Re: Disposition of PET/CT Scanner

To Whom It May Concern:

This letter serves to notify your office that we closed our 2660 Main Street, Bridgeport, CT facility on May 28, 2013. The PET/CT Scanner, GE Discovery LS 2004, was sold to Bridgeport Hospital at that time and placed in storage.

Closeout surveys of the area were conducted on May 16, 2013 and July 9, 2013. All radioactive sources were removed to Bridgeport Hospital on June 27, 2013. The Nuclear Regulatory Commission was notified and we supplied documentation of the sealed sources location and current leak tests.

The PET/CT Scanner was released from storage and sold to an out of state buyer. It is no longer in use in the state of Connecticut.

Sincerely,

Robert D. Russo, M.D.
