, unless withdrawn by either party. The cost for such services was $384,600 for each of the years ended September 30, 2014 and 2013. This expense is included in salaries expense in the statements of operations.

As of September 30, the amounts due (to) from affiliates was comprised of the following:

	2014	2013
Net amount due (to) from Johnson Memorial Hospital	$ (678,239)	$ 70,249

NOTE 9 – LEASE OBLIGATIONS

The Agency leases office space from an unaffiliated party in Enfield, Connecticut under a lease agreement. The lease commenced on December 1, 2011 and expires on November 30, 2016. The monthly rent is $8,301 per month under the agreement plus additional rent for the Agency's proportional share of building operating expenses. Rent expense under this lease was $140,762 and $149,233 for the years ended September 30, 2014 and 2013, respectively. As of September 30, 2014, future minimum lease payments for the aforementioned lease are as follows:

Fiscal Year	
2015	$ 99,612
2016	99,612
2017	16,602
	$ 215,826

NOTE 10 – DEBT

In September 2010, the Agency, along with several affiliates (the Borrowers), entered into a Revolving Loan and Security Agreement with a lender for an amount not to exceed the lesser of $8 million or the maximum borrowing base (85% of the book value of all eligible receivables). Under the original agreement, amounts outstanding bear interest at the 3 month LIBOR rate plus 4.25% payable monthly in arrears. In the event of a default, the agreement provides for an increase in the interest rate by up to 4%. The interest rate as of September 30, 2014 was 7.75%. The Agency has granted the lender a security interest in accounts receivable. The Agency is jointly and severally liable for the full payment of the debt under this agreement, including the debt of Johnson Memorial Hospital and Johnson Evergreen Corporation.

As of September 30, 2014, Johnson Memorial Hospital owed the lender $1,604,830 under the Loan and Security Agreement.

The Borrowers are subject to a number of covenants and restrictions under the Revolving Loan and Security Agreement. These include the following affirmative and negative covenants: provision of monthly, quarterly and annual financial information, adequate insurance coverage, notice of certain events and changes, change in ownership or management, restrictions on indebtedness and lease agreements, sale of assets, protection of collateral and financial covenants prepared on a consolidated basis for the Borrowers including cash flow and debt service coverage ratio requirements.

NOTE 10 – DEBT (CONTINUED)

In connection with the bankruptcy filing, on January 16, 2015, this lender entered into a debtor in possession loan agreement with the Borrowers which replaced the Revolving Loan and Security Agreement.

NOTE 11 – PROFESSIONAL, GENERAL LIABILITY AND WORKERS' COMPENSATION INSURANCE

For claims incurred through August 31, 2009, the Agency was self-insured for professional liability and general liability claims under a program which covered the Corporation's entire health system. The Corporation has an excess umbrella claims made policy for claims in excess of the Corporations' self-insured limits.

For claims incurred after August 31, 2009, the Corporation obtained a commercial claims made malpractice insurance policy with no deductible and coverage of $1,000,000 per claim and an annual aggregate of $3,000,000 for all of the entities covered under the policy including the Agency, the Corporation, the Hospital and a number of other affiliates (Insured Group).

The Corporation's independent actuary estimated the ultimate costs to settle claims that were incurred but not reported under its claims made insurance policy. Accrued losses have been discounted at 3%. As of September 30, 2014 and 2013, the Agency had accrued approximately $32,000 for the estimated claims that have been incurred but not reported for its professional liability and general liability insurance risks.

The Agency was also self-insured for workers' compensation claims through March 16, 2009 at which time it obtained commercial insurance. The Agency's workers' compensation policy had no deductible and policy limits of $1,000,000 per case with no aggregate limit for cases incurred by the Insured Group after March 16, 2009 through May 30, 2014. Effective May 31, 2014, the Insured Group obtained a new workers' compensation insurance policy that had a $250,000 deductible per claim and a $2,000,000 aggregate deductible. The policy provides for policy limits of $1,000,000 per case with no annual limit.

As of September 30, 2014, the Agency recorded a liability of $31,470 related to its estimated portion of the deductible for workers' compensation incidents that occurred between May 31, 2014 and September 30, 2014.

NOTE 12 – RESTRICTED ENDOWMENTS

The Agency's endowments consist of donor-restricted endowment funds. Net assets associated with endowment funds are classified and reported based on donor-imposed restrictions.

The Agency's Board of Directors has interpreted the Connecticut Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor restricted endowment funds, absent explicit donor stipulations to the contrary. As a result of this interpretation, the Agency classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and, if applicable, (c) accumulations to the permanent endowment made in accordance with the related gift's donor instructions. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Agency in a manner consistent with the standard for expenditure as proscribed by UPMIFA.

In accordance with UPMIFA, the Agency considers the following factors in making determinations to appropriate or accumulate donor-restricted endowment funds:

(1) The duration and preservation of the fund
(2) The purposes of the Agency and the donor-restricted endowment fund
(3) General economic conditions
(4) The possible effect of inflation and deflation
(5) The expected total return from income and the appreciation of investments
(6) Other resources of the Agency
(7) The investment policies of the Agency

ENDOWMENT FUNDS WITH DEFICIENCIES

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or UPMIFA requires the Agency to retain as a fund of perpetual duration. Deficiencies of this nature that were reported in unrestricted net assets were $8,047 and $7,680 as of September 30, 2014 and 2013, respectively.

NOTE 12 – RESTRICTED ENDOWMENTS (CONTINUED)

RETURN OBJECTIVES AND RISK PARAMETERS

The Agency's Board of Directors has adopted investment and spending policies that attempt to provide a predictable stream of funding to programs supported by its endowments while seeking to maintain the purchasing power of the endowment assets.

The Agency expects these endowment funds, over time, to provide an average rate of return that equals the rate of inflation annually. Actual returns in any given year may vary from this amount.

STRATEGIES EMPLOYED FOR ACHIEVING OBJECTIVES

To satisfy its long-term rate-of-return objectives, the Agency historically relied on a total return strategy in which investment returns were achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). During 2014 and 2013, the Agency's endowment funds were invested in cash and cash equivalents which placed reliance on interest earnings.

SPENDING POLICY AND HOW THE INVESTMENT OBJECTIVES RELATE TO THE SPENDING POLICY

The Agency has a policy of evaluating the spending decisions for each endowment fund based upon the intentions of the donors and specific contractual agreements. In determining the annual amount to be spent, the Agency considers the long-term expected return on its endowment. The spending policy is designed to limit spending to the expected long-term real rate of return. The annual distribution from the endowment funds is expected to be contained within a range of the trusts' market value that is consistent with the Agency's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term as well as to provide additional real growth through new gifts and investment return.

ENDOWMENT NET ASSET COMPOSITION BY TYPE OF FUND AS OF SEPTEMBER 30, 2014

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
Donor-restricted endowment funds	$ (8,047)	$ 23,434	$ 170,235	$ 185,622

NOTE 12 – RESTRICTED ENDOWMENTS (CONTINUED)

CHANGES IN ENDOWMENT NET ASSETS FOR THE YEAR ENDED SEPTEMBER 30, 2014

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
Endowment net assets, beginning balance	$ (7,680)	$ 24,459	$ 170,235	$ 187,014
Investment return:				
Investment income net of expenses	(367)	--	--	(367)
Total investment loss	(367)	--	--	(367)
Appropriation of endowment assets for expenditure	--	(1,025)	--	(1,025)
Endowment net assets, ending balance	$ (8,047)	$ 23,434	$ 170,235	$ 185,622

ENDOWMENT NET ASSET COMPOSITION BY TYPE OF FUND AS OF SEPTEMBER 30, 2013

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
Donor-restricted endowment funds	$ (7,680)	$ 24,459	$ 170,235	$ 187,014

CHANGES IN ENDOWMENT NET ASSETS FOR THE YEAR ENDED SEPTEMBER 30, 2013

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
Endowment net assets, beginning balance	$ (7,865)	$ 26,361	$ 170,235	$ 188,731
Investment return:				
Investment income net of expenses	185	148	--	333

Appropriation of endowment assets for expenditure	--	(2,050)	--	(2,050)
Endowment net assets, ending balance	$ (7,680)	$ 24,459	$ 170,235	$ 187,014

NOTE 12 – RESTRICTED ENDOWMENTS (CONTINUED)

Permanently restricted net assets at September 30, 2014 and 2013 are restricted amounts which are to be held in perpetuity, the income from which is expendable to provide scholarships, elderly care and for the general operations of the Agency. Investment losses of $342 and investment income of $185 on these endowment assets were included in investment income on the statements of operations for the years ended September 30, 2014 and 2013, respectively.

Temporarily restricted net assets are available to provide scholarships, elderly women's care and other items that subject to time restrictions.

Net assets were released from donor restrictions by incurring expenses which satisfied the restricted purposes in providing related services, free care, and various miscellaneous services in the amounts of $1,025 in 2014 and $2,050 in 2013, respectively.

NOTE 13 – TEMPORARILY AND PERMANENTLY RESTRICTED NET ASSETS

Temporarily restricted net assets as of September 30 are as follows:

	2014	2013
Scholarships	$ 8,937	$ 9,997
Indigent, elderly women's care	12,130	12,187
Subject to a time restriction	35,846	31,703
	$ 56,913	$ 53,887

Permanently restricted net assets as of September 30 are restricted in perpetuity, the income from which is expendable to support the following:

	2014	2013
Scholarships	$ 22,628	$ 22,628
Elderly assistance	40,261	40,261
Operations	107,346	107,346
	$ 170,235	$ 170,235

NOTE 14 – FUNCTIONAL EXPENSES

The Agency provides home health care and hospice service. Expenses related to providing these services for the years ended September 30 is as follows:

	2014	2013
Patient care services	$ 3,824,139	$ 4,056,397
General and administrative	2,071,910	2,398,545
	$ 5,896,049	$ 6,454,942

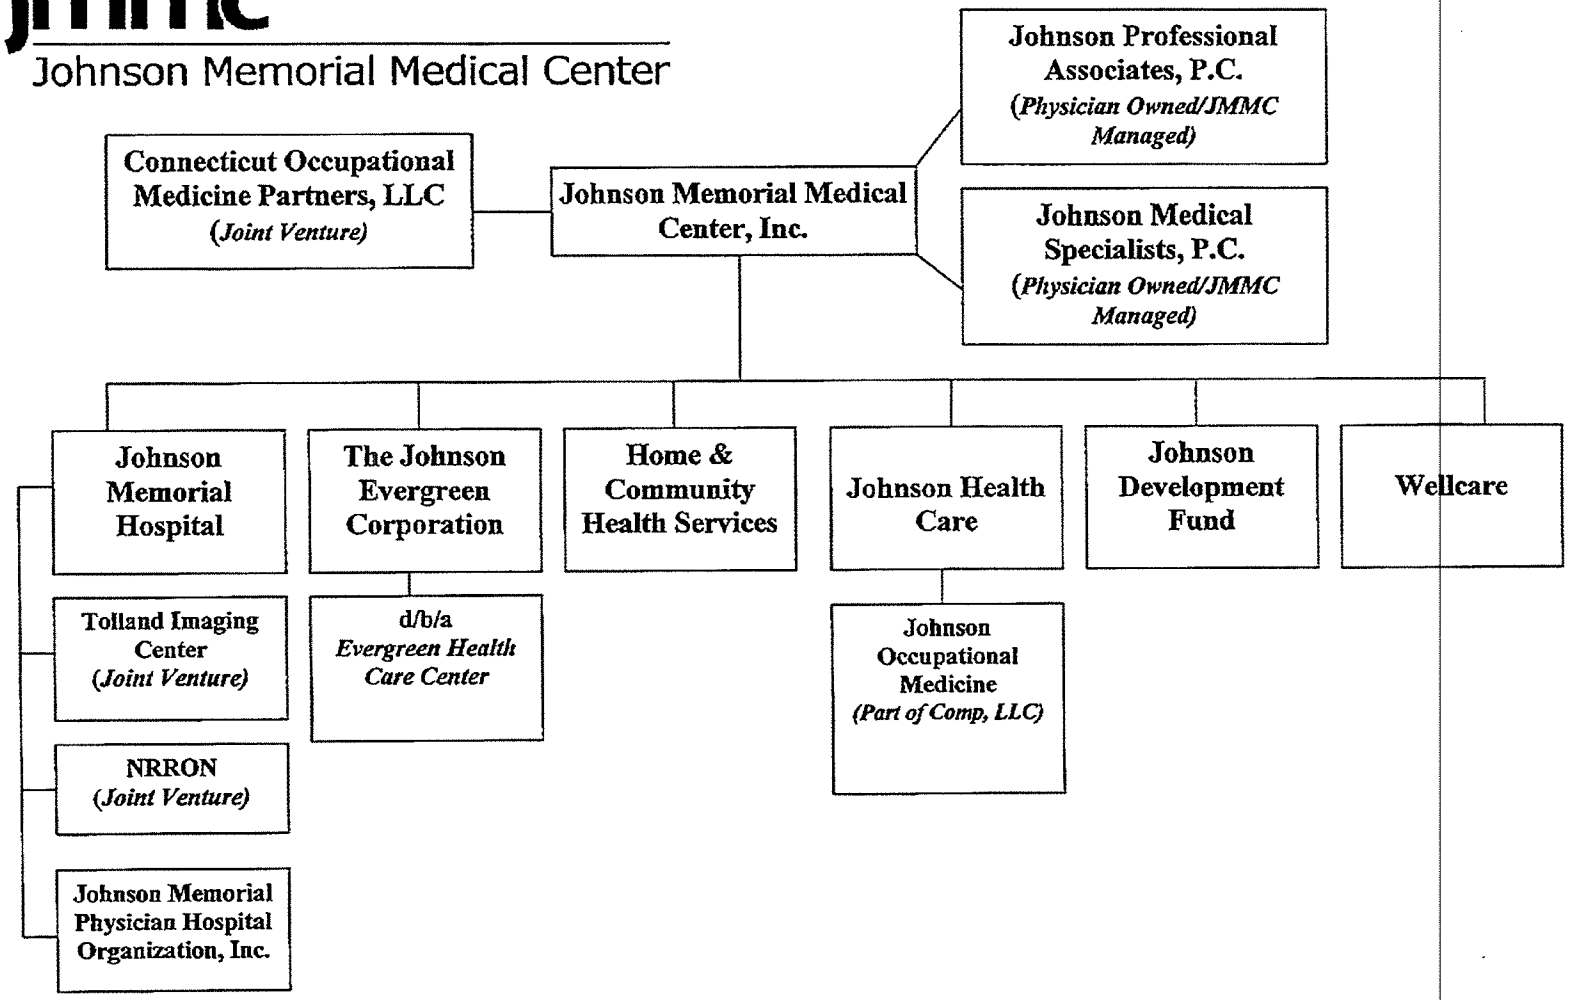
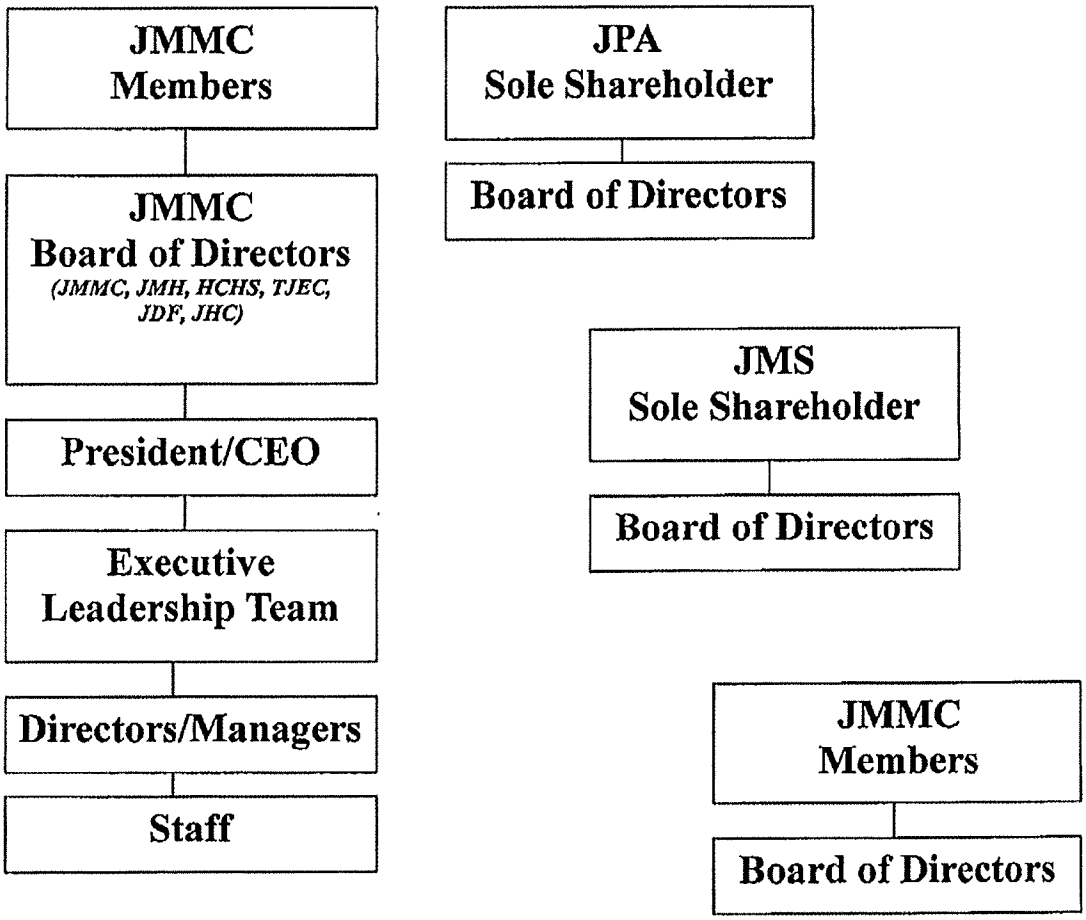
Johnson Memorial Medical Center



jmmc

Johnson Memorial Medical Center



List of Johnson's Joint Ventures/Partnerships/Equity Interests:

1. JMMC is the sole corporate member of JMH, JEC, Johnson Development Fund ("JDF"), Johnson Health Care, Inc. ("JHC") and H&CHS – all of which are Connecticut non-stock Corporations.

2. Dr. Ian Tucker, M.D., holds 100% of the outstanding common stock of Johnson Professional Associates, P.C. ("JPA") and Johnson Medical Specialists, P.C. ("JMS"). (JPA and JMS are each a Connecticut professional corporation) for the benefit of JMMC and JMH.

3. JMMC holds 5,000 shares of common stock in Wellcare, Inc. ("Wellcare") (a dormant Connecticut stock corporation with no assets).

4. JMH holds a 1.12% membership interest in Health Connecticut, LLC, a Connecticut limited liability company.

5. JMH holds a 4.34% membership interest in Connecticut Hospital Laboratory Network, LLC, a dormant Connecticut limited liability company with no assets.

6. JMH holds a 15% membership interest in Tolland Imaging Center, LLC ("TIC"), a Connecticut limited liability company. (other parties – Windham Hospital, Rockville General Hospital and Manchester Memorial Hospital).

7. JMH holds a 25% membership interest in Northeast Regional Radiation Oncology Network, Inc. ("NRRON"), a Connecticut non-stock corporation. (other parties: Hartford Hospital, Rockville General Hospital and Manchester Memorial Hospital).

8. Johnson Memorial Hospital Auxiliary, Inc., a Connecticut non-stock corporation, is a "supporting organization" of JMH as set forth in Section 509(a)(3) of the Code.

9. JMMC holds a 20% membership interest in Connecticut Occupational Medicine Partners, LLC, a Connecticut limited liability company. (other parties: ECHN, Western Connecticut Health Affiliates, Inc., Bristol Hospital and Health Care Group, Inc. and Saint Francis Care, Inc.)

A-4: Officers/Members/Directors: A list of all trustees, directors, officers, members and shareholders, as applicable and their occupations.

SAINT FRANCIS Care Policy	**Title:** **SELF PAY BILLING AND AR COLLECTION POLICY**		
☒ Saint Francis Hospital and Medical Center ☒ Mount Sinai Rehabilitation Hospital ☐ Saint Francis Medical Group, Inc. ☐ Saint Francis *Care* Medical Group, P.C. ☐ Asylum Hill Family Medicine Center, Inc. ☐ Saint Francis Behavioral Health Group, P.C.	**Proponent Department** Business Office	**Number** ADM 064	**Level** ☒ **System** ☐ **Division** ☐ **Department**
	Category ☒ **Administrative** ☐ **Clinical** ☐ **HR** ☐ **EOC**	**Published Date** 2/6/2014	**Review Cycle** ☐ 1 year ☒ 3 years

PURPOSE: It is the policy of Saint Francis Hospital & Medical Center that all patients who have received services and that have outstanding financial obligations are given fair and objective opportunities to satisfy these responsibilities. To that end, Saint Francis Hospital commits to the following: Patients/patient guarantors shall receive a summarized bill including but not limited to encounter specific information including dates of service, summarized charges, discounts, payments, adjustments and amounts owed.

- Patients/patient guarantors will be properly informed of the various options available to satisfy their outstanding financial obligation(s) including assistance through the Access Health CT, State of Connecticut's Medicaid Assistance Program as well as through St. Francis Hospital's internal financial assistance program, and recurring payment plan guidelines.
- Patients/patient guarantors will be given an appropriate amount of time (4 statements or 120 days) to respond to such notices of outstanding financial obligations.
- Patients/patient guarantors will be treated with respect and compassion in accordance with the Saint Francis Hospital & Medical Center mission.
- Return mail without other non-identified information is returned, the account may to collections before 120 days.

SCOPE:

This policy applies to the Business office and hospital staff

POLICY:

Self-Pay Billing: Execution of the self-pay billing cycle.

Primary self-pay balances, those balances for which there is no insurance coverage, or self pay balances after insurance has been processed, will receive a series of four statements when the account is released from billing.. Self-pay balances resulting from an insurance payment will receive a series of four statements beginning five days from the financial class change to self-pay.

- First, an account is generated and held for the appropriate min days which allows the charges to be associated with the patient encounter. After the min days are satisfied the account is moved from pre-receivable status to active accounts receivable status in the hospital's receivable system.
- Second, a statement displaying a summary of the total charges and the outstanding balance (after any discounts and recent payments have been applied) is generated and mailed to the patient through a contracted agent.
- Simultaneously a file containing the billed inventory is electronically transferred to a contracted self-pay customer service agent to initiate contact and work with patients for account resolution.

Each statement includes a specific message based upon the status and age of the account. The statement cycle can be reset to previously issued datamailer statements through one of two means: Business Office staff can manually reset the dunning cycle or a change in the encounter's financial class. The statement intervals are generated in 30 day intervals and the entire dunning cycle, assuming no interventions, lasts 120 days. All accounts which have an established recurring payment arrangement (payment plan) will receive an alternative self-pay dunning cycle. Payments on payment arrangements must

have consistent payment in accordance with the plan. If installment payments are missed the account is eligible for collection.

Self-pay A/R Management: Execution of Self-pay Collection Efforts

Collection efforts on self pay accounts are assigned to a contracted customer service agent from the day the account is ready for billing. The contracted agent receives daily billing files as self-pay claims are generated.

- Follow-up and collection activities will commence upon receipt of the referral.
- Accounts are run through a predictive dialer application/voice broadcasting system to establish initial contact with the patient/patient guarantor. Patients whose established phone number has a voice answering system are left pre-recorded messages indicating the nature of the call and requesting them to contact the St. Francis Billing & Customer Service Department at the appropriate toll-free number.
- All patients shall be made aware of the various financial assistance options available to them including but not limited to assistance through Access Health CT, the State of Connecticut's Medicaid Assistance program, as well as St. Francis' internal financial relief program and recurring payment plan guidelines.
- All efforts should be made to establish payment plans that resolve an outstanding balance within a reasonable time period. All accounts which have established a recurring payment arrangement in good standing consistent monthly payments for the agreed upon amount are exempt from any bad debt write-off protocols. Should an account become delinquent, a late notice is generated at 15 days a delinquency notice at 30 days past due. If a payment is not received within two months (60 days), a final notice is generated and the account will become eligible for bad debt by changing the financial class and written of at the end of the month.

Self-pay Write-offs: Execution of Bad Debt Write-off Protocols

- If a mutually agreed upon recurring arrangement is not establish or if the account is not resolved within the 120 day billing cycle, the account automatically becomes eligible for bad debt write-off. Automatic assignment is changed to reflect bad debt assignment of one of two contracted collection agent.
- A system generated write off report is run and sent to management and each collection agent to review.

Approval of bad debt accounts are as follows:

$5,000-$24,999 - Supervisor

$25,000-$49,999 - Manager

$50,000-$99,999 - Director of Patient Financial Services

>$100,000 - VP, Revenue Cycle

Upon completion of the report review the account is automatically written off to Bad Debt at the end of the month.

- The account balance is subsequently removed from the active accounts receivable and becomes part of the bad debt receivable. Any patient payments secured on this receivable are classified as recoveries to bad debt. Contracted agents will pursue recoveries of referred accounts for a period of 180 days and perform similar referral management and collection activities as described above.
- Any unpaid balance in bad debt with no activity for 180 days, will be returned to the hospital and get referred for secondary placement see **AAB & LEVIN BAD DEBT RETURNS TO EOS CCA PROCEDURE**

PURPOSE:

The purpose of this policy is to ensure a socially just practice for billing patients receiving care Saint Francis Hospital and Medical Center and Mount Sinai Rehabilitation Hospital. Financial Relief is a financial assistance program offered for the benefit of our uninsured or underinsured patients who are unable to pay for their care.

SCOPE:

This policy relates to all medically necessary inpatient, outpatient, clinic, and emergency department visits. **Excluded from this policy are cosmetic procedures, bariatric services and secured liens on liability cases.**

Application for Financial Relief

1. Application may be obtained from the appropriate hospital personnel: Financial Counselors, Collection Representatives, and Telephone Representatives.

2. The completed and signed application must be returned to the Business Office with the following requested documentation, in the return envelope provided:
    a. Family size - as reflected on prior year tax return; and
    b. Income verification – to include one of the following:
        i. Four most current pay stubs;
        ii. A letter from employer or government agency which verifies income and previous year's tax return; or
        iii. Active Medicaid eligibility screen print that indicates current full Medicaid coverage

    If any of the above required documents are not received the application will be pended for 30 days. A written notification will be sent to the applicant detailing the missing documentation. If not provided within 20 days the application will be denied.

3. An application for State Medical Assistance (Medicaid) must be completed for those patients with verified income below 100% of the poverty guidelines. If the patient is ineligible for Medicaid they will be offered hospital financial relief based on the Medicare allowed amounts.
    - If a patient is approved for Medicaid with no spenddown, the proof of eligibility determination from the Department of Social Services can be used as verification of their

income and be eligible for 100% financial assistance .

- If the balance on an account is the result of a spenddown the income guidelines will apply to determine eligibility. The Medicare allowed calculation will apply so the balance may not be eligible for financial assistance.

Effective 1/1/2014: Husky D patients will no longer be deemed eligible for a spend down. An application for assistance needs to be completed through Access Health CT during open enrollment.

4. Eligibility is determined on family size and current income.

   a. Income eligibility is based on the federal poverty guidelines. Patients with income levels **under 200%** of the federal poverty guidelines who are ineligible for State Medical Assistance will receive 100% financial relief.

   b. Patients with income levels between **200% to 250%** of the federal poverty guidelines who are ineligible for State Medical Assistance will be eligible for financial assistance based upon Medicare allowed amount. This may or may not provide a discount on the patient balance that is owed.

   Self Pay Patients with income over 250% of the federal poverty guidelines will not be eligible for financial assistance but may still receive a self pay discount if applicable.

Examples:

- **If an insurance payment (cash from insurance) is the same or greater than the Medicare allowed amount for the same service, there will be no patient responsibility. The patient balance will be adjusted 100% with the financial assistance code 97000039.**

- **If the insurance payment is less than the Medicare allowed amount, the patient is responsible to pay up to the Medicare allowed. Any amount over the Medicare allowed will be adjusted with the financial assistance code 97000039.**

- **Patients with health insurance who have medically necessary inpatient and outpatient services will be eligible to apply for financial assistance in the following instances:**

  - **Reached their maximum benefits**

  - **Entire procedure is non covered due to limitations of their policy or diagnosis**

- **Patients within the 200-250% of the federal poverty guidelines will be required to pay the Medicare allowed amount.**

- **Patients over 250% of the federal poverty guidelines will be granted the self pay discount.**

5. The Self Pay Manager and appropriate personnel determine eligibility within 30 days of receipt of a completed application.

6. Assessment for other free bed funding is completed as part of the financial assessment

ADJUSTMENTS GREATER THAN $5,000.00 ARE SUBJECT TO APPROVALS AS FOLLOWS:

<$4,999 - Customer Service Rep/Financial Counselor Team Leader
$5,000-$24,999 - Supervisor
$25,000-$49,999 - Manager
$50,000-$99,999 - Director of Patient Financial Services
>$100,000 - VP, Revenue Cycle
After obtaining approval, staff will apply adjustment.

To be Noted

- For all financial relief cases where the patient or spouse is self employed, the gross income will be used after the business expenses are deducted. This information is obtained from the "Profit and Loss Statement" or income reported on the 1040 or 1040A.
- Patients seeking financial relief who are under sponsorship of relatives are determined eligible if the sponsor provides the appropriate income/household documentation. Eligibility is determined on income.
- Cosmetic and Bariatric Procedures are excluded from Financial assistance
- Liability Cases that have secured liens are excluded from Financial Assistance
- Undocumented patients who are eligible for Medicaid Emergency Medical coverage (for their inpatient emergency account) are automatically eligible for financial assistance when proof of eligibility is determined from the Department of Social Services.

JOHNSON MEMORIAL MEDICAL CENTER

PATIENT ACCOUNTS DEPARTMENT

COLLECTION PROCESS FOR SELF PAY ACCOUNTS POLICY

I. POLICY:

It is the policy of the Patient Accounts Department to work with all patients/ guarantors to resolve in a reasonable and timely manner any balances owed to the Hospital.

II. APPLIES TO:

Patient Accounts Staff

III. PROCEDURE:

1. All self-pay accounts will receive a series of four statements, 30 days apart in an attempt to collect on an outstanding debt. Thirty days after the third statement, if no payment and/or communication are received from the patient, the patient is sent a final notice to collect prior to turn-over to an outside collection agency/attorney for collection. Thirty days after submission of the final notice, if there is no payment and/or communication from the patient, the account is then turned over to an outside agency for collection.

2. A self-pay account is any account in-which the patient is responsible for the outstanding balance. This may represent accounts with balances after a third party has paid and/or accounts with no third party payer.

3. Once an account is turned-over to an outside agency, the account is theirs to work.
    a. All patient communication must be referred to the agency.
    b. All notifications for bankruptcy and/or requests for settlement should be forwarded to the agency.
    c. Any changes made to an account which would impact the patient liability needs to be communicated to the agency.
    d. All payments and adjustments made to accounts in Bad Debt are reported to the agency weekly.
    e. Establishing a payment plan after the account has gone to Bad Debt is not reason to recall the account. The patient must be referred to the agency to establish the payment plan.

4. Once the agency has accepted our accounts and commenced working them, any accounts to be recalled from an agency must have management approval.
    a. To recall an account from the agency, notification MUST be made to the agency via fax or e-mail. Notification may also be made via telephone, however, a fax or e-mail provides us with better record of the recall.

b. Once notification is made, a comment must be put on the patient's account and the account status changed to appropriately reflect the recall.

5. If we receive payment or confirmation of coverage via third party on an account that has been turned over to an agency within ten (10) days from turnover, we can recall the account from the agency. We will also recall accounts that have been sent in error regardless of time with agency. All other request will require management approval.

6. While the account is in Bad Debt, we have the ability to bill a third party without removing the account from Bad Debt. These accounts are still considered to be with the bad debt agency

JOHNSON MEMORIAL MEDICAL CENTER

PATIENT ACCOUNTS DEPARTMENT

FINANCIAL ASSISTANCE POLICY

I. POLICY:

Johnson Memorial Hospital recognizes that there are times when patients in need of medical care will have difficulty paying for the services provided. Johnson Memorial Hospital's Financial Assistance Program provides discounts to qualifying individuals based on their income and assets.

II. APPLIES TO:

Patient Accounts Staff

III. PROCEDURE:

1. In accordance with the Patient Protection and Affordable Care Act of 2010, the hospital will not charge gross charges when billing individuals who qualify for financial assistance. Instead, the hospital will charge no more than the best (or on average of the three best-negotiated commercial or Medicare) rates charged to individuals who have insurance covering such care. All persons unable to pay; or are unable to pay in full for hospital services, may apply for Financial Assistance. In addition, all self-pay patients may receive a 25% discount from charges if paid within 30-days of initial billing.

2. As an additional service to patients, the hospital offers assistance applying for State and Federal programs that may help pay medical bills for uninsured or underinsured patients. This assistance is provided by the Entitlement Specialist and/or by the Patient Accounting Customer Service representatives.

3. Financial Assistance is available for patients with limited incomes and no health insurance or underinsured. Underinsured patients are those who have a deductible* of at least $250.00 regardless of the type of insurance (i.e. private insurance, group insurance, State insurance). *Includes State Spend-down. Everyone who needs emergency services can receive care and get a discount if they meet the income limits provided they applied for State insurance and received a denial letter. Everyone can get a discount on non-emergency, medically necessary services at if they meet the income limits provided they applied for State insurance and received a denial letter. To receive financial assistance, applicant must be a legal resident.

4. All patients with income at or below 250% of the Federal Poverty Guidelines will be approved at 100% discount.

5. All patients with income between 251 % -400% of the Federal Poverty Guidelines will be approved at a 50% discount. Remaining balance up to $1,000 may be paid within 12 months. Remaining balance from $1,001 up may be paid within 24 months or more depending of the total remaining balance.

6. State insurance denial letter will not be necessary if it is determined that applicant will not qualify for State insurance (not US citizen, no SS#, visiting visa, etc).

7. Self pay accounts will not be moved to "Bad Debt" status because State insurance may take from 45 to 60 days to make a determination. While waiting for State insurance determination ROI will not send letters to self-pay accounts either.

After approval of the above new policies/changes a full policy and procedure will be developed.

JOHNSON MEMORIAL MEDICAL CENTER

PATIENT ACCOUNTS DEPARTMENT

FINANCIAL ASSISTANCE APPLICATION POLICY

I. POLICY:

Johnson Memorial Hospital (JMH) recognizes that there are times when patients in need of medical care will have difficulty paying for services provided. JMH's financial assistance program may provide discounts to qualifying individuals based on their income and assets.

II. APPLIES TO:

Patient Accounting Department, Customer Service Representative

III. PROCEDURE:

1. Applications for financial assistance are available upon request. Eligibility is based on the 2014 U.S. Department of Health and Human Services Income Guidelines as shown below:

2015 FINANCIAL ASSISTANCE GUIDELINES

Free Care Standard Size of Family	Federal Poverty Level 100% Assistance Maximum	200% Poverty Federal Poverty Level 100% Assistance Maximum	250% Poverty Federal Poverty Level 75% Assistance Maximum	300% Poverty Federal Poverty Level 50% Assistance Maximum	400% Poverty Federal Poverty Level 25% Assistance Maximum
1	$11,770.	$23,540	$29,425	$35,310	$47,080
2	$15,930	$31,860	$39,825	$47,790	$63,720
3	$20,090	$40,180	$50,225	$60,270	$80,360
4	$24,250	$48,500	$60,625	$72,750	$97,000
5	$28,410	$56,820	$71,025	$85,230	$113,640
6	$32,570	$65,140	$81,425	$97,710	$130,280
7	$36,730	$73,460	$91,825	$110,190	$146,920
8	$40,890	$81,780	$102,225	$122,670	$163,560
For each additional person, add	$4,160	$8,320	$10,400	$12,480	$16,640

2. Financial assistance is available for patients with limited incomes and no health insurance or underinsured. Underinsured patients are those who have a

deductible or combined outstanding balances of at least $500.00 regardless of the type of insurance including State insurance spend-down benefit.

3. All persons unable to payor unable to pay in full for hospital services, may apply for Financial Assistance but must be US citizens of legal aliens. In addition, all self-pay patients may receive a 25% discount from charges if paid within 30-days of initial billing.

4. When requested by a patient, the customer service representative will mail a . Financial Assistance Application (FAA).

5. The FAA will be mailed back to JMH with all the required documentation including but not limited to:
    a. Copy of determination letter from the Department of Social Services (DSS) **(mandatory,** exception: DSS letter will not be necessary if it is determined that applicant will not qualify for State medical assistance or if the bill is more than 3 months old.
    b. **Four** recent employer pay stubs for patient and any dependents or four recent unemployment stubs.
    c. Copy of previous year's 1040-tax form. If requesting financial assistance between the months of January to April the 1040-tax form from 2 years prior may be accepted if no taxes have been filed from previous year.
    d. Proof of alimony, child support, and/or divorce decree.
    e. Proof of estate, dividends, allotments, tips, social security, retirement pension slips, workers compensation or strike benefits, net winning income, royalties, annuity income, welfare benefits or general assistance benefits.
    f. If self-employed, receipts from unincorporated business, professional enterprise, or partnership after deductions for business expenses. If requesting financial assistance between the months of January to April the 1040-tax form from 2 years prior may be accepted if no taxes have been filed from previous year. Also include schedule K-l (1120).
    g. If the hospital charges occurred under part or third party liability suit, please disclose this information.
    h. If none of the above proof-of-income applies, please provide a detailed letter explaining the means of support for you, your family or household unit.

6. Written determination will be made within 30 days after submission of a completed application.

December 16, 2014

Mr. Stuart Rosenberg, President & CEO
Johnson Memorial Hospital
201 Chestnut Hill Road
Stafford Springs, CT 06076

Re: CMS Certification Number (CCN): 070008
Survey ID: 16S612, 11/25/2014
Survey ID: VYHC12, 11/25/2014
Survey ID: VYHC22, 11/24/2014
Survey ID: M4GI12, 11/25/2014

Dear Mr. Rosenberg:

I am pleased to inform you that as a result of the revisit survey conducted on November 25, 2014 by the State of Connecticut Department of Public Health (State Survey Agency), Johnson Memorial Hospital was found to be in substantial compliance with the Medicare Conditions of Participation for Hospitals at 42 CFR Part 482.

Your planned termination from the Medicare program on February 1, 2015 is rescinded and will not be put into effect. In addition, based upon this determination, your hospital is returned to "Deemed" status based upon its accreditation by The Joint Commission (TJC). Your hospital is no longer under State Survey Agency jurisdiction.

The State of Connecticut Department of Public Health advised you of the Medicare deficiencies noted during the revisit survey of your hospital, and we are enclosing a complete listing of all deficiencies. Since your hospital has been found to be "in compliance," you do not have to submit a plan for correcting any of the Medicare deficiencies cited. However, you should be aware that copies of the Form CMS-2567 and subsequent plans of correction are releasable to the public upon request in accordance with the provisions of Section 1864(a) of the Act and the Secretary's regulation set forth at 42 CFR §401.133(a) and (b). You may, therefore, wish to submit for public disclosure, if you have not already done so, your comments on the survey findings, and any plans you may have for correcting the cited deficiencies.

We thank you for your cooperation and look forward to working with you on a continuing basis in the administration of the Medicare program.

Sincerely,

Kathy Mackin

Kathy Mackin, Health Insurance Specialist

{A 501}	Continued From page 1 compounding rooms on 11/24/14 during the period of 10:25 AM and 3:00 PM with the Acting Pharmacy Director and Representative from the Quality Department identified the following concerns: a. Technician #11 compounding in the biological safety cabinet (BSC) was observed wearing a necklace, although policy directs that no jewelry can be worn upon entry into the ante room. b. Technician #11 was observed placing the overwrap from the sterile gloves on the air vent throughout the compounding process obstructing the air vents. c. Technician #11 working in the BSC, was observed to finish compounding a chemotherapy agent, reach into the Laminar Flow work bench (LAFW) to obtain vial seals without changing any Personal Protective equipment (PPE) including the gloves. This was observed on multiple occasions. d. Technician #10 failed to clean the (BSC) before starting a batch preparation. e. During compounding, Technician #10 was seen stacking all the overwraps from gloves, needles, syringes and other supplies against the back wall of the BSC obstructing the air vents. f. Observed alcohol swabs and needle left in an unused LAFW from previous compounding activities. No explanation could be provided for this practice. g. In the Ante area, dust and construction debris was observed on the coving ledge under the new	{A 501}

{A 501}	Continued From page 2 sink that was installed around 9/26/14 (2 months prior to this inspection). Facility policy directs that any horizontal surface must be cleaned daily. h. Observed yellow material on the left side of the LAFW including in the channel where the side partition sits. Using a sterile alcohol pad, parts of the yellow material could be easily removed. Interview with Pharmacy staff stated this substance was not from mixing on that day. Facility policy directs that this area should be cleaned daily. i. Near the door of the Ante area from the main pharmacy, uneven caulking was visualized around the interface between the new door frame and the old door frame. Streaks of caulking was observed on the grid over the HEPA filter in the buffer area. Large beaded caulking was observed behind the BSC at the juncture of ceiling and wall and excess caulking was noted on the areas of the grid holding the ceiling tiles in place and around the duct work used for venting the BSC. This created non-smooth surfaces rendering proper cleaning difficult and creating a potential for dirt to gather. j. Observed abrasions on two ceiling tiles in the buffer area which removed the top layer and exposed the material underneath rendering an inability to properly cleanse the surface. During interview on 11/25/14 at 2:50 PM, the ICN (infection control nurse) stated that while surveillance rounds continued within all parts of the inpatient and outpatient areas of the hospital, the pharmacy had not been surveyed until 11/25/14, for a preplanned visit. Review of the	{A 501}

Mr. Stuart Rosenberg, President & CEO
Johnson Memorial Hospital
201 Chestnut Hill Rd
Stafford Springs, CT 06076-0860

Re: CMS Certification Number (CCN): 070008
Survey ID: BSFK12, 03/11/2015

Dear Mr. Rosenberg:

On March 11, 2015, the State of Connecticut Department of Public Health conducted a survey and determined that your hospital is in compliance with the Medicare Conditions of Participation for Hospitals at 42 C.F.R. Part 482.

Your planned termination from the Medicare program on May 26, 2015 has been rescinded. Based upon this determination, your hospital is returned to "Deemed" status based upon its accreditation by The Joint Commission (TJC). Your hospital is no longer under State Survey Agency jurisdiction.

We thank you for your cooperation and look forward to working with you on a continuing basis in the administration of the Medicare program.

Sincerely,

Kathy Mackin, Health Insurance Specialist
Survey Branch

December 31, 2013

Mr. Stuart E. Rosenberg, President/CEO
Johnson Memorial Hospital
201 Chestnut Hill Road
Stafford Springs, CT 06070

Dear Mr. Rosenberg:

Unannounced visits were made to Johnson Memorial Hospital concluding on October 31, 2013 by representatives of the Facility Licensing and Investigations Section of the Department of Public Health for the purpose of conducting multiple investigations.

Attached are the violations of the Regulations of Connecticut State Agencies and/or General Statutes of Connecticut which were noted during the course of the visits. The state violations cannot be edited by the provider in any way.

You may wish to dispute the violations and you may be provided with the opportunity to be heard. If the violations are not responded to by January 14, 2014 or if a request for a meeting is not made by the stipulated date, the violations shall be deemed admitted.

Please address each violation with a prospective plan of correction which includes the following components:

1. Measures to prevent the recurrence of the identified violation, (e.g., policy/procedure, inservice program, repairs, etc.).

2. Date corrective measure will be effected.

3. Identify the staff member, by title, who has been designated the responsibility for monitoring the individual plan of correction submitted for each violation.

We do not anticipate making any practitioner referrals at this time.

If there are any questions, please do not hesitate to contact this office at (860) 509-7400.

Respectfully,

Susan H. Newton, R.N.
Supervising Nurse Consultant
Facility Licensing and Investigations Section

Complaints #15131, #15157, #15793, #14672 and #16014

The following is a violation of the Regulation of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) and/or (c) Medical staff (2) (B) and/or (d) Medical records (2) and/or (e) Nursing service (1).

1. Based on a review of clinical records, interviews and review of hospital policies, for two of three patients (Patients #12 and 13) that had procedures, the hospital failed to ensure the history and physical was comprehensive and/or that intravenous fluids were administered based on a physician's order. The findings include:
    a. Patient #12 was admitted on 10/28/13 at 6:40 A.M. for an upper endoscopy procedure. Interview and review of the clinical record with RN #1, on 10/28/13 at 11:05 A.M., identified that the history and physical failed to contain information regarding past medical and surgical history, pertinent laboratory results and/or current medication regime. Further review of the record with RN #1 identified that post procedure the patient received a continuous intravenous infusion of Lactated Ringers solution absent a physician's order.
    b. Patient #13 was admitted on 10/25/13 at 2:10 P.M. for an upper endoscopy procedure. Interview and review of the clinical record with RN #1, on 10/28/13 at 11:05 A.M., identified that the history and physical failed to contain information regarding past medical and surgical history, pertinent laboratory results and/or current medication regime. Further review of the record with RN #1 identified that post procedure the patient received a continuous intravenous infusion of Lactated Ringers solution absent a physician's order.
    Review of the Medical Staff By-Laws, dated 5/1/13, identified that a comprehensive history and physical includes history of present illness, special reports such as laboratory results.
    Hospital policy and procedure, titled Hospital Wide System for Medication Administration, identified that a physician and/or medical provider order is required in order to administer a medication.

The following is a violation of the Regulation of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) and/or (i) General (6).

2. Based on interviews, review of documentation and hospital policies, the hospital failed to ensure that employees were informed and/or educated regarding Advanced Directives and/or informed two of four patients (Patients #20 and 21) about Advanced Directives and/or documented if the patient (Patients #21 and #10) had executed Advanced Directives. The findings include:
    a. During a tour of the Operating Room and Same Day Surgery areas, on 10/28/13 from 10:00 A.M. to 11:40 A.M., an interview with Registration Staff #1 identified that s/he was not aware of the types of Advanced Directives and/or when he/she needs to ask the patient and/or responsible party if he/she has executed Advanced Directives.
    b. Review of Patient #20's record during a tour of the off-site Wound Center on 10/29/13 identified that the patient completed a medical history document that reflected in the

case of an emergency, s/he did not want to be resuscitated. Record review and interview with Nurse Site Director and Secretary #3 failed to reflect that any staff and/or medical providers had provided the patient with information on Advanced Directives and/or assisted the patient to complete Advanced Directives to communicate this specific directive.

c. Patient #10 was admitted to the psychiatric unit on 10/28/13 with a diagnosis of alcohol dependence. Review of the Patient's Advanced Directive information, worksheet and/or patient assessment, with the Psychiatric Nursing Director on 10/28/13 noted that the advanced directive worksheet was blank. The review and interview further indicated that although the nurse documented that the patient had not executed advanced directives, the nurse should have documented whether or not the patient would like an advanced directive information packet and had not done so. The facility advanced directive policy identified that every patient over the age of 18 will be asked by the registration clerk whether or not they have executed advanced directives. The policy further identified that if the patient is incapacitated at the time of admission, nursing staff is to provide such information to the patient when the patient is able to receive it.

Review of the hospital policy and procedure, titled Patients Rights and Responsibilities, identified that each patient has the right to formulate Advanced Directives and expect the hospital staff and practitioners comply with your directives.
Review of the hospital policy and procedure, titled Advance Directives and/or Withdrawal of Life Support Systems, identified that on admission the registration staff will inquire whether or not the patient has executed an Advanced Directive although the policy identified only two of the four types of Advance Directives. In addition, the policy identified that the nursing staff, social services and physician will provide education to the patient and/or representative when needed.
Review of the document, titled Your Rights to Make Health Care Decisions authored by the Office of the Attorney General 2011, identified that Advanced Directives include Health Care Representative, Conservator, Living Will and Anatomical Gift.

The following is a violation of the Regulation of Connecticut State Agencies Section 19-13-D3 (b) Administration (2).

3. Based on observation, interview and review of hospital policy, the hospital failed to ensure that the posted telephone number in order to file a grievance with the State of Connecticut Department of Public Health was accurate. The finding includes:
    a. During a tour of the off-site Chemical Dependency Unit with Nurse Director #1 on 10/28/13, it was identified that the posted telephone number for the State of Connecticut Department of Public Health was not accurate. Review of the hospital policy and procedure, titled Patients Rights and Responsibilities, identified that each patient has the right to file a grievance about care and services provided with the State Regulatory Agency.

The following is a violation of the Regulation of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) and/or (f) Diagnostic and therapeutic facilities and/or (i) General (6).

4. Based on observation, interview and review of hospital policies and procedures, the hospital failed to ensure that the hydrocollator was maintained within acceptable temperature ranges and/or that documentation reflected that the hydrocollator unit was cleaned in accordance with policy and procedure. The finding includes:
    a. During a tour of the off-site Physical Therapy area with the Physical Therapy Manager on 10/28/13 from 2:55 P.M. to 3:20 P.M., documentation for the month of October 2013 reflected for nineteen of the twenty days, temperatures recorded for the hydrocollator unit ranged between 172 to 174 degrees Fahrenheit. The Physical Therapy Manager stated that the acceptable range was 150 to 170 degrees Fahrenheit and that the unit temperature could not be adjusted. Additionally, the Manager stated that although the hydrocollator unit was cleaned on a routine basis, the Manager was unable to provide documentation of the cleaning schedule.
    Review of the hospital policy and procedure, titled Hot Packs, identified that the hydrocollator unit temperature acceptable range is 150 to 170 degrees Fahrenheit. A second policy and procedure, titled Cleaning of Hydrocollator, identified that the hydrocollator unit will be cleaned on a monthly basis.

The following is a violation of the Regulation of Connecticut State Agencies Section 19-13-D3 (b) Administration (2).

5. Based on observation and interviews, the hospital failed to have a Clinical Laboratory Improvement Amendment (CLIA) waiver in place for laboratory tests that are completed in the off-site Wound Center. The finding includes:
    a. During a tour of the off-site Wound Center, on 10/29/13 from 8:00 A.M. to 8:55 A.M., and interview with the Nurse Site Director and Secretary #3 identified that facility staff complete blood glucose tests and the Wound Center did not have a CLIA waiver in place. In addition interview with hospital laboratory Staff #1, on 10/29/13 during the tour, identified that the Wound Center did not require a CLIA waiver.

The following is a violation of the Regulation of Connecticut State Agencies Section 19-13-D3 (b)Administration (2) and/or (f) Diagnostic and therapeutic facilities and/or (i) General (6).

6. Based on observation, interviews and review of hospital policy and procedure, the hospital failed to ensure that patient health protected information was secured. The finding includes:
    a. During a tour of the off-site Infusion Center on 10/29/13 from 9:03 A.M. to 9:40 A.M., with the Administrative Director and Pharmacist #1, patient records were observed to be stored. Interview with the Administrative Director and Pharmacist #1 failed to identify the mechanism in place that assured the patient records were secure after hours when the cleaning company had access to the patient records.
    Review of the hospital policy and procedure, titled Patients Rights and Responsibilities, identified that each patient has the right to confidential treatment of health protected

information.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2), and/or (d) Medical records (3), and/or (e) Nursing service (1), and/or (i) General (6).

7. Based on review of clinical records, review of hospital policy and interviews for two of three patients who were admitted with alcohol intoxication (Patients #10, and #23) the facility failed to ensure that the patient was assessed for alcohol withdrawal in accordance with facility policy and/or for Patient #5, that withdrawal symptoms were treated. The findings include:
    a. Patient #10 was admitted to the psychiatric unit on 10/28/13 with a diagnosis that included alcohol dependence. The physician orders dated 10/28/13 directed vital signs as per the Clinical Institute Withdrawal Assessment (CIWA)/alcohol detox protocol. The physician orders also directed Ativan 2 milligrams every hour as needed for CIWA score of 10 or greater. The patient's CIWA score on the psychiatric unit dated 10/28/13 was "12" at 6:55 PM, Ativan was administered as ordered and the patient was not reassessed until 9:50 PM (almost 3 hours later) with a score of "3". Review of the Patient's record and interview with the Psychiatric Nursing Director on 10/28/13 at 11:30 AM noted that a patient with a CIWA score of greater or equal to 10 should be reassessed in one hour. The CIWA policy/protocol identified to begin patient assessment using the CIWA scale at least once every hour and assess every four hours for a CIWA score of less than 10.
    b. Patient #23 was admitted to the ED on 2/15/13 at 9:59 AM with a diagnosis of generalized overdose and alcohol and Xanax use. Laboratory results dated 2/15/13 identified that the patient's urine was positive for Benzodiazepine (Xanax) and blood alcohol level was 132 milligrams/diluent (reference range = 0-1 mg/dl). Physician notes indicated that the patient was very somnolent at 10:09 AM on 2/15/13 and approximately 15 hours later was more awake with complaints of nausea and headache at 3:31 AM on 2/16/13. Observation sheets noted that the patient was restless, agitated on 2/15/13 at 8:00 PM, 11:00 PM, 12:00 AM and on 2/16/13 at 3:00 AM. Physician notes and/or medication documentation dated 2/16/13 identified that the patient became physically aggressive, punched staff at 7:32 AM required restraints and sedating medications were administered at 7:47 AM and 9:28 AM. Nursing narratives dated 2/16/13 indicated that the patient contracted for safety, restraints were removed at 10:10 AM and the patient was placed back in restraints at 10:47 AM after striking a State police officer. The patient was subsequently arrested by the State Police. Nursing narratives dated 2/16/13 at 5:12 PM identified that MD #4 (psychiatrist) assessed the patient and believed the patient was experiencing alcohol withdrawal symptoms and had been under- medicated. Physician orders dated 2/16/13 at 7:30 PM directed CIWA per protocol. In addition, constant observation sheets dated 2/16/13 noted that the patient was in 4- point restraints, was climbing out of bed and was agitated, restless and hostile

at 10:47 AM, 11:00 AM and 12:00 PM. Progress notes by MD #5 dated 2/16/13 at 12:06 PM identified that Patient #23 continued to fight the restraints and will give additional medication. Although the constant observation sheets indicated that the patient exhibited the same behavior at 1:00 PM, review of the patient's record with the Psychiatric Nursing Director on 10/31/13 at 2:30 PM lacked documentation that additional medications were ordered and/or administered. Interview with the Chairman of Emergency Services on 10/30/10 at 11:20 AM noted that sedating medication for a patient admitted with both Benzodiazepine and alcohol overdose would be administered on an as needed basis to treat agitation. The facility CIWA policy/protocol identified that the purpose of the policy was to prevent alcohol withdrawal symptoms and once a patient is determined/screened and found to have alcohol dependence, the CIWA guidelines will be initiated. The policy further noted that the physician will initiate the protocol for management form and the RN will initiate the CIWA Guidelines form that included, in part, hourly assessments for alcohol withdrawal.

c. Patient #5 was admitted to the ED on 2/7/13 at 7:56 AM for Ambien addiction and initial blood alcohol level was 2mg/dl (reference range = 0-1mg/dl) although the patient denied drinking. ED physician history and physical dated 2/7/13 identified that the patient was alert, oriented and cooperative. Physician orders dated 2/7/13 at 10:02 AM directed to place the CIWA protocol on hold will try one dose of Ativan and Ativan 2 mg intravenous push was ordered and later administered at 11:21 AM. Nursing documentation of CIWA guidelines dated 2/7/13 indicated a score of "0" at 10:15 AM and 1:00 PM. The crisis consultation assessment dated 2/7/13 at 2:00 PM noted that the patient was slightly agitated and incorrectly identified that the patient's alcohol dependence was in early remission despite the patient's positive blood alcohol report. Patient #5 was voluntarily admitted to the psychiatric unit on 2/7/13 at 6:15 PM with a diagnosis of polysubstance/Ambien abuse. Patient #5's history and physical dated 2/7/13 at approximately 7:00 PM indicated that the patient had withdrawal sweats, was slightly anxious and plan included Ativan 1mg by mouth now and await further orders from the psychiatrist. Nursing narratives dated 2/7/13 identified that the patient was angry and upset at times during the admission process, refused the Ativan ordered by the hospitalist, and the psychiatrist was made aware. Nursing CIWA guideline documentation on the psychiatric unit for Patient #5 and/or interventions to monitor/reduce the patient's anxiety could not be provided. CIWA protocol orders and/or additional orders to prevent/treat the patient's withdrawal symptoms and/or anxiety following the patient's refusal of oral Ativan were not documented. Patient #5's nursing narratives and/or the facility adverse event reports dated 2/7/13 noted that, without warning, Patient #5 physically assaulted Patient #6, the patient received sedative medication and that Patient #5 reported having had auditory hallucinations. The facility CIWA policy/protocol identified that the purpose of the policy was to prevent alcohol withdrawal symptoms and once a patient is determined/screened and found to have

alcohol dependence, the CIWA guidelines will be initiated. The policy further noted that the physician will initiate the protocol for management form and the RN will initiate the CIWA Guidelines form that included, in part, hourly assessments for alcohol withdrawal. The facility multidisciplinary care plan policy directed that each member of the team assess the needs of the patient and implement a plan to meet those needs.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) (3), and/or (d) Medical records (3), and/or (e) Nursing service (1), and/or (i) General (6).

8. Based on a tour of the psychiatric unit, review of hospital documentation/ hospital practice and staff interviews the facility failed to ensure that patient treatment groups were conducted as per past practice and/or posted. The finding includes.
    a. A tour of the psychiatric unit was conducted on 10/29/13 with the Psychiatric Nursing Director. Census information noted that there were 15 patients on the psychiatric unit. Observations on 10/29/13 at 11:00 AM identified that the white board on the wall of the unit utilized to post group schedules was blank and the majority of the patients were in a group session. Interview with the Staff nurse and/or the Psychiatric Nursing Director on 10/29/13 at 11:00 AM indicated that they were unaware of the group schedule for the day and that the Occupational Therapist (OT) should have posted the schedule on the board. Review of the weekly group schedule and further interview with the Psychiatric Nursing Director on 10/29/13 at 11:15 AM noted that two groups were conducted on the day shift by the OT Monday through Friday and groups were not scheduled on weekends. He/she further indicated that four additional patient groups were once conducted on the day and evening shifts by mental health workers (MHW) and because seasoned MHW were required to train the (3) new MHW, the groups are conducted sporadically until staff is trained.

The following is a violation of the Regulation of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) and/or (c) Medical Staff (2) and/or (d) Medical records (3) and/or (e) Nursing Services (1) and/or (i) General (6).

9. Based on review of clinical records, review of hospital policy and interviews for two of five patients who were admitted to the psychiatric in- patient unit (Patients #5, and #6) the facility failed to ensure the patients' right to receive treatment in a safe environment and/or document whether or not the patient was given the choice to notify law enforcement authorities following an assault. The finding includes:
    a. Patient #6 had a diagnosis of bipolar disorder, Patient #7 had a diagnosis of schizoaffective disorder and both patients resided on the psychiatric unit on 2/7/13. Patient #5 was voluntarily admitted to the psychiatric unit on 2/7/13 at 6:15 PM with a diagnosis of polysubstance abuse, Ambien detoxification and had an initial blood alcohol level of 2mg/dl (reference range = 0-1mg/dl). Patient #5's history and physical dated 2/7/13 indicated that the patient had withdrawal sweats, was slightly anxious and

plan included Ativan 1.0 mg by mouth now and await further orders from the psychiatrist. Nursing narratives dated 2/7/13 identified that the patient was angry and upset at times during the admission process, refused the Ativan ordered by the hospitalist, the psychiatrist was made aware and a revised plan to address the patient's symptoms was not documented. Patient #5's nursing narratives and/or the facility adverse event reports dated 2/7/13 noted that, without warning, Patient #5 choked and threatened to kill Patient #6 and as staff intervened, Patient #5 was punched and kicked by Patient #7. Subsequent to the event, hospitalist progress notes dated 2/7/13 and/or x-ray reports dated 2/8/13 for Patients #5 and #6 indicated that Patient #5 complained of left ankle pain and sustained a bruise and small hematoma to the right side of the face, Patient #6 complained of eye, jaw and neck pain, x-rays for Patients #5 and #6 were negative for fractures and Patient #7 denied new injuries/pain. Although Patient #5 was placed on close observation and received sedative medication immediately following the event, nursing narratives for Patient #6 identified that Patient #6 required a lot of emotional support and reassurance from staff, was extremely upset and barricaded his/her bedroom door on 2/8/13. Patient #5's medication administration record dated 2/8/13 and 2/9/13 noted that the patient required intermittent Motrin and the application of ice for complaints of pain. The facility policy for patient rights and responsibilities identified that the patient had the right to receive care in a safe environment and be free from all forms of abuse.

In addition, the follow- up documentation for the 2/7/13 adverse events questioned if the local law enforcement agency was contacted subsequent to the event and if any charges had been pressed. Review of Patient #5's, #6's and #7's record with the Psychiatric Nursing Director on 10/31/13 at 2:30 PM noted that the records lacked documentation that Patients #5 or #6 were afforded the option to notify local enforcement authorities. Although the facility did not have an in- patient policy that directed police notification following an assault, interview with the Chairman of Emergency Services on 10/30/13 at 11:20 AM indicated that anyone who is assaulted has the right to call police.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2), and/or (d) Medical records (3), and/or (e) Nursing service (1), and/or (i) General (6).

10. Based on review of clinical records, review of hospital policy and interviews with hospital personnel for 1 of 3 patients (Patient #8), documentation failed to reflect that the hospital pain policy was followed. The findings include:
    a. Patient #8 was admitted to the hospital Emergency Department (ED) on 10/28/13 with left sided abdominal pain that was assessed on admission as unbearable 9-10 as identified on the numerical pain scale (0 -10, 9-10 unbearable). Review of the ED clinical record indicated that the patient received Morphine 5 milligrams (mg) intravenous push (IVP) at 8:25 AM and Dilaudid 1 mg IV at 8:59 AM. Review of the Pain Assessment and Management Policy identified that a reassessment of medication effectiveness would be completed post intervention. The record failed to reflect pain reassessment as per policy.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2), and/or (d) Medical records (3), and/or (e) Nursing service (1), and/or (i) General (6).

11. Based on review of clinical records, review of hospital policy and interviews with hospital personnel for 1 of 3 patients (Patient #10) admitted to the hospital ED, documentation and interviews failed to reflect that the medication administration policy was followed. The findings include:
    a. Patient #10 was admitted to the ED on 10/27/13 with alcohol abuse. Review of the medical orders directed that the Clinical Institute Withdrawal Assessment for Alcohol **(**CIWA) scale patient assessment be initiated. Review of the CIWA Guidelines included administering an initial loading dose of Valium 20 mg by mouth for a score of < 10 on the CIWA scale. Review of Patient #10's CIWA score on 10/27/13 at 5:00 PM identified a score of 8, and the patient was given Valium 20 mg by mouth (po). Review of the Medication Administration Record failed to reflect that the Valium 20 mg po was administered.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2), and/or (c) Medical staff (2) (B), and/or (d) Medical records (3), and/or (e) Nursing service (1), and/or (i) General (6).

12. Based on review of the clinical record, review of hospital policy, review of hospital documentation and interviews with hospital personnel for one patient (Patient #2) who sustained a fall, documentation and interviews failed to reflect the Fall Prevention Policy was followed. The findings include:
    a. Patient #2 was admitted to the hospital on 9/30/12 for congestive heart failure (CHF) and was noted to have a right facial droop. The Discharge Summary dated 10/2/12 identified that the patient was transferred back to the skilled nursing facility, and identified that Patient #2 sustained a fall and had hit his/her head and right shoulder during the hospitalization. The Summary noted that a head CT scan and shoulder x-ray were negative. Although the Physical Therapy Evaluation dated 10/1/12 identified that the patient was complaining of right lower extremity pain, physician progress notes and nursing documentation failed to reflect post fall assessments of including the patient's lower extremities. Review of the Ruby Slipper Fall Prevention Program Policy identified that the Post Fall Protocol included assessment and documentation: date, time, place of fall, patient complaint of injury, patient recall of the event, level of consciousness, loss of consciousness, vital signs every 15 minutes x 4, neurological check, ambulatory devices, MD and family notification. Review of record, review of hospital documentation and interview with Nurse Director #2 on 10/30/13 at 1 PM identified that the clinical record failed to reflect the fall documentation as per protocol. Patient #2 was readmitted on 10/3/13 with a right femur fracture, an acute MI and renal failure and expired on 10/4/12 at 5:02 PM.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2), and/or (c) Medical staff (2)(A), and/or (d) Medical records (3), and/or (e) Nursing service (1), and/or (i) General (6).

13. Based on review of the clinical record, review of hospital policy and interviews with hospital personnel for one patient (Patient #2) who expired, documentation and interviews failed to reflect that the hospital death pronouncement policy was followed. The findings include:
    a. Review of the Discharge Summary dated 10/2/12 identified that Patient #2 was admitted on 9/30/12 for congestive heart failure (CHF) and was noted to have a right facial droop. The patient had a past medical history that included CHF, cerebral vascular accident (CVA), coronary artery disease (CAD) and hypertension (HTN). During the hospitalization, the patient was diuresed with Lasix, was ruled out for a myocardial infarction (MI) and the echocardiogram demonstrated an ejection fraction of 55% with no significant disease. A bilateral carotid doppler showed no major disease. The Discharge Summary identified that the patient had a fall during the hospitalization and had hit his/her head and right shoulder. The head CT scan and shoulder x-ray were negative and the physical therapy evaluation identified that Patient #2 was not a candidate for physical therapy. Review of the clinical record identified that the patient was transferred to the long term care facility on 10/2/13. Patient #2 was readmitted on 10/3/13 with right hip pain and a right femur fracture. Review of the Discharge Summary dated 10/4/12 identified that the patient was also admitted with an acute MI and renal failure. The patient expired on 10/4/12 at 5:02 PM and was pronounced by a registered nurse (RN). Review of the Pronouncement of Death by a Registered Nurse Policy identified that the physician orders would include a Do Not Resuscitate (DNR) order and documentation of anticipated death with a Nurse Pronouncement Order. Review of the clinical record failed to reflect the DNR, anticipated death and/or Nurse Pronouncement Order.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2), and/or (c) Medical staff (2)(B), and/or (d) Medical records (3), and/or (i) General (6).

14. Based on review of the clinical record, review of hospital policy, review of hospital documentation and interviews with hospital personnel for one patient (Patient #1) admitted to the hospital, documentation and interviews failed to reflect that the patient's History and Physical (H & P) was reviewed for accuracy. The findings include:
    a. Patient #1 was admitted to the hospital on 7/26/13 with shortness of breath and a history of prostate cancer and melanoma. Review of the clinical record, review of hospital documentation and interview with the Director of Quality on 10/30/13 at 10:45 AM identified that the H & P dated 7/26/13 had a transcription error and it was incorrectly authenticated by PA #3 (indicating an incorrect current diagnosis of lung cancer rather than metastatic cancer). Interview with the HIM Director on 10/30/13 at 12:30 PM identified that the provider reviews the clinical record for accuracy and then signs the document electronically. Documentation and interviews failed to reflect that the H & P

was reviewed for accuracy by PA #3.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (3) and/or (c) Medical Staff (B) and/or (d) Medical Records (3), and/or (e) Nursing Service (1) and/or (g) Pharmacy (1)

15. Based on observation, review of hospital policy and procedure, and interviews related to medication management in the Emergency Department (ED), the hospital failed to ensure that controlled medications stored in the automated medication dispensing system (accudose) can only be dispensed and/or administered upon the specific order of a hospital physician or licensed independent practitioner (LIP) and/or in accordance with hospital policy. The findings include:

    a. Tour of the Emergency Department (ED) and interview with the Senior Director of Nursing Service (Sr DNS) on 10/29/13 at 11:30 AM identified that in the ED only, controlled medications can be removed from the accudose machine, without a physician's order, by entering the name of a patient currently in the ED and retrieving any medication available in the machine. The patient medication profile, including all orders, does not appear on the accudose machine. In order to check the patient's orders prior to retrieving the medication from the accudose machine, the nurse must refer to another computer system where physician's orders and medication administration are documented. Although the accudose machine produces a discrepancy report at the end of each shift, the report does not identify if medications were dispensed without a corresponding physician's order.
    Tour and interview with the Director of Pharmacy on 10/29/13 at 1:10 PM identified that that the pharmacy is not involved with tracking controlled medications administered without a physician's order in the ED. The in-patient unit accudose machines generate an override list of controlled medications administered on each unit daily that includes the patient's name, medication retrieved, and nurse who requested and retrieved the medications. The Pharmacist reviews the list and determines whether a pattern of controlled medication administration is suggestive of possible diversion. This process is not followed in the ED as the accudose machine is unable to generate an override list. The Director of Pharmacy identified that the Sr. DNS and RN #10 are responsible for monitoring controlled medication use in the ED monthly.

