1 Briefly describe the organization's mission: The Hospital of Central Connecticut is dedicated to fostering, sustaining and improving the health status of the people in the communities we serve.

2 Did the organization undertake any significant program services during the year which were not listed on the prior Form 990 or 990-EZ? [] Yes [X] No

3 Did the organization cease conducting, or make significant changes in how it conducts, any program services? [] Yes [X] No

Emergency Department: For Fiscal Year 2015 (FY15), there were approximately 140 Full-time employees (FTEs) in the Emergency Department for both Southington and New Britain Campuses. Our ER team is committed to delivering quality medical care with high patient safety in a timely, efficient and professional manner while also exceeding the needs of our patients and private physicians. Trends in Emergency Department Volumes: This year our total patient visits for both campuses combined was over 103,808. This was a decrease of 1,496 patients or 1.4% from the previous year. The volumes were approximately 86,000 and 17,000 at the New Britain and Southington campuses respectively. The Department continues to manage staffing levels, based on census levels and trends to meet the demands of our patient volumes.

4b (Code:) (Expenses \$ 14,919,829. including grants of \$) (Revenue \$ 44,756,787.) Radiology Department: Radiology derived information is an inextricable component of our patients' care continuum. From screening exams to acute interventional imaging, radiographic technology continued to evolve in 2015. There were over 151,000 imaging exams performed at the New Britain and Southington campuses. Of these, more than 80% were performed on Outpatients. There was a 4.9% overall decline in imaging exams in FY15 versus the prior year's due to the combined economic influences and judicious applications of imaging and radiation exposure. Management continues to manage and review satellite offices volume and staffing levels in a continuous form to stay financially responsible to the organization and community.

4c (Code:) (Expenses \$ 14,973,557. including grants of \$) (Revenue \$ 28,018,867.) Our laboratory tested 343,873 units for our Inpatients and 877,984 for Outpatients (the outpatient tests were approximately 65% of total units). As a partner in the community, HOCC has positioned itself throughout the greater New Britain area in order to be convenient to our patients and family members. Our organization continues to review sites that we currently operate and potential new sites to address patient and family experience/satisfaction and convenience.

4d Other program services (Describe in Schedule O.) (Expenses \$ 268,791,707. including grants of \$) (Revenue \$ 223,085,450.)

The Hospital of Central Connecticut:

Part V, Section B, Line 3j: The Hospital of Central Connecticut completed its last Community Health Needs Assessment in FY 2015. The study area for the survey effort is defined by 23 residential ZIP Codes in Connecticut. This assessment incorporated data from both quantitative and qualitative sources. Quantitative data input include primary research and secondary research. The survey instrument used for this study was based largely on the Centers for Disease Control and Prevention (CDC) Behavioral Risk Factor Surveillance System (BRFSS), as well as various other public health surveys and customized questions addressing gaps in indicator data relative to health promotion and disease prevention objectives and other recognized health issues.

To ensure the best representation of the population surveyed, a telephone interview methodology - one that incorporates both landline and cell phone interviews - was employed. The sample design used for this effort consisted of a random sample of 798 individuals age 18 and older in the Hospital of Central CT service area. Because the study was part of a larger effort involving multiple regions and hospital service areas, the surveys were distributed among various strata. Once the interviews were completed, these were weighted in proportion to the actual population distribution so as to appropriately represent the Hartford Region as a whole.

A variety of existing (secondary) data sources was consulted to complement the research quality of the Community Health Needs Assessment.

