Section 1 - Executive Summary

The Office of Health Strategy ("OHS") was created as a bipartisan effort of the Connecticut General Assembly to forward high-quality, affordable, and accessible healthcare for all residents. The legislation re-organized existing state resources into one body, uniting health policymaking and advancing healthcare reform initiatives that will drive down healthcare costs, close Connecticut's deeply entrenched racial, economic, and gender health disparities, and undertake technology-driven modernization efforts throughout the system.

The Office of Health Strategy mission is *to implement comprehensive, data driven strategies that promote equal access to high-quality health care, control costs, and ensure better health for the people of Connecticut.* The Health Systems Planning ("HSP") unit within OHS is the former Department of Public Health Office of Health Care Access ("OHCA".) OHCA's statutes were transferred to OHS by Public Act ("P.A.") 18-91. With this transition, OHS is now responsible for the collection, analysis, and dissemination of acute care hospital financial information. This report provides information related to the financial stability of Connecticut's acute care hospitals, as mandated by CGS § 19a-670, as amended by PA 18-91. The report highlights Connecticut's statewide hospital trends and includes individual hospital profiles of financial performance. It is intended to provide information that will enhance knowledge of the financial status of Connecticut's hospitals.

The report identifies a number of key findings and trends:

- In Fiscal Year ("FY") 2017, Connecticut ("CT") hospitals had a total gain from operations of \$380.9 million, an increase of 9% from the previous year's gain from operations.
- In FY 2017, hospitals statewide earned \$464.0 million in income from non-operating sources of revenue, a 10% decrease from the previous year when hospitals overall made \$515.7 million.
- In FY 2017, 82% of hospitals (23 of 28) achieved a positive total margin.
- The average statewide total margin was 7.04% in FY 2017, a slight drop from the 7.32% average statewide total margin in the previous year.
- Six hospitals had negative five-year average total margins in the FY 2013 to FY 2017 time period; the same as the previous year.
- Total hospital net assets / stockholder equity increased by \$1.1 billion, totaling \$6.5 billion in FY 2017.
- Bad debts accounted for 56% of uncompensated care charges in FY 2017 while charity care accounted for over 44%, a change from last year when bad debt accounted for over 60% of charges and charity care almost 40% of charges.
- Statewide uncompensated care charges totaled \$669 million in FY 2017, increasing just \$6 million or 1% over the prior year results.
- The five-year trend of hospitals becoming part of larger hospital networks continued in FY 2017 with one Connecticut hospital becoming part of a larger network during the fiscal year.

Introduction

Connecticut state statutes and regulations¹ require each short-term acute care general or children's hospital, whether structured as for-profit, not-for-profit, or state-owned, to submit financial and statistical information to OHS annually. Hospital audited financial statements, which include balance sheet and statement of operations information, are a primary verifying source of information in this report. OHS also uses data and information filed each year by hospitals in their Annual Report and Twelve Month Actual submissions, such as utilization statistics, uncompensated care data, and legal charts of corporate structure.

The report highlights Connecticut's statewide hospital trends, includes individual hospital profiles of financial performance, and is intended to provide information that will enhance knowledge of the financial status of Connecticut's hospitals. While there are numerous financial and operating indicators that provide a means to measure hospital performance, this report focuses primarily on measures involving profitability, cost data, liquidity, solvency, net assets, discharges by payer, and uncompensated care, which are considered strong indicators of the hospitals' financial and operating strength.²

Readers should note that when filing the FY 2017 data,³ some FY 2016 financial and statistical data elements reported in a previous filing year may have been revised or restated by the hospitals during the FY 2017 filing process. This updated information has been included in this publication to improve reporting accuracy and comparability between FY 2016 and FY 2017 data reported.

OHS presents key findings related to the hospital and hospital system financial performance for FY 2017 by the following categories:

- Individual Hospital Income and Financial Performance
- Five-Year Financial Performance
- Uncompensated Care
- Health System Income and Financial Performance

¹ Sections 19a-644 and 19a-676, C.G.S., as amended by PA 18-91, and Section 19a-643-206 of the Regulations of Connecticut state agencies.

² OHS used OPTUM's Almanac of Hospital Financial & Operating Indicators, A Comprehensive Benchmark of the Nation's Hospitals, as a source for calculating most financial ratios.

