INTRODUCTION

GOVERNOR LAMONT'S PROPOSED REVISIONS TO THE FY 2027 BUDGET

INTRODUCTION

"All men are created equal."

That ideal, enshrined in the Declaration of Independence, still resonates powerfully today. As Thomas Paine reminded us, rights are not granted by government; they arise from the inherent dignity of every person. In times of uncertainty, when *"these are the times that try men's souls,"* we are called to ensure that our founding principles remain steadfast. Recent events, including the shootings in Minnesota involving federal agents, have left many feeling unsettled, anxious, and searching for reassurance. Our nation was built on the promise that all people are created equal, but promises alone do not create opportunity. It takes leadership, vision, and action to ensure every individual has the chance to rise above their station in life. Now, more than ever, we must stand together, united in our commitment to justice, equality, and the common good, so that no challenge can divide us and no person is left behind.

The adopted budget for fiscal years 2026 and 2027 continues the substantial progress toward addressing opportunity and affordability, principles that have served as a north star throughout Governor Lamont's time in office.

Governor Lamont's proposed FY 2027 budget adjustments reflect that commitment. This document is more than a set of numbers, it is a blueprint for strategic investments that strengthen economic opportunity, increase affordability, and promote fairness across every Connecticut community. By turning ideals into action, this budget moves us closer to fulfilling the fundamental promise of equality, opportunity, and affordability for all.

These midterm budget adjustments maintain fiscal stability while advancing affordability, economic growth, and essential services amid ongoing national economic uncertainty and federal funding risks. The plan includes continuing a strategy of targeted relief and investment for families and businesses, including providing tax rebates, eliminating occupational licensing and renewal fees for high-demand professions, new small-business healthcare tax credits, and expanded research and development (R&D) credits for pass-through entities. Hospital tax reforms and decoupling from certain federal provisions, while maintaining other new federal provisions which will positively impact Connecticut's economy, safeguard state revenues while supporting healthcare providers.

The budget builds on historic investments in healthcare, education, housing, and workforce development, with initiatives to improve Medicaid reimbursement, expand mental health services, and address rising healthcare costs through programs like the Connecticut Option and prescription drug affordability measures. Education funding prioritizes universal free school breakfast, literacy coaching, mental health supports, and early childhood expansion through the Early Childhood Education Endowment. Additional resources strengthen higher education affordability, housing stability, nonprofit partnerships, and public safety modernization. Additional capital authorizations complement record prior-year investments in school construction, housing, and infrastructure. Overall, the Governor's budget proposal preserves Connecticut's strong fiscal position, adheres to all constitutional and statutory requirements, and continues the state's commitment to affordability, opportunity, and long-term economic resilience.

A COMMITMENT TO EQUITY

The underlying budget for FY 2027 places education at the forefront of equity efforts. The adjustments allocate additional funding to school districts with high concentrations of low-income students, ensuring these districts have the resources to provide quality instruction, modern technology, and robust student support services. By prioritizing early childhood education programs, including the nation's first Early Childhood Endowment Fund, the budget aims to close achievement gaps before they widen, giving every child a strong foundation for success. Furthermore, the proposal includes expanded funding for workforce development initiatives, particularly those that connect students and adults to high-demand careers in healthcare, technology, and advanced manufacturing. These measures not only strengthen the state's talent pipeline but also create pathways for upward mobility among populations that have traditionally faced barriers to employment.

Due to a range of international and global factors, the cost of living has increased, placing added strain on Connecticut's middle-class and working-class families. These challenges have been compounded by national economic uncertainty and federal funding risks, which threaten affordability for households across the state.

Addressing income inequality remains a top priority for Governor Lamont. Under his proposed FY 2027 budget adjustments, the state will continue its targeted relief and investment strategy. As part of this effort, the Governor is proposing a \$200 rebate for individuals and \$400 for families in the middle and working class.

Healthcare equity is another cornerstone of the governor's approach. The underlying budget increases funding for community health centers and behavioral health programs, with a particular emphasis on underserved urban and rural areas. These investments are designed to reduce barriers to care, which disproportionately affect low-income families and communities of color. By expanding access to preventive care and behavioral health services, the budget seeks to address health disparities that have long persisted in Connecticut. The plan also includes provisions to integrate physical and behavioral health services, recognizing that holistic care is essential for improving outcomes. For example, additional resources will be directed toward school-based behavioral health clinics, which provide critical services to students who might otherwise go without care. These initiatives reflect a broader commitment to ensuring that all residents can access the care they need to lead healthy, productive lives.

Economic inclusion is equally central to the FY 2027 adjustments. This proposal invests in housing initiatives, recognizing that stable housing is a prerequisite for economic security. By expanding rental assistance programs and funding the development of new housing, the state aims to reduce homelessness and housing instability, which disproportionately impact marginalized communities.

Governor Lamont's FY 2027 midterm budget adjustments deepen Connecticut's commitment to equity by tackling income, education, and healthcare disparities to create opportunity and build a stronger, more resilient state where residents and businesses thrive.

REVENUE PROPOSALS

National economic and geopolitical risks remain high as Connecticut continues to evaluate the negative fiscal impact of federal program cuts, tariff impacts, and executive orders that threaten a loss of federal revenue and could lead to an economic slowdown for the state and nation. The Governor's proposed budget is focused on maintaining ongoing services and making improvements where possible.

Revenue policy changes in recent years have focused on improving affordability for Connecticut families. Changes under this administration have included lowering personal income tax rates, increasing the earned income tax credit (EITC), adding a \$250 child enhancement to

the EITC for filers with children, and eliminating certain occupational application fees. This budget continues to make selective changes to the state's revenues to maintain affordability for Connecticut's residents with no increases in tax rates. It includes additional cuts to occupational application and renewal fees, rewards small businesses for investing in health care coverage for their workers, and expands business tax credits for our most dynamic and fast-growing companies. Overall, the tax changes seek to improve affordability and stimulate economic growth - always with the goal of more taxpayers, not more taxes.

Summary of Major Tax Relief Under the Lamont Administration						
(in millions)						
Previously Enacted Tax Relief

22. Grand Total Tax Relief	\$ (216.6)	\$ (828.7)	\$ (573.0)	\$ (845.2)	\$ (881.0)	\$ (1,494.7)

Addressing Affordability Through Tax Rebates

Persistent inflation, rising utility costs, and the on-again, off-again impacts of tariffs have caused Connecticut residents to pay ever increasing prices for goods and services, creating a real affordability problem. The Governor is focused on helping families in the state and proposes utilizing \$500 million of excess FY 2026 revenues subject to the volatility cap in order to provide a rebate of sales and use taxes to Connecticut residents. This rebate will be available to individuals who filed a resident income tax return for income year 2024, totaling \$200 for singles and \$400 for joint filers subject to income limits of \$200,000 or less for single filers, and \$400,000 or less for joint filers. The state will not require an application for the rebate; checks will be issued automatically.

Removing Financial Barriers for Individuals Entering In-Demand Professions

During the FY 2025 legislative session, Connecticut made a historic first step towards eliminating application fees for occupational licenses for certain professions, including certain healthcare and educational professions, impacting nearly 20,000 workers. The Governor's proposed budget builds on this foundation by eliminating application fees for electricians, plumbers, sheet metal workers, HVAC professionals, and educators. The Governor also proposes eliminating renewal fees for these professions, as well as for healthcare workers whose application fees were eliminated last session. These changes will remove a barrier to entry for in-demand professions, enabling residents to start and build their career right here in Connecticut. This change will benefit over 160,000 workers.

Encouraging Small Business Participation in Employee Healthcare

A new tax credit for small businesses will encourage employers to offer Individual Coverage Health Reimbursement Arrangements (ICHRA) through Access Health CT's BusinessPlus platform. ICHRA plans allow employers to contribute funds that their employees can use to purchase individual healthcare plans procured through the exchange, allowing them to offer competitive benefits relative to larger employers.

As an incentive, the Governor proposes to offer a credit to match employer contributions in the first two years they participate, up to \$1,000 per employee per year. Credits will be capped at \$5 million annually and available on a first-come, first-served basis. This new incentive will expand healthcare coverage options while allowing small employers to better attract and retain workers.

Decoupling from Business Tax Provisions in Public Law 119-21

Connecticut's taxation of businesses begins with "taxable income" as established under federal law. Unless the state specifically decouples from provisions of the Internal Revenue Code, deductions and exemptions will generally flow through to the Connecticut return. Connecticut has identified two provisions of last summer's federal budget reconciliation act that will impact Connecticut corporate tax collections through immediate expensing of:

- Domestic research and experimentation (R&E) expenses; and
- Bonus depreciation on qualified production property.

The Governor's budget proposes decoupling from the bonus depreciation on qualified production property, consistent with the way Connecticut's corporation tax already decouples from all other bonus depreciation provisions. In addition, the Governor proposes decoupling from expensing rules for domestic R&E for income years 2022 through 2025, inclusive. Corporations will maintain the five-year amortization schedule for R&E expenses for such years. This change will not result in an overall increase in corporations' liabilities, but will negate a timing shift. However, more importantly, the Governor proposes following P.L. 119-21 expensing rules for R&E expenses in income year 2026 and thereafter.

Expanding Research and Development Tax Credits to Pass-through Entities

Connecticut has an existing 1-6% tax credit for R&D at the corporation tax level. This change will allow pass-through entities to participate in this program and earn a credit equal to 6% of qualifying expenditures upon approval from the

Department of Economic and Community Development (DECD). This change will allow fast-growing, early-stage companies to invest in the future economy right here in Connecticut. These tax credits for pass-through entities will be capped at an annual amount of \$25 million and entities will be limited to \$1 million in credits annually. Because the credit is available to pass-through entities, a majority of the cost of this credit will impact revenues subject to the volatility cap. To the extent the tax credit issued exceeds their tax liability, the excess amount of these tax credits for pass-through entities are refundable at 90% for biotechnology firms and 65% for all non-biotechnology firms, which would result in an increase to refunds and a potential minimal impact to General Fund operating revenues.

Working in conjunction with the hospital industry during the 2025 legislative session, the state increased funding for supplemental payments to hospitals by \$140 million and the hospital user fees paid by hospitals by \$375 million in FY 2027. The Governor’s budget proposal will reduce the tax amount by \$275 million without a corresponding reduction in supplemental payments to hospitals, thereby resulting in a net \$40 million gain to the industry compared to the FY 2026 level of taxes and supplemental payments. These changes will support the hospital industry in Connecticut while also ensuring that the state complies with revisions to Medicaid policy under P.L. 119-21 by reducing the inpatient tax rate from 6.0% to 4.1%. The following tables show the impact on stakeholders and the change between the adopted biennial budget and the Governor’s proposed budget.

Modifications to the Hospital Tax

Rebase Provider Tax				
Impact <i>(in millions of \$)</i>	Hospital Impact	State Impact GF	Federal Impact	Total
Increase Hospital Supplemental Payments	+140.0	-140.0	0	0

	Adopted FY 2027	Change	Governor's Proposed FY 2027
Hospital Provider Tax	\$ 375.0	\$ (275.0)	\$ 100.0
Supplemental Payments to Hospitals	140.0	-	140.0
Federal Medicaid Revenue Impact ⁽¹⁾	93.8	(1.4)	92.4

⁽¹⁾ Technical change that was assumed in the January 15, 2026, consensus revenue forecast

MAKING HEALTHCARE MORE ACCESSIBLE AND AFFORDABLE

Building on FY 2027 Initiatives in the Enacted Budget

The Governor's proposed FY 2027 midterm adjustments build on the strong foundation adopted in the FY 2026 - FY 2027 biennial budget. The biennial budget included significant investments in FY 2027 across the health and human services portfolio, which the Governor's proposal maintains.

In the Department of Social Services (DSS), this includes state share funding of \$15.4 million in FY 2026 and \$45.0 million in FY 2027 to increase certain Medicaid rates, which is expected to improve provider retention and encourage providers to accept and see more Medicaid patients, increasing access to services for Medicaid enrollees. Birth to Three reimbursement rates under Medicaid were also increased by \$2.9 million in FY 2027. This increase will help to retain providers and access to services and aligns with a similar increase in rates for Birth to Three providers funded through the Office of Early Childhood. In addition, \$1.3 million was added in each year of the biennium to make applied behavior analysis services available under HUSKY B.

Rate increases were also provided pursuant to the nursing home and group home agreements with state share funding of \$14.3 million in FY 2026 and \$46.7 million in FY 2027 to support increases for nursing homes and intermediate care facilities

(ICFs). The increased support will fund higher wages and improved working conditions for nursing home and ICF workers, which will improve recruitment and reduce staff turnover - ultimately resulting in improved patient care.

The enacted budget also included an additional \$2 million in FY 2026 and \$5 million in FY 2027 for Connecticut Foodshare. Foodshare reports that they can provide a meal for \$0.50, meaning that by leveraging their infrastructure and purchasing power, and with 100% of the funds being used to purchase food for distribution directly to food pantries across the state, this funding will support approximately 4 million meals in FY 2026 and 10 million meals in FY 2027.

Building on these Foodshare investments, on July 28, 2025, the Governor announced an initiative to support Connecticut Foodshare by raising awareness and encouraging donations. Accordingly, in the FY 2027 budget, the Governor proposes codifying the Pizza State commemorative license plates and establishing a non-lapsing "Pizza State Commemorative Account." Fifty dollars from each license plate sold on or after July 1, 2026, will be deposited into the account and distributed annually to Foodshare.

In the Department of Developmental Services (DDS), the enacted budget includes \$34 million in FY 2026 and \$66.1 million in FY 2027 to support increases for unionized and non-unionized group home providers serving individuals with intellectual and developmental disability. For FY 2026, the funding represents a 2% general rate increase for all DDS private providers, and an additional 1.4% increase for all residential DDS private providers. For FY 2027, a 3% general rate increase is budgeted for all DDS private providers, and an additional 2.8% increase is funded for all residential DDS private providers. The enacted budget also includes a \$5 million pool to be distributed to DDS residential private providers, both unionized and non-unionized, to enhance worker wages and benefits. The most recent

publicly available data from the agency indicates that as of September 2025, over 6,300 individuals actively eligible for DDS programs received services through a private provider.

In the Department of Mental Health and Addiction Services (DMHAS), \$4.13 million in FY 2027 will continue wraparound services for 125 individuals in supportive housing and 24/7 mobile crisis services for adults, as well as \$850,000 in FY 2027 to support funding requirements for the federal 988 suicide hotline. Wraparound services include pre-tenancy support (e.g., gathering paperwork, assistance with housing applications, applying for benefits) and post-tenancy sustaining services (e.g., budgeting, employment, tenancy mediation, referral to behavioral and medical health services) at a cost of \$9,000 per tenant annually. The population served includes people experiencing homelessness or those who are at risk of homelessness and who are also diagnosed with a behavioral health diagnosis. The wraparound services will strengthen housing sustainability and provide opportunities for increased income for 125 individuals.

In the Department of Public Health (DPH), the adopted budget included \$981,000 in FY 2027 for increases in the per capita grants to eligible full-time local and district health departments. The Governor's proposal fully funds these per capita grants at the increased levels through an additional \$128,000.

The adopted budget included two positions and \$210,000 in FYs 2026 and 2027 in the Department

of Aging and Disability Services (ADS) to staff the new Bureau for Persons Who Are Deaf, Deaf Blind, or Hard of Hearing. It also included \$200,000 in FY 2027 to offset anticipated reductions in federal funding to the Connecticut Long Term Care Ombudsman program.

In FY 2027, \$8.6 million was provided to the Department of Children and Families (DCF) to fund a 24/7 statewide in-person pediatric mobile crisis intervention response for youth experiencing psychiatric crises or severe behavioral issues. Prior to this new funding, the mobile crisis network relied on phone interventions in the overnight and weekend hours. According to DCF, there were over 7,600 calls in the first six months of FY 2026 with approximately 40% coming from families/self and 38% coming from schools.

Impact of Public Law 119-21 Changes on SNAP and Medicaid

The federal changes enacted under P.L. 119-21 introduce significant new requirements for state-administered entitlement programs, including stricter eligibility standards, mandatory community engagement (work requirements), and more frequent redeterminations for both the Supplemental Nutrition Assistance Program (SNAP) and Medicaid programs. These provisions will substantially increase the complexity and volume of case processing, verification, and compliance monitoring. As a result, DSS, the agency that administers these benefits, will need to adapt quickly to avoid delays, errors, and potential federal penalties. To ensure timely and accurate eligibility determinations while maintaining compliance with federal requirements, the Governor is recommending 50 new positions and \$3.3 million to strengthen capacity for outreach, eligibility reviews, and customer support.

Beyond the administrative burdens, the federal changes will have a direct impact on residents who rely on these programs for food security and access to healthcare. The increased frequency of eligibility reviews and implementation of work requirements are expected to lead to higher churn

rates and greater demand for assistance navigating these programs and will create ripple effects across the broader social services network, requiring coordinated support from community partners. To further assist in addressing this, Connecticut has secured federal approval of its Implementation Advanced Planning Document (IAPD), which provides enhanced federal funding to support system upgrades that are essential for implementing new community engagement requirements and eligibility determination processes. Leveraging this federal match will reduce the state's financial burden in ensuring compliance and operational readiness.

The anticipated reduction in Medicaid enrollment by approximately 65,000 is expected to impact revenue to the various healthcare entities that provide services to the Medicaid population. Public Law 119-21 included funding for a competitive five-year grant - the Rural Health Transformation grant - designed to partially mitigate anticipated losses to rural hospitals and other providers and to help address gaps in rural healthcare. Connecticut applied for funding and was notified in December 2025 of a \$154.2 million award with funding expected in early 2026. If that funding remains steady over the 5-year grant period, it represents a \$770 million investment in healthcare systems for nearly 325,000 Connecticut residents living in rural areas. Examples of anticipated projects include investments in access to primary care, telehealth, and AI-powered virtual monitoring tools, which can help overcome barriers created by limited transportation infrastructure and significant travel distances. Funding will support incentives to address chronic workforce gaps affecting care availability in rural areas and promote innovative care delivery models that respond to the needs of patients and support sustainable improvements in critical healthcare facility access points - advancements that had primarily occurred in urban and suburban communities. Funding will also be used to launch Connecticut's first PACE program, an all-inclusive health care program that offers fully integrated wraparound care to help older adults remain independent in their own home and community.

Introducing an Adult Influenza (Flu) Vaccine Pilot Program

Because influenza, a vaccine-preventable disease, is one of the leading causes of hospitalization and death in the state, the Governor is proposing \$892,000 in FY 2027 for the Department of Public Health to pilot free flu vaccines to uninsured and under-insured adult residents. The pilot is intended to provide up to 52,000 doses which should reach about a quarter of Connecticut's uninsured adult population. This is expected to reduce healthcare costs stemming from preventable hospitalizations and protect the health of some of our most vulnerable residents. As uncertainty and politics affect the national conversation around vaccinations, the Lamont administration is ensuring that Connecticut bases its policy in science and the recommendations of experts to protect our public health.

In addition to the foregoing, the Governor is proposing a number of healthcare-related affordability initiatives.

Exploring a Connecticut Option

Healthcare has become increasingly unaffordable in Connecticut, and this problem is expected to worsen following the recent expiration of enhanced federal health insurance subsidies. In 2025, Connecticut ranked as the fifth most unaffordable state for healthcare costs, with the second highest insurance coverage costs and the fourth highest annual premiums for individual coverage nationwide. In response to these rising costs, the Governor proposes assessing the

feasibility of developing a publicly-designed and privately-administered health plan program, referred to as the “Connecticut Option.” Funding of \$1 million is proposed within the Office of Policy and Management (OPM) to conduct planning and policy design, a feasibility assessment, and exploration of opportunities to maximize federal funding to reduce premiums and overall healthcare costs for prospective Connecticut Option plan enrollees. The results of the assessment will inform and guide implementation of more affordable healthcare coverage in the coming years.

Offering an Employer Tax Credit to Increase Health Insurance Coverage

Connecticut is home to tens of thousands of small businesses that employ fewer than 50 people. To expand the ability of small businesses to offer affordable, competitive health benefits to their employees, Access Health CT recently launched the BusinessPlus program to allow these employers to offer ICHRAs on the platform. ICHRAs enable participating employees to shop for the health insurance plan that is the best fit for them and their dependents. To better support Connecticut small businesses and their employees at a time when healthcare has become increasingly unaffordable, the Governor proposes a tax credit program to encourage qualified small businesses to offer an ICHRA to their employees so they can take advantage of the benefits these arrangements afford. Businesses employing fewer than 50 people in Connecticut will be able to file for a tax credit of up to \$1,000 per employee per income year. The ICHRA tax credit program reserves up to \$5.0 million total per tax year on a first-come, first-served basis for qualified small businesses.

Creating Portable Benefits Accounts

Today, 6.2% of the Connecticut labor force relies on self-employment as their primary source of income. Many more workers engage in some form of part-time or gig work to supplement their income. Because independent contractors rarely have the option to receive health plan contributions from an employer, they are often left vulnerable to income volatility and gaps in coverage. The Governor is offering legislation to

authorize the creation of portable benefit accounts that are tied to workers and can follow individuals across jobs and contracts. This allows hiring entities to voluntarily contribute to workers’ benefit accounts, regardless of the individual’s employment status. The program is based on a successful state pilot program in Pennsylvania.

Addressing the Future of the Covered CT Program

Covered CT offers no-cost health insurance, dental coverage, and non-emergency medical transportation to Connecticut residents between the ages of 19-64 who have a household income at or below 175% of the federal poverty level, who do not qualify for Medicaid, and who meet other qualifying criteria. Thanks to Covered CT, approximately 50,000 individuals, about one-third of individuals on the exchange, were protected against massive insurance premium spikes or reduced coverage when Congress failed to extend enhanced Affordable Care Act subsidies last year. The Governor proposes legislation to provide the Commissioner of Social Services with flexibility to make necessary program design changes to Covered CT to ensure the state can secure federal approval to renew the program in 2028, align with required changes in Medicaid, and maintain the long-term sustainability of this program. In investigating potential design changes, DSS will also explore potential opportunities to expand coverage to more residents through a Basic Health Plan.

Making Prescription Drugs More Affordable

The cost of prescription drugs has become increasingly burdensome for Connecticut families, resulting in 23% of residents either forgoing or rationing their treatments each year. One contributing factor is that low-cost generics are sometimes blocked from insurance plan formularies or added with higher co-pays than more expensive brand name drugs. The Governor is proposing legislation that would make it easier for consumers to access lower cost generic drugs on their insurance plans without delay.

Improving Dental Care for Individuals Served by the Department of Developmental Services

The Governor recommends funding of \$100,000 to support a dental anesthesiologist who specializes in services to individuals with intellectual disability. The funding will enable individuals to receive expanded care and outpatient sedation for advanced dental work at a dental clinic, a much less intrusive alternative to a hospital visit and general anesthesia. DDS anticipates that the anesthesiologist would be stationed at both the Norwich and Southbury Training School dental clinic locations, expanding much needed service availability.

Facilitating Timely Discharge from State Hospitals

The Governor recommends additional funding of \$3.54 million for DMHAS to ensure the availability of community resources that allow for timely discharge from state hospitals. The partial year funding will support individuals as they transition to community placements with appropriate support and care. This will be a benefit to the individuals who will no longer require institutionalization and also provide capacity for other individuals in need of inpatient forensic services.

Improving Access and Employment Outcomes for Workers with Disabilities

The Governor recommends the addition of \$730,000 in ADS for the Strengthening Professional Advancement in Rehabilitation Knowledge via Certified Training (SPARK-CT) program, an innovative effort to improve competitive employment outcomes for individuals with disabilities while also addressing the nationwide direct care worker shortage in contracted community providers. Funding will support 30 training opportunities in FY 2027 across three provider host sites.

Maintaining MED-Connect Income and Asset Limits at April 2025 Levels

Public Act 24-81 expanded the Medicaid for Employees with Disabilities (MED-Connect) program, which provides Medicaid coverage to employees with disabilities. Specifically, it required DSS to (1) increase the income limits from

\$75,000 to \$85,000 and double the asset limit (to \$20,000 for individuals and \$30,000 for couples) effective April 1, 2025, and (2) phase in the elimination of income and asset limits with all income and asset limits to be lifted effective July 1, 2029. Given the projected significant increase in costs over time, the Governor is proposing that the income and asset limits not be adjusted beyond the increases that occurred on April 1, 2025. Savings of \$1.0 million are anticipated in FY 2027 (\$2.1 million after factoring in the federal share). By FY 2030, this proposal will result in state savings of \$5.0 million (\$10.0 million after factoring in the federal share).

Adding Antiretroviral Drugs to the Preferred Drug List

Public Act 02-1, May Special Session, required DSS to establish a preferred drug list under Medicaid and exempted antiretroviral drugs to ensure that medically appropriate drug therapies would be available to all Medicaid patients. Now, over two decades later, there have been significant advances in the treatment of HIV and, in recognition of this, the Governor is proposing to lift the current restrictions and include antiretroviral medications on the preferred drug list. This will not only allow the state to receive supplemental rebates on these drugs, but it will also allow for better management of these medications as their inclusion on the preferred drug list will help to ensure practitioners are aligning with clinical criteria and best practices.

Transitioning Community First Choice Participants to Waiver Programs

Under the Community First Choice (CFC) State Plan Option, states receive a 6% increase in the federal match rate for home and community-based attendant services and supports to individuals who would otherwise require institutional level of care. While it was recognized that there could be some additional enrollment as a result of the personal care attendant (PCA) benefit becoming a Medicaid state plan service, it was anticipated that any additional costs would be largely offset by both the enhanced reimbursement and the ability to provide self-directed PCA services at a much lower cost than

agency-based home health services. Given the increased complexity to administer the program, higher program costs associated with self-directed care, and ever-increasing enrollment, program costs have more than quadrupled, increasing from \$88.8 million in FY 2018 to \$371.0 million in FY 2025, with average paid cases increasing from approximately 2,400 to nearly 5,800 over this period. To maintain quality services for vulnerable seniors and individuals with disability living in the community, ensure that self-directed PCAs can continue to be paid a fair wage, and ensure the state's fiscal intermediary can appropriately manage the program, the Governor is proposing to sunset CFC and move participants to either an existing home and community-based services waiver, which could be modified if needed, or to a new Medicaid waiver. While this will result in loss of the 6% enhanced reimbursement, this change will better position the state in the long run with net state savings of \$8.1 million in FY 2028, \$57.8 million in FY 2029, and \$109.1 million in FY 2030 projected. This policy will also provide a new option for Medicaid clients who face challenges hiring and managing their caregivers by offering the choice to access services through an agency-based employer.

Sunsetting the Connecticut Housing Engagement and Support Services (CHESS) Program and Transitioning Support for Participants to DMHAS

As noted in the January 2025 report that was submitted to the legislature, the model, configuration and requirements imposed by the Centers for Medicare & Medicaid Services (CMS) made the CHESS program operationally difficult and challenging for supportive housing providers to implement, in part due to the significant amount of upfront and ongoing work that is not billable. Additionally, the limited number of housing subsidies, coupled with a Medicaid state plan that allows any eligible member to receive pre-tenancy and tenancy services, created a misalignment from the inception of the program. An interagency workgroup consisting of DSS, DMHAS, Department of Housing (DOH), and OPM determined that the program should sunset and that those CHESS participants with a housing subsidy should be transitioned to the existing

supportive housing infrastructure offered by DMHAS. Based on this recommendation, the Governor's budget transfers funding to DMHAS to provide supportive housing services through DMHAS' provider network for an estimated 100 eligible CHESS participants.

