INDEPENDENT AUDITORS' REPORT

Board of Directors Greater Waterbury Health Network, Inc.

We have audited the accompanying consolidated financial statements of Greater Waterbury Health Network, Inc., which comprise the consolidated balance sheets as of September 30, 2014 and 2013, and the related consolidated statements of operations and changes in net assets and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting polices used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Greater Waterbury Health Network, Inc. as of September 30, 2014 and 2013, and the results of its operations and changes in net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION

ORGANIZATION

Greater Waterbury Health Network, Inc. (the Corporation, Network or GWHN) was incorporated on September 27, 1984 as a not-for-profit organization under the Non-Stock Corporation Act of the State of Connecticut. The Corporation's subsidiaries and affiliates are The Waterbury Hospital (the Hospital), Greater Waterbury Health Services, Inc., Greater Waterbury Management Resources, Inc. (GWMRI), VNA Health at Home, Inc. (VNA), and the Children's Center of Greater Waterbury Health Network, Inc. (Children's Center). The accompanying financial statements also include Access Rehab Centers, LLC (Access), Greater Waterbury Imaging Center Limited Partnership (GWIC), Imaging Partners, LLC, Alliance Medical Group, Inc. (AMG) and Cardiology Associates of Greater Waterbury, LLC to the extent of the Hospital's ownership interest in these subsidiaries and affiliated entities.

On October 29, 2012, the Network signed a Letter of Intent to develop a Joint Venture relationship with Vanguard Health Systems, Inc. (Vanguard) of Nashville, TN, a network of for-profit hospitals. Under terms of the proposed Joint Venture, the two organizations would form a Limited Liability Company in which Vanguard would have an 80 percent ownership interest and GWHN would have a 20 percent interest. The Joint Venture would acquire substantially all of the unrestricted assets and assume certain liabilities of the Hospital and GWHN. The Joint Venture would create a taxable, for-profit health system. On October 1, 2013, Tenet Healthcare Corporation (THC) completed its acquisition of Vanguard.

Approval from the State of Connecticut Office of Health Care Access (OHCA), the Office of the Attorney General, and from state and federal antitrust authorities is required.

A public hearing before the Office of the Attorney General and Office of Health Care Access was held on October 15, 2014. The Hospital received on December 1, 2014, proposed decision documents from the Office of the Attorney General and OHCA approving the proposed formation of the Joint Venture with Vanguard subject to certain conditions. Citing the number and restrictive nature of the conditions, Vanguard withdrew the application and on December 11, 2014 has publicly announced its decision not to pursue this transaction.

During November 2010, the Hospital established a limited liability company by the name of Cardiology Associates of Greater Waterbury, LLC (CAGW) to operate a cardiology practice. CAGW acquired the assets of Cardiology Associates of Waterbury (CAW), an unaffiliated entity, that were used by CAW physicians in the performance of their professional services.

The Hospital also acquired the assets of CAW that were used by CAW to perform diagnostic ancillary services. The Hospital converted these ancillary services to provider-based services, which are provided at a diagnostic center located near the Hospital. The goodwill recorded on the consolidated balance sheets relates to the purchase of CAW.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

ORGANIZATION (CONTINUED)

During June 2010, the Hospital entered into an arrangement with certain gastroenterology physician-members of the Hospital's medical staff to form Waterbury Gastroenterology Co-Management Company, LLC (GI Co-Management Company), a Connecticut limited liability company. This company was formed as a collaborative effort between the Hospital and the physicians for the purpose of improving the quality and efficiency of the gastroenterology service line at the Hospital. The Hospital's investment of \$50,000 in the GI Co-Management Company is included in the Corporation's consolidated financial statements in long-term investments.

The Hospital entered into a members' agreement, making it an equal member with St. Mary's Hospital, located in Waterbury, Connecticut, in a joint venture to form The Harold Leever Regional Cancer Center, Inc. (the Cancer Center). The Cancer Center is a Connecticut non-stock corporation exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code. The purpose of the joint venture is to develop, construct, own and operate the Cancer Center. Both member hospitals transferred the revenue and related expenses of their respective radiation oncology services to the Cancer Center in October 2002. Both member hospitals made working capital advances to the Cancer Center. The Cancer Center is not included in the Corporation's consolidated financial statements. During the year ended September 30, 2014, the Cancer Center provided a \$1 million unrestricted grant to the Hospital that is included in unrestricted gifts and bequests in the consolidated statements of operations and changes in net assets.

The Corporation's major accounting policies are as summarized below and in Note 2.

PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include the accounts of the Corporation, its subsidiaries and affiliated entities. Recognition has been given to noncontrolling interests in the affiliates which is reflected as a component of unrestricted net assets. All significant intercompany accounts and transactions are eliminated in consolidation.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, including estimated uncollectible accounts receivable for services to patients, and liabilities, including estimated net settlements with third-party reimbursement agencies and professional and pension liabilities, and disclosure of contingent assets and contingent liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. There is at least a reasonable possibility that certain estimates will change by material amounts in the near term. Actual results could differ from those estimates.

