

CONNECTICUT
HEALTHCARE
INNOVATION PLAN

Practice and Transformation Taskforce: CCIP

Overview

CCIP and Context of SIM

CONNECTICUT HEALTHCARE INNOVATION PLAN

Connecticut will establish a whole-person centered healthcare system that will...

- Improve Population Health
- Promote Consumer Engagement
- Reduce Health Inequities
- Lower Costs
- Improve access, quality and patient experience

Connecticut will achieve this through seven strategic initiatives:

**Pop Health
Mgmt.**

**Value Based
Insurance
Design**

MQISSP

**Quality
Alignment**

**AMH Glide
Path**

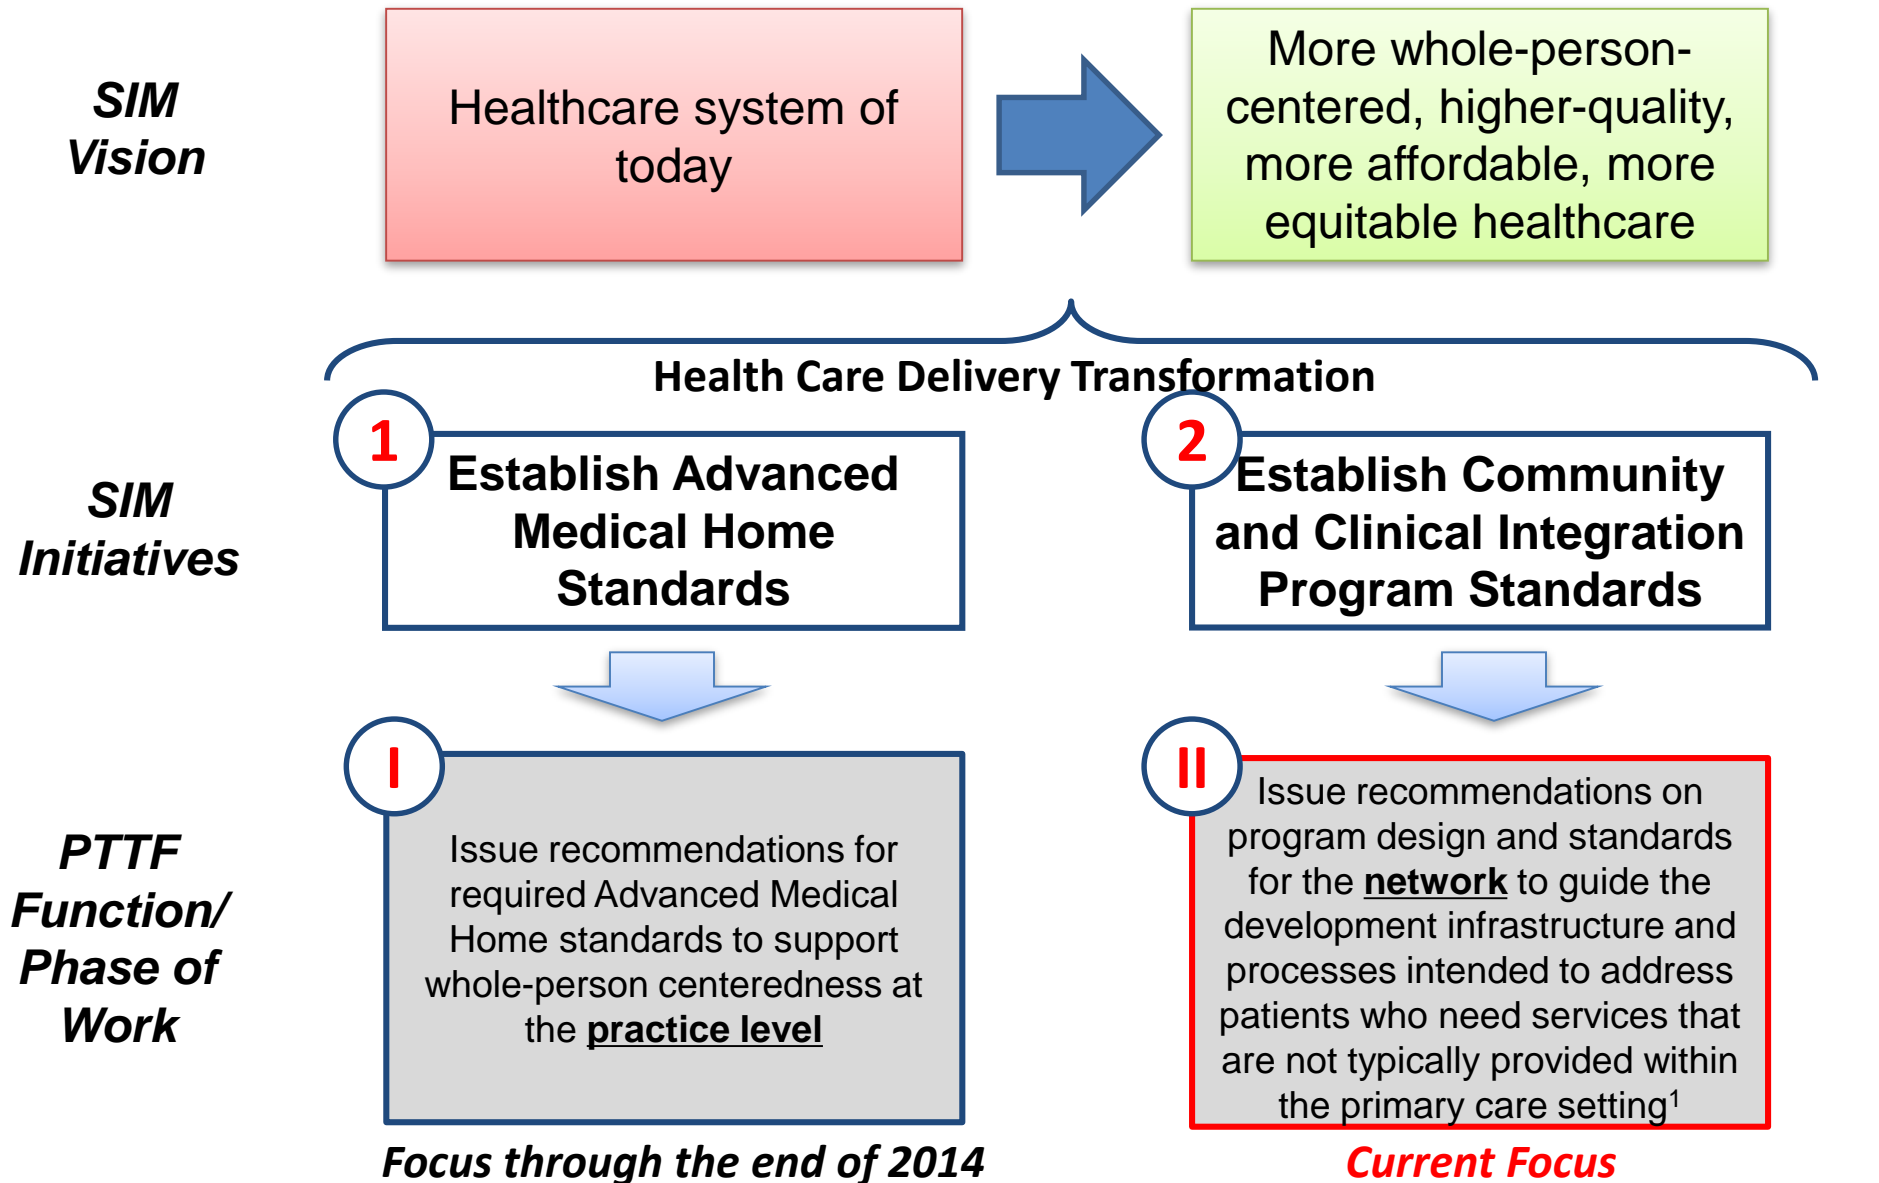

CCIP

**Consumer
Engagement**

Payment reform to value based payments to promote/incentivize higher quality

Delivery system reform to support higher quality through care transformation at the practices and network levels