    Interview with Sr. DNS and RN #10 on 10/30/13 at 1:00 PM identified that once a year, in January, they audit controlled medication administration by retrieving a list of all controlled medications administered within a 24 hour period generated by a computerized medication documentation system. This list is then compared with data retrieved from the accudose system for the same period. The audits include checking for physician's orders and corresponding nursing documentation as well of review of all documented occurrences of controlled medications that were disposed of ("wasted"). Additionally, an accudose report might be obtained and verified with other documentation intermittently if a concern was brought to their attention.

    Review of a hospital policy entitled Hospital Wide System for Medication

Administration identified that a medication can only be given upon the specific order of a hospital physician or LIP. Additionally, all medication orders are to be reviewed for completeness.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (3) and/or (c) Medical Staff (B) and/or (d) Medical Records (3) and/or (e) Nursing Service (1).

16. Based on review of clinical records, hospital investigation, hospital policies, and staff interviews for one of four patients who received care and services in the ED, (Patient #16), the hospital failed to ensure that Physician's Assistant (PA) #1 signed the electronically generated prescription prior to the patient's discharge. The findings include:
    a. Patient #16 presented to the ED on 10/08/13 at 2:09 PM with chief complaint of skin rash and was examined by PA #1 at 2:46 PM. Benadryl and Prednisone were administered. At 3:26 PM a second dose of Benadryl was administered and the patient was discharged to home at 4:15 PM.
    Interview with the Chairman of Emergency Medicine on 10/29/13 at 3:45 PM identified that the ED physicians documented electronically and prescriptions contained an electronic signature that appeared in their individual handwriting. Physicians lacked access to the print function on the computers; therefore, the nurses were required to print the discharge instructions from one printer, and the discharge prescriptions from another prescription specific printer. Each prescription was printed with the physician's electronic signature. It was hospital protocol that the nurse would provide the physician with the printed prescription for a pen to paper signature prior to providing the discharge information to the patient. The procedure had been in place for all discharge prescriptions for approximately 1.5 years.

    Review of the clinical record and hospital investigation identified that Patient #16's discharge prescriptions lacked PA #1's pen to paper signature.
    Interview with the Chairman of Emergency Medicine identified that the ED physicians know to look for the nurse so the prescriptions can be signed before the patient discharge and it is the physician's responsibility to ensure that the prescriptions are signed timely.

The following are violations of the Regulations of Connecticut State Agencies Section 19-13-D3 Short Term Hospitals, General and Special (a) Physical Plant.

17. During a tour of Johnson Memorial Hospital on 11/20 & 11/21 2013, while accompanied by the Physical Plant Director, Compliance Officer and the St Francis Director of Bio-Medical Engineering, and subsequent documentation review on 11/21/13, the following were observed:
    a. The surveyor, while accompanied by the Compliance Officer and the Labor & Delivery Nursing Supervisor observed that all of the patient, electric beds throughout the Labor & Delivery Nursing Unit lacked valid, current & non-expired preventive maintenance stickers and the facility failed to provide documentation

that all patient care electrical devices are inspected as required by NFPA 99,"*Health Care Facilities*", section 7-5.1.3, 7-5.2.2.1 and 7-6.2.1.2 and as part of the facility's preventive maintenance program; i.e. either no stickers, expired stickers and no documentation to indicate p.m.'s or electrical safety checks (see field notes for types, times & locations);

b. The surveyor, while accompanied by the Compliance Officer observed that both (2) of the hydroculators within the Physical Therapy Nursing Unit lacked valid, current & non-expired preventive maintenance stickers and the facility failed to provide documentation that all patient care electrical devices are inspected as required by NFPA 99,"*Health Care Facilities*", section 7-5.1.3, 7-5.2.2.1 and 7-6.2.1.2 and as part of the facility's preventive maintenance program; i.e. labels indicate re inspection of equipment was due in October 2013;
c. The surveyor, while accompanied by the Compliance Officer, the Engineering Technician and the St Francis Director of Bio-Medical Engineering observed that the remote, bulk oxygen fill valve located on the outside of Johnson Surgery Center was not locked or provided with a means to secure the valve, as required by NFPA 99,"*Health Care Facilities*";i.e. cabinet for filling valve and openings found in the open position;
d. The surveyor, while accompanied by the Compliance Officer, the Engineering Technician and the St Francis Director of Bio-Medical Engineering observed that the corridor in the 1st floor of the building that houses the Johnson, satellite, out-patient, behavioral/substance abuse program at 153 Hazard Avenue was not properly separated from all other parts of the building, as required by the "Life Safety Code"; i.e. non-sprinklered Business Occupancy:
    i. The staff keeps the door between the entry of tenant space and the exit stair enclosure held open with a rug;
    ii. The staff places wedges in the doors throughout the tenant space to keep them open;
    iii. The self-closing device on the fire door in the middle of the tenant space has been disabled so that the door can remain open.
e. The surveyor was not provided with documentation by the Physical Plant Director to indicate that the facility fire alarm at the Johnson, satellite, out-patient, behavioral/substance abuse program at 153 Hazard Avenue is being inspected, tested & maintained every 6 (six) months as required by NFPA 72,*"National Fire Alarm Code* "and by the facility's procedures & policies; i.e. last fire alarm inspection report provided was from 2012;
f. The surveyor was not provided with documentation by the Physical Plant Director to indicate that the facility fire dampers at the main campus building that were identified in the 05/04/10 Fire Damper Inspection Report by Freeman Air have been properly addressed, as required by NFPA 90A, *"Standard for the Installation of Air Conditioning and Ventilation Systems"*; i.e. while some of the repairs are complex and require an RFP, some of the easier issues could have been repaired by now;

g. The surveyor was not provided with documentation by the Physical Plant Director to indicate that the fire drills at the Main Campus Building were being conducted at unexpected times under varying conditions as required by 19.7.1.2; i.e. all the 1st shift drills in the last year have been conducted between 12:45 and 1:00 PM;
h. The surveyor was not **p**rovided with **d**ocumentation by the Physical Plant Director to indicate that the fire drills at the Main Campus Building were being conducted in accordance with section # 19.7.1 of the "*Life Safety Code"*; i.e. no 2nd shift drill conducted in 2nd quarter of 2013 and no 3rd shift drill conducted in 3rd quarter of 2013;
i. The surveyor was not provided with documentation by the Physical Plant Director to indicate that the fire drills at the Johnson, satellite, out-patient, behavioral/substance abuse program at 153 Hazard Avenue were being conducted in accordance with section # 19.7.1 of the "*Life Safety Code"*; i.e.no fire drill reports available for the last 12 months;
j. The surveyor, while accompanied by the Compliance Officer and the Labor & Delivery Unit Nursing Supervisor observed that the windows in the patient rooms throughout the Labor & Delivery Nursing Unit were not designed to protect the physical security of infants, parents & staff and DO NOT minimize the risk of infant abduction, as required by section # 2.2-2.12.1.3 (1) & (2) of the *"Guidelines for Design and Construction of Health Care Facilities*";i.e. several of the windows can be opened-nursing unit is a grade level-windows all were screwed closed at one time;
k. The surveyor was not provided with documentation, a policy or logs from the Compliance Officer, the Labor & Delivery Unit Nursing Supervisor or the Physical Plant Director to indicate that the alarm that is installed on the exit door from the Labor & Delivery Nursing Unit is tested, inspected or maintained at any time as required by section # 2.2-2.12.1.3 of the *"Guidelines for Design and Construction of Health Care Facilities*";i.e.; the Labor & Delivery Unit Nursing Supervisor was unsure of any testing when asked.
l. The surveyor while accompanied by the Physical Plant Director observed that the adult and adolescent psychiatric unit had light fixtures in the bathrooms that lacked tamperproof screws had corners that could be possible ligature points, Med Gas outlets with covers that had looped chains, shower curtain brackets affixed with non-tamper resistant screws and gaps along the edges, and door hinges that posed a potential hanging hazard and were not designed to a psychiatric institutional standard. These items had been identified in a previous inspection and a risk based analysis conducted by the facility prior to this inspection was completed but with no definitive completion date to abatement these hazards;
m. The surveyor and Physical Plant Director during documentation review of the water treatment records for the acute dialysis reverse osmosis machines identified that water was not maintained in accordance with AAMI standards for reverse osmosis water for reverse osmosis machine #1. Review of the water test for 10/11/13 had abnormal water results for calcium. The facility contracts for dialysis services with DaVita Dialysis and was unaware of this test result. The machine had not been used for a treatment after the

last test was drawn and subsequent to surveyor interview the reverse osmosis machine #1 was immediately marked not for patient use. The contractor Da Vita Dialysis couldn’t explain why this redraw and removal of the machine had not happened prior to surveyor review; the contractor immediately redrew the sample on the day of survey and disinfected the machine. The machine will not be used for treatments until a sample within AAMI Guidelines is received.

Klett, Maureen

From: Klett, Maureen

To: 'Rosenberg, Stuart E'
Subject: RE: State Citation Letter March 4, 2015

Stu,

I have accepted your plan of correction to the violation letter dated March 4, 2015, as of today March 6, 2015. A follow up visit will be scheduled.

Maureen

From: Rosenberg, Stuart E [mailto:Stuart.Rosenberg@jmmc.com]

Subject: State Citation Letter-March 4, 2015

Ms. Klett:

Attached is Johnson Memorial Hospital's Corrective Action Plan (COP) for the above referenced subject matter. Please advise if you approve this COP. As I stated in my letter to you re: CMS COP we are requesting an expedited process for the State review as well.

If you should have any questions please let me know.

Best Regards,

Stu

STATE OF CONNECTICUT

DEPARTMENT OF PUBLIC HEALTH

January 7, 2015

Stuart Rosenberg, President & CEO
Johnson Memorial Hospital
201 Chestnut Hill Road
Stafford Springs, CT 06076

Dear Mr. Rosenberg:

Unannounced visits were made to Johnson Memorial Hospital commencing on July 16, 2014 and concluding on November 25, 2014 by representatives of the Facility Licensing and Investigations Section of the Department of Public Health for the purpose of conducting multiple investigations and a certification inspection.

Attached are the violations of the Regulations of Connecticut State Agencies and/or General Statutes of Connecticut which were noted during the course of the visits.

An office conference has been scheduled for January 23, 2015 at 10:00 A.M. in the Facility Licensing and Investigations Section of the Department of Public Health, 410 Capitol Avenue, Second Floor, Hartford, Connecticut. Should you wish to retain legal representation, your attorney may accompany you to this meeting.

You may wish to dispute the violations and you may be provided with the opportunity to be heard. If the violations is/are not responded to by January 21, 2015 or if a request for a meeting is not made by the stipulated date, the violations shall be deemed admitted.

Please prepare a written Plan of Correction for the above mentioned violation(s) to be presented at this conference.

Each violation must be addressed with a prospective Plan of Correction which includes the following components:

1. Measures to prevent the recurrence of the identified violation, (e.g., policy/procedure, inservice program, repairs, etc.).
2. Date corrective measure will be effected.
3. Identify the staff member, by title, who has been designated the responsibility for monitoring the individual plan of correction submitted for each violation.

Alternate remedies to violations identified in this letter may be discussed at the office conference. In addition, please be advised that the preparation of a Plan of Correction and/or its acceptance by the Department of Public Health does not limit the Department in terms of other legal remedies, including but not limited to, the issuance of a Statement of Charges or a Summary Suspension Order and it does not preclude resolution of this matter by means of a Consent Order.

Phone: (860) 509-7400
Telephone Device for the Deaf (860) 509-7191
410 Capitol Avenue - MS # 12HSR
P.O. Box 340308 Hartford, CT 06134
An Equal Opportunity Employer

DATES OF VISIT: Commenced on July 16, 2014 and concluded on November 25, 2014

THE FOLLOWING VIOLATIONS OF THE REGULATIONS OF CONNECTICUT STATE AGENCIES AND/OR CONNECTICUT GENERAL STATUTES WERE IDENTIFIED

Should you have any questions, please do not hesitate to contact this office at (860) 509-7400.

Respectfully,

Cheryl Davis, R.N., B.S.N.
Supervising Nurse Consultant
Facility Licensing and Investigations Section

CAD:lsl

CT #'s 16514, 17084

DATES OF VISIT: Commenced on July 16, 2014 and concluded on November 25, 2014

THE FOLLOWING VIOLATIONS OF THE REGULATIONS OF CONNECTICUT STATE AGENCIES AND/OR CONNECTICUT GENERAL STATUTES WERE IDENTIFIED

The following are violations of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) and/or (c) Medical staff (2)(A) and/or (4)(A) and/or (e) Nursing Service (1) and/or (g) Pharmacy (1) and/or (2) and/or (3) and/or (i) General (6) and/or (l) Infection control (2)(A) and/or (B) and/or (3) and/or (4).

1. *The Governing body failed to function effectively to ensure reports received from Contamination Control Service Specialists (contracted services) were comprehensive and/or complete. (Please refer to A83) and/or that mold/fungus growth in the IV Infusion Center and hospital Pharmacy were reported to the governing body for review and appropriate action.
    a. Based on a review of facility documentation, contractor reports, interviews, and quality plans, the following was ascertained:

    Review of reports completed by Company #1 (contracted service who provides environmental testing) during the period of January 2013 through August 2013 for the IV Infusion Center compounding rooms identified mold growth in various areas in air and surface samples. There was mold growth in October, November, and December 2013. No issues were seen in January 2014 but fungi was again seen in February 2014. No issues were seen in April 2014. There was fungi growth in May and June 2014.

    The first action plan provided by the Pharmacy Manager is dated 4/10/14 for the mold growth seen in February 2014. The Manager was unable to speak to issues prior to employment date of February 1, 2014. It is a "rolling" plan where items are added but failed to address each specific finding in the contractor reports (refer to violation #2 for specific issues). The action plan for 4/10/14 states "passed USP-797 standards but needs corrective action" despite mold growth on surfaces in the ante and chemo buffer areas. There are no action plans seen before 4/10/14.

    During interview on 7/17/14 at approximately 5:15 PM, the Pharmacy Manager stated that s/he informed team members in infection control, environment of care and building services of the mold issue in the pharmacy and notified others via email, however, was unable to provide documentation that supported this. The Manager further stated that an action plan was developed that went to the environment of care committee in June 2014 to include HVAC revision, however, no date of work was identified as IV compounding continued at the infusion center until 7/8/14, when the compounding room at the infusion center was closed.

    Review of the Environment of Care meeting minutes dated 4/16/2014 and attended by Assistant Vice President (AVP) #1, Director of Engineering, Pharmacy Manager and Infection Control Nurse #1, identified that there were concerns of not meeting the requirements of USP-797 for intravenous compounding secondary to the increasing temperatures greater than 68 degrees Fahrenheit and increasing humidity greater than 70%. An undersized HVAC system had been identified in August 2013, as the cause for the increasing humidity levels.

During interview on 7/22/14 at 12:50 PM, the Director of Engineering stated that the former CEO/VP of Patient Care had been aware of the mold issues. Although the issue of mold had been discussed at several EOC (environment of care) meetings, less expensive changes (i.e.., covering the windows in one room) were made with a plan to address the HVAC system in the future.

b. Review of reports completed by Company #1 & Company #2 (contracted service who provides environmental testing) for the Hospital Pharmacy compounding rooms, identified mold growth in various areas in air and surface samples in February 2013, June 2013, and July 2013, with the February 2013 surface sample at the edge of the BSC.

There were no action plans to show any remediation was completed to address these findings.

The February 2014 samples show an actionable level of CFU's (195) in the ante room sink surface sample. There is no action plan to show any remediation was done to address these findings or re-testing done. As of 7/18/14, no EM tests were done in the room since to ensure that sanitary conditions exist.

Review of the Pharmacy & Therapeutics (P&T) meeting minutes during the period of 1/31/13 through 5/28/14, identified that committee members included in part, VP of Patient Care, AVP #1, ICN #1 and Pharmacy Director. The minutes failed to indicate a concern of mold/fungi growth at the IV Infusion Center and/or hospital pharmacy although members were aware of the issues.

Review of the Infection Control Meeting minutes during the period of 1/13 through 7/14 identified that committee members included in part, ICN #1, Pharmacy Director, MD #2, VP of Patient Care, and environment/engineering representation. The minutes failed to indicate a concern of mold/fungi growth at the IV Infusion Center and/or hospital pharmacy although members were aware of the issues.

Review of the Environment of Care Committee (EOC) minutes during the period of 8/13 through 6/18/14 identified that committee members included in part, Director of Engineering, VP of Patient Care, AVP #1, ICN #1 and Pharmacy Director. The minutes reflected humidity issues at the infusion center pharmacy due to undersized HVAC system and ongoing mold issues. Although the EOC committee reports to the Quality Committee of the Board (members include in part, VP of Patient Care and Pharmacy Director) who in turn report to Governing Body, Quality minutes failed to indicate a problem with mold despite members knowledge of this issue.

Review of the Medical Executive Committee minutes (reports to Governing Body) during the period of 1/9/13 through 5/11/14, failed to reflect any notification from the

DATES OF VISIT: Commenced on July 16, 2014 and concluded on November 25, 2014

THE FOLLOWING VIOLATIONS OF THE REGULATIONS OF CONNECTICUT STATE AGENCIES AND/OR CONNECTICUT GENERAL STATUTES WERE IDENTIFIED

Infection Control Committee and/or the P&T committee (report to Medical Executive committee) regarding evidence of mold in the environmental testing studies for the pharmacy compounding rooms although members from those committees participated in Medical Executive committee meetings and were aware of the issues.
Review of the Governing Body meeting minutes during the period of 1/14/13 through 6/2/14 failed to reflect any acknowledgement that during that period of time, the hospital's pharmacy and outpatient infusion center had grown mold within the compounding areas of the pharmacy. Although the infusion center had been closed during the month of August to September 2013, in an attempt to remediate the problem of mold growth, the Governing Body narratives failed to reflect an oversight of knowledge and/or conformation of the problem and how it was to be handled despite the fact that the mold growth continued at the offsite infusion center. In addition, minutes failed to reflect commencement of the new contract signed in May 2014 with Company #2, to provide testing and certification services to the pharmacies.

During interview on 7/23/14 at 9:15 AM, AVP #1 stated that he/she was unaware of the mold growth problem until 7/8/14, when the issue was brought to the attention of the CEO and the infusion center was closed for remediation. Review of the Environment of Care (EOC) meeting dated March 19, 2014 identified that the clean room did not pass inspection and AVP #1 questioned if the room was "ok" to use. The EOC meeting minutes dated 4/16/14, reflected that AVP #1 was present when the Pharmacy Manager identified mold/fungus was present in the IV infusion center secondary to high temperatures/humidity/room pressures which did not meet the standards of USP-797 for compounding intravenous solutions.

During interview on 7/16/14 at 9:30 AM, the CEO stated that structural changes have been made within the organization with an expectation that pertinent data be forthcoming in an effort to address significant issues and ensure quality care is delivered.

According to the Corporate Quality Improvement Plan for 2014, financial and medical information is utilized to identify improvement opportunities and support the success of corrective actions.

Review of the Quality Assessment Plan identified that the Board of Directors had the ultimate responsibility for ensuring the quality and effectiveness of patient care services provided by its medical and other professional and support staff.

2. *Based on observation, review of facility documentation, contracted service reports, interviews, and policy review, the Governing body failed to ensure the hospital's Quality program assessed services provided by two contractors' to identify quality and performance issues. The findings include the following:

DATES OF VISIT: Commenced on July 16, 2014 and concluded on November 25, 2014

THE FOLLOWING VIOLATIONS OF THE REGULATIONS OF CONNECTICUT STATE AGENCIES AND/OR CONNECTICUT GENERAL STATUTES WERE IDENTIFIED

a. The IV Infusion Center (Enfield location) was opened by the hospital on March 12, 2012. Review of the testing and certification report dated February 12, 2014, completed by Contamination Control Service Specialists, Company #2, identified the following discrepancies:
   i. The positive pressure from the IV buffer area to the ante area was too low.
   ii. The positive pressure from the ante area to the outside was too low.
   iii. The chemo buffer area failed to qualify for ISO7.
   iv. The humidity seen in all three rooms ranged from 12.5% to 13.1%.
   v. The Room Air Exchange Rate in the ante room incorrectly listed acceptance criteria even though the actual number meets USP-797 standards.
   vi. The particle counts for the chemo buffer area noted in two sections of the report (particle counts and in statistical analysis) do not match.

b. Review of the testing and certification report dated April 2, 2014, completed by Company #2, identified the following discrepancies:
   i. Completed a pressure reading between the rooms. The positive pressure from the ante room to the outside was too low.

c. Review of the testing and certification report dated May 30, 2014, completed by Company #2, identified the following discrepancies:
   i. There is no mention if this certification was done under dynamic conditions.
   ii. The acceptance criteria for the Room Air Exchange Rate in the ante room was incorrectly listed (the actual number meets the standards).
   iii. The ante area is classified as ISO8 even though it should be classified as ISO7 due to chemo buffer area coming off the ante area.

   The facility was unable to provide documentation of follow-up or action plans that the above discrepancies were addressed, remediated and/or that re-testing had occurred.

d. Review of the environmental testing, completed by Company #1 during the period of January 2013 through January 2014, identified the following concerns:
   i. No temperature or dates of incubation.
   ii. Although testing start and completion dates were noted, the report failed to identify dates the samples were taken.
   iii. No documentation if the air samples were volumetric impaction collections.
   iv. No sampling (air or surface) done in the PEC until December 2013.
   v. With the exception of September 2013, no documentation of lot number and expiration dates of the media used. Additionally documentation failed to reflect whether the growth media had neutralizing agents for the surface samples.
   vi. The sample plan was incorrect, showing a BSC in the IV buffer room instead of an LAFW.

DATES OF VISIT: Commenced on July 16, 2014 and concluded on November 25, 2014

THE FOLLOWING VIOLATIONS OF THE REGULATIONS OF CONNECTICUT STATE AGENCIES AND/OR CONNECTICUT GENERAL STATUTES WERE IDENTIFIED

e. Review of the environmental testing, completed by Company #2 for the February 2014 and April 2014 reports, identified the following concerns:
   i. No temperature or dates of incubation.
   ii. February and April 2014 reports had errors showing the ante room as an ISO8 area which changes the colony forming units (CFU) actionable levels.
   iii. Additionally, the sampling plan reflects tables where none exist in the ante room (surface sample marked S9). In February 2014, no sink was marked in the ante room but was identified as a table in the sampling plan.

   The facility was unable to provide documentation that these errors were addressed.

f. Review of the hospital pharmacy certification reports completed on 7/10/13 and 2/12/14 identified the following concerns:
   i. The 7/10/13 report, showed the positive pressure in the ante room to the outside to be 0.01 inches of water column, which was too low (needs to be between 0.02 -0.05 inch of water column) and the room failed under pressurization.
   ii. The humidity seen in the buffer area ranged from 89.8% to 93.5% for the four readings taken and 86.5% to 86.9% for the 3 readings done in the ante area (facility standard between 30 and 60%).
   iii. The 2/12/14 report, showed the humidity as 8.3% to 8.9% in the ante room and 8.1% to 8.3% in the buffer area. There was no explanation for these numbers and how they compare to the last report.

   There was no action plan to identify what was done to correct these issues.

   During interview on 7/17/14 at 10:40 AM, the Pharmacy Manager stated he/she began employment on February 1, 2014, therefore the 7/10/13 report would have been addressed to the previous Pharmacy Manager. The Manager indicated that his/her concern with the contractor included communication issues and untimely reports. The Manager failed to recognize issues within the reports that required immediate follow-up to ensure a safe environment was maintained.

   During interview on 7/23/14 at 10:20 AM, AVP #1 stated that when a contract was due to be reviewed, it went to quality metrics, a separate group, for a legal review, rather than a quality review prior to renewing the contract.

   Review of the corporate structure for committee reporting identified that the Environment of Care and Quality Improvement Committee report directly to the Quality Committee of the Board while all other committees (Infection Control, Pharmacy and Therapeutics) all report to the Medical Executive Committee. According to the Corporate Quality Improvement Plan for 2014, financial and medical information is utilized to identify improvement opportunities and support the success of corrective actions.

DATES OF VISIT: Commenced on July 16, 2014 and concluded on November 25, 2014

THE FOLLOWING VIOLATIONS OF THE REGULATIONS OF CONNECTICUT STATE AGENCIES AND/OR CONNECTICUT GENERAL STATUTES WERE IDENTIFIED

3. *Based on a review of hospital documentation, contractors' reports, interviews, and policies, the hospital failed to develop quality performance improvement activities regarding high risk area's including the IV compounding rooms in the Pharmacy and the IV infusion center (offsite location) and/or had an effective reporting structure through the various committees that report to Governing body to ensure appropriate intervention when mold was identified in the IV infusion center dating back to 1/13 and the hospital's pharmacy on 2/13. The findings include the following:
    a. Review of reports completed by Company #1 & Company #2 (contracted service who provides environmental testing) during the period of January 2013 through August 2013 for the IV Infusion Center compounding rooms show mold growth in various areas in air and surface samples. The September 2013 sampling was done after a terminal clean of the facility and no issues are seen. There was mold growth in October, November, and December 2013. No issues were seen in January 2014 but fungi was again seen in February 2014. No issues were seen in April 2014. There was fungi growth in May and June 2014.

    Review of the hospital pharmacy EM testing reports, performed by Company #1 and/or #2 identified mold growth in various areas in air and surface samples in February 2013, June 2013, and July 2013, with the February 2013 surface sample at the edge of the BSC.

    The February 2014 samples show an actionable level of CFU's (195) in the ante room sink surface sample. There was no action plan to show any remediation was completed to address these findings and/or re-testing completed. As of 7/18/14, no EM tests were done in the room since to ensure that sanitary conditions exist.

    Review of the Infection Control Meeting minutes during the period of 1/13 through 7/14 identified that committee members included in part, ICN #1, Pharmacy Director, MD #2 (Chairperson), VP of Patient Care, and environment/engineering representation. The minutes failed to indicate a concern of mold/fungi growth at the IV Infusion Center and/or hospital pharmacy although members were aware of the issues. The Infection Control committee failed to institute measures (e.g. surveillance) to remediate mold growth in the Pharmacy compounding rooms.

    During interview on 7/18/2014 at approximately 2:20 PM, the Infection Control Nurse (ICN #1) stated that s/he did know of the mold problem at the outpatient infusion center however, did not complete surveillance rounds of the pharmacy compounding room at the IV Infusion center or the hospital pharmacy. ICN #1 further stated that MD #2 (Infectious disease physician) was aware of the mold problem and suggested that it could be coming from the air handling system however, ICN #1 failed to document any suggestions and/or bring the matter before the Infection Control Committee.

DATES OF VISIT: Commenced on July 16, 2014 and concluded on November 25, 2014

THE FOLLOWING VIOLATIONS OF THE REGULATIONS OF CONNECTICUT STATE AGENCIES AND/OR CONNECTICUT GENERAL STATUTES WERE IDENTIFIED

During interview on 7/17/14, MD #1 (Medical Director of Infusion Center) stated that s/he was first aware of a mold problem approximately one year ago (August 2013) when the infusion center closed for one month for remediation of the problem. MD #1 stated that the Program Director of the Infusion center notified him/her of the mold growth problem in May 2014, however, was unaware of the plan to remediate of the problem.

During interview on 7/22/14 at approximately 11:30 AM, the Nurse Manager of the IV Infusion Center was unable to recall the exact date s/he was notified of the mold issue but had a peripheral awareness of the issue. The Manager explained s/he was responsible for the Infusion Center and that Pharmacy was a separate department where they obtained medications for their patients'. The Nurse Manager stated there were no formal meetings and/or discussion with the infection control department regarding this issue and/or assessment regarding how this affected the safety of the patients treated at the infusion center.

During interview on 7/22/14 at 10:00 AM, the IV Infusion Center Program Director stated the previous pharmacy Manager had notified him/her of the mold problem, however, was unable to provide an exact date of awareness. The Director stated s/he had notified the Medical Director (MD#1) of the issue in August 2013 when the decision to close the compounding room was made, however, did not contact the Infection Control Department as s/he relied on the experts (Engineering and Pharmacy Manager) to address the issues which included reopening of the compounding room on September 23, 2013. The Director further identified that the previous VP of Patient Care Services (no longer employed at the hospital) was aware of the ongoing mold issues.

b. Review of the Pharmacy & Therapeutics meeting minutes during the period of 1/31/13 through 5/28/14, identified that committee members included in part, VP of Patient Care, AVP #1, ICN #1 and Pharmacy Director (Secretary). The minutes failed to indicate a concern of mold/fungi growth at the IV Infusion Center and/or hospital pharmacy although members were aware of the issues.

Review of a memo dated 3/24/14 to IV Infusion Center staff (signed by 7 staff members) from the Pharmacy Manager identified that based on the mold problem on the walls last year and fungi growth on the chemo and anteroom table during last month (2/14) steps to improve environment controls to minimize fungi/mold growth in the mixing (buffer) rooms must be taken. The Manager and the Microbiologist from company #2 strongly suspect that the HVAC system might be the primary culprit since it is not a dedicated Pharmacy system and temperature and humidity controls are not adequate and this concern is being addressed at the administrative level.

During interview on 7/17/14 at approximately 5:15 PM, the Pharmacy Manager stated that s/he told the team members of infection control, environment of care and building services of the mold issue in the pharmacy and notified others via email, however, was unable to provide documentation that supported this. The Manager further stated that an

action plan was developed that went to the environment of care committee in June 2014 to include HVAC revision however, no date of work was identified as IV compounding continued at the infusion center until 7/8/14, when the compounding room at the infusion center was closed.

c. Review of the Environment of Care Committee (EOC) minutes during the period of 8/13 through 6/18/14 identified that committee members included in part, Director of Engineering (Chairperson), VP of Patient Care, AVP #1, ICN #1 and Pharmacy Director. The first notation regarding a concern of mold/fungi growth at the IV Infusion Center and/or hospital pharmacy was dated 4/16/14 with interventions that included, in part, to wipe down all surfaces in the chemo and infusion mixing rooms, all vials and IV bags with IPA (Isopropyl Alcohol), verify floors were properly cleaned at night, staff were to wear new booties everytime they enter the anteroom, removal of cardboard and trash from the area and fix the floor seal. Although the EOC committee reports to the Quality Committee of the Board (members include in part, VP of Patient Care and Pharmacy Director) who in turn report to Governing Body, Quality minutes failed to indicate a problem with mold despite member's knowledge of this issue.

During interview on 7/22/14 at 12:50 PM, the Director of Engineering stated that the former CEO/VP of Patient Care Services had been aware of the mold issues and that s/he had been working to remediate the problem.

During interview on 7/23/14 at 9:15 AM, AVP #1 stated that s/he was unaware of the mold growth problem until 7/8/14, when the issue was brought to the attention of the CEO and the infusion center was closed for remediation. Review of the Environment of Care (EOC) meeting dated March 19, 2014 identified that the clean room did not pass inspection and AVP #1 questioned if the room was "ok" to use. The EOC meeting minutes dated 4/16/14, reflected that AVP #1 was present when the Pharmacy Manager identified mold/fungus was present in the IV infusion center secondary to high temperatures/humidity/room pressures which did not meet the standards of USP-797 for compounding intravenous solutions.

Although members of several committees had knowledge of the mold issues, these members failed to ensure data was incorporated into the Medical Executive Committee and/or Quality Committee of the Board who report directly to the Governing Body.

Review of the Corporate Quality Assessment Plan identified that the Board of Directors had the ultimate responsibility for monitoring all aspects of patient care and safety. The primary goal of the Quality/Performance improvement plan is to systematically plan, design, measure, assess and improve performance of hospital wide key functions and processes relative to patient care and safety; and to improve healthcare outcomes while reducing and preventing errors and preventable adverse outcomes.

d. When asked if the hospital conducted a risk analysis to determine if the positive mold/fungal cultures could potentially impact the health of the patients, interviews with the Director of the Infusion Center and Nurse Manager on 7/22/14 and MD #2 on 7/28/14 failed to reflect that this was done.

On 7/18/14, the hospital arranged for the IV Infusion Center Treatment Room (where patient's received care & services) to be environmentally tested. Review of the report identified that during this testing period, the area (indoor) mold spores were significantly above recommended guidelines and required attention. Possible Causes include: inadequate filtration of the outdoor air, either at the building or test area level and improper building pressurization allowing unfiltered outdoor air to penetrate this space.

4. *Based on observation, review of facility documentation, contractor reports, interviews, and policy review, the hospital failed to provide the necessary supervision of Pharmacy services to ensure that IV compounding rooms were tested/certified in accordance with federal and state laws (USP-797) and/or that mold growth in the IV compounding rooms dating back to 1/13 was addressed in a timely manner, and/or that quality services were provided by a contracted service. The findings include:

a. The IV Infusion Center (Enfield location) was opened by the hospital on March 12, 2012. The facility was unable to provide evidence that certifications were done when the facility was first opened and prior to compounding. Certification involves airborne non-viable particle counting (determining of ISO classification), airflow testing and smoke pattern test, room pressurization, HEPA filter leak test, general temperature and humidity.

During interview on 7/17/14 at 10:40 AM, the Pharmacy Manager stated s/he started employment on February 1, 2014 and that it was the Manager's responsibility to arrange for any testing required at the facility. The Manager was unable to provide documentation that certification was completed. Interview with AVP #1 on 7/22/14 at 2:00 PM stated the contracted company was contacted and was unable to provide documentation that the room was certified prior to compounding medications as required. Documentation was not provided to the surveyor that identified the date compounding of medications commenced.

b. Review of work orders during the period of 2012 and 2013 identified that floors were fixed and then replaced in the ante area as explained by Director of Engineering on 7/22/14 at 12:50 PM, however, failed to provide documentation that the rooms were certified following this work as required by USP 797. This created the potential for unsanitary conditions that could affect compounding of medications at the Center.

c. Review of reports completed by Company #1 & Company #2 (contracted service who provides environmental testing) during the period of January 2013 through August 2013

for the IV Infusion Center compounding rooms show mold growth in various areas in the air and surface samples. The September 2013 sampling was done after a terminal clean of the facility and no issues are seen. There was mold growth in October, November, and December 2013. No issues seen in January 2014 but fungi was again seen in February 2014. No issues were seen in April 2014. There was fungi growth in May and June 2014.

During interview on 7/17/14 at approximately 5:15 PM, the Pharmacy Manager stated that s/he informed team members in infection control, environment of care and building services of the mold issue in the pharmacy and notified others via email of the issues, however, was unable to provide documentation that supported this. The Manager further stated that an action plan was developed that went to the environment of care committee in June 2014 to include HVAC revision, however, no date of work was identified as IV compounding continued at the infusion center until 7/8/14, when the compounding room at the infusion center was closed.

The first action plan provided by the Pharmacy Manager is dated 4/10/14 for the mold growth seen in February 2014. The Manager was unable to speak to issues prior to employment date of February 1, 2014. It is a "rolling" plan where items are added but failed to address each specific finding in the EM testing. The action plan for 4/10/14 states "passed USP-797 standards but needs corrective action" despite mold growth on surfaces in the ante and chemo buffer areas. There were no action plans seen before 4/10/14.

d. Review of the hospital pharmacy EM testing reports, performed by Company #1 and/or #2, identified mold growth in various areas in air and surface samples in February 2013, June 2013, and July 2013, with the February 2013 surface sample at the edge of the BSC.

During interview on 7/17/14 at 10:40 AM, the Pharmacy Manager stated s/he began employment on February 1, 2014 and prior to employment, was unable to provide documentation that these concerns were addressed.

The February 2014 samples show an actionable level of CFU's (195) in the ante room sink surface sample. There is no action plan to show any remediation was done to address these findings or re-testing done. As of 7/18/14, no EM tests were done in the room since to ensure that sanitary conditions exist.

e. Review of the testing and certification report dated February 12, 2014, completed by Company #2, (known for contamination control), for the IV Infusion Center identified the following report discrepancies:
   i. The positive pressure from the IV buffer area to the ante area was too low.
   ii. The positive pressure from the ante area to the outside was too low.

DATES OF VISIT: Commenced on July 16, 2014 and concluded on November 25, 2014

THE FOLLOWING VIOLATIONS OF THE REGULATIONS OF CONNECTICUT STATE AGENCIES AND/OR CONNECTICUT GENERAL STATUTES WERE IDENTIFIED

iii. The chemo buffer area failed to qualify for ISO7.
iv. The humidity seen in all three rooms ranged from 12.5% to 13.1%.
v. The Room Air Exchange Rate in the ante room incorrectly listed acceptance criteria even though the actual number meets USP-797 standards.
vi. The particle counts for the chemo buffer area noted in two sections of the report (particle counts and in statistical analysis) do not match.

The facility was unable to provide documentation of follow-up or action plans that the above discrepancies were addressed, remediated and/or that re-testing had occurred.

f. Review of the testing and certification report dated April 2, 2014, completed by Company #2, identified the following discrepancies:
   i. The company completed pressure reading between the rooms only. The positive pressure from the ante area to the outside was too low.

g. Review of the testing and certification report dated May 30, 2014, completed by Company #2, identified the following discrepancies:
   i. There is no documentation that this certification was completed under dynamic conditions.
   ii. The acceptance criteria for the Room Air Exchange Rate in the ante room was incorrectly listed (the actual number meets the standards).
   iii. The ante area is classified as ISO8 even though it should be classified as ISO7 due to chemo buffer area coming off the ante area.

   The facility was unable to provide documentation of follow-up or action plans that the above discrepancies were addressed, remediated and/or that re-testing had occurred.

h. Review of the environmental testing, by Contamination Service Company #1 during the period of January 2013 through January 2014, identified the following concerns:
   i. No temperature or dates of incubation.
   ii. There was testing start and completion dates that failed to state on what dates the samples were taken.
   iii. No documentation if the air samples were volumetric impaction collections.
   iv. No sampling (air or surface) done in the PEC until December 2013.

   v. With the exception of September 2013, no documentation of lot number and expiration dates of the media used. Additionally documentation failed to reflect whether the growth media had neutralizing agents for the surface samples.
   vi. The sample plan was incorrect, showing a BSC in the IV buffer room instead of an LAFW.

   There is no action plan seen on what was done to correct these issues.

DATES OF VISIT: Commenced on July 16, 2014 and concluded on November 25, 2014

THE FOLLOWING VIOLATIONS OF THE REGULATIONS OF CONNECTICUT STATE AGENCIES AND/OR CONNECTICUT GENERAL STATUTES WERE IDENTIFIED

i. Review of the environmental testing, completed by Company #2 for the February 2014 and April 2014 reports, identified the following concerns:
   i. No temperature or dates of incubation.
   ii. February and April 2014 reports had errors showing the ante room as an ISO8 area which changes the colony forming units (CFU) actionable levels.
   iii. Additionally, the sampling plan reflects tables where none exist in the ante room (surface sample marked S9). In February 2014, no sink was marked in the ante room but was identified as a table in the sampling plan.

   The facility was unable to provide documentation that there errors were addressed.

j. Review of the hospital pharmacy certification reports completed on 7/10/13 and 2/12/14 identified the following concerns:
   i. The 7/10/13 report, showed the positive pressure in the ante room to the outside to be 0.01 inches of water column, which is too low (needs to be between 0.02 - 0.05 inch of water column) and the room failed under pressurization.
   ii. The humidity seen in the buffer area was from 89.8% to 93.5% for the four readings taken and 86.5% to 86.9% for the 3 readings done in the ante area (facility standard between 30 and 60%).
   iii. The 2/12/14 report, showed the humidity as 8.3% to 8.9% in the ante room and 8.1% to 8.3% in the buffer area. There was no explanation for these numbers and how they compare to the last report.

   There was no action plan to identify what was done to correct these issues.

   Review of the aforementioned reports and interview with the Pharmacy Manager on 7/17/14 at 10:40 AM stated s/he began employment on February 1, 2014, therefore the 7/10/13 report would have been addressed to the previous Pharmacy Director. The Manager indicated that his/her concern with the contractor included communication issues and untimely reports. The Director failed to recognize issues within the reports that required immediate follow-up to ensure a safe environment was maintained.

   The minutes failed to indicate a concern of mold/fungi growth at the IV Infusion Center and/or hospital pharmacy although members were aware of the issues.

   Review of the Pharmacy and Therapeutics Committee minutes for the period of 1/31/13 through 5/18/14, identified that the Director of Pharmacy changed in February 2014; other committee members included in part, VP of Patient Care, AVP #1, ICN #1 and Pharmacy Director (Secretary). The minutes failed to reflect that mold was first identified in January 2013 and continued through June 2014 within the compounding rooms at the outpatient infusion center

(with the exception of a few months with negative cultures). From August 2013 into September 2013, the outpatient infusion center was closed to patients and pharmacy compounding secondary to remediation of mold growth at that time. The minutes failed to reflect this.

Review of committee memberships identified that the Pharmacy Manager participated in the environment of care, pharmacy and therapeutics and infection control meetings. None of these meeting minutes reflected concern for mold growth at the pharmacy compounding areas despite knowledge of this concern.

During interview 7/17/14 at 10:40 AM, the Pharmacy Manager on stated the plan included reeducation of staff regarding infection control techniques. Review of the education provided dated 7/17/14 and 7/21/14, indicated that only three (3) of eleven (11) staff received the education.

Review of the job description for the Manager of Pharmacy reflected responsibility for the management and coordination of resources on a daily basis including anticipation and identification of potential problems in either direct pharmaceutical care and/or assigned area of operations with facilitation of an effective resolution of problems.

5. *Based on observation, review of facility documentation, interviews, and policy review, the hospital, who compounds sterile pharmaceuticals, failed to comply with Federal and/or state laws, United States Pharmacopeia, Chapter 797, Pharmaceutical Compounding - Sterile Preparations and/or maintain a sanitary environment to ensure patient safety. During tour of the IV infusion center on 7/16/14 at 11:30 AM with the Pharmacy Director, the Pharmacy Manager, the Program Director, Nurse Manager, and Assistant Vice President of Ancillary Services (AVP #1), the following concerns were identified:
    a. In the storage room, the floor beneath two (2) large racks that contained supplies for provision of services was observed to be dusty. Boxes that stored intravenous (IV) fluids had accumulated dust. Although the program Director stated a monthly cleaning schedule was in place, staff failed to ensure this room was clean.
    b. Review of the temperature and humidity log dated July 2014 for the locked storage closet that stored medication identified that humidity levels were not recorded on seven (7) of ten days and that temperatures were not recorded on two (2) of the ten days secondary to "no thermometer".

    c. During tour of the hospital pharmacy compounding rooms on 7/18/14 at approximately 11:30 AM with the Pharmacy Manager identified the following concerns:

        i. No pressure gauges to monitor pressure of ante, chemo and IV buffer areas. (subsequent to inquiry, they were installed on July 24, 2014).

THE FOLLOWING VIOLATIONS OF THE REGULATIONS OF CONNECTICUT STATE AGENCIES AND/OR CONNECTICUT GENERAL STATUTES WERE IDENTIFIED

ii. The ceiling tiles were not caulked around each perimeter to seal them to the support frame.
iii. Jewelry and makeup was observed to be worn by Pharmacy Technician #1 who had just finished compounding and was exiting the compounding areas. Review of the Preparation of Compounded Sterile Products Assessment for USP-797 identified that the technician passed the test on 5/21/14, which included that jewelry/make-up can not be worn in the compounding area.
iv. Garbing (with PPE) was not done in the sequence as outlined in the facility policy. All the PPE's were kept outside the ante area.
v. No line of demarcation was observed in the ante area that delineated "clean" from "dirty".
vi. Multiple mop heads were kept in a plastic bag on top of the water pump. The water pump was covered in dust and there failed to be documentation of who and when it was last cleaned.
vii. Bins used to hold drug products were dirty.
viii. A ladder was observed in the ante area, where it was placed to fix the ceiling tile in the buffer area.
ix. A corner of the wall above the sink appeared to have black material on two adjacent walls near the ceiling.
x. A large crack in the vinyl seam on the floor was observed.
xi. Both the BSC and LAFW were in positive pressure rooms where the BSC was being used to compound chemo products. The BSC was vented to the outside but there were no closed system vial transfer devices (CSTD) being used to compound chemo products.
xii. The tile above the BSC (hood for sterile preparation of medications) was not properly aligned in its supporting structure with wires hanging through the space created. The tile was discolored on the inside, indicative of a water leak. Staff were unable to identify how long the tile had been askew. Plenum air was being introduced in the room without going through a HEPA filter.

Subsequent to inquiry, the wall and ceiling tile were swabbed by a facility microbiologist and submitted for culture. Review of the description of work completed monthly by cleaning contractor #1 identified that the ceilings and walls were mopped and sanitized on June 26, 2014.
xiii. Two chairs were observed to have considerable amount of rust on the base rendering an inability to effectively sanitize the equipment.
xiv. The LAFW HEPA filter had staining with no EM testing of the stain.

Hospital staff failed to recognize and correct the aforementioned concerns during day-to-day operations.

d. During tour of the hospital pharmacy on 7/21/14 at approximately 2:20 PM with the Pharmacy Manager identified the following concerns:

DATES OF VISIT: Commenced on July 16, 2014 and concluded on November 25, 2014

THE FOLLOWING VIOLATIONS OF THE REGULATIONS OF CONNECTICUT STATE AGENCIES AND/OR CONNECTICUT GENERAL STATUTES WERE IDENTIFIED

i. Patient's personal medications stored in manilla envelopes were observed in a drawer intermingled with coffee supplies. Review of Patient #25's medication envelope identified the patient was admitted on 1/23/07. Interview with the Pharmacy Manager on 7/21/14 identified that medication brought from home are stored in the pharmacy and returned to the patient upon discharge and/or thirty (30) days following discharge if the medications are not requested back.
ii. The narcotic refrigerator was not being monitored for temperature. Subsequent to inquiry, monitoring commenced.
iii. Clean gloves located outside of the infusion room were stored on top of the biohazard box.
iv. Approximately fifteen (15) bags of IV bags were observed to be hanging on hooks defrosting with a metal pan directly beneath to catch the water. The pan had collected dirt/debris from the overhead ceiling tile that was askew. Subsequent to inquiry, the IV bags were removed from circulation.

e. The following observations were made on 7/28/14 at approximately 3:00 PM and identified the following concerns:
   i. Gowns used for compounding were too low on the neck exposing skin of the Technician.
   ii. Pharmacy Technician #2 had a visible piercing. It was confirmed by RPH #2 that s/he had compounded that morning.

   During interview on 7/18/14 at approximately 2:00 PM, the Infection Control Nurse stated that s/he does not perform surveillance activities of the Pharmacy compounding rooms during environmental rounds (approximately every six months) as s/he expects the Department Managers to monitor day to day functions such as handwashing and the environment.

   Review of the Pharmacy policy for sanitizing procedures and staff competency for sterile compounding identify the importance of each step that is required during the sanitizing of the room and appropriate garbing. The policies stipulate that the Director of Pharmacy/Pharmacy designee will ensure adherence to these policy/procedures.

   Review of the compounding personnel hand hygiene and garbing competency directed jewelry and make-up should be removed prior to entry into the ante room and staff are aware of the line of demarcation separating clean and dirty sides.

DATES OF VISIT: Commenced on July 16, 2014 and concluded on November 25, 2014

THE FOLLOWING VIOLATIONS OF THE REGULATIONS OF CONNECTICUT STATE AGENCIES AND/OR CONNECTICUT GENERAL STATUTES WERE IDENTIFIED

6. *Based on observation, review of hospital documentation, policies, and interviews, the hospital failed to ensure that the physical environment and mechanical HVAC systems were being maintained efficiently and in compliance with federal and state laws.
   a. Review of reports completed by Company #1 (contracted service who provides environmental testing) during the period of January 2013 through August 2013 for the IV Infusion Center compounding rooms, identified mold growth in various areas in air and surface samples. There was mold growth in October, November, and December 2013. No issues were seen in January 2014 but fungi was again seen in February 2014. No issues were seen in April 2014. There was fungi growth in May and June 2014.

      The first action plan provided by the Pharmacy Manager is dated 4/10/14 for the mold growth seen in February 2014. The Manager was unable to speak to issues prior to employment date of February 1, 2014. It is a "rolling" plan where items are added but failed to address each specific finding in the contractor reports (refer to A-83 for specific issues). The action plan for 4/10/14 states "passed USP-797 standards but needs corrective action" despite mold growth on surfaces in the ante and chemo buffer areas. There are no action plans seen before 4/10/14 to ensure that the environmental concerns were addressed.

      During interview on 7/17/14 at approximately 5:15 PM, the Pharmacy Manager stated that s/he informed team members in infection control, environment of care and building services of the mold issue in the pharmacy and notified others via email, however, was unable to provide documentation that supported this. The Manager further stated that an action plan was developed that went to the environment of care committee in June 2014 to include HVAC revision however, no date of work was identified as IV compounding continued at the infusion center until 7/8/14, when the compounding room at the infusion center was closed.

      Review of the Environment of Care meeting minutes dated 4/16/2014 and attended by Assistant Vice President (AVP) #1, Director of Engineering, Pharmacy Manager and Infection Control Nurse #1, identified that there were concerns of not meeting the requirements of USP-797 for intravenous compounding secondary to the increasing temperatures greater than 68 degrees Fahrenheit and increasing humidity greater than 70%. An undersized HVAC system had been identified in August 2013, as the cause for the increasing humidity levels.

      During interview on 7/22/14 at 12:50 PM, the Director of Engineering stated that the former CEO/VP of Patient Care had been aware of the mold issues. Although the issue of mold had been discussed at several EOC (environment of care) meetings, less expensive changes (i.e.., covering the windows in one room) were made with a plan to address the HVAC system in the future.

DATES OF VISIT: Commenced on July 16, 2014 and concluded on November 25, 2014

THE FOLLOWING VIOLATIONS OF THE REGULATIONS OF CONNECTICUT STATE AGENCIES AND/OR CONNECTICUT GENERAL STATUTES WERE IDENTIFIED

b. Review of reports completed by Company #1 & Company #2 (contracted service who provides environmental testing) for the Hospital Pharmacy compounding rooms, identified mold growth in various areas in air and surface samples in February 2013, June 2013, and July 2013, with the February 2013 surface sample at the edge of the BSC.

Review of hospital documentation and interviews during the course of the inspection failed to identify that an action plan was developed pursuant to the environmental testing reports in February 2013, June 2013, and July 2013, There were no action plans to demonstrate that remediation was completed to address these findings and ensure that the environment of care was maintained to ensure the safety of the patients.

7. *Based on observation, review of hospital documentation, interviews, and policies and procedures, the hospital failed to ensure that the physical environment of the I.V. Infusion Center (Enfield Campus) and the main hospital was in compliance with federal and state laws (USP-797) as required. The findings include the following:
   a. Observations of dirt and debris were identified in the Ante, Chemo and I.V. Rooms on the floor near the cove base in the Hospital on 7/21/14 and I.V. Infusion Center on 7/16/14.
   b. Ceiling tiles were found in the Ante, Chemo and I.V. rooms that were not sealed/caulked in place to prevent contamination and/or air pressure loss in the Hospital on 7/21/14 and I.V. Infusion Center on 7/16/14.
   c. There were areas on the walls in the Ante, Chemo and I.V. Rooms where paint was chipping in the I.V. Infusion Center identified on 7/16/14.
   d. There was ceiling discoloration and damage identified in the bathroom and storage room in the I.V. Infusion Center identified on 7/16/14.
   e. There was a separation of the welded seam identified in the floor of the Hospital Pharmacy identified on 7/21/14.

   Review of work orders with the Director of Engineering on 7/17/14, it was identified that an adequate and effective preventive maintenance program could not be produced to utilize and track daily preventive maintenance work orders and other daily maintenance performed. The work orders that were supplied had incorrect detailed information such as incorrect staff names performing work, incorrect times of completion, and inadequate work requested/performed and actions taken for correction.

DATES OF VISIT: Commenced on July 16, 2014 and concluded on November 25, 2014

THE FOLLOWING VIOLATIONS OF THE REGULATIONS OF CONNECTICUT STATE AGENCIES AND/OR CONNECTICUT GENERAL STATUTES WERE IDENTIFIED

8. *Based on observation, review of hospital documentation, policies and procedures and interviews the hospital failed to ensure that the air handling equipment in the I.V. Infusion Center (Enfield Campus) and the main hospital was in compliance with federal and state laws (USP-797) as required. The findings include the following:
   a. During a tour of the facility on 7/16/14 with Director of Engineering, it was observed that the Ante room, IV room and Chemo Buffer room were not supplied with an air handling system which was separated from the main air handling system that supplies the entire facility at the I.V. Infusion Center.
   b. There were no pressure gauges to monitor the pressure of the Ante, Chemo and I.V. Buffer rooms in the Hospital and I.V. Infusion Center.
   c. There was a damper attached to the ventilation system on the Biological Safety Cabinet which is non-compliant to the proper ventilation of this area in the I.V. Infusion Center identified on 7/16/14.
   d. The air return registers in these areas were identified as returning room air back into the ceiling plenum and being recirculated back to the room, there was no indication that fresh air was being brought into the room through a compliant HVAC system and supplied to HEPA filters and returning to the air handler as required in the I.V. Infusion Center identified on 7/16/14.
   e. Review of facility documentation and interview with the Director of Engineering on 7/16/14 failed to identify which HEPA filters were changed specifically and the frequency of the changes at the Hospital and I.V. Infusion Center.

9. *Based on a review of hospital documentation, review of hospital policies and interviews, the hospital failed to ensure the Infection Control program effectively evaluated and monitored the presence of mold/fungus identified during environmental testing at the IV Infusion center and the hospital pharmacy dating back to 1/13 to establish a plan of surveillance to maintain a mold-free environment. The findings include the following:
   a. Review of reports completed by Company #1 & Company #2 (contracted service who provides environmental testing) during the period of January 2013 through May 2014 identified the presence of mold/fungus at the IV Infusion Center and the hospital pharmacy compounding room.

      Review of the Infection Control Minutes for the period of 10/14/13 through 5/2014, failed to identify that this was a concern. Although committee membership included physicians, nurses, pharmacists, facility environmental maintenance and microbiology, the hospital representatives failed to share information to establish a plan of surveillance/monitoring to maintain a mold-free environment.

      During interview on 7/18/2014 at approximately 2:20 PM, the Infection Control Nurse (ICN #1) stated that s/he did know of the mold problem at the outpatient infusion center however, did not complete surveillance rounds of the pharmacy compounding room at the IV Infusion center or the hospital pharmacy. ICN #1 further stated that MD #2 was aware of the mold problem and suggested that it could be coming from the air handling

system however, ICN #1 failed to document any suggestions and/or bring the matter before the Infection Control Committee.

During interview on 7/17/14, MD #1 (Medical Director of Infusion Center) stated that s/he was first aware of a mold problem approximately one year ago (August 2013) when the infusion center closed for one month for remediation of the problem. MD #1 stated that the Program Director of the Infusion center notified him/her of the mold growth problem in May 2014, however, was unaware of the plan to remediate of the problem.

During interview on 7/28/14 at 1:00 PM, MD #2 (infectious disease) stated that s/he was aware that there had been a mold problem in the pharmacy since approximately August of 2013. MD #2 stated that the facility (outpatient infusion center) had closed in response. Although the physician was aware of the mold problem, there was a failure to participate in the solution and/or to complete a risk analysis to determine the level of risk to the patients being served.

During interview on 7/23/14 at 9:15 AM, AVP #1 stated that s/he was unaware of the mold growth problem until 7/8/14, when the issue was brought to the attention of the CEO and the infusion center was closed for remediation. Review of the Environment of Care (EOC) meeting dated March 19, 2014 identified that the clean room did not pass inspection and AVP #1 questioned if the room was "ok" to use. The EOC meeting minutes dated 4/16/14, reflected that AVP #1 was present when the Pharmacy Manager identified mold/fungus was present in the IV infusion center secondary to high temperatures/humidity/room pressures which did not meet the standards of USP-797 for compounding intravenous solutions.

Review of the job description of the Infection Control Nurse (ICN) identified that the ICN was accountable to the VP of Patient Care Services and the hospital epidemiologist for effectively managing resources, assessing and evaluating infection control practices and the program itself within the hospital.

Review of the infection control policy for monitoring and compliance directed that infection control and environmental rounds shall be conducted annually in all departments and biannually in patient care/clinical areas in conjunction with the environment of care team (engineering, building services & quality) to monitor adherence to hospital-wide and department specific infection prevention policies.

DATES OF VISIT: Commenced on July 16, 2014 and concluded on November 25, 2014

THE FOLLOWING VIOLATIONS OF THE REGULATIONS OF CONNECTICUT STATE AGENCIES AND/OR CONNECTICUT GENERAL STATUTES WERE IDENTIFIED

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) and/or (c) Medical staff (4)(A) and/or (e) Nursing service (1) and/or and/or (i) General (6).

10. *Based on tour of the facility, review of facility documentation, and interviews, the facility failed to ensure the LDRP unit was maintained in a safe manner to eliminate risk of newborn abduction. The finding includes:
    a. On 10/06/14 at 9:45 hours, the surveyor along with a Supervising Nurse Surveyor and the Director of Facilities observed that the LDRP rooms were located on the first floor (ground level) and the windows were secured with Philips screws through window stops and into the window frame. The LDRP windows had been identified as a security risk for infant abduction during the survey ending 10/31/13 as the windows could be fully opened. Review of the plan of correction to address that concern identified that the plan for high security windows would be initiated on 11/24/13. Interview with the Director of Facilities on 10/6/14 stated the windows were reviewed with security staff and a glass vendor with a plan to replace the glass in the windows with "security glass", however, to date was not completed. Subsequent to these observations and discussion with facility administration, an interim measure of installing security screws (tamper resistant) were installed into the window stops and frames on 10/06/14.

The following are violations of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) and/or (d) Medical records (3) and/or (e) Nursing service (1) and/or (i) General (6).

11. Based on a review of clinical records and policy review, the facility failed to ensure that one of three patients' reviewed for restraint use (#59) had an order for restraints and/or documentation reflected behaviors that warranted the use of restraints and/or alternatives attempted prior to the implementation of restraints. The finding includes the following:
    a. Patient #59 was admitted to the facilty on 9/14/14 with schizoaffective disorder. Review of Patient #59's monitoring flow sheet dated 9/17/14 identified that the patient was placed in four-point restraints at 3:15 PM. The order failed to direct the type of restraint to be applied, the behavior that necessitated the use of restraints and/or less restrictive interventions considered prior to the use of restraints. Review of the facility policy indicated that orders should include the date, time, behaviors of the patient, type of restraint and duration of use.

12. Based on a review of clinical records, interview and policy review, the facility failed to reduce and/or discontinue restraints at the earliest possible time for one of three patients' reviewed for restraint use (#59). The finding includes the following:
    a. Patient #59 was admitted to the facilty on 9/14/14 with schizoaffective disorder. The clinical record indicated that the patient was placed in four-point restraints on 9/15/14 at 7:30 PM for biting, scratching and fighting. Review of the monitoring flow sheet during the period of 8:45 PM through 9:30 PM reflected the patient was "quiet", however, remained in four-point restraints. The facility failed to ensure that restraints were

reduced and/or discontinued at the earliest possible time based on the behaviors exhibited. Interview with the ED Director on 10/9/14 at 11:00 AM stated facility policy directs the discontinuation of restraints when able and not to decrease based on behaviors. Review of the facility policy indicated that each restraint should be removed at the earliest possible time. The RN should assess the patient for behaviors to discontinue restraints.

13. Based on a review of clinical records and policy review, the facility failed to ensure that for one of three patients' (#59) reviewed for restraint use was monitored in accordance with facility policy. The finding includes the following:
    a. Patient #59 was admitted to the facilty on 9/14/14 with schizoaffective disorder. Patient's #59 was placed in the four-point restraints on 9/16/14 at 10:00 PM for attempting to hit staff. Review of the monitoring flow sheet indicated that the facility failed to ensure that the patient's range of motion was monitored from 10:00 PM through 9/17/14 at 1:45 AM in accordance with facility policy. The policy directed that patient needs, (repositioning, fluid, nutrition, toileting and range of motion) should be addressed every two hours.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (c) Medical staff (4)(A) and/or (d) Medical records (2).

14. Based on a review of clinical records, review of Medical Staff Bylaws & Rules and Regulations, and interview, then hospital failed to ensure the history and physical (H&P) was completed prior to the procedure for one of three endoscopy patients' in accordance with hospital Bylaws. The finding includes:
    a. Review of Patient #32's record identified that on 10/6/14, the patient underwent an upper endoscopy with the use of anesthesia medication. Review of the record failed to identify the completion of an H&P. During interview the VP of Patient Care Services on 10/7/14 at approximately 10 AM stated that the form had been redone within the last year to include the H&P, however, the updated form was not used in this case. Review of the Medical Staff Bylaw Rules and Regulations directed that outpatient procedures require a focused H&P based on a chief complaint with relevant history and the procedure being performed within thirty days prior to the procedure.

The following are violations of the Regulations of Connecticut State Agencies Section 19-13-D3 (d) Medical records (3) and/or (e) Nursing service (1) and/or (i) General (6).

15. Based on a review of clinical records, interview, and policy review, for one of three records reviewed for blood pressure monitoring (Patient 337), the hospital failed to ensure that physician's orders were followed. The finding includes:
    a. Patient #37 was admitted on 10/2/14 with depression and polysubstance abuse. Review of the physician admission orders dated 10/2/14 directed orthostatic blood pressures twice a day. Review of the clinical record failed to identify that orthostatic blood

pressures were obtained on 10/3/14, and obtained once on 10/4/14.

16. *Based on a review of clinical records, interview, and policy review, for five (5) of five patient's reviewed (Patient #34, 35, 36, #37, and #59), the hospital failed to ensure safety assessments were accurately completed. The findings include the following:
    a. Patient #34 was admitted to the facility on 10/3/14 with depression and suicidal ideation with a plan. Review of the daily nursing flowsheets with the Nursing Director identified a safety section that addressed the patients' risk factors on a scale of 1 (none) to 5 (severe) for suicidality, homicidality, violence, impulsive behaviors, elopement and falls. The record reflected that staff failed to accurately assess the patient utilizing the numeric scale but instead documented, "safe" and/or "remained safe".
    b. Patient #35 was admitted to the facility on 10/1/14 with alcohol abuse. Record review with the Nursing Director failed to identify that staff accurately assessed the patient for suicidality, homicidality, violence, impulsive behaviors, elopement and falls utilizing the numeric scale but instead documented, "safe" and/or "remained safe".
    c. Patient #36 was admitted on 9/30/14 with suicidal ideation with a plan. Record review with the Nursing Director failed to identify that staff accurately assessed the patient for suicidality, homicidality, violence, impulsive behaviors, elopement and falls utilizing the numeric scale but instead documented, "safe" and/or "remained safe".
    d. Patient #37 was admitted on 10/2/14 with depression and polysubstance abuse. Record review with the Nursing Director failed to identify that staff accurately assessed the patient for suicidality, homicidality, violence, impulsive behaviors, elopement and falls utilizing the numeric scale but instead documented, "safe" and/or "remained safe".
    e. Patient #59 was admitted on 9/14/14 after attempting to hurt self with a razor by cutting wrists. Record review with the Nursing Director failed to identify that staff accurately assessed the patient for suicidality, homicidality, violence, impulsive behaviors, elopement and falls utilizing the numeric scale but instead documented, "safe" and/or "remained safe".

    Interview with the Nurse Director of the unit on 10/7/14 at 1:30 PM stated staff should be documenting the assessment utilizing the numeric scale and realized that form needed to be revised. The Director stated there is no policy related to the use of the form, however the form directs staff to document by using a numeric scale related to risk level.

17. Based on a review of clinical records, interview, and policy review, for one of two patient's reviewed for Pitocin therapy (Patient #47), the hospital failed to ensure that uterine resting tone was assessed in accordance with facilty policy. The finding includes the following:
    a. Patient #47 was admitted on 10/5/14 at 6:52 PM for induction of labor. A physician's order dated 10/5/14 at 8 PM directed initiation of the Pitocin protocol. The clinical record identified that Pitocin was started per protocol at 8:19 PM. Review of the nursing flow sheets during the period of 7:44 PM on 10/5/14 through 7:51 AM on 10/6/14 failed

to identify that nursing documented assessments of the patient's uterine resting tone while the patient received Pitocin. Review of the facility policy and interview with the Nurse Manager on 10/6/14 at 2PM identified that the resting tone should be assessed minimally every hour unless otherwise ordered by the physician.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) and/or (g) Pharmacy (1).

18. *Based on observation, interviews, and policy review, the hospital failed to ensure the technician followed procedure in preparation for sterile drug compounding activities. The finding includes the following:
    a. On 10/7/14 at 1:32 PM, Pharmacy Technician #6 was observed to enter the compounding room and proceeded to don shoe covers, head cover, and face mask. The technician performed hand hygiene by washing hands for twenty (20) seconds, dried hands then donned a gown that allowed skin exposure (neck). Review of the compounding Personnel Hand Hygiene and Garbing Competency and interview with the Director of Pharmacy on 10/7/14 at 1:45 PM stated the Technician should have washed hands for thirty (30) seconds and prevent skin from being exposed.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (e) Nursing Service (1) and/or (i) General (6).

19. Based on observation and interview, the controlled drug storage area at the Johnson Surgical Center failed to ensure security of drugs. The finding includes:
    a. During tour of the Johnson Surgical Center on 10/10/14, observation of the locked safe for the storage of controlled medication identified a key locking mechanism. The keys utilized to lock the safe were stored in a desk drawer which was locked at the end of the clinical day, however, the key was kept on a hook in a cabinet adjacent to the desk. When interviewed on 10/10/14 at approximately 9:30 AM, about the security of the process, since other services were offered in that same building, the VP of Patient Care Services and the Charge Nurse identified that a locking format (i.e. the acudose medication machine) was a more secure option for storing the key when the surgical center was not occupied and initiated that procedure.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) and/or (i) General (6) and/or (l) Infection control (1).

20. Based on observation and interview, the hospital failed to ensure that an anesthesia medication pump had a current biomedical status check and/or was pulled from use when the pump could no longer be cleaned effectively. The finding includes:
    a. During tour of the endoscopy procedure room (#3) at the Surgical Center on 10/10/14, a medication pump utilized for the administration of anesthesia medication was observed to be lacking a biomedical sticker and the front face of the machine was dented and

curled so that it could not be cleaned effectively between patients. During tour the pump was pulled from service to be reconditioned by the Manager of Peri-operative Services who stated that the pump should have been pulled earlier from service.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) and/or (i) General (6).

21. Based on observation, the emergency carts in the surgical center failed to be free and clear of obstacles. The finding includes:
    a. Observation of the pediatric and adult emergency carts located at the Johnson Surgical Center, identified that their location was blocked by a large patient recliner which were adjacent to a patient recovery area. Although the recliner was empty, the recliner needed to be moved first before the emergency cart could be accessed. Subsequent to inquiry, the recliner was relocated to an adjacent area by the VP of Patient Care Services.

The following are violations of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) and/or (c) Medical staff (4)(A) and/or (e) Nursing service (1) and/or (i) General (6) and/or (l) Infection control (1).

22. Based on observation and interview, the hospital endoscopy suite (two rooms and a scope cleaning room between) failed to have a soiled to clean pathway for cleaning and movement of the scopes. The finding includes:
    a. During tour of the hospital endoscopy suite on 10/8/14, it was identified that with two procedure rooms on either side feeding into the scope cleaning room (soiled) and the soiled sink located between two scope cleaning machines (clean), there failed to be a pathway of soiled to clean. Additionally, the cleaned scopes were hung in a closet in the soiled room. During interview with the Manager of the Endoscopy Suite on 10/8/14, the Manager stated that a new cupboard for the cleaned scopes was on order, however, no other plan was offered to correct the cleaning process.

23. Based on observation during tour, infection control practices failed to be implemented. The findings include:
    a. During tour of the endoscopy room (#3) on 10/6/14, the scope cleaning room door (connecting to room #3) was observed to be propped open with a cart and miscellaneous supplies. The door located between the scope cleaning room and Room #3 had a round doorknob, failing to give access to the cleaning room that could be accessed by elbows when clinician's hands were full.
    b. During tour of the surgical center, the soiled utility room failed to have a doorknob (lever) that allowed accessibly when clinician's hands were full. Additionally, this door did not self-close but remained open several inches.
    c. Throughout the facility there was delamination of cupboard doors that inhibited cleaning of the environment.

DATES OF VISIT: Commenced on July 16, 2014 and concluded on November 25, 2014

THE FOLLOWING VIOLATIONS OF THE REGULATIONS OF CONNECTICUT STATE AGENCIES AND/OR CONNECTICUT GENERAL STATUTES WERE IDENTIFIED

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (c) Medical staff (4)(A) and/or (d) Medical records (3).

