10. Adjourn	

---

# Approval of the Minutes

---

VBID Fully-Insured Employer  
Manual, Pending federal  
legislation

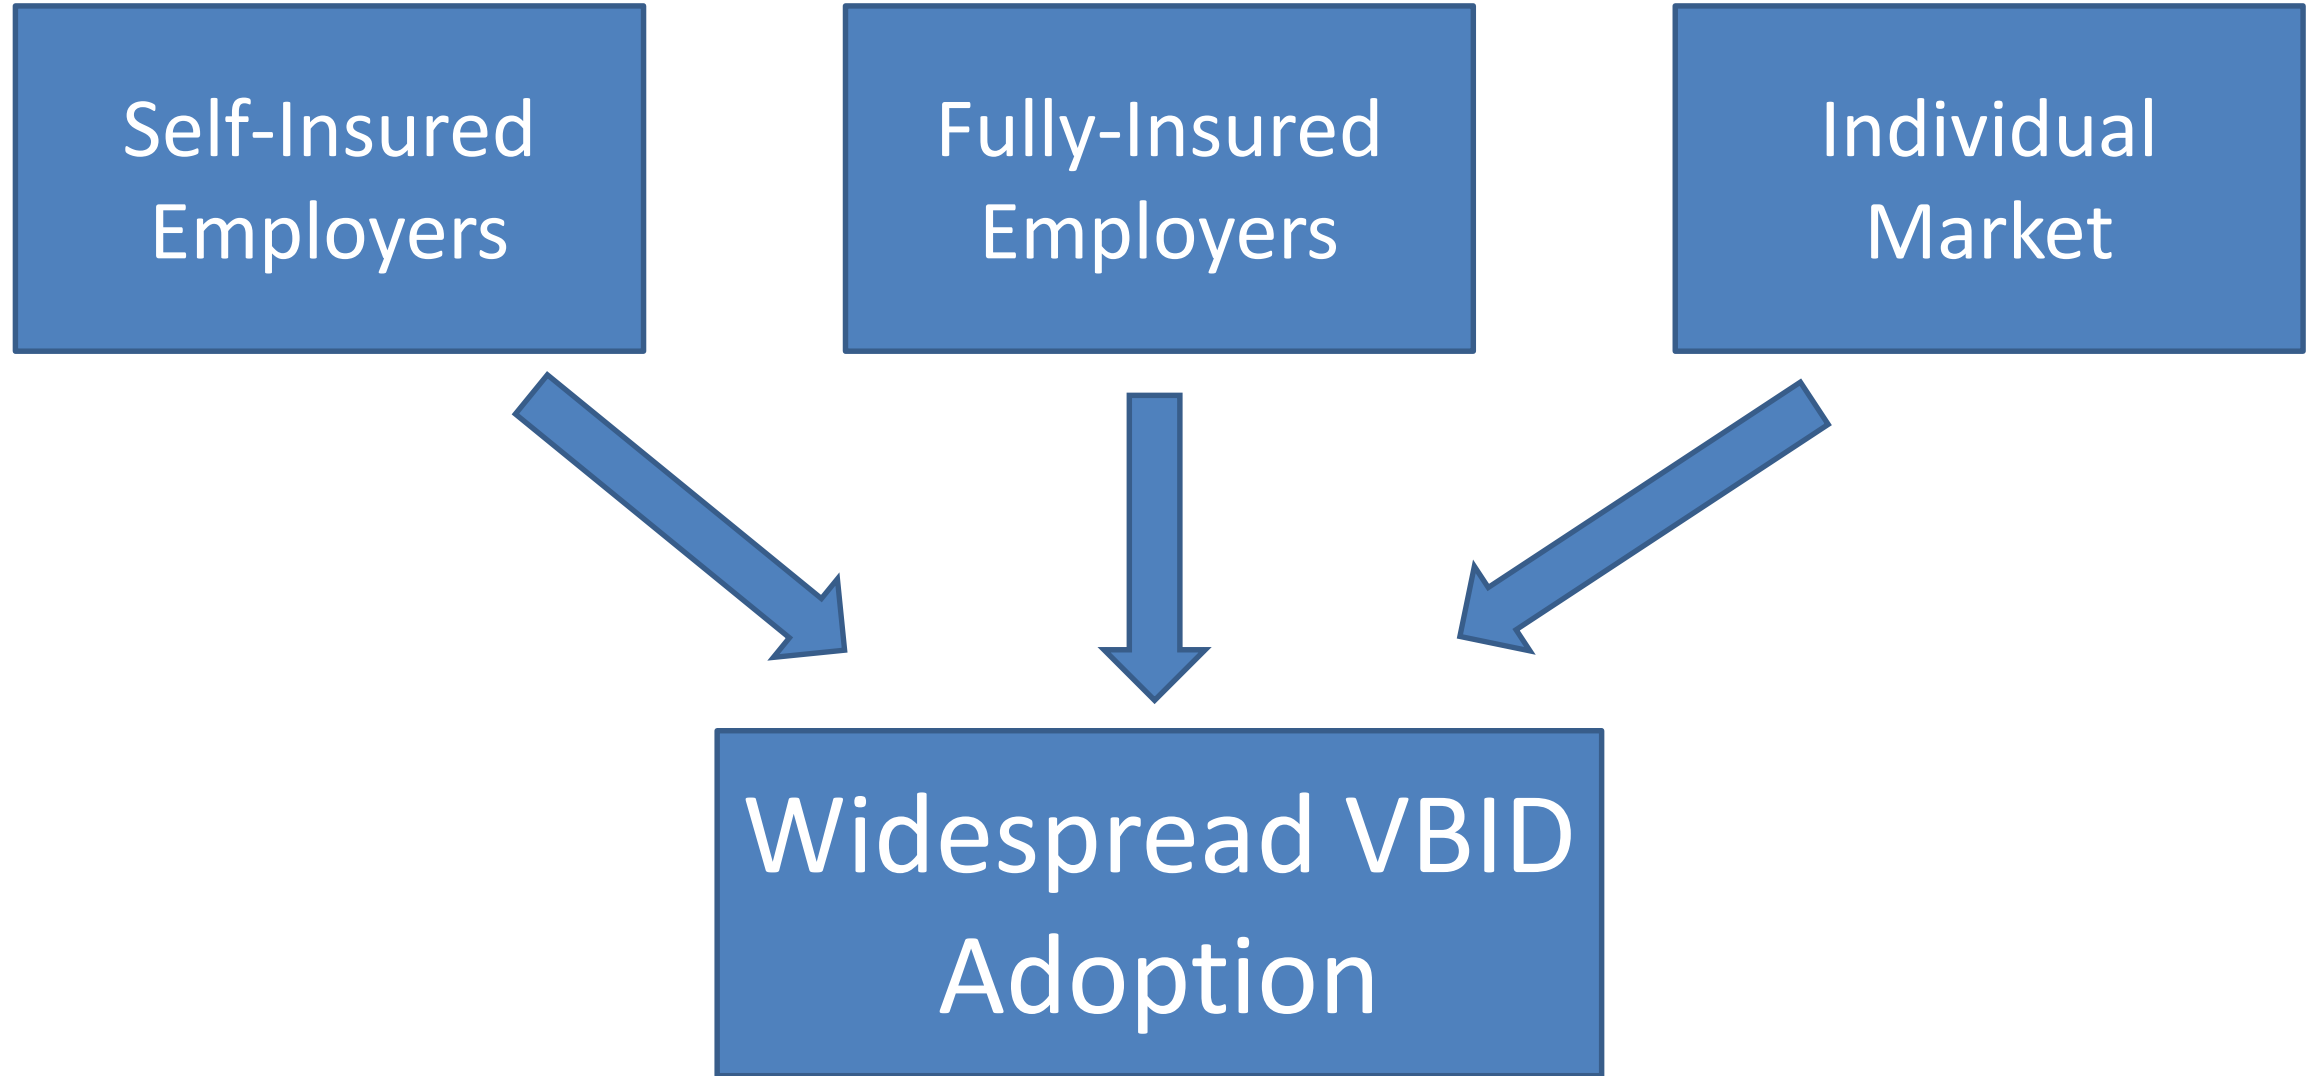

# Value Based Insurance Design- Goal

**Accountability Target: 84% of insured population has a Value-Based Insurance Design Plan by 2020**

**NOTE: Targets subject to change based on baseline study**

# VBID Goal- How do we get there?

# VBID Fully-Insured Employer Manual- Walk-Through

---

- Introduction, Employer Benefits, How to Use Manual, Guiding Principles
- Implementation Strategies
- Best Practices and Lessons Learned
- Communication and Marketing Strategies
- FAQs
- Appendices
  - Recommendation Development
  - Template Worksheets
  - Overcoming Implementation Barriers
  - VBID Toolkit and Resources

