Sources: Office of Policy and Management, Department of Education, Department of Economic & Community Development, February 2018

<sup>1</sup>STA = Stable Outlook; NOO = No Outlook; NEG = Negative Outlook; RUR = Rating Under Review

<sup>2</sup>Calculated by New England Public Policy Center in a 2015 report on municipal fiscal disparities. The gap represents the difference between a municipality's economic costs and its revenue-raising capacity. A positive municipal gap can be interpreted as the theoretical amount of intergovernmental aid needed by a municipality to meet its non-educational economic costs.

<sup>3</sup>Regional school districts include data from all municipalities within the district.

<sup>4</sup>Including, but not limited to: Instructional supplies, improvement of instruction, & transportation.

<sup>5</sup>Administration of Town Aid Road, LoCIP, and Grants for Municipal Projects requires action from the Bond Commission.

<sup>1</sup>STA = Stable Outlook; NOO = No Outlook; NEG = Negative Outlook; RUR = Rating Under Review

<sup>2</sup>Calculated by New England Public Policy Center in a 2015 report on municipal fiscal disparities. The gap represents the difference between a municipality's economic costs and its revenue-raising capacity. A positive municipal gap can be interpreted as the theoretical amount of intergovernmental aid needed by a municipality to meet its non-educational economic costs.

<sup>3</sup>Regional school districts include data from all municipalities within the district.

<sup>4</sup>Including, but not limited to: Instructional supplies, improvement of instruction, & transportation.

<sup>5</sup>Administration of Town Aid Road, LoCIP, and Grants for Municipal Projects requires action from the Bond Commission.

<sup>1</sup>STA = Stable Outlook; NOO = No Outlook; NEG = Negative Outlook; RUR = Rating Under Review

<sup>2</sup>Calculated by New England Public Policy Center in a 2015 report on municipal fiscal disparities. The gap represents the difference between a municipality's economic costs and its revenue-raising capacity. A positive municipal gap can be interpreted as the theoretical amount of intergovernmental aid needed by a municipality to meet its non-educational economic costs.

<sup>3</sup>Regional school districts include data from all municipalities within the district.

<sup>4</sup>Including, but not limited to: Instructional supplies, improvement of instruction, & transportation.

<sup>5</sup>Administration of Town Aid Road, LoCIP, and Grants for Municipal Projects requires action from the Bond Commission.

<sup>1</sup>STA = Stable Outlook; NOO = No Outlook; NEG = Negative Outlook; RUR = Rating Under Review

<sup>2</sup>Calculated by New England Public Policy Center in a 2015 report on municipal fiscal disparities. The gap represents the difference between a municipality's economic costs and its revenue-raising capacity. A positive municipal gap can be interpreted as the theoretical amount of intergovernmental aid needed by a municipality to meet its non-educational economic costs.

<sup>3</sup>Regional school districts include data from all municipalities within the district.

<sup>4</sup>Including, but not limited to: Instructional supplies, improvement of instruction, & transportation.

<sup>5</sup>Administration of Town Aid Road, LoCIP, and Grants for Municipal Projects requires action from the Bond Commission.

Sources: Office of Policy and Management, Department of Education, Department of Economic & Community Development, February 2018

<sup>1</sup>STA = Stable Outlook; NOO = No Outlook; NEG = Negative Outlook; RUR = Rating Under Review

<sup>2</sup>Calculated by New England Public Policy Center in a 2015 report on municipal fiscal disparities. The gap represents the difference between a municipality's economic costs and its revenue-raising capacity. A positive municipal gap can be interpreted as the theoretical amount of intergovernmental aid needed by a municipality to meet its non-educational economic costs.

<sup>3</sup>Regional school districts include data from all municipalities within the district.

<sup>4</sup>Including, but not limited to: Instructional supplies, improvement of instruction, & transportation.

<sup>5</sup>Administration of Town Aid Road, LoCIP, and Grants for Municipal Projects requires action from the Bond Commission.

<sup>1</sup>STA = Stable Outlook; NOO = No Outlook; NEG = Negative Outlook; RUR = Rating Under Review

<sup>2</sup>Calculated by New England Public Policy Center in a 2015 report on municipal fiscal disparities. The gap represents the difference between a municipality's economic costs and its revenue-raising capacity. A positive municipal gap can be interpreted as the theoretical amount of intergovernmental aid needed by a municipality to meet its non-educational economic costs.