24. Based on a review of clinical records, interview and policy, for four of six clinical records reviewed (#31, #33, #44 and 46), the hospital failed to ensure that post-anesthesia evaluations were conducted, and/or legible and/or complete. The findings include:
    a. Review of Patient #31's record identfied that the patient underwent a colonoscopy on 10/6/14 and was medicated with 500 mg Propofol. The record failed to reflect that a post anesthesia evaluation was completed. During interview on 10/8/14 at 11:15 AM, the Chief of Anesthesia stated that although s/he was currently working on developing a policy, the expectation is for the outpatient to be evaluated prior to discharge.
    b. Review of Patient #33's record identified that the patient underwent a right carpal tunnel revision on 10/6/14. Although the post anesthesia evaluation was completed, the document failed to be legible and thus it appeared that the patient was evaluated for anesthesia recovery prior to leaving the operating room.
    c. Review of Patient #45's record identified that the patient underwent a right thoracotomy on 10/2/14. Review of the post anesthesia evaluation, while dated and signed, failed to be timed, ensuring the adequate recovery of the patient to participate in the recovery evaluation following general anesthesia.
    d. Patient #46 was admitted to the hospital on 10/3/14 for an open reduction internal fixation (ORIF) of a right hip fracture. Review of the clinical record and interview with the Nurse Manager on 10/7/14 failed to reflect the time in which the post anesthesia evaluation was completed.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) and/or (c) Medical staff (2)(A) and/or (4)(A) and/or (i) General (6).

25. Based on observation, review of hospital documentation, interviews, and hospital policy for patients receiving emergency care and services, documentation and interviews failed to reflect that adequate medical coverage was present in the Emergency Department (ED) as per policy. The finding includes:
    a. Tour and observation in the ED on 10/6/14 at approximately 11:20 AM identified that approximately 20 patients were located in the department. An observation was made of the ED Medical Director being summoned to the Labor and Delivery Department for a possible neonatal resuscitation (Patient #48). Review of the ED Provider Schedule dated 10/6/14 identified that one Physician Assistant was present in the ED for medical coverage. Interview with the ED Medical Director on 10/8/14 at 12:20 PM identified that the ED physicians do have responsibilities outside the ED and that a hospitalist could be called for ED coverage if needed. Review of the Department of Emergency Standards for Staffing Policy indicated that physician coverage was provided 24-hours a day and additional coverage was provided 12 hours per day by midlevel providers (PA/APRN).

DATES OF VISIT: Commenced on July 16, 2014 and concluded on November 25, 2014

THE FOLLOWING VIOLATIONS OF THE REGULATIONS OF CONNECTICUT STATE AGENCIES AND/OR CONNECTICUT GENERAL STATUTES WERE IDENTIFIED

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (c) Medical staff (4)(A) and/or (d) Medical records (3).

26. Based on a review of clinical records, interview, and policy review, for two of three records reviewed (Patient #42 and 43) , the hospital failed to ensure the referring physician authenticated the outpatient evaluation for therapy services in a timely manner in accordance with hospital policy. The findings include the following:
    a. Patient #42 had a diagnosis that included CVA with hemiparesis. A physician's order dated 9/12/14 directed an Occupational Therapy (OT) evaluation. Although the OT evaluation was completed on 9/17/14, the record failed to reflect that the physician signed the evacuation. Interview with Physical Therapist #5 on 10/5/14 at 2:30 PM stated the process was for the secretary to fax the evaluation to the physician for signature and monitor for timely response. Subsequent to inquiry, the physician signed the evaluation on 10/6/14.
    b. Patient #43 had a physician's order dated 7/28/14 for a Speech Therapy (ST) evaluation. Although the ST evaluation was completed on 8/8/14, the record failed to reflect that the physician signed the evaluation. Interview with Speech therapist on 10/6/14 at 2:45 PM reiterated that the secretary monitors the response and sometimes encounter difficulty with certain physicians. Subsequent to inquiry, the physician signed the evaluation on 10/7/14.

    Review of the Referrals and Responsibilities policy identified that outpatient referrals are faxed to the referring physician within 24 hours of the initial visit for signature by secretarial staff. If the signature is not received within 14 days of faxing, secretarial staff will follow-up with a phone call to the physician's office at least every other day. If the signature is not received by the 25th day following the initial evaluation, the patient and physician will be informed that therapy with be terminated on the 30th day until the signature has been received.

The following are violations of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) and/or (i) General (6).

27. The facility did not ensure that emergency lighting of at least 1½-hour duration is provided, as required by " Life Safety Code " section #'s 7.9 & 19.2.9.1
    a. On 10/07/14/12 at 2:00 PM, the surveyor was not provided with documentation from the Director of Engineering to indicate that the battery backup emergency lights were tested for 90 minutes annually at the CDP Building (153 Hazard Ave) as required by section #7.9 of the referenced " Life Safety Code " ; i.e. reports not obtained from property owner.
    b. On 10/07/14/12 at 2:00 PM, the surveyor was not provided with documentation from the Director of Engineering to indicate that the battery backup emergency lights were inspected for 30 seconds a month at the CDP Building (153 Hazard Ave) as required by

DATES OF VISIT: Commenced on July 16, 2014 and concluded on November 25, 2014

THE FOLLOWING VIOLATIONS OF THE REGULATIONS OF CONNECTICUT STATE AGENCIES AND/OR CONNECTICUT GENERAL STATUTES WERE IDENTIFIED

section #7.9 of the referenced " Life Safety Code " ;i.e. reports not obtained from property owner.

28. The facility did not ensure that fire drills were held at unexpected times under varying conditions at least quarterly on each shift as required by the referenced LSC.

    On 10/07/14/12 at 11:00 AM, the surveyor was not provided with documentation from the Maintenance Technician to indicate that fire drills were held at unexpected times at the **Johnson Surgery Center**, as required by section # 21.7.2 of the " Life Safety Code " ; i.e. automated work order system directs maint tech to conduct drills within 10 days of alert-all drills done on 20th or 21st of each month.

29. The facility did not ensure that there is an automatic sprinkler system installed in accordance with NFPA 13, Standard for the Installation of Sprinkler Systems, to provide complete coverage for all portions of the building. The system is properly maintained in accordance with NFPA 25, Standard for the Inspection, Testing, and Maintenance of Water-Based Fire Protection Systems. It is fully supervised. Required sprinkler systems are equipped with water flow and tamper switches, which are electrically connected to the building fire alarm system.

    On 10/07/14 at 1:15 PM, the surveyor along with the Regional Director of Engineering observed that the sprinkler system water supply for the **Main Campus** from the fire pump had valves that were not supervised by the facility fire alarm and all valves lacked tags identifying there function as required.

30. The facility did not ensure that the facilities air conditioning and ventilation equipment was in accordance with NFPA 90A: Standard for the Installation of Air Conditioning and Ventilation Systems, NFPA 72 National Fire Alarm Code and as required by the referenced LSC.

    On 10/08/14 at 10:30 AM, the surveyor was not provided with documentation from the Director of Engineering that indicated the smoke dampers and mechanical fire dampers identified as deficient or that had no access on the damper testing report were repaired and/or that the facility had an plan of correction in place to address the deficiencies as required.

31. The facility did not ensure that Emergency and Standby Power Systems were being installed, inspected and maintained as required in NFPA 110 "Standard for Emergency and Standby Power Systems" and NFPA 99 "Health Care Facilities".

    On 10/07/14 at 1:00 PM, the surveyor along with the Director of Engineering observed that the facilities newly installed (12/2013) emergency generators were not secured to the concrete pad as required and the two housings identified as Generator 1 and Generator lacked emergency

shutdowns as required by section 3-5.5.6 Subsequent interview of the facility electrician identified that the facility was unable to ensure that the facility emergency electrical power was divided into three (3) separate and distinctive branches (1) Life Safety Branch, (2) Critical Branch and (3) Equipment Branch as required by NFPA 99 and NFPA 70, i.e. when interviewed the electrician was unable to tell me which transfer switch covered each branch and the transfer switches were not identified and no drawings were available.

32. The facility did not ensure that Emergency and Standby Power Systems were being inspected and maintained as required in NFPA 110, *" Standard for Emergency and Standby Power Systems ".*

    On 10/07/14 at 9:00 AM, the surveyor while accompanied by the Maintenance Technician observed that consideration was not given for the location of the temporary generator located at Johnson Surgery Center that minimized the possibility of damage from conditions such as vandalism, sabotage, and other similar occurrences, as required by section # 5-2 of NFPA 110, " Standard for Emergency and Standby Power Systems " .i.e. portable generator found to have access panels unlocked, wheels not chocked or secured, trailer tongue not locked or bollards installed.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2).

33. Based on a review of clinical records and interview, the facility failed to ensure that one of four patients' (#34) were assessed by the social worker. The finding includes the following:
    a. Patient #34 was admitted to the facility on 10/3/13 with depression and suicidal ideation with a plan. Although the record reflected a note by the social worker on 10/3/13 and 10/7/13, the clinical record failed to reflect that a social work assessment had been completed. Interview with the Nursing Director on 10/6/14 indicated that the social work assessments are to be completed within 72 hours of admission.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) and/or (c) Medical staff (4)(A).

34. Based on a review of clinical records, interview and policy review the facility failed to ensure that a comprehensive psychiatric evaluation was completed for three of three psychiatric patients (Patient #35, 36, and 37). The findings include the following:
    a. Patient #35 was admitted to the facility on 10/1/14 with Alcohol abuse. Review of the physician's psychiatric admission assessment dated 10/2/14 identified that the areas long term goals and initial treatment plan for the patient were left blank.
    b. Patient #36 was admitted on 9/30/14 with suicidal ideation. Review of the physician's psychiatric admission assessment dated 10/1/14 identified that the areas long term goals and initial treatment plan for the patient were left blank.
    c. Patient #37 was admitted on 10/2/14 with depression and polysubstance abuse. Review

of the physician's psychiatric admission assessment dated 10/3/14 identified that the areas long term goals and initial treatment plan for the patient were left blank.

Interview with the Nurse Manager on 10/7/14 at 1:30 PM indicated that all areas of the psychiatric assessment should be completed. Review of the policy indicated with within twenty-four hours of admission a psychiatric evaluation will be completed. The policy indicated that the evaluation will include in part the patients long-term goals and goals/plan for treatment.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) and/or (c) Medical staff (4)(A) and/or (d) Medical records (2).

35. Based on a review of clinical records and policy review, the facility failed to develop individualized psychiatrically focused interventions for three of five sampled patients (#34, 37, and 59). The interventions are generic and denote routine clinical responsibilities for the clinical discipline rather than being patient specific. This deficiency results in treatment plans that do not reflect a comprehensive, integrated individualized approach to patient care.
    a. Patient #34 was admitted to the facility on 10/3/13 with diagnoses that included depression with suicidal ideation with a plan. The master treatment plan dated 10/3/14 listed the physician intervention "clarify diagnosis, assess medication trials for tolerance and effect, establish presence of hopelessness and impulsivity, for the problem, "Depression".

    Nursing interventions to address the same concern include, monitor appetite, hydration, rest/activity, and sleep cycles, develop therapeutic relationship, educate regarding signs and symptoms of depression, exacerbation of symptoms and medication, promote independent ADL's.

    Occupational therapy interventions to address depression include monitor behavior and assess functional status to determine group readiness, positively reinforce socialization and participation and patient will attend 100% of groups.

    Review of the group notes from 10/3/13 through 10/7/13 (discharge) failed to identify that the patient attended 100% of the groups The treatment plan failed to reflect alternative interventions when groups were not attended and/or available on weekends to assist the patient in achieving the desired therapeutic goals.

    b. Patient #37 was admitted on 10/2/14 with depression and polysubstance abuse. The treatment plan dated 10/3/14 listed the physician intervention "clarify diagnosis, assess medication trials for tolerance and effect, establish presence of hopelessness and impulsivity, for the problem, "Depression".

THE FOLLOWING VIOLATIONS OF THE REGULATIONS OF CONNECTICUT STATE AGENCIES AND/OR CONNECTICUT GENERAL STATUTES WERE IDENTIFIED

Nursing interventions to address the same concern include, monitor appetite, hydration, rest/activity, and sleep cycles, develop therapeutic relationship, educate regarding signs and symptoms of depression, exacerbation of symptoms and medication, promote independent ADL's, encourage patient to seek staff if increase in depression.

Occupational therapy interventions to address depression include monitor behavior and assess functional status to determine group readiness, positively reinforce socialization and participation and patient will attend 85% of groups.

Review of the group notes from 10/4/14 through 10/5/14 failed to identify that the patient attended 85% of the groups The treatment plan failed to reflect alternative interventions when groups were not attended and/or available on weekends to assist the patient in achieving the desired therapeutic goals.

c. Patient #59 was admitted on 9/14/14 with depression and schizoaffective disorder. The treatment plan dated 9/14/14 listed the physician intervention "clarify diagnosis, assess medication trials for tolerance and effect, establish presence of hopelessness and impulsivity, for the problem, "Depression".

Nursing interventions to address the same concern include, monitor appetite, hydration, rest/activity, and sleep cycles, develop therapeutic relationship, educate regarding signs and symptoms of depression, exacerbation of symptoms and medication, promote independent ADL's, encourage patient to seek staff if increase in depression.

Occupational therapy interventions to address depression include monitor behavior and assess functional status to determine group readiness, positively reinforce socialization and participation and patient will attend two thirds (2/3) of the of groups.

Review of the group notes from 9/14/14 through 9/26/14 failed to identify that the patient attended two thirds of the groups The treatment plan failed to reflect alternative interventions when groups were not attended and/or available on weekends to assist the patient in achieving the desired therapeutic goals.

Review of the policy indicated that the treatment plan specifies the methods for achieving the goals. Assessment of the patients progress to reach the goals should be reviewed and any needed changes in the treatment plan should be documented.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2).

36. Based on a review of facility documentation and interview, the facility failed to ensure there was a qualified Director of Social Services responsible to supervise the quality of Social Services being provided in the psychiatric unit. The finding includes the following:
    a. Review of facility documentation indicated that the Social Worker on the psychiatric

unit reports to the Nursing Director of the unit, who is a Registered Nurse. Interview with the Nurse Manager on 10/7/14 at 2:00 PM indicated that the Social Worker on the unit reports directly to Nurse Director. The Nurse Director indicated that s/he completes the performance evaluations for the Social Worker. The facility failed to ensure that there was a Director of Social Services who monitors and evaluates the quality of the social services provided.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) and/or (c) Medical staff (4)(A).

37. Based on a review of facilty documentation and interview, the facility failed to ensure that a sufficient number and/or quality of therapeutic groups to assist the patients to achieve the desired outcomes. The finding includes the following:
    a. Review of the therapeutic program identified that the facility is presently providing two therapeutic occupational therapy groups each day Monday through Friday at 11:00 AM and 1:30 PM. Interview with the Nurse Director of the unit on 10/7/14 at 1:00 PM stated these are the only therapeutic groups offered at this time and there are no groups on the weekends. The Director indicated that presently the Occupational Therapist (OT) runs the two groups and in the process of hiring a second Social Worker to assist in adding more groups.

       Subsequent to surveyor inquiry regarding the content of the groups the Director supplied a binder of mimeograph worksheets. Interview with the Director indicated that all patients are encouraged to attend the groups and the groups are tailored to the patients on the unit at that time.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) and/or (g) Pharmacy (1) and/or (i) General (6).

38. *Based on observation, interviews, and policy review, the hospital, who compounds sterile pharmaceuticals, failed to ensure proper infection control practices were maintained. The findings include:
    a. During tour of the hospital pharmacy compounding rooms on 11/24/14 during the period of 10:25 AM and 3:00 PM with the Acting Pharmacy Director and Representative from the Quality Department identified the following concerns:
    b. Technician #11 compounding in the biological safety cabinet (BSC) was observed wearing a necklace, although policy directs that no jewelry can be worn upon entry into the ante room.
    c. Technician #11 was observed placing the overwrap from the sterile gloves on the air vent throughout the compounding process obstructing the air vents.
    d. Technician #11 working in the BSC, was observed to finish compounding a chemotherapy agent, reach into the Laminar Flow work bench (LAFW) to obtain vial

seals without changing any Personal Protective equipment (PPE) including the gloves. This was observed on multiple occasions.

e. Technician #10 failed to clean the (BSC) before starting a batch preparation.
f. During compounding, Technician #10 was seen stacking all the overwraps from gloves, needles, syringes and other supplies against the back wall of the BSC obstructing the air vents.
g. Observed alcohol swabs and needle left in an unused LAFW from previous compounding activities. No explanation could be provided for this practice.
h. In the Ante area, dust and construction debris was observed on the coving ledge under the new sink that was installed around 9/26/14 (2 months prior to this inspection). Facility policy directs that any horizontal surface must be cleaned daily.
i. Observed yellow material on the left side of the LAFW including in the channel where the side partition sits. Using a sterile alcohol pad, parts of the yellow material could be easily removed. Interview with Pharmacy staff stated this substance was not from mixing on that day. Facility policy directs that this area should be cleaned daily.
j. Near the door of the Ante area from the main pharmacy, uneven caulking was visualized around the interface between the new door frame and the old door frame. Streaks of caulking was observed on the grid over the HEPA filter in the buffer area. Large beaded caulking was observed behind the BSC at the juncture of ceiling and wall and excess caulking was noted on the areas of the grid holding the ceiling tiles in place and around the duct work used for venting the BSC. This created non-smooth surfaces rendering proper cleaning difficult and creating a potential for dirt to gather.
k. Observed abrasions on two ceiling tiles in the buffer area which removed the top layer and exposed the material underneath rendering an inability to properly cleanse the surface.

During interview on 11/25/14 at 2:50 PM, the ICN (infection control nurse) stated that while surveillance rounds continued within all parts of the inpatient and outpatient areas of the hospital, the pharmacy had not been surveyed until 11/25/14, for a preplanned visit. Review of the plan of correction relative to the initial survey completed on 8/5/14 identified that the ICN would include the pharmacy compounding rooms into routine surveillance with reports back to the Infection Control Committee and Quality Improvement beginning 8/30/14.

Interview with the interim Pharmacy Director on 11/24/14 at 3:30 PM stated s/he is new in this position and is working closely with Administration and a Pharmacy Consultant to remediate concerns identified in the Pharmacy Department.

Review of the job description for the Manager of Pharmacy reflected responsibility for the management and coordination of resources on a daily basis including anticipation and identification of potential problems in either direct pharmaceutical care and/or assigned area of operations with facilitation of an effective resolution of problems.

DATES OF VISIT: Commenced on July 16, 2014 and concluded on November 25, 2014

THE FOLLOWING VIOLATIONS OF THE REGULATIONS OF CONNECTICUT STATE AGENCIES AND/OR CONNECTICUT GENERAL STATUTES WERE IDENTIFIED

RE: Response to Department of Public Health letter dated December 31, 2013

Dear Ms. Newton:

Enclosed herewith please find Johnson Memorial Medical Center's plan of correction in response to the Statement of Violations related to the Facility and Licensing and Investigations survey on October 28 through October 31, 2013.

The plan of correction includes measures to prevent the recurrence, date corrective actions will be effective, and accountable person(s). Please contact Karl Kamyk, M.B.A., Director of Quality/Risk Management at (860) 684-8498 if you should have any further questions.

Sincerely,

Stuart E. Rosenberg
President/CEO
Johnson Memorial Medical Center

Cc: Karl Kamyk, M.B.A., Director of Quality/Risk Management
Michele Urban, R.N., M.S.N., Vice President of Patient Care Services

Johnson Memorial Medical Center
Dates of visit: October 28, 29, 30 and 31, 2013

The following Corrective Actions of the Regulations of Connecticut State Agencies and/or Connecticut General Statutes presented.

Violation: 1 (a, b)

Violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) and/or (c) Medical staff (2) (B) and/or (d) Medical records (2) and/or (e) Nursing service (1).

Effective Action Date: 1/8/2014

Description of violation:
1 a, b. Based on a review of clinical records, interviews and review of hospital policies, for two of three patients (Patients #12 and 13) that had procedures, the hospital failed to ensure the history and physical was comprehensive and/or that intravenous fluids were administered based on a physician's order.

- The following Policies and Prócedures were reviewed and remain appropriate: JMMC Medical Staff Bylaws, Rules and Regulations B. Medical Records, and The Hospital Wide System For Medication Administration.
- Vice President of Medical Affairs, or designee, is responsible for this corrective action.
- Individual providers are re-educated as to required components of H&P; Department of Surgery, Department of Medicine, Perioperative Committee and Medical Executive Committee.
- Revised pre-printed physician order sheet will include postoperative section to include intravenous fluids.
- Audits for H & P for comprehensiveness conducted January, February and March 2014. Audits will be submitted for review at the Medical Executive Committee meetings in February, March and April 2014.
- Audits for written physician order prior to administration of IV fluids, conducted January, February and March 2014. Audit results will be submitted and reviewed at the Quality Improvement Committee (QIC) in February, March, and April 2014.

Johnson Memorial Medical Center
Dates of visit: October 28, 29, 30 and 31, 2013

Violation: 2 (a, b, c)

Violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b)Administration (2)and/or (i) General (6)

***Effective Action* Date: 1/14/2014**

Description of violation:
2a, b, c. Based on interviews, review of documentation and hospital policies, the hospital failed to ensure that employees were informed and/or educated regarding Advanced Directives and/or informed two of four patients (Patients #20 and 21) about Advanced Directives and/or documented if the patient (Patients #21 and #10) had executed Advanced Directives.

- Policy and Procedure Use of the Electronic Utilization of Paragon System & Advanced Directive will be presented for approval at the 01/16/2014 Clinical Leadership Meeting.
- Director of Business Services is responsible for this corrective action.

- Director of Business Services, or designee, will train directors to educate their staff.
- A review of 12 charts twice a week by Director of Business Services for the month of February 2014.
- A review of 10 charts once a week by Registration Coordinator for the month of March and April 2014.
- Audit results will be reported to Quality Improvement Committee (QIC) in March, April and May 2014.

Violation: 3 (a)

Violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2).

Effective Action Date: 1/14/2014

Description of violation:
3 a. During a tour of the off-site Chemical Dependency Unit with Nurse Director #1 on 10/28/2013, it was identified that the posted telephone number for the State of Connecticut Department of Public Health was not accurate. Review of the hospital policy and procedure, titled Patients Rights and Responsibilities, identified that each patient has the right to file a grievance about care and services provided with the State Regulatory Agency.

- The Director of Psychiatry is the responsible party.
- Correct phone number was obtained from the Department of Public Health website. CDP sign changed to reflect the correct phone number on 1/6/2014.
- The DPH website will be checked annually for updated contact information.

Violation: 4 (a)

Violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) and/or (f) Diagnostic and therapeutic facilities and/or (i) General (6)

Effective Action Date: 1/14/2014

Description of violation:
4 a. Based on observation, interview and review of hospital policies and procedures, the hospital failed to ensure that the hydrocollator was maintained within acceptable temperature ranges and/or that documentation reflected that the hydrocollator unit was cleaned in accordance with policy and procedure.

- The Hospital's Hot Packs and Cleaning of Hydrocollator policies have been reviewed and revised with regard to the issues of temperature ranges and documentation of cleaning.
- The Rehabilitation Program Manager is responsible for this corrective action.
- A 'Hydrocollator Cleaning Log' has been initiated to document the cleaning of the hydrocollator by Therapy staff as specified in the Hospital's policy. Therapy staff have been re-educated on the Hospital's Hot Packs and Cleaning of Hydrocollator policies including the initiation of a new cleaning log.
- Weekly audits will be conducted for January, February, and March 2014 to review the Hydrocollator's temperature and cleaning logs for compliance with the Hospital's policies. Audits will be forwarded February, March, and April 2014 to the Quality Improvement Committee (QIC).

Violation: 5 (a)

Violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2).

Effective Action Date: 12/11/13

Description of violation:
5 a. Based on observation and interviews, the hospital failed to have a Clinical Laboratory Improvement Amendment (CLIA) waiver in place for laboratory tests that are completed in the off-site Wound Center.

- The Policy and Procedure ADM.0063 Compliance with Applicable State and Local Laws and Regulations was reviewed and remains appropriate.
- Lab Site Manager is responsible for this corrective action.
- CLIA Waiver Application submitted to DPH on 12/11/2013 for whole blood glucose testing performed at Advanced Wound Center. Certificate will be posted in patient waiting area once received and will be renewed every 2 years as required.

Johnson Memorial Medical Center
Dates of visit: October 28, 29, 30 and 31, 2013

Violation: 6 (a)

Violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b)Administration (2) and/or (f) Diagnostic and therapeutic facilities and/or (i) General (6).

Effective Action Date: 12/10/2013

Description of violation:
6 a. Based on observation, interviews and review of hospital policy and procedure, the hospital failed to ensure that patient health protected information was secured.

- The policy and procedure Confidentiality – Safeguarding of Protected Health Information During Transmission and Communication (HIPAA) was reviewed and remains appropriate.
- Infusion Center Director is responsible for this corrective action.
- The lock on the Pharmacy Office Door has been changed. The records have been secured. There are three keys available to the office. These keys are provided to personnel needing immediate access to this room as appropriate, including: the Infusion Center Director, the Pharmacist on site, and the Pharmacy Director at Johnson Memorial Hospital, who oversees the Infusion Center Pharmacy.
- Cleaning will be performed by designated pharmacy staff.

Violation: 7 (a)

Violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2), and/or (d) Medical records (3), and/or (e) Nursing service (1), and/or (i) General (6).

Effective Action Date: 1/14/2014

Description of violation:
7 a. Based on review of clinical records, review of hospital policy and interviews for two of three patients who were admitted with alcohol intoxication (Patients #10, and #23) the facility failed to ensure that the patient was assessed for alcohol withdrawal in accordance with facility policy and/or for Patient #5, that withdrawal symptoms were treated.

- The policy and procedure CIWA was reviewed and remains appropriate.
- The Vice President of Medical Affairs is responsible for this corrective action plan.
- Education will be conducted with RN's on South 2 by the Director of Psychiatry.
- Audits for withdrawal symptoms treated will be done by the Director of Psychiatry, or designee, for January, February and March 2014 and results presented to Quality Improvement Committee (QIC).

Violation: 7 (b, c)

Violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2), and/or (d) Medical records (3), and/or (e) Nursing service (1), and/or (i) General (6).

Effective Action Date: **01/08/2014**

Description of violation:
7 b & c. Based on review of clinical records, review of hospital policy and interviews for two of three patients who were admitted with alcohol intoxication (Patients #10, and #23) the facility failed to ensure that the patient was assessed for alcohol withdrawal in accordance with facility policy and/or for Patient #5, that withdrawal symptoms were treated.

- The Emergency Department Policy: Alcohol Intoxication, Acute Management was reviewed and remains appropriate.
- The Vice President of Medical Affairs, or designee, will be responsible for this corrective action.
- Education to Emergency Department physicians regarding timely assessment for alcohol withdrawal will occur at the Department of Emergency Medicine monthly meeting in February 2014.
- 15 Charts will be audited for compliance with the Alcohol Intoxication, Acute Management Policy for three months: February, March and April 2014. Results will be reported to the Quality Improvement Committee (QIC) in March, April and May 2014.

Violation: 8 (a)

Violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) (3), and/or (d) Medical records (3), and/or (e) Nursing service (1), and/or (i) General (6).

Effective Action Date: 12/23/2013

Description of violation:
8 a. Based on a tour of the psychiatric unit, review of hospital documentation/ hospital practice and staff interviews the facility failed to ensure that patient treatment groups were conducted as per past practice and/or posted.

- The Group Policy has been reviewed and remains appropriate.
- The Director of Psychiatry is responsible for this corrective action.
- Psychiatry Team met and formulated a new group schedule. The schedule was implemented and posted on 12/23/2013.
- Visible postings will be checked daily and audit results will be forwarded to Quality Improvement Committee (QIC) January, February and March 2014.

Johnson Memorial Medical Center
Dates of visit: October 28, 29, 30 and 31, 2013

Violation: 9 (a)

Violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) and/or (c) Medical Staff (2) and/or (d) Medical records (3) and/or (e) Nursing Services (1) and/or (i) General (6). (6).

Effective Action Date: 1/1/2014

Description of violation:
9 a. Based on review of clinical records, review of hospital policy and interviews for two of five patients who were admitted to the psychiatric in-patient unit (Patients #5, and #6) the facility failed to ensure the patients' right to receive treatment in a safe environment and/or document whether or not the patient was given the choice to notify law enforcement authorities following an assault.

- The policy Altercation Between Patients was developed on 12/23/2013. The policy and procedure has been approved.
- The Director of Psychiatry is responsible for this corrective action.
- The policy Altercation Between Patients has been implemented and Behavioral Health RN's have been educated.
- If an altercation should occur, an audit will be performed for each incident of physical altercation between patients to ensure documentation/policy followed. Results submitted to Quality Improvement Committee (QIC) for the months of January, February and March 2014 for review.

Violation: 10 (a)

Violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2), and/or (d) Medical Records (3), and/or (e) Nursing Service (1), and/or (i) General (6)

Effective Action Date: 1/14/2014

Description of violation:
10 a .Patient #8 was admitted to the hospital Emergency Department (ED) on 10/28/13 with left sided abdominal pain that was assessed on admission as unbearable 9-10 as identified on the numerical pain scale (0 -10, 9-10 unbearable). Review of the ED clinical record indicated that the patient received Morphine 5 milligrams (mg) intravenous push (IVP) at 8:25 AM and Dilaudid 1 mg IV at 8:59 AM. Review of the Pain Assessment and Management Policy identified that a reassessment of medication effectiveness would be completed post intervention. The record failed to reflect pain reassessment as per policy.

- The Multidisciplinary Pain Assessment and Management Policy as well as the Department of Emergency Vital Signs Policy were reviewed and remain appropriate.
- The Senior Director of Nursing or designee is responsible for this corrective action.
- Emergency Department nurses will be re-educated on the Pain Assessment and Management Policy as well as the Vital Signs Policy with specific attention on need to document post medication/intervention assessments related to pain management.
- 30 EmpowER medical records will be audited for post pain medication/intervention documentation for January, February and March 2014 and reported to Quality Improvement Committee (QIC) February, March and April 2014.

Johnson Memorial Medical Center
Dates of visit: October 28, 29, 30 and 31, 2013

Violation: 11 (a)

Violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2), and/or (d) Medical Records (3), and/or (e) Nursing Service (1), and/or (i) General (6)

Effective Action Date: January 14, 2014

Description of violation
11 a. Patient #10 was admitted to the ED on 10/27/13 with alcohol abuse. Review of the medical orders directed that the Clinical Institute Withdrawal Assessment for Alcohol (CIWA) scale patient assessment be initiated. Review of the CIWA Guidelines included administering an initial loading dose of Valium 20 mg by mouth for a score of < 10 on the CIWA scale. Review of Patient #10's CIWA score on 10/27/13 at 5:00 PM identified a score of 8, and the patient was given Valium 20 mg by mouth (po). Review of the Medication Administration Record failed to reflect that the Valium 20 mg po was administered.

- The Multidisciplinary Policy: Hospital Wide System for Medication Administration was reviewed and changed to reflect documentation of medication administration on MAR forms (printed) or in the EmpowER medical record.
- The Senior Director of Nursing or designee is responsible for this corrective action.
- Emergency Department nurses will be re-educated on the Hospital Wide System for Medication Administration Policy.
- 15 EmpowER medical records will be audited to assess for presence of CIWA medication administrations present on MAR (printed or in EmpowER medical record.) and reported to Quality Improvement Committee (QIC) January, February and March 2014.

Violation: 12 (a)

Violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2), and/or (c) Medical staff (2) (B), and/or (d) Medical records (3), and/or (e) Nursing service (1), and/or (i) General (6).

Effective Action Date: 1/14/2014

Description of violation:
12 a. Based on review of the clinical record, review of hospital policy, review of hospital documentation and interviews with hospital personnel for one patient (Patient #2) who sustained a fall, documentation and interviews failed to reflect the Fall Prevention Policy was followed.

- The Multidisciplinary Ruby Slipper Fall Prevention Program Policy was reviewed and remains appropriate.
- The Director of Medical/Surgical Services is responsible for this corrective action plan.
- Re-educate Med/Surg RN staff regarding policy no later than 1/14/14.
- Audits regarding Med/Surg patient falls reported through the MIDAS reporting system will be conducted for January, February, March 2014 and forwarded to Quality Improvement Committee (QIC) for February, March and April 2014.

Violation: 13 (a)

Violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2), and/or (c) Medical staff (2)(A), and/or (d) Medical records (3), and/or (e) Nursing service (1), and/or (i) General (6).

Effective Action Date: 1/8/2014

Description of violation:
13 a. Based on review of the clinical record, review of hospital policy and interviews with hospital personnel for one patient (Patient #2) who expired, documentation and interviews failed to reflect that the hospital death pronouncement policy was followed.

- The following Policies and Procedures were reviewed and remain appropriate: JMMC Medical Staff Bylaws, Rules and Regulations A. Admission and Discharge of Patients #9; Multidisciplinary Patient Care Manual: Advance Directives and/or Withdrawal of Life; and Department of Nursing: Pronouncement of Death by a Registered Nurse.
- Vice President of Medical Affairs, or designee, is responsible for this corrective action.
- Physician re-education on death imminent in progress notes, written DNR and Nurse Pronouncement order at MEC on January 8, 2014, and upcoming department meetings and Hospitalist meetings.
- Med/Surg RN staff educated regarding policy and expectation through policy review and/or staff meetings by no later than 1/14/14.
- Nurse pronouncement following a death on Med/Surg will be audited for required documentation starting 1/15/14. Audits will be submitted to Quality Improvement Committee (QIC) February, March and April 2014 for review.

Violation: 14 (a)

Violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2), and/or (c) Medical staff (2)(B), and/or (d) Medical records (3), and/or (i) General (6).

Effective Action Date: 1/8/2014

Description of violation:
14 a. Based on review of the clinical record, review of hospital policy, review of hospital documentation and interviews with hospital personnel for one patient (Patient #1) admitted to the hospital, documentation and interviews failed to reflect that the patient's History and Physical (H & P) was reviewed for accuracy.

- The Policy and Procedure JMMC Medical Staff Bylaws, Rules and Regulations B. Medical Records #1 was reviewed and remains appropriate.
- The Vice President of Medical Affairs, or designee, is responsible for this corrective action.
- Re-education will occur via in-service at the upcoming Department of Medicine, Department of Surgery, Hospitalist Section, Medical Executive Committee, and Quarterly Medical Staff Meetings.
- 20 charts for individual providers will be audited for compliance in February, March and April 2014. Results of the audits will be reported to Quality Improvement Committee (QIC) for three months: March, April and May 2014.

Violation: 15 (a)

Violation of the Regulations of Connecticut State Agencies Section 19-13-D3(b) Administration (3) and/or (c) Medical Staff (B) and/or (d) Medical Records (3), and/or (c) Nursing Services (1) and/or (g) Pharmacy (1)

Effective Action Date: 1/14/2014

Description of violation:
15 a. The hospital failed to ensure that controlled medications stored in the automated medication dispensing system (Acudose) can only be dispensed and/or administered upon the specific order of a hospital physician or licensed independent practitioner (LIP) and/or in accordance with hospital policy.

- The Multidisciplinary Policy Hospital Wide System for Medication Administration was reviewed and remains appropriate.
- The Director of Pharmacy, or designee, is responsible for this corrective action.
- All Emergency Department nurses will be re-educated on the Hospital Wide System for Medication Administration policy to ensure a valid provider order is confirmed for all controlled substances removed from the Acudose system.
- An Acudose report will be generated for each calendar day and reviewed against the EmpowER medical record to ensure the presence of a valid provider order for the controlled substance removed. Audits will be conducted January, February and March 2014 and reported to Quality Improvement Committee (QIC) February, March and April 2014.

Violation: 16 (a)

Violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (3) and/or (c) Medical Staff (B) and/or (d) Medical Records (3) and/or (e) Nursing Service (1).

Effective Action Date: 1/14/2014

Description of violation:
16 a. Based on review of clinical records, hospital investigation, hospital policies, and staff interviews for one of four patients who received care and services in the ED, (Patient #16), the hospital failed to ensure that Physician's Assistant (PA) #1 signed the electronically generated prescription prior to the patient's discharge

- The Chairman of the Department of Emergency Medicine is responsible for this corrective action.
- Emergency Room Providers were re-educated at staff meeting on 1/8/2014. The prescription printer will be relocated to the physician atrium.
- The electronically generated prescription is signed by the provider and given to the RN to provide to the patient.

Violation: 17 (a)

Violation of the Regulations of Connecticut State Agencies Section 19-13-D3 Short Term Hospitals, General and Special (a) Physical Plant.

***Effective Action Date:* 1/6/2014**

Description of violation:
17 a. The surveyor, while accompanied by the Compliance Officer and the Labor & Delivery Nursing Supervisor observed that all of the patient, electric beds throughout the Labor & Delivery Nursing Unit lacked valid, current & non-expired preventive maintenance stickers and the facility failed to provide documentation that all patient care electrical devices are inspected as required by NFPA 99,"Health Care Facilities", section 7-5.1.3, 7-5.2.2.1 and 7-6.2.1.2 and as part of the facility's preventive maintenance program; i.e. either no stickers, expired stickers and no documentation to indicate p.m.'s or electrical safety checks (see field notes for types, times & locations);

- The Medical Equipment Management Plan has been reviewed and is still appropriate.
- Director of Facilities and Engineering, or designee, is responsible for this corrective action.
- All beds in the Labor and Delivery Unit have been inventoried, inspected, and labeled per the Hospital's Medical Equipment Management Plan. The electronic bed vendor has been informed that they must work through Clinical Engineering to document and control all medical equipment support activity, including new deliveries.
- The electronic bed log book is located in Materials Management and contains all the PM's and Maintenance records for all the beds and stretchers that are included on the Service Agreement.

Violation: 17 (b)

Violation of the Regulations of Connecticut State Agencies Section 19-13-D3 Short Term Hospitals, General and Special (a) Physical Plant.

Effective Action Date: 11/20/2013

Description of violation:
17 b. The surveyor, while accompanied by the Compliance Officer observed that both (2) of the hydrocollators within the Physical Therapy Nursing Unit lacked valid, current & non-expired preventive maintenance stickers and the facility failed to provide documentation that all patient care electrical devices are inspected as required by NFPA 99,"*Health Care Facilities*", section 7-5.1.3, 7-5.2.2.1 and 7-6.2.1.2 and as part of the facility's preventive maintenance program; i.e. labels indicate re inspection of equipment was due in October 2013;

- The Medical Equipment Management Plan has been reviewed and remains appropriate.
- Director of Facilities and Engineering or designee is responsible for this corrective action.
- Physical Therapy medical equipment inspections were completed on 11/20/2013.
- Clinical Engineering monitors monthly PM completion and reports these findings to EOC on a monthly basis using the "JMMC Medical Equipment Report".

Johnson Memorial Medical Center
Dates of visit: October 28, 29, 30 and 31, 2013

Violation: 17 (c)

Violation of the Regulations of Connecticut State Agencies Section 19-13-D3 Short Term Hospitals, General and Special (a) Physical Plant

***Effective Action Date:* 12/2/2013**
Description of violation:
17 c. The surveyor, while accompanied by the Compliance Officer, the Engineering Technician and the St Francis Director of Bio-Medical Engineering observed that the remote, bulk oxygen fill valve located on the outside of Johnson Surgery Center was not locked or provided with a means to secure the valve, as required by NFPA 99,*"Health Care Facilities"*;i.e. cabinet for filling valve and openings found in the open position.

- As required by NFPA 99, *"Health Care Facilities"*; i.e. cabinet for filling valve and openings found in the open position.
- The Director of Facilities and Engineering, or designee, is responsible for this corrective action.
- The on-site Engineering Maintenance Technician was made immediately aware of the situation. A check of this specific bulk oxygen access door lock has been added to the daily rounds check. The Bulk Oxygen provider has been re-educated on 12/2/2013 to have this access door locked.
- The Director of Facilities and Engineering will review the daily rounds sheet that is submitted by the Enfield On-site Engineering Maintenance Technician, on a weekly basis.

Violation: 17 (d)

Violation of the Regulations of Connecticut State Agencies: "Life Safety Code"

Effective Action Date: 11/21/2013

Description of violation
17 d. The surveyor observed that the corridor in the 1st floor of the building that houses the Johnson, satellite, out-patient, behavioral/substance abuse program at 153 Hazard Avenue was not properly separated from all other parts of the building, as required by the "Life Safety Code"; i.e. non-sprinklered Business Occupancy:

- The staff keeps the door between the entry of tenant space and the exit stair enclosure held open with a rug;
- The staff places wedges in the doors throughout the tenant space to keep them open;
- The self-closing device on the fire door in the middle of the tenant space has been disabled so that the door can remain open.

- The Life Safety Management Plan was reviewed and remains appropriate.
- The Director of Facilities & Engineering is responsible.
- Door props and wedges were removed from the space and the disabled door closure was repaired at the time of the survey. All CDP core area staff at the 153 Hazard Ave location have been re-educated on this life safety code.
- Ongoing compliance will be audited via Environment of Care rounds and findings will be reviewed by the Environment of Care Committee.

Violation: 17 (e)

Violation of the Regulations of Connecticut State Agencies: NFPA 72

Effective Action Date: 11/21/2013

Description of violation

17 e. The surveyor was not provided with documentation by the Physical Plant Director to indicate that the facility fire alarm at the Johnson, satellite, out-patient, behavioral/ substance abuse program at 153 Hazard Avenue is being inspected, tested & maintained every 6 (six) months as required by NFPA 72,*"National Fire Alarm Code* "and by the facility's procedures & policies; i.e. last fire alarm inspection report provided was from 2012.

- The Life Safety Management Plan was reviewed and remains appropriate.
- The Director of Facilities & Engineering, or designee, is responsible for this corrective action.
- 153 Hazard Avenue will be inspected, tested & maintained every 6 (six) months as required by NFPA 72,*"National Fire Alarm Code* "and by the facility's procedures and Life Safety Management Plan. Documentation of testing and inspection will be reviewed and kept in the Director of Facilities and Engineering's office and reported to the Environment of Care committee.
- 153 Hazard Avenue Life Safety PM completion percentages will be audited and reported to the Environment of Care Committee.

Violation: 17 (f)

Violation of the Regulations of Connecticut State Agencies: NFPA 90A

Effective Action Date: 11/21/2013

Description of violation:

17 f. The surveyor was not provided with documentation by the Physical Plant Director to indicate that the facility fire dampers at the main campus building that were identified in the 05/04/10 Fire Damper Inspection Report by Freeman Air have been properly addressed, as required by NFPA 90A, *"Standard for the Installation of Air Conditioning and Ventilation Systems"*; i.e. while some of the repairs are complex and require an RFP, some of the easier issues could have been repaired by now.

- The Fire Damper PM was reviewed and remains appropriate.
- The Director of Facilities & Engineering, or designee, is responsible for this corrective action.
- Fire Damper inspection report has been updated to reflect the work performed. Work orders will be entered for outstanding work and tracked in the maintenance database.
- Work orders will be created for the identified repairs. Work orders and progress will be tracked in maintenance database and monitored by the Director of Facilities and Engineering and forwarded to EOC for review.

Violation: 17 (g)

Violation of the Regulations of Connecticut State Agencies: 19.7.1.2

Effective Action Date: 11/21/2013

Description of violation:
17 g. The surveyor was not provided with documentation by the Physical Plant Director to indicate that the fire drills at the Main Campus Building were being conducted at unexpected times under varying conditions as required by 19.7.1.2; i.e. all the 1st shift drills in the last year have been conducted between 12:45 and 1:00 PM.

- The Life Safety Management Plan was reviewed and remains appropriate.
- The Director of Facilities & Engineering, or designee, is responsible for this corrective action.
- Engineering and Security staff are trained to LS 19.7.1.2 and re-educated to the Life Safety Management Plan.
- Life Safety PM completion percentages are reported and monitored by the Director of Facilities and Engineering to the Environment of Care committee.

Violation: 17 (h)

Violation of the Regulations of Connecticut State Agencies: 19.7.1

Effective Action Date: 11/21/13

Description of violation:
17 h. The surveyor was not provided with documentation by the Physical Plant Director to indicate that the fire drills at the Main Campus Building were being conducted in accordance with section 19.7.1 of the *"Life Safety Code"* i.e. no 2nd shift drill conducted in 2nd quarter of 2013 and no 3rd shift drill conducted in 3rd quarter 2013;

- The Life Safety Management Plan and Fire Drill PM were reviewed and remain appropriate.
- Director of Facilities and Engineering is the responsible party for this corrective action.
- Engineering and Security staff have been educated to LS 19.7.1, JMMC Life Safety Plan and Fire Drill PM.
- Life Safety PM completion percentages are reported and monitored by the Director of Facilities and Engineering and submitted to the Environment of Care Committee.

Johnson Memorial Medical Center
Dates of visit: October 28, 29, 30 and 31, 2013

Violation: 17 (i)

Violation of the Regulations of Connecticut State Agencies: LS 19.7.1

Effective Action Date: 11/21/2013

Description of violation:
17 i. The surveyor was not provided with documentation by the Physical Plant Director to indicate that the fire drills at the Johnson, satellite, out-patient, behavioral/substance abuse program at 153 Hazard Avenue were being conducted in accordance with section # 19.7.1 of the *"Life Safety Code"*; i.e.no fire drill reports available for the last 12 months.

- The Life Safety Management Plan and Fire Drill PM were reviewed and remains appropriate.
- The Director of Facilities & Engineering is responsible for this corrective action.
- Engineering staff were trained and re-educated to LS 19.7.1. Life Safety Management Plan and Fire Drill PM.
- Documentation of all drills is available for review in the Director of Facilities and Engineering's office. Life Safety PM completion percentages are reported and monitored by the Director of Facilities & Engineering to the Environment of Care Committee.

Violation: 17 (j)

Violation of the Regulations of Connecticut State Agencies: Section 19-13-D3 Short Term Hospitals, General and Special (a) Physical Plant.

***Effective Action Date*: 11/21/2013**

Description of violation:
17 j. The surveyor, while accompanied by the Compliance Officer and the Labor & Delivery Unit Nursing Supervisor observed that the windows in the patient rooms throughout the Labor & Delivery Nursing Unit were not designed to protect the physical security of infants, parents & staff and DO NOT minimize the risk of infant abduction, as required by section # 2.2-2.12.1.3 (1) & (2) of the *"Guidelines for Design and Construction of Health Care Facilities"*;i.e. several of the windows can be opened-nursing unit is a grade level-windows all were screwed closed at one time.

- The Code Pink PM was reviewed and remains appropriate.
- Director of Facilities & Engineering is responsible for this corrective action.
- Windows were secured at the time of the survey. Labor and Delivery staff have been re-educated maintaining a secure environment. Plan for high security windows was initiated on 11/24/2013.
- Compliance will be monitored through Environment of Care rounds and reported to the Environment of Care committee.

Violation: 17 (k)

Violation of the Regulations of Connecticut State Agencies Section # 2.2-2.12.1.3 of the *"Guidelines for Design and Construction of Health Care Facilities"*

Effective Action Date: 11/21/2013

Description of violation:
17 k. The surveyor was not provided with documentation, a policy or logs from the Compliance Officer, the Labor & Delivery Unit Nursing Supervisor or the physical Plant Director to indicate that the alarm that is installed on the exit door from the Labor & Delivery Nursing Unit is tested, inspected or maintained at any time.

- The policy and procedure Code Pink PM was reviewed and remains appropriate.
- The Director of Facilities and Engineering is responsible for this corrective action.
- Labor and Delivery door alarms are tested and documented twice annually as part of the "Code Pink" drills. The Labor & Delivery Director has been re-educated to this process and will retain the testing documentation/copies on the Labor and Delivery unit.

Violation: 17 (l)

Violation of the Regulations of Connecticut State Agencies:

Effective Action Date: 11/21/2013

Description of violation:
17 l. The surveyor while accompanied by the Physical Plant Director observed that the adult and adolescent psychiatric unit had light fixtures in the bathrooms that lacked tamperproof screws had corners that could be possible ligature points, Med Gas outlets with covers that had looped chains, shower curtain brackets affixed with non-tamper resistant screws and gaps along the edges, and door hinges that posed a potential hanging hazard and were not designed to a psychiatric institutional standard. These items had been identified in a previous inspection and a risk based analysis conducted by the facility prior to this inspection was completed but with no definitive completion date to abatement these hazards.

- The policy: Guidelines for Design and Construction of Health Care Facilities were reviewed and remains appropriate.
- The Director of Facilities & Engineering is responsible for this corrective action plan.
- Behavioral Health room rounds occur daily to identify potential risks.
- Identified risks are entered as work orders and submitted to engineering by the Director of Behavioral Health or designee.
  Time line for abatements:
  1. Light fixtures in the bathrooms that lacked tamperproof screws:
     Completion Date: 3/30/14
  2. Med Gas outlets with covers that had looped chains:
     Completion Date: 11/20/13
  3. Shower curtain brackets affixed with non-tamper resistant screws:
     Completion Date: 3/15/14
  4. Door Hinges replaced: Capital plan by 1/30/14
     Completion Date: Expected completion 6/1/14
- Ongoing compliance is monitored through daily safety rounds, environment of care rounds, and all findings are reported to the Environment of Care Committee.

Johnson Memorial Medical Center
Dates of visit: October 28, 29, 30 and 31, 2013

Violation: 17 (m)

Violation of the Regulations of Connecticut State Agencies Section 19-13-D3: Short Term Hospitals, General and Special (a) Physical Plant

Effective Action Date: 11/11/2013

Description of violation:
17 m. The surveyor and Physical Plant Director during documentation review of the water treatment records for the acute dialysis reverse osmosis machines identified that water was not maintained in accordance with AAMI standards for reverse osmosis water for reverse osmosis machine #1. Review of the water test for 10/11/13 had abnormal water results for calcium. The facility contracts for dialysis services and was unaware of this test result. The machine had not been used for a treatment after the last test was drawn and subsequent to surveyor interview the reverse osmosis machine #1 was immediately marked not for patient use. The contractor for dialysis couldn't explain why this redraw and removal of the machine had not happened prior to surveyor review; the contractor immediately redrew the sample on the day of survey and disinfected the machine. The machine will not be used for treatments until a sample within AAMI Guidelines is received.

- The Contracted Dialysis Service policies General Water Quality and Water Treatment and Responsibilities have been reviewed and remains appropriate.
- The Director of Facilities and Engineering is responsible for this corrective action.
- Contracted Dialysis Service received education in regards to DPH findings on November 11, 2013.
- Contracted Dialysis Service developed a CAP which was submitted to JMH.
- Re-education of the Water Tech and Biomedical staff of the corrective action plan was completed and included areas of monitoring water testing results and reporting schedules.
- The corrective action plan includes monthly monitoring of documentation including: notification requirements when testing results are out of normal ranges and communication with JMMC if abnormal findings have been identified.
- The results of the audits will be submitted to Director of Medical Surgical Services, or designee, on a monthly basis for three months (November, December 2013 and January 2014).
- Results of the audits will be forwarded to Director of Facilities and Engineering and the Environment of Care Committee.

Re: Johnson Memorial Hospital DPH Visits 7/16/2014- 11/25/2014

Dear Ms. Davis:

Enclosed please find the Plan of Correction for the above-referenced DPH visits conducted at Johnson Memorial Hospital. This Plan of Correction is being submitted in advance of our meeting scheduled for Friday, January 23, 2015 at 10:00 a.m.

Should you have any questions or require additional information, I can be reached at (860) 684-8101 or you can contact Mr. Karl Kamyk, Assistant Vice President, Ancillary Services at (860) 684-8498.

I look forward to meeting with you on the 23rd.

Sincerely,

Stuart E. Rosenberg
President/CEO

Survey File

The following are violations of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) and/or (c) Medical staff (2)(A) and/or (4)(A) and/or (e) Nursing Service (1) and/or (g) Pharmacy (1) and/or (2) and/or (3) and/or (i) General (6) and/or (l) Infection control (2)(A) and/or (B) and/or (3) and/or (4).

1. A, b.-*The Governing body failed to function effectively to ensure reports received from Contamination Control Service Specialists (contracted services) were comprehensive and/or complete. (Please refer to A83) and/or that mold/fungus growth in the IV Infusion Center and hospital Pharmacy were reported to the governing body for review and appropriate action.

   Effective action date: 10/22/2014

   Affected Patients: No patients were identified as being adversely affected by failure to comply with this requirement.

   Plan of Correction: On 7-08-14 Compounding of medications at the Infusion Center was stopped pending remediation of identified mold growth.
   A review of all applicable meetings, Quality Improvement Committee (QIC), Environment of Care, Infection Control and Pharmacy and Therapeutics Committees and their reporting structures was completed on 9-16-14.
   1. Email sent on 9/18/2014 to JMMC Management Team and Executive Leadership, by the Chief Executive Officer (CEO), regarding including a line item to every applicable meeting agenda entitled: Safety/Quality Concern(s). This was also shared with the medical staff committee chairpersons by the CEO.
   2. Environment of Care Committee, Pharmacy and Therapeutics Committee and Infection Control Committee minutes will be reviewed after each meeting by designated Medical/Executive Leader and the chairperson of the Quality Improvement Committee prior to finalization and submission to identify all high risk, high volume, actionable results and/or problem prone areas identified in the organization for inclusion and discussion at the next Medical Executive Committee (MEC) meeting and Quality Improvement Committee (QIC) Meeting.
   3. Minutes from the MEC and QIC, identifying problem prone areas and metrics that do not meet benchmarks will be reviewed at the next scheduled Quality Committee of the Board.
   4. A Memo was sent on 10-27-14, by the CEO, to all Chairpersons of the following Committees, Quality Improvement, Environment of Care, Infection Control and Pharmacy and Therapeutics requiring development of a list of outside vendors performing quality checks on all utility systems, fire, safety equipment or other equipment and the 2014/2015 schedule of quality checks. The lists were added to the

respective committee agendas for review of the vendors reports based on the 2014/2015 schedule of quality checks to be completed by the vendors.
5. Expectations were provided, by the CEO, that all high risk, high volume, actionable results and/or problem prone areas identified are required to be reported to respective committees for minutes and review by the Governing Body to the
1. Management team on 9/16/ 2014
2. Executive Leadership Team on September 18, 2014
3. Board Quality Committee on October 22, 2014
4. Medical Executive Team on September 26, 2014.
5. The Executive Assistant will maintain a master list of all vendors performing quality checks in the organization.

QA/PI
All high risk, high volume, actionable results and/or problem prone areas identified in the organization will be tracked for reporting to governance by the Office of Risk Management.
Annually, the Executive Assistant will plan the review of vendor reports with the respective Chairpersons into the meetings of the QIC, Pharmacy and Therapeutics, Environment of Care and Infection Control Committees.
Effective immediately, copies of the QIC minutes with attachments of vendor test and quality reports will be sent to the Medical Executive Committee and the Board Quality Committee for review.

Responsible Persons:
The CEO provided the expectations and remains responsible for assuring they are followed. The Chairpersons of the Pharmacy and Therapeutics, Infection Prevention and Control, Environment of Care, Quality Improvement and Medical Executive committees are responsible for assuring submission of an appropriate corrective action plan for issues identified within their committees.

2. A-f., *Based on observation, review of facility documentation, contracted service reports, interviews, and policy review, the Governing body failed to ensure the hospital's Quality program assessed services provided by two contractors' to identify quality and performance issues.

Effective action date: 10/27/2014

Affected Patients: No patients were identified as being adversely affected by failure to comply with this requirement.
Plan of Correction:
Compounding of Medications was stopped at the IV Infusion Center effective 7-08-14. The Infusion Center was temporarily closed on 7/16/2014 and all patients were diverted to the temporary location at the main hospital
1. The contractual relationship policy was reviewed and revised on 9/16/2014 to incorporate quality metrics as a required part of all clinical contracts.

2. Senior Leaders were educated, by the CEO, on the policy and procedure for contract review and approval at the weekly Leadership meeting including the following requirement:
a. A summary of all contracts including contractor name, frequency of work and reports, copies of blank quality and test reports provided and agreed upon quality metrics will be sent to the QIC for inclusion in their agendas by departments responsible for such vendor contracts.
3. A review of all Contracts was completed on 10/22/2014. During Contract review, quality metrics were determined, and submitted to the perspective contractors as an addendum to existing contracts. Going forward all contracts will include quality metrics, including timeliness of receipt of final report. Contracts will go to legal review upon CEO request. A Master list of all contracts for quality related testing or checks will be developed and maintained in the office of the CEO.
4. A memo was sent by the CEO on 10/27/14 outlining the responsibility of the appropriate committees to review the Vendor quality checks or tests and address any identified concerns by requiring a submission of an "action plan" for correction of the identified concern to the responsible department within an appropriate time frame based on the severity of the result.
5. Vendor reports and associated hospital corrective action plans will be presented to the board quality committee for review, approval, action and submission into the minutes.

QA/PI:
Annual contract review to be conducted every July, by the department responsible for the contract with written evaluation forms to be completed by responsible departmental leadership, to evaluate identified quality standards/metrics/timeliness of receipt of report/report comprehensiveness, report accuracy and/or staff competencies and will be reported quarterly to Quality Committee of the Board effective immediately.
Summary of all contracts, including identified quality standards/metrics, frequency of testing or quality checks and planned dates of each, timeliness of receipt of report, report comprehensiveness, report accuracy and/or staff competencies will be provided to QIC by the office of the official signatory on the contract.

Responsible Person:
The CEO has the responsibility to assure all above actions are completed.

3. A-d., *Based on a review of hospital documentation, contractors' reports, interviews, and policies, the hospital failed to develop quality performance improvement activities regarding high risk area's including the IV compounding rooms in the Pharmacy and the IV infusion center (offsite location) and/or had an effective reporting structure through the various committees that report to Governing body to ensure appropriate intervention when mold was identified in the IV infusion center dating back to 1/13 and the hospital's pharmacy on 2/13.

Effective action date: 11/14/2014

Affected Patients:
No patients were adversely affected by the failure to report information to the QA/PI Committee.

Plan of Correction:
Compounding of Medications was stopped at the IV Infusion Center effective 7/8/14. The Infusion Center was temporarily closed 7/16/2014 and all patients were diverted to the temporary location at the main hospital
1. The QAPI plan was reviewed and revised, as of 9/24/14.
2. The QAPI plan has been revised to incorporate department quality metrics and review of vendor reports and tests from contracted services.
3. Each committee will report to QIC any actionable items, high risk areas/issues, high volume areas, and problem prone area/issues, identified during committee review of vendor quality check and testing results, utilizing the Committee Communication Tool.
4. QIC will review submitted reports for concerns that may not have been identified.
5. QIC will require corrective action plans from the appropriate department for any identified concerns.
6. QIC will continue to submit minutes with attachments to the Quality Committee of the Board.
7. Members of each of the following committees were educated prior to November 14, 2014 that hence forth review of all contracted vendor reports, tests, and quality metrics will be conducted at the respective meetings; Pharmacy and Therapeutics, Infection Prevention Committee, Environment of Care, and Quality Improvement Committee. Committee members were also oriented to utilization of the committee communication tool for reporting actionable items.

QA/PI:
Monthly review of dashboard quality metrics and any QAPI actionable items by designated executive leader and QIC.

Responsible Person:
The responsible party for this action is the Assistant Vice President of Ancillary Services.

4. A-j., *Based on observation, review of facility documentation, contractor reports, interviews, and policy review, the hospital failed to provide the necessary supervision of Pharmacy services to ensure that IV compounding rooms were tested/certified in accordance with federal and state laws (USP-797) and/or that mold growth in the IV compounding rooms dating back to 1/13 was addressed in a timely manner, and/or that quality services were provided by a contracted service.

Effective action date: 10/01/2014

Affected Patients: No patients were identified as being adversely affected by failure to comply with this requirement.

Plan of Correction:
Plans were immediately developed and implemented to bring the pharmacy compounding area into compliance with USP 797. The Infusion Center ceased operations on 7/16/2014 until renovations completed. Installation of a USP 797 hooded area was completed on 10/1/2014.

1. A USP 797 work group was formed with representatives from Pharmacy, Infection Control, Facilities, Building Services and Nursing to address incoming environmental reports, renovations and standard operating procedures. The work group addressed bringing both areas into compliance with USP 797 standards.

2. The IV Infusion Center, compounding area is being certified for compliance to USP 797 and State of Connecticut regulations through the State of Connecticut Department of Health as part of this Survey.
3. All future Environmental Monitoring reports will be forwarded to Environment of Care Committee, Infection Control Committee, Pharmacy and Therapeutics Committee and Cancer Care Committee and the USP 797 work group for review. All areas of concern will be reported by the above committees using the QAPI Committee Communication tool.

QA/PI:
All future Environmental Monitoring reports will be forwarded to Environment of Care Committee, Infection Control Committee, Pharmacy and Therapeutics Committee and Cancer Care Committee and the USP 797 work group for review. All areas of concern will be reported by the above committees using the QAPI Committee Communication tool.

Responsible Person:
The responsible party for this action is the consulting Pharmacy Manager.

5. A-e., *Based on observation, review of facility documentation, interviews, and policy review, the hospital, who compounds sterile pharmaceuticals, failed to comply with Federal and/or state laws, United States Pharmacopeia, Chapter 797, Pharmaceutical Compounding - Sterile Preparations and/or maintain a sanitary environment to ensure patient safety. During tour of the IV infusion center on 7/16/14 at 11:30 AM with the Pharmacy Director, the Pharmacy Manager, the Program Director, Nurse Manager, and Assistant Vice President of Ancillary Services (AVP

Effective action date: 10/27/2014

Affected Patients: No patients were adversely affected by failure to comply with this requirement.

Plan of Correction:
Compounding of Medications was stopped at the IV Infusion Center effective 7-08-14. The Infusion Center was temporarily closed on 7/16/2014 and all patients were diverted to the temporary location at the main hospital

Infusion Center
1. Compounding of Medications was stopped on 7-08-14. Renovations have been completed to assure the Infusion Center is USP 797 compliant Environmental facility as of 10-27-14.
2. Standardized system improvements have been implemented at the Infusion Center and Hospital Compounding facilities.
3. The storage room floor was cleaned and boxes dusted immediately after identification of dust by the surveyor. Housekeeping staff were educated on cleaning schedule and activities for this room as of 10-27-14.
4. All appropriate staff were educated on need to monitor and record temperature and humidity levels of identified rooms as of 10-27-14.
5. Other items were completed by 10-20-14

1. Pressure, temperature, and humidity
gauges were installed
2. Ceiling tiles at the main pharmacy were replaced caulked, ceiling tiles at Infusion Center were removed and replaced with a hard ceiling.
3. All techs were re-instructed on no jewelry or makeup
4. Hand hygiene and garbing competencies were developed, implemented with direct observation sign off of all staff
5. Line of demarcation identify installed.
6.Mop heads were immediately removed and stored in building services room. The New mop heads were purchased from cleaning company.
7.The bins holding drugs were cleaned and placed on a routine schedule for cleaning.
8.The ladder was removed
9.Grey/black material was solder from previous installation of Pipes. Reported Cultures returned negative results and this material was removed.
10.Vinyl seam crack in the hospital pharmacy clean room was re-seamed
11.Closed vial system was implemented for employee and patient safety
12.Tile above Biological Safety Cabinet has been replaced and caulked so no plenum air is reintroduced into the clean room
13.Rusty chairs removed and replaced
14.HEPA replaced for LAFW
15.Patient Personal meds have been relocated
16.Gloves were immediately removed from the top of the biohazard container
17.RPH assigned to remove patient own meds after 30 days.
18.All medication refrigerators and appropriate rooms are being monitored and documented for appropriate temperature ranges.
19.IV bags were removed and metal pans have been discarded.
20.USP 797 compliant non-shedding gowns purchased and a garbing competency was

initiated.
21.The Infection Prevention and Control Nurse has included the pharmacy compounding rooms into routine surveillance activities and will report results to the Infection Control Committee.
22. Consulting Pharmacy Manager will conduct daily review of compounding items to assure staff adherence to requirements.

QA/PI:
Monthly environmental rounds will be completed and any findings documented and remediated immediately in all compounding areas with the Pharmacy Manager, Infection Control Staff , Housekeeping supervisor and Maintenance Staff.
All Work orders completed: 7/15/2014-8/30/2014
All Education completed:
Education to Pharmacy staff
Hand hygiene and garbing competency– completed 8/30/14
USP 797 competency - completed 7/30/14

Responsible Person:
Consulting Pharmacy Manager is responsible for assuring follow through on all indicated items.

6. A-b., *Based on observation, review of hospital documentation, policies, and interviews, the hospital failed to ensure that the physical environment and mechanical HVAC systems were being maintained efficiently and in compliance with federal and state laws.

Effective action date: 10/15/2014

Affected Patients: No patients were identified as adversely affected by failure to comply with this requirement.

POC:
1. The policies and procedures have been reviewed and remain appropriate. Two policies, Maintain Integrity of Clean Room Space to USP 797 Codes and Clean Room Facility Controls Response, were added and Engineering staff have been educated on these policies at the Engineering dept. huddle on 8/22/14.
2. The physical space and HVAC system was redesigned by 3rd Party Engineering. Construction drawings and submitted to DPH on 8/15/2014.
3. A general contractor rebuilt the space according to the approved plans.
4. Infection control risk assessments were completed prior to performing any work and the addition of furnishings and equipment to the sterile environment. (Clean room)
5. Environmental testing will continue with the current companies.
6. Results of environmental testing will be presented to the Environment of Care, Infection Prevention and Control and Pharmacy and Therapeutic Committees at the next scheduled meeting following receipt.
7. Any results outside of acceptable range will be immediately addressed and remediated

by the Engineering Department.
8. Records will be maintained of all testing results and remediation actions as part of the engineering work order system.
9. Pharmacy staff are monitoring daily pressures, temperature and humidity of the compounding areas to assure safe levels.

QA/PI
Effective November 2014, the environment will be inspected twice annually during Environment of Care rounds, Quarterly during Infection control Surveillance, and daily by Pharmacy staff.
The work order database will be monitored monthly for work order entry compliance and results will be reported monthly to the Environment of Care Committee.

Responsible Persons:
The responsible person for this corrective action is the consulting Facilities Director.

7. A-e. *Based on observation, review of hospital documentation, interviews, and policies and procedures, the hospital failed to ensure that the physical environment of the I.V. Infusion Center (Enfield Campus) and the main hospital was in compliance with federal and state laws (USP-797) as required.

Effective action date: 08/22/2014

Affected Patients:
No patients were identified as adversely affected by failure to comply with this requirement.

Plan of Correction:
1. The policies and procedures have been reviewed and remain appropriate.
2. Two policies, Maintain Integrity of Clean Room Space to USP 797 Codes and Clean Room Facility Controls Response, were added and Engineering staff have been educated on these policies at the Engineering dept huddle on 8/22/14.
3. Engineering Staff also educated on the importance of entering detailed information outlining the work performed and specific dates times location in the work order records prior to closing.
4. The environment will be inspected twice annually during Environment of Care rounds, Quarterly during Infection control Surveillance, and daily by Pharmacy staff to identify any actual or potential safety issues.
5. Work orders are entered for any problems identified.
6. Infection control risk assessments were and will continue to be completed prior to performing any work and/or the addition of anything (furniture, equipment) to a sterile environment. (clean room)

QA/PI:
Effective November 1, 2014, the work order database will be monitored monthly for work order entry compliance and comprehensiveness and results will be reported monthly to Environment of Care Committee until compliance is sustained.

Responsible Person:
The responsible person for this corrective action is the consulting Facilities Director.

8. A.e. *Based on observation, review of hospital documentation, policies and procedures and interviews the hospital failed to ensure that the air handling equipment in the I.V. Infusion Center (Enfield Campus) and the main hospital was in compliance with federal and state laws (USP-797) as required.

Effective action date: 10/15/2014

Affected Patients: No patients were identified as adversely affected by failure to comply with this requirement.

Plan of Correction:
1. The physical space and HVAC system was redesigned by 3rd Party Engineering and plans were submitted to DPH on 8/15/2014.
2. A general contractor rebuilt the space according to the approved plans.
3. The redesign of the space incorporates improvements of: a separate HVAC system for the compounding rooms & room pressure monitors.
4. Pressure gauges were installed to measure pressure in the Chemo, IV and Buffer rooms at the hospital and IV Infusion Center.
5. The non-compliant damper attached to the ventilation system was brought to code.
6. The HVAC ventilation was redesigned by an engineering firm; plans were submitted to and approved by DPH. The work was completed 10-15-14.
7. The HEPA filters have been identified by location and added to the PM list with assigned annual frequency of changes.

QA/PI:
1. The environment will be inspected twice annually during Environment of Care rounds, Quarterly during Infection control Surveillance, and daily by Pharmacy staff. Work orders are entered for any problems identified.
2. Infection control risk assessments were and will be completed prior to performing any work and/or the addition of anything (furniture, equipment) to a sterile environment. (clean room).
3. The work order database willl be monitored monthly for work order entry compliance and results reported monthly to Environment of Care Committee.

Responsible Person:
The responsible person for this corrective action is the consulting Facilities Director.

9. A. *Based on a review of hospital documentation, review of hospital policies and interviews, the hospital failed to ensure the Infection Control program effectively evaluated and monitored the presence of mold/fungus identified during environmental testing at the IV Infusion center and the hospital pharmacy dating back to 1/13 to establish a plan of surveillance to maintain a mold-free environment.

