1	Patient/Advocate	4/10/2021 6:35 AM

## Q4 Please share your goals to promote equal access to high quality health care.

Answered: 9 Skipped: 2

#	RESPONSES	DATE
1	Bridge the gap of understanding	4/15/2021 6:45 PM
2	Successfully advocate for 1. making policies and practices of the Health Care Entities I am involved with to make every effort to engage with the most disadvantaged individuals 2. To support innovating care delivery and reimbursement modes to reach out to those on the wrong side of the digital divide, health literacy and transportation resources 3. Advocate for passage of Legislation to provide a public option and to enact legislation that will address long enduring malignant, endlessly metastasizing pervasive Racism that bedevils every attempt to implement CLAS Standards and Eliminate Disparities	4/15/2021 2:15 PM
3	My goals are to continue voicing my concerns and ideas for restructuring the healthcare system. These include: Utilizing telemedicine to reach patients (especially those in rural areas) and bring move care closer to patients. Fighting for the revitalization of health insurance systems that put immediate cost of procedures over the patient's needs often requiring multiple procedures/treatments for an issue that could have been solved/mitigated if a better treatment option was approved in the first place. Focusing on continuum care before AND after procedures. Encouraging patient education, consent, and autonomy.	4/15/2021 1:13 PM
4	Measurable outreach Measurable outcomes	4/10/2021 6:35 AM
5	More visibility and increased education around LGBTQ health.	4/9/2021 9:18 PM
6	Educate health care providers/law makers about specialized needs of vulnerable population where language barrier is the main obstacle to access quality health care.	4/9/2021 4:34 PM
7	full implementation of CHW's as mandatory reimbursable service in both commercial and governmental plans. Extension of in home services and coverage for those services.	4/6/2021 1:19 PM
8	More outreach efforts to communities where healthcare is less accessible. Increasing primary care, Community Health Workers and supporting the development of the HEC's to include more community based providers.	4/6/2021 8:23 AM
9	Equal access to high quality health care just about says it all. Special efforts must be made to reach out to historically underserved and poorly served communities. To educate and provide real opportunities by eliminating the historical roadblocks to care.	3/30/2021 5:33 PM

## Q5 Please share your goals to control the cost of health care.

Answered: 9 Skipped: 2

#	RESPONSES	DATE
1	By promoting and encouraging and teaching healthy lifestyle healthy choices education in prevention importance of flu pneumonia and other vaccines	4/15/2021 6:45 PM
2	I have been promoting the wide adoption of both Ask me three and especially for implementing in every clinical encounter the principles and questions that a patient is empowered to ask the clinical provider to establish a shared decision Making Partnership to get better outcomes and restoration of function at lower cost. Less is definitely more in Medicine Cutting out waste of all kinds at all levels is the best medicine for what ails Medical care cost structure. So say 180 Speciality boards.	4/15/2021 2:15 PM
3	My goal is always to promote preventative care. In addition, support for community health centers can be vital in mitigating the cost of emergency room visits. Certifying and employing health workers such as community health workers, case managers, and patient navigators, can provide patients with resources to address their own health issues, take ownership/control over their own health, or even reduce length of hospital stays (if/when necessary).	4/15/2021 1:13 PM
4	Address SDOH effectively with measurable costs Transparency in provider services (including pharmacy)	4/10/2021 6:35 AM
5	To provide more access to affordable housing and employment to folks. Also, lowering insurance premiums for those with private insurance. Better price regulation when it comes to pharmaceutical companies.	4/9/2021 9:18 PM
6	Make health care coverage affordable for everyone. Cost of medications and medical procedures must be controlled/monitored.	4/9/2021 4:34 PM
7	coordination of care	4/6/2021 1:19 PM
8	Better coordination of care through CHW's in the community. More telehealth services so that people will not lose time off from work to get care. All efforts with an focus on prevention and less on crisis management. In favor of the state going to a public option.	4/6/2021 8:23 AM
9	Private insurance companies eat up about 30% of the health care dollar and never provide any actual health care. I believe health care should not be a for-profit business.	3/30/2021 5:33 PM