Phasing-In the Impact of the Patient Driven Payment Model (PDPM) and Establishing a High Medicaid Utilization Pool

The nursing home transition to the federally required PDPM, targeted for July 1, 2026, will require that rates be rebased so that the case mix index (CMI) and base year are aligned. After aligning the CMI to a more recent cost year and applying an inflation factor, this rebase is expected to result in savings to the state of \$22.4 million in FY 2027 and \$24.4 million when annualized in FY 2028. To avoid destabilizing the nursing home industry, the Governor is proposing to phase-in the impact of the PDPM over three years. In addition, the Governor is recommending that a portion of the savings be reinvested to reward homes that serve a higher proportion of Medicaid members beginning in FY 2027 and, beginning in FY 2029 when the system has fully transitioned to the new model, fund a quality performance program, whereby payments would be made to eligible nursing homes based on CMS' quality metrics and consumer satisfaction measures. As noted above, states are federally required to transition to the PDPM because it will ensure more accurate and appropriate payment for residents by using standardized ICD-10 diagnosis codes and individual resident characteristics focusing on each resident's individual care needs rather than the volume of services provided to that resident. As such, the baseline budget assumes the full savings of \$22.4 million in FY 2027. The phase-in over three years and the proposed reinvestments will require additional state funding of \$13.1 million in FY 2027, resulting in net savings to the state of \$9.3 million.

Extending General Rate Increases under Group Home Agreement to Intermediate Care Facilities

In each of the three years of the agreement, the group home agreement with 1199 SEIU provided for a general rate increase for all DDS private

providers—union and non-union—and an additional increase for all DDS residential private providers. Because the definition of residential private providers under the agreement includes ICFs in DSS, the enacted budget included funding in DSS to support a 1.4% increase effective July 1, 2025, and a 2.8% increase effective July 1, 2026, for ICFs. To address concerns that these lower increases for ICFs result in inequities for employees of providers that support both ICFs and DDS group homes, the Governor is proposing to extend the general rate increases to ICFs in both FY 2027 and FY 2028. After factoring in the federal share, this proposal will provide additional support to ICFs of \$2.1 million in FY 2027 and \$6.1 million in FY 2028.

Strengthening Nonprofits

Private nonprofit providers are the backbone of health and human services delivery in Connecticut. They support and care for some of the most vulnerable residents of the state and continue to do so under the strain of an ever-changing federal landscape. The enacted budget provides \$156 million in private provider funding for an 8.2% increase to all human services providers except DDS and a 5.5% increase to DDS providers. In addition to significant provider rate increases, the Governor is creating a Nonprofit Provider Advisory Board to strengthen the partnership between the state and its nonprofit providers. This advisory board will serve as a forum to identify emerging issues and opportunities, and work collectively on solutions that streamline reporting, standardize processes, and promote administrative efficiencies and improved outcomes. This board will provide key insights to the Governor and OPM and will advise and help problem-solve regarding significant issues impacting nonprofits and the residents they serve. The Governor is also recommending funding for a dedicated nonprofit policy coordinator within OPM's Health and Human Services Policy and Planning Division to implement and operationalize identified solutions, assist with interagency coordination, and research and report on the development of new strategies and tools.

In addition, the Governor is proposing legislation to strengthen nonprofits and promote volunteerism through two other targeted initiatives. First, recognizing that volunteer drivers should not be penalized for providing a valuable service to seniors and individuals with disabilities that have transportation barriers, the Governor is proposing legislation prohibiting insurers from cancelling drivers' policies or levying surcharges simply because such drivers provide this *pro bono* service to benefit their communities. This legislation will protect volunteer drivers and nonprofits that use volunteer drivers to help seniors and other residents get to doctors' appointments, the grocery store or the local senior center. Second, the legislation updates insurance statutes to protect healthcare providers, including nonprofits, from arbitrary or untimely payment clawbacks, and strengthens insurance companies' notification requirements and the appeals process. Together, this legislation will provide more support and predictability to nonprofits in their provision of vital services to the residents of the state.

Improving Health Care for Justice-Involved Populations

The Governor's budget continues to support efforts to improve health outcomes and services to justice-involved populations. In FY 2027, the state will continue to invest in, investigate, and seek innovative solutions to provide quality care for this difficult to serve population.

With funding of \$1.0 million, the Department of Correction (DOC), DSS, and OPM will continue current cross-sectional efforts to examine inpatient hospitalizations and outpatient visits with the aim of improving healthcare quality and outcomes, finding efficiencies in the care of this population, and providing enhanced guidance on holistic care management of incarcerated populations at DOC. These efforts will seek to determine basic standards of utilization by building on DSS' partnership with its administrative services organization (ASO) that performs similar work for the department's Medicaid enrollees. Through analysis of DSS and DOC data, the ASO will seek to gain an understanding of the prevalence of and reasons for hospital admissions of incarcerated people and those recently released from incarceration. The funding being proposed will support the continuation of these efforts and develop actionable findings.

DOC and the Judicial Branch are also actively working to prepare for and comply with section 5121 of the federal Consolidated Appropriations Act of 2023, which mandates coverage of Targeted Case Management (TCM) and Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) for those youth in their care and custody who are under 21 years of age, and for former foster care individuals age 18 up to age 26 who are within 30 days of their scheduled date of release (or as soon as practicable after release from the public

institution). The Governor's budget includes \$6.87 million under DSS' Substance Use Disorder Waiver Reserve account to fund coverage of TCM and EPSDT services for all eligible youth as required under the Act. Funding of \$1.25 million in DOC and \$1.03 million in the Judicial Branch is provided to support implementation of these services, including program management, claiming, and the expanded provision of services. These costs will be partially offset by new federal grant revenue.

In addition, the State of Connecticut submitted an amendment to the Substance Use Disorder waiver in March 2024 seeking to expand Medicaid coverage to justice-involved individuals 90 days prior to their release - a population previously precluded from Medicaid coverage once incarcerated (except for inpatient hospitalization). While the reentry demonstration's focus is directly centered around care at time of release from custody, these efforts are only possible (and are driving) efforts to improve the intake and medical screening process for populations upon entry to DOC care and custody. The entry process is crucial to identifying care and needs for this population. Connecticut's reentry demonstration seeks to join 28 states that have either sought or received approvals for expanded coverage and programing for justice-involved populations. Approval is pending and the state continues to actively plan for implementation.

STRENGTHENING K-12 EDUCATION AND EARLY CHILDHOOD

The Governor's proposed adjustments for FY 2027 build on and maintain historic investments in K-12 education made in the enacted budget for the 2026-27 biennium. The enacted budget provided \$94.5 million in additional funding for the Education Cost Sharing (ECS) grant in FY 2026 and FY 2027, while holding harmless all municipalities to formula driven decreases in their ECS entitlements and maintaining the accelerated phase-in schedule enacted in the biennial budget for FY 2024 and FY 2025. Regarding special education, the biennial budget increased the Excess Cost appropriation by \$40 million in FY 2026 and maintained that increase in FY 2027, established the new \$30 million Special Education Expansion and Development (SEED) grant for both years of the biennium, and for FY 2027 establishes a \$10 million grant program designed to encourage high quality, innovative in-district approaches to special education, helping to reduce reliance on costly outplacement services. The Department of Education (SDE), pursuant to section 3 of P.A. 25-67, is currently undertaking a study of various special education rates in order to establish a rate schedule, which will lead to more predictable special education costs. Taken as a

whole, during Governor Lamont's tenure and through FY 2027, state appropriations for special education programs directly subsidizing districts' special education costs will have increased by \$120.5 million, or 85%, as summarized in the table below.

The Governor's proposed budget adjustments also maintain a series of targeted, evidence-based investments designed to improve student outcomes commencing in FY 2027. These investments include:

- \$7 million in FY 2027 to fund the Learner Engagement and Attendance Program (LEAP), a home visiting program operating in high need districts designed to reconnect students with the educational process and combat chronic absenteeism. Based on proposed levels of funding, this will serve roughly 35 to 40 districts.
- \$6 million in FY 2027 to fund additional opportunities for high school students to take college credit-bearing courses before graduation. This is anticipated to serve approximately 35,000 students.

Special Education Funding Increases			
\$ in millions			
<u>Funding Stream</u>	<u>FY 2019 Appropriation</u>	<u>FY 2027 Appropriation</u>	<u>Lamont Era Increase</u>
Excess Cost	140,619,782	221,119,782	80,500,000
Special Education Expansion and Development	-	30,000,000	30,000,000
High Quality Special Education Incentives Grant	-	<u>10,000,000</u>	<u>10,000,000</u>
Total	140,619,782	261,119,782	120,500,000

- \$5 million in FY 2027 to establish a matching grant program to provide high dosage tutoring at the district level. A similar program operated by SDE during COVID using federal funds resulted in math scores increasing by 7.5 percentage points for participating students. The program funded in the biennial budget is expected to serve 10-12,000 students.

In addition to the investments in the enacted biennial budget, the Governor’s proposed FY 2027 revisions continue a strategic approach that prioritizes targeted, proven investment in educational programming designed to improve outcomes for Connecticut students. In FY 2027, new investments totaling \$24.5 million include:

- \$12 million for universal free school breakfast, ensuring that all 500,000 Connecticut students have access to a nutritious meal to start their day.
- \$5 million to continue successful COVID-era mental and behavioral health supports in school settings. SDE anticipates operating this programming in 20 districts with supports tailored to the particular needs of the districts. The initial programming delivered standout results. For example, in Norwalk Public Schools expulsions/suspensions dropped by 13.4%, behavioral incidents dropped by 41.6%, suicide attempts dropped by half, and suicidal ideation dropped by 25%.
- \$4.5 million to establish a statewide network of literacy coaches in response to declining reading scores. Based on successful programming in other states, this investment will insert literacy coaches

into 50 districts across five regions of the state serving an estimated 16,000 K-3 students across the state. Similar programming has delivered significant gains in states such as Mississippi, Louisiana, Indiana and Colorado, with Mississippi recently being ranked the best state in the country for reading proficiency, adjusting for demographic factors.

- \$2 million to continue a COVID-era program funding teacher apprentices, helping to address teacher shortages and secure a consistent talent pipeline. SDE anticipates supporting 75 teacher apprenticeships annually through this program. Currently, this program supports 40 teacher apprenticeships using \$900,000 in federal funds. This program supports teacher candidates through an annual stipend to the teacher of \$25,000, teacher mentor stipends of \$6,500 and costs related to participation in a teacher preparation program, such as tuition and books, at a rate of \$7,500. Costs are split between the state and the district sponsoring the teacher apprentice.
- \$500,000 to continue the work of the Center for Connecticut Education Research Collaborative. This will ensure that the state can evaluate investments in educational programming, helping establish and replicate best practices and inform future funding decisions at the state and district level.

In the area of career and technical education, the Governor’s budget provides approximately \$7.7 million in new resources to the Connecticut

Technical Education and Career System (CTECs), including:

- \$1.2 million to hire up to 36 paraeducators to address special education needs;
- \$1.5 million for various initiatives related to Adult Education, including \$1 million to increase the provision of adult education services at the Bristol Tech campus, and \$500,000 for a landscape analysis to inform planning and expansion of workforce training programs designed for adult learners; and
- \$5 million to address ongoing shortfalls in the agency’s operating budget related to utilities and special education costs.

Additionally, the budget eliminates \$12 million in funding earmarked in FY 2027 for Regional Education Service Center (RESC)-operated magnet schools. Instead, the Governor is proposing legislation to allow for inflationary increases to the rate of tuition these providers, as well as other choice program operators like vocational agriculture (Agricultural Science and Technology Education - ASTE) schools, can charge to sending districts, ensuring an ability for those schools to receive sufficient ongoing revenue to support the education of the roughly 16,000 students across the state that these entities serve. It is important to remember that sending districts maintain magnet and ASTE students in their ECS resident student count, despite not being responsible for their day-to-day education.

Finally, the Governor, via Executive Order, will establish the Blue-Ribbon Panel on K-12 Education, thereby setting in motion collaboration across stakeholders to evaluate the ECS formula as well as the state’s other formula-driven K-12 grant programs to ensure future investments in education are data-driven, evidence-based, and outcome-oriented. Ensuring that funding is agile enough to meet the needs of the modern student, produce a rapidly changing workforce, and maintain the talented teaching workforce responsible for ensuring all children have access to quality education.

Early Childhood Investments

Under P.A. 25-93, Connecticut created the Early Childhood Education Endowment (ECEE), funded with transfers of annual operating surpluses to support a significant, long-term commitment to stabilizing and expanding educational and care opportunities for children ages birth to five. Prior to the close of FY 2025, the state deposited \$300 million of its estimated surplus into the newly created ECEE. Current statute provides a mechanism for annual deposits based on estimated General Fund operating surpluses prior to the close of each fiscal year. The act requires the Treasurer, in consultation with the ECEE Advisory Board, to authorize the annual release of up to 12% of the ECEE’s total funds for FY 2026 and FY 2027 and 10% of the total funds for FY 2028 and each fiscal year thereafter to the Office of Early Childhood (OEC). The OEC commissioner will then expend the released funds as required by the act. Highlights in this first year include:

- Implementation of up to an 8% increase, as of October 2025, in the per-space reimbursement rates paid to Early Start CT providers to help stabilize their financial position;
- Funding 11 new Smart Start classrooms, a program that reimburses local and regional boards of education for operating expenses related to establishing or expanding a preschool program under the jurisdiction of the board of education for the town, creating spaces for approximately 165 additional preschool children; and

- Release of a Request for Applications (RFA) to fund an estimated 1,039 childcare spaces anticipated to open in January 2026. Of the new spaces, an estimated 385 will be infant/toddler spaces, 467 will be preschool spaces, and 187 will be school age spaces.

This ongoing investment was complemented in the FY 2026 and FY 2027 biennial budget by a total of \$109.9 million in new General Fund appropriations: \$41.7 million in FY 2026 and \$68.2 million in FY 2027. These investments included:

- \$35.1 million in FY 2026 and \$38.4 million in FY 2027 to support the third year of negotiated rate increases for family childcare providers, licensed and unlicensed providers in the Care 4 Kids (C4K) program. This funding supports the current caseload of 21,000 children (23,000 in summer) and ensures all providers are reimbursed at least 50% of the market rate as federally required. There are currently 1,059 center-based providers and 1,051 licensed family childcare providers in the state in FY 2026.
- \$5 million in FY 2027 for the year five costs of the Start Early - Early Childhood Development Initiative. Under this initiative, OEC developed a grant program for early childcare education, research, and support services for providers with the goal of growing and enhancing a system of high-quality care. American Rescue Plan Act (ARPA) funds supported this program for the first four years. Two studies are supported via this funding, the first by the TMW Center for Early Learning and Public Health at the University of Chicago, and the second through the University of Connecticut.
 - The first study uses the Luet tool to track classroom and educator characteristics that most positively impact child outcomes. The findings will be used as the foundation for an evidence-based professional development model that leverages this new technology

to maximize early childhood educator impacts. This pilot study ran from March to August 2025 in eight infant and toddler classrooms across five Connecticut childcare centers, including 24 teachers and 84 infants/toddlers.

- The second study includes family support teams to support families, teachers and programs to improve the quality of children’s homes and early care environments. The program connected families with additional needed services (early intervention, education/job training, housing, finance, etc.) as well as teacher support through mental health consultants in the classroom. The program recruited families beginning October 1, 2024, enrolling 161 families across 12 childcare centers and 18 family childcare providers.
- \$8 million in FY 2027 to support a 4% increase to Early Start CT (ESCT) rates. ESCT is a state-funded early care and education program that launched in July 2025, combining three existing programs - child day care contracts, school readiness grants and state Head Start supplemental grants - into one program. The 4% increase builds upon rate increases and recommendations in the Blue Ribbon Panel report to help improve hiring and staff retention, as well as giving providers the ability to recruit additional children above their current utilization. ESCT currently serves 17,881 funded spaces with approximately 1,039 more anticipated with the ECEE’s RFA. There are estimated to be 485 sites funded by ESCT in FY 2027.
- \$3 million in FY 2027 to maintain and expand the Smart Start Program. This program reimburses local and regional boards of education for operating expenses related to establishing or expanding a preschool program under the jurisdiction of the board of education for the town. Funds are used to increase the number of

preschool spots available in public schools and support the operational cost of preschool classrooms. Smart Start funds particularly benefit children with special needs and their families because public schools have several resources, like occupational therapists, that are often difficult to provide in other childcare settings. With this funding, all current Smart Start grantees will maintain their programs and Smart Start for Recovery grantees will make their programs permanent (which were previously funded by ARPA dollars). Additionally, this funding supports an increase of \$5,000 per child/\$75,000 per classroom to \$6,500 per child/\$97,500 per classroom. All Smart Start classrooms are in public schools. For FY 2027, it is estimated that an additional 20 classrooms/300 children will be served.

- \$1.8 million in FY 2027 was provided for the final year of Universal Home Visiting (UNHV) funding until sustainable funding for this program is finalized. UNHV is an evidence-based nurse home visiting model in which a registered nurse, licensed, with specialized training, provides services in the home to families with newborns. This program has served a total of 2,241 families thus far. Since the Bridgeport program launched in October of 2023, there have been 7,012 referrals to multiple services. Eastern Connecticut's program, which launched in February 2025, has had 73 referrals to multiple services. Referrals made to services by community health workers most commonly are for diapers, formula, housing, food insecurity, WIC, childcare assistance, and transportation services. A comprehensive program review is underway and will report on the program's stated outcomes, including, (1) reduced infant and maternal mortality, (2) increased connection to community resources, (3) reduced parental anxiety and maternal depression, (4) reduced emergency department use by mothers and newborns, and (5) improving quality and safety of the home environment.

Similar universal nurse home visiting programs report a savings of \$3 for every \$1 in program costs.

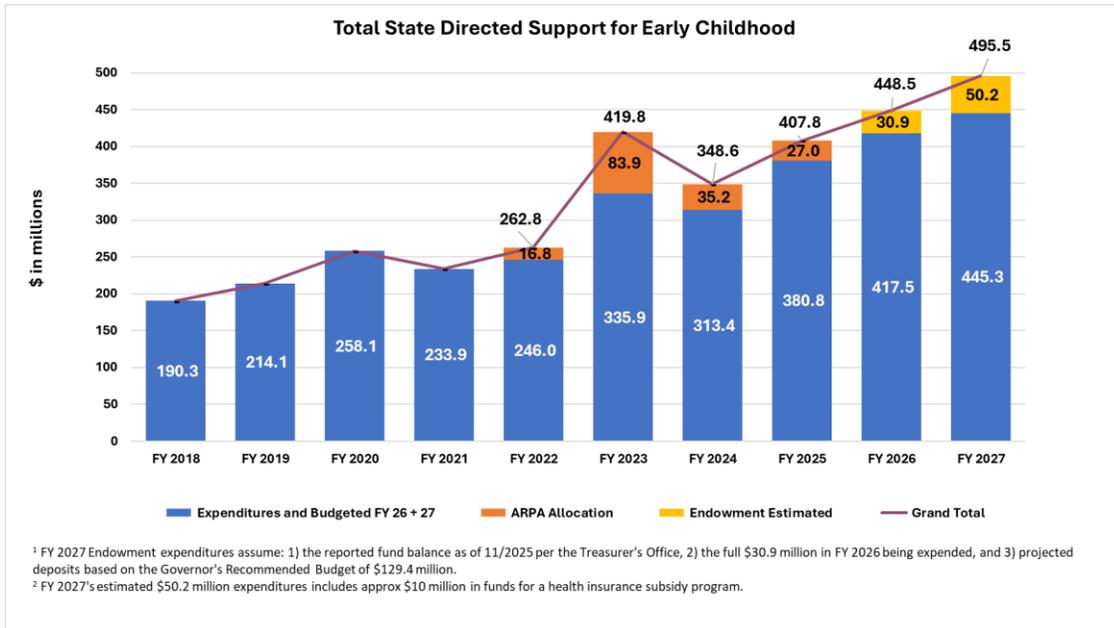

- \$3.8 million in OEC and \$2.9 million in DSS was provided in FY 2027 to increase Birth to Three (B23) rates. OEC contracted with Public Consulting Group to conduct a comprehensive rate study for the Connecticut B23 System and provide the true cost of delivering these early intervention services. The study, which was completed in January 2024, was designed to analyze costs and calculate market-based provider rates that address best practices in early intervention service delivery, support the recruitment and retention of qualified staff, and assist OEC with assuring compliance with federal programs. Although funding was added to the enacted budget to increase rates in FY 2027, it retained the current fee-for-service payment structure whereby the state reimburses B23 providers based on the individual services they deliver. The Governor recommends adding \$2.4 million in OEC and \$1.6 million in DSS in FY 2027 to implement the new tiered rate system based on provider experience and credentialing level. This payment structure will ensure a more competitive provider environment and better access to services for those in need while improving provider retention.
- \$1.6 million in FY 2027 was provided to maintain the Tri-Share program for the remainder of FY 2027. Public Act 24-81 provided \$1.8 million in ARPA dollars to OEC for the Tri-Share program which is a pilot where businesses, parents and the state share the cost of childcare for a participating family. This was a recommendation in the Blue-Ribbon Panel on Child Care report. Currently, OEC has contracted with a fiduciary to administer the program in partnership with CBIA to promote the program and enroll businesses. This program currently serves four employers - Electric Boat, Little Learners, Pollywogs, and Tiny Sprouts -

with all employers onboarded and using the program. The Electric Boat employee onboarding component has commenced with 90 applicants and services that began in January 2026.

- \$750,000 in both FY 2026 and FY 2027 was reallocated from the Early Care and Education account to the Head Start Services account to provide additional state Head Start funding to supplement federally funded Head Start programs, which will increase the number of children served with state Head Start funds. This funding will also support wraparound services for the Head Start on Housing Rental Assistance Program (RAP) vouchers that DOH provides. This is intended to support up to 250 additional

RAP vouchers; currently, 25 RAP vouchers are issued for this program.

These biennial investments build upon increases in the state’s early childhood funding of over \$146.9 million, or 62.8%, from FY 2021 to FY 2025. Investments during this period included: (1) increases to Care4Kids rates, providing additional purchasing power in the childcare market for the neediest parents and helping providers address increased costs; (2) funding to increase pre-K rates at state-funded school readiness programs and child day care centers to ensure the maintenance of high-quality early care and education, including in some of the neediest communities across the state; and (3) funding for OEC’s Parent Cabinet to ensure parent voices are heard at the highest levels of decision making in the state’s childcare system.

SUPPORTING HIGHER EDUCATION

The enacted budget for FY 2026 and FY 2027 provides over \$100 million in additional operating support in each year to the constituent units of higher education. These increases to the block grants for the University of Connecticut, the UConn Health Center, and the Connecticut State Colleges and Universities include \$24 million in FY 2026 and \$46 million in FY 2027 to address cost inflation above the FY 2025 baseline. The budget

also provided for additional block grant increases of \$50 million in FY 2026 and \$20 million in FY 2027 for UConn and UConn Health.

The Governor’s recommended midterm adjustments include a \$458,980 increase to the Connecticut State University block grant to support food service operations on state university campuses. These additional resources

Ann Handley Award or PACT, at CT State Community College to provide free tuition at any of the four regional public universities for students who previously graduated from CT State with a PACT scholarship. Starting in FY 2027, the enacted budget includes \$7.7 million for this expansion, named the Finish Line Scholars Program in statute. The Governor's budget adjusts the

will accommodate the recently negotiated contracts for food service employees at three of the state universities, ensuring that the cost of these contracts can be met without additional student fees.

Enhancing Resources for the Roberta Willis Scholarship Program

The Roberta Willis need-based scholarship program received significant one-time support from federal ARPA funds, resulting in a surplus of state appropriated scholarship funding. The enacted biennial budget increased the appropriation by \$1.4 million in FY 2026, which is supplemented by an additional \$15 million carried forward from the prior year. In FY 2027, the appropriation is further increased by \$15 million, effectively annualizing the increase to the program that previously relied on temporary funding. By committing state funding to replace the expired ARPA allocation, this investment will accommodate the continued provision of need-based scholarships to over 4,000 additional students each year.

Funding the Finish Line Scholars Program

Public Act 25-168 expanded the debt-free community college program, known as the Mary

appropriation to \$3.85 million for the first year as the program will be newly available to the first cohort of students in the 2026-2027 academic year, and thus is only anticipated to require half of the fully annualized appropriation. The Finish Line Scholars program is expected to provide free tuition for over 500 students at Connecticut State Universities in FY 2027.

Stepping In to Help Graduate Students

The Governor's recommended capital budget includes a new \$10 million bond authorization to the Connecticut Higher Education Supplemental Loan Authority (CHESLA) to support a new student loan opportunity for graduate students in Connecticut. The Federal Direct PLUS loan program for graduate students is being eliminated for new students and phased out for existing students effective July 2026, removing an affordable option for thousands of Connecticut residents seeking to finance a graduate or professional degree. This proposed new bond authorization, in combination with revenue bonds issued directly by CHESLA, will ensure that affordable financing remains available to Connecticut residents pursuing a graduate or professional degree.

CONTINUING TO INVEST IN AFFORDABLE AND SUPPORTIVE HOUSING

The Governor's recommended FY 2027 midterm budget builds upon biennial investments to strengthen and support various housing initiatives. This includes \$10 million in FY 2027 to maintain Rental Assistance Program (RAP) costs in the Department of Housing to address increased housing costs. This funding allows the state to maintain the number of individuals

served, currently at 6,373 RAP certificates. Additionally, \$500,000 in funding is provided to support a collaboration with SDE by developing supportive housing solutions for homeless youth to reduce chronic absenteeism and improve academic outcomes. Finally, \$500,000 and six positions in FY 2027 are added to DOH to support

new requirements passed in P.A. 25-1, November Special Session, which, among other things:

- Requires DOH to develop and administer a pilot program providing portable showers and laundry facilities to people experiencing homelessness;
- Requires DOH to develop and administer a middle housing development grant program in certain municipalities;
- Permits DOH and municipal housing authorities to give certain nonprofit providers grants to administer direct rental assistance programs meeting specified requirements;
- Requires DOH to create a program that funds proposed affordable housing development projects creating employment opportunities in the construction industry and meeting certain affordability requirements;
- Requires DOH to establish a pilot program awarding grants to housing authorities, CHFA, or nonprofits for acquiring dwelling units in certain municipalities and putting affordable housing deed restrictions on them; and
- Expressly empowers the DOH commissioner to develop housing projects on land the state owns or otherwise controls, sell or lease these projects, and provide for their management.