³ For the purpose of filing fiscal year end results with OHS, Connecticut's acute care hospitals' FY 2017 began on October 1, 2016 and ended on September 30, 2017.

Individual Hospital Income and Financial Performance

Table 1 below shows a summary of statewide hospital revenues and expenses over the last four fiscal years. Listed below are key findings from the table and Appendix S.

Revenues & Expenses

- Statewide Net Patient Revenue ("NPR") was approximately \$10.9 billion and accounted for 94% of operating revenues.
- NPR increased by 2.0% over the previous year.
- Operating expenses rose 2.0% to \$11.2 billion from the prior year.
- Nearly half (48%) of hospital net revenue continued to be generated from governmental payers such as Medicare, Medicaid, CHAMPUS/TRICARE, and Medical Assistance.

Table 1				
STATEWIDE HOSPITALS				
STATEMENT OF OPERATIONS DATA	2014	2015	2016	2017
Net Patient Revenue	\$10,012,328,984	\$10,304,993,152	\$10,666,761,080	\$10,879,177,154
Other Operating Revenue	\$476,677,182	\$510,874,357	\$617,316,728	\$652,035,437
Total Operating Revenue	\$10,489,006,166	\$10,815,867,509	\$11,284,077,808	\$11,531,212,591
Total Operating Expenses	\$10,019,930,389	\$10,393,703,516	\$10,935,989,500	\$11,150,306,337
Income/(Loss) from Operations	\$469,075,777	\$422,163,993	\$348,088,308	\$380,906,254
Non-Operating Revenue	\$195,875,728	(\$1,006,236)	\$515,712,373	\$464,007,534
Excess/(Deficiency) of Revenue over Expenses	\$664,951,505	\$421,157,757	\$863,800,681	\$844,913,788

Source: Hospital Audited Financial Statements

Operating Profit/Loss

- Statewide operating margin⁴ rose to 3.3% from the previous year's 3.1%.
- Total income from operations was \$380.9 million, a 9% increase from the previous year when operating profits were \$348.1 million.
- Twenty-three hospitals reported positive operating margins, while 19 hospitals posted positive operating margins in the previous year.
- Total operating margins ranged from a high of 14.7% at Backus to a low of -9.4% at Rockville.
- Yale New Haven earned the most (+\$89.8 million) followed by Backus (+\$48.5 million), while the biggest losses were experienced by Dempsey (-\$27.6) and Hungerford (-\$6.8 million).
- Hospitals that improved the most financially were Waterbury (-9.4% to 5.6%) and Windham (-17% to -3.3%), while margins dropped the most at Dempsey (1.1% to -6.9%) and Midstate (9% to 1.5%).

Non-Operating Income

- Non-operating revenue was \$464.0 million, a 10% decrease from the previous year when non-operating revenue totaled \$515.7 million.
- Yale New Haven earned the most in this category (+\$145.5 million) followed by Backus (+\$53.3 million).
- Three hospitals had negative non-operating income; Griffin (-\$400,000), Manchester (-\$8.6 million), and Rockville (-\$2.4 million), compared with six hospitals the previous year.

⁴ OHS changed the operating margin formula from past years to exclude non-operating revenue from the denominator of the calculation.

Executive Summary

 Dempsey's non-operating income was \$37.3 million, considerably lower than the \$282 million in FY 2016. Dempsey's non-operating income primarily represents transfers from the University of Connecticut Health Center ("UCONN").

Total Profit/Loss

- Total margin statewide dipped to 7.0% from 7.3% in the previous year.
- Total revenue in excess of expenses statewide was \$844.9 million, a 2% decrease from the previous year's \$863.8 million.
- Twenty-three hospitals reported positive total margins, while 20 hospitals posted positive total margins in the previous year.
- Total margins ranged from a high of 38.5% at Sharon to a low of -13.8% at Rockville.
- Yale New Haven had the highest amount of revenues over expenses (+\$235.3 million) followed by Backus (+\$101.7 million), while Rockville (-\$8.2 million) and Hungerford (-\$5.0 million) had the highest revenues under expenses.
- Hospitals that were most improved were Sharon (-38.3% to 38.5%) and Waterbury (-7.6% to 15.2%), while margins dropped the most at Dempsey (43.3% to 2.2%) and Bridgeport (9% to 4.8%).