CCIP and Context of SIM

Notes:¹ This could include specialists that are outside the network (e.g.; behavioral health providers), clinically related support services (e.g.; pharmacists or dieticians), social support services (e.g.; housing or vocational assistance)

CCIP and Context of SIM

The CCIP will address the needs of more complex patients and patients currently experiencing gaps in care who need access to clinical services that may not reside within the network (e.g.; behavioral health) and community support services that help to address social barriers to care.

AMH Standards will require that all patients have:

- A comprehensive care assessment (Standard 3, Element C)
- A care plan that addresses needs (Standard 2, Element A)
- Provision of team based care to execute plan (Standard 2, Element D)

This will place patients on a continuum of care based on their health status

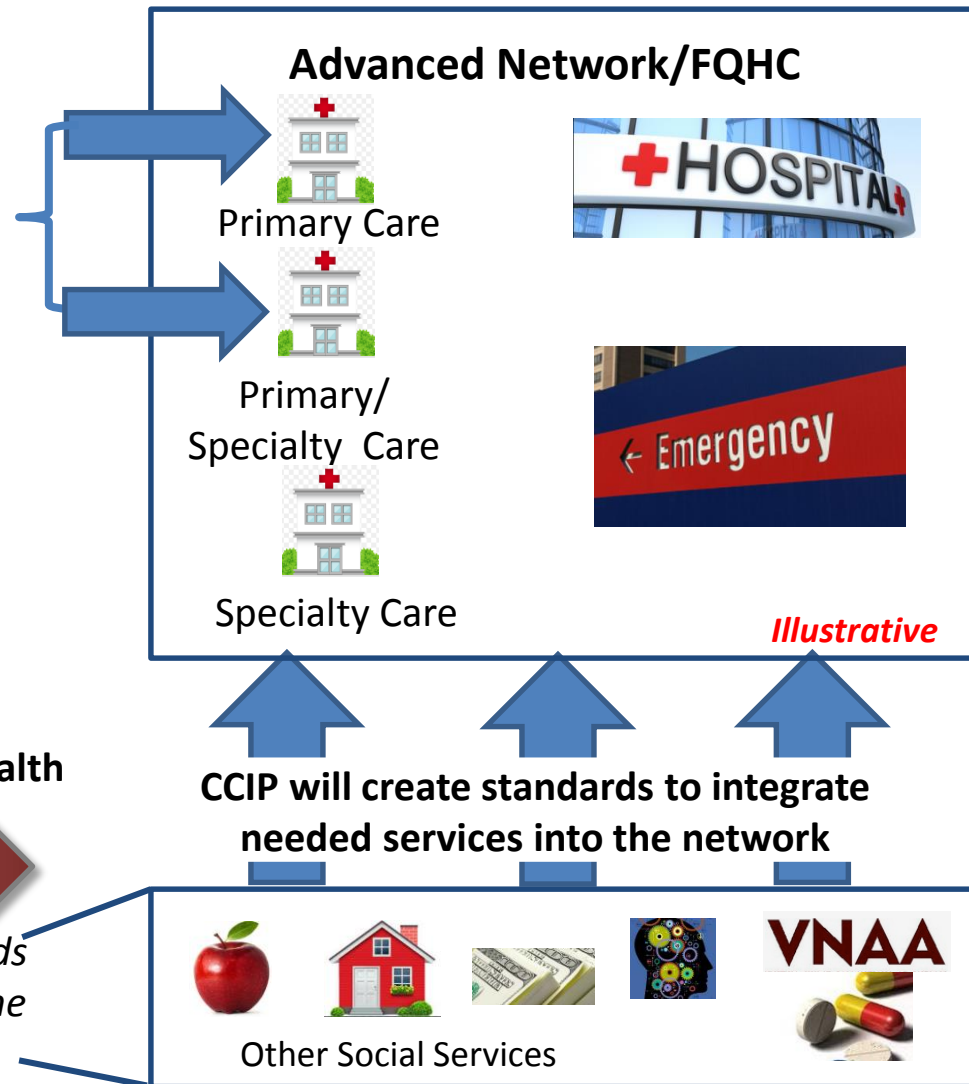

Good Health

Poor Health

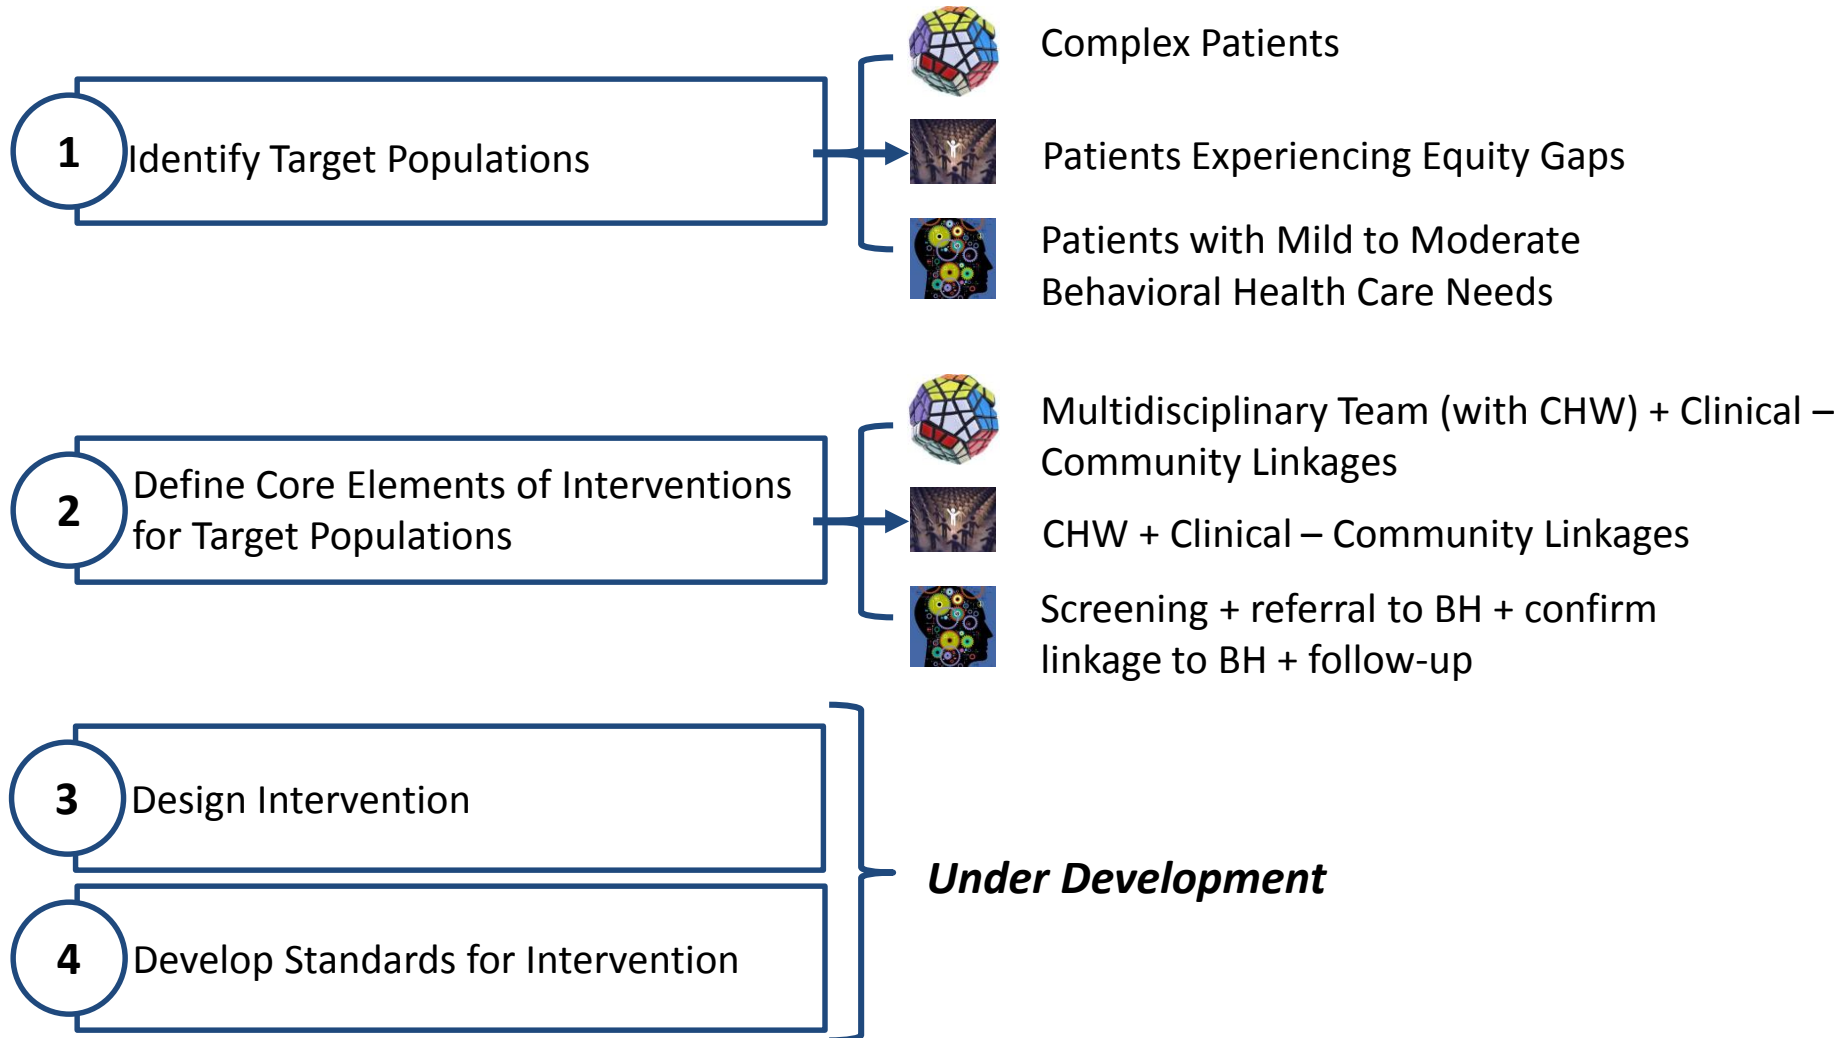

Needs met within primary care practice

More intensive care needs that cannot be met by the primary care practice

CCIP Progress and Activities To Date

The PTTF considered a) the broader objectives of CT SIM, b) the objectives of CCIP, and c) experiences in other states with similar programs in developing its approach to CCIP program design.

CCIP Network Participation

- To be eligible for CCIP technical assistance support, the Advanced Network or FQHC must be participating in the Medicaid shared savings program (MQISSP)
- Advanced Network or FQHC will apply for the CCIP technical assistance through the MQISSP RFP process
- While all AN/FQHC CCIP programs have to be participating in MQISSP, the CCIP resources will be available to all patients regardless of who their insurer is (i.e. Medicare, Medicaid, commercial)