The FY 2026 and FY 2027 biennial budget included:

- \$6.7 million to increase elderly and disabled state-funded RAP vouchers (up to 250 vouchers) as well as Head Start on Housing (HSH) vouchers (up to 250 vouchers) beginning in FY 2027. HSH is a system approach to combating homelessness with the support and collaboration of private providers, state agencies and local communities across housing, childcare and social services. The program targets homeless families or those with extreme housing insecurity who are already engaged with Head Start or Early Head Start services. By permitting Head Start staff to identify families in need and connecting them directly with housing, it cuts the administrative time to secure housing in real-time and ensures families receive necessary case management to achieve long-term stable housing. As of December 2025, 150 families have been housed. This includes 329 children, of which 92 are McKinney Vento aged children and 237 are Head Start or Early Head Start. Elderly and disabled RAPs are targeted to individuals whose fixed incomes are being surpassed by rising housing costs, leading them to be one of the populations most at risk for homelessness.
- \$3.5 million in FY 2026 and \$5 million in FY 2027 to support eviction prevention efforts and the HUBs. Eviction prevention provides eligible households with rental assistance payments to cover arrears to prevent eviction, and the HUBs provide an in-person access point to homeless resources. An estimated 11,000 individuals will be supported through eviction prevention in FY 2026; on average there are 12,500 walk-ins per year across HUBs.
- \$10.3 million in FY 2026 and \$10.5 million in FY 2027 to support increased housing costs in the Congregate Facilities Operation Costs, Elderly Congregate Rent Subsidy, Housing/ Homeless Services,

and Project Longevity Housing accounts which are experiencing rising housing costs.

- \$5 million beginning in FY 2027 to support cold weather costs, which have

historically been funded through temporary funding sources.

- \$610,000 in both FY 2026 and FY 2027 to support shelters.

OTHER INITIATIVES

Equipping Our State Police

The Governor's budget includes \$9.86 million for the Department of Emergency Services and Public Protection (DESPP) to address costs of modernizing equipment and technology used by the Connecticut State Police. This effort has replaced outdated, first-generation police technology and equipment and equips the State Police with advanced tools that modernize operations, enhance efficiency, and improve safety for both officers and the public.

By consolidating critical equipment, software, and services under a comprehensive, 10-year contract, the state secures millions in savings through bulk purchasing and ensures pricing stability that will lead to predictable budgeting. The agreement includes full warranties, scheduled upgrades, and timely equipment replacements, mitigating the risk of relying on obsolete technology in the future. Leveraging cutting-edge technology will allow the agency to streamline time-intensive tasks, cut administrative burdens, and return

troopers to the road faster. Key components of this modernization initiative include:

- Body-worn cameras with automatic activation during Taser deployment, real-time video streaming for supervisors, and GPS-enabled officer tracking for improved situational awareness;
- Vehicle cameras and modems, and interview room cameras;
- Next-generation Tasers to replace obsolete equipment;
- Advanced drones for rapid aerial response;
- A secure digital evidence management system that centralizes storage and integrates community engagement platforms to strengthen transparency and accountability; and
- Advanced tools that automate video transcription, redaction, and search, dramatically reducing report writing time and accelerating responses to Freedom of Information Act requests and public transparency.

This comprehensive technology package positions the Connecticut State Police at the forefront of modern policing standards, ensuring operational efficiency, accountability, and enhanced safety for all.

Transition to a Release-Based Cleanup Program

In April 2025, the Legislative Regulation Review Committee approved the Department of Energy and Environmental Protection's (DEEP) Release-Based Cleanup Regulations (RBCRs). These regulations implement P.A. 20-9, which sunsets the Connecticut Property Transfer Act – the state's primary program for pollution cleanup – and establishes a release-based cleanup framework. This transition aligns Connecticut with 48 other states that utilize a release-based approach and eliminates long-standing barriers to property redevelopment under the Transfer Act.

Under the RBCRs, all new spills and newly discovered historical releases must comply with uniform cleanup standards. This consistency will accelerate remediation timelines, reduce cleanup costs, and provide clarity for property owners regarding compliance requirements.

Accelerating remediation and promoting property redevelopment are expected to yield substantial economic benefits. A March 2019 report by the Connecticut Economic Resource Center (now AdvanceCT) estimated that, between 2014 and 2018, the Transfer Act resulted in the loss of approximately 8,000 jobs and more than \$170 million in state and local revenues due to "foregone operations."

At DEEP's request, economists from DECD conducted an updated analysis using current data. For the five-year period beginning in 2019, the analysis projected that properties constrained by the Transfer Act could have generated over 4,000 manufacturing jobs and more than \$100 million in additional state revenues.

The Governor's budget includes funding of \$146,574 to support two new positions within DEEP to support emergency response, auditing,

and enforcement activities associated with the implementation of the RBCRs, which take effect March 1, 2026. These roles are essential to ensuring timely responses to environmental emergencies and effective enforcement of the new regulatory framework.

Reducing Human-Bear Conflicts

DEEP has found through long-term research that Connecticut's black bear population is poised for significant growth. This trend is driven by two key factors: abundant suitable habitat and widespread access to human-related food sources. In recent years, bears have been reported in every town across the state, with thousands of human-bear conflicts occurring annually.

To address this challenge, the Governor's budget provides funding of \$200,000 to DEEP for a statewide educational and marketing campaign promoting best practices to prevent bear encounters. The initiative will focus on areas where bears have recently established populations, aiming to curb habituation before it begins. Building on the success of DEEP's Fall 2024 Bear Aware campaign, which ran from June 17 to September 30 and generated over 10.2 million impressions across multiple channels, the new effort seeks to raise awareness and encourage proactive measures. As bear numbers rise and interactions increase, all Connecticut residents are urged to remain vigilant, adopt preventive

actions, and help ensure the safety of both communities and wildlife.

Improving Transparency and Oversight of Legislatively Directed Funds

In order to improve transparency, accountability, and oversight of legislatively budgeted earmarks, at the Governor's direction OPM has issued a policy to Executive Branch agencies requiring enhanced accountability and oversight, including risk assessment and other steps. This policy, along with legislation being proposed by the Governor, will help ensure that taxpayer funds are protected when awarding funding to the broad array of organizations with varying operational capacity to provide services identified by the legislature.

To enhance visibility and transparency, the Governor's budget proposes aggregating most funding for legislatively directed funds in new stand-alone appropriations titled "Various Grants." Realigning these funds to distinct appropriation accounts - typically from agency Other Expenses accounts, where many of these earmarks are currently budgeted - will increase

transparency for legislatively directed funds and will clearly distinguish this funding from agency operating costs that are budgeted in the Other Expenses account.

Further, to support the constitutional requirements for budget balance and spending cap compliance, funding for legislatively directed funds is proposed to be reduced in aggregate by 20%. While the public interest is usually best served when procurement of services is done through a transparent, competitive process, the legislature, as always, retains the ability to specify how remaining balances would be distributed among the purposes or specific providers funded in these accounts. The administration, however, is committed to the best practice of agencies administering competitive processes for the disbursement of these funds to increase transparency and accountability, broaden access to state grant funding, and ensure applicants have the ability to deliver high quality programming to those they serve.

RESTRUCTURING GOVERNMENT AND IMPROVING GOVERNMENT OPERATIONS

Reorganizing Activities Provided by the Office of Health Strategy

The Governor is proposing to reorganize activities currently provided by the Office of Health Strategy (OHS) to several state agencies in order to better align programmatic activities with agencies that share similar functions. This reorganization will clarify where responsibility lies for a comprehensive and cohesive vision for healthcare for the state and coordination of healthcare policy and alignment of federal and state efforts including for healthcare-related IT. The moves include a transfer of Certificate of Need (CON) and data collection and analysis activities that support CON decision making to the Department of Public Health. The Governor is also proposing a slate of legislative reforms to the CON program intended to streamline the process and promote high-quality and cost-effective care, patient access, and the financial stability of the healthcare system. Proposed for alignment within OPM are affordability activities, including the cost growth benchmark and Health Information Exchange work consisting of Connie, the All-Payer Claims Database, and the rural health initiatives involving IT, such as expansion of telehealth capacity and development of AI-powered virtual monitoring

tools. Other smaller components of OHS' functions are transferred to DSS, ADS, OEC, and DRS.

Reestablishing the Public Utilities Regulatory Authority as a Separately Budgeted Entity

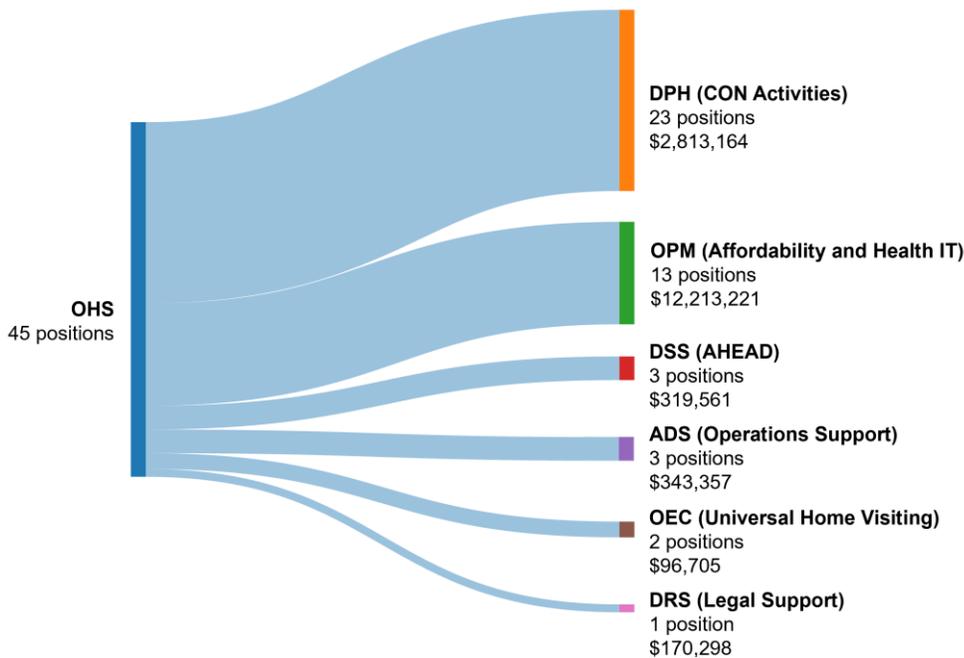

Public Act 11-80 established DEEP by merging the former Department of Environmental Protection with the Department of Public Utility Control, now known as the Public Utilities Regulatory Authority (PURA). This consolidation reflected the natural alignment between energy policy, environmental protection, and conservation efforts in Connecticut.

Pursuant to P.A. 25-173, PURA remains within DEEP for administrative purposes only. This structure addresses concerns about independence and ensures PURA can exercise its regulatory authority without requiring approval or oversight from the department in which it resides. Consistent with this approach, the Governor's budget identifies PURA as a separate agency for appropriations and budget reporting.

Providing Leadership for Critical Agency Operations

The Governor proposes creating and funding new deputy commissioner positions at the departments of Emergency Services and Public Protection, and Correction.

Since its establishment in 2011, DESPP has operated with two deputy commissioners as required by statute: the colonel who serves as the commanding officer of the Division of State Police, and the deputy commissioner who is responsible for the Division

of Emergency Management and Homeland Security. Although the agency consists of six unique divisions, these two deputy commissioners have authority only within their respective areas and do not manage agency-wide operations. The proposed new deputy commissioner position is intended to support the commissioner in managing the entirety of the agency, rather than focusing on a single division. This new role will provide oversight of key administrative and operational functions, including fiscal, facility and fleet operations; communications and government relations; information technology; and human resources. Establishing this position is critical to building a robust administrative infrastructure for a large, complex agency that operates 24 hours a day, 7 days a week, 365 days a year.

At the Department of Correction, the additional deputy commissioner will focus on health care strategy and transformative efforts to address the needs of the incarcerated population under the care and custody of the department. This leadership is critical as the state continues to pursue transformative investments, including compliance with the federal Consolidated Appropriation Act of 2023, the Medicaid justice-involved waiver, and efforts to examine health care utilization, with a goal of improving access to care and health outcomes.

Supporting the Department of Labor (DOL)

The Governor's FY 2027 midterm budget proposes \$2.5 million to maintain DOL staffing in the area of Unemployment Insurance (UI) due to declining federal funds. This investment will also support exploration of UI technology solutions designed to improve customer service as well as agency operations, similar to modernization efforts undertaken by the Department of Motor Vehicles. In addition, the Governor is proposing \$400,000 to

address operational funding shortfalls. This new funding complements biennial investments in FY 2026 and FY 2027 which included:

- \$422,318 in FY 2026 and \$407,318 in FY 2027 for seven additional positions to support the UI contact center; and
- \$875,000 in both FY 2026 and FY 2027 to support 13 additional wage and hour inspectors at the agency.

Increasing the Independence of the Commission on Human Rights and Opportunities

The Governor's budget includes the creation of an independent business office for the Commission on Human Rights and Opportunities (CHRO). Funding of \$282,680 will enable the agency to hire three new staff members to support agency business functions and equal opportunity hiring compliance. Currently, CHRO receives administrative support from the Department of Labor (DOL), but with growth in recent years at both agencies the Governor proposes enabling CHRO to have its own business office capability rather than relying on DOL for that support. This proposal would not only create greater independence for CHRO, but would also enable DOL to refocus staff in response to declining federal support for core programs.

Improving Coordination Among State Agencies to Assist Student Loan Borrowers

The Governor is proposing legislation to realign the Office of the Student Loan Ombudsperson from the Department of Banking to the Office of Higher Education (OHE). This realignment will allow the ombudsperson to collaborate with OHE staff to deliver timely information and resources to residents navigating student loan challenges, particularly amid ongoing changes to federal policies concerning student loans.

SPECIAL TRANSPORTATION FUND

Ensuring Continued Support for Public Transportation

The Governor's budget continues to support public transportation, fueling connectivity and continuing support for expanded workforce-informed transit options. Funding for public transportation networks tops \$650.8 million in FY 2027, a proposed increase of \$30.6 million over the enacted budget. The budget seeks to simultaneously invest in transportation while balancing significant escalating outyear fiscal pressures.

Connecticut's rail and bus networks are supported with additional funding of \$19.7 million and \$9.4 million respectively. Cost growth in both networks continues to outpace ticket sales and revenue growth. Within the rail network, costs continue to be subsidized with soon expiring

federal COVID-19 relief funds – \$51.1 million in FY 2026 and \$45.6 million in FY 2027 – creating an outyear fiscal cliff when those funds expire in the next biennium.

Supporting Students and Veterans Through Reduced Bus Fares

The Governor recommends funding of \$3.5 million to establish reduced bus transportation fares for K-12 students and veterans. Students would be able to access public bus services at a 50% discount, while veterans would be able to ride fare-free through passes issued by the state Department of Veterans Affairs. Enhancing access and mobility for these populations recognizes education opportunities, student needs, and the service of Connecticut veterans.

CAPITAL BUDGET PROPOSALS

The Governor’s proposed capital adjustments include \$308.1 million in new General Obligation (GO) bond authorizations for FY 2027. This is in addition to the \$3.27 billion authorized in P.A. 25-174 that becomes available on July 1, 2026. The Governor’s proposed new authorizations include:

- \$150 million in additional funds for the construction of a new Windham Technical High School;
- \$50 million in additional funds for the School Construction program;
- \$32 million in additional funds to relocate and replace the state’s current leased data center in Groton;
- \$34.6 million in additional funds for the expansion and renovation of the Office of the Chief Medical Examiner’s facility in Farmington;
- \$10 million for a new authorization that would provide loan opportunities in response to the federal changes to the Grad PLUS subsidized loan program that would eliminate this program for new students and would phase out support for existing students;
- \$20 million to replace the state’s current fleet garage in Wethersfield;
- \$1.5 million for a Mesonet weather monitoring system; and
- \$10 million for security upgrades including, but not limited to, new doors, information technology upgrades, security cameras, and other work to ensure the safety of staff and inmates in our state’s correctional facilities.

FY 2027 Bond Authorizations	
Public Act 25-174	
<u>Theme</u>	<u>Authorization</u>
1. Infrastructure	\$ 812,500,000
2. Economic Development	720,321,428
3. Education	679,500,000
4. Housing	518,500,000
5. Climate Resilience/Energy	400,400,000
6. Utilities	395,000,000
7. Information Technology	99,000,000
8. Public Health	<u>2,500,000</u>
9. Grand Total	\$ 3,627,721,428

These new proposals, along with the record volume of authorizations passed in the 2025 session, continue the Governor’s commitment to policies that prioritize affordability for Connecticut residents.

Investing in Housing

Bond authorizations for the Department of Housing have averaged over \$400 million per year over FYs 2023 through 2026. In that time, the state has invested \$413.2 million for development projects adding new housing units across the state, \$117.7 million for projects to renovate the existing housing stock, and \$225.8 million in forgivable loans to first-time homebuyers. These investments have resulted in the construction of nearly 4,000 new housing units in the state.

Public Act 25-174 authorized funds for FY 2027 for programs that continue the work of addressing the state’s shortage of available and affordable housing. On July 1, 2026, \$518.5 million in new funds become available for programs that, among other things, incentivize the construction of new housing, including \$50 million for middle housing development in towns with populations under 50,000. Existing capital authorizations also include an additional \$60 million for the popular Time-to-Own program, a forgivable loan helping first-time homebuyers with down-payments on a new home.

FY 2027 Housing Authorizations

Public Act 25-174

<u>Program</u>	<u>Authorization</u>
1. Flexible Housing	\$ 200,000,000
2. Housing Trust Fund	150,000,000
3. Time-To-Own	60,000,000
4. Middle Housing Development Grant Program for Small Munis	50,000,000
5. Crumbling Foundations	25,000,000
6. Affordable Housing for Construction Workers	12,500,000
7. Homes for CT Loan Program	10,000,000
8. Grants to landlords providing housing to formerly incarcerated individuals	6,000,000
9. Grants to Time-To-Own recipients for capital improvements	5,000,000
10. Total	\$ 518,500,000

FY 2027 Capital Aid to Municipalities

Public Act 25-174

<u>Program</u>	<u>Authorization</u>
1. School Construction	\$ 550,000,000
2. Municipal Grants Program	150,000,000
3. Local Transportation Capital Improvement Program	80,000,000
4. Town Aid Road	80,000,000
5. Local Capital Improvement Program	45,000,000
6. Small Town Economic Assistance Program	40,000,000
7. District Repair and Improvement Program (DRIP)	30,000,000
8. For the purposes of Encouraging Development (CGS 32-602)	25,000,000
9. Grants to East Hartford for economic development activities	20,000,000
10. Local Bridge	20,000,000
11. Community Connectivity and Alternative Mobility	15,000,000
12. Grants-in-aid to support in-district programming for students with disabilities	10,000,000
13. Transportation Rural Improvement Program	10,000,000
14. Distressed Municipalities	7,000,000
15. Grants to support local BOEs for a muni with a population of more than 140K	5,000,000
16. Potable Water/ PFAS Program	5,000,000
17. Flood Control, Erosion Repair & Municipal Dam Repair	2,500,000
18. Total	\$ 1,094,500,000

Reducing Utility Costs

Public Act 25-173 included \$155 million in FY 2026 for payments to electric utility companies to help reduce system benefits charges applied to ratepayers' monthly bills. An additional \$145 million becomes available in FY 2027 to continue the effort to address the impact of the rising cost of electricity across the state.

Public Act 25-174 added \$500 million to be used on various efforts to help mitigate the rising cost of

electricity, including improvements to the operation of the electric grid, and programs to improve energy efficiency, benefit ratepayers, and reduce the annual costs of the systems benefits charge. When FY 2027 commences, \$250 million of these funds will become available.

Also available on July 1, 2026, is \$100 million more for grants to improve energy efficiency by retrofitting multifamily residences. This investment in the state's aging housing stock will

help ease the demand for increasingly costly electricity and natural gas.

Investing in Childcare Infrastructure

Funding of \$11.5 million becomes available on July 1, 2026, for the Childcare Competitive Grant Program. This new program, developed in the 2025 legislative session, authorizes \$80 million from FY 2026 through FY 2032 for grants to childcare providers for capital projects for renovations and expansions.

Maintaining Critical Hospital Services

This past November the Governor and the legislature entered special session to allow UConn Health Center to acquire Waterbury Hospital, as

well as lay the foundation for further acquisitions of local hospitals. Funds for the acquisition were provided through an increase to the UConn 2000 bond authorization, totaling \$390 million across FYs 2026 through 2030. This expansion of the state’s only publicly-funded hospital into a wider system aims to keep local hospitals open so they can continue to provide access to care for their communities. It also provides the price competition necessary to keep health care costs from skyrocketing due to the monopolistic dynamics that result from the state’s remaining providers consolidating under one or two systems.

FY 2027 Utilities, Childcare, & Healthcare	
Public Act 25-174	
<u>Program</u>	<u>Authorization</u>
1. Electric rate mitigation efforts	\$ 250,000,000
2. System Benefits Charge subsidy to cover arrearages	145,000,000
3. UCONN 2000 - Waterbury Hospital Acquisition	76,000,000
4. EV Charging program implementation pursuant to CGS 16-244dd	20,000,000
5. Childcare Competitive Grant Program	<u>11,500,000</u>
6. Total	\$ 502,500,000

Assisting Municipalities

The enacted capital budget for the biennium included significant increases to two municipal aid grants that are funded by bond authorizations. First, the budget increases Town Aid Road grants by \$20 million, providing a proportional 33% increase to every municipality’s grant. The budget also increased funding for Municipal Grants in Aid by \$59 million, from \$91 million to \$150 million, distributing this increase as targeted funding to eight municipalities for FY 2026 and FY 2027.

Nearly \$1.1 billion of bond-funded grants-in-aid to municipalities become available in FY 2027. In addition to the \$150 million for grants to

municipalities and \$80 million for Town Aid Road noted above, \$30 million is newly authorized in FY 2027 for the new District Repair and Improvement Program (DRIP), a state grant program that provides targeted capital funding to local and regional boards of education to repair, renovate, or improve existing school facilities and address health, safety, and infrastructure needs. These initiatives, along with various other programs, will put funds into local towns to help keep property taxes down. The Governor is also proposing to increase the currently scheduled \$550 million authorization for school construction to \$600 million to bolster the state’s commitment to strong and equitable schools across the state.

CONCLUSION

Governor Lamont is proposing an all-funds budget of \$28.7 billion for FY 2027. This is \$85.1 million – or 0.3% – above the adopted budget for

FY 2027 and 4.4% above the estimated level of FY 2026 expenditures. The recommended budget is \$1.1 million below the spending cap for FY 2027.

SUMMARY OF APPROPRIATION CHANGES				
	(in millions)			
	Enacted ¹	Net	Recommended	% Growth

¹ Enacted FY 2027 appropriations per Public Act 25-168

General Fund

The recommended revised General Fund budget for FY 2027 of \$25,469.6 million provides for \$3.8 million of operating surplus in excess of the revenue cap, is \$326.2 million below available revenue, and is \$107.7 million (0.4%) above the adopted budget for FY 2027. The recommended budget for FY 2027 is 4.5% above the level of estimated FY 2026 expenditures.

The January 2026 consensus revenue forecast by OPM and the legislature’s Office of Fiscal Analysis, which forms the basis for the revenues in this budget, is projected at \$26,038.4 million in FY 2027. Revenue revisions totaling a net \$242.6 million are proposed, and the recommended revenues for this budget total \$25,795.8 million.

Proposed Revisions to Enacted FY 2027 General Fund Budget					
	(in millions)				
	Enacted	Consensus		Proposed	Recommended
	Budget	Revenue	Technical	Policy	Revised
	FY 2027	Revisions	Updates	Changes	Budget
					FY 2027
Gross Revenue	\$ 25,913.7	\$ 124.7	\$ -	\$ (242.6)	\$ 25,795.8
Revenue Cap	(323.9)	(1.6)	-	3.0	(322.4)
Net Revenue	<u>\$ 25,589.8</u>	<u>\$ 123.1</u>	<u>\$ -</u>	<u>\$ (239.6)</u>	<u>\$ 25,473.4</u>
Expenditures	\$ 25,361.9	\$ -	\$ 73.2	\$ 34.5	\$ 25,469.6
Balance	\$ 227.9	\$ 123.1	\$ (73.2)	\$ (274.1)	\$ 3.8

As shown in the table above, proposed policy changes to available General Fund revenue net to \$242.6 million and proposed policy changes to expenditures net to a positive \$34.5 million, with \$73.2 million of spending changes resulting from technical revisions to reflect updated cost and caseload updates.

Special Transportation Fund

The recommended revised Special Transportation Fund budget of \$2,393.0 million for FY 2027 includes a \$7.2 million operating surplus in excess of the revenue cap, is \$37.6 million below available revenue, and is \$12.2 million (0.5%) below the adopted budget for FY 2027. The recommended budget for FY 2027 is 5.0% above the level of estimated FY 2026 expenditures. Revenues included as part of the January 2026 consensus revenue forecast are projected at \$2,430.6 million in FY 2027. No new revenue initiatives affecting revenue have been proposed in the Special Transportation Fund.

Expenditure and Other Caps

The Governor's proposed budget is below the spending cap by \$1.1 million in FY 2027, and is compliant with the revenue cap, volatility cap, and statutory debt limit.

Budget Reserve Fund

The current balance in the Budget Reserve Fund, after the closeout of FY 2025 and excluding the remainder of the \$500 million increase in the BRF pursuant to S.A. 25-1 of the November Special Session, stands at \$4,326.5 million. The forecast for FY 2026 volatility cap revenue, after the Governor's proposed revision to the FY 2026 volatility cap, will total \$1,310.4 million, which would result in a year-end balance of \$5,636.9 million - 122.1% of proposed FY 2027 appropriations resulting in transfers during the closeout of the current fiscal year that would reduce the state's long-term liabilities by \$1.05 billion.

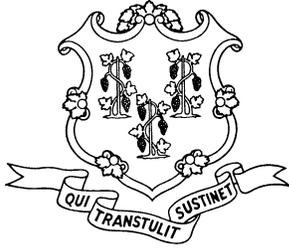

Recap and Conclusion

Eight months ago, the General Assembly enacted a two-year budget that remains balanced and in surplus, an achievement that sets Connecticut

apart from many peer states. This budget reflects the largest investment in our state's history in childcare, K-12 education, higher education, and workforce training. These priorities are not only essential for supporting families and students today but also for building a stronger, more competitive economy for the future. Together, they serve as the cornerstone of our \$28.7 billion budget and demonstrate a clear commitment to opportunity and affordability.

To build on this foundation, Governor Lamont is proposing a series of strategic investments focused on education, workforce development, and cost-of-living relief. These proposals aim to strengthen the programs that matter most to residents, ensure continued fiscal responsibility, and position Connecticut for sustained growth in a rapidly changing economy.

Over the past six years, we have consistently delivered budgets that are balanced, responsible, and forward-looking. These budgets have improved lives, expanded opportunity, and enhanced affordability across the state. The Governor's proposed revisions to the FY 2027 budget not only preserve this momentum but also reinforce our long-term commitment to stability and progress. By maintaining fiscal discipline while making targeted, meaningful improvements, we are ensuring that Connecticut remains a place where families thrive, and businesses grow. Together, we are building a stronger Connecticut for generations to come.