The Hospital of Central CT recognizes that it cannot measure all possible aspects of health in the community, nor can it adequately represent all possible populations of interest. In terms of content, the assessment was designed to provide a comprehensive and broad picture of the health of the overall community. The CHNA analysis and report yielded a wealth of information about the health status, behaviors and needs for our population. A distinct advantage of the primary quantitative (survey) research is the ability to segment findings by geographic, demographic and health characteristics to identify the primary and chronic disease needs and other health issues of vulnerable populations, such as uninsured persons, low-income persons, and racial/ethnic minority groups. For additional statistics about uninsured, low-income, and minority health needs please refer to the complete Community Health Needs Assessment report, which can be viewed online at:

After reviewing the Community Health Needs Assessment findings, the community representatives met on June 10, 2015 to determine the health needs to be prioritized for action. During a detailed presentation of the CHNA findings, we used audience response system (ARS) technologies to lead steering committee members through a process of understanding key local data findings (Areas of Opportunity) and ranking identified health issues against the following established, uniform criteria: Magnitude, Impact/Seriousness/Feasibility, Consequences of Inaction. From this exercise, the areas of opportunity were prioritized as follows by the committee: Mental Health, Nutrition, Physical Activity & Weight Status,

Health Priorities Not Chosen for Action:

*Chronic Kidney Disease. THOCC believes that efforts outlined herein to improve and increase awareness of healthy lifestyles will have a positive impact on the detection of kidney disease and that we do not have the available resources to create a separate set of kidney-specific initiatives.

*Dementia, including Alzheimer's Disease. THOCC believes that this priority area falls more within the purview of local organizations, such as the area Alzheimer's Resource Center. THOCC will support communication of these services.

*Potentially Disabling Conductions. Those voting felt that more pressing health needs existed. Limited resources and lower priority excluded this as an area chosen for action

*Respiratory Diseases. THOCC participates in a statewide asthma collaborative established by the CT Department of Public Health and The CT Hospital Association. THOCC will support the established initiatives from this collaborative.

*Sexually Transmitted Diseases. THOCC believes that this priority area falls more within the purview of the community/district health departments and other community organizations. Limited resources and lower priority

The Hospital of Central Connecticut:

Part V, Section B, Line 22d: For FY15, the hospital did a computation to determine on average, insurance companies reimbursement for the types of services rendered. The average (discount) was offered to all self-pay patients without regards to financial ability. Patients who were unable to pay their bills were able to apply for financial assistance. Based upon factors including family size & income, patients were eligible to receive write-offs ranging between 25 - 100%.

The Hospital Financial Assistance Policy (effective January 1, 2016) is compliant with IRS Code Sec. 501R. Per the Hospital's policy, no individual who is determined to be eligible for financial assistance will be charged more for emergency or other medically necessary care than the amount generally billed to individuals who have insurance covering such care. The basis to which any discount is applied is equivalent to the billed charges posted to a patient account minus any prior insurance payments and adjustments from the patient's insurance (if applicable). Starting January 1, 2016, the Hospital used the IRS 501R prescribed methodology to compute self-pay discount (AGB discount).

Part I, Line 3c:

The Hospital of Central Connecticut uses Federal Poverty Guidelines (FPG) to determine eligibility. In addition to the FPG, the hospital also utilizes other eligibility criteria, such as asset level, medical indigence and insurance status.

Part I, Line 7:

The organization utilized an overall cost to charge ratio, (RCC), developed from the Medicare Cost Report. Total expense was adjusted for: medicaid provider taxes, directly identified community benefit expense and community building expenses. This cost to charge ratio was used to calculate costs for Part I lines 7a, b, & g. The costs associated with the activities reported on Part I, Line 7e were captured using actual time multiplied by an average salary rate. The costs associated with Line 7h, were the actual costs reported in the organization's general ledger less any industry funded studies. These costs were removed from the calculations above to avoid duplication. Costs reported in Part III, Section B6, were calculated from the Medicare cost report and reduced for

Medicare costs previously reported on Part I Lines 7f and g.

Part I, Line 7g:

Physician clinic costs were included in the Subsidized Health Services cost calculations.

Part II, Community Building Activities:

In 2015, The Hospital of Central Connecticut did not conduct any community building activities and primarily focused on both community health programs and health professions education.

