

Per Secretary Beckham's letter Federal Shutdown Impact Assessments, OHS does not see an impact on our federal programs during a potential shutdown. However, if we were to last more than 90 days we would need to reassess. Any questions please let me know.

SID: 29496

Family Bridge Program - Federal Government Shutdown Contingency

Family Bridge program will experience no immediate impact in the event of a federal government shutdown. This is due to the availability of sufficient funds to maintain operations without disruption. This aligns with OEC reporting as well for this program.

We will continue to monitor developments and provide updates as necessary, in alignment with OPM guidance.

SID: 26545

AHEAD Program – Federal Government Shutdown Contingency

The AHEAD program will experience no immediate impact in the event of a federal government shutdown. This is due to the availability of sufficient funds to maintain operations without disruption.

We will continue to monitor developments and provide updates as necessary, in alignment with OPM guidance.

SID: 26381

HIT PMO - Federal Government Shutdown Contingency

The HIE program will not experience any immediate impact in the event of a federal government shutdown, as sufficient funds are currently available to sustain operations without interruption. However, if the shutdown extends beyond 90 days, a reassessment of the program's funding and operational status would be necessary.

We will continue to monitor developments and provide updates as necessary, in alignment with OPM guidance.