   Effective action date: 09/22/2014

   Affected Patients:
   No patients were identified as adversely affected by failure to comply with this requirement

   Plan of Correction:
   1. Infection Prevention Plan reviewed and revised
   2. Infection Prevention Plan reviewed and revised to include surveillance of JMMC Outpatient Chemotherapy Patients and Infection Prevention Rounds to JMMC Outpatient facilities (4) times a year and as necessary.
   3. Environmental monitoring reports to be reviewed monthly in coordination with the consulting Pharmacy Manager and consulting Facilities Director, the Medical Director of Infection Prevention and Control and at the Infection Prevention and Control Meeting.

   QA/PI:
   Effective November 2014, Environmental Monitoring reports and reports of surveillance and rounding to be presented to Infection Prevention Committee monthly for review and recommended actions. If during review of reports, at any point, or during any committee meeting an actionable item is identified immediate corrective action will be taken by the person receiving the report or the Chairperson of the committee.

   Responsible Person:
   The responsible person for this corrective action is the consulting Infection Prevention Director

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) and/or (c) Medical staff (4)(A) and/or (e) Nursing service (1) and/or and/or (i) General (6).

10. A. *Based on tour of the facility, review of facility documentation, and interviews, the facility failed to ensure the LDRP unit was maintained in a safe manner to eliminate risk of newborn abduction.

Effective action date: 10/30/2014

Affected Patients:
No patients were identified as adversely affected by failure to comply with this requirement.

POC:
This standard was sighted during previous survey. Communication shall occur with the Department of Public Health (DPH) should significant changes be necessary for a plan of correction. Tamper proof screws were installed into all windows in Labor and Delivery rooms immediately on day of survey. Security films were installed on October 30, 2014 on all windows in Labor and Delivery.

QA/PI:
Any significant changes to a plan of correction shall have documentation for rationale of changes. Changes are reviewed by Environment of Care Committee (EOC) and if necessary for funding approval, at a higher level.

Status of windows submitted to Environment of Care Committee in November 2014. Environment of Care rounds bi-annually to ensure window security film integrity maintained.

Responsible Person:
The consulting Facilities Director is responsible for this plan of correction and submission of updates to Environment of Care Committee.

The following are violations of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) and/or (d) Medical records (3) and/or (e) Nursing service (1) and/or (i) General (6).

11. A. Based on a review of clinical records and policy review, the facility failed to ensure that one of three patients' reviewed for restraint use (#59) had an order for restraints and/or documentation reflected behaviors that warranted the use of restraints and/or alternatives attempted prior to the implementation of restraints.

Effective action date: 11/10/2014

Affected Patients:
No patients were identified as adversely affected by failure to comply with this requirement.

POC:
Director of Psychiatry has developed educational tool for nursing staff. This education was completed on 10/27/14 for Directors, Managers, and Clinical Resource Coordinators (CRC). Education for Emergency Room and Behavioral Health staff was completed on 11/12/14. All restraint orders are reviewed by the CRC at time restraint is initiated. The CRC provides immediate feedback to ensure the orders are written as per the restraint and seclusion policy. The CRC is calling Director of Psychiatry (For the remainder of 2014) with RN present to discuss restraint and make sure all components complete. Director of Psychiatry will document and review. Members of the restraint committee review all restraint orders for completeness. Restraint Committee meets monthly to discuss these chart reviews.

QA/PI:
1, Medical Records relating to restraints are monitored monthly for each patient having been placed in restraints.
2. Monitoring is conducted and reported monthly until 100% compliance is achieved for 4 consecutive months.
3. Documentation of findings are reported monthly for at least 4 months and then quarterly to the Quality Improvement Committee.

Responsible person:
The Director of Psychiatry will assure data is collected.
Assistant Vice President of Patient Care Services will assure reporting of audits to the Quality Improvement Committee.

12. A. Based on a review of clinical records, interview and policy review, the facility failed to reduce and/or discontinue restraints at the earliest possible time for one of three patients' reviewed for restraint use (#59).

Effective action date: 11/10/2014

Affected Patients:
No patients were identified as adversely affected by failure to comply with this requirement.

POC:
1. Nursing staff in the ED were educated on this requirement and a corrective action plan was initiated September 2014 with mandatory read and sign off education.
2. Monitoring and documentation is completed by the assigned Patient Safety Tech (PST), Critical Care Tech (CCT) or RN when a patient is placed in ordered 4pt behavioral restraints.
3. Director of Psychiatry has developed an educational tool for Emergency Room and Behavioral Health nursing staff. All Clinical Resource Coordinators (CRC), Emergency

Department nurses, PST's and CCT's are educated on this CAP, the restraint and seclusion policy, order form, flow sheet and educational tool.
4. CRC's perform concurrent audits for appropriate documentation and care of all patients placed in ordered restraints. The CRC provides immediate feedback to ensure that documentation and care is as per policy. The CRC calls Director of Psychiatry (For the remainder of 2014) with responsible RN present to discuss ordered restraint, and ensure all components are complete. Director of Psychiatry will document and review for compliance as per submitted QAPI.
5. The RN caring for any ordered restrained patient while in the ED is responsible for providing a copy of all restraint documentation to the ED Manager by the end of their assigned shift to review compliance with the restraint and seclusion policy and QAPI.
ED Nursing Leadership audits all episodes of patient ordered restraint, which occur in the ED on a monthly basis and shall continue to report results to QIC monthly for compliance as per QAPI.
7. Restraint Committee meets to discuss charts related to restraint and seclusion. The minutes of these meetings are reported to QIC quarterly.

QA/PI:
1. Concurrent audits are completed on every ordered restrained patient by CRC with review by the Director of Psychiatry.
2. Audits of the documentation for every ordered restrained ED patient is conducted by ED Leadership with results reviewed at QIC monthly.
3. A review of all ordered restrained Emergency Room patients is conducted until 100% compliance is achieved for 4 consecutive months.
Documentation of findings are reported monthly for 4 months and then quarterly to the Quality Improvement Committee.

Responsible person:
ED Manager assures data is collected.
Director of Psychiatry oversees CRC audit.
Assistant Vice President of Patient Care Services assures reporting of audits to the Quality Improvement Committee.

13. A. Based on a review of clinical records and policy review, the facility failed to ensure that for one of three patients' (#59) reviewed for restraint use was monitored in accordance with facility policy.

Effective action date: 11/10/2014

Affected Patients:
No patients were identified as adversely affected by failure to comply with this requirement.

POC:
1. Monitoring and documentation is performed by the assigned Patient Safety Tech (PST), Critical Care Tech (CCT) or RN when a patient is placed in ordered 4pt behavioral restraints.
2. Director of Psychiatry developed a restraint and seclusion educational tool. All CRC's, Emergency Department nurses, Behavioral Health nurses, PST's, and CCT's have been educated on the restraint and seclusion policy, order form, flow sheet and educational tool with mandatory read and sign off education.
3. CRC's perform concurrent audits of documentation and care of all patients placed in ordered restraints. The CRC provides immediate feedback to ensure documentation and care is per the restraint and seclusion policy. The CRC calls the Director of Psychiatry (For the remainder of 2014) with responsible RN present to discuss ordered restraint and ensures all components are complete. Director of Psychiatry documents and reviews restraint documentation the for compliance as per QAPI.
4. The RN caring for any ordered restrained patient in the ED is responsible for providing a copy of all restraint documentation to the ED Manager by the end of their scheduled shift for compliance review with the restraint and seclusion policy and QAPI.
5. ED Nursing Leadership monitors all episodes of patient restraint, which occur in the ED on a monthly basis and reports results to QIC monthly for compliance as per QAPI.
6. Restraint Committee meets to review charts with ordered restraints. The minutes of these meetings are reported to QIC quarterly.

QA/PI:
1. Concurrent audits are completed on every restrained patient by CRC with review by the Director of Psychiatry.
2. Audits of the documentation of every ordered restrained ED patient is conducted by ED Leadership with results submitted and reviewed at QIC monthly.
3. A review of all restrained Emergency Room patients is conducted until 100% compliance is achieved for 4 consecutive months. Documentation of findings are reported monthly for 4 months and then quarterly to the Quality Improvement Committee.

Responsible person:
ED Manager assures data is collected.
Director of Psychiatry oversees CRC audit.
Assistant Vice President of Patient Care Services assures reporting of audits to the Quality Improvement Committee.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (c) Medical staff (4)(A) and/or (d) Medical records (2).

14. A. Based on a review of clinical records, review of Medical Staff Bylaws & Rules and Regulations, and interview, then hospital failed to ensure the history and physical (H&P) was completed prior to the procedure for one of three endoscopy patients' in accordance with hospital Bylaws.

Effective action date: 1/05/2014

Affected Patients:
No patients were identified as adversely affected by failure to comply with this requirement.

POC:
On the day of survey all outdated forms were removed and replaced with current forms, which include a focused History and Physical. Perioperative nursing staff have been educated to ensure only current forms are available for the Medical record/ chart. Education was completed November 5, 2014.
An email from the VPMA was sent on November 6, 2014 and November 7, 2014 to the Medical Staff with the expectation for medical staff to ensure no patient will enter an OR without an appropriate History and Physical completed per Medical Staff By-laws.

QA/PI:
Monitoring of History and Physicals for Same Day Surgery patients for completion within 30 days prior to procedures are conducted for 4 consecutive months. Documentation of findings is reported monthly for at least 4 months to the Quality Improvement Committee.

Responsible Person:
Vice President of Medical Affairs assures data is collected.
Vice President of Medical Affairs assures reporting of audits to the Quality Improvement Committee.

The following are violations of the Regulations of Connecticut State Agencies Section 19-13-D3 (d) Medical records (3) and/or (e) Nursing service (1) and/or (i) General (6).

15. A. Based on a review of clinical records, interview, and policy review, for one of three records reviewed for blood pressure monitoring (Patient 337), the hospital failed to ensure that physician's orders were followed.

Effective action date: 10/24/2014

Affected Patients:
No patients were identified as adversely affected by failure to comply with this requirement

POC:
Director of Psychiatry educated all Behavioral Health staff on assessing and documenting vital signs as ordered. Education completed on 10/24/14.

QA/PI:
Monitoring completed daily to ensure vitals are being completed as ordered. 2. Monitoring performed to ensure the nursing flow sheet is completed correctly as per The Psychiatric/Nursing Documentation Guideline.
Monitoring is conducted and reported monthly for compliance for 4 consecutive months. Data is collected for the 3 quarters. Documentation of findings is reported monthly for 4 months to the Quality Improvement Committee.

Responsible Person:
Director of Behavioral Health assure data is collected.
Assistant Vice President of Patient Care Services assures reporting of audits to the Quality Improvement Committee.

16. A-e.*Based on a review of clinical records, interview, and policy review, for five (5) of five patient's reviewed (Patient #34, 35, 36, #37, and #59), the hospital failed to ensure safety assessments were accurately completed.

Effective action date: 10/24/2014

Affected Patients:
No patients were identified as adversely affected by failure to comply with this requirement.

POC:
Education and expectations on how to complete the Psychiatry nursing flow sheet was completed by the Director of Psychiatry. All Behavioral Health staff has been educated by 10/24/2014.

QA/PI
Monitoring performed to ensure the nursing flow sheet is completed correctly as per The Psychiatric/Nursing Documentation Guideline.
Monitoring is conducted and reported monthly for compliance for 4 consecutive months. Data is collected for the 3 quarters. Documentation of findings is reported monthly for 4 months to the Quality Improvement Committee.

Responsible Person:
Director of Behavioral Health assure data is collected.
Assistant Vice President of Patient Care Services assures reporting of audits to the Quality Improvement Committee.

17. Based on a review of clinical records, interview, and policy review, for one of two patient's reviewed for Pitocin therapy (Patient #47), the hospital failed to ensure that uterine resting tone was assessed in accordance with facilty policy.
a.

Effective action date: 11/11/2014

Affected Patients:
No patients were identified as adversely affected by failure to comply with this requirement

POC:
The Director of Perinatal Services immediately discussed with the Perinatal services RN the findings, and provided education and expectations to the RN for documenting resting tone. The Director of Perinatal Services provided education and expectations at the 10/15/2014 Perinatal Services staff meeting and via an email to all Obstetrical staff nurses. Education completed by 11/11/2014.

QA/PI
Monitoring of all appropriate obstetrical patients charts is conducted for compliance of assessment of the abdominal resting tone during induction as per The Obstetrics /Nursing Documentation Guideline.
Monitoring is conducted and reported monthly for compliance for 4 consecutive months. Data is collected for the 3 quarters. Documentation of findings is reported monthly for 4 months to the Quality Improvement Committee.

Director of Perinatal Services will assure data is collected.
Assistant Vice President of Patient Care Services assures reporting of audits to the Quality Improvement Committee.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) and/or (g) Pharmacy (1).

18. A. *Based on observation, interviews, and policy review, the hospital failed to ensure the technician followed procedure in preparation for sterile drug compounding activities.

Effective action date: 10/31/2014

Affected Patients:
No patients were identified as adversely affected by failure to comply with this requirement.

POC:
Pharmacy staff performing sterile compounds were re-educated and observed by Infection Prevention and Pharmacy Consultant Site Manager for compliance with the 30 second hand washing and garbing requirement. Staff members who routinely compound IV/Chemotherapy completed this competency by 10/31/2014.
A clock with a second hand has been placed in a location easily viewable by staff in order to ensure accurate hand washing consistent with 30 seconds.

QA/PI:
Completed Observed Competencies are located within pharmacy department files.
Monitoring, of hand washing and garbing compliance, of at least two staff members is performed weekly and include one staff member at the hospital and one staff member at the Infusion Center.
Monitoring will be conducted until 100% compliance is achieved for 4 consecutive months. Documentation of findings are reported monthly for 4 months to the Quality Improvement Committee

Responsible person:
The Pharmacy Consultant Site Manager is responsible for this corrective action.
Assigned Pharmacist is responsible for the weekly audits at the Infusion Center.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (e) Nursing Service (1) and/or (i) General (6).

19. A. Based on observation and interview, the controlled drug storage area at the Johnson Surgical Center failed to ensure security of drugs.

Effective action date: 11/11/2014

Affected Patients:
No patients were identified as adversely affected by failure to comply with this requirement.

POC: The Manager of Perioperative Services instructed the charge nurse to secure the keys immediately at the time survey. A new practice was initiated immediately for the narcotic keys to remain with the responsible RN or locked in the accudose. This was discussed during the 11/4/2014 staff meeting. All education completed by 11/11/2014.

QA/PI: The narcotic key security is monitored and reported monthly until 100%compliance is achieved for 4 consecutive months. Documented findings are reported monthly for at least four months to the Quality Improvement Committee.

Responsible person: Manager of Perioperative Services assures dated is collected.
Assistant Vice President of Patient Care Services assures reporting of audits to the Quality improvement Committee.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) and/or (i) General (6) and/or (l) Infection control (1).

20. A. Based on observation and interview, the hospital failed to ensure that an anesthesia medication pump had a current biomedical status check and/or was pulled from use when the pump could no longer be cleaned effectively.

Effective action date: 11/13/2014

Affected Patients:
No patients were identified as adversely affected by failure to comply with this requirement.

POC:
At the time of survey, the medication pump was immediately pulled out of service. The medication pump front face was replaced and preventative maintenance updated. October 10, 2014; w/o # 34308- medication pump placed back into service.

QA/PI:
Education was completed with the Johnson Surgical Center staff on 11/13/2014, regarding, removing from service equipment that cannot be properly cleaned and placing an appropriate work order for maintenance. The medication pump is on a yearly preventative maintenance and as needed schedule. Equipment prior to use is visually inspected at and again yearly via Environment of Care Rounds and quarterly during Infection prevention Surveillance.

Responsible Person:
Manager of Perioperative Services assures dated is collected.
Assistant Vice President of Patient Care Services assures reporting of audits to the Quality improvement Committee.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) and/or (i) General (6).

21. A. Based on observation, the emergency carts in the surgical center failed to be free and clear of obstacles.

Effective action date: 11/06/2014

Affected Patients:
No patients were identified as adversely affected by failure to comply with this requirement.

POC:
The Manager of Perioperative services at the time of survey immediately required RNs to remove chair for quick access to emergency equipment, and set expectations to keep areas in front of emergency equipment clear and unimpeded. Education completed by 11/6/2014.

QA/PI:
Emergency cart is monitored to ensure it is not blocked and reported monthly until 100% compliance is achieved for 4 consecutive months. Documented findings are reported monthly for at least four months to the Quality Improvement Committee.

Responsible Person:
Manager of Perioperative Services assures dated is collected.
Assistant Vice President of Patient Care Services assures reporting of audits to the Quality improvement Committee.

The following are violations of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) and/or (c) Medical staff (4)(A) and/or (e) Nursing service (1) and/or (i) General (6) and/or (l) Infection control (1).

22. A. Based on observation and interview, the hospital endoscopy suite (two rooms and a scope cleaning room between) failed to have a soiled to clean pathway for cleaning and movement of the scopes.

Effective action date: 11/12/2014

Affected Patients:
No patients were identified as adversely affected by failure to comply with this requirement.

POC:
1. A walk- through the endoscopy suite was conducted with the Manager of Perioperative Services to delineate clean from soiled. A walk-through was conducted again with the manager of Perioperative Services, QRM staff and Consulting Infection Prevention Coordinator to review delineation of clean from soiled in preparation to revamp traffic flow from clean to soiled.
2. Consulting Infection Prevention Coordinator and Manager of Perioperative Services has

reviewed and reinforced/set expectations with endoscopy staff delineation of clean and soiled area traffic flow pattern.

23. A-c. Based on observation during tour, infection control practices failed to be implemented.

Effective action date: 11/12/2014

Affected Patients:
No patients were identified as adversely affected by failure to comply with this requirement.

POC:
1. Consulting Director of Infection Prevention to attend Environment of Care (EOC) and Infection Prevention (IP) rounds with respective teams in the Endoscopy suite twice a year and report any findings to Infection Prevention Committee.
2. Daily rounds of the endoscopy suite are performed by the perioperative manager(s) and documented daily.
3. The cart was immediately removed by Manager of Perioperative Services. The staff was educated that propping doors open violates Safety and Infection prevention protocols. Education was completed on 11/6/2014. A work order (#87480) for engineering was entered for installation of door levers allowing access for clinicians to use elbows to open doors. Work was completed 11/12/2014
4.. A work order for the soiled utility room (#87899) was entered to install door levers allowing access to clinicians to use elbows to open doors and self closures so door will not remain open. Work was completed on 11/12/2014.
5. A work order was placed for delaminated cupboard doors (#87443). Work completed 10/17/2014.

QA/PI:
The door is monitored to ensure it is not propped open and reported monthly until 100% compliance is achieved for 4 consecutive months. Documented findings are reported monthly for at least four months to the Quality Improvement Committee
Consulting Director of Infection Prevention to attend Environment of Care (EOC) and Infection Prevention (IP) rounds with respective teams in the Endoscopy suite twice a year and report any findings to Infection Prevention Committee.

Responsible Person:
Manager of Perioperative Services assures dated is collected for door propping.
Assistant Vice President of Patient Care Services will assure reporting at Quality Improvement Committee.

Daily rounds of the endoscopy suite are performed by the perioperative manager(s) and documented daily.
The consulting Director of Infection Prevention is responsible for Infection Prevention (IP) rounds with respective teams in the Endoscopy suite twice a year and reports any findings to Infection Prevention Committee.
Assistant Vice President of Patient Care Services will assure reporting at Infection Prevention Committee.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (c) Medical staff (4)(A) and/or (d) Medical records (3).

24. A-d. Based on a review of clinical records, interview and policy, for four of six clinical records reviewed (#31, #33, #44 and 46), the hospital failed to ensure that post-anesthesia evaluations were conducted, and/or legible and/or complete.

Effective action date: 11/14/2014

Affected Patients:
No patients were identified as adversely affected by failure to comply with this requirement.

POC:
Members of the Anesthesia Medical Staff have been educated 1:1 and/or by email with a clinical note on the new Post Anesthesia Care Policy, finalized on November 1, 2014. Every patient receiving anesthesia must have a post anesthesia evaluation within 48 hours of the procedure or prior to discharge from the facility, whichever is sooner. Authentication is mandatory and includes three elements (signature, date and time) as per regulation. The Anesthesia Medical Staff have been educated on the new policy as of 11/14/2014.

QA/PI:
Anesthesia records are reviewed until 100% compliance is achieved for four consecutive months. Document findings are reported monthly for at least four months to the Quality Improvement Committee.

Responsible Person:
Chair of the Anesthesia Department assures data is collected.
Chair of the Anesthesia Department assures reporting at Departmental meetings.
Vice President Medical Affairs assures reporting of audits to the Quality Improvement Committee.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) and/or (c) Medical staff (2)(A) and/or (4)(A) and/or (i) General (6).

25. A. Based on observation, review of hospital documentation, interviews, and hospital policy for patients receiving emergency care and services, documentation and interviews failed to reflect that adequate medical coverage was present in the Emergency Department (ED) as per policy.

Effective action date:11/13/2014

Affected Patients:
No patients were identified as adversely affected by failure to comply with this requirement.

POC:
To ensure adequate ED coverage present in the Emergency Department effective 11/13/2014 the ED coverage plan is as follows:
1. Currently, ED credentialed Medical Doctor (MD) staff are scheduled within the emergency department (24 hours / 7 days/ 365 days)
2. Currently, a physician assistant PA staff covers the emergency department 7 days per week during the hours of 11am-7amm
3. Additionally, to ensure sufficient ED coverage an additional ED credentialed MD will be available Monday through Friday as needed for emergencies.
4. Additional coverage will also be provided by anesthesia MD or CRNA on Saturday and Sunday for all emergent inpatient responses.

This interim plan is based on our ability to successfully recruit additional ED MD credentialed medical resource:

1. Labor and Delivery nursing staff are educated to contact the OB/GYN doctor sooner to provide appropriate and timely care.
2. Additional scheduling of providers for inpatient /labor and delivery coverage is as follows, although scheduling changes between provider type may change:
Credentialed PA's
Credentialed Pediatricians
Credentialed Nurse Mid-wives
Credentialed Anesthesiologists
Credentialed CRNA's
QA/PI:
1. The VPMA reviews schedule and assigns staff to maintain appropriate Emergency Medicine credentialed physician coverage of the ED / Emergency department.
2. Labor and Delivery nursing staff shall document the time a provider is called to provide appropriate and timely care. The labor and delivery nursing staff shall also

document the time of arrival of the scheduled/called provider. Any failure to comply with timely arrival shall be brought to the immediate attention of the VPMA for review.
3. Monthly monitoring of the coverage schedule, along with times documented for provider call and arrival to ensure compliance. Any compliance failure is brought immediately to the attention of the VPMA for follow-up with the Labor and Delivery medical director.
4. All schedules, and call/arrival documentation is presented at the monthly Medical Executive Committee(MEC) for review and actions as appropriate until successful recruiting of additional ED credentialed medical resource.

Responsible Person:
VP of Medical Affairs and VP Patient Care Services ensure data is collected by Director of Cardiopulmonary. Code Committee minutes are submitted to the Medical Executive Committee and Quality Committee of the Board.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (c) Medical staff (4)(A) and/or (d) Medical records (3).

26. A-b. Based on a review of clinical records, interview, and policy review, for two of three records reviewed (Patient #42 and 43) , the hospital failed to ensure the referring physician authenticated the outpatient evaluation for therapy services in a timely manner in accordance with hospital policy.

Effective action date: 10/24/2014

Affected Patients:
No patients were identified as adversely affected by failure to comply with this requirement.

POC:
1. The physical, occupational and speech evaluations were immediately re-sent to responsible physicians for signature.
2. The evaluation, progress/discharge forms are revised to incorporate MD signature.
3. Physical Medicine and Rehabilitation: Referrals and Responsibilities policy and procedure has been reviewed and revised. All speech, OT, PT personnel and secretaries have been educated on the revised policy by 10/24/2014.

QA/PI:
The charts are reviewed weekly by the Rehab inpatient and outpatient managers until 100% compliance is achieved for 4 consecutive months.
Documentation of findings is reported monthly for at least 4 months to the Quality Improvement Committee.

Responsible Person:
Inpatient Physical Therapy Manager and outpatient Physical Therapy Manager assures data collection.
Assistant Vice President of Patient Care Services assures reporting of audits to the Quality Improvement Committee.

The following are violations of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) and/or (i) General (6).

27. A, b The facility did not ensure that emergency lighting of at least 1½-hour duration is provided, as required by " Life Safety Code " section #'s 7.9 & 19.2.9.1

Effective action date: 11/21/2014

Affected Patients:
No patients were identified as adversely affected by failure to comply with this requirement.

POC:
A) In order to meet this standard the program will be relocated to 151 Hazard Ave. Enfield, CT on or before 11/21/14. Evidence this standard is being met at the 151 Hazard Ave. location is documented by annual PM #:86682

B) In order to meet this standard the program will be relocated to 151 Hazard Ave. Enfield, CT on or before 11/21/14. Evidence this standard is being met at the 151 Hazard Ave. location is documented by monthly PM #'s:
87778,87284,86681,86286,85778,85014,84602,84026,83493,83106,82726,82231

QA/PI:
Ongoing compliance that this standard is being met will be reported monthly on the facilities metrics report and monitored at the Environment of Care Committee

Responsible Person:
The consulting Facilities Director is responsible of ensuring compliance with this plan of correction and that monitoring results are presented to Environment of Care Committee monthly.

28. The facility did not ensure that fire drills were held at unexpected times under varying conditions at least quarterly on each shift as required by the referenced LSC.

Effective action date: 11/10/2014

Affected Patients:
No patients were identified as adversely affected by failure to comply with this requirement

POC:
Fire drills are conducted quarterly, at the Johnson Surgical Center, during occupied hours using the fire drill matrix which will randomize times of drills. Effective at time of survey. First drill with matrix conducted 11/10/14.

QA/PI:
Fire drills are reported in Life Safety Metrics at Environment of Care Committee including dates and shifts of drills to ensure randomization.

Responsible Person:
The consulting Facilities Director is responsible of ensuring compliance with this plan of correction and that monitoring results are presented to Environment of Care Committee quarterly.

29. The facility did not ensure that there is an automatic sprinkler system installed in accordance with NFPA 13, Standard for the Installation of Sprinkler Systems, to provide complete coverage for all portions of the building. The system is properly maintained in accordance with NFPA 25, Standard for the Inspection, Testing, and Maintenance of Water-Based Fire Protection Systems. It is fully supervised. Required sprinkler systems are equipped with water flow and tamper switches, which are electrically connected to the building fire alarm system.

Effective action date: 11/06/2014

Affected Patients:
No patients were identified as adversely affected by failure to comply with this requirement.

POC:
Installed five new tamper switches to supervise fire pump valves. Initial system test done 11/6/2014.
All valves have been labeled.
W/o # 87913- completed 11/6/2014

Monitored through Environment of Care rounds once per year and tested annually as part of alarm management.

Responsible Person:
The consulting Facilities Director is responsible of ensuring compliance with this plan of correction and that monitoring results are presented to Environment of Care Committee annually.

30. The facility did not ensure that the facilities air conditioning and ventilation equipment was in accordance with NFPA 90A: Standard for the Installation of Air Conditioning and Ventilation Systems, NFPA 72 National Fire Alarm Code and as required by the referenced LSC.

    Effective action date: 10/23/2014

    Affected Patients:
    No patients were identified as adversely affected by failure to comply with this requirement.

    POC:
    All deficient dampers were inventoried and was completed 10/23/2014. A risk assessment was preformed on all inaccessible dampers. Any accessible damper that failed inspection was repaired at time of inspection on 05/04/2010, 08/12/2010 and 11/22-23/2010.
    The facility is protected by an approved automatic sprinkler system and a fully addressable smoke alarm system. The facility is staffed 24 hours a day and all employees on all shifts are trained annually as to their role and responsibilities in fire response. HVAC units are protected by HVAC shut down devices that are tested annually.

    QA/PI:
    The facility is protected by an approved automatic sprinkler system and a fully addressable smoke alarm system. The facility is staffed 24 hours a day and all employees on all shifts are trained annually as to their role and responsibilities in fire response. HVAC units are protected by HVAC shut down devices that are tested annually. Vendor proposal to assess and aid in gaining access to inaccessible dampers 11/13/2014.

    Responsible Person:
    The consulting Facilities Director is responsible for this plan of correction.

31. The facility did not ensure that Emergency and Standby Power Systems were being installed, inspected and maintained as required in NFPA 110 "Standard for Emergency and Standby Power Systems" and NFPA 99 "Health Care Facilities".

    Effective action date: 11/12/2014

Affected Patients:
No patients were identified as adversely affected by failure to comply with this requirement.

POC:
Generators were secured on 10/17/2014 (w/o # 87493).
Emergency shutdown (E-Stop) was installed 11/7//2014. Purchase order number 68499 and 68530 were issued to vendor on 10/28.
Engaged on 10/8/2014 an electrical engineer to design electrical power distribution gear that will divide into three separate and distinctive branches and meet the code requirement.
All transfer switches were labeled appropriately on 11/12/2014.

QA/PI:
The security of the temporary generator is checked daily as part of daily rounds and submitted to the Director of Engineering beginning 11/7/14.

Responsible Person:
The consulting Facilities Director is responsible of ensuring compliance with this plan of correction and that monitoring results are presented to Environment of Care Committee annually.

32. The facility did not ensure that Emergency and Standby Power Systems were being inspected and maintained as required in NFPA 110, *" Standard for Emergency and Standby Power Systems "*.

Effective action date: 11/12/2014

Affected Patients:
No patients were identified as adversely affected by failure to comply with this requirement.

POC:
The temporary generator was secured with wheel chocked on: 10/10/14, the Trailer hitch/Pintel and access panels were secured with locks on: 10/14/14
W/O #: 87341.

QA/PI:
The security of the temporary generator is checked daily as part of daily rounds and submitted to the Director of Engineering beginning 11/7/14.

Responsible Person:
The consulting Facilities Director is responsible of ensuring compliance with this plan of correction and that monitoring results are presented to Environment of Care Committee annually.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2).

33. A. Based on a review of clinical records and interview, the facility failed to ensure that one of four patients' (#34) were assessed by the social worker.

Effective action date: 10/24/2014

Affected Patients:
No patients were identified as adversely affected by failure to comply with this requirement.

POC
Education provided to Social Worker and Crisis Workers with expectation psychosocial assessments are completed within 72 hours of patient admission to unit. Education was completed by 10/24/2014.

QA/PI:
Monitor to ensure the psychosocial are completed within 72 hours. Monitoring until 100% compliance is achieved for 4 consecutive months. Documentation of findings are reported monthly for at least 4 months to the Quality Improvement Committee to ensure sustained compliance.

Responsible Person:
Director of Psychiatry assures data is collected.
Assistant Vice President of Patient Care Services assures reporting of audits to the Quality Improvement Committee

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) and/or (c) Medical staff (4)(A).

34. Based on a review of clinical records, interview and policy review the facility failed to ensure that a comprehensive psychiatric evaluation was completed for three of three psychiatric patients (Patient #35, 36, and 37).
a., b., c.

Effective action date: 11/10/2014

Affected Patients:
No patients were identified as adversely affected by failure to comply with this requirement.

POC:
Medical Director of Psychiatry developed a new template for admitting psychiatric assessments. The psychiatric admission assessment includes long term goals and initial treatment plan. The psychiatric assessment is completed within 24 hours of admission. Education for all psychiatric Providers was completed on November 10, 2014.

QA/PI:
Medical Director of psychiatry reviews medical records on charts after second day of admission, for completeness. Results are presented to Quality Improvement Committee and Medical Executive Committee monthly until 100% compliance is achieved for 4 months. Data will continue to be collected for 3 quarters to ensure sustainability. Documentation of findings will be reported monthly for at least 4 months and then quarterly for 3 quarters to the Quality Improvement Committee and the Medical Executive Committee.

Responsible person:
The Medical Director of Psychiatry is responsible for assuring data is collected and Vice President of Medical Affairs assures report of data to Quality Improvement Committee and Medical Executive Committee.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) and/or (c) Medical staff (4)(A) and/or (d) Medical records (2).

35. A,b,c Based on a review of clinical records and policy review, the facility failed to develop individualized psychiatrically focused interventions for three of five sampled patients (#34, 37, and 59). The interventions are generic and denote routine clinical responsibilities for the clinical discipline rather than being patient specific. This deficiency results in treatment plans that do not reflect a comprehensive, integrated individualized approach to patient care.

Effective action date: 10/24/2014

Affected Patients:
No patients were identified as adversely affected by failure to comply with this requirement.

POC:
Director of Psychiatry educated the Behavioral Health staff on individualizing the patient treatment plan. This includes, but is not limited to group attendance being monitored and adjusting treatment plan if patient not meeting the goal. Education completed 10/24/14.

QA/PI:
Monitoring is performed daily to ensure treatment plans are updated on ongoing bases as needed. Audits are performed until 100% compliance for four consecutive months with the plan of correction. Results are reported monthly to the Quality Improvement Committee.

Responsible Person:
Director of Psychiatry will assure data is collected.
Assistant Vice President of Patient Care Services will assure reporting of audits to the Quality Improvement Committee

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2).

36. A. Based on a review of facility documentation and interview, the facility failed to ensure there was a qualified Director of Social Services responsible to supervise the quality of Social Services being provided in the psychiatric unit.

Effective action date: 10/22/2014

Affected Patients:
No patients were identified as adversely affected by failure to comply with this requirement.

POC:
A Director of Social Work is in place as of 10/22/14.

The Director of Social Work shall report directly to the Assistant Vice President of Patient Care Services.

Responsibilities include oversight of staff social workers on the Behavioral Health Unit including, but not limited to Social Work documentation, competencies and job performance. Director of Social Work works collaboratively with the Nursing Director of Psychiatry to monitor and measure QAPI for potential improvements.

Responsible Person:
Assistant Vice President Patient Care Services

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) and/or (c) Medical staff (4)(A).

37. A. Based on a review of facility documentation and interview, the facility failed to ensure that a sufficient number and/or quality of therapeutic groups to assist the patients to achieve the desired outcomes.

Effective action date: 10/20/2014

Affected Patients:
No patients were identified as adversely affected by failure to comply with this requirement.

POC:
Nursing groups have been added to include weekends, Monday, Wednesday, and Friday. Social Work groups have been added on Tuesday and Thursday. Staff education was completed by 10/20/14. New schedule for nursing groups began 10/20/2014. Social work groups begin no later than 12/15/2014.
Occupational Therapy and Mental Health Worker facilitated groups continue as scheduled at five times per day.

QA/PI:
Daily monitoring to ensure groups are taking place documented correctly and completely. Monitoring is performed until 100% compliant for four consecutive months. Results are reported monthly to QIC.

Responsible Person:
Director of Psychiatry assures data is collected.
Assistant Vice President of Patient Care Services assures reporting of audits to the Quality Improvement Committee.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) and/or (g) Pharmacy (1) and/or (i) General (6).

38. A.-k. *Based on observation, interviews, and policy review, the hospital, who compounds sterile pharmaceuticals, failed to ensure proper infection control practices were maintained.

Effective action date: 01/01/2015

Affected Patients:
No patients were identified as adversely affected by failure to comply with this requirement.

POC:
a. Technician #11 was immediately re-educated on garbing policy# 1805B- Cleaning and Disinfecting Procedures for Pharmacy Clean Rooms (includes garbing competencies) at time of visit, 11/24/2014. All full-time pharmacy staff performing sterile compounding were re-educated on above policy which was completed by 12/23/2014. Part-time and per diem staff education will be completed by 1/1/2015.
b.-f. Policies 1804-Laminer Air Flow Hood Maintenance and 1805B- Cleaning and Disinfecting Procedures for Pharmacy Clean Rooms (includes garbing competencies) have been reviewed and revised. Pharmacy staffs performing sterile compounding were educated on policy changes. All full-time pharmacy staff performing sterile compounding were re-educated on above policy which was completed by 12/23/2014. Part-time and per diem staff education will be completed by 1/1/2015.
g. Areas noted were immediately cleaned. Policy Ante-Room/Mixing Room Floor Cleaning Procedure has been reviewed and revised. Building Services staff performing daily cleaning have been educated on policy changes. Education was completed by 12/23/2014.
h. Area of LAFW hood was immediately cleaned. Policy 1805B has been reviewed and revised. Pharmacy staff performing sterile compounding were educated on policy changes. All full-time pharmacy staff performing sterile compounding were re-educated on above policy which was completed by 12/23/2014. Part-time and per diem staff training will be completed by 1/1/2015.
i. and j. re caulking around the door frame (w/o 88185), behind the BSC and around the duct work used for venting the BSC (w/o 88182), to create smooth surfaces for proper cleaning will be redone and the two ceiling tiles observed to have abrasions (w/o 88189) will be replaced. Completion is anticipated prior to the next recertification scheduled for 1/19/2015.

QA/PI:
a. Completed competencies are located within the pharmacy department files. Monitoring of all staff entering the compounding will be conducted by a pharmacist on a daily basis until 100% compliance is achieved for 4 consecutive months. Documentation of findings are reported to the Performance Improvement
Committee until 4 consecutive months of compliance is achieved.
b.-f. Completed competencies are located within the pharmacy department files. Vial seals have been added to BSC to prevent reaching into LAFW. Monitoring of air vents and cleanliness of BSC will be conducted no less than 5 times per week by a pharmacist until 100% compliance is achieved for 4 consecutive months. Documentation of findings is reported to the Performance Improvement Committee until 4 consecutive months of compliance is achieved.
g. Completed competencies are located within the Building Services personnel files for the personnel that clean the floors and coving. Monitoring will be conducted by a pharmacist on a daily basis until 100% compliance is achieved for 4 consecutive months. Documentation of findings are reported to the Performance Improvement
Committee until 4 consecutive months of compliance is achieved.

h. Completed competencies are located within the pharmacy department files.
Monitoring of cleanliness of LAFW will be conducted no less than 5 times per week by a pharmacist until 100% compliance is achieved for 4 consecutive months. Documentation of findings is reported to the Performance Improvement Committee until 4 consecutive months of compliance is achieved.
i.-j. Daily rounds will be conducted Monday-Friday by the Infection Preventionist in collaboration with Pharmacist at both the Stafford Springs, CT and Enfield, CT Infusion Pharmacies which started on 11/17/14.
Documentation of findings is reported monthly to the Infection Control Committee.

Consulting Pharmacy Director has complete oversight of the compounding rooms and no one enters said rooms with approval of consulting Pharmacy Director or designee.

Responsible Person:
The responsible person for this corrective action is the consulting Pharmacy Director and consulting Infection Prevention Director.

March 4, 2015

Stuart Rosenberg, President & CEO
Johnson Memorial Hospital
201 Chestnut Hill Road
Stafford Springs, CT 06076-0860

Dear Mr. Rosenberg:

Unannounced visits were made to Johnson Memorial Hospital on February 13, 18 and 19, 2015 by a representative of the Facility Licensing and Investigations Section of the Department of Public Health for the purpose of conducting an investigation.

Attached are the violations of the Regulations of Connecticut State Agencies and/or General Statutes of Connecticut which were noted during the course of the visits.

A tele-conference has been scheduled Monday, March 16, 2015 at 10:00 A.M. in the Facility Licensing and Investigations Section of the Department of Public Health, 410 Capitol Avenue, Second Floor, Hartford, Connecticut. Should you wish to retain legal representation, your attorney may accompany you to this meeting.

You may wish to dispute the violations and you may be provided with the opportunity to be heard. If the violations are not responded to by March 16, 2015 or if a request for a meeting is not made by the stipulated date, the violations shall be deemed admitted.

Please prepare a written Plan of Correction for the above mentioned violation(s) to be presented at this conference.

Each violation must be addressed with a prospective Plan of Correction which includes the following components:

1. Measures to prevent the recurrence of the identified violation, (e.g., policy/procedure, inservice program, repairs, etc.).
2. Date corrective measure will be effected.
3. Identify the staff member, by title, who has been designated the responsibility for monitoring the individual plan of correction submitted for each violation.

Alternate remedies to violations identified in this letter may be discussed at the office conference. In addition, please be advised that the preparation of a Plan of Correction and/or its acceptance by the Department of Public Health does not limit the Department in terms of other legal remedies, including but not limited to, the issuance of a Statement of Charges or a Summary Suspension Order and it does not preclude resolution of this matter by means of a Consent Order.

We do not anticipate making any practitioner referrals at this time.

Should you have any questions, please do not hesitate to contact this office at (860) 509-7400.

Respectfully,

Maureen H. Klett, R.N., C., M.S.N.
Supervising Nurse Consultant
Facility Licensing and Investigations Section

MHK:HC:mk

CT #17868

The following are violations of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) and/or (e) Nursing service (1) and/or (i) General (7).

1. Based on review of facility documentation, review of facility policies and procedures and interviews with facility personnel for five of nine patients (#1, #2, #3, #4, #5) residing on the psychiatric unit, identified that visitor sign in sheets were not completed prior to visitors entering the psychiatric unit. The findings include:
    a. Review of visitor sign in sheets for six patients (P#1, P#2, P#3, P#4, P#5) who had visitors between 2/1/15-2/10/15 identified that the sign in sheets were not dated, signed and/or the name of the patient to be visited was not listed. Review of hospital policy identified that all visitors are to read and sign the visitor sign in sheet regarding items that can and/or cannot be brought in to patients on the psychiatric unit. Further review identified that smoking is not allowed at any time at this facility and visitation privileges will be suspended if any smoking or tobacco materials are given to the patient. Interview with the Nursing Director of Psychiatry on 2/13/15 identified the visitor sign in sheets were not completed. Further interview identified that he/she was not aware how P#1 had gotten a smoking excelerant.

       On 2/13/15, the facility submitted an immediate action plan indicating that all staff/visitors would be educated on the visitor's policy and visitors sign in sheet requiring all visitors to review and sign the sheet prior to entering the psychiatric unit.

2. Based on review of the clinical record, review of facility policies and procedures and interviews with facility personnel for one of twelve sampled patients (Patient #1), the facility failed to ensure that the patient's safety status was changed to prevent an incident and/or failed to ensure that P#1 did not have access to a smoking excelerant and/or failed to reevaluate the patient after a change in condition was noted. The findings include:
    a. *Patient #1 was admitted to the hospital on 2/4/15 with a diagnosis of paranoid Schizophrenia. Patient #1 was found to be dehydrated, hypokalemic and had stopped taking her psychiatric medications since 8/2014. Patient #1 was placed on the medical floor and was on constant observation until medically cleared. While on the medical floor, P #1 was agitated, belligerent, hostile spitting on the floor and at staff and refused medications. On 2/5/15, Patient #1 was sent to the psychiatric unit and placed on constant observation through 2/6/15, at which time the patient was placed on every fifteen minute checks. Review of the clinical record dated 2/6/15-2/9/15 (four days) identified that the patient continued to be agitated, belligerent, hostile, spitting on the floor and at staff and refused medications. Patient #1's behaviors continued however, the patient remained on to every fifteen minute checks. On 2/9/15 at 1:45 PM, Patient #1 had behaviors of refusing meals, medications, slamming doors and spitting. Patient #1's behavior continued to escalate and he/she refused to go to her room. P#1 was

escorted to the quiet room, the door remained open due to the need to clean P#1's room and was unrelated to P#1's behavior. Further review identified that MD#1 was notified at 1:45 PM about the patient's escalating behavior and the patient was given Haldol 5mg IM and Cogentin 1mg IM. Patient #1 ' s behaviors continued to be noted, at 2:45 PM, the patient came out of the quiet room and went into his/her room slamming the door and became belligerent with staff. MD #1 was notified and the patient was given Thorazine 50mg IM. The patient remained on every fifteen minute checks. At 2:55 PM, Patient #1 opened the bedroom door and yelled "come on in " to RN #2. Interview with RN #2 on 2/13/15 identified she had entered the patient ' s room after being summoned to the room by P#1 and found the corner end of the mattress from an unoccupied bed in her room on fire. Patient #1 was laughing, psychotic, refused to cooperate with a request to leave the room and laid down on the floor. Patient #1 was removed from the room immediately, after being carried out by multiple staff members and a Code Red was called simultaneously. Patient #1 sustained no injuries.

Review of hospital policy identified that patients whose behavior presents a clinical picture of potentially significant problematic behavior without continuous staff presence should be placed on close observation status. Interview and review of the clinical record on 2/13/15 with MD # 1 identified that since the patient's behaviors had escalated and the patient needed medication administered twice within an hour ' s time, the patients observation status could have been changed to a constant observation (MD#1 had only been employed by the hospital for a two week period).

Further review of the facility policy identified that smoking is not allowed at any time at this facility and visitation privileges will be suspended if any smoking or tobacco materials are given to the patient. Subsequent to the incident, on 2/10/15, the facility assessed all patients in the psychiatric unit for safety status and contraband.

Review of the progress notes dated 2/9/15 failed to identify that P#1 was evaluated by the psychiatrist after the need to emergently medicate P#1 with Haldol 5mg IM and Cogentin 1mg IM and subsequently, with Thorazaine 50mg IM. Review of hospital policy identified any qualified practitioner with clinical privileges can be called for consultation within his/her area of expertise. Interview with MD #1 on 2/13/15 identified that she was on the unit and signed off orders for medications that were given to Patient #1, however never reevaluated the patient. Interview with the Medical Director of Psychiatry on 2/19/15 identified that the physician should have re-evaluated by MD #1 when the patient's behaviors were escalating.

Re: DPH Survey Concluded 2/19/2015

Dear Ms. Klett:

Enclosed please find the Plan of Correction for the above-referenced DPH visits conducted at Johnson Memorial Hospital. We appreciate your consideration of an expedited review.

Should you have any questions or require additional information, I can be reached at (860) 684-8101 or you can contact Mr. Karl Kamyk, Assistant Vice President, Ancillary Services at (860) 684-8498.

Thank you, in advance, for your consideration of our request.

Sincerely,

Stuart E. Rosenberg
President/CEO

Survey File

The following are violations of the Regulations of Connecticut State Agencies Section 19-13-D3 (b) Administration (2) and/or (e) Nursing service (1) and/or (i) General (7).

1a. Based on review of facility documentation, review of facility policies and procedures and interviews with facility personnel for five of nine patients (#1, #2, #3, #4, #5) residing on the psychiatric unit, identified that visitor sign in sheets were not completed prior to visitors entering the psychiatric unit.

Effective action date: 02/13/2015

On 2/13/15, the facility submitted an immediate action plan indicating that all staff/visitors would be educated on the visitors policy and visitors sign in sheet requiring all visitors to review and sign the sheet prior to entering the psychiatric unit.

Affected Patients: No patients were adversely affected by failure to comply with this requirement.

POC: Immediate plan of correction, per the letter submitted to the DPH, dated February 13, 2015:

1. Immediate search of the Behavioral Health Unit was conducted including patient rooms, common areas, each patient admitted to the Behavioral Health Unit and their belongings to assure no banned items on the unit.
2. All visitors upon entrance to the Behavioral Health Unit are educated on the Visitor Policy.
3. All Visitors are required to review the Visitor Guidelines and sign the Visitor Sign In Sheet Form prior to all visits.
4. Immediate education plan on the Visitor Policy implemented for every Behavioral Health Unit staff member. Completed on February 20, 2015 or required prior to team members return to work.

QA/PI:

Visitor Log is audited on every shift by the charge nurse to assure compliance and completeness. Audits will continue and be reported to Performance Improvement Committee (PIC) monthly until 100% compliance is achieved for 4 consecutive months. Data will continue to be collected for the 3 quarters after 100% is achieved to assure sustainability.

Responsible Person:
Interim/ Consulting Director of Behavioral Health Unit is responsible to assure data is collected and reported to AVP Patient Care Services. The AVP for Patient Care Services is responsible to assure QA/PI is reported to PIC as indicated.

2a. Based on review of the clinical record, review of facility policies and procedures and interviews with facility personnel for one of twelve sampled patients (Patient #1), the facility failed to ensure that the patient's safety status was changed to prevent an incident and/or failed to ensure that P#1 did not have access to a smoking excelerant and/or failed to reevaluate the patient after a change in condition was noted.

Effective action date: 03/04/2015

Affected Patients: No patients were adversely affected by failure to comply with this requirement.

POC:

1. Patient Observation and Safety Policy was reviewed and revised on March 2, 2015.
2. Patients exhibiting change in behavior, which demonstrates behavior that can be a risk to self or others are immediately re-assessed by behavioral health nursing staff and placed on a higher level of observation, if indicated, and the MD will be notified.
3. Behavioral Health team staff have been educated on the Patient Observation and Safety Policy. In addition, recognition of signs and symptoms of behaviors that require a change in observation status was completed on March 4, 2015 or required prior to a team member's return to work.

QA/PI:
Audits will be completed by the Interim /Consulting Director of the Behavioral Health Unit and/or designee every shift to assure compliance and completeness.
Audits will continue and be reported to Performance Improvement Committee (PIC)monthly until 100% compliance is achieved for 4 consecutive months. Data will continue to be collected for the 3 quarters after 100% is achieved to assure sustainability.

Responsible Person:
Interim/ Consulting Director of Behavioral Health Unit is responsible to assure data is collected and reported to AVP Patient Care Services. The AVP for Patient Care Services is responsible to assure QA/PI is reported to PIC as indicated.

STATE OF CONNECTICUT

DEPARTMENT OF PUBLIC HEALTH

March 19, 2015

Michele Beverly, Administrator
Home & Community Health Service, Inc.
101 Phoenix Avenue
Enfield, CT 06083-1199

Dear Ms. Beverly:

Unannounced visits were made to Home & Community Health Service, Inc. on March 2, 3, 4, and 5, 2015 by representatives of the Facility Licensing and Investigations Section of the Department of Public Health for the purpose of conducting an investigation, and a certification inspection.

Attached are the violations of the Regulations of Connecticut State Agencies and/or General Statutes of Connecticut which were noted during the course of the visits.

An office conference has been scheduled for April 6, 2015 at 9:00AM in the Facility Licensing and Investigations Section of the Department of Public Health, 410 Capitol Avenue, Second Floor, Hartford, Connecticut. Should you wish to retain legal representation, your attorney may accompany you to this meeting.

You may wish to dispute the violations and you may be provided with the opportunity to be heard. If the violations are not responded to by April 2, 2015 or if a request for a meeting is not made by the stipulated date, the violations shall be deemed admitted.

Please prepare a written Plan of Correction for the above mentioned violations to be presented at this conference.

Each violation must be addressed with a prospective Plan of Correction which includes the following components:

1. Measures to prevent the recurrence of the identified violation, (e.g., policy/procedure, inservice program, repairs, etc.).
2. Date corrective measure will be effected.
3. Identify the staff member, by title, who has been designated the responsibility for monitoring the individual plan of correction submitted for each violation.

Alternate remedies to violations identified in this letter may be discussed at the office conference. In addition, please be advised that the preparation of a Plan of Correction and/or its acceptance by the Department of Public Health does not limit the Department in terms of other legal remedies, including but not limited to, the issuance of a Statement of Charges or a Summary Suspension Order and it does not preclude resolution of this matter by means of a Consent Order.

Should you have any questions, please do not hesitate to contact this office at (860) 509-7400.

Respectfully,

Loan Nguyen

Loan Nguyen, RN, SNC
Supervising Nurse Consultant

DATE(S) OF VISIT: March 2, 3, 4, and 5, 2015

THE FOLLOWING VIOLATION(S) OF THE REGULATIONS OF CONNECTICUT STATE AGENCIES AND/OR CONNECTICUT GENERAL STATUTES WERE IDENTIFIED

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D72 Patient Care Policies (b) Patient Care Standards (2)(H).

1. Based on review of the clinical record and interview with hospice agency personnel, for one of one patient (Patient #1) with a change in condition, the hospice Interdisciplinary Group (IDG) failed to include in subsequent assessments, the changes in condition that occurred since the initial assessment. The findings include:
   a. Patient #1 elected the Hospice benefit on 01/07/15. The patient's diagnoses included Merkel cell cancer of left neck, dysphagia and dementia. Physician's orders for the certification period of 01/07/15 through 03/07/15 included skilled nursing visits 1 to 2 times a week, a social work evaluation, home health aide services 1 to 3 times a week, spiritual counseling services 1 to 4 times a month and volunteer services as needed.
   Interview and review of the clinical notes with the Director of the Hospice Program and Registered Nurse (RN) #1 on 03/03/15 identified social work visits on 01/07/15 and 01/12/15, a spiritual counseling visit on 01/07/15 and a volunteer visit on 01/13/15 but failed to identify in the Interdisciplinary Group (IDG) meeting documentation dated 01/13/15 updated assessments from the social worker, spiritual counselor, and volunteer coordinator;
   Interview and review of the clinical notes with the Director of the Hospice Program and RN #1 on 03/03/15 identified skilled nursing visits on 01/15/15, 01/20/15, 01/26/15 and 01/28/15, home health aide visits on 01/14/15, 01/19/15, 01/21/15 and 01/28/15, social work visits on 01/26/15, spiritual counseling visit on 01/28/15 and a volunteer visit on 01/14/15, but failed to identify in the Interdisciplinary Group (IDG) meeting documentation dated 01/29/15 updated assessments by the nurses, social worker, spiritual counselor, and volunteer coordinator;
   Interview and review of the nursing notes with the Director of the Hospice Program and RN #1 on 03/03/15 identified nursing documentation dated 01/20/15 of a fall out of bed, nursing documentation dated 01/26/15 of enlargement of the neck lesion, nursing documentation dated 01/28/15 of the patient's increasing weakness and the need for mechanical lift transfer from bed to the wheelchair, but failed to identify in the Interdisciplinary Group (IDG) meeting documentation dated 01/29/15 updated assessments by the nurses;
   The nursing admission note dated 01/07/15 identified a left neck lesion measuring 7.2cm by 7cm by 3.5cm. No further measurement was identified during the nursing visits dated 01/08/15, 01/12/15, 01/15/15 or 01/20/15. On 01/26/15, the visiting nurse documented that the left neck lesion was "larger in size," yet recorded decreased measurements in length, width and depth (7cm by 6.2cm by 1.9cm) and failed to complement the documentation of worsening condition with the appropriate supportive measurements.

DATE(S) OF VISIT: March 2, 3, 4, and 5, 2015

THE FOLLOWING VIOLATION(S) OF THE REGULATIONS OF CONNECTICUT STATE AGENCIES AND/OR CONNECTICUT GENERAL STATUTES WERE IDENTIFIED

The following are violations of the Regulations of Connecticut State Agencies Section 19-13-D72 Patient Care Policies (b) Patient Care Standards (2)(G).

2. Based on clinical record review and interview with agency staff, for two of seven patients (Patients # 2 and #8) who required pain management, the Interdisciplinary Group failed to ensure clarification of the medication and/or treatment orders. The findings include:
   a. Patient #2 had a start of care date of 10/22/14 and diagnoses that included malignant neoplasm of the breast and secondary neoplasm. The physician's orders dated 02/19/15 included skilled nursing services 1 to 2 times a week.
   The physician's orders dated 02/18/15 included insertion of a 16 French Foley catheter as needed, irrigate with sterile water as needed and change as needed. Interview and review of the physician ' s orders with the Director of the Hospice Program on 03/04/15 at 11:30 AM failed to identify nursing attempts to obtain clarification from the physician on the size of the catheter balloon, the amount of sterile water to be used for irrigation, and orders for Foley catheter care and frequency.
   b. Patient #8 elected the hospice benefit on 02/04/15. The patient's diagnoses included Alzheimer ' s disease and pneumonia. Physician ' s orders for the certification period of 02/04/15 to 04/04/15 included skilled nursing visits 2 to 4 times each week.
   Interview and review of the physician ' s orders for the certification period of 02/04/15 to 04/04/15 with the Director of the Hospice Program on 03/05/15 identified an order for Morphine sulfate in 0.9% sodium chloride "10 mg/ml syringe" subcutaneous continuous via infusion pump at 2 mg per hour, with 1 mg bolus dose every 15 minutes as needed for pain or shortness of breath, but failed to identify nursing attempt to obtain clarification from the physician that the Morphine was delivered from a cassette housed in a Computerized Ambulatory Drug Delivery (CADD) pump, and not a syringe, and failed to identify in the physician's orders, the specification of the total volume of the cassette;
   Interview and review of the physician ' s orders for the certification period of 02/04/15 to 04/04/15 with the Director of the Hospice Program on 03/05/15 failed to identify physician's orders for the nurse to access a subcutaneous administration site, frequency of the dressing change, frequency of the subcutaneous needle change, and frequency of tubing change;
   Interview and review of the physician ' s orders for the certification period of 02/04/15 to 04/04/15 with the Director of the Hospice Program on 03/05/15 identified physician's orders for the nurses to "insert catheter, change as needed and irrigate catheter as needed" but failed to identify nursing attempt to obtain clarification from the physician on the type and size of catheter, size of balloon, type and amount of irrigation solution, and frequency of irrigation procedure.

DATE(S) OF VISIT: March 2, 3, 4, and 5, 2015

THE FOLLOWING VIOLATION(S) OF THE REGULATIONS OF CONNECTICUT STATE AGENCIES AND/OR CONNECTICUT GENERAL STATUTES WERE IDENTIFIED

The following are violations of the Regulations of Connecticut State Agencies Section 19-13-D73 Patient Care (a).

3. Based on review of clinical records and interview with agency personnel, for six of six patients (Patients # 1, 2, 3, 4, 5, 8) who required services from multiple disciplines, the agency Interdisciplinary Group (IDG) failed to ensure the plan of care specified the scope and frequency of necessary services. The findings include:
   a. Patient #1 elected the Hospice benefit on 01/07/15. The patient's diagnoses included Merkel cell cancer of left neck, dysphagia and dementia. Physician's orders for the certification period of 01/07/15 through 03/07/15 included chaplain visits as desired and volunteer services as needed.
   Interview and review of the physician's orders with the Director of the Hospice Program on 03/04/15 failed to identify the scope and frequency of services for chaplain visits and volunteer services.
   b. Patient #2 had a start of care date of 10/22/14 and diagnoses of malignant neoplasm of the breast and secondary neoplasm.
   The physician's order dated 02/19/15 included skilled nursing services 1 to 2 times a week assess the disease process, pain, activity tolerance, the need for assistive devices and volunteers.
   The clinical notes identified volunteer visits on 02/09/15 and 02/17/15.
   Interview and review of the physician's orders with the Director of the Hospice Program on 03/04/15 failed to identify specification of the scope and frequency of volunteer services.
   c. Patient #3 elected the Hospice benefit on 12/09/14. The patient's diagnoses included severe aortic dissection. Physician ' s orders for the certification period of 12/09/14 to 02/06/15 included volunteers services and bereavement services as needed.
   Interview and review of the physician's orders with the Director of the Hospice Program on 03/05/15 failed to identify specification of the scope and frequency of volunteer and bereavement services.
   d. Patient #4 had a start of care date of 12/11/14 and diagnoses that included malignant neoplasm of the colon, secondary malignant neoplasm of the liver and lungs, ascites and Alzheimer ' s dementia. The physician's orders dated 02/09/15 included volunteer services.
   The clinical notes identified volunteer visits on 12/17/14, 12/23/14 and 01/07/15.
   Interview and review of the physician's orders with the Director of the Hospice Program on 03/05/15 failed to identify specification of the scope and frequency of volunteer services.
   e. Patient #5 had a start of care date of 2/10/15 and diagnoses that included secondary malignant neoplasm of bone, bone marrow and kidney. The physician's orders dated 02/10/2015 included volunteer services "on hold for now."
   The clinical notes identified volunteer services on 02/23/15 and 03/02/15.
   Interview and review of the physician's orders with the Director of the Hospice Program on 03/05/15 at 2:00PM failed to identify specification of the scope and frequency of volunteer services.

THE FOLLOWING VIOLATION(S) OF THE REGULATIONS OF CONNECTICUT STATE AGENCIES AND/OR CONNECTICUT GENERAL STATUTES WERE IDENTIFIED

f. Patient #8 elected the Hospice benefit on 10/02/13. The patient's diagnoses included liver cancer and diabetes mellitus type II. Physician's orders for the recertification period of 07/29/14 to 09/26/14 included volunteer services and spiritual counseling services as needed.
Interview and review of the physician's orders with the Director of the Hospice Program on 03/05/15 failed to identify specification of the scope and frequency of volunteer services and spiritual counseling services.

The following are violations of the Regulations of Connecticut State Agencies Section 19-13-D72 Patient Care Policies (b) Patient Care Standards (iii).

4. Based on review of clinical record and interview with agency personnel, for six of six patients (Patients # 1, 2, 3, 4, 5 and 8) who required updates to the plan of care based on assessments, the hospice Interdisciplinary Group (IDG) failed to ensure the plan of care was updated. The findings include:
   a. Patient #1 elected the Hospice benefit on 01/07/15. The patient's diagnoses included Merkel cell cancer of left neck, dysphagia and dementia. Physician's orders for the certification period of 01/07/15 through 03/07/15 included skilled nursing visits 1 to 2 times a week, a social work evaluation, home health aide services 1 to 3 times a week, spiritual counseling services 1 to 4 times a month and volunteer services as needed.
   Interview and review of the clinical notes with the Director of the Hospice Program and Registered Nurse (RN) #1 on 03/03/15 identified social work visits on 01/07/15 and 01/12/15, a spiritual counseling visit on 01/07/15 and a volunteer visit on 01/13/15 but failed to identify in the Interdisciplinary Group (IDG) meeting documentation dated 01/13/15 updated plans of care from the social worker, spiritual counselor, and volunteer coordinator;
   Interview and review of the clinical notes with the Director of the Hospice Program and RN #1 on 03/03/15 identified skilled nursing visits on 01/15/15, 01/20/15, 01/26/15 and 01/28/15, home health aide visits on 01/14/15, 01/19/15, 01/21/15 and 01/28/15, social work visits on 01/26/15, spiritual counseling visit on 01/28/15 and a volunteer visit on 01/14/15, but failed to identify in the Interdisciplinary Group (IDG) meeting documentation dated 01/29/15 revisions to the plan of care by the nurses, social worker, spiritual counselor, and volunteer coordinator;
   Interview and review of the nursing notes with the Director of the Hospice Program and RN #1 on 03/03/15 identified nursing documentation dated 01/20/15 of a fall out of bed, nursing documentation dated 01/26/15 of enlargement of the neck lesion, nursing documentation dated 01/28/15 of the patient's increasing weakness and the need for mechanical lift transfer from bed to the wheelchair, but failed to identify in the Interdisciplinary Group (IDG) meeting documentation dated 01/29/15 revisions to the plan of care by the nurses;
   The nursing admission note dated 01/07/15 identified a left neck lesion measuring 7.2cm by 7cm by 3.5cm. No further measurement was identified during the nursing visits dated

01/08/15, 01/12/15, 01/15/15 or 01/20/15. On 01/26/15, the visiting nurse documented that the left neck lesion was "larger in size," yet recorded decreased measurements in length, width and depth (7cm by 6.2cm by 1.9cm) and failed to complement the documentation of worsening condition with the appropriate supportive measurements, in order to accurately revise the plan of care.

b. Patient #2 had a start of care date of 10/22/14 and diagnoses of malignant neoplasm of the breast and secondary neoplasm. The physician's orders dated 02/19/15 included skilled nursing services 1 to 2 times a week to assess disease process, pain, activity tolerance and the need for assistive devices, hospice aide services 3 to 5 times a week to assist with activities of daily living, bereavement and volunteer services, and social work services one to four times a month for social and emotional support.
The nursing note dated 10/27/14 indicated that Patient #2 ' s next-of-kin had requested the patient's child to move out of the house; a subsequent nursing note also dated 10/27/14 indicated that Patient # 2 had requested a portable oxygen container, which was delivered during the hospice nurse visit.
However, interview and review of the Interdiciplinary Group (IDG) meeting documentation dated 10/28/15 and 11/11/14 with the Director of the Hospice Program on 03/05/15 at 2:00 PM failed to identify updates to the plan of care to reflect psychosocial issues (request for the child to move out of the house) and/or new portable oxygen therapy, and failed to identify updated plan of care from the volunteers, spiritual counselor, and bereavement staff;
The nursing note dated 11/18/14 identified relocation of the patient's bed (hospital-type) to the living room, and nursing instruction to the patient and family on the use of the hydraulic lift for transferring the patient.
Interview and review of the Interdiciplinary Group (IDG) meeting documentation dated 11/25/14 with the Director of the Hospice Program on 03/05/15 at 2:00 PM failed to identify updates to the plan of care to reflect the use of the hospital bed, the hydraulic lift for transfers, and/or updated plan of care from the other disciplines involved (volunteers, spiritual counselor and bereavement staff);
The nursing note dated 12/31/14 indicated that the area immediately above the anus presented with warts in the past, now warts were resolved.
In the same area now was a one centimeter (1cm) open slit with a red center.
The nursing note dated 12/31/14 further indicated that Patient # 2 requested to have own family provide mouth care and shampoo, thus a revision to the hospice aide plan of care was necessary.
In addition, Patient # 2 requested on 12/31/14 that the hospice aide perform range of motion (ROM) with the patient.
Interview and review of the Interdiciplinary Group (IDG) meeting documentation dated 01/06/15 with the Director of the Hospice Program on 03/05/15 at 2:00 PM failed to identify updates to the plan of care to reflect changes in the patient's skin integrity, changes to the hospice aide plan following the patient's requests, and failed to identify documentation in the areas of psychospiritual, bereavement, physical progress towards patient goals and/or plan of care interventions (those areas were left blank).

THE FOLLOWING VIOLATION(S) OF THE REGULATIONS OF CONNECTICUT STATE AGENCIES AND/OR CONNECTICUT GENERAL STATUTES WERE IDENTIFIED

c. Patient #3 elected the Hospice benefit on 12/09/14. The patient's diagnoses included severe aortic dissection. Physician ' s orders for the certification period of 12/09/14 to 02/06/15 included skilled nursing visits 2 to 4 times a week, social work services 1 to 4 times a month, volunteer services and bereavement services as needed.
The clinical notes identified nursing visits on 12/09/14, 12/11/14, 12/14/14, 12/15/14 and 12/18/14, and social worker visits on 12/09/14 and 12/16/14.
Interview and review of the hospice Interdisciplinary Group (IDG) documentation dated 12/18/14 with the Director of Hospice on 03/05/15 failed to identify updates to the plan of care from nursing services, social work services, spiritual counseling services, volunteer services and bereavement services;
The clinical notes identified nursing visits on 12/20/14, 12/22/14, 12/24/14, 12/26/14 and 12/28/14, and a social worker visit 12/22/14.
Interview and review of the hospice Interdisciplinary Group (IDG) documentation dated 12/30/14 with the Director of Hospice on 03/05/15 failed to identify updates to the plan of care from nursing services, social work services, spiritual counseling services, volunteer services and bereavement services.

d. Patient #4 had a start of care date of 12/11/14 and diagnoses that included malignant neoplasm of the colon, secondary malignant neoplasm of the liver and lungs, ascites and Alzheimer ' s disease. The physician's orders dated 2/9/2015 skilled nursing services 1 to 2 times a week, hospice aide services 1 to 3 times a week, social work services 1 to 4 times a month, spiritual counseling and bereavement care as needed.
The social work note dated 01/16/15 indicated that Patient #4's personal care attendant (PCA) was not able to sleep because Patient #4 was up every hour at night, and the PCA felt like experiencing a break down.
The nursing note dated 01/23/15 identified a relief caregiver from 6AM to 2PM.
Interview and review of the Interdiciplinary Group (IDG) meeting documentation dated 01/29/15 with the Director of the Hospice Program on 03/05/15 at 2:00 PM failed to identify updates to the plan of care to reflect sleep issues of the PCA and the addition of a relief caregiver.

e. Patient #5 had a start of care date of 02/10/15 and diagnoses that included secondary malignant neoplasm of bone, bone marrow and kidney. The physician's orders dated 02/10/15 included skilled nursing visits 1 to 2 times a week to assess the disease process, pain and activity tolerance, hospice aide services 2 to 4 times a week to assist with activities of daily living and social work evaluation.
The nursing visit note dated 02/13/15 identified a conversation with Patient #5 and the next-of-kin about the effectiveness of pain medication.
On 02/14/15 the therapist documented the completion of a physical therapy (PT) evaluation.