# VBID Fully-Insured Employer Manual- Highlights

## Guide to Implementation

**Assess Employee Needs**  
to identify opportunities for health improvement

**Research and Select V-BID Plan**  
Reach out to health plans to learn more about their V-BID options

**Discuss Compliance Measures**  
to determine which employees are eligible for incentives

**Develop a Communication Strategy**  
to share changes in benefit design with employees

**Initiate V-BID Plan**  
to increase the use of high-value services

# VBID Fully-Insured Employer Manual- Highlights

## Worksheets for Implementation

V-BID Basic	Recommended Core Benefits	Incentive	Amount
<p style="text-align: center;"><b>Component 1</b> <b>Change Incentives for Specific Services for All Applicable Members</b></p>	<p>✓ Blood pressure screening for applicable members depending on age group and gender</p>	<p>I will provide employees that use any of these services with a:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> Contribution to HSA</li> <li><input type="checkbox"/> Contribution to HRA</li> <li><input type="checkbox"/> Bonus Payment</li> <li><input type="checkbox"/> Reduced Premium</li> <li><input type="checkbox"/> Other (e.g. gift card, vacation time, payroll bonus)</li> </ul>	<p style="text-align: right;">\$ _____</p>
	<p>✓ Cholesterol screening for applicable members depending on age group and gender</p>		
	<p>✓ Obesity screening for applicable members depending on age group and gender</p>		
	<p>✓ Depression screening for adolescents over 12 years and adults</p>		
	<p>✓ Alcohol screening and counseling for all adults</p>		
	<p>✓ Breast cancer screening for women depending on age group</p>		
	<p>✓ Cervical cancer screening for women depending on age group</p>		
	<p>✓ Colorectal cancer screening for applicable members depending on age group and gender</p>		

# VBID Fully-Insured Employer Manual- Highlights

## Communication Guidance

- The importance of messaging from employee leaders
- Who, What, How, and When to Communicate

Communication is Key!

Plan for at least 5 employee touch points to share upcoming changes to health benefits.

## HEALTH ENHANCEMENT PROGRAM (HEP) Requirements

PREVENTIVE SCREENINGS	AGE						
	0 - 5	6-17	18-24	25-29	30-39	40-49	50+
Preventive Visit	1 per year	1 every other year	Every 3 years	Every 3 years	Every 3 years	Every 2 years	Every year
Vision Exam	N/A	N/A	Every 7 years	Every 7 years	Every 7 years	Every 4 years	50-64: Every 3 years 65+: Every 2 years
Dental Cleanings*	N/A	At least 1 per year	At least 1 per year	At least 1 per year	At least 1 per year	At least 1 per year	At least 1 per year
Cholesterol Screening	N/A	N/A	Every 5 years (20+)	Every 5 years	Every 5 years	Every 5 years	Every 2 years
Breast Cancer Screening (Mammogram)	N/A	N/A	N/A	N/A	1 screening between age 35-39**	As recommended by physician	As recommended by physician
Cervical Cancer Screening (Pap Smear)	N/A	N/A	Every 3 years (21+)	Every 3 years	Every 3 years	Every 3 years	Every 3 years to age 65
Colorectal Cancer Screening	N/A	N/A	N/A	N/A	N/A	N/A	Colonoscopy every 10 years or Annual FIT/FOBT to age 75

## Options for Researching and Selecting a V-BID Plan

Work with your insurance carrier or shop around- The template provides details on these two options

## Best Practices

Request a VBID Plan from your Insurance Carrier

This will create market demand

## FAQs

How do I know if my insurance carrier offers a VBID Plan?

*Ask your Plan or visit the SIM website*

**H.R. 5652 Access to Better Care Act:** A [bipartisan bill](#) recently introduced to change Internal Revenue Service rules to allow plans to better cover clinical services for chronic medical conditions before plan members have met their deductibles.

**This would amend section 223(c)(2) of the IRS code:** Currently, in health savings account-qualified high deductible health plans (HSA-HDHPs), services meant to treat “an existing illness, injury or condition” are excluded from coverage before the plan deductible is met.

# V-BID Next Steps

First VBID LC Meeting  
10/20 at Pitney  
Bowes

Release Fully-Insured  
Manual for Public  
Comment

Continue working  
with business groups  
on engaging fully-  
insured employers

Meet with Access  
HealthCT/health  
plans/CID to work on  
VBID adoption

Host 2 additional  
Consortium meetings  
by June 2017

Continue work with  
UConn Evaluation  
Team on Measuring  
VBID penetration

---

# SIM Alignment Grid Presentation

Aims = Clearly articulated goal or objective

Primary Drivers = system components or factors that contribute directly to achieving the aim

Secondary Drivers = actions, interventions, or lower-level components necessary to achieve the primary drivers

Accountability Targets = indicators to track progress towards goals, identify trends in progress and potential best practices and barriers over the period of implementation

## Healthier People and Communities and Improved Health Equity

Reduce the statewide rates of diabetes, obesity, and tobacco use

## Better Care and Improved Health Equity

Improve performance on key quality measures, including preventative care and care experience

## Smarter Spending

Achieve a 1-2% reduction in the annual rate of healthcare growth

# PCMH+ Updates

# Connecticut HUSKY Health: PCMH+ Update

Presentation to the SIM Steering Committee

October 13, 2016

# PCMH+ Overview

**MQISSP . . .**

**has been re-christened . . . PCMH+**

## PCMH+ . . .

- is a Connecticut Medicaid upside-only shared savings initiative whose aim is to build on the successes of the current Medicaid reform agenda and further improve health and satisfaction outcomes for Medicaid beneficiaries who are served by Federally Qualified Health Centers (FQHCs) and “advanced networks”