<sup>3</sup>Regional school districts include data from all municipalities within the district.

<sup>4</sup>Including, but not limited to: Instructional supplies, improvement of instruction, & transportation.

<sup>5</sup>Administration of Town Aid Road, LoCIP, and Grants for Municipal Projects requires action from the Bond Commission.

<sup>1</sup>STA = Stable Outlook; NOO = No Outlook; NEG = Negative Outlook; RUR = Rating Under Review

<sup>2</sup>Calculated by New England Public Policy Center in a 2015 report on municipal fiscal disparities. The gap represents the difference between a municipality's economic costs and its revenue-raising capacity. A positive municipal gap can be interpreted as the theoretical amount of intergovernmental aid needed by a municipality to meet its non-educational economic costs.

<sup>3</sup>Regional school districts include data from all municipalities within the district.

<sup>4</sup>Including, but not limited to: Instructional supplies, improvement of instruction, & transportation.

<sup>5</sup>Administration of Town Aid Road, LoCIP, and Grants for Municipal Projects requires action from the Bond Commission.

<sup>1</sup>STA = Stable Outlook; NOO = No Outlook; NEG = Negative Outlook; RUR = Rating Under Review

<sup>2</sup>Calculated by New England Public Policy Center in a 2015 report on municipal fiscal disparities. The gap represents the difference between a municipality's economic costs and its revenue-raising capacity. A positive municipal gap can be interpreted as the theoretical amount of intergovernmental aid needed by a municipality to meet its non-educational economic costs.

<sup>3</sup>Regional school districts include data from all municipalities within the district.

<sup>4</sup>Including, but not limited to: Instructional supplies, improvement of instruction, & transportation.

<sup>5</sup>Administration of Town Aid Road, LoCIP, and Grants for Municipal Projects requires action from the Bond Commission.

<sup>1</sup>STA = Stable Outlook; NOO = No Outlook; NEG = Negative Outlook; RUR = Rating Under Review

<sup>2</sup>Calculated by New England Public Policy Center in a 2015 report on municipal fiscal disparities. The gap represents the difference between a municipality's economic costs and its revenue-raising capacity. A positive municipal gap can be interpreted as the theoretical amount of intergovernmental aid needed by a municipality to meet its non-educational economic costs.

<sup>3</sup>Regional school districts include data from all municipalities within the district.

<sup>4</sup>Including, but not limited to: Instructional supplies, improvement of instruction, & transportation.

<sup>5</sup>Administration of Town Aid Road, LoCIP, and Grants for Municipal Projects requires action from the Bond Commission.

<sup>1</sup>STA = Stable Outlook; NOO = No Outlook; NEG = Negative Outlook; RUR = Rating Under Review

<sup>2</sup>Calculated by New England Public Policy Center in a 2015 report on municipal fiscal disparities. The gap represents the difference between a municipality's economic costs and its revenue-raising capacity. A positive municipal gap can be interpreted as the theoretical amount of intergovernmental aid needed by a municipality to meet its non-educational economic costs.

<sup>3</sup>Regional school districts include data from all municipalities within the district.

<sup>4</sup>Including, but not limited to: Instructional supplies, improvement of instruction, & transportation.

<sup>5</sup>Administration of Town Aid Road, LoCIP, and Grants for Municipal Projects requires action from the Bond Commission.

<sup>1</sup>STA = Stable Outlook; NOO = No Outlook; NEG = Negative Outlook; RUR = Rating Under Review

<sup>2</sup>Calculated by New England Public Policy Center in a 2015 report on municipal fiscal disparities. The gap represents the difference between a municipality's economic costs and its revenue-raising capacity. A positive municipal gap can be interpreted as the theoretical amount of intergovernmental aid needed by a municipality to meet its non-educational economic costs.

<sup>3</sup>Regional school districts include data from all municipalities within the district.

<sup>4</sup>Including, but not limited to: Instructional supplies, improvement of instruction, & transportation.

<sup>5</sup>Administration of Town Aid Road, LoCIP, and Grants for Municipal Projects requires action from the Bond Commission.

Sources: Office of Policy and Management, Department of Education, Department of Economic & Community Development, February 2018

<sup>1</sup>STA = Stable Outlook; NOO = No Outlook; NEG = Negative Outlook; RUR = Rating Under Review

<sup>2</sup>Calculated by New England Public Policy Center in a 2015 report on municipal fiscal disparities. The gap represents the difference between a municipality's economic costs and its revenue-raising capacity. A positive municipal gap can be interpreted as the theoretical amount of intergovernmental aid needed by a municipality to meet its non-educational economic costs.