RECLASSIFICATIONS

Certain 2013 amounts were reclassified to conform to the 2014 presentation.

REGULATORY MATTERS

The Hospital is required to file annual operating information with OHCA.

TEMPORARILY AND PERMANENTLY RESTRICTED NET ASSETS

Temporarily restricted net assets are available to provide grant related services, free care, and educational seminars. Permanently restricted net assets have been restricted by donors to be maintained by the Corporation in perpetuity or in funds held in trust by others.

DONOR RESTRICTED GIFTS

Unconditional promises to give cash are recorded at the present value of their estimated future cash flows. The discounts on those amounts are computed using risk-free interest rates applicable to the years in which the promises to give are received. Amortization of the discounts is included in gifts and bequests on the consolidated statements of operations and changes in net assets.

The gifts are reported as either temporarily or permanently restricted net assets if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED SEPTEMBER 30, 2014 AND 2013

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

CASH AND CASH EQUIVALENTS

The Corporation considers all highly liquid investments with remaining maturities of three months or less at date of purchase to be cash equivalents. Cash and cash equivalents are held at a limited number of financial institutions and at times, the amounts on deposit exceed insured limits.

RESTRICTED CASH

At September 30, 2014, the Hospital had a \$4.5 million surety bond with an insurance company to support its self-insured workers' compensation program that was collateralized by an investment held by a bank. As of September 30, 2014, there were no borrowings on the surety bond.

At September 30, 2013, the Hospital had letters of credit totaling \$4.5 million with banks to support its self-insured workers' compensation program that were collateralized by certain investments held by the banks. As of September 30, 2013, there were no borrowings on the letters of credit.

ACCOUNTS RECEIVABLE

Patient accounts receivable result from the health care services provided by the Corporation and its subsidiaries. Additions to the allowance for doubtful accounts result from the provision for bad debts. Accounts written off as uncollectible are deducted from the allowance for doubtful accounts.

The amount of the allowance for doubtful accounts is based upon management's assessment of historical and expected net collections, business and economic conditions, trends in Medicare and Medicaid health care coverage and other collection indicators. See Note 2 for additional information relative to net patient service revenues and third-party payor programs.

INVENTORIES

Inventories are stated at the lower of cost or market. The Corporation values its inventories using the first-in first-out method.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED SEPTEMBER 30, 2014 AND 2013

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

INVESTMENTS

Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value in the consolidated balance sheets. Investment income or loss (including realized gains and losses on investments, interest and dividends) and unrealized gains and losses are included in the deficiency of revenues over expenses unless the income or loss is restricted by donor or law.

Unrealized gains and losses on investments related to permanently restricted net assets and certain temporarily restricted net assets are included in temporarily restricted net assets under State law which allows the Board of Directors to appropriate as much of the net appreciation of investments as is prudent considering the Hospital's long and short-term needs, present and anticipated financial requirements, expected total return on its investments, price level trends, and general economic conditions. Reference is made to Note 5.

PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment are recorded at cost. The Corporation and its subsidiaries provide for depreciation of property, plant and equipment and amortization of assets recorded under capital leases using the straight-line method in amounts sufficient to amortize the cost of the assets over their estimated useful lives which range from 3 to 40 years.

Financial Accounting Standards Board (FASB) ASC 410-20, Accounting for Asset Retirement Obligations (ASC 410-20), provides guidance on accounting and reporting for obligations associated with the retirement of tangible long-lived assets and the associated asset retirement costs. Asset retirement obligations include, but are not limited to, certain types of environmental issues which are legally required to be remediated upon an asset's retirement as well as contractually required asset retirement obligations. ASC 410-20 provides clarifying guidance on conditional asset retirement obligations. Conditional asset retirement obligations are obligations whose settlement may be uncertain. ASC 410-20's guidance requires such conditional asset retirement obligations to be estimated and recognized.

Conditional asset retirement obligations of \$2,801,923 and \$2,684,704 as of September 30, 2014 and 2013, respectively, are recorded in other noncurrent liabilities related to future asbestos remediation. During 2014 and 2013, there were no retirement obligations incurred or settled.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED SEPTEMBER 30, 2014 AND 2013

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

GOODWILL

Goodwill, which has an indefinite life, is not amortized and is evaluated for impairment at least annually or whenever events or business conditions indicate that the carrying values of such assets may not be fully recoverable.

IMPAIRMENT OF LONG-LIVED ASSETS

The Corporation records impairment losses on long-lived assets used in operations when events and circumstances indicate that the assets might be impaired and the undiscounted cash flows estimated to be generated by those assets are less than the carrying amounts of those assets. There were no impairment losses recorded in 2014 and 2013.