Interview and review of the IDG meeting documentation dated 02/17/15 with the Director of the Hospice Program on 03/05/15 at 2:00 PM failed to identify updates to the plan of care to reflect the PT evaluation, the discussion with Patient #5 and the next-of-kin on pain management, and failed to identify updated plans of care from all the disciplines involved

THE FOLLOWING VIOLATION(S) OF THE REGULATIONS OF CONNECTICUT STATE AGENCIES AND/OR CONNECTICUT GENERAL STATUTES WERE IDENTIFIED

(volunteers, spiritual counseling, bereavement and social services).

f. Patient #8 elected Hospice benefit on 10/02/13. The patient's diagnoses included liver cancer and diabetes mellitus type II. Physician's orders for the recertification period of 07/29/14 to 09/26/14 included skilled nursing services twice a week, social work services 1 to 4 times a month, home health aide services 5 to 7 times a week, volunteers services and spiritual counseling services as needed.
The clinical notes identified nursing visits on 07/31/14, 08/02/14, 08/04/14, 08/06/14, 08/08/14, 08/10/14 and 08/11/14, spiritual counseling visit on 07/31/14 and social worker telephone contact on 07/28/14.
Interview and review of the hospice Interdisciplinary Group (IDG) documentation dated 08/12/14 with the Director of the Hospice Program on 03/05/15 failed to identify revisions to the plan of care by the nurses, social worker and spiritual counselor;
The clinical notes identified nursing visits on 08/15/14, 08/18/14, 08/22/14, and 08/26/14, a spiritual counselor visit on 08/14/14, a social worker telephone contact on 08/13/14 and a social worker onsite visit on 08/25/14.
Interview and review of the hospice Interdisciplinary Group (IDG) documentation dated 08/26/14 with the Director of the Hospice Program on 03/05/15 failed to identify revisions to the plan of care by the nurses, social worker and spiritual counselor.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D76 Quality Assurance Program (b) and/or (c)(5).

5. Based on review of the agency documentation and interviews with agency personnel, the hospice agency failed to adequately demonstrate the operation of the performance improvement program upon inquiry. The findings include:
   a. The surveyors requested documentation on hospice QAPI on 03/05/15 and were provided with the Hospice Quality Assurance Improvement Indicators (QAPI) quarterly reports dated 04/01/13 through 09/20/14, which identified the same invariable quality indicators for each quarter: comfort, medication coverage and reconciliation, and comfort kit problems.
   Interview and review of the selected quality indicators with the Administrator and the Director of the Hospice Program on 03/05/15 indicated that the hospice agency subcontracted with an external party to conduct QAPI reports, therefore the outcomes of quarterly clinical record review for 2013 and 2014 were not available for surveyor review onsite, and further indicated that the hospice agency was unable to verbalize the rationale behind the choice of quality measures, the method to ensure consistent data collection, the use of data in patient care planning, the method for data analysis, the use of data analysis in selecting performance improvement project, the method for implementing the project, and the evaluation of the effectiveness of the project.
   Instead, the hospice agency referred the surveyor to the subcontracted external party on 03/05/15 when the surveyor inquired about QAPI projects. The subcontracted external party was also unable to summarize the elements in the operation of the QAPI program in an interview on 03/05/15.

DATE(S) OF VISIT: March 2, 3, 4, and 5, 2015

THE FOLLOWING VIOLATION(S) OF THE REGULATIONS OF CONNECTICUT STATE AGENCIES AND/OR CONNECTICUT GENERAL STATUTES WERE IDENTIFIED

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D76 Quality Assurance Program (a).

6. Based on review of the agency documentation and interviews with agency personnel, the hospice agency failed to adhere to specific tracking requirements for adverse events during the data collection of QAPI projects. The findings include:
   a. The surveyors requested documentation on hospice QAPI on 03/05/15 and were provided with the Hospice Quality Assurance Improvement Indicators (QAPI) quarterly reports dated 04/01/13 through 09/20/14, which identified the same invariable quality indicators for each quarter: comfort, medication coverage and reconciliation, and comfort kit problems.
   Interview and review of the selected quality indicators with the Administrator and the Director of the Hospice Program on 03/05/15 indicated that the hospice agency subcontracted with an external party to conduct QAPI reports, therefore the outcomes of quarterly clinical record review for 2013 and 2014 were not available for surveyor review onsite, and further indicated that the hospice agency failed to adhere to specific requirements to track adverse events, and show through quantitative data that the hospice agency was able to improve quality.
   Instead, the hospice agency referred the surveyor to the subcontracted external party on 03/05/15 when the surveyor inquired about QAPI projects. In an interview on 03/05/15, the subcontracted external party was unaware of specific tracking requirements, and referred the surveyors to another party from the subcontracted company, who was absent from the third party company at the time of the survey.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D77 Administrative Organization and Records (a).

7. Based on review of the agency documentation and interviews with agency personnel, the hospice agency failed to define adverse events, analyze causes and implement preventive actions during data collection of QAPI projects. The findings include:
   a. The surveyors requested documentation on hospice QAPI on 03/05/15 and were provided with the Hospice Quality Assurance Improvement Indicators (QAPI) quarterly reports dated 04/01/13 through 09/20/14, which identified the same invariable quality indicators for each quarter: comfort, medication coverage and reconciliation, and comfort kit problems.
   Interview and review of the selected quality indicators with the Administrator and the Director of the Hospice Program on 03/05/15 indicated that the hospice agency subcontracted with an external party to conduct QAPI reports, therefore the outcomes of quarterly clinical record review for 2013 and 2014 were not available for surveyor review onsite, and further indicated that the hospice agency failed to define adverse events, analyze the causes, and implement preventive actions that included learning throughout the hospice.
   Instead, the hospice agency referred the surveyor to the subcontracted external party on 03/05/15 when the surveyor inquired about QAPI projects. In an interview on 03/05/15, the

THE FOLLOWING VIOLATION(S) OF THE REGULATIONS OF CONNECTICUT STATE AGENCIES AND/OR CONNECTICUT GENERAL STATUTES WERE IDENTIFIED

subcontracted external party was unaware of specific tracking requirements, and referred the surveyors to another party from the subcontracted company, who was absent from the third party company at the time of the survey.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D69 Services (a) Nursing Service (3)(D).

8. Based on clinical record review and staff interview, for one of one hospice patient (Patient #1) who resided in a skilled nursing facility (SNF), the hospice nurse failed to provide direct assessments of the patient's wound status . The findings include:
   a. Patient #1 elected the Hospice benefit on 01/07/15. The patient's diagnoses included Merkel cell cancer of left neck, dysphagia and dementia. Physician's orders for the certification period of 01/07/15 through 03/07/15 included skilled nursing visits 1 to 2 times a week and 6 additional visits as-needed (prn) for assessment of skin integrity and wound care to left neck cancer lesion using normal saline, Adaptic dressing, Flagyl powder and dressing every day and as needed.
   The documentation from the hospice nurses dated 01/08/15, 01/12/15, 01/15/15, 01/28/15, 02/02/15, 02/04/15, 02/06/15, 02/09/15, 02/13/15 identified a detailed assessment of the patient's wound including drainage amount, drainage color, odor, granulation, color of wound bed and surrounding tissue.
   However, interview and review of the hospice nurse documentation from 01/07/15 to 02/25/15 with the Director of the Hospice Program and Registered Nurse (RN) #1 on 03/03/15 indicated that the hospice nurse visited the patient nine times in the SNF after the SNF nurse completed the wound care, that the hospice nurse documented the details of the wound assessment based on the report provided by the SNF nurse without observing the wound, and failed to identify a direct assessment of the wound status prior to each documentation by the hospice nurse of the patient's skin integrity as ordered by the physician;
   Interview and review of the available nursing documentation from 01/07/15 to 02/25/15 with the Director of the Hospice Program and RN #1 on 03/03/15 identified direct wound visualization on 01/30/15 and 02/16/15, and failed to identify direct assessment of the patient's wound for sixteen days.
   According to the Director of the Hospice Program in an interview on 03/03/15, the hospice nurses were expected to conduct direct wound observation and assessment as least once a week;
   The nursing admission note dated 01/07/15 identified a left neck lesion measuring 7.2cm by 7cm by 3.5cm. No further measurement was identified during the nursing visits dated 01/08/15, 01/12/15, 01/15/15 or 01/20/15. On 01/26/15, the visiting nurse documented that the left neck lesion was "larger in size," yet recorded decreased measurements in length, width and depth (7cm by 6.2cm by 1.9cm) and failed to complement the documentation of worsening condition with the appropriate supportive measurements.

DATE(S) OF VISIT: March 2, 3, 4, and 5, 2015

THE FOLLOWING VIOLATION(S) OF THE REGULATIONS OF CONNECTICUT STATE AGENCIES AND/OR CONNECTICUT GENERAL STATUTES WERE IDENTIFIED

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D69 Services (d) Homemaker-Home Health Aide Service (2).

9. Based on review of personnel files, agency documentation and interview with agency personnel, for one of two hospice aide files (the file of Hospice Aide # 1) the hospice agency failed to ensure the hospice aide met the qualifications. The findings include:
   a. Hospice Aide # 1 was hired on 12/09/98.
   Interview and review of the employee file with the Director of the Hospice Program on 030/5/15 at 2:00PM failed to identify the completion of a Homemaker-Home Health Aide Competency Evaluation since the date of hire.

The following are violations of the Regulations of Connecticut State Agencies Section 19-13-D69 Services (a) Nursing Service (3)(H).

10. Based on review of the clinical record and staff interview for 3 of 3 patients (Patients #1, 2 and 4) who required hospice aide services, the hospice nurse failed to ensure the development of a written plan of care for the hospice aide. The findings include:
    a. Patient #1 elected the Hospice benefit on 01/07/15. The patient's diagnoses included Merkel cell cancer of left neck, dysphagia and dementia. Physician's orders for the certification period of 01/07/15 through 03/07/15 included skilled nursing visits 1 to 2 times a week and hospice aide services 1 to 3 times a week.
    Interview and review of the nursing documentation with the Director of the Hospice Program and Registered Nurse (RN) #1 on 03/04/15 identified hospice aide services provided 1 to 2 times a week since 01/07/15, but failed to identify a written plan of care for the hospice aide since the start of care date 01/07/15.
    b. Patient #2 had a start of care date of 10/22/14 and diagnoses of malignant neoplasm of the breast and secondary neoplasm. The physician's orders dated 10/22/14 and 02/19/15 included hospice aide services 5 to 7 times a week to assist the patient with a partial or complete bed bath and personal care.
    Interview and review of the nursing documentation with the Director of the Hospice Program on 03/05/15 at 2PM identified hospice aide services provided 5 times a week from 10/22/14 through 03/01/15, but failed to identify a written plan of care for the hospice aide since the start of care date 10/22/14.
    c. Patient #4 had a start of care date of 12/11/14 and diagnoses that included malignant neoplasm of the colon, secondary malignant neoplasm of the liver and lungs, ascites and Alzheimer ' s dementia. The physician's orders dated 02/09/15 included hospice aide services 1 to 3 times a week to assist the patient with partial or complete bed bath.
    Interview and review of the nursing documentation with the Director of the Hospice Program on 03/05/15 at 2PM identified hospice aide services provided 3 times a week from 12/11/14 through 03/11/15, but failed to identify a written plan of care for the hospice aide

since the start of care date 12/11/14.

d. Patient #5 had a start of care date of 02/10/15 and diagnoses that included secondary malignant neoplasm of bone, bone marrow and kidney. The physician's orders dated 02/10/15 included hospice aide services 2 to 4 times a week.
Interview and review of the nursing documentation with the Director of the Hospice Program on 03/05/15 at 2PM identified hospice aide services provided twice a week from 02/10/15 through 03/03/15, but failed to identify a written plan of care for the hospice aide since the start of care date 02/10/15.

The following are violations of the Regulations of Connecticut State Agencies Section 19-13-D75 Clinical Record System (b)(6) and/or (7) and/or 19-13-D72 Patient Care Policies (b) Patient Care Standards (2)(H).

11. Based on review of the clinical record, agency documentation and interview with the hospice agency personnel, for two of two patients (Patients #1 and # 2) who received volunteer services, the hospice agency failed to specify the duties of the volunteers in the plan of care, and failed to ensure appropriate documentation of the services provided by the volunteers. The findings include:
    a. Patient #1 elected the Hospice benefit on 01/07/15. The patient's diagnoses included Merkel cell cancer of left neck, dysphagia and dementia. Physician's orders for the certification period of 01/07/15 through 03/07/15 included volunteer services as needed.
    Interview and review of the clinical notes with the Director of the Hospice Program and Registered Nurse (RN) #1 on 03/03/15 identified volunteer visits on 01/13/15 (by Volunteer # 1) and 01/14/15 (by Volunteer # 2), but failed to identify the documentation of specific duties for the volunteers in the plan of care;
    Interview and review of the volunteer documentation dated 01/13/15 with the Director of the Hospice Program and RN #1 on 03/03/15 indicated that Volunteer # 2 planned to visit the patient next on 01/20/15, but failed to identify documentation of a volunteer visit on 01/20/15;
    Interview and review of the volunteer documentation with the Director of the Hospice Program and RN #1 on 03/03/15 further indicated that RN # 1 was unaware of volunteer services being provided, and failed to identify awareness of a schedule of visits for volunteers for each certification period.
    Interview and review of the case communication note dated 02/12/14 with the Director of the Hospice Program and the Volunteer Coordinator on 03/04/15 and 03/05/15 identified a Reiki and reflexology energy therapy session scheduled for Patient # 1 for 02/16/15, but failed to identify documentation of the actual completion of the therapy session on 02/16/15 by the volunteer.
    b. Patient #2 had a start of care date of 10/22/14 and diagnoses that included malignant neoplasm of the breast and secondary neoplasm. The physician's orders dated 10/22/14 and 02/19/15 included bereavement services and volunteer services.

DATE(S) OF VISIT: March 2, 3, 4, and 5, 2015

THE FOLLOWING VIOLATION(S) OF THE REGULATIONS OF CONNECTICUT STATE AGENCIES AND/OR CONNECTICUT GENERAL STATUTES WERE IDENTIFIED

Interview and review of the Case Communication Report dated 12/9/2014 with the Volunteer and Bereavement Coordinator on 03/05/15 at 11:51 AM identified an energy therapy session scheduled for 12/10/14 at 2:30 PM upon the patient's request, but failed to identify documentation of the actual completion of the therapy session on 12/10/14 by the volunteer.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D72 Patient Care Policies (b) Patient Care Standards (2)(G)(i) and/or (H).

12. Based on clinical record review and staff interview, for one of one hospice patient (Patient #1) who resided in a skilled nursing facility (SNF), the hospice nurse failed to assume professional management of the hospice plan of care. The findings include:
    a. Patient #1 elected the Hospice benefit on 01/07/15. The patient's diagnoses included Merkel cell cancer of left neck, dysphagia and dementia. Physician's orders for the certification period of 01/07/15 through 03/07/15 included skilled nursing visits 1 to 2 times a week and 6 additional visits as-needed (prn) for assessment of skin integrity and wound care to left neck cancer lesion using normal saline, Adaptic dressing, Flagyl powder and dressing every day and as needed.
    The documentation from the hospice nurses dated 01/08/15, 01/12/15, 01/15/15, 01/28/15, 02/02/15, 02/04/15, 02/06/15, 02/09/15, 02/13/15 identified a detailed assessment of the patient's wound including drainage amount, drainage color, odor, granulation, color of wound bed and surrounding tissue.
    However, interview and review of the hospice nurse documentation from 01/07/15 to 02/25/15 with the Director of the Hospice Program and Registered Nurse (RN) #1 on 03/03/15 indicated that the hospice nurse visited the patient nine times in the SNF after the SNF nurse completed the wound care, that the hospice nurse documented the details of the wound assessment based on the report provided by the SNF nurse without observing the wound, and failed to identify a direct assessment of the wound status prior to each documentation by the hospice nurse of the patient's skin integrity as ordered by the physician;
    Interview and review of the available nursing documentation from 01/07/15 to 02/25/15 with the Director of the Hospice Program and RN #1 on 03/03/15 identified direct wound visualization on 01/30/15 and 02/16/15, and failed to identify direct assessment of the patient's wound for sixteen days.
    According to the Director of the Hospice Program in an interview on 03/03/15, the hospice nurses were expected to conduct direct wound observation and assessment as least once a week;
    The nursing admission note dated 01/07/15 identified a left neck lesion measuring 7.2cm by 7cm by 3.5cm. No further measurement was identified during the nursing visits dated 01/08/15, 01/12/15, 01/15/15 or 01/20/15. On 01/26/15, the visiting nurse documented that the left neck lesion was "larger in size," yet recorded decreased measurements in length,

width and depth (7cm by 6.2cm by 1.9cm) and failed to complement the documentation of worsening condition with the appropriate supportive measurements.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D75 Clinical Records System.

13. Based on clinical record review and staff interview, for one of one hospice patient (Patient #1) who resided in a skilled nursing facility (SNF), the hospice nurse failed to ensure the documentation of accurate and/or authentic nursing tasks. The findings include:
    a. Patient #1 elected the Hospice benefit on 01/07/15. The patient's diagnoses included Merkel cell cancer of left neck, dysphagia and dementia. Physician's orders for the certification period of 01/07/15 through 03/07/15 included skilled nursing visits 1 to 2 times a week and 6 additional visits as-needed (prn) for assessment of skin integrity and wound care to left neck cancer lesion using normal saline, Adaptic dressing, Flagyl powder and dressing every day and as needed.
    The documentation from the hospice nurses dated 01/08/15, 01/12/15, 01/15/15, 01/28/15, 02/02/15, 02/04/15, 02/06/15, 02/09/15, 02/13/15 identified a detailed assessment of the patient's wound including drainage amount, drainage color, odor, granulation, color of wound bed and surrounding tissue.
    However, interview and review of the hospice nurse documentation from 01/07/15 to 02/25/15 with the Director of the Hospice Program and Registered Nurse (RN) #1 on 03/03/15 indicated that the hospice nurse visited the patient nine times in the SNF after the SNF nurse completed the wound care, that the hospice nurse documented the details of the wound assessment based on the report provided by the SNF nurse without observing the wound, and failed to identify the documentation of observations conducted directly by the hospice nurse;
    The nursing admission note dated 01/07/15 identified a left neck lesion measuring 7.2cm by 7cm by 3.5cm. No further measurement was identified during the nursing visits dated 01/08/15, 01/12/15, 01/15/15 or 01/20/15. On 01/26/15, the visiting nurse documented that the left neck lesion was "larger in size," yet recorded decreased measurements in length, width and depth (7cm by 6.2cm by 1.9cm) and failed to complement the documentation of worsening condition with the appropriate supportive measurements.

The following is a violation of the Regulations of Connecticut State Agencies Section 19-13-D72 Patient Care Standards (1)(G)(ii) and/or (iv) and/or (E) and/or 19-13-D70 Contracted Services (g) and/or 19-13D68 General Requirements (C) Professional Advisory Committee (2) and/or 19-13-D72 Patient Care Policies (b) Patient Care Standards (2)(p) and/or (m)(i) and/or 19-13-D71 Personnel Policies (a)(5).

14. Based on clinical record review, agency documentation and interviews with agency staff, for one of one patient (Patient #8) who received infusion therapy, the hospice agency failed to

follow the State regulations. The findings include:

a. Patient #8 elected the hospice benefit on 02/04/15. The patient's diagnoses included Alzheimer ' s disease and pneumonia. Physician ' s orders for the certification period of 02/04/15 to 04/04/15 included skilled nursing visits 2 to 4 times each week.
Interview and review of the physician ' s orders for the certification period of 02/04/15 to 04/04/15 with the Director of the Hospice Program on 03/05/15 identified an order for Morphine sulfate in 0.9% sodium chloride "10 mg/ml syringe" subcutaneous continuous via infusion pump at 2 mg per hour, with 1 mg bolus dose every 15 minutes as needed for pain or shortness of breath, but failed to identify nursing attempt to obtain clarification from the physician that the Morphine was delivered from a cassette housed in a Computerized Ambulatory Drug Delivery (CADD) pump, and not a syringe, and failed to identify in the physician's orders, the specification of the total volume of the cassette in accordance with the Regulations of Connecticut State Agencies section 19-13-D 72 Patient Care Standards (1) (G) (iv);
Interview and review of the physician ' s order for the certification period 02/04/15 to 04/04/15 and clinical record with the Director of Hospice on 03/05/15 failed to identify physician orders that included the frequency and type of access in accordance with the regulations of State Agencies Section 19-13-D72 Patient Care Standards (1) (G) (iv);
Interview and review of the personnel files for Registered Nurse (RN) #1 and RN #3 with the Director of the Hospice Program on 03/05/15 failed to identify documented competency in site access for continuous subcutaneous infusion, administration of continuous infusion and management of the infusion pump, in accordance with the Regulations of Connecticut State Agencies Section 19-13-D72 Patient Care Standards (G) (ii);
Interview and review of the Quality Assurance (QA) Program for Infusion Therapy with the Director of the Hospice Program on 03/05/15 failed to identify the development of a program to monitor the effectiveness and safety of the agency ' s infusion therapy services, in accordance with the Regulations of Connecticut State Agencies Section 19-13-D72 Patient Care Standards (1) (E);
Interview and review of the contract for the infusion therapy vendor with the hospice agency Administrator and the Director of the Hospice Program on 03/04/15 indicated that the contract expired on 01/30/10 and failed to identify the documentation of annual renewal of the contract in accordance with the Regulations of Connecticut State Agencies Section 19-13-D70 Contracted services (g);
Interview and review of the hospice agency policies and procedures on Infusion Therapy with the Director of the Hospice Program on 03/05/15 identified review of the policies and procedures by the professional advisory committee (PAC) on 06/17/09, but failed to identify annual review of the agency policies entitled (A) Scope and services offered, (G) Standards of care and (H) Professional issues, in accordance with the Regulations of Connecticut State Agencies Section 19-13-D68 General requirements (c) Professional Advisory Committee (2);
Interview and review of the hospice agency contract with the pharmacy vendor on 03/04/15 with the Administrator and the Director of the Hospice Program indicated that the contract

THE FOLLOWING VIOLATION(S) OF THE REGULATIONS OF CONNECTICUT STATE AGENCIES AND/OR CONNECTICUT GENERAL STATUTES WERE IDENTIFIED

expired on 08/10/04 and failed to identify documentation of annual renewal in accordance with the Regulations of Connecticut State Agencies Section 19-13-D70 Contracted services (g);

Interview and review of the hospice agency staffing pattern with the Director of Hospice and the Volunteer Coordinator on 03/05/15 indicated that the Volunteer Coordinator also functioned as the Bereavement Coordinator and was employed for both functions at 32 hours per week, and failed to identify the appointment of a full-time employee (who might have other additional responsibilities) to the position of Volunteer Coordinator in accordance with the Regulations of Connecticut State Agencies Section 19-13-D72 Patient care policies (b) Patient Care Standards (2) (P);

Interview and review of the hospice agency staffing pattern with the Administrator and the Director of the Hospice Program on 03/03/15 failed to identify the appointment of a Supervisor of Clinical Services for the Hospice program in accordance with the Regulations of Connecticut State Agencies 19-13-D72 Patient Care Standards (2) (M) (i).

k. Interview and review of the employee file of Hospice Aide #1 with the Director of Hospice on 3/5/15 at 2:00PM identified a date of hire of 12/09/98 and a physical examination completed on 12/22/98, but failed to identify the obtention of a physician statement that Hospice Aide #1 was free from communicable diseases prior to assignment to patient care, in accordance with the Regulations of Connecticut State Agencies Section 19-13-D71 Personnel policies (a) (5).

STATE OF CONNECTICUT

DEPARTMENT OF PUBLIC HEALTH

March 18, 2015

Michele Beverly, Administrator
Home & Community Health Servic
101 Phoenix Avenue
Enfield, CT 06083-1199

Dear Ms. Beverly:

A title XVIII Medicare Certification Survey was concluded at Home & Community Health Servic on March 5, 2015. The agency was found not in compliance with the Medicare Conditions of Participation, 42 CFR:

L 536 **CFR 418.56 Interdiciplinary Group, Care Planning and Coordination of Services** as evidenced by L545, L547 and L553

L 559 **CFR 418.58 Quality Assess,ment and Performance Improvement (QAPI)** as evidenced by L560; L562 and L569

In addition, a number of other deficiencies were found out of compliance with Medicare requirements.

Based on the results of the survey, the agency is not certifiable at this time. It is advised that an acceptable plan of correction be prepared and implemented as expeditiously as possible. Consideration for continued certification will be based on the correction of the deficiencies. Failure to achieve compliance with the requirements through a follow-up visit by *April 19, 2015,* will result in a recommendation by this office that the agency's Title XVIII Medicare certification should be terminated effective *June 3, 2015.*

It is necessary to use the enclosed form for recording in the appropriate section your Plan of Correction for the deficiencies cited and dated by which these deficiencies will be corrected according to your Plan.

Your attention is called to the need for specific dates by which you anticipate the deficiencies will be corrected.

The plan of correction for each deficiency shall include the following components:

- **What correction action(s) will be accomplished for those patients found to have been affected by the deficient practice;**
- **How you will identify other patients having the potential to be affected by the same deficient**

STATE OF CONNECTICUT

DEPARTMENT OF PUBLIC HEALTH

practice and what corrective action will be taken;

- **What measures will be put into place or systemic changes made to ensure that the deficient practice does not recur; and,**
- **How the Agency will monitor its corrective action(s) to ensure that the deficient practice will not recur, (i.e., what quality assurance or other program will be put into place to monitor the continued effectiveness of the systemic change).**
- **Identify the staff member, by title, who has been designated the responsibility for monitoring the individual plan of correction for each deficiency and the completion date for each component.**

According to The Centers for Medicare & Medicaid Services policy, the form CMS-2567 is to be signed by the professional staff member in charge of the agency. Please check for completeness, date, and signature before returning the original to the Facility Licensing & Investigations Section by *April 1, 2015.*

If you have any questions, please do not hesitate to contact this office at (860) 509-7400.

Sincerely,

Loan Nguyen

L 560	Continued From page 17 its quality assessment and performance improvement program and be able to demonstrate its operation to CMS. This STANDARD is not met as evidenced by: Based on review of the agency documentation and interviews with agency personnel, the hospice agency failed to adequately demonstrate the operation of the performance improvement program upon inquiry. The findings include: The surveyors requested documentation on hospice QAPI on 03/05/15 and were provided with the Hospice Quality Assurance Improvement Indicators (QAPI) quarterly reports dated 04/01/13 through 09/20/14, which identified the same invariable quality indicators for each quarter: comfort, medication coverage and reconciliation, and comfort kit problems. Interview and review of the selected quality indicators with the Administrator and the Director of the Hospice Program on 03/05/15 indicated that the hospice agency subcontracted with an external party to conduct QAPI reports, therefore the outcomes of quarterly clinical record review for 2013 and 2014 were not available for surveyor review onsite, and further indicated that the hospice agency was unable to verbalize the rationale behind the choice of quality measures, the method to ensure consistent data collection, the use of data in patient care planning, the method for data analysis, the use of data analysis in selecting performance improvement project, the method for implementing the project, and the evaluation of the effectiveness of the project. L 655	Continued From page 30 c. The nursing admission note dated 01/07/15 identified a left neck lesion measuring 7.2cm by 7cm by 3.5cm. No further measurement was identified during the nursing visits dated 01/08/15, 01/12/15, 01/15/15 or 01/20/15. On 01/26/15, the visiting nurse documented that the left neck lesion was "larger in size," yet recorded decreased measurements in length, width and depth (7cm by 6.2cm by 1.9cm) and failed to complement the documentation of worsening condition with the appropriate supportive measurements.	L 655		
L 679	418.104(b) AUTHENTICATION All entries must be legible, clear, complete, and appropriately authenticated and dated in accordance with hospice policy and currently accepted standards of practice. This STANDARD is not met as evidenced by: Based on clinical record review and staff interview, for one of one hospice patient (Patient #1) who resided in a skilled nursing facility (SNF), the hospice nurse failed to ensure the documentation of accurate and/or authentic nursing tasks. The findings include: Patient #1 elected the Hospice benefit on 01/07/15. The patient's diagnoses included Merkel cell cancer of left neck, dysphagia and dementia. Physician's orders for the certification period of 01/07/15 through 03/07/15 included skilled nursing visits 1 to 2 times a week and 6 additional visits as-needed (prn) for assessment of skin integrity and wound care to left neck cancer lesion using normal saline, Adaptic	L 679

*** Form 990 Online Filers: Please fax completed and signed form to 866-699-3916 or email a scanned PDF copy of the signed form to efilesigforms@urban.org

Form **8453-EO**

Exempt Organization Declaration and Signature for Electronic Filing

OMB No. 1545-1879

2012

For calendar year 2012, or tax year beginning 10/01, 2012, and ending 09/30, 20 13

Department of the Treasury
Internal Revenue Service

For use with Forms 990, 990-EZ, 990-PF, 1120-POL, and 8868

Name of exempt organization

JOHNSON MEMORIAL HOSPITAL INC

Employer identification number

06-0646696

Part I Type of Return and Return Information (Whole Dollars Only)

Check the box for the type of return being filed with Form 8453-EO and enter the applicable amount, if any, from the return. If you check the box on line **1a, 2a, 3a, 4a,** or **5a** below and the amount on that line of the return being filed with this form was blank, then leave line **1b, 2b, 3b, 4b,** or **5b,** whichever is applicable, blank (do not enter -0-). If you entered -0- on the return, then enter -0- on the applicable line below. **Do not** complete more than one line in Part I.

1a	**Form 990** check here ▶ ☑	b	**Total revenue,** if any (Form 990, Part VIII, column (A), line 12) . .	1b	65,036,913
2a	**Form 990-EZ** check here ▶ ☐	b	**Total revenue,** if any (Form 990-EZ, line 9)	2b	
3a	**Form 1120-POL** check here ▶ ☐	b	**Total tax** (Form 1120-POL, line 22).	3b	
4a	**Form 990-PF** check here ▶ ☐	b	**Tax based on investment income** (Form 990-PF, Part VI, line 5)	4b	
5a	**Form 8868** check here ▶ ☐	b	**Balance due** (Form 8868, Part I, line 3c or Part II, line 8c) . . .	5b	

Part II Declaration of Officer

6 ☐ I authorize the U.S. Treasury and its designated Financial Agent to initiate an Automated Clearing House (ACH) electronic funds withdrawal (direct debit) entry to the financial institution account indicated in the tax preparation software for payment of the organization's federal taxes owed on this return, and the financial institution to debit the entry to this account. To revoke a payment, I must contact the U.S. Treasury Financial Agent at 1-888-353-4537 no later than 2 business days prior to the payment (settlement) date. I also authorize the financial institutions involved in the processing of the electronic payment of taxes to receive confidential information necessary to answer inquiries and resolve issues related to the payment.

☐ If a copy of this return is being filed with a state agency(ies) regulating charities as part of the IRS Fed/State program, I certify that I executed the electronic disclosure consent contained within this return allowing disclosure by the IRS of this Form 990/990-EZ/990-PF (as specifically identified in Part I above) to the selected state agency(ies).

Under penalties of perjury, I declare that I am an officer of the above named organization and that I have examined a copy of the organization's 2012 electronic return and accompanying schedules and statements, and to the best of my knowledge and belief, they are true, correct, and complete. I further declare that the amount in Part I above is the amount shown on the copy of the organization's electronic return. I consent to allow my intermediate service provider, transmitter, or electronic return originator (ERO) to send the organization's return to the IRS and to receive from the IRS **(a)** an acknowledgement of receipt or reason for rejection of the transmission, **(b)** the reason for any delay in processing the return or refund, and **(c)** the date of any refund.

Sign Here ▶ John Grish — Signature of officer | 8/7/14 — Date ▶ John Grish, Chief Financial Officer — Title

Part III Declaration of Electronic Return Originator (ERO) and Paid Preparer (see instructions)

I declare that I have reviewed the above organization's return and that the entries on Form 8453-EO are complete and correct to the best of my knowledge. If I am only a collector, I am not responsible for reviewing the return and only declare that this form accurately reflects the data on the return. The organization officer will have signed this form before I submit the return. I will give the officer a copy of all forms and information to be filed with the IRS, and have followed all other requirements in Pub. 4163, Modernized e-File (MeF) Information for Authorized IRS *e-file* Providers for Business Returns. If I am also the Paid Preparer, under penalties of perjury I declare that I have examined the above organization's return and accompanying schedules and statements, and to the best of my knowledge and belief, they are true, correct, and complete. This Paid Preparer declaration is based on all information of which I have any knowledge.

ERO's Use Only	ERO's signature ▶	Date	Check if also paid preparer ☐	Check if self-employed ☐	ERO's SSN or PTIN
	Firm's name (or yours if self-employed), address, and ZIP code ▶				EIN / Phone no.

Under penalties of perjury, I declare that I have examined the above return and accompanying schedules and statements, and to the best of my knowledge and belief, they are true, correct, and complete. Declaration of preparer is based on all information of which the preparer has any knowledge.

Paid Preparer Use Only	Print/Type preparer's name	Preparer's signature	Date	Check ☐ if self- employed	PTIN
	Firm's name ▶			Firm's EIN ▶	
	Firm's address ▶			Phone no.

Part III Statement of Program Service Accomplishments

Check if Schedule O contains a response to any question in this Part III . . . . . ☐

1 Briefly describe the organization's mission:

Johnson Memorial Hospital provides needed medical care to the community regardless of any individuals ability to pay. Services include inpatient routine, inpatient ancilliary, and outpatient care in support of the hospitals healthcare mission.

2 Did the organization undertake any significant program services during the year which were not listed on the prior Form 990 or 990-EZ? . . . . . ☐ Yes ☑ No

If "Yes," describe these new services on Schedule O.

3 Did the organization cease conducting, or make significant changes in how it conducts, any program services? . . . . . ☐ Yes ☑ No

If "Yes," describe these changes on Schedule O.

4 Describe the organization's program service accomplishments for each of its three largest program services, as measured by expenses. Section 501(c)(3) and 501(c)(4) organizations are required to report the amount of grants and allocations to others, the total expenses, and revenue, if any, for each program service reported.

4a (Code:) (Expenses $ 62,619,325 including grants of $ 172,080) (Revenue $ 64,087,176)

Inpatient and Outpatient Care: expenses related to services performed for patients of Johnson Memorial contribute importantly to it's exempt purpose because the expenses are incurred in the diagnosis, cure, mitigation and prevention of disease and for medical purposes affecting the structure or function of the human body (84,172 Outpatient visits and 15,937 Inpatient days)

4b (Code:) (Expenses $ including grants of $) (Revenue $)

4c (Code:) (Expenses $ including grants of $) (Revenue $)

4d Other program services (Describe in Schedule O.)
(Expenses $ 0 including grants of $ 0) (Revenue $ 0)

4e **Total program service expenses** ▶ 62,619,325

Part IV Checklist of Required Schedules

			Yes	No
1	Is the organization described in section 501(c)(3) or 4947(a)(1) (other than a private foundation)? *If "Yes," complete Schedule A*	1	✓	
2	Is the organization required to complete *Schedule B, Schedule of Contributors* (see instructions)?	2	✓	
3	Did the organization engage in direct or indirect political campaign activities on behalf of or in opposition to candidates for public office? *If "Yes," complete Schedule C, Part I*	3		✓
4	**Section 501(c)(3) organizations.** Did the organization engage in lobbying activities, or have a section 501(h) election in effect during the tax year? *If "Yes," complete Schedule C, Part II*	4		✓
5	Is the organization a section 501(c)(4), 501(c)(5), or 501(c)(6) organization that receives membership dues, assessments, or similar amounts as defined in Revenue Procedure 98-19? *If "Yes," complete Schedule C, Part III*	5		✓
6	Did the organization maintain any donor advised funds or any similar funds or accounts for which donors have the right to provide advice on the distribution or investment of amounts in such funds or accounts? *If "Yes," complete Schedule D, Part I*	6		✓
7	Did the organization receive or hold a conservation easement, including easements to preserve open space, the environment, historic land areas, or historic structures? *If "Yes," complete Schedule D, Part II*	7		✓
8	Did the organization maintain collections of works of art, historical treasures, or other similar assets? *If "Yes," complete Schedule D, Part III*	8		✓
9	Did the organization report an amount in Part X, line 21, for escrow or custodial account liability; serve as a custodian for amounts not listed in Part X; or provide credit counseling, debt management, credit repair, or debt negotiation services? *If "Yes," complete Schedule D, Part IV*	9		✓
10	Did the organization, directly or through a related organization, hold assets in temporarily restricted endowments, permanent endowments, or quasi-endowments? *If "Yes," complete Schedule D, Part V*	10	✓	
11	If the organization's answer to any of the following questions is "Yes," then complete Schedule D, Parts VI, VII, VIII, IX, or X as applicable.			
a	Did the organization report an amount for land, buildings, and equipment in Part X, line 10? *If "Yes," complete Schedule D, Part VI*	11a	✓	
b	Did the organization report an amount for investments—other securities in Part X, line 12 that is 5% or more of its total assets reported in Part X, line 16? *If "Yes," complete Schedule D, Part VII*	11b		✓
c	Did the organization report an amount for investments—program related in Part X, line 13 that is 5% or more of its total assets reported in Part X, line 16? *If "Yes," complete Schedule D, Part VIII*	11c	✓	
d	Did the organization report an amount for other assets in Part X, line 15 that is 5% or more of its total assets reported in Part X, line 16? *If "Yes," complete Schedule D, Part IX*	11d	✓	
e	Did the organization report an amount for other liabilities in Part X, line 25? *If "Yes," complete Schedule D, Part X*	11e	✓	
f	Did the organization's separate or consolidated financial statements for the tax year include a footnote that addresses the organization's liability for uncertain tax positions under FIN 48 (ASC 740)? *If "Yes," complete Schedule D, Part X*	11f	✓	
12 a	Did the organization obtain separate, independent audited financial statements for the tax year? *If "Yes," complete Schedule D, Parts XI and XII*	12a		✓
b	Was the organization included in consolidated, independent audited financial statements for the tax year? *If "Yes," and if the organization answered "No" to line 12a, then completing Schedule D, Parts XI and XII is optional*	12b	✓	
13	Is the organization a school described in section 170(b)(1)(A)(ii)? *If "Yes," complete Schedule E*	13		✓
14 a	Did the organization maintain an office, employees, or agents outside of the United States?	14a		✓
b	Did the organization have aggregate revenues or expenses of more than $10,000 from grantmaking, fundraising, business, investment, and program service activities outside the United States, or aggregate foreign investments valued at $100,000 or more? *If "Yes," complete Schedule F, Parts I and IV*	14b		✓
15	Did the organization report on Part IX, column (A), line 3, more than $5,000 of grants or assistance to any organization or entity located outside the United States? *If "Yes," complete Schedule F, Parts II and IV*	15		✓
16	Did the organization report on Part IX, column (A), line 3, more than $5,000 of aggregate grants or assistance to individuals located outside the United States? *If "Yes," complete Schedule F, Parts III and IV*	16		✓
17	Did the organization report a total of more than $15,000 of expenses for professional fundraising services on Part IX, column (A), lines 6 and 11e? *If "Yes," complete Schedule G, Part I (see instructions)*	17		✓
18	Did the organization report more than $15,000 total of fundraising event gross income and contributions on Part VIII, lines 1c and 8a? *If "Yes," complete Schedule G, Part II*	18		✓
19	Did the organization report more than $15,000 of gross income from gaming activities on Part VIII, line 9a? *If "Yes," complete Schedule G, Part III*	19		✓
20 a	Did the organization operate one or more hospital facilities? *If "Yes," complete Schedule H*	20a	✓	
b	If "Yes" to line 20a, did the organization attach a copy of its audited financial statements to this return?	20b	✓	

Part IV Checklist of Required Schedules *(continued)*

			Yes	No
21	Did the organization report more than $5,000 of grants and other assistance to any government or organization in the United States on Part IX, column (A), line 1? *If "Yes," complete Schedule I, Parts I and II*	21		✓
22	Did the organization report more than $5,000 of grants and other assistance to individuals in the United States on Part IX, column (A), line 2? *If "Yes," complete Schedule I, Parts I and III*	22		✓
23	Did the organization answer "Yes" to Part VII, Section A, line 3, 4, or 5 about compensation of the organization's current and former officers, directors, trustees, key employees, and highest compensated employees? *If "Yes," complete Schedule J*	23	✓	
24a	Did the organization have a tax-exempt bond issue with an outstanding principal amount of more than $100,000 as of the last day of the year, that was issued after December 31, 2002? *If "Yes," answer lines 24b through 24d and complete Schedule K. If "No," go to line 25*	24a		✓
b	Did the organization invest any proceeds of tax-exempt bonds beyond a temporary period exception?	24b		
c	Did the organization maintain an escrow account other than a refunding escrow at any time during the year to defease any tax-exempt bonds?	24c		
d	Did the organization act as an "on behalf of" issuer for bonds outstanding at any time during the year?	24d		
25a	**Section 501(c)(3) and 501(c)(4) organizations.** Did the organization engage in an excess benefit transaction with a disqualified person during the year? *If "Yes," complete Schedule L, Part I*	25a		✓
b	Is the organization aware that it engaged in an excess benefit transaction with a disqualified person in a prior year, and that the transaction has not been reported on any of the organization's prior Forms 990 or 990-EZ? *If "Yes," complete Schedule L, Part I*	25b		✓
26	Was a loan to or by a current or former officer, director, trustee, key employee, highest compensated employee, or disqualified person outstanding as of the end of the organization's tax year? *If "Yes," complete Schedule L, Part II*	26		✓
27	Did the organization provide a grant or other assistance to an officer, director, trustee, key employee, substantial contributor or employee thereof, a grant selection committee member, or to a 35% controlled entity or family member of any of these persons? *If "Yes," complete Schedule L, Part III*	27		✓
28	Was the organization a party to a business transaction with one of the following parties (see Schedule L, Part IV instructions for applicable filing thresholds, conditions, and exceptions):			
a	A current or former officer, director, trustee, or key employee? *If "Yes," complete Schedule L, Part IV*	28a		✓
b	A family member of a current or former officer, director, trustee, or key employee? *If "Yes," complete Schedule L, Part IV*	28b		✓
c	An entity of which a current or former officer, director, trustee, or key employee (or a family member thereof) was an officer, director, trustee, or direct or indirect owner? *If "Yes," complete Schedule L, Part IV*	28c		✓
29	Did the organization receive more than $25,000 in non-cash contributions? *If "Yes," complete Schedule M*	29		✓
30	Did the organization receive contributions of art, historical treasures, or other similar assets, or qualified conservation contributions? *If "Yes," complete Schedule M*	30		✓
31	Did the organization liquidate, terminate, or dissolve and cease operations? *If "Yes," complete Schedule N, Part I*	31		✓
32	Did the organization sell, exchange, dispose of, or transfer more than 25% of its net assets? *If "Yes," complete Schedule N, Part II*	32		✓
33	Did the organization own 100% of an entity disregarded as separate from the organization under Regulations sections 301.7701-2 and 301.7701-3? *If "Yes," complete Schedule R, Part I*	33		✓
34	Was the organization related to any tax-exempt or taxable entity? *If "Yes," complete Schedule R, Part II, III, or IV, and Part V, line 1*	34	✓	
35a	Did the organization have a controlled entity within the meaning of section 512(b)(13)?	35a	✓	
b	If "Yes" to line 35a, did the organization receive any payment from or engage in any transaction with a controlled entity within the meaning of section 512(b)(13)? *If "Yes," complete Schedule R, Part V, line 2*	35b		✓
36	**Section 501(c)(3) organizations.** Did the organization make any transfers to an exempt non-charitable related organization? *If "Yes," complete Schedule R, Part V, line 2*	36		✓
37	Did the organization conduct more than 5% of its activities through an entity that is not a related organization and that is treated as a partnership for federal income tax purposes? *If "Yes," complete Schedule R, Part VI*	37		✓
38	Did the organization complete Schedule O and provide explanations in Schedule O for Part VI, lines 11b and 19? **Note.** All Form 990 filers are required to complete Schedule O	38	✓	

Part V **Statements Regarding Other IRS Filings and Tax Compliance**

Check if Schedule O contains a response to any question in this Part V . . . . . ☐

				Yes	No
1a	Enter the number reported in Box 3 of Form 1096. Enter -0- if not applicable	1a	128		
b	Enter the number of Forms W-2G included in line 1a. Enter -0- if not applicable	1b	0		
c	Did the organization comply with backup withholding rules for reportable payments to vendors and reportable gaming (gambling) winnings to prize winners?	1c		✓	
2a	Enter the number of employees reported on Form W-3, Transmittal of Wage and Tax Statements, filed for the calendar year ending with or within the year covered by this return	2a	700		
b	If at least one is reported on line 2a, did the organization file all required federal employment tax returns? .	2b		✓	
	Note. If the sum of lines 1a and 2a is greater than 250, you may be required to e-*file* (see instructions) . .				
3a	Did the organization have unrelated business gross income of $1,000 or more during the year?	3a		✓	
b	If "Yes," has it filed a Form 990-T for this year? *If "No," provide an explanation in Schedule O*	3b		✓	
4a	At any time during the calendar year, did the organization have an interest in, or a signature or other authority over, a financial account in a foreign country (such as a bank account, securities account, or other financial account)?	4a			✓
b	If "Yes," enter the name of the foreign country: ▶ See instructions for filing requirements for Form TD F 90-22.1, Report of Foreign Bank and Financial Accounts.				
5a	Was the organization a party to a prohibited tax shelter transaction at any time during the tax year? . . .	5a			✓
b	Did any taxable party notify the organization that it was or is a party to a prohibited tax shelter transaction?	5b			✓
c	If "Yes" to line 5a or 5b, did the organization file Form 8886-T?	5c			
6a	Does the organization have annual gross receipts that are normally greater than $100,000, and did the organization solicit any contributions that were not tax deductible as charitable contributions?	6a			✓
b	If "Yes," did the organization include with every solicitation an express statement that such contributions or gifts were not tax deductible?	6b			
7	**Organizations that may receive deductible contributions under section 170(c).**				
a	Did the organization receive a payment in excess of $75 made partly as a contribution and partly for goods and services provided to the payor?	7a			✓
b	If "Yes," did the organization notify the donor of the value of the goods or services provided?	7b			
c	Did the organization sell, exchange, or otherwise dispose of tangible personal property for which it was required to file Form 8282?	7c			✓
d	If "Yes," indicate the number of Forms 8282 filed during the year	7d			
e	Did the organization receive any funds, directly or indirectly, to pay premiums on a personal benefit contract?	7e			✓
f	Did the organization, during the year, pay premiums, directly or indirectly, on a personal benefit contract? .	7f			✓
g	If the organization received a contribution of qualified intellectual property, did the organization file Form 8899 as required?	7g			
h	If the organization received a contribution of cars, boats, airplanes, or other vehicles, did the organization file a Form 1098-C?	7h			
8	**Sponsoring organizations maintaining donor advised funds and section 509(a)(3) supporting organizations.** Did the supporting organization, or a donor advised fund maintained by a sponsoring organization, have excess business holdings at any time during the year?	8			
9	**Sponsoring organizations maintaining donor advised funds.**				
a	Did the organization make any taxable distributions under section 4966?	9a			
b	Did the organization make a distribution to a donor, donor advisor, or related person?	9b			
10	**Section 501(c)(7) organizations.** Enter:				
a	Initiation fees and capital contributions included on Part VIII, line 12	10a			
b	Gross receipts, included on Form 990, Part VIII, line 12, for public use of club facilities .	10b			
11	**Section 501(c)(12) organizations.** Enter:				
a	Gross income from members or shareholders	11a			
b	Gross income from other sources (Do not net amounts due or paid to other sources against amounts due or received from them.)	11b			
12a	**Section 4947(a)(1) non-exempt charitable trusts.** Is the organization filing Form 990 in lieu of Form 1041?	12a			
b	If "Yes," enter the amount of tax-exempt interest received or accrued during the year . .	12b			
13	**Section 501(c)(29) qualified nonprofit health insurance issuers.**				
a	Is the organization licensed to issue qualified health plans in more than one state?	13a			
	Note. See the instructions for additional information the organization must report on Schedule O.				
b	Enter the amount of reserves the organization is required to maintain by the states in which the organization is licensed to issue qualified health plans	13b			
c	Enter the amount of reserves on hand	13c			
14a	Did the organization receive any payments for indoor tanning services during the tax year?	14a			✓
b	If "Yes," has it filed a Form 720 to report these payments? *If "No," provide an explanation in Schedule O* .	14b			

Part VI **Governance, Management, and Disclosure** *For each "Yes" response to lines 2 through 7b below, and for a "No" response to line 8a, 8b, or 10b below, describe the circumstances, processes, or changes in Schedule O. See instructions.*

Check if Schedule O contains a response to any question in this Part VI . . . . . ☑

Section A. Governing Body and Management

			Yes	No
1a	Enter the number of voting members of the governing body at the end of the tax year . . If there are material differences in voting rights among members of the governing body, or if the governing body delegated broad authority to an executive committee or similar committee, explain in Schedule O.	1a 16		
b	Enter the number of voting members included in line 1a, above, who are independent .	1b 16		
2	Did any officer, director, trustee, or key employee have a family relationship or a business relationship with any other officer, director, trustee, or key employee?	2		✓
3	Did the organization delegate control over management duties customarily performed by or under the direct supervision of officers, directors, or trustees, or key employees to a management company or other person? .	3		✓
4	Did the organization make any significant changes to its governing documents since the prior Form 990 was filed?	4		✓
5	Did the organization become aware during the year of a significant diversion of the organization's assets? .	5		✓
6	Did the organization have members or stockholders?	6	✓	
7a	Did the organization have members, stockholders, or other persons who had the power to elect or appoint one or more members of the governing body?	7a	✓	
b	Are any governance decisions of the organization reserved to (or subject to approval by) members, stockholders, or persons other than the governing body?	7b		✓
8	Did the organization contemporaneously document the meetings held or written actions undertaken during the year by the following:			
a	The governing body?	8a	✓	
b	Each committee with authority to act on behalf of the governing body?	8b	✓	
9	Is there any officer, director, trustee, or key employee listed in Part VII, Section A, who cannot be reached at the organization's mailing address? *If "Yes," provide the names and addresses in Schedule O*	9		✓

Section B. Policies *(This Section B requests information about policies not required by the Internal Revenue Code.)*

			Yes	No
10a	Did the organization have local chapters, branches, or affiliates?	10a		✓
b	If "Yes," did the organization have written policies and procedures governing the activities of such chapters, affiliates, and branches to ensure their operations are consistent with the organization's exempt purposes?	10b		
11a	Has the organization provided a complete copy of this Form 990 to all members of its governing body before filing the form?	11a	✓	
b	Describe in Schedule O the process, if any, used by the organization to review this Form 990.			
12a	Did the organization have a written conflict of interest policy? *If "No," go to line 13*	12a	✓	
b	Were officers, directors, or trustees, and key employees required to disclose annually interests that could give rise to conflicts?	12b	✓	
c	Did the organization regularly and consistently monitor and enforce compliance with the policy? *If "Yes," describe in Schedule O how this was done*	12c	✓	
13	Did the organization have a written whistleblower policy?	13	✓	
14	Did the organization have a written document retention and destruction policy?	14	✓	
15	Did the process for determining compensation of the following persons include a review and approval by independent persons, comparability data, and contemporaneous substantiation of the deliberation and decision?			
a	The organization's CEO, Executive Director, or top management official	15a	✓	
b	Other officers or key employees of the organization	15b	✓	
	If "Yes" to line 15a or 15b, describe the process in Schedule O (see instructions).			
16a	Did the organization invest in, contribute assets to, or participate in a joint venture or similar arrangement with a taxable entity during the year?	16a		✓
b	If "Yes," did the organization follow a written policy or procedure requiring the organization to evaluate its participation in joint venture arrangements under applicable federal tax law, and take steps to safeguard the organization's exempt status with respect to such arrangements?	16b		

Section C. Disclosure

17 List the states with which a copy of this Form 990 is required to be filed ▶ None

18 Section 6104 requires an organization to make its Forms 1023 (or 1024 if applicable), 990, and 990-T (Section 501(c)(3)s only) available for public inspection. Indicate how you made these available. Check all that apply.

☐ Own website ☐ Another's website ☑ Upon request ☐ Other *(explain in Schedule O)*

19 Describe in Schedule O whether (and if so, how), the organization made its governing documents, conflict of interest policy, and financial statements available to the public during the tax year.

20 State the name, physical address, and telephone number of the person who possesses the books and records of the organization: ▶ Thomas Blazejowski, (860)684-8133

201 Chestnut Hill Road, Stafford Springs, CT 06076-0860

Part VII Compensation of Officers, Directors, Trustees, Key Employees, Highest Compensated Employees, and Independent Contractors

Check if Schedule O contains a response to any question in this Part VII . . . . . ☐

Section A. Officers, Directors, Trustees, Key Employees, and Highest Compensated Employees

1a Complete this table for all persons required to be listed. Report compensation for the calendar year ending with or within the organization's tax year.

- List all of the organization's **current** officers, directors, trustees (whether individuals or organizations), regardless of amount of compensation. Enter -0- in columns (D), (E), and (F) if no compensation was paid.
- List all of the organization's **current** key employees, if any. See instructions for definition of "key employee."
- List the organization's five **current** highest compensated employees (other than an officer, director, trustee, or key employee) who received reportable compensation (Box 5 of Form W-2 and/or Box 7 of Form 1099-MISC) of more than $100,000 from the organization and any related organizations.
- List all of the organization's **former** officers, key employees, and highest compensated employees who received more than $100,000 of reportable compensation from the organization and any related organizations.
- List all of the organization's **former directors or trustees** that received, in the capacity as a former director or trustee of the organization, more than $10,000 of reportable compensation from the organization and any related organizations.

List persons in the following order: individual trustees or directors; institutional trustees; officers; key employees; highest compensated employees; and former such persons.

☐ Check this box if neither the organization nor any related organization compensated any current officer, director, or trustee.

(A) Name and Title	(B) Average hours per week (list any hours for related organizations below dotted line)	(C) Position (do not check more than one box, unless person is both an officer and a director/trustee)						(D) Reportable compensation from the organization (W-2/1099-MISC)	(E) Reportable compensation from related organizations (W-2/1099-MISC)	(F) Estimated amount of other compensation from the organization and related organizations

6	Donated services and use of facilities	6	0
7	Investment expenses	7	0
8	Prior period adjustments	8	0
9	Other changes in net assets or fund balances (explain in Schedule O)	9	220,745
10	Net assets or fund balances at end of year. Combine lines 3 through 9 (must equal Part X, line 33, column (B))	10	6,911,814

Part XII Financial Statements and Reporting

Check if Schedule O contains a response to any question in this Part XII . . . . . ☐

			Yes	No
1	Accounting method used to prepare the Form 990: ☐ Cash ☑ Accrual ☐ Other _____ If the organization changed its method of accounting from a prior year or checked "Other," explain in Schedule O.			
2a	Were the organization's financial statements compiled or reviewed by an independent accountant? If "Yes," check a box below to indicate whether the financial statements for the year were compiled or reviewed on a separate basis, consolidated basis, or both: ☐ Separate basis ☐ Consolidated basis ☐ Both consolidated and separate basis	2a		✓
b	Were the organization's financial statements audited by an independent accountant? If "Yes," check a box below to indicate whether the financial statements for the year were audited on a separate basis, consolidated basis, or both: ☐ Separate basis ☑ Consolidated basis ☐ Both consolidated and separate basis	2b	✓	
c	If "Yes" to line 2a or 2b, does the organization have a committee that assumes responsibility for oversight of the audit, review, or compilation of its financial statements and selection of an independent accountant? If the organization changed either its oversight process or selection process during the tax year, explain in Schedule O.	2c	✓	
3a	As a result of a federal award, was the organization required to undergo an audit or audits as set forth in the Single Audit Act and OMB Circular A-133?	3a		✓
b	If "Yes," did the organization undergo the required audit or audits? If the organization did not undergo the required audit or audits, explain why in Schedule O and describe any steps taken to undergo such audits	3b		

SCHEDULE A (Form 990 or 990-EZ)

Department of the Treasury
Internal Revenue Service

Public Charity Status and Public Support

Complete if the organization is a section 501(c)(3) organization or a section 4947(a)(1) nonexempt charitable trust.

▶ **Attach to Form 990 or Form 990-EZ.** ▶ **See separate instructions.**

OMB No. 1545-0047

2012

Open to Public Inspection

Name of the organization

JOHNSON MEMORIAL HOSPITAL INC

Employer identification number

06-0646696

Part I Reason for Public Charity Status (All organizations must complete this part.) See instructions.

The organization is not a private foundation because it is: (For lines 1 through 11, check only one box.)

1 ☐ A church, convention of churches, or association of churches described in **section 170(b)(1)(A)(i).**

2 ☐ A school described in **section 170(b)(1)(A)(ii).** (Attach Schedule E.)

3 ☑ A hospital or a cooperative hospital service organization described in **section 170(b)(1)(A)(iii).**

4 ☐ A medical research organization operated in conjunction with a hospital described in **section 170(b)(1)(A)(iii).** Enter the hospital's name, city, and state:

5 ☐ An organization operated for the benefit of a college or university owned or operated by a governmental unit described in **section 170(b)(1)(A)(iv).** (Complete Part II.)

6 ☐ A federal, state, or local government or governmental unit described in **section 170(b)(1)(A)(v).**

7 ☐ An organization that normally receives a substantial part of its support from a governmental unit or from the general public described in **section 170(b)(1)(A)(vi).** (Complete Part II.)

8 ☐ A community trust described in **section 170(b)(1)(A)(vi).** (Complete Part II.)

9 ☐ An organization that normally receives: (1) more than 33⅓% of its support from contributions, membership fees, and gross receipts from activities related to its exempt functions—subject to certain exceptions, and (2) no more than 33⅓% of its support from gross investment income and unrelated business taxable income (less section 511 tax) from businesses acquired by the organization after June 30, 1975. See **section 509(a)(2).** (Complete Part III.)

10 ☐ An organization organized and operated exclusively to test for public safety. See **section 509(a)(4).**

11 ☐ An organization organized and operated exclusively for the benefit of, to perform the functions of, or to carry out the purposes of one or more publicly supported organizations described in section 509(a)(1) or section 509(a)(2). See **section 509(a)(3).** Check the box that describes the type of supporting organization and complete lines 11e through 11h.

a ☐ Type I **b** ☐ Type II **c** ☐ Type III–Functionally integrated **d** ☐ Type III–Non-functionally integrated

e ☐ By checking this box, I certify that the organization is not controlled directly or indirectly by one or more disqualified persons other than foundation managers and other than one or more publicly supported organizations described in section 509(a)(1) or section 509(a)(2).

f If the organization received a written determination from the IRS that it is a Type I, Type II, or Type III supporting organization, check this box . . . . . ☐

g Since August 17, 2006, has the organization accepted any gift or contribution from any of the following persons?

	Yes	No
(i) A person who directly or indirectly controls, either alone or together with persons described in (ii) and (iii) below, the governing body of the supported organization? **11g(i)**		
(ii) A family member of a person described in (i) above? **11g(ii)**		
(iii) A 35% controlled entity of a person described in (i) or (ii) above? **11g(iii)**		

h Provide the following information about the supported organization(s).

(i) Name of supported organization	(ii) EIN	(iii) Type of organization (described on lines 1–9 above or IRC section (see instructions))	(iv) Is the organization in col. (i) listed in your governing document?		(v) Did you notify the organization in col. (i) of your support?		(vi) Is the organization in col. (i) organized in the U.S.?		(vii) Amount of monetary support
			Yes	No	Yes	No	Yes	No

(E)									
Total									

Part II **Support Schedule for Organizations Described in Sections 170(b)(1)(A)(iv) and 170(b)(1)(A)(vi)**
(Complete only if you checked the box on line 5, 7, or 8 of Part I or if the organization failed to qualify under Part III. If the organization fails to qualify under the tests listed below, please complete Part III.)

Section A. Public Support

Calendar year (or fiscal year beginning in) ▶	(a) 2008	(b) 2009	(c) 2010	(d) 2011	(e) 2012	(f) Total
1 Gifts, grants, contributions, and membership fees received. (Do not include any "unusual grants.") . . .						
2 Tax revenues levied for the organization's benefit and either paid to or expended on its behalf . . .						
3 The value of services or facilities furnished by a governmental unit to the organization without charge						
4 **Total.** Add lines 1 through 3						
5 The portion of total contributions by each person (other than a governmental unit or publicly supported organization) included on line 1 that exceeds 2% of the amount shown on line 11, column (f)						
6 **Public support.** Subtract line 5 from line 4.						

Section B. Total Support

Calendar year (or fiscal year beginning in) ▶	(a) 2008	(b) 2009	(c) 2010	(d) 2011	(e) 2012	(f) Total
7 Amounts from line 4						
8 Gross income from interest, dividends, payments received on securities loans, rents, royalties and income from similar sources						
9 Net income from unrelated business activities, whether or not the business is regularly carried on						
10 Other income. Do not include gain or loss from the sale of capital assets (Explain in Part IV.)						
11 **Total support.** Add lines 7 through 10						

12 Gross receipts from related activities, etc. (see instructions) 12

13 **First five years.** If the Form 990 is for the organization's first, second, third, fourth, or fifth tax year as a section 501(c)(3) organization, check this box and **stop here** . . . . . ▶ ☐

Section C. Computation of Public Support Percentage

14 Public support percentage for 2012 (line 6, column (f) divided by line 11, column (f)) . . . . 14 %

15 Public support percentage from 2011 Schedule A, Part II, line 14 . . . . . 15 %

16a **33 1/3% support test—2012.** If the organization did not check the box on line 13, and line 14 is 33 1/3% or more, check this box and **stop here.** The organization qualifies as a publicly supported organization . . . . . ▶ ☐

b **33 1/3% support test—2011.** If the organization did not check a box on line 13 or 16a, and line 15 is 33 1/3% or more, check this box and **stop here.** The organization qualifies as a publicly supported organization . . . . . ▶ ☐

17a **10%-facts-and-circumstances test—2012.** If the organization did not check a box on line 13, 16a, or 16b, and line 14 is 10% or more, and if the organization meets the "facts-and-circumstances" test, check this box and **stop here.** Explain in Part IV how the organization meets the "facts-and-circumstances" test. The organization qualifies as a publicly supported organization . . . . . ▶ ☐

b **10%-facts-and-circumstances test—2011.** If the organization did not check a box on line 13, 16a, 16b, or 17a, and line 15 is 10% or more, and if the organization meets the "facts-and-circumstances" test, check this box and **stop here.** Explain in Part IV how the organization meets the "facts-and-circumstances" test. The organization qualifies as a publicly supported organization . . . . . ▶ ☐

18 **Private foundation.** If the organization did not check a box on line 13, 16a, 16b, 17a, or 17b, check this box and see instructions . . . . . ▶ ☐

Part III Support Schedule for Organizations Described in Section 509(a)(2)

(Complete only if you checked the box on line 9 of Part I or if the organization failed to qualify under Part II. If the organization fails to qualify under the tests listed below, please complete Part II.)

Section A. Public Support

Calendar year (or fiscal year beginning in) ▶	(a) 2008	(b) 2009	(c) 2010	(d) 2011	(e) 2012	(f) Total
1 Gifts, grants, contributions, and membership fees received. (Do not include any "unusual grants.")						
2 Gross receipts from admissions, merchandise sold or services performed, or facilities furnished in any activity that is related to the organization's tax-exempt purpose . . .						
3 Gross receipts from activities that are not an unrelated trade or business under section 513						
4 Tax revenues levied for the organization's benefit and either paid to or expended on its behalf . . .						
5 The value of services or facilities furnished by a governmental unit to the organization without charge						
6 **Total.** Add lines 1 through 5						
7a Amounts included on lines 1, 2, and 3 received from disqualified persons .						
b Amounts included on lines 2 and 3 received from other than disqualified persons that exceed the greater of $5,000 or 1% of the amount on line 13 for the year						
c Add lines 7a and 7b						
8 **Public support** (Subtract line 7c from line 6.)						

Section B. Total Support

Calendar year (or fiscal year beginning in) ▶	(a) 2008	(b) 2009	(c) 2010	(d) 2011	(e) 2012	(f) Total
9 Amounts from line 6						
10a Gross income from interest, dividends, payments received on securities loans, rents, royalties and income from similar sources .						
b Unrelated business taxable income (less section 511 taxes) from businesses acquired after June 30, 1975						
c Add lines 10a and 10b						
11 Net income from unrelated business activities not included in line 10b, whether or not the business is regularly carried on						
12 Other income. Do not include gain or loss from the sale of capital assets (Explain in Part IV.)						
13 **Total support.** (Add lines 9, 10c, 11, and 12.)						

14 **First five years.** If the Form 990 is for the organization's first, second, third, fourth, or fifth tax year as a section 501(c)(3) organization, check this box and **stop here** . . . . . ▶ ☐

Section C. Computation of Public Support Percentage

15	Public support percentage for 2012 (line 8, column (f) divided by line 13, column (f))	15	%
16	Public support percentage from 2011 Schedule A, Part III, line 15	16	%

Section D. Computation of Investment Income Percentage

17	Investment income percentage for **2012** (line 10c, column (f) divided by line 13, column (f)) . . .	17	%
18	Investment income percentage from **2011** Schedule A, Part III, line 17	18	%

19a **33 1/3% support tests—2012.** If the organization did not check the box on line 14, and line 15 is more than 33 1/3%, and line 17 is not more than 33 1/3%, check this box and **stop here.** The organization qualifies as a publicly supported organization . ▶ ☐

b **33 1/3% support tests—2011.** If the organization did not check a box on line 14 or line 19a, and line 16 is more than 33 1/3%, and line 18 is not more than 33 1/3%, check this box and **stop here.** The organization qualifies as a publicly supported organization ▶ ☐

20 **Private foundation.** If the organization did not check a box on line 14, 19a, or 19b, check this box and see instructions ▶ ☐

Part IV **Supplemental Information.** Complete this part to provide the explanations required by Part II, line 10; Part II, line 17a or 17b; and Part III, line 12. Also complete this part for any additional information. (See instructions).

SCHEDULE D (Form 990)

Department of the Treasury
Internal Revenue Service

Supplemental Financial Statements

▶ Complete if the organization answered "Yes," to Form 990, Part IV, line 6, 7, 8, 9, 10, 11a, 11b, 11c, 11d, 11e, 11f, 12a, or 12b.
▶ Attach to Form 990. ▶ See separate instructions.

OMB No. 1545-0047

2012

Open to Public Inspection

Name of the organization

JOHNSON MEMORIAL HOSPITAL INC

Employer identification number

06-0646696

Part I Organizations Maintaining Donor Advised Funds or Other Similar Funds or Accounts. Complete if the organization answered "Yes" to Form 990, Part IV, line 6.

		(a) Donor advised funds	(b) Funds and other accounts
1	Total number at end of year		
2	Aggregate contributions to (during year)		
3	Aggregate grants from (during year)		
4	Aggregate value at end of year		

5 Did the organization inform all donors and donor advisors in writing that the assets held in donor advised funds are the organization's property, subject to the organization's exclusive legal control? ☐ Yes ☐ No

6 Did the organization inform all grantees, donors, and donor advisors in writing that grant funds can be used only for charitable purposes and not for the benefit of the donor or donor advisor, or for any other purpose conferring impermissible private benefit? ☐ Yes ☐ No

Part II Conservation Easements. Complete if the organization answered "Yes" to Form 990, Part IV, line 7.

1 Purpose(s) of conservation easements held by the organization (check all that apply).
- ☐ Preservation of land for public use (e.g., recreation or education)
- ☐ Preservation of an historically important land area
- ☐ Protection of natural habitat
- ☐ Preservation of a certified historic structure
- ☐ Preservation of open space

2 Complete lines 2a through 2d if the organization held a qualified conservation contribution in the form of a conservation easement on the last day of the tax year.

		Held at the End of the Tax Year
a	Total number of conservation easements	2a
b	Total acreage restricted by conservation easements	2b
c	Number of conservation easements on a certified historic structure included in (a)	2c
d	Number of conservation easements included in (c) acquired after 8/17/06, and not on a historic structure listed in the National Register	2d

3 Number of conservation easements modified, transferred, released, extinguished, or terminated by the organization during the tax year ▶ _____

4 Number of states where property subject to conservation easement is located ▶ _____

5 Does the organization have a written policy regarding the periodic monitoring, inspection, handling of violations, and enforcement of the conservation easements it holds? ☐ Yes ☐ No

6 Staff and volunteer hours devoted to monitoring, inspecting, and enforcing conservation easements during the year ▶ _____

7 Amount of expenses incurred in monitoring, inspecting, and enforcing conservation easements during the year ▶ $ _____

8 Does each conservation easement reported on line 2(d) above satisfy the requirements of section 170(h)(4)(B)(i) and section 170(h)(4)(B)(ii)? ☐ Yes ☐ No

9 In Part XIII, describe how the organization reports conservation easements in its revenue and expense statement, and balance sheet, and include, if applicable, the text of the footnote to the organization's financial statements that describes the organization's accounting for conservation easements.

Part III Organizations Maintaining Collections of Art, Historical Treasures, or Other Similar Assets. Complete if the organization answered "Yes" to Form 990, Part IV, line 8.