SECTION A

FINANCIAL SUMMARY

GOVERNOR'S BUDGET PLAN

(in millions)

	Estimated FY 2026	Appropriated FY 2027	Revised Recommended FY 2027
<u>General Fund</u>			
Total Recommended Budget			
Revenues	\$ 24,508.1	\$ 25,913.7	\$ 25,795.8

GENERAL FUND:

Projected FY 2027 Revenues

Estimated FY 2027 Revenue - Current Law - January 15, 2026, Consensus	\$	26,038.4
Proposed Revenue Changes		
Phase-in Coupling to Federal R&E Provisions	\$	66.8
Update Required Subsidy to MRSF		21.4
Establish ICHRA Matching Tax Credit		(5.0)
Extend R&D Tax Credit to Non-Corporate Entities		(5.0)
Eliminate Certain Occupational License Fees		(15.9)
Reduce Transfer from FY 2026 to FY 2027		(30.0)
Reduce Hospital Provider Taxes		(275.0)
All Other Changes (Net)		0.1
Total Changes	\$	(242.6)
Total Resources - FY 2027	\$	25,795.8

Projected 2027 Expenditures

Adopted Appropriations FY 2027	\$	25,361.9
Increase/Decrease		
Reflect Updated Active and Retired State Employee Healthcare Requirements	\$	37.3
Adjust Pension Funding to Reflect New Valuations		31.9
Reflect Increased UConn 2000 Debt Service Requirements		28.3
Reflect Revised Operating Requirements in JUD		15.8
Reflect Revised Operating Requirements in DOC		14.2
Provide Free Breakfast for Connecticut Students		12.0
Reflect Revised Requirements for DOH Housing/Homeless Services Account		10.0
Reflect Revised Operating Requirements in DESPP		9.9
Reflect Revised Operating Requirements in CTEC		5.0
Continue Funding for Successful School-Based Behavioral Health Initiatives		5.0
Provide Funding for Statewide Literacy Strategy and Curriculum		4.5
Provide Vouchers for Free Bus Fare for Veterans		1.0
Reduce Funding for Various Legislatively Directed Funds		(15.7)
Reflect Revised Requirements for Higher Education Alternative Retirement Plan		(50.9)
All Other - Net		(0.6)
Total Increases/(Decreases)	\$	107.7
Total Projected Expenditures FY 2027	\$	25,469.6
Projected Operating Balance	\$	326.2

SPECIAL TRANSPORTATION FUND:

Estimated Fund Balance - 6/30/2026	\$	458.9
Transfer Excess STF Revenue to Retire Transportation Debt	\$	(28.2)
Revised Fund Balance - FY 2026 Closeout	\$	430.7

Projected FY 2027 Revenues

Estimated FY 2027 Revenue - Current Law - January 15, 2026 Consensus	\$	2,430.6
No Proposed Revenue Changes		

Projected 2027 Expenditures

Adopted Appropriations FY 2027	\$	2,405.2
Increase/Decrease		
Reflect Updated Bus and Rail Operational Costs	\$	26.5
Reflect Updated Employee Healthcare Costs		14.2
Increased Cost of Rail Insurance Coverage		3.5
Provide Funding for Bus Fare Reductions for Students and Veterans		2.5
Reflect Revised Debt Service Requirements		(63.2)
All Other - Net		4.3
Total Increases/(Decreases)	\$	(12.2)
Total Projected Expenditures FY 2027	\$	2,393.0
Projected Operating Balance	\$	37.6
Projected Special Transportation Fund Balance - June 30, 2027	\$	468.3

Note: Estimates assume actual costs of Social Security, average cost of Health Insurance, the normal cost of State Employees Retirement, and blended Alternate Retirement Program pension contributions as an estimated percentage of recommended appropriations for Personal Services. For the higher education constituent units, figures are based on the fringe benefits costs mentioned above for all funds.

SECTION B

BUDGET SUMMARY

LEGISLATIVE MANAGEMENT

AGENCY PURPOSE

- To provide administrative and operational support for the Connecticut General Assembly.
- To implement the policies of the Joint Committee on Legislative Management.
- To provide administrative and financial services, administer compensation and human resources services, and oversee the management and maintenance of all buildings and grounds under the supervision and control of the General Assembly.
- To ensure the daily functioning of the Legislature for the benefit of the general public, legislators, and legislative staff.

RECOMMENDED ADJUSTMENTS

No adjustments to the adopted budget are proposed.

AUDITORS OF PUBLIC ACCOUNTS

AGENCY PURPOSE

- To audit the books and accounts of each state agency, the State Treasurer, the State Comptroller and all public and quasi-public bodies created by the legislature and not subject to the Municipal Auditing Act. Each audit performed includes an examination and verification of accounting records and documents, a determination of the agency's compliance with applicable state and federal statutory and budgetary requirements, verification of the collection and proper handling of state revenue, and examination of expenditures charged to state appropriations and federal grants. The Auditors of Public Accounts is a legislative agency of the State of Connecticut.
- To review all whistleblower complaints filed under Section 4-61dd of the General Statutes.
- To conduct an annual Statewide Single Audit to satisfy federal mandates for audits of federal grants.
- To assure the independence and impartiality required for effective auditing, the two Auditors may not be of the same political party, and are appointed by the General Assembly. The professional staff includes many certified public accountants and certified fraud examiners.

RECOMMENDED ADJUSTMENTS

No adjustments to the adopted budget are proposed.

COMMISSION ON WOMEN, CHILDREN, SENIORS, EQUITY AND OPPORTUNITY

AGENCY PURPOSE

- To study and improve the economic security, health and safety of Connecticut’s women, children and their families; the aging population; and the African-American, Asian Pacific-American, Latino and Puerto Rican populations in Connecticut.
- To research issues and remedial strategies determined by the commission to have a major impact on women, children and their families, and the state’s aging population, including any disproportionate demographic impact.
- To promote awareness of issues impacting women, children and seniors in the state by serving as a liaison between government and its diverse constituents and stakeholders, including the business, nonprofit and educational communities, local governments, and the media.
- To promote health, safety, educational success and economic self-sufficiency, and ensure freedom from discrimination for members of the African-American, Asian and Pacific Islander, and Latino and Puerto Rican populations.
- To advise the General Assembly and Governor regarding the coordination and administration of state programs that affect the populations served and make recommendations for new or enhanced policies, programs and services that will foster progress in achieving desired outcomes.
- To conduct educational and outreach activities intended to raise awareness of critical issues for the populations served and gather and maintain information that can be used to better understand their status, condition and contribution.
- To monitor and assist in the implementation of laws. To provide public education and information about laws, programs, services, organizations and resources.

RECOMMENDED ADJUSTMENTS

No adjustments to the adopted budget are proposed.

ELECTIONS ENFORCEMENT COMMISSION

AGENCY PURPOSE

- To monitor compliance with elections and campaign finance laws.
- To maintain and improve the electronic campaign reporting system and act as the state repository for all campaign finance records for party committees, political committees and candidate committees organized for state elections.
- To conduct investigations of complaints concerning possible violations of the state laws governing elections, primaries, and referenda.
- To audit financial disclosure statements filed by state, district and municipal candidates for public office; political parties; and political action committees.
- To render formal and informal advisory opinions and rulings.
- To conduct educational seminars and publish explanatory guides to enhance compliance with the campaign finance laws.
- To administer and enforce the Citizens' Election Program, a public financing program through which grants are awarded to qualified candidates for statewide office and the General Assembly.

For compliance with Sec. 9-7c of the Connecticut General Statutes, the proposed appropriations contained in section C of this document reflect the appropriation requirements transmitted to the Secretary of the Office of Policy and Management by the executive director of the State Elections Enforcement Commission.

RECOMMENDED ADJUSTMENTS

No adjustments to the adopted budget are proposed.

OFFICE OF STATE ETHICS

AGENCY PURPOSE

- To administer Connecticut General Statutes, Chapter 10, Part I for Public Officials and Part II for Lobbyists, with limited jurisdiction over Part IV, Ethical Considerations Concerning Bidding and State Contracting.
- To ensure honesty, integrity and accountability in state government through education, interpretation and enforcement of the State of Connecticut Codes of Ethics.
- To provide education to state employees, public officials, lobbyists, and legislators on the Codes of Ethics.
- To adjudicate cases, through the Citizen’s Ethics Advisory Board, brought under the Codes of Ethics, and issue advisory opinions – interpretations of the codes as they apply to specific situations. All investigation and prosecution matters are the responsibility of the Ethics Enforcement Officer.
- To receive, process, and maintain records of all lobbyist filings along with public official and state employee Statements of Financial Interests.

For compliance with Sec. 1-81a of the Connecticut General Statutes, the proposed appropriations contained in section C of this document reflect the appropriation requirements transmitted to the Secretary of the Office of Policy and Management by the executive director of the Office of State Ethics.

RECOMMENDED ADJUSTMENTS

Baseline Adjustments

- **Provide Funding for Current Expenses** 79,553
 Provide funding for employee wage costs and board members fees to meet current requirements.

FREEDOM OF INFORMATION COMMISSION

AGENCY PURPOSE

- To administer and enforce Connecticut’s Freedom of Information Act and thereby ensure that the people of Connecticut have full access to the records and meetings of all public agencies to the extent provided by law.
- To settle complaints quickly and informally through an ombudsman or mediation process.
- To hear and decide complaints through a speedy, inexpensive process designed for lay people.
- To represent the commission by staff counsel, in all court appeals from its decisions and in all other litigation affecting the commission.
- To render declaratory rulings that apply the Freedom of Information Act to situations of general application.
- To conduct programs, publish literature, answer written and oral inquiries and perform other educational functions so that the requirements of the law will be known and understood by everyone upon whom the act confers rights and duties.

For compliance with Sec. 1-205a of the Connecticut General Statutes, the proposed appropriations contained in section C of this document reflect the appropriation requirements transmitted to the Secretary of the Office of Policy and Management by the executive director of the Freedom of Information Commission.

RECOMMENDED ADJUSTMENTS

No adjustments to the adopted budget are proposed.

OFFICE OF GOVERNMENTAL ACCOUNTABILITY

AGENCY PURPOSE

- To foster accountability, honesty, and integrity within State government.
- To provide, through the Board of Firearms Permit Examiners, a means to appeal, through administrative hearings, for those that have been denied issuance or revocation of a pistol permit, or refusal of any issuing authority to furnish an application.
- To investigate and resolve, through the Judicial Review Council, complaints alleging misconduct of state judges, family support magistrates, and administrative law judges for workers' compensation.
- To evaluate, investigate, and recommend, through the Judicial Selection Commission, qualified candidates for consideration for nomination as judges for the Superior, Appellate, and Supreme courts.
- To advocate, through the Office of the Child Advocate, for children at risk by addressing public policy issues, reviewing individual cases and investigating complaints, educating and informing the public, and ensuring the protection of children's rights.
- To promote and protect, through the State Victim Advocate, the constitutional and statutory rights of crime victims in Connecticut.
- To ensure, through the State Contracting Standards Board, integrity, consistency, and efficiencies in state contracting and procurement processes.
- To promote, through the Office of the Correction Ombuds, the delivery of appropriate services to inmates in the custody of the Department of Correction, ensuring procedures and operations do not violate inmates' rights.

RECOMMENDED ADJUSTMENTS

Baseline Adjustments

- **Adjust Funding to Reflect Current Requirements** -25,098
Reflects the elimination of the Other Expenses account to reflect current accounting practices.

Reductions

- **Eliminate Funding and Positions for the Unfilled Office of the Educational Ombudsperson** -180,000

OFFICE OF POLICY AND MANAGEMENT

AGENCY PURPOSE

- To support the Governor in developing, analyzing and implementing policies and the budget.
- To support the Governor’s policies and initiatives through the management, coordination and administration of grants.
- To represent the state in all matters of collective bargaining concerning executive branch employees.
- To strengthen state agency management policies and practices.
- To coordinate statewide efforts to increase operational effectiveness and efficiency of state agencies.

The Governor is proposing to reorganize activities currently provided by the Office of Health Strategy (OHS) to several state agencies in order to better align programmatic activities with agencies that share similar functions. This reorganization will clarify where responsibility lies for a comprehensive and cohesive vision for healthcare for the State and coordination of healthcare policy and alignment of federal and state efforts including for healthcare-related IT. The moves include a transfer of Certificate of Need (CON) and data collection and analysis activities that support CON decision making to the Department of Public Health. Affordability activities, including the cost growth benchmark and Health Information Exchange work including Connie, the All-Payer Claims Database, and the rural health initiatives involving IT like expansion of telehealth capacity and development of AI-powered virtual monitoring tools, are proposed for alignment within OPM.

RECOMMENDED ADJUSTMENTS

Baseline Adjustments

- **Reflect Anticipated Cost of Statutory Formula Grants in the Municipal Revenue Sharing Fund** -7,610,529
Funding is adjusted for Tiered PILOT and Motor Vehicle Tax Grants to reflect updated calculations of the grants' respective formulas for FY 2027.
- **Align Funding for Veterans Tax Relief and Elderly Freeze Programs with Anticipated Costs** -1,002,000
- **Provide Funds to Support IT Contracts for STARS Due to Reduced Bond Fund Authorizations** 600,000
Funding is provided in Other Expenses to support contract costs associated with the State Analytical Reporting System (STARS). Such costs were previously supported through state bond funds.

Reductions

- **Reduce Funding for Legislatively Directed Funds by 20 Percent** -179,800
Funding for various legislatively directed funds is reduced in aggregate by 20 percent to support the constitutional requirements for budget balance and spending cap compliance.

Expansions

- **Provide Funding for Design and Development of an Affordable Health Insurance Coverage on the Access Health CT Exchange** 1,000,000
Funding will support a consultant contract to conduct an analysis on the design and development of a new publicly-designed, privately run health care option to reduce overall health care premiums and expand coverage options.
- **Provide Funds to Conduct Staffing Studies at the Departments of Correction and Emergency Services and Public Protection** 750,000
- **Provide Funds for Municipal Commemorations of America250** 250,000
Funding is provided to reimburse municipalities for activities related to America250, the United States' Semiquincentennial celebration.
- **Provide Funding and a Position to Coordinate Work Under a New Non-Profit Health Care Cabinet** 145,565
Funding will support the hiring of a position within OPM's Health and Human Services Policy and Planning Division to lead and coordinate policy work under a newly established Non-Profit Health Care Cabinet.

Reallocations

- **Reallocate Functions of the Office of Health Strategy to Various State Agencies** 12,213,221
The following programs from the Office of Health Strategy are transferred to the Office of Policy and Management; Health Information Exchange (HIE), All-Payer Claims Database, and rural health initiatives. Seven positions and \$10,517,616 are included in the transfer to OPM's Insurance Fund budget and 6 positions and \$1,695,605 are transferred to the General Fund.
- **Aggregate Funding for Legislatively Directed Funds in New Stand-Alone Appropriation** 0
Funding for various legislatively directed funds, including grants for specific municipal projects, is realigned from Other Expenses to a new, stand-alone appropriation titled "Various Municipal Grants." This realignment will increase transparency for these funds and will clarify that the funding is separate from other agency operating costs that are budgeted in the Other Expenses account.
- **Provide Funding for Montville and Ledyard from the Mashantucket Pequot and Mohegan Fund** 0
Funding provided to the towns of Ledyard and Montville pursuant to section 472 of PA 25-168, as amended by section 203 of PA 25-174, is reallocated from the Other Expenses account in the General Fund to grants appropriated from the Mashantucket Pequot and Mohegan Fund.

DEPARTMENT OF VETERANS AFFAIRS

AGENCY PURPOSE

- To provide professional and compassionate care to Connecticut veterans by fulfilling the agency's mission of "Serving Those Who Served."
- To offer comprehensive advocacy and assistance to veterans, their spouses and/or eligible dependents in obtaining rights, benefits and privileges to which they are entitled under federal, state, and local laws.
- To provide quality healthcare to veterans across the continuum of care ranging from short-term rehabilitation to long-term skilled nursing and end of life care.
- To provide a residential level of care for veterans which facilitates comprehensive rehabilitation in support of a return to independent community-based living to the greatest extent possible.
- To provide memorial and cemetery services for veterans, their spouses and/or dependents.
- To administer a variety of additional programs and services for veterans in partnership with other state agencies and veteran service organizations.

RECOMMENDED ADJUSTMENTS

Baseline Adjustments

- **Provide Funding in Other Expenses and Personal Services for Housing and Support Services for Veterans** 480,501
- **Annualize Lapse in the Department of Veterans' Affairs Headstones Account** -100,000
This option will annualize funds which have lapsed in previous years.

Expansions

- **Provide Funding for Free Bus Passes for Veterans** 1,000,000

DEPARTMENT OF ADMINISTRATIVE SERVICES

AGENCY PURPOSE

- To perform the business functions of state government, including information technology, human resources, procurement, facilities and real estate management, construction, workers' compensation, fiscal services and fleet management.
- To serve the citizens, businesses, and public entities of Connecticut by providing the highest quality services at the lowest possible cost.
- To increase the efficiency and effectiveness of state government.
- To attract and retain a workforce of talented and dedicated public servants.
- To administer the state building codes.

RECOMMENDED ADJUSTMENTS

Baseline Adjustments

• Provide Funds for Increases in Rail Insurance Coverage	3,500,000
Required insurance coverage has increased due to federal tort limits (impacting both the Hartford Line and Shore Line East) and newly required insurance coverage due to expiration of a legacy Shore Line East rail operations contract.	
• Provide Funding for Increased Utilization of IT Contracts and Transition from Bond Funds	1,540,858
Various information technology upgrades and enhancements have been implemented using bond funds during the initial capital development phases. As projects become operational, ongoing licensing and software costs must be supported from the operating budget. In addition, funding is provided for IT license increases across centralized state agencies.	
• Provide Funding for Increases in Property Management Contracts	140,410
• Provide Funding Due to Increase in Fleet Vehicle Administration Rate	50,268

Expansions

• Provide Funding for Operating Expenses and Facilities Costs	941,462
Funding is provided in Other Expenses for 1.) operating expenses of the Morgan Street Garage in the amount of \$450,000, 2.) costs for State Police exams at \$253,219, and 3.) for three additional security guards at various state office locations at a cost of \$238,243.	

Reallocations

• Transfer Funding to Reflect Centralized Information Technology in DAS - Workers' Compensation Fund	210,462
This option reallocates funding for a position that is currently split between the Workers' Compensation Commission and the Department of Administrative Services to fully fund within DAS.	
• Reallocate Two Criminal Justice Information System IT Positions and Funding from DESPP	195,293
• Transfer Funding to Reflect Centralized Human Resources and Information Technology Functions in DAS - Insurance Fund	179,241
This option reallocates funding for two positions that are currently split between the Department of Insurance and the Department of Administrative Services to fully fund the positions within DAS.	
• Transfer Funding to Reflect Centralized Information Technology in DAS - Banking Fund	87,696
This option reallocates funding for a position that is currently split between the Department of Banking and the Department of Administrative Services to fully fund within DAS.	
• Reallocate Funding from Other Expenses to the State Marshal Commission to Meet Expenditure Requirements	0

ATTORNEY GENERAL

AGENCY PURPOSE

- To serve as legal counsel to all state agencies and to protect the public interest for the people of the State of Connecticut.
- To represent and advocate for the interests of the state and its citizens.
- To ensure that state government acts within the letter and spirit of the law.
- To protect public resources for present and future generations.
- To safeguard the rights of the state's most vulnerable citizens.

RECOMMENDED ADJUSTMENTS

No adjustments to the adopted budget are proposed.

DIVISION OF CRIMINAL JUSTICE

AGENCY PURPOSE

- To investigate and prosecute all criminal matters fairly, consistently, and with the highest regard for public safety and the rights of all persons; to exercise the state’s prosecutorial charging authority in the pursuit of justice.
- To uphold the law and protect the public, respect the rights of victims, witnesses and defendants, and maintain the highest ethical standards.
- To provide training and leadership to Connecticut’s prosecutors and the law enforcement community.
- To promote and strengthen innovative strategies in the administration of state criminal justice systems.
- To strengthen partnerships for safer communities and enhance the state’s capacity to prevent, solve, and control crime.
- To take advantage of state and federal laws to seize money, property, or other assets used in the furtherance of illegal drug trafficking and other crimes.
- To collect bonds forfeited in criminal cases when a defendant out on bond does not appear in court.
- To protect witnesses and victims from harm.
- To uphold the rights and improve services to Connecticut’s crime victims.
- To prosecute violations of court orders.
- To ensure access to all appropriate diversionary programs.

RECOMMENDED ADJUSTMENTS

Reallocations

- Reallocate Funding for Witness Protection Expenditures

DEPARTMENT OF EMERGENCY SERVICES AND PUBLIC PROTECTION

AGENCY PURPOSE

- To protect and improve the quality of life for all by providing a broad range of public safety, state-wide emergency management, and homeland security and scientific services, including training and regulatory guidance through education, prevention, intervention, enforcement, strategic planning, and innovative use of technology.
- To continuously improve the agency's policies and programs, applying data-driven decision-making and evidence-based practices.
- To provide statewide traffic enforcement services to improve public safety through the increase of voluntary compliance of traffic laws, and the reduction of traffic accidents and the property damage, bodily injury and fatalities that they cause.
- To provide primary law enforcement services for all municipalities that do not have their own chartered police departments.
- To provide statewide specialized police services and resources to all municipalities including the bomb squad, aviation unit, marine unit, dive team, tactical unit, canine search and rescue, arson cause and origin investigation, and major crime investigative units.
- To ensure the safety and well-being of persons and their property in Connecticut in the event of an emergency or disaster, natural or manmade, through a collaborative program of prevention, planning, preparedness, response, recovery, and resiliency, including training and exercises, grants, and disaster relief.
- To enhance homeland security, including cyber security, through the collection, analysis and dissemination of criminal and terrorism-related intelligence.
- To support the criminal justice system through the forensic analysis of evidentiary materials, utilizing the field's most advanced scientific methods.
- To certify all police officers, law enforcement instructors and police training programs throughout Connecticut, to ensure clear and consistent instruction is provided, and high levels of competency, proficiency and moral character are achieved.
- To reduce death, injury, and property damage due to fire, emergencies and other disasters by increasing the proficiency of fire service personnel through training, education, and recognition of professional competency through certification testing.
- To assist in fire service mutual aid coordination through the Statewide Fire Rescue Disaster Response Plan.
- To develop a master plan for emergency telecommunications within Connecticut, coordinate with area states and the Federal Communications Commission, and act as a liaison with the public safety community to ensure that its needs are addressed.
- To coordinate public safety broadband and interoperable communication programs with state, local, and federal response organizations.
- To advocate for and support crime victims and survivors.

RECOMMENDED ADJUSTMENTS

Baseline Adjustments

- **Provide Funding for State Police Equipment Modernization** 9,864,301
Funding is provided to support a long-term contract to outfit the Connecticut state police with the latest police technology and equipment, including body-worn cameras, vehicle cameras, interview room cameras, next-generation tasers, a digital evidence management system, and various law enforcement software solutions.
- **Provide Funding for Fleet Lease Obligations** 535,267
- **Increase Funding for the CT State Firefighters Association State Aid Grant Account to Meet Anticipated Requirements** 130,000

Reductions

- **Reduce Funding for Legislatively Directed Funds by 20 Percent** -9,400
Funding for various legislatively directed funds is reduced in aggregate by 20 percent to support the constitutional requirements for budget balance and spending cap compliance.

Expansions

- **Provide Funding for a Deputy Commissioner** 200,000
Funding is provided for a new deputy commissioner to oversee key administrative and operational functions, including Fiscal (with Facilities and Fleet), Communications, Government Relations, Operations, Special Projects and Initiatives, Information Technology, and Human Resources. Establishing this position is critical to building a robust administrative infrastructure for a large, complex agency that operates 24 hours a day, 7 days a week, 365 days a year.

Reallocations

- **Reallocate Funding for Police Officer Standards and Training Council Curriculum Staff** 0
- **Aggregate Funding for Legislatively Directed Funds in New Stand-Alone Appropriation** 0
Funding for various legislatively directed funds is realigned from Other Expenses to a new, stand-alone appropriation titled "Various Grants." This realignment will increase transparency for these funds and will clarify that the funding is separate from other agency operating costs that are budgeted in the Other Expenses account.
- **Transfer Funding for Two Criminal Justice Information System Technical Support Positions to DAS** -195,293

DEPARTMENT OF MOTOR VEHICLES

AGENCY PURPOSE

- To issue identity-related driver license and identification credentials and “Drive Only” operator licenses according to stringent guidelines.
- To ensure public safety through enforcement of the statutes regarding motor vehicles and their operation.
- To promote and advance public safety, security, and service through the regulation of drivers, their motor vehicles, and certain vehicle related businesses.
- To collect revenue for the state, most of which is appropriated within the Special Transportation Fund for the construction and maintenance of the state’s transportation system.
- To maintain records on operators, vehicles, and revenues and make them available to authorized persons and agencies.
- To deliver innovative services to customers.
- To impose administrative sanctions on credential-holders who violate laws and regulations.

RECOMMENDED ADJUSTMENTS

Baseline Adjustments

• Provide Funding for Increased Postage Costs	110,000
• Provide Funding for Increased Vehicle Assessments Required by Public Act 22-118 and Public Act 25-2	478,810
Provides funding required to comply with Public Act 22-118 and Public Act 25-2 which altered the municipal process of assessing vehicle valuation, requiring more frequent DMV utilization, and thus higher expenses, for access to the National Automobile Dealers Association (NADA) databases.

MILITARY DEPARTMENT

AGENCY PURPOSE

- To maintain properly trained and equipped National Guard units for prompt federalization in the event of war, domestic emergencies or other emergencies.
- To provide immediate response capabilities to respond to state emergencies in order to preserve life and protect property.
- To provide a readily deployable cyber security team of Soldiers and Airmen certified in a variety of information technology/ computer skills to respond to emergent cyber incidents upon order of the Governor.
- To maintain a rapid response team of trained militia personnel to transport, set-up, maintain, service and recover the 100-bed mobile field hospital upon order of the Governor.
- To provide sustained support to state and local agencies with a readily available force of trained, equipped and reliable Soldiers and Airmen for long-term support requirements upon the order of the Governor to mitigate risks before a potential emergency or to restore governmental services following an emergency event.
- To coordinate, support and augment federal, state and local authorities in emergency response.
- To provide emergency response planning and to conduct community service programs.

RECOMMENDED ADJUSTMENTS

No adjustments to the adopted budget are proposed.

DEPARTMENT OF BANKING

AGENCY PURPOSE

- To ensure the safety and soundness of state-chartered bank and trust companies, credit unions, savings banks and savings and loan associations.
- To license and regulate mortgage brokers, lenders, correspondent lenders, servicers, originators and loan processors/underwriters; consumer collection agencies; debt adjusters; debt negotiators; sales finance companies; small loan companies; check cashing services; money transmitters; and student loan servicers.
- To regulate the securities and business opportunities for sale in Connecticut, broker-dealers and investment advisers, along with their agents and branch offices.
- To protect Connecticut consumers and investors through administration of the Truth-in-Lending Act, consumer credit laws, banking and other related laws.
- To educate the public through outreach on an array of topics including investor education, credit repair, fraud, banking scams and identity theft.