DEFICIENCY OF REVENUES OVER EXPENSES

The consolidated statements of operations and changes in net assets include the deficiency of revenues over expenses as the performance indicator. Changes in unrestricted net assets which are excluded from the deficiency of revenues over expenses, consistent with industry practice, include contributions of long-lived assets (including assets acquired using contributions which by donor restriction were to be used for the purposes of acquiring such assets), pension liability adjustments, and interest rate swap adjustments.

INCOME TAXES

The Corporation and its subsidiaries, with the exception of GWMRI, Access, GWIC, CAGW, and Imaging Partners LLC, are not-for-profit organizations and are exempt from federal income taxes on related income under Section 501(c)(3) of the Internal Revenue Code (Code). GWMRI has no current federal tax liability due to net operating losses since its date of incorporation. The Corporation is also exempt from state income tax.

Access, GWIC, CAGW and Imaging Partners LLC are partnerships. For tax purposes, these partnerships are pass-through entities. Taxation does not occur at the partnership level. Accordingly, no provision for taxes is included. AMG is tax exempt under Section 501(c)(3) of the Code.

GWMRI has approximately \$5,800,000 in net operating losses. This results in a deferred tax asset of \$2,720,000 which is offset by a corresponding valuation allowance of the same amount.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED SEPTEMBER 30, 2014 AND 2013

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION (CONTINUED)

INCOME TAXES (CONTINUED)

Management has analyzed the tax positions taken and has concluded that as of September 30, 2014, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Corporation is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Management believes the Corporation is no longer subject to income tax examinations prior to 2011.

MEDICAL MALPRACTICE AND WORKERS' COMPENSATION INSURANCE

The Hospital has a policy of self-insuring the deductible portion of its workers' compensation claims. The deductible limit is \$750,000 and \$500,000 per claim for the years ended September 30, 2014 and 2013, respectively. Management records its best estimate of losses as they occur. The accrued workers' compensation self-insurance liabilities of \$10,670,607 and \$9,996,921 at September 30, 2014 and 2013, respectively, have been discounted at 2.25%.

Effective October 1, 2006, the Hospital obtained "claims-made" medical malpractice insurance coverage, through the Network, from Healthcare Alliance Insurance Company, Ltd. (HAIC) under retrospectively-rated policies whose ultimate premium is based primarily on the Hospital's experience. HAIC is a multi-provider captive insurance company domiciled in the Cayman Islands. The Network is a one half owner of HAIC with one other local hospital that also holds a 50% ownership. The Hospital's insurance coverage is \$1,500,000 per occurrence and \$5,000,000 in the aggregate. In addition to the coverage from HAIC, the Hospital recorded reserves of approximately \$1,747,604 and \$2,066,103 at September 30, 2014 and 2013, respectively, related to claims that were incurred subsequent to October 1, 2006, but not yet reported. These reserves were discounted at 2.25% at September 30, 2014 and 2013.

The Hospital also obtains excess insurance coverage for professional and general liability, through the Network, from HAIC. These policies have limits of \$25,000,000 per claim and \$25,000,000 aggregate, in excess of the underlying limits in the primary layer, for both professional and general liability.

The Hospital also purchased a loss transfer insurance policy which provides \$1,000,000 of coverage for each medical incident that was incurred between October 1, 2003 and October 1, 2006 and specifically reported to the insurance company on the effective date of the transfer policy (February 7, 2008) in addition to medical incidents incurred during the aforementioned period which are first reported after the effective date of the policy. This policy also provides \$1,000,000 of coverage for general liability incurred but not reported

claims that occurred after October 1, 2003 through October 1, 2006 and were first reported after the effective date of the policy. The policy has annual aggregate limits of \$4,500,000 for medical incidents and \$3,000,000 for general liability cases with a combined \$25,000,000 total limit for all policy years. These aggregate limits are eroded by claims previously paid by the Hospital or other insurance.

RETIREMENT BENEFIT PLANS

The Hospital maintains a defined benefit pension plan for eligible individuals and participates in two multi-employer pension plans that cover certain union employees. Reference is made to Note 9.

OTHER NONCURRENT LIABILITIES

Other noncurrent liabilities include the long-term portion of liabilities for medical malpractice, workers' compensation, retirement benefits, the interest rate swap, and conditional asset retirement obligations.

RISKS AND UNCERTAINTIES

The Corporation invests in a variety of investment securities which are exposed to various risks, such as interest rate risk, financial market risk, currency risk and credit risk. Due to the level of risk associated with investment securities, coupled with economic events, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Corporation's September 30, 2014 financial statements, in addition to the funded status of its defined benefit pension plan.