Part III, Line 2:

The Hospital has established estimates based on information presently available of amounts due to or from Medicare, Medicaid, and third-party payers for adjustments to current and prior year payment rates, based on industry-wide and Hospital-specific data. Such amounts are included in the accompanying consolidated balance sheets.

Part III, Line 3:

A pre-bad debt financial assistance screening is in place to identify patients that may be eligible for financial assistance. Pre-bad debt accounts that are identified as meeting the requirements are adjusted prior to being sent to bad debt. Therefore, any bad debt expense that could have been attributable to charity care at the end of FY 2015 would be immaterial.

Part III, Line 4:

beginning on page 16 - 19 of the Audited Financial Statement.

Part III, Line 8:

Providing for those in need, including Medicare patients and serving all patients regardless of their ability to pay is an essential part of the organization's mission. The Hospital serves all patients without regard to any payment shortfall. The Organization's Medicare Cost Report was used to accumulate actual costs related to Part III, Section B, Line 6.

Part III, Line 9b:

The Financial Assistance Policy states: In the event a patient fails to qualify for Financial Assistance or fails to timely pay his or her portion of discounted charges pursuant to this Policy, The Hospital of Central Connecticut reserves the right to institute and pursue Extraordinary Collection Actions (ECA) and remedies such as imposing wage garnishments or filing liens on primary or secondary residences, bank or investment accounts, or other assets, instituting and prosecuting legal actions and reporting the matter to one or more credit rating agencies. For those patients who qualify for Financial Assistance and who, in The Hospital of Central Connecticut's sole determination, are cooperating in good faith to resolve the outstanding accounts, The Hospital of Central Connecticut may offer extended payment plans. For patients who meet the terms of the payment plan The Hospital of Central Connecticut will not impose wage garnishments or liens on primary residences, and will not send unpaid bills that are part of the payment plan to outside collection agencies.

No ECA will be initiated during the first 120 days following the first post-discharge billing statement to a valid address or during the time

Part VI Supplemental Information (Continuation)

that patient's Financial Assistance Application is processing. Before initiating any ECA, a notice will be provided to the patient 30 days prior to initiating such event.

If the patient applies for assistance within 240 days from the first notification of the self-pay balance, and is granted assistance, any ECA's such as negative reporting to a credit bureau or liens that have been filed will be removed.

Part VI, Line 2:

The Hospital of Central Connecticut assesses the health care needs of the communities it serves in several manners. HOCC has recently conducted a community needs assessment of the population within its service area in order to ascertain the prevalent health care needs. The assessment identified chronic diseases, defined the population cohorts most at risk and segregated needs based on socioeconomic and mental status. Within these stratifications, HOCC looked to identify the barriers to receiving appropriate care such as lack of transportation, program capacity, mobility issues, mental status, age, and language. The Hospital will be partnering with other community organizations to address some of the most prevalent needs identified. HOCC also analyzed claims based data to understand what medical diagnoses and surgical procedures are attributed to its local population in order to plan for program growth and/or capacity. Another method HOCC employs is through continuous contact and collaboration with local community groups. These groups often identify medical services that are needed in the community that HOCC ought to address.

Part VI Supplemental Information (Continuation)

Part VI, Line 3:

The patients are educated about Financial Assistance by the signage and Financial Assistance summary hand out available in the following departments at the hospital, Admitting, Patient Accounts, Emergency Department, Behavioral Health, and Social Services. Financial Assistance education is also provided on the back of the hospital's monthly statement, by our outside vendors, and collection agencies.