1a If the organization elected, as permitted under SFAS 116 (ASC 958), not to report in its revenue statement and balance sheet works of art, historical treasures, or other similar assets held for public exhibition, education, or research in furtherance of public service, provide, in Part XIII, the text of the footnote to its financial statements that describes these items.

b If the organization elected, as permitted under SFAS 116 (ASC 958), to report in its revenue statement and balance sheet works of art, historical treasures, or other similar assets held for public exhibition, education, or research in furtherance of public service, provide the following amounts relating to these items:

(i) Revenues included in Form 990, Part VIII, line 1 ▶ $ _____

(ii) Assets included in Form 990, Part X ▶ $ _____

2 If the organization received or held works of art, historical treasures, or other similar assets for financial gain, provide the following amounts required to be reported under SFAS 116 (ASC 958) relating to these items:

a Revenues included in Form 990, Part VIII, line 1 ▶ $ _____

b Assets included in Form 990, Part X ▶ $ _____

Part III Organizations Maintaining Collections of Art, Historical Treasures, or Other Similar Assets *(continued)*

3 Using the organization's acquisition, accession, and other records, check any of the following that are a significant use of its collection items (check all that apply):

a ☐ Public exhibition
b ☐ Scholarly research
c ☐ Preservation for future generations
d ☐ Loan or exchange programs
e ☐ Other _____

4 Provide a description of the organization's collections and explain how they further the organization's exempt purpose in Part XIII.

5 During the year, did the organization solicit or receive donations of art, historical treasures, or other similar assets to be sold to raise funds rather than to be maintained as part of the organization's collection? . . ☐ Yes ☐ No

Part IV Escrow and Custodial Arrangements. Complete if the organization answered "Yes" to Form 990, Part IV, line 9, or reported an amount on Form 990, Part X, line 21.

1a Is the organization an agent, trustee, custodian or other intermediary for contributions or other assets not included on Form 990, Part X? . . . . . ☐ Yes ☐ No

b If "Yes," explain the arrangement in Part XIII and complete the following table:

		Amount
c	Beginning balance	1c
d	Additions during the year	1d
e	Distributions during the year	1e
f	Ending balance	1f

2a Did the organization include an amount on Form 990, Part X, line 21? . . . . . ☐ Yes ☐ No

b If "Yes," explain the arrangement in Part XIII. Check here if the explanation has been provided in Part XIII . . . . ☐

Part V Endowment Funds. Complete if the organization answered "Yes" to Form 990, Part IV, line 10.

		(a) Current year	(b) Prior year	(c) Two years back	(d) Three years back	(e) Four years back
1a	Beginning of year balance	841,760	841,760	841,760	841,760	841,760
b	Contributions	0	0	0	0	0
c	Net investment earnings, gains, and losses	0	0	0	0	0
d	Grants or scholarships	0	0	0	0	0
e	Other expenditures for facilities and programs	0	0	0	0	0
f	Administrative expenses	0	0	0	0	0
g	End of year balance	841,760	841,760	841,760	841,760	841,760

2 Provide the estimated percentage of the current year end balance (line 1g, column (a)) held as:

a Board designated or quasi-endowment ▶ 0 %
b Permanent endowment ▶ 100 %
c Temporarily restricted endowment ▶ 0 %

The percentages in lines 2a, 2b, and 2c should equal 100%.

3a Are there endowment funds not in the possession of the organization that are held and administered for the organization by:

		Yes	No
(i)	unrelated organizations		✓
(ii)	related organizations		✓
b	If "Yes" to 3a(ii), are the related organizations listed as required on Schedule R?		

4 Describe in Part XIII the intended uses of the organization's endowment funds.

Part VI Land, Buildings, and Equipment. See Form 990, Part X, line 10.

	Description of property	(a) Cost or other basis (investment)	(b) Cost or other basis (other)	(c) Accumulated depreciation	(d) Book value
1a	Land	406,997	0		406,997
b	Buildings	23,667,147	0	13,244,358	10,422,789
c	Leasehold improvements	568,114	0	65,118	502,996
d	Equipment	32,160,819	0	27,423,477	4,737,342
e	Other	1,842,617	0	1,281,827	560,790
Total.	Add lines 1a through 1e. *(Column (d) must equal Form 990, Part X, column (B), line 10(c).)* ▶				16,630,914

Part VII Investments—Other Securities. See Form 990, Part X, line 12.

(a) Description of security or category (including name of security)	(b) Book value	(c) Method of valuation: Cost or end-of-year market value
(1) Financial derivatives		
(2) Closely-held equity interests		
(3) Other		
(A)		
(B)		
(C)		
(D)		
(E)		
(F)		
(G)		
(H)		
(I)		
Total. *(Column (b) must equal Form 990, Part X, col. (B) line 12.)* ▶		

Part VIII Investments—Program Related. See Form 990, Part X, line 13.

(a) Description of investment type	(b) Book value	(c) Method of valuation: Cost or end-of-year market value
(1) **Investment in Joint Venture**	**3,165,915**	**Cost**
(2)		
(3)		
(4)		
(5)		
(6)		
(7)		
(8)		
(9)		
(10)		
Total. *(Column (b) must equal Form 990, Part X, col. (B) line 13.)* ▶	**3,165,915**	

Part IX Other Assets. See Form 990, Part X, line 15.

(a) Description	(b) Book value
(1) **Due From Affiliates**	**5,093,786**
(2) **Deferred Financing Costs, net**	**172,864**
(3) **Other noncurrent assets**	**476,000**
(4) **Property under Capital Leases**	**291,398**
(5)	
(6)	
(7)	
(8)	
(9)	
(10)	
Total. *(Column (b) must equal Form 990, Part X, col. (B) line 15.)* ▶	**6,034,048**

Part X Other Liabilities. See Form 990, Part X, line 25.

1. (a) Description of liability	(b) Book value
(1) Federal income taxes	**0**
(2) **Due to Affiliate Corporations**	**1,268,030**
(3) **Payments due under plan of reorganization**	**3,930,808**
(4) **Subordinated Debt**	**125,022**
(5) **Other Long term debt**	**2,350,000**
(6) **Obligations under Capital Leases**	**45,579**
(7) **Self Insurance Liabilities**	**641,424**
(8) **Other Liabilities**	**604,927**
(9)	
(10)	
(11)	
Total. *(Column (b) must equal Form 990, Part X, col. (B) line 25.)* ▶	**8,965,790**

2. FIN 48 (ASC 740) Footnote. In Part XIII, provide the text of the footnote to the organization's financial statements that reports the organization's liability for uncertain tax positions under FIN 48 (ASC 740). Check here if the text of the footnote has been provided in Part XIII . . . . . ☑

Part XI Reconciliation of Revenue per Audited Financial Statements With Revenue per Return

1	Total revenue, gains, and other support per audited financial statements			1
2	Amounts included on line 1 but not on Form 990, Part VIII, line 12:			
a	Net unrealized gains on investments	2a		
b	Donated services and use of facilities	2b		
c	Recoveries of prior year grants	2c		
d	Other (Describe in Part XIII.)	2d		
e	Add lines **2a** through **2d**			2e
3	Subtract line **2e** from line **1**			3
4	Amounts included on Form 990, Part VIII, line 12, but not on line **1**:			
a	Investment expenses not included on Form 990, Part VIII, line 7b	4a		
b	Other (Describe in Part XIII.)	4b		
c	Add lines **4a** and **4b**			4c
5	Total revenue. Add lines **3** and **4c.** *(This must equal Form 990, Part I, line 12.)*			5

Part XII Reconciliation of Expenses per Audited Financial Statements With Expenses per Return

1	Total expenses and losses per audited financial statements			1
2	Amounts included on line 1 but not on Form 990, Part IX, line 25:			
a	Donated services and use of facilities	2a		
b	Prior year adjustments	2b		
c	Other losses	2c		
d	Other (Describe in Part XIII.)	2d		
e	Add lines **2a** through **2d**			2e
3	Subtract line **2e** from line **1**			3
4	Amounts included on Form 990, Part IX, line 25, but not on line **1:**			
a	Investment expenses not included on Form 990, Part VIII, line 7b	4a		
b	Other (Describe in Part XIII.)	4b		
c	Add lines **4a** and **4b**			4c
5	Total expenses. Add lines **3** and **4c.** *(This must equal Form 990, Part I, line 18.)*			5

Part XIII Supplemental Information

Complete this part to provide the descriptions required for Part II, lines 3, 5, and 9; Part III, lines 1a and 4; Part IV, lines 1b and 2b; Part V, line 4; Part X, line 2; Part XI, lines 2d and 4b; and Part XII, lines 2d and 4b. Also complete this part to provide any additional information.

Schedule D, Part V, Line 4 - Principal is permanently restricted by donors and income is available for operations.

Schedule D, Part X, Line 2 - Management has analyzed the tax positions taken and has concluded that as of September 30, 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Hospital, Development, and JPA are subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Management believes that these orgaizations are no longer subject to income tax examinations prior to 2010.

Part I Financial Assistance and Certain Other Community Benefits at Cost

		Yes	No
1a	Did the organization have a financial assistance policy during the tax year? If "No," skip to question 6a	✓	
b	If "Yes," was it a written policy?	✓	
2	If the organization had multiple hospital facilities, indicate which of the following best describes application of the financial assistance policy to its various hospital facilities during the tax year. ☐ Applied uniformly to all hospital facilities ☐ Applied uniformly to most hospital facilities ☐ Generally tailored to individual hospital facilities		
3	Answer the following based on the financial assistance eligibility criteria that applied to the largest number of the organization's patients during the tax year.		
a	Did the organization use Federal Poverty Guidelines (FPG) as a factor in determining eligibility for providing *free* care? If "Yes," indicate which of the following was the FPG family income limit for eligibility for free care: ☐ 100% ☐ 150% ☑ 200% ☐ Other _____ %	✓	
b	Did the organization use FPG as a factor in determining eligibility for providing *discounted* care? If "Yes," indicate which of the following was the family income limit for eligibility for discounted care: ☐ 200% ☐ 250% ☐ 300% ☐ 350% ☑ 400% ☐ Other _____ %	✓	
c	If the organization used factors other than FPG in determining eligibility, describe in Part VI the income based criteria for determining eligibility for free or discounted care. Include in the description whether the organization used an asset test or other threshold, regardless of income, as a factor in determining eligibility for free or discounted care.		
4	Did the organization's financial assistance policy that applied to the largest number of its patients during the tax year provide for free or discounted care to the "medically indigent"?	✓	
5a	Did the organization budget amounts for free or discounted care provided under its financial assistance policy during the tax year?	✓	
b	If "Yes," did the organization's financial assistance expenses exceed the budgeted amount?	✓	
c	If "Yes" to line 5b, as a result of budget considerations, was the organization unable to provide free or discounted care to a patient who was eligible for free or discounted care?		✓
6a	Did the organization prepare a community benefit report during the tax year?		✓
b	If "Yes," did the organization make it available to the public?		

Complete the following table using the worksheets provided in the Schedule H instructions. Do not submit these worksheets with the Schedule H.

7 Financial Assistance and Certain Other Community Benefits at Cost

Financial Assistance and Means-Tested Government Programs	(a) Number of activities or programs (optional)	(b) Persons served (optional)	(c) Total community benefit expense	(d) Direct offsetting revenue	(e) Net community benefit expense	(f) Percent of total expense
a Financial Assistance at cost (from Worksheet 1)		369	127,400	0	127,400	0.2%
b Medicaid (from Worksheet 3, column a)		11,700	9,466,924	4,495,248	4,971,676	7.3%
c Costs of other means-tested government programs (from Worksheet 3, column b)		0	0	0	0	0%
d **Total** Financial Assistance and Means-Tested Government Programs	0	12,069	9,594,324	4,495,248	5,099,076	7.5%
Other Benefits						
e Community health improvement services and community benefit operations (from Worksheet 4)	8	2,850	62,467	0	62,467	0.1%
f Health professions education (from Worksheet 5)	1	8	18,487	0	18,487	0.02%
g Subsidized health services (from Worksheet 6)						
h Research (from Worksheet 7)						
i Cash and in-kind contributions for community benefit (from Worksheet 8)	1	300	1,394	0	1,394	0%
j **Total.** Other Benefits	10	3,158	82,348	0	82,348	0.12%
k **Total.** Add lines 7d and 7j	10	15,227	9,676,672	4,495,248	5,181,424	7.62%

Part II Community Building Activities Complete this table if the organization conducted any community building activities during the tax year, and describe in Part VI how its community building activities promoted the health of the communities it serves.

		(a) Number of activities or programs (optional)	(b) Persons served (optional)	(c) Total community building expense	(d) Direct offsetting revenue	(e) Net community building expense	(f) Percent of total expense
1	Physical improvements and housing						
2	Economic development						
3	Community support						
4	Environmental improvements						
5	Leadership development and training for community members						
6	Coalition building						
7	Community health improvement advocacy						
8	Workforce development						
9	Other						
10	**Total**						

Part III Bad Debt, Medicare, & Collection Practices

Section A. Bad Debt Expense

				Yes	No
1	Did the organization report bad debt expense in accordance with Healthcare Financial Management Association Statement No. 15?	1		✓	
2	Enter the amount of the organization's bad debt expense. Explain in Part VI the methodology used by the organization to estimate this amount	2	4,453,593		
3	Enter the estimated amount of the organization's bad debt expense attributable to patients eligible under the organization's financial assistance policy. Explain in Part VI the methodology used by the organization to estimate this amount and the rationale, if any, for including this portion of bad debt as community benefit.	3	311,752		
4	Provide in Part VI the text of the footnote to the organization's financial statements that describes bad debt expense or the page number on which this footnote is contained in the attached financial statements.				

Section B. Medicare

5	Enter total revenue received from Medicare (including DSH and IME)	5	17,043,448
6	Enter Medicare allowable costs of care relating to payments on line 5	6	21,319,882
7	Subtract line 6 from line 5. This is the surplus (or shortfall)	7	-4,276,434
8	Describe in Part VI the extent to which any shortfall reported in line 7 should be treated as community benefit. Also describe in Part VI the costing methodology or source used to determine the amount reported on line 6. Check the box that describes the method used:		

☐ Cost accounting system ☑ Cost to charge ratio ☐ Other

Section C. Collection Practices

9a	Did the organization have a written debt collection policy during the tax year?	9a	✓	
b	If "Yes," did the organization's collection policy that applied to the largest number of its patients during the tax year contain provisions on the collection practices to be followed for patients who are known to qualify for financial assistance? Describe in Part VI	9b	✓	

Part IV Management Companies and Joint Ventures (owned 10% or more by officers, directors, trustees, key employees, and physicians—see instructions)

	(a) Name of entity	(b) Description of primary activity of entity	(c) Organization's profit % or stock ownership %	(d) Officers, directors, trustees, or key employees' profit % or stock ownership %	(e) Physicians' profit % or stock ownership %

Part V Facility Information *(continued)*

Section B. Facility Policies and Practices

(Complete a separate Section B for each of the hospital facilities or facility reporting groups listed in Part V, Section A)

Name of hospital facility or facility reporting group Johnson Memorial Hospital Inc

For single facility filers only: line number of hospital facility (from Schedule H, Part V, Section A) 1

		Yes	No
Community Health Needs Assessment (Lines 1 through 8c are optional for tax years beginning on or before March 23, 2012)			
1	During the tax year or either of the two immediately preceding tax years, did the hospital facility conduct a community health needs assessment (CHNA)? If "No," skip to line 9.	✓	
	If "Yes," indicate what the CHNA report describes (check all that apply):		
a	☑ A definition of the community served by the hospital facility		
b	☑ Demographics of the community		
c	☑ Existing health care facilities and resources within the community that are available to respond to the health needs of the community		
d	☑ How data was obtained		
e	☑ The health needs of the community		
f	☑ Primary and chronic disease needs and other health issues of uninsured persons, low-income persons, and minority groups		
g	☑ The process for identifying and prioritizing community health needs and services to meet the community health needs		
h	☐ The process for consulting with persons representing the community's interests		
i	☐ Information gaps that limit the hospital facility's ability to assess the community's health needs		
j	☐ Other (describe in Part VI)		
2	Indicate the tax year the hospital facility last conducted a CHNA: 20 12		
3	In conducting its most recent CHNA, did the hospital facility take into account input from representatives of the community served by the hospital facility, including those with special knowledge of or expertise in public health? If "Yes," describe in Part VI how the hospital facility took into account input from persons who represent the community, and identify the persons the hospital facility consulted	✓	
4	Was the hospital facility's CHNA conducted with one or more other hospital facilities? If "Yes," list the other hospital facilities in Part VI		✓
5	Did the hospital facility make its CHNA report widely available to the public?	✓	
	If "Yes," indicate how the CHNA report was made widely available (check all that apply):		
a	☑ Hospital facility's website		
b	☑ Available upon request from the hospital facility		
c	☐ Other (describe in Part VI)		
6	If the hospital facility addressed needs identified in its most recently conducted CHNA, indicate how (check all that apply to date):		
a	☑ Adoption of an implementation strategy that addresses each of the community health needs identified through the CHNA		
b	☑ Execution of the implementation strategy		
c	☑ Participation in the development of a community-wide plan		
d	☑ Participation in the execution of a community-wide plan		
e	☑ Inclusion of a community benefit section in operational plans		
f	☑ Adoption of a budget for provision of services that address the needs identified in the CHNA		
g	☑ Prioritization of health needs in its community		
h	☑ Prioritization of services that the hospital facility will undertake to meet health needs in its community		
i	☐ Other (describe in Part VI)		
7	Did the hospital facility address all of the needs identified in its most recently conducted CHNA? If "No," explain in Part VI which needs it has not addressed and the reasons why it has not addressed such needs.	✓	
8a	Did the organization incur an excise tax under section 4959 for the hospital facility's failure to conduct a CHNA as required by section 501(r)(3)?		✓
b	If "Yes" to line 8a, did the organization file Form 4720 to report the section 4959 excise tax?		
c	If "Yes" to line 8b, what is the total amount of section 4959 excise tax the organization reported on Form 4720 for all of its hospital facilities? $		

Part V Facility Information *(continued)*

Financial Assistance Policy

			Yes	No
	Did the hospital facility have in place during the tax year a written financial assistance policy that:			
9	Explained eligibility criteria for financial assistance, and whether such assistance includes free or discounted care?	9	✓	
10	Used federal poverty guidelines (FPG) to determine eligibility for providing *free* care?	10	✓	
	If "Yes," indicate the FPG family income limit for eligibility for free care: 200 %			
	If "No," explain in Part VI the criteria the hospital facility used.			
11	Used FPG to determine eligibility for providing *discounted* care?	11	✓	
	If "Yes," indicate the FPG family income limit for eligibility for discounted care: 400 %			
	If "No," explain in Part VI the criteria the hospital facility used.			
12	Explained the basis for calculating amounts charged to patients?	12	✓	
	If "Yes," indicate the factors used in determining such amounts (check all that apply):			
a	☑ Income level			
b	☐ Asset level			
c	☑ Medical indigency			
d	☑ Insurance status			
e	☑ Uninsured discount			
f	☑ Medicaid/Medicare			
g	☑ State regulation			
h	☐ Other (describe in Part VI)			
13	Explained the method for applying for financial assistance?	13	✓	
14	Included measures to publicize the policy within the community served by the hospital facility?	14	✓	
	If "Yes," indicate how the hospital facility publicized the policy (check all that apply):			
a	☐ The policy was posted on the hospital facility's website			
b	☑ The policy was attached to billing invoices			
c	☐ The policy was posted in the hospital facility's emergency rooms or waiting rooms			
d	☑ The policy was posted in the hospital facility's admissions offices			
e	☐ The policy was provided, in writing, to patients on admission to the hospital facility			
f	☑ The policy was available on request			
g	☐ Other (describe in Part VI)			

Billing and Collections

15	Did the hospital facility have in place during the tax year a separate billing and collections policy, or a written financial assistance policy (FAP) that explained actions the hospital facility may take upon non-payment?	15	✓	
16	Check all of the following actions against an individual that were permitted under the hospital facility's policies during the tax year before making reasonable efforts to determine the patient's eligibility under the facility's FAP:			
a	☑ Reporting to credit agency			
b	☑ Lawsuits			
c	☑ Liens on residences			
d	☐ Body attachments			
e	☐ Other similar actions (describe in Part VI)			
17	Did the hospital facility or an authorized third party perform any of the following actions during the tax year before making reasonable efforts to determine the patient's eligibility under the facility's FAP?	17	✓	
	If "Yes," check all actions in which the hospital facility or a third party engaged:			
a	☑ Reporting to credit agency			
b	☑ Lawsuits			
c	☑ Liens on residences			
d	☐ Body attachments			
e	☐ Other similar actions (describe in Part VI)			

Part V Facility Information *(continued)*

18 Indicate which efforts the hospital facility made before initiating any of the actions listed in line 17 (check all that apply):

- a ☐ Notified individuals of the financial assistance policy on admission
- b ☑ Notified individuals of the financial assistance policy prior to discharge
- c ☑ Notified individuals of the financial assistance policy in communications with the patients regarding the patients' bills
- d ☑ Documented its determination of whether patients were eligible for financial assistance under the hospital facility's financial assistance policy
- e ☐ Other (describe in Part VI)

Policy Relating to Emergency Medical Care

		Yes	No
19	Did the hospital facility have in place during the tax year a written policy relating to emergency medical care that requires the hospital facility to provide, without discrimination, care for emergency medical conditions to individuals regardless of their eligibility under the hospital facility's financial assistance policy?	19 ✓	

If "No," indicate why:

- a ☐ The hospital facility did not provide care for any emergency medical conditions
- b ☐ The hospital facility's policy was not in writing
- c ☐ The hospital facility limited who was eligible to receive care for emergency medical conditions (describe in Part VI)
- d ☐ Other (describe in Part VI)

Charges to Individuals Eligible for Assistance under the FAP (FAP-Eligible Individuals)

20 Indicate how the hospital facility determined, during the tax year, the maximum amounts that can be charged to FAP-eligible individuals for emergency or other medically necessary care.

- a ☐ The hospital facility used its lowest negotiated commercial insurance rate when calculating the maximum amounts that can be charged
- b ☐ The hospital facility used the average of its three lowest negotiated commercial insurance rates when calculating the maximum amounts that can be charged
- c ☐ The hospital facility used the Medicare rates when calculating the maximum amounts that can be charged
- d ☑ Other (describe in Part VI)

21	During the tax year, did the hospital facility charge any of its FAP-eligible individuals, to whom the hospital facility provided emergency or other medically necessary services, more than the amounts generally billed to individuals who had insurance covering such care?	21		✓
	If "Yes," explain in Part VI.			
22	During the tax year, did the hospital facility charge any FAP-eligible individuals an amount equal to the gross charge for any service provided to that individual?	22		✓
	If "Yes," explain in Part VI.			

Part V Facility Information *(continued)*

Section C. Other Health Care Facilities That Are Not Licensed, Registered, or Similarly Recognized as a Hospital Facility

(list in order of size, from largest to smallest)

How many non-hospital health care facilities did the organization operate during the tax year? 7

Name and address	Type of Facility (describe)
1 Johnson Memorial Hospital DBA Johnson Surgery Center 148 Hazard Avenue Enfield, CT 06083	Outpatient Surgery Center and Diagnostic Imaging Center with Lab draw
2 Johnson Memorial Hospital 151 Hazard Avenue Enfield, CT 06083	Physical Therapy Services
3 Johnson Memorial Hospital 139 Hazard Avenue Enfield, CT 06083	Cardiac Rehab Services

Part VI Supplemental Information

Complete this part to provide the following information.

1 **Required descriptions.** Provide the descriptions required for Part I, lines 3c, 6a, and 7; Part II; Part III, lines 4, 8, and 9b; Part V, Section A; and Part V, Section B, lines 1j, 3, 4, 5c, 6i, 7, 10, 11, 12h, 14g, 16e, 17e, 18e, 19c, 19d, 20d, 21, and 22.

2 **Needs assessment.** Describe how the organization assesses the health care needs of the communities it serves, in addition to any needs assessments reported in Part V, Section B.

3 **Patient education of eligibility for assistance.** Describe how the organization informs and educates patients and persons who may be billed for patient care about their eligibility for assistance under federal, state, or local government programs or under the organization's financial assistance policy.

4 **Community information.** Describe the community the organization serves, taking into account the geographic area and demographic constituents it serves.

5 **Promotion of community health.** Provide any other information important to describing how the organization's hospital facilities or other health care facilities further its exempt purpose by promoting the health of the community (e.g., open medical staff, community board, use of surplus funds, etc.).

6 **Affiliated health care system.** If the organization is part of an affiliated health care system, describe the respective roles of the organization and its affiliates in promoting the health of the communities served.

7 **State filing of community benefit report.** If applicable, identify all states with which the organization, or a related organization, files a community benefit report.

8 **Facility reporting group(s).** If applicable, for each hospital facility in a facility reporting group provide the descriptions required for Part V, Section B, lines 1j, 3, 4, 5c, 6i, 7, 10, 11, 12h, 14g, 16e, 17e, 18e, 19c, 19d, 20d, 21, and 22.

Schedule H, Part I, Line 7 - Ratio of Cost to Charges was utilized. Also actual accumulated costs with overhead allocations based on recent Medicare Cost Study

Schedule H, Part I, Line 7g - N/A

Schedule H, Part III, Section A, Line 4 - The Hospital's estimation of the allowance for uncollectible accounts is based primarily upon the type and age of the patient accounts receivable and the effectiveness of the Hospital's collection efforts. The Hospital's policy is to reseve a portion of all self-pay receivables, including amounts due from uninsured and amounts related to co-payments and deductibles, as these charges are recoreded. On a monthly basis, the hospital reviews it accounts receivable balances, the effectiveness of the Hospital's reserve policies and various analytics to support the basis for its estimates. These efforts primarily consist of reviewing the following; Revenue and volume trends by payer, particularly the self-pay components; Changes in the aging and payer mix of accounts receivable, including increased focus on accounts due from uninsured and accounts that represent co-payments and deductibles from patients; Various allowance coverage statistics. The Hospital regularly performs hindsight procedures to evaluate historical write-off and collection experience throughout the year to assist in determining the reasonableness of its process for estimating the allowance for uncollectible accounts. regarding Part III line 3 Gross charges written to bad debt were reduced to cost by applying applicable (updated quarterly) ratio of cost to charges. the Director of Patient Accounts reviewed detailed reports and estimated that approzimately 7% may have been Charity Care.

Schedule H, Part III, Section B, Line 8 - line 5&6 were computed from the 2013 Medicare Cost Study (D/E) worksheets. The shortfall from Medicare contributes importantly to the welfare and benefit of our community by providing high quality healthcare at affordable prices.

Schedule H, Part III, Section C, Line 9b - Patients who can demonstrate that payment of a hospital bill would be a hardship for them may apply for financial assistance.

Schedule H, Part V, Section B, Line 20 - Patients apply for Financial Assistance in accordance with the "Financial Assistance Policy"

Schedule H, Part VI, Line 2 - The CHNA consisted of a series of interviews with local Providers, a community survey and information gathered from local health departments and community based service organizations. In addition, three focus groups were informally surveyed through the JMMC Interfaith Clergy, Post-Acute Care Council and Geographic Council. Community health needs identified through the CHNA include obesity, diabetes, behavioral health, substance abuse/alcoholism and heart failure. An implementation plan was

Part VI- Supplemental Information (Continued)

designed to address those needs with activities that align with Johnson Memorial Hospital's mission, vision, and values.

Schedule H, Part VI, Line 3 - Johnson Memorial Hospital has a "Customer Service" position in the Patient Accounts department. That position assists patients in the Medicaid and/or financial assistance process. The Hospital also has staff that is a "Certified Navigator" for the CT Exchange Programs helping patients with the application process.

Schedule H, Part VI, Line 4 - The Johnson Memorial Hospital (JMH) is an acute-care hospital which serves the communities in North Central Connecticut. The towns in JMH's service area are part of either Tolland or Hartford county, which are included in the Hartford-West Hartford, Hartford-East Hartford, CTMetropolitan Statistical Area. The service area has a population of about 150,000 and is suburban to the city of Hartford. The average household income is in the $80,000 range. About 10% of residents under 65, for all inocme levels, are uninsured. JMH provided Charity care in the amount of 310,398 in FY2013. Eastern Connecticut Health Network & Saint Francis Hospital and Medical Center (a JMH affiliate) also provide services in JMH's service area. Baystate Medical Center, located in Massachusetts, also provides services to this area.

Schedule H, Part VI, Line 6 - Johnosn Memorial Medical Center (JMMC), the parent organization of Johnson Memorial Hospital, Evergreen Health Care Center and Home and Community health Services; and Saint Francis Care inc., the parent organization of Saint Francis Hospital and Medical Center, have formally signed an affiliation agreement designed to maintain Johnson Memorial as an independent source of high quality healthcare and expand its clinical services in North Central Connecticut. Under the terms of the agreement, JMMC is now a Saint Francis Care Partner, but both JMMC and Saint Francis will continue to be separately licensed institutions, each with separate Boards of Directors.

Part I Questions Regarding Compensation

		Yes	No
1a	Check the appropriate box(es) if the organization provided any of the following to or for a person listed in Form 990, Part VII, Section A, line 1a. Complete Part III to provide any relevant information regarding these items. ☐ First-class or charter travel ☐ Housing allowance or residence for personal use ☐ Travel for companions ☐ Payments for business use of personal residence ☐ Tax indemnification and gross-up payments ☐ Health or social club dues or initiation fees ☐ Discretionary spending account ☐ Personal services (e.g., maid, chauffeur, chef)		
b	If any of the boxes on line 1a are checked, did the organization follow a written policy regarding payment or reimbursement or provision of all of the expenses described above? If "No," complete Part III to explain **1b**		
2	Did the organization require substantiation prior to reimbursing or allowing expenses incurred by all officers, directors, trustees, and the CEO/Executive Director, regarding the items checked in line 1a? **2**		
3	Indicate which, if any, of the following the filing organization used to establish the compensation of the organization's CEO/Executive Director. Check all that apply. Do not check any boxes for methods used by a related organization to establish compensation of the CEO/Executive Director, but explain in Part III. ☑ Compensation committee ☑ Written employment contract ☐ Independent compensation consultant ☑ Compensation survey or study ☑ Form 990 of other organizations ☑ Approval by the board or compensation committee		
4	During the year, did any person listed in Form 990, Part VII, Section A, line 1a, with respect to the filing organization or a related organization:		
a	Receive a severance payment or change-of-control payment? **4a**	✓	
b	Participate in, or receive payment from, a supplemental nonqualified retirement plan? **4b**		✓
c	Participate in, or receive payment from, an equity-based compensation arrangement? **4c**		✓
	If "Yes" to any of lines 4a–c, list the persons and provide the applicable amounts for each item in Part III.		
	Only section 501(c)(3) and 501(c)(4) organizations must complete lines 5–9.		
5	For persons listed in Form 990, Part VII, Section A, line 1a, did the organization pay or accrue any compensation contingent on the revenues of:		
a	The organization? **5a**		✓
b	Any related organization? **5b**		✓
	If "Yes" to line 5a or 5b, describe in Part III.		
6	For persons listed in Form 990, Part VII, Section A, line 1a, did the organization pay or accrue any compensation contingent on the net earnings of:		
a	The organization? **6a**		✓
b	Any related organization? **6b**		✓
	If "Yes" to line 6a or 6b, describe in Part III.		
7	For persons listed in Form 990, Part VII, Section A, line 1a, did the organization provide any non-fixed payments not described in lines 5 and 6? If "Yes," describe in Part III **7**		✓
8	Were any amounts reported in Form 990, Part VII, paid or accrued pursuant to a contract that was subject to the initial contract exception described in Regulations section 53.4958-4(a)(3)? If "Yes," describe in Part III **8**		✓
9	If "Yes" to line 8, did the organization also follow the rebuttable presumption procedure described in Regulations section 53.4958-6(c)? **9**		

Part II Officers, Directors, Trustees, Key Employees, and Highest Compensated Employees. Use duplicate copies if additional space is needed.

For each individual whose compensation must be reported in Schedule J, report compensation from the organization on row (i) and from related organizations, described in the instructions, on row (ii). Do not list any individuals that are not listed on Form 990, Part VII.

Note. The sum of columns (B)(i)–(iii) for each listed individual must equal the total amount of Form 990, Part VII, Section A, line 1a, applicable column (D) and (E) amounts for that individual.

	(A) Name and Title		(B) Breakdown of W-2 and/or 1099-MISC compensation			(C) Retirement and other deferred compensation	(D) Nontaxable benefits	(E) Total of columns (B)(i)–(D)	(F) Compensation reported as deferred in prior Form 990

EXHIBIT 30

SAINT FRANCIS Care Policy	**Title:** **Equal Employment Opportunity & Affirmative Action Policy**		
☒ Saint Francis Hospital and Medical Center ☒ Mount Sinai Rehabilitation Hospital ☒ Saint Francis Medical Group, Inc. ☒ Saint Francis *Care* Medical Group, P.C. ☒ Asylum Hill Family Medicine Center, Inc. ☒ Saint Francis Behavioral Health Group, P.C.	**Proponent Department** Human Resources	**Number** 22-1	**Level** ☒ System ☐ Division ☐ Department
	Category ☐ Administrative ☐ Clinical ☒ HR ☐ EOC	**Published Date** 3/30/15	**Review Cycle** ☐ 1 year ☒ 3 years

PURPOSE:

We are committed to providing equal employment opportunity to all employees and applicants for employment without regard to race, color, creed, national origin, age, sex, sexual preference, disability, religion or military veteran status, except where a personal characteristic is a bona fide occupational qualification.

Note: Should an employee who is a member of the bargaining unit be involved, the current labor contract provisions must be consulted.

SCOPE:

This policy applies to Saint Francis Care, Inc., Saint Francis Hospital and Medical Center, Mount Sinai Rehabilitation Hospital, Saint Francis Medical Group, Inc., Asylum Hill Family Medicine, and Saint Francis Behavioral Health Group P.C., collectively referred to as the "covered entities" in this policy and includes all employees, members of the Medical and Dental Staff, residents, students, volunteers, and others who provide services and items on behalf of the covered entities.

POLICY:

The objective of this policy is to comply with all state and federal laws on Equal Employment Opportunity and act in accordance with employment practices and actions, including but not limited to:

1. Recruit, hire, assign, train and compensate persons in all job categories based solely on job-related qualifications.
2. Ensure that promotional decisions are in accordance with principles of equal employment opportunity by providing a clearly defined, written job description.
3. Ensure that all personnel actions such as compensation, benefits, transfers, staff reductions, tuition assistance, social and recreational programs will be administered without regard to race, color, creed, national origin, age, sex, sexual orientation and gender identity, disability, religion, or military veteran status, except where a personal characteristic is a bona fide occupational qualification.
4. Support programs to achieve equal employment opportunity for disabled and Vietnam Era veterans.

It is the responsibility of all management to monitor compliance with the Hospital's policies of Equal Employment Opportunity and Affirmative Action.

Claims of discrimination from any individual or agency should be referred to the Department of Human Resources and will be investigated.

SAINT FRANCIS Care Policy	**Title:** **Policy on Patients' Rights and Responsibilities**		
☒ Saint Francis Hospital and Medical Center ☒ Mount Sinai Rehabilitation Hospital ☐ Saint Francis Medical Group, Inc. ☐ Saint Francis *Care* Medical Group, P.C. ☐ Asylum Hill Family Medicine Center, Inc. ☐ Saint Francis Behavioral Health Group, P.C.	**Proponent Department** Risk Management	**Number** RM 2.001	**Level** ☒ System ☐ Division ☐ Department
	Category ☒ Administrative ☐ Clinical ☐ HR ☐ EOC	**Published Date** 7/1/2011	**Review Cycle** ☐ 1 year ☒ 3 years

PURPOSE:

The purpose of this policy is to protect and promote the rights and responsibilities of our patient's and ensure all patients are informed of their rights and responsibilities.

SCOPE:

All Saint Francis personnel including employees and members of the medical staff.

POLICY:

Patients are informed of their rights and responsibilities through the patient handbook and/or signs posted in various admitting areas.

The Patient's Bill of Rights is included in the patient information handbook that is available in each inpatient room, and it is posted on the Saint Francis *Care* website and the Infonet.

The Patient's Bill of Rights will be made available to patients in both English and Spanish languages, and copies of both versions are attached to this policy.

SAINT FRANCIS HOSPITAL AND MEDICAL CENTER
MOUNT SINAI REHABILITATION HOSPITAL
PATIENT'S BILL OF RIGHTS

YOUR RIGHTS AS A PATIENT

At Saint Francis Hospital and Medical Center, we work to improve people's health; treat people with injury and disease; educate doctors, health professionals, patients and community members; and improve understanding of health and disease. In carrying out these activities, we also have the utmost respect for your values and dignity. This includes working with you to ensure the most successful outcomes possible. We believe the following guidelines will help you understand your rights as a patient and therefore make you an educated partner in your healthcare.

1. You have the right to considerate, respectful care.
2. You have the right to participate in the development and implementation of your plan of care
3. You have the right to make informed decisions about your care including being informed of your health status, being involved in care planning and treatment, being able to request to be involved in care planning and treatment, and being able to request or refuse treatment, as permitted by law. If you refuse a recommended treatment you will receive other needed and available care.
4. You have the right to know the names and roles of people involved in your care planning and treatment.
5. You have the right to have a family member or representative of your choice and your physician notified promptly of your admission to the hospital.
6. You have the right to have an advance directive, such as a living will or other advance directive indicating your health care representative, and to have hospital staff who provide care comply with these directives, as permitted by law. These documents express your choices about your future care as well as name someone to speak on your behalf if you cannot speak for yourself. If you have a written advance directive, you should provide a copy to the hospital, your family, and your doctor.
7. You have the right to personal privacy.
8. You have the right to the confidentiality of your medical information. You have the right to receive a copy of Saint Francis Notice of Privacy Practices which informs you of how your medical information can be used or disclosed.
9. You have the right to access and review your medical records in accordance with the Hospital's Notice of Privacy Practices, and to have the information explained, except when restricted by law.
10. You have the right to expect that the hospital will give you necessary health services to the best of its ability. Treatment, referral, or transfer may be recommended. If transfer is recommended or requested, you will be informed of risks, benefits, and alternatives. You will not be transferred until the other institution agrees to accept you.
11. You have the right to know if this hospital has relationships with outside parties that may influence your treatment and care. These relationships may be with educational institutions, other health care providers, or insurers.
12. You have the right to be told of realistic care alternatives when hospital care is no longer appropriate.

13. You have the right to know about hospital rules that affect you and your treatment, and about charges and payment methods.
14. You have the right to know about hospital resources, such as patient representatives or an Ethics Committee that can help you answer concerns and questions about your hospital stay and care.
15. You have the right to effective communication, including an interpreter or other resources available by the hospital to assist you when needed.
16. You have the right to receive visitors whom you designate. Your visitors cannot be restricted by the Hospital on the basis of race, color, national origin, religion, sex, gender identity, sexual orientation, or disability. However, visitation can be limited if the visitor's presence infringes on others' rights or safety, is medically or therapeutically necessary, or per a court order. You also have the right to withdraw or deny the visitation of any visitor, at any time.
17. You have the right to designate (orally or in writing) a Support Person to exercise visitation rights on your behalf if you are unable to do so. This designation, however, does not extend to medical decision making.
18. You have the right to appropriate assessment and management of pain.
19. You have the right to be free from restraints of any form if they are not medically necessary.
20. You have the right to receive care free of restriction based on race, color, national origin, religion, sex, gender identity, sexual orientation or disability.
21. You have the right to receive care in a safe setting that preserves dignity and contributes to a positive self image.
22. You have the right to be free from mental, physical, sexual, and verbal abuse, neglect and exploitation during your stay and care.
23. You have the right to request that an autopsy be performed at Saint Francis Hospital and Medical Center or by another institution and by a physician unaffiliated with Saint Francis Hospital and Medical Center. You are responsible for any fees incurred when an autopsy is performed by an unaffiliated organization or physician. You have the right to place restrictions and limitations on the autopsy and/or state any specific concerns (i.e. religious considerations etc.).
24. You have a right to receive a copy of the Patient Bill of Rights.
25. You have the right to make a complaint about your care. You may give your complaint to the patient representative, the Patient Ombudsman, your Nurse, your Physician, or Hospital administration. Your care will not be affected by a complaint, and we will look into it as quickly as possible.
26. You have the right to file a written complaint. Letters should be sent to The Office of the President, Saint Francis Care, 114 Woodland Street, Hartford, Connecticut 06105.
27. If, after this Administrative review by the Hospital, you continue to be concerned about safety or quality of care provided in the Hospital, you have the right to contact:

    The Connecticut State Department of Public Health
    410 Capitol Avenue, Hartford, CT 06134 (860)509-7400; TDD: (860) 509-7191

    The Joint Commission
    Office of Quality Monitoring
    One Renaissance Boulevard, Oakbrook Terrace, IL 60181
    To complain, either call 1-800-994-6610 or email complaint@jointcommission.org

YOUR RESPONSIBILITIES AS A PATIENT

1. You are responsible for providing information about your health including past illnesses, hospital stays, and use of medicine. You are responsible for asking questions when you do not understand information or instructions. If you believe you cannot follow through with your treatment, you are responsible for telling your doctor.
2. This hospital works to provide care efficiently and fairly to all patients and the community. You and your visitors are responsible for being considerate of the needs of other patients, staff, and the hospital by:
   a. Ensuring your roommate's privacy;
   b. Limiting your visitors to two at a time during specified visiting hours;
   c. Reminding visitors to maintain a quiet atmosphere and that smoking is not permitted in the hospital; and
   d. Using televisions, radios, telephones and lights in a manner that is not disturbing to others.
3. If you choose to refuse a recommended treatment or procedure, you are responsible for any consequences of this refusal.
4. You are responsible for providing information for insurance and for working with the Hospital to arrange payments, when needed.
5. You are responsible for complying with the Hospital's safety and other regulations.
6. Your health depends not just on your hospital care but, in the long term, on the decisions you make in your daily life. You are responsible for recognizing the effect of life-style upon your personal health.

A hospital serves many purposes. Hospitals work to improve people's health; treat people with injury and disease; educate doctors, patients, and community members; and improve understanding of health and disease. In carrying out these activities, this institution is committed to respecting your values and dignity.

SAINT FRANCIS HOSPITAL AND MEDICAL CENTER
MOUNT SINAI REHABILITATION HOSPITAL
LOS DERECHOS DEL PACIENTE

SUS DERECHOS COMO PACIENTE

En el Hospital y Centro Médico Saint Francis, trabajamos para mejorar la salud de las personas, dar tratamiento a quiences sufren lesiones y enfermedades, educar a médicos, professionales de la salud, pacientes y meiembros de la comunidad, y ampliar el conocimiento sobre la salud y las enfermedades. Al llevar a acabo estas actividades, también mostramos el mayor respeto por sus valores y dignidad. Esto incluye trabajar conused para, en la medida de lo posible, asegurar los resultados más exitosos. Creemos que las siguentes pautas le ayudarán a entender sus derechos como paciente y por ello a convertirse en un socio informado sobre su atención médica.

1. Usted tiene derecho a un trato considerado y respetuoso.
2. Usted tiene derecho a participar en el desarrollo y la implementación de su plan de atención médica.
3. Usted tiene derecho a tomar decisiones informadas sobre su atención médica, incluido que le informen de su estado de salud, participar en la planificación de su atención médica y en su tratamiento médico, poder solicitar que le permitan participar en dicha planificación y tratamiento, y poder solicitar o rechazar un tratamiento, según lo permitido por la ley. Si rechaza un tratamiento recomendado, recibirá otro tipo de atención médica necesaria y disponible.
4. Usted tiene derecho a saber los nombres y las funciones que desempeñan las personas que participan en la planificación de su atención médica o en su tratamiento.
5. Usted tiene derecho a que se avise de su hospitalización cuanto antes a un familiar o representante elegido por usted y a su propio médico.
6. Usted tiene derecho a proporcionar instrucciones anticipadas, como un testamento vital u otra directiva de voluntad anticipada sobre tratamiento en caso de incapacidad en la que nombre a su representante de atención médica, y a que la atención médica que le proporcione el personal del hospital cumpla estas instrucciones, según lo permita la ley. Estos documentos expresan lo que usted desea en cuanto a su atención médica futura y en ellos se nombra a una persona para que hable en su nombre si usted no puede hacerlo. Si tiene una instrucción anticipada escrita, deberá proporcionar una copia de ella al hospital, a su familia y a su médico.
7. Usted tiene derecho a la privacidad personal.
8. Usted tiene derecho a que su información médica se mantenga bajo reserva confidencial. Usted tiene derecho a recibir una copia del Aviso de Prácticas de Privacidad de Saint Francis, que le informa de la forma en que su información médica puede utilizarse o divulgarse.
9. Usted tiene derecho a acceder a sus registros médicos y revisarlos de acuerdo con el Aviso de Prácticas de Privacidad del hospital, y a solicitar que la información se le explique, excepto cuando la ley no lo permita.
10. Usted tiene derecho a prever que el hospital le prestará los mejores servicios médicos posibles según su capacidad. Puede que se recomiende aplicarle un tratamiento, remitirle a un médico o transferirle a otro centro. Si se recomienda o solicita una transferencia, se le informará de los riesgos, las ventajas y las alternativas. No se le transferirá hasta que el otro centro le acepte.

11. Usted tiene derecho a saber si el hospital tiene relaciones con terceros que pudieran influir en su tratamiento y cuidado. Estas relaciones pueden ser con centros docentes, otros proveedores de cuidados sanitarios o con compañías de seguros.
12. Usted tiene derecho a que le digan cuáles son las alternativas realistas cuando el cuidado del hospital ya no sea apropiado.
13. Usted tiene derecho a conocer las reglas del hospital que pueden tener un efecto en usted y en su tratamiento, y los cargos y métodos de pago.
14. Usted tiene derecho a conocer los recursos del hospital, por ejemplo representantes del paciente o la Comisión de Ética, que pueden ayudar a responder a sus dudas y preguntas sobre su hospitalización y sobre la atención médica que recibe.
15. Usted tiene derecho a una comunicación eficaz, incluidos los servicios de un intérprete u otros recursos de los que el hospital dispone para asistirle cuando se necesite.
16. Usted tiene derecho a recibir los visitantes que usted designe. El hospital no puede prohibir el acceso a sus visitantes por razones de raza, color, nacionalidad de origen, religión, sexo, identidad de género, orientación sexual o discapacidad. Sin embargo, las visitas podrían limitarse si la presencia del visitante viola los derechos o la seguridad de otros, es médica o terapéuticamente necesario o por una orden judicial. Usted tiene también derecho a retirar su permiso o a rechazar la visita de cualquier visitante en cualquier momento.
17. Usted tiene derecho a designar (verbalmente o por escrito) una persona de apoyo para que ejerza los derechos de visita en su nombre si usted no puede hacerlo. Sin embargo, esta designación no confiere derechos sobre la toma de decisiones médicas.
18. Usted tiene derecho a una evaluación y a un control adecuados del dolor.
19. Usted tiene derecho a que no se restrinja su movimiento de ninguna forma si no es médicamente necesario.
20. Usted tiene derecho a recibir atención médica en un lugar seguro que preserve su dignidad y contribuya a una imagen positiva de sí mismo.
21. Usted tiene derecho a no sufrir abuso mental, físico, sexual ni verbal, a no ser desatendido ni maltratado durante su hospitalización ni mientras recibe atención médica.
22. Usted tiene derecho a solicitar que se realice una autopsia en Saint Francis Hospital and Medical Center o que la realice otro centro o un médico no afiliado con Saint Francis Hospital and Medical Center. Usted es responsable de los gastos incurridos cuando la autopsia la realice una organización o un médico no afiliados. Usted tiene derecho a imponer restricciones y limitaciones en la autopsia y/o expresar cualquier preocupación concreta (por ejemplo de índole religioso, etc.).
23. Usted tiene derecho a recibir una copia de "Los derechos del paciente".
24. Usted tiene derecho a presentar una queja sobre la atención médica recibida. Puede entregar su queja al representante de los pacientes, al defensor del paciente, a su enfermera, a su médico o a la administración del hospital. La atención médica que recibe no se verá afectada por la queja y la investigaremos lo más pronto posible.
25. Usted tiene derecho a presentar una queja escrita. Las cartas deben enviarse a: The Office of the President, Saint Francis Care, 114 Woodland Street, Hartford, Connecticut 06105.
26. Si, después de la revisión administrativa realizada por el hospital, usted sigue preocupado sobre la seguridad o la calidad de la atención médica proporcionada por el hospital, usted tiene derecho a ponerse en contacto con:

The Connecticut State Department of Public Health
410 Capitol Avenue, Hartford, 06134
(860)509-7400; TDD: (860) 509-7191

The Joint Commission
Office of Quality Monitoring
One Renaissance Boulevard, Oakbrook Terrace, IL 60181

Para presentar una queja puede llamar al 1-800-994-6610 o enviarla por correo electrónico a complaint@jointcommission.org

SU RESPONSABILIDAD COMO PACIENTE

1. Usted es responsable de proporcionar información sobre su salud, lo cual incluye enfermedades pasadas, hospitalizaciones y los medicamentos que toma. Usted es responsable de hacer preguntas cuando no entienda la información o las instrucciones. Si cree que no puede seguir las instrucciones de su tratamiento, usted es responsable de decírselo a su médico.
2. Este hospital se esfuerza para brindar atención médica eficaz y justa a todos los pacientes y a la comunidad. Usted y sus visitantes son responsables de respetar las necesidades de los demás pacientes, el personal y el hospital mediante las acciones siguientes:
   a. Garantizar la privacidad de su compañero de cuarto;
   b. Limitar sus visitas a dos personas a la vez durante las horas de visitas especificadas;
   c. Recordar a los visitantes que mantengan un ambiente tranquilo y que no se permite fumar en el hospital; y
   d. Utilizar las televisiones, radios, teléfonos y luces de una manera que no perturbe a los demás.
3. Si decide rechazar un tratamiento o procedimiento recomendado, usted es responsable de todas las consecuencias que se deriven de dicho rechazo.
4. Usted es responsable de proporcionar información para el seguro y de colaborar con el hospital para gestionar los pagos, cuando sea necesario.
5. Usted es responsable de cumplir con las normas de seguridad y otros reglamentos del hospital.
6. Su salud depende no sólo de la atención médica que recibe del hospital sino, a largo plazo, de las decisiones que toma a diario. Usted es responsable de reconocer el efecto que tiene su estilo de vida en su salud personal.

Un hospital tiene muchos propósitos. Los hospitales se esfuerzan para mejorar la salud de las personas, tratan a quienes tienen heridas o enfermedades; educan a médicos, profesionales de salud, pacientes y miembros de la comunidad; y fomentan una mejor comprensión de lo qué es la salud y la enfermedad. Este centro asume el compromiso de respetar sus valores y su dignidad en el desempeño de estas actividades.

SAINT FRANCIS Care Policy	**Title:** **Communication: Language Services-Limited English Proficient, Visually Impaired, Deaf or Hard of Hearing**		
☒ Saint Francis Hospital and Medical Center ☒ Mount Sinai Rehabilitation Hospital ☒ Saint Francis Medical Group, Inc. ☒ Saint Francis *Care* Medical Group, P.C. ☒ Asylum Hill Family Medicine Center, Inc. ☒ Saint Francis Behavioral Health Group, P.C. ☒ Saint Francis Emergency Medicine Group, P.C.	**Proponent Department** Patient Care	**Number** CLIN.0121	**Level** ☒ **System** ☐ **Division** ☐ **Department**
	Category ☐ **Administrative** ☒ **Clinical** ☐ **HR** ☐ **EOC**	**Published Date** 4/16/2015	**Review Cycle** ☐ 1 year ☒ 3 years

PURPOSE:

To provide guidelines and procedures for effective communication between Limited English Proficient, Visually Impaired and Deaf or Hard of Hearing individuals and hospital staff to ensure quality patient care.

SCOPE:

Applies to all patients and families in all acute care and ambulatory clinical areas.

POLICY:

Patients/surrogate decision-makers of Saint Francis Hospital and Medical Center, who are Limited English Proficient (LEP), visually impaired and deaf or hard of hearing, shall have services provided to them in their primary language or have interpreter services provided to them during the delivery of all significant healthcare services. Interpreter services shall be available within a reasonable time, at no cost to patients. This policy and procedure applies to all patients/surrogate decision makers in both acute care and ambulatory clinical areas.

The following types of encounters and procedures which are performed by clinicians who do not speak the primary language spoken by the patient/surrogate decision-maker, and which require the use of healthcare interpreter services, include, but are not limited to:

- Obtaining medical histories
- Explaining any diagnosis and plan for medical treatment
- Explaining patient rights and responsibilities
- Obtaining informed consent
- Explaining discharge plans
- Others

The first access point in which a patient acquires services at Saint Francis Hospital and Medical Center (emergency department registration, admissions, etc.) shall incorporate the determination of language needs into intake procedures. All areas of first patient contact shall be equipped with Language

Determination Cards to assist patients in identifying the patient's primary language if communication barriers prevent hospital staff from effectively determining the language of the patient/surrogate decision-maker.

The patient's primary written and spoken language will be identified and entered into Epicare as part of the demographic record. Each medical record shall show the primary language spoken and the need for interpreter services.

Saint Francis Hospital and Medical Center shall develop, and post in conspicuous locations, notices that advise patients and their families of the availability of interpreters, the procedure for obtaining an interpreter and the telephone numbers where complaints may be filed concerning interpreter service problems, including, but not limited to, a T.D.D. number for the hearing impaired.

Acceptable methods for the provision of interpreter and translation services include, but are not limited to the following:

- Telephone-based interpreting- delivered via telephonic technology
- Video Remote interpreting- video conference with qualified healthcare interpreters (including ASL)
- In-person interpreting- provided onsite by qualified healthcare interpreters (including ASL)
- Written translation of vital and non vital documents (vital documents as determined by the Joint Commission, Department of Health and Human Services and other regulatory agencies)

Whenever possible, arrangements for interpreters/equipment should be made in advance when patients have scheduled appointments.

The following resources and/or devices may be utilized at **no charge to the patient.**

A. <u>Deaf or Hard of Hearing</u>

Pictorial Cards (located in the language resource box)
Amplified Handset/Volume Control Telephone
Large Button Telephones
Telephone Typewriter (TTY)
Martti (video remote interpreting with a qualified ASL interpreter communication)
Contracted onsite ASL interpreters

B. <u>Visually Impaired</u>

Braille Telephones

C. <u>Limited English Proficient</u>

- Pictorial Cards (located in the language resource box)
- Telephone interpreting (telephone based language interpretation)
- Video Remote interpreting (Martti)
- In-person interpreting (including ASL)

- Written translated documents

The clinician will assess the patient, family, and clinical situation to determine the most effective communication method for that encounter. A list of communication options, as stated above, will be provided to the patient/surrogate decision maker to determine what communication method(s) is preferred.

An accompanying family member or friend may be asked to convey this initial information if necessary, but should not be used to interpret or translate medical information to the patient whenever possible.

Deaf or Hearing Impaired patients and/or their families may prefer to use Lip Reading, Paper and Pencil or pictorial cards at this time.

Training

New employees of Saint Francis Hospital and Medical Center will be trained in the procedure for the acquisition of interpreter services during their employee orientation. Training on this procedure for current staff will be incorporated into other ongoing trainings for employees such as diversity trainings, on-line Health Stream training, updates on new regulatory requirements, etc. In-person training will be made available on request to all departments, units and programs that require further assistance. Quarterly trainings will be held for the operators to ensure they are update on all language services. Operators will fulfill the 24/7 requirement of an on-site language services point-person (with Clinical Resource Coordinators as back up) when Program Administrator is off-site.

A laminated card outlining the availability of language services has been posted at all nursing stations and other points of patient registration throughout the hospital.

It shall be the policy of Saint Francis Hospital and Medical Center to conduct an annual review of Language Access Needs of the patient population. The review shall annually update the list of Frequently Utilized Languages and inform changes to the current language policy as needed.

Procedure For Obtaining A Telephone Interpreter

If the patient wishes to utilize the telephone interpreter, staff will phone the hospital operator by dialing **'0'** from any phone and request to be connected to language resources. Dual handset phones are available on all units which are preprogrammed to dial language resources directly.

The requesting staff will provide the following information:

- Requestor's name and a call back telephone phone number
- Department name(including campus)/department code
- Telephone number
- Service and language requested
- Name of patient
- Service or equipment needed
- Date, time, and approximate length of appointment
- Location (specific directions to the location)
- Where and who to report to

- Any special requirements

Procedure For Obtaining A Video Remote Interpreter (VRI) Device

1. The requesting staff will phone the hospital operator, dial '0' and request the Video Remote Interpreter Device to be brought to the patient.

The requesting staff will provide the following:

- Name and telephone number of requester,
- Department - including campus and address,
- Patient name and reason for visit,
- Date, time and approximate length of time needed,
- Any additional requirements that may be needed

2. The hospital operator will validate that the patient is in an area that has wireless communication.

3. The hospital operator will notify the storeroom via phone to request the Video Remote Interpreter Device on behalf of the patient.

4. The VRI device will be deployed to the requesting department within 10 minutes. Storeroom staff will complete the storeroom VRI device log.

5. The equipment will be placed in a location that is easily viewed by both the patient and the clinician, generally near the foot of the bed or stretcher, with the clinician standing near the patient at the head of the bed during the interpretation session.

6. The clinician will initiate the connection and answer a number of required questions such as patient's name, medical record number, location, etc. before beginning the interpretation session.

7. The video remote interpreter will facilitate communication between the clinician and the patient/surrogate decision maker.

NOTE: A. The camera and sound system will pick up **EVERYTHING** that is said and done in the room and **EVERYTHING** will be interpreted to the patient. **There is no selective interpreting**.

B. In the event of a system connectivity failure, the clinician should notify the operator of equipment failure.

8. The same patient may require the interpreter several times during a single hospital visit. The clinician must disconnect at the end of each session or whenever they leave the room and reconnect as needed to start a new session.

9. The clinician must document in the patient's medical record each time the equipment is utilized with dates and start and stop times of each interpretation session and effectiveness of communication method.

10. When the video equipment is no longer required, the clinician will place the VRI in the dirty laundry area for pick up by storeroom staff,

Procedure For Obtaining An In-Person Interpreter (including ASL)

The requesting staff will phone the hospital operator, dial '0' and request a sign-language interpreter Live interpreters will provide their approximate time of arrival. They may or may not be immediately available depending upon availability, weather restrictions etc. If an in-person ASL interpreter is not available, the VRI must be used for ASL Interpretation.

The requesting staff will provide the following information:

- Requestor's name and a call back telephone phone number
- Department name(including campus)/department code
- Telephone number
- Service and language requested
- Name of patient
- Service or equipment needed
- Date, time, and approximate length of appointment
- Location (specific directions to the location)
- Where and who to report to
- Any special requirements

The clinician will document the arrival time of the Interpreter in the patient's medical record including the length of time for the interpretive session and effectiveness of the communication method. Each interpretive session must be documented separately. The same patient may require the interpreter several times during a single hospital visit as additional communications are needed.

Procedure for the Provision of Written Translations

1. Vital documents as defined by the Joint Commission and the Department of Health and Human Services will be translated and made available to patients/surrogate decision makers. These documents include but are not limited to:
    - Informed Consent
    - Advanced Directives
    - HIPPA Forms
    - Patient Rights and Responsibilities
    - Discharge Instructions
    - Release of Information
    - Notices pertaining to denial, reduction, modification or termination of services
    - Complaint forms
    - Others

    Documents will be translated into languages used by more than 15% percent of the patient population. This will be assessed on an annual basis. Translation for other languages will be completed on an as needed basis.

The Impact of Medical Interpreter Services on the Quality of Health Care: A Systematic Review

Glenn Flores
Medical College of Wisconsin

Abstract

Twenty-one million Americans are limited in English proficiency (LEP), but little is known about the effect of medical interpreter services on health care quality. A systematic literature review was conducted on the impact of interpreter services on quality of care. Five database searches yielded 2,640 citations and a final database of 36 articles, after applying exclusion criteria. Multiple studies document that quality of care is compromised when LEP patients need but do not get interpreters. LEP patients' quality of care is inferior, and more interpreter errors occur with untrained ad hoc interpreters. Inadequate interpreter services can have serious consequences for patients with mental disorders. Trained professional interpreters and bilingual health care providers positively affect LEP patients' satisfaction, quality of care, and outcomes. Evidence suggests that optimal communication, patient satisfaction, and outcomes and the fewest interpreter errors occur when LEP patients have access to trained professional interpreters or bilingual providers.

Re: CON Application for Affiliation of Saint Francis *Care* and Johnson Memorial Medical Center, Inc.

Dear Ms. Martone:

As a member of the medical staff of Johnson Memorial Medical Center, Inc. system, I want to express my support for the acquisition of Johnson Memorial by Saint Francis *Care*. The over 100,000 people who live in our service are need access to the high quality care Johnson Memorial has provided for over 100 years.

I firmly believe that the best opportunity for the preservation of these services is if the merger with Saint Francis *Care*, the parent corporation of Saint Francis Hospital and Medical Center, is approved by the Office of Health Care Access. As a practicing emergency room physician, many of my patients already use the services of Saint Francis *Care* when they need services not now available at Johnson Memorial. More importantly, once the two organizations are covered by a single electronic medical record, the transfer of information will be seamless and my ability as a physician to better manage the health of my patients will be enhanced.

I recognize that if we are to preserve access to healthcare in more rural communities, such as those served by Johnson Memorial, hospitals must band together to achieve economies of scale and secure access to the latest health care technology.

Please help me continue to provide high quality healthcare to the people who need such care in my practice.

Sincerely,

David Herr, M.D.

As a practicing hospitalist, many of my patients already use the services of Saint Francis *Care* when they need services not now available at Johnson Memorial. More importantly, once the two organizations are covered by a single electronic medical record, the transfer of information will be seamless and my ability as a physician to better manage the health of my patients will be enhanced.

I recognize that if we are to preserve access to healthcare in more rural communities, such as those served by Johnson Memorial, hospitals must band together to achieve economies of scale and secure access to the latest health care technology.

Please help me continue to provide high quality healthcare to the people who need such care in my practice.

Sincerely,

Swathi Rachoor, M.D.

Re: CON Application for Affiliation of Saint Francis *Care* and Johnson Memorial Medical Center, Inc.

Dear Ms. Martone:

As a member of the medical staff of Johnson Memorial Medical Center, Inc. system, I want to express my support for the acquisition of Johnson Memorial by Saint Francis *Care*. The over 100,000 people who live in our service are need access to the high quality care Johnson Memorial has provided for over 100 years.

I firmly believe that the best opportunity for the preservation of these services is if the merger with Saint Francis *Care*, the parent corporation of Saint Francis Hospital and Medical Center, is approved by the Office of Health Care Access. As a practicing physician in the area of Internal Medicine, many of my patients already use the services of Saint Francis *Care* when they need services not now available at Johnson Memorial. More importantly, once the two organizations are covered by a single electronic medical record, the transfer of information will be seamless and my ability as a physician to better manage the health of my patients will be enhanced.

I recognize that if we are to preserve access to healthcare in more rural communities, such as those served by Johnson Memorial, hospitals must band together to achieve economies of scale and secure access to the latest health care technology.

Re: CON application for affiliation of Saint Francis and Johnson Memorial Medical Center, Inc.

Dear Ms. Martone:

As First Selectman of Stafford, I care very deeply about the health, safety and welfare of the individuals who live in our Town; we are fortunate to have Johnson Memorial Medical Center, Inc. serving our residents. Since Johnson Memorial's inception 103 years ago, there has been a longstanding commitment to this community and beyond. Johnson Memorial's participation in the health and well-being of the community, evidenced most recently through its commitment to supporting the expansion of the natural gas, water and sewer service in the Enfield, Somers and Stafford communities, has been outstanding.

The services provided both at Johnson Memorial Medical Center and Saint Francis *Care* are stellar. Saint Francis is a national leader in health care quality and patient safety. Saint Francis *Care* is the winner of many quality awards from such prestigious organizations as Health Grades and Leap Frog. In addition, both Johnson Memorial Hospital and Saint Francis *Care* ranked in the top five percent of all hospitals nationally for clinical excellence by Consumer Reports and U.S. News and World Report. Evergreen Health Care Center, an affiliate of Johnson Memorial Medical Center, received a 5-star rating for quality from the Centers for Medicare and Medicaid Services. Our community has and will continue to benefit from the quality of care of both hospitals.

We all know that healthcare reimbursement is changing on both the federal and state levels, and hospitals will have to do more with less as they evolve to an environment which focuses even more on health and wellness while also caring for the sick. By affiliating with Saint Francis *Care*, Johnson Memorial Medical Center will have a partner whose values for providing care are similar to its own. Both entities seek excellence in the provision of care. Both entities see the possibility of being able to share some resources, and take advantage of economies of scale that will work to the benefit of patients who use both organizations.

I applaud both organizations for the vision they have shared and their planned merger. I am confident that our community – our residents, employers and visitors – will continue to receive outstanding healthcare going forward. I strongly endorse the acquisition of Johnson Memorial Medical Center, Inc. by Saint Francis *Care*.

Sincerely,

Richard Shuck
First selectman

Title VI of the Civil Rights Act of 1964 prohibits discrimination on the basis of race, color, or national origin in programs and activities receiving Federal financial assistance. Specifically, Title VI provides that "no person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance." (42U.S.C. Section 2000d).

Re: CON application for affiliation of Saint Francis *Care* and Johnson Memorial Medical Center, Inc.

Dear Ms. Martone:

As State Senator for the 7th Senatorial District of Connecticut, which includes East Granby, Enfield, Granby, Somers, Suffield, Windsor and Windsor Locks, I write to you today in support of the acquisition of Johnson Memorial Medical Center, Inc., by Saint Francis *Care*, the parent corporation of Saint Francis Hospital and Medical Center. These two institutions are requesting your agency's approval to combine their two organizations for the purpose of continuing and bolstering Johnson Memorial Medical Center's 100+ year history of service to its communities.

Approving this Certificate of Need request is the best possible way for the State of Connecticut to enhance the health care services and quality of the health care system that my constituents depend upon for their care.

I recognize that health care reimbursement is changing at both the state and federal level. Hospitals both large and small must work much more closely together to achieve economies of scale and secure access to much needed capital.

Saint Francis *Care* is a well-known provider of health care services to the people in my community, particularly when they seek specialized services not available at Johnson Memorial Medical Center, Inc. Together I am sure these two institutions will make an unbeatable team. Please give them every support possible.

Sincerely,

John A. Kissel

RE: CON application for affiliation of Saint Francis and Johnson Memorial Medical Center, Inc.

Dear Ms. Martone,

I respectfully write today in strong support of the proposed acquisition of Johnson Memorial Medical Center, Inc. by Saint Francis Care.

Johnson Memorial holds a special place in my heart as it was actually the hospital at which I was born, and I know that I am only one of thousands who have experienced the dedicated service that the medical professionals here have given members of our community over the years. The approval of this acquisition will allow Johnson Memorial to continue serving so many within our community with the strong backing of Saint Francis Care.

Thank you for your consideration of this request. If I can be of any further assistance in this matter, please do not hesitate to contact my office.

Sincerely,

Re: CON application for affiliation of Saint Francis and Johnson Memorial Medical Center, Inc.

Dear Ms. Martone,

As a Selectman for the Town of Somers, I write to you today in support of the acquisition of Johnson Memorial Medical Center, Inc. by Saint Francis Care, the parent corporation of Saint Francis Hospital and Medical Center. These two institutions are requesting your agency's approval to combine their two organizations for the purpose of continuing and bolstering Johnson Memorial Medical Center, Inc.'s 100+ year history of service to its communities.

Approving this Certificate of Need request is the best possible way for the State of Connecticut to enhance the health care services and quality of the health care system that my constituents depend upon for their care.

I recognize that health care reimbursement is changing at both the state and federal levels. Hospitals both large and small must work much more closely together to achieve economies of scale and secure access to much needed capital.

Saint Francis Care is a well-known provider of health care services to the people in my community, particularly when they seek specialized services not available at Johnson Memorial Medical Center, Inc. Together I am sure these two institutions will make an unbeatable team. Please give them every support possible.

Sincerely,

C.G. Bud Knorr, Jr.

RE: CON application for affiliation of Saint Francis and Johnson Memorial Medical Center, Inc.

Dear Ms. Martone,

I am a state Representative representing the 59th district of Connecticut which includes Enfield and East Windsor. I write to you today in support of the acquisition of Johnson Memorial Medical Center, Inc. by Saint Francis Care, the parent corporation of Saint Francis Hospital and Medical Center. These two institutions are requesting your agency's approval to combine their two organizations for the purpose of continuing and bolstering Johnson Memorial Center, Inc.'s 100+ year history of service to its communities.

This hospital is highly utilized by my constituents. Those residents residing in the more rural areas have always benefitted from its unique location when seeking emergency medical attention. Working closely together and granting the approval of this Certificate of Need will only enhance the health care services and quality of the health care system that my constituents depend upon for their care.

Saint Francis Care is a well-known provider of health care services to the people in my community, particularly when they seek specialized services not available at Johnson Memorial Medical Center, Ins.

Thank you in and advance for your support and consideration.