BAD DEBTS

ASU 2011-07, Patient Service Revenue, Provision for Bad Debts, and the Allowance for Doubtful Accounts, requires certain health care entities to present the provision for bad debts associated with patient service revenue as a deduction from patient service revenue (net of contractual allowances and discounts) rather than as an operating expense with enhanced footnote disclosures on the policies for recognizing revenue and assessing bad debts, in addition to qualitative and quantitative information about changes in the allowance for doubtful accounts. Refer to Note 2 for the additional disclosures required by ASU 2011-07.

NOTE 2 – NET PATIENT SERVICE REVENUES AND CHARITY CARE

The following summarizes net patient service revenues:

	2014	2013
Gross patient service revenues	\$ 991,028,165	\$ 942,280,060
Deductions (additions): Allowances Regulatory	735,776,916 1,857,243	683,785,248 (902,445)
	737,634,159	682,882,803
Net patient service revenues	253,394,006	259,397,257
Provision for bad debts	4,454,817	11,368,671
Net patient service revenues less provision for bad debts	\$ 248,939,189	\$ 248,028,586

Patient accounts receivable and revenues are recorded when patient services are performed.

Amounts received from most payors are different from the established billing rates of the Hospital, and these differences are accounted for as allowances. Net revenues have been affected by State of Connecticut Disproportionate Share program in 2014 and 2013 which is reflected in the regulatory amounts in the table above.

Net patient service revenues are reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined. For the years ended September 30, 2014 and 2013, the Corporation recorded approximately \$2,500,000 and \$2,400,000, respectively, as a decrease to net patient service revenues as changes in estimates related to third-party payor settlements and adjustments to accruals recorded in prior years.

FOR THE YEARS ENDED SEPTEMBER 30, 2014 AND 2013

NOTE 2 – NET PATIENT SERVICE REVENUES AND CHARITY CARE (CONTINUED)

During 2014 and 2013 approximately 44% and 37%, respectively, of net patient service revenues were received under the Medicare program, 10% and 16%, respectively, under the state Medicaid program, and 46% and 47%, respectively, from contracts with other third-parties.

Changes in the Medicare and Medicaid programs and the reduction of funding levels could have an adverse impact on the Network. The State of Connecticut has implemented reductions in the State's Disproportionate Share Reimbursement Program for the period from July 1, 2012 through June 30, 2015.

The current Connecticut Medicaid inpatient hospital reimbursement model of interim per diem rates and case rate settlements will transition to an All Patient Refined Diagnosis Related Group System (APR-DRG) where hospital payments will be established prospectively. Connecticut Medicaid outpatient hospital reimbursement will move from the current system of reimbursement based on Revenue Center Codes to a prospective payment system based on the complexity of services performed. The specific transition plan has not been finalized by the State of Connecticut, but the new inpatient reimbursement methodology may be implemented as early as January 1, 2015; while the new outpatient reimbursement methodology will not be implemented until at least the second half of fiscal year 2016. The Hospital has not determined the estimated impact of these proposed changes on net patient service revenues in future years.

The significant concentrations of net accounts receivable for services to patients include 44% from Medicare, 15% from Medicaid, 28% from commercial insurance carriers and 13% from others at September 30, 2013 (44%, 13%, 24% and 19%, respectively, in 2013).

Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. Compliance with such laws and regulations can be subject to future government review and interpretation as well as significant regulatory action including fines, penalties, and exclusion from the Medicare and Medicaid programs. The Corporation believes that it is in compliance with all applicable laws and regulations. Cost reports for the Hospital, which serve as a basis for final settlement with government payors, have been settled by final settlement through 2011 for Medicare and 1995 for Medicaid. Other years remain open for settlement.

NOTE 2 – NET PATIENT SERVICE REVENUES AND CHARITY CARE (CONTINUED)

The Corporation has agreements with various Health Maintenance Organizations (HMOs) to provide medical services to subscribing participants. Under these agreements, the HMOs make fee-for-service payments to the Corporation for certain covered services based upon discounted fee schedules.

ALLOWANCE FOR DOUBTFUL ACCOUNTS

The Corporation's estimation of the allowance for doubtful accounts is based primarily upon the type and age of the patient accounts receivable and the effectiveness of the Corporation's collection efforts. The Corporation's policy is to reserve a portion of all self-pay receivables, including amounts due from the uninsured and amounts related to co-payments and deductibles, as the charges are recorded. On a monthly basis, the Corporation reviews its accounts receivable balances, the effectiveness of the Corporation's reserve policies and various analytics to support the basis for its estimates. These efforts primarily consist of reviewing the following:

- Revenue and volume trends by payor, particularly the self-pay components;
- Changes in the aging and payor mix of accounts receivable, including increased focus on accounts due from the uninsured and accounts that represent co-payments and deductibles due from patients;
- Various allowance coverage statistics.

The Corporation regularly performs hindsight procedures to evaluate historical write-off and collection experience throughout the year to assist in determining the reasonableness of its process for estimating the allowance for doubtful accounts.