Part VI, Line 4:

The Hospital of Central Connecticut (HOCC) serves primarily the communities located in greater New Britain and the surrounding towns including Berlin, Plainville and Southington, with some coverage of Bristol, Burlington, Cheshire, Cromwell, Farmington, Meriden, Newington, West Hartford and Wolcott. The total population in HOCC's service area is 464,998 as defined by CERC town profiles for 2014. The most prominent race is Caucasian at about 84% of the total population which has been declining as the Hispanic population has grown to approximately 15% of the total 13 town primary and sub-service areas. Within HOCC's primary service area of Berlin, Plainville, New Britain and Southington, the Hispanic population counts for 16%. The population in HOCC's service area is older than the US and CT as a whole with approximately 16% in the over 65 category in some of the primary towns. The median household income in HOCC's communities varies significantly averaging \$72,000 with 23.5% of NB's population living beneath the federal poverty level.

Part VI, Line 5:

The Hospital of Central Connecticut (HOCC) is responsive to the community by having a completely open medical staff and a board of trustees with

Schedule H (Form 990)

diverse membership that reflects the community at large.

HOCC is a Disproportionate Share Hospital with one of the highest rates of Medicaid patients in the state. The organization provides space for the Medicare Choices program to help community members select the Medicare programs that are best for them. The organization has a full graduate medical education program for physician training with UCONN, and also provides training for nursing and allied health students, including a specialty echosonographer program. HOCC is a major sponsor of the New Britain Health Academy, a program that exposes local high school students to careers in the healthcare field. Presented in partnership with other community organizations, the Academy offers students an opportunity to learn about the types of jobs available, and facilitates contact with healthcare professionals who can guide program participants.

In FY 2015, HOCC continues to support a community service organization fair where area not-for-profit organizations are invited to the hospital to share with HOCC's community about their mission and purpose. In addition, various hospital staff members and departments support community events on an ongoing basis, as well as frequent monetary and in-kind donations to area organizations in need.

HOCC also participates in the Medical Legal Partnership Program. This program recognizes that there are many issues that may affect children and families seeking health care, that are not specifically healthcare related. These include landlord/tenant and housing issues. The program helps healthcare providers direct families to resources that can assist with these issues. Among our outreach services is our Mothers Offering

Part VI Supplemental Information (Continuation)

Mothers Support (M.O.M.S.) program, a weekly support program for mothers 21 years old and under. Program leaders are women who were also young mothers and are now helping others. In addition, The Hospital of Central Connecticut has a program in which indigent patients who are being discharged from the hospital and who do not have prescription drug coverage, receive dosages of their prescribed medications to help them recover and comply with treatment guidelines as well as reduce readmission rates.

Part VI, Line 6:

Hartford Healthcare Corporation (HHC) is organized as a supporting organization to govern, manage and provide support services to its affiliates. HHC, through its affiliates including The Hospital of Central Connecticut, strives to improve health using the "Triple Aim" model: improving quality and experience of care; improving health of the population (population health) and reducing costs. The Strategic Planning and Community Benefit Committee of the HHC Board of Directors ensures the oversight for these services by each hospital community. HHC and its affiliates including all supporting organizations, develop and implement programs to improve the future of health care in our Southern New England region. This includes initiatives to improve the quality and accessibility of health care; create efficiency on both our internal operations and the utilization of health care; and provide patients with the most technically advanced and compassionate coordinated care. In addition, HHC continues to take important steps toward achieving its vision of being "nationally respected for excellence in patient care and most trusted for personalized, coordinated care".

Part VI Supplemental Information (Continuation)

HHC affiliation creates a strong, integrated health care delivery system with a full continuum of care across a broader geographic area. This allows small communities easy and expedient access to the more extensive and specialized services the larger hospitals are able to offer. This includes continuing education of health care professionals at all the affiliated institutions through the Center of Education, Simulation and Innovation located at Hartford Hospital, the largest of the system hospitals.

The affiliation further enhances the affiliates abilities to support their missions, identity, and respective community roles. This is achieved through integrated planning and communication to meet the changing needs of the region. This includes responsible decision making and appropriate sharing of services, resources and technologies, as well as cost containment strategies.

Additionally, the hospital is affiliated with several other non hospital charitable organizations. These organizations provide significant benefits to the community. These benefits are not reported in the Community Benefit data provided by the hospital.