RECOMMENDED ADJUSTMENTS

Baseline Adjustments

- **Annualize Personal Services and Fringe Benefits Expenditures** -3,200,000

Reallocations

- **Transfer the Office of the Student Loan Ombudsperson from the Department of Banking to the Office of Higher Education** -532,300
Budgeted funding and positions for the Office of the Student Loan Ombudsperson are transferred from the Department of Banking to the Office of Higher Education. This realignment will allow the ombudsperson to collaborate with Office of Higher Education staff to deliver timely information and resources to residents navigating student loan challenges, particularly amid ongoing changes to federal policies concerning student loans.
- **Transfer Funding to Reflect Centralizing Information Technology in DAS** -87,696

INSURANCE DEPARTMENT

AGENCY PURPOSE

- To protect Connecticut’s insurance consumers by enforcing Connecticut’s insurance laws and ensuring that policy purchasers and claimants are treated appropriately and are protected from unfair practices.
- To regulate the insurance industry effectively and efficiently and to promote a competitive and financially sound insurance market for consumers.
- To educate the public and policymakers on insurance issues in a professional, timely and effective manner.

RECOMMENDED ADJUSTMENTS

Baseline Adjustments

- **Adjust Fringe Benefits to Reflect Actual Rates** 535,069
- **Fund Indirect Overhead at Comptroller's Projected Amount** -183,112

Reallocations

- **Transfer Funding to Reflect Centralized Human Resources and Information Technology Functions in DAS** -179,241
Reallocates funding for two positions that are currently split between the Department of Insurance and the Department of Administrative Services to fully fund the positions within DAS.

OFFICE OF CONSUMER COUNSEL

AGENCY PURPOSE

- To advocate for all utility ratepayers to ensure just and reasonable rates.
- To promote reliable utility service for customers of Connecticut’s electric, gas, telephone, and water utilities.
- To ensure reasonable protections for cable television customers.
- To participate actively in proceedings before the Connecticut Public Utilities Regulatory Authority, the Federal Energy Regulatory Commission, the Federal Communications Commission, and state and federal courts.

RECOMMENDED ADJUSTMENTS

Baseline Adjustments

- **Restore Funding for the Office of State Broadband** 300,000
Restores funding for existing staffing in the Office of State Broadband. Section 182 of PA 25-174, made \$300,000 available to the Office of Policy and Management, to support existing positions in FY 2026, but not FY 2027.
- **Fund Indirect Overhead at Comptroller's Projected Amount** -33,439

PUBLIC UTILITIES REGULATORY AUTHORITY

AGENCY PURPOSE

- To ensure that investor-owned utilities, including the state’s electric, natural gas, water, and telecommunications companies, provide safe, clean, reliable, and affordable utility service and infrastructure throughout Connecticut.
- To balance the public’s need for adequate utility service at reasonable rates with the providers’ right to earn a reasonable return on their investment in those industries still wholly regulated.
- To advance the modernization of the electric distribution system and regulate the retail electric supplier market.
- To implement federal requirements for natural gas pipeline safety.
- To ensure adequate water system infrastructure investments.
- To review mergers and acquisitions, provide education and outreach for consumers, and regulate the expansion of telecommunications infrastructure.

Public Act No. 25-173 specifies that the Public Utilities Regulatory Authority (PURA) is within the Department of Energy and Environmental Protection (DEEP) for administrative purposes only. In alignment with this framework, the Governor’s budget reflects the removal of PURA from the DEEP budget and the creation of PURA as an independently budgeted agency.

RECOMMENDED ADJUSTMENTS

Reallocations

- **Reallocate Funding to Establish PURA following Separation from DEEP** 19,409,798
 Section 49 of Public Act 25-173 specifies PURA is a part of DEEP for administrative purposes only and makes the PURA chairperson the chief executive for administrative purposes. This reflects a reallocation of funding from DEEP within the Consumer Counsel and Public Utilities Control Fund and reestablishes PURA as a separately budgeted agency.

OFFICE OF THE BEHAVIORAL HEALTH ADVOCATE

AGENCY PURPOSE

- To assist mental and behavioral health care providers, who are licensed, certified or registered in the state, with receiving payments for claims submitted to health carriers for services provided to covered patients.
- To assist state residents with accessing mental and behavioral health care and related resources.
- To provide information to the public, agencies, legislators and others regarding the problems and concerns of mental and behavioral health care providers and patients and make recommendations for resolving such problems and concerns.
- To coordinate with the Healthcare Advocate to assist individuals with obtaining access to and coverage for mental and behavioral health care services and to fulfill the duties set forth in subsections (e) and (g) of section 38a-1041 of the General Statutes.

RECOMMENDED ADJUSTMENTS

No adjustments to the adopted budget are proposed.

OFFICE OF THE HEALTHCARE ADVOCATE

AGENCY PURPOSE

- To assist health insurance consumers in making informed choices when selecting a health plan, understanding their rights and responsibilities under their plan, appealing denials of service and reimbursement, and accessing services through information, referral and assistance.
- To monitor and evaluate state and federal laws, regulations, and other policies affecting Connecticut healthcare consumers, as well as insurance and managed care industry practices and policies affecting Connecticut healthcare consumers, and advocate for changes and improvements as needed.
- To conduct systemic outreach and education to consumers throughout the state via personal appearances, presentations, and media appearances, including educational programming on healthcare rights.

RECOMMENDED ADJUSTMENTS

Baseline Adjustments

• Annualize Transfer of Position from the Office of Health Strategy to the Office of the Healthcare Advocate	192,295
• Fund Indirect Overhead at Comptroller's Projected Amount	-35,351
• Reduce Funding to Reflect Current Staffing Levels	-200,000

DEPARTMENT OF CONSUMER PROTECTION

AGENCY PURPOSE

- To assure a fair and equitable marketplace for consumers and businesses by licensing trades, occupations and professions and detecting, preventing and remediating harms that may occur as the result of unfair and deceptive acts and practices and unfair methods of competition in the conduct of trade or commerce.
- To eliminate the hazards of adulterated, contaminated, or unsanitary food products by regulating the manufacture and sale of food products in the State of Connecticut.
- To prevent the diversion of all controlled drugs by regulating the manufacture, distribution and sale of drugs, cosmetics and medical devices.
- To prevent the sale of liquor to minors and intoxicated persons and to ensure that licensed premises are safe and sanitary by regulating the distribution, sale, and dispensation of liquor.
- To assure the public that all legalized gambling is conducted in a fair and honest manner by ensuring compliance with statutes, regulations and procedures.

RECOMMENDED ADJUSTMENTS

Baseline Adjustments

- **Provide Funding to Offset an Indirect Cost Rate Reduction** 768,658
Reflects an offset to a reduction in the agency's federal indirect cost rate, which decreases the anticipated reimbursement of regulatory costs. The state applies an indirect overhead percentage to the tribes and the lottery gaming regulation assessment based on the federal rate approved by the Department of Health & Human Services. DCP has submitted its next Indirect Cost Proposal to the federal government with a proposed rate of 39.75%, representing a 9.75% decrease from the current rate of 49.50%.
- **Provide Funding to Establish the Canadian Prescription Drug Importation Program** 103,234
Funding is provided for one drug control agent to implement a Canadian Prescription Drug Implementation Program. Sections 9-18 of PA 25-167, An Act Implementing Recommendations of the Bipartisan Drug Task Force, allows the DCP commissioner, on behalf of the state and following a consultant's feasibility study, to seek federal approval to establish a Canadian prescription drug importation program, to import drugs that have the highest potential for cost savings in the state.
- **Reduce Funding Provided for Legislation that Did Not Pass in the 2025 Session** -410,304
Reflects a reduction in funding for two bills that did not pass in the 2025 legislative session. Senate Bill 1356, An Act Concerning Data Privacy, Online Monitoring, Social Media, Data Brokers and Connected Vehicle Services, which would have required the Department of Consumer Protection to license and regulate data brokers. The budget provided funding of \$199,000 in FY 2027 to hire two additional employees to license and regulate data brokers. Sections 17-18 of Senate Bill 11, An Act Concerning Prescription Drug Access and Affordability, which would have required the Department of Consumer Protection to regulate the 340b marketplace. The budget provided funding of \$211,304 in FY 2027 for 340b market regulation.

Expansions

- **Provide Funding for Fiscal Support Due to New and Growing Agency Responsibilities** 106,755

DEPARTMENT OF LABOR

AGENCY PURPOSE

- To protect Connecticut’s workers from labor law violations and promote global economic competitiveness through strengthening the state’s workforce; collaborating with business and industry on registered apprenticeship programs and other workforce pipeline initiatives; and conducting U.S. Bureau of Labor Statistics research including collecting, analyzing, and disseminating workforce data.
- To benefit both the local and statewide economy, the Connecticut Department of Labor provides the following services:
 - Worker protections through wage regulation; investigating workplace health and safety complaints; and consulting with the business community to improve site health and safety.
 - Administering the state and federal programs that stimulate the economy by providing income support for eligible unemployed workers who qualify for unemployment insurance or, depending upon the state’s unemployment rate, Extended Benefits, and High Extended Benefits.
 - Providing career training, apprenticeship, and workforce planning that assist workers in upskilling for jobs and ensure employers have the talent they need.
 - Connecting jobseekers and employers through job matching; CTHires job services; and American Job Center support.
 - Administering tax credit incentive programs.
 - Maintaining the collective bargaining relationship.
 - Providing labor market and economic data to the business community; academics and researchers; policymakers; and the general public.

RECOMMENDED ADJUSTMENTS

Baseline Adjustments

- **Adjust Funding to Reflect Anticipated Requirements** 400,000
Funding is provided to support recurring and projected shortfalls in the Other Expenses account.
- **Remove Five Positions and Funding for Apprenticeship Program Oversight and Integrity Council** -500,000
Remove funding and five positions related to the Apprenticeship Program Oversight and Integrity Council as there was no statutory language for implementation.

Reductions

- **Reduce Funding for Legislatively Directed Funds by 20 Percent** -934,000
Funding for various legislatively directed funds is reduced in aggregate by 20 percent to support the constitutional requirements for budget balance and spending cap compliance.

Expansions

- **Provide Funding to Support Unemployment Insurance (UI)** 2,500,000
Funding is provided to offset declining federal funds used to support current UI staff costs as well as to support the integration of IT solutions in the UI program to improve consumer experience.

Reallocations

- **Aggregate Funding for Legislatively Directed Funds in New Stand-Alone Appropriation** 0
Funding for various legislatively directed funds (CT State Building Trades Training Institute, Capital Workforce Partners, The Workplace, and Workforce Clearinghouses) is realigned from Other Expenses to a new, stand-alone appropriation titled “Various Grants.” This realignment will increase transparency for these funds and will clarify that the funding is separate from other agency operating costs that are budgeted in the Other Expenses account.
- **Transfer Apprenticeship Funding from Personal Services to Apprenticeship Program** 0

COMMISSION ON HUMAN RIGHTS AND OPPORTUNITIES

AGENCY PURPOSE

- To enforce civil rights laws that prohibit illegal discrimination in employment, housing, public accommodations, credit transactions, and schools.
- To receive, mediate, investigate, litigate and adjudicate complaints of discrimination in employment, housing, public accommodations, credit transactions and schools.
- To enforce civil rights laws which prohibit police misconduct and racial profiling.
- To monitor and enforce compliance with laws requiring affirmative action in state employment.
- To provide education and outreach and training to the public regarding the protections afforded by Connecticut’s civil rights laws.
- To develop and administer educational programs to reduce prejudice and discrimination in employment, housing, public accommodations, credit transactions, and in schools.
- To conduct fair housing training.
- To train businesses regarding civil and human rights laws in order to foster the development of business environments that will comply with civil rights laws.
- To provide diversity and cultural competency training in order to reduce complaints of workplace discrimination.
- To advocate for civil and human rights throughout the state.
- To work with federal partners to eliminate discrimination.
- To serve as the secretariat for the Martin Luther King Jr. Holiday Commission.

RECOMMENDED ADJUSTMENTS

Expansions

- **Provide Funding to Establish Agency Business Office** 282,680
Establishes an independent fiscal and business office, including Equal Employment Opportunity personnel, rather than the current APO arrangement with the Department of Labor.
- **Provide Funding to Address Increase in Translation Services** 5,000

WORKERS' COMPENSATION COMMISSION

AGENCY PURPOSE

- To administer the workers' compensation laws of the State of Connecticut.
- To adjudicate and resolve disputes arising from the workers' compensation process.
- To educate employees and employers on their rights and responsibilities under the law.
- To review and approve applications for workers' compensation managed care plans.
- To certify self-insurance applications.
- To promote safety in the workplace.

RECOMMENDED ADJUSTMENTS

Baseline Adjustments

- **Fund Indirect Overhead at Comptroller's Projected Amount** -451,269

Reallocations

- **Transfer Funding to Reflect Centralized Information Technology in DAS** -210,462
Transfers funding for a position that is currently split between the Workers' Compensation Commission and the Department of Administrative Services to fully fund within DAS.

DEPARTMENT OF AGRICULTURE

AGENCY PURPOSE

- To foster agriculture by developing, promoting, and regulating agriculture businesses and protecting agricultural and aquacultural resources.
- To protect public health by regulating, inspecting, and enforcing food production and manufacturing standards for the shellfish, fluid milk, and cheese manufacturing industries; hemp growing and harvesting; and small, non- USDA inspected poultry slaughter operations.
- To preserve agricultural land resources for food and fiber production by restricting non-agricultural uses through the purchase of development rights.
- To manage state owned shellfish beds through leases, permits, and licenses to individuals engaged in cultivating and harvesting shellfish and seaweed.
- To encourage and support the development of farmers’ markets and other venues at which a majority of products sold are grown in the state.
- To protect domestic animals by responding to and investigating animal cruelty and animal neglect complaints.
- To protect consumers and animal health by regulating, inspecting, and enforcing animal care and animal health standards for pet shops and commercial kennels.
- To protect public safety by supporting local animal control and police enforcement of animal bite statutes.

RECOMMENDED ADJUSTMENTS

Reductions

- **Reduce Funding for Legislatively Directed Funds by 20 Percent** -256,000
Funding for various legislatively directed funds is reduced in aggregate by 20 percent, except CT Grown for CT Kids (CTG4CTK), to support the constitutional requirements for budget balance and spending cap compliance.

Reallocations

- **Aggregate Funding for Legislatively Directed Funds in New Stand-Alone Appropriation** 0
Funding for various legislatively directed funds is realigned from Other Expenses to a new, stand-alone appropriation titled “Various Grants.” This realignment will increase transparency for these funds and will clarify that the funding is separate from other agency operating costs that are budgeted in the Other Expenses account.

DEPARTMENT OF ENERGY AND ENVIRONMENTAL PROTECTION

AGENCY PURPOSE

- To ensure that the state’s natural resources are preserved, conserved and protected.
- To ensure that environmental quality standards are implemented fairly and effectively to protect the environment and public health.
- To ensure that outdoor recreation opportunities are provided to residents and visitors through sound management of state parks and forests.
- To develop policies and implement programs to bring cheaper, cleaner, more equitable, more resilient, and more reliable energy, and universal access to cheaper, more equitable, more resilient, and more reliable high-speed broadband to Connecticut’s residents and businesses.

Public Act No. 25-173 specifies that the Public Utilities Regulatory Authority (PURA) is within the Department of Energy and Environmental Protection (DEEP) for administrative purposes only. In alignment with this framework, the Governor’s budget reflects the removal of PURA from the DEEP budget and the creation of PURA as an independently budgeted agency.

RECOMMENDED ADJUSTMENTS

Baseline Adjustments

- **Adjust Fringe Benefits to Reflect Actual Rates** 714,587
- **Fund Indirect Overhead at Comptroller's Projected Amount** -135,272

Reductions

- **Reduce Funding for Legislatively Directed Funds by 20 Percent** -121,000
 Funding for various legislatively directed funds is reduced in aggregate by 20 percent to support the constitutional requirements for budget balance and spending cap compliance.

Expansions

- **Provide Funding for a Bear Safety Public Education Campaign** 200,000
- **Provide Funding for Staff to Support Implementation of Release-Based Cleanup Regulations** 146,574
 Funding is provided for two positions that will support emergency response, auditing, and enforcement activities associated with the implementation of the Release-Based Cleanup Regulations, which take effect March 1, 2026. These roles are essential to ensure timely responses to environmental emergencies and effective enforcement of the new regulatory framework.
- **Provide Funding for Staff to Support Emergency Spill Response Cost Recovery** 76,039

Reallocations

- **Reallocate Funding to Establish PURA Following Separation from DEEP** -19,409,798
 Section 49 of Public Act 25-173 specifies PURA is a part of DEEP for administrative purposes only and makes the PURA chairperson the chief executive for administrative purposes. This reflects a reallocation of funding from DEEP within the Consumer Counsel and Public Utilities Control Fund and reestablishes PURA as a separately budgeted agency.
- **Aggregate Funding for Legislatively Directed Funds in New Stand-Alone Appropriation** 0
 Funding for various legislatively directed funds is realigned from Other Expenses to a new, stand-alone appropriation titled “Various Grants.” This realignment will increase transparency for these funds and will clarify that the funding is separate from other agency operating costs that are budgeted in the Other Expenses account.

DEPARTMENT OF ECONOMIC AND COMMUNITY DEVELOPMENT

AGENCY PURPOSE

- To develop and implement strategies to increase the state’s economic competitiveness.
- To foster a productive business environment that enables businesses to grow in the state and compete in the global economy.
- To advance job creation and retention.
- To set and execute strategies that will create a talent ecosystem that attracts and motivates students, career builders and companies alike.
- To support the quality of life and economic sustainability of our local communities.
- To promote, encourage and implement responsible growth principles and practices through brownfield redevelopment and other local initiatives.
- To brand and market Connecticut to bolster its reputation as an innovative business location and tourism destination.
- To preserve and promote Connecticut’s cultural and tourism assets in order to enhance the quality of life and economic vitality of the state.
- To coordinate the activities of all state agencies in advancing economic development opportunities.

RECOMMENDED ADJUSTMENTS

Baseline Adjustments

- **Enhance Financial Review and Legal Oversight Functions** 343,142
 Three positions and \$343,142 are provided to increase DECD capacity in legal and financial compliance functions in order to provide enhanced oversight of agency administered grants and contracts.

Reductions

- **Reduce Funding for Legislatively Directed Funds by 20 Percent** -5,078,703
 Funding for various legislatively directed funds is reduced in aggregate by 20 percent to support the constitutional requirements for budget balance and spending cap compliance.

DEPARTMENT OF HOUSING

AGENCY PURPOSE

- To ensure that all of Connecticut’s citizens have access to quality housing opportunities and options.
- To serve as a central resource for municipalities, advocates and developers while striving to eliminate homelessness.
- To meet the housing needs of low-and-moderate income individuals and families, enabling them to live in communities where they have access to quality employment, schools, necessary services and transportation.
- To build inclusive and resilient communities.
- To develop and advance strategies and programs to strengthen our state’s vibrant, safe, and diverse communities.

RECOMMENDED ADJUSTMENTS

Baseline Adjustments

- **Adjust Funding Due to Increased Housing Costs** 10,000,000
Funding is provided to maintain the current level of housing supports in the Housing/Homeless Services account which is experiencing rising housing costs.

Reductions

- **Transition Support for Fiscal Monitoring from a Contracted Function to In House** -495,985
Funding is adjusted to reflect the transition of contracted fiscal services to in-house, resulting in a reduction in the Housing/Homeless Services account and an increase in Personal Services for six positions.

Expansions

- **Provide Six Positions and Funding to Support the November Special Session Legislation** 500,000
Funding is provided for six positions to support various agency requirements under P.A. 25-1, November Special Session, An Act Concerning Housing Growth.
- **Provide Funding to Support Homeless Youth** 500,000
Funding is provided to support ongoing collaboration between Department of Housing and the Department of Education to provide supportive housing solutions for homeless youth in order to reduce chronic absenteeism and improve academic outcomes.

AGRICULTURAL EXPERIMENT STATION

AGENCY PURPOSE

- To ensure an ample and economical food supply by increasing crop yields, introducing successful new crops, protecting pollinators, and managing pests and plant diseases.
- To investigate mosquitoes and ticks that transmit disease organisms to people and animals and to devise methods of monitoring and reducing these diseases and identifying newly emerging threats.
- To devise innovative ways to manage agricultural and forest pests, noxious weeds and plant pathogens using fewer and less toxic pesticides.
- To discover methods for removing hazardous pollutants in soil and water that may affect the well-being of plants, domesticated animals and humans.
- To devise ways to control invasive aquatic plants in lakes and natural areas to restore native plant growth in forests, wetlands, and coastal salt marshes.
- To protect people from emerging contaminants, toxic substances found in food and water, mold in buildings, and from deficient or adulterated food, consumer products, drugs, and agrichemicals. Surveillance and research are conducted to ensure the food and feed supply are safe and free from dangerous levels of heavy metals, toxic pesticides, and emerging chemical contaminants.

RECOMMENDED ADJUSTMENTS

No adjustments to the adopted budget are proposed.

DEPARTMENT OF PUBLIC HEALTH

AGENCY PURPOSE

- To protect and improve the health and safety of the people of Connecticut by:
 - Assuring the conditions under which people can be healthy;
 - Preventing disease, injury, and disability; and
 - Promoting the equal enjoyment of the highest attainable standard of health.
- To actively work to prevent disease and promote wellness through education and programs such as prenatal care, newborn screening, immunizations, AIDS awareness, and supplemental foods.
- To monitor infectious diseases, environmental and occupational health hazards, and birth defects.
- To regulate health care providers, including health facilities, health professionals and emergency medical services.
- To provide testing and monitoring support through the state laboratory.
- To collect and analyze health data for use in planning future policy.
- To serve as the repository for all birth, adoption, paternity, marriage, and death certificates.
- To ensure the availability of a safe and adequate drinking water supply for Connecticut’s residents.
- To promote environmental health through a variety of programs focused on public health metrics.
- To plan for and respond to public health emergencies.

The Governor is proposing to reorganize activities currently provided by the Office of Health Strategy (OHS) to several state agencies in order to better align programmatic activities with agencies that share similar functions. This reorganization will clarify where responsibility lies for a comprehensive and cohesive vision for healthcare for the State and coordination of healthcare policy and alignment of federal and state efforts including for healthcare-related IT. The moves include a transfer of Certificate of Need (CON) and data collection and analysis activities that support CON decision making to the Department of Public Health. Affordability activities, including the cost growth benchmark and Health Information Exchange work including Connie, the All-Payer Claims Database, and the rural health initiatives involving IT like expansion of telehealth capacity and development of AI-powered virtual monitoring tools, are proposed for alignment within OPM.

RECOMMENDED ADJUSTMENTS

Baseline Adjustments

- | | |
|--|----------|
| • Support Increased Costs of the State Public Health Laboratory | 500,000 |
| • Fully Fund Statutory Per Capita Grants for Local Health Districts | 127,742 |
| • Reflect Reduced Program Needs in X-Ray Screening and Tuberculosis Care | -200,000 |

Reductions

- | | |
|--|----------|
| • Reduce Funding for Legislatively Directed Funds by 20 Percent
Funding for various legislatively directed funds is reduced in aggregate by 20 percent to support the constitutional requirements for budget balance and spending cap compliance. | -326,800 |
|--|----------|

Expansions

- | | |
|--|---------|
| • Pilot an Adult Influenza Vaccine Program
Through funding from CDC, DPH operates a program which provides vaccination at no cost to uninsured and underinsured individuals in the state who are between 19 and 64 years old. Vaccines covered by the program include Hepatitis A, Hepatitis B, HPV, Tdap, Shingles, Pneumococcal Conjugate, and RSV, but not influenza (flu). This proposal adds \$892,000 to include up to 52,000 doses of the flu vaccine with the goal of reducing unnecessary hospitalizations and deaths. | 892,000 |
|--|---------|

Reallocations

- | | |
|--|-----------|
| • Transfer Certificate of Need, Data Activities and Communications from OHS
The Certificate of Need (CON) program, currently housed at OHS, requires certain types of healthcare providers to get state approval before making major changes in the healthcare landscape to ensure the cost-effective availability of healthcare services across the state. This proposal reorganizes CON, supporting data collection and analysis activities, and communication functions within DPH to better align programmatic activities and ensure effective and efficient administration of the programs. Four positions and \$784,018 are included in the transfer to Insurance Fund budget and 19 positions and \$2,029,146 are transferred to the General Fund. | 2,813,164 |
| • Aggregate Funding for Legislatively Directed Funds in New Stand-Alone Appropriation
Funding for various legislatively directed funds including Hartford Gay and Lesbian Health Collective, Goodwin College Respiratory Program, My People Clinical Services, Connecticut Brain Tumor Alliance, and Lucinda’s House is realigned from Other Expenses to a new, stand-alone appropriation titled “Various Grants.” This realignment will increase transparency for these funds and will clarify that the funding is separate from other agency operating costs that are budgeted in the Other Expenses account. | 0 |
| • Reallocate Grants for Federally Qualified Health Centers to DSS
DPH received funding in the enacted budget to support grants to Fair Haven Community Health Care and Cornell Scott-Hill Health Center, two federally qualified health centers (FQHCs). Since DSS already administers grants to FQHCs, this proposal transfers those grants to DSS for consolidated administration of funding for these providers. | -575,000 |

OFFICE OF HEALTH STRATEGY

AGENCY PURPOSE

- To support high-quality, affordable, and accessible healthcare for all Connecticut residents.
- To develop policy that improves health outcomes, ensures better access to healthcare, and identifies and addresses health inequities.
- To address Connecticut’s high per-capita healthcare spending; stabilize consumer costs across all sectors of healthcare; and promote growth and job creation through healthcare reform initiatives.
- To modernize how healthcare providers communicate and share data in order to improve patient experiences, reduce costly redundant testing, and strengthen the value of each dollar spent on healthcare.
- To develop and support multi-payer healthcare payment and service delivery reforms that improve population health, focus on the root causes of health conditions, and prevent those conditions from occurring.
- To administer the Certificate of Need program to ensure that healthcare facilities and services in Connecticut are financially stable, accessible and appropriate to meet the medical needs of consumers in all geographic areas without unnecessary duplication or excess cost.

The Governor is proposing to reorganize activities currently provided by the Office of Health Strategy (OHS) to several state agencies in order to better align programmatic activities with agencies that share similar functions. This reorganization will clarify where responsibility lies for a comprehensive and cohesive vision for healthcare for the State and coordination of healthcare policy and alignment of federal and state efforts including for healthcare-related IT. The moves include a transfer of Certificate of Need (CON) and data collection and analysis activities that support CON decision making to the Department of Public Health. Affordability activities, including the cost growth benchmark and Health Information Exchange work including Connie, the All-Payer Claims Database, and the rural health initiatives involving IT like expansion of telehealth capacity and development of AI-powered virtual monitoring tools, are proposed for alignment within OPM.

RECOMMENDED ADJUSTMENTS

Baseline Adjustments

- **Annualize Transfer of Position in the Insurance Fund from the Office of Health Strategy to the Office of the Healthcare Advocate** -192,295
- **Reduce Funding in the Insurance Fund to Reflect Current Staffing Levels** -150,000
- **Remove Temporary Support of Connie Participation Fees** -900,000
Funding is removed to reflect the end of temporary state support of Connie. This reduction will be replaced by fees charged to users of the Connie services.

Reductions

- **Remove Funding for Vacancies** -644,953
Funding is reduced to reflect the elimination of four vacant positions in the General Fund and Insurance Fund.