Detailed hospital statement of operations, margin data, and various liquidity and solvency ratios are provided in Appendices H, I, N, and O, which provide results by individual hospital.

Figure 1 below shows the trends for statewide hospital average operating and total margins for the four year trend period, from FY 2014 to FY 2017.

Executive Summary

Five Year Financial Performance

Table 2 on the following page provides five-year weighted average total margins for Connecticut'sacute care hospitals. Listed below are key findings from **Table 2**.

- There were 22 hospitals with positive five-year average total margins.
- Six hospitals (Hungerford, Johnson, Manchester, Milford, Rockville, and Windham) had negative five-year average total margins over the period of FY 2013 FY 2017; the same number of hospitals as the previous year. Sharon and Waterbury no longer had a negative five-year average margin, whereas Hungerford and Manchester did.
- Windham had negative total margins for all five fiscal years and has reported a negative total margin for the past nine fiscal years.
- Three hospitals (Johnson, Sharon, and Waterbury) that experienced negative total margins last year improved to report positive total margins in FY 2017.
- The total margin for all hospitals that reported negatives in FY 2017 improved from -9.56% (eight hospitals in FY 2016) to -3.73% (five hospitals in FY 2017).
- Milford Hospital reported its second consecutive year of positive total margin after reporting a negative total margin for eight consecutive fiscal years.
- Hartford Hospital and CT Children's Hospital have reported four and three consecutive years of increasing total margins, respectively. Eight hospitals (Backus, Danbury, Hospital of Central CT, Middlesex, Sharon, St. Francis, St. Vincent's and Yale) have reported two consecutive years of increasing total margins.
- Twelve hospitals consistently sustained positive total margins in each of the five years and seven additional hospitals had positive total margins in four of the five years.
- Overall, the statewide five-year weighted average total margin for FY 2013 FY 2017 was 6.08%, a slight increase from 5.97% last year.
- Twelve hospitals reported a five-year total margin greater than the statewide average of 6.08%.

STATEWIDE (Note A)	6.08%	5.68%	6.22%	3.89%	7.32%	7.04%
Median (Note B)	4.6%	4.1%	4.9%	3.4%	5.3%	6.0%
	1					

Note A: Weighted average by dollar amounts. Revenue in excess of expenses/(revenue from

operations+(revenue in excess of expenses - gain/loss from operations))

Note B: Middle margin in numerical order

Note C: The former New Milford Hospital is presented for historical information only.

Note D: Sharon's FY 2015 & FY 2016 total margin is due to a one time accounting adjustment to their audited financial statements. Note E: Dempsey FY 2016 total margin was due to State appropriations and transfers from UCONN Health.

Note F: Sharon's FY 2017 total margin was the result of a one time accounting adjustment for the affilation with HealthQuest.

Note G: Milford Hospital's audited financial statements haven't been finalized as of the date of this report.

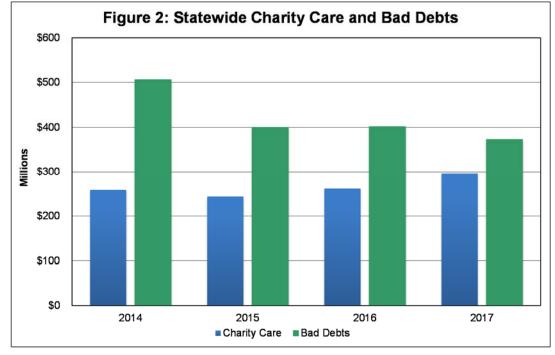

Executive Summary

Uncompensated Care

Uncompensated Care (UC) is the sum of charity care and bad debt. **Figure 2** below shows the statewide trend for total charity care and bad debt charges over the last four years. Listed below are key findings from the figure.