- will use the existing Connecticut Medicaid Person-Centered Medical Home (PCMH) initiative, under which 43% of Medicaid members are being served, as an essential building block to expand upon current practice transformation work
- will build on existing supports for members (ASO-based member services and Intensive Care Management, ICM) and providers (primary care rate increase, PCMH payments, EHR payments, ICM)

- will use the Department's current Person-Centered Medical Home attribution model to identify where beneficiaries have sought care, and prospectively assign beneficiaries to PCMH+ Participating Entities
- will continue to ensure that Medicaid members have the right to seek care from any Medicaid provider, and will give them the option to decline to participate in PCMH+

- is slated for launch on January 1, 2017
- will incorporate new care coordination requirements related to integration of primary care and behavioral health care, development of disability and cultural competence, and linkages to the types of community supports that can assist beneficiaries in utilizing their Medicaid benefits

- will further the Department's interests in preventative health and begin to re-shape the paradigm for care coordination in a direction that will support population health goals for individuals who face the challenges of substance abuse and behavioral health, limited educational attainment, poverty, homelessness, and exposure to neighborhood violence
- will include a package of strategies designed to prevent, detect and remedy under-service

- will make supplemental payments to Participating Entities that are Federally Qualified Health Centers (FQHCs) in support of enhanced care coordination activities (e.g. behavioral health integration, cultural competency, disability competency)
- will make shared savings payments to all Participating Entities (both FQHCs and “advanced networks”) that achieve benchmarks on a core set of measures of quality and care experience

# PCMH+

Enhanced care  
coordination  
activities

Upside-only shared  
savings  
arrangements

Use of Medicaid claims  
data to perform  
predictive modeling

Administrative Services  
Organization-Based  
Intensive Care  
Management

Person-Centered  
Medical Home practice  
transformation

## PCMH+ model design process and source material:

- DSS developed PCMH+ model design through monthly meetings and work group sessions, as well as subject specific webinars, with the Care Management Committee of the Medical Assistance Program Oversight Council (MAPOC)
- All source documents are available on the face page of the MAPOC website at:

<https://www.cga.ct.gov/med/>

# Medicaid Context for PCMH+ Launch

## What the current status of access to services?

### ■ Medical Providers

- Overall participation:
  - Primary care providers: **3,454**
  - Specialists: **13,379**
- Network growth over calendar year 2015: **7.22%**
- Recruited and enrolled **17 new practices** into DSS' Person-Centered Medical Home (PCMH) program

- **Behavioral Health Providers**
  - Overall participation:
    - Behavioral health providers: **4,537**
  - Network growth over calendar year 2015: **15.94%**
  
- **Dental Providers**
  - Overall participation:
    - Primary care providers: **1,787**
    - Specialists: **415**
  - Network growth over calendar year 2015: **10.00%**

## What outcomes have we achieved through the PCMH initiative?

- As of October, 2016, **108 practices** (representing **435 sites** and **1,518 providers**) were participating
- These practices are serving **328,169 Medicaid members** – **over 43%** of all members

- PCMH practices achieved better results than non-PCMH practices on measures including, but not limited to, ambulatory ED visits and readmissions within 30 days – physical and behavioral health
- 92.2% of adults, and 95.8% of adults responding for children, surveyed reported immediate access to care
- 92.8% of adults, and 98.6% of adults responding for children, surveyed reported overall positive experience with the program

## What relevant results have been produced by Intensive Care Management (ICM) initiatives?

- Over SFY'16, Connecticut Medicaid's medical ASO, CHNCT, has:
  - for those members who received ICM, **reduced emergency department (ED) usage by 22.28%** and **reduced inpatient admissions by 39.08%**
  - for those members who received Intensive Discharge Care Management (IDCM) services, **reduced readmission rates by 27.18%**

## **What relevant results do we see in Connecticut, related to overall utilization trends?**

- Over SFY'16, through a range of strategies (e.g. Intensive Care Management, behavioral health community care teams) and in cooperation with the Connecticut Hospital Association, **the Emergency Department visit rate was reduced** by:
  - **5.80%** for HUSKY A and B
  - **3.10%** for HUSKY C
  - **8.57%** for HUSKY D

Over SFY'16:

- Overall admissions per 1,000 member months (MM) **decreased by 5.4%**
- Utilization per 1,000 MM for emergent medical visits **decreased by 4.3%**
- Utilization per 1,000 MM for non-emergent medical visits **decreased by 2.7%**