<sup>3</sup>Regional school districts include data from all municipalities within the district.

<sup>4</sup>Including, but not limited to: Instructional supplies, improvement of instruction, & transportation.

<sup>5</sup>Administration of Town Aid Road, LoCIP, and Grants for Municipal Projects requires action from the Bond Commission.

<sup>1</sup>STA = Stable Outlook; NOO = No Outlook; NEG = Negative Outlook; RUR = Rating Under Review

<sup>2</sup>Calculated by New England Public Policy Center in a 2015 report on municipal fiscal disparities. The gap represents the difference between a municipality's economic costs and its revenue-raising capacity. A positive municipal gap can be interpreted as the theoretical amount of intergovernmental aid needed by a municipality to meet its non-educational economic costs.

<sup>3</sup>Regional school districts include data from all municipalities within the district.

<sup>4</sup>Including, but not limited to: Instructional supplies, improvement of instruction, & transportation.

<sup>5</sup>Administration of Town Aid Road, LoCIP, and Grants for Municipal Projects requires action from the Bond Commission.

<sup>1</sup>STA = Stable Outlook; NOO = No Outlook; NEG = Negative Outlook; RUR = Rating Under Review

<sup>2</sup>Calculated by New England Public Policy Center in a 2015 report on municipal fiscal disparities. The gap represents the difference between a municipality's economic costs and its revenue-raising capacity. A positive municipal gap can be interpreted as the theoretical amount of intergovernmental aid needed by a municipality to meet its non-educational economic costs.

<sup>3</sup>Regional school districts include data from all municipalities within the district.

<sup>4</sup>Including, but not limited to: Instructional supplies, improvement of instruction, & transportation.

<sup>5</sup>Administration of Town Aid Road, LoCIP, and Grants for Municipal Projects requires action from the Bond Commission.

<sup>1</sup>STA = Stable Outlook; NOO = No Outlook; NEG = Negative Outlook; RUR = Rating Under Review

<sup>2</sup>Calculated by New England Public Policy Center in a 2015 report on municipal fiscal disparities. The gap represents the difference between a municipality's economic costs and its revenue-raising capacity. A positive municipal gap can be interpreted as the theoretical amount of intergovernmental aid needed by a municipality to meet its non-educational economic costs.

<sup>3</sup>Regional school districts include data from all municipalities within the district.

<sup>4</sup>Including, but not limited to: Instructional supplies, improvement of instruction, & transportation.

<sup>5</sup>Administration of Town Aid Road, LoCIP, and Grants for Municipal Projects requires action from the Bond Commission.

<sup>1</sup>STA = Stable Outlook; NOO = No Outlook; NEG = Negative Outlook; RUR = Rating Under Review

<sup>2</sup>Calculated by New England Public Policy Center in a 2015 report on municipal fiscal disparities. The gap represents the difference between a municipality's economic costs and its revenue-raising capacity. A positive municipal gap can be interpreted as the theoretical amount of intergovernmental aid needed by a municipality to meet its non-educational economic costs.

<sup>3</sup>Regional school districts include data from all municipalities within the district.

<sup>4</sup>Including, but not limited to: Instructional supplies, improvement of instruction, & transportation.

<sup>5</sup>Administration of Town Aid Road, LoCIP, and Grants for Municipal Projects requires action from the Bond Commission.

<sup>1</sup>STA = Stable Outlook; NOO = No Outlook; NEG = Negative Outlook; RUR = Rating Under Review

<sup>2</sup>Calculated by New England Public Policy Center in a 2015 report on municipal fiscal disparities. The gap represents the difference between a municipality's economic costs and its revenue-raising capacity. A positive municipal gap can be interpreted as the theoretical amount of intergovernmental aid needed by a municipality to meet its non-educational economic costs.

<sup>3</sup>Regional school districts include data from all municipalities within the district.

<sup>4</sup>Including, but not limited to: Instructional supplies, improvement of instruction, & transportation.

<sup>5</sup>Administration of Town Aid Road, LoCIP, and Grants for Municipal Projects requires action from the Bond Commission.