- Statewide UC charges totaled \$669.2 million, an increase of \$5.9 million or .9% from the previous year.
- Total statewide bad debt of \$372.9 million dropped by \$28.8 million, a decrease of 7.2%.
- Total statewide charity care of \$296.3 million rose by \$34.6 million, an increase of 13.2%.
- Overall, bad debt as a percentage of total hospital UC charges continued to decrease, from 60.5% last year to 55.7% in FY 2017.
- Conversely, charity care as a percentage of total UC charges continued to increase, from 39.5% in the prior year to 44.3% in FY 2017.
- Statewide UC costs totaled \$204.9 million, a decrease of \$465,000 or less than 1%, from the previous year.
- Statewide UC costs accounted for 1.8% of total expenses, which was consistent with the previous year.
- Hospitals with the highest percentage of bad debt to total UC charges were Milford (95%) and Dempsey (93%).
- Hospitals with the highest percentage of charity care to UC charges were Waterbury (107%)⁵ and Hartford (71%).
- There were 13 hospitals with increases in UC costs, while 15 hospitals had decreases.
- The largest increases in UC costs were CT Children's (+88%) and Hartford (+72%), while the largest decreases were at Manchester (-52%) and Waterbury (-54%).

Appendix P of this report provides an overview of the hospitals' uncompensated care data for FY 2017.

⁵ Waterbury had an accounting adjustment related to how the hospital reports bad debts which affected past year amounts and resulted in a negative bad debt amount being reported in FY 2017.

Health System Income and Financial Performance

Hospital corporate systems include hospital parent corporations and all subsidiaries. **Table 3** below shows a summary of statewide health system revenues and expenses over the last four years. Listed below are key findings from the table.

Revenues & Expenses

- Statewide NPR was approximately \$12.4 billion and accounted for 92% of operating revenues.
- NPR increased by 1.0% over the previous year.
- Operating expenses rose almost 2.0% to \$13.7 billion from the prior year.

Table 3				
STATEWIDE HEALTH SYSTEM				
STATEMENT OF OPERATIONS SUMMARY	2014	2015	2016	2017
Net Patient Revenue	\$11,347,784,022	\$11,846,155,228	\$12,237,407,611	\$12,399,668,154
Other Operating Revenue	\$842,149,088	\$827,870,479	\$1,055,824,417	\$1,022,019,449
Total Operating Revenue	\$12,189,933,110	\$12,674,025,707	\$13,293,232,028	\$13,421,687,603
Total Operating Expenses	\$12,234,686,678	\$12,811,219,858	\$13,408,486,918	\$13,655,264,596
Income/(Loss) from Operations	(\$44,753,568)	(\$137,194,151)	(\$115,254,890)	(\$233,576,993)
Non Operating Revenue	\$961,168,438	\$414,938,245	\$998,101,645	\$813,207,310
Excess/(Deficiency) of Revenue over Expenses	\$916,414,870	\$277,744,094	\$882,846,755	\$579,630,317

Source: Hospital Parent Corporation Audited Financial Statements

Operating Profit/Loss

- Statewide operating margin losses increased to -1.7% from the previous year's -0.9%.
- Total loss from operations of \$233.6 million, was a more than 100% greater loss than the previous year when operating losses were \$115.3 million.
- Seven of 16 systems (44%) reported positive operating margins, while nine of 20 (45%) systems posted positive operating margins in the previous year.⁶
- Total operating margins ranged from a high of 8.5% at Sharon to a low of -50.7% at UCONN.
- Yale New Haven Health Services had the largest operating gain (+\$134.3 million) followed by Hartford Healthcare (+\$33.9 million), while the biggest losses were at UCONN (-\$384.3 million) and Stamford Health (-\$20.7 million).
- Systems that were most improved were St. Vincent's (-4.5% to -1.4%) and Sharon (-4.5% to 8.5%), while margins dropped the most at UCONN (-41.8% to -50.7%) and Day Kimball Healthcare (.3% to -5.1%).⁷
- The operating revenue of hospitals made up approximately 86% of total health system operating revenues.
- System subsidiaries such as medical groups and physician practices, insurance companies, imaging and rehabilitation centers, visiting nurse associations, and real estate companies accounted for the remaining 14%.

⁶ Due to the affiliation of Johnson Memorial Medical Center and St. Mary's Health System into Trinity Health of New England; Lawrence + Memorial Corporation into Yale New Haven Health Services; and Eastern Connecticut Health Network and Greater Waterbury Health Network into Prospect Health Connecticut, there were fewer health systems in FY 2017. Appendix Z provides information on the composition of health systems in Connecticut.