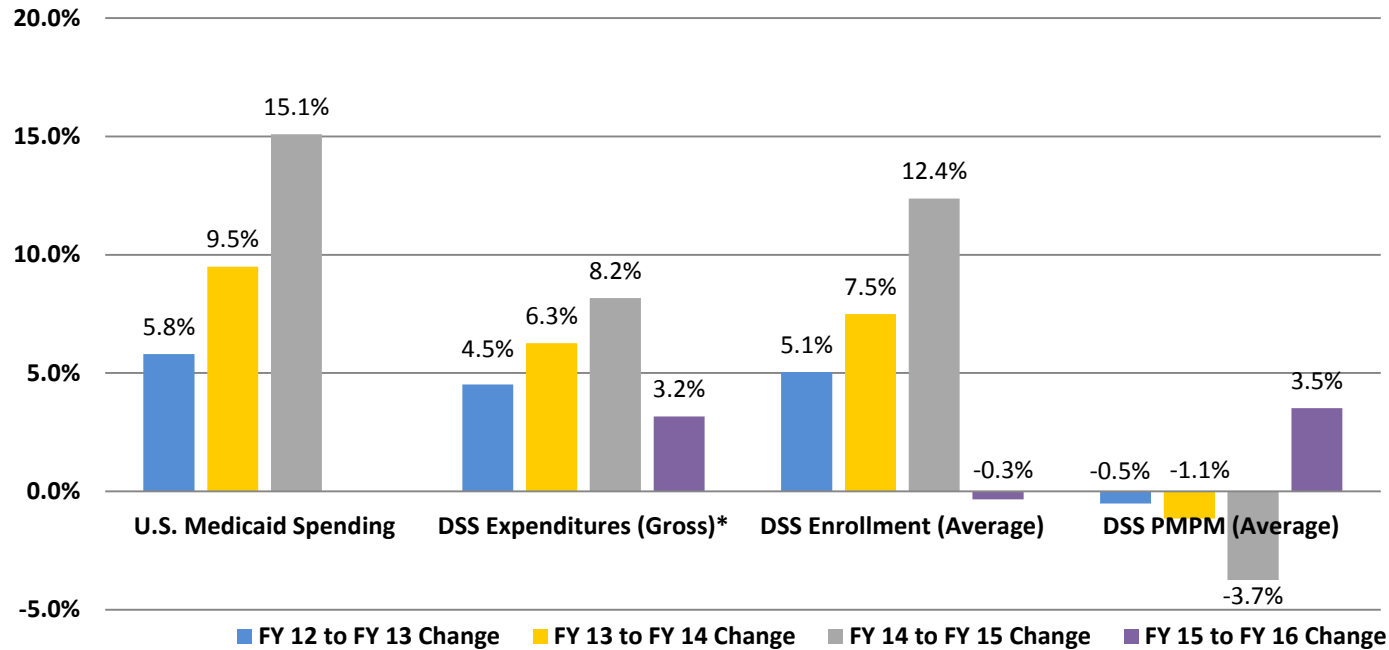

## Medicaid Trends

\* Expenditures are net of drug rebates and include DMHAS' behavioral health costs claimable under Medicaid. This depiction **includes** all hospital supplemental and retro payments.