Reallocations

- **Transfer Activities Previously Provided by the Office of Health Strategy** -15,956,306
A total of 41 staff and \$16 million in the General Fund and Insurance Fund is being reallocated from OHS to several state agencies to better align programmatic activities with agencies that share similar functions. This reorganization will clarify where responsibility lies for a comprehensive and cohesive vision for healthcare for the state and coordination of healthcare policy and alignment of federal and state efforts including for healthcare-related IT. The moves include the transfer of Certificate of Need (CON) and data collection activities that support CON decision-making to the Department of Public Health, Moving to OPM are Affordability programs, including the cost growth benchmark and Health Information Exchange work including Connie, the All-Payer Claims Database and the rural health initiatives involving IT like expansion of telehealth capacity and development of AI-powered virtual monitoring tools.

OFFICE OF THE CHIEF MEDICAL EXAMINER

AGENCY PURPOSE

To investigate:

- Deaths due to any form of injury, whether resulting from accident, suicide or homicide or under suspicious circumstances.
- Deaths due to suspected drug abuse or intoxication.
- Sudden or unexpected deaths not due to readily recognizable disease including death within 24 hours of admission to a hospital.
- Deaths of any individual whose body is to be disposed of in a manner (e.g., cremation) that will render it unavailable for later examination.
- Deaths resulting from employment.
- Deaths due to a disease (e.g., meningitis, West Nile virus) that might constitute a threat to the public health.
- Death under anesthesia, in operating or recovery room, following transfusions, or during diagnostic procedures.
- Death, not clearly the result of natural causes, that occurs while in the custody of a peace officer or a law enforcement agency or the Commissioner of Correction.

To serve the public and protect the public health by:

- Investigating and certifying suspected and unsuspected homicides, thus providing information that will lead to proper adjudication in criminal and civil matters and may prevent unnecessary litigation.
- Diagnosing previously unsuspected contagious/infectious disease.
- Identifying hazardous environmental conditions in the workplace, home, and elsewhere.
- Identifying trends such as changes in the numbers of homicides, traffic fatalities, and drug and alcohol related deaths.
- Identifying new types and forms of drugs appearing in the state or existing drugs/substances becoming new subjects of abuse.
- Issuing an accurate death certificate with an etiologically specific underlying cause of death to produce accurate vital statistics for the State of Connecticut.
- Explaining what caused the death of a loved one to a family.

RECOMMENDED ADJUSTMENTS

No adjustments to the adopted budget are proposed.

DEPARTMENT OF DEVELOPMENTAL SERVICES

AGENCY PURPOSE

- To provide case management, day/employment, residential, and respite supports to individuals with intellectual disability and their families through a system of public and private providers.
- To conduct quality oversight and administrative support of programs and services funded through the agency.
- To assist individuals with intellectual disability involved in the criminal justice system to ensure appropriate representation and support.
- To coordinate the Behavioral Services Program for children with co-occurring intellectual disability and behavioral health needs.
- To plan and manage crisis intervention activities for individuals receiving services from the agency.

RECOMMENDED ADJUSTMENTS

Expansions

- **Provide Funding to Enable Access to a Dental Anesthesiologist** 100,000
 Funding supports a dental anesthesiologist who specializes in services to individuals with intellectual disability and enables individuals to receive expanded care and outpatient sedation for advanced dental work. DDS anticipates that the anesthesiologist would be stationed at both the Norwich and Southbury Training School dental clinic locations, expanding much needed service availability for up to 700 cases per year.

DEPARTMENT OF MENTAL HEALTH AND ADDICTION SERVICES

AGENCY PURPOSE

- To promote the overall health and wellness of persons with behavioral health needs through an integrated network of holistic, comprehensive, effective, and efficient services and supports that foster dignity, respect and self-sufficiency in those we serve.
- To offer Connecticut residents an array of accessible services and recovery which are effective in addressing their individual health concerns.
- To provide services and supports that are culturally responsive, attentive to trauma, built on personal, family, and community strengths, and focus on promoting each person’s recovery, wellness and full citizenship.
- To provide integrated, responsive, and coordinated services within the context of a locally managed system of care in collaboration with the community, thereby ensuring continuity of care both over time and across organizational boundaries. As a result, each individual served has maximal opportunities for establishing, or reestablishing, a safe, dignified and meaningful life in the communities of their choice.

RECOMMENDED ADJUSTMENTS

Baseline Adjustments

- **Transfer Funding to Reflect Program Requirements Related to the Substance Use Disorder Waiver** 10,750,000
The substance use disorder (SUD) demonstration waiver enables federal reimbursement for SUD services for individuals that would ordinarily not be covered under federal rules. The additional revenue is to be reinvested to strengthen the SUD service system by ensuring a complete array of services is available. This allows Medicaid members with opioid use disorder and other SUDs to receive medically necessary treatment services in the most appropriate setting. While DSS, DMHAS, DCF, DOC, and the Judicial Branch have worked collaboratively to identify the needs in each agency, it was anticipated that, as the program continues to roll out, funding would need to be reallocated. To address this, the Substance Use Disorder Waiver Reserve account was established in DSS for any additional revenue generated that is not already allocated to the participating agencies. This adjustment reflects the transfer of funding from this account to address agency requirements.
- **Support Increased Competency Restoration Costs** 1,900,000
Funding will cover the continued cost of programs, services and supports for individuals with mental illness who are facing low level criminal charges. These services include treatment, education, and case management supports for individuals ordered to outpatient restoration, as well as intensive services to divert individuals from the competency to stand trial process. This enables DMHAS to respond to the increase in outpatient competency referrals, in the least restrictive setting, stemming from PA 24-137.
- **Annualize Projected FY 2026 Deficiency in Behavioral Health Medications** 1,300,000
- **Provide Funding to Support Wage Increases for Waiver Providers** 690,000
Supports a rate increase for home health aides and low-wage workers under the Medicaid home and community-based services waivers. The biennial budget included an agreement and funding, under DSS, to support a 4.9% rate increase for home health aides and low-wage workers under the Medicaid home and community-based services waivers. The budget did not, however, include funding under DMHAS to support this rate increase for their providers under the Mental Health waiver.
- **Support Increased Costs of the Behavioral Health Partnership Administrative Services Organization** 287,000

Reductions

- **Reduce Funding for Legislatively Directed Funds by 20 Percent** -150,000
Funding for various legislatively directed funds is reduced in aggregate by 20 percent to support the constitutional requirements for budget balance and spending cap compliance.

Expansions

- **Facilitate Timely Discharge from State Hospitals** 3,543,750
This proposal provides partial year funding in FY 2027 to ensure the availability of community resources that allow for timely discharge from Whiting Forensic Hospital for those who have been deemed clinically ready to transition back into the community.

Reallocations

- **Reflect Sunsetting of Connecticut Housing Engagement and Support Services (CHES) Initiative and Transfer Supportive Housing Funding to DMHAS** 1,000,000
The model, configuration and requirements imposed by the Centers for Medicare & Medicaid Services have made the CHES program operationally difficult and challenging for supportive housing providers to implement, in part due to the significant amount of upfront and ongoing work that is not billable. Additionally, the finite number of housing subsidies, coupled with a Medicaid state plan that allows any eligible member to receive pre- tenancy and tenancy services, created a misalignment from the program’s inception. Consistent with recommendations of the interagency workgroup comprised of representatives from DSS, DMHAS, DOH, and OPM, it is proposed that the program be sunset and that CHES participants with a housing subsidy be transitioned to the existing supportive housing program in DMHAS.

PSYCHIATRIC SECURITY REVIEW BOARD

AGENCY PURPOSE

- To review the status of persons found not guilty of a crime by reason of mental disease or mental defect through an administrative hearing process. The Psychiatric Security Review Board gains supervision of these individuals and orders the level of supervision and treatment necessary for the acqittee to ensure public safety. The board is governed by Connecticut General Statutes, Sections 17a-580 through 17a-603.

RECOMMENDED ADJUSTMENTS

No adjustments to the adopted budget are proposed.

DEPARTMENT OF TRANSPORTATION

AGENCY PURPOSE

- To provide a safe and efficient intermodal transportation network that improves the quality of life and promotes economic vitality for the state and the region.
- To construct, repair, and maintain the state highway system consisting of over 10,000 lane miles and 4,126 bridges.
- To construct, repair, and maintain the state public transportation system.
- To provide rail service along the New Haven Line, New Canaan Line, Danbury Line, Waterbury Line, Shore Line East and Hartford Line.
- To provide continued operation of all urban and rural bus services, ridesharing and transportation demand management programs.
- To provide safe, efficient and cost-effective CTtransit, CTtransit express and CTfastrak bus services.
- To provide financial aid, policy guidance and program support to the state's 15 transit districts.
- To provide effective regulation of the taxi, livery, charter bus, household goods, and transportation network companies.
- To maintain and operate the Connecticut River ferry services.
- To focus available resources in the most effective manner; to ensure that all transportation systems are operated and maintained in a safe manner; to maintain all transportation systems in a state of good repair; to make investments that increase the productivity of existing systems; to utilize transportation investments to promote and facilitate economic development; and to provide additional transportation capacity where it is essential.
- To promote efforts to reduce injuries and fatalities as a result of traffic crashes related to driver behavior on Connecticut roadways.
- To support and adhere to responsible growth principles and ensure that transportation projects are consistent with the state's plan of conservation and development, Connecticut's energy strategy plan, and the state's climate change efforts.
- To place special emphasis on working with other state agencies and municipalities to promote development at and near transit stations as a means of maximizing the state's investment in transit and supporting economic growth.
- To monitor transportation trends and forecast future needs of the transportation system and to develop transportation plans and services to address those needs.
- To ensure compliance with federal requirements and maintain eligibility for federal funds, and to maximize the amount of federal transportation funding for Connecticut.

RECOMMENDED ADJUSTMENTS

Baseline Adjustments

• Adjust Funding for Rail Operations to Reflect Revenue and Spending Trends	19,663,303
• Adjust Funding for Bus Operations to Reflect Revenue and Spending Trends	6,858,519
• Adjust Funding for ADA Paratransit Services to Reflect Revenue and Spending Trends	1,553,227
• Annualize Expenditure Requirements for Highway Planning and Research	845,000
• Annualize Equipment Expenditures	800,000

Expansions

• Provide Funding for Bus Fare Reductions for Students and Veterans	2,500,000

DEPARTMENT OF SOCIAL SERVICES

AGENCY PURPOSE

- To have a positive impact on the health and well-being of Connecticut's individuals, families and communities.
- To offer programs that improve family and economic stability and reduce food insecurity and barriers to employment.
- To improve physical and behavioral health outcomes for the people the department serves.
- To promote and support the choice to live with dignity and safety in one's own home and community.

RECOMMENDED ADJUSTMENTS

Baseline Adjustments

- **Reverse Adjustment Related to Proposal to Reduce State Health Plan Charges Under the Office of the State Comptroller and Leverage Federal Dollars** -70,000,000
The enacted budget increased Medicaid hospital supplemental payments by \$70 million in FY 2027 based on the expectation that the state would negotiate lower hospital rates under the state employee and non-Medicare retiree health plans. Since that initiative is not moving forward, the funding that was added to increase hospital supplemental payments to support this change is removed.
- **Adjust Funding to Reflect Program Requirements** -39,427,800
Funding for the following entitlement accounts is adjusted to reflect anticipated program requirements due to caseload and cost changes: HUSKY B, Medicaid, Old Age Assistance, Aid to the Blind, Aid to the Disabled, Temporary Family Assistance, Connecticut Home Care Program, and State Administered General Assistance. In addition, funding is added to Other Expenses to support additional requirements, including \$750,000 to cover fees for DSS' administrative services organizations to access Connie, Connecticut's health information exchange, a secure system that enables doctors, hospitals, and other providers to share patient health data electronically for better care coordination and outcomes.
- **Transfer Funding to Reflect Program Requirements Related to the Substance Use Disorder Waiver** -15,025,000
The substance use disorder (SUD) demonstration waiver enables federal reimbursement for SUD services for individuals that would ordinarily not be covered under federal rules. The additional revenue is to be reinvested to strengthen the SUD service system by ensuring a complete array of services is available. This allows Medicaid members with opioid use disorder and other SUDs to receive medically necessary treatment services in the most appropriate setting. While DSS, DMHAS, DCF, DOC, and the Judicial Branch have worked collaboratively to identify the needs in each agency, it was anticipated that, as the program continues to roll out, funding would need to be reallocated. To address this, the Substance Use Disorder Waiver Reserve account was established for any additional revenue generated that is not already allocated to the participating agencies. This adjustment transfers funding from this account to address requirements in DMHAS, DCF, and the Judicial Branch's Court Support Services Division, as well as DSS' Medicaid account.
- **Reflect Costs to Comply with Federal Requirements Regarding Services for Justice-Involved Youth** 6,870,000
Pursuant to section 5121 of the Consolidated Appropriations Act of 2023, states are required to provide Targeted Case Management (TCM) and Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) to all eligible juveniles under 21 years of age and former foster care individuals age 18 up to age 26 who are within 30 days of their scheduled date of release (or as soon as practicable after release from the public institution). This change, which is to be in place by July 1, 2026, will improve care coordination and physical and behavioral health outcomes for these youth prior to release from a carceral setting, including pre-adjudicated youth pending disposition. This adjustment reflects the anticipated program costs to comply with these requirements, with costs partially offset by \$3.6 million in Federal Grants revenue.
- **Shift Cost of COLAs for Certain Federally-Funded Providers Back to the General Fund** 1,189,137
The requirements under the Community Services account were reduced beginning in FY 2022 to reflect the shift of cost-of-living adjustments (COLAs) for certain federally-funded providers to the Community Services Block Grant (CSBG) carryforward funding. Beginning in FY 2027, there will no longer be available CSBG carryforward funds to maintain the COLAs with federal funding. Therefore, this adjustment accounts for the shift of the COLAs back to the Community Services account, thereby maintaining funding for these providers.

Reductions

- **Maintain MED-Connect Income and Asset Limits at April 2025 Levels** -1,000,000
Public Act 24-81 expands eligibility for the Medicaid for Employees with Disabilities (MED-Connect) program by increasing the income limits from \$75,000 to \$85,000 and doubling the asset limit (to \$20,000 for individuals and \$30,000 for couples) effective April 1, 2025, and requires future increases in these limits until July 1, 2029, when all income and asset limits are lifted. Given the significant costs over time, this proposal maintains the income and asset limits at the April 1, 2025, levels. Savings figures reflect the state's share of Medicaid expenditures. After factoring in the federal share, this proposal will reduce total Medicaid expenditures by \$2.1 million in FY 2027. While these savings are relatively modest, when fully annualized in FY 2030, this proposal will result in state savings of \$5.0 million (\$10.0 million after factoring in the federal share).
- **Add Antiretroviral Drugs to the Preferred Drug List** -950,000
Public Act 02-1, May Special Session, required DSS to establish a preferred drug list under Medicaid and exempted antiretroviral drugs to ensure that medically appropriate drug therapies would be available to all Medicaid patients. Given the significant advances in the treatment of HIV since that time, it is proposed that this exemption be lifted. Including antiretroviral medications on the preferred drug list will not only allow the state to collect supplemental rebates on these drugs, but it will provide for better management of these medications as it will help to ensure practitioners are aligning with clinical criteria and best practices. After factoring in the federal share, this proposal will reduce total Medicaid expenditures by \$2.4 million in FY 2027.
- **Reduce Funding for Legislatively Directed Funds by 20 Percent** -844,701
Funding for various legislatively directed funds is reduced in aggregate by 20 percent to support the constitutional requirements for budget balance and spending cap compliance.

<ul style="list-style-type: none"> • Remove Funding to Expand Emergency Medicaid The enacted budget includes funding in FY 2027 for systems changes that would allow individuals, who meet Medicaid eligibility requirements but do not qualify due to their immigration status, to apply in advance for emergency Medicaid coverage for emergency medical conditions that could be treated in outpatient settings rather than in hospital emergency departments. This change is related to legislation that was proposed last year, which would have established a new definition for “emergency medical condition” and required DSS to expand emergency Medicaid coverage for treatment of specified emergency medical conditions. Given cost and programmatic concerns with such an expansion and the myriad of systems changes that are already required pursuant to P.L. 119-21, funding for systems changes is removed. 	-700,000
<ul style="list-style-type: none"> • Transition Community First Choice Participants to Waiver Programs Under the Community First Choice (CFC) State Plan Option, states receive a 6 percent increase in the federal match rate for home and community-based attendant services and supports to individuals who would otherwise require institutional level of care. While it was recognized that there could be some additional enrollment as a result of the benefit becoming a state plan service, it was anticipated that any additional costs would be largely offset by both the enhanced reimbursement and the ability to provide self-directed personal care assistance (PCA) services at a much lower cost than agency-based home health services. Given the increased complexity to administer the program, higher program costs associated with self-directed care, and ever-increasing enrollment, program costs have increased from \$88.8 million in FY 2018 to \$371.0 million in FY 2025, with average paid cases increasing from approximately 2,400 to nearly 5,800 over this period. As a state plan service with uncapped program growth and administrative challenges, it is expected that CFC costs will continue to escalate. To address this, this proposal sunsets CFC and moves participants to either an existing home and community-based services waiver, which could be modified if needed, or to a new Medicaid waiver. While this will result in loss of the 6 percent enhanced reimbursement, this change will result in significant savings by FY 2029. 	9,200,000
Expansions	
<ul style="list-style-type: none"> • Phase-In Impact of Patient Driven Payment Model and Establish Pool for Nursing Homes with Higher Medicaid Utilization To comply with federal changes to nursing home resident assessments, DSS is required to transition to the Patient Driven Payment Model (PDPM), which is designed to ensure more accurate and appropriate payment for residents by using standardized ICD-10 diagnosis codes and individual resident characteristics focusing on each resident’s individual care needs rather than the volume of services provided to that resident. The shift to this new model is targeted for July 1, 2026, and is expected to result in savings to the state of \$22.4 million in FY 2027 (\$24.4 million when annualized in FY 2028). To avoid destabilizing the nursing home industry, this proposal phases-in the impact of the PDPM over three years. In conjunction with this, it is also proposed that a portion of the savings be reinvested to reward homes that serve a higher proportion of Medicaid members. 	13,100,000
<ul style="list-style-type: none"> • Provide Additional Resources to Address Increased Eligibility Requirements under Public Law. 119-21 Recognizing the expanded operational demands resulting from changes under P.L. 119-21, this proposal adds 50 new positions to help support eligibility operations. The changes under P.L. 119-21 introduce stricter Medicaid and SNAP eligibility requirements, including community engagement requirements and more frequent redeterminations. Such provisions will significantly increase the volume and complexity of case processing, verification, and compliance monitoring, requiring additional staff to ensure timely and accurate determinations while maintaining federal compliance. 	3,270,000
<ul style="list-style-type: none"> • Provide Funding to Implement Birth to Three Tiered Rates under Medicaid Pursuant to the comprehensive review of Birth to Three rates by the Office of Early Childhood, this proposal increases Medicaid rates to allow for implementation of a new tiered rate system based on provider experience and credentialing level. This payment structure will ensure a more competitive provider environment and better access to services. After factoring in the federal share, this proposal will increase Medicaid expenditures by \$3.2 million in FY 2027. 	1,600,000
<ul style="list-style-type: none"> • Extend General Rate Increases under Group Home Agreement to Intermediate Care Facilities In each of the three years of the agreement, the group home agreement with 1199 SEIU provided for a general rate increase for all DDS private providers, both union and non-union, and an additional increase for all DDS residential private providers. Because the definition of residential private providers under the agreement includes intermediate care facilities (ICFs), the enacted budget included funding in DSS to support the increases for ICFs. The lower increases for ICFs, however, result in inequities for employees of providers that support both ICFs and DDS group homes. To address this, funding is added to extend the general rate increases to ICFs in both FY 2027 and FY 2028. After factoring in the federal share, this proposal will provide additional support to ICFs of \$2.1 million in FY 2027 and \$6.1 million in FY 2028. 	1,100,000
<ul style="list-style-type: none"> • Standardize Benefit Levels in the State Administered General Assistance Program This proposal eliminates the reduced payment standard for transitional individuals in the State Administered General Assistance (SAGA) program. SAGA provides cash assistance to adults unable to work due to a documented medical condition and who meet income and asset limits. Transitional individuals are those whose unemployability status is pending medical review; currently, they receive a reduced monthly benefit if they have no shelter expenses until the review confirms full unemployability, after which benefits are retroactively adjusted to the full monthly benefit under SAGA. Removing this temporary reduction ensures timely, consistent benefits for needy recipients and reduces administrative burden for the agency. 	56,000
Reallocations	
<ul style="list-style-type: none"> • Reflect Sunsetting of Connecticut Housing Engagement and Support Services (CHESS) and Transfer Supportive Housing Funding to DMHAS The model, configuration and requirements imposed by the Centers for Medicare & Medicaid Services have made the CHESS program operationally difficult and challenging for supportive housing providers to implement, in part due to the significant amount of upfront and ongoing work that is not billable. Additionally, the finite number of housing subsidies, coupled with a Medicaid state plan that allows any eligible member to receive pre-tenancy and tenancy services, created a misalignment from the program’s inception. Consistent with recommendations of the interagency workgroup comprised of representatives from DSS, DMHAS, DOH, and OPM, it is proposed that the program be sunset and that CHESS participants with a housing subsidy be transitioned to the existing supportive housing program in DMHAS. 	-375,000
<ul style="list-style-type: none"> • Transfer Achieving Healthcare Efficiency through Accountable Design (AHEAD) Activities from the Office of Health Strategy This proposed reallocation reflects the reassignment of one position from OHS to DSS. The position being transferred will assist with the AHEAD grant along with supporting other healthcare-related projects. 	319,561
<ul style="list-style-type: none"> • Reallocate Grants for Federally Qualified Health Centers to DSS DPH received funding in the enacted budget to support grants to Fair Haven Community Health Care and Cornell Scott-Hill Health Center, two federally qualified health centers (FQHCs). Since DSS already administers grants to FQHCs through its Community Services account, this proposal transfers those grants to DSS for effective administration. 	575,000
<ul style="list-style-type: none"> • Consolidate Funding under the Community Services Account Last session the legislature added funding for Regional Hospice of Western Connecticut and rather than include it under the Community Services account, as has historically been done, a new account was created specific to this provider. In addition, the legislature also added funding for a portable shower pilot under Other Expenses. This proposal consolidates funding for legislative earmarks under the Community Services account. 	0

DEPARTMENT OF AGING AND DISABILITY SERVICES

AGENCY PURPOSE

- To deliver integrated aging and disability services responsive to the needs of Connecticut citizens.
- To provide and coordinate aging and disability programs and services in the areas of employment, education, independent living, accessibility and advocacy.
- To maximize opportunities for the independence and well-being of people with disabilities and older adults in Connecticut.
- To provide leadership on aging and disability issues statewide.
- To advocate for the rights of Connecticut citizens with disabilities and older adults.
- To serve as a resource on aging and disability issues at the state level.

RECOMMENDED ADJUSTMENTS

Baseline Adjustments

- **Provide Funding to Support Restoration of the Statewide Senior Center Coordinator Position** 73,000

Reductions

- **Reduce Funding for Legislatively Directed Funds by 20 Percent** -217,000
Funding for various legislatively directed funds is reduced in aggregate by 20 percent to support the constitutional requirements for budget balance and spending cap compliance.

Expansions

- **Expand the Access and Employment Outcomes for Workers with Disabilities Program** 730,145
Funding will increase Strengthening Professional Advancement in Rehabilitation Knowledge via Certified Training (SPARK-CT), an innovative program to improve competitive employment outcomes for individuals with disabilities while addressing the nationwide direct care worker shortage in contracted community providers. Funding will support 30 training opportunities across three provider host sites.

Reallocations

- **Transfer Three Positions and Related Funding from the Office of Health Strategy to Assist with Administrative Functions at ADS** 343,357
- **Aggregate Funding for Legislatively Directed Funds in New Stand-Alone Appropriation** 0
Funding for legislatively directed programs for senior centers is realigned from Other Expenses to a new, stand-alone appropriation titled "Various Grants." This realignment will increase transparency for these funds and will clarify that the funding is separate from other agency operating costs that are budgeted in the Other Expenses account.

DEPARTMENT OF EDUCATION

AGENCY PURPOSE

- To ensure equity and excellence in education for all children, so that all students have access to high-quality schools and gain the knowledge, skills, and attributes to become lifelong learners and successful in college, careers, and civic life.
- To work with local school districts to improve student achievement and close the achievement gap by providing necessary supports and interventions to districts and schools.
- To support school districts with leadership, curriculum guidance, research, planning, evaluation, education technology, data analyses and other assistance as needed.
- To distribute funds to school districts through grant programs, including Education Cost Sharing (the largest grant to districts) in support of local educational expenses.

RECOMMENDED ADJUSTMENTS

Baseline Adjustments

- **Adjust Funding for School Choice Programs** 2,826,441
This option adjusts funding for Charter Schools and Vocational Agriculture programs based on updated projected enrollment and demographic information, in accordance with the statutory formulas for these grants.
- **Align Appropriation for New Special Education Items with Legislative Direction** -7,364,000
The FY 2027 enacted budget allocated \$9.2 million of the department's Other Expenses appropriation for various new special education grants and initiatives. The budget only identifies uses for \$1.8 million of that funding, leaving \$7.4 million that can be eliminated without reducing planned special education funding or programming.
- **Adjust Funding for Various Formula Grants** -589,046
This option adjusts funding for the Adult Education and Health and Welfare Services for Private Pupils grant in FY 2027 based on the projected requirements of the grant formulas, given the expiration of the caps on these grants in FY 2026 and updated formula inputs.
- **Fund The Education Cost Sharing Formula according to Statutory Requirements** 1,743,875
Funding is provided to comply with the statutory requirements of the Education Cost Sharing (ECS) grant based on preliminary FY 2026 enrollment and demographic data.
- **Reduce Funding for Aspiring Educators Diversity Scholarship Based on Actual Usage** -2,000,000
- **Annualize Recurring Lapses** -91,000
Reduce funding across four grant programs where appropriations have exceeded expenditures for three consecutive fiscal years.

Reductions

- **Maintain Funding for Various Statutory Grants at FY 2026 Levels** -6,678,640
Funding for the Adult Education and Health and Welfare Services for Private Pupils grants is maintained at FY 2026 levels.
- **Eliminate Additional Operating Support Designated for RESC-Operated Magnet Schools** -12,000,000
Supplemental funding for Regional Education Service Center (RESC) Magnet Schools is eliminated; instead, RESCs would be allowed to increase tuition charged to sending entities.
- **Reduce Funding for Legislatively Directed Funds by 20 Percent** -4,836,034
Funding for various legislatively directed funds is reduced in aggregate by 20 percent to support the constitutional requirements for budget balance and spending cap compliance.