⁷ Results exclude Trinity Health of New England Inc. and Prospect CT, Inc. systems which were under different ownership structures in FY 2016.

Executive Summary

Non-Operating Income

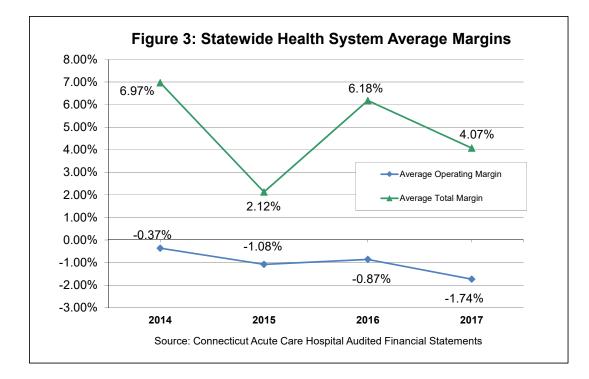

- Non-operating revenue was \$813.2 million, a 19% decrease from the previous year when non-operating amounts totaled \$998.1 million.
- All systems had positive non-operating income amounts compared with three systems in the previous year that reported negative amounts.
- The systems with the largest amounts of non-operating revenue were UCONN (+\$324.9 million), Yale New Haven Health Services (+\$173 million), and Hartford Healthcare (+\$133.3 million).
- UCONN had \$322 million in state and capital appropriations. Excluding these appropriations significantly reduces the total statewide health system non-operating revenue to \$491 million and total profits to \$258 million.

Total Profit/Loss

- Total margin statewide dropped to 4.1% from 6.2% in the previous year.
- Total revenues in excess of expenses statewide was \$579.6 million, a 34% decrease from the previous year's \$882.8 million.
- Nine systems out of 16 reported positive total margins, while 11 systems out of 20 posted positive total margins in the previous year.
- Five health systems reported an improvement in total margin over the previous year.
- Total margins ranged from a high of 77% at Sharon to a low of -5.5% at UCONN.
- Yale New Haven Health Services earned the most (+\$307.3 million) followed by Hartford Healthcare (+\$167.2 million), while the biggest system losses were at UCONN (-\$59.4 million) and Stamford (-\$9.9 million).
- Systems that improved the most financially were Sharon (-31% to 77%) and CCMC (3.2% to 7.3%), while margins dropped the most at UCONN (12.5% to -5.5%) and Day Kimball Healthcare (.73% to -4.6%)⁸.

Detailed health system statement of operations, margin data, and various liquidity and solvency ratios are provided in Appendices A, B, F, and G which provide results by individual health system. **Figure 3** on the following page shows the trends for statewide health system average operating and total margins for the FY 2014 – FY 2017 time period.

⁸ Results exclude Trinity and Prospect systems which were under different ownership structures in FY 2016.

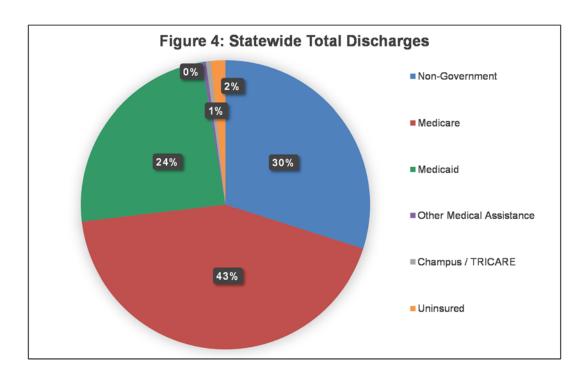

Executive Summary

Utilization Indicators

A summary of statewide discharges by payer type is presented in **Figure 4** below. Appendix Q of this report provides further hospital utilization statistics for FY 2017.

For more detailed utilization data, refer to the publication entitled "<u>Statewide Health Care Facilities and</u> <u>Services Plan</u>" released by OHCA in August 2017, which contains a comprehensive look at the utilization of services in Connecticut's acute care hospitals.