A summary of the Corporation's allowance for doubtful accounts activity for the years ended September 30, 2014 and 2013 is as follows:

			Accounts

MEASURING CHARITY CARE

The Corporation accepts all patients regardless of their ability to pay. A patient is classified as a charity patient by reference to the established policies of the Corporation. Essentially, these policies define charity services as those services for which no payment is possible. In assessing a patient's inability to pay, the Corporation utilizes the generally recognized Federal poverty income levels, but also includes certain cases where incurred charges are significant when compared to incomes and assets. These services are not included in net patient service revenues for financial reporting purposes.

The Hospital implemented effective October 1, 2013 a change to its charity care policy to discount all self-pay receivables by 50 percent upon final billing. These self-pay discounts amounted to approximately \$5.2 million for the year ended September 30, 2014 and were previously included in the provision for bad debts and the allowance for doubtful accounts.

Self-pay revenues are derived primarily from patients who do not have any form of health care coverage. The Corporation evaluates these patients, after the patient's medical condition is determined to be stable, for their ability to pay based upon federal and state poverty guidelines, qualifications for Medicaid or other governmental assistance programs, as well as the Corporation's policy for charity care. The Corporation provides care without charge to certain patients that qualify under its charity care policy. For the years ended September 30, 2014 and 2013, the Corporation estimates that its costs of care provided under its charity care programs approximated \$1,383,000 and \$440,000, respectively.

The Corporation's management estimates its costs of care provided under its charity care programs utilizing a calculated ratio of costs to gross charges multiplied by the Corporation's gross charity care charges provided. The Corporation's gross charity care charges include only services provided to patients who are unable to pay and qualify under the Corporation's charity care policy. To the extent the Corporation receives reimbursement through the various governmental assistance programs in which it participates to subsidize its care of indigent patients, the Corporation does not include these patients' charges in its cost of care provided under its charity care program. Additionally, the Corporation does not report a charity care patient's charges in revenues or in the provision for doubtful accounts as it is the Corporation's policy not to pursue collection of amounts related to these patients.

ELECTRONIC HEALTH RECORD INCENTIVE PAYMENTS

The American Recovery and Reinvestment Act of 2009 (ARRA) included provisions for implementing health information technology under the Health Information Technology for Economic and Clinical Health Act (HITECH). The provisions were designed to increase the use of electronic health record (EHR) technology and establish the requirements for a Medicare and Medicaid incentive payment program for eligible providers that adopt and meaningfully use certified EHR technology. Eligibility for annual Medicare incentive payments is dependent on providers demonstrating meaningful use of EHR technology in each period over a four-year period. Initial Medicaid incentive payments are also available to providers that adopt, implement or upgrade certified EHR technology. Providers must demonstrate meaningful use of such technology in subsequent years to qualify for additional Medicaid incentive payments.

Income from Medicare incentive payments is recognized as revenue after the Corporation has demonstrated that it complied with the meaningful use criteria over the entire applicable compliance period. The Corporation recognized revenue from Medicaid and Medicare for incentive payments after it adopted certified EHR technology. Medicaid incentive payments were \$322,653 and \$483,979 for the years ended September 30, 2014 and 2013, respectively. Medicare incentive payments were \$1,184,857 and \$1,793,771 for the years ended September 30, 2014 and 2013, respectively. Incentive payments are included in other operating revenues in the accompanying consolidated statements of operations and changes in net assets. Income from incentive payments is subject to retrospective adjustment as the incentive payments are calculated using Medicare cost report data that is subject to audit. Additionally, the Corporation's compliance with the meaningful use criteria is subject to audit by the federal government.

ICD-10 IMPLEMENTATION

The Corporation is subject to the administrative simplification provisions of HIPAA which require the use of uniform electronic data transmission standards for health care claims and payment transactions submitted or received electronically.

In January 2009, the Centers for Medicare and Medicaid Services (CMS) published its tenth revision of International Statistical Classification of Diseases and Related Health Problems (ICD-10) and related changes to the formats used for certain electronic transactions. ICD-10 contains significantly more diagnostic and procedural codes than the existing ICD-9 coding system, and as a result, the coding for the patient services provided by the Corporation will require much greater specificity when ICD-10 becomes effective on October 1, 2015.

The implementation of ICD-10 will require a significant investment in technology and training. The Corporation may experience delays in reimbursement while the Corporation and the payors from which it seeks reimbursement make the transition to ICD-10. If the Corporation fails to implement the new coding systems by the deadline, the Corporation will not be paid for services. Management is not able to reasonably estimate the overall financial statement impact of the Corporation's transition to ICD-10.

NOTE 4 – FAIR VALUE MEASUREMENTS

The Corporation categorizes assets and liabilities for disclosure purposes based on whether the inputs used to determine their fair values are observable or unobservable. The Corporation utilizes a three-level fair value hierarchy that prioritizes the inputs used to measure assets at fair value. Level inputs are as follows:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Corporation has the ability to access on the reporting date.