Sincerely,

David

Re: CON application for affiliation of Saint Francis and Johnson Memorial Medical Center, Inc.

Dear Ms. Martone:

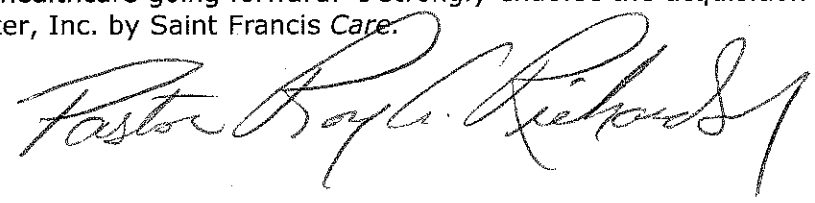
I care very deeply about the health, safety and welfare of the individuals who live in our Town; we are fortunate to have Johnson Memorial Medical Center, Inc. serving our residents. Since Johnson Memorial's inception 103 years ago, there has been a longstanding commitment to this community and beyond. Johnson Memorial's participation in the health and well-being of the community, evidenced most recently through its commitment to supporting the expansion of the natural gas, water and sewer service in the Enfield, Somers and Stafford Springs communities, has been outstanding.

The services provided both at Johnson Memorial Medical Center and Saint Francis *Care* are stellar. Saint Francis is a national leader in health care quality and patient safety. Saint Francis *Care* is the winner of many quality awards from such prestigious organizations as Health Grades and Leap Frog. In addition, both Johnson Memorial Hospital and Saint Francis *Care* ranked in the top five percent of all hospitals nationally for clinical excellence by Consumer Reports and U.S. News and World Report. Our community has and will continue to benefit from the quality of care of both hospitals.

We all know that healthcare reimbursement is changing on both the federal and state levels, and hospitals will have to do more with less as they evolve to an environment which focuses even more on health and wellness while also caring for the sick. By affiliating with Saint Francis *Care*, Johnson Memorial Medical Center will have a partner whose values for providing care are similar to its own. Both entities seek excellence in the provision of care. Both entities see the possibility of being able to share some resources, and take advantage of economies of scale that will work to the benefit of patients who use both organizations.

I applaud both organizations for the vision they have shared and their planned merger. I am confident that our community – our residents, employers and visitors – will continue to receive outstanding healthcare going forward. I strongly endorse the acquisition of Johnson Memorial Medical Center, Inc. by Saint Francis Care.

Sincerely,



Hazardville United Methodist Church

Re: CON application for affiliation of Saint Francis and Johnson Memorial Medical Center, Inc.

Dear Ms. Martone:

As Neil Alper, Field Representative for AFT-CT, I represent the nursing staff who provide the quality care to our community at Johnson Memorial Hospital (Johnson Memorial Medical Center). Under challenging conditions, our nurses have continued to provide stellar care to those in need of services. Additionally our nurses have repeatedly made a series of tough economic concessions and decisions in order to help our Hospital survive and advance in an increasingly challenging environment.

We all know that healthcare reimbursement is changing on both the federal and state levels, and hospitals will have to do more with less as they evolve to an environment which focuses even more on health and wellness while also caring for the sick. Given that we're the largest representative of acute care Nurses in the State, AFT-CT is uniquely aware of the tough challenges facing our local institutions, community access to high quality care, and our ability to maintain the high levels of patient care for which our member nurses are justly renowned.

By affiliating with Saint Francis *Care*, Johnson Memorial Hospital (Johnson Memorial Medical Center) will better position itself with a partner whose values for providing care are similar to its own. Both entities see the possibility of being able to share some resources, and take advantage of economies of scale that will work to the benefit of patients who use both organizations. Affiliating with Saint Francis will best position Johnson Medical Center to continue to provide and potentially expand its services and provision of care to the surrounding community.

I am confident that our community – our residents, employers and visitors – will continue to receive outstanding healthcare going forward. AFT CT endorses the acquisition of Johnson Memorial Medical Center, Inc. by Saint Francis *Care.*

RE: Certificate of Need Application; Docket Number: 15-32002-CON
Saint Francis Care, Inc. and Johnson Memorial Medical Center, Inc.
Saint Francis Care, Inc. to acquire all assets of Johnson Memorial Medical Center, Inc.

Dear Mr. Hartley:

On June 2, 2015, the Office of Health Care Access ("OHCA") received your initial Certificate of Need ("CON") application filing on behalf of Saint Francis Care, Inc. ("SFC") and Johnson Memorial Medical Center, Inc. ("JMMC") (herein referred to together as "Applicants"), proposing the asset purchase of JMMC by SFC.

OHCA has reviewed the CON application and requests the following additional information pursuant to General Statutes §19a-639a(c):

1. Provide a copy of the current and post-transaction organization chart for each of the Applicants. In the post-transaction organization chart, include SFC's proposed parent corporation (Trinity Health Corporation).

2. In light of SFC's merger with Trinity Health Corporation, explain how the acquisition of JMMC aligns with the Regional Health Ministry goals indicated on pages 14-15 of Certificate of Need Application Docket Number: 15-31979-CON.

3. Elaborate on the anticipated benefits to JMMC discussed on page 24 of the application and include a timeline for implementing the integration. Provide a copy of the integration plan, if available.

4. Page 36 of the application states, "SFC and Johnson are committed to preserving a viable health care organization dedicated to providing health care services that meet the needs of the

Johnson community for the foreseeable future. Together the new health care organization formed as a result of this merger…will improve the community's health by delivering high quality, cost effective, coordinated care across a broad continuum."

a. Discuss how the Applicants plan to maintain access to and provide continuity of care with respect to existing inpatient and outpatient services following the acquisition of JMMC.
b. Discuss plans to expand, consolidate or eliminate any hospital services, including Newborn, Maternity, Psychiatric, Rehabilitation, Pediatric and Medical/Surgical service lines in JMMC's primary service area. Provide a copy of a 3-year services plan for JMMC, if available.

5. Page 24 of the application states that SFC has committed to support up to $13Million in capital investments in the first three years of the proposal. Provide a preliminary plan indicating how the capital commitment will be allocated.

6. Page 35 of the application states that, despite an anticipated decrease in inpatient volume, JMMC's average daily census "will continue to be strong through coordinated care delivery and the availability of SFC's infrastructure and service line support." Elaborate on how the average daily census will continue to be strong despite projected declining inpatient volume.

7. Page 31 of the application states that "…the proposed acquisition will facilitate or enhance access for patients in Johnson's service area to related services, including, Hoffman Heart and Vascular Institute of Connecticut, Saint Francis Mount Sinai Regional Cancer Center Connecticut Joint Replacement Institute, Mount Sinai Rehabilitation Hospital and Stroke Center at Saint Francis." Given these programs/services are all located in Hartford, how will local access in the JMMC primary service area be enhanced by these programs? Will satellite locations of these programs be established at JMMC?

8. As discussed on page 14 of Certificate of Need Application Docket Number: 15-31979-CON, SFC will continue to adhere to Ethical and Religious Directives for Catholic health care services after its acquisition by Trinity Health Corporation. Will Johnson Memorial Hospital adhere to the Directives as well? If yes, how will women's reproductive services at JMMC be affected by the acquisition?

9. As discussed on page 18 of Certificate of Need Application Docket Number: 15-31979-CON, $275 Million will be allocated to SFC. Explain what portion of the $275Million capital investment included in the SFC-Trinity Health Corporation's merger will be used toward JMMC capital and operating expenditures.

10. For all debt related to this proposal indicated on pages 22-23 of the application, complete the table below. Under "Comments," identify the disposition of any outstanding debt not assumed by SFC.

Entity's Name	Liability Description	Total Liability Amount (TB)	Assumed Liability Amount (AL)	Not Assumed Amount (TB-AL/P)	Comments

11. In reference to the Master Affiliation Agreement, Clinical Affiliation Agreement and Business Process Outsourcing Agreement (together refer here as "Agreements"), referenced on pages 20-21 and Exhibits 8 and 10 of the application, please address the following:

    a) Indicate whether the Asset Purchased Agreement ("Hospital APA"), Exhibit 11, supersedes the Agreements Post-Closing; and

    b) Explain the exclusion of the Master Affiliation Agreement from the "Affiliation Agreements" definition listed in the Asset Purchased Agreement ("Hospital APA").

12. In reference to the information provided on page 23 of the application, please indicate the name of the entities controlled by SFC that will make the purchases and elaborate on their ability to finance those purchases.

13. As indicated on page 23 of the application, provide the methodology used in the valuation of Johnson's total purchase price at $30M and the specific source(s) of cash in dollar amounts currently available to SFC to finance this purchase. Also indicate if the $30M includes SFC's commitment to support up to $13M in capital investments for Johnson. If not, provide the funding source for this additional capital commitment.

14. Page 38 of the application indicates that "The financial pro formas included in this application reflect a cumulative 4% price increase over the next 3 years. We feel this increase is necessary in order to continue to reinvest in personnel, equipment and infrastructure planned for Johnson as a result of its integration into the SFC system." Provide the basis for the calculation of the 4% price increase in charges. In addition, are the "financial pro formas" referred to in the statement those submitted with the application as Exhibit 17?

15. Pages 71-72 of the application lists the top priority capital projects that will be allocated to the $13M capital commitment from SFC and further indicates that the listed capital priorities "assumes that the separate municipal bonding project targeted to bring city water, local sewer

district access and natural gas services to the main campus of Johnson is successful. If not Johnson will need an additional $4-$5 million to replace its septic system." Elaborate on the source of financing for the additional $4-$5M needed to complete this project without the bond and how the Applicants would address the capital projects listed as priorities without this proposal.

16. In reference to the Financial Worksheets and their related Financial Assumptions submitted as Exhibit 17, please revised them and address the following:

    a) The numbers reported as Actual results on Johnson Memorial Medical Center Financial Worksheet do not match the Audited Financial Statements ("AFS") that were submitted or referenced. In addition, the Applicants excluded the operating results of JEC from the Financial Worksheet. Provide a revised Financial Worksheet, and related assumptions, inclusive of actual results that match the AFS and of operating results for JEC.

    b) For JMMC's and SFC's Financial Worksheets, the Applicants did not report amounts for the Uninsured Net Patient Revenue, actual and projected, and Non-Operating Revenue projections. Please provide the missing data.

    c) For all revised Financial Worksheets, explain any projected incremental losses from operations resulting from implementation of this CON proposal.

18. Provide a complete Financial Worksheet A providing a summary of revenue, expense, and volume statistics, with and without the CON, and incremental to the CON for Johnson Memorial Hospital ("JMH") only, not inclusive of any affiliates and subsidiaries. Provide the assumptions used in developing the financial projections. Explain any projected incremental losses from operations resulting from implementation of this CON proposal.

19. The Applicants did not submit all assumptions used in developing the financial projections reported in SFC's Financial Worksheet. Provide the missing information.

20. In reference to the monthly financial reports submitted by the Applicants on pages 1305-1307 of the application, please address the following for all three entities, SFC, SFMC and JMH:

    a) Explain the decline in Revenue over Expenses reported between Feb 2014 and Feb 2015 (YTD);

    b) Explain the increases in income from operations reported for all three entities between Feb 2014 and Feb 2015 (YTD); and

c) Provide updated Financial Measurements/Indicators for March, April and May 2015 and comparable months from the previous fiscal year. Provide an explanation for any decreases or increases between FYs 2014 and 2015 that applies to any of the items listed on Section D of this report.

In responding to the questions contained in this letter, please repeat each question before providing your response. Information filed after the initial CON application submission (e.g., completeness response letter, prefiled testimony, late file submissions and the like) must be numbered sequentially from the Applicants' document preceding it. **Paginate and date** your response (i.e., each page in its entirety) beginning with Page Number 1,942. Please reference "Docket Number: 15-32002-CON." Submit one (1) original and four (4) hard copies of your response. Fully paginate each copy. In addition, please submit a scanned copy of your paginated response, including all attachments, on CD in Adobe format (.pdf) and in MS Word format (.docx).

Pursuant to Section 19a-639a(c) you must submit your response to this request for additional information no later than sixty days after the date that this request was transmitted. Therefore, please provide your written responses to OHCA no later than May 12, 2015, otherwise your application will be automatically considered withdrawn. If you have any questions concerning this letter, please feel free to contact me at (860) 418-7012, Brian Carney at (860) 418-7014 or Carmen Cotto at (860) 418-7039.

Enclosures

Completeness Letter Responses

1. **Provide a copy of the current and post-transaction organization chart for each of the Applicants. In the post-transaction organization chart, include SFC's proposed parent corporation (Trinity Health Corporation).**

   Please refer to **Exhibit 33.**

2. **In light of SFC's merger with Trinity Health Corporation, explain how the acquisition of JMMC aligns with the Regional Health Ministry goals indicated on pages 14-15 of Certificate of Need Application Docket Number: 15-31979-CON**.

   Saint Francis *Care* is preparing to respond to the changing healthcare landscape, which emphasizes and rewards the provision of value- based care to groups of people using a population management approach. A successful implementation of this approach requires that hospitals and health systems create integrated systems of healthcare providers that share complementary missions and goals. Both Saint Francis *Care* and JMMC have a long tradition (118+ and 100+ years, respectively) of serving the populations that comprise the JMMC primary service area.

   The inclusion of JMMC within the Regional Health Ministry will allow Saint Francis *Care* and JMCC to streamline clinical service delivery, achieve certain economies of scale through the restructuring of selected support services, and stabilize physician availability needed to deliver clinical care in the areas of OB/GYN, Behavioral Health, Cancer, Emergency Medicine, and acute care. It also will allow JMMC to participate in new insurance programs requiring bundled payments or risk sharing arrangements as they evolve in this market.

   The inclusion of JMMC in the Regional Health Ministry allows Saint Francis *Care* to standardize healthcare delivery at JMMC by extending to JMCC the evidence based clinical approach that has been successfully implemented at Saint Francis *Care*. These clinical protocols have resulted in Saint Francis *Care* receiving the many quality awards listed on pages 1,279 - 1,293 of the Certificate of Need Application. This list has been updated and included in **Exhibit 34** to reflect the latest awards received by Saint Francis *Care* for its clinical excellence.

   Furthermore, the ability of JMMC to continue to meet the healthcare needs of its patient population, irrespective of the ability of recipients of care to pay for that care, is consistent with the mission of Trinity Health and Saint Francis *Care* and will be enhanced by becoming a part of the new Regional Health Ministry

Lastly, allowing JMMC to join the Regional Health Ministry will enable JMMC to reduce the cost associated with its long-term debt. Additionally, JMMC will benefit by Saint Francis *Care* assuming the restructured legacy creditor debt as provided for in the Asset Purchase Agreement.

For all of these reasons, the acquisition of JMMC aligns with the Regional Health Ministry goals outlined on pages 14 and 15 of the Saint Francis *Care/*Trinity Health Certificate of Need Application, Docket Number: 15-31979-CON.

3. **Elaborate on the anticipated benefits to JMMC discussed on page 24 of the application and include a timeline for implementing the integration. Provide a copy of the integration plan, if available.**

The foundation for the first phase of the JMMC/Saint Francis *Care* integration plan is the existing affiliation between JMMC and Saint Francis *Care*. This affiliation has been in place for over two years and includes more than two dozen comprehensive agreements designed to support JMMC, its patients, physicians, and community (see Exhibit 8 pages 168-950 of the Certificate of Need Application). These agreements cover a wide range of clinical and non- clinical operations. Through these agreements JMMC has gained access to better pricing for the purchase of goods and support services (*e.g*. laundry), more stable staffing for needed clinical services (*e.g*. Behavioral Health, hospitalists, anesthesiology, and cancer care), and access to Saint Francis *Care's* expertise to support the needed evolution of services. Most notable are the EPIC IT conversion and financial service functions, which will facilitate JMMC's ability to meet emerging and future trends and requirements in health care delivery.

The second phase of the integration plan is detailed in the Asset Purchase Agreement that was filed with the Bankruptcy Court. This Asset Purchase Agreement provides for the reduction of the outstanding debt of JMMC and its affiliates, further enhancing JMMC's long-term financial viability. If approved, the sale of JMMC to Saint Francis *Care* will allow Saint Francis *Care* to assist JMMC's ability to satisfy its long term liabilities in the future..

The third phase of the integration plan will commence after the completion of the transaction under the Asset Purchase Agreement. The exact timeline for this phase of the integration plan has not yet been determined and is dependent on CON approval. However, the benefits to JMMC outlined on page 24 of the Certificate of Need Application will result of phase three of the integration plan and are summarized as follows:

- A commitment to support up to $13,000,000 in capital investments in technology, capital improvements, expanded services, and routine replacements of equipment in the first three years.
- The continued employment of the majority of JMMC personnel.
- Continued access to care management protocols that would further improve quality and best practices and reduce health care costs.
- Access to improvement in software and information technologies.
- Inclusion in an integrated healthcare network that enhances JMMC's ability to attract highly qualified clinical talent.
- Participation in cost reduction programs with respect to supplies and services.
- Enhanced support for revenue cycle, legal, compliance, payor contracting, financial and other non-clinical services.
- Providing support to ensure JMMC will meet its revised long-term debt requirements established as a result of the bankruptcy sale to Saint Francis *Care*.

4. **Page 36 of the application states, "SFC and Johnson are committed to preserving a viable health care organization dedicated to providing health care services that meet the needs of the Johnson community for the foreseeable future. Together the new health care organization formed as a result of this merger…will improve the community's health by delivering high quality, cost effective, coordinated care across a broad continuum."**

    a. **Discuss how the Applicants plan to maintain access to and provide continuity of care with respect to existing inpatient and outpatient services following the acquisition of JMMC.**

    Following the approval to acquire JMMC, Saint Francis *Care* will continue to support the services outlined in the various clinical and non-clinical support agreements included in this Certificate of Need Application as Exhibit 8 pages 168 – 950.

    In addition, Saint Francis *Care* is working with JMMC to recruit a general surgeon and to develop specialty programs in Urology and Neurology similar to the programs made available to JMCC through provider service agreements now in place that support the JMMC Cancer and Infusion Service. In addition, the economies of scale that Saint Francis *Care* will bring to JMMC will allow JMMC to make investments in Information Technology essential to support mandated ICD-10 billing practices as of October 1, 2015 and to upgrade its patient medical record system using the EPIC system. Furthermore, Saint Francis *Care's* commitment will also provide capital

support to help JMMC upgrade the facilities and services used by its physicians and patients.

b. Discuss plans to expand, consolidate or eliminate any hospital services, including Newborn, Maternity, Psychiatric, Rehabilitation, Pediatric and Medical/Surgical service lines in JMMC's primary service area. Provide a copy of a 3-year services plan for JMMC, if available.

JMMC and Saint Francis *Care* have no plans to eliminate or consolidate hospital services at this time. In fact, during the application process JMMC and Saint Francis *Care* have collaborated to improve the availability of both inpatient and outpatient behavioral health services as well as outpatient infusion treatment service for cancer patients at JMMC. In addition, agreements with Saint Francis *Care's* hospitalist program, as well as the physician groups at Saint Francis *Care* who provide Radiology and Anesthesiology services, have helped stabilize Medical, Surgical, Maternity, Newborn, Pediatric and emergency services at JMMC.

Presently, there is no formal three year future services plan for JMMC but recruitment efforts are ongoing for the General Surgery, Neurology and Urology programs.

5. Page 24 of the application states that SFC has committed to support up to $13Million in capital investments in the first three years of the proposal. Provide a preliminary plan indicating how the capital commitment will be allocated.

As described on pages 71 and 72 of the original application, the projects that have been identified to date include (i) implementation of an electronic medical record system, (ii) facility and equipment upgrades to the hospital operating rooms and the ambulatory surgery center in Enfield, and (iii) replacement of clinical equipment to allow for more efficient and effective care delivery. Further capital investments will be made based on identified needs.

6. Page 35 of the application states that, despite an anticipated decrease in inpatient volume, JMMC's average daily census "will continue to be strong through coordinated care delivery and the availability of SFC's infrastructure and service line support." Elaborate on how the average daily census will continue to be strong despite projected declining inpatient volume.

Due to the shift toward population health management, inpatient volume across the nation is anticipated to decrease. As a result of Saint Francis *Care's* infrastructure and service line support, JMH's average daily census is projected to decrease by only 4.5% (44 to 42), whereas without Saint Francis *Care's* infrastructure and service line support,

JMH's average daily census is projected to decrease by 11.4% (44 to 39) through FY 2018.

7. **Page 31 of the application states that "…the proposed acquisition will facilitate or enhance access for patients in Johnson's service area to related services, including, Hoffman Heart and Vascular Institute of Connecticut, Saint Francis Mount Sinai Regional Cancer Center Connecticut Joint Replacement Institute, Mount Sinai Rehabilitation Hospital and Stroke Center at Saint Francis." Given these programs/services are all located in Hartford, how will local access in the JMMC primary service area be enhanced by these programs? Will satellite locations of these programs be established at JMMC?**

   The benefits to the population that resides in JMMC's primary service area are both direct and indirect and are not limited to the service locations currently listed in this question.

   From a direct benefit perspective, the treatment for vascular, heart, cancer and stroke patients often begins with the initial patient visit to the Emergency Department and continues through the full period of treatment for each patient. JMMC uses Saint Francis *Care* hospitalists for much of its inpatient care and Saint Francis *Care* oncologists oversee the cancer treatment of all inpatients and outpatients seen at JMMC. Saint Francis *Care* is also in the process of establishing a satellite program within the JMMC service area for congestive heart failure patients that will use the same treatment protocols and be managed by physicians who operate a similar program through the Hoffman Heart and Vascular Institute of Connecticut. Thus, patient groups at JMMC will receive consistent treatment regardless of the location at which they first present. In addition, due to the integration of the providers who serve patients at the two organizations, the speed of appropriate intervention, timeliness of patient transfer and the consistency of follow up care are expected to improve.

   From a more indirect perspective, as the model of care shifts toward a population management based method of care delivery, patients from the JMMC's primary service area will be able to purchase insurance products that ensure access to bundled payment programs and risk contracts that include the award winning health care programs Saint Francis *Care* offers to all of its heart, cancer, stroke and joint replacement patients.

   Once JMMC is fully integrated into Saint Francis *Care*, JMMC and Saint Francis *Care* will be in a position to determine whether the volume of patients in the JMMC primary service area warrants the creation of additional satellite locations. In such event, a single organizational structure will make the allocation of the resources, providers, and payment programs to such satellite sites seamless.

8. **As discussed on page 14 of Certificate of Need Application Docket Number: 15-31979-CON, SFC will continue to adhere to Ethical and Religious Directives for Catholic health care services after its acquisition by Trinity Health Corporation. Will Johnson Memorial Hospital adhere to the Directives as well? If yes, how will women's reproductive services at JMMC be affected by the acquisition?**

At no time will JMMC deny any mother or infant any service necessary to preserve the life of the mother and infant.

Since its affiliation with Saint Francis *Care* in July 2012, JMMC has eliminated certain procedures that are inconsistent with the Ethical and Religious Directives for Catholic Health Care Services (ERDs). Adherence to these policies has meant that a small number of elective procedures are no longer offered as part of the JMMC OB/GYN program. The number of such cases performed in calendar year 2011 - 2014 are listed below:

	INPATIENT	Calendar Year 2011			Calendar Year 2012			Calendar Year 2013			Calendar Year 2014		
ICD9-CM	Description	Principal	Sec	Cases	Principal	Sec	Cases	Principal	Sec	Cases	Principal	Sec	Cases
66.29	BILAT ENDO OCCL FALL NEC	0	0	0	1	0	1	0	0	0	0	0	0
66.32	BILAT FALL LIG & DIV NEC	7	4	11	1	5	6	0	2	2	0	0	0
66.39	BILAT FALL DESTR NEC	0	6	6	1	2	3	0	3	3	0	0	0

	OUTPATIENT	Calendar Year 2011			Calendar Year 2012			Calendar Year 2013			Calendar Year 2014		
ICD9-CM	Description	Principal	Sec	Cases	Principal	Sec	Cases	Principal	Sec	Cases	Principal	Sec	Cases
58671	LAPAROSCOPIC TUBAL BLOCK	16	0	16	10	0	10	0	0	0	0	0	0

	2011	2012	2013	2014	2015 Annnualized (through June)
Total NewBorns	232	206	207	213	141

None of these elective procedures have been performed in calendar year 2015 year to date.

The OB/GYN physician at JMMC also has privileges at Hartford Hospital. Any patient wishing to undergo reproductive procedures not provided at JMMC can access those services at Hartford Hospital. To the knowledge of JMMC, no women requesting any medically appropriate procedures of the OB/GYN services at JMMC have been denied access to tubal ligations.

9. As discussed on page 18 of Certificate of Need Application Docket Number: 15-31979-CON, $275 Million will be allocated to SFC. Explain what portion of the $275Million capital investment included in the SFC-Trinity Health Corporation's merger will be used toward JMMC capital and operating expenditures.

Saint Francis *Care* has committed to support up to $13,000,000 of JMMC capital investments in technology, capital improvements, expanded services and routine replacements within the first three years after closing. If, upon acquisition of JMMC by Saint Francis *Care*, JMMC has adequate income from operations and cash flow, the $13.0 million capital expenditure would first be funded through JMMC's operations. If JMMC is unable to fund such capital expenditures, any shortfall would be funded by Saint Francis Hospital and Medical Center. If the proposed transaction between Trinity Health and Saint Francis *Care* is approved, any capital expenditure incurred by Saint

Francis *Care* for the benefit of JMMC would be considered to be included in the $275 million capital commitment that Trinity Health has made to Saint Francis *Care*.

10. For all debt related to this proposal indicated on pages 22-23 of the application, complete the table below. Under "Comments," identify the disposition of any outstanding debt not assumed by SFC.

Entity's Name	Liability Description	Total Liability Amount (TB)	Assumed Liability Amount (AL)	Not Assumed Amount (TB-AL/P)	Comments
Johnson Memorial Hospital	Amounts due to Legacy Creditors	$5,930,321	$3,000,000	$2,930,321	Amount to be paid/assumed by SFC based on settlement agreement with Legacy Creditors. Refer to page 10 of Amended APA.
Johnson Memorial Hospital	Peoples Bank long-term debt	$11,987,500	$7,400,000	$4,587,500	Amount to be paid/assumed by SFC based on settlement agreement with Peoples Bank. Refer to page 10 of Amended APA.
Johnson Memorial Hospital	Accrued Interest Expense to Peoples Bank	$629,754	$629,754	$0	
Johnson Memorial Medical Center	Peoples Bank long-term debt	$2,940,000	$2,940,000	$0	
Johnson Memorial Medical Center	Accrued Interest Expense to Peoples Bank	$107,812	$107,812	$0	
Johnson Memorial Hospital	Healthcare Finance Group (HFG) Line of Credit	$2,282,199	$2,282,199	$0	If additional amounts are drawn down prior to closing, SFC will assume the entire amount outstanding.
Johnson Memorial Hospital	Capital leases	$802,028	$802,028		SFC will assume amounts outstanding as of the closing date.

As noted in the original CON, Saint Francis *Care* will assume the balance of other trade payable and accrued liabilities as of the closing date. Lastly as part of the Bankruptcy Court approval any debt not assumed by Saint Francis *Care* will be written off by JMMC's other creditors.

11. In reference to the Master Affiliation Agreement, Clinical Affiliation Agreement and Business Process Outsourcing Agreement (together refer here as "Agreements"), referenced on pages 20-21 and Exhibits 8 and 10 of the application, please address the following:

a) **Indicate whether the Asset Purchased Agreement ("Hospital APA"), Exhibit 11, supersedes the Agreements Post-Closing; and**

The Asset Purchase Agreement will supersede the Agreements referenced. These Agreements served as a vehicle to provide needed services to JMMC prior to closing. All services provided under the terms of these Agreements will continue uninterrupted post-closing.

b) **Explain the exclusion of the Master Affiliation Agreement from the "Affiliation Agreements" definition listed in the Asset Purchased Agreement ("Hospital APA").**

The references in the Asset Purchase Agreement to the "Affiliation Agreements" were intended to address the continued provision of clinical and business services by Saint Francis *Care* to JMMC during the interim period following the execution of the Asset Purchase Agreement. Subject to certain conditions, Saint Francis *Care* agrees to continue to provide clinical and business services under the Affiliation Agreements while the purchase transaction is still pending. The Master Affiliation Agreement was excluded from the definition of "Affiliation Agreements" because Saint Francis *Care* does not provide clinical or business services under the terms of the Master Affiliation Agreement; rather, they will be provided in connection with separate arrangements associated with the umbrella of the Master Affiliation Agreement.

12. In reference to the information provided on page 23 of the application, please indicate the name of the entities controlled by SFC that will make the purchases and elaborate on their ability to finance those purchases.

Saint Francis *Care* will acquire the entities set forth in the Asset Purchase Agreement. The source of funding for this acquisition will be from Saint Francis Hospital and Medical Center. As noted below in the response to question 13, approximately $5.5 million will be paid at closing and will be funded through Saint Francis Hospital and Medical Center cash on hand, which was approximately $78 million as of June 30, 2015.

13. As indicated on page 23 of the application, provide the methodology used in the valuation of Johnson's total purchase price at $30M and the specific source(s) of cash in dollar amounts currently available to SFC to finance this purchase. Also indicate if the $30M includes SFC's commitment to support up to $13M in capital investments for Johnson. If not, provide the funding source for this additional capital commitment.

The purchase price for JMCC was determined based on its current financial position as well as its expected operating margins, which are anticipated to increase if this transaction is approved. The $30 million purchase price includes approximately $5.5

million to be paid by Saint Francis *Care* at closing. Saint Francis *Care* will use its operating cash to fund these amounts. The remaining $24.5 million represents the assumption of JMMC liabilities including the outstanding principle amounts associated with the restructured long-term debt and capital leases in excess of $13.4 million, trade payables, malpractice and other current and long term liabilities. Saint Francis *Care* is also acquiring JMMC assets as part of this transaction. The $13 million commitment to support capital investments in JMMC over the first three years after closing is not included in the purchase price of $30 million. If the Trinity Health transaction is approved intercompany loans from Trinity Health to Saint Francis *Care* would be available if needed to support funding of this capital.

14. **Page 38 of the application indicates that "The financial pro formas included in this application reflect a cumulative 4% price increase over the next 3 years. We feel this increase is necessary in order to continue to reinvest in personnel, equipment and infrastructure planned for Johnson as a result of its integration into the SFC system." Provide the basis for the calculation of the 4% price increase in charges. In addition, are the "financial pro formas" referred to in the statement those submitted with the application as Exhibit 17?**

The cumulative 4% price increase in charges is the result of compounding a 1.25% price increase each year for the next 3 years.

The "financial pro formas" referred to in the statement are those submitted in Exhibit 17.

15. **Pages 71-72 of the application lists the top priority capital projects that will be allocated to the $13M capital commitment from SFC and further indicates that the listed capital priorities "assumes that the separate municipal bonding project targeted to bring city water, local sewer district access and natural gas services to the main campus of Johnson is successful. If not Johnson will need an additional $4-$5 million to replace its septic system." Elaborate on the source of financing for the additional $4-$5M needed to complete this project without the bond and how the Applicants would address the capital projects listed as priorities without this proposal**.

JMMC and Saint Francis *Care* remain supportive of a local government initiative designed to bring natural gas to parts of Enfield, Somers and Stafford Springs. This initiative has been combined with plans of the Stafford Springs Sewer District and Connecticut Water Company to expand water and sewer services in the Stafford Springs community. This initiative is a cooperative effort that involves Yankee Gas, the Lieutenant Governor, the local towns and the Department of Energy and Environmental Protection. See attached letters in **Exhibit 35**. Should this initiative not proceed, JMMC

will address its septic system improvement needs through a separate capital expenditure. Recent studies of the funds needed to address JMMC's sewer needs suggest options for the septic system repair alone are less costly than originally estimated. Regardless of which solution is ultimately chosen, this project is a high priority for JMMC and a portion of the $13 million capital committed as part of this acquisition will be utilized, if needed.

16. In reference to the Financial Worksheets and their related Financial Assumptions submitted as Exhibit 17, please revised them and address the following:

a) **The numbers reported as Actual results on Johnson Memorial Medical Center Financial Worksheet do not match the Audited Financial Statements ("AFS") that were submitted or referenced. In addition, the Applicants excluded the operating results of JEC from the Financial Worksheet. Provide a revised Financial Worksheet, and related assumptions, inclusive of actual results that match the AFS and of operating results for JEC**.

This proposal is to acquire substantially all the assets of JMCC, excluding Johnson Evergreen Corporation ("JEC"). JEC recently held a bankruptcy auction of its assets and a third party (an affiliate of Athena Health Care Systems) was named as the winning bidder and approved by the United States Bankruptcy Court. Accordingly, JEC is not part of this application and is not included in the financial worksheet.

Included in **Exhibit 36** is the revised JMMC Financial Worksheet, excluding JEC to match the FY 2014 Audited Financial Statements. Also included in **Exhibit 36** is the reconciliation to the FY 2014 Audited Financial Statements, which includes JEC plus eliminations.

b) **For JMMC's and SFC's Financial Worksheets, the Applicants did not report amounts for the Uninsured Net Patient Revenue, actual and projected, and Non-Operating Revenue projections. Please provide the missing data**.

Included in **Exhibit 36** are revised JMMC's and Saint Francis *Care's* Financial Worksheet A for Uninsured Net Patient Revenue to match OHCA's definition. Previously, these amounts were reported under Self Pay (which OHCA also defines as uninsured).

JMMC's projected financial worksheets Without, Incremental and With the CON include Non-Operating Revenue.

Saint Francis *Care's* financial worksheet Without the CON excludes Non-Operating Revenue as these amounts are difficult to project and because the Non-Operating Revenue that Saint Francis *Care* reports is for the accounting of its interest rate swap.

c) **For all revised Financial Worksheets, explain any projected incremental losses from operations resulting from implementation of this CON proposal**.

There are no projected incremental losses from operations resulting from implementation of this CON proposal

18. Provide a complete Financial Worksheet A providing a summary of revenue, expense, and volume statistics, with and without the CON, and incremental to the CON for Johnson Memorial Hospital ("JMH") only, not inclusive of any affiliates and subsidiaries. Provide the assumptions used in developing the financial projections. Explain any projected incremental losses from operations resulting from implementation of this CON proposal.

Included in **Exhibit 36** is a JMMC only Financial Worksheet A, as well as the assumptions used in developing the financial projections.

There are no projected incremental losses from operations resulting from implementation of this CON proposal.

19. The Applicants did not submit all assumptions used in developing the financial projections reported in SFC's Financial Worksheet. Provide the missing information.

The key assumptions used in Saint Francis *Care's* financial worksheets include the following:

- FY 2015 amounts represent the year to date actual revenues and expenses through February 2015 and the budgeted amounts for the remaining seven months of Fiscal Year 2015.
- Inpatient volume for FY 2016 is projected to be flat with slight decreases in volume in 2017 and 2018 as a result of decreased utilization of inpatient services as we shift to population health. This overall projected decrease is offset by a slight increase in utilization in the Connecticut Joint Replacement Service line.

- Slight growth in hospital outpatient visits is expected and the projections include increases of .1%, .1% and .2% respectively in 2016 through 2018.
- The projected amounts include an expectation that Saint Francis *Care* will begin to assume risk contracts in FY 2016 and receive per member per month payments to cover the healthcare costs.
- Projected salary expenses includes increases of 3.3%, 3.0% and 2.5%, respectively, in 2016 through 2018. This projection anticipates an increase in the number of employees as well as an inflation increase.
- Supplies and other expenses include increases of approximately 2.8 %, 2.5 % and 2.0 %, respectively, in 2016 through 2018.

The Saint Francis *Care* financial projections for FY 2016-2018 do not include potential synergies to be realized if the Saint Francis *Care*/Trinity Health transaction is approved.

20. In reference to the monthly financial reports submitted by the Applicants on pages 1305-1307 of the application, please address the following for all three entities, SFC, SFMC and JMH:

a) Explain the decline in Revenue over Expenses reported between Feb 2014 and Feb 2015 (YTD);

The cause of the decline in Revenues over Expenses at JMMC was due to the use of legal professionals and consultants in evaluating the pending transaction with Saint Francis *Care* and in connection with the bankruptcy petition filed on January 14, 2015. In the period ending February 2015, the cost of these services totaled to $1,648,000.
For Saint Francis *Care* and Saint Francis Hospital and Medical Center the decline in Revenue over Expenses reported between YTD Feb 2014 and YTD Feb 2015 is due the accounting of its interest rate swap. YTD Feb 2014 had a gain of $5 million and YTD Feb 2015 has a loss of $8 million. These changes were due to the fluctuations interest rates.

b) Explain the increases in income from operations reported for all three entities between Feb 2014 and Feb 2015 (YTD); and

The increase in operating income at JMMC was due to receipt of a settlement with the Medicare program of a payment issue associated with the budget neutrality adjustment. The settlement (net) totaled $518,000.

The increase in income from operations for Saint Francis Hospital and Medical Center between YTD Feb 2014 and YTD Feb 2015 is due an increase in Net Patient Revenue ($9 million), which is primarily due to an increase in inpatient volume (patient days 2,015) and a decrease in bad debt expense ($1 million).

In addition to the increase from Saint Francis Hospital and Medical Center, the increase in income from operations for Saint Francis *Care* between YTD Feb 2014 and YTD Feb 2015 is due an increase in Net Patient Revenue from affiliate Saint Francis Medical Group.

c) Provide updated Financial Measurements/Indicators for March, April and May 2015 and comparable months from the previous fiscal year. Provide an explanation for any decreases or increases between FYs 2014 and 2015 that applies to any of the items listed on Section D of this report.

Please refer to **Exhibit 37**.

Saint Francis *Care* Awards and Recognitions

NCDR ACTION Registry – GWTG Platinum Award – Saint Francis has received the American College of Cardiology's NCDR ACTION Registry–GWTG Platinum Performance Achievement Award for 2015. Saint Francis *Care* is one of only 319 hospitals nationwide to receive the honor. The award recognizes Saint Francis's commitment and success in implementing a higher standard of care for heart attack patients and signifies that Saint Francis has reached an aggressive goal of treating these patients to standard levels of care as outlined by the American College of Cardiology/American Heart Association clinical guidelines and recommendations. (July 2015)

Most Wired – 2015 – Saint Francis Hospital and Medical Center has been recognized as one of the nation's *Most Wired* hospitals, according to the results of the 2015 *Most Wired* Survey published in the July issue of Hospitals & Health Networks magazine. This is the sixth consecutive year that Saint Francis was named to the *Most Wired* list. (July 2015)

US News & World Report/Best Hospitals for Common Care – Saint Francis was recognized as "High Performing" for the treatment of COPD and Knee Replacement. (June 2015)

Premier Inc., Diversity Award – Saint Francis *Care* received the *Diversity Award* at Premier's annual Breakthroughs Conference and Exhibition. The *Diversity Award* honors health systems that have established active programs to evaluate and support minority-, women- and veteran-owned enterprises, as well as small businesses, available through the Premier contract portfolio. (June 2015)

American Heart Association/Get With The Guidelines®–Heart Failure Gold-Plus Quality Achievement Award – Saint Francis Hospital and Medical Center has received the *Get With The Guidelines®–Heart Failure Gold-Plus Quality Achievement Award* for implementing specific quality improvement measures outlined by the American Heart Association/American College of Cardiology Foundation's secondary prevention guidelines for patients with heart failure. This marks the sixth year that Saint Francis has been recognized with this award. Saint Francis also received the association's *Target: Heart Failure Honor Roll.* This initiative provides hospitals with educational tools, prevention programs and treatment guidelines designed to reduce the risk of heart failure patients ending up back in the hospital. Saint Francis is the only hospital in the state to earn the *Target: Heart Failure Honor Roll* distinction. (June 2015)

Women's Choice Award – Saint Francis Hospital and Medical Center has received the Women's Choice Award from WomenCertified®, distinguishing it as one of the *Best Hospitals* for Heart Care. The award is based on cardiac and vascular experience and 30-day mortality and readmission rates for heart attacks and heart failure with additional consideration given to patient satisfaction scores. WomenCertified® represents the collective voice of female consumers and is a trusted referral source for top businesses and brands identified as meeting the needs and preferences of women. (January 2015)

Associated Builders and Contractors Excellence - Enterprise Construction Company is the recipient of the *Excellence in Construction Award* for the Comprehensive Women's Health Center. (January 2015)

Becker's Hospital Review – Becker's Hospital Review a leading source of information for healthcare professionals, has listed Saint Francis Hospital and Medical Center among the top 100 hospitals in the country with "great women's health programs." Hospitals were selected for the list based on clinical accolades and recognition for women's health excellence from various healthcare groups and agencies. Those agencies include U.S. News & World Report, Healthgrades, CareChex and UNICEF's Baby-Friendly Hospital Initiative. Saint Francis was one of three hospitals in Connecticut named to the list, along with Hartford Hospital and Yale-New Haven Hospital. (December 2014)

Women's Choice Award – Saint Francis Hospital and Medical Center has received the Women's Choice Award from WomenCertified®, distinguishing it as one of the *Best Hospitals* for Heart Care. The award is based on cardiac and vascular experience and 30-day mortality and readmission rates for heart attacks and heart failure with additional consideration given to patient satisfaction scores. WomenCertified® represents the collective voice of female consumers and is a trusted referral source for top businesses and brands identified as meeting the needs and preferences of women. (January 30, 2015)

Associated Builders and Contractors Excellence - Enterprise Construction Company is the recipient of the *Excellence in Construction Award* for the Comprehensive Women's Health Center. (January 29, 2015)

Women's Choice Award – Saint Francis Hospital and Medical Center has received the Women's Choice Award from WomenCertified®, distinguishing it as one of the 2015 *Best Hospitals for Patient Safety*. The award is based on consistently low rates of infections and surgical errors, and patient recommendations. WomenCertified® represents the collective voice of female consumers and is a trusted referral source for top businesses and brands identified as meeting the needs and preferences of women. (December 3, 2014)

The LeapFrog Group "A" Score –Saint Francis *Care* has again received an "A" rating Hospital Safety Score℠ from the Leapfrog Group, a national hospital quality watchdog organization. The Leapfrog Group has released its fall 2014 Hospital Safety Scores. For the 6th consecutive time Saint Francis has received an "A" rating. Saint Francis is one of only four hospitals in the state to earn the highest rating and the only Connecticut hospital to receive the "A" rating in both the fall and the spring. Six hospitals received "B" ratings; 12 a "C" rating; and three a "D" rating in the recent rankings. Overall, Connecticut ranked 33rd out of 42 states, with just 16% of its 25 rated hospitals receiving an "A" grade. The Hospital Safety Score℠ for 2014 grades hospitals on their overall performance in keeping patients safe from harm and preventable errors. The grades are derived from analysis of publicly available data using 28 evidence-based, national measures of hospital safety. (November 2014)

CareChex – Saint Francis Hospital and Medical Center has also been recognized by CareChex®, a division of Comparion Medical Analytics, for national and state medical excellence achievements in numerous categories in its 2015 hospital quality award rankings. Saint Francis was ranked

90th nationwide for overall medical excellence in hospital care among nearly 4,200 hospitals reviewed, and was the only Connecticut hospital to score in the top 100.

The Hospital also ranked nationally among the hospitals reviewed as:

- #5 in coronary bypass surgery (out of 1,196 hospitals scored)
- #8 in joint replacement (out of 3,497 hospitals scored)
- #9 in major orthopedic surgery (out of 3,499 hospitals scored)

In addition, Saint Francis ranked #1 in Connecticut in the following eight clinical and surgical areas:

- Overall Hospital Care – Medical Excellence
- Overall Surgical Care – Medical Excellence
- General Surgery – Medical Excellence
- Joint Replacement – Medical Excellence
- Neurological Surgery – Medical Excellence
- Orthopedic Care – Medical Excellence
- Orthopedic Surgery (Major) – Medical Excellence
- Spinal Surgery – Medical Excellence

(November 2014/For internal non-commercial use only.)

Healthgrades® – Saint Francis *Care* has been recognized for clinical excellence in a national report by Healthgrades, a leading provider of information to help consumers make an informed decision about a physician or hospital. Saint Francis has received top national rankings in the most recent *2015 Quality Achievements Report:*

- *Saint Francis Care earned the Distinguished Hospital Award for Clinical Excellence in 2015. (Embargo January 20, 2015)*
- *100 Best Hospitals for Coronary Intervention, 2 years in a row*
- *Coronary Intervention Excellence Award, 2 years in a row*
- *Top 10% in the Nation for Coronary Interventional Procedures*
- *Recipient of the Healthgrades Stroke Care Excellence Award*
- *Top 10% in the Nation for Treatment of Stroke*
- *100 Best Hospitals for Joint Replacement, 3 years in a row*
- *100 Best Hospitals for Orthopedic Surgery, 2 years in a row*
- *Joint Replacement Excellence Award, 3 years in a row*
- *Orthopedic Surgery Excellence Award, 2 years in a row*
- *Top 5% in the Nation for Joint Replacement, 3 years in a row*
- *Top 5% in the Nation for Overall Orthopedic Service, 2 years in a row*

Saint Francis *Care* also earned a 5-star rating from Healthgrades in additional clinical areas for the treatment of: coronary intervention procedures, treatment of heart attack, coronary bypass surgery, treatment of stroke, repair of abdominal aorta, total knee replacement, total hip replacement, and for spinal fusion surgery. (DHACE, January 20, 2015; Specialty Excellence Awards, October 21, 2014)

Becker's Hospital Review – Saint Francis Hospital and Medical Center was named on Becker's Hospital Review list of "125 Hospitals with Great Orthopedic Programs." The announcement recognizes orthopedic surgery departments, programs or dedicated centers that have earned special recognition. Saint Francis is one of only two Connecticut hospitals on the list. This is the fifth year Becker's Hospital Review has compiled this list, and the first time it has included 125 hospitals. (September 2014)

Joint Commission's Gold Seal of Approval/Stroke Center Accreditation – Saint Francis Hospital and Medical Center has earned *The Joint Commission's Gold Seal of Approval®* for accreditation of its Stroke Center by demonstrating compliance with The Joint Commission's national standards for healthcare quality and safety. The accreditation award recognizes Saint Francis's dedication to continuous compliance with state-of-the-art standards in its primary care stroke center operations. (August 2014)

U.S. News & World Report – In a national survey of 4,806 hospitals, Saint Francis Hospital and Medical Center was one of 752 hospitals to achieve at least one "High Performing" rating among 16 medical specialties in the 25th annual U*.S. News & World Report* ranking Best Hospitals in the U.S. Saint Francis was recognized as high performing in 9 specialties: Cardiology and Heart Surgery; Ear, Nose and Throat; Gastroenterology and GI Surgery; Geriatrics; Nephrology; Neurology and Neurosurgery; Orthopedics; Pulmonology; and Urology. (July 2014)

LifeChoice Donor Services – Saint Francis Hospital and Medical Center earned a gold award for their work with LifeChoice Donor Services. LifeChoice Donor Services is among a select group of organ procurement organizations (OPOs) nationwide recognized by the U.S. Department of Health and Human Services (HHS) for reaching gold, silver, and bronze levels of achievement for conducting activities that promote enrollment in state organ, tissue and eye donor registries. The hospitals are part of a national hospital campaign, sponsored by HHS's Health Resources and Services Administration (HRSA), which has added 327,659 donor enrollments to state registries nationwide since 2011, exceeding the goal of 300,000. (July 2014)

American Diabetes Association – The American Diabetes Association Education Recognition Certificate for a quality diabetes self-management education program was recently awarded to the Center for Diabetes and Metabolic Services at Saint Francis. The designation assures that programs meet the national standards for Diabetes Self-Management Education Programs. (July 2014)

Most Wired – 2014 – Saint Francis Hospital and Medical Center has been recognized as one of the nation's *Most Wired* hospitals, according to the results of the 2014 *Most Wired* Survey published in the July issue of Hospitals & Health Networks magazine. This is the fifth consecutive year that Saint Francis was named to the *Most Wired* list. (July 2014)

Healthgrades: Patient Safety & Women's Health Excellence Awards – **Saint Francis Hospital and Medical Center** received the *2014 Patient Safety Excellence Award™* and the *Women's Health Excellence Award*, from Healthgrades, the leading online resource for comprehensive information about physicians and hospitals. (June 2014)

- *The Patient Safety Excellence Award* distinction places Saint Francis within the top 10% of all hospitals for its excellent performance in safeguarding patients from serious,

potentially preventable complications during their hospital stays. This is the fourth consecutive year that Saint Francis has received this award, and one of only two Connecticut hospitals to earn the distinction this year.

- The *Women's Health Excellence Award* distinguishes Saint Francis as a top-performing hospital in women's health. Saint Francis is one of only 178 recognized nationally for their outcomes for care provided to women for common conditions and procedures treated in the hospital. Saint Francis is on the only hospital in Connecticut to earn this distinction.

Premier Supply Chain Excellence Award – Saint Francis Hospital and Medical Center has received *Premier, Inc.'s Supply Chain Excellence Award* for superior supply expense performance. Saint Francis is one of only 35 Premier members to receive the award this year. Premier, a leading healthcare improvement company, unites an alliance of approximately 3,000 U.S. hospitals and 110,000 other providers. (Embargo Date: June 11, 2014)

American Heart Association/Get With The Guidelines®–Heart Failure Gold-Plus Quality Achievement Award – Saint Francis has received the *Get With The Guidelines®–Heart Failure Gold-Plus Quality Achievement Award* for implementing specific quality improvement measures outlined by the American Heart Association/American College of Cardiology Foundation secondary prevention guidelines for heart failure patients. This marks the third time that Saint Francis has been recognized with a quality achievement award. (May 2014)

The LeapFrog Group "A" Score – Saint Francis Hospital and Medical Center has again received an "A" rating Hospital Safety Score℠ from The Leapfrog Group, a national hospital quality watchdog organization. This is the 5th consecutive "A" rating received by Saint Francis from The Leapfrog Group. Saint Francis was one of two hospitals in the state to receive an "A" grade from Leapfrog in the latest rating for spring 2014, and the only hospital to receive the "A" rating in both the fall and spring. Among the 25 Connecticut hospitals, 8 received a "B," 13 received a "C," one received a "D," and one received an "F." Scores went down for four hospitals, while three hospitals improved their scores. (April 2014)

Women's Choice Award – Saint Francis Hospital and Medical Center has received the Women's Choice Award from WomenCertified®, distinguishing it as one of the 2014 Best Hospitals for Patient Experience in Heart Care. The award is based on robust criteria that include female patient satisfaction measurements as well as clinical excellence considerations. WomenCertified® represents the collective voice of female consumers and is a trusted referral source for top businesses and brands identified as meeting the needs and preferences of women. (January 2014)

Becker's Hospital Review – Saint Francis Hospital and Medical Center was named on Becker's Hospital Review list of "100 Hospitals with Great Orthopedic Programs." The announcement recognizes orthopedic surgery departments, programs or dedicated centers that have earned special recognition. Saint Francis is the only Connecticut hospital on the list. (January 2014)

Becker's Hospital Review– Saint Francis Hospital and Medical Center was named on the Becker's Hospital Review list of *100 Hospitals with Great Heart Program*. Becker's rates hospitals based on recognition for quality care, clinical awards and research contributions to cardiovascular care. (December 2013)

Alliance of Independent Academic Medical Centers (AIAMC) – Saint Francis *Care* received the *2014 Innovation Award* from the Alliance of Independent Academic Medical Centers (AIAMC) in recognition of the innovative medical education programs for residents, physicians and staff that have resulted in better patient outcomes. This is the second time the Hospital received the Innovation Award. (December 2013)

Association of American Medical Colleges – The Innovation + Learning Center at Saint Francis was one of national 13 recipients to receive the *Association of American Medical Colleges Learning Health System Challenge and Planning Award*, which recognizes innovations in medical education, care delivery, research, and diversity and inclusion. At Saint Francis, the award was given for emphasis on studying efforts to improve everyday clinical practice and health equity in an accountable care environment across the system. (December 2013)

Healthgrades® – Saint Francis *Care* was recognized for clinical excellence in a new national report by Healthgrades, a leading provider of information to help consumers make an informed decision about a physician or hospital. Saint Francis has received top national rankings in the most recent *American Hospital Quality Outcomes 2014: Healthgrades Report to the Nation*, which evaluates hospital performance at over 4,500 hospitals nationwide for 31 of the most common inpatient procedures and conditions. Saint Francis ranks among the top 5% nationally in Coronary Interventional Procedures, Overall Orthopedic Services, and, for the second year in a row, Joint Replacement; and the top 10% for Spine Surgery. (October 2013)

The LeapFrog Group "A" Score – Saint Francis Hospital and Medical Center has received an "A" rating Hospital Safety Score℠ from The Leapfrog Group, a national hospital quality watchdog organization. The Hospital Safety Score℠ for fall 2013 grades hospitals on their overall performance in keeping patients safe from harm and preventable errors. This is the fourth consecutive "A" rating received by Saint Francis from The Leapfrog Group. The grades are derived from expert analysis of publicly available data using 28 evidence-based, national measures of hospital safety. Saint Francis was one of three hospitals in the state to receive an "A" grade from Leapfrog in the rating for fall 2013, and one of only two to receive the honor twice this year. Among Connecticut hospitals, 7 received a "B," 15 received a "C," one received a "D," and one received an "F." (October 2013)

Daily Point of Light Award – Points of Light, the world's largest volunteer organization, named Michael R. Bourque, M.D., a senior OB/GYN physician at Saint Francis Hospital and Medical Center, a *Daily Point of Light Award* honoree for his leadership role on the "Blue Team," a medical missionary team with International Medical Missions of Saint Francis Hospital and Medical Center. Dr. Bourque is the recipient of this prestigious award honoring his commitment to bringing first-class medical services to those in need. (October 2013)

CareChex® – Saint Francis Hospital and Medical Center was recognized by CareChex®, a division of Comparion Medical Analytics, for patient safety and medical excellence achievements in numerous categories in its 2014 hospital quality award rankings. Saint Francis ranked #1 in Connecticut in 24 clinical and surgical areas for patient safety and medical excellence. In the area of Patient Safety: Overall Hospital Care, Overall Surgical Care, Cardiac Care, Coronary Bypass Surgery, Gastrointestinal Care, Gastrointestinal Hemorrhage, Interventional Coronary, Joint Replacement, Major Bowel Procedures, Major Neuro-Surgery, and Major Orthopedic

Surgery. For Medical Excellence: Overall Hospital Care, Overall Surgical Care, Coronary Bypass Surgery, Gastrointestinal Care, General Surgery, Interventional Coronary Care, Joint Replacement, Major Bowel Procedures, Major Neuro-Surgery, Orthopedic Care, Major Orthopedic Surgery, Spinal Fusion, and Spinal Surgery. (October 2013)

IBCLC Care Award – Saint Francis Hospital and Medical Center received *IBCLC Care Award* from the International Board of Lactation Consultant Examiners® (IBLCE®) and International Lactation Consultant Association® (ILCA®) for excellence in lactation care. The recognition is given to facilities that: have a lactation program that is available 5-7 days a week; provided recent breastfeeding training for medical staff; and have recently completed activities that help protect, promote, and support breastfeeding. (August 2013)

American Heart Association/American Stroke Association *Get With the Guidelines Gold Plus Award* – Saint Francis Hospital and Medical Center received the *Get With The Guidelines®–Heart Failure Gold Plus Quality Achievement Award* from the American Heart Association. The recognition signifies that Saint Francis has reached an exceptional goal of treating heart failure patients according to the guidelines of care recommended by the American Heart Association/American College of Cardiology. This marked the second consecutive year that Saint Francis has been recognized with the *Gold Plus* quality achievement award. Saint Francis was one of just three hospitals in Connecticut to receive *Gold Plus* recognition that year. (August 2013)

Consumer Reports – *"Best Hospital for Surgery"* – Saint Francis Hospital and Medical Center was one of two statewide hospitals to receive the highest ranking available by Consumer Reports Health Ratings Center in their *"Best Hospitals for Surgery"* Ratings report appearing in the September 2013 issue of Consumer Reports magazine. Of the almost 2,500 hospitals rated by Consumer Reports in all 50 states plus Washington, D.C. and Puerto Rico, Saint Francis Hospital and Medical Center received not only the highest overall surgery Rating in state rankings, it was also named among the top five U.S. hospitals that perform the safest knee and hip replacement surgeries, and the only hospital rated in these two categories in the state. (July 2013)

Most Wired – 2013 – Saint Francis Hospital and Medical Center was recognized as one of the nation's *Most Wired* hospitals, according to the results of the 2013 *Most Wired* Survey published in the July issue of Hospitals & Health Networks magazine. Named to the *Most Wired* list for the fourth consecutive year, Saint Francis is one of only eight hospitals in Connecticut to be recognized on the *Most Wired* list that year. (July 2013)

U.S. News & World Report – Best Hospitals – Saint Francis Hospital and Medical Center ranked #3 in the state of Connecticut and #2 in the Hartford metro area, gaining high scores in eight specialties and in patient safety, in the *U.S. News & World Report* ranking of Best Hospitals in the U.S. Top performing specialties at Saint Francis listed in the *U. S. News & World Report* annual rankings of Best Hospitals include Cardiology and Heart Surgery, Diabetes and Endocrinology; Gastroenterology and GI Surgery, Geriatrics, Nephrology, Orthopedics, Pulmonology and Urology. (July 2013)

The LeapFrog Group "A" Score – For the third consecutive year, Saint Francis Hospital and Medical Center was again honored with an "A" Hospital Safety Score by The Leapfrog Group, an independent national nonprofit run by employers and other large purchasers of health benefits.

The A score was awarded in the latest update to the Hospital Safety Score℠. The A, B, C, D or F scores are assigned to U.S. hospitals based on preventable medical errors, injuries accidents, and infections. The Hospital Safety Score was compiled under the guidance of experts on patient safety and is designed to give the public information they can use to protect themselves and their families. (May 2013)

HealthGrades® Patient Safety Excellence Award™ – Saint Francis Hospital and Medical Center received the *Healthgrades 2013 Patient Safety Excellence Award™*, according to Healthgrades, the leading online resource that helps consumers search, evaluate, compare and connect with physicians and hospitals. The distinction placed Saint Francis within the top 5% of all hospitals for its excellent performance in safeguarding patients from serious, potentially preventable complications during their hospital stays. This was the third consecutive year that Saint Francis received this prestigious award. Saint Francis was the only hospital in Connecticut to achieve this distinction in 2013. (April 2013)

Practice Greenhealth/Partner for Change Award – for leadership in prioritizing our environmental performance and demonstrating our commitment to a higher standard of excellence in sustainability. This is the fifth time Saint Francis earned this distinction. (April 2013)

CareChex – According to a 2011 CareChex national hospital quality study, Saint Francis Hospital and Medical Center was #1 in the State in the category of "Medical Excellence" for: Major Cardiac Surgery, Coronary Bypass Surgery, Interventional Coronary Care, Joint Replacement, Major Bowel Procedures, Orthopedic Care, Major Orthopedic Surgery, Spinal Surgery, and Trauma Care. Additionally, Saint Francis was #1 in the State for Patient Safety in the areas of: Overall Hospital Care, Overall Surgical Care, Cardiac Care, Major Cardiac Surgery, Coronary Bypass Surgery, Interventional Coronary Care, Joint Replacement, Major Bowel Procedures, Major Neuro-Surgery, Major Orthopedic Surgery, Stroke Care, and Trauma Care. (January 2013)

The LeapFrog Group "A" Score – *Saint Francis Hospital and Medical Center* was honored with a second consecutive "A" Hospital Safety Score℠ by The Leapfrog Group, a nationally recognized organization founded by a consortium of Fortune 500 companies and other large public healthcare purchasers representing 37 million American consumers nationwide. Saint Francis was the largest hospital in Connecticut to merit this distinction, and one of only six statewide to receive this recognition. The Hospital Safety Score℠ was calculated under the guidance of The Leapfrog Group's Blue Ribbon Expert Panel using publicly available data on patient injuries, medical and medication errors, and infections. U.S. hospitals were assigned an A, B, C, D, or F for their safety records. (November 2012)

Connecticut Breastfeeding Coalition – Saint Francis Hospital and Medical Center received an award of recognition from the Connecticut Breastfeeding Coalition for its contributions to the health of Connecticut's mothers and children through the Connecticut Breastfeeding Initiative 2010-2012. (October 2012)

Healthgrades® – Saint Francis *Care* was listed as #1 in Connecticut for joint replacement outcomes and is one of America's 100 Best Hospitals for Joint Replacement. Saint Francis *Care* also earned a 5-star rating from Healthgrades in additional clinical areas for the treatment of: heart failure, back and neck surgery, stroke, pneumonia, GI bleed, respiratory failure, diabetic

acidosis and coma. This is according to a report from Healthgrades, *American Hospital Quality Outcomes 2013: Healthgrades Report to the Nation*. Healthgrades is the leading provider of information to help consumers make an informed decision about a physician or a hospital. (October 2012)

HAVEN Employer Engagement Award – this award was presented to Saint Francis by the Health Assistance InterVention Education Network (HAVEN). The award recognized employers who, through human resources, employee assistance, and/or occupational health, have developed ways to help employees confront the challenges of physical and mental illness with dignity and compassion. (October 2012)

"I Am Who I Am" – recognized by the Walk In the Light Ministries and by Archbishop Louella Tate as an organization that has helped Hartford become a role model for other cities. (September 2012)

National Air Filtration Association (NAFA) Clean Air Award – recognized for leadership and excellence in the use of high efficiency air filtration products and good maintenance practices. It is presented to those who show an outstanding effort in maintaining a clean and healthy indoor work environment, while reducing overall operating costs. (September 2012)

***Most Wired* – 2012** – recognized by *Hospitals & Health Networks Magazine* for making progress toward adoption of Information Technology. (July 2012)

Connecticut Quality Improvement Award Gold Prize – given to Saint Francis Hospital by the Connecticut Quality Improvement Association for our work in improving the Universal Protocol in our operating room, using the Safe Surgery Checklist. (June 2012)

The LeapFrog Group "A" Score –Saint Francis Hospital and Medical Center was only one of four hospitals in the state to receive an "A" grade on the organization's Hospital Safety Score. The Hospital Safety Score℠ was calculated under the guidance of The Leapfrog Group's Blue Ribbon Expert Panel using publicly available data on patient injuries, medical and medication errors, and infections. U.S. hospitals were assigned an A, B, C, D, or F for their safety. (June 2012)

HealthGrades® Patient Safety Excellence Award™ – for patient safety indicators from the Agency for Healthcare Research and Quality (AHRQ) to identify patient safety incidence rates, placing Saint Francis in the top 5% in the nation for patient safety, and the only Connecticut hospital to achieve this distinction. (May 2012)

American Heart Association/American Stroke Association *Get With the Guidelines Gold Plus Award* – to the Hoffman Heart and Vascular Institute for providing excellent care to heart failure patients. Saint Francis was one of only three hospitals statewide to receive this award. (May 2012)

***Silver Healthy Hospital Award*, Stryker** – for outstanding performance in reducing environmental harm and improving overall hospital quality through medical device remanufacturing and reprocessing. For 2011, Saint Francis saved $235,600 and had a total waste avoidance of 11,900 pounds. (April 2012)

Outcome Excellence Award – the outpatient rehabilitation staff at 95 Woodland Street received this award from Focus on Therapeutic Outcomes (FOTO) for exceeding the predicted national target for outcomes and patient satisfaction over a one-year period. The targets were met for two consecutive years, for both 2010 and 2011. (April 2012)

2012 Top Performer – the inpatient rehabilitation team at Mount Sinai Rehabilitation Hospital received an Outstanding Performance Award from the Uniform Data Systems database for its top ten percent ranking out of 800 programs across the United States. (April 2012)

The Blue Ribbon Award – for the John T. O'Connell Tower presented at the 17th Annual Awards Showcase from the Real Estate Exchange. This is the most significant annual awards event in commercial real estate in Connecticut and a celebration of excellence in the industry. (April 2012)

The BUILDCT 2012 Award – for the John T. O'Connell Tower best new large construction project greater than $10 million from the Association of General Contractors. The award was given to Saint Francis Hospital and Medical Center; TRO/Jung Brannen, the architect and engineer; and Turner Construction Company, the construction manager. (March 2012)

Connecticut Quality Improvement Award Silver Innovation Prize – for the creation of the Connecticut Institute for Primary Care Innovation. (August 2011)

American Heart Association/American Stroke Association Get With The Guidelines Gold Plus Award – for achievement in using evidence-based guidelines in the treatment of stroke patients. (August 2011)

Most Wired – 2011 – recognized by *Hospitals & Health Networks Magazine* for making progress toward adoption of Information Technology. (July 2011)

Community Value Five-Star Hospital – recognized by Cleverly & Associates, a healthcare industry intelligence and education consultancy for value provided to the community, based on financial viability, facility reinvestments, low-cost structures, and high-quality patient care. (July 2011)

Practice Greenhealth Partner for Change with Distinction – for outstanding environmental achievement in healthcare. (April 2011)

HealthGrades® Patient Safety Excellence Award™ – for patient safety indicators from the Agency for Healthcare Research and Quality (AHRQ) to identify patient safety incidence rates. (March 2011)

The American Society for Metabolic and Bariatric Surgery and the Surgical Review Corporation Bariatric Surgery Center of Excellence® Designation – for demonstrating an unparalleled ability to consistently deliver safe, effective, evidence-based care. (March 2011)

Focus on Therapeutic Outcomes, Inc. Outcomes Excellence Award – for exceeding the national average for functional change in the patients treated at the Center for Rehabilitation and Sports Medicine. (March 2011)

The American College of Cardiology Foundation NCDR ACTION Registry Gold Performance Award – for implementing a higher standard of care and reaching the aggressive goal of treating coronary artery disease patients with 85 percent compliance with American College of Cardiology/American Heart Association clinical guidelines and recommendations. (December 2010)

The American Alliance of Healthcare Providers Choice Award – for implementing an excellent healthcare program that successfully results in courteous, compassionate, and caring service to patients, families, and the community. (July 2010)

Most Wired "Most Improved" Award – for the Hospital's level of achievement in business and administrative management, clinical quality and safety, continuum of care, and infrastructure. Based on a survey by *Hospitals & Health Networks* Magazine, McKesson Corporation and the College of Healthcare Information Management Executives. (July 2010)

Practice Greenhealth Partner for Change Award – for continuously improving and expanding upon mercury elimination, waste reduction and pollution prevention. Presented by Practice Greenhealth, a national membership organization for healthcare facilities committed to environmentally responsible operations. (May 2010)

Anthem Blue Cross and Blue Shield Blue Distinction Center for Knee and Hip Replacement – In recognition of clinical excellence in knee and hip replacement surgery. (January 2010)

American Heart Association/American Stroke Association *Get With The Guidelines Gold Plus Performance Achievement Award* – In recognition of implementing excellent care for stroke patients, according to evidence-based guidelines. (January 2010)

U.S. Department of Health and Human Services Silver-2 Medal – In recognition of efforts promoting organ donation. (October 2009)

Employer Support of the Guard and Reserves Program – Connecticut Above and Beyond Award for support of Hospital employees who are members of National Guard and Reserves. (July 2009)

Practice Greenhealth Partner for Change Award – for continuously improving and expanding upon mercury elimination, waste reduction and pollution prevention. Presented by Practice Greenhealth, a national membership organization for healthcare facilities committed to environmentally responsible operations. (May 2009)

ENERGY STAR Label – for superior energy efficiency and environmental protection. Awarded by the U.S. Environmental Protection Agency. Saint Francis was previously awarded ENERGY STAR labels in 2003 and 2006. (April 2009)

Connecticut Breastfeeding Coalition Breastfeeding Friendly Employer Award – Given for Saint Francis' efforts in supporting breastfeeding by working mothers. (January 2009)

American Stroke Association Get with the Guidelines℠ Silver Achievement Award – Given in recognition of Saint Francis' commitment and success in implementing a higher standard of care for stroke patients. To achieve the GWTG-Stroke Silver Achievement Award, Saint Francis consistently followed the treatment guidelines in the GWTG-Stroke program for 12 months. (December 2008)

UnitedHealthcare Premium® Specialty Center for Total Joint Replacement – Given with the designation of ***One Star*** and ***Higher Efficiency***. The program uses national industry standards, medical specialty society and consensus standards to evaluate specialty center programs focused on total joint replacement for the purpose of advancing safe, timely, effective, efficient, equitable and patient-centered care. (September 2008)

American Alliance of Healthcare Providers Hospital of the Year – Top 10 Finalist in 2008 Hospital of the Year Awards, which recognizes the country's most consumer-friendly hospitals. (August 2008)

HealthGrades® 2009 Spine Surgery Excellence Award – This award places Saint Francis among the top 10 percent of hospitals nationwide for spine surgery. (July 2008)

2008 Most Wired Survey and Benchmarking Study – Most Improved Award for information technology enhancements in the survey conducted by *Hospitals & Health Networks* magazine in conjunction with Accenture, McKesson Corp. and the College of Healthcare Information Management Executives. (July 2008)

Connecticut Quality Improvement Award Silver Innovation Prizes – Three awards for projects that streamlined critical areas of healthcare: the treatment of heart attacks, transferring patients from the Emergency Department to nursing units, and vaccinating staff against season influenza outbreaks. (July 2008)

American Stroke Association Get With the Guidelines℠ – Stroke Bronze Performance Award – for Saint Francis' commitment and success in implementing a higher standard of stroke care by ensuring that stroke patients receive treatment according to nationally accepted standards and recommendations. To achieve the GWTG-Stroke Bronze Performance Achievement Award, Saint Francis consistently followed the treatment guidelines in the GWTG-Stroke program for 90 days. (May 2008)

Practice Greenhealth Partner for Change Award – for working to reduce mercury, reduce waste and prevent pollution. Presented by Practice Greenhealth, formerly Hospitals for a Healthy Environment (H2), a source of environmental solutions for the healthcare industry. The award honors organizations creating healthy, healing environments committed to eliminating mercury, reducing pollution and recycling waste. (May 2008)

2008 Alliance Innovation Award – Saint Francis Hospital and Medical Center was named an *Alliance Innovation Award* winner by the Alliance of Independent Academic Medical Centers (AIAMC). The award was presented to Saint Francis for its demonstrated leadership in utilizing graduate medical education as a key driver to improve quality, patient safety, and the cost-effectiveness of care. These creative and innovative approaches to medical education and research have resulted in better patient outcomes. (April 2008)

American Alliance of Healthcare Providers 'Hospital of Choice' Award for First Quarter of 2008 – for consumer friendliness and unparalleled commitment to good citizenship and community service, based on a review of public information, Web site, news releases, announcements, phone surveys of Hospital staff and application review. (April 2008)

Verispan 100 Most Highly Integrated Healthcare Networks Best of the Rest – a Tier 2 category rating for integrated healthcare networks based on eight categories: integrated technology, contractual capabilities, outpatient utilization, financial stability, service and access, hospital utilization and physicians. (February 2008)

United Healthcare Premium Specialty Center – for cardiac care, spine and total joint replacement surgery. The designations signify that Saint Francis has met rigorous quality criteria based on nationally recognized medical standards and expert advice. They are based on detailed information about specialized training, practice capabilities and proficiencies submitted by Saint Francis to United Healthcare. (January 2008)

CQIA Silver Innovation Prize – for being early adopters of bar code point of care (BPOC) technology to prevent errors during medication administration. BPOC systems use a bedside computer and a variety of clinical information systems to cross check bar codes that are printed on patient wristbands with those bar codes printed on medications. In addition to new bedside technology, the BPOC involved an extensive process within the Pharmacy Department. All 2,800 inventoried products required bar code recognition by the Hospital's clinical information system. In the first six months after implementation, 75 percent of inpatient areas were using this technology and 350,000 medication doses had been bar coded. The CQIA Silver Innovation Award is the nation's oldest, state-level quality award program. (October 2007)

U.S. Department of Health and Human Services Medal of Honor – for achieving at least a 75 percent organ donation rate among eligible patients. This was the third year in a row that Saint Francis received this award. Saint Francis is the only hospital in Connecticut and Western Massachusetts to receive the medal three years in a row. (October 2007)

AHA Nova Finalist – Hartford Regional Lead Treatment Center and Lead Safe House Program, which are based at Saint Francis Hospital and Medical Center, named one of ten finalists for the American Hospital Association's Nova Award, which recognizes programs that improve community health status and are collaborative in nature. The Hartford Regional Lead Treatment Center serves patients both at Saint Francis and the Connecticut Children's Medical Center. (August 2007)

Blue Center of Distinction – designated a *Blue Center of Distinction for Cardiac Care* by the Blue Cross and Blue Shield Association. The nationwide program recognizes those hospitals that meet stringent quality criteria, as established by expert physician panels and national organizations. *Blue Distinction Centers* are required to provide a full range of cardiac services, including inpatient care, cardiac rehabilitation, angioplasty and cardiac surgery. (June 2007)

Hospitals for a Healthy Environment – received the Partners for Change Award in recognition of achievements in improving environmental performance. Also received the Making Medicine Mercury-Free Award for eliminating the use of mercury in medical devices. Hospitals for a

Healthy Environment (H2E) is an independent, not-for-profit organization founded by the American Hospital Association, the Environmental Protection Agency, Health Care Without Harm and the American Nurses Association. H2E is focused on improving healthcare environmental performance. (May 2007)

Five-Star Hospital – recognized as a Community Value Provider by Cleverly + Associates, a Columbus, Ohio, healthcare financial consulting firm. Based on the Community Value Index™, a proprietary index that offers a measure of the value that a hospital provides to its community based on financial strength and reinvestment, cost of care and pricing. (April 2007)

The President's Volunteer Service Award – for the service of more than 700 individuals who volunteered at the Hospital in 2006, contributing over 67,400 hours of service to Saint Francis. Presented by the President's Council on Service and Civic Participation on behalf of President George W. Bush to recognize the best in the American spirit and encourage Americans to contribute to their communities through volunteer service. (January 2007)

CareScience Select Practice National Quality Leader – for excellence in overall hospital quality and efficiency. The award placed Saint Francis among the top 1 percent of performers across 4,500 acute care hospitals in the United States as identified by CareScience, a hospital consulting firm. It was based on 16 clinical indicators for both quality and efficiency. (November 2006)

ENERGY STAR Label – for prudent energy management strategies and proven technologies. Awarded by the U.S. Environmental Protection Agency and U.S. Department of Energy. Saint Francis was first awarded an ENERGY STAR label in 2003. (November 2006)

eHealthcare Strategy & Trends Silver Award – in the category "Best Rich Media" in the Physician/Clinician-Focused Site class for the Hospital's web site Grand Rounds Online feature. Since their introduction in April, 15 Grand Rounds presentations were made available to physicians online. After viewing a presentation online, physicians are able to obtain Continuing Medical Education credit by successfully completing a short quiz. (November 2006)

U.S. Department of Health and Human Services Medal of Honor – for achieving at least a 75 percent organ donation rate among eligible patients. This was the second year in a row that Saint Francis received this award. In the most recent reporting period, Saint Francis secured permission from family members for 11 organ donations out of 13 potential donors. Saint Francis was just one of two hospitals in Northern Connecticut and Western Massachusetts to receive the medal this year. (October 2006)

HealthGrades® Orthopedic Surgery Excellence Award – for superior clinical outcomes in the ninth annual *Hospital Quality in America* study. This award placed Saint Francis among the top 10 percent of hospitals nationwide for orthopedic care. (October 2006)

Leapfrog Top 50 Hospitals – for meeting the quality and safety standards of the Leapfrog Group, a consortium of Fortune 500 companies and other large public healthcare purchasers representing 37 million American consumers. Saint Francis was the only hospital in Connecticut to achieve this distinction. Leapfrog identifies its "Top Hospitals" based on their implementation of practices with the greatest life-saving potential, including computerized physician order entry

(CPOE), ICU physician staff, evidence-based hospital referral and the Leapfrog Safe Practices Score. (October 2006)

2006 BEACON Medical Technology Award – for the Hospital's significant investment in advanced technology in the acquisition of the CyberKnife® stereotactic radiosurgery system. The award was presented by the Biomedical Engineering Alliance & Consortium (BEACON), a regional trade association for the advancement of new medical technology. It recognizes innovative approaches that help Connecticut establish a leadership position in the field of medical technology. (October 2006)

Sacred Heart University College of Education and Health Professions 2006 Community Partner Award – for collaboration with the College's Nursing Department to develop and implement the R.N. to B.S.N. program offered at Saint Francis Hospital and Medical Center. This was the first year that the award was given to an individual or organization who has demonstrated exceptional collaboration to further the educational goals and mission of the College. Saint Francis was one of two recipients honored that year. (October 2006)

HealthGrades® Third Annual Patient Safety in American Hospitals Study – for best performing hospitals for overall patient safety. Saint Francis was one of 238 hospitals identified as reaching the top 15 percent nationwide for patient safety. This award was presented by HealthGrades, a healthcare ratings company. As a category, Medicare patients at these top 15 percent hospitals experienced patient safety incidents, on average, 43.27 percent less often than patients at the bottom 15 percent of all hospitals. (October 2006)

CQIA Silver Innovation Prize – for a project that optimized care in patients with congestive heart failure (CHF). Taking note of the fact that each year nearly 900 patients are admitted to the Hospital with CHF, the Congestive Heart Failure Service decided to establish Connecticut's first dedicated unit to provide comprehensive care for CHF patients. Outcomes for patients treated on the CHF unit have been demonstrably better than those of other CHF patients. The CQIA Silver Innovation Award is the nation's oldest, state-level quality award program. (July 2006)

Solucient 100 Top Hospitals® Performance Improvement Leader – for improving faster and more consistently than its peer hospitals across the nation. Nine performance measures were examined including risk adjusted mortality and complications, average length of stay, expenses, profitability, cash-to-debt ratio, growth in percent of community served, tangible assets and risk adjusted patient safety index. Saint Francis was recognized as one of the hospitals that achieved the fastest rate of consistent annual clinical and organizational improvement over a five-year period. (April 2005)

Solucient 100 Top Hospitals® – for setting benchmarks for the industry in such areas as quality of care, efficiency, financial performance, growing community service and patient safety. This marked the seventh time that Saint Francis was named to the prestigious list of the nation's Top 100 hospitals. At the time, Saint Francis was the only hospital in Connecticut to be named to the Top 100 list on seven or more occasions. (February 2005)

Solucient 100 Top Hospitals® – for setting performance benchmarks across four critical areas: quality of care, operational efficiency, financial performance and adaptation to the environment. This marked the sixth time that Saint Francis had been named to the prestigious

list. At the time, Saint Francis was the only major teaching hospital to be named to the Top 100 list on six occasions. (May 2004)

Solucient Performance Improvement Leader – for developing consistent and effective organization-wide performance improvement across critical measures at a faster rate than other U.S. hospitals between 1997 and 2001. Those measures include quality of care, operational efficiency and financial performance. Among 123 major teaching hospitals included in the study, Saint Francis' cumulative scored placed it in the 99th percentile. This signifies that Saint Francis' rate of improvement over the five years was higher and more rapid than 98 percent of the other major teaching hospitals studied by Solucient. (March 2004)

Re: DEEP Consent Order Number WC 5506
Town of Stafford, Connecticut
Status Report

Dear Mr. Inglese:

This status report is provided in reply to your letter of March 19, 2015 and supplements my letter to you of April 16, 2015.