New Hospital Affiliation Activity

A complete list of the Connecticut acute care hospitals that operate within larger systems is provided in Appendix Y. Since the last publication of this report in September 2017, the only newly-completed affiliation in the state was Charlotte Hungerford Hospital becoming part of the Hartford Healthcare Corporation system on January 1, 2018. For purposes of the financial results depicted in this report, Hungerford is not reflected as a part of the Hartford system as the affiliation occurred during FY 2018.

Section 2 - Hospital and Health System Data

The following sections provide an aggregate statewide profile of hospital parent corporations and aggregate statewide profile of hospital summary totals for both financial and statistical indicators. In addition, individual hospital profiles are presented for each of Connecticut's acute care hospitals. The final section of this report contains detailed appendices by hospital, parent corporation, and by hospital as identified in the table of contents. Unless otherwise indicated, the sources of data used in these sections are the OHS Hospital Reporting System ("HRS") and the hospitals' annual filings to OHS.

In the following pages, financial measures noted in green are favorable compared to the statewide average while financial measures noted in red are unfavorable compared to the statewide average. In some cases, the 2017 amount and the statewide average show the same amount. The red and green formatting is based on additional decimal spaces that are not shown.

Statewide Health System Summary

Reported below is the total Statewide Health System statement of operations summary for FY 2014 - FY 2017, a summary of profitability margins, net assets, and selected liquidity and solvency measures.

TATEMENT OF OPERATIONS SUMMARY	2014	2015	2016	2017
Net Patient Revenue	\$11,347,784,022	\$11,846,155,228	\$12,237,407,611	\$12,399,668,154

John Dempsey Hospital

Greenwich Hospital

Greenwich Hospital is located in Greenwich. In FY 2017, the Hospital generated \$15.4 million in income from operations and had \$9.2 million in non-operating income, resulting in an excess of revenues over expenses of \$24.6 million. Reported below is a list of various financial indicators and selected utilization measures for the Hospital. A chart indicating all of the affiliates of the Hospital's parent, Yale New Health Services Corporation, based on OHS filings, can be found in Appendix Z.

Saint Francis Hospital and Medical Center

Saint Francis Hospital and Medical Center is located in Hartford. In FY 2017, the Hospital generated \$42.2 million in income from operations and had \$10 million in non-operating revenue, resulting in an excess of revenues over expenses of \$52.2 million. Reported below is a list of various financial indicators and selected utilization measures for the Hospital. A chart indicating all of the affiliates of the Hospital's parent, Trinity Health of New England, based on OHS filings, can be found in Appendix Z.

TRINITY HEALTH OF NEW ENGLAND

Appendix AA – Glossary of Terms

Average Payment Period: the average number of days that are required to meet current liabilities. A lower number of days is favorable, since it indicates a more favorable liquidity position.

Bad Debts: the income lost to the hospital because patients who were billed and from whom payment was expected did not pay amounts owed to the hospital for services provided. Bad debts net of recoveries will result in bad debt expense, if after reasonable collection efforts are made, the hospital determines that the accounts are uncollectible.

Case Mix Index: the arithmetic mean of the Medicare diagnosis related group case weights assigned to each inpatient discharge for a hospital during the fiscal year. The case mix index is calculated by dividing the hospital's total case mix adjusted discharges by the hospital's actual number of discharges for the fiscal year.

Cash Flow to Total Debt Ratio: an indicator of potential future debt repayment difficulty or insolvency. It is calculated by dividing excess of revenues over expenses plus depreciation by current liabilities plus long term debt. A decrease in the value of the ratio may indicate a future debt repayment problem.

Charity Care: the difference between the hospital's published charges and the amount of reimbursement received for services provided to patients from whom reimbursement was not expected. Charity care does not include bad debts, courtesy discounts, contractual allowances, self-pay discounts, and charges for health care services provided to employees.

Current Ratio: the measure of the number of dollars held in current assets per dollar of current liabilities. High values imply a good ability to pay short term obligations and low values imply a lesser ability.

Days Cash on Hand: the average number of days of cash available to pay for expenses that is maintained in cash accounts. A higher number is favorable, since it indicates a greater ability to meet outstanding obligations.

Days in Patients Accounts Receivable: the average number of days in collection that patient accounts receivables remain outstanding. A lower number is favorable, since it indicates good collection practices that result in sufficient cash flow and infrequent short-term financing.