Level 2 – Inputs other than quoted market prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. If the asset or liability has a specific (contractual) term, a Level 2 input must be observable for substantially the full term of the asset.

Level 3 – Inputs that are unobservable for the asset or liability.

The fair values of Level 1 securities were determined through quoted market prices, while fair values of Level 2 securities were determined primarily through prices obtained from third party pricing sources, where quoted market prices for such securities are not available. The fair values of Level 3 securities were determined primarily through information obtained from the relevant counterparties for such assets and liabilities, as information on which these fair values are based is generally not readily available in the market.

The fair value of the interest rate swap was determined by the counterparty based on an estimate of the net present value of the expected cash flows using relevant mid-market data inputs and based on the assumptions of no unusual market conditions or forced liquidation.

NOTE 5 – RESTRICTED ENDOWMENTS

The Hospital's endowments consist of donor-restricted endowment funds and Board-designated endowment funds. Net assets associated with endowment funds are classified and reported based on donor-imposed restrictions.

The Hospital's Board of Trustees has interpreted the Connecticut Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds, absent explicit donor stipulations to the contrary. As a result of this interpretation, the Hospital classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and, if applicable (c) accumulations to the permanent endowment made in accordance with the related gift's donor instructions. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Hospital in a manner consistent with the standard for expenditure as proscribed by UPMIFA. In accordance with UPMIFA, the Corporation considers the following factors in making determinations to appropriate or accumulate donor-restricted endowment funds:

- (1) The duration and preservation of the fund
- (2) The purposes of the Hospital and the donor-restricted endowment fund
- (3) General economic conditions
- (4) The possible effect of inflation and deflation
- (5) The expected total return from income and the appreciation of investments
- (6) Other resources of the Hospital
- (7) The investment policies of the Hospital

RETURN OBJECTIVES AND RISK PARAMETERS

For the permanently restricted endowment funds, the bank, acting in its capacity as trustee, determines and directs the investment policy and asset allocation. For the unrestricted and temporarily restricted endowment funds, the Corporation's Board of Directors has adopted investment and spending policies that attempt to provide a predictable stream of funding to programs supported by its endowments while seeking to maintain the purchasing power of the endowment assets. The Hospital expects these endowment funds, over time, to provide an average rate of return that exceeds the rate of inflation by 3.5% annually. Actual returns in any given year may vary from this amount.

NOTE 5 – RESTRICTED ENDOWMENTS (CONTINUED)

STRATEGIES EMPLOYED FOR ACHIEVING OBJECTIVES

To satisfy its long-term rate-of-return objectives, the Hospital relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Hospital targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

SPENDING POLICY AND HOW THE INVESTMENT OBJECTIVES RELATE TO SPENDING POLICY

The Hospital has a policy of evaluating the spending decisions for each endowment fund based upon the intentions of the donors and specific contractual agreements. In determining the annual amount to be spent, the Hospital considers the long-term expected return on its endowment. The spending policy is designed to limit spending to the expected long-term real rate of return. The annual distribution from the endowment funds is expected to be contained within a range of 4-6% of the funds' market value. This is consistent with the Hospital's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term as well as to provide additional real growth through new gifts and investment return.

NOTE 6 – TEMPORARILY AND PERMANENTLY RESTRICTED NET ASSETS

Permanently restricted net assets at September 30, 2014 and 2013, are restricted amounts which are to be held in perpetuity, the income from which is expendable to provide free care, scholarships for the children of the Hospital's employees, and for the operations of the Hospital. Also included in permanently restricted net assets are funds held in trust by others. The Hospital is the restricted income beneficiary of funds held in trust by others. The total trust assets, as reported by the trustee, had an aggregate fair value at September 30, 2014 and 2013 of \$46,117,761 and \$44,960,039, respectively. Distributions of \$2,023,580 and \$1,896,981 from these assets for the years ended September 30, 2014 and 2013, respectively, is included in investment income.

Temporarily restricted net assets are available to provide psychiatric services, free care and educational seminars.

During 2014 and 2013, net assets were released from donor restrictions by incurring expenses which satisfied the restricted purposes in providing grant related services, free care, and various miscellaneous services in the amounts of \$4,369,303, \$688,243 and \$484,945, respectively in 2014 and \$4,420,717, \$657,253 and \$341,621, respectively in 2013. In addition, \$13,360 and \$19,654 were released for the purchase of property and equipment in 2014 and 2013, respectively.

NOTE 7 - DEBT

HOSPITAL SERIES D BOND FINANCING

In December 2010, the Hospital refinanced its Series C bond financing and financed an additional \$8,000,000 for various capital projects that were completed over a two-year period. The par amount of the Series D debt was \$25,918,000 and interest is variable at the interest rate that is equal to the product of (i) sixty-eight percent (68%) and (ii) the sum of the LIBOR Rate and three hundred basis points (2.15% at September 30, 2014). The bonds require monthly principal and interest payments, based upon a 10-year amortization schedule, from 2011 through 2020 with the remaining principal balance due in 2020.