## Q6 How can we ensure better health for the people of Connecticut?

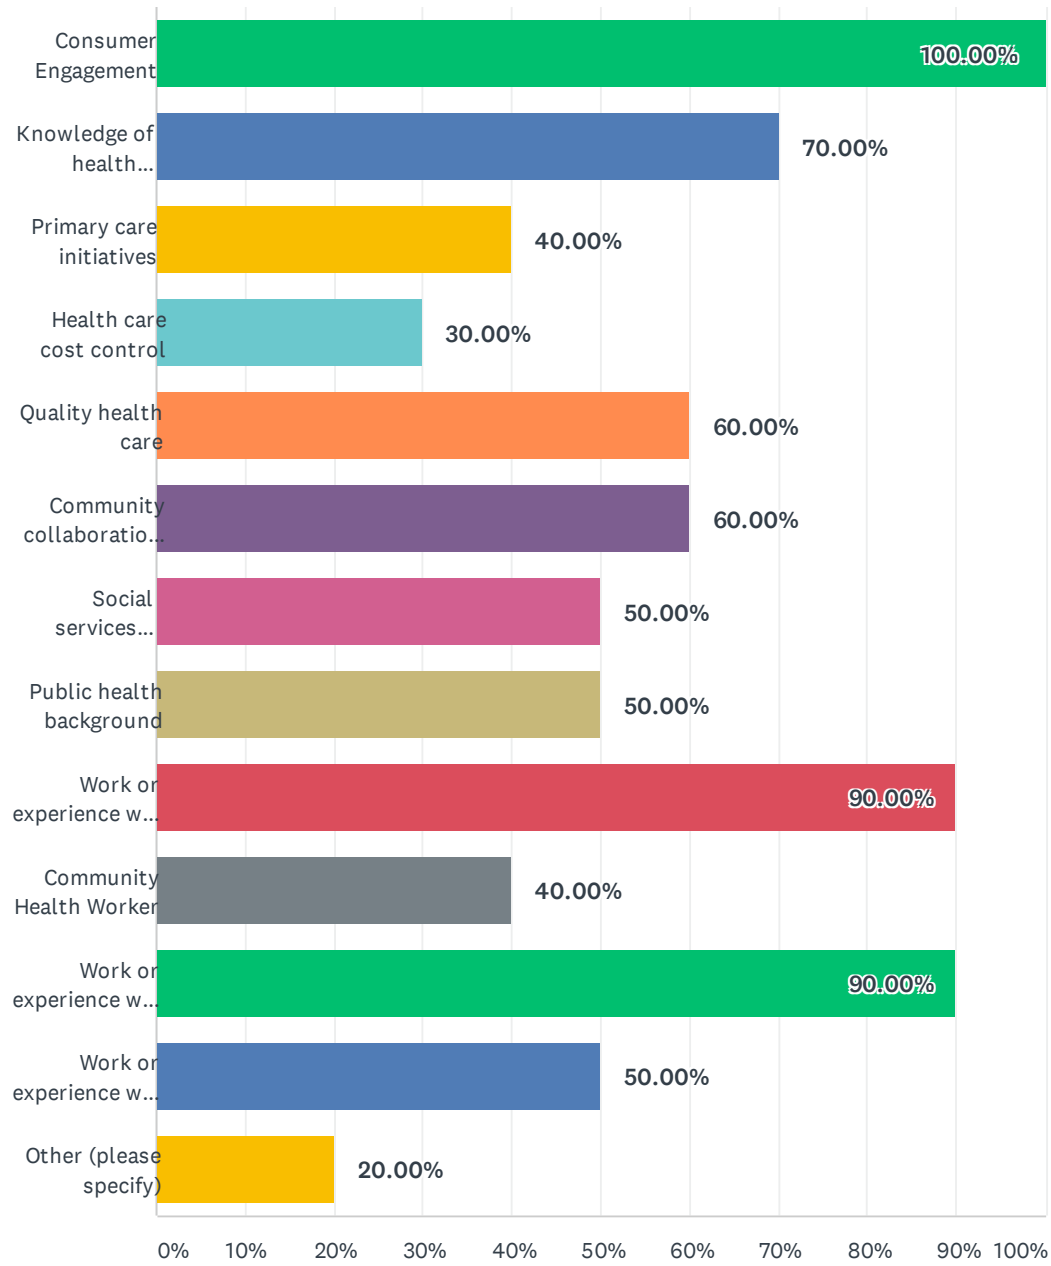

Answered: 9 Skipped: 2

#	RESPONSES	DATE
1	Providers need to be able to communicate between each other and the consumer	4/15/2021 6:45 PM
2	By collective engagement in state wide discussions in listening sessions like we have done in the past and use all the data to establish an HIE and treatment systems that provide HC in many different modes besides the traditional office visits, emphasize preventive care through out the health span including vaccinations especially	4/15/2021 2:15 PM
3	A start is to listen to the residents who are the patients—include and engage them. Pay attention to legislative changes that may affect the health of the public, whether it is access, cost, or physical health.	4/15/2021 1:13 PM
4	Address SDOH effectively with measurable outcomes Measurable outcomes of provider services (including pharmacy)	4/10/2021 6:35 AM
5	By declaring racism a public health emergency. Obtaining more accurate health data on LGBTQ people to understand that their needs.	4/9/2021 9:18 PM
6	Establish an independent entity to allow people to provide feedback regarding their personal health experience and hold health care providers accountable.	4/9/2021 4:34 PM
7	improve what is covered and who is reimbursed for services	4/6/2021 1:19 PM
8	More health education beginning in the schools. More emphasis on Social Determinants of Health and how they are integral to maintaining and supporting better health. Encouraging better nutrition, exercise and more supports for those with MH and SA issues. CHW's going into communities where folks lack transportation, have language and cultural barriers and providing more hands on assistance to those who are in need of in-home supports.	4/6/2021 8:23 AM
9	1) A real public option. 2) Improve education for physicians and nurses about the poorly served and underserved populations to improve the professions ability to competently administer their services.	3/30/2021 5:33 PM

## Q18 Please share your goals for promoting health care access and equity.

Answered: 10 Skipped: 1