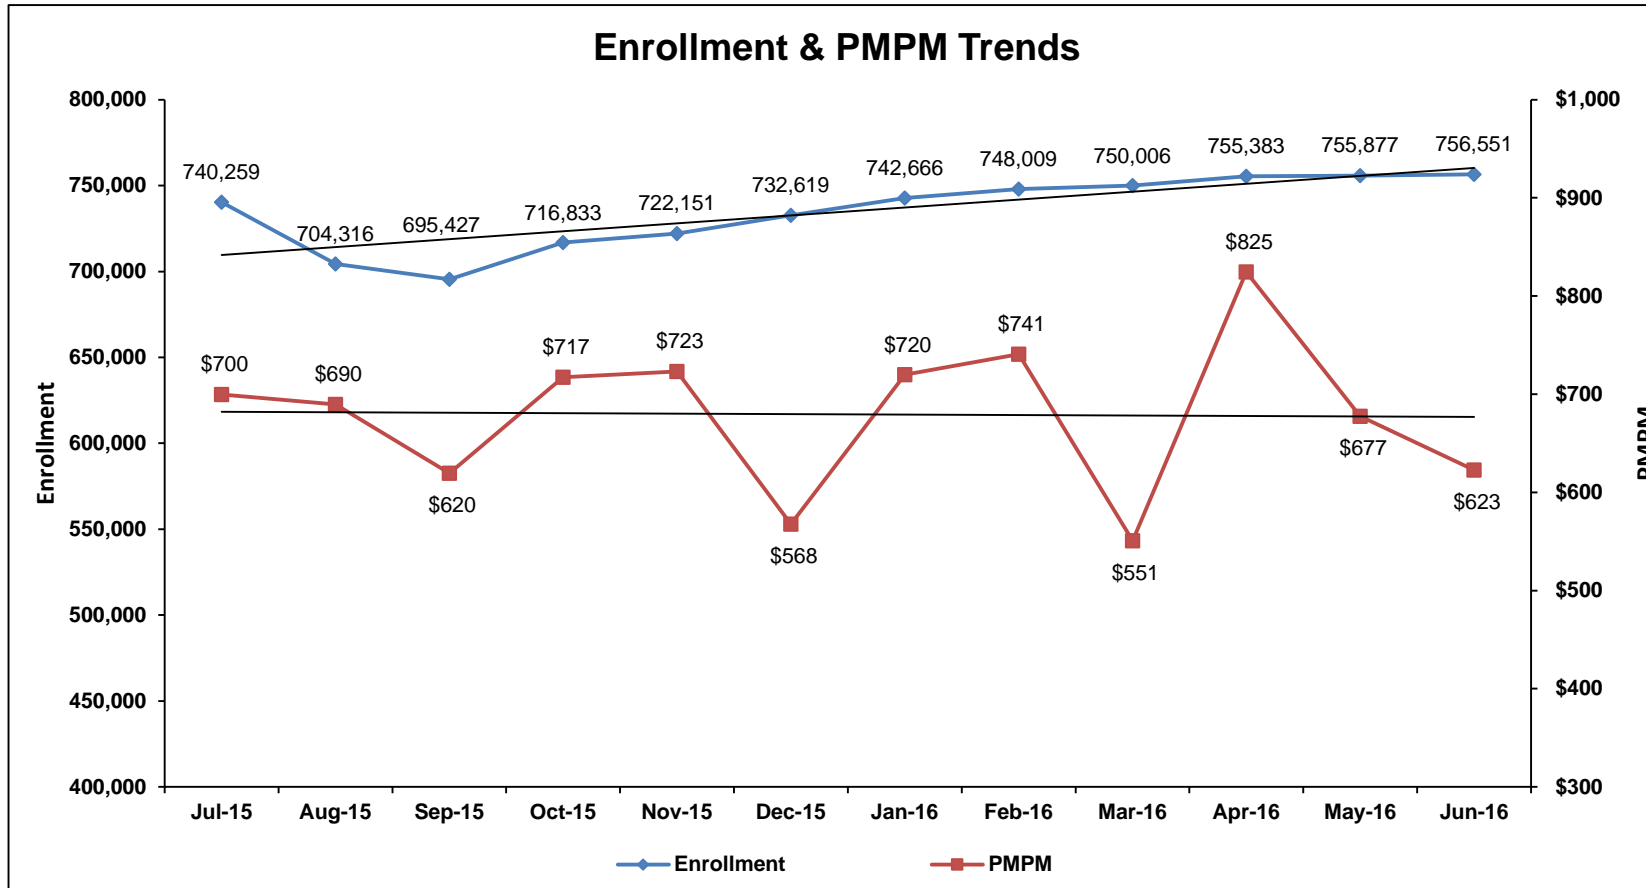

### Medicaid Trends

*\* Expenditures are net of drug rebates and include DMHAS' behavioral health costs claimable under Medicaid. This depiction **excludes** all hospital supplemental and retro payments.*

Expenditures have increased proportionate to the increase in enrollment, but per member per month costs have remained remarkably steady.

# PCMH+ Operational Update

REFORM PAYMENT & INSURANCE DESIGN	Pre-implementation	Perf. Year 1 (Beg. 10/1/16)			
	May- Sept. 2016	Q1 (Oct-Dec)	Q2 (Jan-Mar)	Q3 (Apr-Jun)	Q4 (Jul-Sep)
<b>Initiatives &amp; Work Steps</b>					
<b>MQISSP</b>					
Develop SSP for Medicaid, and engage stakeholders	-----●	10/31			
Finalize Wave 1 RFP for Advanced Network and FQHC entry	-----●	6/6			
Execute Wave 1 provider contracts	-----●	10/31			
Go live with Wave 1, targeting 200,000-215,000 beneficiaries			--●	1/1	
Commence on-going TTA to providers			-----●	1/31	
Receive, clean, and validate data related to the target population (all sources). Develop expenditure benchmark with calculation. Link quality score and shared saving loss percentages.	-----●	6/6			
Commence under-service monitoring				-----●	4/30
Prepare baseline reports for comparison of utilization changes occurring after the implementation of the SIM program for Medicaid beneficiaries				-----●	1/31

## All PCMH+ activities are on track for timely completion:

- **Model design:** In consultation with the Care Management Committee of the MAPOC, DSS has developed all major aspects of PCMH+ model design, including, but not limited to: provider qualifications, care coordination standards, quality measures, shared savings methodology, and a range of strategies designed to prevent, as well as to identify and remedy, under-service to Medicaid members
- **Issuance of procurement:** DSS' Request for Proposals for PCMH+ Participating Entities was released timely on June 6, 2016

- **Procurement results:** On October 4<sup>th</sup>, DSS extended invitations to negotiate contracts to the following entities:

**Advanced Networks:**

- Northeast Medical Group
- St. Vincent's Medical Group

**Federally Qualified Health Centers (FQHCs):**

- Community Health Center, Inc.
- Cornell Scott-Hill Health Corporation
- Fair Haven Community Health Clinic, Inc.
- Southwest Community Health Center
- Generations Family Health Center, Inc.
- OPTIMUS Health Care, Inc.
- Charter Oak Health Center, Inc.