Sources: Office of Policy and Management, Department of Education, Department of Economic & Community Development, February 2018

<sup>1</sup>STA = Stable Outlook; NOO = No Outlook; NEG = Negative Outlook; RUR = Rating Under Review

<sup>2</sup>Calculated by New England Public Policy Center in a 2015 report on municipal fiscal disparities. The gap represents the difference between a municipality's economic costs and its revenue-raising capacity. A positive municipal gap can be interpreted as the theoretical amount of intergovernmental aid needed by a municipality to meet its non-educational economic costs.

<sup>3</sup>Regional school districts include data from all municipalities within the district.

<sup>4</sup>Including, but not limited to: Instructional supplies, improvement of instruction, & transportation.

<sup>5</sup>Administration of Town Aid Road, LoCIP, and Grants for Municipal Projects requires action from the Bond Commission.

<sup>1</sup>STA = Stable Outlook; NOO = No Outlook; NEG = Negative Outlook; RUR = Rating Under Review

<sup>2</sup>Calculated by New England Public Policy Center in a 2015 report on municipal fiscal disparities. The gap represents the difference between a municipality's economic costs and its revenue-raising capacity. A positive municipal gap can be interpreted as the theoretical amount of intergovernmental aid needed by a municipality to meet its non-educational economic costs.

<sup>3</sup>Regional school districts include data from all municipalities within the district.

<sup>4</sup>Including, but not limited to: Instructional supplies, improvement of instruction, & transportation.

<sup>5</sup>Administration of Town Aid Road, LoCIP, and Grants for Municipal Projects requires action from the Bond Commission.

<sup>1</sup>STA = Stable Outlook; NOO = No Outlook; NEG = Negative Outlook; RUR = Rating Under Review

<sup>2</sup>Calculated by New England Public Policy Center in a 2015 report on municipal fiscal disparities. The gap represents the difference between a municipality's economic costs and its revenue-raising capacity. A positive municipal gap can be interpreted as the theoretical amount of intergovernmental aid needed by a municipality to meet its non-educational economic costs.

<sup>3</sup>Regional school districts include data from all municipalities within the district.

<sup>4</sup>Including, but not limited to: Instructional supplies, improvement of instruction, & transportation.

<sup>5</sup>Administration of Town Aid Road, LoCIP, and Grants for Municipal Projects requires action from the Bond Commission.

<sup>2</sup>Calculated by New England Public Policy Center in a 2015 report on municipal fiscal disparities. The gap represents the difference between a municipality's economic costs and its revenue-raising capacity. A positive municipal gap can be interpreted as the theoretical amount of intergovernmental aid needed by a municipality to meet its non-educational economic costs.

<sup>3</sup>Regional school districts include data from all municipalities within the district.

<sup>4</sup>Including, but not limited to: Instructional supplies, improvement of instruction, & transportation.

<sup>5</sup>Administration of Town Aid Road, LoCIP, and Grants for Municipal Projects requires action from the Bond Commission.

Sources: Office of Policy and Management, Department of Education, Department of Economic & Community Development, February 2018

<sup>1</sup>STA = Stable Outlook; NOO = No Outlook; NEG = Negative Outlook; RUR = Rating Under Review

<sup>2</sup>Calculated by New England Public Policy Center in a 2015 report on municipal fiscal disparities. The gap represents the difference between a municipality's economic costs and its revenue-raising capacity. A positive municipal gap can be interpreted as the theoretical amount of intergovernmental aid needed by a municipality to meet its non-educational economic costs.

<sup>3</sup>Regional school districts include data from all municipalities within the district.

<sup>4</sup>Including, but not limited to: Instructional supplies, improvement of instruction, & transportation.

<sup>5</sup>Administration of Town Aid Road, LoCIP, and Grants for Municipal Projects requires action from the Bond Commission.

<sup>1</sup>STA = Stable Outlook; NOO = No Outlook; NEG = Negative Outlook; RUR = Rating Under Review

<sup>2</sup>Calculated by New England Public Policy Center in a 2015 report on municipal fiscal disparities. The gap represents the difference between a municipality's economic costs and its revenue-raising capacity. A positive municipal gap can be interpreted as the theoretical amount of intergovernmental aid needed by a municipality to meet its non-educational economic costs.

<sup>3</sup>Regional school districts include data from all municipalities within the district.

<sup>4</sup>Including, but not limited to: Instructional supplies, improvement of instruction, & transportation.

<sup>5</sup>Administration of Town Aid Road, LoCIP, and Grants for Municipal Projects requires action from the Bond Commission.

