Project Description

Meriden Imaging Center Inc. is seeking a formal CON determination for its existing GE Hispeed Ct/I, which is located at 98 Main Street, Southington, CT. In May of 2005, Meriden Imaging Center, Inc. (Radiology Associates, Inc.) acquired a General Electric Hispeed Ct/I (see Proposal Summary, invoices and proof of payment, attached as Exhibit A.) It was put into service on May 23, 2005. A patient report of a scan performed on May 27, 2005 is attached as Exhibit C. Its cost and associated renovations were under \$400,000.00 - therefore a formal CON determination was not required at that time based on state regulations.

The GE Hispeed Ct/I unit was purchased for \$84,800 which included delivery, installation and applicable sales tax (Exhibit A). The construction/renovations necessary to site the unit totaled \$8,748. (see Timothy Brunet Construction Services Invoices attached as Exhibit B) The total capital cost associates with the acquisition of the CT unit was \$93,548.

It is anticipated that the proposed target population will be the same as the existing population. The office previously served the towns of Southington, Plainville, Meriden, Plantsville and Wolcott. It is also estimated that there will be no change to the existing payer mix for this service.

The evidence demonstrates that Meriden Imaging Center, Inc. acquired the GE Hispeed Ct/I before July 1, 2005 for less than \$400,000.00. In addition, the evidence shows that the unit became operational before July 1, 2006. Based on the foregoing, Meriden Imaging Center, Inc. respectfully submits that no CON was required for the purchase and asks for a CON Determination to this effect.

C.T. SCAN OF THE ABDOMEN AND PELVIS:

Scanning was obtained in 5 mm sections from the hemidiaphragms to the iliac crests with correlation to 04/27/04.

Examination shows the lung bases to be within normal limits. The liver and spleen are of normal size and caliber. The gallbladder is fluid-filled.

Examination shows the right kidney to be of normal size and configuration. There is no hydronephrosis or stones. The left kidney is well-visualized and also of normal size and configuration. There is no hydronephrosis. The pancreas shows a normal noncontrast appearance. There are small nonpathologically sized mesenteric lymph nodes. There are mild vascular calcifications but no evidence of an aneurysm. The aorta appears to be within normal limits. There is moderate constipation. The bladder wall is mildly thickened. The prostate is slightly enlarged for the patient's age. There is again noted a calcification measuring 4.1 mm. It is unchanged in size and configuration since the prior examination suggesting that although it may represent a nonobstructing stone, the possibility of phlebolith cannot be excluded.

CONCLUSION: 4.1 mm calcification which is stable in size and position since the prior examination. There is no suggestion of hydronephrosis of the left kidney and this may represent a small distal stone but the possibility of phlebolith cannot be excluded.

RE: Certificate of Need Determination Report Number 16-32090-DTR
Acquisition of CT scanner in 2005

Dear Dr. Dee:

On June 8, 2016, the Office of Health Care Access ("OHCA") received your Certificate of Need ("CON") Determination request on behalf of Meriden Imaging Center, Inc. ("Petitioner") with respect to the acquisition of a CT scanner in 2005.

The Petitioner acquired a General Electric Hispeed Ct/i scanner in May of 2005. The total cost of the scanner and necessary construction was \$93,548. The Petitioner now seeks a retrospective determination by OHCA that a CON was not required at the time the scanner was acquired.

In 2005, Conn. Gen. Stat. Section 19a-639 stated, in part, that each health care facility or institution proposing to acquire major medical equipment in excess of four hundred thousand dollars (\$400,000) requires CON authorization from OHCA. As represented by the Petitioner, the scanner and related construction cost less than \$400,000. Consequently, a *CON was not required* for the acquisition.

Sincerely,