Equity Financing Ratio: the ratio related to capital structure that indicates the percentage of net assets to total assets. A higher ratio is more favorable, since it indicates utilization of a higher level of equity and a lower level of debt financing in acquiring plant and equipment assets.

Excess / (Deficiency) of Revenue over Expenses: the difference between the sum of total operating revenue and non-operating revenue less total operating expenses that results in an excess or deficiency of total revenue.

Gross Patient Revenue – total gross patient charges for all patient services before deductions for allowances, charity care and other deductions.

Hospital Parent Corporation: the hospital's corporate holding company that controls through its governing body a hospital and the hospital's affiliates, as presented on the legal chart of corporate structure.

Income / (Loss) from Operations: the difference between total operating revenue and total operating expenses that results in a financial gain or loss from operating activities.

Long-Term Debt to Capitalization Ratio: the measure of the proportion of Long-Term Debt in a capital structure. A lower proportion or percentage is desirable because it allows for obtaining of more favorable terms (i.e., lower interest rates) when borrowing.

Medicaid: the federal and state health insurance program established under Title 19 of the Social Security Act to provide medical assistance on behalf of families with dependent children and for aged, blind or disabled whose income and resources are insufficient to meet the costs of necessary medical services and which is administered by the Department of Social Services.

Medical Assistance: the programs for medical assistance provided under the Medicaid program, including the HUSKY Plan A, or (B) any other state funded medical assistance program, including the Husky Plan, Part B.

Medicare: the federal health insurance program for the aged and disabled.

Appendix AA – Glossary of Terms

Net Assets: the residual amount of total assets after all current and long-term liabilities (including long-term debt) are deducted. Also referred to as ownership equity.

Net Patient Revenue: the total gross revenue from patient charges less contractual allowances, less the difference between government charges and government payments, less charity care and less any other allowances.

Non-Governmental: any commercial or private payer and includes but isn't limited to managed care organizations, health maintenance organizations, and preferred provider organizations.

Non-Operating Revenue: the unrestricted revenue not directly derived from providing patient services but obtained from either investment income or philanthropic and non-philanthropic sources.

Operating Expenses: the expenses necessary to maintain regular operating functions and to carry out ongoing activities.

Operating Margin: the ratio related to profitability indicating the percentage of income or loss from operations to total revenue. A higher positive ratio indicates more favorable operating results.

Operating Revenue: the total of net patient revenue from reimbursement of patient services by government and non-government payers plus other operating revenue.

Other Medical Assistance: the difference between Medical Assistance and Medicaid.

Other Operating Revenue: the non-patient service operating revenue that is obtained from operating activities but is accounted for separately from patient service revenues. Other operating revenue includes revenues restricted by a donor or grantor for operating purposes, and also net assets released from restrictions.

Payer Mix: the proportion of each government or non-government payer's reimbursement to the hospital's total reimbursement for patient services. Payer mix is derived by determining the amount of total gross patient revenue or total net patient revenue that the hospital receives from each government and non-government payer.

Payment to Cost Ratio: the ratio that indicates the percentage above or below cost that a hospital is reimbursed by a government or non-government payer. A ratio that is higher than 1.00 is favorable, since it indicates reimbursement by a payer that is greater than the cost of providing patient services. A ratio that is less than 1.00 is unfavorable, since it indicates reimbursement by a payer that is greater than the cost of providing patient services.

Ratio of Cost to Charges: the ratio that indicates the percentage of total operating expense to the total of gross patient charges plus other operating revenue. A lower ratio is more favorable, since it indicates a greater difference between the cost and charges billed for providing patient services.

Total Margin: the ratio related to profitability indicating the percentage of income or loss from operations and non-operating revenue to total revenue. A higher positive ratio indicates more favorable results.

Uncompensated Care: the total amount of the hospital's charity care and bad debts resulting from unreimbursed patient services that are determined by using the hospital's published charges and consistent with the hospital's policies regarding charity care and bad debts.

Uncompensated Care Cost: the total amount of the hospital's charity care and bad debts at charges multiplied by the hospital's ratio of cost to charges.

Uninsured: individuals with no health insurance for the hospital services provided.

Unrestricted Net Assets: the amount of net assets that is not restricted by donors or by a board of directors as to their use.