<sup>1</sup>STA = Stable Outlook; NOO = No Outlook; NEG = Negative Outlook; RUR = Rating Under Review

<sup>2</sup>Calculated by New England Public Policy Center in a 2015 report on municipal fiscal disparities. The gap represents the difference between a municipality's economic costs and its revenue-raising capacity. A positive municipal gap can be interpreted as the theoretical amount of intergovernmental aid needed by a municipality to meet its non-educational economic costs.

<sup>3</sup>Regional school districts include data from all municipalities within the district.

<sup>4</sup>Including, but not limited to: Instructional supplies, improvement of instruction, & transportation.

<sup>5</sup>Administration of Town Aid Road, LoCIP, and Grants for Municipal Projects requires action from the Bond Commission.

<sup>1</sup>STA = Stable Outlook; NOO = No Outlook; NEG = Negative Outlook; RUR = Rating Under Review

<sup>2</sup>Calculated by New England Public Policy Center in a 2015 report on municipal fiscal disparities. The gap represents the difference between a municipality's economic costs and its revenue-raising capacity. A positive municipal gap can be interpreted as the theoretical amount of intergovernmental aid needed by a municipality to meet its non-educational economic costs.

<sup>3</sup>Regional school districts include data from all municipalities within the district.

<sup>4</sup>Including, but not limited to: Instructional supplies, improvement of instruction, & transportation.

<sup>5</sup>Administration of Town Aid Road, LoCIP, and Grants for Municipal Projects requires action from the Bond Commission.

<sup>1</sup>STA = Stable Outlook; NOO = No Outlook; NEG = Negative Outlook; RUR = Rating Under Review

<sup>2</sup>Calculated by New England Public Policy Center in a 2015 report on municipal fiscal disparities. The gap represents the difference between a municipality's economic costs and its revenue-raising capacity. A positive municipal gap can be interpreted as the theoretical amount of intergovernmental aid needed by a municipality to meet its non-educational economic costs.

<sup>3</sup>Regional school districts include data from all municipalities within the district.

<sup>4</sup>Including, but not limited to: Instructional supplies, improvement of instruction, & transportation.

<sup>5</sup>Administration of Town Aid Road, LoCIP, and Grants for Municipal Projects requires action from the Bond Commission.

<sup>1</sup>STA = Stable Outlook; NOO = No Outlook; NEG = Negative Outlook; RUR = Rating Under Review

<sup>2</sup>Calculated by New England Public Policy Center in a 2015 report on municipal fiscal disparities. The gap represents the difference between a municipality's economic costs and its revenue-raising capacity. A positive municipal gap can be interpreted as the theoretical amount of intergovernmental aid needed by a municipality to meet its non-educational economic costs.

<sup>3</sup>Regional school districts include data from all municipalities within the district.

<sup>4</sup>Including, but not limited to: Instructional supplies, improvement of instruction, & transportation.

<sup>5</sup>Administration of Town Aid Road, LoCIP, and Grants for Municipal Projects requires action from the Bond Commission.

<sup>1</sup>STA = Stable Outlook; NOO = No Outlook; NEG = Negative Outlook; RUR = Rating Under Review

<sup>2</sup>Calculated by New England Public Policy Center in a 2015 report on municipal fiscal disparities. The gap represents the difference between a municipality's economic costs and its revenue-raising capacity. A positive municipal gap can be interpreted as the theoretical amount of intergovernmental aid needed by a municipality to meet its non-educational economic costs.

<sup>3</sup>Regional school districts include data from all municipalities within the district.

<sup>4</sup>Including, but not limited to: Instructional supplies, improvement of instruction, & transportation.

<sup>5</sup>Administration of Town Aid Road, LoCIP, and Grants for Municipal Projects requires action from the Bond Commission.

<sup>1</sup>STA = Stable Outlook; NOO = No Outlook; NEG = Negative Outlook; RUR = Rating Under Review

<sup>2</sup>Calculated by New England Public Policy Center in a 2015 report on municipal fiscal disparities. The gap represents the difference between a municipality's economic costs and its revenue-raising capacity. A positive municipal gap can be interpreted as the theoretical amount of intergovernmental aid needed by a municipality to meet its non-educational economic costs.

<sup>3</sup>Regional school districts include data from all municipalities within the district.

<sup>4</sup>Including, but not limited to: Instructional supplies, improvement of instruction, & transportation.

<sup>5</sup>Administration of Town Aid Road, LoCIP, and Grants for Municipal Projects requires action from the Bond Commission.