- **Medicaid authority:** DSS is in active dialogue with CMS on Medicaid authority needed to make supplemental payments (to FQHCs) and shared savings payments to eligible FQHCs and “advanced networks” – the focus is on obtaining approval of Medicaid State Plan primary care case management authority under section 1905(a)(25) of the Social Security Act
- **Member and provider engagement:** In consultation with stakeholders, DSS has also developed a member communication, to be sent in mid-November; a supported process for member opt-out; and provider materials and training sessions

- **Procedural updates:** DSS has also submitted to the SIM PMO:
  - **A set of responses to questions from CMMI around mitigation of risks:**
    - Provider participation in procurement
    - Stakeholder engagement
    - Interrelationship with FQHC Practice Transformation Network (PTN) grant
    - Timely approval of authority by CMS
    - Data readiness

- **Revisions to the Operating Plan that detail means through which DSS will review experience and outcomes (health and satisfaction measures, care experience, expenditures) in support of any needed revision in scope or model design of the procurement for Wave 2:**
  - Claims data
  - Results of care experience surveys
  - Mystery shopper
  - Under-service strategies

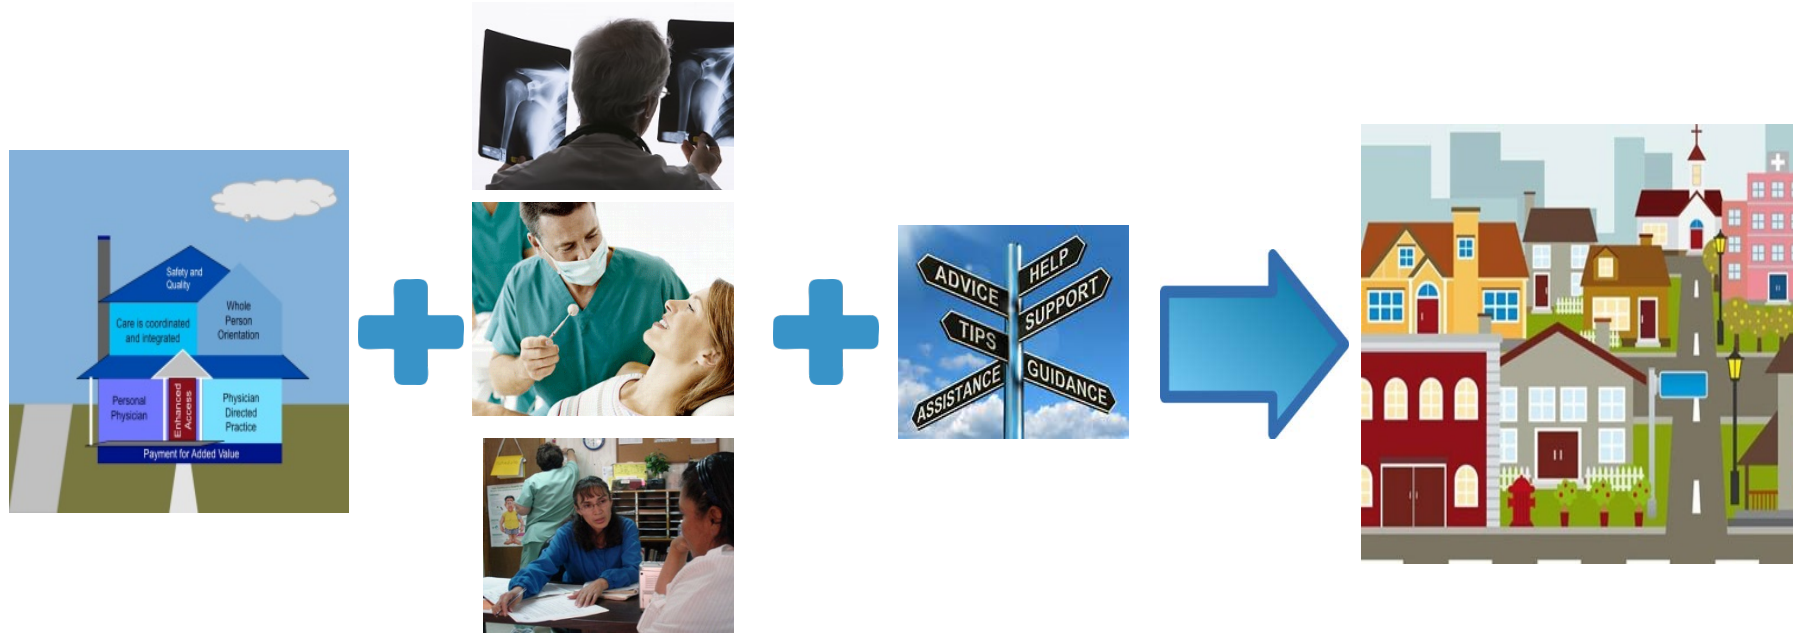

**Appendix**  
**HUSKY Health: Past, Present and Future**  
**At A Glance**

	Past	Present	Future
<b>Administrative/ financial model</b>	A mix of risk-based managed care contracts and central oversight	Self-insured, managed fee-for-service model; contracts with four Administrative Services Organizations (ASOs)	Self-insured, managed fee-for-service model that incorporates health neighborhoods and Value-Based Payment (VBP) approaches
<b>Financial trends</b>	Double digit year-over-year increases were typical	Overall expenditures are increasing proportionate to enrollment; per member per month spending is trending down	Quality-premised VBP strategies will enable further progress on trends
<b>Data</b>	Limited encounter data from managed care organizations	Fully integrated set of claims data; program employs data analytics to risk stratify and to make policy decisions	Data match across human services and corrections data sets will enable more intelligent policy making