The terms of the bonds provide for, among other things, a pledge of gross receipts of the Hospital, restriction on the incurrence of certain indebtedness of the Hospital and provide for covenants regarding the Hospital's debt service coverage ratios, minimum levels of cash on hand, sale and lease of assets and other covenants similar in financings of this type.

In connection with this refinancing, the Hospital entered into an interest rate swap with a bank, which allowed it to convert its variable interest rate liability to a fixed interest rate liability of 4.475% without changing the structure of the underlying debt.

The Hospital uses the interest rate swap agreement to manage interest rate risk associated with its outstanding debt. At September 30, 2014 and 2013, the notional value of outstanding interest rate swap was \$24,283,520 and \$24,755,656, respectively.

The Hospital recognizes the fair value of its interest rate swap in the consolidated balance sheet as a liability, recorded in other noncurrent liabilities. At September 30, 2014 and 2013, the fair value of interest rate swap was in a liability position of \$1,512,596 and \$1,729,706, respectively.

The Hospital designated its interest rate swap as a cash flow hedge for accounting purposes, and accordingly defers gains or losses associated with the swap in net assets.

CHILDREN'S CENTER SERIES 2011 BONDS

In August 2011, CHEFA sold \$28,840,000 of Series 2011 revenue bonds, the proceeds of which were used to redeem a number of bond series. As a result of the sale of the Series 2011 bonds, the Children's Center's loan with CHEFA was refinanced and reduced from \$1,560,000 to \$1,505,000. The Series 2011 bonds mature serially from 2012 through 2030, with interest rates ranging from 1% to 5%.

NOTE 7 – DEBT (CONTINUED)

CHILDREN'S CENTER SERIES 2011 BONDS (CONTINUED)

Under the terms of the financing arrangements between the Children's Center and CHEFA, the proceeds of the revenue bonds were loaned to the Children's Center. Pursuant to the loan agreement, the Children's Center was obligated to provide amounts which will be sufficient to enable CHEFA to pay the principal of and interest on the proceeds of the Series 2011 Bonds.

Concurrently with the issuance and delivery of the Series 2011 Bonds, the Children's Center and U.S. Bank NA, as trustee, entered into the Master Indenture and Supplemental Master Indentures Numbers 1 and 2, pursuant to which the Children's Center was obligated to pay the amount due under the loan agreement with CHEFA. The Master Indenture and Supplemental Master Indentures provide for, among other things, the establishment and maintenance of a Debt Service Reserve Fund (which has been funded by the State of Connecticut as discussed below) and a pledge of the gross receipts, as defined, of the Children's Center, restriction on the incurrence of certain indebtedness of the Children's Center and covenants regarding the Children's Center's debt service coverage ratios, sale and lease of assets and other covenants similar in financings of this type.

Pursuant to Public Act No. 97-259 (the School Readiness Act), the State of Connecticut has encouraged the development of a network of school readiness programs that meet the standards developed by the State Department of Education. To encourage such development, the School Readiness Act established, among other things, the Child Care Facilities Program to finance low interest loans for the purpose of new construction of child care centers. The State of Connecticut, acting through the Commissioner of the Department of Social Services, may allow actual debt service on such loans and a debt service reserve fund to be paid by the State of Connecticut provided that such debt service terms are determined by the Commissioner to be reasonable. The State of Connecticut has funded the debt service reserve fund and has agreed to fund, subject to available appropriations, 83.6% of the debt service on the Series 2011 Bonds and to replenish any deficiencies in the debt service reserve fund. During 2014 and 2013, the total debt service funded by the State of Connecticut was \$104,030 and \$103,351, respectively.

NOTE 9 – EMPLOYEE BENEFIT PLANS

The Hospital has a noncontributory defined benefit cash balance plan (the Plan). Under the Plan, each participant who elected to transfer their balances to the Plan from the former defined contribution plan receives a credit of 6% of compensation allocated to their cash balance accounts. All other participants receive a 3% credit. Additionally, each participant receives an interest credit to their cash balance account based on the yield to maturity on three-year treasury bills. The Plan covers substantially all non-union employees age 21 and older with one year of service. It is the Hospital's policy to make contributions to the Plan sufficient to meet the minimum funding requirements of applicable laws and regulations.

Following is a summary of the Plan's funded status using the measurement dates of September 30, 2014 and 2013 and amounts recognized in the Corporation's consolidated financial statements.

EXPECTED LONG-TERM RETURN ON PLAN ASSETS

To develop the expected long-term rate of return on assets assumptions, the Hospital considered the historical returns and the future expectations of returns for each asset class, as well as target asset allocations of the pension portfolio. This resulted in the selection of the 4.5% and 8.0%, long-term rate of return at September 30, 2014 and 2013, respectively.