<sup>1</sup>STA = Stable Outlook; NOO = No Outlook; NEG = Negative Outlook; RUR = Rating Under Review

<sup>2</sup>Calculated by New England Public Policy Center in a 2015 report on municipal fiscal disparities. The gap represents the difference between a municipality's economic costs and its revenue-raising capacity. A positive municipal gap can be interpreted as the theoretical amount of intergovernmental aid needed by a municipality to meet its non-educational economic costs.

<sup>3</sup>Regional school districts include data from all municipalities within the district.

<sup>4</sup>Including, but not limited to: Instructional supplies, improvement of instruction, & transportation.

<sup>1</sup>STA = Stable Outlook; NOO = No Outlook; NEG = Negative Outlook; RUR = Rating Under Review

<sup>2</sup>Calculated by New England Public Policy Center in a 2015 report on municipal fiscal disparities. The gap represents the difference between a municipality's economic costs and its revenue-raising capacity. A positive municipal gap can be interpreted as the theoretical amount of intergovernmental aid needed by a municipality to meet its non-educational economic costs.

<sup>3</sup>Regional school districts include data from all municipalities within the district.

<sup>4</sup>Including, but not limited to: Instructional supplies, improvement of instruction, & transportation.

<sup>5</sup>Administration of Town Aid Road, LoCIP, and Grants for Municipal Projects requires action from the Bond Commission.

<sup>1</sup>STA = Stable Outlook; NOO = No Outlook; NEG = Negative Outlook; RUR = Rating Under Review

<sup>2</sup>Calculated by New England Public Policy Center in a 2015 report on municipal fiscal disparities. The gap represents the difference between a municipality's economic costs and its revenue-raising capacity. A positive municipal gap can be interpreted as the theoretical amount of intergovernmental aid needed by a municipality to meet its non-educational economic costs.

<sup>3</sup>Regional school districts include data from all municipalities within the district.

<sup>4</sup>Including, but not limited to: Instructional supplies, improvement of instruction, & transportation.

<sup>5</sup>Administration of Town Aid Road, LoCIP, and Grants for Municipal Projects requires action from the Bond Commission.

<sup>1</sup>STA = Stable Outlook; NOO = No Outlook; NEG = Negative Outlook; RUR = Rating Under Review

<sup>2</sup>Calculated by New England Public Policy Center in a 2015 report on municipal fiscal disparities. The gap represents the difference between a municipality's economic costs and its revenue-raising capacity. A positive municipal gap can be interpreted as the theoretical amount of intergovernmental aid needed by a municipality to meet its non-educational economic costs.

<sup>3</sup>Regional school districts include data from all municipalities within the district.

<sup>4</sup>Including, but not limited to: Instructional supplies, improvement of instruction, & transportation.

<sup>5</sup>Administration of Town Aid Road, LoCIP, and Grants for Municipal Projects requires action from the Bond Commission.

<sup>1</sup>STA = Stable Outlook; NOO = No Outlook; NEG = Negative Outlook; RUR = Rating Under Review

<sup>2</sup>Calculated by New England Public Policy Center in a 2015 report on municipal fiscal disparities. The gap represents the difference between a municipality's economic costs and its revenue-raising capacity. A positive municipal gap can be interpreted as the theoretical amount of intergovernmental aid needed by a municipality to meet its non-educational economic costs.

<sup>3</sup>Regional school districts include data from all municipalities within the district.

<sup>4</sup>Including, but not limited to: Instructional supplies, improvement of instruction, & transportation.

<sup>5</sup>Administration of Town Aid Road, LoCIP, and Grants for Municipal Projects requires action from the Bond Commission.

<sup>1</sup>STA = Stable Outlook; NOO = No Outlook; NEG = Negative Outlook; RUR = Rating Under Review

<sup>2</sup>Calculated by New England Public Policy Center in a 2015 report on municipal fiscal disparities. The gap represents the difference between a municipality's economic costs and its revenue-raising capacity. A positive municipal gap can be interpreted as the theoretical amount of intergovernmental aid needed by a municipality to meet its non-educational economic costs.

<sup>3</sup>Regional school districts include data from all municipalities within the district.

<sup>4</sup>Including, but not limited to: Instructional supplies, improvement of instruction, & transportation.

<sup>5</sup>Administration of Town Aid Road, LoCIP, and Grants for Municipal Projects requires action from the Bond Commission.