Johnson Memorial Medical Center ("JMMC") remains in reorganization under the federal bankruptcy code pursuant to a case styled: *In RE: Johnson Memorial Medical Center, Inc.*, Docket Number 15-20056, dated January 14, 2015. As such JMMC may not take on financial obligations without first seeking approval of the bankruptcy court.

JMMC remains committed to the development of gas, sewer and water lines, as described in my letter of April 16, 2015. It is now apparent that many of the steps required in your letter of March 19, 2015 will become the responsibilities of others under the Plan of Reorganization.

Moreover, JMMC just received a letter from the First Selectman of the Town of Stafford on July 23, 2015, which provides an outline of the possible construction of gas, sewer and water lines from the Town of Stafford. The communication didn't provide enough detail to address the financial projection methodology. Given the aforementioned future reorganization of JMMC, I am sure you can appreciate our need for all parties to perform due diligence given the cost of the project.

There will be other questions as well from the buyers of the JMMC properties. Pursuant to the bankruptcy plan, JMMC intends to sell its properties to third parties. Those third parties will be the real parties in interest should the sales be approved by the bankruptcy court and will be the parties who actually participate in the construction, financing and use of the utility improvements. JMMC, along with the potential owners will be involved in the negotiations with the Town of Stafford concerning the improvements.

On the current schedule, JMMC expects to have approval of its sale of the nursing home property sometime within the next 90 days and regulatory and court approval of the sale of the hospital in approximately 180 days.

After discussing the matter with counsel, our original conclusion remains valid: it would be difficult in good faith to propose a date before September 30, 2016 as a date for completion of the utility improvements, and even this assumes a very aggressive schedule. September 30, 2017 may be more realistic.

As you may know, the utility project will require a successful Town of Stafford referendum, which we believe will be scheduled for sometime mid-fall. As with any decision requiring a vote, it is difficult to forecast the results of the referendum.

We will continue to keep you updated on our progress. In the interim, if you have any questions, please do not hesitate to contact me directly at (860) 684-8101.

Thank you.

Sincerely,

Stuart E. Rosenberg
President and CEO

RE: Deep Consent Order Number WC 5506
Town of Stafford

Dear Mr. Inglese:

I am in receipt of your letter of approval dated March 19, 2015. Thank you for your response and good faith extension provided with regard to Consent Order Number WC 5506 to July 31, 2015. While we appreciate the Department of Energy and Environmental Protection's ("DEEP") position with regard to this matter, we have some thoughts regarding the extension date and the conditions under which the extension is granted.

As you may be aware, Johnson Memorial Medical Center ("JMMC") is currently in reorganization under the federal bankruptcy code pursuant to a case styled: *In RE: Johnson Memorial Medical Center, Inc.*, Docket Number 15-20056, dated January 14, 2015. As such, JMMC may not take on financial obligations without first seeking approval of the bankruptcy court.

JMMC believes that its participation in the project to bring water, gas and sewer service to the area is key; however, many of the documents referenced in the approval letter, to our knowledge, have not yet been developed beyond a conceptual form and may take 3-6 months to reach completion. While JMMC fully expects to be involved in the negotiation of terms that are applicable to it, preparation of those agreements is the responsibility of others. In addition, there are many other considerations that will ultimately drive the design and construction schedule for the project.

As a result, JMMC is not in a position today to commit that the required action items 1-4 can be drafted, reviewed, have any necessary discussions, presented to the court and completed by July 31, 2015.

Johnson Memorial Hospital
201 Chestnut Hill Road
Stafford Springs, CT 06076

Home & Community Health Services
101 Phoenix Avenue
P.O. Box 1199
Enfield, CT 06083
860-763-7600

With regard to the first condition noted in the approval letter, JMMC has already executed a Letter of Interest with the Town of Stafford, including the removal of language with reference to any pre-project deposits, as mutually agreed to by JMMC and the Town of Stafford. A copy of the fully-executed Letter of Interest is attached for you information.

After discussing the matter with our counsel it would be difficult in good faith to propose a date before September 30, 2016. And even this, I am told, is an aggressive schedule.

In addition, the project requires a successful Town of Stafford referendum, which to our knowledge has not yet been scheduled. We are unaware of the development of an out-reach campaign to inform the voters of the benefits of the project and we assume the referendum is another item which is awaiting the development of the specifics of the project.

At this time, we respectfully request either a conference in person or a conference call to discuss the conditions outlined in the Approval letter so we can reach mutually-agreeable terms and conditions with regard to this matter.

If you have questions regarding this request please contact me at your earliest convenience.

Sincerely,

Stuart E. Rosenberg

Re: Letter of Interest in Utility Expansion Project

Dear JMMC:

This letter confirms your interest to participate in the Town's comprehensive utility expansion project. The opportunity to improve our infrastructure has been afforded by the Governor's vision to deliver low cost natural gas to consumers, also expanding water and sewer service simultaneously where appropriate. The Town is leading the effort to coordinate the construction of the three utilities concurrently so these savings of lower unit costs and overlapping non-essential expenses can be passed directly on to you. If approved, you will have the benefit of being served by one or more of these utilities.

As you know, the Town of Stafford and the State are negotiating with Yankee Gas a new methodology in delivering needed infrastructure to end users like yourself at the lowest possible cost. In addition to Yankee Gas, the Connecticut Water Company and Stafford's Water Pollution Control Authority (collectively, the "Utility Companies") are collaborating with the Town to deliver service at the least cost to the consumer. This collaborative initiative allows the Town to make the following commitments as the lead entity in managing and controlling the costs of the project.

1. Comprehensive design, regulatory permitting and coordination of all three utilities.
2. Construction administration and oversight.
3. Finance - both short term construction financing and long term bonding. (20 yr. term)
4. Collection of special revenue assessments from consumers to service the debt.

The appropriation and bond authorization will require approval by various Town boards and commissions, and by the voters of the Town at a Special Town Meeting or Referendum vote.

Title VI of the Civil Rights Act of 1964 prohibits discrimination on the basis of race, color, or national origin in programs and activities receiving Federal financial assistance. Specifically, Title VI provides that "no person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance." (42U.S.C. Section 2000d).

We are now at a critical milestone and, before we can continue with the project, the Town will require assurances from the key, primary "Anchor Customers" as our next step in the process. Thus, the Town is seeking your commitment as a willing, voluntary participant in the project by acknowledging that you fully understand how the plan works and the obligations that come with it, ~~including the contribution described below~~. The Town has identified the following businesses as the Anchor Customers.

1. 3 M Corporation
2. Johnson Memorial Medical Center
3. TTM Corporation
4. American Woolen Corporation
5. Big-Y Corporation

Your individual contribution has been calculated and reviewed with you independent of this letter. To summarize, the contribution was based on your percentage of the total estimated gas "Portfolio Load" consumed by the five Anchor Customers and the Town as calculated at this time. The contribution also includes additional assessments for extension of the sewer and water utilities for those businesses having special need for these services.

Your voluntary commitment will require a Letter of Intent to be signed and returned to the Town by January 28, 2015, which will commit you to the following terms:

1. ~~A deposit representing 2% of your estimated project contribution will be made payable to the Town of Stafford. This equates to $121,620 based on a total estimated project cost contribution of $6,080,870. The deposit will be held in escrow to be used for all or part of the first long-term bond payment once approved by a Special Town Meeting or Bond Referendum. This first payment will be due after your utility service(s) are operational to your site.~~

2. ~~During the pre-bond period, the Town will have the right to use the deposit to pay~~ for professional and consultant costs it incurs in bringing the project through the Town approval process. ~~Costs that may be incurred are those necessary to prepare for the long term bonding vote by the Town, preliminary design, borings, survey costs and other necessary incidentals required for regulatory approvals and permitting. During the pre-bond approval period, we will advise you monthly of expenses and obligations we are incurring on your behalf. Your share of any expense will be equal to your percentage of the total project contribution of the Anchor Customers and the Town. The maximum out-of-pocket risk dollars to you is 50% of your contribution. Prior written authorization shall be required by the Town from you to spend more than 50% under terms approved by both parties at that time. Should the Town reject the project and fail to fund it, we will return any unused portion of your deposit.~~

3. The Town will enter into a "Developer's Utility Agreement" with you, executable within 30 days of the approval by the Town, for both the short term and long term project financing.

Both parties acknowledge that this letter is not intended as, and does not constitute, a binding agreement for the Town or the Utility Companies to provide any services to you, or for you to enter into a service agreement with any of these Utility Companies. This letter is only intended to confirm your desire to utilize these services should they be built. ~~Your deposit constitutes tangible proof of your commitment to this project and the commitment of each of the other Anchor Customers.~~

If you agree to the terms described in this letter, please sign and return one copy of this letter to me, ~~together with your check made payable to "Town of Stafford." The check will be held in escrow for use as described in paragraph one (1) and two (2) above.~~ Thank you, and we look forward to working with you and all interested parties to make this important project a reality.

Very truly yours,

Re: Johnson Memorial Hospital
DEEP Consent Order No. WC 5506
Town of Stafford

Dear Mr. Rosenberg:

This is in response to your letter dated December 4, 2014 requesting an extension to the December 31, 2014 compliance deadline for Johnson Memorial Hospital to connect to the Town of Stafford municipal sanitary sewer pursuant to paragraph B.1.b.(2) of CT DEEP ("Department") Consent Order No. WC 5506. You indicate in your letter that Johnson Memorial Hospital is working with the Town of Stafford, Yankee Gas, CT Water and others to bring water, gas and sewer service into your area. The Department is very supportive of this effort as it will enable the Hospital to obtain substantial energy cost savings while, at the same time, meet its long term sewage disposal needs and achieve compliance with the requirements of Consent Order No. WC 5506.

It is the Department's understanding that the Town of Stafford will need to pursue local funding in support of the economic development project and is reliant upon, in particular, the Hospital to provide necessary commitments for repayment of its share of the estimated project costs. Further, the broader project cannot proceed until the necessary funding is arranged--preferably over the next several months. While your letter specifically requests a two year extension of the Consent Order compliance schedule, the Department believes that a shorter extension of the Consent Order is appropriate at this time in order to allow for necessary funding arrangements to be made. Once funding and repayment commitments are adequately secured, the broader project will be able to proceed and the associated construction phases and timeframes will become apparent.

Therefore, upon careful consideration of your request, please be advised that the Department hereby grants an extension of the compliance deadline in paragraph B.1.b.(2) of Consent Order No. WC 5506 to July 31, 2015 subject to the following conditions:

Johnson Memorial Hospital shall continue good faith efforts to work in coordination with the Town of Stafford and the Stafford Water Pollution Control Authority to secure necessary funding for the broader construction project and formulate a work plan and schedule for the hospital's sewer connection. Johnson Memorial Hospital shall perform all appropriate actions, including but not limited to:

1. Fully execute a letter of intent with the Town of Stafford, including payment of the required commitment fee, to enable the Town to proceed with a referendum to authorize the necessary

Re: Johnson Memorial Hospital
Consent Order WC 5506—Approval to Extend Compliance Deadline

bonding for the broader project,

2. Fully execute a developer agreement with the Town of Stafford for repayment of the Hospital's share of the broader project costs,

3. Submit monthly progress reports in accordance with paragraph B.2 of Consent Order No. WC 5506 describing progress with the timely completion of such actions, and

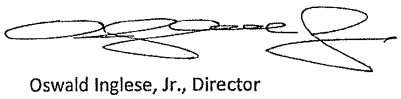
4. On or before July 31, 2015, submit a work plan and schedule describing the remaining actions necessary by Johnson Memorial Hospital in furtherance of the broader economic development project and to comply with Consent Order No. WC 5506.

If the actions approved herein do not result in the prevention and abatement of soil, surface water and groundwater pollution to the satisfaction of the Commissioner of Energy and Environmental Protection, additional remedial action and measures for monitoring the effectiveness of those actions shall be performed in accordance with a supplemental plan and schedule approved by the Commissioner. Unless otherwise specified in writing by the Commissioner, the supplemental plan and schedule shall be submitted to the Commissioner for his review and written approval on or before thirty days after notice they are required.

This approval does not relieve you of the obligation to obtain any other authorizations as may be required by Federal, State or Local laws or regulations.

If you have any questions regarding this matter, please contact Michael Hart at (860) 424-3819.

Sincerely,



Oswald Inglese, Jr., Director
Water Permitting and Enforcement Division
Bureau of Materials Management and
Compliance Assurance

July 23, 2015

Mr. Stuart E. Rosenberg
President / CEO
Johnson Memorial Medical Center
201 Chestnut Hill Road
Stafford Springs, CT 06076

Dear Mr. Rosenberg:

I want to thank you again for meeting with me and other town representatives to update you on the Town's progress with the *Utility Expansion / Economic Development Initiative* to provide gas, water and sanitary sewers to numerous sites in Stafford. This project, as we both understand, is **VITAL** to the future of Johnson Memorial Medical Center (JMMC) and its 1,100 employees. This activity is the #1 goal for the Town, which would also satisfy the CT Department of Energy and Environmental Protection's (CTDEEP) current consent decree related to your wastewater issues.

Extension of gas pipelines to allow businesses, such as JMMC, and residents expanded access to natural gas. It is also consistent with the recommendations of the Governor's Energy Policy. The lynchpin to offset the construction cost of sewer and water to JMMC is the saving derived from using this domestically produced fuel. These savings help offset the capital investment necessary to extend the sewer and water to your facility. By grouping these utilities into a single project we are leveraging our combined strengths to create a synergistic result.

I have prepared for you a briefing paper titled "Stafford – Past, Present & Future". It includes a project area map outlining the economic development needs that defines our entire capital program. The paper further summarizes the estimated Total project Expense, how it will be paid for and allocated across various stakeholders. We cannot emphasize enough the importance of moving this project forward to save the hospital and its 1,100 jobs; along with aiding local businesses, and offer an improved infrastructure system, which will allow local business and residence alike to reduce energy costs that will positively improve the environment, as well as permit economic expansion, increase property values and create jobs.

In order for this economic development/job saving initiative to reach its desired capacity, the town needs a full commitment from JMMC. The Town is prepared to secure a bond for the project to the sum of $28 +/- million dollars. We are requiring a commitment from JMMC for $6 million for its share, which is needed before we can go to the taxpayers thru a referendum or Town meeting to approve the bond request. The tentative time frame for providing JMMC with gas, water and sewer services upon approval from the taxpayers and authorization for our Consultants to proceed, is as follows:

Title VI of the Civil Rights Act of 1964 prohibits discrimination on the basis of race, color, or national origin in programs and activities receiving Federal financial assistance. Specifically, Title VI provides that "no person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance." (42U.S.C. Section 2000d).

- Design & Permitting: Months 0-6
- Bid/Contract Award: Months 7-9
- Construction/Commissioning: Months 10-24

We are prepared to negotiate any reasonable set of terms to assist you. Our concept proposes that the Town will bond your obligation over a period of years up to 20 years at the market rate at the time of closing. Currently we are estimating that a $6 million investment at 3% a year for 20 years. This would translate to a yearly payment from JMMH as a tax or benefit assessment of approximately $400,000. Based in the information you shared with us we estimate that JMMC will net an annual energy cost savings of approximately $460,000 by converting to natural gas. This does not include the savings realized by closing the waste water treatment facility and domestic water production. As previously stated, once the Town has a formal commitment from JMMC we will proceed to obtaining necessary approvals from the tax payers. Simultaneously to obtaining such approvals, construction agreements have to be negotiated and finalized with all the anchor users including JMMC. This should be done as soon as possible.

The Town is aggressively pursuing what we are referring to as phase 1 of the project on RT.190 between Middle River Drive and the intersection of RT.319.It will include the Stafford Housing Authority Woodland Springs project. There is a town meeting scheduled for Wednesday July 23, 1015 where we are seeking approval to appropriate $1,910,000 to complete this phase.

In closing, this project is mutually beneficial to both JMMC and the Town, and trust we have addressed your questions and most immediate needs of the CTDEEP consent order. However, before we can initiate a bond request, the Town will need a firm commitment from JMMC, understanding that you will need authorization form your Board of Directors. Since time is of the essence, we trust this can happen sooner rather than later and I will cooperate in any way I can to assist you to expedite this decision.

We are here to help. But I cannot emphasize enough that without your commitment there is no project. That is an alternative I am unwilling to accept, because JMMC is vitally important to the Town and the region.

Again, thanks for meeting with us and I trust we will hear from you soon on the decision of your board.

Sincerely,

Richard Shuck
First Selectman

C: Bettye Jo Pakulis, Office of Lt. Governor
Honorable Anthony Guglieimo
Honorable Kurt Vail

Utility Expansion / Economic Development Initiative
Stafford, Connecticut
The Past – The Present – The Future

The Town of Stafford and several businesses from the targeted investment area as defined by the State of Connecticut Economic Development Strategy – Spring 2014 including Health Care, Advanced Manufacturing, Tourism and Green Technologies are in need of implementing a local strategy – per the State Plan. A comprehensive economic development strategy looks at the state as an integrated sum of the parts – Housing; Workforce Development; Infrastructure; Business Growth; Energy use; Health and Safety – with each segment interdependent on the strength of the rest. Economic development strategies must address all aspects of the economy in order to create the most gain and a comprehensive energy strategy that's "at its heart". The heart of the strategy is a series of policy proposals aimed at creating cleaner, cheaper and more reliable energy sources for the state.

The Town and the business community believe we have a plan that is "still revolutionary." The following background lead up to our plan and our request for financial partnership of the private sector – the Town – the State of Connecticut.

The Past:

Stafford is the quintessential New England manufacturing town. Built with dams and water power, it has long been a place where things are made by skilled hands. During the revolution, Washington's cannons fired rounds made here. Lincoln's war department ordered uniforms for the union army from our textile mills. No one told us to stop working; and we haven't. 150 years later our mills still produce world class cashmere cloth. Instead of cannon balls we make printed circuit boards for every flying, floating or fighting military device. Our filter maker two years ago imported jobs from France because we have a better work force. We make fishing rods that are coveted by sports fishermen around the world. We make specialty high tech bearings that others try to imitate but cannot replicate.

So it was easy for us to recognize the tremendous opportunity the Governor's Energy plan meant to our town if we had access to natural gas. The reduced cost of energy to our business and municipal facilities is staggering. With the cooperation of: American Woolen, TTM Technologies, 3M Purification, Johnson Memorial Medical Center (JMMC) and Big Y Foods we collected fuel consumption data and combined it with statistics on our own buildings and facilities. Using the Energy Strategy's fuel assumptions and no change in equipment efficiency we calculated that the new savings to last year's fuel cost would have been three million dollars.

The businesses noted above employ over two thousand people, most of whom live in Stafford and surrounding communities. Lowering the operating expenses by hundreds of thousands of dollars is a game changing event. A stable, steady workforce is the

bedrock on which an economic community thrives. Dry cleaners, grocers, and diners are the force multipliers of strong, globally competitive employers.

The Present:

Connecticut and Stafford need to maintain our competitive economic edge in our region, in our state -nationally and worldwide.

Today we have some urgent needs that will require good old Yankee ingenuity, commitment from a unified consolidation to SAVE JOBS, improve our environmental condition, and enhance the quality of life of our community and the region – Connecticut's Plan for Smart Growth and a strong economy.

Stafford has a major employer and a leader in providing for the regional health care needs which is JMMC. With 1,000+ jobs at stake unless a strategic plan is embraced by **all** (the town, the State of Connecticut agencies – DEEP, DOT, DECD and public utilities) and to foster and implement a concept to save Johnson Memorial Hospital. Plus, aid other businesses within the community.

We need to expand our overall public/private utilities to aid Johnson Memorial and other businesses. Searching for ways to expand, i.e. TTM a defense based contractor, American Woolen, a manufacturer of fabrics, 3M a high tech manufacturer of filters/purification materials and on the commerce side Big Y Foods. These are just the main parties in need. There are other secondary beneficiaries which are too numerous to identify.

The Future:

We have a plan and it will work with collaborative energy by ALL.

What is needed now are several major capital public improvement activities using both the public and private sector resources.

Stafford covers 59 square miles and is located in the 2nd Congressional District. Stafford's current work force:

Labor Force	Employed	Unemployed	Percent
6,881	6,443	448	6.5%

Stafford's unemployed rate of 6.5% exceeds the latest Connecticut Labor Department statistics for Connecticut which is 5.8% and the US Unemployment rate at 5.1%.

Outlined below is Stafford's Comprehensive Economic Development Strategy to ensure several things:

- Save jobs – short and long term
- Save a major regional health care provider
- Assist local manufacturers with expansion
- Reduce energy costs
- Create construction jobs
- Improve the environment

Johnson Memorial Medical Center is in ever increasing need to abandon its onsite sewage treatment system or significantly improve it. It has been focused by a recent consent order from DEEP to fix the problem. Procrastination is no longer an option. If we don't connected the Hospital we will lose it. Without JMMC the quality of health care of this area is reduced because travel distance will increase by up to 30 miles while we lose the 3 shifts/1,000 jobs it supports.

If the sewer line to the hospital is an imperative, then logic dictates that we can install multiple utilities in the same construction process. In this case, we wish to install fiber optic conduit, water and gas mains as well. As much as 1/3 of that unit cost is the repair of the road bed and surface. By combining the four utilities into a global expansion, Stafford should be able to save ½ of the installation cost.

The Town has identified thirty commercial, industrial or municipal buildings along a specific route that would benefit from Natural Gas (NG). Others are sure to follow once the line is constructed. Eversource (Formerly Yankee Gas) is prepared to act now on their construction plan, which includes a financial commitment of $6.6 million. We have estimated 21 miles of new gas pipeline from the connection point in Enfield to our farthest outpost in Stafford. Seventeen of those miles are in Stafford; the other 8 miles start in Enfield and run through Somers along Ct Route 190. Each have commercial and municipal users that will benefit by the lower cost energy option and sure to add to the secondary user contributions.

A new subsidized housing project has begun. Its location, behind the Big Y plaza, places it directly in the path of these expanding utilities. If, however, NG was available, it would help them lower operating expense for this low income facility.

TTM have told us that if water, sewer and gas were available at the industrial park, they would expand their capacity by building a new facility with a central combined heat and power, and add 50 more manufacturing positions. This is on top of the 600 people they currently employee at two other sites around town.

The largest single beneficiary of the gas expansion would be our 3M facility just south of Town Hall. Over the last four years they have purchased on average 950,000 gallons of propane. Their use of this fuel represents 42% of the Town's total volume. Had NG been an option for 3M they would have saved approximately $750,000 in energy cost in one year. The community would have saved in excess of $3 million. It must be pointed out that three years ago, 3M initiated an additional work shift. The total workforce today is 200 jobs.

Our Economic Development Strategy is to provide natural gas systems to all of our businesses noted above requiring construction of 21+\- miles of gas main at a cost of $20,600,000. Refer to Attachment 'A' for the Conceptual Utility Routing Plan.

The gas line installation will integrate an extension to the municipal sewer service system, at a significantly lower cost than if constructed as a standalone project, which will include gravity sewers, pump stations and force main construction, encompassing 5.2+\- miles at a cost of $5,800,000.

The combined utility program will further integrate an extension to the existing water distribution system to serve nearly the entire project area, also at a lower construction cost with the integration of utilities, encompassing 6.6 +\- miles at a cost of $4,100,000.

Lastly, the proposed downtown utility upgrade will include – telephone – cable – electric – fiber optics connection, revolutionized as the "Nutmeg Network". This will include the expansion of the Nutmeg fiber optic network-Connecticut Educational Network (CEN) within all properties in downtown village district to upgrade to 100 GB capability including underground of all other utilities at the same time to reduce cost, improve the environment and protect public safety. Cost $3,500,000.

Our request to DECD is to assist the Town with financial support using the MAA program to reduce Town cost/share by a loan/grant that can be phased over a period of time. The project as shown on the Implementation Schedule indicates a phased construction plan to spread the financing over time.

The immediate infrastructure needs are gas, water and sewer to save the JMH, which has direct benefit to businesses in the construction action area.

We are prepared to further discuss in greater detail the Stafford: Past – Present – Future Strategy.

This project will have a major impact on the Town – the Region – the State.

Project Expense Summary:

Total Cost	***$40,000,000***
Expense Distribution:	
Gas	$20,600,000
Water	$ 4,100,000
Sewer	$ 5,800,000
Fiber Optics	$ 3,500,000
Soft Cost	$ 4,400,000
Contingency	$ 1,600,000

Investment Contributions:

Yankee Gas	$ 6,600,000	
CT DOT/Paving	$ 4,700,000	
Subtotal	$11,300,000	
Town Share*	$ 8,000,000	
Secondary User	$ 700,000	
Total		***$20,000,000***

Business Contribution (Phased):

JMMC	$ 6,000,000	
TTM	$ 5,800,000	
Big Y	$ 900,000	
American Woolen	$ 1,200,000	
MR Drive	$ 200,000	
3M Corp	$ 5,900,000	
Total		***$20,000,000***
Grand Total		***$40,000,000***

*Town will bond for $28,000,000. This includes the business contribution share, which they will contribute over time.

Town will request DECD – MAA request ½ of Town Share - $4,000,000

DECD MAA 50% of town share of $8,000,000 = $4,000,000 at 0 interest, principal only 20 years.

The Combined Utility Extension and Redevelopment Plan is estimated at $40,000,000 as shown in Attachment 'B'.

Cost Allocation Plan for the $40,000,000 is as follows:

YG Contribution	$ 6,600,000	17%
CTDOT Contribution	$ 4,700,000	12%
JMMC	$ 6,000,000	15%
TTM	$ 5,800,000	14%
3M Corp	$ 5,900,000	15%
Big Y	$ 900,000	2%
M.R. Drive	$ 200,000	<1%
American Woolen	$ 1,200,000	3%
Secondary User	$ 700,000	2%
Town Share	$ 8,000,000	20%
Town Bond Amount	***$28,000,000***

Assumptions Associated with Financial Projections Requested in Question 18.

Set forth below are the key financial assumptions based on the proposed project being approved. These assumptions represent Johnson Memorial Hospital (JMH) only. Additionally, please note that FY 2015 amounts represent the year to date actual revenues and expenses through February 2015 and the budgeted amounts for the remaining seven months of JMH's fiscal year.

- Inpatient volume projections include conservative decreases of 4.8%, 2.4 % and 2.5%, respectively, for FY 2016 through FY 2018 as utilization of inpatient services is expected to shift as a result of population health management.
- Hospital outpatient visits are projected to increase by 3% per year for FY 2016 through FY 2018.
- Revenue cycle improvements of $2.5 million over three years are expected to be realized by FY 2018, including as a result of documentation and charge capture improvements.
- Projected salary expenses include increases in wages of 3%, 4% and 2%, respectively, in 2016 through 2018. These increases will help to ensure JMH has the ability to remain competitive within the market going forward. These increases in salary expenses are offset by the reduction in salary costs in non-clinical and administrative departments of $1,250,000 and $750,000 in FY 2016 and 2017, respectively, where efficiencies are expected to be gained through centralization and elimination of duplicative support and administrative services.
- Supplies and other expenses include increases of approximately 2% per year in 2016 through 2018.
- Additional expense reduction initiatives relating to supply chain, personnel and insurance costs will result in additional savings of $850,000 by FY 2018. The outstanding debt of $5.0M will be reduced as a result of restructuring the debt, decreased interest expenses for FYs 2016 through 2018 based on a more favorable interest rate, and a decrease in principal balance.
- In FY 2016, operating expenses are shown as reduced due to a decrease in legal and consulting expenses that were incurred in FY 2015 relating to this proposed transaction.
- Bad debts are expected to decrease slightly due to the Patient Protection and Affordable Care Act, which reduced the uninsured rate by expanding public and private insurance coverage by approximately 4.4% of total revenues for FY 2016-2018.

Below are the key financial assumptions for JMH (only) if the proposed project were to be denied.

- Inpatient volume projections include a conservative decrease of 12% beginning in FY 2016 and remaining flat in FY 2017 and 2018. This immediate decrease is primarily due the expected termination of the Clinical Affiliation Agreements that support JMH's current operations
- Hospital outpatient visits are projected to increase by 1% per year for FY 2016 through FY 2018.
- Projected salary expenses include an increase in wages of 1% per year in 2016 through 2018.
- Fringe benefit expense increases in FY 2016 are expected due to JMH's likely inability to obtain favorable workers' compensation insurance rates due to its financial position.
- Supplies and other expenses include increases of approximately 2% per year in 2016 through 2018.
- No reductions of outstanding debt would be achieved and interest expense calculations are based on current debt agreements.
- In FY 2016, operating expenses are shown as reduced due to a decrease in legal and consulting expenses that were incurred in FY 2015 relating to this proposed transaction.
- Bad debts are expected to decrease slightly due to the Patient Protection and Affordable Care Act, which reduced the uninsured rate by expanding public and private insurance coverage by approximately 4.4% of total revenues for FY 2016-2018.

There are no changes to existing services as a result of this proposal. Also, no new services are planned as a result of this proposal at this time.

RE: Certificate of Need Application; Docket Number: 15-32002-CON
Saint Francis Care, Inc. and Johnson Memorial Medical Center, Inc.
Johnson Memorial Medical Center, Inc. transfer of ownership to Saint Francis Care, Inc.
Prefiled Testimony and Issues

Dear Mr. Hartley:

The Office of Health Care Access ("OHCA") will hold a public hearing on the above docket number on October 6, 2015. The hearing is at 4:00 p.m. at The Stafford Community Center, 3 Buckley Highway Stafford Springs, CT 06076. Given the recent purchase of Saint Francis Care, Inc. by Trinity Health Corporation, pursuant to the Regulations of Connecticut State Agencies § 19a-9-29, OHCA hereby orders that Trinity Health Corporation is made a party in the above-referenced matter. Additionally, OHCA hereby orders Trinity Health Corporation, Saint Francis Care, Inc. and Johnson Memorial Medical Center, Inc. ("Applicants") to submit prefiled testimony and responses to the enclosed Issues by **4:00 p.m.** on **October 1, 2015**.

All persons providing prefiled testimony must be present at the public hearing to adopt their written testimony under oath and must be available for cross-examination for the entire duration of the hearing. If you are unable to meet the specified time for filing the prefiled testimony you must request a time extension in writing, detailing the reasons for not being able to meet the specified deadline.

Sincerely,

Kevin T. Hansted
Hearing Officer

ISSUES

Office of Health Care Access Docket Number: 15-32002-CON

Johnson Memorial Medical Center, Inc. and Saint Francis Care, Inc. – Transfer of Ownership

The Applicants should be prepared to present and discuss supporting evidence on the following issues:

- The clear public need for and the community benefits of the proposal.
- The effect of the proposed transfer of ownership on the residents of the region regarding existing and future health care providers and services.
- How access to care will be maintained in the service area following the transition of Johnson Memorial Medical Center, Inc. ("JMMC") into Saint Francis Care's ("SFC") new regional health ministry.
- The financial feasibility of the proposal, including a discussion of SFC's ability to purchase JMMC and assume its long-term debt and pension obligations.
- Addressing the specific health-related issues as identified in JMMC's 2012 Community Health Needs Assessment following the transfer of ownership.
- Charity care policies to be implemented following the transfer of ownership and how they compare to JMMC's existing policies and those of Trinity Health Corporation's.

Provide a written response to the following as an attachment to the pre-file testimony, as these questions were not fully addressed in the application/completeness:

1. Please revise payer mix tables on pages 1,303-1,304 to include FY 2014 as the current (most recently completed) year. Adjust FYs 2015-2018 as necessary.
2. Reconcile each liability and payment listed on page 23 of the Application with the amounts provided on page 1,948 of the completeness responses and with JMMC's purchase price value of $30M. Provide dollar amounts for each debt item listed and explain any variances between the two submissions.
3. Given that the Applicants' projections assumed reductions in principal balance as a result of the proposal, explain why Johnson Memorial Hospital's ("JMH") financials on page 1,999 of the completeness responses reflect incremental principal payments.
4. Due to the fact that Johnson Evergreen Corporation ("JEC") was an affiliate of JMH in FY 2014 and FY 2015, revise and resubmit Financial Worksheet A for SFC and JMMC to include JEC's operating results. Provide all assumptions and explain any incremental losses from operations projected as a result of the proposal.

5. Provide Financial Worksheet A for Saint Francis Hospital and Medical Center ("SFHMC") only (exclude affiliates and subsidiaries). Provide all assumptions and explain any incremental losses from operations projected as a result of the proposal.

6. Provide updated Financial Measurement/Indicators for June, July and August 2015 and comparable months from the previous fiscal year for SFC, SFHMC and JMH only (exclude affiliates and subsidiaries). Provide an explanation for any increases or decreases between FY 2014 and FY 2015 that correspond to items listed on Section D on page 2,005 of the completeness responses.

7. Reconcile the $78M cash on hand for SFHMC, listed on page 1,949 of the completeness responses, with June 2015's monthly submission.

8. Provide a current credit rating for SFC and for SFHMC.

ISSUES

Office of Health Care Access Docket Number: 15-32002-CON

Johnson Memorial Medical Center, Inc. and Saint Francis *Care*, Inc. – Transfer of Ownership

The Applicants should be prepared to present and discuss supporting evidence on the following issues:

- **The clear public need for and the community benefits of the proposal.**

In FY 2015 alone, through August Johnson Memorial Medical Center ("JMMC") has treated 2,780 inpatients, seen 17,732 patients in its emergency department, and performed 1,771 outpatient surgeries. JMMC has also treated 639 behavioral health inpatients which represents a growth of 9.2% over the previous year in its inpatient mental health treatment services.

As stated on page 1,946 of the certificate of need application "..... the treatment for vascular, heart, cancer and stroke patients often begins with the initial patient visit to the Emergency Department and continues through the full period of treatment for each patient...."

For a vast majority of the 84,000+ population in the JMMC primary service area the closest hospital services are those provided by the institution. JMMC has provided services to its community for over 100 years and its acquisition by Trinity New England Regional Health Ministry preserves access to care for these patients close to home.

Continuation of the services provided by JMMC will also improve access to behavioral health services, services that have remained in short supply in many areas of the state.

As stated in the certificate of need application on page 36, "SFC's acquisition of Johnson delivers many benefits which will improve the coordination of patient care including:

- Preserves Johnson's viability and the access of its patient populations to needed healthcare services closer to home;
- Provides better use of limited health manpower resources through combination of the treatment of specific patient populations e.g. cancer infusion, ambulatory surgery, physical therapy, primary care between the two organizations;
- Achieves debt reduction at Johnson which will lower the cost of operations for the health system as a whole;
- Adds ambulatory surgery, cancer treatment, rehabilitation, wound care and a variety of ancillary service locations to the SFC System."

Working together for over three years Trinity New England Regional Health Ministry and JMMC have demonstrated their value and met the public's need for health care services. There can be no better way to preserve access to health care services to the local community than the continuation of JMMC.
Please also find attached letters of support in Attachment 1 that demonstrate the need for and public support of this project.

- **The effect of the proposed transfer of ownership on the residents of the region regarding existing and future health care providers and services.**

  As stated in the certificate of need application on page 50, "SFC does not believe this certificate of need proposal will have any effect on existing providers as there will be no expected change in any services at Johnson...."

  However, failure to preserve JMMC would lead to the loss of many highly skilled health care professionals who would probably relocate out of the hospital's service area, some even out of the state. All together, the loss of these highly trained professionals would create even more strain on the remaining providers and could delay timely access to care for patients in the communities now served by JMMC.

  The acquisition of JMMC by Trinity New England Regional Health Ministry will continue to provide both direct and indirect benefits to the residents of the region. As stated on page 1,946 of the certificate of need application "....From a direct benefit perspective, the treatment for vascular, heart, cancer and stroke patients often begins with the initial patient visit to the Emergency Department and continues through the full period of treatment for each patient. JMMC uses Saint Francis *Care* hospitalists for much of its inpatient care and Saint Francis *Care* oncologists oversee the cancer treatment of all inpatients and outpatients seen at JMMC. Saint Francis *Care* is also in the process of establishing a satellite program within the JMMC service area for congestive heart failure patients that will use the same treatment protocols and be managed by physicians who operate a similar program through the Hoffman Heart and Vascular Institute of Connecticut. Thus, patient groups at JMMC will receive consistent treatment regardless of the location at which they first present. In addition, due to the integration of the providers who serve patients at the two organizations, the speed of appropriate intervention, timeliness of patient transfer and the consistency of follow up care are expected to improve. From a more indirect perspective, as the model of care shifts toward a population management based method of care delivery, patients from the JMMC's primary service area will be able to purchase insurance products that ensure access to bundled payment programs and risk contracts that include the award winning health care programs Saint Francis *Care* offers to all of its heart, cancer, stroke and joint replacement patients...."

  Please also refer to our answer to the previous question regarding public need and community benefits.

  Lastly, access to and enhancements of obstetrics, behavioral health, and, urology services (call coverage) can only occur through successful implementation of the partnership between Trinity New England Regional Health Ministry and JMMC. The recruitment of needed physicians, particularly general surgery and other health professionals as well as the extension of services to the local community through satellite program operations sponsored by Trinity New England Regional Health Ministry will positively affect the future healthcare of the residents of the region. Due to the limited availability of neurology coverage, JMMC contracted with The Tele-Neurology program at UMASS Medical Center for a period of one (1) year. This will permit JMMC to provide enhanced services to stroke patients locally. Any complicated cases would be transferred within the Trinity New England Regional Health Ministry's system upon initial evaluation.

- **How access to care will be maintained in the service area following the transition of Johnson Memorial Medical Center, Inc. ("JMMC") into Saint Francis Care's ("SFC") new regional health ministry.**

  The Office of Health Care Access approved the request for Saint Francis *Care* to join Trinity Health as part of Docket Numbers 15-31979-CON and 15-32002-CON.

  As a result of these approvals, Trinity Health and Saint Francis *Care* have formed a new "Regional Health Ministry" currently referred to as Trinity New England Regional Health Ministry. Trinity New England Regional Health Ministry will control all of JMMC and its affiliates (See Organizational Chart in Exhibit 33 on page 1,957 of the CON Application).

  As stated on pages 1,942 of the certificate of need application, "..the inclusion of JMMC within the Regional Health Ministry will allow Saint Francis *Care* and JMCC to streamline clinical service delivery, achieve certain economies of scale through the restructuring of selected support services, and stabilize physician availability needed to deliver clinical care in the areas of OB/GYN, Behavioral Health, Cancer, Emergency Medicine, and acute care. It also will allow JMMC to participate in new insurance programs requiring bundled payments or risk sharing arrangements as they evolve in this market. The inclusion of JMMC in the Regional Health Ministry allows Saint Francis *Care* to standardize healthcare delivery at JMMC by extending to JMCC the evidence based clinical approach that has been successfully implemented at Saint Francis *Care*. Furthermore, the ability of JMMC to continue to meet the healthcare needs of its patient population, irrespective of the ability of recipients of care to pay for that care, is consistent with the mission of Trinity Health and Saint Francis *Care* and will be enhanced by becoming a part of the new Regional Health Ministry...."

  The residents of JMMC's geographic service area will continue to receive services in a fashion that preserves access to a diverse group of health care providers that JMMC alone could not recruit to its communities.

  Equally important JMMC has access to regional expertise as well as corporate support from a national health system which JMMC could not afford to access were it required to purchase those services on its own.

  Clear clinical examples of access to a larger health system include the extension of Trinity Health New England Regional Health Ministry's hospitalists, medical oncologists, psychiatrists, and cardiologists to support similar service lines at JMMC. On the support service side the rapid upgrade of JMMC's IT systems to the EPIC electronic medical record system, implementation of ICD-10 coding changes, revenue enhancement systems, and continuation of Workers Compensation insurance coverage during the interim period until this transaction is approved are just a few of the many examples of how access to care is and will continue to be preserved as part of the transfer of JMMC and its subsidiaries into Trinity New England Regional Health Ministry.

The financial feasibility of the proposal, including a discussion of SFC's ability to purchase JMMC and assume its long-term debt and pension obligations.

As noted on page 1949 of the certificate of need application, Saint Francis Hospital and Medical Center's cash and investments as of June 30, 2015 was $78M. Furthermore, there continues to be sufficient cash on hand to fund the costs related to this transaction to be incurred at closing (approximately $5.5M).

In addition, it is anticipated that as a result of the acquisition of JMMC by Saint Francis and the restructure of JMMC's debt, JMMC's operating results will be sufficient to cover the interest and principal payments associated with the restructured debt. Refer to the updated Financial Worksheet at Attachment 3 noting anticipated operating margins of 3.5%, 3.7% and 3.3% for 2016, 2017 and 2018, respectively, for JMMC if this proposal is approved.

Historically, JMH had a defined benefit pension plan that covered certain employees. Pursuant to the plan of reorganization approved in August 2010, the Pension Benefit Guaranty Corporation assumed control of the defined benefit plan effective September 1, 2011. Accordingly, JMMC does not have any obligations under a defined benefit plan except for the amounts to be paid at closing to the PBGC for this terminated plan. This amount is included in the $3.0M due to legacy creditors described on both pages 23 and 1948. Johnson's pension obligations are limited to its current defined contribution plans. Therefore, the liabilities associated with Johnson's benefit plans are future obligations. Expenses expected to be incurred by Johnson for its employees related to the defined contribution plans and retirement benefits were included in the financial projections and the Financial Worksheet at Attachment 2.

- **Addressing the specific health-related issues as identified in JMMC's 2012 Community Health Needs Assessment following the transfer of ownership.**

Exhibit 23 (pages 1,450 and 1,451 of the certificate of need application) contain JMMC's Community Needs Assessment- Implementation Strategy. In this document JMMC identifies a series of training programs aimed at wellness, reducing obesity, and eating healthy to manage diabetes. JMMC also offers programs to manage foot care for diabetics and sponsors a wide range of community meetings focused on support for and prevention of health problems associated with behavioral health, alcoholism and drug abuse. The institution also provides programs on smoking cessation, blood pressure screenings, dementia support, bereavement support, support for breast cancer patients and families dealing with patients suffering from memory loss.

Many of the issues identified in the CNHAs at both JMMC and Trinity New England Regional Health Ministry overlap including: access to healthcare services including a focus on preventable disease (Diabetes and Obesity); and providing support for behavioral health. The programs and strategies for addressing these issues are organized in consort with local resources and are tailored to specific needs of community members once the acquisition is complete. Trinity New England Regional Health Ministry will continue to prioritize these issues at both locations and will bring additional resources (for example grant writing and community engagement expertise) and new opportunities (for example connections to national organizations such as

Community Solutions and Ariadne Labs) which previously were not available to JMMC. Additionally, Trinity New England Regional Health Ministry will focus on unique areas of need identified in each of the CHNAs such as improving communication and addressing limited substance and alcohol abuse resources. Furthermore, JMMC has already benefited from using Trinity New England Regional Health Ministry's guidance in developing its own translation and interpretation services and these types of synergies will continue to occur.

As noted on pages 69-70 of the certificate of need application "...For the 2015 Community Health Needs Assessment, Saint Francis Hospital has partnered with Data Haven, a non-profit organization with a 25-year history of public service to Greater New Haven and Connecticut whose mission is to improve quality of life by compiling, sharing, and interpreting public data for effective decision making. DataHaven is a formal partner of the National Neighborhood Indicators Partnership of the Urban Institute in Washington, DC. Funding support for the CHNA in the Hartford area include: the Hartford Foundation for Public Giving, the Greater New Britain Community Foundation, Saint Francis Hospital and Medical Center, Trinity College, and the Council of Governments. In addition to the Hartford area, approximately $500,000 has been committed to conduct the survey within other regions of Connecticut. Over the coming months the size of the final study will be determined once all other institutional sponsors have been identified. These research activities will be taking place in late 2015 and 2016. SFC is working closely with the City of Hartford Health and Human Services Department, CT Children's Medical Center, and Johnson Memorial Hospital in the survey design so that critical health questions are included in the final version....."

Going forward the CHNA plan and Implementation Strategy will continue to be a combined effort and will synthesize data from a variety of quantitative and qualitative sources including: a community Well Being Survey to be conducted by Data Haven; Updated data snapshots can be found at https://twitter.com/ctdata/media ; a review of available demographic and community profile data; an analysis of health survey data ; interviews with key informants; focus group data; and other resources as they become available. The CHNA approach selected is an iterative process for the 2016 Plan which allows for on-going assessment of community needs and is influenced by Community Based Participatory Research methodology. This approach engages the community in research and allows for the voice of the community to drive the agenda. [1] (See table below for the CHNA Timeline).

The three year requirement for a CHNA by the IRS requires the creation of a set of specific goals and measurable objectives thereby allowing for evaluation of progress; however, both Trinity Health and JMMC believe the on-going community engagement and relationship building with community members and community leaders is a valuable resource that Trinity Health New England Regional Health Ministry will use to augment and update the 3-year plan on an on-going basis. This approach honors the changing priorities of community groups and the complex set of relationships and needs that makes each community unique.

[1] Israel BA, Eng E, Schulz AJ, Parker EA. (Eds.) (2005). *Methods in Community-Based Participatory Research for Health.* San Francisco: Jossey-Bass Publishers.

Time Line for the next Community Health Needs Assessment (CHNA)

Due Date: 9/30/16

Dates	Activity	Hospital Involved
January – July 2015	Data Analysis from current resources including Community Profile completed by the CT Hospital Association	Saint Francis Johnson Memorial
May – September 2015	Telephone Well- Being Survey completed by Data Haven (with over sampling of Hartford and Enfield communities)	Saint Francis Johnson Memorial
October 2015 – March 2015	Qualitative Data Collection including: • Key Informant Interviews; • Focus Groups ; • Community Member Surveys; • Community Meetings	Saint Francis Johnson Memorial
April 2015 – June 2016	Analysis of Findings	Saint Francis Johnson Memorial
July 29, 2016 *(IRS Proposed Rule 4/3/13)*	Finalization of CHNA	Saint Francis Johnson Memorial
Board Meeting Prior to 9/30/16 *(IRS Notice 2011-51)*	Approval by Board of Directors (Newly formed Trinity Health Northeast – schedule not yet available)	Saint Francis Johnson Memorial
October 30, 2016	Submit final approved CHNA and Implementation Strategy to OCHA	
August 2016 – December 2016 *(IRS Summary 12/31/14 re: CHNA requirements)*	Development of Implementation Strategy	Saint Francis Johnson Memorial
Board Meeting Prior to 1/31/16	Approval of Implementation Strategy by Board of Directors	Saint Francis Johnson Memorial
February 28, 2016	Submit Final Implementation Strategy to OCHA	
March 15, 2016 *(Extension to 8/15/16 optional)*	File CHNA with IRS	Saint Francis Johnson Memorial

- **Charity care policies to be implemented following the transfer of ownership and how they compare to JMMC's existing policies and those of Trinity Health Corporation's.**

  Saint Francis *Care* and JMMC have always provided care to Medicaid and the uninsured. As stated on pages 70 and 71 of the application "...Saint Francis *Care*'s inpatient and outpatient population was comprised of 23.8% Medicaid in FY 2014 and JMMC's Medicaid population represented 18% of its inpatients and outpatients. In FY 2014, Saint Francis *Care* delivered $78 million of community benefit including $6 million of unfunded charity care. JMMC delivered $6 million in community benefit and $151,372 in charity care in FY 2014.

The current charity care policies of both organizations are included in the application in Exhibit 27, pages 1,659 – 1,671.

As a result of this transaction, neither organization plans to change its charity care, uncompensated care, financial assistance for bad debt or bed fund policies.

However, as stated on pages 647 – 650 of the CON application DN: 15-31979 once Saint Francis *Care* joins Trinity Health and becomes Trinity Health New England, "...As a result, we would anticipate Saint Francis *Care's* current practices in the areas of charity care and financial assistance to be further enhanced...." See also Exhibit 27 pages 733 – 754 of DN: 15-31979 for the charity care template for Trinity Health. The target date for adoption of these charity care policies by all RHM's is 1/1/16.

Once the acquisition of JMMC is complete it will become a part of Trinity New England Regional Health Ministry. As a result, JMMC's charity care policies will be enhanced to meet Trinity Health's system charity care policies.

Provide a written response to the following as an attachment to the pre-file testimony, as these questions were not fully addressed in the application/completeness:

1. **Please revise payer mix tables on pages 1,303-1,304 to include FY 2014 as the current (most recently completed) year. Adjust FYs 2015-2018 as necessary.**

   Please refer to Attachment 2.

2. **Reconcile each liability and payment listed on page 23 of the Application with the amounts provided on page 1,948 of the completeness responses and with JMMC's purchase price value of $30M. Provide dollar amounts for each debt item listed and explain any variances between the two submissions.**

   The schedule included on page 1948 of the certificate of need application only represents debt items. The purchase price consists of the following debt items as well as the assumption of other current liabilities and closing costs that are consistent with these types of transactions. The last column provides reconciliation to those items listed on Page 23 of the original application.

Entity's Name	Liability Description	Total Liability Amount (TB)	Assumed Liability Amount (AL)	Not Assumed Amount (TB-AL/P)	Comments	Reconciliation to page 21 of Original Application
Johnson Memorial Hospital	Amounts due to Legacy Creditors	$5,930,321	$3,000,000	$2,930,321	Amount to be paid/assumed by SFC based on settlement agreement with Legacy Creditors. Refer to page 10 of Amended APA.	Included in the assumption and payment of $3.0M to PBGC and the creditors represented by the Plan Custodian
Johnson Memorial Hospital	Peoples Bank long-term debt	$11,987,500	$7,400,000	$4,587,500	Amount to be paid/assumed by SFC based on settlement agreement with Peoples Bank. Refer to page 10 of Amended APA.	Included in the assumption of approximately $10,500,000 of indebtedness
Johnson Memorial Hospital	Accrued Interest Expense to Peoples Bank	$629,754	$629,754	$0		Included in payment of past due interest owed by JMMC to People's
Johnson Memorial Medical Center	Peoples Bank long-term debt	$2,940,000	$2,940,000	$0		Included in the assumption of approximately $10,500,000 of indebtedness
Johnson Memorial Medical Center	Accrued Interest Expense to Peoples Bank	$107,812	$107,812	$0		Included in payment of past due interest owed by JMMC to People's
Johnson Memorial Hospital	Healthcare Finance Group (HFG) Line of Credit	$2,282,199	$2,282,199	$0	If additional amounts are drawn down prior to closing, SFC will assume the entire amount outstanding.	Included in assumption of up to $7,000,000 of indebtedness owed to HFG (this is a cap, only $2,282,199 was drawn down as of the date of this schedule)
Johnson Memorial Hospital	Capital leases	$802,028	$802,028		SFC will assume amounts outstanding as of the closing date.	Included in the assumption of equipment financed with purchase money security interests or capital leases of $2,300,000. Johnson continues to pay these amounts and the balance will continue to decrease.

3. **Given that the Applicants' projections assumed reductions in principal balance as a result of the proposal, explain why Johnson Memorial Hospital's ("JMH") financials on page 1,999 of the completeness responses reflect incremental principal payments.**

   The increase in the principal payments is primarily due to JMMC being unable to make principal payments in FY 2014 and FY 2015 on the JMH and JMMC outstanding loans to People's Bank. As a result of this transaction, these loans will be restructured and principal payments will resume in accordance with the new loan agreement effective after the transaction is approved and closes.

4. **Due to the fact that Johnson Evergreen Corporation ("JEC") was an affiliate of JMH in FY 2014 and FY 2015, revise and resubmit Financial Worksheet A for SFC and JMMC to include JEC's operating results. Provide all assumptions and explain any incremental losses from operations projected as a result of the proposal.**

   Please refer to Attachment 3.

5. **Provide Financial Worksheet A for Saint Francis Hospital and Medical Center ("SFHMC") only (exclude affiliates and subsidiaries). Provide all assumptions and explain any incremental losses from operations projected as a result of the proposal.**

   Please refer to Attachment 3.

6. **Provide updated Financial Measurement/Indicators for June, July and August 2015 and comparable months from the previous fiscal year for SFC, SFHMC and JMH only (exclude affiliates and subsidiaries). Provide an explanation for any increases or decreases between FY 2014 and FY 2015 that correspond to items listed on Section D on page 2,005 of the completeness responses.**

   Please refer to Attachment 4.

7. **Reconcile the $78M cash on hand for SFHMC, listed on page 1,949 of the completeness responses, with June 2015's monthly submission.**

   The $78M cash on hand reported on page 1,949 was for Saint Francis Hospital and Medical Center only and included cash and cash equivalents of $54M and short term investments of $24M. The June 2015 monthly submission of $70.4M represents Saint Francis Hospital and Medical Center **consolidated** cash and cash equivalents and **excludes** short term investments.

8. **Provide a current credit rating for SFC and for SFHMC.**

   Neither SFC nor SFHMC have obtained a credit rating.

Re: CON Application for Affiliation of Saint Francis *Care* and Johnson Memorial Medical Center, Inc.

Dear Ms. Martone:

As a member of the medical staff of Johnson Memorial Medical Center, Inc. system, I want to express my support for the acquisition of Johnson Memorial by Saint Francis *Care*. The over 100,000 people who live in our service are need access to the high quality care Johnson Memorial has provided for over 100 years.

I firmly believe that the best opportunity for the preservation of these services is if the merger with Saint Francis *Care*, the parent corporation of Saint Francis Hospital and Medical Center, is approved by the Office of Health Care Access. As a practicing anesthesiologist at Johnson Memorial Hospital, I am aware of the importance of ready access to critical care services only available at a tertiary facility like Saint Francis. More importantly, once the two organizations are covered by a single electronic medical record, the transfer of information will be seamless and the ability of physicians to better manage the health of patients will be enhanced.

I recognize that if we are to preserve access to healthcare in more rural communities, such as those served by Johnson Memorial, hospitals must band together to achieve economies of scale and secure access to the latest health care technology.

Please help me continue to provide high quality healthcare to the people who need such care in my practice.

Sincerely,

James Brakoniecki, M.D.

RE: CON Application for Affiliation of Saint Francis and Johnson Memorial Medical Center, Inc.

Dear Ms. Martone:

As Superintendent of Schools, I genuinely care for the health, safety and welfare of the residents of Stafford and its surrounding towns. Inherent in my role with the Board of Education, I am an active participant in school and community events at which I have the privilege of conversing with others about the services of the town and school district. I have spoken directly with parents, guardians and retirees, who have come to rely on access to Johnson Memorial Medical Center/Saint Francis Care for diagnostic, medical and emergency services.

Not only does the hospital staff provide services, but in November 2014, JMMC/SFC hosted a joint forum on public health roles and responsibilities during the Ebola outbreak. Attendees included the First Selectman, fire, ambulance and law enforcement personnel, and school district officials, to name a few. During the meeting, factual information was shared and discussion ensued, which resulted in planned coordinated efforts and identification of resources should Stafford and its surrounding communities be impacted by the virus. This initiative clearly demonstrates Johnson's/Saint Francis's commitment to area residents, who will benefit from the quality of care of both hospitals.

Directly impacting our schools, we contract with JMMC/Saint Francis Care for the services of an athletic trainer, who works closely with our Director of Athletics and Recreation. The athletic trainer provides education to our students, monitors their activity during sporting events, and identifies strategies to prevent and in response to injuries. Not only have the parents and guardians of students attending Stafford Public Schools spoken positively about these "personalized" services, but athletes and parents from visiting towns have also expressed their

appreciation to the district for the services and local access to the hospital to diagnose and treat injuries.

On a personal note, I was born at the original Johnson Memorial Hospital on East Street more than 50 years ago. My family, neighbors and friends have experienced the skilled, knowledgeable and caring staff employed by the hospital for decades. They appreciate the short distance they must travel to visit patients, particularly those with extended care. When my daughter was small, she suffered an allergic reaction when a bee stung her tongue, which immediately began to swell. While we were only traveling from Somers, had JMMC not been located in Stafford, the outcome could have been tragic. And although no one *wants* to have to go to an emergency room, by its mere location in the northeastern corner of Connecticut, it is convenient and may have minimized the anxiety familiesexperience when confronted with a longer commute for such care.

Having been made aware of the plans to merge for a couple of years, I applaud Johnson Memorial Medical Center and Saint Francis Care for sharing vision through the planned merger. I am confident that our immediate and extended community will continue to receive outstanding healthcare through this initiative in the future. It is without reservation that I endorse the acquisition of Johnson Memorial Medical Center, Inc. by Saint Francis Care.

Sincerely,

Patricia A. Collin, Ed.D.

Dear Ms. Martone:

As a life-long resident of the town of Stafford, I have profound concerns about the health and welfare of the citizens of the town. The services provided by Johnson Memorial Medical Center are extremely important to all the people in this area.

Since I have been involved as a member of the board of selectmen and served as first selectman for two years and chairman of the board of finance for twenty years, I am well aware of the citizens' needs. During my thirty-five year association with JMMC, I served as a cooperator, a trustee, member of the executive board, and vice-president. In addition, I was involved in the process of finding a suitable partner with which to affiliate. St.Francis Care met the challenge and partnered with JMMC to plan for a merger. I applaud both organizations for their vision and commitment to the merger. I am confident that our community will continue to receive outstanding health care from St. Francis Care and JMMC, Inc. merger that will meet the needs for health care in the future.

I hope you will support this endeavor since it will meet the tremendous needs of this community.

Sincerely,

Richard P. Dobson, Sr.

Re: CON application for affiliation of Saint Francis *Care* and Johnson Memorial Medical Center, Inc.

Dear Ms. Martone:

As State Senator for the 35th district of Connecticut, which includes Ashford, Chaplin, Coventry, Eastford, Ellington, Pomfret, Stafford, Tolland, Union, Vernon, Willington and Woodstock, I write to you today in support of the acquisition of Johnson Memorial Medical Center, Inc., by Saint Francis *Care*, the parent corporation of Saint Francis Hospital and Medical Center. These two institutions are requesting your agency's approval to combine their two organizations for the purpose of continuing and bolstering Johnson Memorial Medical Center's 100+ year history of service to its communities.

Saint Francis *Care* is a well-known provider of health care services to the people in my community, particularly when they seek specialized services not available at Johnson Memorial Medical Center, Inc. Together I am sure these two institutions will improve access to specialized care. I support this CON application.

Sincerely,

Tony Guglielmo

Re: CON application for affiliation of Saint Francis and Johnson Memorial Medical Center, Inc.

Dear Ms. Martone:

As a life-long resident and business owner of Stafford Springs, I care very deeply about the health, safety and welfare of the individuals who live in our Town; we are fortunate to have Johnson Memorial Medical Center, Inc. serving our residents. Since Johnson Memorial's inception 103 years ago, there has been a longstanding commitment to this community and beyond. Johnson Memorial's participation in the health and well-being of the community, evidenced most recently through its commitment to supporting the expansion of the natural gas, water and sewer service in the Enfield, Somers and Stafford Springs communities, has been outstanding.