Expansions

- **Provide Free Breakfast for Connecticut Students** 12,000,000
Funding is provided to support universal free breakfast for Connecticut students, allowing all of the more than 500,000 students in the state's schools to start their day with a nutritious meal.
- **Establish a Statewide Literacy Strategy and Curriculum** 4,500,000
Funding is proposed to establish a statewide literacy coaching network, under the Center for Literacy Research and Success at SDE, to place trained K-3 literacy coaches in targeted schools. This proposal is based on successful interventions in other states. Funding will provide literacy coaches for 50 schools across five regions of the state, focusing on low performing Title I eligible schools serving an estimated 16,000 K-3 students. Coaches will work with existing school staff to lesson plan, model/demo lessons, implement universal screening programs, engage families, collect and review data, and create action plans.
- **Continue the Connecticut Teacher Registered Apprenticeship Program** 2,000,000
Funding is provided to expand upon a successful COVID-era program designed to strengthen the teacher recruitment pipeline by funding 75 registered teacher apprentices in various districts across the state.
- **Eliminate Reduced Price Meal Charges for Connecticut Students** 523,755
Funding is provided to eliminate reduced price lunch charges across the state, giving access to free lunches to roughly 13,000 additional students.
- **Provide Funding for the Center for Connecticut Education Research Collaboration (CCERC)** 500,000
Funding is provided to support The Connecticut Education Research Collaboration (CCERC) which was founded during COVID to evaluate K-12 education interventions and spending measures. Proposed funding will allow the work of the center to continue providing additional insight into K-12 education spending and driving outcome-based policy.
- **Continue Funding for Successful School-Based Behavioral Health Initiatives** 5,000,000
Continues a successful COVID-era behavioral health pilot program currently operating in seven districts and expands that work to an additional 13 districts, providing services to 20 districts in total. This pilot program worked to establish scalable and sustainable system of coordinated care for participating districts. The scope and nature of the programming provided will depend on the districts identified. SDE will work to identify schools in a variety of settings and regions across the state.

Reallocations

• **Transfer Funding for Legislatively Directed Funds to Various Grants Appropriation**

0

Funding for various legislatively directed funds is realigned from Other Expenses to a new, stand-alone appropriation titled “Various Grants.” This realignment will increase transparency for these funds and will clarify that the funding is separate from other agency operating costs that are budgeted in the Other Expenses account.

TECHNICAL EDUCATION AND CAREER SYSTEM

AGENCY PURPOSE

- To operate the Connecticut Technical Education and Career System (CTECS), the state's largest secondary school system serving over 11,300 high school students and 200 adult learners.
- The CTECS is overseen by an 11-member board that includes members from education and industry, as well as the commissioners from the Department of Labor and the Department of Economic and Community Development.

RECOMMENDED ADJUSTMENTS

Baseline Adjustments

- **Annualize Recurring Other Expenses Deficiencies** 5,000,000
Provide funding to annualize the agency's projected deficiency in the Other Expenses account which is largely the result of increased costs in special education, utilities and other consumables.

Expansions

- **Build In-District Special Education Instructional Capacity at CTECs** 1,155,248
Funding is provided to allow CTECs to hire up to 36 paraeducators across their various campuses in FY 2026, thereby reducing their reliance on contracted services and ensuring an enhanced educational experience for their special education students, in compliance with federal law.
- **Expand Adult Education Related Activities and Services at CTECs** 1,500,000
\$500,000 is provided to conduct a landscape analysis related to Workforce Pell, and \$1 million across Other Expenses and Personal Services to expand adult education offerings at Bristol Tech.

OFFICE OF EARLY CHILDHOOD

AGENCY PURPOSE

- To coordinate and improve the delivery of services to Connecticut’s young children and provision of supports to their families to build economic security.
- To protect the health and safety of children.
- To provide family support to families with young children.
- To deliver voluntary home visiting services.
- To provide access to early care and education services.
- To share critical information with families about the importance of healthy child development.
- To promote quality improvement.
- To ensure a multi-generational approach to support the whole family.

RECOMMENDED ADJUSTMENTS

Baseline Adjustments

- **Adjust Account Name from Nurturing Families Network to CT Home Visiting System** 0
Adjusting the name of the Nurturing Families Network account to align with what the program is now called pursuant to C.G.S. §10-509 - the CT Home Visiting System.

Reductions

- **Reduce Funding for Legislatively Directed Funds by 20 Percent** -75,000
Funding for various legislatively directed funds is reduced in aggregate by 20 percent to support the constitutional requirements for budget balance and spending cap compliance.

Expansions

- **Provide Funding to Implement Birth to Three Tiered Rates** 2,400,000
Pursuant to the comprehensive review of Birth to Three (B23) rates, this proposal increases B23 provider rates to allow for implementation of a new tiered rate system based on provider experience and credentialing level. This payment structure will support a more competitive provider environment and better access to services.

Reallocations

- **Transfer Funding for Legislatively Directed Funds to Various Grants Appropriation** 0
Funding for various legislatively directed funds (Waterford Upstart) is realigned from Other Expenses to a new, stand-alone appropriation titled “Various Grants.” This realignment will increase transparency for these funds and will clarify that the funding is separate from other agency operating costs that are budgeted in the Other Expenses account.
- **Transfer 2Gen Position from Office of Healthcare Strategy (OHS)** 96,705
2Gen is an initiative to promote systemic changes to state programming in low-income households through a comprehensive two-generational service delivery approach, with a focus workforce and school readiness to foster family economic self-sufficiency. This proposal reorganizes the OHS portion of 2Gen within the Office of Early Childhood (OEC) to align with the 2Gen functions currently under OEC’s purview.

STATE LIBRARY

AGENCY PURPOSE

- To provide high-quality library and information services to state government and to the citizens of Connecticut.
- To work cooperatively with related agencies and constituent organizations in providing those services.
- To preserve and make accessible records of Connecticut’s history and heritage.
- To design and implement a records management program for all state agencies within the Executive branch and the towns, cities, boroughs, districts, and other political subdivisions of the state.
- To promote the development and growth of high-quality information services on an equitable basis statewide.
- To provide leadership and cooperative opportunities to the library, educational, and historical communities in order to enhance the value of individual and collective service missions.

RECOMMENDED ADJUSTMENTS

Baseline Adjustments

- **Provide Funding for Increased Utility Costs** 86,821
Funding is provided for increased utility costs at the four facilities maintained by the State Library. Increased costs are anticipated due to inflation of utility rates and changes in the State Library’s operating needs at its facilities.

Reductions

- **Reduce Funding for Legislatively Directed Funds by 20 Percent** -110,000
Funding for various legislatively directed funds is reduced in aggregate by 20 percent to support the constitutional requirements for budget balance and spending cap compliance.
- **Reduce Funding for BorrowIT by 20 Percent** -140,727
Funding for the BorrowIT program is reduced by 20 percent to support the constitutional requirements for budget balance and spending cap compliance. The program, formerly named Connecticutcard, enables residents to borrow materials from public libraries in towns other than their hometown. The State Library distributes appropriated funding to municipalities to reimburse libraries for operating costs to participate in the program. This reduction will not impact DeliverIT CT, the State Library’s inter-library loan delivery service.

Reallocations

- **Aggregate Funding for Legislatively Directed Funds in New Stand-Alone Appropriation** 0
Funding for various legislatively directed funds, including grants to certain non-profits or public libraries, is realigned from Other Expenses to a new, stand-alone appropriation titled “Various Grants.” This realignment will increase transparency for these funds and will clarify that the funding is separate from other agency operating costs that are budgeted in the Other Expenses account.
- **Reallocate Funding for Grants to Public Libraries** 0
Since FY 2024, \$225,000 has been appropriated to Other Expenses at the State Library to support formula incentive grants to public libraries. This funding is reallocated to a separate appropriation to distinguish these grants from other agency operating costs that are budgeted in the Other Expenses account.

OFFICE OF HIGHER EDUCATION

AGENCY PURPOSE

- To advance Connecticut’s postsecondary education goals as defined by state statutes, public acts, and the Governor.
- To safeguard the highest standards of academic quality.
- To license in-state academic programs offered by out-of-state institutions.
- To serve as an information and consumer protection resource.
- To regulate private career schools.
- To facilitate access to opportunities at Connecticut postsecondary institutions by administering both state and federally funded student financial aid programs.
- To administer federal responsibilities, including the Minority Advancement Program, Veterans Program Approval, the Teacher Quality Partnership Grant Program, and the Commission on Community Service, which manages the AmeriCorps program.
- To operate the Alternative Route to Certification program for college-educated professionals interested in becoming teachers.

RECOMMENDED ADJUSTMENTS

Reductions

- **Reduce Funding for Legislatively Directed Funds by 20 Percent** -472,216
Funding for various legislatively directed funds is reduced in aggregate by 20 percent to support the constitutional requirements for budget balance and spending cap compliance.

Reallocations

- **Transfer Funding for Legislatively Directed Funds to Various Grants Appropriation** 0
Funding for various legislatively directed funds, including the Connecticut AI Alliance and Center for School Safety and Crisis Preparation, is realigned from Other Expenses to a new, stand-alone appropriation titled “Various Grants.” This realignment will increase transparency for these funds and will clarify that the funding is separate from other agency operating costs that are budgeted in the Other Expenses account.
- **Reallocate Funding for Open Educational Resources Council from the Office of Higher Education to Connecticut State Colleges and Universities** -50,000
The enacted biennial budget includes a \$50,000 appropriation to the Office of Higher Education (OHE) for the Open Educational Resources (OER) Coordinating Council. Section 10a-44d of the general statutes establishes the OER Council as a part of Connecticut State Colleges and Universities (CSCU). This funding is reallocated from OHE to CSCU to align the budgeted resources with their intended recipient.
- **Transfer the Office of the Student Loan Ombudsperson from the Department of Banking to the Office of Higher Education** 532,300
Budgeted funding and positions for the Office of the Student Loan Ombudsperson are transferred from the Department of Banking to the Office of Higher Education. This realignment will allow the ombudsperson to collaborate with Office of Higher Education staff to deliver timely information and resources to residents navigating student loan challenges, particularly amid ongoing changes to federal policies concerning student loans.

UNIVERSITY OF CONNECTICUT

AGENCY PURPOSE

- To serve as the flagship university for public higher education and the primary doctoral degree granting public institution in the state.
- To create and disseminate knowledge by means of scholarly and creative achievements, graduate and professional education, and outreach, through freedom of academic inquiry and expression.
- To help every student grow intellectually and become a contributing member of the state, national, and world communities through a focus on teaching and learning.
- To embrace diversity and cultivate leadership, integrity, and engaged citizenship in its students, faculty, staff, and alumni, through research, teaching, service, outreach, and public engagement.
- To promote the health and well-being of Connecticut’s citizens through enhancing the social, economic, cultural, and natural environments of the state and beyond, and through the university’s role as a land and sea grant institution.

RECOMMENDED ADJUSTMENTS

Reductions

- **Reduce Funding for Legislatively Directed Funds by 20 Percent** -224,000
Funding for various legislatively directed funds is reduced in aggregate by 20 percent to support the constitutional requirements for budget balance and spending cap compliance.

Reallocations

- **Aggregate Funding for Legislatively Directed Funds in New Stand-Alone Appropriation** 0
Funding for various legislatively directed funds, including the Institute for Resilience and Climate Adaptation and other program specific funding, is realigned from Operating Expenses (also known as the block grant) to a new, stand-alone appropriation titled “Various Grants.” This realignment will increase transparency for these funds and will clarify that the funding is separate from other operating costs that are budgeted in the block grant account.

UNIVERSITY OF CONNECTICUT HEALTH CENTER

AGENCY PURPOSE

- To educate individuals pursuing careers in undergraduate, graduate medical and dental health care and education, public health, biomedical, and behavioral sciences. To help practicing health care professionals maintain their proficiency through continuing education programs.
- To advance knowledge through basic science, biomedical, clinical, behavioral, and social research. To foster bench-to-bedside scientific progress in partnerships across campus, with The Jackson Laboratory, through serving as a technology business incubator and leading thought in scientific communities.
- To deliver health care services effectively and efficiently, applying the latest advances in research to care for nearly 1.4 million annual patient visits to UConn John Dempsey Hospital and clinical office sites supported by members of the medical and dental faculty practice plans.
- To deliver health care and wellness services to underserved citizens.
- To further Connecticut’s position as a leader in the growing field of bioscience and contribute to improving the state’s economic position by transferring its research discoveries into new technologies, products and jobs.

RECOMMENDED ADJUSTMENTS

Reductions

- **Reduce Funding for Legislatively Directed Funds by 20 Percent** -633,000
Funding for various legislatively directed funds is reduced in aggregate by 20 percent to support the constitutional requirements for budget balance and spending cap compliance.

Reallocations

- **Aggregate Funding for Legislatively Directed Funds in New Stand-Alone Appropriation** 0
Funding for various legislatively directed funds, including endometriosis research and a migraine study, is realigned from Operating Expenses (also known as the block grant) to a new, stand-alone appropriation titled “Various Grants.” This realignment will increase transparency for these funds and will clarify that the funding is separate from other operating costs that are budgeted in the block grant account.

TEACHERS' RETIREMENT BOARD

AGENCY PURPOSE

- To administer a retirement program that provides retirement, disability and survivorship benefits for Connecticut public school educators and their survivors and beneficiaries.
- To sponsor Medicare supplemental and Medicare Advantage health insurance programs for retired members and eligible dependents.
- To provide a health insurance subsidy to retired members and their eligible dependents who participate in the health insurance program through the last employing board of education.

RECOMMENDED ADJUSTMENTS

Baseline Adjustments

- **Fund the Actuarially Determined Employer Contribution for the Teachers' Retirement System** 26,519,000

CONNECTICUT STATE COLLEGES AND UNIVERSITIES

AGENCY PURPOSE

- To provide affordable, innovative and rigorous programs that permit students to achieve their personal and higher education career goals, as well as contribute to the economic growth of the state, through the system’s seventeen Connecticut State Colleges and Universities.
- To coordinate programs and services through public higher education and among its institutions.
- To conduct regular reviews of existing and new academic programs and advance the educational and economic interests of the state.

RECOMMENDED ADJUSTMENTS

Baseline Adjustments

- **Reflect Lower Cost in the First Year of Finish Line Scholars Program** -3,850,000
The enacted budget includes a \$7.7 million appropriation in FY 2027 for the Finished Line Scholars program at Connecticut State Colleges and Universities. When fully annualized, the appropriation will support free tuition for eligible students for two years. Actual costs for the program will be lower in the first year of the program, as only one cohort of students enrolling for the 2026-2027 academic year will be eligible. To phase in this new program for its first year in FY 2027, the appropriation is reduced by 50 percent.

Reductions

- **Reduce Funding for Legislatively Directed Funds by 20 Percent** -510,000
Funding for various legislatively directed funds is reduced in aggregate by 20 percent to support the constitutional requirements for budget balance and spending cap compliance.

Expansions

- **Provide Funding for Food Service at State Universities** 458,980
Funding is provided to support increased contractual costs for food services on Connecticut State University campuses. These additional resources will accommodate the recently negotiated contracts for food service employees at Central, Southern, and Western Connecticut State University, ensuring the continued provision of food services without additional student fees.

Reallocations

- **Aggregate Funding for Legislatively Directed Funds in New Stand-Alone Appropriation** 0
Funding for various legislatively directed funds, including the Social Work and Law Enforcement Project and Connecticut AI Academy, is realigned from the Connecticut State University and Charter Oak State College block grants to a new, stand-alone appropriation titled “Various Grants.” This realignment will increase transparency for these funds and will clarify that the funding is separate from other agency operating costs that are budgeted in the block grant accounts.
- **Reallocate Funding for Open Educational Resources Council from Office of Higher Education** 50,000
The enacted biennial budget includes a \$50,000 appropriation to the Office of Higher Education (OHE) for the Open Educational Resources (OER) Coordinating Council. Section 10a-44d of the general statutes establishes the OER Council as a part of Connecticut State Colleges and Universities (CSCU). This funding is reallocated from OHE to CSCU to align the budgeted resources with their intended recipient.

DEPARTMENT OF CORRECTION

AGENCY PURPOSE

- To strive to be a global leader in progressive correctional practices and partnered re-entry initiatives to support responsive evidence-based practices aligned to law-abiding and accountable behaviors.
- To prioritize safety and security of staff, victims, citizens and offenders.

RECOMMENDED ADJUSTMENTS

Baseline Adjustments

- **Annualize Funding for Various Projected FY 2026 Deficiencies** 14,200,000
Funding is provided to annualize estimated FY 2026 deficiencies in Personal Services of \$3 million, Other Expenses of \$9 million and Inmate Medical Services of \$2.2 million.
- **Reflect Costs to Comply with Federal Requirements Regarding Services for Justice-Involved Youth** 1,246,000
Pursuant to section 5121 of the Consolidated Appropriations Act of 2023, states are required to provide Targeted Case Management (TCM) and Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) to all eligible juveniles under 21 years of age and former foster care individuals age 18 up to age 26 who are within 30 days of their scheduled date of release. This change will improve care coordination and physical and behavioral health outcomes for these youth prior to release from a carceral setting, including pre-adjudicated youth pending disposition. This adjustment provides funding to support implementation of these services, including program management, claiming, and the expanded provision of services. These costs will be partially offset by federal grants revenue.

Expansions

- **Provide Funds for a Health Services Innovation Pilot** 1,000,000
Funding is provided for a study conducted by the state's contracted Administrative Services Organization (ASO) to examine inpatient hospitalizations and outpatient visits of incarcerated individuals at the Department of Correction with the aim of improving health care quality and outcomes.
- **Provide Funding for a Deputy Commissioner Position to Oversee Inmate Medical Services** 200,000

DEPARTMENT OF CHILDREN AND FAMILIES

AGENCY PURPOSE

- To be a comprehensive, consolidated agency serving children and families, to include child protective and family services, children’s behavioral health, prevention and educational services, as mandated.
- To promote children’s safety, health and learning by partnering with communities and empowering families to raise resilient children who thrive through the lenses of:
 - Safety: keeping children safe with focus on the most vulnerable populations;
 - Permanency: connecting systems and processes to achieve timely permanency;
 - Racial Justice: eliminating racial and ethnic disparate outcomes within our Department;
 - Child & Family Well-Being: providing early intervention and upstream support for families;
 - Workforce: engaging our workforce through an organizational culture of mutual support;
 - Prevention: providing early intervention and upstream support for families.

RECOMMENDED ADJUSTMENTS

Baseline Adjustments

- **Adjust Funding for Board and Care Accounts to Reflect Current Caseloads and Program Requirements** 4,650,000
- **Transfer Funding to Reflect Program Requirements Related to the Substance Use Disorder (SUD) Waiver** 1,635,000
 The substance use disorder demonstration waiver enables federal reimbursement on SUD services for individuals that would ordinarily not be covered under federal rules. The additional revenue is to be reinvested to strengthen the SUD service system by ensuring a complete array of services is available. This allows Medicaid members with opioid use disorder and other SUDs to receive medically necessary treatment services in the most appropriate setting. While DSS, DMHAS, DCF, DOC, and the Judicial Branch have worked collaboratively to identify the needs in each agency, it was anticipated that, as the program continues to roll out, funding would need to be reallocated. To address this, the Substance Use Disorder Waiver Reserve account was established in DSS for any additional revenue generated that is not already allocated to the participating agencies. This adjustment reflects the transfer of funding from this account to address agency requirements.
- **Reflect Current Requirements in the DCF Supportive Housing Program** 500,000

Reductions

- **Reduce Funding for Legislatively Directed Funds by 20 Percent** -160,000
 Funding for various legislatively directed funds is reduced in aggregate by 20 percent to support the constitutional requirements for budget balance and spending cap compliance.

Reallocations

- **Aggregate Funding for Legislatively Directed Funds in New Stand-Alone Appropriation** 0
 Funding for various legislatively directed funds including Love146, Thames River Community Service and Left Hearts is realigned from Other Expenses to a new, stand-alone appropriation titled “Various Grants.” This realignment will increase transparency for these funds and will clarify that the funding is separate from other agency operating costs that are budgeted in the Other Expenses account.

JUDICIAL DEPARTMENT

AGENCY PURPOSE

- To operate a fair, efficient and open court system responsible for adjudicating all state criminal, civil, family, juvenile and administrative cases.
- To ensure meaningful access to justice by providing translation services to limited English-speaking persons; reasonable accommodations under the ADA; and services to assist self-represented parties including public information centers, volunteer attorney days, plain language forms and publications.
- To ensure the principles of fair and reasonable bail by interviewing all detained criminal defendants to determine whether they should remain incarcerated during the pendency of their case.
- To maintain secure and safe conditions in courthouses and other Judicial Department facilities.
- To effectively resolve cases involving personal injury, business disputes, housing matters, small claims and other civil cases.
- To create and sustain a full range of alternatives to incarceration and evidence-based services including mental health and substance abuse services for adult and juvenile offenders.
- To provide advocates to victims of violent crime and to ensure that they are provided with services and financial compensation.
- To effectively resolve family and interpersonal conflicts in cases before the court through a comprehensive program of negotiation, mediation, evaluation and education.
- To provide safe and secure custody, treatment and rehabilitative services for children and families through the juvenile justice system.
- To assist parents by enforcing, reviewing and adjusting child support orders.
- To reduce recidivism of persons placed on probation by utilizing effective supervision practices and intervention strategies that promote positive behavior change and restorative justice principles with persons placed on probation.

For compliance with Sec. 4-73 (g) of the Connecticut General Statutes, the proposed appropriations contained in section C of this document reflect the appropriation requirements transmitted to the Secretary of the Office of Policy and Management by the Chief Court Administrator.

RECOMMENDED ADJUSTMENTS

Baseline Adjustments

- **Annualize Cost of Existing Wage Agreements** 13,976,310
- **Transfer Funding to Reflect Program Requirements Related to the Substance Use Disorder Waiver** 2,640,000
The substance use disorder (SUD) demonstration waiver enables federal reimbursement for SUD services for individuals that would ordinarily not be covered under federal rules. The additional revenue is to be reinvested to strengthen the SUD service system by ensuring a complete array of services is available. This allows Medicaid members with opioid use disorder and other SUDs to receive medically necessary treatment services in the most appropriate setting. While DSS, DMHAS, DCF, DOC, and the Judicial Branch have worked collaboratively to identify the needs in each agency, it is anticipated that, as the program continues to roll out, funding will need to be reallocated. To address this, the waiver reserve account was established for any additional revenue generated that is not already allocated to the participating agencies. For this fiscal year, DSS, with the approval of OPM, will transfer funds through interagency agreements to meet program requirements. This adjustment transfers funding from the Substance Use Disorder Waiver Reserve account to address requirements in DMHAS, DCF, and Judicial's CSSD, as well as DSS' Medicaid account.
- **Annualize Property Management Expenditures** 1,255,725
- **Provide Funding for Consolidated Appropriations Act Compliance** 1,027,942
Pursuant to section 5121 of the Consolidated Appropriations Act of 2023, states are required to provide Targeted Case Management (TCM) and Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) to all eligible juveniles under 21 years of age and former foster care individuals age 18 up to age 26 who are within 30 days of their scheduled date of release (or as soon as practicable after release from the public institution). This change, which is to be in place by July 1, 2026, will improve care coordination and physical and behavioral health outcomes for these youth prior to release from a carceral setting, including pre- adjudicated youth pending disposition. This adjustment provides funding to support implementation of these services, including program management, claiming, and the expanded provision of services. These costs will be partially offset by Federal Grants revenue.
- **Annualize Electricity Expenditures** 574,202

Reductions

- **Eliminate Probate Court Administration Fund Subsidy Based on Available Fund Balance** -3,634,932
- **Reduce Funding for Legislatively Directed Funds by 20 Percent** -497,000
Funding for various legislatively directed funds is reduced in aggregate by 20 percent to support the constitutional requirements for budget balance and spending cap compliance.

Reallocations

- **Reallocate Resources to Establish the Services for Child and Adult Victims Account** 0
Funding was appropriated in the adopted FY 2026-2027 biennium budget to expand support for victims of child abuse and sexual assault in the amounts of \$1.25 million for the Connecticut Children's Alliance and \$1.25 million for the CT Alliance to End Sexual Violence. This reallocation consolidates the funding to a more appropriate account.
- **Reallocate EMERGE CT Funding To Correct Account** 0

PUBLIC DEFENDER SERVICES COMMISSION

AGENCY PURPOSE

- To ensure the constitutional administration of criminal justice within the state criminal court system by maintaining a public defender office at all juvenile and adult court locations throughout the state.
- To provide legal representation to indigent accused children and adults in criminal trials and appeals, extradition proceedings, habeas corpus proceedings arising from a criminal matter, delinquency and juvenile post-conviction matters, Psychiatric Security Review Board cases, post-conviction petitions, and coordinating DNA testing in cases and motions for convicted persons seeking exoneration through the Connecticut Innocence Project.
- To provide in-house social work services to indigent juvenile and adult clients as an integral part of the legal defense team for purposes of diversion, sentence mitigation, and formulation of alternatives to incarceration proposals.
- To contribute to public safety initiatives by participation in the development of specialized programs that promote successful reentry through reduced violence, homelessness, and recidivism by utilizing domestic violence courts, community courts, diversionary programs, drug intervention, alternatives to incarceration, and team case management.
- To provide a balanced advocacy perspective within the criminal justice community by participation on state policy boards, task forces, and committees involved in addressing criminal and juvenile justice issues.
- To fulfill the state's constitutional obligation to provide counsel for indigent accused in a professional, effective, and cost efficient manner.
- To ensure that all indigent children and adults involved in child welfare matter in the Superior Court receive competent representation.
- To provide qualified guardian ad litem representation for children involved in family court cases.
- To provide representation for contemnors in support enforcement cases.
- To provide funding for the reasonable cost of expert services for pro se indigent defendants in criminal cases.

For compliance with Sec. 4-73 (g) of the Connecticut General Statutes, the proposed appropriations contained in section C of this document reflect the appropriation requirements transmitted to the Secretary of the Office of Policy and Management by the Chief Public Defender.

RECOMMENDED ADJUSTMENTS

Reallocations

- **Reallocate Funding to Support Expert Witness Expenditures for Public Defender Eligibility Thresholds** 0

DEBT SERVICE - STATE TREASURER

AGENCY PURPOSE

- To service all state debt obligations. Funds for the payment of debt service are appropriated to non-functional accounts.

RECOMMENDED ADJUSTMENTS

Baseline Adjustments

- Adjust General Fund Debt Service to Reflect Anticipated Requirements** -2,683,455
This adjustment reflects savings due to timing of issuance, reduced costs due to refunding bonds, and moderate savings from bond premium.
- Adjust UConn 2000 Debt Service to Reflect Anticipated Requirements** 28,327,500
This adjustment increases UConn 2000 debt service to reflect actual issuance amounts. The adopted FY 2027 budget anticipated a UConn tax-exempt General Obligation sale of \$200 million in the Spring of 2026. Due to both increased demands by the University of Connecticut and to support the newly adopted Joint Venture language, the issuance of UConn 2000 bonds have been increased. This adjustment reflects a revised \$250 million UConn tax-exempt General Obligation sale and a new \$148 million UConn taxable General Obligation sale.
- Reduce Special Transportation Debt Service to Reflect Anticipated Requirements** -63,162,280
Reflects updated debt service based on estimated actuals. Reduced costs primarily attributable to the payoff of outstanding debt and the use of Debt Service Reserve Fund excess. Additional reductions from the timing of issuance, lower costs due to refunding sales, and moderate savings due to lower than budgeted borrowing costs.