The Plan's weighted-average asset allocations at September 30, 2013, by asset category are as follows:

	_	Asset Allo	cation Policy
Asset Category	Plan Assets	Target	Range
Global defense equity unhedged	10%	10%	5% - 15%
Custom fixed income	90%	90%	85% - 95%

The Pension Committee of the Board of Directors (the Committee) is responsible for employee benefit program policies with respect to plan assets and the retention of qualified managers, consultants and trustee/custodians. The purpose of the Committee is to ensure the Plan assets accumulate monies required to meet the anticipated benefit payments of the Plan and contributions are made by the Hospital on a basis determined by the Plan's actuary to be adequate to fund the benefits. The investment objective of the Committee is to maximize total return after inflation within the limits of prudent risk taking by diversifying across asset classes and multiple managers. The Committee has established an asset allocation policy that sets a target and range for each asset class, as shown in the table above.

CONTRIBUTIONS

The Hospital expects to make \$1,204,000 in contributions to the Plan in 2015.

OTHER BENEFIT PLANS

The Hospital participates in multi-employer pension plans that cover substantially all union employees. Contributions to the plans are based upon a percentage of each participant's total salary. The risks of participating in these multi-employer plans are different from single-employer plans in the following aspects:

- Assets contributed to the multi-employer plan by one employer may be used to provide benefits to employees of another participating employer.
- If a participating employer stops contributing to the plan, the unfunded obligation of the plan may be borne by the remaining participating employers.
- If the Hospital chose to stop participating in the multi-employer plans, the Hospital may be required to pay those plans an amount based on the underfunded status of the plans, referred to as a withdrawal liability.

¹ The most recent PPA zone status available in 2014 and 2013 is for the plan's year-ending during 2013 and 2012, respectively. The zone status is based on information received from the plan and is certified by the plan's actuary. Among other factors, plans in the red zone are generally less than 65 percent funded, plans in the orange zone are less than 80 percent funded and have an accumulated funding deficiency in the current year or projected in the next six years, plans in the yellow zone are less than 80 percent funded, and plans in the green zone are at least 80 percent funded.

During the years ended September 30, 2014 and 2013, the Hospital's contributions to the Connecticut Health Care Associates Pension Plan represented 98.6% and 96.0% of the total contributions made to the plan by all participating employers, respectively.

During the years ended September 30, 2014 and 2013, the Hospital's contributions to the New England Health Care Employees Pension Plan represented 2.8% and 3.0% of the total contributions made to the plan by all participating employers, respectively.

Governmental regulations impose certain requirements relative to union-sponsored pension plans. In the event of plan termination or employer withdrawal, an employer may be liable for a portion of the plan's unfunded vested benefits. The Hospital has explored the costs to withdraw from the Connecticut Health Care Associates (CHCA) Pension Plan in the event that the Hospital enters into a transaction. If the Hospital was to withdraw, it is expected that CHCA will likewise withdraw from the pension plan making a total withdrawal liability for the Hospital of approximately \$27,700,000.

NOTE 9 – EMPLOYEE BENEFIT PLANS (CONTINUED)

The VNA has a defined contribution pension plan which covers substantially all full-time employees, in addition to a non-contributory discretionary pension plan for which contributions are made annually at the discretion of the VNA's Board of Directors.

In addition, the Hospital has a supplemental employee retirement plan for certain executives. The plan provides for a total benefit and is partially funded. As of September 30, 2014 and 2013, liabilities of \$330,148 and \$240,869, respectively, have been reflected in the consolidated balance sheets.

As noted above, the Hospital also has a noncontributory defined benefit cash balance plan covering substantially all non-union employees age 21 and older with one year of service. Total pension expense, relating to this plan, charged to operations during the years ended September 30, 2014 and 2013 was \$2,347,741 and \$1,380,479, respectively.

NOTE 10 – SELF INSURANCE CLAIMS

There have been medical malpractice and workers' compensation claims that fall within the Corporation's partially self-insured program which have been asserted against the Corporation. In addition, there are known incidents that have occurred through September 30, 2014 that may result in the assertion of claims. Corporation management has accrued its best estimate of these contingent losses. Other claims may be asserted arising from services provided to patients or workers' compensation incidents in the past. Corporation management has provided reserves for these contingent liabilities.

NOTE 11 – CONTINGENCIES

The Corporation is a party to various lawsuits incidental to its business.

We have audited the consolidated financial statements of Greater Waterbury Health Network, Inc. as of and for the years ended September 30, 2014 and 2013, and our report thereon dated December 19, 2014, which contained an unmodified opinion on those consolidated financial statements, appears on pages 1-2. Our audits were performed for the purpose of forming an opinion on the consolidated financial statements as a whole. The supplementary information is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audits of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements taken as a whole.
