Adjustment Type:

Reduction

Agency Title:

Elimination of Grants and Contracts Manager Position

Agency Description:

Over 80% of The Connecticut Agricultural Experiment Station's budget is invested in personal services to support agency personnel. For that reason, we had no choice but to include in our reduction option submittal a position (Grants and Contracts Manager), which is currently vacant but important to the Experiment Station's long-term goal of generating additional extramural funding. The Grants and Contracts Manager would work with research staff to identify outside federal and industry funding opportunities and assist in the preparation and submittal of grant applications. The position would also be involved in post-award reporting and closeout. The Experiment Station's budget is relatively small and there were few options for us explore, and therefore, we reluctantly submit the elimination of our Grants and Contracts Manager position.

Agency Priority:

1