#	RESPONSES	DATE
1	Simple bridge the gap education on ending the stigma by working with and not talking down to the consumer	4/15/2021 6:45 PM
2	I have provided this above	4/15/2021 2:15 PM
3	I plan to continue serving as a fervent patient/client advocate (for health and autonomy). I also plan to continue utilizing my skills of leveraging community partnerships and stakeholder collaborations to improve overall population health. In my current position, I plan, coordinate, and implement community engagement, education, outreach, and support activities designed to enhance access to primary and behavioral health care. I also work diligently to establish cross-sector collaborations with community partners to forge alliance, financial support, and patient referral systems to improve health outcomes and address health and social disparities. I supervise Community Health Workers (CHWs) who serve a pivotal role in helping patient access overall (health, basic, and social) needs to improve their health and take control over their health/healthcare. Furthermore, I study charts of high-risk patients to learn their entire health and social situation and connect them with clinicians and resources to improve their overall wellbeing, to ultimately achieve community health transformation and equity.	4/15/2021 1:13 PM
4	Economic equity (opportunity) should go with health equity	4/10/2021 6:35 AM
5	To increase engagement around LGBTQ health	4/9/2021 9:18 PM
6	To have a health care team members from top to bottom reflect the racial fabric of population they serve.	4/9/2021 4:34 PM
7	better synergy within OHS to enhance grass roots outreach and engagement	4/6/2021 1:19 PM
8	Ensuring zip code is not a factor in achieving good health outcomes. It is today and we need to address that issue head on.	4/6/2021 8:23 AM
9	Goal is to work with the community at large to discuss problems and find remedy to work with other community groups and fins what is needed and how to remedy the situation or conditions	3/31/2021 8:12 AM
10	already described. See question 4,5,6	3/30/2021 5:33 PM