STATE COMPTROLLER - FRINGE BENEFITS

AGENCY PURPOSE

- To provide administrative oversight over all statewide employee fringe benefit accounts in both the General Fund and Special Transportation Fund. These accounts cover employer contributions for state employee unemployment compensation, group life insurance, social security taxes, tuition reimbursement, other post employment benefits, health insurance for state employees and retirees, and the state employee, judicial, elected official, and higher education retirement plans. Oversight of these accounts includes budgeting, analyzing, forecasting, and processing payments against legislatively approved appropriations.

RECOMMENDED ADJUSTMENTS

Baseline Adjustments

• Remove Adjustments Related to Plan to Reduce State Health Plan Charges & Leverage Federal Dollars - General Fund The biennial budget included FY 2027 health savings associated with a proposal to negotiate lower rates under the state employee and non-Medicare retiree health plans and leverage federal dollars by increasing hospital supplemental payments in DSS. Since that initiative is not moving forward, the savings are removed.	69,571,600
• Remove Adjustments Related to Plan to Reduce State Health Plan Charges & Leverage Federal Dollars - Special Transportation Fund	2,680,500
• Adjust Alternate Retirement Plan Costs Based on Change in Accounting Method	-50,949,100
• Adjust State Employee Health Insurance Costs Based on Recent Activity - General Fund	43,821,100
• Adjust State Employee Health Insurance Costs Based on Recent Activity - Special Transportation Fund	11,500,500
• Adjust Retiree Health Insurance Costs Based on Recent Activity and Federal Changes	-6,536,420
• Fund the State Employees Retirement System (SERS) - General Fund	5,366,535
• Fund the State Employees Retirement System (SERS) - Special Transportation Fund	448,760
• Adjust for Net Impact of Position Changes - Technical Changes Impacting General Fund	632,900
• Fund the Judges, Family Support Magistrates, & Compensation Commissioners Retirement System	358,266

Reductions

• Adjust for Net Impact of Position Changes - Reductions Impacting General Fund	128,500
--	---------

Expansions

• Adjust for Net Impact of Position Changes - Expansions Impacting General Fund	3,494,000
--	-----------

WORKERS' COMPENSATION CLAIMS - DEPARTMENT OF ADMINISTRATIVE SERVICES

AGENCY PURPOSE

- To administer the State of Connecticut's workers' compensation program.
- To procure and manage the third-party workers' compensation claim administration contract.
- To mitigate risk by offering a wide variety of loss control and safety services for the state.

RECOMMENDED ADJUSTMENTS

Reallocations

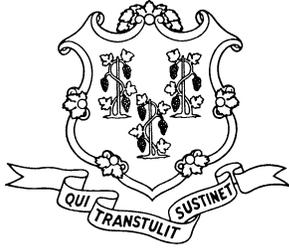

- **Reallocate Separate Worker's Compensation Claims Accounts into One Account**

0

All workers' compensation claims accounts are consolidated into a single appropriation to enable the efficient and timely balancing of fluctuations in these risk-based accounts. Agency-specific costs are available through various reports generated by the agency.

SECTION C

PROPOSED APPROPRIATIONS

PROPOSED APPROPRIATION REVISIONS FOR FY 2027

Note that the proposed appropriation revisions which are contained in this section of the Governor's Recommended Budget Adjustments for the Legislative Branch, the Judicial Branch, the State Elections Enforcement Commission, the Freedom of Information Commission, and the Office of State Ethics reflect the amounts transmitted to the Secretary of the Office of Policy and Management by the Joint Committee on Legislative Management, the Chief Court Administrator, the Chief Public Defender, and the Executive Directors of the State Elections Enforcement and Freedom of Information Commissions and the Office of State Ethics.

Section 1. (Effective July 1, 2027) The amounts appropriated for the fiscal year ending June 30, 2027, in section 1 of public act 25-168, regarding the GENERAL FUND are amended to read as follows:

General Obligation Automatic and Pre-Authorized Authorizations

Contained within the capital budget are authorizations that were previously adopted during prior legislative sessions. These are broken into two different categories:

1. Automatic Authorizations: Programs funded under these authorizations are automatically authorized and allocated as scheduled in statute. These programs do not need to be allocated through the normal State Bond Commission process.
2. Pre-Authorized: Programs that are funded with a pre-authorization will be automatically authorized as scheduled in state statute. These programs are required to be allocated through the State Bond Commission process prior to any expenses being made.

A list of all Automatic and Pre-Authorized programs is listed in the tables below. In Fiscal Year 2027 they total \$422,321,428. The Governor's Recommended Fiscal Year 2027 midterm capital budget does not include any changes to these scheduled authorizations.

FEDERAL TAX LAW

Federal tax law severely restricts the flexibility of the State in issuing tax-exempt bonds and establishes tests for the tax-exemption of interest on bonds issued by governmental units. Therefore, the recommended bond authorizations on the following pages may not all be issued as tax-exempt due to Federal tax law definitions of what constitutes governmental bonds.

STATUTORY DEBT LIMIT

Section 3-21 of the General Statutes, as amended, provides that "No bonds, notes or other evidences of indebtedness for borrowed money payable from General Fund tax receipts of the State shall be authorized by the general assembly except such as shall not cause the aggregate amount of (1) the total amount of bonds, notes or other evidences of indebtedness payable from General Fund tax receipts authorized by the general assembly but which have not been issued and (2) the total amount of such indebtedness which has been issued and remains outstanding, to exceed one and six-tenths times the total general fund tax receipts of the State for the fiscal year in which any such authorization will become effective, as estimated for such fiscal year by the joint standing committee of the general assembly having cognizance of finance, revenue and bonding in accordance with section 2-35. In computing such aggregate amount of indebtedness at any time, there shall be excluded or deducted, as the case may be, (1) the principal amount of all such obligations as may be certified by the Treasurer (A) as issued in anticipation of revenues to be received by the State during the period of 12 calendar months next following their issuance and to be paid by application of such revenue or (B) as issued to refund or replace any such indebtedness then existing and outstanding in an amount not exceeding such existing indebtedness or (C) as issued and outstanding in anticipation of particular bonds then unissued but fully authorized to be issued in the manner provided by law for such authorization, provided, so long as any of said obligations are outstanding, the entire principal amount of such particular bonds thus authorized shall be deemed to be outstanding and be included in such aggregate amount of indebtedness or (D) as payable solely from revenues of particular public improvements, (2) the amount which may be certified by the Treasurer as the aggregate value of cash and securities in debt retirement funds of the State to be used to meet principal of outstanding obligations included in such aggregate amount of indebtedness, (3) every such amount as may be certified by the Secretary of the Office of Policy and Management as the estimated payments on account of the costs of any public work or improvement thereafter to be received by the State from the United States or agencies thereof and to be used, in conformity with applicable federal law, to meet principal of obligations included in such aggregate amount of indebtedness, (4) all authorized and issued indebtedness to fund any budget deficits of the State for any fiscal year ending on or before June 30, 1991, (5) all authorized indebtedness to fund the program created pursuant to section 32-285, (6) all authorized and issued indebtedness to fund any budget deficits of the State for any fiscal year ending on or before June 30, 2002, (7) all indebtedness authorized and issued pursuant to section 1 of public act 03-1 of the September 8 special session, (8) all authorized indebtedness issued pursuant to section 3-62h, (9) any indebtedness represented by any agreement entered into pursuant to subsection (b) or (c) of section 3-20a as certified by the Treasurer, provided the indebtedness in connection with which such agreements were entered into shall be included in such aggregate amount of indebtedness, and (10) all indebtedness authorized and issued pursuant to section 2 of public act 09-2 of the June special session. In computing the amount of outstanding indebtedness, only the accreted value of any capital appreciation obligation or any zero coupon obligation which has accreted and been added to the stated initial value of such obligation as of the date of any computation shall be included."

The estimated debt-incurring margins are calculated below.

	<u>FY 2027</u>
Revenues	\$ 22,796,400,000
Multiplier	1.6
Limit	\$ 36,474,240,000
Bonds Subject to Limit*	\$ 29,949,148,671
Debt Incurring Margin	\$ 6,525,091,329

In accordance with the General Statutes, the Treasurer shall compute the aggregate amount of indebtedness as of January 1, and July 1 each year and shall certify the results of such computation to the Governor and the General Assembly. If the aggregate amount of indebtedness reaches 90% of the statutory debt limit, the Governor shall review each bond act for which no bonds, notes or other evidences of indebtedness have been issued, and recommend to the General Assembly priorities for repealing authorizations for remaining projects.

*Does not include Tax Incremental Financings, Special Transportation, Bradley Airport, Clean Water Fund Revenue, Connecticut Unemployment Revenue Bonds, Economic Recovery Notes and Pension Obligation Bonds. Includes Hartford Contract Assistance.

GENERAL OBLIGATION CAPITAL BUDGET PROGRAMS - FY 2027 MIDTERM

GRAND TOTAL	\$ 2,750,400,000

Note: Expenditures from bond authorizations may occur in years other than the year of authorization.

STATUTORY GRANTS TO MUNICIPALITIES

INTRODUCTION

This section provides actual grant payments for FY 2025 and estimated payments for FY 2026 and FY 2027 under the Governor's recommended budget adjustments for certain ongoing grant programs under which the State of Connecticut's payments to municipalities are determined by statutory formulas or payment lists.

Grantees include cities, towns, boroughs, regional school districts, fire districts, and other special taxing districts that receive program funding directly from the state. The sum of amounts in certain columns may not reflect the total approved funding due to rounding. Grantee-specific estimates are not available for programs listed in the Additional Grants section.

Questions concerning grant programs should be directed to the appropriate agency. Staff from the Department of Education (SDE)'s Finance and Internal Operations division is the contact for questions concerning all education programs and grants. SDE also provides periodic update of data for education grants under the Fiscal Services directory on the agency's website. The Department of Transportation (DOT) is the contact for questions concerning the Town Aid Road Grant. For questions regarding any other program in this document, contact the Office of Policy and Management (OPM)'s Intergovernmental Policy and Planning Division.

The Governor's recommended budget adjustments for FY 2027 reflect updated formula calculations for Tiered PILOT and motor vehicle tax reimbursements to fund those programs at statutory levels. The updated calculations result in an \$8.3 million increase to Tiered PILOT and a \$15.9 million decrease to motor vehicle reimbursements.

The tables that follow this description reflect estimated town-by-town grant amounts for the programs described in the Grant Program Summaries section.

Audit adjustments, timing of payments, application of statutory penalties, the receipt of more current data, or revised calculations can materially impact actual payments.

GRANT SUMMARIES

Payment in Lieu of Taxes (PILOT)

The Office of Policy and Management (OPM) administers Payment-in-Lieu of Taxes (PILOT) programs for: (1) state-owned property, and (2) certain private, tax-exempt property. Prior to FY 2022, each grant program was funded via separate General Fund appropriations to OPM.

A grantee's payment in any year may reflect a modification due to an audit of the municipal assessment claim. Each town's PILOT grant is proportionally increased or reduced if the total amount of payable formula grants varies from the available appropriation from the Municipal Revenue Sharing Fund.

Notwithstanding the statutory formulas, town-by-town payment lists were established for both PILOT programs from FY 2016 through FY 2021.

The state-owned property reimbursement component of the Tiered PILOT program provides payments for real property tax losses due to exemptions applicable to state-owned real property, certain real property that is the subject of a state lease or long-term financing contract, municipally-owned airports and certain land held in trust by the federal government.

A property's use and the amount of state-owned real property in a town have historically determined the percentage of property tax exemptions reimbursed by PILOT, which are:

100% for state prison facilities used for purposes of incarceration in the prior fiscal year, any portion of the John Dempsey Hospital used as a permanent medical ward for prisoners, property and facilities owned by the Connecticut Port Authority, land designated under the 1983 settlement boundary and taken into trust by the federal government for the Mashantucket Pequot Tribal Nation, and all state-owned property in a town in which the State of Connecticut owns more than 50% of the property within the town's boundaries;

65% for the Connecticut Valley Hospital and Whiting Forensic Hospital; and

45% for all other state-owned real property, certain real property leased by the state as described in section 4b-39, municipally owned airports and certain other real property owned or controlled by the federal government.

Since FY 2015, the four towns of Windsor Locks, Suffield, East Granby and Windsor receive a total of \$4,678,571.79 directly from the Connecticut Airport Authority, for the Bradley International Airport property, regardless of actual property tax loss. This payment is not part of the State-Owned PILOT payment.

The private college and hospital reimbursement component of Tiered PILOT provides payments for real property tax losses due to exemptions applicable to eligible private colleges and general and free-standing chronic disease hospitals.

The calculation of the full PILOT for towns and certain fire districts reflects 77% of their tax losses for the appropriate grand list. Exceptions to this calculation include the campuses of the Connecticut Healthcare Systems located in Newington and West Haven and owned by the United States Department of Veterans' Affairs.

Since FY 2022, municipalities and districts have received a percentage of their full PILOT calculations based on the qualifications established in section 12-18b. The Tiered PILOT program divides grantees into three separate tiers:

- Tier 1: Municipalities with an Equalized Net Grand List Per Capita^[1] (ENGLPC) less than \$100,000, Alliance Districts, and municipalities in which the State of Connecticut owns more than 50% of the property within the town's boundaries.
- Tier 2: Municipalities with an ENGLPC between \$100,000 and \$200,000.
- Tier 3: Municipalities with an ENGLPC greater than \$200,000.

Grants paid to districts are calculated using the tier of the municipality in which the district is located as follows:

- Tier 1 grantees receive 53% of the total PILOT formula calculations described above.
- Tier 2 grantees receive 43%; and
- Tier 3 grantees receive 33%.

Additionally, every grantee must receive at least the same amount as the sum of State-Owned PILOT and College & Hospital PILOT grants that they received in FY 2021.

The Governor's recommended budget adjustments for FY 2027 include an \$8.3 million increase to the appropriation from MRSF for Tiered PILOT to fund payments at the statutory level.

Motor Vehicle Tax Payments

C.G.S. Section 4-66l provides for motor vehicle property tax grants. Pursuant to C.G.S. section 12-71e, municipalities may not impose mill rates higher than 32.46 mills on motor vehicles. The municipal transition grant reimburses local governments for the foregone tax revenue resulting from this motor vehicle property tax cap.

The grant program also reimburses districts directly for revenue impacts resulting from the proposed new mill rate cap if the combined mill rate of the district and the municipality in which it is located exceeds 32.46 mills.

The Governor's recommended budget adjustments for FY 2027 include a \$15.9 million decrease to the appropriation from MRSF for motor vehicle tax grants to reflect the decreased cost to reimburse municipalities and districts for the revenue loss caused by the cap. Grant amounts based on the formulas vary from year to year due to several factors including changes among property values, mill rates, and economic factors in each municipality.

Supplemental Revenue Sharing Grants

From FY 2018 through FY 2023, Municipal Revenue Sharing grants and Municipal Stabilization grants were paid to municipalities and one fire district according to payment lists in the budget act for each biennium. In FY 2024, the payment lists for Municipal Revenue Sharing and Municipal Stabilization were combined and the total combined payments are now distributed annually as Supplemental Revenue Sharing grants from the Municipal Revenue Sharing Fund pursuant to subsection (e) of section 4-66p.

As of FY 2026, the following direct payments are also specified in current statute: \$5,000,000 to Bridgeport for non-specific PILOT support; \$100,000 for the Connecticut Hospice in Branford; \$1,000,000 for the United States Coast Guard Academy in New London; and \$60,000 for the state-owned forest in Voluntown.

The enacted biennial budget for FY 2026 and FY 2027 includes a \$6.1 million reallocation from Tiered PILOT to Supplemental Revenue Sharing Grants to effectuate changes proposed to the Tiered PILOT formula with a net-zero fiscal impact to municipalities and districts. The enacted budget further increases the appropriation for Supplemental Revenue Sharing by \$5.1 million to accommodate increased grant payments to Danbury, Enfield, Naugatuck, New Haven, Stamford, Stratford, and West Hartford.

Mashantucket Pequot And Mohegan Fund Grant

The Office of Policy and Management (OPM) administers the Mashantucket Pequot and Mohegan Fund grant program under which payments from the proceeds of the Mashantucket Pequot and Mohegan Fund are determined pursuant to C.G.S. section 3-55i, section 3-55j, section 3-55k, and section 96 of P.A. 06-187, which is not codified but remains in effect.

The formula in statute has not been in effect since FY 2017, and payments in each year have instead been issued according to a payment list established in each biennial budget act. The payment list for Mashantucket Pequot and Mohegan Fund grants in the enacted biennial budget for FY 2026 and FY 2027 are funded at the same level as in FY 2025.

Pursuant to subsection (l) of section 3-55j, any municipality in which a school uses a Native American name, symbol, or other reference as the mascot, nickname, logo, or team name for its athletic team shall not receive a grant under this program in FY 2023 or thereafter. Exceptions are made in certain circumstances specified in the same section. Additionally, any municipality that fails to comply with the provisions of section 22a-27j (a) receives a penalty to their grant payment.

Section 472 of PA 25-168, as amended by section 203 of PA 25-174, directs OPM to distribute \$800,000 each to the towns of Ledyard and Montville from the General Fund. The Governor's recommended midterm adjustments reallocate this funding from the General Fund to the Mashantucket Pequot and Mohegan Fund, resulting in a \$1.6 million increase to the total appropriation for grants from the latter fund.

Grantees receive payments in three installments on or before January 1st, April 1st and June 30th.

Town Aid Road

The Department of Transportation administers the Town Aid Road (TAR) grant pursuant to C.G.S. section 13a-175a through section 13a-175e, inclusive, and section 13a-175i. Towns and boroughs use these grants for various purposes, including the construction and maintenance of public highways, roads and bridges. The Secretary of the Office of Policy and Management may approve the use of funds for other purposes. Grant calculations depend upon factors that include population data and the number of a municipality's improved and unimproved road miles. There is an allocation to the amounts the statutes specify for each formula calculation. Additionally, there is a proportionate adjustment of grant totals, as calculated, to the amount of funding available.

Municipalities receive 50% of this grant in July and the balance in January.

The enacted capital budget for FY 2026 and FY 2027 increases the bond authorization for TAR from \$60 million to \$80 million, providing a proportional 33% increase to every municipality's grant.

Local Capital Improvement Program (LoCIP)

LoCIP entitlements and grants are administered pursuant to C.G.S. section 7-535 through section 7-538, inclusive. Eligibility parameters and expanded uses and time frames are described in C.G.S. section 7-536.

LoCIP entitlements issued prior to FY 2024 must be approved by the Office of Policy and Management. LoCIP projects; eligibility parameters and expanded uses and time frames are described in C.G.S. section 7-536.

Towns and boroughs must request an authorization for a project. Reimbursement requests for an approved project must be made within seven years of its approval date although there may be a waiver of this provision if appropriate terms and conditions are met. Reimbursement cannot exceed the total of a grantee's unused entitlement.

Grantees receive payments after expenses have been incurred and local funds have been expended for an approved project by submitting a certified reimbursement request and providing required expenditure information. Payments are issued once the reimbursement request has been approved and after funds become available following the allotment of funds from state bond proceeds.

LoCIP grants are processed through a municipal certification program. Funds are disbursed by June 30th, and an annual expense report is due from the towns or boroughs by September 1st.

The Governor's recommended budget adjustments for FY 2027 include a proposed change to subsection (i) of section 7-536 of the general statutes that requires municipalities to fully expend or demonstrate plans to fully expend all previously allocated funds under the LoCIP program before receiving a new allocation.

Municipal Grants-in-Aid

The Office of Policy and Management administers this program for the construction and maintenance of public highways, roads, and bridges pursuant to a payment list enacted in capital budget legislation. Total bond authorizations from FY 2023 through FY 2025 were \$91 million each year. The enacted capital budget for FY 2026 and FY 2027 increased the authorization to \$150 million in each year, and grants are paid pursuant to the payment list in section 55 of PA 25-174. The \$59 million increase is distributed to the following eight towns:

- Bridgeport: \$12,500,000
- Danbury: \$12,000,000
- Hartford: \$8,000,000
- Manchester: \$1,000,000
- New Haven: \$8,000,000
- New London: \$2,000,000
- Norwalk: \$10,000,000
- Waterbury: \$5,500,000

Payments to all other municipalities and districts are funded at the same levels as in FY 2025.

Education Cost Sharing

The State Department of Education administers the Education Equalization Grants pursuant to C.G.S. section 10-262f, section 10-262g, section 10-262h, section 10-262i, and section 10-262j. Each grantee's entitlement is determined by a formula in statute that reflects a town's student demographics, property tax base, median household income, and other factors.

Adult Education

The Adult Education grant is administered by the State Department of Education pursuant to C.G.S. section 10-71 and section 10-71a. Grants to reimburse adult education expenditures are determined on a sliding scale with a percentage ranging from 0% to 65%. Districts identified under C.G.S. section 10-266p(a) as Priority School Districts (i.e., the largest districts, and those districts with the largest numbers or highest percentages of poor and remedial students) cannot receive a reimbursement percentage of less than 20%.

Currently, at least 95% of the annual grant funding is available for distribution; a maximum of 5% is set aside for administrative purposes.

The Governor's recommended budget adjustments for FY 2027 hold Adult Education grants at the same level as in FY 2026.

Grantees receive 66% of this grant in August and the balance in May.

Special Education and Expansion Development

The enacted biennial budget for FY 2026 and FY 2027 includes a \$30 million appropriation in each year to the State Department of Education for Special Education and Expansion Development (SEED) grants. Pursuant to PA 25-67, available funding is distributed to boards of education according to a formula that reflects the number of special education students in each district and certain components of the ECS formula.

ADDITIONAL GRANT PROGRAM SUMMARIES

Local and District Departments of Health

A statutory per capita grant is paid by the Department of Public Health to eligible local health authorities, pursuant to C.G.S. section 19a-202 and section 19a-245. Upon application:

- Each health district that has a population of at least 50,000 or serves at least three municipalities receives \$3.00 per capita for each town, city and borough of such district, provided (1) the commissioner approves the district's public health program and budget, and (2) the towns, cities and boroughs of such district appropriate from annual tax receipts for the maintenance of the health district not less than \$1 per capita; and (3) the health district ensures the provision of a basic health program that includes, but is not limited to, the services required by C.G.S. 19a-207a; and
- Each municipal health department receives \$2.13 per capita, provided the municipality (1) employs a full-time director of health, (2) submits a public health program and budget which is approved by the commissioner, (3) appropriates not less than \$1 per capita from annual tax receipts for health department services, and (4) has a population of at least 50,000., and (5) the municipal health department ensures the provision of a basic health program that includes, but is not limited to, the services required by C.G.S. 19a-207a. By law, every city or town having a population over 40,000 for a period of five consecutive years must hire a full-time local director of health.

Pursuant to C.G.S. section 19a-202(b) and section 19a-245(b), the commissioner of public health shall reduce payments to local health authorities proportionally in any fiscal year in which the amount appropriated for such purpose is less than the aggregate statutory per capita grant amounts.

Priority School District Programs

The State Department of Education administers the three grants that were formerly appropriated within the Priority School District Program: those for Priority School Districts, Extended School Hours and School Year Accountability (or Summer School). Beginning July 1, 2019, these grants each have their own appropriation.

Grantees can make monthly drawdowns through the Education Grants Management System (eGMS), also referred to as eGrants.

1. Priority School Districts

Payments for Priority School Districts are determined pursuant to C.G.S. section 10-266p. Among the factors used to determine grant amounts are population, mastery test scores and the number of students receiving Temporary Family Assistance. Each Priority School District must receive a grant of at least \$150 per student. The town with the 6th highest population in the state also receives an additional \$2,270,000 per year. There is a proportionate reduction of grant totals, as calculated, to the amount of the appropriation.

2. Extended School Hours

The Extended School Hours grant, administered pursuant to section 10-266t, allows for an expansion of the number of schools in Priority School Districts that can be kept open for academic enrichment and recreational programs after school hours, on Saturdays and during school vacations. Grant amounts are determined by multiplying the appropriation by the ratio of each Priority School District's average daily membership to the total average daily membership of all such districts.

3. School Year Accountability (Summer School)

The School Year Accountability (Summer School) grant, administered in accordance with C.G.S. section 10-265m, assists children in Priority School Districts by allowing the provision of additional instruction to those students whose mastery test scores indicate it is needed.

Special Education: Excess Costs - Student Based

The State Department of Education administers the Excess Costs-Student Based grant pursuant to C.G.S. section 10-76d, section 10-76g and section 10-253. Costs in excess of four and one-half times a town's average cost per pupil for the prior year are paid for students placed in a special education program by a school district, pursuant to C.G.S. section 10-76g(b).

For placements initiated by a state agency, a Superior Court or a federally recognized Native American tribe (rather than by a local school district), this program provides 100% reimbursement of costs in excess of the district's prior year Net Current Expenditure Per Pupil (NCEP), pursuant to C.G.S. section 10-76d(e)(3) and section 10-76g(a)(1). For certain no-nexus students and special education students who reside on state property, 100% of the current year cost is covered, pursuant to C.G.S. section 10-76g(a)(1) and section 10-76d(e)(3).

As of FY 2024, if the sum of the statewide district by district entitlements is larger than the appropriation, districts are sorted into three tiers based on community wealth. Each tier receives a grant of a different percentage of their uncapped grant. The neediest tier receives 85% of their uncapped grant, the middle tier receives 88% of their uncapped grant, and the wealthiest tier receives 91% of their uncapped grant. If the grants calculated using the tiered methodology exceeds the appropriation for excess cost, then the grants are pro-rated within available appropriations as prescribed by CGS 10-76g(e)(1).

Grantees receive 75% of their payments in February and the balance in May.

Municipal Revenue Sharing

Pursuant to subsection (f) of section 4-66p, after the payments under subsections (c) through (e) of that section have been made, moneys remaining in the Municipal Revenue Sharing Fund (MRSF) will be distributed to municipalities according to the formula in subsection (d) of section 4-66l.

Each municipality's grant is calculated based on factors including mill rate and population. Grants to municipalities that exceed the spending cap or rate of inflation as defined in section 4-66l are reduced according to the provisions of that section. Pursuant to subsection (b)(3) of section 4-66l, grants are made by October 1st following the fiscal year in which revenue accrued in the account.

District Repair and Improvement Projects

Pursuant to section 131 of P.A. 25-174, the District Repair and Improvement Project (DRIP) grant program provides direct grants to Public School Operators (PSOs) beginning in FY 2026. The DRIP program provides annual financial assistance to PSOs for eligible school-related capital expenditure projects funded with state general obligation bonds. Grants are administered by the Office of Policy and Management through an annual certification process. Grant amounts will be announced on March 1st and disbursed by June 30th each year beginning in 2026, and an annual expense report will be due from PSOs by September 1st.

PAYMENTS TO MUNICIPALITIES, DISTRICTS, BOROUGH, AND OTHER ENTITIES

The following tables reflect estimated town-by-town grant amounts for the program described in the Grant Program Summaries section.

Audit adjustments, timing of payments, application of statutory penalties, the receipt of more current data, or revised calculations can materially impact actual payments.

RECOMMENDED GRANTS TO MUNICIPALITIES FOR FISCAL YEARS 2025, 2026, AND 2027