	Past	Present	Future
Member experience	Members had different experiences depending on which MCO oversaw their services; MCOs relied upon traditional chronic disease management strategies	ASOs provide streamlined, statewide access points and Intensive Care Management; PCMH practices enable coordination of primary and specialty care; health homes enable integration of medical, behavioral health and social services	Health neighborhoods will address both health needs and social determinants of health (e.g. housing stability)
Provider experience	Provider experience varied across MCOs; payment was often slow or incomplete	ASOs provide uniform, statewide utilization management and ICM; providers can bill on a bi-weekly basis	Consideration of migration to health neighborhood self-management of provider relationships

**Health neighborhoods composed of PCMH practices, specialties, CHWs and non-medical services and supports**

## Development of additional value-based payment strategies

**PCMH enhanced fees and performance payments**

**OB P4P**

**PCMH+**

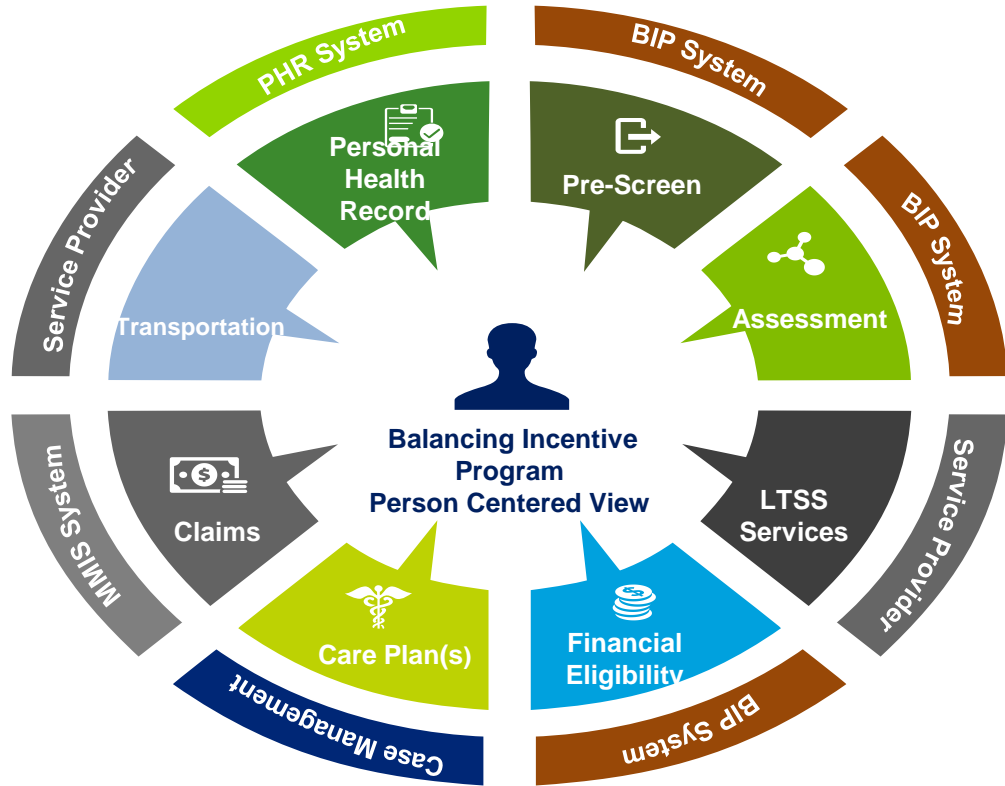

**Shared savings arrangements**

**Episodes of care**

**Achievement of a person-centered, integrative, rebalanced system of long-term services and supports**

---

# SIM Health IT Drivers

---

**Driver 1:** Coordinate and connect various HIT Initiatives throughout the state

**Driver 2:** Execute a targeted and time-limited stakeholder engagement process

**Driver 3:** Leverage technical infrastructure for sending alerts to providers and caregivers

**Driver 4:** Support Data Analytics

**Driver 5:** Enable robust statewide health information exchange (Drivers 3 & 4 build initial functionalities)

**Driver 6:** Deploy health IT Tools for care delivery interventions and quality improvement  
*(Performance Year 2 & 3)*

# HIT Timeline
